Demolition Suit Against Sub-Standard Building Approved

At Tuesday night's village board meeting the village attorney reported Niles has had a 2nd demolition suit approved which will result in demolishing a sub-standard building just south of the Capri Motel, named the Car-Sun Company, A 75 to 80 day decree has been issued by the court, enabling the owner to move out, before the "tilted" frame building will be leveled. The court order requires the owner to pay for the demolition otherwise the village will pay for it and place a lien on the property. Previously, the old Joker Joe's was also demolished by village action after it was designated as being a sub-standard building, not conforming to the village building or zoning codes.

In other actions the village is annexing 7 lots known as Madison Court subdivision west of Maryhill Cemetery on Cumberland Avenue. A second similar plot is not included in the its eventual annexation would complete the "squaring off" of Niles in that area. The west side of Washington Street is being dedicated to the village by Maryhill Cemetery, between Monroe and Washington Street pavement by Niles will make the street a full street some time in 1968. There is no assessment for the improvement.

... An easement was granted the Commonwealth Edison

Harry Hart, husband of BUGLER June Hart, is seriously ill at Edgewater Hospital. There is a great need for blood donations. Nilesites interested should go to the hospital of their choice and designate it be earmarked for Harry, June, whose civic efforts were culminated by her being chosen Mrs. Niles of 1966, has continued her civic activities, even though carrying this heavy burden. An hour of your time would be appreciated.

The Clara Blase children's room will be dedicated at 2:30 P.M., Sunday afternoon at the Niles Library. A display of international dolls, collected by Clara, will be on display in the historical room. A donation of \$1,000 or more, which has been collected in Clara's memory for the library room, will be presented at this time. This is a great opportunity for many Nilesites, who have never seen the beautiful library, to drop in.

Nick Blase, whose father died this past week-end, told us an interesting story, which we're sure he won't mind our publishing.

In World War I Nick, Sr. was a gunner in one of those two cockpit monoplane. One time when the plane was taking off he was not yet seated. About 20 feet off the ground he decided to jump from the plane, realizing he would not be able to get into the seat once the plane was aloft. At 30 feet he jumped from the plane, and landed on his feet. While the ensuing injury was not serious, Nick said it ruined his feet, likely damaging the arches or insteps.

Nick's father was a fiercely proud man, who owned a restaurant at 31st and Wentworth for 30 years. He moved to Miami 10 years ago and Nick reminded his Dad would not come back here, if the kids wanted to see him they'd have to visit down there. He believed when his children (there are 3 boys and a girl) became adults they had to use their own wings.

We're sorry now we never had the chance to meet him. While we've long been on the good side of Nick's mother, Nick's father wasn't too pleased with some of our columns concerning his son.

We've become aware in recent

The Board of Education voted to submit the proposals to the public at their regular August 28 meeting. "The cost of maintaining a good school system has gone up," Bushnell Fullerton, president of the Board, explained. "There are more children to be educated in the public schools. Expanded education programs and more equitable salaries for qualified teachers, in addition to the general inflationary increases in the prices of all goods and services, have boosted the District's budget."

Mr. Fullerton pointed out that there is already a shortage of

Series Of Programs Offered By Niles Library

Niles Public Library, under the sponsorship of the Friends of the Library, will present a series of programs during the coming season. On the second and fourth Wednesday of each month from October through April a variety of programs will be presented. In an effort to give something of interest to everyone, these will range from motion pictures of grand opera to personal appearances of well known sports personalities, as well as lectures on gardening and business topics. The list of programs will be ready for publication within the next few days - watch for it, there are sure to be some which will be of interest to you.

The Friends of the Library is a group of men and women who have special interest in assisting the Public Library to fulfill its objectives of bringing to the people of the district an opportunity to broaden their interest and to improve their knowledge and skills for the betterment of their lives. The group has no official connection with the library beyond a fine spirit of cooperation with the Library Board and the Staff. In the past their help has been principally financial. Through bake sales, dances, collections and other means they have been able to gather funds which have enabled the library to acquire materials which it would not otherwise have been able to obtain. It was for example, the Friends who presented to the Niles Days Committee that library's need for audio-visual equipment. The resulting gift from that Committee made possible the fine equipment which will now be used for the presentation of

these programs. All of the arrangements have been made by this group of interested citizens, and all fees to the speakers, rental of films and other expenses are being met with the funds which they have worked so hard to gather. Most of the programs will be free of charge; for a few a small donation will be requested to help defray their cost. For all, admission will be by ticket only since the capacity of the library's Audio-Visual room is limited and overcrowding would impair the comfort and viewing pleasure of the audience.

Niles Public Library is especially proud to present this series and will welcome your comments and suggestions for future programs.

"How can I get my money back? I just dialed a wrong number."

Whether it's your finger that slips or our equipment, we don't want you to pay for a wrong number. Here's what to do so you won't be charged.

Dial the Operator. Tell her you've reached a wrong number. She'll see that you're not billed for the call and help you get the right number.

If you've called from a pay phone, either local or Long Distance, the Operator will either connect you with the number you wanted, or see that a cash refund is mailed to you.

Here's another tip that will help us give you better service.

If you are ever cut off—or get a bad connection—during a Long Distance call, hang up. Then the person who placed the call should dial the Long Distance Operator and tell her what's happened.

She'll get you a good connection, and make certain you aren't charged for the time your call was interrupted.

We offer these suggestions as part of our effort to help you get the most from your telephone service.

"Thanks for your help, Operator."

On the second and fourth Wednesday of each month from October through April a variety of programs will be presented. The group has no official connection with the library beyond a fine spirit of cooperation with the Library Board and the Staff. In the past their help has been principally financial. Through bake sales, dances, collections and other means they have been able to gather funds which have enabled the library to acquire materials which it would not otherwise have been able to obtain. "How can I get my money back? I just dialed a wrong number."

Whether it's your finger that slips or our equipment, we don't want you to pay for a wrong number. Here's what to do so you won't be charged.

Dial the Operator. Tell her you've reached a wrong number. She'll see that you're not billed for the call and help you get the right number.

If you've called from a pay phone, either local or Long Distance, the Operator will either connect you with the number you wanted, or see that a cash refund is mailed to you.

Here's another tip that will help us give you better service.

If you are ever cut off—or get a bad connection—during a Long Distance call, hang up. Then the person who placed the call should dial the Long Distance Operator and tell her what's happened.

She'll get you a good connection, and make certain you aren't charged for the time your call was interrupted.

We offer these suggestions as part of our effort to help you get the most from your telephone service.

"Thanks for your help, Operator."

ASTROLOGY Works For You!

Continuation of Cusp Birthdays

The Libra-Scorpio Cusp Oct. 19th to October 22nd - Most distinctive is the individual born on the Libra - Scorpio cusp. The appeal of intellect which, under Virgo, harmonized with Libras' instinct for equilibrium is supplanted by the emotional intensity of Scorpio. The motivating force for the will power and character formation becomes an aesthetic - passionate one in you - of all the cuspal combinations yours is the most fascinating and complex - You are blessed with Libras' charm, social grace, poise, aesthetic appreciation, and objectivity, harnessed to the impatient Scorpio's determination, drive, inflexibility, and mystical bent - your major gift lies in your facility for launching projects with maximum ease, employing your remarkable efficiency, tact, diplomacy, and in comparable charm in carrying them out for permanent results.

The Scorpio-Sagittarius Cusp November 19th - November 21st. The cusp of Scorpio - Sagittarius share a character composition, in which is passionate, idealistic in nature - passionate because of the force and intensity you continuously focus upon the objectives of your powerful will, idealistic in terms of its application to your future well being. You are able to maintain and exploit your success, for the Sagittarius side compels you to develop every possibility in a relationship or opportunity. Your genius lies in being able to draw practical lessons from both victory and defeat. You can be steadfast and adaptable, single-minded yet versatile.

The Sagittarius - Capricorn Cusp December 19th - December 21st. The Sagittarius - Capricorn natives are endowed with a character which is both idealistic and ambitious. Your passport to life is stamped "success" for Sagittarius' idealism and foresight are grafted onto the sturdy trunk of Capricorn's practicality, shrewdness, and common sense. You plan for the future, assuring its security by your detached, methodical, careful handling of the present. You possess all the versatility, adaptability, humor, confidence, enthusiasm and inspirational incentive of Sagittarius, plus the personal sensitivity and sharp, appraising eye of Capricorn.

The Capricorn - Aquarius Cusp January 16th - January 19th. Yours is a paradoxical personification for your char-

acter is jointly motivated by ambition and altruism, Capricorn is the sign of cohesion, a suction cup drawing all to itself, sometimes resulting in a degree of personal preoccupation amounting to selfishness, Aquarius on the other hand is a social sign, gregarious, outgoing, electric, seeking a popular frame of reference in a world totally outside the self. Your special talent lies in the knack of blending business with social ties, for your professional clientele and sources of ambulatory support often come through friendships of organizational contacts you form.

The Aquarius-Pisces Cusp February 15th - February 18th. Your character construction is truly "out of this world". You possess the social impulses of Aquarius, its originality, independence, and intuitive divining rod for discovering collective values, plus the additional blessing of Pisces singular devotion. Sensitive, tender, warm, with a delicacy of perception and feeling, you pursue the individual and ideals you love with all the determination of one sign and the adaptability and subtlety of the other. Those born on this cusp may often be misunderstood, hence a bit uncomfortable in a world which recognizes only material values. You possess a talent

for discipleship, displaying unusual skill in gathering a score of apostles to spread your personal message that life's real treasures are to be stored up in heaven and that this kingdom of heaven is to be found within.

The Aries - Pisces Cusp March 17th - March 20th, The Pisces - Aries cusp makes your character utopian and active in its expression. You possess the sensitivity, perception, warmth, intuition and compassion of Pisces. All of which become vitalized by the energetic, dynamic, ambitious imprint of Aries, whose idealism seeks and finds an immediate, practical application. You may seem contradictory, strangely sentimental, tolerant, passive, then suddenly give vent to violent temperamental explosions. This is because yours is a nature that instinctively perceives and tolerates the fact of individual differences in ability and understanding but makes you intolerant of people who waste their talents or fall short in effort. Yours is a dramatic, colorful, vibrant, yet very subtle nature, with many facets and nuances to both feeling and physical expression.

See you next week. Know your wife.

Dr. Clyde Parker Addresses Teachers

Dr. Clyde Parker, superintendent of the Niles Township High Schools, last week encouraged the district's teachers to join in studies of three important phases of education.

He asked that faculty committees be formed to study the new school board-union contract, to review for possible implementation the suggestions made last spring by a visiting North Central evaluation team, and to devise an in-service program to acquaint teachers with the relation of suburban schools with schools of the inner city.

Addressing the district's more than 450 teachers, Dr. Parker pointed out that the teachers and the board of education this year were working for the first time under a negotiated contract.

He urged that all parties to the contract study it carefully so that it could be beneficial equally to all.

Explaining that in the development of the contract some wounds were inflicted, Dr. Parker asked that any differences between members of the staff be settled so that all school personnel could give their maximum effort to working for the education of youth in Niles Township.

He claimed that the contract should not be a disruptive influence on the work of teaching and expressed hope that all staff members would help to minimize misinterpretations.

Concerning the North Central study of the township's three high schools last year, the superintendent asked that recommendations which emanated from the report be studied thoroughly by teachers, administrators, and staff specialists so that a program of implementation could be submitted to the school board for adoption before the end of the school year.

Nilehi Board Of Education Approve \$11,504,872.50 Budget

The Nilehi Board of Education last night approved a budget of \$11,504,872.50 for the school year 1967-68 after a public hearing in the Nile West student lounge. The new budget is about \$1.1 million more than last year's.

Consisting of six funds which outline the financial needs of the district, the budget will require an estimated tax rate of \$1.69 for every \$100 assessed valuation.

Largest of the six funds is the education fund, which accounts for 68.5 per cent of the total budget. The education fund for the 1967-68 school year is set at \$7,880,545. This is \$850,000 more than last year's. The tax rate for the education

fund is \$1.0891, the district's maximum without holding a rate referendum.

The major part of the educational fund is used to operate the school district's instructional program. Included in this instructional segment are appropriation for teachers' salaries, supplies, and educational materials. About \$5.8 million of the entire education fund is allocated for instructional purposes, with \$5,185,500 earmarked for the salaries of the high school district's more than 450 teachers, principals, and other educational specialists.

Other funds in the school budget include:

The Building fund with a total amount of \$1,753,810, which is 15.24 per cent of the entire budget; the Bond and Interest fund with a total amount of \$1,227,662.50, which is 10.67 per cent of the entire budget; the Transportation fund set at \$328,645, which is 2.86 per cent of the total budget; the Municipal Retirement fund set at \$136,210, which is 1.18 per cent of the total budget; and the Junior College fund set at \$178,000, which is 1.55 per cent of the entire budget.

In his presentation of the budget, Dr. Clyde Parker, superintendent, explained that the school district is currently using only 33 per cent of its potential bonding power. He

said a district's bonding power is set by law at five per cent of the total assessed valuation, which for Nile's Township is \$596,686,322.00.

After explaining and outlining the district's estimated expenses

Seek Blood Donors For Harry Hart

The Woman's Club of Nile would like to ask anyone who is able to please donate blood for the husband of one of their members who is very ill at Edgewater Hospital at this time.

His name is Harry Hart, husband of June Hart, who you all probably know because of her newspaper articles as well as

features for the 1967-68 school year. Dr. Parker stressed that about 85 per cent of cost of the educational program is paid for by local real estate taxes, with the remaining moneys coming from state, federal, and miscellaneous sources.

her many volunteer projects in our town, the latest was as Publicity Chairman for Nile Days.

Blood can be donated at the hospital of your choice with a request that it be sent to Harry Hart, Edgewater Hospital. For more information, please call Mrs. Jim Downs, 825-4352.

Celebrates 40th Anniversary At Illinois Bell

Back in 1927, a boy with an interest in electricity applied for a job with Illinois Bell Telephone. That interest developed into a career and he is now celebrating his 40th anniversary with the company.

Carter Thomsen, 6924 Seware St., Niles, whose inclinations were fortified by an electrical course at Lane Technical High School in Chicago, is now a communications serviceman in Skokie.

"Things are a lot different now," says Thomsen. "When I recall the old phones with desk stands and big horns, and then see the modern equipment we have today, I realize all the changes I've lived through."

During World War II, Thomsen served in the Navy doing emergency repairs on submarines.

A 14-year Niles Resident, he and his wife Laverne, have two daughters — Mrs. Karen Jarrett of Springfield, Virginia; and Miss Gayle Thomsen, who is with the International Mineral Corporation in Skokie.

An interest in photography and membership in the Illinois Bell Camera Club takes up most of Thomsen's spare time.

From The Left Hand

The rather innocuous police report you read in THE BUGLE is obviously a "watered-down version of what's "happening" in your village. Discretion on our part, plus the removal of happenings by the police department from the public report, to other police books, makes the newspaper reports can be had it takes a great deal of digging on the part of a reporter and even then the department would not have a difficult time hiding what it desires.

Our favorite village board has quietly returned to its old ways by opening the VB meetings to questions "from the floor". In recent months it was necessary to submit a written question to the chairman, who would then read it. But after months of protestations from the Board's favorite gadfly, Mike Wozniak, the Board returned to the open question.
