Leske, Jones top Park election Skaja, top Trustee vote-getter

A BLASE OF VICTORY

By Gary Goodfriend

The unchallenged Era of Challenge Party, led by Mayor Nicholas Blase was re-elected Tuesday to village offices by Niles residents in what Blase termed, "a tremendous vote of confidence."

Election leftovers . . .

Even though you're a Maine Township resident we're betting you had no idea you could vote for one township school trustee Saturday. Bill Graham was elected to this 6 year post at the only precinct in the district at Ballard school.

Graham, along with George Scharinghouse of Park Ridge and Ed Barans of Des Plaines are elected as representatives from Maine Township on alternate years to oversee our township high school district. They watch over the bonded indebtedness of the district, hold title on our behalf for schools in the high school district, and choose the banks where the school's moneys are deposited.

The trustee posts are the result of the archaic Illinois high school laws which date back 150 years. While the elected school boards do run the local school districts, still checks which have to be signed include one of the township trustees' signatures.

Saturday, if you chose to trudge over to the Ballard school, you could have voted for Graham. You didn't and we didn't and its likely Graham was elected for another 6 year term with less than 100 Maine Township residents casting a vote for him.

Legion secures carnival grounds

An important announcement was made this week by the Morton Grove American Legion Post #134. They have secured the use of the Ford property at Waukegan and Dempster for their yearly carnival.

Due to changing conditions and their former site being unavailable, the local Legion had contemplated using their own grounds. Not only would this have meant a smaller carnival, but

noise and traffic in the area would have disturbed adjacent homeowners.

Post Commander Frank Hilbert reports his carnival chairman, past commander Al Nehart, went to great lengths to obtain this spacious area which should see another fine, large presentation for the annual summer fun event which derives the majority of funds for the huge Legion budget.

District 70's 'Musical Potpourri'

Musical Potpourri is the theme of District 70's coming Spring Concert. The ingredients of the potpourri will include a variety of types of music played and sung by the District 70 musical organizations. About 300 youngsters will take part in one or more of the groups which include the Senior Band, Senior Orchestra, Junior High Chorus, Intermediate Chorus and the Stage Band.

The concert will be held at 8 p.m. at Park View school on May 2. Parents and friends of District 70 are cordially invited to attend. District 70 music teachers, Mrs. Elaine Clancy and Roger Palm review Spring Concert scores with junior high students, Charles Peterson and Marilyn Taldone.

Legion queen named

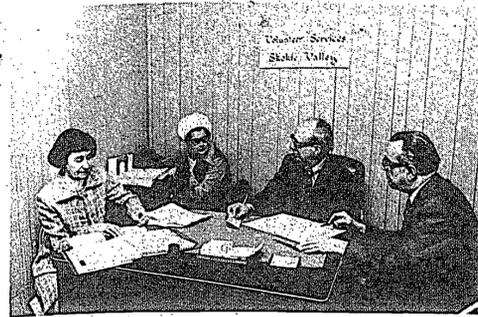

Robyn Anne Wallach, (L.), queen of Morton Grove Post #134 of the American Legion, was recently named 7th Dist. Legion contest winner. The resident of 8322 Central, poses with runner up, Suzanne Schulz, 5800 Oakton, also of Morton Grove. Both girls are 17 year old Niles West seniors. Miss Wallach, by now being chosen as the district queen, will compete in Cook County Legion competition. The ultimate winner

of that judging is the reigning beauty of the county-sponsored 4th of July Soldiers Field fireworks program. Robyn has been garnering prizes as she wins various level contests. The 7th District is composed of more than a dozen Legion Posts located on the north suburban and Chicago area. Miss Schulz will fill in for any queenly duties if the queen is unable to attend. Both received savings bonds from the Morton Grove Post; and Miss Wallach also was presented with a bond from the district.

Volunteer services of Skokie Valley

The Volunteer Services of Skokie Valley, a spanking-new program of the Skokie Valley Welfare Council, has been born. A need was determined for such a volunteer pool after much data received from social agencies, schools, and recreational services was compiled. It was learned there is indeed a gap existing in many of these organizations of "helping hands," even though the shortage may occur only seasonally in some operations.

A committee of 16 was formed through the efforts of Dr. Arthur Ryden, President of the Skokie Valley Welfare Council Board. Co-chairman of the group Gladys Guyton and Mrs. Pat Mathis, pointed out that the Volunteer Services was established to supplement but not supplant existing volunteer services.

The areas benefiting from these new services would be Golf, Lincolnwood, Niles, Morton Grove, and Skokie.

The Volunteer Services of Skokie Valley is where an individual interested in helping others can apply. For example, here are some of the needs a volunteer could fill: counsel on a telephone "hot line," provide transportation or visit an elderly person; help a handicapped youngster learn to swim; assist in a resale shop; be an aide in supervising emotionally disturbed children;

teach arts and crafts; be a big brother or sister to a lonely child.

If you would like more information, please telephone OR 4-2668 any Wednesday afternoon 12 to 3 p.m. or write to: Skokie Valley Welfare Council, 4017 Church st., Skokie, Ill. 60076, and send your name, address, and phone number.

Notre Dame fencing stars

The Chicagoland Open is an annual International tournament held in Chicago in March. This year it was of major importance as it helped to qualify collegians and graduate students for the University Games to be held in Moscow this summer.

In Foil, members of the U.S. under 20 team: Dave Littell and Terry McConville, the competition was very tough in the field of 75 fencers. There were 4 Olympic competitors from Canada, Hong Cong, U.S.A., and Australia. In addition, there were 5 All Americans, Dave Littell made it to the semi-finals (Dave is a 2 time All American) along with Brooke Mackler (1973 NCAA Foil Champion) and Olympian. Terry McConville, N.D.H.S., made the semi-finals also in the other pool which contained 5 "A" fencers, including Elliot (Hong Cong Olympian) and Benko (Australian Olympian) an All Ameri-

can, McConville had a 10-10 for the day and was the only prep fencer in the semi-finals. Howard Labow, Niles West, made it to the quarters before being eliminated.

Tim Glass, N.D.H.S., fenced epee on Sunday. Tim made it in a field of 40 to the quarter finals. With a 3-2 record, usually enough to advance to the semi-finals, he fell short of qualifying by .05 points on the ratio. Tim was the only prep epee fencer in the competition at this time.

All three U-20 fencers did well in the competition and have had a good meet to prepare them for the &-20 World championships this next week. The US team leaves from New York on April 15. Competitions begin on April 19 through April 22. Shown above l. to r.: Terry McConville, Dave Littell, Tim Glass, and Rev. Lawrence Calhoun.

Raiders return from training trip

Oakton Community college's baseball and tennis teams recently returned from their Spring

training trip to St. Petersburg, Florida, and the coaches were pleased with their teams performances.

"I was really satisfied with our defensive effort, and our pitching was real solid," says baseball coach Rick Symmonds of his team's Florida performance.

In four scrimmage games against 4-year colleges, Oakton committed only one error. The defense was excellent, and was highlighted by the play of shortstop Ken Schroeder. Pitcher Larry Gawaluch went all the way in a 2-1 loss to American International college of Springfield, Mass. He struck out 7 straight

men and a total of 10 giving up just 4 hits in the 7-inning game.

Jim Buchholz hit a 3-run homer to pace the Raiders to a 5-4 win over American International. He was 6-11 at the plate on the trip, belting one homer and driving in 3 runs. Schroeder and Dennis Mahoney also hit homers.

Tennis coach Tom Jorndt was also pleased with his men's performance as they competed in scrimmages against tough competition from St. Petersburg. Only 4 tennis men made the trip. They were Roger Junge, Kevin Kelly, Jeff Nelson and Bruce Bozelka. All who made the trip paid their own way.

Maine East baseball

Powered by strong hitting and speed on the basepaths, Maine East's diamondmen are looking forward to a successful season.

Returning senior lettermen who will be the backbone of the squad are third baseman Dan McDonnell, left fielder Glen Sedjo, second baseman Dan Lowy, center fielder Bob Lloyd, and pitcher Gregg Maloney.

Because of the excellent weather conditions, the diamondmen have been able to hold several practices. Most of the positions have already been filled, and Coach Herb Ward feels this year's team is well balanced at every position. "There are no big weaknesses."

Joining the returning lettermen is Doug Moorad, who will replace Mike McDonnell as catcher. Jim Cardella will be replaced at shortstop by either Warren Henricks or Chuck Sellergren.

The big threesome on the pitching staff will be Gregg Maloney, Dave Baskin, and Ron Parker. All 3 hurlers pitched well this past summer.

Coach Ward feels everyone will be tough competition this year. "The toughest opponents will be Highland Park, New Trier West, and the two Glenbrooks form our division. Other stiff competition will be Niles West, Niles North, and Maine South."

Skokie business women meet

The May meeting of the Skokie Valley Business & Professional Women's Club will be held at Hoffman's Morton House, Morton Grove, on Monday evening, May 7 beginning with cocktails at 6 p.m.

Activities will begin with a Bake Sale, items donated by members of the club, as a Fund Raising project, followed by the club's 19th Birthday Party.

The club was formed in 1954 when 12 women from the Skokie area met in a home because they were interested in elevating women in business and professions. The membership now numbers 85 and in addition to accomplishing their goal, the club has contributed much to the community over the years including a \$5,000 donation to the Skokie Valley Hospital, serving on village committees, sponsoring a Girl Scout Troop and giving several scholarships to deserving young girls in the area. Originally, all of the members were Skokie residents, but now they include women from Chicago, Niles, Morton Grove and many other communities, so those 12 women were very wise to choose the name - Skokie Valley - because it now does apply.

Applications may be submitted any time during the school year, the form itself is simple to complete and requests information needed to determine economic need based on the income and number of persons in the family and any unusual circumstances or hardships which affect the family's economic status.

It's only 4 weeks until the Niles Park District's second annual Ice Show scheduled for May 4, 5 and 6 to be held at the Niles Sports Complex located at 8435 Ballard rd., yet the excitement is no inane, it seems as if the show were being held this weekend.

All of the stars, homegrown of course, are hard at work practicing the parts they will play. It is very enjoyable watching the youngsters so full of enthusiasm and high hopes entertaining the thought that perhaps they will be selected for a certain group number or better yet have their own solo!

All the children that participated in the Learn to Skate Program have worked very hard all season practicing over and over the various fundamentals of figure skating until they have mastered the techniques they have been taught at their own level of development. The Ice Show is the "grand finale" of a season of hard work where the kids can show their parents and neighbors how they have perfected their skating ability. Won't you please support the community's Ice Show? Tickets will be on sale Monday, April 16 through May 6, solo!

At the regularly scheduled meeting of the East Maine School District 63 Board of Education, the Board approved a resolution establishing the official school calendar for the 1973-74 school year. The school year will begin with the orientation of new teachers on Sept. 4, with Sept. 6 being the first day of attendance for pupils. The school year will end with the dismissal of classes on June 18, 1974.

According to G. Allan Gogo, Superintendent of Schools, the calendar has been coordinated with other districts in the town-

OSPI evaluates Maine special education

A team of 23 educators visited the Maine Township Special Education Program April 4, 5 and 6 to evaluate all aspects of the program for the Office of the Superintendent of Public Instruction. A periodic evaluation is now required of all special education programs in Illinois to make sure the programs are comprehensive enough to meet the needs of exceptional children, and that the facilities and services are appropriate and adequate.

While the written report of the evaluation will not be completed for a few weeks, a preliminary, verbal report given at the conclusion of the visitation indicated that, in general, the visitors were well pleased with the Maine Township Special Education Program and found it substantially in conformity with the School Code of Illinois.

Team members said they were impressed with the facilities, the materials and supplies provided, the well-trained instruction staff, and the high quality of psychological services available. They were also pleased with the parent-school involvement that was evident. Classes for educable mentally handicapped children and the learning disabilities program were singled out for special praise.

A major concern was the need for more personnel in several areas of the Special Education Program. The team emphasized that class size should be watched closely and at all times kept within limits set by OSPI guidelines. Expansion of the special education pre-vocational program was among the recommendations for improvement.

In making their evaluation, team members visited special education classes in Districts 62, 63, 64 and 207, the school districts operating the Maine Township Special Education Program, under a joint agreement. Teachers and students were in-

ship in nearly every aspect. The entire township, with the exception of Park Ridge Elementary School District 64, will have similar Christmas and Spring vacations and a common institute day on March 1.

The calendar was established after recommendations from the Faculty Advisory Council, made up of teachers from each school, were taken into consideration. According to Illinois School Code, the calendar must show a minimum of 185 days, four of which may be used for institute days.

interviewed, classroom instruction was observed, and all areas of the program checked to make certain it covered the gamut of special education.

In the preliminary report, Robert D. Carpenter, educational specialist from the Office of the Superintendent of Public Instruction in Springfield, and chairman of the evaluation committee, stated that he was pleased with the detailed and complete information given to the team members, and with the cooperative, helpful attitude of E. Gaydon Brandt, director of the Maine Township Special Education Program. Mr. Brandt is responsible for the operation, supervision and development of the township program.

Another member of the evaluating team, Cedric Benson, director of the West Suburban Association for Special Education, also praised Mr. Brandt, saying he felt he was giving excellent leadership to the program. He also commended the administrators in all of the school districts participating in the township program for their positive attitude toward special education.

The Executive Board of the Maine Township Special Education Program was complimented for the comprehensiveness of its program, and for continuing efforts to improve the program. Besides Director Brandt, the Executive Board is made up of the superintendents of the four school districts participating in the joint agreement for operation of the program. The men are Dr. Richard R. Short, Maine Township High School District 207; Dr. Raymond Hendee, Elementary District 64, Park Ridge; Dr. G. Allan Gogo, Elementary District 63, East Maine; and Dr. Eric Sahlgren, Elementary District 62, Des Plaines. District 207 is the administering district for the Maine Township Special Education Program.

MONACEP heads address meeting

The Director of an adult education program that has reduced tuitions by 25 percent while increasing revenues by more than 30 percent will be guest speaker Saturday, April 28, at the Education Advisory Committee meeting sponsored by State Representative Eugenia S. Chapman (D-Third District).

Alex Kruczal of Glenview, who heads the Maine-Oakton-Niles Adult and Continuing Education Program (MONACEP), will describe for the committee the financial and organizational benefits of his program, which served more than 21,000 people last year with courses, lectures, seminars, and workshops.

Maine Township High School District 207, Oakton Community College District 535, and Niles Township High School District 219 pool faculty and resources for MONACEP adult and continuing education courses.

Both Kruczal and State Rep. Chapman are members of a new Illinois Adult Education Task Force, appointed recently by Michael Bakalis, Superintendent of Public Instruction.

Niles North debate champ

Niles North High School's debate team consisting of senior Andy Gomborg took third place in the Illinois High School Association (IHS) state tournament held at Bloomington High school recently.

Andy, of Morton Grove, ranked among the top 10 debaters in the state of Illinois, capturing the seventh place speaker award at the state tourney. His high ranking qualifies him for the All-State Debate Team made up of the finest debaters in Illinois. Andy may also qualify for the All-Chicago Area Debate Team whose members will be announced next month.

In the IHS sectional competition leading to the state tournament, North finished on top in a 55-team field. Junior Joel Africk and Andy compiled a 5-0 record, gaining decisions from all 10 judges. Joel and Andy's 9-3 slate qualified them for the quarter-finals in which they faced Rich East High school.

Although Rich East was the winner of the Illinois Speech and Theatre Association debate tournament two weeks earlier, Joel and Andy beat them by a 2-1 decision. However, North lost in the semi-final round of competition to the Glenbrook South team which eventually went on to become the state winner.

Community Services Fair

Approximately 150 parents and teachers attended the Nelson school Community Services Fair held at Nelson school in Niles on March 13.

Nineteen civic and community groups were represented at tables set up in the gym. Fire Departments, police departments, hospitals, libraries, and other community groups were represented. Several displays used slides and other visual aids to help tell their stories. East Maine School District 63 Board of Education also participated. Board president Irene Luck and Board members Jerry Abern, William Allen, John DiPrima, Arlene Nidetz and Larry Reiss were present to answer questions asked by parents and community members.

The Community Services Fair offered residents a chance to become familiar with many services and organizations available in their community. It also gave the chance to find out more about organizations that they may have heard about but wanted more information about.

THE CORNERS

of Where it's at and What's happening.

By Ed Hanson

Easter, I see, comes on Sunday this year. A lot of people go to church on Easter that don't go the rest of the year.

Most people have some sort of religion - they at least know which church they're staying away from.

Know what an atheist is? He's a guy that goes to a Notre Dame-SMU football game and doesn't cheer.

HEAVEN: a place you'll reach if you turn to the right and then go straight forward. (Nixon is a cinch)

When I was young my grandmother read the Bible all the time. Maybe she was cramming for her finals?

Woman's Lib. wonders why people don't pray to Ms. God. Heathens: folks who don't quarrel over religion.

Bingo may not save souls but it's sure saving a lot of churches. When I was a kid attending Sunday school (no kidding) the question was, "Where is hell?"

Up went my hand. "I know," I said to the Sunday school teacher.

"Where?" she asked.

"At my house in the bathroom," I said.

"Why do you say that," asked the teacher.

"Because whenever I'm in there an' my old man wants to shave he yells 'get the hell out of there'."

EASTER EGGSTRAS

One: A delightful Easter special is being offered by the popular BEAM'N BARREL, 7136 Milwaukee ave., Niles. It consists of a DeLuxe Ham dinner. Imagine savory corn fed ham, choice of potatoes (all you can eat from their salad bar which features herring, cheeses and all sorts of goodies) plus a warm loaf of bread, huge gob of butter, coffee and dessert for only - only mind you - \$3.50.

In addition to the DeLuxe Easter Dinner special the BEAM'N BARREL offers their regular menu of steaks, ribs, seafood and sandwiches which are always of prime quality. Another thing, there are no extras, no extra charges that is, for your potato, beverage or dessert. Everything is included in the modest price they charge for the complete meal.

A word about the salad bar, at the BEAM'N BARREL is in order. This salad bar not only offers the finest of salads and dressings but also appetizers like imported cheeses, wine soaked herring, etc.

For Easter, or anytime, for the ultimate in dining pleasure amid an atmosphere both the young and old will enjoy, it's the BEAM'N BARREL... roll in.

Jake of JAKE'S RESTAURANT, 7740 Milwaukee ave., Niles, tells me his Easter preview on Palm Sunday was one of the best days he's enjoyed. And Jake looks forward to more record breaking crowds having Easter dinner with him this coming Sunday. There'll be free chocolate bunnies or free bunny dolls for the kids and fun and surprises for the adults too. A large selection of Easter specials will, of course, be featured on Easter Sunday as was the case on Palm Sunday. In this area JAKE'S RESTAURANT has become a habit with thousands of local residents and Jake has asked me to wish everyone a "Happy Easter."

Another famous place that plans to 'cook up' many delicious Easter dishes is ARVEY'S RESTAURANT, 7041 W. Oakton st., Niles. You'll have many wonderful dinner selections to choose from this Easter at ARVEY'S. Arvey's business has been 'on-the-grow' ever since they've started. It proves what excellent food and service at the right price can do to win new customers while retaining old ones. Tommy and George Arvey, consistent and exclusive BUGLE newspaper advertisers, want to wish all their friends and customers a "Very Happy Easter."

Dropped into the UPPER CRUST RESTAURANT AND PIE HOUSE on Dempster near Greenwood, late or should I say early Sunday morning. The place was jam-packed with people of all ages. Dick Reed, one of the owners tells me they were practically sold out of everything and that his business is booming. They'll soon feature a new menu and as soon as we get all the facts we'll pass it along to you.

Saw the "Valachi Papers" at the Des Plaines theatre this week. Good show. Paid only 60¢ - just a short time ago loop theatres were charging 4 bucks for this one - so I saved \$3.40...

Happy Easter... see you next week.

District 207 pre-school registration

Once again it is time to register small children living in this area who will be attending the pre-school classes at the 4 Maine high schools next Fall. Application forms are now available at each of the schools and must be filled out and returned to the school by May 15. Parents may pick up the forms at the main office of Maine East, Maine West and Maine North, and in the home economics department at Maine South High School.

The classes, conducted by junior and senior students under the direction of a certified child development teacher, are part of the "on the job" training program for the schools' Child Care Occupations course.

About 10 to 12 youngsters of pre-school age will be enrolled in each class. To be eligible for acceptance, children must be between 3 1/2 and 4 1/2 years of

age on Sept. 1, 1973, and must be a resident of District 207.

A major function of the classes is to train high school students to recognize the basic needs and characteristics of young children and to become aware of the factors that influence the growth and development of children. The classes were originally developed in response to strong student interest in exploring careers in the care and teaching of small children and to a growing need for pre-school child care and for teacher aides.

The programs at all 4 high schools are similar, but they vary regarding the time and days on which they meet. A letter accompanying the application form will explain the specific program at the individual school.

A registration fee of \$20 will be charged.

Bobbie Glenn, an employee of the First National Bank of Skokie, is the first to try out one of the Bank's new walk-up TV teller stations. With the opening of the new stations, First National has increased its customer service hours by 10 1/2 hours per week.

With the opening of the Bank's walk-up TV teller stations, located on the ground floor in its new \$4 million building, First National Bank of Skokie, 8001 N. Lincoln, Skokie, will extend its hours significantly, according to Erman G. Kramer, President.

"The walk-up window tellers will handle checking, deposits, check cashing, plus loan and utility bill payments." The windows will be in operation from 3 p.m. until 5:30 p.m., Mondays, Tuesdays, and Thursdays, and Friday 3 p.m. until 6 p.m. Kramer commented.

"This extends the time when people can conduct their banking business with First National by 10 1/2 hours a week," Kramer observed. "Another first for the First, the longer hours are only part of our Bank's ongoing program to provide our customers with the most convenient, modern banking services possible. As our new building progresses toward completion later this year, we anticipate expanding our services even more, doing everything in our power to meet the needs of the market we serve."

Tuesday was a beautiful sunny 65 degree day but in Niles the one party village election left a case of the dullest over most of the community. Driving around from precinct to precinct the one-party Era of Challenge signs were stuck in the ground at all the polls. Park candidate Steve Chameriski had his signs on telephone polls and thru-out the village. While those signs were printed professionally a crayon scribbled sign at Grennan Heights told voters to "feel good" and vote for write-in candidate Gerald J. Sullivan for mayor.

At St. John Brebeuf a funeral cortege was parked outside the church, while children were running back and forth in the area behind the building, and an occasional voter was straying in and out of the voting poll in the school to the south of the church building.

On Oakton st. a black dog was lying dead alongside the road, by Niles Community Church. And while the inactive precinct workers were biding their time, they stared aimlessly at the animal speculating when the public works truck would take it away. The entire atmosphere on this warm sunshine-drenched day was almost funereal as the lack lustre election day seemed to hang limp in mid-day.

Oliver! opens at Mill Run

The spirited Broadway musical, "Oliver!", is coming to the Mill Run Children's Theatre on Saturday, April 28. Based on Charles Dickens' classic, "Oliver Twist," about a young boy's adventures in London around 1850, the production will be dramatized by a completely professional cast on Saturdays at 1 p.m. through Saturday, June 2.

"Oliver!" has been praised by the critics and public alike as a work of art in the musical theatre. In the words of Richard Watts, Jr., New York Post, "Oliver!" is an exciting and stunningly beautiful musical play." George Oppenheimer of Newsday adds: "Oliver!" needs no exclamation point. It makes its own. The season's greatest hit." What makes "Oliver!" so appealing is its melodiousness with credit going to Lionel Bart for book, music and lyrics.

Tickets are priced at \$1.75 and may be purchased on the day of the performance at the Mill Run Box Office or in advance by mail. For group discount reservations and information call 298-2333.

victory by the Citizens Party is a tribute to his group given them by the people of Morton Grove. Bode noted the people "found performances more profitable than promises and they can now be assured the affairs of Morton Grove are in capable hands and good government will continue."

Bode went on to tell The Bugle this victory effort is also a great tribute to the many workers who aided in the victory. While the re-elected Mayor did not want to go over too much campaign rhetoric he did say his group did not see fit to take the full credit for the paramedic program, the blood bank effort and the Oakton College opposition, which Bode said was a Board action, rather than a Party action.

In a review of the totals Bode led his opponent at 22 of the 26 precincts. In Niles Township Hohns won only at the Hynes School poll. In Maine Township Hohns led Bode at Melzer School and Oriole Park polls.

Fish fry cancelled

The Morton Grove American Legion Post #134 would like to announce, as is their usual custom, the cancellation of this Friday's, April 20, fish fry.

Due to the Good Friday date, as in the past, the Legion does not hold their weekly fish and chicken dinner event. However, crews will be back to serve patrons the following Friday and continue until summer.

Corporation President Gus Katsoulis is joined by Legion Commander Frank Hilbert in wishing the happiness of the season to all the members of the community.

disappointed Selman said. He added the people of Niles have yet to realize the growing importance of the park district's budget and spending.

"Abe was the most qualified man and it's a shame he lost," Blase told The Bugle. "But Mr. Jones is a great person and will represent the village's opinion well."

Commenting on his own election, Blase said, "It was a great turnout for an uncontested election. We wanted 3,000 votes and we got 4,000."

At 8:30 p.m., the traditional victory speeches began with Blase, Skaja, Feck and Pesole thanking the workers. A shout of "four more years" broke the place up.

"It's a tremendous vote of confidence," Blase said. "You are tremendous and the results you turned out were great."

Skaja, the top vote-getter on the ticket, humbly explained this was achieved only because his name was associated with a business. When asked by The Bugle when he was going to run for Mayor, Skaja replied, "I still have a lot to learn."

In the American political tradition, liquor and food were dispensed freely at the headquarters, reminding the participants the electoral process had, indeed, taken place.

"It's got to be a factor," the

present program have been ignored and not heard. At no point were teachers informed or consulted prior to these decisions being made.

It is because of this kind of Board action that the teachers now more than ever are committed to negotiating on educational issues. Yet, the Board refuses to include under the scope of negotiations "conditions of employment." The term, "conditions of employment," applies to matters of a substantive nature like class size and the others mentioned above.

The teachers entered into professional negotiations with the Board of Education this Fall with just this purpose in mind - to improve the education in this district. The teachers were and are concerned about such issues as class size and staffing patterns, maintenance of educational standards, curriculum and instruction, selection of text books, evaluation, in-service training, etc. These vital educational issues affect the everyday operation of the classrooms. As professionals, this is what we deal with everyday.

The teachers want to develop with the Board mutually agreeable policies on these issues. But the Board refuses to negotiate these issues.

The Board considers only economic and procedural matters as negotiable. They refuse to negotiate matters of substantive educational concern.

But the teachers are concerned about educational issues, not economic ones. The teachers and the Board have already agreed on salary for next year. This agreement was reached last Fall.

The teachers are especially concerned about educational issues in the light of the unilateral Board decision to cut 32 teachers from next year's faculty. The teachers feel this will have far-reaching effects on the educational program of the District. Our District is noted for its unique efforts in team teaching and special education. Many parents and teachers have moved here because of these programs. Yet, our efforts to communicate the impact of these cuts on our

Under the sponsorship of the Morton Grove Days Committee and the American Legion Post #134, the annual village-wide Easter Egg Hunt will once again take place this year on Easter Sunday. Youngsters under 12 years of age, may gather at 1 p.m. at St. Paul's Woods.

Specialty marked Easter eggs this Sunday, April 22, will be hidden earlier; and upon discovery, the children may redeem them for a prize at the pavillion to be set up on the grounds. The Post's Rifle Squad will operate this gift portion.

Chairman of the event is Junior Vice Commander Joseph Schmidt.

A yearly custom, it was originally begun when the Post discovered many of these children could not participate in the outdoor Egg Hunt. A similar program is undertaken at Christmas, when these boys and girls cannot leave their homes to meet Santa's entourage. Gifts were distributed last holiday time as they have been for many years in the past.

Visitation of these Morton Grove youth is under the chairmanship of Children-Youth head, Anthony La Rosa, who also serves the Post as Senior Vice Commander this year.

Open statement from East Maine Education Association

present program have been ignored and not heard. At no point were teachers informed or consulted prior to these decisions being made.

It is because of this kind of Board action that the teachers now more than ever are committed to negotiating on educational issues. Yet, the Board refuses to include under the scope of negotiations "conditions of employment." The term, "conditions of employment," applies to matters of a substantive nature like class size and the others mentioned above.

The teachers entered into professional negotiations with the Board of Education this Fall with just this purpose in mind - to improve the education in this district. The teachers were and are concerned about such issues as class size and staffing patterns, maintenance of educational standards, curriculum and instruction, selection of text books, evaluation, in-service training, etc. These vital educational issues affect the everyday operation of the classrooms. As professionals, this is what we deal with everyday.

The teachers want to develop with the Board mutually agreeable policies on these issues. But the Board refuses to negotiate these issues.

The Board considers only economic and procedural matters as negotiable. They refuse to negotiate matters of substantive educational concern.

But the teachers are concerned about educational issues, not economic ones. The teachers and the Board have already agreed on salary for next year. This agreement was reached last Fall.

The teachers are especially concerned about educational issues in the light of the unilateral Board decision to cut 32 teachers from next year's faculty. The teachers feel this will have far-reaching effects on the educational program of the District. Our District is noted for its unique efforts in team teaching and special education. Many parents and teachers have moved here because of these programs. Yet, our efforts to communicate the impact of these cuts on our

there were many spoiled ballots. He noted the large number of independent candidates may have contributed to the errors in many of the ballots. He said several residents voted for 4 or more trustees.

Among the 8,000 eligible voters about 60% turned out on the warm summery day to vote Tuesday.

The following are the unofficial vote totals:

Proesel (Mayor) 2,920

Schmidt (Trustee) 2,333

'You and Your Lungs'

A free community-wide health education program at Resurrection Hospital on Monday evening, April 30, will explore the symptoms and treatment possibilities for sufferers of chronic bronchitis, asthma, emphysema, shortness of breath and those with a chronic cough.

The program begins at 8 p.m., and the doctor and employee parking lots at the rear of the hospital will be opened to accommodate those wishing to attend the program.

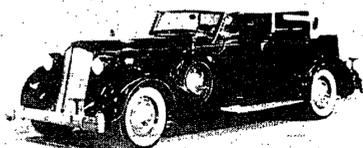

Our purpose tonight is to demonstrate to the Board of Education our great disappointment at their refusal to negotiate. We want to indicate to the Board that the vast majority of the teachers in this district support our Negotiating Team, we strongly urge the Board to reconsider their refusal to negotiate. The teachers are standing outside and await the Board's response.

The BUSINESS Picture

Receives award

Congratulations and a 25-year service pin are presented to Charles Eskrich (l.) by W. R. McGrew, Vice President and Illinois Division Manager of Central Telephone Company of Illinois, on the anniversary of his start with the company in 1948. Mr. Eskrich began as a Commercial Engineer in Central Telephone's Pekin District. Today, he is the District Manager in the Des Plaines-Park Ridge area, a post he has held since 1960.

Attention merchants

The Niles Senior Citizens Commission is seeking additional merchants to participate in its Senior Citizen discount program. This program allows Senior Citizens, upon presentation of their identification card, to purchase goods or services at a reduced rate. Names of those participating merchants are published in the "Niles Senior News and Views" which is printed bi-monthly. Any business which would like to join in this program may do so by contacting the Niles Senior Citizens Commission at 967-6100.

Celebrates 25 years with Centel

"Thank you," says Jerry Sternberg, "for the Golf Mill Merchants Association" as he received an award of appreciation from George Gauthier, Raymond Shurson and Michael Foley of the Thunderbird District Boy Scouts of America. The district leaders are awarding the appreciation certificate to Sternberg, manager of Milgram's Shoes, and secretary of the Association, for the Association's cooperation in hosting the district finals in the Boy Scouts of America Craft and Skill Competition held at the Golf Mill Shopping Center, Sunday, March 25.

Gazing out his office window overlooking Miner st. in the new Central Telephone Company Division Office Building in Des Plaines, Charles Eskrich comments, "Ten or fifteen years ago, I thought traffic around here was heavy, but with the growth and new industry, more traffic has to be expected."

And the growth of the Des Plaines-Park Ridge area is something Mr. Eskrich is deeply involved with as District Manager for Central Telephone Company of Illinois who recently marked his 25th anniversary with the company.

"In looking back, you could see the future growth coming, but not just how fast it would come. It's really something to see all the homes and industry where there was just raw land and open territory," he says.

As District manager, Mr. Eskrich has been very active in civic and community groups. He has held offices in the Park Ridge Jaycees, Lions Club, Chamber of Commerce and the Northwest Industrial Council. He is also a member of the Park Ridge YMCA and Des Plaines Chamber of Commerce.

"By getting to know and work with the members of these organizations, you can feel the pulse of the business community, and problems and questions can be discussed on a man-to-man basis."

"This has helped me personally, too," states Mr. Eskrich, "especially since there are so many tremendous people in this area."

Mr. Eskrich started as a Commercial Engineer in the Pekin District of the Company. During his 25 years with Central Telephone, he also served as Commercial Office Manager and District Commercial Superintendent in the Park Ridge-Des Plaines area of the Company and has served as District Manager since 1960.

After working hours, along with participating in numerous community projects, Mr. Eskrich enjoys most sports including boating, fishing, and golf. He and his wife, Merle, are the parents of one son, John, and live in Park Ridge.

Correction

In the March issue of "The Niles Senior News and Views," Charm House Inc. was inadvertently placed on a list of merchants allowing discounts to Senior Citizens. Charm House is not a retailer and cannot therefore give such a discount. Anyone with a copy of this discount list is asked to remove the name of Charm House Inc.

Fayva features lively Spring foot fashions

The shoe story for spring '73 is livelier, lofter, and more exciting than ever before, according to Fayva shoe stores.

Fayva reports that the fashion world is quite literally "watching its step" with women's heels climbing from one to six inches. Fashion has become a high stepping world with sky-rise platforms, clog soles, or curved or rocker-type bottoms in wood, cork, wrapped leather, or multi-colored rubber and polyurethane. Toes are broad or bumped.

Fayva notes that you won't have to go sole-searching to find the biggest footnote in many a season—clogs. Clogs now run the gamut in textures, colors, and styling and are being worn from sunrise to sunset.

Fayva men's footwear has also been "brought to heel." Even the most conservative, the most classic styles, will have a heel that hints of added height, leaving the uppers to play it cool. At Fayva, men will find that heels are stacked, covered or wedged, au naturel, made-by-man, flared or slanted with crepe and polyurethane big sole power.

Men's oxford styles emphasize new updated interpretations of the classic saddle design. The oxford accent is also sprouting on moccasins, and spectator styles steal many a fashion scene as well.

The Fayva message for children is pure and simple—taking the cue from their elders, young-fry footwear will open up for both dress and sport.

Spring and summer salutes the thicker sole in both boys' and girls' shoes. Children's sole styles are built like the adults' and are layered, creped, notched and stitched. There's also a hearty wave in the direction of spectator looks and clogs for the young miss.

Fayva reports that there are lots of bright colors in store for you, with white a dominant influence this spring—white alone, or with contrast color piping, or white as a trim with bright, bold patterns.

Men are branching out and stepping into some high, wide and handsome footwear this season. Here a white Brazilian crinkle patent leather boot, and a new "boy scout" shoe. Two Fayva shoes with lots of fashion power.

Everything's coming up clogs at Fayva this spring. Shown here are two Italian beauties... a flower trimmed suede corks and a leather cloghopper with wooden bottom.

An evening of nostalgia

The Chrysler building, Hall of Science, Electrical building, Court of States, Havoline thermometer 90 feet tall, Sound familiar? Whether you remember them or were too young to have seen them, there's no doubt that you will enjoy the nearly 800 feet of movie film taken there. Another evening of nostalgia will be presented by the Niles Historical and Art Society on Monday, April 23, about 8 p.m. at the Niles Park District center, 7877 Milwaukee ave.

Marilyn Alden Brown, whose family photographed the fair, and the Niles area shown at a previous meeting, will have more footage taken in Niles Township in the dear old days gone by.

Frank Wichlac on deans list

Frank Charles Wichlac, son of Mr. and Mrs. Frank C. Wichlac, Jr., 7955 Keeney st., Niles, is a sophomore in the College of Fine and Applied Arts at the University of Illinois at Champaign. For 3 semesters Frank has made the Dean's List and is presently carrying a 4.9 average out of a possible 5.0. He is a music education major and is a member of both the Large and Small Symphonic Bands, a member of one of the Jazz Bands, and also the Marching Illini. He graduated from Maine East in June of 1971.

Local youths perform in concert

The Metropolitan Youth Symphony Orchestra, under the direction of Mary K. Rosen, will present its third concert of the season on Sunday, May 6 at St. James Cathedral, Wabash ave. at Huron st. in Chicago. The concert is free to the public and begins at 3:30 p.m. Local orchestra members include: Ann Becker, 8308 Oleander, Niles and Helga Flock, 8239 Octavia, Niles.

MG police answer pre-schoolers

Policeman! Policeman! What if _____ happened? What is this?

So the questions came from the Morton Grove Park District's pre-schoolers.

The children waited in eagerness for the arrival of the policeman. Officer Schultz was greeted by the pre-schoolers sitting in neat rows of chairs that they set up for themselves.

A talk was given on what a policeman is and how he can help children. Slides were shown on what to do and what not to do in and outside of the home as; never let a stranger in to your home-call an older brother or sister, if your parents are now home; do not accept anything from strangers; if you are lost-call a policeman, etc.

All in all it was a very exciting time for the children to meet and talk with a real live policeman.

The children had been visited previously by a fireman. These are only a few of the things that the pre-school children are involved with.

Information on the Pre-School can be obtained by calling 965-1200 Monday through Friday between 9 a.m. and 5 p.m.

Dursch named head skating pro

Siegfried Dursch has been named Head Pro for the Niles Park District Professional Skating Instructors for the second year.

For nearly 10 year Siegfried Dursch skated in competition in the Southern part of Germany. In his early 20's he attended and graduated from a Fashion Design school in Munich, West Germany. Shortly after graduating he decided to go into the entertainment field. His first professional appearance was in a theater located in Amsterdam. The show was an Operetta on Ice called "Wintertraum." From there he joined several top ice shows in Europe. He was one of the headliners for the International Ice Show which starred Sonja Heine. Between ice shows he taught figure skating. He then signed with the Paris Sur Glace Ice Show and for two years toured the Near East and all capital cities behind the Iron Curtain. He also skated in Africa, West Europe, and East Europe.

When Mr. Dursch came to America he signed and toured with Holiday on Ice. He currently toured with Symphony on Ice throughout the U.S.A. He choreographed shows in Canada and also in the United States.

If a weed in my garden has slipped through my grasp until now, I redefine "weed," let it grow and enjoy it.

Thanks

Dear Editor:

The Northwest Italian American Society wishes to thank all its friends and donors for making our St. Joseph Day Ravola such a tremendous success. Without their untiring efforts, kindness and assistance, an undertaking of such scope would not have been possible. Two simple words - thank you - seems so incomplete an expression of gratitude, but they hold our deepest and heartfelt feelings. A special note of gratitude to Monsignor Flanagan, Father Close, Sister Theresa, Pete Zonsius and Dan Kosiba for their cooperation prior and during the festivities.

Visitors ranging in age from infants to senior citizens, from Oak Park to Port Richey, Fla. were not only impressed but inspired by the depth and beauty of this tribute to the chaste Saint. Comments as "Beautiful," "Unbelievable," "Molta Bella," "Praise God" and "It makes us proud to be Italians," somehow made it all worthwhile. The purpose of the St. Joseph Table was to share an old Italian tradition of devotion to the foster father of Jesus, and from the response of our many visitors, it was well received. Our "thanks" to all of you.

Sincerely,
Northwest Italian American Society
Andy Ciabattari, St. Joseph Committee Chairman

Golf Mill Bank establishes joint Computer Center

A unique computer service contract has been signed by 4 area banks with National Cash Register (NCR) - one of the country's largest manufacturers of computers, announced Robert A. Sharpe, president of the 4 affiliated banks.

According to Mr. Sharpe, the four banks - First National Bank of Mundelein, Golf Mill State Bank, Grayslake National Bank and Libertyville National Bank - have jointly contracted with NCR to provide both the computer equipment to be used as well as systems management for the banks' computerized work.

Sharpe announced at a press conference April 16 that a NCR Century 101 model computer has been ordered and is scheduled for delivery in September of this year. It is expected first use of the facilities will be in early October.

The group's computer center will be located beneath expanded offices for the Libertyville National Bank. Existing office space at the rear of the bank building will be remodeled, starting May 1, to accommodate the new facilities.

A local insurance agency now located there will move out and new executive offices for the bank will go in the first floor and all computer equipment and systems personnel will be in the remodeled lower level.

Sharpe commented on the bank's expansion plans by observing that "this remodeling is the second major expansion move for Libertyville National Bank within the past year. By adding approximately 40% more space to the existing bank building area, we will be able to enlarge the customer service platform area and relocate our executive offices into the newly acquired first floor space."

Total square footage of the present bank building is approximately 9,500 feet. The expanded area will add another 4,200 feet.

A computer services manager, Gregory A. Kowalski, will work for NCR under the special contract arrangements to direct the daily computer operations. Kowalski, former assistant manager of data processing for First Federal Savings, Milwaukee, will begin planning and systems work for the banks May 1.

Conversion of the 4 banks' data and files to the new "in-house" system will take place over a one-year time span. Various service applications will be converted in succession based on volume and priority needs of the banks.

According to Ronald D. Price, NCR account manager serving as administrative liaison, "the precise timing for the various service applications can be adjusted, if necessary, to meet the individual bank's particular requirements."

He also stated that "the total processing capacity of the equipment will be expanded as the group's needs and services expand."

According to bank president Sharpe, "the increased efficiency gained by this group-operated system will provide for greater flexibility and a wider scope of services over our present computer processing arrangements."

Sharpe pointed out that "the marketing advantages are virtually unlimited. By having our customer's various account records linked together, we will be able to offer new banking services to each customer on a highly customized basis."

Utilizing the system's central information file capability along with its giant "memory" storage, authorized bank employees will be able to locate individual customer records rapidly including their latest balances, current activity in one or more de-

Contract for NCR computer equipment and services is signed by bank president Robert A. Sharpe (center) for 4 area banks - First National Bank of Mundelein, Golf Mill State Bank, Grayslake National Bank in Libertyville National Bank.

Representing National Cash Register are: Ronald D. Price (r.) NCR Account Manager and Gregory A. Kowalski (l.), manager of computer services for the group project.

partments and other related data. In-bank terminals will flash back all requested information in micro-seconds after the customer's account number or name are entered by a special code.

In addition, the system can handle transfers of funds automatically between customer's accounts such as payments of installment loans from their checking account or monthly transfers from checking to savings. Once instructions are entered into the computer system, transfers take place on the requested date and the results are reported to the bank and to the customer.

Input into the computer will be accomplished through a MICR sorter/reader which "reads" and transfers the information to the main computer memory at the rate of 600 items per minute. Internal memory storage capacity is over 32,000 characters for programs (or instructions) to accomplish the system's work.

Magnetic discs will be used for external storage of customers' records including activity history. Each disc can store over 5 million characters of information.

Data is transferred from the discs to the computer's "memory" for processing or up-dating at the rate of 312,000 characters per second.

The high-speed printer included with the NCR Century 101 system prints reports, customer statements and other data at the rate of 1,200 lines per minute.

Sharpe added that individuals at the banks who will be involved with the conversion work and continuing supervision of the system will be given special training at the NCR Rolling Meadows offices. NCR experts will review pertinent aspects of the new system with bank officers and key operations personnel "to make the entire installation as efficient and successful as humanly possible," he said.

NCR's Century 101 system is used by over 300 banks throughout the United States. Banks in the Chicago metropolitan area as users are North Shore National Bank, First National Bank of Lake Forest and Roselle State Bank.
