From the Left Hand

By David Besser
 Editor and Publisher

In a trade magazine which we received Tuesday Robert Lerner of the Lerner Newspapers wrote a provoking article which will obviously elicit much comment from suburban newsboys, who are suckered into responding, just as I'm doing by writing this column.

In the article, which concerns the "suburban environment," he was disturbed by the environs around the Wilmette Theatre, which he attended, and which was strewn with leftovers from the children's matinee. Obviously abhorred by the disarray, he states: "At least this suburb could clean up the theatre." Having been aroused by the sticky candy wrappers and popcorn boxes, he concludes the "ancient suburban environment" has "no more grace, and perhaps less reality, than the thickest Chicago slum."

Following in fairly quick order, the brief 3-column-article then socks it to suburbia. "Residents behave as if they were programmed from Middletown." Then more sock: "Teenagers are of the narrow-horizoned variety; wear a jacket and tie at night, pick your college, drive an American car."

Lerner cites suburbia as being a rest stop for those who've stopped living. Suburbanites, according to Lerner, "pretend to enjoy martinis, go to swante garde movies, bazaars and auctions, and talk a constant and brave game."

Mr. Lerner then blows hard: "Suburbanites are so unhappy." He says we cannot move because we're so insulated; cannot think because we are so insured.

He concedes we are not snooty. But, ah, we are to be pitted. He says, "we march away from the mainstream and grow old without growing up."

Next he goes after sex-in-the-suburbs. He says it "isn't particularly enjoyed except for its defiance value."

"Relationships," says the man, "turn from comfort and security to boredom and sterility."

Now watch out! Lerner says we read "The Godfather" but few can converse intelligently about Aristotle and Joyce. Lerner contends we find out about the world by reading about it in the newspapers. We just don't "feel, touch or smell" the world.

Residents Open Hearts to Injured Postman

Nilesites once again proved they will come forward when asked to help lighten the long days of confinement in a hospital room.

Two weeks ago, The Bugle printed the story of Postman Howard Borman, 8616 N. Ozark, Niles who was struck down by an auto in front of the Niles post office and seriously injured. Howard has been confined to Lutheran General hospital since Dec. 18, the date of the accident and has undergone serious surgery.

Postman Borman has been delivering mail in Niles since September, 1948 and for the last 15 years, has delivered exclusively to the residents of Jonquil Terrace.

Mr. E. W. Gauk, 7721 N. Oriole, Niles, a resident of Jonquil Terrace and one of the many residents who consider him their "good friend" offered his home as a relay station for any cards, gifts or letters Nilesites would wish to convey to Mr. Borman. Mr. Gauk told The Bugle the response was overwhelming and over 250 pieces of mail were received.

The Morton Grove Post belongs to the 7th Dist. which encompasses a dozen Legion Posts on the north side of Chicago and the suburban area and the local lass will compete in dist. competition following her selection at the Morton Grove Post.

From district elimination competition leader to the Cook County Legion level. That ultimate winner reigns over the 4th of July fireworks program at Soldier's Field which the County sponsors each year.

As in the past, rules fundamentally are the same. Only Morton Grove young ladies are eligible other than Legionnaires' daughters who may reside outside the village limits.

Niles Art Guild Meets Feb. 3

J. Z. Gilbert, well known portrait artist, will give a demonstration at the Feb. 3 meeting of the Niles Art Guild. Mr. Gilbert was born in London, England. His training was received in both the Royal Academy in London and at the American Academy of Art in Chicago.

Since starting his professional career in 1961, Mr. Gilbert has touched on many facets of the art world. He designed the new uniform for the Women's Air Force and was also designed the uniforms for most of the airline stewardesses at one time or another. He has also had many of his illustrations in national publications. His reputation as one of the leading portrait painters in the Midwest is well deserved, having painted portraits of many famous people. His paintings are in homes from coast to coast and are displayed in galleries here and in New York City.

Engaged

Mr. and Mrs. Stanley Anderson of 7804 N. Nora ave., Niles, are happy to announce the engagement of their daughter, Karen Elaine, to Lawrence Borggren of Chicago.

Karen graduated cum laude from North Park college in June with a degree in nursing. She is now a lieutenant in the Army Nurses Corp. and is stationed at Fort Sill, Oklahoma. Larry graduated from the University of Illinois and is a pharmacist.

The couple will be married in the chapel at Ft. Sheridan on March 13 with a reception to follow at the Officers' club on the base. They will reside in Oklahoma for at least two years.

Gain Advised

New studies in pregnancy nutrition are reversing the prevailing advice to keep maternal weight low. Doctors now advise a weight gain of 20-25 pounds to insure healthier babies, March of Dimes experts say.

Mr. Gilbert has also been assigned as the instructor for the inmates at Cook County Jail. This most interesting program will be given in the Niles Recreation center, 7877 Milwaukee ave., Niles, at 8 p.m. Visitors are welcome.

Niles Townsp. GOP Speaker

On Feb. 1, Negro Minister Rev. Henry Mitchell, of the North Mission Baptist Church will be guest speaker at the Niles Township Regular Republican Women's Organization meeting. Rev. Mitchell will give a timely and informative presentation outlining Negro problems.

'Consumer Fraud' Topic of Discussion

Does the consumer really get what he pays for?

"Consumer Fraud" will be the topic under discussion at a meeting to be held at Gemini school, 8955 Greenwood, Niles, on Wednesday, Feb. 10, at 7:30 p.m. The public is cordially invited to attend this informative program, jointly sponsored by the PTA's of the Gemini and Apollo Junior High school.

"With costs of our weekly groceries constantly skyrocketing (another 7% increase is expected during the current month), protection of consumer rights becomes a matter of great concern to every housewife and wage earner," stated Mrs. Celeste DiPrima, president of Gemini school PTA. Bob Eastman of WBBM will lead an articulate, well-informed, and lively panel consisting of Jackie Kendall, housewife of Prospect Heights; Don Mulack, Assistant Attorney General, State of Illinois; Dave Newman, WIND newsmen; Sue Nelson of the Chicago Tribune; and Hugh Muncy, president of the Illinois Retail Merchants Assn.

Mrs. Kendall is a co-founder of the National Consumers' Union and a member of a group of local housewives who are the northwestern suburbs' equivalent of Nader's Raiders. She and her colleagues wage a courageous battle against the sale of outdated food, illegal weighing practices, and all forms of deception practiced against the consumer by supermarkets.

Bob Eastman conducts a daily radon program called Consumers' World, designed to inform the public on all phases of consumer affairs. News reporters Dave Newman and Sue Nelson have covered various comic and not-so-comic aspects of consumer woes.

Mr. Mulack will present the point of view of the law enforcement agencies, and the merchants' side of consumerism will be ably presented by Mr. Muncy, who has been affiliated with the Retail Merchants Association for 20 years and has served on a number of legislative committees concerned with fair trade practices and other matters of interest to merchants.

This is a community-wide meeting, and all residents of the area, whether or not they are parents of school children, are urged to participate.

Who nowadays doesn't know tension? For most of us our lives are always on the double, even when playing. Competition and pressure eternally drives us until we are limp with weariness and concern.

Limp-but not relaxed. I suppose so much of our tension derives from taking ourselves, what we are and what we do, too seriously. This is not to say that what we are and what we do are not important. But so very often we believe that all would collapse if for a moment we relaxed our world-carrying, Atlas role.

Those who develop a happy outlook on their own are fortunate. For most of us it's quite difficult. Tensions can bring on ulcers, diabetes, heart disease and a host of other ills. When you feel helpless and involved, when you know better than to take on more responsibility but you find yourself doing it anyway, when it seems you cannot pull yourself free, see your doctor. Skillfully he will spot the areas that trouble you and give you advice-advice you had better take.

For worry free assurance, bring your prescriptions to BIRCHWAY DRUGS 7503 Milwaukee ave. Phone 647-8337. You can be sure it will be exactly what the doctor ordered. You can relax. All you need to do is take it.

YOUR PARK DISTRICT Niles Hockey League Standings

Squirrels Division—The Redwings, seemingly out of form, found the Bruins too much to handle and ended up on the losing end of a 4-0 shutout. The first goal of the game was scored by K. Russotto in the first period. Bruin K. Lakn added one in the second and another in the final period. The other Bruin goal of the third period was scored by M. Re.

Squirrels—Although they were defeated 5-1 by the Maple Leafs, the Redwings, playing with only seven boys, proved great in defeat. Their goalie, S. Romano, played a very tight game, particularly throughout the game. Leaf E. Hoffmann scored first and B. Cook, with the lone Redwing goal of the game, tied the score at 1-1. From then on the scoring was all by the Leafs with B. Madura gaining his third hat trick of the season and J. Pritchard also adding one.

Squirrels—In a very tight game, the Maple Leafs beat the Bruins 1-0 to remain undefeated in five games. J. Pritchard of the Leafs registered the only goal of the game in the first period. The Bruins, penalty killing twice during the middle period, managed to prevent any further scoring by the Leafs, whose goalie S. Sandler earned his second shutout.

Peewee Division—It appeared as though a one-sided game was developing when, going into the third period, the North Stars were leading the Flyers 2-0 on goals by B. Stetz in the first period and B. Bacchi in the second. The situation changed abruptly when W. Beusse and S. Rea tallied two quick goals for the Flyers and tied the score at 2-2. With his team pressing hard, North Star T. Re gained control of the puck at the blue line and shot it in to go ahead. Then B. Stetz's second goal of the day added the needed insurance to the North Stars 4-2 victory.

Peewee—The Kings remained unbeaten when they blanked the Flyers 5-0 in a game in which a heavy snowfall occurred and slowed the tempo considerably. Fine King teamwork resulted in goals by G. Blaszyński, M. Stan-kowicz, K. Silwa with 2, and M. Harrison. Goalie G. Voss registered his first shutout of the season.

Peewee—In the best played game of the season thus far, the North Stars and the Kings battled to a 2-2 tie. It seemed as though the North Stars were being overpowered when the Kings jumped out to a 2-0 lead on one goal scored by R. Silwa just a few seconds into the game, followed quickly by another by D. Klenski. How-

ever, the North Stars came back with one at the end of the first period by B. Fick, and then tallied to tie the score in the only goal of the Stars and the Maple Leafs tied it quickly.

Midgets Division—An aggressive game by the Bruins was needed to down the short-handed North Stars 5-3. The hat trick plus one by J. Beusse sparked their victory. A. Blustein completed the Bruin scoring with his goal sandwiched between two goals by Beusse. Goalie M. Galante fought with steamed glasses throughout the bitterly cold evening. The North Stars broke the shutout by scoring the final two goals of the game, one each by T. Posedel and J. Criscl.

Bantams—The North Stars managed a 4-1 victory over a stubborn Hawk team that was up for this game. Breakaways by M. Berrafato, J. Heasala, and two by K. Grubba did the trick for the North Stars, all coming at a fast pace. Dickson had scored the first and only goal of the first period. Contributing to the fine effort of the North Stars were A. Scherer, R. Bajda, and G. Norek with great defense and R. Rinka with another outstanding job in the nets.

Bantams—The North Stars and the Maple Leafs fought to a 1-1 tie on the big ice of Joz-

wak Park on a really frigid night. All the scoring took place in the middle period when K. Grubba pushed in the only goal for the Stars and the Maple Leafs tied it quickly.

Midgets Division—An aggressive game by the Bruins was needed to down the short-handed North Stars 5-3. The hat trick plus one by J. Beusse sparked their victory. A. Blustein completed the Bruin scoring with his goal sandwiched between two goals by Beusse. Goalie M. Galante fought with steamed glasses throughout the bitterly cold evening. The North Stars broke the shutout by scoring the final two goals of the game, one each by T. Posedel and J. Criscl.

Filing Your 1970 Federal Tax Return

Over 3 million tax packages are in the mail for northern Illinois taxpayers, reminding us that it's time to make our annual income tax report to Uncle Sam, according to E.P. Trainor, District director.

The tax package includes the basic one-page form 1040, which is essentially the same as last year's form. Additional pages or schedules, Mr. Trainor said, are included to enable taxpayers to tailor their returns to their own particular circumstances. However, improvements have been made which taxpayers felt would be helpful. These include the printing of instructions separately, the use of the back of form 1040 for tax computation, and the printing of some of the schedules back-to-back.

Most northern Illinois taxpayers will again receive tax packages printed in color. The red and blue format is intended to direct attention to areas of the return where errors are most commonly made. Tax packages and forms which are picked up from IRS offices and other locations will continue to be printed in black ink.

The package mailed to taxpayers, includes a special "peel-off" label on the front cover, with the taxpayer's name, address, and social security number. The label is to be taken from the front cover of the tax package and attached to the return.

The tax package also includes an envelope, addressed to the Internal Revenue Service center, Midwest Region, Kansas City, Missouri 64170. This is

the mailing address for all Federal tax returns.

If you do not receive a tax package through the mail, obtain your tax forms from any IRS office.

The 1970 tax forms reflect several changes made by the tax Reform Act of 1969. Among the most important are: The new low-income allowance, which is built into the optional tax tables, eliminates separate computation. The optional tax tables have been extended from \$5000 to \$10,000. This eliminates the need for tax computations by people who do not itemize deductions.

All personal exemptions have been increased from \$600 to \$625 for 1970.

Returns are no longer required from single persons with income under \$1700, nor from married persons filing jointly with incomes under \$2300. These figures are increased by \$600 if the individual or his spouse is 65 or older, and by an additional \$600 if both are 65 or older.

The tax surcharge, which was 10% last year, was reduced to 5% for the first half of 1970. This means the tax surcharge is figured at the average rate of 2.5 % for the total year's income.

More taxpayers can now choose to have the Internal Revenue Service figure their tax for them. If your income is \$20,000 or less, and consists only of wages or salaries, tips, dividends, interest, pensions, and annuities, and you choose the standard deduction instead of itemizing your de-

Raiders Celebrate Christmas and Chanukah

The meeting of Pack 83 (Kornick's Raiders) started with the presentation of colors by Den 8. Following as usual was the sparkler of the evening which gave the boys a chance to get their running and yelling out of the way. Strict inspection was held and the boys made a very good showing.

Feather awards for the month were again 41 feathers giving our boys a great scouting program. Den 1 as shown above gifted the Maryville Academy children in Des Plaines with lollypop trees and a Christmas tree.

Awards for candy sales were given out to 27 boys. Top awards for the most candy sold went to (above r.) Scott Smith, Mark Chibnic, Chris Danca and Phillip Kornick.

Den awards also were given out from the Niles Youth Commission for their help in putting on door hangers in the community.

To top the evening off, Den 5 and Den 2 put on a double skit for the month. First was a skit by Den 5 about Chanukah (above L). Then Den 2 gave us a skit about Christmas with old Saint Nick (bottom L). A wonderful seasons greetings to all Scouts from the Cubs.

Arnold May, activities chairman, reviewed the bowling activity. A great turn out at the lanes even though we had 12 inches of snow. Thanks to all the parents for their help at the bowling party.

Mrs. Carole Nye, Blue and Gold chairman, gave a brief announcement on our dinner this year. The Blue and Gold will be held at the Gemint Jr. High on Feb. 28. We expect approximately 450 people to attend this year.

The Cubmaster, Shelly Kornick, wishes to extend a most wonderful seasons greetings to the Pack committee, parents and friends and most of all to the Raiders, the boys of Pack 83.

Scout Photo Contest

Either photos or movie film may be entered in a photo contest sponsored by the Soil Conservation Society of America for Cub Scouts, Boy Scouts, and Explorers who are taking part in Project SOAR, the 1971 National Conservation Good Turn of the Boy Scouts of America. A 3-part subject has been set for the contest so that 3 photos or a 3-minute movie film will show a conservation or environmental problem, a boy or boys doing something about it, and the results of the project. Entries are to be submitted to the Northwest Suburban Council, 1622 N. Rand rd., Arlington Heights by May 1 for the

1971 contest, and the same contest will be repeated for 1972. The pictures may be black and white, color, or slides. Prints may be any size and unmounted. Council and State winners will receive special recognition. National winners for 1971 will receive an expense-paid trip to the Soil Conservation Society of America annual meeting in Columbus, Ohio in August.

Three classes have been set up for Cub Scouts, 8 to 10 years of age; Boy Scouts, 11 to 14 years old, and Boy Scouts and Explorers, 14 to 21.

Project SOAR (Save Our American Resources) is a national, year-long campaign by the Boy Scouts of America to mobilize Scouting's 6 million members in a massive campaign of action programs by Cub Scout Packs, Boy Scout Troops and Explorer Units.

Checking Scout Projects

Assistant district commissioners Eugene Anderson, 7449 N. Waukegan rd., Niles and Bob Black, 610 N. Elmore, Park Ridge, are active in seeing that a top notch program of scouting reaches the boys in Niles and Park Ridge.

They and the neighborhood commissioners encourage all leaders to attend Program Roundtables each month at the Community Church in Park Ridge when a quality program with all kinds of new ideas are presented.

The January cub roundtable had 10 packs represented to learn from a group of Pack 4 of St. Isaac Jogues Catholic Church about displays and suggested den projects for February's theme of American Heritage. Sixteen troops where at

Display of suggested den projects for Feb. were made and displayed by (L to r.) Den leader coach Joyce Eischen, cubmaster Jim Eischen, 2917 Jerrile In., Glenview and den leader Marilyn Tyckason, 2611 Paulina, Glenview, all of Pack 4 of St. Isaac Jogues Catholic Church.

Dr. Koehline Begins Second Year at Oakton

Cutting the anniversary cake celebrating the first anniversary of Oakton Community College is Dr. William Koehline, president while faculty and friends look on.

Dr. William A. Koehline was honored Tuesday, Jan. 19, by students, staff, and teachers at a college-wide surprise anniversary party held in the student center of the college campus. The event marked the completion of Koehline's first year as founding president of the new college located at 7900 N. Nagle (Nagle at Oakton); in Morton Grove.

President Koehline was visibly surprised when he entered the student center as all present, including his wife, Phyllis, and Mrs. Doris Sopkin, college trustee, joining in a chorus of "Congratulations to You" and shared in a large cake decorated with the Latin words for "Year of Wonders".

After reading a congratulatory message sent by Mr. Raymond E. Hartstein, board chairman on behalf of all of the members of the Oakton Community College board of trustees, Koehline was presented with a sketch book which was the result of the combined efforts of many members of the college staff.

Dist. 219 Caucus Committee Meets

The #219 High School Caucus Executive committee extends a warm thank you to the good number of residents who submitted their applications and appeared before it seeking nomination to the position of school board member and trustee.

The Executive committee, under the chairmanship of Mrs. Clayton Welter, interview many township residents who submitted their applications. The committee selected seven applicants for the school board and four applicants for Township School Trustee for further consideration by the full Caucus.

Members of the Caucus will select two School Board positions which will become available this coming April, 1971. They will also choose three candidates for Township Trustee.

The District #219 Caucus is comprised of members from non-political, community oriented organizations in Niles Township. Those selected by the Executive Committee to be further considered by the full Caucus are: (in alphabetical order)

The art work itself was done by Karen Kerzek, of Des Plaines a clerk in the president's office and a part-time student, and Mrs. Lynn Fuhrmark, a clerk in the audio-visual department. The sketch book contained scenes which highlight the key events related to the college's founding year.

The college has gone through several phases since January 1970, when Koehline first arrived from Harrisburg Area Community College in Harrisburg, Pennsylvania, to assume the Oakton Community college presidency. For the first four months he conducted college operations from two small suites in the Golf-Mill Professional Building. In the beginning of May he was joined by his administrative staff and the college was moved to its present site at Oakton and Nagle in Morton Grove. The initial teaching faculty arrived in August, 1970 followed shortly thereafter by 832 students, ready to begin the initial academic year on September 14.

In commenting on his first year

as president, Koehline said, "I've been too busy this year to look back to the days when I first arrived in Illinois a year ago, but marking a first anniversary does give one the occasion to pause and cast a brief glance backward. Such a demonstration of appreciation makes me forget the loneliness of my first months on the job, while I was operating out of the Golf-Mill professional building. Since moving into our interim campus here, with the arrival of my colleagues of the classified and professional staff, my experience has been such as to make any president envious. It has been a joy. From the beginning of the student advisement period, Oakton has come alive with the kind of people to whom my life is dedicated."

Dr. and Mrs. Koehline and their three children, Lynn 17, Jim 15, and Carrie 13, reside at 7750 Long Ave., Skokie.

TV Weatherman Jerry Petersen Visits Oak

What better subject, Weather, to study on a cold, frigid morning, that Niles school children are experiencing these days, with a chill-factor of -25 degrees, than to have Jerry Petersen, meteorologist from Channel 9 - WGN-TV come out to Oak school as a guest speaker on Jan. 5.

Mr. Petersen's presentation was related to the curriculum topic "Weather." He discussed weather conditions and symbols, problems of "predicting weather" and described "behind the scenes" activities at WGN.

Arrangements for this most timely topic were made by School District #63 Volunteer Bureau Coordinator, Mrs. Elaine Herz, working in cooperation with Oak school team teachers: the mesdames D. Telford, K. Nicotia, J. Jacobson and J. Sentt.

Beside the question and answer period that the students had with Mr. Petersen, the children were involved in learning activities of reading barometers, measuring wind speed, computing wind-chill factors, studying cloud formations and practicing predicting weather. It is hoped that the students will be able to predict fair and warmer weather and an early Spring for School District #63.

If any residents would care to send get well wishes to Mr. Borman, he is in Lutheran General Hospital or Mr. Gaul will still be glad to relay any cards left at his home to Mrs. Borman.

Mrs. Borman conveyed the following message via Mr. Gaul: "To the Bugle and all the newspapers who were kind enough to carry the report of Howard's accident, you were all great and a beautiful 'Thank You' to all our people in Jonquil Terrace for their enthusiastic response in calls, letters and cards. To date Howard has received over 250 items of mail. This, to me is the greatest morale booster for both Howard and myself and we send our thanks to you all."

LEFT HAND

Now that's the bait . . . and the idea of the article is we're supposed to chomp at it.

Continued from Page 1

of her siblings we tell them about their Machiavellian qualities. And when 30 minutes of continuous haranguing abounds among our young, we give them a bit of old "Midsummers," "I shall smolt thy 'Bottom' unless thou shackle thy lips."

To get the whole picture we really should balance the scales. To begin with, most of our part of suburbia is comprised of guys, who came out of World War II without a job, and without a Daddy who could give them a 48-newspaper chain of weekly newspapers to play "newspaper" with.

Lerner just doesn't know how intellectual we can be. At a gathering of high personages from the leading fields of labor, a guy who lays carpet 3' doors from me, and sundry other labor bigwigs from the trades, sat around our house quoting from the masters. "Smote thou Johnny Unitas to the ground," said the erudite one on my left. "Observe the sphere gracefully floating thru the skies," announced a Keats scholar. "Drive 'dysell' into 'his' gut," railed a third witness, while lolling an anchovie olive at the end of his tongue.

Few of "my suburbia" talks much about the inner city, though he may have some understanding of what makes it tick, because he spent half of his life there. He didn't become too philosophical about the city but then he never lived atop Mount High-Rise overlooking the city.

Next time Lerner wants to know about suburbia he should turn to one of his fellow directors at the Bank of Niles and have him explain how many hours he spent on his meat truck, before he returned to his small sausage shop, and worked another 8 hours to build up a business which many years later is now flourishing. And if he'd like to know what it's really like to publish a newspaper in suburbia we'll be glad to show him how to paste-up pages, shoot negatives and half-tones, make plates, and then drive a truck to the printers, before coming back to work the addressing machine.

As for us "pretending" to like martinis . . . he must have "Joyced" his "Aristotle." And as for us suburbanites going to avant garde movies . . . we like cornballs like "Love Story" and "Mary Poppins" and maybe even a skin flick or two.

And if he has the time we'll show him how to walk the cold streets in pursuit of a 2 inch ad, or after 10 hours of putting the paper together, rush home for supper, in order to get to a meeting so it can appear in the following day's newspaper.

Then the sage of Lake Shore Drive comments about our teens wearing jackets and ties and driving American cars. What suburb has teenagers who even "own" coats and ties, let alone wear them?

And if he has the time we'll show him how to walk the cold streets in pursuit of a 2 inch ad, or after 10 hours of putting the paper together, rush home for supper, in order to get to a meeting so it can appear in the following day's newspaper.

Lerner's contention we prefer hot paperbacks and "few can converse about Aristotle and Joyce," manifests he's never been to our house. Whenever one of the kids spills too much milk we remind them about Aristotle's golden mean. When one of the other kids begins shouting down one

it's all a part of comfortable, boring, sterile suburbia.
