LETTERS TO THE EDITOR

Give Credit Where Credit is Due

Dear Editor, "I protest!" - and would like a few comments too in your newspaper regarding last week's letter to the editor on the Peanut League All Stars signed by Little League Parents.

First it would be interesting to know just how many parents were involved in submitting it. I suspect not many - and then only by those who do not give of their own time - do not attend games and conclude their son to be the best - have free baby sitting services for a few hours each week and think fairness is fairness only when given to their own son irregardless if fairness was exercised.

Why is it that those who do the most complaining are those who contribute nothing?? That the men who do give of their time are subjected to the wrath of those who don't. That when more time is needed for the "fair selection" of the All Star Team it is "frowned upon."

"Time" for fairness to the boys. There are some who will suffer defeat but this will help teach them sportsmanship and one of the true realities of life. Some who were sent should never have been. Is this fairness? I accept the reality too that there are a few managers in the Leagues who do not belong there. The law of averages, but if the managers son is the better player should he not be picked for the try-outs solely because he is the manager's son.

Dear Bud, I want to let you know how happy we are that The Bugle has followed us down to our new west Texas home. It is good to read a story or see a picture of someone I used to know during those active years in Niles. The Left Hand is a must to see if this week it is you being caustic, or nostalgic, or just guiding your readers to a charming, but off the beaten track eatery.

Dear Sirs: Thank you for the excellent use of the press releases which I submitted to you on behalf of St. Paul's Lutheran School during the recent weeks. These releases were an experiment as part of a student recruitment drive which we were conducting. It was most satisfying to be able to use your publication to tell the community about our school.

I have concluded my "tour of duty" in respect to this recruitment committee. Again, thank you for your coverage of our announcements.

NATIONAL DIVISION MAJOR LEAGUE

In a finish that rivaled anything in big league history for sheer drama, the Phillies and Colts came down to the next to the last day of the Niles Little Major League season deadlocked for 1st place. Like something out of a Hollywood script, the schedule called for the 2 teams to meet in their final game.

And in a hair raising, nail biting finale, the Phillies came out as league champions with a narrow 3 to 2 victory.

The Phillies called on their ace hurler, Joe Allegritti, to face the hard hitting Colts and he came through like a champion, completely silencing the Colt bats and blanking them for 4 innings.

Meanwhile, Brian Ptaszek was hit by the pitcher in the 1st inning, advanced to 3rd on a single by Tony Piazzi and scored on an infield out. Ptaszek scored again in the 3rd inning and in the 5th to account for all 3 Phillie runs. Brian Briars got what proved to be the game winning blow when he singled home Ptaszek in the 5th.

Mike Cardella helped the Phillie cause with 2 spectacular catches in left field, and Tony Piazzi and Brian Ptaszek pitched well to preserve the victory.

But, the real dramatics came in the final inning as the Colts almost pulled the game out. Dave Allibone and Dean DeSantic led off with singles and were driven home as Rich Kreckler and Quaritsch came through with hits.

With men on first and third and 2 outs, Mike Day came to the plate with a chance to drive in the tying and winning runs.

It looked like Mike had come through as he sent a screaming liner toward left field. But Brian Briars, playing 3rd base, came from nowhere to spear the ball and earn the pennant for the Phillies.

July 18 - Angels 1, Jet pitchers allowed 3 hits. Angel pitchers allowed 3 hits. Jets tied game up in the 5th when Kevin Goczski tripled and Jeff Bahry drove him home with a single.

Erwin drove in a run on a single in the fourth and singled again in the fifth with the bases loaded to drive in the tying and winning runs. Bob Daehler walked with the bases loaded in the fifth to bring in Mark Slawowitz in with the second run for the Bears. Scott Ayers scored twice for the Bears, and Frank Cale once, all on Erwin's hits. The Braves did all of their scoring in the third on a homer by Dan Sheehan, triples by Jeff Hoff and Mike Tait, and a single by Kevin O'Donnell. Hoff, Tait, and O'Donnell were each 2 for 3 at the plate.

Cardinals 3 Twins 2. 7/21 Pirates 4 Yankees 2.

7/19 Mets 5 Wildcats 5. Morgan Cull returned after 3 weeks off and sparked the Mets to a 5 to 5 tie. He had 3 for 4-HR and 2 singles and 4 RBI. Joe Zahn batted in the other run with a 3B hit. Mike Chrobak pitched hitless ball. The Mets lost it in the 6th inning when John Gibsan gave up 4 runs and 4 hits plus 3 errors by the Mets.

Indians 14 Eagles 5. The Indians won their 6th game of the year. 14-5. Their were many stars for the Indians; P. Durava 4 for 6; J. Ratcliff 3 for 4 with 4 RBIs; B. Stenger 3 for 3 with 3 RBIs; B. MORTON GROVE MINOR LEAGUE

MAJOR LEAGUE

The regular Little League season ended last week and the merit of playing two rounds again proved its value in the North Majors:

1st Round Standings	
Senators	8-1
Tigers	6-3
White Sox	5-4
Red Sox	5-4
Yankees	3-6
Ortles	4-5
Indians	1-8
2nd Round Standings	
Senators	8-1
Tigers	8-1
White Sox	5-4
Indians	4-5
Ortles	3-6
Yankees	2-7
Red Sox	1-8

The best overall record in the North Majors belongs to the Senators. This group of young hustlers completed their regular season with a 16 and 2 record by downing the Ortles 10-7 on July 14. Manager Herb Goralski, and his two coaches, Ray Donato and Chet Pesko, are understandably proud of their team's accomplishments. They feel every boy on the team helped in achieving the fine record.

The Senators won their first two games before bowing 8-4 to the Indians. They then went on the warpath themselves and reeled off thirteen straight victories before losing to the White Sox 5-3. During the 18 game schedule, the Senators scored 202 runs while giving up only 65.

However, a strong second round finish by the Tigers forced a playoff. The Tigers face a tough test to overcome the Senators. The Tigers must beat the Senators twice. If they lose one game the Senators will represent the North Majors against the South Majors champions in the Morton Grove World Series.

All North vs. South world series playoffs will be played at Thillens Stadium, Monday, Aug. 9, starting at 6 p.m. Also that evening, the managers and coaches of the North section teams will and our season by playing their counterparts from the South section in a 9 inning softball game which will start at approximately 9 p.m.

On Sunday, July 18, the Morton Grove Major league all-stars played in Lincolnwood against two strong Skokie entries. The final scores of this single elimination tournament were: Skokie South 12, Morton Grove South 0; Skokie North 12, Morton Grove North 3. All of Morton Grove's runs for the day were provided by a center field three run homer by Bobby DeLeonardis of the North Stars.

The Red Sox won the first half and this week the Indians beat the Ortles. The Reds beat the Yanks and caused the four-way tie.

Meanwhile, the North Minors were busy with make-up games. The Giants outslugged the Braves by a score of 12-11 in a make-up game and winning the first round championship. They came back again to beat the Cubs by a score of 14-6; thus winning the second round championship. They are the uncontested champs of the North Side Minors. Todd Diganci pitched a 6-hit game in the game against the Cubs. He also had 4 hits in that game. Members of the Giants are Tom Hornof, Tom Trojan, Kevin Diganci, Todd Diganci, Ross Benjaya, Mike Chin, Jack Flanagan, Jeff Guthman, Jim and John Leezer, Marc Rappin, Bill Egan, Ken Schutz and Mark Wolf. The manager of the Giants is Frank Trojan and his coach is Bob Wolf. After beating the Reds 2-0, the Dodgers came back to bomb the Cards 22-5, Mike Sfezal

The South Majors have been busy with a possible three way tie between the Cubs, the Dodgers and the Cards. However, the Dodgers were beaten by the Braves and the Cards lost to the Cubs; therefore deciding the second round champions. The Cubs won the second round by beating the Cards in a close game 8-7. The Cubs have a record of 15 wins and 3 losses. In that game with the Cubs, Cardinal pitcher Ralph Dynek pitched a good game and also displayed some fine hitting ability, along with his teammate Keith Ginsburg, who also did a fine job hitting. Lee Sobie and Mike Terenzio led the Cubs attack with 2 hit apiece. Mark Zimmer, Steve Esposito, Jeff Mueller and Frank Farrarrese also did well during the game.

Other games during the week resulted in the Pirates 5, Phillies 2. In that game Mark Edwards pitched a 2 hit game to win over the Phils. He struck out 12 batters and walked 4. Roy Jensen hit a 2 run homer in the first inning and batted in another in the 5th. Other players who made good plays are Tom Johnson, who had a triple; and Paul and Phil Bernstein who also had hits.

Dave Kirsch pitched five hits in the entire game. Dodger pitching was extra sharp as Jeff Lucca and Bob Mueller held the Braves to 2 hits in a 3-0 win over the Braves. Rick Westra drove in 2 runs, singling with bases loaded. The 3rd run was scored as Westra was out, trying to stretch his hit into a double.

The North Minors 10-year-old All Star team composed of Dodgers David Kirsch; Cardinal Jim Biebrach; Cub Jay Miles; Pirate Mike Barron; Brave Bob Pindras; Phillie Ed Huck; Indian Steve Weisbaum; Ortles John Winkler; White Sox Gary Kaplan; Senator Mike Peggvar; Mike Zimmer from the Athletics and Jim Latal from the Red Sox will play an exhibition

What It's All About

It makes you kind of wonder what it's all about. To have your Dad a coach at first or sitting in the dugout. To see his kid catch a ball, that sparked in his eye. To take a closer look when one goes through his legs, you're sure this man will cry. To play the game to win or lose, to cheer or cry out. To have a coach like JOE PATER; that's what it's all about.

MNLL Results

Two of Maine-Northfield Little League's all star teams were removed from championship contention last week while a third was scheduled to play its second round contest early in the week. At the same time, two division championships were won and a playoff was scheduled for the minor division crown.

The League's senior all stars lost in their third game, which was played against the White Caps at Elgin Field last Saturday. Held to five hits, the boys were not able to make it three in a row as the final score was White Caps 10, Maine-Northfield 5. Billy Harrison hit to singles and Mike Dolezal, George Kaufman and Wally Pinas each had one.

Earlier in the elimination tournament, MNLL's senior stars dropped Prospect Heights 8 to 2 and Schiller Park 6 to 2. Dave Baskin was the winning pitcher against Schiller and allowed four hits. The spectacular play of the game was what well could have been a game saving catch by MNLL left fielder Wally Pinas in the last inning when Schiller Park was threatening with two men on and only one out.

The National major league all stars were on their way to their second round competition this week following their 4 to 2 win over Palatine South in a fine pitching display by both teams' pitchers. MNLL's Jamie Humenski gave up only three hits, struck out 10 and gave up his only walk in the last inning.

Maine-Northfield's American League All Stars weren't as successful in their competition as their brother teams, but their fellow nines didn't run up against a Devon-Higgins pitcher named Rob Earhart, as did MNLL's American Stars. Earhart pitched a no-hitter, struck out nine and walked only three in leading his Devon-Higgins teammates to a 6 to 2 victory.

The two runs MNLL picked up were by virtue of errors in the second inning. Bob Polizzi walked, went to second on a passed ball and stole third. Steve Chase walked and went to second on a throwing error that eventually permitted he and Polizzi to score. Al Wilner was splendid on the mound giving up only four hits before being relieved by Terry Levin and Keith Steinbrink who each gave up one. Levin came in in the fourth to strike out the first two men he faced and retire the side.

Lawrence E. Ropski

Marine Cpl. Lawrence E. Ropski, son of Mr. and Mrs. Ernest S. Ropski of 8703 Emerson st., Des Plaines, Ill., serving with the Second Marine Air Station, Cherry Point, N.C.

Championships in two divisions also were claimed during the busy week in the twin-township league. In what many considered an upset, Pellegrini Signs marched over Johnson Sporting Goods 11 to 2 for the National major league championship. Pellegrini pitcher John Maly held the second round champs to five hits while his teammates had a field day at the plate. Mickey Conner belted a home run with two on 185-feet over the right field fence in the first inning. Maly, himself, banged out two doubles and a single, and Dwayne Cooper, Kevin Maly and Tim Kelley each singled.

The American major league championship also was taken by a landslide, with Schek's Hot Dog downing George's Fill All 66, 14 to 1. Seven hits were given up by winning pitcher Glenn Pearson who struck out eight and walked two. Vacations had hit the two teams' lineups and minor league substitutes Steve Pustis and Kevin Kwiat each singled in helping Schek's gain the crown. Ed Pustis tripled and doubled; Pearson doubled and singled; Chip Marbach doubled and singled and Glen Olsson singled for the champs. For the first round champs, the league runners-up, Jim Dash and Steve Levy doubled; Jeff Bersh and David Pink each singled twice and Mike Malter collected one single.

The Minor Division play came to a dramatic climax Saturday with five teams tied for second place and the possibility of a six way tie for first resting on the outcome of the last game of the season, which pitted the first place Flying Frenchmen Restaurant (4 and 1) against the last place Glenview Countryside Merchants (0 and 5). The possible six team tie would have necessitated a playoff among all six. Although the Flyers were victorious, the Merchants had them nervous until the final out with the final score 11 to 10. Murray Shore and Nick Tremont shared the win on the mound and, at bat, Bill Knauber tripled, Gary Adelman doubled and hit two singles, Brian Heraty singled and Tremont singled. Tremont and Heraty also executed a double play.

As a result of this contest, which gave the Flying Frenchman Restaurant the second-half championship, a playoff game with the first-half champs Glenview Foremost was scheduled for this week, with the division championship prize. Yorktown-Sertoma eliminated Dash's Texaco from the crown by defeating them 9 to 4. Jeff Gross and Craig Stone were the winning pitchers as Shasta Pet Center beat the Tasty Pup 17 to 13.

Everybody Loves A Parade

With the marching of feet, the blaring of trumpets, the parade passes by, but our camera was looking the other way to record the wonderful look of the many youngsters who may have been viewing a parade for the first time. Sisters and brothers, little tots all add up to the pageantry and festivities of Niles Days 1971.

Final Report on "Open Campus"

The ad hoc fact-finding committee appointed by the District 207 Board of Education in May to obtain information relating to "open campus" proposals for the Maine high schools has now completed its work. A final report of its findings was presented to the Board at its regular monthly meeting Monday evening, July 19, at Maine East High school.

In presenting the final report, committee chairman Jack O. Hedrich, Park Ridge, praised and thanked the 24 members of his committee. "A great deal of effort has been expended in gathering this information," he told the Board. "The teachers, parents, students and administrators who made up this committee put aside any personal feelings or opinions on 'open campus' and took on the work strictly as a fact-finding job, spending many hours going out on assignments, doing individual research on the subject, interviewing, and writing lengthy reports. There is no question that the complexities of 'open campus' provide limitless subjects for unlimited study. It is our earnest hope that the Board will find our basic groundwork helpful and sufficient."

In accepting the report, Board president William P. Wuehrmann thanked all members of the committee for the thorough job they had done in carrying out their assignment. "The length of this report - and the wealth of information in it - is a clear indication of the great amount of time and effort spent by everyone on this committee. Each member of the Board will study the report carefully. I know that the information in it will prove extremely helpful to us as we take on the task of decision-making on the matter of 'open campus.' We are indeed grateful for your help and your interest."

A resolution was then passed by the Board, expressing appreciation and commendation for each member of the committee. No decision on "open campus" for the Maine high schools will be made until Board members have had an opportunity to review the final report and until after a public hearing is held.

Several weeks were spent by committee members familiarizing themselves with the current forms of "open campus" practiced in schools throughout the country, and studying proposals by Maine students for introducing the policy into District 207 schools. Students have requested that the high school district liberalize its regulations to allow them to leave the school grounds and buildings during the free periods between classes and at lunchtime.

At its first meeting in May the committee divided itself into four sub-groups, each containing a teacher, two parents, two students, and an administrator. Before school ended in June, each sub-group visited "open campus" schools throughout northern Illinois, obtaining information and observing firsthand how the system operates at these schools. In-depth reports of these visits were made, assessing the success or failure of the policy at each school.

In addition, letters were sent to administrators and teachers in other school districts throughout the country, asking for information concerning "open campus" practices at their schools, as well as any problems that may have been encountered. Replies received from these administrators and teachers were included in the committee's final report as was data on the many areas of concern relating to each of the Maine high schools.

Niles Residents in "Fiddler on the Roof"

Limkeeper Don Cherny looks down the road in hopes that more patrons will join the others in a glass of Schnapps. From L. Mickey Cherny as Avram; Glen Graber as Perchik; Irwin Gofel as Tevye; and Wink Julian (a Niles resident) as Mendel, the rabbi's son. All appear in

Morton Grove Music Theatre's production of "Fiddler on the Roof." Seven evening performances are scheduled on Aug. 13, 14, 15, 19, 20, 21 and 22. In addition, there will be matinee performances on Aug. 15 and 22. Tickets are on sale at the Morton Grove Park District, 965-1200.

Niles is represented in the cast of Morton Grove Music Theatre's production of "Fiddler on the Roof" by three very talented people.

The grace displayed by the dancing of Anne Marie Carlson is showcased in a ballet sequence created especially for this production by choreographers Bob and Barb Grahn. A dance major at Butler university, Anne Marie makes her second appearance in a Morton Grove Music Theatre show having had the dual roles of Fermina and the Moorish dancer in last year's "Man of La Mancha."

A mainstay of the chorus, Andrea Farrell plays a young villager Rifka in "Fiddler." A graduate of Resurrection High school, Andrea gained a great deal of experience in that school's productions. In the hopes of becoming a high school drama teacher Andrea enters Loyola university in the Fall, there to major in Speech and Drama.

A new resident of Niles, David Julian, portrays the too-serious Mendel, the rabbi's son. "Wink," as he is generally known, is a law student at Chicago-Kent Law school. A recent graduate of the University

of Illinois where he too was a regular cast member of University shows, Wink displays both his vocal and dramatic abilities in this production.

"Fiddler on the Roof" will have seven evening performances on Aug. 13, 14, 15, 19, 20, 21, and 22. In addition, there will be matinees on Aug. 15 and 22. A special price for children's tickets, \$1.50, has been set for all performances of this production while adult tickets cost \$3.00.

To reserve tickets call the Morton Grove Park District, 965-1200.

General Assistance Not a Tax Burden

The statement by Niles Township officials that the alternative to township administration of General Assistance would be a tremendous increase in taxes for the residents of the township from \$30,000 to \$800,000 is misleading and not a full representation of the situation.

General Assistance is ac-

tually emergency aid given to applicants for categorical assistance to tide them over during the waiting period between application and receipt of County aid. In Niles Township this has amounted to under \$18,000 in the past year, with an average case load of 13 cases per month. Since this is presently the only service provided by Niles Township, the cost for administering General Assistance was not \$30,000, but approximately \$130,000, or the total cost of running the township.

Due to a recent Supreme Court decision, the County must now put all applicants on categorical aid immediately, without the customary waiting period of several weeks. This should eliminate a substantially large percentage of General Assistance cases, leaving only a very few

needy persons who do not qualify for categorical aid.

The only reason for township residents to support a General Assistance program handled by the State would be if the cost exceeded \$800,000. With the anticipated reduction of General Assistance cases, the local municipalities would appear to be the most logical level of government to handle those few emergency cases remaining.

The LWV of Morton Grove-Niles believes that the fear tactics used to support the township officials' thesis are groundless, and aimed at supporting a form of government which has become redundant and serves little purpose other than that of contributing to the already inflated tax burden borne by the residents of Niles Township.

Bike Nite at Thillens

For 31 years Thillens Stadium, at Devon and Kedzie aves. in Chicago, has been the home of physical fitness for the younger set. In looking over their records they have noticed that they have not done enough in keeping the adult population in shape. So, in order to bridge the generation gap, the Thillens organization has declared a "Bike Nite" at the old ball park. Anybody over the age of 18, that bicycles his way to Thillens Stadium on Monday, Aug. 2, will be granted free admission for him and his bicycle, for two thrilling games of boys' baseball at 7:30 and 9 p.m. \$25 gift certificates will be awarded in two categories, the oldest member of the bicycle set that evening, and one for the

individual who has peddled the farthest distance to come out and watch the games.

In order to be eligible for the prizes, you must check in with the gate keeper by 9 p.m. and have proof of your age or where you live.

Wins Comet

The story goes, "The early bird catches the worm," but in the case of Des Plaines' Harriet Baker, the worm came in the form of a 1971 Mercury Comet. Mrs. Baker's coupon for ticket 00024, one of the first ones sold, was drawn at the Resurrection hospital's Employees Benefit Folk Party on June 26 at Resurrection High school.

Proposed Reapportionment for State Legislative Districts

The reportedly agreed upon reapportionment map for the Illinois Legislature is a typical self-serving product of professional politicians of both political parties. Its effect, if adopted, is to remove as far as possible any meaningful voice of the voters in their choice of legislators in Springfield. The real choices will be made in the back rooms by political leaders. Elections will be mere formalities. The principal victims will be the voters in Chicago suburbs who, under this map, will be disenfranchised for ten years until the next map is drawn.

What the proposed map does is to pull pieces of the suburbs around Chicago into Chicago legislative districts so as to make up for Chicago's loss of population in such a way as to assure two things: First, that each of these composite districts will be safely Democratic, and second that the Chicago areas will be large enough relative to the suburban areas to assure dominance in the selection of candidates.

For example, the southern half of Evanston is pulled into a Chicago Rogers Park district to give enough population to meet the one man, one vote standard. The southern half of Evanston is Democratic, but in any case, the votes in the Chicago part of the district are controlling.

Niles Township, which is large and also Democratic, is divided into three pieces which

are then attached to three Chicago Districts, each with enough Chicago voters to control.

The effect is to vitiate the developing Democratic strength in these suburban communities. If this map is adopted, there cannot be any hope in the foreseeable future for the success of the long effort of some of these suburban communities to elect state senators and majority house members to represent a significant and growing body of suburban political opinion. At present with a population of 1,700,000, the suburbs do not have a democratic state senator. The proposed map perpetuates this situation. A block of people this large should have the opportunity to be represented by our two party concept.

Suburban politics is gutted of all meaning by the establishment of safe, no-contest districts. Every legislative district in the proposed map is overwhelmingly Democratic or Republican. In most of these districts the party bosses of both parties will slate the candidates and the winners of the majority primary will inescapably win in the fall election, which becomes a sham.

In any of these districts a member of a minority party has no voice in choosing his representative unless he votes in the primary of the majority party. If he does that in Illinois, he can't vote in the primary of his own party, and thus he has no voice in choosing his own

party's other candidates. There is reason to believe that this proposed map violates the United States Constitution, because its purpose and effect is to protect incumbent legislators from having to run against other incumbents and because, concurrently, it gives to each incumbent the safe and political logjammed district.

There is at least one notorious exception. Independent Democratic house members Scario and Rayson are thrown into the same district so that only one of them can return to the legislature. Thus the Democratic leaders can free themselves of at least one of these unbossed, and therefore undesirable members of the house.

The language of recent court decisions indicates that the combination represented in this map of the protection of incumbents and the establishment of safe districts violates the Equal Protection clause of the Constitution by foreclosing any meaningful opportunity for a non-incumbent candidate to run and be elected.

Look at what the proposed map has done to Evanston. Its southern half was attached to Chicago to fill out a City district. While this part of Evanston is Democratic, it is small enough to assure that it can always be out-voted in a primary election by the Chicago part of the district. But this would not have protected incumbent Republican Senator Russell Arrington, who lives in this southern

part of Evanston. He would have found himself in a Democratic district running against a Democratic incumbent state senator. So the map makers drew in a strip (one precinct wide) to reach Arrington's house. This strip connects to the north part of Evanston and up into New Trier Township to permit branching out west to get enough Republican votes to assure a safe district for Arrington's reelection—by voters, some of whom live ten miles from Arrington's house.

It is understandable that this gerrymandered "safe" district plan would please the professional political leaders on both sides. By this map, the City Democrats maintain the voting strength of the City by pulling in enough suburban population. On the other hand, the suburban Republican professional lea-

ders get rid of the suburban areas where Democratic strength has been developing and might be expected to overtake the Republicans within the one decade duration of this map. The constitutional questions which this proposed map raises may lead to an attack on it through the courts if the commission adopts it. It may be added that the new map for the election of United States Congressmen, as proposed by the congressmen, themselves, is equally bad and for the same kinds of reasons.

As elected Democratic suburban leaders, we cannot wittingly allow this to happen without proper meaningful action on our part.

Dist. 207 Budget Being Prepared

A tentative budget for the Maine Township High School district for fiscal 1972 is now being prepared by the business manager for the district, Harold Markworth, and will be available for public inspection at the Ralph J. Frost Administration Center, 1131 S. Dee rd., Park Ridge, for a 30-day period beginning at 9 a.m. on Aug. 20, 1971 and ending Sept. 20. William P. Wuehrman, president of the District 207 Board of Education, announced at the July 19 Board meeting that a public hearing on the tentative budget will be held at 7:30 p.m. on Sept. 20 in the Faculty Study at Maine East High School.

Announcement was also made of District 207's continued participation in 20 reimbursable Special Education programs. The Board authorized the Superintendent of Schools to process claims for State reimbursement for the amount of school district funds committed for each of these programs. The Board also authorized the Superintendent to enter into agreements with other school districts to cover the enrollment in these reimbursable programs of out-of-district children, in accord with the Maine Township Special Education Program Joint Agreement.

Edward Mella of Park Ridge, representing parents of a group of mentally handicapped children now attending the Julia S. Molloy Center in Morton Grove, addressed the Board to protest the transfer of those students from the Molloy Center to the Special Education facility at Maine East High School.

In other action at the July Board meeting, notification was given that Title I, ESEA, funds are available for special projects to benefit students at Maryville Academy, the Edison Park Home in Park Ridge, and the Park Ridge School for Girls. The Board approved Maine Township High School District 207 serving as the administrative district for these Title I

projects and authorized the administration to make application to the Office of the Superintendent of Public Instruction for the funds allocated to finance them.

With the administration's assurance that its use would save the annual salary cost of one teacher, the Board approved the purchase of a Link/All State Driver Education Simulator, with appropriate instructional materials and supplies, at a cost of \$28,844.00, for use at Maine East High School. Reimbursement for 50% of this amount has been approved by the National Highway Traffic Safety Administration, making the total cost to the high school district \$14,422.00. For the past three years, students taking driver education at Maine East have had the use of a simulator, housed in a mobile trailer, and contracted on a lease basis at \$10,346 a year. A classroom is now available for a permanent installation of the new simulator. Driver education students at Maine East receive, on a semester basis, 33 hours of classroom instruction, 12 hours of simulator training, and 4 hours of "behind-the-wheel" training.

The Board accepted the low bid of Rasor Transportation Company for the transportation of special education students to and from school on the basis of a basic rate of \$3.25 per day per pupil. The contract was authorized as a part of the Maine Township Special Education Program for which District 207 is the administering district. 80% of the amount of the contract is reimbursable by the State, with the remainder taken over by the district in which the children reside.

Routine business conducted at Monday night's meeting included: Acceptance of five teacher resignations, the appointment of eight new professional staff members, and the appointment

School Safety Patrols Award

Concern for personal safety and the safety of others are legitimate educational topics which have been integrated into the total curriculum of East Maine School District #63. Safety Patrol members in the various schools in the District are worthy of a special commendation for their exceptional service to the schools and community through all types of weather.

Learning the application of safety principles are significant episodes that remain with the students throughout their lives. Exemplifying the safety program are Oak and Washington schools. Meritorious safety service certificates from the Chicago Motor Club were awarded to Oak school for the fifteenth straight year and to Washington school for the eleventh straight year. Also being honored with a special award is Mrs. Seraphine Madro, Washington school crossing guard for her diligent and conscientious service in having perfect attendance at her post for five years.

ized that they are out of little league; and any team goes with their best 9 players. Instead of working to improve themselves and to earn a starting berth, they sit and pout and let their teammates and themselves down by not showing up the next game or two," he continued.

The Legion spokesman also added, "This type of boy doesn't want to play baseball and in general is not a ball player. Northbrook has 4 players on their team, these boys only play in practice games; there is no way they can play Legion ball this year. But they are out to every game on the bench. They are proud to be on a Legion team and in uniform."

"Evanston's boys took up a collection amongst themselves to pay for bats and balls as Evanston had no sponsor when they started," he also emphasized, "These boys wanted to play ball that badly!"

Mr. Jenkins concluded, "I want to thank my coaching staff, Don Root, P.D.C., and Dick Mendels for their time in working with the team. I look forward to a good 1972 season as Legion games will be played on Tuesdays, Thursdays and Sundays, giving high school boys the chance to play both Summer League ball at the schools and Legion ball."

street now has. Down the street Norbert's Nursery still has what Nick Blase called a 'temporary' metal addition to its building. Blase told The Eagle last year it would only be there for 1 year, but now the year is up Blase has advised the owner the village does not want to get involved in the matter, and suggests interested parties contact their lawyers for civil action. Yet, it was Blase who said the law would be strictly enforced (the building code allows such a structure for 1 year). Obviously, if the laws of the town are not enforced the state's attorney is supposed to take action. But the political hockey surrounding these machinations make this an unlikely action.

Chuck Barbaglia and the Niles Chamber of Commerce should get a round of acclaim for the excellent directory which has recently been mailed to all Nilesites. The effort is great and all those concerned deserve much thanks. A letter to the editor today acknowledges this recognition. Niles Chamber, while very active

the village will have to weigh. Once Niles joins in the district it cannot withdraw from it unless the district dissolves. While there would be no tax assessment without a referendum once the money commitment is made the member communities would have to assume the liability of the tax.

In citing future transportation plans in Chicagoland, Smith said this district would be a sub-regional district of the greater Chicagoland and northern Indiana area. The 6 county area may one day have one district. However, Smith pointed out our area could not afford to wait until the entire area district was created. He said the present bus companies might "long be gone" and the re-creation of bus companies would be costly.

Other points discussed at the meeting concerning transportation included: United Motor Coach Co. lost \$15,000 for the first 6 months of this year compared to \$71,000 last year; Niles benefits in joining the district would be improved schedules as well as co-ordinated schedules and routes between different modes of transportation; a preliminary study shows Niles has about 200 passenger trips a day on buses and it was estimated trips would increase to 1400 daily; percentage-wise Niles would gain the most in improved scheduling.

Barb Murphy, Niles transportation head, told The Eagle one of Niles problems is unlike the north shore communities Niles uses less public transportation. Fewer Nilesites use the trains into the loop than its north shore neighbors. And because of the location of towns contiguous to the railroads these communities are the more anxious to join in this district.

While Niles will also consider joining with northwest suburbs Mayor Smith pointed out their study has been going on for 5 or 6 years while the northwest study group is only now being initiated. However, attorney Schwartz agreed with Tr. Gruenwald, who said it might be more feasible if the north and northwest districts jointly formed one district. However, the likelihood of this happening in the near future is unlikely, and the north shore communities are likely to pursue its own district. Communities included in the district are: Evanston, Glenview, Glenview, Golf, Highland Park, Kenilworth, Lake Forest, Morton Grove, Niles, Northbrook, Northfield, Skokie, Wilmette and Winnetka.

In other actions Tuesday night Niles firefighter Norbert Ludkowski received the International Benjamin Franklin Fire Service Award. Given annually to 12 firefighters internationally, it is given for professionalism, dedication to duty and heroic action.

On January 28, 1969 Ludkowski crawled into a smoke-filled bedroom and rescued a Mrs. Anders, 7134 Main Street, Niles. After dragging her from the room he administered mouth-to-mouth resuscitation to the unconscious woman. Mrs. Anders recovered and Lutheran Hospital officials attributed Ludkowski's actions as saving Mrs. Anders' life.

In still other actions Niles officials unanimously turned down a request for an incinerator for Raymond Foods, 7540 Croname Road, Niles previously rejected a similar request from K Mart on Dempster Street and Mayor Blase implied it would be inconsistent to allow 1 company to have one but not the other.

with its fine 4th of July program, nevertheless is in need of a money transfusion. In addition to a contribution from those who feel the directory merits a fee, it would behoove all local businessmen to come forward and join the Chamber. In Morton Grove, an effort is being made to revive the group there, and in Wheeling, the lack of support there indicates the activities of such groups are at best tenuous. Since their contribution to their communities is important, it would seem all businessmen would aid in keeping these groups alive.

Another letter to the editor comes from Edna Walger, who is now living in Texas. Edna was in the center of the action here, and sounds a bit wistful. We're sure it must be different to leave a community in which you've been so much a part of. Quite likely no town is quite the same as the one you first identify with. While in a different vein, Edna was a mover in the tradition of the Bachers, and it was these people who made Niles into the community it now is.

Pack 45

The monthly meeting of Cub Pack 45, Oak school, was conducted on Thursday, March 25. Colors were presented by Den 7, and all the subgroups were treated with a movie depicting the Klondike Derby at Camp Dan Beard. This activity includes both the Boy Scouts of Troop 45 and the Webelos of Pack 45 and it involves competition based on a variety of skills learned through scouting.

The following boys were awarded recognition for their achievements during the current month: Den 1: Robert Fressney - Silver Arrow, Den 4: Gary D'Ascanio - Wolf; David Helmink - Wolf, Gold Arrow; Richard Rinka - Wolf; Robin Klein - Silver Arrow; Carl Steinke - Silver Arrow. Dist. 207 Educational Fund Referendum Oct. 9

On Oct. 9, voters of Maine Township will be asked to approve a 3 1/2% increase in the educational fund tax levy to help relieve the serious financial crisis facing the high school district. The referendum date and the amount of the increase was voted unanimously by the Maine Township High School Board of Education at a meeting Monday evening, July 19, at Maine East high school.

Plagued with a current deficit of more than \$3,000,000 which will soar to about \$4,000,000 by June of 1972, and with little likelihood of additional revenue from government sources, Board members stated they had no choice but to appeal to the citizens of the district for a tax levy increase. This will raise the educational fund levy to \$2 bringing the school district an annual \$2,500,000 in additional revenue.

"The school district's bleak financial situation that I spoke about at the April meeting has steadily worsened," stated John L. Means, Board member and

chairman of the Finance committee. "We have held off setting a referendum date, hoping that in some way we might obtain more money through increased per pupil state aid. However, we must now face the fact that we will be receiving less money from that source instead of more. This adds to our burden of course."

"While the administration has already cut more than \$200,000 from our budget, this is far from enough. With the cost of living rising 15.6% since our last referendum, and with educational costs continuing to spiral upward, there is no way we can keep this school district financially solvent except to appeal to the voters to approve an increase in the educational fund levy."

Means continued, "Those of us on this Board must wear two hats. As taxpayers, naturally we do not relish the idea of our taxes being raised. Still as members of the Board of Education" is one of the finest school systems in the country, we realize what a tragedy it

would be if we were forced to make cuts that would in any way destroy that system. Yet we cannot maintain our current school program unless more revenue is forthcoming.

Wesley Hartzell, Niles Board member and chairman of its Public Relations Committee, pointed out that the assessed valuation per pupil for the Maine Township High School District is much lower than that for many neighboring districts. "This places a heavy burden on the taxpayers of this community in providing and paying for good schooling for their children," he said. "It also handicaps our school district in trying to compete with neighboring high school districts in attracting and keeping good teachers."

At Monday night's meeting, Board members emphasized that, if approved, the 3 1/2% increase in the educational fund levy would reduce but not wipe out the district's sizeable debt. "It is going to be very hard to make this 3 1/2% stretch to meet our needs for any length of time," remarked Morton Grove Board member, Leonard R. Grazian. "It can only be looked upon as a 'holding action' until in some way we are able to obtain additional money from the State of Illinois."

District 207's cumulative deficit of more than \$3,000,000 is due largely to inflation, salary increases over the years, the opening of the district's fourth high school, Maine North, and the steady population growth in this area. The Maine High schools expect an enrollment of 11,800 students this fall, an increase of 500 over the past school year.

Michael Bartos, chairman of the Board's Education Committee, in referring to changes that will be necessary in the district's instructional program should the increase be voted down, said, "While none of us want to change any part of our excellent program, we are fully aware of what must be done if the referendum fails. We have already asked the administration to explore ways to make further and more drastic cuts if we do not receive added revenue. We are in deficit financing which can only get worse if allowed to continue under the present conditions."

Dist. 67 Teachers' Salary Agreement

The Board of Education of School District 67 has arrived at a new salary agreement with its teachers. A negotiation committee, representing the Golf Teachers Association, has been meeting with Board representatives since late March.

Under the current two year agreement between the Association and the Board, an improved salary schedule was the only topic under consideration. For the 1971-72 school year the beginning salary for a teacher with a Bachelor's degree will be increased from the present \$7600 to \$7900. That lane increases to \$11,613 maximum in 13 steps.

The Master's degree lane starts at \$9,085 and increases to \$15,948 in 26 steps, top salary in Lane VI (MA plus 24

hours) is \$16,748. The current step increase index and six lane schedule will be maintained. In agreeing unanimously to the revision in beginning salary, the teachers expressed a desire to preserve the present educational standards of the District.
