Increase Niles Firefighting Force

The firefighting force of the Niles Fire Department has recently been expanded with the addition of three paid-on-call firefighters and one full-time firefighter. The full-time man replaces Captain Charles Bacher, who recently retired from active service. These new men will bolster the department's crede of the most efficient service possible.

Robert Steffen, William Angus and Richard Pickup have completed three months of basic firemanship for paid-on-call firefighters. Sheldon Mikkelsen, who joined the department full-time on April 11, 1964, will go into his probationary training program.

Open House At New Police-Council Bldg. May 6-10

Chief Clarence Emrikson of the Niles Police Department has designated Wednesday May 6th to and including Sunday, Mother's Day, May 10th as the Official Open House for the new Police-Council building recently completed at the corner of Touhy and Waukegan Roads, in Niles.

"These dates were specifically chosen to coincide with National Police Week," said Chief Emrikson. "During this time our facilities will be open for public inspection from 9 a.m. to 10 p.m. and coffee will be served. Ample parking is available at the south end of the building and the police department will act as hosts," Emrikson said.

Not only is everything new in the 4000 feet of the building devoted to the police facilities but the new building has given rise to the new more modern methods and operations previously impossible to institute in the former cramped and antiquated headquarters. This is requiring a complete retraining to integrate these new functions into a smooth running operation.

Among the new operating facilities is a Radio Control Room, Bureau of Identification Laboratory, Interview Rooms, Squad Room as well as a Judicial and Executive area. There will be separate modern cells for men and women and separate detention room for juvenile offenders. All these features mean a more efficient and effective police department for our Village.

The new facility leaves the old police headquarters at Touhy and Milwaukee to be used by the Village Clerk's office and also provides space for the operation of the Building Department on the 1st floor of the old building.

The new Police-Council Building was completed in less than six short months after ground was broken, and is a great source of pride to the Village officials and residents alike.

explained his previous vote. He said the boy in question is going to go on. He said every life is worth some consideration. He spoke of the need for salvation, and he believed there was a need for an opportunity for salvage. Speer said 'every life is worth trying to salvage'. He wanted to avoid slamming the door in the boy's face.

Dr. Speer also emphasized he wanted to give both sides equal opportunity. He eventually voted in favor of the rehearing.

President Mau remarked any one of 16 violations (of the 41 recorded) were sufficient to expel.

The school board attorney said it was proper to reconsider to suspend the prior action of the board. He said it was certainly in order to have another hearing for further evidence.

One school board member compared a second hearing with the legal term "double jeopardy". He wondered if the boy should be 're-tried' after the previous decision to have him tutored at home was reached.

Another school board member said, "We had failed this boy. He saw a social worker for the first time this year. It should have happened a long time ago".

The Board then voted 5 to 2 for a re-hearing. It was made clear the superintendent could only suspend for seven days. It was the Board's sole duty to vote on expulsion.

Because of the vote to rehear the case it was necessary that the suspension be re-newed for the next week. It was so done.

After the very verbose legal discussion, prior to the vote, the vote left the audience unsure. The boy leaped up and asked if the action meant he was suspended again. He was told he was.

As the audience filed out a resident harshly ridiculed a school board member, Mrs. Block, for her views. He passionately favored expulsion. When Mrs. Block, with tears in her eyes, said she didn't have to take this abuse, that she served on the board selflessly, she retreated from the room. Several persons condemned the critic's harshness. The antagonists argued up the aisle as they withdrew from the room. The harsh critic noted we lived in a society of law. The boy abides by the law or deserves to be dealt with. His antagonist, less articulate, asked why did they wait until six weeks before graduation to take this action. When the discussion became more heated, now being continued outside the darkened school, the less harsh speaker, wheeled on his heel, and angrily stomped away from the argument. His antagonist pursued, held out his hand, and continued to argue.

attended the three hour Monday night meeting.

He claimed that he had never been asked to leave a class and declared that none of the alleged infractions are on his school record.

The boy claimed that he had been disappointed because details of the supposedly confidential hearing had been made public. The scheduled rehearing Monday night will be an open board meeting.

Some 140 faculty members had signed the petition protesting the school board's decision not to expel Wolf.

They charged that the action undermined teacher authority.

"The Board of Education has actually rewarded abuses and disrespect by providing special tutoring services and waiving certain graduation requirements," the petition said.

From The Left Hand

by David Besser

The 'Joel Wolf' controversy took center stage the past week, dominating much of the conversation of local residents. Despite what you may have read, the toll it expended on the community was negligible. Niles Township High Schools continued to function properly, and the teachers, who seemed to have been pictured as ogres, did their usual 110% of their job, just as they do every day.

While the sound and fury echoed thruout the township, we became increasingly exasperated by the "out of context" picture which was evolving from the thousands of words, which were written and spoken about the matter. And what seemed most irksome to us, was that the teachers were reprimanded publicly, and were scolded rather inanely by one local newspaper.

While the charges and counter-charges flowed freely, the one question which continuously was avoided, but could not be evaded was, "Where were the parents?" How could one child be charged with 41 violations, without the parents taking over?

At the school board meeting a week ago we came in on the tail-end of the board meeting. Mrs. Wolf, who heard scathing indictments of her son, reached for the microphone and lashed out at the teachers and the teachers' union. Defending her son, she said the teachers action was a power play to dictate to the Board policy in the school district. She indicated she felt personally wounded, lashing out viciously at the teachers' union.

It's easy to sit back, being removed emotionally from the center arena, and be able to expect her to handle herself with greater aplomb. From the cool sanctuary of the last row, we thought she might have shown humility. Borrowing from the Greek tragedians, she might have asked the Board, and the audience, to point the finger at the parent. She might have said, "So as the child is, so as the parent did". But instead of borrowing from the philosophers she preferred that old sports axiom, "The best defense is a good offense".

Speaking of philosophy, bards of booze bars the country over have an unwritten law that politics and religion are subjects which are refrained from. Since newspapers eschew politics with voraciousness, only religious commentary is generally watered down. However, we've always felt readers are big boys and girls, and this subject should not be restricted as a topic for discussion.

Ten days ago Niles trustees passed a vote which will permit a private homeowner, and St. John Brebeuf, the right to dedicate its street to the village, and allow the village to improve the street. Only Trustee Bob Wente balked at the idea, voting against such action. Last Saturday Wente voted against the new appropriation, because it included the use of village money for this project.

Wente's lone wolf action was most commendable, and mani-

Boy's Withdrawal Ends Nilehi Expulsion Controversy

The case of Joel Wolf vs. Niles Twp. East High School teachers and the teachers vs. the Niles Twp. Community High School Board of Education was officially laid to rest at Monday night's board meeting.

Read into the record was a letter from the parents of Joel, a 17-year old Niles East senior, whose expulsion had been asked by the faculty and recommended by Supt. Clyde Parker. The letter said the youth had been withdrawn from school.

Also into the record went a report from Parker outlining the school administration's disciplinary philosophy, stressing the importance of good conduct and reprimanding any teacher who might have been among the persons who booed at last week's board meeting.

Originally the board had rejected the expulsion recommendation and voted to hire a tutor so the youth could finish his studies at home and be graduated. The teachers promptly voted to stage a slowdown, refusing to participate in any school activities not specifically required by their contracts.

Last week board members voted to reconsider the case, but the slowdown was put into effect last Tuesday anyway. It was called off last Thursday after the boy's mothers, Mrs.

Land Fill Project Will Earn $900,000

A former high school board member has estimated that the school district may receive as much as $900,000 gross income over a period of the next few years under a contract whereby a local firm will fill two ponds on a school site.

W. Bert Ball, who finished the traditional two term limit on the school board this month, this week said the figure could be that high. A former chairman of the boards building and grounds committee, he has offered to oversee the land fill operation.

THE 52 ACRE site, located between Golf and Central rds. east of the Tri State Tollway, was purchased by the board over a year ago for $450,000, payable without interest over a perod of 10 years. The board bought the land for the site of the district's fourth high school which it is estimated will be needed by 1969 or 1970. It's

Tells Costs Of Other Sites

After many months of study of various sites for a new building for the Niles Public Library District, purchasing agreement was signed on April 29. The site selected lies between Oakton Street and Oakton Court about a half block east of Waukegan Road. The property contains approximately 54,000 sq. feet and was obtained for $1.35 per square foot.

Many other sites had been considered but discarded for various reasons, principally unsuitable location for a public library, until the selection was narrowed down to four. A site adjacent to the new municipal swimming pool was finally ruled out because in spite of the excellent location its area of only 34,000 square feet was deemed too small to permit an adequate building with sufficient parking space, and the price of about $2.00 per square foot was too high to warrant limiting the library space-wise even to obtain this satisfactory location.

Another site at the corner of Shermer Road and Maine St., while favorably priced per sq. foot and suitably located, was so large that the total price would have been far more than the Library District could afford to pay. Furthermore the Board could not rationalize buying a house valued at $35,000 which would not be suitable for library use and would have to be destroyed. A site in Lawrencewood Shopping Center was also given serious consideration, but the final offer of sale placed the price at $1.75 per square foot plus a fee of approximately $3600 per year for parking area maintenance. This was considered unsatisfactory both because of cost and because of the dangers to children inherent in the location surrounded by heavy parking lot traffic. Previous publicity sc-

The May 16 test will be administered from 8 a.m. to 12 noon in the Maine East high school cafeteria. All test materials will be furnished to the students at the Maine East testing center.

According to Mr. Schultz, the test results will be of value to counselors and teachers for guidance and counseling purposes during the students' four years in the Maine high schools. The results will also help in the selection of high school courses which will be challenging and meet the needs and interests of the students.

Ballard School 6th Graders Visit Health Museum

Among the visitors at the Hinsdale Health Museum recently were 67 sixth grade students from Ballard School, 8320 Ballard Road, Niles, and their teachers, Mrs. Victoria Walsh and Mrs. Mary Durston. The students participated in a discussion program directed by one of the Museum staff using the Brain and Heart exhibits. In the Museum Theater, the students listened attentively to the Talking Glass Lady, Valeda, and a movie concerning heart and circulation.

Group tours are conducted by accredited biology teachers on the Museum staff who help formulate and carry out the year-round educational programs at the Museum. Tours are arranged to best suit each individual visiting group. The exhibits are thoroughly authenticated and tell the story of the normal human body and its functions. Also available are outstanding science films for viewing and a puppet play on the care of teeth which captivate youngsters. Through the use of moving parts, changing lights, push buttons and sound scripts, visitors are able to form a better appreciation of the human body.

Aptly described as "education in the round, with light and sight, and touch and sound", the Museum has welcomed over 353,000 visitors since its opening in 1958 by The Kettering Family Foundation. Hours are 9 to 5 daily and 1 to 5 Sundays. It is closed only on legal holidays. Admission is free. For advance group reservations, write Hinsdale Health Museum, Hinsdale, Illinois, or telephone FAculty 5-1900.

Letters TO THE EDITOR

Thanks Bugle

Dear Mr. Besser:

As publicity chairman of the Suburban Juniors of Morton Grove, I wish to express the appreciation of the club members and myself for the excellent cooperation we received from your newspaper during the past year. The amount of space given annually to our club projects is inestimable. With all the communication media available these days, it is still the newspaper that puts information into our hands in retainable form—to be read, digested and kept.

Many hours of work have gone into the preparation of articles submitted to the Bugle in order to bring interesting and informative facts to the Suburban Juniors and it is certainly rewarding to know we have a paper such as yours to publish our news in its entirety.

Our club is a member of the General Federation of Women's Clubs, the largest group of organized women in the world, having 11,000,000 members in 15,500 clubs in the United States and in 54 other countries. Its' president has declared that the GFWC had always strongly advocated the freedom of the press and that is has never been more important that it is today when more than half of the countries of the world live under a partial or complete blackout of news through censorship.

Again our deepest thanks and all good wishes, and I know you will give our new publicity chairman the same cooperation that you have always given my co-chairman and I.

Sincerely,

Mrs. Robert Whallon

Praises Firemen

The Stones wish to express their gratitude and thanks from the bottom of our hearts to the Niles Fire Department.

It is very reassuring to know that we have such a competent, considerate, efficient, and super-prompt Fire Department to protect us. We also appreciate the courtesies extended by all the men in entering our home; the men showed thoughtfulness and extreme care. We realize that if it wasn't for your great effort, our loss would have been much greater.

Thanks to all of you for a job well done!!

Sincerely,
The Stone Family

Expresses Gratitude

"Don't Hurry By, Hurry Back," the motto of the village of Niles, so justly adopted to fit the place we call home. The "we" is Bill Shea and I, two people very grateful to be saying that "we" will be near home at the end of this week. To everyone that was so kind and considerate to our family since Bill's accident, please accept our sincere gratitude. The doctor said, "the Great Physician" guided his skill and knowledge to make this possible. Your prayers and thoughtfulness made this possible. Asking God to Bless you and yours, I remain,

Bill Shea's wife,

President Kennedy Memorial Dance May 9

On Saturday evening, May 9, the Harp and Shamrock Club will kick off the Chicago area fund raising campaign with a dance at the Moreland Hall, 5022 W. Chicago Avenue. This affair will be under the guidance of Reverand Edward Salmon, guided by the Chicago Federation of Irish clubs, the parent body of twenty city and suburban Irish societies.

Mr. Walter Philbin, the Federation president announced plans for our group to assist in raising our share of the money needed to establish a living memorial to our late president, John Fitzgerald Kennedy, in the form of a forest park and arboretum overlooking the Kennedy ancestral home. The government of Ireland has set aside a tract of land over 400 acres in Wexford, Ireland. It will be established not only as a tourist stop but will be a research and educational center for forestry students from all countries of the free world.

A beautiful plaque, with the late president's picture intwined with the thirty two counties with harp and shamrock, set off with the shield of Ireland's four provinces will be presented to the national memorial committee at a later date. Individual names will be inscribed on this plaque, and an honorary listing can be yours for a donation of $5.00 or more. These names will be set in a book at the park in Wexford.

The entertainment will be arranged by Pat Roche and Jerry Sullivan of Niles. The music for the dance will be furnished by the famed Fitzgerald Ceilide band of the Keymans Club of Chicago.

Father Salmon will be assisted by Pat Hargadon, Joe Cullinan, Mike Burke, and Jerry Sullivan and Joe Bolin of Niles. Mrs. Kathleen Sullivan and Mrs. Joe Bolin will head the reception committee.

For any further information regarding the dance or memorial fund, contact Jerry Sullivan at YO 6-7907 or address your inquiries to Mrs. Kathleen Sullivan, 7328 Breen St., Niles, Illinois, 60648.

Park Ridge Teacher Resigns

Norris Angel, teacher of the Educable-Mentally Handicapped class at the Lincoln Junior High School, resigned on Saturday afternoon, April 25th. After a conference with Dr. Blair Plimpton, Superintendent of Schools, and Clifford Sweat, Principal of Lincoln Junior High School, his resignation was accepted. Mr. Angel related that he had gone out alone late Friday for some Chinese food, then went to a nearby place, where he had not been before, for something to drink. Before he had finished his beer, the place was raided, and he was taken to the County Jail.

When interviewed, Dr. Plimpton explained that teachers hold a responsible place in the community and that the administration had no choice but to accept the resignation under these circumstances. Dr. Plimpton said that Norris Angel had not planned to return in the fall, and that his resignation, effective June 15, 1964, was made a matter of record at the Board of Education Meeting in March. However, Mr. Sweat and Dr. Plimpton agreed that leaving the school district now would be the best thing to do as far as Mr. Angel's class was concerned, and his resignation was accepted effective as of May 20, 1964. He is on leave of absence in the meantime.

At the conference with the two school leaders Mr. Angel said that he realizes he had been put in a most difficult position, that his effectiveness with his class had been severely impaired, and that he would do what was in the best interest of the class, including resigning. No further investigation or action is contemplated by school authorities.

East Maine Council Endorses Industrial Park

The Joint Council of Civic Associations of School District 63, (East Maine), and parent organizations met Wednesday evening, April 22,1964, at Ballard School. An Executive Committee was appointed to plan and carry out community projects during the next year.

The chairman of the Executive Committee is Norman Henkels, 3441 Ashley Drive, of the Westfield Homeowners Association, Glenview. Vice-Chairman is F. S. Catlin, Golf-Greenwood Association, Des Plaines. Treasurer is D. Killips, Ballard Acres Civic Association, Des Plaines. Secretary is M. H. Levin, Twin Oaks Homeowners Association. Other committee members are: Ed Kolpek, Oak Meadow Association, Glen Wood, Ballard Acres Association, and J.M. Levin, Twin Oaks Homeowners Association.

All civic and property owners' groups in East Maine School District 63 are invited to participate in this Joint Council.

Book Fair At Nilehi West May 11, 12, 13

Hundreds of inexpensive books will be available for purchase by Nilehi West students and teachers during the school's Paperback Book Fair May 11, 12, and 13 in the library annex.

Miss Helen Porten, head librarian, said the school's department chairmen assisted the librarians in the careful selection of titles. "We'll have books to interest everyone," she added.

The Fair will be open a half hour before and after school each day. Most English classes, Miss Porten said, will visit the Book Fair with their teachers during the school day.

The books, supplied through Institutional Book Service, will range in price from 35 cents to about two dollars.

Although the library is sponsoring the Fair, it is a schoolwide project receiving the cooperation of the Art and English departments, the N Club, and the Future Teachers of America club.

The purpose of the Paperback Book Fair is to encourage students to read good books and to help them acquire informative and entertaining books for their own libraries.

Sees "Profit" Of $900,000 On School Site

(Cont. from page 1)

known as the Maine North site.

The two ponds total 16 acres and were excavated to secure sand and other fill at the time nearby tollroads were built.

The $900,000 figure is based on a contract warded this month by the board to Maine Improvement Co., under which the district will receive 30 cents a cubic yard for fill dumped into the ponds by the firm. Blueprints show there are approximately 300,000 yards to be filled at the Maine North site. Ball estimates that 10 times that amount of fill will be required to provide fo the rule of thumb4 "compression ratio" of 10 to 1 in other words, about 10 yards of loose fill compresses to one cubic yard.

However, there's a possibility the board will not fill all of each pond, retaining one or two small "lakes" for appearances.

If this is done the $900,000 figure would be reduced.

The land was purchased at the time Walter Craigle was president of the board. He is now chairman of building and grounds committee and in that position landfill program. New president is William Newport of Des Plaines.

CURRENTLY the board is also earning "side money" under a similar plan in construction of the new Maine South High school at Dee rd., and Talcott ave. in Park Ridge. A materials firm William Cowhey Co., of Chicago is purchasing sand on the site for the board 15 cents a cubic yard for fill dumped in the nearly empty sand pit. To date this transaction has netted the school district $6,000 and the figure is expected to reach $75,000 to $80,000 before completion. Maine South, the district's third high school, complementing Maine West and Maine East, is scheduled for opening in September.

In commenting on the sale of sand and the land fill operations. Ball this week stressed the point that the undertakings will result in substantail savings to taxpayers of the district. He also explained that in addition to earning money, the landfill plan will ensure readying the Maine North site before construction is begun. Ball also said that inquiries have been made recently by persons who want to purchase the site and build an industrial center, an offer he stated was turned down.

Although the property is now landlocked---inaccessible by road---Craigle told THE BUGLE that plans are being explored to lease a narrow strip of property just east of the tollway which would provide ingress to the west end of the site. Later on, he said, the board hopes to buy additional property near the tollway for ingress and egress.

Maine East Student Actor On "In Person"

Pam and Penny Pullen of the WMTH interview series "In Person" are pleased to announce that today's guest on the program is Maine East senior Dave Stout, who plays the role of Val Pickering in tomorrow night's performance of "My Fair Lady" at the school. Listeners will perhaps remember him as Prof. Harold Hill in last year's musical, "The Music Man."

The performances of "My Fair Lady" tonight, tomorrow, and Saturday each feature a different but equally excellent cast. Dave is one of the fortunate few who were chosen among the several hundred who gave auditions.

Nilehi West Special Student Activities & Achievements

From at least four corners at Nilehi West this week come special student activities and achievements, announced Dr. Nicholas Mannos, principal.

Mrs. Marilyn Sommerfeld, mathematics teacher, reported two members of the Future Teachers of America club recently appeared on television. Senior Sonja Johnson and Sophomore Carnell Zablocky, along with Mrs. Sommerfeld, appeared on the "Teacher for Tomorrow" program, Channel 11's Education Spotlight, to discuss projects undertaken by the Niles West PTA during the school year.

The foreign language department announced that two students enrolled in French classes recently won honors in a tournament held at St. Xavier. Jeri Packer won first place in the advanced portion of the tournament. This makes her eligible for an $800 scholarship.

Jeri was among participants from 23 high schools. In the same tournament, Janis Jacobsen won second place in the beginning French program. She was among students from 26 participating high schools.

The English department reported Senior Diane Majectic's poem, "The Damned" was accepted for publication in the annual ANTHOLOGY OF HIGH SCHOOL POETRY magazine. Diane wrote the poem as a part of her work in senior English.

Hans Andersen, chairman of the school's science department, received a letter from a former Nilehi student who has joined the Peace Corps and is now teaching in a secondary school in Thailand.

In his letter, Howard Sherman inquired about materials and literature regarding science fair projects. He said, "in the hope of stimulating my students' interests, I am planning a science club and a science fair for my school. I would greatly appreciate any help you can give me."

The science department also announced that Nilehi West science students have exceeded the greatest expectations of the staff in another category. Out of 66 papers to be read in the State Science Paper Session this weekend at the University of Illinois, 11 of them will be those of Niles West science students.

To enter this competition, students submit their research papers to an evaluation committee established by the Illinois Junior Academy of Science. This year the committee evaluated over 500 papers, selecting 66 to be read.

Nilehi West students whose papers were selected are Susan Griff, Edward Linn, Douglas Lipman, Lee Weiss, Stuart Cohen, and Mark Silvert.

Also, Marlene Kanuik, Lawrence Geni, Sharry Rugendorf, Carol Egel, and Robert Turner.

Des Plaines Theatre Guild

Martin Charet of Niles, Jane Clark and Mary Fisk of Des Plaines, and Toni Sawyer of Park Ridge serve on the properties committee of the Des Plaines Theatre Guild's final play of this season entitled "Everybody Loves Opal". The stage will be littered with stacks of newspapers, barrels and miscellaneous articles that Opal, the lovable recluse of the play has collected in her red wagon.

This "farce in three acts", as the author, John Patrick, refers to the play will be presented May 8, 9, 15, 16, 22 and 23 deals with Opal's adventures with three crooks who are boarders in her tumbled down residence.

Members of the properties committee have combed second-hand shops and come up with a broken statue, a chamber pot, which it is rumored will be used to make Opal's famous tea. One Guild member has volunteered to save all of her used tea bags, an important property for this wild production. You see, Opal never throws anything away. A kerosene stove was borrowed from the Country Club Theatre, which was used in their production of Opal. It will take two committee members at each of the six performances to make sure all of these odds and ends are in place at the proper time.

This play is a must for local theatre goers! It can be seen in the comfortable and attractive new Guild Theatre, 620 Lee Street (at Miner) in Des Plaines by contacting Mrs. John Clark, 824-8019 for reservations.

Thursday, May 14th – Washington and Melzer Schools at Melzer from 1:00 to 2:15 P.M.

Friday, May 15th – Mark Twain and Ballard Schools at Ballard from 1:00 to 2:15 P.M.

The students will be transported to the proper school by bus and the parents will go directly to the school indicated.

Mr. Latney Field, principal of East Maine Junior High School, "hopes that parents will recognize the importance of these meetings and will make a sincere effort to attend the one scheduled for them."

Niles Fire Department Increases Training Staff

Two Niles firefighters recently completed a five-week American Red Cross First Aid Instructors course. This will enable the fire department to expand its training program which already includes various civic groups, police officers, public works employes, and scout groups.

The firefighters are Gerald Cameron and Harry Kinowski, Jr. This will bring to three the number of Niles firefighters who qualify as instructors. The other member is Lieut. Robert Larson.

The two new instructors will receive their certificates of appointment as soon as they complete an eight-week junior first aid training course now being given to a local boy scout group.

With the aid of "Resusci-Anne," a life-like inflatable mannequin, Cameron and Kinowski will also give instructions in mouth-to-mouth breathing, the most effective method of artificial respiration known.

Nilehi West Letter Club Contributes To Leukemia Fund

Nilehi West's Varsity Athletic Lettermen's Club recently contributed more than $250 to the Leukemia Fund in memory of former senior Dennis Herkert, who passed away last spring.

Dennis, son of Mr. & Mrs. George Herkert of Lincolnwood, was a Niles West athlete and letter winner who partpcipated in football, wrestling, and baseball. He was also a member of the "N-Club."

The contribution came from a part of the proceeds realized in the annual Niles West "N-Club" - Faculty basketball game.

Richard A. Melvin, trustee for the Greater Chicago Chapter of the Leukemia Society, Inc., who accepted the donation from Senior Bill Hohs, said that money received by the society is used for medical research, patient aid, and public education.

He commented that significant in leukemia research is the present optimism and enthusiasm of medical persons and scientists that a breakthrough is in the offing.

Encouraging also, he said, is the fact that some patient longevity has doubled in the last five years due to improvements in x-ray and chemotherapy techniques as a result of research and study.

Melvin emphasized that researchers are needed in this area and that because of this need an excellent opportunity exists to young people looking for a profession. Presently, leukemia researchers, both men and women, are doing work all over the world.

Melvin also mentioned that blood donors, persons between 21 and 60 years of age, are needed.

William Paulsen, social studies teachers and also coach, is faculty sponsor of the school club making the donation.

'Don't Leave Children Alone' Warns Niles Safety Council

Do the first touches of Spring give you a restless urge to get out of your house...to share a cup of coffee with the neighbor next door, do a bit of shopping, or run a quick errand? Do it!

But don't leave your small children alone in the house while you're off somewhere, says Orville Ottow of the Niles Safety Council. Hundreds of children are killed by fire each year because parents gambled that nothing will happen while they were away "for a few minutes."

The shocking fact, established by National Fire Protection Association studies, is that one child out of every three who die in fires was alone and helpless when the fire struck.

What causes these fires? Sometimes it seems as if the fire was just waiting for the time when youngsters could be trapped. More often it's the youngsters themselves who start the fire.... playing with matches, turning on kitchen stoves to "cook", accidentally tipping over space heaters.

Small children are helpless in the face of such situations. Whenever you are tempted to run off for "just a few minutes" without the children, don't. Take them with you, or leave them home with a competent older family member or babysitter. Play it safe, and you'll never be sorry!

Elect 23 Students To Maine East Quill And Scroll

Twenty-three juniors and seniors of Maine East high school were elected last week to Quill and Scroll, national journalism honorary society, Principal Milo S. Johnston announced.

Six seniors and seven juniors joined the three seniors who were already members of the society and on the staff of the Lens, the school yearbook. Five seniors and five juniors were added to the roster of three society members on the staff of the student newspaper, the Pioneer.

Seniors who were added from the staff of the Lens were Terry Broderick, 3227 Greenbriar, Glenview; Pat Caracci, 9342 Overhill, Morton Grove; Linn Clark, 717 S. Clifton, Park Ridge; Nancy Cowger, 8008 Oakton, Niles; Ron Lammers, 1776 Evergreen ln., Park Ridge; and Don Rowley, 313 Redfield ct., Park Ridge.

Seniors elected from the Pioneer staff were Isabel Anderson, 9065 N. Cumberland, Niles; and from Park Ridge, Barbara Finfrock, 122 Talcott rd.; Geoffrey Harpham, 822 S. Prospect; Karen Holly, 619 S. Crescent; and Barbara Tobin, 2315 Dempster.

Four juniors elected from the Lens staff were from Park Ridge: Bruce Childs, 431 Wisner; Kris Duyckinck, 821 Goodwin; Nancy Fleischman, 1025 S. Washington; and Anne Haake, 306 W. Cuttriss. From Niles are Craig Anderson, 8267 N. Washington, and Marguerite Ott, 8323 N. Oriole. Bobbi Koppel, also a junior on the Lens staff, lives at 7512 W. Davis, Morton Grove.

All five juniors from the Pioneer staff live in Park Ridge: Haymong Hilgermann, 705 S. Lincoln; Lee Kaufmann, 805 N. Goodwin dr.; Shari Lewis, 2205 Farwell; Kathleen Moore, 605 S. Prospect; and Corinne Schmidt, 1900 S. Ashland.

Completing the honor society's roster are the three seniors who were elected last year from the staff of the Pioneer, all from Park Ridge, plus three more Lens staffers. In that order, they are Lynn Dieter, 126 Elmore, Pioneer editor in chief; Dick Everett, 1331 N. Elliott; and Mary Morris, 8211 S. Aldine.

Andi Schiff, Lens editor in chief, elected last year, lives at 8819 N. Olcott, Morton Grove. Others are Gerry Koy, 117 Stolting rd., Niles, and Sue Ikler, 933 N. Lincoln, Park Ridge.

On May 22 the staffs of both publications will hold their annual dinner to honor the new Quill and Scroll members and to hear the names of the new editors for both publications disclosed. Because of the opening of Maine South, the editors of the as-yet un-named publications of that school will also be read at the dinner.

Sponsors of the maine East publications are Kenneth Beatty for the Pioneer and Carroll Chouinard for the Lens. Beatty will go to Maine South in the fall and sponsor the student newspaper there. Chouinard will remain at Maine East.

One in a series to help you enjoy better telephone service
How to get your phone fixed—without charge
If anything goes wrong with your telephone, call our repair service. You will find the number on the first page of your local telephone directory. If required, a telephone man will come promptly. He will fix your phone or replace it, if necessary—without sending a bill. It's all part of your regular telephone service.
We'll Fix It—Fast
Regular preventive maintenance keeps most phones trouble-free. In fact, the average not-a-speck-of-trouble time is about four years. But if anything does go wrong—a cord gets permanently twisted like a pretzel, the bell doesn't ring, there's no dial tone, or some other trouble—our repair service will act quickly to put things back in order. Someone is on hand 24 hours a day to take trouble reports.
No Extra Charge
The trouble tester can often locate the cause of the trouble right from the central office. And sometimes it can be fixed without a visit to your home or office. We repeat, if anything goes wrong with your phone, call our repair service. We'll fix it fast and with no extra charge. It's one of the values you receive with your telephone service.
