

### Zoning

(Continued from Page 1)

viewed by the courts. However, any re-zoning which appears before the zoning board can still be overruled by the elected village board, which has the sole authority to pass ordinances necessary in any re-zoning cases. This latter point was defined by village planner Carl Gardner.

Tonight's hearing of the proposed law is a culmination of work which was first begun in December of 1958. Village Planner Carl Gardner was hired for the purpose of preparing recommendations which have resulted in the new law.

At a recent meeting of the zoning board Commissioner Ken Scheel insisted the zoning board inquire why there had been a delay in presenting the new code. Scheel said the maps and accompanying recommendations had been ready "six months ago" and prompted a letter to the village board. This action forced the presentation of the recommendation for tonight's public hearing.

When the bill is approved by the Plan Commission and sent to the village board there will not be any further public hearings on the new ordinance. All public hearings will be limited to those held by the Plan Commission. However, all village meetings, by state statute, are open to the public though discussion and debate on pending bills, can best be aired at Plan Commission meetings.

To avoid confusion, the Plan Commission and the Zoning Board have the same members. However, the Plan Commission had to be created by law, for the purpose of this new zoning plan which will become Niles' new zoning ordinance.

(Continued from Page 1)

ing to share this wealth with their poorer relative to the north?

It could be pointed out that the revenue from the upcoming shopping areas at Golf, Dempster east of the hospital, Oakton and Milwaukee, all outside district 71, would bring in many school tax dollars. If it could be shown that any further Niles industrial development would likely take place in the north, then perhaps district 71 might be amenable to such a consolidation.

This is another village-wide proposition which might be a study by the Niles Citizens Committee. It would certainly be a frontal attack on a problem which seems to have no other answers.

I know of many friends in Niles, in both school districts, who are planning on leaving the community because of this school problem. It is very sad that these very education-minded people, who have so much to contribute to their community, will be lost because of this problem. Many were quite willing to pioneer in Niles before the community grew to such proportions. But they are mindful that their children receive the education process only once, and they do not care to gamble their futures against children whose opportunities have been superior to their own.

School district consolidation may be the only answer to this grave problem.

Proud parents Mr. and Mrs. S. Barber, 8617 N. Milwaukee Ave., Niles, Ill., announce the birth of their daughter Mary Frances, who was born at Resurrection Hospital on April 11, 1960, and weighed in at 7 lbs., 4 1/2 oz.

## The Niles Bugle Is Now A Weekly Newspaper

### From The Left Hand

by David Besser Editor & Publisher

In the discussion at Thursday's plan commission hearing on Niles' new zoning ordinance the major objection to the proposed zoning was the areas which will house multiple dwellings.

Citizen's Committee president Nick Blase voiced objections to further multiple dwellings citing the tremendous burden that will be placed on schools at the north end of Niles.

Village planner Carl Gardner has suggested that many areas of zoning planning be balanced among certain percentages of industry, commercial single family dwelling and multiple dwellings. It was his suggestion that the percentages of the different types of zoning would give Niles a "balanced" area.

Obviously, it is necessary to have industry and commercial areas to balance residential areas to enable a town to retain a healthy economy. But there seems to be an exception to this rule in Niles which bears consideration.

I assume Gardner's percentages are recommended for most towns and villages of Niles' size. Among his many recommendations was that about 40% of the village could have multiple dwellings which he believes would contribute to this "balance" in zoning. While this rule may hold true in many similar towns I wonder if such a balance is logical here.

In school district 63 there is a dearth of industry and commercial areas which has resulted in pushing the school district to the maximum of its bonding power. Since the school district is the second largest in the state of Illinois, with probably the least industrial help of any district in Illinois it would seem that this abnormal area is out of balance. Thus, I wonder if Gardner's "balanced planning" in this area considered how "out of balance" the school district has become.

If the yardstick he uses for communities throughout the country is applied in this specific area it may be an unfair measurement.

### Jefferson, Field 6th Graders Will Begin Jr. High In Fall

The Board of Education approved the transfer of all sixth grade classes from the Field and Jefferson Schools to the Emerson Jr. High School beginning in September, 1960. The pupils will be transported on the regular junior high school bus. Additional classrooms are needed at the Field and Jefferson Schools, and these will be built when Emerson Jr. High population fills the classrooms there.

Dr. Plimpton reported that progress is being made in filling teacher vacancies for the coming school year. There are some sixty vacancies to be filled. Twenty-two of these positions are new. The vacancies most difficult to find candidates for include librarians and teachers for the mentally handicapped.

The Board of Education meets at the offices of the Board, 400 South Western Avenue, on the third Wednesday of each month at 8:00 p.m. The public is invited.

### NILES BECOMES "THE CICERO" OF AREA NORTH OF CHICAGO

## 7 Federal Gambling Stamps Issued To Niles Businesses

Notre Dame Thespians Sup At Riggios

Only North. N.W. Suburb To Get Stamps

(This story was written before Wednesday night's village trustee meeting.)

Niles officially became the Cicero of the north and northwest Chicago area last week when seven local businesses purchased federal \$250 slot machine tax stamps from the Internal Revenue Service. Cicero, long infamous for its gambling activities, also received seven tax stamps. No stamps were issued in Chicago nor any north or northwest suburb other than Niles.

Despite a village ordinance in Niles which forbids gambling, the purchase of the gambling stamps in the village makes a sham of Niles' village code. It also places Mayor Stankowicz and Police Chief Romey, as well as all village trustees, in the uncomfortable position of being subject to jail sentence under state statute, for malfeasance in office. Similar activities in Lake County resulted in grand jury indictments for three village officials.

Federal authorities attributed the sudden spurt in sales of the tax stamps to recent raids in places which lacked gambling stamps for their slot machines, mostly pinball devices.

In Niles, THE BUGLE interviewed Mayor Stankowicz and Police Chief Romey two years ago regarding gambling in the village. Both men said there was no gambling in Niles to the best of their knowledge. Since then two teen age boys from Norwood Park in Chicago lost \$40 at a local establishment. Police Chief Romey ordered the proprietor to refund the money to the teens but did nothing about charging the establishment with operating gambling machine.

Last December two state policemen stated they received a payoff at The Lone Tree Inn. However, in consequent action one of the policemen gave a different version of the original charge, saying there was no payoff. However, the Police Magistrate, Tony Smigel, fined the restaurant and the machine was ordered confiscated.

The following are the names of the proprietors and local establishments which purchased the tax stamps:

Joseph Kubiesa, Kubles, 6913 Milwaukee; Henry and Helen Kruesger, Hank's tavern, 8000

The Notre Dame "Jugglers", held their annual awards banquet at Riggio's Restaurant last week. Frank Lessen, 7635 Nora, president of the high school thespians

group, accepts service award from Father Marcus. The group received the annual award after producing the highly successful "Pajama Game".

### Discuss Eliminating Multiples Zoning Under New Code

The possibility of eliminating future multiple dwelling zoning under Niles' new zoning ordinance was deemed, "it could be done", in an opinion of acting village attorney Chris Jones, at Thursday night's Plan Commission hearing. The hearing followed the zoning board meeting. It was instituted for the purpose of recommending the new zoning ordinance to the village board.

Niles Citizens Committee president, Nick Blase, raised objections to the proposed R-4, multiple dwelling zoning, which represented approximately 10% of the total zoning proposed on the new zoning map.

Blase reminded the Plan Commission (also the zoning board) that his group has now received 2300 signatures opposing multiple dwellings in Niles. He said this was not entirely an "esthetic" reason for opposition, but rather a necessity brought about

by the burden placed upon the schools by having "multiples" in Niles. Blase said the elimination of further multiple zoning "would place a barrier in front of builders who may plan on building multiple dwelling projects". He added, "if nothing else this barrier would make the builder 'think twice' before considering fighting the village for his desired multiple building.

Citizens' president Blase went on to say that his group, representing most homeowner and civic groups in Niles, believes there is enough multiple dwellings in the village at this time. He said the area proposed for this type of building should be changed to single family dwelling or to industrial and light manufacturing zoning areas.

Blase, an attorney, said there is no legal reason why this could

# "It's Good Business To Do Your Business In Niles"

## It Makes Good Sense And Cents To Support Your Local Businessmen

**DOING BUSINESS IN NILES HELPS FINANCE STREET IMPROVEMENTS**

Motor fuel tax money returns helps build new streets as well as improve old ones.

By supporting your Niles Gas Stations, state tax money spent there is returned in part TO NILES to be used for streets, sidewalks and curb improvements.

AS AN EXAMPLE... Oakton Manor and Grennan Heights residents both received about 33% reduction in their street assessments due to the applying of motor fuel tax money returns to the construction of streets IN NILES... one more example why "it's good business to do your business in Niles... It Makes Good Sense and Cents."

### WHEN YOU DO BUSINESS IN NILES

Sales Tax Money comes back to serve you... 1/2 cent of every dollar spent IN NILES is returned TO NILES AS AN EXAMPLE, it is planned that sales tax returns will help purchase the land and building for the proposed New Village Hall... one more example why "It's Good Business to do your Business In Niles... It Makes Good Sense... and Cents."

It has been several weeks since we have heard any hail and farewells from this quarter so I do believe we shall take care of that right now.

First, we extend warm welcomes to two new families on Elmore Street.

Eleanore and Edward Wehmeyer have resided at 8242 Elmore for some weeks now and I do feel very remiss in not having greeted them before this. Ed is an instructor of supervisors for the C.T.A., and Eleanore is a lady of leisure who loves to garden. They moved here from a home in Chicago so she has had plenty of experience. Nancy, their 18 year old daughter will graduate from Taft High School this June. The Wehmeyers have three married daughters, Gertrude Stasch of Des Plaines, Dorothy Rogala of Chicago and Mildred Follin of Melrose Park.

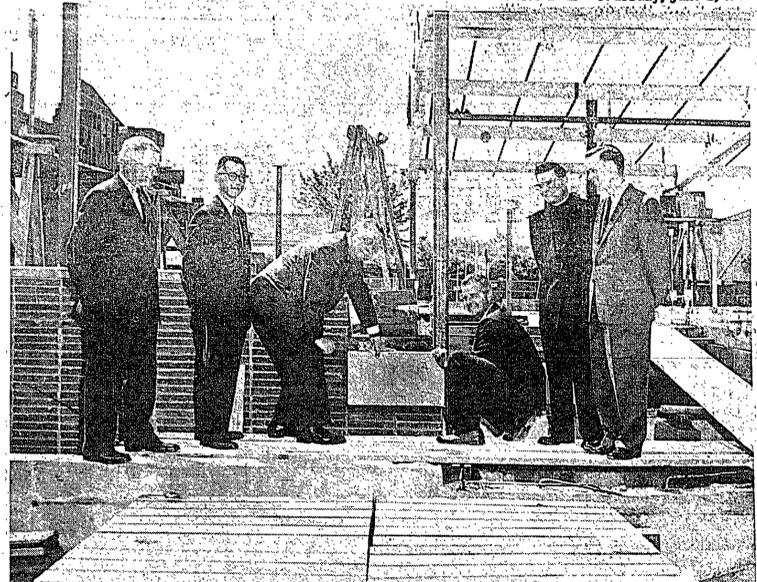

New homeowners at 8297 Elmore are Marilyn and Stanley Bush. Marilyn is an employee of Teletype Corporation and is looking forward to joining the company's bowling league this fall. Stan is with Illinois Bell Telephone Company and is an avid fisherman. Marilyn says he'd rather fish than stay home and decorate the house. Can you imagine that? Their joint interest is ichthyology, which is evident in the huge tank of tropical fish in their living room.

Now to the so longs. Marge and Paul Petsch have moved from one neighborhood but have selected another one in Niles at 8429 Roseview Drive. Daughter Nancy is busy making new friends but son Johnny keeps Mom on the jump getting into trouble. He began his round of mishaps by falling from the fifth step in the basement which earned him a slight concussion then as soon as he was able to go out he cut his hand on a rusty nail. Marge hopes there is nothing to this business of everything happens in threes.

There have been a rash of senior citizens utilizing Lutheran General Hospital. Jane Sellenist is home after treatment to dissolve a blood clot. Grace Holmes is also home continuing the treatment begun in the hospital and is making steady recuperation. Grace lives with her daughter, Lucille Raffan and Lucille reports that all is not bad news at their house. They are looking forward to the birth of their fifth grandchild near the end of this year. The expectant mother is daughter Joanne Stewart.

Gloria and Jack Stone are the proud parents of a son, Darren, who was born on May 22nd. Also enjoying the new arrival are sister, Candy, brother, Mark, and grandmother, Ella Lavin who formerly served you at Meier's Bakery and now is with Topp's at Super City.

Another new arrival is Kimberly Ann Theobald who weighed in at 6 pounds 10 ounces on *continued on Page 8*

May 22. L. to R. William Kroepin, Ralph Fijimoto, Arnold Johnson, Chester Polad Reverend Gish and Virgil Harrison.

### District 63 New School Referendum June 25

The population explosion in East Maine School District No. 63 is being met head-on by the Board of Education.

At the last regular meeting of the Board plans were made which will lead to the construction of a new 17 room elementary school to be ready for occupancy by February 1, 1961. The preliminary plans made by the Board included the negotiation of a contract with McCaughey, Erickson, Kristmann and Stillwaght, Inc., architects, the passing of a resolution calling for a referendum seeking permission to issue \$350,000,000 in bonds to finance the project, and the outlining of a time table which would facilitate the completion of the project within the time limits specified.

The election date for the bond referendum has been set for June 25, this being the earliest possible legal date at which the proposition could be presented to the voters of the district.

The Board proposes to build the new school on a five acre site purchased recently. The school will be located two blocks north of Dempster Street and four blocks east of Washington Road, in the presently crowded Emma S. Melzer School attendance area. The decision to proceed with this project was based on school population data which indicated that children in the district would be required to attend rented facilities next September, and the obvious residential building growth in the area surrounding the proposed school building.

It is anticipated that the increased assessed valuation of the school district will provide the necessary bonding power. It is further anticipated that these bonds could be issued without materially affecting the present tax rate for bond retirement.

In other business, the Board approved contracts for ten new teachers who will be added to the staff for next year, accepted the resignation of J. R. Medlock, Principal of Oak School, and appointed Mrs. Horace Stoneham as cafeteria director of the new junior high school, with Mrs. David Herzog and Mrs. Arthur Pianna serving as her assistants.

**Niles March Of Dimes March Nets \$1,081**

Contributions to the 1960 March of Dimes from all suburban Cook County communities totaled \$213,500. John William Carroll, Park Ridge, chairman of the County Communities Division of the January 1960 fund drive, announced at the annual meeting of the Cook County Chapter of the National Foundation on May 19.

In Niles, \$1,081.00 was raised under the leadership of Robert A. Pankau, 7503 Milwaukee ave.

# CHATTER MATTER

by DOROTHY SCHREINER  
NI 7-9887

I was very disappointed in the small attendance at the May 17 meeting of the Grennan Heights Impr. Assn. It seems like with all the people living in this area, we should have more members than the 40 that attended that night. Mr. EDDIE BACHER—the Supt. of the Niles Public Works and all the men that work under him, were the guests for the evening. Mr. BACHER gave a talk on what the Dept. has been doing in the Village and his talk should have been heard by every citizen of Niles. Although everyone has praise for our wonderful Police & Fire Dept., the men of the Public Works are always forgotten. Yet they are a very important Dept. in our village.

Mr. BACHER explained that to work on the garbage truck, a man must have a good stomach, a strong nose and a strong back. Please cooperate by using proper garbage cans, with covers on them. A 20 or 25 gal. size is the right type. Please wrap up your garbage in paper and tie with string. You don't have to gift wrap it. Also tie all newspapers and bundle up branches and tie them together. There is to be no open burning. They do not pick up for more than 3 apt. in a dwelling. This must be picked up by private scavengers.

Wednesday is rubbish pickup day. If you have bulky things, like huge cartons or crates or old furniture, call NI 7-9790 and give your address and the stuff will be picked up. If you put out something that the men can sell for junk, then the money is put in what they call their "slush fund" and it is used for the purchase of new uniforms for the men.

We have quite a problem with cotton scale on our trees. The Village board purchased 2 sprayers and the Public Works men will spray our trees twice in the spring and once in the fall. This is an extra service.

Mr. BACHER said that the men work 24 hours a day, if needed.

He also told us that the Village Board will create a snow ordinance. The people will have to move their cars in the winter, so that streets can be plowed. It slows the plows down, when they must work around each car, instead of going straight through. They must have the help of the public to give citizens better service.

Mr. JOHN POESCHL then spoke and he told the members that the Public Works have the biggest responsibility in the Village of Niles. They need recognition from the residents for the good work they are doing. They plow the streets after a snow fall, pick up garbage, clean sewers, repair water pipes, put up the different signs that are on the street corners to help the motorists and do all kinds of odd jobs and yet with all this work, they are the cheerfulness men on the job. They joke, smile and sometimes drown out the clatter of garbage cans by their loud singing. Not good but loud.

Yes, I agree with Mr. POESCHL, the Public Works men are doing a good job and they deserve the praise and thanks of every citizen in Niles. Thanks boys for a job well done.

## Gives \$5000 To Scouts

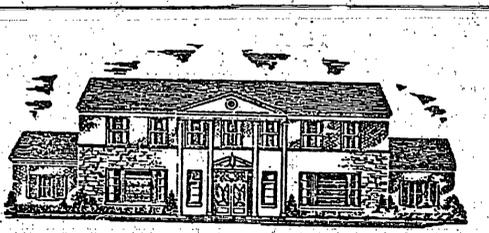

Mr. Louis Ware, Chairman of the Board, International Minerals and Chemical Corp., is handing a check to Explorer Scout, Roger Lethander, of Park Ridge, as first payment on a Corporate pledge of \$5,000 for the Camp Expansion Fund Program. Walter T. Craigie, 8316 N. Merrill, Niles, Ill., Scout Council President was also present at the luncheon "kick-off" meeting, which was held at the Executive Offices of the International Minerals and Chemical Corp.

## The Baha'i Faith Meet Tuesday At Bunker Hill

"The Baha'i Faith" will be the subject of a public meeting at the Bunker Hill VFW Hall at 6635 Milwaukee Ave., Niles, on Tuesday, June 7, at 8:00 p. m. Speaker will be Charles Wolcott secretary of the National Baha'i Assembly at the U.S. administrative headquarters in Wilmette.

This meeting marks the first time that the Baha'i Faith has been publicly presented in the Niles area, and was planned as the result of requests for information about the Faith associated with the world-famous Baha'i House of Worship in Wilmette. Subsequent meetings will be held at the Bunker Hill VFW Hall on June 14, 21, and 28.

Mr. Wolcott came to Wilmette in January to fill the office of national Baha'i secretary, after leaving an outstanding career as musician, composer, conductor, and arranger on the West Coast. Most recently he was general music director of Metro-Goldwyn-Mayer Studios in Hollywood. In his film work he has written music and conducted the scoring for such films as "Gaby," "Blackboard Jungle," "Dream Wife," "The Wild North," "It's a Big Country," "Saludos Amigos," "The Three Caballeros," "Fancy Free," "Pinocchio," "Bambi," and others.

## St. Luke's United Church Ground Breaking Sunday

Ground breaking ceremonies for St. Luke's United Church of Christ are planned for Pentecost Sunday, June 5. Services will be held as usual at Melzer School, 9400 Oriole, at 9:30 and 11:00 a.m., when the Rev. Paul R. Stock will preach on the subject, "Marks of the Holy Spirit," and serve holy communion. At 12 o'clock noon, the congregation will go to the church site at Sherman Road and Harlem Ave., for brief ground breaking ceremonies.

At a special meeting of St. Luke's congregation last Sunday, it was agreed to grant the building contract to Kuhlmann Construction Co., of Chicago. The building will be completed in about 9 months. The congregation also authorized loans from the First National Bank of Morton Grove and the Board of National Missions of the Evangelical and Reformed Church under whose supervision St. Luke's has operated.

Charles Edward Stade and Associates, architects at Park Ridge, have planned a one-story, T shaped building of contemporary design, with a nave seating 165, narthex, office, rest rooms, furnace room and an educational-fellowship hall which may also be used as an overflow room. A donor for the organ is being sought.

St. Luke's Building Committee includes Thomas Linquist, chair-

man, Herbert Wilson, president of the congregation, Charles Stevenson, Thomas Duvall, Ramon Hanson, James Kordig, Clarence Rollins, George Glaser and Pastor Stock. The Rev. Hugo Leinberger, Director of Church Extension and Urban Strategy of the North Illinois Synod, gave professional guidance.

The first unit and the 3-1/2 acre site on which the church is to be built will have a valuation of more than \$125,000. Long-range planning also includes a sanctuary to be built later. The farm house on the church site, known as the Homestead, has been renovated and will remain in use temporarily for various church activities.

### HOME OF LOW PRICE GLASSES

1440 Miner, Corner of Lee & Miner  
Des Plaines Vanderbill 7-2261

by Jean Fox, Librarian

Niles Public Library users will find many things in the Library besides recreational reading. The card catalog now reflects a large proportion of the holdings, listing both juvenile and adult books under subjects as well as under author and title. The range of subjects has also broadened considerably, and interested readers will find many new entries interspersed between "Aeronautics" and "Water Dowsing". Of particular interest at this time may be books under the headings "Communism", "Presidents", "United Nations", and there is a perennial interest in such subjects as "Games" and "World War".

The reference shelves will also repay some attention. Postage stamp collectors will find the current SCOTT'S STAMP CATALOGUES; brides-to-be will find all they need to know about wedding etiquette in a copy of Post's ETIQUETTE; prospective travelers will find up-to-date information on mileage and other statistics in the COSMOPOLITAN WORLD ATLAS. There is an especially good collection of poe-

## NILES GIVES \$1500 TO CEREBRAL

Final tabulations in the 53-Minute March on Cerebral Palsy, held March 20, showed Niles had contributed \$1,587.57.

Chairman of the drive, John Sevcik said, "The success of the march means that we will be able to continue our year-round program of research, training and services". United Cerebral Palsy services are available to anyone in the area.

Local chairman for this year's Drive was Mrs. Anna Weise, 7716 Oconto.

Evangelist Billy Graham's latest motion picture "THE HEART IS A REBEL" will be presented as a forthcoming significant event in the religious life of our City. The new feature-length color production will be shown at Niles Bible Church on June 5, at 7:45 P.M.

The story is based on a conflict in the life of a modern young couple when the husband, an advertising executive, can't find a place in his scheme-of-things for his wife's sudden acceptance of the Christian Faith. In a completely "down-to-earth" setting the situation provides a dimension of reality seldom afforded a religious motion picture.

Ethel Waters adds luster to her long career in the role of the practical nurse who exerts a profound influence on the young couple through her day by day faith in God. A film highlight is Miss Waters' inspiring rendition of "HIS EYE IS ON THE SPARROW" and the spiritual called "MOTHERLESS CHILD."

Jane Withers makes a rare guest appearance in the role of a salesgirl in a large toy store. One of the foremost child stars of yesteryear, Miss Withers has taken time out of both a busy domestic life as well as an active one in her church and with the Hollywood Christian Group, of which she is a Director.

"THE HEART IS A REBEL" provides a "front row" perspective of the Graham team in the Crusade setting Madison Square Garden, New York City. The dynamic preaching of this evangelist is augmented by the singing of George Beverly Shea and the music of 1500 voice Crusade Choir under the direction of Mr. Cliff Barrow.

## Billy Graham Movie Shown Sunday At Bible Church

The doors to the Niles Bible Church will be open at 7 P.M. All seats are on a "first-come" basis, with no admission charge. A free will offering will be taken.

The doors to the Niles Bible Church will be open at 7 P.M. All seats are on a "first-come" basis, with no admission charge. A free will offering will be taken.

"Dutch Boy" NALFLEX  
... the one-stroke, one-coat interior flat finish that lets you paint like an expert. No brush lap marks. The begins to dry instantly! Easy clean-up, too—you just use soap and water.

"Dutch Boy" HOUSE PAINT  
Folks call it the "5-Year House Paint," because it gives extra protection, coverage, and value. The handsome tints stay fresher—more colorful, and whiter—stay brilliant!

**Fire Dept. Warns About Use of Lawn Power Mowers**

It's Spring. And to you who are about to dust off your power mower or outdoor motor, this Clean-Up advice from Fire Chief Pasek.

Remember that as little as half a pint of gasoline, spilled on the floor, vaporized and ignited, can and too frequently does cause fatal results.

Always store gasoline in a standard can (look for UL label), never in glass jars or old oil cans that could easily break, leak, or spill.

### Eckel New President Of School District 71 Board

Harold Eckel was elected President of Niles Public School Board of Education, District #71, and Adolph R. Foss, Secretary for 1960-61. Roy A. Whiteside was again retained as legal council.

Eckel stated that by action of the Board of Education the regular monthly meeting of the Niles Public School Board of Education will be held on the third Monday of each month.

Eckel further stated that the following committees had been appointed to serve for 1960-61: Instruction and Education-David Hoppe, Chairman; members Donald Kitzing and Adolph Foss; Building and Grounds-Adolph Foss, Chairman; members Otto Mikkelsen, Francis Mangum and David Hoppe; Finance-Rudolph Hill, Chairman; members Donald Kitzing and Otto Mikkelsen; Health-Francis Mangum, Chairman; members David Hoppe and Rudolph Hill.

The Board of Education is pleased to announce that the newly installed fire detection is in operation now. A public demonstration will be held shortly to which all parents, fire and safety officials and representatives from other schools will be invited.

## Additions To Niles High Schools Become Realty

The long-awaited additions to the East and West buildings of Niles Township High Schools are finally passing through the planning stages to the more realistic phase of bricks and mortar.

The Niles Board of Education will open contractors' bids for the Niles East additions Monday, June 6, at the regular board meeting at 8:30 p.m. Earlier the same day, actual work on the Niles West additions will commence.

Bids for the West additions were awarded May 9, to the total amount of \$1,231,657.00. Awarded contracts for the additions at West were Mercury Builders, the general contractors, for \$711,849.00; Caruso Plumbing for \$95,520.00; Thomas Douglass Co., the heating and ventilating contractors, for \$253,660.00; and Wadford Electric Co. for \$170,628.00.

The building schedule for the Niles West additions under the penalty clause calls for a completion of the academic wing by July 1, 1961; the completion of additions to the guidance offices by July 15, 1961, and that lunchroom additions be completed by August 1, 1961.

This will enable the West building of Niles to become a four-year high school for the opening of the fall term in 1961.

According to Dr. Clyde Parker, Niles superintendent, the more

realistic schedule of building at the West Division will see additional staircases, the guidance offices, and the cafeteria corridor and enlargement completed during the summer of 1960, thus eliminating much confusion during the school year 1960-61 and also giving the school the advantages of these additions for its increased enrollment of 500 freshmen next September.

By mid-summer, 1961, the main additions to the academic wing which includes some 24 classrooms and Industrial Art shops for auto mechanics, electricity, wood work, and metal work will be completed. A language laboratory will be featured in the new academic wing addition. Chemistry and physics labs will also be housed in the academic additions at west to make it a complete four-year high school.

The field foremen for the four contractors during the erection of the Niles West additions will be Mr. Edward Fry of Mercury Builders, Mr. Mike Caruso of Caruso Plumbing, Mr. Richard Phelan of the Thomas Douglass Co., and Mr. Lindberg of the Wadford Electric Co.

Mr. Marshall Stevens will be the field man representing the architect firm of Orput and Orput Brothers.

Dr. Parker says that actual construction of the East building additions will begin as soon as possible after the Board of Education can award them.

## Editorials

### "Stop And Go" Lights On Milwaukee

Village trustees approved the spending of approximately \$20,000 of Motor Fuel Tax money for "Stop And Go" lights at Jonquil and Milwaukee and at Monroe and Milwaukee.

There are many points of comment which we choose to make public.

1. The Jonquil Terrace Homeowners group, capably led by Bob Rysell, petitioned this area, as did part of the Kirk Lane group, which resulted in the above action being taken by the village board. It is proof that "citizen activity" in a community such as ours can bring worthwhile results due to the effort put forth by interested residents.

2. Motor Fuel tax money refunds are the result of the money spent at local Niles' businesses (gas stations). Once again this is proof that "it is good business to do your business in Niles". Money spent in Niles, both in gas stations and in other businesses, results in larger dollar returns from the State of Illinois. Money spent in Niles returns to benefit all of us.

3. The proposed stop lights will "hold down" the speeds on the two streets which in effect will lower speed limits on Milwaukee Avenue.

4. A stop light at Main Street would be more beneficial than at Monroe Street. Main Street is a school crossing for Oak School and St. John Brebeuf students. The increased danger resulting from auto traffic into the new bus station makes such a light imperative. The present manual light does not serve its function adequately. Many residents have cited its improper use, its lack of use, and its malfunctioning due to mechanical failures.

It would seem more logical to place such lights at Main Street and at Jonquil Terrace for better traffic flow and curtailing speed rather to the north. A Main Street light would slow down traffic coming into Niles before it reaches a major residential area. And it would decrease auto speeds which normally begin to accelerate while still in the Monroe Street residential area.

But most important, our children need the added protection of a stop light at an intersection which they use twenty times a week or approximately 800 times a year.

### Why Isn't Niles Represented? Niles Hi Board Members

We noted with particular interest that the new Niles Township High School board has five members from Skokie and two from Morton Grove.

Our Niles chauvinism begs the obvious, "How about Niles?" Recently Nilesite Walter Craigie became Niles first resident to be elected to Niles Township High School's board. Rightly, it was felt that Des Plaines and Park Ridge should relinquish one seat from the board to make room for a Niles member.

This is certainly wise thinking and should be considered by the Niles Township voters. Bond issues and other pertinent activities can best be carried back to the local voters through their local representative on the board.

In the case of the Niles Township board we have several Nilesites who would be welcome additions to their Niles High School board. Former elementary school board member Walter Kramer and school teacher and Niles Library President Rudolph Hazucha are just two examples of qualified men. We're sure there are many others.

Niles is no longer a country cousin to any of our neighbors. We've become a big boy in recent years and we have a right to our place in the sun.

### Niles School Students Visit Hinsdale Museum

Sixty members of the 5th grade of Niles Public School at 6935 Touhy Avenue, comprising two classes, accompanied by their teacher, Mrs. Josephine Graham, and Mr. Raymond Blank, were recent visitors at the Hinsdale Health Museum in Hinsdale, Illinois.

The children, who were on a science field trip to supplement their school work, heard talks on circulation, the teeth, the bones and muscles by Museum staff science teachers.

They also heard the performance of Hinsdale's famous "Talking Glass Lady" which has been prepared especially for the understanding of younger children.

The Niles visitors were among some 120,000 persons who have toured the Health Museum since

### Park Softball League Begin June 7

The Niles Park District has organized a men's 16" softball league, which will get underway June 7th. There is a surprisingly good turnout for this, the first year of this activity.

With the aid of Jules Pandera, Park District Recreation Director, the league was formed and officers elected. The officers are as follows: President, Fred top, Vice-President, Jerry Sullivan, League Supervisor, Ted Mroz.

## Culver Announces Dist. 71 Summer School

The Board of Education has again approved the operation of a summer school program for the children of district 71, in Niles. As in the past, the primary purpose of this summer program is to provide an opportunity for additional help in basic subject areas to youngsters who are in need of more individualized attention, or who want to improve their basic skills.

We hope the following comments will help to acquaint you with the proposed classes:

1. Beginning date is June 20. Instruction ends July 29, 1960. School will be dismissed July 4th.
2. Mr. Culver, Superintendent of the Niles Public School, will be in charge of instruction. All instructors will be members of the Niles Public School Staff.
3. Instruction will consist of classes in remedial arithmetic and remedial reading. Each class will be of 1-1/2 hour duration.
4. Remedial reading classes will begin at 9:00 a.m. and end at 10:30 a.m. Remedial arithmetic classes will begin at 10:30 a.m. and end at 12:00 p.m.
5. Classes will be limited to 15 pupils.
6. Summer school enrollment will be opened to all students enrolled in school district 71. Non-resident students may en-

roll to complete individual classes to 15.

7. School District #71 will not provide transportation for summer courses. The parents are responsible for the transportation of their children.

8. We do not recommend enrollment unless a child can attend the full six weeks.

9. In all cases before enrolling your boy or girl you should discuss the summer school program with your child's teacher. No child will be enrolled without a teacher's recommendation after a parent-teacher conference.

10. Registration has been extended until June 6, 1960, between 9:00 a.m., and 12:00 p.m. for students enrolled in the Niles Public School. Registration will not be accepted after May 31st, 1960. This deadline must be observed in order that the staff can be secured and instructional material ordered. Registration for non-resident students has been extended until June 6, 1960.

11. Summer school in no way is a means for promotion. Summer school is merely an opportunity to improve in subject areas where youngsters need more individualized attention, or who want to improve their basic skills.

12. At the completion of summer school, a written report will be made to the parents regarding the child's progress. A copy of this report is also sent to the pupil's next teacher in order that the may be aware of and continue the work that has been completed during the summer.

13. Should you have any further questions regarding this summer school program please feel free to call Mr. Culver, Niles 7-9752.
