swer questions with factual information so that you transmit this to the voting public.

Thank you for your fine cooperation in the interest of ending a very serious school situation by means of a "yes" majority in the voting Saturday.

Very truly yours,

Franklin R. Ulrey  
General Chairman  
Committee of 101

Editor's Note: Soothsayer Ulrey must have been looking over our shoulder. In no previous issues did we indicate any opinion relevant to Saturday's referendum. Since our front-page editorial was written after we received the above letter, Ulrey manifests an occult sense which borders on mental wizardry.

## Against Tax Levy

Dear Editor:

There is much talk of urgency in the discussion of the Maine Township High School request for more taxing authority, on which we will be voting Saturday. Proponents would like to have voters think the school is going down for the third time. This isn't exactly the case.

Should the voters Saturday decide to authorize the increase, the board still would not make formal use of that authority until mid-September. We are not, then, up against a deadline.

Last week at the public discussion of the issues by both sides in Mary Seat of Wisdom School, tax raise opponents suggested that outside experts be consulted to evaluate the costs and priorities of various school programs with an eye to increasing the efficiency of this multi-million-dollar operation.

Such a study between now and September could well show the board and the taxpayers where thousands could be saved without sacrificing quality. Then, armed with a soundly conceived program of real austerity, the board could confidently approach the electorate for the additional taxing authority they now seem to deserve.

Since the authority can't be used till September anyway, we have nothing to lose and much to gain by a NO vote Saturday.

Sincerely,

Daniel T. Sullivan

## William J. Malooly Dies At 49

William J. Malooly, 49, of 7016 Seward, Niles, died in Saint Francis Hospital early Sunday morning, February 2nd, after a very brief illness.

A resident of Niles for nine years, Mr. Malooly was a member of North American Martyrs Council of the Knights of Columbus.

He is survived by his wife, Helen, nee Conway, three sons, William, Robert, and John, three daughters, Helen Ann, Jean and Mary Alice, his stepmother, Sarah Malooly, two sisters, Florence Ricksgers and Mary Therese, and a brother, Thomas.

The funeral took place Wednesday, February 5, at 9:30 a.m. from the M. J. Suerth Funeral Home to Saint John Brebeuf Church, where requiem high mass was celebrated at 10 a.m., with interment following in Mount Carmel Cemetery.

# Vote Saturday On Maine Hi Educational Tax Levy

Maine Township residents will go to the polls Saturday, from 9 A.M. until 7 P.M., for the fourth time to vote on an increase in the educational tax fund. The increase would raise the tax from \$1.06 to \$1.21 per \$100 assessed valuation.

Proponents of the increase state the money is needed for teachers, books, desks, and to meet increased cost to man the increased facilities of the three-high school district. With the building of Maine South, the additional needs must be met. They also contend competing for teachers with other high schools necessitates this money, to meet competition in the search for qualified teachers.

Opponents of the increase believe a more efficient operation is needed in the school's district, and challenge the need for higher salaries for teachers. Opponents are also critical of driver-training program, which they contend is too costly, compared to other per student costs.

Any resident over 21 years old, who is a registered voter, a resident of the state for 1 year, of the County for 90 days and the township for 30 days is eligible to vote.

The following paragraphs are a news release from the office of the school superintendent, explaining per cost per student figures of Maine and neighboring schools:

"Maine Township High School stands almost squarely in the middle of Cook County's

cost-per-student for education, and is much lower than many surrounding high schools, according to Harold Markworth, District No. 207 business manager.

Using as his source of information the published report of Noble J. Puffer, Cook County Superintendent of Schools, Markworth said Maine Township High School is fourteenth in the complete list of twenty-eight schools.

"We are just above the median," the local high schools' business manager said, "but most important is Maine Township's position at the bottom of the cost-per-student when compared with several surrounding high schools where teaching and all living costs are comparable."

The County Superintendent's record shows the cost-per-student for all high school expenses in Maine Township to be \$845.

Eight of the schools with higher costs-per-student are nearby. They are:

- Niles High School - \$1,061 per student.
- Glenbrook High School - \$1,030 per student.
- New Trier High - \$1,028 per student.
- Evanston High School - \$1,009 per student.
- Leyden High School - \$1,001 per student.
- Oak Park High School - \$986 per student.
- Lyons High School - \$937 per student.

Proviso High School \$855 per student.  
Maine Township High Schools - \$845 per student.

"The requested increase in the ceiling of the Educational Fund levy from \$1.06 to \$1.21 per \$100 of assessed valuation will not put Maine Township at the top of this list even if all of it were used," Markworth said. "The School Board's record of economy in operation would still be very good, compared to student costs at many other schools."

## Bugle Reader Criticizes Trustees

Michael Wozniak, 8252 Wisner, asked the village board why all reports (legal notices) were not published in THE BUGLE. He said THE BUGLE was only newspaper which was read in Niles, and that the Skokie papers were never read. He said, "Everyone reads the Bugle", and reprimanded the board for not using this newspaper exclusively. He said he would have to buy five newspapers in the community, if he was to read all notices. When trustees good-humoredly tried to explain that all these notices alternated in all papers so that they would all receive equal treatment, Wozniak, angrily criticized the board for its humor, and actions. (Editors Note: This was an unsolicited testimonial from another satisfied reader, and a very good-thinking one, at that).

## No Parking Behind Lawrencewood

Trustees approved a "No Parking" ordinance for the area from Oakton to the southern border of district 71 school property on Nordica Avenue. Trustees referred to committee similar action for Foster Lane in the area south of Golf Road and west of Washington.

Trustees approved a Plan Commission recommendation to change zoning for pool halls to B Special Use zoning.

# Car Fire

Continued from Page 1

an auto. She was reported to say the fire department was watching the fire from a bay window, and that they notified Des Plaines. She said the Des Plaines Department were at the scene five or ten minutes later.

Chief Pasek said the department gets many car fire calls, and those outside the district are reported to the correct district. He said if a life is known to be involved, Niles would not hesitate to rush to the fire.

Trustee Ken Scheel, who is chairman of Niles Fire Committee, said if the report he read is correct, then Niles Fire Department was correct in calling the other district. He told THE BUGLE if trustees felt a new policy regarding going outside the district was necessary, they would take action.

Chief Pasek told THE BUGLE Niles policy is a flexible one, inferring individual judgment is used, in going outside the district. The department constantly goes to neighboring areas to help them in their fire-fighting activities, Pasek emphasized that had it been known a life was involved, the department would certainly have rushed to the scene.

The report that the firemen stood at the window and watched the fire is denied by the firemen. Deputy Chief Hoelbl said the fire could not be seen from the radio shack in the firehouse. However, he admitted the reflections (either fire or smoke) could be seen from there.

Pasek, in commenting on the articles in the Chicago newspaper said "I don't like to get punched in the teeth unfairly".

State chief Cowhey had previously mentioned, "When lives are at stake no fire department line should weigh district lines". Obviously considering Niles top 4 rating (higher than any neighboring fire department) Pasek believed the criticism of his department was unjust.

Whether there is an error in policy or personal judgment, the re-assessment of Niles and her surrounding towns thinking regarding fire districts will take place. If a new policy results from the accident, which seems obvious, it will manifest that Niles policy and judgment in this incident was poor.

# From The Left Hand

By David Boman  
Editor & Publisher

All over the village Nilesites were talking about the fire department-auto fire incident at Greenwood and Dempster.

First impressions, often emotionally-laden, were scathing criticisms of the fire department. For the most part the department took a beating.

After a week's reflection we've formed the following opinions.

The judgement used by the firemen on duty was appalling. What we did not know until we read another newspaper, Niles Fire Department covered the Park Ridge station, while the Park Ridge Fire Department answered the call two blocks from the Niles station.

Niles public officials handled themselves like public officials the country-over. They passed out verbal statements defending the policy of the village, and the correctness of the action of the firemen, as if this show of unity will dispel confusion, and improve morale. It's public relations impression was indeed poor.

How refreshing it would be to hear men in public station admit to error, and state a revision of the policy which led to the error would be forthcoming. Obviously, there will be a revision, and obviously it is proof that the error was a big one.

A second side of the coin might read like this. Being in a life and death business the errors in such an effort are of greater significance than those in the mundane business world. While errors in every type of occupation are committed, those in a life and death business must be minimized.

Many Nilesites believe the job of a fireman is much-desired. The 24-hour-period on duty, and 48-hours off duty, is a great attraction to many men seeking the job. Since men enthusiastically seek this job, the dangers and responsibilities undertaken are assumed when a man gains entrance onto the department. Firemen in Niles have been much praised thru the years. When a grave error of the dimension of two weeks ago occurs, false statements, and faulty reasoning can't gloss over the problem. A second similar happening would be devastating, both to the morale of the department, and to the confidence of the residents of the village.

There is still a third-side to this coin which should not go unmentioned. The Chicago newspaper, which reported and editorialized about this incident over a five-day period, left an impression, which is unfair. In an editorial it suggested Niles firemen on duty.

## South End Of Niles Votes 'No' By 2-1

Paraphrasing an old baseball tome "five times and you're in", well applies to Maine Township High School District. Saturday residents finally approved an educational tax increase, after it had been defeated on four previous efforts. The vote was 8,313 for the increase while 5,819 voters disproved the referendum. The increase would raise the tax from \$1.06 to \$1.21 per \$100 assessed valuation.

Two years ago voters turned down the initial referendum. They approved the building of a third Maine Township High School, Maine South, but turned thumbs down on the educational tax boost. Proponents of the increase believed then that voters were unfamiliar with the need for the increase, which they said was needed for teachers and supplies, due to the added third school, which residents had approved.

The vote then was presented three times separately, and unsuccessfully. While voters near to the new school, in Park Ridge backed the vote, residents in Des Plaines opposed the issue. A third vote bloc, in Niles, Morton Grove and Glenview, were outvoted by the two largest areas, though this area generally neutralized itself (Saturday's referendum the vote was a narrow 1,096 to 1,002 favoring the increase in Niles and Morton Grove).

The following returns from Saturday's vote cover the district 63 and district 64's Jefferson School returns. At the south end of Niles, voters voted 2 to 1 against the vote, 668 disproved while 343 approved. In the north end of the district, Morton Grove, Glenview and Westmonte to the north approved the increase by a 2-1/2 to 1 margin. The following are the totals in Niles and Morton Grove:

Oak	212	355
Mark Twain	250	85

## Eckel-Allen Nuptials

St. John's Brebeuf Church was the setting of the afternoon ceremony that united Barbara Jeanne Eckel in marriage to Phillip L. Allen in a fall wedding.

The bride, the daughter of Mr. & Mrs. Harold J. Eckel, 7902 N. Neva Ave., Niles, wore a gown of traditional white satin with a chapel length train and 3/4 length sleeves. The bodice, which had a scalloped neckline, was trimmed with reem-broidered Alencon lace appliques, seed pearls and sequins. The bouffant skirt accented with satin bows at the waistline had a cut away front. Lace appliques, seed pearls and sequins adorned the entire skirt down to the tip of the train. Her three-tier butterfly veil fell from a head-piece of seed pearls. She carried a cascade bouquet of white fugi mums, stephanotis and ivy.

The attendants, gowned identically, but in different rainbow hues, with matching accessories and matching fugi mum cascade bouquets wore pea de soie street length sheath dresses with a floor length overskirt. Their bouffant veils fell from pea de soie headpieces of tiny flowers.

Mrs. Donald Eckel, sister-in-law of the bride, was matron of honor wearing sapphire blue. Nancy Allen, sister of the groom, served as a bridesmaid in federal gold while Barbara Olson was attired in hot pink. Flower girls Patty Allen, sister of the groom, and Vicky Haag, cousin of the bride, were in a soft turquoise blue.

The groom, son of Mr. & Mrs. Phillip J. Allen, 7850 Neva Ave., Niles, was attended by Dennis McCormick as best man. The ushers were Donald Eckel, brother of the bride and Jim Allen, brother of the groom.

Mrs. Eckel chose a pale blue satin dress accented with matching lace appliques. The bridegroom's mother wore a beige brocade dress with a matching short jacket. Yellow rose corsages complimented their ensembles.

In the evening a reception was held at the Des Plaines American Legion Hall for 225 guests. Out of town guests included Mr. & Mrs. G. Haag, Denver, Colorado, parents of one of the flower girls.

After enjoying a honeymoon trip touring the Gulf Coast and Ozark Mountains, the couple now reside in Arlington Heights. The bride, presently employed at the K.C. Glaser Company, is

## Fall Nilehi Freshmen Testing Program Readied

Testing programs for eighth graders planning on attending one of the Niles Township High Schools next September are scheduled during the months of February and March, announced Dr. Arthur Ryden, director of Guidance and testing.

Starting February 4 and continuing to March 13, tests of academic ability and proficiency in basic skills are being given to public school eighth graders in their respective schools.

Eighth grade students attending parochial and private schools, who plan on going to one of the three Nilehis next fall, will take these tests Saturday morning, February 22, from 9 A.M. to 12:30 P.M. in Nilehi West's cafeteria, Edens and Oakton.

Tuesday, March 10, at 7:30 P.M., parents of parochial and private school eighth graders with their sons and daughters are invited to attend a general orientation meeting at Nilehi West where administrators and guidance counselors representing Nilehi East, West, and North will be available for consultation.

Actual course registration will follow this evening meeting.

From February 24 to March 6, representatives from the three Niles Township High Schools will be present at scheduled meetings held at each of the public school districts in the township. These will be day-time meetings for students and evening meetings for parents. Each elementary school will announce its scheduled meeting through its students.

The purpose of these meetings, Ryden said, is to provide helpful information on the orientation and registration process.

Because some eighth grade students have achieved a certain amount of proficiency in the study of a foreign language, Ryden said, the high schools have scheduled language qualification exams for those students who wish to qualify for placement in the second semester or second year of the language in high school.

Students wishing to qualify in French are to report to Nilehi East at 10 A.M., and those wishing to qualify in Spanish are to report to Nilehi West at 10 A.M., both on Saturday, March 7.

During the month of April, students who have been recommended for further consideration in honors courses will receive careful evaluation, Ryden said.

It is anticipated, he added, that all such honors course placements will be completed before the middle of May, including the procurement of parent consent for enrollment in the honors program.

Ryden pointed out that before next September the members of the incoming class of 1968 will undergo other types of pre-high school tests, including a physical examination, a dental examination, plus screening tests in vision, hearing, and speech.

In addition to Dr. Ryden, administrators serving as key people in this year's orientation program for eighth graders include Dr. Donald Strahan, Nilehi North principal; Dr. John Harris, Nilehi East assistant principal; and Dr. George Gilly, Nilehi West assistant principal.

### Double Winner In Academic Honors

Two-letter athletes are fairly common around Maine East high school in Park Ridge, but a double winner in academic honors is much rarer, yet again this year Maine has produced one, and his scores are exceptional.

Lawrence W. Wilson, 17, a senior, son of Mr. & Mrs. Charles E. Wilson of 617 N. Washington, has been chosen in the honors group of the Westinghouse talent search for science scholarships and has also become a semifinalist in the National Honor Society scholarship program. The two citations are not related.

Young Wilson scored in the 99th percentile, the highest rank possible, in both verbal and mathematics areas of the PSAT (preliminary scholastic aptitude test) last October. Milo S. Johnston, Maine East's principal, made the results of Wilson's work known yesterday. Larry is now a semifinalist in the scholarship competition sponsored by the National Association of Secondary School Principals.

"PSAT scores are combined with rank-in-class to determine a composite score for each semifinalist," Johnston said in explaining the award. "Finalists will be selected from such a group and winners will be announced early in May."

Larry earned his place in the Westinghouse science talent search with a project entitled "Active Transport of Ions Across Cell Membranes—Specific Study of Kidney Membranes." From the group of 75 girls and 239 boys now semifinalists, 40 winners will be chosen to go to Washington, D.C., to compete for scholarships during a five-day institute beginning February 26.

Larry described his Westinghouse project as an attempt to learn more about the functioning of cell membranes.

"It concerns a relatively new biological phenomenon, discovered since 1950," Larry explained. "The phenomenon is

known as active transport of ions across cell membranes. Therein, the plasma membrane, only a few molecules thick, seems to decide, almost intelligently, which ions (charged molecules) of certain chemical substances should be brought into the cell and which should not.

"The membrane molecules, complex protein fibrils, exert a measurable electrical force in repelling certain ions and drawing in others against the natural forces of diffusion gradient, concentration gradient, and osmotic pressure.

"I have demonstrated this phenomenon by injecting different chloride salts into mice. Diffusion of these salts through an inactive membrane such as cellophane would show equal rates for sodium chloride and potassium chloride. But diffusion rate through the kidney membrane of the mouse, that is, rate of urinary excretion, was higher for the chloride ion from sodium chloride than for the chloride ion from potassium chloride. The difference indicates active interference of the cell membrane.

"The significance of the results is that they help to support present theory in their own small way. But this way of adding small results into a seeming multitude of results all tending toward one idea is the way that scientists elevate separate findings to the rank of fact."

In recent years, schools in the Chicago area have placed fewer students in the science talent search than formerly, which some educators attribute to tightening standards by the judges. Where six or a dozen students in some schools formerly won semifinalist rank, now only one or two from top suburban schools are so rated, and a number of schools formerly listed are not represented.

Larry is the only Maine township student included in the semifinalist group this year.

### Niles G.O.P. Offers Voters A Choice

Recently a group of men and women of the Village of Niles met to discuss the political and civic needs of the Village. Hardy conversation by all present, concluded unanimously that the Village needs, political and civic, are not separate exigencies but really one. Our last election was an example of lack of public interest, in public office positions, and apathy by the citizens of Niles. With these basic needs in mind the Village of Niles Regular Republican Organization was formed.

The following were elected to office for the year 1964:

President, Carl Broholm; Vice President, Edward Gembicki; Secretary, Lorraine Lassin; Treasurer, Ruth Lassin.

Board of Directors:

Richard Gruenwald, Roy Benquist, Steve Neweau, Tony Fortuna and Herman Gronemen.

Sgt. of Arms is Gary Warner.

General meetings are held on the third Tuesday of every month and presently are held at the Lawrencewood Shopping Center—Community Room at 8:00 p.m. Our next meeting will be held on March 24th.

Future plans include active participation with Niles and Maine Township Organizations to achieve recognition for our Village. At a recent meeting with Floyd Fuller and Sherwin Wilens, Republican Committeemen of Maine and Niles Townships, the first step was taken to acquire this goal. Plans are in the making for a membership program and the presentation of candidates in the current primary campaign.

We have provided one important means of obtaining recognition for our Village, but only you, the resident of Niles, can make our ultimate goal a success. Our country was founded and has thrived on a two party system—shouldn't this prevail in our Village?

### Another Morn. another Yawn...

by Frieda Aron 966-9669

How do you say goodbye? The time has been so short for hello!

She was a young bride from the Bronx, N.Y., and I, a young housewife and mother from Brooklyn, N.Y., that day 15 years ago in Chicago, when our husbands brought us together. They had been good friends and roommates since their internship days. Then they were young struggling physicians with gaily loving wives who gave no thought to the long starvation years ahead. Her husband said Bronx girls were best and mine said Brooklyn girls were the best, except for their cooking. On the good days, when our young lovers were kind, understanding and cooperative, we said Chicago men were the best. On the bad days when they infuriated us simply because they WERE men and not cognizant of the foibles and frustrations of women, and would not even discipline the children as we wished them to, the telephone was witness to the many plans we made to return to our home bases in New York. But there was no money at first—and the babies kept coming, so there was no time for escape, even temporarily. Love and despair came and went and we accepted our destiny.

Six years ago, tragedy struck us both within the same month. I lost a baby, after two days of life, and she lost a breast, courtesy of cancer, on the operating table. Hers was the greater tragedy. The good humor and laughter still gurgled at her lips, while her heart filled with daily fear and the tears coursed through her body silently and steadily. The years went by and a sense of security, almost, took hold—it was past the danger period and now the eyes laughed a little more often. The tears began to recede. But the lurking malignancy had not stilled its growth.

Now my charming, dearly loved friend, at 41 years of age, mother of three young sons, will be returning to New York for Eternity. It's time to say goodbye—but I don't want to.

May all the good things of life come to Mr. and Mrs. Steve Charnerski of 7054 Seward St. as they celebrate their 25th year (Feb. 11) and one week of wedded harmony—all the sweeter—because of the many trials and tribulations one goes through to successfully complete a quarter of a century with the mate of one's heart. Steve is an employee of Crome Corp. of Niles, and a Niles Park District commissioner. They have one daughter, Carol, a junior at Nilehi West.

Show me the husband who disagrees with the pessimistic German philosopher Arthur Schopenhauer, who said, "All women are, with rare exceptions, inclined to extravagance, because they live only in the present and their chief outdoor sport is shopping. Women think that it is men's business to earn money, and theirs to spend it. This is their conception of the division of labor." The trade-in deal will include all my S & H stamps!

Our Committee started working on this project a little over a year ago with the distribution of petitions that were signed by thousands of Niles residents showing "the powers that be" their wishes that Niles be included on the Tollway sign.

The Chamber wishes to acknowledge the invaluable aid of Chief of Police, Clarence Emrikson, Mayor Nicholas Blase, State Representatives Arthur Simmons, Bill Carroll and Bernard Peskin and especially the people of Niles.

This is another example of the Niles Chamber of Commerce's communal effort to help in community betterment and development.

### Chamber Puts Tweens Present Talent Show

The Niles Chamber of Commerce is very proud of the fact

that Niles is now represented on the sign at Touhy Ave. on the Interstate Tollway, and also is proud of the part we played.

The theme of the program is "The movies". Each of the groups is presenting excerpts from popular movies. The Samurai, a seventh grade boys group, is performing "The Rumble", from "West Side Story". The Imperiaettes, a seventh grade girls group, is presenting "I Enjoy Being a Girl", from "Flower Drum Song". The Provincials, an eighth grade boys group, plan to remind us of the silent movie era with a melodrama called "In the Cellar". The Riverias, a seventh grade girls group, is doing "The Other Generation", from "Flower Drum Song". The Chantels, an eighth grade girls group, is establishing an aura of excitement with their version of "Gypsy".

Tickets for the performance are now on sale. Adult tickets are being sold for \$7.50 and childrens tickets are \$5.00. Tickets can be obtained from the various participating club groups or at the JCC office at 3941 Dempster Street in Skokie.

People in the community are invited to attend this "musical extravaganza" and join with boys and girls in raising much needed funds for the Skokie Valley Hospital. It will be a highly informative and joyful evening, and you too will have shared in this important community work.

Nilehi Scholarship Finalists

Four Nilehi West seniors have been selected as semi-finalists in the National Honor Society Scholarship Program sponsored by the National Association of Secondary School Principals, announced Dr. George Gilluly, assistant principal.

Carolyn Alport, Robert Bulster, Susan Grigg, and Ronald Zager, who are members of the Nilehi West Chapter of the National Honor Society, were selected on the basis of their scores on the Scholastic Aptitude Tests.

For the final selection in the scholarship program, their Preliminary Scholastic Aptitude Test scores will be combined with their rank-in-class for a composite score. If they become finalists, they will be requested to submit biographical data, secondary school records, and family financial data, which will be reviewed by the Scholarship Board in the selection of the 1964 scholarship winners and in the determination of stipends.
