Perhaps the most consistent question we hear about the community these days concerns the candidates for the public offices. Last Wednesday night we heard them speak at the Niles Recreation Center.

The Niles Caucus Party village trustee candidates seem to be centering their campaign around the TAM O'Shaner issue. While they mentioned other areas of contention the TAM issue seemed to arouse the interests of the candidates and their followers. Ed Mitchell, a very articulate candidate mentioned Niles has one-party rule, a closed society, conflict-of-interest abounds on the Board, the board is a rubber-stamp board, and said he favored "open discussion" at public meetings prior to voting. Mitchell said he also favored the building of a Senior Citizens Home. Mandy Honold said she thought Niles had "wonderful departments," mentioned the "conflict of interest" charge and said trustees were using their trusteeship to further their own interest. Erich Buck, the third candidate, spoke of his years behind the iron curtain and also pointed a finger at the TAM issue. Candidates Mitchell and Buck have been active in scouting, Mrs. Honold in the Woman's Club and on the Niles Days Committee.

Incumbents Berkowsky, Marcheschi and their running mate, Rich. Harczak, pointed to the progress of Niles in recent years. Berkowsky pointed to the additional 5,000,000 gallon water reserve Niles now has with the completion of the new storage area, the street and lighting program which will eventually be completed on Waukegan Rd. and then installed in residential areas and praised Niles All-America award. Marcheschi praised the police and fire departments, said the police department wasn't among the top 25 departments in the County four years ago but now is among the top ones in the state. The Fire Department's "3 Rating" is proof of its quality and he defended the utility tax by stating this money was used for public salaries saying "the policemen and firemen have aright to eat too." He promised Niles would someday have a Class 2 rating (only Chicago has it). In answering the opposition he said the candidates only have attended one or two village meetings and said of 843 motions the Board has agreed on 794, answering the rubber-stamp charge. Marcheschi also reported a new fire station would likely be built at Caldwell and Howard on land donated by the Anderson Company and the present station at Touhy and Milwaukee would then be abandoned. Newcomer Rich Harczak mentioned his service on many citizen committees which led to reducing speed limits in Niles, getting railway express service in town, and working on a committee which continued on page 19

Expansion Program Backed By Government

By June Hart

At the Village Board meeting of Tuesday, March 28th, village Clerk, Marge Lieske, read a letter received from the State of Illinois, which indicated their approval of the 701 program, which will cover a period from ten to twenty years.

Mayor Nicholas Blase said that this program, "was a tremendous thing," and final approval would mean that the Government would pay two thirds of the cost.

On March 30th, two petitions, one, for the formation of an East Maine Village, and two, for the formation of a Golf Mill Village, are scheduled to come before the Cook County judges.

The Board in conjunction with the Niles Police Department are to study the Helping Hand program for youth, a proposed project of the Niles Youth Commission, Mr. Todd Bavaro, chairman of the Niles Youth Com-

mission, explained briefly that the plan would involve accredited citizens in each street of Niles, establishing a lighted window sign, "Helping Hand to Youth". In this manner it was hoped to be able to give immediate aid to youth in distress, or guidance to those seeking it. Mr. Bavaro said that a full interpretation of the plan was to be given on Wednesday evening of March 30th at East Maine Junior High school.

Bd. Of Dist. 63 Lauds Citizens For Their Referenda Support

Members of the board of education of East Maine School District No. 63 warmly responded at the March 14 regular meeting to a motion by Mrs. Sylvia McNair, a board member, to applaud the citizens of the district for their three to one vote of approval of the bond referendum and tax increases at the March 11 election.

An official canvas of the March 11 special election showed that 3,333 votes were cast in favor of the \$4,945,000 bond referendum with 1,493 opposed. The increase in the educational tax rate was approved 3,218 to 1,593. The increase in the building tax rate passed 3,149 to 1,661.

He especially thanked Gary Herrmann, chairman of the Voters for Youth, Education and Schools (Y.E.S.), for the efforts of both he and his committee to inform the public of the issues involved in the election.

Mr. Herrmann, in return, said he wanted to thank every-

Board member Allen Schwartz suggested that the school board contact the larger businesses of the district to request that they pay their taxes locally. The township will then receive a percentage for collection. Excess township funds derived from this source are distributed among the school districts within the township.

Members of the Class of 1970 wave their banners in preparation for the "Everything's Coming Up Frosh" Spring party. The dance, to be held Saturday, Apr. 1 from 7-10:30 p.m. in the school cafeteria, serves two purposes—the heralding of Spring and the building of the freshman class treasury for the 1970 senior prom. Students pictured are (from l. to r.) Clifford Briars, Niles; Audrey Pedersen, Park Ridge; David Goodman, Niles; Mary Kennedy, Des Plaines (top), freshman class president; Pat Rea, Niles and Ron Volkman, Glenview. "Everything's Coming Up Frosh"

Although the snow is still blowing, spring is in the air at Maine East High School in Park Ridge. The freshman class is busily planning their "thaw-out" extravaganza to be held in the school cafeteria, on Saturday, April 1, from 7:00-10:30 p.m. Providing dance music for the P.T.C. Freshmen Party will be the Palace Guards Combo, a group of Maine East students.

"Everything's Coming Up Frosh" is the theme of the party with appropriate floral decorations to create a spring atmosphere. A special, personal touch will be given—refreshments—delicious homemade cupcakes and Coke and Seven-Up. Unique door prizes are being conceived for the lucky winners and mixers are being

planned for dancing.

Each family of a freshman is requested to donate \$2.00 to the class fund to be used for the banquet and prom when the freshmen become seniors. Mrs. Marshall Pedersen, of Park Ridge, comments, "The Class of 1970 needs you, come over and get acquainted with your fellow-freshmen classmates during this wonderful fun-filled evening. You'll be glad you did. Since the Freshman Class Treasury has a lot of growing to do between now and June, 1970, please come."

Chairmen from the Freshman Parent-Teacher Council who are serving on various committees include Mr. and Mrs. Bud Goodman, Niles (Freshman P.T.C. chairmen); Mr and Mrs.

Sam Rea, Niles; Mr and Mrs. Marshall Pedersen, Park Ridge (Publicity); Mr. and Mrs. Harry Volkman, Glenview; Mr. and Mrs. James Castles, Park Ridge (Refreshments); Mr. and Mrs. Roger Erickson, Des Plaines (Door Prizes); Mr. and Mrs. Joseph Jobst, Des Plaines (Refreshments); Mr. and Mrs. Howard Richards, Park Ridge; Mr. and Mrs. Francis Flynn, Des Plaines (Refreshments); Mr. and Mrs. Robert Trantini, Park Ridge; (Freshmen P.T.C. chairmen); Mr. Don Holden, Des Plaines; and Mrs. Gordon Murphy, Glenview (Decorations).

William Straus Named Community Chairman Of Cancer Crusade

William Straus, 8845 N. Grand, has been named Community Chairman for the 1967 educational and fund raising Crusade to be conducted by the American Cancer Society in Niles in April. Northwest Suburban Unit Chairman John O. Logan said Straus agreed to lead the Niles Crusade because of his concern with the urgency of the cancer problem and the need for alerting people in all walks of life to existing opportunities for early detection and cure.

Logan said Straus, a merchandise reviewer with Sears Roebuck & Company, "was ideally suited" to recruit and direct Niles volunteers who will be part of a 125,000 "army" seeking to conduct a brief health-habit survey and to raise \$2,350,000 in Illinois this year.

In discussing plans for the forthcoming campaign, Straus pointed out that some 305,000 persons in the United States would probably die of cancer in 1967, with an estimated 2,400 of these fatalities occurring in Cook County. "Survival

rates from cancer have increased from one-in-four patients to one-in-three in recent years," Straus pointed out, "and much of this improvement is the result of earlier diagnosis and proper treatment."

While commenting on the first health-habit survey ever to be undertaken by Illinois Cancer Crusaders, Straus said it would be "invaluable in planning an efficient educational program and in allocating funds for future research projects." He added that questions which would be asked included:

- Do you smoke cigarettes?
- Did you stop within the last three years?
- How long since you have had a complete physical examination?
- Did it include a Pap smear?
- Have you had a proctoscopic (rectal) examination?
- Discussing the door-to-door survey further, Straus stressed

the need for volunteer workers, declaring that "many people will have to invest their time and sustained interest if the campaign is to achieve the success it deserves." The newly appointed Niles chairman also stated that volunteers this year would distribute literature to acquaint their neighbors with the "seven danger signals of cancer."

An active participant in Junior Chamber of Commerce affairs, Straus attended the University of Illinois.

Scholarship Award

By June Hart

Patricia Barcheski aged 17, eldest daughter of Mr. and Mrs. William Barcheski, 7656 Osceola, Niles, has been awarded an honorary State Scholarship. A senior student at Maine South High School, which she has attended for the past three years, Patricia was a former student of St. Francis Xavier Grammar School, and Carl Schurz High School in Chicago.

Winner of an American Legion award for service, leadership and scholarship, during her final year at grammar school, she made the honor roll in her first year at Maine South. Her favorite subjects are math and science. Having passed a test qualifying her to take the College English course during her senior year, Patricia describes this as a most stimulating course during her senior year, course which, if she is successful with it, could bring her a College credit.

She has served as secretary-treasurer to her school's math club, and is a member of their Future Teachers' Association.

A member on the fencing team, Patricia enjoys this most, because she said, "It's a thinking sport, and the challenge lies in learning to anticipate your partner and out-manuever him."

Working part time as a cashier for the A & P Food Mart on Milwaukee, Niles, she also volunteered as a marcher in the recent Heartfund Drive.

While Mr. Barcheski, her dad, is a member of the Skokie Chapter-Barbershop Singing Assoc., Patricia confided that under her father's direction, the Barcheskis have formed their own family Barbershop Singing Association, enjoying many a musical evening.

Following graduation from high school, she plans to attend either Northern Illinois University, or MacMurray College and pursue a future career in the teaching field.

New Space Age Piano

Or... How to Launch Your Child to Success In Learning The Piano thru The Magic of Electronics!

★ PICTURE YOUR CHILD...

in a simulated space ship, seated at an electronic piano. The teacher or pilot sits at a monitoring station at the head of the class. The pilot speaks: "Cadets, fasten your earphones!" and the class zooms into action.

Make no mistake these children are learning and learning fast. Each child, though in a group situation, receives all the individual attention he requires to enable him to make rapid progress to reach his planet - mastery of the keyboard. Classes are open to beginners of all ages.

★ ABOUT THE TEACHER...

The program is under the supervision of Father John Strzalka, Director of Music Education and ably assisted by Don Graichen, B.M., New England Conservatory of Music in Boston and Mary Kogen, B.M., Northwestern University, both with extensive class teaching experience at the famous Northwestern School of Preparatory Piano under Dr. Duckworth.

★ ABOUT THE METHOD...

Group instruction is considered by most educators to be one of the most important single developments in the field of music during the past 20 years. Children, used to group instruction methods in regular school classes, are able to transfer their experiences to learning music. The students profit by the accomplishments and mistakes of others in the group which promotes faster progress. The association helps overcome shyness and there is a greater incentive to practice to stay with the "in" group. The drop out rate consequently is extremely low.

★ ADVANTAGES OF THE MUSIC LABORATORY...

Through the use of the Electronic Communication Center each student receives private instruction and music demonstrations geared to the individual's problems over the earphones. A student can practice "silently" heard only by herself and the teacher - undisturbed by the rest of the class. With

★ ADVANTAGES (cont.)...

earphones removed, the group performs audibly together for class piano benefits. The teacher can listen, speak or demonstrate techniques to individual students, groups of students or the whole class through the communication center. This combination of private and class instruction allows the teacher to cover more material and students can be given personalized assignments and aid, enabling each to progress at his own pace. Additional benefits are derived from the use of earphones which enhances the ability to concentrate; fatigue is reduced through more productive use of time and quieter classrooms. The system gives the student the advantages of both group and private instruction.

★ EDUCATOR APPROVED...

Class piano instruction, utilizing the resources of the Laboratory has been used successfully in over 348 colleges and schools throughout the United States and Canada. No finer instruction or system has yet been devised for teaching piano... at any cost. The Laboratory has been used successfully at Interlochen Music Camp since 1959. At the start of the program, Jay Templeton Frisch, internationally known music educator, conducted a special class stressing the use of the Wurliizer Electronic Piano system. 100's of educators throughout the world hail this the finest "breakthrough" in Music Education and refer to it as the "Quiet Revolution".

★ INSTRUMENT AVAILABILITY

Conventional pianos for the home are available on a low-cost rental plan with this program.

★ SPECIAL PRE-SCHOOL CLASSES...

A program for children 4 to 6 is designed to develop actual playing skills and give an integrated foundation in music, using the electronic piano laboratory along with rhythm instruments, games, and creative activities. Many other desirable benefits accrue to children through this training program, such as cooperation with others, personality development and the ability to concentrate. A specially trained and experienced teacher will handle these groups.

CLASSES WILL BEGIN APRIL 3 at convenient daytime and evening hours

Erich M. Buck - Niles Caucus Candidate For Trustee

(Press Release)

Erich M. Buck, who along with Edwin O. Mitchell and Mrs. Karl W. (Mandy) Honold is running on the Niles Caucus Party ticket for village trustee, is best described as a man who possesses the qualities of leadership, determination, and incredible energy.

Erich, besides holding a B.A. degree in teaching, graduated from the Chicago Lithographic Institute and is now employed by Continental Can Company in the field of lithography. He is also a member and former trustee of the Lithographers and Photoengravers International Union.

In addition to his position at Continental Can Company, Erich derives great personal satisfaction from teaching a night school course in German at Maine East High School.

Personally satisfying too, have been all the hours Erich has

devoted to scouting for the last eight years. At the present time he is Assistant District Commissioner for Scoutmaster's Roundtable, Neighborhood Commissioner for Troop and Pack 107, Cub Master of Pack 62, and Merit Badge Counselor. He has the honor of holding a Ph. D. in scouting (woodbadge) and of being an elected member of the Brotherhood of the Order of the Arrow.

Those who know Erich know that his total involvement in anything he decides to undertake results in nothing less than total success. Erich, if elected, will no doubt manifest the same leadership and organizational ability when dealing with the problems of village government as he has demonstrated in his other undertakings in the past.

Erich, his wife Marianne, and their two sons, Sieg and Frank have been residents of Niles for five years and reside at 8155 Prospect Avenue.

Safety Council Offers Intersection Driving Tips

Good defensive driving habits will pay off at intersections, John Sebastian, Chairman of the Niles Safety Council said today. More than half of the traffic accidents in Illinois happen at intersections.

Knowing when to yield right-of-way is one of the most important things that a driver has to learn and remember when he approaches an intersection. The defensive driver will always yield the right-of-way even when legally he has the right to go first at an intersection. Your own self-interest is served when you avoid a collision. The state laws covering your right-of-way at an intersection are always subject to the law of self-preservation. Don't insist on your right-of-way at the cost of your own life or the life of another person, Sebastian cautioned.

According to traffic regulations the driver of a vehicle approaching an intersection must yield the right-of-way to any vehicle that has already entered the intersection from a different highway or street. If two vehicles enter an inter-

section from different highways at approximately the same time, the driver of the vehicle on the left must yield the right-of-way to the driver on the right. If you are driving onto or across a through highway or at an intersection with stop sign control, you must stop, of course, and yield the right-of-way to other cars proceeding on the through highway in either direction or when they are approaching so closely so as to constitute an immediate hazard. Sebastian warned.

Chairman Sebastian said that thousands of lives are lost each year because many drivers after stopping for a stop sign pull onto the through highway in front of a fast moving vehicle. After a driver stops, he must remain stopped at a stop sign until he can proceed into or across the intersection as a safe interval occurs in the flow of traffic.

led education background in the fields of Arts, Sciences and Theology, having matriculated at Southwestern University,

ture and as Delegate to the Sixth Provincial Synod of the Episcopal Church. Currently he is serving the last year of a term on the Diocesan Council of the Diocese of Chicago, and as Program Chairman of the Chicago Chapter of the Academy of Religion and Mental Health, an interdisciplinary organization in the field of religion and medicine which emphasizes moral and spiritual values in the behavioral sciences and seeks closer liaison between psychiatry, medicine and religion. He served on the 1966 National Planning Committee for the Annual Meetings which were held in Chicago this past year.

Before coming to Saint Anselm's Church in 1965, Bill was the Associate Rector of Trinity Episcopal Church in the far western suburb of Wheaton, where he was responsible for the parish educational program for over five-hundred children and was assisted by a staff of over seventy laymen. In addition to his parish activities Bill served on the Department of Christian Education of the Diocese of Chicago and is on the Bishop's Advisory Committee on Mental Health. He was also a member of the P.T.A., Executive Committee and Chairman of its Mental Health Committee.

Memphis, Tennessee; Iowa State University, Ames, Iowa; Berkeley Divinity School and Yale University, New Haven Connecticut. The business background of the candidate has been in banking, and he has worked for the U.S.I.A. on the Stoneville Experimental Station, Stoneville, Mississippi; St. Joe National Forest, Avery, Idaho and for Yale University, Sterling Library, Historical Manuscripts Division where he did biographical backgrounds on a number of international figures as they were related to the correspondence of a former Presidential Cabinet Member in the area of Commerce and Labor.

As a parent, as a priest and as a citizen, I am deeply concerned that the children of this community are provided with the best education the district is capable of providing. I am in favor of the course that the present school board is following, like any board they have their assets and liabilities, but the direction is forward looking and devoted to the well-being of our children. At this point our problems as I see them are a result of growing pains, and the ever present changes coming about from the information explosion that is occurring in our times."

Active Citizens Ticket Reviews Accomplishments

(Press Release)

Political Candidates don't usually like to be reminded of Campaign Promises. But this wasn't the case last week with Trustees Ed Berkowsky and Ang Marcheschi. These two men are running with Dick Harczak for Village Trustee under the banner of the Active Citizens Ticket.

The scene was a Homeowner's Association "Candidates Night" where all of the candidates in the upcoming Niles Village Election were enabled to present themselves to the voters. Berkowsky and Marcheschi, who successfully ran together four years ago for the first time, were pleased to describe the promises they made when first elected.

"Both Ang and I are proud of our accomplishments during the last four years, and we stand on these achievements." Producing a copy of the brochure used in the 1963 campaign Berkowsky said, "Ang and I have kept every promise we made four years ago."

"Some of our platform points were progress with economy. We have certainly lived up to this. We have the finest Fire, Police and Public Works departments in the Niles Suburban area. Vast improvements have been made in the past four years to bring these departments up to what they are today. And yet we have been able to accomplish this without increasing our Village Tax rate. The Utility Tax was one way of accomplishing our goals and still take the major burden off of the taxpayer. Even by combining the Utility Tax and the Village Tax, our residents are still receiving the finest services at a lower cost than most of our neighboring villagers."

Ang Marcheschi discussed another plank in the 1963 platform. "We said we would enhance the stature and image of Niles to increase your property value. The All-America City Award has certainly accomplished this. Now our residents have a renewed pride in their village."

In the area of Zoning we have held fast to our strict control with the result that there has not been one multiple dwelling zoning permit issued since we took office. We have continued in our efforts to provide a good balance of Residential, Commercial and Industrial zoning

so that we may have a more attractive community and still maintain a low tax base.

The discussion was then turned over to Dick Harczak, the third member of the Active Citizens Ticket. "Because I was not in office during the last four years, it's only fitting that I speak of the future. Our plans and program are clear. We will provide more and better street lighting and Street Improvements. We will exercise strict control over zoning. We will oppose any indiscriminate expansion of boundaries. We will continue our struggle to keep the Village tax low. And yet we will not sacrifice the superb Police, Fire and Public Works services which we now have.

Contrast these goals with the negative non-program of the opposing group. They are against everything. What do they stand for? I wish I knew." Marcheschi, Berkowsky and Harczak closed by asking the people of Niles to support them on election day. Ed Berkowsky said, "The choice is clear. You can have a positive program for Niles, one that is sound and reachable. Or you can have a negative approach which will set our Village back instead of ahead. The first choice, the choice for progress can be yours by voting for the Active Citizens Ticket on April 18."

FOCUS POLITICAL—the last two interviews in the series, feminine view of the candidates. This week we are featuring 1. Mr. Edwin O. Mitchell, member of the Niles Caucus Party, who is seeking election to the office of Village Trustee, 2. Mr. Michael Provenzano, who is seeking election to the office of Niles Park District Commissioner.

Office of Village Trustee - Mr. Edwin O. Mitchell, his wife Betty and their son Mark 12, have lived in Niles for the past 10-1/2 years, making their home at 8626 Oleander. A former Chicagoan, Mr. Mitchell served with the Engineer Corps of the U.S. Army, in the European theater of operations during the World War 2. After demobilization he worked with the National Guard unit, and helped organize a Reserve Corps, for which, Mr. Mitchell added, there was no remuneration. He has maintained his interest in army service by working with youth, in terms of mobilization, and their readiness for leadership in action.

Currently he is Director of Purchasing for the Cicero firm of G. S. Bakeslee - Kitchen Equipment Mfg. Co., a member of the Elks Club, he is a scout pack chairman and active with P.T.A.

A member of the N. Republican Party, Mr. Mitchell stated, voluntarily, "I honestly have no political ambition."

We asked him, "Why are you seeking office to the Village Board of Trustees?" Mr. Mitchell replied, "I was approached by a group of people, Republicans, and after careful thought I decided to run for office."

"Can you tell us some of the reasons prompting your decision?" "Well the big issue, the Tam issue. In regard to this, I feel that instead of individual action, there should have been a united action, including the calling in of industry for assistance in deciding the Tam issue. 2. I am against a controlled administration, and the settling of issues ahead of time." "What is your platform?"

No. 1. The Village government should have a two party system. No. 2. There should be coordinated reasoning out of issues. I feel strongly that a conflict of interest ordinance, should be passed for all public officials. No. 3. I feel that my background in the army and commercial purchasing field, will enable me to obtain the best values for the tax dollars - perhaps even lower taxes. No. 4. Youth training is a specialty. Children join the scout movement because they want to, and the same applies to our youth and the wanting to use the facilities available to them. I believe that the Village Board should work with the Youth Commissioners in this direction."

The Mitchell's are members of the Methodist Church, Mr. Mitchell serving as a steward for his church, Betty, Mrs. Mitchell, is a den mother. She endorses her husband's action, commenting, "If Edwin wins, he'll do the honest thing for

Book Muse

A THOUGHT IN PASSING: Great books of great ideas are all around us. They are being written at this moment. But books become great as they have impact upon living minds. A jury of scholars may nominate "obvious" titles and have their candidates accepted by pleasing pluralities. The book that counts is the one that shakes your ideas into clearer focus and leads you to other books and eventually to more effective ways of thinking and seeing things and events and the relations among them. A home library cannot be bought under the direction of an interior decorator. The only interior to be decorated is your own mind. Your library grows only with garden care. You are proud at first of any sprout, but the weeds come as soon as you taste and experience tell you what weeds are. Then the library begins to be the seedbed of ideas with a promise of nourishing the whole family. It need not be a big plot, a few hundred books will do. Many of the titles can be started from the little paperbacks. When you have relearned how to make a book your own, you can go on to the more permanent bindings.

I like what Walt Whitman said: "Books are to be called for and supplied on the assumption that the process of reading is not half-sleep, but in the highest sense an exercise, a gymnastic struggle; that the reader is doing something for himself".

A BOOK IN REVIEW: In 1964 Emily Cheney Neville won the Newbery Medal for her book "This, Cat". This year she has come thru with "The Seventeenth-Street Gang".

The boys and girls of the Seventeenth Street gang live between New York's First and Second Avenues. There's Minnow, a self-appointed leader, hatcher of plots, and C.C., inseparable pals; Louise, who cannot seem to escape being bossed by her little brother's nurse-maid; and Louise's best friend, Toby, who delights in poking fun at her elders in

This group has declared war on all "flots" - Minnow's name for the kind of people who can't do anything and say they're going to call the parkman or the cops. Their chief target for the moment is Hollis Rourke, a newcomer to the block. Is Hollis a prig, an intellectual, or just an ordinary "flot"? Whatever he is, something has to be done about him.

Miss Neville's new book gives humorous, provocative, and completely realistic picture of the world of city children - their rivalries and loyalties, parents and other antagonists.

SOME THANKS IN ORDER: To the ladies from the Friends of the Niles Public Library (who have contributed their time and effort so often, to give a hand to the library) we once more extend our thanks, Mrs. Bergeron, Lewicki, Jerger, Noffz, Trevisano, Schutt and Unrath did a wonderful job contributing beautifully decorated eggs for distribution to Pre-School Story Hour members.

Thanks also are in order to Miss Nancy Arnold - one of the libraries' pages, who also donated the same effort to some additional egg decorations and the art work of Mrs. Bernice Hansen which produced the rabbit illustration.

Kudos for the kiddies and kudos to the ladies!

A LITTLE LATE THOUGHT. May we hope your Polish hams were succulent and will someone please confirm the rumor that the Easter bonnets of all the ladies ended up in first place "dead heat"?

"Tobruk" & "Fahrenheit" Start Friday At Lawrencewood

Rock Hudson and George Peppard portray commandos in an

epic adventure story of World War II, "Tobruk," a universal release photographed in Technicolor.

On the same program with "Tobruk" will be "Fahrenheit 451" starring Julie Christie and Oskar Werner. Both features are in Technicolor, and start Friday, March 31st, at the Lawrencewood Theatre.

"Tobruk" is recommended for the entire family and "Fahrenheit 451" is suggested for adults and mature young persons.

The new Lawrencewood Theatre is located on Oakton at Waukegan Road in the Lawrencewood Shopping Center. The theatre is open each evening with additional matinee performances on Saturday and Sunday.

New Art Display At Morton Grove Theatre

Morton Grove Theatre patrons, who enjoy looking at the art exhibit at the theatre will now see a new exhibit recently placed in the theatre lobby by Irene "Rae" Partridge. Irene has 37 paintings on display in the theatres' lobby.

If an interest in art can be traced "as far back as one can remember" then Irene Partridge remembers that she made greeting cards in crayon and poster apints from before kindergarten. Color fascinated her then and still does.

Having studied Interior Decorating and Dress Design, she served apprenticeships in both fields. She went in to custom flower arrangements and then decided to study in the field of Fine Arts. Irene studied with various teachers in the Chicago area. These include Teachers at The Art Institute, The National School of Design, and at Westmont College in Santa Barbara. She is presently studying with Edward Catony, A.E.A., of Chicago.

"Rae" is a member of many art guilds, including the Morton Grove Art Guild, and maintains a studio and gallery at her home where you will always find her paintings on display.

An art display is a regular feature in what the Morton Grove Theatre patrons call one of the warmest and friendliest theatre lobbies in the Chicago area.

The current attraction at the Morton Grove Theatre is "Murders' Row", a Matt Helm adventure, in Technicolor, starring Dean Martin, Ann Margret and Karl Malden.

The new Morton Grove Theatre is located in the Village Plaza Shopping Center on Dempster at Harlem avenue.

"Murderers' Row" In Second Week At Morton Grove

Dean Martin as Matt Helm and lovely Ann Margret are starred in "Murderers' Row," Columbia Pictures release in color by Technicolor also starring Karl Malden and Camilla Sparv. In the spy adventure, Dean plays a suave super-agent and Ann-Margret, a girl who would rather go discotheque dancing than help him smash a terror ring.

District 63 Board Meeting

continued from page 1

Business Manager James E. Bowen reported to the board that the five mobiles constructed at Nathanson school are to be ready for occupancy Mar. 28.

Several first grade classes at each of the elementary schools of East Maine School Dist. 63 will use a new alphabet known as I/T/A, Initial Teaching Alphabet, next year.

Members of the Dist. 63 board unanimously approved a motion by board member Ted Davis at the Mar. 21 special meeting to adopt the I/T/A method on a limited basis. The Initial Teaching Alphabet consists of 24 standard English characters combined with 20 new symbols which resemble the standard alphabet.

Children taught the I/T/A have been found to learn to read more rapidly than children taught with the regular English alphabet. The children taught I/T/A then make an easy transfer to traditional English during the last two or three months of the first grade.

The method was developed by Sir James Pitman of Great Britain, grandson of the original

of the Pitman shorthand method. It has been used in this country in a limited number of school systems. The elementary schools of Lehigh-Bethlehem, Pa. conducted a three-year investigation of the I/T/A method.

Comparison of first grade pupils in Bethlehem using the I/T/A method with pupils using the traditional materials revealed that the I/T/A group was ahead in reading. One fourth of the group were reading and comprehending third grade material; one half had completed second grade reading material.

Some 36 teachers and principals from Dist. 63 attended an I/T/A workshop last Feb. 21 and 22 held in Lincolnwood. Their response was enthusiastic.

The board also approved a resolution to provide funds to conduct a one-week in-service training program on the I/T/A method this summer for some 15 teachers who will be teaching I/T/A during the 1967-68 school year. It has been found that a teacher can confidently use the I/T/A method with workshop training.

The classes using I/T/A will be open to children whose kindergarten teachers feel it will be of benefit. The parents of children tentatively enrolled in these classes will be invited to a meeting to hear information about the new alphabet.

"A school is somewhat like a supermarket," Supt. Hugh E. McGuigan said. "We must have something on the shelves for everyone. This method benefits some children a great deal; others it benefits less. But we should offer it for those to whom it can offer an advantage in learning to read."

Supt. McGuigan was previously superintendent of schools in Woodbury, Conn., where the I/T/A method was introduced in limited form. It was found to be very successful, he told Dist. 63 board members and the method was adopted on a permanent basis.

The teachers' salary schedule for the 1967-68 school year approved by the board at the Mar. 21 meeting provides for a \$550 across-the-board yearly increase in teachers' salaries in Dist. 63.

The beginning salary for a teachers with a bachelor's degree with no supplementary credits or previous teaching experience will be \$5,800 next year. The current schedule provides \$5,250 for a teacher with the same qualifications.

A teacher with a bachelor's

degree (no extra credits) and 12 years teaching experience will receive \$8,800. A teacher with a master's degree but no teaching experience will receive \$6,400. After 15 years experience, a teacher with a master's degree will be paid \$10,150. A teacher with a doctorate may receive as high as \$12,250.

"This district has previously had one of the lowest paying schedules in this section of the state," Supt. Hugh E. McGuigan said. "The new schedule represents an effort to catch up with other districts. It assures that teachers in our system will be treated as well financially as teachers in any other school system in the area."

The basic salary schedule structure has been changed, Supt. McGuigan said, to provide a greater incentive for teachers to strive for higher academic achievements. The new schedule will more quickly remunerate teachers for additional academic work, he said.

Under the current schedule, a teacher with a bachelor's or master's degree would receive a raise in salary after having accumulated 15 additional credits. The new schedule permits a raise after the teacher has accumulated eight credits. The average yearly salary for a teacher in Dist. 63 next year will be \$7,076.64. The average salary this year is \$6,428.95.

"The children at Dist. 63 will benefit from this new schedule," Supt. McGuigan said, "because the administration of the district will be able to recruit from among the most competent teachers available."

led to improved bus service in the village. He also is a member of the Liquor Commission and the Senior Citizens Committee.

Residents of all municipalities should look to the state legislature in the coming months. It is expected it will pass an additional 1/2 cent tax for municipalities which will double their present income from sales tax. In sales-tax

rich Niles the income should swell the village coffers by about \$500,000 annually. Most important - 80% of the sales in Golf Mill come from outside Niles which means neighbors are contributing substantially to improving Niles.

While there has been no commitment made it is expected Niles utility tax may be lifted if the community receives this new bonanza.

Niles Public Works Warns About Sewer Block Ups

With the spring rains ahead, many Niles residents will find that their sewer lines from the street into the home are in need of rodding.

The Niles Public Works Department cannot stress too strongly how important it is to practice a regular preventative maintenance program for sewer lines. Residents hire mechanics to make yearly inspections and needed repairs on their automobiles and the same maintenance program should be applied to sewers. Fats, vegetable pieces, hair, tree roots and other materials buildup and collect in sewer lines restricting the flow of drainage into the main village sewer in the street. Residents who have garbage disposals should flush more water down when using the disposal to prevent the accumulation of food particles which build up on the walls of the sewer lines inside the house and cause a restriction of the flow of drainage.

Absentee Ballots Available

Any resident of Niles, Illinois, who is a qualified voter, and who expects to be absent from Cook County on Election Day, April 18, 1967, may file application for Absent Voter's Ballots any time during the period of March 20th to April 13th, 1967.

Application must be made to the Village Clerk's office, 7166 Milwaukee Avenue, Niles Illinois.

Registered voters who expect to be out of the country on election day must vote in person at the Village Clerk's office on or before April 15th, 1967.

Monday of April 3rd is the next Niles Days meeting. It will commence at 8:00 P.M. in the Council Chambers, located on Touhy and Milwaukee Avenue, Nilesites are asked to please attend this important meeting when plans for a proposed new innovation, geared to the 1967 Niles Days, International theme, will be revealed, discussed and put to the vote.

The Niles Days March diary includes a reminder for Niles teenagers to watch their local papers for information regarding the Teen King and Teen Queen contest, always a special feature of the Niles Days carnival. Contest chairman, Village Clerk, Marge Lieske, stated that the winner of the Teen Queen title would be a candidate in the Miss Niles Contest slated for later in the year. This contest (Miss Niles) will be a forerunner of the annual Mill Illinois Youth Pageant.

Closing the Niles-Days diary for March, we include the news that the Niles Liquor Dealers Association, will, for the third consecutive year, man the liquor booth; and the wives of the Niles award winning firemen, aided by some of the gals of the St. John Brebeuf Parish, have volunteered to man the rides, during the five days of International, costume and fete the 1967 Niles Days.
