Farewell to '63 ...

Thursday night number 4 will be receiving her diploma from eighth grade and it will be the end of another era for our family.

It all began 32 school years ago when number one, holding her Daddy's hand a little tighter than usual, walked down Ozanam ave., on the way to her first day at Oak School. Fifteen minutes after we arrived at Oak she was re-tracing her steps with Daddy, after a great many tears convinced her teacher she should go home. The next day we did it again and I retreated step by step from her room, while she furtively glanced at me to make sure I remained near her. I got to the door, eased myself outside, and stood by the window for several minutes before finally making the break, which I mentioned, has now gone on for 32 school years.

During this period, which started in district 63 in 1957, we've travelled the length and breadth of the district. Number one actually started kindergarten with Mrs. Hartzell at Maine High School, in the days when the half-year kindergarten was held there. In subsequent years we've had stop-offs at Oak, Nelson, Melzer, East Maine Junior High and Apollo.

To show how dated we are we started in district 63 when Jim Bagg was a principal at Oak, in the days when there were only 2 schools in the district. Subsequently, Jim became superintendent and Frank Dagne moved into the principal's chair where he eventually followed Jim to the top job, and then out.

During the years we went to 537 PTA meetings, 175 scout meetings, several thousand school board meetings and somehow managed to survive all those sweet cakes and paper coffee cups. We went into those first meetings with a svelte 32 inch waist, and 160 streamlined pounds, which is 5 and 20 less than the present figures.

In the early days we helped form a group with the lofty title of Better Schools for District 63. The first president, with a very limited scope, lost hold of the first meeting, and was never seen again. He once mentioned to me what an intellectual group was involved in this effort, which was the first time I began to think of lawyers as low men on the IQ totem pole. The "intellectuals" he referred to were primarily hustlers and con men who could have taught Bobby Riggs a few tricks. Some of them wound up on the school board, and most of them had the temerity to fight and scratch and battle for small issues which residents in the district now take-for granted.

Among the first battles was to bump heads with Jim Bagg who was resisting a full year's kindergarten. Additional battles included fighting for a language program in the schools. The Makelars successfully battled for a band program in the school district, and there were tens of meetings with paper coffee cups, in efforts to form caucus groups which would select more receptive school board members. And there were tens of meetings which resulted in fighting the multiple dwellings in the unincorporated areas.

There were many days of elegance. Buddy Kopald, representing the district, eloquently fought increased apartments in presentations before the County Zoning Board in Des Plaines.

**Girl's softball marathon**

Final preparations are being made for the fourth annual Niles Youth Congress Girl's Softball Marathon which will take place June 22, 23 and 24, 1973, at Jozwiak Park, 6851 Touhy ave., Niles. The affair is being sponsored by the Niles Youth Commission and all net proceeds will go to the Muscular Dystrophy Association of America.

The official "Can Day" on behalf of the Marathon will be held on Saturday, June 16, 1973. Many of the 200 girls participating in the Marathon as well as members of the Teens Against Dystrophy (TADS) will go forth asking the financial support of the community by donating whatever they feel possible. Residents are urged to support this Marathon and show encouragement to these fine teens for their heartwarming and unselfish efforts which display the type of youth representing our community.

Kicking off the Niles Youth Congress Girl's Softball Marathon "Can Day" for Muscular Dystrophy are Frank Wagner, Jr., Niles Village Clerk (sitting), and (standing l. to r.) Donna Bavaro, Marathon organizer, Mary Ann Massari, Youth Commission Marathon Committee Chairman, Ambrose Panico, Chairman of Youth Commission, Kurt Redig, Youth Commission Marathon Committee Chairman and Rhoda Salins, Youth Commission Secretary and Youth Coordinator.

**ADOPT CODE TO MAINTAIN EXISTING RESIDENCES**

A basic housing property maintenance code for the village of Niles was adopted by the Niles Village Board Tuesday night. Labeled an "important step in our community" by Mayor Nick Blase, the ordinance establishes minimum standards governing condition and maintenance of all dwellings.

This includes standards governing utilities and facilities in buildings, insuring safety and sanitary standards, fixing responsibilities and duties of owners and occupants, and the right to condemn dwellings unfit for human habitation.

A document entitled "The Basic Housing Property Maintenance Code," published by the Building Officials Conference of America, Inc., has in essence, been adopted as the official code. The pamphlet is on file at the Administration Building.

Niles Building Commissioner, Ben Mankowsky, will head the staff which will enforce the code. Mankowsky told The Bugle plans for the new operation are presently being finalized and enforcement of the code will start immediately. With the passage of this ordinance, Niles joins Evanston as the only cities in the area with a housing code. However, Mankowsky predicts that within five years, every community will have such a code.

"After 20 years, a house or apartment could be in pretty bad shape," he said, "it must be checked."

Blase told the Board "we have never gone into residential areas, but we must prevent development of depressed areas that one can find in Chicago."

It is also hoped the new code would uphold a standard of property which would maintain property values.

In other actions, the Board discussed the feasibility of requiring service businesses to acquire insurance to protect their customers' property while on the

#### SCOTS keep watchful eye

Dear Editor:  
As a result of action taken by the SCOTS Party in the Circuit Court, Niles Township Supervisor Anderson and Auditors Feder and Numrich and ex-auditor Slade have been ordered to return \$1995 to the Township Treasury which they spent for campaign purposes prior to the April election.

The SCOTS will continue to monitor Township spending in an effort to protect the taxpayer and preserve local Village government. Anyone wishing to be on our mailing list may call 673-4154 or 965-7023.

The Town Board is proposing a budget of some \$245,000 for fiscal 73-74. This includes \$80,000

to finance the Skokie Drug Counseling Program for 10 months. The size of the budget determines the 1974 tax levy. We urge the public to attend the budget hearing on June 25. It is an open meeting to provide the opportunity for the taxpayer to ask about expenditures, salaries and programs before the budget is formally approved. A copy of the proposed budget will be posted at the Township Building the week of June 11.

Sincerely yours,  
Verna Beaver

#### Auto pollution check-up

Increased numbers of automobiles in the suburban areas of Cook County will undoubtedly increase pollution problems in the years ahead, according to a leading Chicago area health agency executive.

Commenting on the opening of a summer-long free pollution check-up program this week, John E. Egdorf, executive director of Chicago Lung Association, stated that "A carefully planned approach will have to be taken to solve the problem created by rising demands for transportation since the roads are already clogged with cars today.

The summer pollution testing program conducted by Chicago Lung Association, the Christmas Seal agency, will be offered to the public in Niles from Aug. 28 to Sept. 1.

These tests measure a car's output of carbon monoxide and unburned hydrocarbons, two of the main constituents of air pollution caused by cars and trucks, and

tell if a car meets the new Chicago air pollution standards. The electronic exhaust emission analyzers for the tests are furnished by the Atlantic Richfield Clean Air Caravan.

### Retirement dinner for Ralph J. Frost

More than 300 friends and colleagues of Ralph J. Frost, Assistant Superintendent of the Maine Township High Schools, honored him at a dinner Monday evening, June 4, in the Grand Ballroom of the O'Hare Inn. Mr. Frost has announced plans to retire at the end of the school year, bringing to a close a 36-year career with District 207.

Board members, past and present, were on hand Monday evening to commend Mr. Frost for his service to the district and to wish him well. Also present were professional and non-certified personnel from the district's 4 high schools, as well as many former faculty members with whom he had served over the years.

After thanking his friends for their good wishes and memories, Mr. Frost told them, "I have greatly enjoyed my years with this fine school system, and have many, many pleasant memories to carry with me. As you know, I have been with the district since the days when there was only one Maine high school and 1,800 students. Though in some ways I am reluctant to leave, I feel that while I am in good spirits and good health, this is the proper time for me to go. I shall miss all of you, very, very much."

Mr. Frost joined the Maine staff in 1937 as an intern teacher in English while working on his Master's degree at Northwestern university. He accepted a full-time position at Maine in 1939 as a teacher of sophomore and junior English and sponsor of the school paper.

### Tennis review

Maine East's racquetmen concluded their 1973 season with a 2-14 record. Mr. Art Belmont's varsity squad, which faced stiff competition from the newly entered Central Suburban League, selected Tim Brosnan as Most Valuable Player, and Bill Jensen and Lee Anderson were voted co-captains. Sophomore Dave Mozdren, playing varsity this season, also deserves recognition for his performance this year. He won the third singles championship at the Maine South Varsity Tournament.

The team's two victories came at the hands of Maine North, 5-0, and Morton East, 5-0, leaving them with an eleventh place conference standing.

On the sophomore level bright futures have been predicted for Most Valuable Player freshman Jim Harkensee and Elk Grove Tourney winner Bob Kosberg, a sophomore.

The sophomores finished their season with a 26-46 match record, the highlight of the season being a second place finish in the Elk Grove Sophomore Tournament.

### Students paint wall murals

Steve Snodgrass and Mark Sorkin, Team 6 students at Nathanson school in Des Plaines, have recently completed work on 2 large murals for the school learning center.

Mark and Steve were selected from entries of sketches submitted by Team 6 students. Their classmates selected the 2 best sketches, which were then approved by learning center director Ilona Marmer, principal Stewart Liecht, and District 63 art coordinator Harriet Judy.

The students then painted the mural directly on the wall of the learning center. The two ecology-oriented murals make a significant contribution to the learning center atmosphere. In addition, this unique opportunity serves to encourage young artists and helps make the school more child-centered.

### James L. Coburn named principal of Maine West

James L. Coburn, assistant principal of staff at Maine West High School for the past 6 years, and acting principal of the school since April of this year, was named the new principal of Maine West by the District 207 Board of Education at a special meeting of the board Wednesday evening, June 6. He succeeds the

late Herman L. Rider who passed away April 27.

Mr. Coburn joined the Maine school system in 1958 as a teacher of English at Maine Township High School, now Maine East. In a few years he was made Director of Reading, and later became a counselor of freshmen and sophomore boys. When Maine South opened in 1964, Mr. Coburn was appointed Director of Guidance at the new school. He also took on the assignment of summer school director at that school. In 1967 he was made assistant principal in charge of staff at Maine West.

Mr. Coburn holds a Bachelor's degree from North Central college and a Master of Science in Education degree from Northern Illinois university. He has also done extensive additional graduate work at that university.

Mr. Coburn and his wife, Julianne, and their 4 children reside at 1844 Everett ave. in Des Plaines. The family attend the Emmanuel Lutheran church in Des Plaines, where Mr. Coburn is Chairman of the Congregation. He is active in community affairs, and is a member of Des Plaines Rotary and of the Des Plaines Youth Council. He is also a member of several professional organizations, among them the National Association of Secondary School Principals, the Illinois Principals Association, and Phi Delta Kappa.

In addition to his role as assistant principal, he has served the district as director of internal systems, which is the key liaison role between District 207 and the Institute for Education Research TIES program (Total Information Educational Systems.) In this role he has helped establish the new data processing system which now serves the Maine high schools and 5 other suburban school districts.

In speaking of Mr. Coburn's appointment, Dr. Richard R. Short, Superintendent of Schools, stated, "I feel confident that the insightful and dedicated leadership which has been exemplified in the office of the Maine West principal through the services of its former principals, Ralph J. Frost and the late Herman L. Rider, will continue under Mr. Coburn. He has always gone the 'extra mile' that assures the success of any undertaking. I look forward to sharing with him in the administrative decision making, so vital in the maintenance of high quality education programs for the young people of our district."

## Inflation hasn't changed the price of ashes.

But it has changed the price of your home. For example, if you bought a \$20,000 home in 1968—today it's worth about \$27,000. Don't be left with a costly pile of ashes. See me about a State Farm Homeowners Policy that will cover your home for all it's worth... and keep it that way with automatic Inflation Coverage.

The closeup of the front of a Crossbar switch shows the horizontal and vertical bars which cross each other in a lattice work fashion. Several Crossbar switches, along with other components, make up one frame which can handle 300 subscribers. The system will begin clicking away shortly after midnight this Sunday, June 17, with more frames planned for future expansion.

## 'Zero hour' nears for Centel cutover

"Pull the pins!"

That's the cry that will mark a change in telephone service to approximately 11,000 Park Ridge customers and the completion of Phase IV of Central Telephone Company's program of expansion and modernization.

Customers in Park Ridge with the prefixes 692, 698 or 823 will be cutover to a \$3.5 million Crossbar Switching System Sunday, June 17, shortly after 12:01 a.m. If no emergency calls are in progress, the go ahead will be given to cut the thousands of wires connecting the subscribers' telephones with the older Step-By-Step Switching equipment. Emergency lines will previously be separated into one bundle and will be the last to be cut.

Once all the lines to the Step-By-Step equipment have been cut, "Pull the pins" will signal another group of employees to pull out the blocking pins and the new Crossbar frames will be clicking with activity.

The cutover follows months of installation involving 40,000 man hours, 8,500 man hours of testing, 125,000 feet of wire and 425,000 feet of cable tied in with 2.5 million connections.

Only momentary interruption of phone service is expected. The midnight hour was chosen because of its normally low call volume. Switching offices across the country were then notified of the cutover time.

About the only noticeable difference to the customer will be a change in dial tone, which can be heard now by calling 825-7850.

The new Crossbar equipment is one of the most reliable types of switching systems in use today and is especially designed for the needs of a heavily populated area. It offers faster and more efficient switching of calls.

Since the Crossbar equipment is manufactured by Western Electric, it is also directly compatible with Illinois Bell equipment in the surrounding area. For the first time, Touch Calling service will be available to customers affected by the cutover.

## Cutover signifies end to old friend

Mr. S. B. Step, of 26 S. Fairview, Park Ridge, just celebrated his 23rd birthday. Unlike most 23-year olds, however, his future is doomed to a rather inglorious end: an end which is coming Sunday at 12:01 a.m.

You see, the service which Step used to provide to his 11,000 customers with the telephone prefixes of 692, 698 and 823 is no longer the best in the field. His usefulness has decreased. Therefore, he is being replaced by Central Telephone Company of Illinois can provide the best possible service to its customers.

Other members of Step's family have met the same fate since Centel began its expansion and modernization program in 1967. Two Des

Plaines relatives were done away with, one in 1968 and 1972 and a Park Ridge relative in 1969. The one remaining member of the family will soon be replaced in Des Plaines.

The Mr. Step of whom we speak, formally known as Step-By-Step Switching Equipment, received a star's welcome when he was installed 23 years ago.

But times and technology have changed and a different system has become available to us who goes by the name of Crossbar. Crossbar is a steeper in switching calls and is directly related to the Illinois Bell switching equipment in the surrounding area, both having been manufactured by Western Electric.

When a call reached Step, he extended the call down progressively "step-by-step" to the desired terminal after the customer dialed the number.

Crossbar was named because his switch is a rectangular device with horizontal and vertical bars crossing each other in a lattice work fashion controlled by electromagnets.

At 12:01 a.m. Sunday, the wires connecting Step with his customers' telephones will be snipped by Centel employees, many who have worked with him for the past 23 years.

Once all his wires have been snipped, the signal will be given and the holding pins which have held back Crossbar during the past months of testing will be pulled out, completing the cutover to the \$3.5 million Crossbar and the end of Mr. Step.

At 12:01 a.m. Sunday, June 17th, Central Telephone employees will begin cutting the thousands of lines which connect the older Step-By-Step switching equipment with subscribers' telephones.

After all the lines have been cut which connect with the Step-By-Step switching equipment, the blocking pins (above) will be pulled out and the new Crossbar switching system will begin clicking with activity as calls are placed.

## ... But the changes are far from over!

This room (above) resembling any modern business office will soon take the place of the more traditional toll switchboard operation below. Once the wiring and testing of the Traffic Service Position System (TSPS) units above are completed, most of Centel's operator-assisted calls will be handled in this room.

It's been a busy and exciting year so far for Central Telephone Company, beginning with the January move to the new Division Headquarters Building at 2004 Miner Street in Des Plaines.

But it looks like the remainder of the year and those to come will be even busier — all in an effort to provide continuing improvement of service to our customers.

Centel has spent close to \$70 million since it began its five-phased expansion and modernization program in 1967 — and we're not done yet! In order to continue upgrading our service to you, several additional programs are planned and many already underway.

Specifications for bids will soon be ready for a three-story addition to the Des Plaines switching facility at 767 Pearson, estimated to cost more than \$1 million. Once completed, two floors of the building will immediately be occupied as the installation and testing of the fifth Crossbar Marker Group begins. The other floor of the addition will be available for future expansion.

Also in the works is the installation of the Traffic Service Position System (TSPS) units which are cordless, all-electronic switchboards offering faster and more efficient handling of operator assisted calls. The initial installation of TSPS will cost close to \$5 million and is expected to be in operation in the fall of 1974.

The 62 TSPS positions will serve all Central Telephone customers in Park Ridge and Chicago, in addition to Des Plaines hotel and coin phone customers.

Another change planned which will result in improved service to customers is the modification of existing Crossbar equipment to provide Dial Tone First on pay telephones. This change will, among other advantages, allow the caller to reach the operator in time of emergency without needing any coins.

An additional diesel power plant costing \$75,000 has been installed in Park Ridge to ensure the continuation of telephone service during power failures.

Each year, Centel continues to bury more and more cable not only providing more trouble-free service but also helping to improve the environment by removing overhead lines.

We've come a long way, but we haven't stopped looking to the future for ways we can better serve you.

Bids will soon be advertised for an this 3-story addition to the Des Plaines switching facility at 767 Pearson. The addition is expected to cost more than \$1 million and will make room for the fifth Crossbar Marker Group installed as part of Central Telephone's expansion and modernization program begun in 1967. Two floors of the building will immediately be occupied with the new Crossbar equipment, with the other floor available for future expansion.

For Central Telephone Company, the year of 1973 got off to a busy start with the move of most Division personnel into the new Division Headquarters Building at 2004 Miner in Des Plaines. The move was the first in a series of improvements planned for 1973 and the years to come as Central Telephone works and plans to keep with its pledge of providing the best service available to all its subscribers.

## District 207 board adopts 1973-74 teacher salary schedule

At a special meeting Wednesday evening, June 6, the Board

of Education of Maine Township High School District 207 adopted a 1973-74 salary package which gives District 207 teachers a 5.5% cost of living increase, plus added fringe benefits.

The 5.5% salary adjustment is in addition to the annual one-step increase given on the basis of experience, evaluation of services and additional training. The annual one-step increase for those with a Bachelor's degree average \$360. Nor persons on the Master's column and beyond, the annual one-step increase averages \$530.

The new salary schedule will cost the school district \$10,377,060. This is \$703,750 or 7.3% more than the cost of the 1972-73 salary schedule which cost \$9,673,310.

The added fringe benefits in the areas of health care and life insurance will cost the district an additional \$23,400, bringing the total cost of hospitalization insurance and term life insurance for the professional staff for 1973-74 to approximately \$284,000.

The 1973-74 salary package was presented for board action by members of the board's Professional Negotiations Committee, William F. Wuehrmann, Robert C. Claus, and Leonard R. Grazian. Board President Claus pointed out that, in the past, such salary schedules had been worked out through amicable negotiations between the board and the teachers' association. He stated that for the past several months the board's bargaining committee had attempted to negotiate in good faith with the Maine Teachers' Association, and did so according to the provisions of the joint Procedural Agreement for Negotiations entered into by both parties.

However, board efforts to work out a fair and equitable salary settlement were consistently undermined by the MTA, Claus said, adding that by deliberate actions the MTA had worked to create artificial animosity between the board and faculty; had created an atmosphere of suspicion, doubt and fear as to the intentions of the Board of Education relating to negotiations; and had impaired the morale of the professional staff. He stated that such actions

by the MTA made further negotiations impossible.

Claus cited many instances in which the MTA had violated the joint Procedural Agreement; by taking its case directly to the public while negotiations were still going on; by holding rallies and a planned demonstration; by the issuance of news releases revealing information concerning the progress of negotiations, not mutually agreed upon by the board and MTA bargaining committee; and by instigating "coffeees" in the community, ostensibly to consider quality education in the schools but in reality to gain public support for the demands of the MTA.

Determining that the spirit and legality of the Procedural Agreement for Negotiations had been rendered null and void by these breaches by the MTA, the Board of Education voted unanimously to terminate the Agreement. It then went on to consider and approve the 1973-74 salary schedule and fringe benefits.

The new schedule will increase the base pay for a beginning teacher with a Bachelor's degree from \$8,590 to \$8,900, and a teacher with a Master's degree but no teaching experience from \$9,285 to \$9,500. The top scale for a teacher with a Master's degree, reached in 16 steps, will be \$17,450, while a staff member with a Master's degree plus an additional 64 hours of graduate credit will receive a top of \$20,165, reached in 20 steps. This is an increase of \$1,055 over the 1972-73 schedule.

The district's present hospital and medical benefits program, as well as its group life insurance program and income protection program for its employees will be continued, and additional benefits included. The district completely funds the group life insurance and income protection programs, and pays two-third of the cost of its Blue Cross/Blue Shield hospital and medical benefits program.

The Board will now pay two-third of the premium cost of a diagnostic rider to this Blue Cross/Blue Shield program, with each staff member paying only one-third the cost. Hereafter, each employee paid for this diagnostic rider premium.

White Sox	4-1-0
Indians	4-2-0
Yankees	1-3-1
Athletics	1-4-1
Orioles	1-4-0
Senators	0-5-1

May 31  
 The Yankee and Athletic game ended in a 7-7 tie, with the game called at the end of 7 innings due to darkness. The Athletics were losing 6-3 in the 6th inning when John Vinci hit a home run, with 2 men on base, to cause the game to go into extra innings. The pitchers for the Athletics were Robert Grant, Brad Zirlin, Mark Steinberg, and Michael Kalinsky. The Yankees used John Gernahr, Eugene Panek, and Wally Jan-czewski.

The Orioles won their first game 6-1 over the Senators. Joe Falkovitz came thru with a big double in the fifth inning, and Steve Harrer's combined with Craig Sloan to cap the pitching honors for the winning Orioles. Steve Sanders and Peter Meehan shared the pitching in a losing effort for the Senators.

The Tigers moved into first place, with an excellent pitched game by Klein and Schubert. The final score Tigers 6 - Red Sox 0. This was the second consecutive shutout pitched by the Tigers. Winning manager, Ivan Schubert, attributed the success of his pitchers to control and good hitting.

The White Sox moved into contention with a 9-8 victory over the Indians. The Sox narrowly held on against a strong late inning rally by the Indians. Down 9-1, the Indians came storming back with 7 runs in the 5th inning. Bob Wieland was credited with a clutch save, while Hoepfner was the starting and winning pitcher. Hoepfner continued his hitting streak with 2 for 3 at the plate, driving in 3 runs. The Sox were led offensively by catcher John Tokoph, who was moved into the cleanup spot and responded with 3 solid hits.

Four games were played Saturday, June 2, at Thillens Stadium, and a great day was had by all spectators.

The Indians beat the Yankees 8-5 in the 1 p.m. game. In the second south minor league game, the first place Tigers came from behind to win 9-8 from the Orioles. Clifford Schubert saved the game with fine pitching and Andy Zwett scored the winning run on a towering hit by Steve Frelborn. The third game was won by the second place Red Sox over the Senators. The final score was 11-1. The final South Minor section game played Saturday was won by the White Sox over the Athletics 7-4. It was a hard fought game by both teams. The White Sox with their win remain tied for 2nd place. The White Sox continued to tighten up the first half race in the South Minors with a 7-4 decision over the Athletics at Thillens Stadium last Saturday. The Sox are now 4-1 and have played improved ball in winning their last 3 outings. Down 2-0 the Sox rallied for 6 runs in the 3rd inning highlighted by Ben Tittelbaum's bases loaded double. The Sox cause was aided by Darren Hoepfner who went 3 for 3 at the plate and was the winning pitcher in the contest. The Sox turned in one of the finest defensive plays of the season in the 5th when Steve Risoff's perfect peg from center field cut down an A's runner attempting to go from first to third on a single. Sox 3rd baseman, Tittelbaum, laid the tag on and snuffed out the makings of an A's rally.

For those of you who were present at Thillens Stadium Saturday and weren't able to see the

4:30 p.m. game at the north diamond, missed the most spectacular game of the day. It was the Red Sox vs. the Senators. The game was called after 4 1/2 innings because time was running out. The score was 19-1 in favor of the Red Sox with the Sox at bat, two men on base, and one out. The win can be attributed to the fabulous pitching combination of Mike (Bomber) Brown and Ken (Battling) Burre. John (Buzzin) Braeske and Bob (Powerful) Paganucci were both 4 for 4 at bat. Some outstanding plays by Ricky (Speedball) Schmidt, Tim (Tiger) O'Brien, Len (Lon Man) Gail, and Michael (Hands) Nahabedian. Of course the hits of Tom (Whistling) Winkler, Mike (Iron Man) O'Brien, Steve (Killers) Karbow-ski and Mike (Sluggin) Siko were outstanding. Last, but far from least Brian (K.O.) Overst put out 2 men at home plate. The excellent coaching of Nick (Clever) Koene and Don (Sneaky) Schmidt should not go unmentioned. A special thanks to manager Michael (Casey) Schmidt.

## Ella & Count at Mill Run

The beat goes on at the Mill Run Theatre with the appearance of two thoroughly seasoned jazz performers, Ella Fitzgerald with Count Basie and his Orchestra, on Tuesday, June 12 through Sunday, June 17.

In a recent interview with the Philadelphia Inquirer, Ella commented that working with Basie is always a special treat. She said, "Basie is just amazing. His tempos are fantastic. No one else can touch him."

Ella could have been referring to herself. Similar to Basie, she's in a class all of her own. She has that rare talent to take a song and make it her own. And she has consistently polished that talent since she was a 16-year old amateur contest winner at Harlem's Apollo Theater in 1934. Over the years, she has won a legion of loyal fans from all over the world.

Count Basie has also earned a

global reputation for his achievements in the music world. The fact that his fellow musicians consider the Basie Band the "Greatest Ever" may be the most appropriate accolade. For almost four decades, he has maintained a band renowned for its driving impetus. His consistent allegiance to the beat has made Count a truly modern musical immortal.

Performances will be held Tuesday through Thursday at 8:30 p.m., Friday and Saturday at 7:30 p.m. and 10:30 p.m., and Sunday at 5 p.m. and 8 p.m. Tickets may be obtained at the Mill Run Box Office and any Ticketron outlet. For ticket information, call 296-2170.

## THE CORNERS of Where it's at and What's happening. By Ed Hanson

Pot-Pourri about the week that's gone and the one that will be. PROFESSIONALISM... people and businesses who do not possess it will not long survive in the super competitiveness of our times.

Jake Joseph is a professional in his field of endeavor—the restaurant business. Jake, who owns that highly successful emporium in Niles—JAKE'S RESTAURANT—has 'em standing in line.

He knows how to manage, promote and take care of his store. And he likes to get involved with civic affairs.

Next Sunday, Jake salutes the "Father Of The Year Of Niles." And the "Father Of The Year Of Niles" is James Turk, 6820 Howard, Niles.

Next Sunday, Father's Day, James Turk, his lovely wife and their 14 children will be the guests of honor at a special table at Jake's Restaurant, 7740 N. Milwaukee ave., Niles. Some of the Turk children are married and also have children so at the large table next Sunday will be 24 members of this fine 1st family of Mr. & Mrs. James Turk.

All five Bugle newspapers will carry a picture and story regarding this celebrated family of Niles in their June 28th issues. Jake has had a beautiful plaque made which will be presented to the "Father Of The Year Of Niles" by suburban Mayor of the year, the Honorable Nicholas B. Blase.

Speaking of super families, super restaurateurs, super mayors, how about that super horse, Secretariat. This big horse of the year last week made a shambles of the 105th running of the Belmont. A long time back I said in my column that Secretariat would win the triple crown—so did many others. Tho' no surprise that he won the triple crown, the manner in which he won it was a disappointment to me. He only won by 31 lengths. I had predicted he'd win by 35 lengths. Therefore, this horse isn't as good as I gave him credit for. You see, that's the trouble with being number 1—you never try as hard as you should.

PROFESSIONALISM... the 10th anniversary of the Niles Policeman's ball sure had it. Everything about it was top-drawer. Held at the posh mammoth Allgauer's Fireside Restaurant in Northbrook, everything from the soup to the entertainment was super superb.

Tom Ferraro deserves a lot of credit for the manner in which he organized it and carried it off. Ed Sullivan couldn't have topped it.

The excellent master of ceremonies, Ralph Carnevale, the great comedy and dances by the Carnevals, the ever-popular "Harmonicals," the special guest toastmaster, WIND's Larry "The Legend" Johnson and the terrific rhythmic dance music by Peter Palmer all combined to make it an enchanting evening well worth the 35 bucks per couple charge.

I had a wonderful time and so did the 3 wealthy widows who 'brung' me there. I felt so secure; nobody was mugged; slugged; drugged or shot—the security was super.

At my table was Jim Turk of heating & air conditioning fame, and his lovely wife and John Dennis of the Niles police dept. and his very charming wife and some other nice folks. And the 3 wealthy widows that 'brung me' there, also had a wonderful time dancing with me, the second greatest ballroom dancer in the world. By the way, I've never met the first.

Anyhow, those 3 wealthy widows who 'brung me' to the Niles Policeman's ball had a ball. Actually they're trying to get their manicured claws on my money. Seems somehow word got out that I'd made a \$2 parlay on Secretariat to win the triple crown and also that I'm now eligible for social security. This has thrown the three old but charming gals into a frantic three-way matrimonial race with the stakes being my purse. But I've a good arms-length lead on 'em and like Secretariat I intend to improve my position until I'm 400 lengths ahead. In this way I'll flee from the altar of agony and escape the ring one of 'em has for my nose.

Jake, of Jake's Restaurant also tells me that he plans to honor the gal selected as "Miss Niles Days" as he did last year. Jake, a true pro, always does things up right and with style... See you next week.

P.S. The Cubs big losing streak starts July 10. It'll be 14 straight losses, which will beat their record established in 1944 of 13 straight losses, aha.

AUTHOR'S NOTE: What have I done for you lately? - Just this; drop into "The Back Room" in Niles and say, "Ed Hanson" and you'll get a free drink of your choice... so have one on me, my readers...

## Eastgate condominiums suburban living at its best

Far from the din of the city, street crime, close living quarters and traffic congestion, general contractors have set their goals on a new form of contemporary living... the suburban condominium.

There has been relatively little activity in Lombard as far as multi-unit dwellings until recently. However, one of the newest editions to Lombard, The Eastgate Condominiums, now invite us to "Step into a new lifestyle."

Located at 1150 Jackson Terrace, the attractive four-building project will soon offer 150 new homes.

Boasting many unique and refreshing ideas for leisurely living, Eastgate Condominiums offer an unmatched, year-round swimming club, highlighted by a huge luxury pool, a "cabana" poolside atmosphere, a relaxing sun deck, and sauna baths on a reservation basis.

As for the actual condominium structures, a huge and gracious two-story lobby greets visitors with the warmth of a brick floor-to-ceiling fireplace and glass walls, which display the park grounds beyond. Each unit owner has privilege to a spacious community room, which is also two stories, and landscaped terraces which serve as an outdoor theatre or space for rich relaxation.

Eastgate owners will appreciate the underground, heated garage, which offers self-parking, remote control doors, elevator service and additional underground space for a second car or guests' cars.

Unit owners at Eastgate will also be delighted by the many decorator touches that have been so carefully planned at the project. Each kitchen offers a choice of colors in cabinets and formica counter tops. All electrical appliances, including a 17.3 cubic foot refrigerator-freezer and a continuous cleaning double oven with a range hood and outside exhaust, a front loading dishwasher, double stainless steel kitchen sink, single lever faucets kitchen pantry and broom closet and a separate breakfast eating area create the perfect gourmet atmosphere!

Eastgate occupants can bathe in luxury with matching vanities, medicine cabinets, ceramic tile floors; bath and showers equipped with anti-scaud pressure balanced valves, and electric heaters that can be used as hair dryers.

Additional apartment-home features include a dry bar option, wall-to-wall shag carpeting in color choice, individually thermostatic air-conditioning and heating controls for each room, chandeliered dining rooms, cafe louvered doors, instant touch lighting, spacious double-walk-in closets with paneled floor to ceiling doors, additional bulk storage lockers, and free decorating counsel from a professional interior designer.

One of the most appealing features of this new lifestyle is the price! An Eastgate condominium home starts as low as \$28,500, with liberal 5% down financing

## Maine North summer band schedule

Maine North's Music department chairman, Mr. O.D. Premo had announced the schedule for the summer school band session.

Mr. Premo stressed that incoming freshmen must attend if they wish to be placed in the Cadet or Concert Band in the fall. Students may enroll at Maine North's Guidance Department for the programs which run from June 18 to June 29 and from July 9 to July 20.

The session will be held from available. Many owners soon realize the important tax savings benefit of owning a condominium, also. Mortgage interest and real estate taxes are deductible expenses, consequently approximately 70% of an owner's total monthly payment is tax deductible!

For those interested in a tour of the new Eastgate project, take the Eisenhower Expressway to the Roosevelt exit. Go west on Roosevelt and turn right (north) on Meyers Road (also Westmore) on Meyers turn right (east) to Jackson Terrace.

Eastgate Condominiums are open daily for inspection, 11 a.m. to 8 p.m., and interested parties can reach a qualified representative of the project by calling 495-1030.

On Friday, June 1, the Cards and Braves completed a game that had been successfully protested. The game resumed play at the top of the 3rd inning with the Braves leading 1-0. Featured was 3 good innings of pitching by Stu Epstein, the Braves' starter for the night, this was followed by 2 excellent innings of relief pitching by Steve DiBastilo. The tight pitching and some timely hitting by the tough Braves resulted in a 5-1 victory for the Braves, their first of the young season. The Braves hardly had enough time for a good night's sleep as they were at Harrer Park to take on the Dodgers the following morning at 9 a.m. This game featured some heavy hitting by both teams, as well as some outstanding clutch pitching. The Braves, who seem to be hitting their stride, were able to squelch a Dodger uprising in the final inning to come out on top 6-4.

Special mention, however, must be given to Frank Trojan, who came into pitch for the Dodgers in the 4th inning and did a fine job of striking out 8 Braves in 4 innings, 6 in a row. Mark Berns went the route for the Braves and was real tough when he had to be. In addition to his fine pitching, Berns delivered 2 hits as did Stu Epstein and Jeff Mueller for the Braves and Frank Trojan came through for the Dodgers with a home run and a single.

### Art teacher studies abroad

Traveling and learning, combined with art, will be this summer's theme for Pete Belpulsi, Maine East art teacher.

Mr. Belpulsi plans to attend the Academy of Fine Arts at Perugia, Italy, on a full time basis from July 1 to Sept. 1. He will be instructed on all forms of painting by a foreign faculty in an attempt to "enrich my scope of art."

Also accompanying him will be his family. They will leave from O'Hare International Airport on June 14 for Luxembourg. Then by way of Eurail, the European railroad system, they will visit points of interest in France, Belgium, Holland, Germany, Switzerland and then on to Italy.

Weekends will include trips to other cities of Italy such as Rome, Venice, Florence, Naples, Milan, and Foggia to view and film the works of the Great Masters. They also plan to visit museums of the area.

### From the LEFT HAND

Continued from Page 1

There was fresh thinking. Twelve years ago Earle Epstein tried to arouse the community to work for incorporating the area west of Milwaukee ave. Such an effort would have led to better zoning control which would have lessened the burden on a district which went from 2 to 12 schools in about 10 years.

There were exasperating moments. A school teacher once stopped me and asked if the only Jewish boy in the family is treated more "princely." She was having troubles with my son and her question was for real.

And there were moments of thoughtfulness. As each high school graduate from Oak School receives her diploma a graduation card is always waiting in the mail box from kindergarten teacher, the same Mrs. Hartzell who started "her" kids on their way 12 years before.

When we started in district 63 most of the teachers were at least our contemporaries. Last year I spoke to a group of 7th graders and the teachers who greeted me were only a couple of years older than my oldest child. While I was amazed these students had such young teachers I guessed there have always been young teachers around . . . though they didn't seem to be so young in past years. Undoubtedly, there has to be a message there. And the message has to be it's time to move on . . . and say "Farewell to '63."

could be resolved outside of the union setup and that the Board was unprepared to deal with the issue, because of the tangled question of home rule.

"I've thought about it quite a lot," Ashman said, "and I'm quite prepared to deal with it." Bode, who blamed the situation on "lack of communication" between the board and the union, called for another board-union meeting for sometime next week.

After several minutes of deliberation on a date convenient for all the trustees (which Bode said was their biggest problem - finding a time when all of them could meet), they agreed to meet June 21 at 7 p.m. It will be the Board's second meeting next week - they plan to meet June 19 for a public hearing on the village budget.

After the meeting, Krueger said the union would begin "informational picketing" in front of the Village Hall and the fire station. He also said the union would soon establish a public relations setup to air their grievances, heretofore kept confidential, to the press and public, in hopes of putting pressure on the board to change their minds.

"We haven't wanted to air our dirty linen in public," Krueger said. "But after waiting this long (they first applied for recognition Jan 19) we feel we have no other choice."

In other actions, the Board threw out an ordinance that had prohibited cars from parking on public streets between 2 and 5 a.m., approved a low fare bus ticket plan that especially benefits senior citizens, and agreed to crack down on non-purchasers of the village's \$10 vehicle sticker.

The new ticket plan applies only for the new North Suburban Mass Transit District bus route that begins Monday. The buses will run along Dempster Street from Des Plaines to Evanston, stopping at most traffic lights along the way. Individual fares will cost 45¢, but 10-ride tickets can be purchased at the Morton Grove Village Hall for \$2.50 for senior citizens and \$4.50 for everyone else.

Due to the \$1.80 per senior citizen subsidy involved, the plan will be tried for 90 days on an experimental basis and only 500 tickets will be purchased at first. The money will have to come from the city's general fund, and the trustees felt they could not afford to fund the program permanently that way.

The vehicle-sticker crackdown will take the form of a city funded study to discover which residents own cars. The information will be culled from the Illinois Department of Motor Vehicles computerized files. All vehicle owners who are not listed by the village as having purchased the stickers will be ordered to do so by mail, and will be taken to court if they refuse to comply. The study will cost \$350, said Village Clerk Fred McClary and should result in added revenue because "I'm virtually assured we have more than 35 cars without tags." He said the study would take from two to three months.

### Fire prevention

Cont'd from Lincolnwoodian P.1  
mercial and industrial residents, Niles has a continuous program in its local schools, as well as in issuing pamphlets to the community, and news releases to 5 local newspapers, educating the public on fire safety and fire prevention.

A recent report from the National Commission for Fire Control, created by President Nixon, emphasized the need for educating the public, as well as exposing the public with pamphlets and other information. It also has reports on the importance of having a 2nd exit in the home, as well as preventing overloading of electrical lines. While it is presumptuous of a new newspaper in a community telling its long-time residents what is best for them, nevertheless the area of fire prevention can best be served by a local fire department.

There is a fire inspection program in Lincolnwood which is under the auspices of the Chicago Fire Department. But this recent fire tragedy begs the question whether Lincolnwood should consider having the same type of fire prevention and safety programs as all its suburban neighbors. Certainly, all of the suburban communities can't be wrong, while Lincolnwood, stand alone, has the right solution for its community.

Obviously, the cost of creating a fire department would be initially expensive. But the Monday morning fire which took six lives is much more costly.

In past years Lincolnwood has had several large fires. The Allgausers and Elliott's Pine Lodge fires were devastating. And the furniture store and lumber yard fires were extremely costly. Monday morning's fire was the most expensive. A committee to study the need for a local fire
