Len Szymanski Will Not Run For Trustee In 1967

Open letter:

If Messrs. Leske and Gauthier had decided to seek office along with me I know we would have had the support of the many independent thinking people of Niles and with their support would have campaigned vi-

gorously to victory. Since they both decided they could not run at this time many have urged that I run alone. As I explained to Mr. Besser and as he reported in his last issue it is practically impossible for an independent to win against a ticket of three men because

everyone that votes for the independent has two other votes to cast which he intuitively casts for 2 of the 3 men on the opposing full ticket. Before I would ask my friends to commit their time, energy and effort in a campaign I would at least want them to do so on an

even basis with the opposition which as explained above is not the case when running as an independent.

From those that have strongly urged that I go it alone I sense through me they would be releasing their frustrations

against our so called "rubber stamp or puppet trustees" seeking office at this time. To them may I say, it is better to lose a battle at this time so that perhaps at a latter date we can win a war.

From The Left Hand

Al Green, a sweet, conscientious and dedicated guy, bumps heads with us once more, this time over last week's column. Green, who has become chief apologist for Nick Blase, implies in this week's "Letters" column we oppose businessmen running for village offices. Because of his blind loyalty to his friends he throws reason to the wind in his very emotional letter.

We're afraid Green shares a common fault with us...we're both quite naive...and doubly so in the political arena.

Back in 1961 we printed a campaign news release which gave this promise: "(Niles needs) politically free and independent thinking government with NO PERSONAL BUSINESS INTERESTS. People in government WHO HAVE NOTHING PERSONAL TO GAIN.")

The release goes on to mention Mayor candidates who are in the building trades and concludes "THIS IS A CONFLICT OF INTEREST" with the business of government".

The release added, "Our government must have no political affiliations for to do so means that our village will be run by party bosses and not by the people we elected. We do not want Scotty Krier or the likes of him running our village".

This was part of the party platform of Nick Blase and the New Era trustees.

Within weeks after the New Era gained office only one of the four men elected actively joined a political group outside the village which he vociferously opposed before the election. The man was Blase. And only one of the four men immediately began exploiting his new village job which resulted in personal gain...again it was Blase.

The other men, all who worked for years previously fighting the corruption in town, led Blase into office, and all stuck by their pre-election pledges. But Blase was the lone candidate of the four (and the one with the least votes) who did exactly what he opposed during the election.

Ironically, only one newspaper in this community, THE BUGLE, supported these men, and it was believed it was a prime reason for their election.

Back in those days we used to talk to businessmen about

Z.B. RECOMMENDS SR. HOUSING ZONING

**Send OK
To Village
Board**

By: June Hart

On Thursday evening of February 9th in a crowded, emotion packed council chamber, the Niles Plan and Zoning Commission resolved to recommend to the Niles Village Board of Trustees the rezoning of an area on Maryland and Milwaukee for the building of a senior citizen housing facility.

The project is to be paid for by the Federal Government, and requirements for senior citizen occupancy will be set by the Village of Niles. First preference going to residents of Niles and second preference to parents of Niles citizens. Nearing the eve of Lincoln's birthday, the dissenters talked of "low ethnic groups," so described by self asserted "high ethnic groups". "I'm not against people but..." almost

Aaron Michaelson, Candidate For Niles Park Commissioner

Aaron Michaelson having officially announced his candidacy for Niles Park District Commissioner has initiated his campaign in a most unique fashion, Michaelson, a member of the Niles Youth Commission, wants the opportunity to meet with and talk to every person living in the Niles Park District and to accomplish that goal has instituted an original "Dial Your Candidate" phone number to serve that purpose. "While it is a physical impossibility

for me to meet everyone in person", Michaelson said, "I have installed the Dial Your Candidate number so that people can call me at 827-5258 and discuss all park issues with me directly including the Tam O'Shanter fiasco." Michaelson, a Certified Public Accountant, has made arrangements with Midweststates Telephone Co. to install a 24 hour telephone recording unit to record all incoming messages. "I will answer every legitimate phone call honestly and directly. It is my intent and purpose to reach as many persons as it is humanly possible to see and talk to" Michaelson concluded.

A Niles citizen "dedicated to you and children" Michaelson, the most progressive candidate to come on the park district scene in many years also serves as one of the supervisors at the Niles Teen Center. "Dial Your Candidate" phone number 827-5258 has already met with instant enthusiasm and has kept Michaelson busy answering questions.

Boy Scout Troop 45 Hold Eagle Scout Banquet

In spite of extremely poor weather conditions, sixty five boy scouts and parents attended stirring ceremonies, conducted by Scoutmaster Don Schneider, at Oak School on Wednesday, February 1, to honor the first Eagle Scout in Troop 45 in 8 years, Chuck Bobula, Jr.

Life Scouts - Randall Hyken and James Schneider. During this part of the ceremonies both Mrs. Everett Hyken and Mrs. Don Schneider were called to the podium and were pinned by their sons with miniature Life Scout symbols.

various levels of scouting from Tenderfoot, Second Class, first Class, Star, Life, and the ultimate prize, Eagle.

After the opening ceremonies, greeting and introduction of guests, benediction and the serving of dinner, the Court of Awards ceremonies commenced with the following presentations:

Eagle Scout - Chuck Bobula Jr. In this presentation it was difficult to observe who was proudest, the Scouts of Troop 45, the officers and committeemen, Mr. and Mrs. Chuck Bobula, Sr., the parents and friends in the audience, or the Eagle Scout himself. Many people are involved in aiding the helping an Eagle Scout attain his goal but none are so influential as his parents. As a token of appreciation to his mother, Chuck "pinned" her with a miniature Eagle symbol. To the father, Chuck Senior, for his guidance and encouragement, the honor of fastening the Eagle medal and ribbon to his son's uniform.

The advancements are not awarded for seniority or attendance, they are earned for achieving results. To achieve requires earnest effort, perseverance, self-discipline, leadership and good citizenship qualities. I believe the chairman of the Troop, Mr. Phil Rothenberg, expressed the true feeling for this event when he said, "To have a boy reach this rank is an honor to the troop and community. Its achievement is a rarity of which we should all be proud." Chuck, we of the troop are proud.

New Boys Accepted in Troop - Michael Davis and James Zarembski, Boys Awarded Second Class Rank - Jeff Lundius, Richard Bobula, and Kenneth Schneider. One Year Pin Awards - Jeff Lundius, Michael Krejsa, Walter Kozacky, Jim Ignatius, Brian Pierce, and Terry Frick. Two Year Pin Awards - Ron Friedman, Phil Hilson, Paul Pomazal, Martin Rothenberg, Randall Hyken, and James Schneider. Merit Badges Awarded - Terry Frick, Michael Krejsa, Martin Rothenberg, Stephen Welsch, Robert Sandvik, and Richard Meyer - First Aid, Randall Hyken and James Schneider - first Aid and Safety, Paul Pomazal - First Aid and Home Repairs, Ribbons Awarded for Canoeing at Recent Outing - First Place - Fox Patrol, Second Place - Eagle Patrol, and Third Place - Owl Patrol. Ribbons Awarded for Klondike Campout - First Place Owl Patrol, Second Place - Fox Patrol, and Third Place - Eagle Patrol. Candy Sales Winners - L. Richard Bobula 2, Jeff Lundius 3, Brian Pierce 4, Mike Davis and 5, Ken Schneider.

Many people not active in scouting may wonder and ask so what makes an Eagle Scout so great? Briefly, he is one young man, of each one hundred boys who join the Boy Scouts activities every year, who has accomplished and earned his right to progress through the

Guests in attendance were Mr. and Mrs. Russ Theis, Mr. and Mrs. Robert Burreson, Neighborhood Commissioner from N. W. Suburban Council, and Mrs. Wesley Hartzell, Chuck's first teacher at Oak School. Congratulatory telegrams were received from Mr. and Mrs. Al Green, and Mayor, Nick Blase who were unable to attend because of previous commitments.

Chamber To Present Plaque To Leaning Tower

by June Hart

The Niles Chamber of Commerce is to present a plaque to the Leaning Tower "Y" honoring them for their outstanding cooperation and assistance during the Illinois Junior Miss Pageant of December, 1966, according to Chamber president Mr. Al Green speaking at the Chamber Luncheon on February 8, held at the "Y".

Mr. Roger Gustov, a Pageant representative read portions from letters and notes received from the girls participating in the show, and some from their parents. One candidate wrote, "I want to thank you for the kindness and privilege extended to me during my stay at the Leaning Tower 'Y'. Niles has truly shown all of Illinois, indeed the whole country that Niles really rates the title of All-American City. Staying at the 'Y' made me feel like a queen."

Another wrote, "The week that I spent in Niles and my stay at the beautiful 'Y' is a week locked in my memory. The good thing about it is that I have the key, and I can open that lock whenever I want to recall the event that changed my life." "I met 27 girls who taught me how to love my fellow man and help him in whatever way I can," wrote another. Yet another candidate praised the House Mothers and chaperones who she claimed, "made their stay complete."

From a parent came a letter, "Our daughter is still talking about her experience in the show at Niles. After viewing the accommodations and protection provided for our girls, we knew their comfort and safety were foremost in your minds." After luncheon, members and their guests were treated to a motown comedy, "It Jests Me Right Here" courtesy of Delta Airlines. The comedy performed by two young couples was presented in the plush Top O' the tower room at the "Y". Mr. George Ormiston, one of the show had originated in the "Wits End" club of Atlanta, Georgia, under the direction of television star Dick Van Dyke. A series of hilarious "take offs" of personalities and events the show will cover a coast to coast good will tour for the Delta Airlines.

Speaker for the annual Brotherhood Convocation assembly at Maine East High School, Friday, February 17, will be Otto Kerner, Governor of the State of Illinois. Kerner's speech, "Brotherhood and Human Relations," will stress those qualities of leadership and cooperation on which new members will be chosen and cited.

Kerner, who was born in Chicago, and attended public school in Chicago and Oak Park High School, was graduated from Brown University in 1930, receiving a Bachelor of Arts degree. From 1930 to 1931 he studied at Trinity College,

Cambridge University, England. Subsequently, he attended Northwestern University Law School and was graduated Juris Doctor in 1934. He was admitted to the bar in 1934 and entered the private practice of law.

Having been nominated for governor in 1960, he was elected and re-elected in 1964, only the second Democratic governor in the last 100 years to receive this honor from the citizens of Illinois.

In the vital field of education, the creation of the Board of Higher Education, during his administration, led to the Master Plan for Higher Education in Illinois with a junior college system as a key feature. In addition, for the first time in the history of Ill., expenditures for education not only were at the highest level of any time but constituted the single greatest item in the total budget.

Governor Kerner serves as vice president of the Boy Scouts of America (Chicago Council), of the John Howard Association, and as an advisor to the Adult Education Council of Greater Chicago. He is also a Trustee Emeritus of Brown University.

Focus Political - Feminine view of the candidates, currently featuring incumbent Mr. Ang Marcheschi, who is seeking a second term to the office of Village Trustee, as a member of the "Active Citizens Ticker" with incumbent Ed Berkowsky and candidate Richard Harczak.

On February 17, Ang and Val Marcheschi residing at 7943 N. Nora in Niles, celebrated their 25th wedding anniversary. They have a son Tom almost 17 and he is a student at Niles West High School.

One of the most active men in Niles, Ang is sometimes the target for much good humored quipping regarding his name or his picture constantly in the news. How does he take criticism? "Well," admitted Ang, "if it's factual and true, without innuendoes, I take stock of myself and ask myself am I giving everyone a fair shake?"

Incumbent Marcheschi is a firm believer in good public relations, stating that the public is entitled to know what is happening, in terms of clubs, groups and organizations and administration in their village, at all times.

Regarding his seeking reelection Ang said, "During my four years of office I have learned much in terms of service to the people. Some of our projects for community betterment are long range ones, and it is only natural that we would like to follow them through to completion."

"Mr. Marcheschi, what is the salary of a Village Trustee?"

"This is set by State Statute," he replied. "We receive fifteen dollars for a meeting twice a month with an additional five dollars paid to each trustee at a session regarding approving payment of a bond or other such necessary data."

"Does the Board of Trustees ever settle an issue prior to a Board Meeting?"

"No, trustees work on committees, comprising a chairman and two other trustees. These committees each with a specific area, deals with trivia, getting down to the specifics, which are then referred to the Board for action. Many times issues are opposed by some trustees, these are then referred for further study. In terms of the fiscal budget which deals with departments, salaries, equipment, etc., this involves many exhausting sessions for the trustees before final presentation."

Born in New York but raised and educated in Chicago, Marcheschi served in European theatre of operations during World War 2. Returning to civilian life, when he met and married his fate Val, Ang served as a general manager for a building and construction outfit, getting to know many people in the Niles area and further afield. Attending night school he furthered his knowledge of accounting and salesmanship. Currently, he is employed with New York Life Insurance.

An ardent worker for the Lion's Club, he was recently honored with the title District Governor of district 1-F, involving some 42 Clubs (Chicago and Suburbia) comprising 2400 members. A signal honor for him and the Niles Lions Club. He has been the recipient of two awards for service to youth in connection with his vast YMCA service - Learning Tower "Y".

Attractive Val, Mrs. Marcheschi said, "I try to be with Ang in whatever he does. If I should disapprove of anything, he listens while I say my piece."

"Does he follow your advice?"

"Sometimes," she smiled. "He believes that you have to work for the best for all, and you know he does have a good store of common sense."

Son Tom, shares a sincere interest in his dad's work, sometimes questioning, and sometimes criticizing but adds Ang, "At his age his interests are very normal, cars, girls and music."

Around the Town - Special commendations are due the Divinity students from St. Mary of the Lake, Junior Seminary, located on Harlem and Touhy, for their two day stint, clearing the roofs of neighboring old age homes of deep snow drifts during the recent winter pile-up of the white stuff.

Sister Mary Irene, St. Benedict's Home, praising the boys, said she and other sister, fearing the weight of the five feet drifts on their roof, climbed up themselves in an attempt to shovel it away. "We were soaked up to our necks in the drifts," laughed Sister. "We were so glad when Mr. Eddie Bacher of Niles Public Works suggested that we call Father Caplis at the Seminary. We did and they sent us 12 boys in teams. They were wonderful and not only cleared our roofs but helped out in the other Homes in the area." Sister Mary Irene said that in order to clear their walks, which had collected some twelve to thirteen feet drifts, they placed flat boards on the huge mounds of snow, using them as Skiers would, and armed with long poles with attached flat boards, they cleared the way. "We were wet and cold," laughed sister, but our cheeks were glowing and we had fun."

Achievement - Steven Hubick aged 14 a freshman at Maine East High School was a winner in the North Suburban School Sketching contest. His picture an impressionistic composition is currently on view at Wieboldts in Evanston, prior to being forwarded to New York for entrance in the national contest. The son of Mr. and Mrs. A. Hubeck of Niles, Steven has only been a student of sketching since his enrollment last September at Maine East. Another son Tony aged 11 is a student at the St. John Brebeuf School.

LETTERS TO EDITOR

Al Green On "Conflict Of Interest"

Dear Mr. Besser:

It seems that you are taking us back on the old "merry-go-round" subject of "conflict of interest" regarding which you and I had an exchange of opinions during the last campaign. And, now, you are again interfering that it is politically unsound for a business man to hold public office while doing business in the village. You make reference to Skokie's Trustee, Cal Sutker, who apparently believes in this principle. However, neither you nor he seem to have any sound reason or concrete evidence to show that there should be a regulation prohibiting business men from holding office.

It happens that I reside in the Village of Skokie, and since I spend a greater part of my time in Niles. I am unaware of the political climate of Skokie. Only last Friday I stopped in the same restaurant in Skokie where I breakfast daily and had a discussion with several fellow Skokians. - one, a professional man who lives and offices in Skokie, and the other, a local Skokie business man. The subject of our discussion was our recent blizzard and the snow removal problems.

They both remarked that they had heard of the excellent job Niles had done. One of them went on to say, "The trouble with the village officials of Skokie is that they are all good and well-intentioned men but since they only live and do not have a business or work in Skokie, they are totally unaware of Skokie's problems. Your Mayor has his pulse on his community because he has a law office and a travel agency in the Village, and that is why he does such a good job."

I wish to remind you that the Illinois State Chamber of Commerce, whose staff is composed of men in the highest echelon of business and politics, strongly advocates that local business men enter into political office. Thus, a local business man can lend his ability to the community.

You refer to a conflict of interest here as there obviously must be a demand for taverns to stay open until 4 A.M., or business men would not keep their establishments open until this late hour. A 2 A.M. closing hour would not change the complexion of the operation of an establishment. This can only be accomplished by the manager or owner's influence. It would seem that this is somewhat a bigoted point of view on your part.

The Chamber of Commerce shall openly oppose any move to disenfranchise business men from holding public office, and will not stop until such a regulation shall be defeated. The power of the press should never be underestimated but neither should the power of business be underestimated.

You speak of inactivity in the Village. The only inactivity apparent is yours for you have failed to observe what has been going on in the Village. During the last snow storm, you must have been hibernating like a bear and did not see all the activity. Instead of sitting indoors in a warm office, Mayor

Blase chose to get out in the storm and direct the operation, "Snow Removal"; and if you had been listening to Traffic Officer Balde from his helicopter, repeating, "We are flying over Niles, the All-America City, and all main arteries are open to traffic," while other suburban areas were not. This is only one example. Other examples are the Senior Citizens Housing Project, and the forming of a Citizens' Advisory Committee, the members of which include a cross-section of every aspect of the citizenry from a housewife to the clergy.

That we have a local retail business man running for the Office of Trustee - who is an independent thinker - should be of great advantage to the Village as he can give his knowledge and experience to the business of village government.

Bud, as you know, I am an old Sea Salt, having been in boating for many years, a member of the United States Power Squadron and United States Coast Guard Auxiliary, - and I can see a parallel of our Village as a Ship of State with a good strong pilot at the helm. And, believe me, if you have ever experienced a storm, you know how important a knowledgeable strong pilot with good judgment can be.

The passage of a conflict of interest ruling in our village would be an attempt to sabotage and scuttle the business and professional men, and we have too much common sense to let such a thing occur.

Your efforts do discredit the two incumbent Trustee candidates, who are well qualified and dedicated men, is uncalled for and can be construed as an attempt by you to dictate who should hold office.

AL GREEN, President
Niles Chamber Of Commerce

Praise P.W. Department

Dear Mr. Besser:

I think the Public Works Dept. of Niles should be commended on the fine job of snow removal they did on the streets during the recent snow storm.

After going into nearby suburbs and seeing the job they did on their streets and hearing about Chicago streets I appreciate all the more the fact that I live in Niles.

The people that complained about their street not being cleared and kept clear during the entire snow storm or that when it was plowed the village didn't get close enough to the curb ought to hang their heads in shame. Even my children know the main streets have to be kept clear before side streets can be worked on.

I wonder if these same people are the same ones that ran to the store and complained when the store keeper wouldn't sell them 2 or 3 gallons of milk when other families with young children didn't have any.

Hospital For Niles

continued from page 1

Dachman gave an illuminating and informative insight on the ways and means of initiating and completing his proposed outline for a Niles Hospital. "No longer is there any doubt that Niles needs a hospital," Dachman said, "now it is a question of what type we want. We can with petition and organized force have the greater Chicago Hospital Planning Council issue us a permit to build." The audience was in accord as Dachman spoke of the population explosion and the shortage of beds in surrounding hospitals who are now operating at 100% capacity. "We went on to speak of the All-America City we must boast of our own Hospital." He further explained that this was a citizen sponsored effort and would not create any additional taxation in order to build and maintain the hospital which will become a self-supporting institution. At the conclusion of his talk many questions were asked, and then Dachman asked for a steering committee to be formed to activate and assimilate his plans for completion of the proposed hospital. He was then nominated and appointed Chairman of the "Hospital for Niles" steering committee. Volunteering for the steering committee were such village notables as Albert Greene, President of the Niles Chamber of Commerce, Steve Chamerski, President of the Niles Park District Commissioners and his wife Ann.

Ed Beaulieu, prominent Niles Real Estate Consultant, Isabel Curran, Secretary of Niles Teen Committee, Mrs. Charles M. Bobula, Reporter from the Niles Review, Aaron Michaelson, member of the Niles Youth Commission, Lee Dreyfus, Hospital Accounting Consultant, Art LeTourneau, Management Consultant, and wife Lisa, Kitty Schorr, Zone Colonel for Mothers March, March of Dimes, Millicent Dachman, Village of Niles Chairman, Mothers March, March of Dimes, Mike Provenzano active civic leader and Sallie Hammerberg, a lifelong Niles resident.

East Maine Caucus Final Meet Feb. 21

The final and obviously most important meeting of the East Maine Caucus will be held Tuesday, February 21, 1967 at 7:00 P.M. in the music room at East Maine Junior High School.

It is expected that the largest group of nominees in the history of the Caucus will be presented to the general membership. The Caucus will select three (3) candidates for seats available on the Elementary District 63 board and one (1) candidate for the seat available on the High School District 207 board.

The nominating committee indicates a wide divergence of thinking among the candidates which will provide the Caucus delegates with a real choice. It is imperative that each delegate attend this meeting so as to insure a careful selection. The public is invited because this will probably be the best opportunity they will have to see the people who will ask for their vote in April.

Point 2. To inform all the residents and familiarize them with the plan through newspaper reports and Village Progress Reports. People would then know what to expect in the way of help, how they could help themselves and others.

Point 3. Prevail on a greatly increased scope of the importance of the Medical Self-Help program, which is the most important part of the disaster plan and must be started as soon as possible.

Mr. McAndrew continued, "I am confident that once the people of Niles know what our plans are, they will realize the need to become involved in the Civil Defense program. I sincerely hope this program will do the job." The shelter program greatly emphasized by the State of Illinois Agency of Civil Defense is now being pursued with the inspection of existing shelters. Book Muse

by Mr. "M"

What is reading? Where does it start? How can it be done well? With these questions you can make a fortune, wreck a school system or get elected to a board of education. Most people who try to think about reading at all conjure up these little black wriggles on a page and mutter something about "meaning". If this is all it is, very few of us would learn anything. For reading is older than printing or writing or even language itself. Reading begins with wonder at the world about us. It starts with recognition of repeated events like thunder, lightning and rain. It starts with the seasons and growth of things. It starts with an ache that vanished with food or water. It occurs when time is discovered. Reading begins with the management of signs of things. It begins when the mother, holding the child's hand says that a day is "beautiful" or "cold" or that the wind is "soft".

Reading is "signs and portents, the flight of birds, the changing moon, the "changless" sun and the "fixed" stars that move through the night. Reading is the practical management of the world about us. It was this for the man at the cave's mouth. It is this for us at the desk, the bench or control panel.

What is "telling"? "Telling is a cold day, forty members of the distaff side accompanying four and five year olds sittings and a fine story teller at your local library whose name is Mrs. Rosemary Earl capturing an audience or a sage frightened "Mr. M" wondering whether he can capture that lone frightened little four year old with tears beginning to well up in his eyes and feeling so good when victory comes in half way through the sessions. The little one will come back!

What are words? They are for reading and telling. They are born and they die. Man learned how to freeze ideas onto a page and yet make them come alive. Man created a book—or wrote a column—with words.

Man took words and told them and others read them.

A man named Jack Korshack told words and wrote:

Don't ever judge anyone till you have tried to see what he's like away down inside—and try to be fair. So that others may do the very same

Thing When they're Looking At You!

The man called the book "The Strange Story of Oliver Jones" and a story teller ached to read the words.

A scribbler wanted to shout "Read a book; read it aloud. Read the words of a mother of three who writes:

A child is a riddle - a puzzle for solving - Who nevertheless keeps the world revolving. For whether he's quiet or - whether he's wild There's nothing but nothing As nice as a child."

The scribbler wanted to say that you might care for "What is a Child" by Geraldine Richardson.

Catch beauty. Read the books - tell them. We hold them in trust for you and yours.

Brownie Troop #962 Holds Investiture

On February 9th, after two weeks "on ice" (which promises to make them the best Brownies in Niles) Troop #962 held its investiture at Oak School. Guests were handed a program and a flower as they entered the library and the ceremony opened with everyone saying the pledge of allegiance and singing "God Bless America". The girls recited the Brownie pledge and promise, then as Mrs. Fait called each name, the following stepped forward—gave the Brownie hand-shake and salute—and received their Brownie pin:

Kimberly Ashe, Kathleen Broberg, Deborah Fait, Denise Femmel, Shawn Franke, Marie Greco, Cynthia Hainzinger, Cindy Henreid, Maryjo Jorgensen, Judith Kriss, Jody Levin, Susan Livorsi, Karen McAndrew, Lu Ann Moratti, Susan Pignato, Mary Vito, Bonnie Westberg, and Donna O'Neill.

Mrs. Vito then welcomed each girl into the troop. Songs were sung, some refreshments were served and all the mothers and aunts of the newly invested Brownies said it was all worth waiting for!

Letters To The Editor

continued from page 9

Or maybe they were the ones who couldn't take time to their own path in front of their house for mailmen or other people to walk on. Thank goodness there aren't too many of these kinds but unfortunately there are a few.

We didn't have our street plowed till late Saturday night yet everyone seemed to get along fine. In fact it was peaceful and tranquil with no cars. You didn't have to worry about children being hurt from skidding vehicles. And what's wrong with going to the store with a sled. Our grandmothers did and they got along just fine. Error In Story

Dear Mr. Besser:

I wish to correct an article that appeared in your January 26th issue which portrayed me in a very unflattering way. The article concerns a zoning problem about some property that cuts into and absorbs what would ordinarily be part of Sayre Avenue.

The direct implication that I was "put out" because I was not "personally informed by letter or phone" concerning a special report by the Zoning

Senior Citizens Housing

continued from page 1

ashamedly by a young housewife. "I'm not against it but I don't want it near me, and "What about parks for our kids first". A golden ager sat holding cap on his knees, shaking his head and muttering, "I worked here all my life and now they don't want me."

Other citizens proudly acknowledged their full endorsement of the project. North Goodman for Chesterfield Estate Homeowners Association said, "As president of the association I have been asked to tell you we are all, all for it." Zoning commissioner Ken Cohen, "We are an All-America City and with honor comes responsibility." Chairman Kai Rowen, "When you buy a house or home learn to accept what can be built on land zoned for commerce and residential use."

And dear old Mike Wozniak turning to near by dissenters admonishing them with, "I live near cemetery so what?" Another golden ager turned to his wife and patted her hand reassuringly. Color it progress and color it people. Color it pride and color it prejudice. Presenting the petition for the

rezoning was attorney R. V. Haupt - County Housing Authority, County of Cook.

On view was an artist's conception of the finished project and described by H. Salk County Architect, County of Cook. A handsome modern Y shaped edifice, all face brick, and containing 127 units it was centered in a 2-1/4 to 3 acre of park land.

Executive Director, Mr. Paul S. Freedman, County of Cook, delivered a full description of the facility so conceived for the ease and comfort of senior citizens. There is a 77 car parking area. Gardens and patio with sitting out benches. Occupants could garden themselves if so desired. A special area is designed for deliveries.

Inside the first floor boasts a community room, and arts and crafts room, a small kitchen for get togethers or meetings and a smoking lounge off the lobby entrance. Here too will reside the resident manager in a two bedroom apartment. A single bedroom apartment will be assigned to an assistant manager.

The second floor will provide a laundry room with adjoining kitchen facility for coffee klatching during the washing period.

Each unit comprises a living room, kitchen and dining area, bedroom and bath. The bathrooms are equipped with wide swinging doors. In the event a person faints, thus providing easy entrance. Grab bars are fitted in all washrooms, and windows are fitted with special designed ease operation. All floors are of vinyl asbestos and residents may add their own carpeting. The whole structure is fire-proof in terms of steel stud and dry wall construction. An intercom system will allow the residents to talk with visitors before admittance, or call the manager to open the door. There are two elevators, one with entrance on both sides.

People eligible for occupancy must be 62 years and over having an income of \$3400 to \$3800.00 for a couple, including social security and apart from private assets. In response to citizen question regarding Federal Government invoking open occupancy, County of Cook attorney Carlisle stated, "There is no power for anybody outside of this township to be forced into this project. Niles has a waiting list now of over 99 persons. We could no doubt use and fill a 300 apartment project."
