Mid-Summer Potpourri . . .

Carol Verson, a lady who uses a term like "male chauvinist" when referring to Niles Mayor, led the drive opposing a shopping center on Fink's Links property on Golf Road.

Carol, bright and charming, as all these new-breed Woman Libs seem to be, had more than 1,000 brochures handed out in the Niles-Morton Grove border territory, in and around the proposed center. Despite her efforts only about 20 people turned out at Niles Zoning Board meeting a couple of weeks ago. Her cause suffered by the small turn-out, and the landowner was un-animously granted his request for the center, receiving the "highest and best use" for his property.

Mrs. Verson, a multi-talented Nilesite, who has tripped over the footlites of many theatres thruout the Chicagoland-area, said the Mayor noted the small turn-out of those in opposition to the center. She said he pointed to similar oppositions to commercial zoning often brings out 150 people or more. At that point in our tale about a gal fighting the system, she used the phrase, "male chauvinist" to describe Niles village president.

At the time of our conversation with this young lady, who has given Shakespearean performances in

A bid of \$236,236 from the Bulley and Andrews Company for enclosing the Ballard Park ice rink was approved Tuesday night by Niles Park Board.

The construction of the enclosure is expected to begin August 7 and is scheduled to be completed within 140 days.

The money for this improvement comes from \$250,000 in revenue bonds, which were recently received from the Bank of Niles. Previously, controversy centered around the bonds, which were alleged to be approved verbally, but were subsequently not approved, after park officials stated the park district was having financial difficulties. But after many months, which showed the district was fiscally sound,

the bonds were approved, and the enclosure will now be undertaken.

In addition to the rink becoming an indoor rink it will also alleviate the noise problem, which had neighbors in the Ballard area up in arms last year. It is likely to also increase the amount of hours the rink can be used, which will mean additional revenue. Already, Loyola University's ice hockey team's schedule was approved to begin November 19. Games against major universities (Illinois, Purdue, Iowa State, Northwestern, Marquette, Northern Illinois and Illinois, Circle Campus) are scheduled to play at the rink.

In other actions Tuesday night the enclosure will now be undertaken.

**Fire Prevention Award**

For the 16th time since 1953, the Niles Fire Department has been acclaimed nationally as a leader in the fire prevention field.

In the latest action, Gov. Richard B. Ogilvie presented a plaque awarding Niles an honorable mention in both statewide and its population class nationwide to Capt. Gordon Michalsen, who heads up the department's fire prevention bureau.

The latest award was made by Gov. Ogilvie on behalf of the National Fire Protection Assoc-

departments in an eight-county metropolitan area. Included in the awards are 13 first place honors in its population class and two grand awards, in 1959 and 1966, for all population classes.

Fire Chief Albert L. Hoelbi said that the departments ceaseless efforts in "hammering home" the fire prevention message to home, schools and industry, is what has enabled the department to make Niles a safer community in which to live and work.

## Homeowners Grateful for Assistance

Dear Editor,  
 Recently a new organization was formed in Niles called the Golden Triangle Homeowner's Association. At this time we would like to publicly thank some of the people who helped us get our association started.  
 One individual, in particular, who gave very graciously of his time and knowledge and without whom we would never have made it, is Ben Sosnowski. We will always be indebted to Ben.  
 The Niles Park District has not only supplied us with a meeting place but even allowed us to use their tables and chairs for our block party. We are indeed very fortunate to have the Recreation Center located within our triangle. The commissioners and Helmut Dressler gave us personal support by attending our first social event. We cannot thank them enough for all they have done.  
 The Mayor's office also assisted us with valuable information and advice. We thank them for never being too busy to answer our questions.  
 These are but a few of the many who unselfishly gave of their time to a new organization struggling for a beginning. We only hope that we will become an asset to our village and in particular to our neighbors in the triangle.

Sincerely,  
 Millie Jones  
 President  
 Golden Triangle Homeowner's Assoc.

## Porcelli Named Columbus Day Chairman

John C. Porcelli, Vice President Federal Tool & Plastics has been named General Chairman of the 1972 Columbus Day Parade to be held on State Street, Chicago, under the sponsorship of the Joint Civic Committee of Italian-Americans.  
 The announcement came at the recent meeting of the JCCIA and was made by President Charles Porcelli, who commented that "When you give an important job to a busy man, he gets the job well done, and we want to continue the tradition set by previous Chairmen."

Charles Porcelli also announced the appointment of Congressman Frank Annunzio as Grand Marshal of the parade and Anthony Fornelli, as executive assistant to the parade chairman.  
 John C. Porcelli is the personification of the American story that determination and hard work will bring you to the top of the ladder. Currently John is Midwest Vice President, and member of the Board of Directors of VCA Corporation, with the Midwest branch being responsible for over 30 million dollars in sales and employing over 1,800 persons. The Federal Tool & Plastics Plant is located in Lincolnwood.  
 In 1946 after his discharge from service John helped form the Bernard Edward Co., serving with the firm, which manufactured housewares and drapery items, for over 6 years. He then co-founded the Polymold Plastics Co. in 1952 and then joined with VCA in 1965.

John Porcelli was also active in his industry and served as former president and founder of the Midwest Plastic Molders Association, and past president of the Society of Plastic Engineers. He is also a lifetime member of the Joint Civic Committee of Italian-Americans and a member of the Board of Trustees.

### Birchers - 'Political' and 'Controversial' ?

Dear Editor:  
 Recently the Niles Days Committee issued a press release which appeared in several local papers inviting fraternal, cultural, civic, business and religious organizations to participate in the Niles Day Parade on July 23.  
 The Niles Chapter of the John Birch Society, a civic body, took them up on the offer. We were turned down cold with charges being leveled against us that we are "political" and "controversial."  
 We certainly agree that it is a God given right for any private organization, such as the Niles Day Committee, to exclude whomever they want for any reason, but since we have nothing to hide and we believe in using truth as a weapon, we would like to take this opportunity to publicly answer these charges.  
 The John Birch Society is not

and never has been a political body. We have never backed a political candidate or party. To do so would tear our organization apart, as it has so many others.  
 And so we ask: Was it controversial to post those blue and white Support Your Local Police bumper stickers all over town last year? Is it controversial for one Bircher after another to operate undercover for the FBI at the daily risk of their lives to help expose the domestic communist menace? Is it controversial to want a stop to aid and trade (on credit or otherwise) with enemies of our country who daily spit in our faces and promise to bury us and who use this aid and comfort to perpetuate their slave states and kill Americans all over the world? Was it controversial to ask ten years ago and to keep hammering ever since: Why not Victory in Vietnam? Is this still the Land of

the Free and the Home of the Brave? Is it controversial to love this land of ours and to promote by precept, example and education, the cause of Americanism? Is our slogan Less Government, More Responsibility, and with God's Help a Better World, controversial? Is it controversial to oppose the beginning of Federal population control and the takeover by central authority of our once proud public education systems? Shades of George Orwell!  
 Our earnest and humble thanks to your paper for printing this letter and our special thanks to Mrs. Veda Kaufman, Niles Days Committee Parade Marshal for standing up for us and being a kind and gracious lady at every turn.  
 For God, Family & Country,

Flynn Endorsed by IVI

Thomas W. Flynn, the Democratic Senatorial Candidate in the 4th District, received the endorsement of the "Independent Voters of Illinois (IVI) on July 20. His endorsement was voted upon at the same meeting that reversed the IVI endorsement of Governor Ogilvie. Thus, Tom Flynn joins such Democratic and Republican notables as Dan Walker, Aaron Jaffe and Bernard Carey as being recognized as preferred and qualified candidates for office. Flynn's endorsement was completely unqualified and was a total preference over his Republican opponent.

Flynn was quoted as saying, "The IVI endorsement clearly shows my appeal to the Independents, Independent Democrats and Independent Republicans of the 4th Senatorial District. My endorsement was based upon a lengthy personal interview by the IVI Committee of the 4th District. This interview was supplemented by their reading of my 71 Press Releases and Letters to the Editors that I have sent out since my nomination for State Senator in December, 1971. I believe that they were impressed with the fact that I have written and spoken out on just about every important issue related to the 4th District as well as on issues that are of general importance."

## What Is Most Important to Savers?

By Henry L. Ford  
Executive Vice President  
NILES SAVINGS

What investment values are considered most important by people who save?

This is a matter of great interest to those of us in the thrift business. Our curiosity was satisfied by several questions in a national survey to acquire information as to what investment characteristics savers considered most important.

This is how one of the questions was phrased:

"Which of these is very important to you and which is not too important? How about high rate of return (interest, dividends, profit)? How about safety, absence of risk? How about capital gains, an increase in market value over time?"

Safety was the only investment value that the majority of families agreed upon as "very important." Sixty per cent of all families thought that safety of their investments was very important. But the other mentioned characteristics—rate of return, liquidity, or capital gains—each found support as "very important" among only one-fourth of all families.

Only half of all income families were willing to class these last three as "very important" or even "somewhat important," whereas 83 per cent—or better than four of every five families—considered safety as being either very important or somewhat important.

Attitudes toward interest rates are further reflected in the response to the question, "Do you happen to know what happened to interest rates paid on savings accounts during the past year or two?"

One of every five families didn't know what happened to interest rates. Three of every five said they went up. One of every five said either they stayed the same or went down.

Another question that intrigues financial executives is what makes people save. Insights into this aspect of human motivation came in reply to the interviewer's approach: "Now I have some questions about saving. Different people have different reasons for saving. In your case, what are the main purposes of saving?"

Leading all other reasons by a significant margin was the provision for uncertainties of the future—emergencies, illness, unemployment. Almost half of all families listed this as a main purpose of saving. The next reason, longer-range in purpose, claimed almost one-third of all families—provision for retirement, old age, burial. One of every five families gave children's education as a main purpose of saving.

The only other motivations for saving that claimed any significant minority of families were buying a house (8 per cent) and buying durables (6 per cent).

## MG Fire Dept. Aids Scout

Shown above with Chief Christ Hildebrandt, of the Morton Grove Fire Department is Life Scout Candidate James Hansen, 8138 Central st., Morton Grove. To aid him in receiving his Firemanship Merit Badge, Scout Hansen recently spent several days working in the Morton Grove Fire Stations with the men on duty to thoroughly acquaint himself with the duties and responsibilities which a firefighter must take upon himself. During his days with the Department Scout Hansen assisted with the general housekeeping chores, ate meals with the men, observed their drill periods and was shown how to do many of the jobs which the firefighters must accomplish at the scene of a fire, made several inspections of Village mercantile establishments with members of the Bureau of Fire Prevention and rode with the men and assisted them in the Hydrant Testing Program which the Department is currently involved in. Scout Hansen not only learned much himself, but according to Chief Hildebrandt and many of the men with whom he worked, he was a credit to Scouting by his friendly manner and the way he was willing to pitch in and help with any chore and was extremely eager to learn anything that one of the men had the time to show him.

### Auto Pollution Checkup at Golf Mill

North suburban motorists, concerned about ways to fight air pollution will be offered free auto pollution checkups at the Golf Mill Shopping center, Niles, Tuesday through Saturday, Aug. 15 - 19. Hours will be from 10 a.m. - 5 p.m. daily. These tests, conducted by the Chicago Lung Association (formerly the Tuberculosis Institute of Chicago and Cook County), take just a few minutes and will let a motorist know how his car rates as a polluter. It also tells if the car meets the Chicago auto emission standards which will go into effect next year.

"A polluting car is a threat to everyone's health," stated John E. Egdorf, executive director of the Chicago Lung Association. "This is why we must take steps as individuals to make sure our cars are not causing excessive pollution. The only way to make sure is to have it tested regularly and kept in top operating condition."

The electronic infra-red exhaust emission analyzer to be used in the tests at Golf Mill measures a car's output of carbon monoxide and unburned hydrocarbons - two of the main constituents of air pollution caused by automotive transportation.

The owner of each car tested will get a written report on his car's performance along with a list of suggestions on what is needed to bring it within compliance, if it does not pass. Christmas Seals provide the funds for this service as part of the Chicago Lung Association's program to protect the breathing health of Chicago area residents.

**VACATIONS** . . . what most people need after they take one. Scottish vacation. Stay at home and let your mind wander. Las Vegas Vacation . . . Where you can get tanned and faked at the same time.

A Nile's husband who was painting his house said to a neighbor husband who was washing windows: "Gee, you're lucky, only getting a two-week vacation — I get three!"

I suppose you could describe a vacation folder as a trip tease. A vacation often consists of spending in two weeks what it took you fifty weeks to earn.

For a vacation of adventure — how about Ireland this year? Lots of us save our money for "rainy" days that almost always come during our vacation.

**VACATION ADVICE FOR SENIOR CITIZENS:** Every time you feel the need for exercise, lie down and rest until the feeling goes away.

August is now the top month for vacations. For August is a beautiful vacation month — except for those who took theirs in July. And July is a beautiful vacation month, too — except for those who took theirs in June.

One thing people learn while taking a vacation is where to stay away from next year.

Leo Durocher, I understand, is taking his "vacation" at Wrigley field watching the Cubs do what is laughingly referred to, as playing ball.

President Richard Nixon is planning to take his vacation in Miami the latter part of this month. The president will have a few days of quiet relaxation among friends.

A friend of mine who just returned from her vacation asked me, "Do you have anything that's good for mosquito bites on top of poison ivy over sunburn?"

You can stay right here in Niles and have a nice vacation. For instance, want the atmosphere of old Mexico? Just drop into Los Amigos, 9000 N. Milwaukee Ave. Once inside you're in Mexico. You can listen to the Trio Voces De America or dance to a fabulous Latin Combo. The authentic Mexican and Spanish dimers will delight you and you can have an enchanting evening south of the border right here in Niles.

Or use your imagination by reading travel folders from all parts of the world by visiting the Niles Public Library. Better still select a good book and go home and relax on your vacation by sitting on the front porch reading "an sipping lemonade . . .

A vacation is a short period of time during which you go broke trying to impress strangers that you can't.

If you're planning to stay at home during your vacation, why not dine out at some of our fine area restaurants. Take the wife and family to Jake's Restaurant, 7740 Milwaukee Ave., Niles. JAKE'S offers high quality foods at very reasonable prices . . . and their budget specials will save you plenty of your hard-earned vacation money.

Vacations out-of-town often consist of two weeks of playing and fifty of paying.

If during your vacation you're hungry for good food and thirsty for a good time drop into the GROUND ROUND, Dempster & Waukegan, Morton Grove, and have both. You can get free peanuts and beer by the over flowing pitcher for only \$1.95 and then you can tie into a half pound of tender fresh ground beef with fries and creamy cole slaw for just \$1.60 . . .

During your stay-at-home vacation you can take in some good movies at the area theatres. The Golf Mill theatre, 9200 Milwaukee Ave., in Niles features first run movies in both their theatres No. 1 and 2. They have free coffee and T.V. in the lobby and a wide assortment of candies and buttered pop corn. And you can relax in their cool air-conditioned theatres in their comfortable seats.

If you're taking your vacation toward the end of this month be sure to drop into the brand new BEAM'N & BARREL, 7136 Milwaukee Ave., Niles. This is really going to be a new kind of "fun" place. Watch for the grand opening announcement of the all new BEAM'N & BARREL in this newspaper soon!

Reno of ALIPIO'S RESTAURANT, 6474 N. Milwaukee Ave., Chicago, says: "The shortest distance between two points is the beginning to the end of a vacation."

Do you plan to-house-or-apartment-hunt on your vacation? Maybe here's a better idea. You can enjoy luxurious hotel living for less than you can rent a one bedroom apartment. Yes, at ED ROBERTS COLONIAL HOTEL, 9101 Waukegan Rd., Morton Grove you can get low permanent guest rates and they include maid service every day and you save on utility costs, too. Phone 966-9600 for their low monthly rates.

My definition of a vacation? "It's a sunburn at premium prices."

## 'Company' Opening at Forum Theater

## Hathaway-Clayton at Mill Run

Donny Hathaway, who has recently emerged on the nation's music scene with great intensity, is the headline attraction at the Mill Run Theater on Friday, Aug. 11 and Saturday, Aug. 12. Accompanying him to the Niles-based theater-in-the-round is another new and upcoming major talent by the name of Merry Clayton.

Although he is only in his mid-twenties, Donny Hathaway has already been recognized as an accomplished pianist-composer - arranger - singer. His climb up the musical ladder of success started in 1968 when he was an arranger for the famed Impressions. Since that time, he has become one of the most sought after musicians and arrangers in the record industry. Recently, he has joined forces with singer Roberta Flack and has produced such hit recordings as "You've Got A Friend" and "Where Is Love?"

Merry Clayton, who was known for a number of years as a background vocalist for the Rolling Stones, Joe Cocker, Leon Russell, and many, many others, has recently come into her own with two solo records to her credit and highly successful appearances at the 1970 Celebration of Life Festival in Monterey, the Bitter End

## Marcheschi Named Candy Day Chairman

For the fourth consecutive year, the challenge of establishing a new record has been accepted by A. C. "Ang" Marcheschi, 7943 N. Nora, Niles. Marcheschi will try to surpass his own records as State Chairman of the Lions Candy Day drive on Oct. 6. The record goal set is \$850,000 to help the blind and visually handicapped. Besides the state-wide chairmanship, Marcheschi will assume a dual chairmanship in the campaign by also heading up the drive for clubs in District 1-F, District 1-F encompasses clubs in all of Lake County and northern portions of Cook County. Last year the District's clubs again achieved 100 per cent participation. The Lions State Council of Governors appointed Marcheschi to tribute to his proven record of breaking old records. He is Chairman of the Illinois Lions Blind Activities Committee with headquarters at 1515 N. Harlem, Oak Park. A member of the Niles Lions Club, Marcheschi has served as Club President and as District Governor 1-F.

## Clinical Training Program

Sister Aurella, C.R., Supervisor of Resurrection hospital's Laboratory Department, demonstrates the Coulter S Blood Counting machine in the hospital's Hematology Section to medical laboratory technology students from Oakton Community college. The students are the first from the college to participate in the one-year clinical training program under a new affiliation between Resurrection hospital and Oakton Community college. From L: Evelyn Sands of Chicago, Coordinator of the hospital laboratory; Kathy Stuercke of Morton Grove, Oakton student; Nancy Wilson of Des Plaines, Coordinator of the clinical training program for Oakton Community college; Virginia Phillips of Deerfield, Oakton student; and Lynn Katz of Morton Grove, Oakton student.

## Exchange Student Speaks to Rotary

Lynn Koester of Morton Grove recently spoke to the Morton Grove Rotary club concerning her year's stay in Salto Uruguay. Miss Koester was sponsored by the Morton Grove Rotary club as part of an international student exchange program to promote understanding between peoples of different nations.

Lynn has been a student at Maine East but she completed her senior year and graduated from the high school in Salto. Lynn explained that she stayed with a private family in Uruguay and that this must be one of her greatest experiences in life to date. She temporarily became a member of this South American family sharing their chores, shopping and living their everyday life, eating their food and being a part of their joys and sorrows.

In her speech to the Rotary, Lynn displayed several artifacts brought back from Uruguay which, as she states, "will live forever in my memory of this most unusual year in a foreign land."

Miss Koester said that Salto is the second largest city in Uruguay. Most of the homes within the city proper have no front yards and no setback from the sidewalk and street but all homes had a walled in rear courtyard that was quite large, landscaped and private. She also pointed out that high school in South America is much more rigorous than in the United States. The hours spent in school are longer plus the student studies many more subjects in a year's curriculum. She carried a total of over 15 courses.

"The people of Salto, a typical city of Uruguay, live a simpler life in terms of material wealth but community and family ties are close knit and the people are happy," said Lynn. She continued, "In a city of 60,000 people you quickly get to know many more individuals than in a typical village like Morton Grove and Glenview in the United States." There is somewhat a distorted view about America, according to Miss Koester, mainly because of a lack of information rather than interpretation of too much information. She is hoping that her year's stay in Uruguay has brought about good feelings and pleasant memories for the natives of Salto, the same type of feelings that she carries with her to the United States.

Lynn thanked the Rotary club of Morton Grove for making her foreign exchange student trip such an adventure.

## Pony Grad

Standings as of July 27

Team	Pts.
Golf Mill Chrysler Red Legs	21
NBL Red Sox	20
Lums Giants	17
NBL Senators	17
Artway Mfg. Astros	16
Artistic Trophy Pirates	15
Northwest Honda Twins	11

The 1st place Red Legs were dumped again, this time by the Lums Giants by a score of 3 to 1, but continue to hang on to the first place crown. This game was a real pitchers duel; DeLorenzo, Czernak and Keener at the mound for the Golf Mill Chrysler Red Legs and Allibone and Paul for the Lums Giants. It was a costly error in the 7th by the 2nd baseman that allowed 2 runs to score. The Red Legs out-hit the Giants but were still unable to find the right combination to pull off a win. Rich Paul held the Red Legs at bay for the final 4 innings, allowing but 2 hits, and crushed any hopes the Red's had of winning at least 1 game from the unbelievable Giants.

The Artistic Trophy Pirates won a see-saw game against the NBL Senators in which neither team could score more than 1 run at a time. Marino of the Pirates was 2 for 3 at the bat and paced the attack for his team. Grubba's double and Lesniak's hit in the 5th provided the winning margin. Final of this game was 4 to 3.

The Northwest Honda Twins won a wild game 10 to 8 over the NBL Red Sox. Steve Chamness was the best pitcher on the mound that night. Eillin and L. Cappozzoli and Stenger had 2

hits each for the Twins. Dennis McInerney hit a long 3 base hit for the Sox.  
The Red Legs bounced back to upend the Artway Mfg. Astros. It was a real pitchers duel with DeLorenzo pitching a whale of a ballgame striking out 7 in 4 innings and allowing but 2 hits and no runs. Czernak followed with 3 strikeouts, 1 hit, but allowing 3 walks in 2 innings. The Red Legs had a real threat in the top of the 7th with men on 2nd & 3rd with 1 out. The next batter foul tipped a ball, the bat striking the catcher in the catcher's mask knocking the bat out of the batter's hand. The umpire ruled the batter out, batter interference with catcher, thus eliminating the tying and winning run. McInerney and Peterson teamed up to limit the Red Legs to 5 hits, striking out 6 and allowing but 3 walks.

Excellent pitching by Marc Elatkin for 4 innings in a game against the Senators was a big factor in the 9 to 0 win for the Artway Mfg. Astros. Marc also helped his own cause by cleaning the bases with a long double. Ron Salata also pitched good ball that night by pitching shut-out baseball after relieving Elatkin on the mound.

In a 3 to 1 victory over the Artistic Trophy Pirates, the NBL Red Sox had 2 strong pitchers on the mound. Ed Ahrens had 4 innings of solid pitching and Todd Peterson allowed no runs. John Buessee had 2 clutch hits driving in important runs. Also hitting for the Sox were Zorzius, Lundius, Mayean and Foltz.  
A forfeit by the Twins being shorthanded gave the Astros another win. Also forfeiting a game was the Lums Giants to the NBL Red Sox. A double forfeit for the N.W. Honda Twins and the Lums Giants, gave both teams a loss.

### Family Enrichment

(By Larry Renetzky)

Do you have difficulty feeling like you are "really" a woman, or a man? One thing both sexes have in common is the great need to have reinforced that very much they are a real woman, or a man.

I'm not speaking here of a biological confirmation as much as I am a psychological reassurance.

Think back ladies the last time that you fished compliments out of your husband, boy friend or father that made you feel all the more feminine, like: "Do you think I'm pretty honey? You don't really think I'm as pretty as your old girl friend do you? You like her wiggle more than mine, don't you? Just hold me and tell me that you love me, that I'm all the woman you ever wanted. You don't notice me like you used to -- something wrong with the essentials, huh? You used to want to go to bed early, not anymore, what's wrong?"

These expressions are just a few of the ways a woman tries to get you men in her life to tell her that she is lovely, desirable, beautiful, sweet, irresistible, loved, wanted, "very much a woman."

How about you men? You say, not me, I never fish for compliments. I don't need to be told I am masculine, etc. Don't kid yourself men. We all need this at times. Have you ever said or done anything like this: "Boy, just look at that chest honey. How about those muscles sweetheart, pretty good, huh? You know, I think I'm more handsome today than I was ten years ago, don't you too, sweetie? Come here you sweet thing, let your sugardaddy hold you and/or make love to you. He or she won't get away with it -- I'll show them who the best man is."

Men, you could add many more to the above, and I'm sure at least you ladies could add some dillies. What it boils down to is that both sexes have a need of being reassured and reinforced about their femininity or their masculinity. Some women and men need this in greater degree than others, but I believe most everyone needs it, especially at certain times more than others. This is particularly true with most of us when our femininity or masculinity is threatened some way. This is particularly true with men when their ego has been crushed or stepped on -- especially when a woman has done it.

Also, note the way we end our questions and searchings like above questions -- honey, sweetie, love, etc. We want to insure a positive reinforcing answer.

Wives, husbands, boyfriends, girlfriends, sweethearts, fiancées, if you want to insure the love of your partner, just try reinforcing and/or substantiating a good feeling about your partner's feminine or masculine looks, image, actions and overall impression. It sort of works like this: whenever we feel more secure about ourselves, particularly our femininity or masculinity, we usually are able to be more relaxed, spontaneous and fun to be with. Try it and you might be pleasantly surprised with your partner's response. Don't be surprised if they want to love you to death. Can you think of a better way to die -- Hal All joking aside -- "Try it, you'll like it."

What do you think about the above article? Any concerns or problems that you would like some additional insight on? Write or call Niles Family Service, 251 Lawrencewood, Niles, Illinois 60648 - phone: 966-1640. Your name will be kept confidential.

director Helmut Dressler had a disagreement with Commissioners Keener and Leske regarding bids for park buying. It began when only two bids for fences were received for the Washington Terrace Park, the low bid being \$1,084. After approving a second fence for the Kirk Lane Park, Leske said the entire fence purchase should be re-bid, since two bids were inadequate and he felt a lower price could be received. Dressler contended Niles local park ordinance does not require a bid under \$2,500 which conforms with state statutes. Park attorney Gabe Barrafato said local ordinance contends sealed bids should be for \$1,500 or more but Dressler said the ordinance was amended. When Leske said, "Only a select few get the bids" Dressler began bickering with park board members. He referred to this bidding under \$2,500 as "nit-picking" and said the financial committee, which is Leske's committee, is delinquent in not holding meetings to resolve these problems. Dressler then said if the park board desired to lower the minimum figure for bidding they should do it, and not place Dressler in this untenable position. Keener criticized Dressler saying, "Whenever you disagree you want to change everything." When Dressler noted new bids would take six weeks before installation was completed, and the delay would cause a safety problem in the Washington Terrace Park area. But commissioners approved the \$1,500 figure for accepting sealed bids and new bids will now be received for the fencing.

He said, "If either of our plans is not accepted I request that you at least consider the Plan Commission's recommendation." Mr. Lutz of the Plan Commission commended Mr. Shaf and Mr. Marks for their conduct at the hearings which he said was "Above Reproach."

Bob Zaruba speaking for the residents said, "We don't want the zoning changed to grant the Special Use. He said he felt that Mr. Shaf was a speculator as far as this property was concerned. John Hilkin said that since there were so many legal technicalities involved he moved to defer any decision until all trustees were present, which would be the Aug. 29 meeting.

The board agreed, Martin Ashman questioned the property ownership since it was brought up by a citizen. Mr. Shaf agreed to close the remainder of the board tract and present it to the board at the next meeting.

how he should hear or see, he rarely complains. Parents may not be able to detect hearing or visual problems because the ears and eyes appear to be normal. Thus it is very wise to have the hearing and vision screened annually during the preschool years. The Morton Grove Park District and Slides invites all parents of preschoolers to take advantage of this free hearing and vision screening program.

local schools here, we were still recuperating from the Democratic convention, in which lovely ladies like Shirley MacLaine, Gloria Steinem, and Bella-whats-her-name seemed to be ever-present during that four-night chaos. Because these gals are nice to look at, even thru tinted glasses, their quest for their gender's rightful place in the sun, is double-reason to listen closely to them. Likewise, when our local answer to Ms. Steinem, Ms. Verson, uses terms like "male chauvinist," we perk up and pay close attention. And matter-of-fact she said she used the term to describe the village president, because she said he doesn't seem to listen to women, or take them seriously.

We had mentioned once before another kind of gal, Millie Jones, creator and motor behind the newly-formed Golden Triangle Homeowners Association, successfully led a fight to block another tract, restaurant being built on Milwaukee Avenue, roughly across the street from the present taco restaurant, near Niles recreation center-swimming pool complex, Millie, a gal with an equal amount of pizzazz as Ms. Verson, rallied the surrounding neighbors in this area to get out to Board meetings, and wound up with over 100 dissidents, who successfully beat down the taco restaurant request.

If we might borrow a title from one of Ms. Verson's favorites, we must say, all this opposition might be classified as "Much Ado About Nothing." Because when the big boys want that zoning for their property, and are willing to take to the courts to get it, you can bet a fiver on the big boys, each and every time.

In years bygone when Niles was invaded by oil companies, who desired stations on every corner along major thoroughfares, whenever opposition came from the public bodies, the courts would overturn their decisions. This unending point for the "highest and best use" for the property, won out nearly every time, over local opposition, which cited traffic burdens, and concern for maintaining their residential areas.

of blood and that he then was very grateful for his participation in this program and the fact that it was turning out to be a success. Mr. Hilkin said he hopes for still greater participation and mentioned that the WBBM radio commented on the program here in Morton Grove.

While the cause always sounds hopeless, occasionally local opposition is sufficient to wear down the intentions of the developers. Thus, while the odds aren't favorable, nevertheless the Millie Jones-type victories are worthwhile to pursue.

The mention of the Women Libbers, and the gals who are women from LaMancha fighting their own windmills, brings to mind the year 1973 will be election year in our area. And since there are no ladies sitting on any of our village and park boards, it may be their time has come.

If we can be forgiven for a bit of a play on words, the rise of the other gender into public life is at hand, and the "voice of the girlie can be heard in the land."

On a much more important note, baseball fans might be interested in a Niles Little League play which happened between the Phillies and the Cardinals last week, which will have hot stovers debating all thru the winter months. With one out, the potential winning run on third and another man on first, the batter hit a fly ball to center-field which was caught for the second out. Both runners left for the next bases before the ball was caught. The throw came to first base and the runner coming down from second base was tagged out, but the runner from third had already crossed home plate which proved to be the winning run. The man tagged out came after the other runner had crossed the plate. Thus, the third out was made after the run scored. Because both men left their bases before the ball was caught a throw back to either base they had left and then tagging the base, would have erased the run scored. But because the man was tagged out near second for the third out, it nullified the throw back to one of the original bases. Ed Lesniak, who told us about the play, said after the third out there couldn't be a fourth out, and thus, the winning run crossed the plate, which resulted in knocking the lead team from its first place position. As Ed said, it could only happen in a Little League game.
