From the Left Hand

By David Besser
Editor & Publisher

We received a letter the past week from Irv Roane, a former Nilesite, who now lives in Newport Beach, California. Irv was very active in Niles, and we find his observations concerning his former community of much interest. He was involved with scout groups, the PTA at the Jefferson school, as well as being active in Oakton Manor, and aiding in creating Niles park district. The following is his letter which was attached to a copy of the local newspaper, The Newporter News:

Dear Bud:

Thought you might be interested in looking at the Newport version of the "Niles Bugle". Instead of the "Gemco Traffic problem" out here it's the "Pacific Coast Freeway". Suburbs are the same all over, only the names change. Several interesting things appear in the "Newporter". One in particular is Forgit Hardware ad on the back page. Every week he states his philosophy in this manner. Do you think "Booby" Friedman would do that with his ad?.....Also like the Editor's column of "Backwash"...(what else to name it in Newport Beach?)...somewhat like your "Left Hand" column.

Some random thoughts that have occurred to me sitting out here 2200 miles away from Niles and using the Bugle as the tie between us. Liked your comments on the Niles Park District...I remember when...in 1950 we citizens of Prospect Ave. started a movement to ESTABLISH a Niles Park District, which didn't even exist at that time and several of my neighbors became quite involved in spite of the fact we were in the Park Ridge Park District. In the intervening years I've been quite disappointed with the "hodge-podge" development of Niles parks...Yes, Bud...full & open meetings for that public body whom seem to be spending their taxpayers' money without good planning....And speaking of planning....I'll never understand why the Village of Niles, past and present Trustees included can't plan....Years ago we envisioned the intersection of Milwaukee and Oakton (southeast corner) as becoming the hub of Village government....Think of what an asset this would be to Niles today, with the Village Hall located there,(instead of in an abandoned A&P store) ...the relatively new and beautiful Niles Pub-

townhouse area will support their association in its quest to seek an improved level of community living.

The AIM Party (Active Incumbent Members) have at all times waged a positive campaign with the same dedication and positive approach to Village Government they have provided during their terms in office. Ralph Bast, a Man of Action, providing the Village Board with an appeal to the Youth of Niles, Richard Harczak, Mr. Businessman, converting his business acumen as a successful businessman to the Village Board providing it with the same astute business knowledge, and Angelo Marcheschi, Mr. Versatility of the Board providing the Board with the Trustee that is truly a man for all seasons.

Their Platform: "We must look to the future not for ourselves but for the generations ahead for they will become the future of Niles. To this end we have dedicated our energies to continue Progress With Economy by maintaining a low village tax base. We will continue to fight Air Pollution by working with our neighboring villages and all governmental bodies. We fully realize that air pollution, whether it is in Morton Grove, Des Plaines or Niles, is a problem we must all solve and to this end we have provided strong legislation. We will promote a comprehensive drug program and have already begun the fight by adopting a Village Drug Abuse Council. We will try to assist our schools in obtaining Federal and State support to lower our local property taxes. We must seek other means of raising money other than continually raising our property taxes. We will continue to press for improved public mass transportation in our village, an area in which we have already taken corrective steps to improve conditions in this vitally important area. Finally, we will expand our Village boundaries only with proof that annexation would be in the best economic interest of our community and desires of our people."

Youth, Ralph Bast; Business, Richard Harczak; Versatility, Angelo Marcheschi; men of action, proven performers, who established Niles as a Model Village in the Northwest Community.

Unique Picture at St. John Lutheran

The confirmation class of St. John Lutheran Church in Niles gave its church a unique class memento in the form of a picture made up of nothing but words. The words, written in microscopic form, are the words of the New Testament, so written that the first word in the upper left corner is the first word of the first book of the New Testament, Matthew, while the last word in the lower right corner is the last word of the last book of the New Testament, Revelations. In between, in sequence, are all the 27 books of the New Testament.

However, as you look at the picture, you are not aware of any writing at all; all you see, is the picture of Jesus, skillfully formed by these words, and surrounded by angels.

The picture is the masterpiece of a Korean artist, Gwang Hyuk Rhee, who spent about four years accomplishing this fantastic achievement.

Anyone is welcome to come and view this work of art.

What mother never told you about cooking with gas.

Your mother probably told you that a gas range is the only one that gives you instant-on, instant-off heat. Soft, gentle heat that surrounds the pan so there are no hotspots to make food stick and cook-ware warp.

And she probably told you that only a gas range lets you broil with the door closed. Mother was right. But what she told you wasn't half of it. Because today gas ranges have gone modern in a big, big way.

Like, for you, oven scrubbing is out. You can choose one that cleans itself on command for pennies, or one that cleans itself continuously while you bake.

Choose an infra-red broiler and you get the job done in half the time Mom could... and the meat will be juicier and more tender, too.

You're sometimes out all day? So what! Choose an automatic oven and it will cook dinner, then keep it warm till you're ready for it.

And how about an automatic meat thermometer that signals when the roast is ready... or a built-in rotisserie, griddle and timer? You can have them all and lots more on a gas range... the range designed for today's life style.

Mom knew a thing or two about cooking with gas all right. But you could tell her a thing or two. Right?

See the modern gas ranges on display at our offices or visit your local appliance dealer or department store.

Mother never had it so good.

Dist. 63 Candidates Hal Schwartz

"As candidates' meetings throughout the district, in private conversations with friends and neighbors and in the informal door to door campaigning which I have begun the word is the same: 'we can't afford any further hike in taxes.'"

Hal Schwartz, candidate for the EastMaine District 63 Board of Education, made this statement at a recent meeting. He continued by detailing ideas regarding the financial crunch currently being faced by "Our district and districts throughout the state, one which might get worse before it gets any better."

Schwartz noted that the first major task to face the two newly elected board members will be preparing the budget for the upcoming school year. "For this reason, I feel that each of us (the three candidates for the two board posts) should fully detail his position regarding district economics."

"First of all, I am opposed in the year ahead to a referendum for the raising of tax

rates. The only hedge I will make on that statement would be an obvious need resulting from a tremendous influx of additional pupils.

"Then in the face of increasing costs for maintaining a quality educational program, where would the additional money for running the system come from?" he asked.

"First, I feel the state will begin fulfilling the mandate given it in the new Illinois Constitution. That mandate is contained in the education articles: 'The State has the primary responsibility for financing the system of public education.'"

"That to me means 51 percent of the cost at least, compared to the current 35 percent. And that to me means property tax relief."

"Second, I think the new procedures regarding tax assessments as outlined by the County Tax Assessor's office will result in our receiving a good deal of 'found money,' money from persons and corporations in this area and outside which has been kept from us through special assessments and so-called 'hardship' reductions.

Schwartz emphasized, however, that the long-range solution or deepening of school financial problems depends primarily upon the State.

Milton F. Langer

Milton F. Langer, 7343 Lyons, Morton Grove, Illinois, a caucus backed candidate for the East Maine School District #63 School Board has been visiting the schools of the district. Mr. Langer in visiting the schools has attempted to determine the administration and policy in each school. Where possible he has talked to principals, teachers, nurses, and secretarial staff. The teachers in reply to questions from Mr. Langer indicated varying attitudes on classroom discipline, grading procedure and achievement objectives.

Generally Mr. Langer's attitude toward elementary education is that improved educational procedures should be adopted when it can be shown that the "newer" methods have advantage to the educational advancement of the districts' students.

Milton F. Langer is a candidate with experience in education. He teaches Geology and other Physical Science subjects at the Southwest College, one of the City Colleges of Chicago. As an Associate Professor and department chairman he is involved with administrative policy, financial expenditures and education. As a matter of his position, Mr. Langer has had to counsel and advise students - and one of his greatest disappointments is the apathetic preparation of the students for higher education. The students he said, have great difficulty in reading, writing, science and, of course, mathematics.

Mr. Langer also teaches a geology program at North Park College, where he presently is planning a field program.

Mr. Langer was elected March 27, President of the National Association of Geology Teachers-Central Section at the Oak Park-River Forest High School during the business meeting of the national conference. Mr. Langer was previously Vice-President and program chairman for the organization and was responsible for the three day program.

What's electric heat got that the others haven't?

There is no heat that is anywhere near as clean as electric heat. Because other heats use a flame. And a flame needs air. Some of that air comes from the outside, bringing dirt in around doors and windows. Dirt that wouldn't be there with flameless electric heat. And because you're not drawing in that dry outside air, you maintain a better humidity level. So you're more comfortable. Electric heat gives you a wide selection of heating systems. Heating cables can be installed right in ceiling and floors. You don't even know they're there. But you'll be living cleaner and quieter. And because the heat comes from the ceiling, you can put your furniture anywhere you want it. And there's individual room control.

The same thing is true for baseboard heat. It's installed where you need it most. Like under windows and along outside walls where your

room is coldest. Again you get individual room control. And then there's an electric furnace. A furnace that has no flame, so you get a cleaner, more even heat. And if you prefer hot water heat, you can even have a flameless electric boiler. Think about what you're heating with now: the dirt, noise, and maintenance. Is it all worth it?

To find out which electric heat is best, where you live - or plan to live, contact your nearest Commonwealth Edison Office and ask for an Electric Heating Consultant. C.C.E. Co.

LWV: Drug Abuse Program in Niles Twsp.

The officials of Niles Township would have the public believe that there is only one question to be answered at the Township Annual Meeting on April 13, and that is: Do you or do you not want a Drug Abuse Program in Niles Township?

The drug abuse program, as announced, will include an educational campaign and the clinical treatment of drug users. The administrative agency will be the Township Youth Committee with the clinical services purchased from private agencies and paid for by taxes levied by the Township.

The League of Women Voters of Skokie and Morton Grove-Niles believe there are two additional questions to be answered before Niles Township citizens vote on this question. They are: (1) Can the township legally fund such a program? and (2) Have the alternatives been thoroughly explored?

The Township is not a "home rule" unit of government. It may only enter into programs specifically provided for by State Statute.

**The statutes relating to Township government make no specific reference to drug treatment programs.

'Cop Cakes' on Sale Saturday

Come one, Come all, to our Easter bake sale, at the Bank of Niles. The Women's Auxiliary of the Niles Police Department are baking their own specialties to make this bake sale a huge success. Our chairman Rose Marie Morgan says, "you've tried the rest now try the best". See you all on April 10 from 9 a.m. - 12 p.m.

**There are no provisions for the Youth Committee to administer, or contract for the administration of, medical or mental health programs.

**The Township Committee on Youth must cooperate with the Illinois Youth Commission (now the Illinois Department of Correction) in developing programs to prevent juvenile delinquency and may develop such programs of its own. Youths served are under 21 years of age.

**If the Township wishes to subsidize the medical treatment of any resident, it must set up a health department or Public Health District. Niles Township has neither of these comprehensive public health programs. Neither program would allow the Township to render mental health services.

**The Township cannot set up mental health facilities nor contract with other agencies to secure mental health services unless the proposal is approved by referendum.

**There are no statutory provisions by which the Township might obtain state matching funds for a program handled under the auspices of the Youth Committee.

Library Credit

Dear Mr. Besser:
I feel compelled to answer a letter you recently printed in praise of the Village officials. The writer, I am afraid is lacking in some of his information. He praises our Village for its fine library, which I agree is mighty fine indeed, but the Village cannot take credit for it, as it was a very hard working group of women, originating from the Women's club of Niles, who saw a need for a library, and went out and worked many long hours for it. I also understand, Mr. Besser, you had something to do with it. These ladies started out with a dream and saw it to its completion, and are still working. They raised much of the money themselves, and with the help of Niles Days funds, we can thank them, and not the library, for our library. The library is funded separately from the Village.

Respectfully Yours

LETTERS TO THE EDITOR

Seminarians Advocate Low Cost Housing

Dear Mr. Besser:
I am a student at Niles College and I'm in my senior year. I recently read your editorial in The Bugle on the 18th of March and thought I should respond. The article was very well written and very fair to Nick Blase, both in the praise and criticism. I think you took a very courageous stand and you deserve praise and support for saying what you did. Low and moderate income housing is essential in the suburbs and for that matter in the city and everywhere. If more people were willing to stand up and speak out for justice and equality for all mankind and not just "bitch" about their economic conditions perhaps we would progress. I don't mean that people in the suburbs don't have a right to want to protect their homes for which they have worked very hard, but that their ill-founded fears are not a basis for the rejection of another. They are not reasons to condemn Blacks and Latins to the ghettos.

In the article that gave Mr. Blase's explanation, there are many points I find valid. But I disagree with him on the premise that property values will go down just because of low or moderate income housing. The reason this has happened in the past is because it has almost always happened on the fringes of ghettos or because the whites ran to the

nearest sanctuary and were willing to allow their houses to be sold cheaply by panic-peddlers and real estate agents. The good point Blase raises is that the federal government should help insure the property values of the middle and upper income people with some sort of promise but only if they remain within the neighborhood for a significant length of time.

Another point though that Blase neglects is that quite possibly people will have no place to run to if they build low and moderate income housing in all suburban areas. The only thing they could do then would be to buy a farm. But first the federal government will have to cut off the funds to suburbs to make them realize that it's for real.

Anyway, congratulations on a very fine editorial and keep up the good work.

Sincerely,
Richard L. West

Frankina Resignation

To Whom It May Concern:
Two months ago I had verbally resigned as 2nd Vice President of the Citizen's Party, and it was much to my surprise that I saw my name listed on the party's stationery used in the recent village-wide mailing. This has created a false impression with my many friends throughout the village; and I want everyone to know that I am not an officer or member

of the Citizen's Party nor will I support them in the upcoming election. Further, I wish to state that I endorse the candidacy of the Action Improvement Party candidates, Marty Ashman, Ed Brice and Dick Hohn, and will work for their election. Very truly yours,

Nothing For Nothing

Mr. Besser,
Keep up the good work! I refer to your editorial on low income housing. You make a person who works 12 hours a day to pay his bills feel like a sucker. Ask any doctor, lawyer, or other professional man, if his work week ends at 40 hours; yet, I've known people who refuse to work over forty hours a week because that is enough time to waste working-they've got alot of living to do first.

While we're giving them their choice of where to live, they will also need two cars-I mean in suburbia that's the only way to go! No need to charge them insurance premiums, let us suckers pay higher insurance premiums to protect ourselves from those who feel deprived. While we're at it, why not throw in free passes to the swimming pools and free books for their school children.

Mr. Besser, I've always had a rough time getting a job. To some, being colored is their cross, with me, it's being physically handicapped. So, I started my own business fifteen years ago. I began scrubbing floors and washing windows-I call it a menial job that even the people on welfare don't want. They look down on it. It's not the easiest way to earn a buck, but it's honest. I've worked hard for everything I've got. I live in Niles and have a beautiful home-one that I can afford, (although I do see some homes in Park Ridge which I wouldn't mind having!)

This reminds me of a story about a little child who went to the store with his mother. Upon learning that his mother was not going to buy him any candy the child began to cry. He cried, and kept on crying until his mother gave in and bought him some candy. The moral of the story "Cry and keep crying, someone will come along and get it for you."

materialized nor an explanation given as to why not? Why has the Park District waited two years in building a park site by the ex-trailer camp?

The taxpayer is intelligent enough to understand any problems that may develop causing changes. However, they deserve to be kept abreast of all the changes and/or improvements.

New programs should be added to the present curriculum. Perhaps programs in a new dimension may encourage more people to take advantage of the Park programs and its facilities. For example: Why not an auto mechanics class for the gals. With the high school girls driving today, there is a need for them to be able to handle any and almost every emergency that may arise. Trouble with a flat tire, carburetor, fuel pump in a deserted area may cause hysteria to most lady drivers. I'm sure more parents would relax a bit if they were confident their daughters could handle themselves and their automobiles in an emergency.

Why not a program on nutrition - not cooking - but health. With the present trend on health and organic foods, vitamins, minerals, the kitchen has become more of a laboratory and cooking a science.

There are so many interesting doors to open - yoga, astrology, beauty culture, gardening, etc. **DEEDS, NOT WORDS - that is my goal.**

Sincerely,
William (Bill) Keener
Candidate, Niles Park District

Need For Improvement

Dear Bud:
As a candidate for the Niles Park District, I recognize the fact that there is a great need for improvement in our Park system.

In the past, promises have been made and not met. Questions asked by the taxpayer but never answered. For Example: Why was a firm contracted to build the Recreation Center on Ballard rd, that had no prior experience in recreation facilities? After much time loss, the firm was replaced by another, more competent (?) contractor but at an additional cost of approximately \$350,000.00 to the taxpayer. Why had there not been a more thorough investigation as to the more experienced contractor in the first place? Why was a park promised in Jonquil Terrace that has not yet

Doris Sopkin Seeks Re-Election

Mrs. Doris Sopkin, present secretary of the Board of Trustees of Oakton Community College, is seeking re-election on April 10, 1971. "The school has moved ahead at a fast and careful rate, all in positive directions," said Mrs. Sopkin. One of the greatest new courses offered at Oakton is called "human potential" seminar. Here the students are directed to find their strengths and build a positive self image.

Just last week-end, Oakton had its premier drama presentation. Two, one-act plays, directed, produced and acted by Oakton students. There is no drama department or dramatic teacher at Oakton. This grew out of student initiative. At the moment one of our big concerns has been Mrs. Sopkin's personal concern. For a year she has been working with different agencies seeking possible solutions to the anticipated parking problems. "We

Doris Sopkin have sufficient parking spaces for this year's enrollment which is just under 1,000 students. Next fall, there will be 2,500 here.

Mrs. Sopkin has alerted Mayor Bode of Morton Grove to see what help is available on the village level. The best solution, I believe, lies in the formation of a mass transit district. Mayor Smith of Skokie is the chairman of the Mass Transit Committee and he is aware of Oakton's upcoming situation. Mrs. Sopkin feels her major contributions to the board lie in her knowledge of the junior college education program and movement; her contacts with parents and taxpayers through her active role in four PTAs and other civic organizations; and her rapport with the Oakton faculty and their thinking.

Nehart Dist. 219 Candidate

In an address to the Golf School P.T.C., Albert Nehart, 9242 Marmora, Morton Grove, candidate for Township School Trustee, who was endorsed by the High School District #219 Caucus for election this Saturday, April 10 listed the various duties for a school trustee as follows: 1. The three trustees as a corporate entity hold title to all school buildings and building sites within the township. 2. Oversees the township school treasurer's office, whom they appoint. 3. Are responsible for all funds, securities and disbursements of all

school districts within the township. 4. Make annual reports to the state covering the receipt and disbursements of the township school treasurer's office. Nehart further went on to say that in the last school year ended June 30, 1970, a total of \$26,000,000 was received and re-invested with the result that over \$700,000 in interest was earned and returned to the school districts.

The candidate concluded by urging everyone to vote between the hours of 12 noon and 7 p.m. at the usual elementary school district poll locations.

The barrel still has room for any books you may wish to contribute to this sale. It is located near the children's room.

Library Luncheon

The Friends of Niles Public Library will hold their annual Library Week Luncheon on April 21 at 12 noon at the Library. Those who have received invitations are school principals, librarians and patrons of the Friends. They will be familiarized with the new equipment and books which the library has acquired.

Easter Party

The Friends of Niles Public Library held a pre-Easter party for the children of the preschool story hour, on Tuesday, March 30. The children were entertained with cartoons and then treated to ice cream and special Easter cookies. Each child received an Easter basket made by the Friends. Chairmen of this event were Mrs. Raymond Shurson and Mrs. Philip Bergeron.

Dist. 219 School Trustee Candidates

Three long-time residents of Niles Township have been endorsed for election as School Trustees by the District 219 Caucus. Mr. Norman Schack and Mr. Robert Gantner are both incumbents while Mr. Albert W. Nehart, Jr. is seeking his first term as Trustee. Together, they represent 79 years of residence in the community.

Caucus Chairman, Mrs. Doris Welter, stated: "After the interviewing of many candidates by both the screening committee and general membership, the Caucus selected three candidates who are not only successful businessmen, but active and interested members of our community. We feel they are eminently qualified to serve in these important positions."

Regular school district poll locations will be open Saturday, April 10 from noon until 7 p.m.

Luncheon

The Planning Committee for the Spring Salad Luncheon and Fashion Show are: Mrs. Eva Meyer, Mrs. Sally Fritz, Mrs. Lorraine Bartlett and Mrs. Irene Aston. This gala event will be at St. John Lutheran Church auditorium, 7423 Milwaukee ave., Niles, on April 14 at noon. Call for tickets at 825-2008 or 967-9642.

ic Library situated there... (who were the idiots who decided to put in on Oakton across from Lawrencewood, a disaster area itself)... the only thing in close proximity that was built there is the Park District building... What went up there originally? ... a gas station with sleeping quarters over-the-road truck drivers... the only we could convince on the Village Board in those days was Johnny Poeschl. Now again we have a Niles Village election forthcoming with how many parties and independents running? When will our Village ever rise to the occasion and run a united party to offset the incumbents in power? The Blase machine is reminiscent of the Stankowicz combine... divide and conquer. Split the vote among all those good intentioned candidates and consolidate the Blase power base. The "Good Guys" lose again. I remember when Blase wanted to be

President of the Jefferson PTA so he could further his political ambition but we won that round. However, I must admit he did his job well when he ousted the party in power and brought the ALL-AMERICA title to Niles but now the Village is just a springboard to bigger and better things for him....

Wonder when some civic minded group is going to hold an "Appreciation Day" for the wonderful Niles Public Works Dept.? I've seen those guys on Sundays, Holidays, in all kinds of weather, winter and summer do a magnificent job... They're the best in the U.S.A.... running a close second to them is that wonderful Fire Dept. Anyway... continued success and keep pitching fast and inside....

Watching What You Eat

What Weight Watchers mean, then, and what Weight Watchers say is that they see what they eat, not eat what they see.

According to Richard Cooper, President of Weight Watchers of Chicago, Inc., "This reducing philosophy of 'seeing what you eat' is especially important during Easter. Many compulsive eaters gain weight during this season and become Easter basket cases because they have never learned to watch what they eat."

First of all, all Weight Watchers learn how to channel their eating habits toward the proper foods. As members of this weight reduction organization, they enjoy three satisfying, high-protein meals a day plus snacks, mostly vegetables, which are allowed in any quantity all day long. Because their eating program is so interesting and so satisfying, Weight Watchers never feel any hunger pangs. In fact, most members report that they have never eaten so well in their

lives. Secondly, all Weight Watchers attend weekly meetings where they learn how to resist fattening foods. During these meetings, members identify with all the common problems of the compulsive eater.

Niles Weight Watcher classes are now being held at Niles Community Church, 7401 West Oakton, on Thursdays at 10 a.m. and 8 p.m.

For further information about the program and the location of classes, feel free to call the Weight Watcher's main office at 312-325-8700.
