### Daddano Guilty of Aggravated Battery Charge Against Gym Teacher

William Daddano, Jr., 32, son of Willie (Potatoes) Daddano, prime syndicate chieftain, was found guilty last week of aggravated battery against a Catholic grammar school teacher.

Daddano, who lives at 8427 Berry terr., Niles, was charged with the beating last November

of John Kelly, 24, a physical education teacher at Our Lady of Ransom school in the suburb.

Judge Richard J. Fitzgerald of Criminal court gave the verdict after a bench trial which began Wednesday.

A co-defendant, William Frat-

to, 46, 8432 Johanna dr., Niles, had also been charged with aggravated battery, but was found not guilty Wednesday by a directed verdict after testimony brought out that he had nothing to do with the beating.

The attack occurred after Fratto had gone to the school to complain about Kelly's dis-

ciplining of his son, William Jr., 8. Daddano, who is Fratto's brother-in-law, accompanied him to the school.

Kelly testified that after he and Fratto settled their dispute, the three went outside the school where Daddano threatened him and then struck him in the ear.

Under questioning by Matthew Walsh, assistant state's attorney, Sister Mary Lucia, school principal, testified that she broke up the fight after Fratto's son told her, "My uncle is beating up Mr. Kelly."

Judge Fitzgerald, said he would sentence Daddano July 3.

## Defeat Education Fund Increase MAINE TAX LEVY LOSES

Maine Township voters turned down a proposed Education Fund tax levy Saturday by a 2,823 to 2,041 vote. Failure to pass

the 2 1/2% increase per \$100 assessed valuation school would likely force the school board to increase borrowing money next spring to pay for teacher's salaries if tax money is late in coming into the school treasury, which is a common procedure. This year the Board borrowed \$150,000 in tax anticipation warrants (borrowing money in anticipation of receiving tax monies). Because of increased salaries for next year the possibility of borrowing up to \$1,000,000 may result from the turn-down for the increased masey Saturday.

### From The Left Hand

By David Besser  
Editor & Publisher

Everyone who has a vehicle of public expression cried out in the public media this past week over the Kennedy assassination. Even advice to the lovelorn columnist Ann Landers voiced her feelings in Monday's newspapers.

When last week's BUGLE was being readied for its press-run last Wednesday, we had time to vent our feelings. But we've learned thru the years it's best not to write when emotions run high.

After a week of hearing discussions from men in the very highest places seeking an answer to this latest tragedy we found the national frustration unable to express very satisfactory answers to the endless questions of: Why did it happen? What's wrong with our national character?

Everyone seemed to be seeking simple answers but unfortunately they weren't asking simple questions.

Certainly a country which has violence surrounding it must be effected by it. And certainly the unrestricted purchase and use of guns, which results in the loss of thousands of lives due to homicide, contributes to this violence. Books, movies, TV, 20,000,000 men who were indoctrinated to "Kill Or Be Killed" in the past 25 years, all may create a climate which makes human life cheap. But because we're not endowed with any greater profundity than those who've been verbalizing the past week we're not convinced these are the causes to our dilemma.

Perhaps the very uniqueness of America is also its bane. Our quest for freedom which has

While the Educational Fund is used for teachers' salaries it is also used to provide equipment and supplies which supplement the work of teaching.

Teacher salaries for the coming year have already been contracted for and the increases were to be met partly by the hopeful increases of the educational fund plus the natural increase in valuation which brings additional revenue into the school district.

The low turn-out of voters was a contributing factor to the failure of its passage. While conservative Park Ridge and Des Plaines are strong resistors to any tax issues normally East Maine school district #63 supports them. This time even district #63 failed to back the issue.

It is expected the school board may try to go for one more referendum before the last Tuesday in September, the last date in which to file a certificate levy which would enable the district to receive moneys the following spring.

By Max Kutza, R. Ph., VITAMINS

Or - VITA AMINES - as the first researcher called them, Defined by Dr. Funk as "chemical substances, minute quantities of which are essential to the diet of man as a nutritional force for stimulating growth."

Most of the necessary vitamins are widely available in foods. Vitamin deficiencies can be avoided by the simple procedure of eating ample amounts of foods that contain these essential factors. BUT... many people do NOT eat a balanced diet. There is, for example, the person on a restricted diet for weight control... The coffee and donut eater... The individual with impaired digestion... or those with plain bad dietary habits. Hence the need for vitamin supplementation.

Are you a poor eater? Should you take vitamins? Only your doctor is qualified to say. See him if you feel under par and suspect that the cause is nutritional. If he recommends vitamins come see us. Junior College Deadline Sept 1

Sept. 1 is the deadline for filling junior college tuition payment requests with the board of education of the Niles Township High Schools.

Residents of the high school district planning to attend a public junior college in Illinois during the next regular school year can file a request form to have the high school district pay their basic tuition charges.

Request forms, which are available at any of the district's three high schools have

to be returned to the school by Sept. 1 in order to be valid for the basic tuition reimbursement.

Forms not filed with the high school district by the deadline are not acceptable even though the resident claims he did not decide to attend a junior college until that time.

Schools Superintendent Charles Szuberla recently reported to the school board that the administration had to-date processed almost 400 applications for junior college basic tuition reimbursement.

### President Schreiner 'Granddaddy' Of Park Bd.

Park Commissioner Louis A. Schreiner, known as the "Granddaddy of the Niles Park District" was elected by his fellow Commissioners to his 4th term as President of the Park Board for 1968-69, at the regular monthly meeting of the Board held Tuesday, May 21, 1968.

President Schreiner has a background of service to the residents of Niles, covering a period of 19 years, almost from the first day his family moved to Niles from Indiana.

money for the school and church. He drew up the plans for the Greenan Heights fieldhouse and was President of the Greenan Heights Improvement Association when it was the only active Homeowners' group in Niles.

President Schreiner became a Park District Commissioner shortly after the Niles Park District was created and has been a Commissioner ever since. He has served on numerous committees of the Illinois Association of Park Districts and presently occupies the post of Sergeant of Arms of the Executive Board of the state organization.

### Reading Program Begins June 24

With a slight tip of the hat in recognition of the birthday of our state, the Niles Public Library announces this week that this year's reading club session will run from June 24 through Aug. 3. These sessions have annually been a valuable segment to the young people's reading during the vacation period.

This year's activity will lead to the successful conclusion by reward of a Reading Record (to everyone who wants it) and a diploma, to those who finish successfully. By reading 10 books and reporting on them on a short book report form, the young people can fill in club requirements. Although it is a free book choice, it is hoped that the books will be the child's grade level, or above. Children eligible for participation will be any having the ability to read through those who have completed 8th grade. Choice of books may be made either at the main library or the bookmobile.

To enroll the child must pick up full rules and registration forms at the library starting June 24. At that time, and any time along the course of the club activity, book report forms may also be picked up.

"Our reading clubs always hopes to stress that this is not a race, but hopefully a recreation," say Mr. Miszewski, the children's librarian. "Even the requirement of book reports is minus the necessity of accuracy of spelling or punctuation (although it would be a tribute to their schooling if both of these were accurate). Our greatest annual difficulty is penmanship."

Oh yes, the official name of the club will be "The Big I Club."

Remember, the child must be registered, June 24 or after, the books must be library books and a report form must be picked up and filled out for each book read.

### Elect Legion Jr. Club Officers

The Morton Grove American Legion Post #134 Junior Gun Club elected Thomas Eckmann as their new president for the 1968-69 season in recent activities.

Along with him other officers selected were: vice president, James Matz; Executive Officer, Skip Kuhn; secretary, Michael Koob; treasurer, Cliff Gillen; range officer, Ed Manke; ass't. range officer, J. Iverson.

The prime concern of the boys is to be a good American. In addition they encourage good sportsmanship, try to bring home shooting championships; but most of all TRY TO LEARN THE PROPER WAY TO HANDLE FIRE ARMS AND TO USE THEM UNDER GUIDANCE IN THIS MANNER AS A RECREATIONAL ACTIVITY.

Some of the outgoing officers, announces the senior advisor, are above the junior age limit. This year they will now join the senior gun club. They will also remain as instructors for the younger group, helping as others helped them.

The new officers will officially resume their duties at the annual awards dinner scheduled for the near future.

The retiring officers include new president's brother, Steve Eckmann, president; Tim Robinson, vice president; and respectively Robert Guthrie, James Katerly and Ed Martin, Jr.

The instructors who will pass on their skill are Ed Martin, Robert Guthrie, Steve Eckmann and Karl Tegert. The coach, Joe Zuccolo has given the group's thanks to the Legion Post for their continued support.

### Present New Flags

The Morton Grove American Legion Post #134 recently voted to present to their Auxiliary Juniors new flags. The Junior Auxiliary group is composed of daughters and sisters of Legionnaires under eighteen years of age.

The two flags which have been ordered by the Post Americanism Chairman for the youth group are an American one and an Auxiliary flag, with proper lettering, both with aluminum poles, eagles and gold cord.

Junior Chairman Sharon Nehart says the girls will carry the flags in parades, use them at their own district and other meetings and at such special events as may occur.

## Local Merchants' Taxes Improve Our Community

Of course you look for and find bargains in quality merchandise when you shop locally, but did you know you are also really investing in our community too? Your neighbor-merchants' taxes support civic improvements and help finance schools and recreational facilities right where you live. It pays, in many ways, to shop at home!

## Time and Transportation Costs are Saved

Instead of wasting time traveling to distant stores, the wise shopper puts that time to use in a more careful selection from the large varieties carried by our local merchants. The money saved on transportation is put to better use too — on the items themselves. Every day it will pay to shop right here at home!

## Your Merchants Are Your Own Neighbors

It's mighty nice to know that the merchant you deal with is probably one of your own neighbors. You feel you can trust him and he is eager to maintain that trust. He is anxious to please you in a personal way — to give you quality products at the lowest possible price. "Yes," you'll say, "it really does pay to shop here at home!"

## New Math Lab At Hynes School

A new math laboratory in Mrs. Louretta Bobay's classroom at Hynes school in Morton Grove has provided a window to the school year in a blaze of glorious self-discovery. The game theory — a new approach to education — motivates her pupils' math discoveries. Math is more fun. They even do it with dice.

Self-discovery math media for individualized instruction is just packed into a corner section of her classroom. Resting place of the media, when not in use, is a framed pegboard. The pegboard has several dozen hanging shelves and books on which the game gear waits to be used, invitingly. The pegboard holds peg games, yard sticks, unsilly millimeter sticks, geoboards, centimeter sticks, blocks, tower puzzles — all in handy readiness for the users' convenience.

There's even a jar full of beans. The student can discover his own way of estimating the number of beans inside, with guidance available from teacher. Carnival fun? Yes, fun. Lots of it. But through the fun the youngsters discover principles, learn the magic art of prediction, even predict their own success or failure in the math projects.

A magnetized tape-measure makes blackboard math work a lot more fun. More facts stick in young minds as well as on the special blackboard.

The new lab helps in appeals to a child's imagination. It can reach all children, over-achievers and under-achievers, too.

Mrs. Bobay's own 4th graders have the math lab at their beckoning — all the time. Other classes at Hynes use the math gear, too.

There are seven learning centers in that Dist. 67 school, with listening centers and programmed learning. The math lab had widened the already-wide Hynes horizons toward greater understanding by young mind and toward self-realization.

## Legion - P W Dept. Aid In Flag Display

Morton Grove Post #134, American Legion, through its commander Ed McMahon, has this week issued a hearty thank you to the village's Supt. of Public Works Tony Fragassi and his village crew for their cooperation in displaying and removing the American flags on the Dempster light poles which heralded the recent Memorial Day holiday.

Post Americanism Chairman Ralph Hintz reports that the parade under the direction of Post Chairman Dick Hobs was considerably more patriotic with the red, white and blue of Old Glory flying up and down the route. In these trying times, the American Legion urge residents to fly their flag constantly and show we are proud to be Americans!

# 2 Week Review Of Niles Little League

May 28 - The Lyton Pirates up-ended the Imperial Eastman Mets 3 to 1 for their 1st win of the season behind outstanding pitching by McEnerney. Jim Haase made the catch of the game in the bottom of the 6th with bases loaded to end the Mets' rally.

May 29 - Home runs by Cardinals Brekke and Jariabka and a 3 hit shutout pitching by Dodger Drahts brought the Brighton Awnings and Storms Cardinals a victory over the Barr-Stallfort Co.'s Dodgers, 6 to 0.

May 29 - The Callero & Catino Redlegs pulled the feather out of the hat by knocking out the undefeated Red Balloon Giants in a Thrilling 1 to 0 victory. Mike Calderone pitched shut-out ball and scored the game's only run.

May 31 - The Barr-Stallfort Dodgers beat the E. R. Moore Astros 6 to 3. The Dodgers' tight defense robbed the Astros of sure hits. Sears, Sall and Spray made some fine catches. Elatkin pitched 4 innings of shut-out baseball and DiVencenzo allowed 2 runs during his 2 innings.

May 31 - Joseph Saccamanno hit one of the longest balls of the season for a home run to help contribute to the Lyton Pirates' victory over the Brighton Awnings & Storms Cardinals. Pirate Haase, after a 6 inning pitching duel with Cardinal Brekke, provided another victory for the Pirates 5 to 2.

May 31 - The Callero & Catino Redlegs continued on their winning ways with a 4 to 2 victory over the Norwood Park Savings Braves. Scher, pitching 5 innings for the Braves, was bested by Ferris and Hanisch, each pitching three innings.

June 1 - The Imperial Eastman Mets continued on their winning ways behind the excellent pitching of Dave Elin and Danny McDonnell. They combined to allow just two hits for a 7 to 0 victory over the Norwood Park Savings Braves.

June 1 - The VFW Post 7712 Cubs snapped their losing streak to come with their first victory of the season against one of the top contenders in the league. It took all the efforts of the Cub team to subdue the fighting Red Balloon Giants to a 9-7 victory.

Hse. of Pancakes Colts, giving the Colts a 6 to 5 victory.

June 3 - The Imperial Eastman Mets defeated the Barr-Stallfort Dodgers 8 to 3 behind the fine pitching of McDonnell. Defensive lapses by the Mets allowed all 3 runs scored by the Dodgers. With the score tied at 3 - all, 5 unearned runs in the 5th won it for the Mets.

June 4 - Although beating the Lawson Products Phillies in a regulation ball game, 4 to 3, the Red Balloon Giants ended up forfeiting the game by not following the rules by allowing the pitcher the necessary 4 days rest between games. It was a costly loss to the Giants who were well up with the contenders for the title.

June 4 - The first no-run, no-hit game of the season was turned in by combined pitching efforts by Jerger & Keener, each tolling three innings. The no-hitter was accomplished with the help of 15 strike-outs and the fine hitting of the E. R. Moore Astros totaling 10 hits to bring a score of 9 - 0 over the Norwood Park Savings Braves.

For the losing Cardinals, Brekke lost a heartbreaker going 6innings and being supported with a home run by Bill Boss.

June 8 - McEnerney once again led the Lyton Pirates to a sound 10 to 2 victory over the Niles Intern'l Hse. of Pancakes Colts leaving Pirate Manager Ed Haase to comment, "I AM HAPPY". It was an overall team victory with everyone contributing for the 10 runs.

## Nilehi Teacher Contract Negotiations End Wed.

Negotiations between the Nilehi school board and teachers' union will terminate for the summer after next Wednesday, reported Schools Superintendent Charles Szuberla. He expressed extreme disappointment at the union's decision to discontinue negotiations for the summer months. He said this would be the first time in the history of the school district that teachers would leave school in June without knowing their contractual agreement for the next school year.

Board President Meyer Kamin instructed the negotiators for the school board, chief of whom is Superintendent Charles Szuberla, to discontinue bargaining as long as the picketing by the teachers' union was not evidence of bargaining in good faith. He called the picketing harassment of the negotiations process and certainly not an indication of good faith bargaining by the union.

Among the items agreed upon last week were settlement of salary differentials for coaches and non-athletic sponsors.

Agreement was also reached on providing released time during the school day for the teachers' union president, the executive vice-president and building vice-presidents.

Revision of policy relative to sabbatical leaves of absence for teachers was also settled. A teacher granted a sabbatical leave will receive 70 per cent of his base salary and will have a commitment to remain with the school district for one year after his return from leave.

## Help Oak Library

Dear Mr. Besser:

Oak School District #63 has a Reading & Library Committee on their PTA Board, consisting of 14 women.

On Monday, June 4 these women came to Oak school library, and in one day inventory of the 6,800 books in the library was completed. (Anyone who has ever worked in a library knows this may be a record that will take a few years to break!)

Now some of you readers will no doubt say "ha, they probably had nothing better to do" wrong. Quite a few of us washed and ironed over the weekend preparing for Monday. "They must have thought a great deal of their librarian," - true, "They just do things like that for the publicity," - wrong - I won't even have room to list their names. Then a very few of you may sigh and say "you know, maybe there are still a few people in this world who will get involved without asking what is in it for them who are willing to work without asking how much they'll get paid - maybe there are still a few nice people in this world" - true!

H. Jorgensen, Chairman  
Oak School Library

## Publicity Thanks

Dear Mr. Besser,

We of the Nelson school PTA wish to express our appreciation for the co-operation you and your staff have shown by publicizing our school events.

Your assistance and thoughtfulness has made my endeavor as Publicity Chairman an enjoyable one.

Yours truly,  
Lucille Hoffman  
Publicity Chairman

## From The Left Hand

Continued From Page 1

been a beacon to the world also has certain liabilities when it's left unchecked. Our freedom to bear arms, unrestricted, becomes a national disaster when left unfettered. Our freedom of expression, both in writing and speaking, allows the lascivious to prey on the unwary, and allows the cry of "Fire" in a theatre to lead to panic.

America has made such a fetish of the word "Freedom" and "Liberty" that their over-use has resulted in abuse.

Back in the last half of the nineteenth century the land barons yelled "freedom" when their exploitation of children at hard labor was being challenged. When over 40 women were burned to death in a garment factory in New York, the garment owners thought their freedom was being hampered when the government insisted on improved working conditions.

Today, the duality expressed by many Americans for this vague "freedom" is evident. While crying for freedom for themselves, they firely deny freedom to their fellow citizens.

In the complexity of America the strength of hoodlums and the syndicates is still another manifestation of our unique "freedom". Here in Niles hoodlums and their families are free to traffic, beat-up on teachers, and run legitimately-operated businesses throughout the community.

Obviously, in our desire to protect what is noble here, we are subjected to much abuse from those who exploit it.

In England and Scandinavia freedom thrives there as it does here. There are no more independent people on the face of the earth than the English. The dockworker and the Tory share pride in their independence as much as any people anywhere. But the Bobbies don't use guns and their national homicide rate by guns is 1% of what ours is; auto fatalities have been appreciably decreased the past year while our maniacal destruction by autos keeps spiraling.

We don't know what the answer is. Perhaps the English and the Scandinavians accept their freedom with a sense of responsibility. And perhaps they recognize unrestricted freedom becomes a sort of anarchy of the spirit. And if this is true, then the very virtue of the freedom we cherish becomes meaningless.
