Garden Club Members Spread Holiday Cheer

Members of the Garden Club of Niles have been busy spreading Holiday Cheer.

In early November Mrs. F. Zakowski, Chairman of the Plant, Flower and Fruit Guild for the Garden Club of Niles, delivered to the State Hospital over 50 pounds of jams and jellies, hundreds of magazines and many boquets of mums donated from member's gardens. The boquets were distributed in "vases" made from plastic soap containers which the members decorated a few months ago. Also brought to the State Hospital were over 50 bags of candy. Mrs. Zakowski wishes to thank the members and many friends of the Garden Club of Niles for their generosity and thoughtfulness.

Thanksgiving trays at Lutheran General Hospital were made brighter with the addition of Tray Favors with a Thanksgiving motif. The favor was designed by Program Chairman Mrs. Vincent Volpe, and members gathered at the home of Club President Mrs. Raymond Fangrat to help make an ample supply of favors, which were delivered to the Hospital in time for the Holiday.

Plant, Flower, and Fruit Guild Chairman Mrs. Fred Zakowski has been allocated funds from the Garden Club of Niles, to purchase again this year, a Christmas Gift for the State Hospital. For many years past, the Garden Club has been helping bring Holiday Cheer to patients at the Hospital, by purchasing and placing Aluminum Christmas Trees with revolving stands, and colored spotlights in various wards of the State Hospital.

Girl Scout Troop 127 At Camp Pine

Camp Pine recently hosted Girl Scout Troop 127 for a two night overnight and the weather was ideal. It didn't begin to be inclement until going home time. Assisting Troop leader Mrs. James Huml, were Mrs. Joan Wagner, Mrs. Robert Huelsman, Mrs. Shirley Beth and Senior Scout Leslie Sawyer. The girls enjoyed doing their own cooking and cleanup and the chores that got the most volunteers were wood gathering and water toting. A hike to Lake Beck was on the Agenda for Saturday.

Each patrol cooked two meals and made centerpieces, etc. The girls all began a sewing project and several of them were able to take the finished project home for holiday use. Many badges were begun and a few were finished. Four girls were unable to accompany the troop because of illness.

Niles West PTA Faculty Dinner December 15

Starting off December holiday festivities, Niles West's PTA will present its fifth annual faculty dinner in the West cafeteria at 6:30 p.m., Wednesday, December 15. This is West PTA's traditional way of saying "thank you", on behalf of all West parents, to the school's teachers and administrators, the members of the board of education, with wives, husbands, and special guests.

Mrs. Arthur Bontze of Morton Grove and Mrs. Frank Buchel of Lincolnwood, dinner co-chairmen, and their committee, with the assistance of Mrs. Rudolph Hill, PTA president, and the Niles West PTA board, will cary out decor and entertainment this year around the theme, "Our Favorite Stars...This is Your Night!"

Mrs. Hill expressed the feelings of most parents at West when she stated that this dinner is a tangible expression of appreciation to the teachers, administrators and school board members of the Niles Township Community High Schools. "These people are meeting the educational challenges of our times with admirable success and foresight," said Mrs. Hill, "and we want them to know we are aware and appreciative of their efforts."

The full PTA board assists in this annual event, which includes obtaining various food donations from West parents. Those serving on the dinner committee include: Mrs. L. Christensen, Mrs. A. Comyn, Mrs. E. Culloton, Mrs. H Delfs, Mrs. D. Derdiger, Mrs. L. Eisenberg, Mrs. W. Galowitch, Mrs. Eric Heilbron, and Mrs. D. Hoppe. Also Mrs. G. Johnopolos, Mrs. G. Kauffman, Mrs. J. Kristof, Mrs. M. Lazar, Mrs. L. Pontarelli, Mrs. A. Pysno, Mrs. I. Sass, Mrs. G. M. Seifert, Mrs. H. Senn, Mrs. C. Willert, and Mrs. J. Zelienka.

Entertainment keyed to the theme is being arranged by Mr. John Bush, 2nd Vice President of the PTA, assisted by West teacher, Miss Mary Hoffman, in cooperation with Mrs. Gus Swanson, 1st Vice President and PTA program chairman. Stereo music is being set up for this fifth annual dinner party, at which over 325 guests are expected.

Troop 62 Needs Boy Scoutmaster

Their charter lists some 36 Niles boys as members in good standing—the only thing Boy Scout Troop 62, sponsored by Niles Community Church—needs is a Scoutmaster. Help! Help! Anyone interested see Institutional Representative Dan Tracy, 7963 Odell Ave., Niles, Phone 967-8634.

Lack of an adult leader has not held back the boys however, according to Assistant Leaders Gerry Anderson and George Gauthier. At last week's impressive Court of Honor Ceremonies held at the church, the following advancements were announced: New Tenderfeet: Craig Brooks, 7053 Monrow, Michael Burns, 8226 Milwaukee, Robert Clauson, 7897 Seward, Bradford Cole, 7940 Keeney, and Terence Kelly, 6928 Seward St.

Seven boys attained the rank of Second Class Scouts, Greg Anderson, 7449 Waukegan Rd., Scott Brooks, Michael Burns, Edward Burns, Jeffrey Kaye, 8713 Osceola, Steven Kramer, 7102 Seward, and Frank Wichlac, 7955 Keeney St.

Three boys were advanced to First Class Scouts, Robert Gauthier, 6852 Keeney, Scott Leal, 8244 Newcastle, and Donald Telford, 8150 Susan Ct. Frank Bruni of 7300 Neva Ave. became the newest Star Scout in the Troop, as well as earning Merit Badges for Camping, Canoeing, Pioneering and Citizenship in the Nation.

Other Merit Badges awarded were given to Larry Pagni of 7255 Nora (Camping, Canoeing and Cooking); Ken Krejsa of 8631 Merrill (Pioneering and Canoeing); Richard Gauthier (Canoeing); and Richard Lawrence of 8050 Elmore Ave. for Aviation.

Current activities of the Troop include furnishing a color guard to Niles School PTA, preparation for a District First Aid Meet in January, a Christmas roller skating party at the Pladium in Glenview, and a camp-out at Camp Dan Beard which has been set for the last week-end in January.

Leaders Anderson and Gauthier join in saying, "If these boys are this ambitious and hard-working without a Scoutmaster, just imagine what they could do with one." Interested in a rewarding job—step right up!

Chief Hoelbl Gives Rules Of Fire Safety

Nilesites were cautioned by their fire department to take simple precautions to ensure that the holiday season will not end in tragedy.

Fire Chief Albert L. Hoelbl said that the Yule season is often marred by needless, unnecessary tragedy which could have been avoided by following a few simple rules of fire safety.

Some of these rules are:

1. If using a natural tree, keep it well watered.

2. Keep tree well away from sources of heat.

3. Use approved flocking material only.

4. If using a metal tree, do not use electrical decorations.

5. If using a plastic tree, make sure it is non-combustible or is slow burning.

6. Use fire safe decorations and wrappings around trees.

7. Buy fire safe gifts and make sure electrcal toys bear the Underwriters' seal.

8. Make sure the circuit serving the tree is not over 15 amps. If going out for the evening, turn tree lights off.

9. Don't allow smoking near the tree amidst decorations and wrappings.

10. Supervise small children playing near the tree. Keep matches, lighters and candles out of their reach.

Above all, Chief Heolbl stressed, if fire should strike, get your family out of the house and call the fire department immediately on 827-2121.

Troop 283 Tours Fire Station

The Niles Fire Department was a scene of activity on November 16 for the Brownies of Troop 238 went to visit. There, together with Mrs. Dominick, Mrs. Franke, Mrs. Zelinskiand Mrs. Rothernberg. The scouts toured the various departments, saw the trucks, snorkel, hose storage places, washing facilities for the trucks, the sleeping quarters and the fabulous kitchen. The aroma of those ribs—the scouts are still talking about that. In fact, many a supper was snobbed because of them. This visit showed the scouts how very important our fire-fighters are and how everyone works as a team.

Niles GOP Corned Beef & Cabbage Huge Success

The Corned Beef and Cabbage Dinner held November 27 by the Regular Republican Organization of the Village of Niles turned out to be a huge success. The food was the finest and the guest speaker, the Hon. Harold R. Collier, Congressman of the 10th District, gave a very informative and entertaining talk. Two of the many subjects he touched on during the evening was the Viet Nam situation, which he stated, although it has turned in our favor, is expected to go on for sometime and also of the Beautification Bill recently passed, that will cover 266,000 miles of highway.

Among the Republican officials in attendance from Niles Township were: Mr. Nimrod, Mr. Simmons Rep., Mr. Ralston and Mr. Marz. Those from Maine were, Mr. & Mrs. Floyd Fulle, Mr. & Mrs. Emil Bergman, Mr. & Mrs. Carroll, Mr. Zien and Mr. Frindt. Mrs. Collier was unable to attend because of illness. Floyd Fulle was the Emcee for the evening and did his usual terrific job. Mr. Carroll and Mr. Simmons both gave a brief talk.

Twelve door prizes were given out and all were donated by various businesses in Niles.

The President, Ed Gembicki and officers were certainly pleased with the turnout as this was the first social function for the organization.

Troop 62 Needs Boy Scoutmaster

Their charter lists some 36 Niles boys as members in good standing—the only thing Boy Scout Troop 62, sponsored by Niles Community Church—needs is a Scoutmaster. Help! Help! Anyone interested see Institutional Representative Dan Tracy, 7963 Odell Ave., Niles, Phone 967-8634.

Lack of an adult leader has not held back the boys however, according to Assistant Leaders Gerry Anderson and George Gauthier. At last week's impressive Court of Honor Ceremonies held at the church, the following advancements were announced: New Tenderfeet: Craig Brooks, 7053 Monrow, Michael Burns, 8226 Milwaukee, Robert Clauson, 7897 Seward, Bradford Cole, 7940 Keeney, and Terence Kelly, 6928 Seward St.

Seven boys attained the rank of Second Class Scouts, Greg Anderson, 7449 Waukegan Rd., Scott Brooks, Michael Burns, Edward Burns, Jeffrey Kaye, 8713 Osceola, Steven Kramer, 7102 Seward, and Frank Wichlac, 7955 Keeney St.

Three boys were advanced to First Class Scouts, Robert Gauthier, 6852 Keeney, Scott Leal, 8244 Newcastle, and Donald Telford, 8150 Susan Ct. Frank Bruni of 7300 Neva Ave. became the newest Star Scout in the Troop, as well as earning Merit Badges for Camping, Canoeing, Pioneering and Citizenship in the Nation.

Other Merit Badges awarded were given to Larry Pagni of 7255 Nora (Camping, Conoeing and Cooking); Ken Krejsa of 8631 Merrill (Pioneering and Canoeing); Richard Gauthier (Canoeing); and Richard Lawrence of 8050 Elmore Ave. for Aviation.

Current activities of the Troop include furnishing a color guard to Niles School PTA, preparation for a District First Aid Meet in January, a Christmas roller skating party at the Pladium in Glenview, and a camp-out at Camp Dan Beard which has been set for the last week-end in January.

Leaders Anderson and Gauthier join in saying, "If these boys are this ambitious and hard-working without a Scoutmaster, just imagine what they could do with one." Interested in a rewarding job--step right up!

Troop 283 Tours Fire Station

The Niles Fire Department was a scene of activity on November 16 for the Brownies of Troop 238 went to visit. There, together with Mrs. Dominick, Mrs. Franke, Mrs. Zelinskiand Mrs. Rothernberg. The scouts toured the various departments, saw the trucks, snorkel, hose storage places, washing facilities for the trucks, the sleeping quarters and the fabulous kitchen. The aroma of those ribs - the scouts are still talking about that. In fact, many a supper was snobbed because of them. This visit showed the scouts how very important our fire-fighters are and how everyone works as a team.

Chief Hoelbl Gives Rules Of Fire Safety

Nilesites were cautioned by their fire department to take simple precautions to ensure that the holiday season will not end in tragedy.

Fire Chief Albert L. Hoelbl said that the Yule season is often marred by needless, unnecessary tragedy which could have been avoided by following a few simple rules of fire safety.

Some of these rules are:

1. If using a natural tree, keep it well watered.

2. Keep tree well away from sources of heat.

3. Use approved flocking material only.

4. If using a metal tree, do not use electrical decorations.

5. If using a plastic tree, make sure it is non-combustible or is slow burning.

6. Use fire safe decorations and wrappings around trees.

7. Buy fire safe gifts and make sure electrcal toys bear the Underwriters' seal.

8. Make sure the circuit serving the tree is not over 15 amps. If going out for the evening, turn tree lights off.

9. Don't allow smoking near the tree amidst decorations and wrappings.

10. Supervise small children playing near the tree. Keep matches, lighters and candles out of their reach.

Above all, Chief Heolbl stressed, if fire should strike, get your family out of the house and call the fire department immediately on 827-2121.

Niles GOP Corned Beef & Cabbage Huge Success

The Corned Beef and Cabbage Dinner held November 27 by the Regular Republican Organization of the Village of Niles turned out to be a huge success. The food was the finest and the guest speaker, the Hon. Harold R. Collier, Congressman of the 10th District, gave a very informative and entertaining talk. Two of the many subjects he touched on during the evening was the Viet Nam situation, which he stated, although it has turned in our favor, is expected to go on for sometime and also of the Beautification Bill recently passed, that will cover 266,000 miles of highway.

Among the Republican officials in attendance from Niles Township were: Mr. Nimrod, Mr. Simmons Rep., Mr. Ralston and Mr. Marz. Those from Maine were, Mr. & Mrs. Floyd Fulle, Mr. & Mrs. Emil Bergman, Mr. & Mrs. Carroll, Mr. Zien and Mr. Frindt. Mrs. Collier was unable to attend because of illness. Floyd Fulle was the Emcee for the evening and did his usual terrific job. Mr. Carroll and Mr. Simmons both gave a brief talk.

Twelve door prizes were given out and all were donated by various businesses in Niles.

The President, Ed Gembicki and officers were certainly pleased with the turnout as this was the first social function for the organization.

Begin Drive To Register New Residents

The Democratic Voter's Association, Jerome Lerner, Chairman, andits many hundreds of members, last Sunday, began its drive to register all non-registered voters in Niles Township. Lerner himself was out in the precincts talking to new residents.

The D.V.A. devised a unique idea to help people remember that they should register. A certificate resembling a share of stock recites where and when people may register. In bold script at the top are the words "Shareholder in Good Government."

Lerner stated "one of the foremost duties of a citizen is to be informed about government and vote for their elected officials." This is one of the things I am attempting to do in my campaign for Democratic Committeeman of Niles Township." "We are going to show how government works and, if elected next June, will bring government and political responsibility closer to the people than its ever been."

Lerner stated further that this was one of the main purposes of the tremendous effort of the D.V.A. in their drive to register new voters.

From Atop The Leaning Tower "Y"

by June Hart

"This cafeteria will be able to service some 270 people at one time," said Don Hardesty, program director as he conducted a sneak preview tour over the fabulous full facilities of the new Leaning Tower "Y". We had just emerged from the ground floor where we had viewed; a 75 foot room designed for rifle, air-rifle, 22 rifle pistol and archery range practice; a huge attractive complete dance instruction room; a photography and camera club program room, which will have a dark room; 5 areas of golf driving ranges; 3 official size hard courts and squash courts. All facilities within easy access to elevators and lockers.

Moving on from the first floor cafeteria with its all round view of the outer landscaping, we entered the large variety room and noted the room separaters which will make it a two or three program room as desired. Next came the "body-building" room. A well ventilated room it will contain the most modern equipment available and will be open all hours of all days. The programs will include; judo, wrestling and weight-lifting. Situated adjacent to elevators and toilet facilities we admired the pleasant playroom for the "wee set". This room will also be used for children interested in handicraft and art. An inviting sight were the luxury lounges for the Tuscany and Campanile health club members, respectively. They command an attractive view of the dramatic (fully completed) L shaped indoor/outdoor swimming pool and sun-decks. A quickie peek at the administration offices and we entered the adult main entrance lounge. A spectacular and spacious area it is bound on one side by glass panels revealing the pool and to the left of entrance interest is focused on a fountain constructed in a high-rise decor.

A large center area will service registration and information. Ample parking space is provided all around the new "Y" and arrangements have been made for special direction of traffic in and out of the parking area. The Leaning Tower "Y" located on 6300 Touhy Avenue in All-America City Niles is scheduled to open in the first month of the new year.

Many of the planned programs for the new Leaning Tower "Y" are now scheduled, however instructors are needed for the following programs: Ham Radio; Knitting; Ceramics; Investing; Karate; Archery; Competitive Swimming; Millinery; Speed Reading; Public Speaking; Sculpturing; Riflery; Synchronized Swimming and Roller Skating.

If you are skilled in any of these areas call Don F. Hardesty "Y" program director at 647-8222. More news next week from Atop the Leaning Tower "Y" column.

Another Morn 'nother Yawn...

Frieda Aron 966-9669

My son and I boarded the TWA jet, flight 136 to New York, at 1:20 P.M. The first rumble towards ascent started at 1:30 and ended at 1:37. Locked in our seats, we waited for the take-off.

"There will be a short delay" said a voice over our heads.

My neighbor on the right, an elderly woman, said unhappily, "My son-in-law wouldn't take out flight insurance for me. If I get home (New York) I'll call and give him hell."

"We may not need it. I forgot to take some out myself."

"I never fly without it, it always pays to be prepared. There's always a first time", she insisted.

A few minutes passed in silence. In front of us two men passengers were kidding with the stewardess about the delay. They all laughed. Fifteen minutes passed and then another communique——

"Ladies and Gentlemen, we have located the trouble. An overheated wire is showing and we will start immediately to find it."

The incongruity of the two sentences disturbed me, "We have located the trouble——we will start to find it".

"Hmmm, electrical trouble," said my neighbor fatalistically.

"Shall we leave the plane? My husband always says if the plane has mechanical trouble, it's safer to leave and take another flight". I was ready to fly out the door.

"How do you know we'll be safe on another flight. When your time comes, it comes. I'm old, I don't care, but you and the boy are young. And I have a sick dog in the baggage department, that worries me."

"Don't talk that way. You're frightening me." My heart started to sink.

"Is this plane stopping at Columbus"? she asked me.

"No, it's supposed to be non-stop. Maybe non-stop to Heaven."

"You picked out a good stop" she laughed.

"Well then, maybe I'll go in another direction."

The stewardess came around with magazines. "I'm debating whether I should get off the plane before it crashes," I told her.

"It'll never crash on ground" she teased me.

"No, but when it rises, it might."

"We won't rise until the trouble is all corrected." She left for more optimistic passengers.

Fifteen minutes, twenty, twenty-five, thirty, thirty-five minutes went by and I looked at my young son, wondering if we would land in New York—or——.

"I'm deathly afraid of fire and water" said my neighbor.

I'm deathly afraid of dying, today, when I'm supposed to be going for a wonderful time—the bar mitzvah of my nephew.

After forty-five minutes, the

High schools of Maine township—East, West, and South—will close for Christmas vacation at 3:10 p.m. Wednesday, December 22, Superintendent Earle W. Wiltse announced this week.

The change was authorized by the board of education upon Dr. Wiltse's recommendation. It will enable teachers to reach distant homes for the holidays without traveling on Christmas eve, Dr. Wiltse noted.

Classes will resume at all three schools Monday morning, January 3, 1966.

In a notice to staff members Dr. Wiltse said that the change was made in response to the request of officials of the district teachers association and that the same organization's request for extension of spring vacation will be considered later by the board. Present dates of the Easter holiday are April 7-13.

Mothers' March Co-Chairmen Named

Mrs. Paula Michaelson and Mrs. Robert Berles, 9001 Clifton, and 8119 N. Wisner, were appointed as Mothers' March co-chairmen for the 1966 Niles March of Dimes. The appointment was made by Kenneth Cohen, community general campaign chairman.

As chairmen, Mrs. Michaelson and Mrs. Berles will recruit marchers for the annual residential appeal. The march will take place January 25th as a climax to the month-long drive for funds to fight the more than 1000 types of birth defects which yearly disable more children than any other disease condition.

In accepting their appointment, Mrs. Michaelson and Mrs. Berles said, "Two hundred and fifty thousand children are born each year with a serious birth defect. That means that one out of every ten families knows the stark tragedy birth defects create. We're proud to be a part of the organization that is doing so much to open the door of health and hope to the victims of birth defects."

LWV League Holds Unit Meetings

What do we want the War on Poverty to accomplish? Before one can evaluate the Federal Program on Equality of Opportunity, a set of standards must be used. This is what the League of Women Voters of Morton Grove (and Leagues all over the United States) are attempting to do at the December Unit Meetings—that is, set up criteria by which to evaluate the War on Poverty.

The discussion was ably led by the Chairman of the Development of Human Resources Committee Mrs. Egbert DeVries, 5808 Capulina, and her committee Mrs. Robert Tranter, 8922 Parkside, Mrs. George Erkert, 5846 Monroe, and Mrs. Joseph Gump, 9114 Linder, all of M. G.

This was the third set of LWV Unit Meetings on this topic of the Development of Human Resources which is stressing Equal Opportunity in Education and Employment. At the first set of units last year, some of the proverty-stricken Americans (Migrant Workers, Negroes, Appalachian Whites) were discussed to see if the War on Poverty was even necessary. At the second set of Units, the Federal Program was explained with all of its Agencies, Acts, and Activities. Now the League of Women Voters is in the process of setting up standards so that some day this massive Federal undertaking will be able to be evaluated.

Are you a concerned woman who would like to know more about controversial, important political issues? If you are, the League of Women Voters should suit you fine. For more information please call Mrs. Edward Andersen at Yo 5-1593.

"no smoking——please fasten your seat belts" signals went on and the pilot spoke once more.

"Thank you for your patience. Our next stop will be Kennedy Airport, New York. Flying time will be approximately 1 hour and 37 minutes."

The stewardess spoke next over the intercom——"We will be flying at an altitude of 29,000 feet, please watch the stewardess in front of you as she demonstrates the oxygen mask, etc., etc."

The plane rose silent and swift, we were on our way.

"I won't feel safe until I land in New York", I turned to my neighbor.

"I have a feel for such things. I tell you the plane is riding smoothly and in beautiful condition. I don't know how, but I can tell, ask my son-in-law. When I sit in the car and listen, I tell them——something's wrong with the car. If my children don't feel it, they listen and finally they see I'm right. I tell you this plane is fine and we are almost on the ground."

My apprehension sat tightly with me, my stomach curdled and I said my farewells to my family, inwardly.

The stewardess came with "complimentary drinks because of the delay". I said I didn't drink and my neighbor said, "You must have one, it'll do you good." So they fixed me a Bloody Mary, which I sipped once or twice and then told the stewardess, "I can't go to my Maker with alcohol on my breath".

"What a terrible attitude! Why do you worry?" the girl chided me.

"I want to land first". The knots in my stomach wouldn't unravel.

My wonderful 70 year old neighbor talked about her children, and her best friend, her good companion of her declining years, "he must live as long as I do"——the dog who was ill down below, in the baggage hold of the plane. Never failing to inject confidence when she noticed my terror, each time the plane seemed to bump, lurch or swerve, with "the plane is riding beautifully, can't you feel it?"

When the stewardess said, "please do not leave your seats until the plane has landed. We hope that you have enjoyed your trip. Thank you for allowing TWA to transport you to your destination", and the pilot said, "We are landing in about 7 minutes, thank you for your patience with our earlier difficulty", then I almost felt safe.

Suddenly there was a little bump and we were safe on the ground. My tensed body fell back against the seat and I lay my hand on the arm of my almost companion into the Twilight Zone. "Thank you, thank you".

Here's to you Mrs. Rodisky of the Bronx, New York.

In-Service Educational Training In District 63

What or who should determine and develop a school system's philosophy of instruction, plan its curriculum, set goals, decide ways to implement these goals in the classroom?

The administration? What's currently popular among educational theoreticians? The plan that worked in some other school systems? The principals? What was done last year and the year before? Teachers? What textbook publishers suggest.....?

The method in School District #63 utilizes all of these through a program of "In-Service" education organized this year. It is a tool for teacher and principal involvement and responsibility in educational planning. The "In-Service" committee is composed of five teachers from the junior high school and four teachers from each of the elementary schools, plus the district's eight principals, under the direction of the assistant general superintendent, Dr. John F. Tobin.

The work of the In-Service committee will be supplemented by four voluntary teacher curriculum committees in reading, elementary math, science, and social studies responsible for developing curriculum guides. The In-Service committee will act as a sounding board and evaluation committee for the curriculum committees in their development of these guides.

The In-Service committee meets every two weeks for a half-day session during school hours. Programs for each meeting include an open discussion of a specific subject related to plans for developing curriculum and upgrading instruction. A guest expert in the topic under discussion presides over one meeting a month. The second meeting is for teacher-principal discussion and evaluation of the earlier meeting as it may relate to specific classroom situations.

Some of the projected speakers to appear before the In-Service committee include nationally known experts: Miss Betty Lou Stahl, director of Reading, Rockford Public School System; Dr. W. Linwood Chase, professor emeritus, Bostom University, School of Education; and Dr. Robert Anderson, professor of Education, Harvard University, national and international education consultant and organizer of the Lexington team teaching concept.

The four curriculum committees will utilize ideas developed by the In-Service committee, combined with their own evaluations and specific knowledge of classroom teacher needs in developing curriculum guides. These guides will give teachers direction for instruction, proper usage of texts, student testing devices, and other aids in the development of each student's learning skills.

This has already been started in the field of social studies. A pilot social studies program was developed in the district during the last year by a committee headed by Donald C. Stetina, principal of Mark Twain School. Mr. Stetina presented a report of the committee's findings and recommendations for developments in curriculum during the November 10 meeting of the board.

His presentation indicated to the board how curriculum committees in the other subject areas may provide general goals and subject matter guides for teachers.

Mr. Stetina outlined for the board 24 "Basic Understandings" to be developed through social studies, which the committee feels must guide teachers in their presentation of subject matter within the social studies field.

"The key word to these understandings is 'people'", indicated Mr. Stetina. "The real purpose of social studies as we see it, is not the learning of facts and more facts, but the development of a student's individual ability to understand and live with other people. The facts learned are to relate to this underlying social-cultural attitude."

Mr. Stetina indicated that, involved in the new approach to the teaching of social studies, there will be an array of teaching aids purchased this year for the district under the government's Title III National Defense Education Act, and supplemental texts.

Illinois Bell Tells Of CATV Service

As community antenna television (CATV) service continues its recent growth in the midwest, questions as to the role of telephone companies in this relatively new industry are being raised more frequently, according to Jack B. Gable, vice president of Illinois Bell Telephone and general manager of the company's Suburban Area.

CATV service consists of taking television programs from the air by means of a high-rise antenna and delivering them to the TV sets of individual CATV subscribers over a network of video wires. Thus far, the service has been most popular in communities beyond normal range of television stations.

"Illinois Bell is not an operator of CATV systems and does not intend to become one," Gable declared. "We simply offer transmission channels for distribution of CATV signals under tariffs accepted by the Illinois Commerce Commission. This service for CATV operators is similar to that offered for television networks and stations, and for other applications such as theater television, educational television, distribution of programmed music, burglar alarm systems, and so forth, services that we have offered for many years."

Gable also pointed out that municipal authorities have become increasingly interested in the development of CATV systems. He explained that if a CATV operator orders Illinois Bell transmission channels, the company advises the city promptly when it does not violate the confidential nature of its customer relationships, but in any event, prior to the start of construction.

"Municipal regulation of a CATV operation is a matter to be resolved between local authorities and the CATV company," Gable said. "Illinois Bell takes no position on this question. If a city passes an ordinance expressly requiring that a CATV company be licensed or franchised by the city, then Illinois Bell will commence construction only for a CATV company that has such a license or franchise and that complies with other applicable laws and regulations."

Gable also said that the company feels that it should not be involved in any disagreement between a CATV operator and television broadcast stations in a community. "Both", he pointed out, "are our customers. We apply our tariffs impartially to all, under applicable laws and ordinances."

Niles PW Dept. 'Get Ready For Winter'

Your Niles Public Works Department has been repairing all the winter snow plowing equipment to be prepared for the coming snow. We have already purchased 120 tons of chemicals to conbat ice control on our main highways.

Are your snow shovels in good repair for shoveling your sidewalks? Have you replenished your supply of salt to spread on icy spots on your sidewalks to prevent any serious falls?

As temperatures begin dropping, water begins to freeze, and if you have not disconnected and drained your sprinkling hoses, it should be done without any further delay. Still and hose cocks should be turned off from inside the house and then the outside faucet should be opened in order to drain the excess water our. If this is not done the water outside will freeze and in extreme cold weather the pipe or sill cock could rupture or break, causing extensive damage.

Top Scorers

In the 3rd day of competition in the huge Fall National Tournament of the American Contract Bridge League, players from the Illinois area continue to finish up front.
