most North Shore communities, studying the model North Shore communities, we could all benefit by their successes. Likewise, studying all our neighbors, would prove helpful in improving our governments.

The problems of sewer, water and the hundreds of constant problems we're confronted with have been met and studied by communities everywhere. Wrestling with these problems as if they're new and unfamiliar is as time-consuming as they are wasteful. A study of our neighbor's activities through the years would be beneficial for all.

Perhaps if local village boards in the north and northwest areas met four times yearly, or submitted quarterly reports to one another, it would prove beneficial to all. Certainly there is a need to take the best of each community and apply it to our own.

Library Vote Set For July 25

The Niles Public Library District Bond Issue election will be held on Saturday, July 25th from 6:00 a.m. to 6:00 p.m. There will be two polling places; those residents of the library district living south of Oakton Street will vote at the Library, 7944 Waukegan, Niles, and those voters of the library district residing north of Oakton will cast their ballots at Notre Dame High School, Dempster Street, Niles. Absentee ballots may be obtained by calling Mr. James Orphan, YO 5-2282 for those who will be vacationing out of town on the day of election.

To acquaint voters with the proposal, a presentation of architects plans and drawings will be made at two open forum meetings which will be held on Thursday, July 9th at 8:00 p.m. in the Niles Public School, Touhy and Franks and on Monday, July 20th at 8:00 p.m. at Notre Dame High School. The library board members, library administrator, library attorney and architects will be present to answer any questions posed by those in attendance.

Brochures will be distributed to homes within the next weeks and in the event you are missed, these may be obtained at the library and at the open meetings. Four library trustees are Mrs. Clarence Culver, Mr. Carlisle Esser, Mr. Sigmund Lewicki, Mrs. Oscar Meyer, Mrs. Sidney Branch, Mrs. Edward Walger. The library administrator is Mr. Francis Allen. Should you be unable to attend either of the open meetings any of these people will answer any questions you might have concerning the library proposal. An artist rendition of the proposed new library building and the architects floor plans may be viewed at the library, 7944 Waukegan.

When you go to the polls on July 25th be sure your ballot is talked and not among those discarded as spoiled. Posted in each polling place is a card indicating the proper way to mark your ballot.

Sprinkling

The lawn sprinkling regulations in the Village of Niles are as follows: persons having even house or business numbers may use water for sprinkling purposes on even numbered calendar dates, and those persons having uneven house or business numbers may use water for sprinkling purposes on odd number calendar dates.

Marcheski reported the men behind the Lawrencewood theatre would be divorced from the aforementioned theatre operations.

The intended theatre will house eight-hundred seats. It was agreed that the Lawrencewood interests and theatre interests would like to "get going as soon as possible". It is likely trustee approval will be received July 14 or 28, and that plans will be activated immediately.

Lawrencewood Center developer Krilich said he expected the theatre building would begin two weeks after approval and completion of it would be late Fall.

LIBRARY BD., PLAN CHAIRMAN AT ODDS OVER JULY 25 PLANS

Urges 'No' Vote On Library Bldg.

The long quiet summer in Niles, which anticipated the passage of a library referendum for \$575,000 July 25, met unexpected opposition the past week from Plan Commission Chairman Walter Schroeder. Lazy warm summer days seem to weave a spell of apathy over most communities, and bond issues often find little resistance during such a period. But Schroeder's criticism of the library board, as well as all elected boards in Niles, for failure to seek coordination of their plans in building improvements in Niles, may well create unexpected resistance to the library's plans for the Waukegan-Oakton site, which Schroeder deems is a "bad" location.

The following is the complete letter received by THE BUGLE this week:

Gentlemen:

There are many managers and executives whose pride will not permit them to seek and use all of the professional advice available to them within their own company. Their personal glory, or power, motivated egos prevent them from improving their own performance through the use of the specialized talents, experience, advice and judgement which various staff personnel are especially equipped to provide.

About a year ago we witnessed a similar situation in our municipal affairs when the Park District was planning the new swimming pool. Only through the vigilance, insistence, and persistence of the Plan Commission was the Village assured of a properly planned traffic pattern for the pool area. Why did the Park Officials not seek to coordinate their plans with other village activities? In part, this was due to the legal opinion that, as a separate taxing body, the Park District has autonomy. But does this preclude them from fulfilling their obligation to do the best possible job for the citizens? Is autonomy a substitute for thorough planning and the exercise of good judgement in the use of those autonomous tax dollars? Does autonomy relieve such officials from the obligation to fit their plans for physical development into the needs and plans of the total area?

Library Bd. Lashes Back At Schroeder

Niles Library Board lashed back at Plan Commission chairman Walter Schroeder in a news release sent to THE BUGLE Tuesday. Obviously, irked by Schroeder's criticisms (column 1) the library board points out Schroeder was absent from a combined meeting, in which he was invited to when the library board went over its July 25 building plans with Niles Village Board.

In a paragraph, obviously tinged with sarcasm the release opines whether or not "Schroeder will bother to attend the next public meeting to be held at Notre Dame High School on July 20 at 8:00 P.M." The following is the news release submitted by the Library Board:

On July 25 the voters of the Niles Public Library District will have an opportunity to express their desires for an adequate library facility. At present the children of Niles have no access to any library, except the present inadequate facilities in the village. The libraries in surrounding areas have been obliged to limit service to their own constituencies because of the tremendous increases in student loads that have been occurring in recent years. The development of Niles Public Library comes now at exactly the right time to benefit both the adults and children of the village to the greatest advantage.

The library laws of Illinois have made it possible to set up libraries in autonomous districts in order to remove them from political interference and to enable the voters to have more direct control of their library services. In 1959 such a district was established in Niles by a vote of the people, and a board of six trustees was elected to supervise the planning and management of the library in the best interests of the people. After a thorough study of the library needs of the community, this board of trustees went about seeking the services of a librarian trained and experienced in library administration and in planning and construction of library facilities.

As was reported last year, Mr. Francis S. Allen was selected for this position on the basis of his educational back-

Gary Wagner, 8523 N. Osceola Ave., Niles, receives trophy from Chicago Cubs star, Ernie Banks, after being selected the "Most Outstanding Student" from among more than 200 boys attending the Ernie Banks Baseball Schools. The ceremony took place Saturday, July 11, before the game between the Cubs and San Francisco Giants.

Gary Wagner Named Outstanding Baseball Student Men's Softball

by Tony Brenner

A Niles boy received an unexpected early birthday present Saturday, July 11, as he was honored as the "Most Outstanding Student" of all the Ernie Banks Baseball Schools.

What is Gary's formula for being such a standout baseball pitcher? "I practice throwing a lot with my father and also against the garage where I made a square target," he explained.

He is Gary Wagner, 8523 N. Osceola Ave., who was 12 years old on July 12.

As a symbol for his achievement, Gary was presented with a trophy by Ernie Banks at a special ceremony before Saturday's game between the Chicago Cubs and San Francisco Giants at Wrigley Field.

"Gary was selected from among more than 200 boys 7 to 14 years of age who attend the Ernie Banks Baseball Schools in Niles, Elgin, Mount Prospect, West Chicago, St. Charles, Joliet and Coal City," Banks said. The star first baseman added, "Competition for the honor was extremely close."

"In setting up the award," Banks explained "our three-man instructional staff was advised to select the student who best demonstrated these four qualities: desire to learn; ability to master techniques taught; attention to fundamentals; and dexterity during drills."

The award is the first to be given by the Banks Schools. Another "Most Outstanding Student" will be named from among the boys who attend a second group of schools which are expected to start during the week of July 27.

The Niles Park District Recreation Department has been sponsoring the Banks School to which Gary has been attending. It is held at Jozwiak Park, Touhy and Frank Aves., Wednesdays from 1 to 4 p.m.

The son of Florence and Cliff Wagner, Gary is in his third year with the Niles Baseball Little League program. His ambition is to become a major league pitcher and earn enough money to buy his own golf course.

A right-handed pitcher for the Cardinals, he is undefeated in seven straight games. In 48 innings he has struck out 104 batters and has not walked a man.

"My daughter, Kim, 7, and I are always at the games to cheer him on," Mrs. Wagner said. "I have never missed a game all the time Gary has been playing and that includes when he was on a Peanut League team," she smiled.

Gary, who will enter the seventh grade at East Maine Jr. High School next year, also has become very interested in playing golf. "I definitely want to buy my own golf course when I grow up," he said.

The Banks instructional program offers boys 7 to 14 years of age complete courses in batting, pitching, fielding, catching and base running.

In addition to the current schools, several new locations are expected to be announced shortly.

'Mental Pollution'

Dear Mr. Besser:

On July 1 of this year a living nightmare occurred in Chicago. The life of a devoted mother, loving wife and dear friend came to a needless end. She was murdered and her death was caused by a "product" of our society.

We as a society condone the planting of the seeds of evil into a weak mind by allowing and encouraging the sale of smut magazines, the featuring of so-called sophisticated, adult-only films, and the dramatization of hideous crimes on television.

The smug of our society says there is nothing wrong with this "mental pollution" and yet it is strange that these same people demand drinking water from their taps which will be of a condition safe enough so as not to effect their physical health.

The leeches who are bleeding our community of its dignity by purveying the source of "mental pollution", which eventually diseases the weakened mind, are as responsible to the public's safety as the city officials are in maintaining a level of purity in the water we drink.

If we want a reasonably safe community we must encourage our civic officials to institute a research program, employing all the scientific knowledge, police records, etc., to establish what level of lascivious entertainment is required to disease the weak mind. This is a mental health problem and should be treated as such.

Our generation must leave to our children a society which is more suitable to live in than we have today.

Sincerely,
George Sawicki

BUGLE' Off Key'

Dear Mr. Besser,

Quite often one can pick up the "Bugle" and read something real stupid. And I refer specifically to your "Left Hand Column" of this date, wherein you refer to our coming conventions as, "that annual period known as political hokey" and to which you also refer to as a "circus".

If, Mr. Besser, you get so bored and exasperated, why don't you go to Russia, for there you will see an election with "an awe of disbelief". As a matter of fact, real close to our shores is Cuba—why don't you go over there and cover for your "Left Hand Column" their elections—Mr. Besser, THERE is where you will truly find "political hokey" and a "circus" to boot.

Not for one moment do I discredit the leaders in our area, but it is incredible for me to believe that with their limited experience of running a community of 25,000 that they could vie for the "top post" and undertake the problems of running a nation of 192 million.

President Johnson and Senator Goldwater have devoted most of their lives in serving our government and they both have EARNED their respective posts today, and it will be our choice to vote in November for the one we think best if both conventions elect these men as candidates for their respective parties.

It would be best for the "Bugle" and for all of your readers.

CANCER

Cancer is a word which has come to have great meaning in our society because rare is the household which has not felt the trauma and heartache of this marauder. What is Cancer? Simply stated, it is a harmful growth of body tissue that uncontrolled will choke off one or the other of the body's useful functions. According to recent statistics, one man in eight and one woman in eleven is destined to die of this disease. Although incidence of the disease seems to be on the rise, certainly much of the increase can be attributed to the fact that people are living to a ripe old age, plus the fact that diagnostic techniques are ever more effective. However, Cancer is not to be considered a hopeless and incurable disease. It is, in fact, one of the most curable when early manifestations are detected and corrective action is immediately taken. A strong aura of hope in the picture is that controls in accessible cancers have been very successful. It is, then, in the province of the individual to seek medical help quickly when any abnormality is apparent. The American Cancer Society lists the "7 Danger Signals," that each person

should be aware of. They are:

1. Any sore that does not heal.
2. A lump or thickening in the breast or elsewhere.
3. Any unusual bleeding or discharge.
4. Any change in a wart or mole.
5. Persistent indigestion or difficulty in swallowing.
6. Persistent hoarseness or cough.
7. Any change in normal bowel habits.

Adults, particularly those over 40, should be ever alert to any unusual symptom. Of course, the importance of a thorough routine annual examination cannot be overstressed; and particularly in women, the employment of the Papanicolaou (or Pap Smear) test may be a life saving procedure.

Commends Niles Fire Department

Gentlemen:

Just a note of commendation for the Niles Fire Department, Friday evening, July 10th, the back seat of a car parked in your parking lot was smoldering from a burning cigarette. We tried to put the flame out with our fire extinguishers but the seat continued to smolder. I went back into the theatre and called the Niles Fire Department from my office. By the time I went back to the parking lot, a matter of three minutes, I heard the siren of the approaching fire truck.

Within five minutes of my phone call to the fire department, the fire was put out.

The Golf Mill Theatre is proud to be part of a community that houses such an extremely capable and efficient fire department.

We doff our hats to the chief and his crew.

Sincerely yours,
Bene Stein

Captive Nations

The letter below was mailed to 5000 churches in Illinois and Wisconsin combined.

Dear Reverend Pastors and Fathers:

This is a cry for your prayer—for one short prayer on behalf of persecuted Christians behind the Iron Curtain. Would you give us a prayer? That is all we ask.

The following events have taken place in the Soviet Union during the first five months of this year:

The 23rd congress of the communist party has passed a resolution in order to "eliminate all religious prejudice among the soviet people."

A new "Academy of Anti-Religious Science" has been established for the purpose of training "missionaries of atheism."

According to the soviet newspapers, the so-called peoples courts are dealing the most severe punishment imaginable to religious parents, accusing them of "poisoning the minds of innocent children." The usual verdict is a "denial of the rights of parents", which means taking the children away from their families and placing them in boarding schools operated and supervised by the godless soviet state.

The taxation of church buildings and ministerial income has become so exorbitant that congregations are being taxed out of existence.

The churches behind the Iron Curtain again are involved in the struggle of life and death with the powerful and ruthless communist party.

By the Resolution of the Congress of the United States, and by the Proclamation of the President, the week of July 12 to July 19 has been set aside as Captive Nations Week. We humbly ask you and your congregation, dear pastors and fathers, to join with us in prayer and to be together in spirit with the Christians treading the path of Via Dolorosa behind the Iron Curtain. Please let us hear from you.

Legion Expresses Thanks

Gentlemen:

The Morton Grove Post 134, American Legion, wishes to thank all the people for their generous patronage of our Line and Line carnival last weekend. It is only through the support of this four day event that we can continue the programs we have outlined for ourselves for the whole year.

We would also like to thank the neighboring villagers adjacent to the carnival grounds for their endurance during the affair. We realize the noise, cars and others sounds can become bothersome.

The police, Civil Defense and other organizations did outstanding work also, and again our thanks.

TB Mobile X-Ray Unit In Niles August 3 & 4

"Doctor, lawyer, merchant, chief — rich man, poor man... No matter the status, the age, or other particular circumstances, tuberculosis is a disease that can hit anyone.

Dr. E. A. Piszczek, field director of the Suburban Cook County Tuberculosis Sanatorium District, pointed to the above unalterable grim fact, as the yearly chest x-ray survey in the Cook County suburbs entered into its seventh week.

"As an example," said Dr. Piszczek, "during the first half of 1964, four physicians from the North and Northwestern suburbs were among the newly found tuberculosis cases. Their ages range from 30 years to 50 years. Inasmuch as doctors, who are generally more aware of health precautions than the average person, become victims of the elusive lung illness, it can be seen that no one can be sure that TB will not get him. One of the best guarantees is a yearly chest X-ray which make possible early detection, which in turn makes possible a shorter treatment period."

The annual chest X-ray survey in the suburbs is conducted jointly by the District and The Tuberculosis Institute of Chicago and Cook County (the

Christmas Seal Agency). The search for unknown victims of tuberculosis also is sponsored in cooperation with local health departments. In addition, community clubs and other organizations are participating by providing the great number of volunteers needed to aid with registrations at the mobile units.

Three chest X-ray buses are making the tour in the South, West and North suburbs. New locations in the West and North areas are announced this week.

White Betty Gazzolo, R.N., of 5127 Oakton, is recruiting volunteers to aid at the mobile chest X-ray unit which will be stationed in Skokie for five days, beginning Monday, July 27, the Institute has announced that the screening bus will move to Niles on Monday, August 3, also for a five day stay.

Meantime, announcement also is made that admissions to Suburban Cook County Tuberculosis Sanatorium in Hinsdale, for the month of June has included four residents from Niles and one from Skokie. A yearly chest X-ray is urged in fighting TB.

For the convenience of residents and those who work in

the area, the X-ray unit will travel to two locations in Skokie, and to two in Niles.

The Skokie schedule is as follows: On Monday, July 27, through Wednesday, July 29, the unit will be at Turnstile Family Center store, 9449 Skokie boulevard, holding X-ray hours from 1 p.m. to 8 p.m. on Monday; and from 11 a.m. to 6 p.m. on Tuesday and Wednesday. On Thursday and Friday, July 30 and 31, the bus will be at Jewel Tea Co., 5222 W. Touhy, holding X-ray hours on Thursday, from 11 a.m. to 6 p.m., and on Friday from 2 p.m. to 9 p.m.

In Niles, the survey will be as follows: on Monday and Tuesday, August 3 and 4, the unit will be at Topps store, Harlem and Dempster, with X-ray hours from 1 to 8 p.m. Monday; and on Tuesday from 10:30 to 5:30 p.m. From Wednesday, August 5, through Friday, August 7, the site will be at the Golf Mill Shopping Center, Milwaukee and Golf Road, with X-ray hours Wednesday from 10:30 a.m. to 5:30 p.m. on Thursday and Friday from 2 p.m. to 9 p.m.

A new slate of officers were elected at the May meeting to serve on the committee for one year. Scouts And Leaders At Boy Scout National Jamboree

Eighteen scouts and two leaders from Niles and Park Ridge are attending the sixth National Jamboree at Valley Forge, Pa., and together with some 50,000 others, are camping on the same ground, among the same hills and with the same determination to carry forward their American heritage as shown by George Washington and his men during the Revolutionary War.

As the Maine Ridge district boys work and play with these scouts at the jamboree, their colorful uniforms will be a continuous reminder that scouting is a world-spanning brotherhood of close to ten million boys in eighty-four different countries. The various languages, colors and creeds are different, but the ideals are the same: the ideals of the common scout oath and law.

Washington, D.C., was the site of the first national jamboree in 1937, followed by Valley Forge in 1950, Irvine Ranch, Cal., in 1953, Valley Forge again in 1957 and Colorado Springs in 1960, the fiftieth anniversary of the Boy Scouts of America.

On July 18 jamboree campfires will blaze to life at the close of American Heritage Day. Scouts everywhere will join them around thousands of heritage campfires to honor the ideals symbolized by Valley Forge.

Mike Tracy, eagle scout of troop 62, believes that each scout can contribute to our country's heritage by acquiring a deeper understanding and appreciation of all that we have inherited as our birthright, striving to enrich ourselves and future generations as contributing citizens and widening the knowledge and feeling of all in the value of our heritage.

Flags of more than fifty nations will be on display, waving briskly over the campsites of American and foreign scouts—guests from countries as close as Canada and Mexico, and as far away as the Philippines and Japan.

R TWO GREAT DANGERS TO YOUR EYES

There are many causes of blindness, from congenital defects to accidents. But, two different degenerative and progressive diseases are a great danger to persons over 40. Senile cataracts cause about 13% and Glaucoma about 14% of all blindness.

But cataracts can be safely removed and glaucoma can be controlled, providing the diagnosis of either is made and treatment begun in its early stages. The only sure way to guard against these two dangers is to have your eyes examined by a Doctor every two years after the age of 40. It takes an expert to diagnose them.
