From the Left Hand

By David Besser
 Editor & Publisher

It comes as no surprise to anyone to observe Niles is a rich community. The tremendous amount of money received from sales tax rebates gives Niles about \$1,500,000 to help run its ever-growing government.

Within the past week Niles announced 4 social workers will work with the police department to re-habilitate people arrested for non-violent misdemeanors. Funded mostly by state monies Niles will contribute about \$25,000 of the total \$90,000 needed for the project.

Friday Nick Blase announced Niles will study the possibility of creating day-care centers for families which would give young mothers the opportunity to go to work if they so chose. While surveys would be taken the great number of young children in the community precipitated the need for such a study.

Niles has taken the lead in several areas in recent years. Its consumer fraud division is a first for north and northwest communities, as is its family service program, and the creation of the Senior Citizen Home on Milwaukee Avenue.

While many of these specialized services are most desirable, we mentioned at the Friday meeting there's a great imbalance of moneyed services in the community. While the village is rendering these many services residents are still paying top dollars on their tax bills. And while about 70% of the money goes for schools, nevertheless this imbalance is disturbing.

The village officials are prone to note the village tax of around \$35 is low for the area. But when the utility tax of another \$40 is added to the village tax the total \$75 figure isn't so low. Villagers are constantly reminded the village receives the very best services for its money. Everyone is proud of the 3 public departments which are tops. But when Nilesites are told an \$80,000 fire truck was purchased, and was laid to rest in the Dempster Street station, because of a lack of personnel to man the truck, questions should be asked. And parking the truck alongside the snorkel, which is a vehicle of questionable value, reminds us all that village purchasing thru the years might be somewhat wasteful.

The flow of sales tax monies, and the new income tax rebate to the village of \$250,000 annually, plus ever-increasing sales tax monies, begs the question why Nilesites should have to pay any village tax at all?

While laymen can never be sure what is necessary -

TAM Golf Course
 May Not Be Ready Until 1972

WILL VILLAGE TAKE OVER NILES PARK DISTRICT?

In an extraordinary report read at Tuesday night's park board meeting park director Webb Norman was highly critical of park board actions and suggested the financial plight of the district might best be alleviated by having the district taken over by the village of Niles.

In a second criticism Norman pointed out, "It was virtually impossible to rebuild the course (TAM golf course) and have it ready for play in 1971 by starting construction on Nov. 9, 1970." At the meeting landscape architect Jim Spears said the re-seeding of the course is the paramount problem at the moment and not until the June meeting can it be determined whether or not the course will be reparable this year. It was reported that a year of formancy was preferable before using the course but at the 3rd week in June meeting a report on the use of the course this year will be presented. Many problems center around the seeding of the course. Paths for carts can't be built until after the grass takes hold and the running of trucks over the new grass for this purpose seems foolhardy. Outgoing commissioner Ray Eagan also suggested the caddy house renovation be undertaken so some clubhouse will be available for golfers. Also, it was suggested chemical toilets may have to be used this first year, and commissioners looked warily at such an idea.

In other major actions the Board also approved the suggested working budget of \$861,050 for the coming year. \$309,000 of this figure is expended from taxes in the corporate and recreation funds, \$228,000 from bonds and interest on the bonds, \$178,950 for the golf course and \$75,000 for the skating rink.

Buddy Poppy Day

"Buy a Buddy Poppy on Thursday, May 20," say Virginia Kloda and Ed Kochanski, auxiliary and Post Poppy Day chairmen for Niles VFW 7712. They are shown with some of the poppy displays that have been made by auxiliary members for the Poppy Contest.

Every year the Veterans of Foreign Wars and its Ladies Auxiliaries in Illinois take to the street corners, selling Buddy Poppies to the public. The Buddy Poppy is the official VFW flower, made by veterans confined in hospitals throughout the nation.

Proceeds derived from the sale of Buddy Poppies are used to help finance several programs of the VFW, particularly the National Home at Eaton Rapids, Michigan, where 200 children of deceased or disabled VFW members are housed in homes very similar to your own. A part of the money received from poppy sales goes to the veteran

in the hospital. It is used in buying equipment for therapeutic practices, articles for the occupational therapy department, and makes the hospitalized patient feel he is accomplishing something worthwhile. It also helps the veteran in purchasing small personal items, such as combs, toothpaste and brush, razor blades, etc.

A portion of the proceeds are given to the Relief Fund of each auxiliary and this money must be used strictly for the needy. Many auxiliaries used this fund to help defray expenses for filling Christmas and Thanksgiving baskets for needy families. Packages sent to servicemen can also be financed from this fund. This year will mark the 50th annual sale of Buddy Poppies. By buying and wearing a Buddy Poppy you will be helping to carry out a pledge made by the VFW a half century ago -- to "Honor the Dead by Helping the Living."

Check Before You Dig!

"Dig that crazy tree root" and that's just what happened in 1970 according to C. F. Eskrich, Park Ridge District Manager, for Central Telephone Company of Illinois.

Eskrich reports that 2,964 buried telephone cables were cut in Illinois last year.

Each year, more and more telephone cable is buried. It is estimated that about 95% of all cable line constructed in 1971 will be buried.

There are many advantages to underground cables; the one disadvantage is its increasing vulnerability to accidental cuts.

Major offenders are contractors, highway maintenance crews, utility crews and farmers.

Before you dig, call 611 (Repair Service); and a Central Telephone engineer will check your site. If you are outside Central's service area, call the Ke-

pair Service number listed in that area's telephone directory before you dig.

There is no charge for this service, and it might save you both time and money.

Hunger Hike

The North Shore Emergency Association, a radio emergency group composed of volunteer hams and CBers, provided eighteen hours of constant communication for the May 11 Walk for Development in Skokie.

The crowd was estimated at more than 45,000 hikers, and NSEA members, logging more than 500 man-hours, were kept busy throughout the day routing supplies and doctors, reporting missing children, and relating the progress of the walk.

The complex communications center was located in the executive offices of the Westmoreland Building in Skokie, through the courtesy of Daniel McCarthy. A team of five members manned the "net control" station; from there, all walk information was collected, logged, and acted upon.

Reports were received from mobile units along the route, from one member who walked the hike, and from another member in a helicopter circling over the route. Throughout the day, NSEA received excellent cooperation from the police and civil defense authorities in the various suburbs, and term the operation a complete success.

The present your son wants least...

He'd rather have a football, or a new bike. He'd never ask for insurance. But it's something he really needs. Just like a money tree, State Farm's Junior Protector Policy can grow with your son to give him cash for college... for emergencies. Or, it can keep growing when he has a son, too. And, guaranteed insurability allows him to expand coverage in the future. Call me today.

NILES LITTLE LEAGUE

National Division

Before a crowd of several hundred, the Niles Little League season opened with the first of over 600 "crucial" games. Two of the leading contenders for the Little Major League met in the opening game with the Cardinals winning a hard fought victory over the Redlegs.

The Redlegs jumped out in front with an unearned run in

the first, but the Cards fought back with 5 runs in the third. The Redlegs rallied for 2 in the fifth and another in the sixth, but couldn't catch the Cards.

The final score: Cardinals, 6 runs on 7 hits; Redlegs 4 runs on only 3 hits.

Steve Rosenstein pitched brilliantly, giving up no hits and just 1 run in 4 innings. Greg Sorrentino earned the save, although he was nicked for the Redlegs final 3 runs. Tom Jankowski suffered the loss for the Redlegs. Scott Russ and Jeff Johnson pitched 2 shutout innings each for the Redlegs.

Hitting heroes for the Cards were Jim Filipiak and Pete Livorsi with long home runs, and Mike Maloni with a double.

On the basis of this performance, the Cards look like leading contenders to displace last year's champions, the Pirates. Other teams to watch are the Colts and the Cubs - but don't count out the Redlegs. Reports from pre-season games indicate that the dark horse contender is last year's cellar dwellers, the Giants.

Other finishers at lower levels: Denise DeValerio, Semi's

Sue Beckman, semi's. Gary Barlak, semi's epee, Steve Mashl, semi's foil.

The Illinois division did quite well and it will be a few days before we know if Illinois took the Team trophy. Also, Notre Dame high school sent two boys currently at school and three graduates. All of the graduates made the finals. The two N.D. graduates, Steve Mashl and Jim Mullenix will go the Nationals for a second time. Mullenix went last year in adult foil. Mashl went in Under 19 foil (he took a 3rd at St. Louis). Mashl this year has won the Illinois Foil and Epee Championship and now a 2nd in the Midwest. Mullenix will go in Under 19 foil and Adult foil. Mashl will also attend in adult epee.

The tournament was a 12 state wide tournament with only the top four from each state in each weapon entered. For the Under 19 boys and girls, this is the only qualifying meet for the Nationals. Notre Dame is proud of its fencers.

Sedjo Wins Third Game

Freshman three sport star Mike Sedjo is at it again. After leading the football team in tackles as a hard hitting linebacker, placing third in the CCIW diving championships and scoring the second highest point total on the swimming team, the Niles lefty is leading coach Lee Pfund's pitching corps on the diamond.

Although the team has only a 7-9 record to date, Sedjo owns a 3-0 record plus two successful relief stints. He also leads the team in strikeouts with 27 in 23 and a third innings. His earned run average is a neat 2.31.

In CCIW conference play, Sedjo has two wins and a sparkling 1.62 earned run average. His last outing was a three hit, eight strikeout performance in beating North Central college.

A graduate of Maine East High school, Sedjo played first base and pitcher while serving

as captain under coach Herb Ward. He was also a three sport man while in high school.

With only four games remaining on Wheaton's schedule, Sedjo will probably get only one more start this season. But coach Pfund can look forward to three more years of fine hurling from the clever lefty.

Niles 1969 Jr. Miss

Residents of Niles will be pleased to know that the pretty brunette they crowned Niles Junior Miss back in 1969 is representing them very well as an outstanding student at the University of Southern California (USC).

Laura Kotziris, 19, a USC second semester sophomore and a pre-law major, not only has distinguished herself as a scholar but has just been elected President of the USC Women's Halls Association. She is maintaining a 3.6 average on the 4.0 scale and has been on the Dean's List each semester since entering USC. Attending USC on a full schol-

arships and potential, Laura has found time for still other activities beyond the Women's Halls Association.

She is a Sophomore Justice of the University Judicial Court, another USC campus governing body; she has been in charge of the University tours which are the responsibility of USC's official hostess organization — the Helenes — and recently was chairman of the first all-University formal dance.

Oakton Reports on Drug Abuse Program

Oakton Community college has been quietly, but steadily, providing drug abuse education since its first students arrived on campus in September, 1970, according to a statement made May 12 by Dr. William A. Koehnline, college president. Members of the Student Development staff have been meeting on a continuing basis with the Dean of Student Personnel in order to discuss various approaches now available to help students who are encountering drug problems.

Films, pamphlets, brochures and booklets have been ordered for staff use. Suitable brochures have been made available to students desiring them. Films used for inservice staff training include "Narcotics: Pit of Despair," and "Marijuana . . . CBS Reports." One of Oakton's counseling interns has also developed a bibliography of drug abuse education materials. Intensive counseling on a one-to-one basis has been made available to students who have requested it. A referral service for drug emergencies has been set up with various agencies in the area.

made available are being picked up and read by the students. Students who need help are responding to the opportunity for counseling which we have made available. Our impression is that some students have been affected by the various helps which we have provided. We will continue to respond to their needs. Next year, when the Student Development staff will be dramatically increased in the number of professionals, we hope to be able to extend our influence and to be able to help more students.

Oakton Community college, which is located in Morton Grove, is a public community college serving the residents of Niles and Maine townships. It is presently serving approximately 950 students.

Oakton Colors

The entire Oakton Community college family - students, faculty, administrators and staff - participated in a ballot vote to select the college colors. Orange, white and brown emerged as the winning color combination, according to an announcement made April 23 by Dr. William A. Koehnline, college president.

Six color combinations appeared on the ballot. These were lime green and navy blue; royal blue and white; maroon and white; navy blue and gold; red, white and blue; and orange, white and brown.

The voting process was organized by Claudia Brandon of Glenview. She was assisted by Karen Kerzek of Des Plaines, and Bobbie Nelson of Lincolnwood.

According to Dr. Koehnline, the colors will be used in athletic gear and uniforms to be worn by participants in athletic competitions.

Niles North Festival of Arts

As part of the May Festival of the Arts at Niles North High School, an Orchestra and Madrigal Concert will be presented in the school auditorium at 7:30 p.m. on Tuesday, May 25. Madrigal Singers will be making their first public appearance in their new Renaissance costumes which were designed and made by six girls in the advanced clothing class at Niles North. The 10 girls and 6 boys in Madrigal Singers will wear their new costumes while singing three songs from the 16th and 17th centuries. The group will also sing "Serenade to Music" by Vaughn-Williams in regular concert dress.

Dist. 63 Summer Band

East Maine School District #63 will be offering a complete instrumental music program for all students currently studying woodwind, brass, percussion and string instruments (sorry, no guitar) this summer. The program will run for six weeks, from June 21 through July 30. Students will receive one private lesson per week, a total of six, plus two ensemble rehearsals per week, a total of twelve. Private lessons will be of 30 minutes duration, ensembles will be of 60 minutes duration.

Emphasis will be placed on the following: 1) Remedial assistance on individual problems with the instrument, as encountered during the school year; 2) Review of basic fundamentals of: Rhythm, Intonation and tone production, and Musical expression; and 3) Exposure to a variety of interesting, educationally rewarding, musical literature, of small and large group instrumentation.

Rehearsals and classes will meet between 8:30 and 10:30 a.m. Lessons begin at 10:30 a.m. through 3 p.m. Tuition for the program will be \$25.00, payable by check to East Maine School District #63.

"We feel very strongly about the value of participation in the Summer Music Program because it provides the student with ample time to work with the instructor in finding solutions to any problems he may have on the instrument, in an atmosphere not always found during the regular school year. Also, through the group activity, interest is maintained and practice is continued, making for a good carry-over into the next school year," said Donald Filla, Director of Instrumental Music.

For further information please call Mr. Filla at 824-1102.

OUR RELISH BAR FOR CUSTOMERS EATING ON THE PREMISES

EVERYTHING MADE TO ORDER

Last week we raised prices on several food items. Ever-increasing costs from our wholesalers forced us to boost prices on many of our meat items.

As I'm sure all of our friends realize, when food costs increase we are forced to take one of two measures. Either we can lessen the portion of meat we include in our sandwiches or we can continue to serve Full-Size BOOBY sandwiches.

Since we've built our reputation on serving only TOP QUALITY meats in all our sandwiches, and serving them brim-ful, we will not compromise in the products or portions we sell.

Thank you for your patronage as well as your understanding.

Yours truly,
 Booby & Sally

P.S. We are still serving our relish tray.

Production work will begin almost immediately. First Oakton Concert

The Oakton Community college Chamber Music Ensemble will perform its first concert in Building 4 of the college campus on Friday evening, May 21, at 8 p.m., it was announced by Dr. William A. Koehnline, college president. The recital, which will be free, is open to the public.

The program will include music from the classical and contemporary periods. Performers will be students, faculty members and staff members of Oakton Community college, including Joseph Borowski, director of learning resources; Mrs. Maxine Kanter, instructor in music; Mrs. Gwen Fortune, assistant professor in social science; Dr. Philip Jaffe, associate professor of chemistry; Therese Borowski and Chuck Brinkman, students; Mrs. Doris Sojkin, former secretary of the board of trustees; and Mrs. Esther Baumgarten, a representative of the community. Conductor of the ensemble is Margot Nahigian, a graduate of the Northwestern School of Music, and a member of the Admissions Office staff.

According to Koehnline, "Members of the ensemble have been practicing faithfully every week either at the college or at home of one of the members.

The instrumental music will include piano, guitar, woodwinds and harp. A vocal trio will be performed as well as the instrumental selections. I hope that the public will join us at the college for a very enriching musical evening. This is the kind of musical event which we are particularly proud to make available to the community."

Oakton Community college, a public community college, is located at 7900 N. Nagle ave. (Nagle at Oakton), in Morton Grove. It serves the residents of Niles and Maine townships.

'Fiddler on the Roof'

The Morton Grove Music Theater, well-known for quality stage productions, announces its latest presentation - "Fiddler on the Roof."

Directed by Ethel Libkin, whose talents resulted in "West Side Story" and the critically acclaimed "Man of LaMancha" this musical version of the Sholom Aleichem stories will be presented at Niles West Theater on August 13, 14, 15, 19, 20, 21 and 22. On August 15 and 22 both matinee and evening performances are scheduled.

'Cactus Flower'

"Cactus Flower," the Broadway stage hit that was transplanted from the Parisian boulevards, will put forth its blooms of laughter at the Des Plaines Theatre Guild for May 21-22.

As in many farces, the hilarity of "Cactus Flower" rises out of a lie that must be made good with further deceptions piled on ever more desperate deceptions. Paul Carey (Julian)

will be seen in the role of Dr. Winston, a fashionable New York dentist who weaves this web and gets uproariously tangled in it - all because the girl named Toni he is carrying on a blithe affair with, to be played by Jeanne Carlson, has an irresistible compulsion for truth. A confirmed Don Juan, Julian had invented an imaginary wife as a safeguard against being drawn into matrimony. He even touched up the tale by adding a brood of three children.

According to Derrick Vall, M. D., Board Member of the Illinois Society for the Prevention of Blindness, the blood of a diabetic patient contains an abnormal amount of sugar which may cause the fluids within the eye to have a higher sugar content than usual. This affects the lens fibers and causes them to swell. That is the reason why prescribing glasses for a diabetic must be done at a time when the blood sugar is normal.

While the long 5 hour meeting droned into the morning new park board commissioner Bill Keener was sworn into office replacing outgoing commissioner Ray Egan, who has served the district since May 1, 1959. Egan received a plaque from the board for his long service to the district. In accepting the plaque Egan said he would aid newcomer Keener any way he could. He said he had mixed feelings of anger and satisfaction at this time but he doesn't leave with any regrets. He contended he is proud of the accomplishments of the district and then praised his fellow commissioners, the attorney, the resident engineer, Len Wisniewski (who received much praise for his Ballard Park work during the entire evening) and wished the Board

owner whose average annual income hovers around the \$10,000 to \$12,000 figure, is not bringing home overtime wages (due to unemployment factors) finds his property taxes increasing faster than he can supplement his income, and realizes his growing young family creates a continuously demanding financial crisis, he must look for surplus income that will supplement his wages and establish a degree of financial ease.

Mrs. Suburbia, surrounded by her preschool children, is frustrated in her attempts to "make ends meet". "If only," she muses, "I had some place to leave the kids, I could get a job AND relieve some of this financial burden facing us." She is not alone in her thoughts, her friends and contemporaries are searching along with her for the answer to their dilemma.

Revive Plan.

Continued from MG P.1

The board agreed and passed the motion. Cohen said he felt this was the finest and most complete in depth study of government made by a village of our size.

Trustee Cohen then introduced Mr. Clayton Johnson, the head of the M.G. Drug Abuse and Social Service project. Mr. Johnson said a statistical survey was made to determine the best way to serve the youth of our village and it was recommended that a pilot project be started to augment the work of our Police Dept. "We are lucky to have Mr. Richard Zembron who has agreed to work on this project and has a commendable background in psychiatric and social work. Mr. Zembron has served on the MG Youth Commission since 1963 and is presently with the Golf School District as a social worker and advisor," concluded Mr. Johnson. He then introduced Mr. Zembron who outlined his plans for this proposed project.

"My function would be mainly working where a crisis develops. I intend to work at least 5 hours weekly. A crisis is when a child may be on the verge of running away from home. I would get the information from the police and then be in touch with the family to try and help. After several meetings sometimes it is necessary to refer the family to another agency. Individual or group therapy will be given as determined. I will review all juvenile records and act as a liaison with hospitals, clinics, churches and family clinics."

Mr. Zembron continued, "If we help one child or one family stay together then we've done something worthwhile." The board moved to establish this project with a \$2,500 budget. If successful at the end of the year, the project could be expanded with available state funds. Dick Hobs said "Many people who are reluctant to call the police will call Mr. Zembron. I, for one, know how capable he is."

Many citizens were in attendance to complain about the matter of the road construction at Golf and Harris. Their spokeswoman, Mrs. Helen Krause said they wanted the Village Attorney to act in their behalf and file a temporary injunction to halt construction of the 4 lane road on Golf rd. and Harris because it would cause more flooding in their homes and add to the problem of water pollution. They said that new storm sewers were not being installed where needed by the county. It was also pointed out our sewers needed cleaning up and Herb Houndt in attempting to answer this said that our sewers sometimes

Baby sitters, competent ones, are hard to come by and very expensive. So are pre-nursery schools for that matter. Neither area offers a solution to the ever present nagging problem---money---the family must have more money. And so a thought presents itself. Village-run and operated Day Care Centers for working mothers who live in Niles with children between the ages of 2 and 6 years old.

How would they operate? Where would they be located? What kind of money would it cost? How many mothers with children 2 to 6 years of age are there in Niles? And how many would be interested in such a Center?

The next article, the second in a 3 part series, will answer some of the question asked about day care; its availability and serviceability.

Dear Editor:

As the school year comes to an end I want to thank your paper for publishing the many articles regarding the Jefferson school P.T.C. activities this past year. As in the past you have been very cooperative and I can assure you it was much appreciated.

gary and what may be a boondoggle, when only Niles has many extras of questionable value, the question of spending Nilesites' monies should be raised. The same police department which has the most modern, and likely most expensive communications center in the area, once was considering a helicopter for the village; it makes the more cautious wonder about the judgments of men spending \$4,000,000 annually.

The imbalance of even greater concern should be the lack of relief for residents who pay such tremendous bills to the school districts. And a concern which must be raised is the delicate position of the park district. While the village merrily spends money in all directions the park district will likely be fighting all year to stay out of the red. The Administrative salaries in the district, have jumped many-fold the past year. Whether the approximate \$75,000 for administrative salaries alone are justified for this community may be answered the next year, when commissioners battle the greenback shortage expected in the district.

While Nick Blase speaks softly about the subject it has been suggested the village might consider taking over the park district. With the amount of revenue available to the village from sales and state income taxes, much of this money could be channeled into recreational programs, if the village controlled the parks. Blase himself remarked under such a plan the same commissioners could be appointed, similar to Zoning Board appointments.

Golf Teachers Retiring

A primary teacher in Golf Elem. school and the vocal music teacher at Golf Junior High school, in School District 67, are retiring from full-time teaching at the end of this term.

Mrs. Adelalde Hess, of Glenview, vocal music instructor at Golf Junior High, who has taught for 12 years in the district, has led dozens of performances by music groups in District 67. Practically all junior high students since the school was built have been in singing groups led by Mrs. Hess.

She is now teaching in the new tiered choral-music room in the junior high's new wing. Mrs. Hess, who will continue as organist at the First Church of Christ Scientist in Glenview as she starts her retirement, has one married daughter with two children and one son who plans to get married this summer.

The park district has only a small portion of property tax to use for running its district. The imbalance of the village's many revenues, as opposed to the school and park and library districts receiving mostly property taxes, best describes this inequity.

While many of us would seriously question the village taking over more and more of areas formerly outside its province the same people receiving the additional services at the village level are still footing the bills for the other districts which are indeed burdensome.

The imbalance in Niles requires a study in itself. Giving village-services into new avenues never before undertaken may be commendable. But, when we see much money being spent with questionable value, and see the same people who are being burdened in other areas, it doesn't lessen the load Nilesites are carrying through the year.

Social services are a must in the seventies. Fire trucks, air-conditioned police cars, and super-modern communications systems are areas which may be a bit much in our working man's communities.

There also seems a contradiction to consider day centers so mothers can go to work and then brag about all the extra services no other community has. If the centers are needed so mothers can go to work to pay for the centers, fire trucks, etc. I think we may fast be approaching the era of big brother and the year 1984.

retirement, Mrs. Whiteside taught one year at Maple school in Northbrook in addition to her 16 years in District 67.

A District 67 faculty dinner party on Thursday, June 3, at Pyrenees Restaurant in Skokie will honor both Mrs. Hess and Mrs. Whiteside.
