

# Middle States Telephone Company

OF ILLINOIS

## Special Report

IN LATE OCTOBER LAST YEAR, WE MADE A SERIES OF ANNOUNCEMENTS CONCERNING OUR PLANS FOR THE EVENTUAL REPLACEMENT OF ALL DIAL-AUTOMATIC SWITCHING EQUIPMENT IN THE COMPANY'S CENTRAL OFFICE IN BOTH PARK RIDGE AND DES PLAINES. AT THAT TIME, WE INDICATED THAT AS SOON AS OUR FIRM PLANS WERE AVAILABLE, WE WOULD ADVISE OUR CUSTOMERS. WE CAN NOW OUTLINE IN SOME DETAIL THOSE ITEMS THAT WILL BE IMPORTANT TO EACH OF YOU IN THE COMING MONTHS.

### OUR OBJECTIVE: SERVICE

We feel that we should restate that as a Company with more than 800 employees in this area, we are dedicated to providing you with the best possible telephone service. We work very hard . . . 24 hours every day . . . 7 days every week . . . to provide quality service. We also spend large amounts of money to expand our services and assure the availability of the most modern telephone equipment. Our construction budget for the next two years alone calls for spending approximately \$24,323,600 for expansion and improvement of our Park Ridge and Des Plaines facilities. Customers have played a role in assuring quality service too by letting us know promptly whenever they experience problems so that corrective measures could be taken. In spite of all the many varieties of telephone equipment available, efficient service remains as the key to pleasing telephone service.

### FIRST NEW EQUIPMENT IN SERVICE IN 1968

With the greater demand for many of the telephone services now offered such as direct distance dialing, call-back, and extended area service, it became obvious that we must take a look at the dial-automatic switching equipment which handles many of these calls. When the present type of switching equipment was installed, it was the latest and best obtainable and is still used in many areas. The Crossbar equipment now used by the Illinois Bell Telephone Company in the Chicago Metropolitan area was not then available. With subsequent installation of crossbar equipment in the Bell service area, we found that our equipment was not completely compatible. We were convinced that crossbar switching equipment was necessary for all customers and have committed ourselves to a program that will see the first unit being placed in service in the fall of 1968. Additional crossbar units will be added until all presently installed equipment has been replaced.

### TWO NEW BUILDINGS TO BE BUILT

To house this multi-million dollar switching equipment, it will be necessary to build an addition to our present central office buildings. The first three-story addition will be built at 757 Pearson Street in Des Plaines. Construction will begin shortly on this building which is immediately adjacent to our present building in downtown Des Plaines. This construction will be followed soon by a similar building at 40 South Fairview Avenue in Park Ridge. This building is also immediately adjacent to our present building on Fairview Avenue. As soon as possible after construction is complete, we will start installing the new switching equipment.

### From The Left Hand

by David Besser  
Editor & Publisher

In past years we've always been less than enthused when solicitous supporters of bond referendums try to sell their wares by mentioning the cost of an issue only amounts to a "pack of cigarettes a week" or a "few whiffs of the heather." We've also looked askance when the bond supporters try to frighten us into supporting the issue. To their credit and good sense workers for Saturday's two referendums in school districts 63 and Maine Hi district 207 have not used any phony tactics in describing the need for passage of both issues.

In the elementary district 63 referendum the almost \$5,000,000 issue is a bold plan which covers a plan for the next 5 years. Rather than come back to the voters each year for an additional issue, the one-time passage of Saturday's package will prove a money-saver in the long-run. One large referendum will save the costs of repeating the yearly quest for money. It will also allow the school people to have a long-range plan which will allow for much better planning, rather than having stop - gap plans which result from annual votes.

District 63 voters are aware of the economy-minded school board's past efforts in building schools with the minimum of frills. Comparing district 63 schools with their neighboring districts would prove East Maine's schools are geared for the functional with little regard for esthetic.

Presently, the kindergarten population in the district has past the 1,000 mark. At the junior high level the 7th and 8th grades have about 600 stu-

### Fire Dept. Receives "Class 3" Fire Protection Rating

A coveted Class 3 fire protection rating has been awarded Niles, it was announced at a recent Village Board meeting.

Official announcement of this enviable achievement for the Niles Fire Department was made by Trustee Santo Bruno, Chairman of the Police and Fire Committee.

The lower fire rating means cheaper fire insurance rates for all taxpayers and residents in the village.

Niles, formerly a Class 4 town, now ranks with only five other communities in the state in the new category: Skokie, Rockford, Oak Park, Evanston and Winnetka. Only Chicago has a Class 2 rating.

Mayor Nicholas B. Blase paid tribute to Fire Chief Albert L. Hoelzl and the members of the fire department for their outstanding achievement. "We are all proud of the job you and your men have done for the people of Niles," he said.

### 5 Year Program For Dist. 63

### Vote On Additions & Maine North

A five-year building program being presented to voters of East Maine School District 63 on March 11 in the form of a \$4,945,000 bond referendum and increases in the educational fund tax rate (from \$1.60 to \$1.81) and in the general building tax rate (from 25 cents to 37 1/2 cents) will probably be the last major school construction necessary in the district in the foreseeable future, according to Supt. Hugh E. McGuigan.

Target dates for the renovation and additions to Maine East, Maine South, and Maine West by 1968 and construction of Maine North were acted upon by the school board of Maine Township High School District 207 at the Monday, January 16 meeting. This important decision was made after consideration was given to the need for increased facilities to meet burgeoning enrollments in the district's public and parochial schools as well as constructive opinions voiced at an open meeting held at Maine South on January 12, and an intensive evaluation of the needs of the total district. The board feels confident that given the authority to sell these bonds they can plan for the building needs of the area for the foreseeable future.

Action was taken by the board on a four-fold basis. Plans will immediately be drawn up by the firm of McCaughey, Erickson, Kristmann & Stillwag, Inc. of Park Ridge, and contracts will be let for new classrooms to be added prior to September, 1967 at Maine East. The bond referendum before the people March 11 will provide for the expansion and renovation of the three existing high schools—Maine East, Maine South, and Maine-West—by the opening of school in 1968 when an estimated 11,195 students will be at the doors. Then by 1970 the board hopes to have at least a partial facility ready on the Maine North site which would allow the students of the district to pursue their education without being on a half day schedule.

### District 63 Polling Places

Polling places for the special school bond election in East Maine School Dist. 63 will be open from 9 A.M. to 8 P.M. on Saturday, March 11.

Locations are: Precinct #1, Ballard School 8320 Ballard Rd., Niles. Precinct No. 1 includes the area south of Golf Road, north of Manor Lane and Dempster, east of Western and Greenwood and west of Milwaukee and Cumberland.

Precinct #2, Oak School, 7640 Main St., Niles, Precinct No. 17.

Continued on Page 17

Continued on Page 19

### VOTE MARCH 11

Continued on Page 24

The fourth item approved was to ask the voters for a 6¢ increase in the Building Fund.

## Niles Township Students To Visit Mexico

Plans for a student trip to Mexico during the spring vacation were approved Monday night by the Niles Board of Education. The week-long excursion to Mexico, available to students attending the Niles Township High Schools, is to begin Friday, March 17, when the students will jet from O'Hare Field to Mexico City.

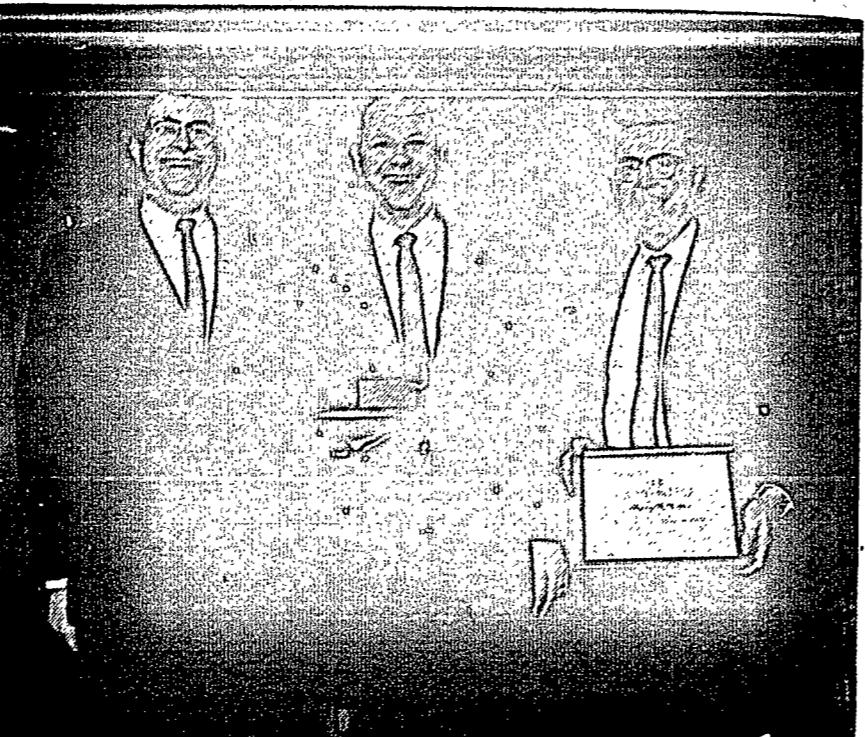

The spring trip, which has been arranged by Gentil da Rosa, a teacher of Spanish at Niles East, will also take the students to Guadalajara. The tour will end Saturday, March 25th, when the students return to Chicago.

Dr. Clyde Parker, superintendent, reported to the School Board that four students attending the high schools last

week were named winners in the annual Westinghouse Science Talent Search. He remarked that Niles' four students were the only ones in Illinois to be named in this science competition.

The student are Daniel Parkas and Steven Binder from Niles North, and Carol Egel and Alan Weiss from Niles West. After some discussion about the outstanding achievement of these four students, the Board asked the administration to set up guidelines which the Board might use to commend students who achieve academic distinction.

The superintendent also reported to the Board that the negotiating teams of the School Board and the Niles Federation of Teachers have held two sessions and that to-date discussions have focused largely on the framework for negotiations. Dr. Parker announced to the Board that Merton Haynes, assistant superintendent in charge of administrative services, recently completed all

### Receives Award

Harry Webber (center) 7233 W. Crain, Niles a manufacturing engineer at Teletype Corporation in Skokie, was recently presented an award for completing more cases than any other Teletype engineer in 1966. Webber was one of eleven of Teletype's 250 eligible engineers who was selected to receive an award for his outstanding engineering achievements. Burt Persky (left), Chairman of the Awards Committee, and Roger Smith (right), committee member, presented the award to Webber during a special program in honor of National Engineers' Week.

## NI-GAS Hikes Dividend Again

On March 1st, Northern Illinois Gas Company raised its quarterly dividend rate on its common stock to 38 cents a share.

The action by the company's directors marked the ninth straight year the NI-Gas dividend has been raised, and represented the tenth increase since NI-Gas began business in 1954.

In making the announcement, Marvin Chandler, chairman and president, said the new rate is over 5% higher than the 36¢ rate in effect since May 1, 1966. The annual rate is now \$1.52 per share. The quarterly dividend is payable May 1 to stockholders of record March 22.

The directors also declared the regular dividends of \$1.25 a share on the company's 5% preferred and 5% convertible preferred stocks; of \$1.15 on its 4.6 percent preferred stock, also payable May 1 to stockholders of record March 22.

## USY Group To Conduct MTJC Service Mar. 10

Pre USY--The Jr. High School Youth Group--will conduct the Maine Township Jewish Sabbath eve service, March 10, at 8:30 P.M. in Mark Twain School, 9401 N. Hamlin, Des Plaines. Rabbi Jay Karzen will also participate and deliver the sermonette "Far Die Kinder". Among shabbat social hour will follow in honor of the participants.

The 5th session of the Sunday evening MTJC Adult Education Institute will be March 12, 8:30 in the school. Rabbi David Graubart, a noted religious leader, will deliver a lecture on Conservative Judaism as part of the "Many Faces of Judaism". The community is invited to this program.

The movie "Flippers" will be presented at the school, Sunday afternoon, March 12, 2 P.M., sponsored by the Youth Department of the synagogue. Tickets at 50¢ each will be available at the door. All young people in the community are invited to these monthly movies.

Daily religious services are conducted each morning at 8:99 Ballard Road, Des Plaines. Saturday and Sunday services are at 9:30 followed by breakfast, with weekday devotions at 7:30 A.M.

## Sophomore PTC Announces

### "The Lions Den"

On February 8th a special meeting of the Maine East Sophomore PTC was called by Co-chairmen Mr. and Mrs. Robert Perrin.

The purpose of this special meeting was to arrange for the annual Sophomore party theme and date.

After a lengthy discussion, the Sophomore PTC Committee along with the officers of the class decided on "The Lion's Den" for their theme and Saturday, April 29, 1967 is the date.

## Safety Council Gives Points On Turning

"Improper turning maneuvers not only cause accidents, they cause needless traffic congestion," John T. Sebastian, Chairman of the Niles Safety Council, said today. He listed the most common errors in turning maneuvers as follows:

1. Failure to signal, or signaling too late.
2. Turning from the wrong lane.
3. Failure to stay in the lane during the turn.
4. Unnecessary hesitancy in completing the turning maneuver.

Few things are more aggravating than the driver who stops in the left lane for a traffic signal and puts on his left turn signal when the light turns green. By that time, Chairman Sebastian pointed out, it is too late to give following drivers a chance to get around him. If he can't make his turn promptly, which is often the case, everybody behind him is stuck there. If the signal had been made in time, it would have permitted the cars behind him to find a safe way around, "Remember," Chairman Sebastian stated, "the law requires that you give a turn signal at least 100 feet in advance of your turn."

Turning from the wrong lane breeds accidents and congestion. The offending driver usually tries this means to avoid waiting in line to make his turn

### Nelson School PTA Meeting March 14

A simulated classroom situation will be presented by the teachers of Nelson School at the forthcoming PTA Meeting which will be held on Tuesday, March 14, 1967 at 8:15 P.M. in the school's All Purpose Room.

Mr. Robert Sénkel will play the role of a teacher in a part comical-part satirical skit.

Our Answer Man, Mr. Howenstein will be on hand to answer any questions.

A Science Fair presented by the Fifth Grade will precede the meeting.

Hostesses for the evening will be the 4th grade Room mothers.

The new look in telephone service assistants is shown above as Middle States Telephone Company of Illinois announces its first group of male telephone operators will begin handling calls within the next few days. Pictured above are the four young men who are presently attending classes

to become full-fledged Service Assistants. Standing from l. to r., are Gary Grunlund, 310 S. Greenwood, Park Ridge; Jesse Barrera of Bensenville; Bruce Broadrick of 434 Engel, Park Ridge; and seated in front is Jim Sunheim of 165, Kinkaid Court, Des Plaines.

### Male Telephone Operators At Middle States

The "Voice With A Smile" will have a new ring to it within the near future as Middle States Telephone Company of Illinois begins using its first group of male Service Assistants in its Park Ridge Office. Presently in training are four young men who will begin handling calls directed to the "Operator" within the next few days.

Fred C. Shreck, District

Traffic Superintendent for Middle States indicated that the customers' reaction to finding a male voice instead of the usual female operators might be quite startling for some people, but once they become accustomed to the efficiency with which their calls are handled by the men, they will be accepted as well as their female counterparts.

### Vote On Maine Twp. Bond Referendum

Before deciding upon the proposed bond referendum to be voted on Saturday, March 11, 1967, for the remodeling and additions to the three existing Maine high schools as well as the construction of Maine Township High School North, the District 207 Board of Education gave careful consideration to:

1. Double shifts—a school day beginning at 7:30 a.m. and ending at 5:15 p.m.
2. The 12 Month School Year

The board feels that the citizens of the community should realize that double shifts endanger the accreditation of the high schools.

The North Central Association of Colleges and Secondary Schools, accrediting organization for this area, in its latest publication of "Policies and Criteria for the Approval of Secondary Schools" states that, "Double sessions are not approved except in emergencies and then only temporarily; evidence must be presented showing that plans have been made to remedy the situation."

Realizing that such measures as double shifts could only be temporary, the Board of Education considered that the best interest of the taxpayers can be served by the total \$15 million plan.

The 12 month school year plan is to a degree now in effect for a large number of students, since approximately one-half of the student body or about 4,000 students are presently enrolled in the district's three summer schools. Many of these students attend summer school at their own expense to enrich their total

education. For instance, a girl may take a business course to help her, along with a regular college preparatory program, work her way through college. "Adequate preparation for college is becoming increasingly demanding," Dr. Richard Short, superintendent of District 207, stated.

The 12 month school plan utilizes a four quarter system and requires three-fourths of the students to be in school while one-fourth are on a three month imposed vacation.

The community, and especially parents, need to recognize the problems involved in such a program. Some of these problems are:

1. Reasonable efficiency demands that pupil enrollment be divided into four equal groups such that each quarter the pupils in attendance make full utilization of the building facilities.
2. Recognizing that three-fourths of the student body will be enrolled in high school during the summer, parents must realize that family plans for summer vacations, summer camps, or summer jobs will be directly related to students' scheduled attendance.
3. A student's participation in school activities, like sports, drama, music, etc., will be directly related to his scheduled attendance and extremely difficult to coordinate with his interests and talents.
4. The savings for the added full school program will need to be

continued on page 14.

## Book Muse

by Mr. "M"

A teenager came in the other day and asked a question I used to ask when I was his age whenever the school assignment was "read a biography".

I didn't particularly care about biographies in those days (in fact they're still not exactly my cup of tea) but in simple justice I wondered how I'd come out in defense of this genre.

This is what I "muse-d out."

Our first heroes are larger than life. Parents are almost god—images and our early teachers are kindly protective giants. The heroes of story books have the same character, the same dimensions. The heroes of the myths, even if they are man-sized, have characteristics and capacities beyond the reach of mere men. But all these experiences of childhood and early adolescence prepare us to read the symbols of the valued personality and the useful action. When we turn to the record of human achievement in biographical writing, we are prepared to read these symbols with some accuracy even in the context of real, conflicting social actions. The life stories of real men and women, who once were children, who suffered and enjoyed the storms and stresses every teenager knows, allows the young reader to come to closer grips with the consequences of being a person, an individual.

The great scientist, Steinmetz, had a brilliant mind in a twisted little body. He was capable of loving greatly. It was a long time before he found some people who were able to love him in return. Yet he was a giant, cut in a hero's mold, standing alone against the elemental lightnings, armed only with a pencil, a head full of mathematical formulas, and a profound knowledge of the secrets of nature that are no secrets to science. Lindbergh was no more than a boy when he put tiny wings to a fierce dream and conquered the ocean air. Admiral Byrd lived alone under the snow near the South Pole and thought and wondered about himself and life and the meaning of both. When he was

Or, put another way, this is a man against the elements—man alone against the ravening forces of nature or pitted against inscrutable evil foes. Nature is a blind opponent. There is a mountain to be climbed, a desert to cross, a shipwreck or plane crash to survive. Man alone, with courage and cunning, with desperate patience and fearful thought, works his way to ultimate, solitary victory. This is the way a boy can take the measure of man's possibilities. This story is an index of potential greatness.

Thus I muse-d.

## Emergency Mobiles At Nathanson

### To Be Completed By March 15

Five mobile classrooms presently under construction at Nathanson School, Church Street and Potter Road in East Maine School District No. 63 are scheduled to be completed March 15.

The classrooms, purchased from C.I.T. Educational Buildings, Inc., will house some 125 to 150 children.

Nathanson School, a newly constructed building which opened in September, is overcrowded by more than 200 students. Classes are presently being held in two alcoves off the central library.

Although the mobile units will only temporarily alleviate the overcrowdedness, the school district does not currently have the financial resources to construct more units. The five classrooms under construction were purchased with excess township funds distributed to District 63 by Maine Township, Supt. McGuigan said.

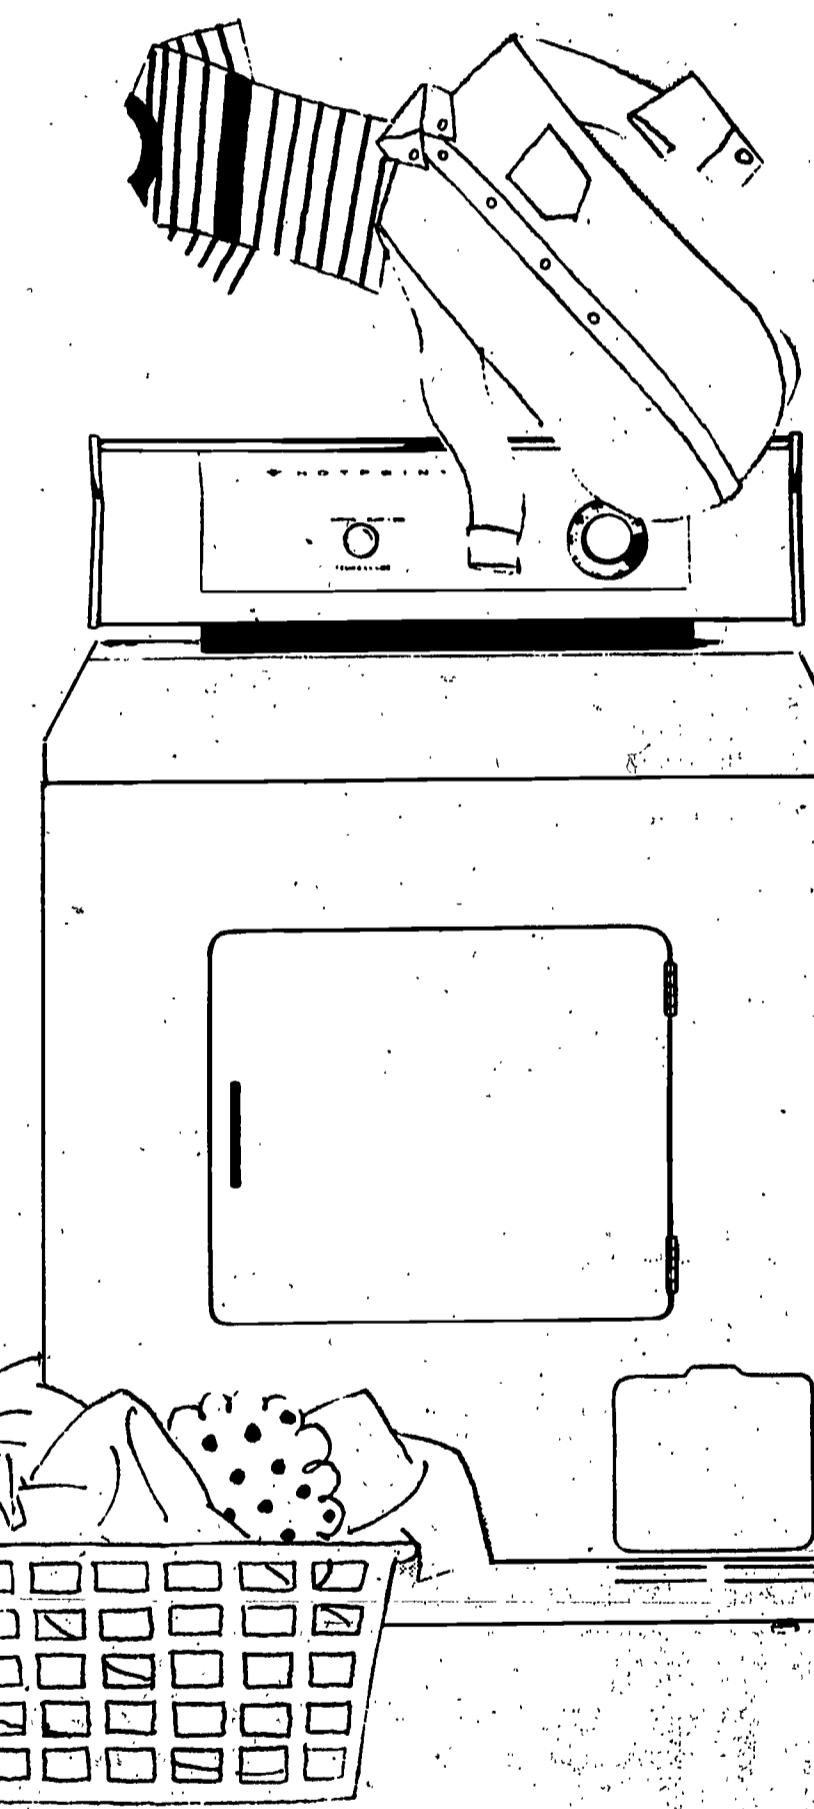

The 12 mobile units which have been constructed in the future will be used in the future. This was taken into consideration in preparing the construction program being proposed, Supt. McGuigan said.

# GIRL

**WE SALUTE THE  
MEMBERS AND LEADERS**

For over fifty years, women have given freely of their time to work with and train young girls — showing them the way to live a happier, more useful life — through the Girl Scout program. This organization deserves our praise and the support of each one of us!

In 1912, Juliette Low brought Girl Scouting to the United States. Scouting's purpose has been to help girls develop as happy, resourceful individuals, willing to share their abilities as citizens in their homes, their communities, their country and the world. We pay tribute to the founders of Girl Scouting and the members who have carried on a tradition of service and good citizenship.

## LETTERS TO EDITOR

### On Bond Referendums

Dear Citizens:

As an official viewing the growth and needs of our community, I am aware of the steady increase in the student population of East Maine School District No. 63 and Maine Township District No. 207. There is no question about the fact that the new school facilities which are being requested by the elementary and high school districts are needed to house the children now living in our community.

As the Mayor serving part of the community in which these children reside, I cannot hesitate to recommend that every citizen give the issue his serious consideration.

Very truly yours,  
Nicholas B. Blase, Mayor

### Appeal For "Yes" Vote

Dear Mr. Besser:

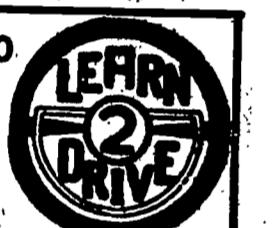

This is an appeal for a "YES" vote on District 207's \$15 million take-it-and-love-it building bond package March 11.

The reasons are many, but here are a few:

1. By presenting the matter of additions at Maine East, West, and South and the construction

## Bond Referendum To Determine Future Of Quality Education

of Maine North in one package the Board is encouraging the taxpayers to express themselves on the solution to the complete problem. They trust us to make an intelligent decision because we'll avoid duplicate election costs; we'll avoid delay when construction costs are accelerating 3% per year; we'll avoid duplication of effort by citizens to promote separate referenda.

2. The Board's own timetable for submission of the Maine North issue had to be stepped up since detailed planning must begin by 1968 to meet the 1969 enrollment—that's 11,800 kids! By 1970, enrollment of 12,200 will be here—and up to 14,000 in 1975.

3. Behind the statistics on increased student capacity at each school, is a mighty big camel being crowded under the West tent. The camel has two humps. One hump provides for the sorely needed physical education and gym facilities, and the other hump is for 17 classrooms and 2 industrial education shops, 104 thousand square feet at West for just under \$18 per foot cost. At South, 76 thousand square feet will be added at the same cost per foot. At East, 128 thousand square feet of space is complicated by swimming pool construction and modification to existing space. That's why the estimate goes to \$22 per foot there. Only part of what is proposed now was turned down by the voters in the past, and now the pressing needs will be met by higher construction costs.

4. Since Parkinson's law does not apply to school building projects (any undertaking will have to conform to the laws of the State that spell out how public funds might be gathered for this purpose), we limit our Board and architects (who work hard overseeing construction, procurement of quality materials, etc., for a reasonable professional percentage fee) to an \$8 million project. This seems down to earth "guesstimating" when we recall our present 3 schools cost: East, \$6,002,500, West, \$7,445,000, and South, \$7,570,000.

5. This point is a commendation to the District 64 Elementary School Board, which took official action urging approval of the bond issue. This, we submit, is facing up to the facts and giving recognition to the problem manifest in the number of youngsters now in the elementary schools who will be the 14,000 high school body by 1970.

One might ask, what then do we recommend? The answer:

1. Vote "YES" on this take-it-and-love-it \$15 million issue.

2. Let the Board commence as swiftly as possible the construction of sorely needed space in the existing high schools, with all the essentials pointed out in their prospectus being ready for the 10,400 kids in September, 1967, the 11,200 in 1968, and 11,800 in 1969.

3. Let the Board proceed with its forced timetable and schedule the North building on the site already purchased in time to meet the 12,200 students in 1970—expanding to 14,000 by 1975—with plans scaled to an efficient and economical building, not a palace. (Who'd want

continued on page 15

"The big thing to be determined at the polls on Saturday, March 11," says Supt. Hugh E. McGuigan, East Maine School District No. 63, "is whether the district will be able to continue to provide a quality education for students of the district."

The schools, already overcrowded by more than 600 children this year, he said, are using their ingenuity to overcome the problems of overcrowding. Basement rooms, school kitchens, special area rooms and air vent closets are being used for classroom space in addition to 12 emergency mobile units.

"With continued overcrowding, perhaps split sessions and low financial resources," he said, "the quality of education we can offer the children will be seriously impaired."

Overcrowdedness shows up in a number of ways at the various schools. The health room of Washington School, busy place—is used as a music teacher's office, staffing room and a conference room for a reading teacher.

A hallway at Wilson School has been transformed into a library. The area is well-lit and pleasant, but persons frequently pass through the area while students are attending library classes or doing research.

"Residents of this community have put in so much time and money to achieve the kind of quality education program we all can now offer," he said, "it would be a shame to endanger the future."

## Dist. 63 Bond Referendum

continued from page 1

"If the referendum passes on March 11," Supt. McGuigan said, "we will begin construction of the Woodview school immediately." The educational specifications for the building are "almost complete," he said. Target date for completion "hopefully" would be January 1, 1968.

Located between the Nathanson and Ballard schools, this new school would relieve those schools of the district which are presently most overcrowded—Ballard, Nathanson and Mark Twain schools.

The second phase of construction would probably be that of a new junior high school. The board of education is presently in search of a suitable site. Construction of the junior high school is expected to be done in three stages. With bond passage, the first stage is expected to begin sometime in 1968.

Were funds to accumulate more rapidly than anticipated, the district might be able to build the junior high school in two stages permitting a saving in construction costs, he said.

The second elementary school is expected to be built in the area east of Milwaukee Avenue which according to population growth studies will be in need of an additional school within two or three years.

Final phase of the construction program includes the building of major additions to Washington and Nathanson schools.

Both schools were originally designed to accommodate additions.

Although these two additions make up the last phase of construction, they could be built sooner if necessitated by the growth of students and were funds available.

A five-year plan is being presented to the voters, Supt. McGuigan said, because it provides ways of economizing.

With bonding power for a five-year period, the district will be able to plan a total, rather than piecemeal, construction program accumulating considerable savings in construction cost.

It will also enable the school board to sell bonds on the most favorable market, not always possible when referendums are held for each building project, allowing savings in interest costs. And the money spent holding separate yearly referendums can be used instead for education, Supt. McGuigan said.

## Bond Referendum

continued from page 10  
carefully balanced against summer school tuition, increased staff costs and facility modification costs (air conditioning) since individual students now pay tuition for summer school.

5. Maintenance programs will need to be scheduled on week days or evenings.

6. Family schedules involving elementary and high school students, with working mothers, become more complex with school attendance.

7. Pupil transfers will be difficult to coordinate with a 9-month school calendar in another school district.

8. Attendance laws and state reimbursement laws will need modification to apply to a 12 month school plan.

These are some of the problems considered by board members in reaching their decision that it is in the best interest of the tax payers to propose the present plan for the addition and remodeling of the present facilities and the construction of Maine North.

## LETTERS TO THE EDITOR

continued from page 14

to go to school in a drafty old palace anyway?" Most voting taxpayers truly thinking about this have indicated they'd settle for facilities equal to those already existing in the District.

May we see you at the polls on March 11?

Voters for Youth, Education, Schools

Mr. & Mrs. Donald E. Goll

## Publicity Thanks

Dear Mr. Besser,

The Niles Youth Commission expresses much appreciation for the attention and cooperation which you have given us through your newspaper. A helping hand is always welcomed, especially when it concerns our youth.

We would like to extend a special "thank you" to Mrs. Hart, who gave of her time so freely in attending our meetings and interviewing our members, so as to report to the public the details of our now in progress Youth Essay Contest and future projects of the Commission.

Again we extend our gratitude for your help in making our work on the Commission successful.

Sincerely,  
Todd Bavaro  
Chairman,  
Niles Youth Commission

Fran Cohen  
Co-Chairman, Essay Contest

## Illinois Bell Employees Get Wage Increase

A 36-month agreement between Illinois Bell Telephone and the Telephone Commercial Employees Union provides for weekly wage increases ranging from \$3.50 to \$8 and substantial improvements in benefits.

The union represents 1,460 employees in the company's State, Suburban and Indiana Commercial and Marketing Departments.

All wage increases cover an initial period of 18 months, at which time the agreement can be reopened for wage discussions.

Three communities—Wheaton, Libertyville and Roselle—were reclassified to the next higher wage category. Starting rates for most Suburban Area clerical employees working in Chicago are increased \$4.

The agreement also provides substantial improvements in vacations, pension, medical expense, group insurance and death benefits at varying times during the life of the contract.

The new contract will become effective February 26, if ratified by the union membership by March 3.

Basic wages are increased under the contract by an average of about \$4.69 per week, or 11.8 cents per hour. The wage cost to the company over the first 18 months of the agreement is \$630,000. Cost of benefit improvements are in addition to these wage costs.

Commissioner Arthur W. Luchs of the Federal Mediation and Conciliation Service aided in the negotiations.

The Bugle, Thursday, March 9, 1967

## Little City Children See "Sound Of Music"

reserved for them. These children will be taking a day off from their week long classes at the school, in order that they may participate in this recreational activity which is also a vital part of their development.

Little City was founded in 1958 by a group of 9 Chicagoans who felt that there was a need to give these children an environment in which they

could live as normal a life as possible and also work toward becoming productive individuals to the best of their abilities. Right now Little City houses 100 children and is a non-sectarian residential community, fully supported by its chapters. Its goal is to provide accommodations for 400 children with 150 staff members and to provide a complete hospital and

research building on the grounds.

## Donkey Basketball At Maine East March 11

Fun loving sports fans are promised a field day of hilarious entertainment when Duell's Dandy Donkeys come to town Saturday, March 11, 1967 at the Maine East Fieldhouse. In the donkey basketball, the first half will feature the M-Club VS. Men Faculty; the second half, our Poms and Cheerleaders VS. Women P.E. Teachers. A regulation game of the M-Club VS. The Coaches will follow.

An outstanding half time show will be presented, BIMBO, the Bobby Soxer Trick Mule will take the spot light, plus two Novelty Donkey Races, prizes will be awarded in each event.

This will be a great family show that will be talked of with much admiration after the donkeys have gone.

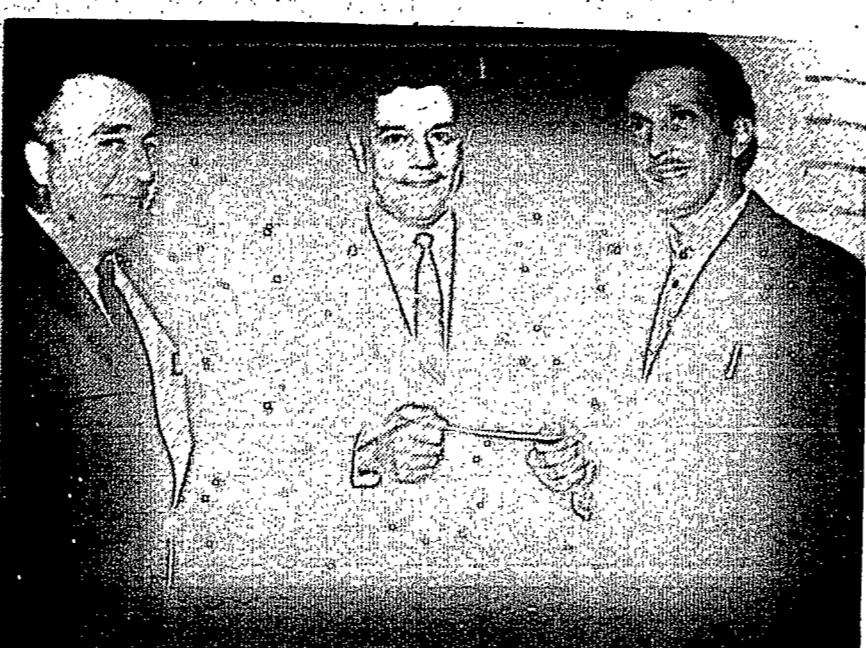

Tickets are on sale by M-Club members, Pom-Pongirls, and Cheyleaders. Be sure to get your ticket in advance for a 25¢ saving.

## Niles Park District Basketball

The top five scorers in the league were D. McDonnel with 151 points, D. Giancaspro with 149, R. Dayment with 104, K. Capasso with 97 and J. Russ with 71.

Last Friday, the Dons further invaded the "nest" of the Maine South Hawks. The ND side was completely filled an hour before the game for fear of not getting a seat. It looked like Notre Dame all the way as within the first 5 seconds, the Dons had

## NTJC Sisterhood

## Art Exhibit

## March 18 & 19

The Niles Township Jewish Congregation Sisterhood, 4500 Dempster street, Skokie, is presenting a comprehensive art exhibit titled "Tableaux des Arts", on Saturday evening March 18, and all day Sunday, March 19.

Works of art consisting of paintings, sculpture, jewelry, and ceramics will be showcased for sale in a wide range of prices.

Door prizes and refreshments will brighten this exhibit.

Admission \$1.00 at the door.

Mrs. Adolph A. Brown, 8955 Kildare avenue, Skokie, president of the Sisterhood, and Mrs. Sherwin Willens, 9131 Samoset trail, Skokie, chairman of the "Tableaux des Arts", invites everyone in the Chicago and area to the exhibit.

## Dick Harczak - Active Citizen

Richard Harczak likes making decisions. His entire background as a businessman and civic leader shows that he is a hard worker who always strives to improve things around him. These traits make him an excellent choice as Trustee for the Village of Niles.

Harczak is a candidate along with Ang Marcheschi and Ed Berkowsky on the Active Citizens Ticket. This team will be placed before the public for Niles Trustees on April 18.

Dick Harczak came to Niles twelve years ago as a businessman. He quickly grew to know the people of the Village of Niles and they soon knew that he was an honest businessman who sold quality products. The results was that Dick Harczak's business prospered. By 1959, the Harczaks decided that Niles was not only a good place to do business, but a good place to live, so they moved into Niles.

Dick soon became an active citizen. He joined the Niles Lion's Club and eventually became Vice President. He also

### Nilehi West Music Students Participate In Contest

Nilehi West's music department is sending 90 students to the solo and Ensemble Contest Saturday, March 11, at Prospect High School.

"There are 60 high schools participating in the contest," explained Music Instructor Charles Groeling, "and they include schools as far south as Aurora, as far west as Elgin, and as far north as the state line."

The contest is for students who have studied privately and who have worked up solos or are in ensembles of two to six students. The areas range from vocalists, strings, woodwinds, brass, and percussion. This is the fourth consecutive time Nilehi West has entered the contest and the fifth time in the school's history.

Groeling agrees with Lynda, "We don't enter the contest for the prizes. We want our students to gain the experience of performing before an audience."

### American Legion St. Pat's And Birthday Combo Party

The Morton Grove American Legion Post #134 1st Junior Vice Commander Frank Selzer has announced his committee for this year's annual combination Legion Birthday Party and St. Patrick's Day Ball. Reservations are available from himself, or Bernie Williams, Hal Unger, Andy O'Brien, Jack Terrazas, Bob Perschon, Al Nehart or Herschel Poland.

The public is cordially invited to come and hear all or part of the performance. The pianos used in the contest will be offered for sale to the public at specially reduced price after the contest at the Karnes Music Company, 9800 Milwaukee Avenue.

iced cake which is being furnished by the Auxiliary Unit.

The donation for the whole evening is only \$8.00 per couple. This includes liquid refreshments for the night also. A fine orchestra has been engaged for the party.

In addition to celebrating St. Patrick's Day, the American Legion is commemorating their 48th birthday.

You can be sure both Irish tunes and the "Happy Birthday" tune will be prevalent throughout the evening.

### Ceylon And Columbian Children Adopted By M. G. Woman's Club

Mrs. Robert F. Schroeder, 9130 Marion Avenue, Public Welfare Chairman, announced that The Morton Grove Woman's Club, affiliated with the Tenth District of the IFWC, will again adopt for one year three children from abroad as they have done since May of 1965.

Kandish Sibamani, sixteen years old, from Ceylon, is helped through the Christian's Children's Fund, Inc. She lives in the Salvation Army Girl's Home in Ceylon and attends school there, which she loves very much. Her favorite subjects are Arithmetic and reading. Kandish enjoys participating in outdoor games and loves the crochet as part of her extra curricular activities.

All who wish to celebrate St. Patrick's Day in an unforgettable way are invited. While space is limited, reservations can still be obtained by calling the school at 965-2900.

Two children from the Jar din Infantil "Barrio Boyaca".

All of these wonderful projects are made possible from the profit of the MGWC Philanthropic Luncheon, which you in Morton Grove helped to support! Also, the "Shut-Ins" will be remembered at Easter with Bunny Candy. Dishes made by the Club's interest group, "So & Sews", whose chairman is Mrs. Kelly Brown, 7927 Luna Ave. This group has worked very hard every other week all year for the Public Welfare Dept. as well as for many other committees. With emphasis on sewing and the creative arts, the industrious and talented gals have been able to formulate a list a mile long of past accomplishments and have been an asset to the club.

The function of the American Indian Center and the Indian's place in our changing country will be discussed by Mrs. Paul Zwick, 10th District Indian Affairs Chairman of the General Federation of Women's Clubs. She will be speaking at a luncheon with the Alumni Nurses Association from the Illinois Nurses Training School of Cook County. President Mrs. Thirza Wilhan stated that there are about 445 active nurses who are in the retirement age bracket.

### Computer Dance Set For Saturday

Students receive a rank of superior, excellent, good, fair, or poor. Those named in the first two ranks win a medal. Last year all entries from Nilehi West won medals, and the music department finished second out of 40 in total points scored, winning the Sweepstakes Runner-up Trophy.

Among the newcomers to this year's contest is Freshman Lynda Gill. Lynda is playing a solo, "Le Secret," on the marimba. She feels that entering the contest will help her playing. "You can learn how to improve from the judge's comments," she said.

Groeling agrees with Lynda,

"We don't enter the contest for the prizes. We want our students to gain the experience of performing before an audience."

### Lessons In School Kitchen

Oak School — Rick Caracello, music teacher, instructs Bob Schenkel, son of Mr. and Mrs. Robert Schenkel, 7527 Cleveland, Niles, in the school kitchen. Boxes being stored in the room surround teacher and student.

### Niles Baseball News

continued from page 17

Buesse reported to the Board the following items:

3. Opening Day, Saturday noon, May 13th, at Grennan Heights.

The next general meeting will be held Tuesday, March 14th, at 8 P.M. at the Niles Recreation Hall. The Chairman of the Program Committee has arranged for showing the Chicago Black Hawk's film. Refreshments will be served. All committee chairmen will be on hand to give reports on the activities of their committees.

Jack Leske, chairman of the Registration Committee, will be on hand in the lower level of the Recreation Hall at 7:00 P.M. to enroll the late comers into the Niles Baseball League. He urges that all new enrollees bring their birth certificates along. He also stressed that any boy who will be 8 years old before July 31, 1967 is eligible to participate in the Niles Baseball League.

Important Days To Remember — 1. Father & Sons Day, Sunday afternoon, March 19th, at Recreation Center, 2. Niles Baseball League Dance at the Hyatt House, Friday, April 28.

Several lucky American Indian children will be recipients of tickets for the Shrine Circus, due in Chicago this month.

The function of the American Indian Center and the Indian's place in our changing country will be discussed by Mrs. Paul Zwick, 10th District Indian Affairs Chairman of the General Federation of Women's Clubs. She will be speaking at a luncheon with the Alumni Nurses Association from the Illinois Nurses Training School of Cook County. President Mrs. Thirza Wilhan stated that there are about 445 active nurses who are in the retirement age bracket.

### Completes Radioman Course

Bainbridge, Md., (UPI)— Feb. 13—Radioman Seaman Barry J. Hockfelder, USN, son of Mr. and Mrs. Edward Hockfelder of 9342 Oriole St., Morton Grove, Ill., was graduated from the 14-week Radioman "A" course at the Naval Training Station, Bainbridge, Md., with an academic grade of 92.81.

He is now aboard the Naval Communication Station at Newport, R.I., performing duties in the field of radio communication and maintenance.

### Dist. 207 Bond Referendum

Continued from Page 1

sale of bonds in accord with the market.

With an increase in student enrollment of approximately 1,000 per year, and the second largest high school population in the suburban area, Maine Township anticipates a saturation peak enrollment by 1975 in the neighborhood of 14,000 students. However, before the vote was taken as to whether Maine East should be expanded to 4,500 or to 3,500, Mr. William Newport, school board member of Des Plaines, asked Dr. Richard Short, superintendent of District 207, to spell out the projected population statistics compiled by the administration of the district.

At this point Mr. Osri stated, "We have listened to the positive reaction of the citizens who are aware of the overall needs of the district, and we personally have spent many months of intensive study of the administration's analysis of needs. I call for the question."

The Board of Education of District 207 voted unanimously to present this \$15,000,000 bond referendum to the people on Saturday, March 11, 1967.
