## BOARD OK'S 44 UNIT COMPLEX

By Karen Wolfson

### Police nab man in assault of 2 boys

Niles police Monday shot and wounded a Canadian man suspected of sexually assaulting two Chicago runaway boys in a Niles motel according to the Chicago Tribune.

The man, identified as Patrick White, 30, of Calgary, Alberta was listed in fair condition after undergoing surgery at Lutheran General Hospital, Park Ridge.

The go ahead was given Tuesday night for Niles' first condominium.

After some discussion on the request by the developer for a Planned Unit Development (PUD) zoning, the Niles Village Board approved construction plans for a 44-unit complex at 6872 Touhy ave. The PUD zoning allows a higher density than normal residential zoning, but takes into account all aspects of the planning of the building including landscaping and recreational facilities.

Speaking at the meeting, developer A. J. Del Bianco said, "Economically, the value of the land won't permit us to proceed under normal zoning."

The condominium's planning advisor, William S. Lawrence added that the PUD zoning "gives the community the opportunity to know what they are going to receive."

Fire prevention week

Shown above is Jule Bode, president of the Village Board, signing the Proclamation for Fire Prevention Week, Oct. 7 to 13. Capt. Fred N. Huscher of the Morton Grove Fire Dept. is also in attendance.

It's senior citizen time

Big! The big day Oct. 17 is around the corner as the Senior Citizen Community of Maine Township awaits the first in a new series of parties featuring free games, prizes and refreshments sponsored by Nicholas Blase and the Maine Township Regular Democratic Organization. The event is scheduled for 3 p.m. at the House of the White Eagle, 6835 Milwaukee ave., Niles. The doors will open at 2:30 p.m.

Volunteers from all segments of Maine Township (Morton Grove, Niles, Glenview, Des Plaines, Park Ridge, Rosemont) have responded with increasing enthusiasm to offer assistance in the preparation and participation in the games.

The series was developed by co-chairmen Nick Costantino, Niles and Carmen Cesario, Morton Grove along with Committeeman Nicholas Blase in an effort to give the senior citizen an opportunity to get out for an afternoon and relax without any worry or concern.

There will be two additional parties to be played in Park Ridge and Des Plaines in the near future, time, place and date to be announced. For those senior ci-

Young announces

Salute to Veterans

More than 80 veterans from area veterans hospitals will be guests at the Northwestern-Iowa football game to be played in Dyche Stadium, Evanston, on Saturday, Oct. 13.

The veterans will be guests of the 4th District of the Veterans of Foreign Wars, the University's athletic department and the N Men's Club, according to Rep. Samuel H. Young, (10th-IL), chairman of the event, the eighth annual "Salute to Hospitalized Veterans." A luncheon and dinner for the hospitalized servicemen will be held the same day.

Sutker to resume walks

Undaunted by the damp and rainy weather, Calvin R. Sutker, Democratic Committeeman of Niles Township and his dedicated entourage took their "Sidewalk Headquarters" into south-central Skokie last Saturday morning. With a colorful golf umbrella providing scant protection, Sutker greeted those hardy souls who emerged from cars and homes.

The "Sidewalk Headquarters" were closed on Yom Kippur, the Jewish High Holy Day.

Sutker will resume his Saturday morning walks through the township on Saturday, Oct. 13 at 11 a.m. in Golf and those precincts of Glenview which are within Niles Township.

The Woman's Club of Niles

The Woman's club of Niles, member of Illinois Federation of Womens Clubs 10th District will hold their Oct. 17 meeting at the Bunker Hill Country club, 6635 Milwaukee, 8 p.m.

This month's program will feature a prize winning play written and directed by playwright Mandy Honold of Niles. Mrs. Honold has won 1st and 2nd place literary awards in 1972 and 1973 from IFWC 10th district and state literary contests. The play "Frustation Block" takes place in a

women's prison and will star: Arlene Wajda, Dottie Krause, Jerry Bugarin, Barbara Hedrich, Millie Hanrahan, Terry Vasile, Valerie Bolton, Dorothy Warnke and Marsha Keith.

The October meeting is a reciprocity meeting and the Woman's club of Niles will be host to officers of many Womens Clubs affiliated with Illinois Federation of Womens Clubs 10th District. Guests are welcome to attend this meeting and the fee is 50¢.

### ND DONS, HOLY CROSS PLAY TO SCORELESS TIE

by Mike Lemanski

Notre Dame's Dons fought to their first tie of the season, as the Holy Cross Crusaders and the referees combined to hold ND scoreless. ND's defense proved just as strong, holding Holy Cross scoreless.

The game can be put bluntly: a rough, tough defensive game, a rough, tough defensive game. The Dons' had but eight first downs, three on their last possession. Holy Cross could manage only four first downs, one on an interference call.

The closest either team came to scoring was Mike Weiss' 43 yard field goal attempt, which landed 10 yards short. Outside of this neither team could dent the others' 20 yard line.

Holy Cross drove to ND's 21 yard line on 3:30 left in the game, only to have Tim Jackson come up with his second interception of the year. ND men drove down to Holy Cross' 43 yard line, with a second and 4 yards to go, QB "Jorge" McCaskey went back to pass. Finding no one open, he threw a job over "Buz" Naughton's head out of bounds. The refs, under pressure from the Holy Cross bench, slapped ND with a 15 yard penalty, ending the Dons' drive

with only 44 seconds left to play. Holy Cross took over at their own 45. With a second and 6 yards to go, QB John Morocco, he called a pass. As he dropped back Al Marzano blindsided him, forcing an apparent fumble. ND recovered at Holy Cross' 25 with :05 seconds to play. The refs, who took the Crusaders' side, and called the ball dead.

The refs got worse, tho. On the last play of the game, a Morocco to Gordon pass was intercepted on ND's 40 by Bob Keen. The refs called interference, HC declined, and the game ended scoreless.

On offense, ND did not look bad, Mark French leading all ball carriers, 40 yards in 14 carries, followed by Mark Mandolini, with 30 yards in 5 carries. McCaskey was 5 for 11 for 48 yards, Naughton getting 3 for 46 yards.

Holy Cross had only 45 yards from the line of scrimmage, 90 yards if you add in the refs' total. Aside from the refs, HC's leading ball carrier was Ed Borzema with 11 yards in 6 carries. ND's next game is Friday, Oct. 12 at home against Marist.

### Saints, Gladiators to battle Saturday

The supremacy of the Northern Division of the Chicagoland Football League will be at stake this Saturday night when the Niles Saints and the Chicago Gladiators battle it out in the Notre Dame H.S. Stadium, 7655 Dempster in a game starting at 8 p.m.

The Saints go into this game leading the Gladiators both offensively and defensively having scored nearly 12 points more on offense and having had 17 fewer points scored against them.

Last Saturday the Saints beat the Chicago Lawn Packers 20 to 0 on their usual rain-soaked playing field. Early in the first quarter Gus Williams hit his favorite receiver John Pecaro for a 35 yard touchdown pass. Wally Schulz kick was good and the Saints led 7 to 0. Midway through the second quarter Williams hit Pecaro again for a 14 yard touchdown. Schulz kick was blocked and the score at half-time was 13 to 0. In the third quarter Wally Schulz 27 yard field goal attempt was off but shortly thereafter, Saint's defensive back Bob DaGosto intercepted a Pecar pass and ran it 17 yards for the Saints final touchdown, making the final score 20 to 0. Final statistics showed the

Saints led the Packers 45 yds. to 0 in rushing and overwhelmed them in passing 172 yds. to 24. Leading rushers for the Saints were Claude Doucet with 5 carries for 24 yards and Tom Miniscalco with 9 carries for 29 yds. Leading in receiving were Jerry Cooney with 4 catches for 40 yards and John Pecaro with 4 catches for 134 yards.

Half-time entertainment this Saturday will be a scrimmage by the Niles Falcons Pop Warner League Football team.

Free 45 P.M. records will be given away to the first 100 people entering the gate and tickets will be drawn throughout the night for free record albums.

Dick Sainte, the team's official mascot, will be there to greet people.

This should be the most important game the Saints will play this year, so get there early for a good seat and see some really tough football this weekend!

### MAINE EAST TOPPLES MAINE NORTH 26-0

Maine East's Homecoming this year was almost a repeat of last year. We had the rain and the mud and the parade was called off.

The one difference between this year and last was the score. Maine East walked all over Maine North, 26-0.

In the first quarter of play, Mike Lausen ran 73 yards on a trap play for a touchdown. After the kick-off Maine North ran 4 plays and had to give up the ball in the entire first half. North couldn't get closer than third and eight in first downs.

The next Maine East touchdown was scored by Bob Rinke on a 12 yd. drive. The score was 12-0 in Maine East's favor.

Despite the rain and mud, quarterback Mark Franklin completed a 32 yd. pass to Scott Mearns for the third touchdown of the day. At the half Maine East was ahead 18-0.

Just as the Homecoming King and Queen were announced over the public address system in the second half, Maine North was punting. Mike Donatucci, the Homecoming King, received the punt and returned it for a 53 yd. touchdown. Mike Lausen scored the extra point to make the final score 26-0.

The sophomores won 18-6, the freshman A team won 44-0, and the freshman B team won 18-6 to give Maine East a clean sweep for Homecoming week-end.

On Saturday, Oct. 13, the Maine East squad travels to New Trier West. The varsity game begins at 2 p.m.

#### Seek volunteers

There is an ad we are all familiar with which reads, "Care enough to send the very best." The Northwest Suburban Unit of the American Cancer Society thinks that the "very best" right now would be any person who has some free time, a car at their disposal, and a concern for others. There are many cancer patients who need someone to take them to the hospital for post operative treatment. In most cases this means about two hours a week for a six to eight week period.

### Niles Community

Christian stewardship will be the theme of the 9:30 and 11 a.m. worship services of the Niles Community Church, 7401 Oakton st., on Sunday, Oct. 14, as the congregation prepares for its annual Stewardship Commitment Campaign. Care for toddlers through two-year olds will be provided during both services. Church School classes for three-year-olds through eighth graders will be held concurrently with the 11 a.m. service.

Church meetings during the week of Oct. 15 will include: Monday, 7 p.m. Confirmation Class; Tuesday, 7 p.m. Senior High Explorers group (Assistant Ministers home), 7:30 p.m. Board of Deacons; Wednesday, 7 p.m. Youth "drop-in", Confirmation Class, 7:30 p.m. Goal Setting Steering Committee; Thursday, 7:15 p.m. Junior Choir rehearsal; 8 p.m. Senior Choir rehearsal; Saturday, 6:30 p.m. Adult spaghetti dinner and program.

#### NTJC

The concluding days of the Sukkot Festival will be observed starting Wednesday evening, Oct. 17, at 8:30 p.m., and continuing through Friday morning, Oct. 19. Rabbi Neil Brief and Cantor Emanuel Abrams, will officiate. Yizkor Memorial Services will be held on Thursday morning, Oct. 18, starting at 10 a.m. On Thursday evening, Simhat Torah Festival Services will begin at 7 p.m. marking the conclusion of the Torah readings in the Synagogue throughout the year.

Bar and Bat Mitzvah students during the past year and those scheduled to become Bar or Bat Mitzvah in the year ahead have been invited to participate in the ending and beginning anew of the annual Torah cycle.

On Friday morning, Oct. 19, at the 10 a.m. service, a ceremony with the Torah Scrolls will be paraded around the Synagogue facility in jubilant procession. All are invited to attend.

For further information, call the Synagogue office, OR 5-4141.

## Women learn to talk football

It's that time of year again when strange sounds are emanating from the dens of America. Sunday afternoons are filled with explicatives such as "Get rid of the ball, you bum!" or "Try a double reverse" or "Fake a punt." These phrases are primarily spoken and understood by the male population, relegating most women to a state of ignorance, frustration and loneliness.

The Sports Department at the Mayer Kaplan Jewish Community Center is now offering a chance to close the communications gap by holding a workshop for women only, entitled "The Ins and Outs and Ups and Downs of Football." On Thursday, Nov. 1 at 8:30 p.m., Mike Berry, Football Coach at Penwick High school, will translate the language of football and provide a comprehensive understanding of the game, using films, slides and equipment.

Women who wish to re-establish communications with their male family members are invited to attend this workshop at the Kaplan JCC, 5050 W. Church st., Skokie. Admission is 50¢ for members, \$1 for non-members.

## Lessons for Young Bicyclists to Learn

Lesson No. 6 - Emergency Vehicles

Often young people riding bicycles hear sirens and see flashing red lights on police cars, ambulances, fire trucks and others. Sometimes youngsters are tempted to follow such vehicles to see what all the excitement is about. This is a very dangerous thing to do and it is definitely against the law to try to follow any emergency vehicle or interfere with them in any way. So that each bicyclist will understand his responsibility regarding such vehicles, we will go over each type individually.

**POLICE CARS:** Police vehicles, whether car, motorcycles, or others with police markings, should always have the right of way. This is especially important to remember when the police vehicle is using a siren and has its red lights flashing. This means that this particular police car is on an emergency mission and he must get to his destination as quickly as possible. Some police cars, with sirens on and red lights flashing may be in pursuit of a motorist who has violated the law or they could be chasing a hold-up man who has just robbed a bank. First of all, the bicyclist MUST remember that what the police car is doing, where it is going or who it is chasing, is police business! Never, under any circumstances, try to cross in front of such a vehicle going in either direction. Never try to follow it. Always get out of the way immediately. If you ignore this rule it could cause a very serious accident, and it could also cost you your life if you were hit in traffic by any emergency vehicle.

**FIRE TRUCKS:** Everone likes to see a fire being put out by firemen. Many youngsters would like to be firemen when they grow up, and this is a fine, upstanding profession. However, no one should ever try to follow a fire truck to the fire or attempt to cross in front of it when it is on the way to a fire! If a bicyclist should happen to be riding in an area where there is already a fire in progress, he must stay back out of the way. Never try to get close to a fire, for any reason, as this puts you in a very dangerous area where you could be hurt. Also, it would be very hard for firemen to do their job if there were youngsters sitting around on their bicycles watching the fire fighting. When you hear a fire truck coming, from any direction, pull over to the curb, wait until it passes, and then go where you were going before you heard it.

**AMBULANCES:** The rules for conducting yourself when you see an ambulance, with siren on and red lights flashing, is much the same as the rules for your behavior when you see police cars or fire trucks. Pull over to the curb, wait until the ambulance passes. Do not try to follow it, do not try to cross in front of it.

**ACCIDENTS:** Bicyclists, like motorists, often see accidents that have happened along the highways and streets. There may be police cars at the scene, fire trucks and ambulances. Remember, you must stay away from accidents and stay out of the way. If the accident has the road blocked, and you cannot continue in the direction you were going, go down a side street and make your way around the accident. Stopping in the street to watch what is taking place at the scene of an accident can very easily cause other accidents. The only time you do not leave the scene of an accident is when you have been involved personally in it or you were a witness to it. If you were involved in it then of course, you must wait for police because they will want to help you and ask you questions. If you were a witness, the police may want to ask you other questions, about how the accident happened. In these cases remain until a police officer tells you to leave.

QUESTIONS	Yes	No
The first thing to do when you hear a siren and see flashing red lights is pull over to the curb.	---	---
If you think the emergency vehicle is far enough from you, it is all right to cross the street in front of it.	---	---
Fires are exciting to watch, but you should NEVER attempt to follow a fire truck with its siren on.	---	---
Accident scenes should be avoided unless you are personally involved or saw the accident actually happen	---	---
You don't have to worry about an ambulance because its driver has to look out for you.	---	---
It is all right to follow a police car because maybe you can help the policeman.	---	---

**Inflation hasn't changed the price of ashes.**

But it has changed the price of your home. For example, if you bought a \$20,000 home in 1968—today it's worth about \$27,000. Don't be left with a costly pile of ashes. See me about a State Farm Homeowners Policy that will cover your home for all it's worth... and keep it that way with automatic Inflation Coverage.

**Lessons for Young Bicyclists to Learn**

Lesson No. 6 - Emergency Vehicles

Often young people riding bicycles hear sirens and see flashing red lights on police cars, ambulances, fire trucks and others. Sometimes youngsters are tempted to follow such vehicles to see what all the excitement is about. This is a very dangerous thing to do and it is definitely against the law to try to follow any emergency vehicle or interfere with them in any way. So that each bicyclist will understand his responsibility regarding such vehicles, we will go over each type individually.

**POLICE CARS:** Police vehicles, whether car, motorcycles, or others with police markings, should always have the right of way. This is especially important to remember when the police vehicle is using a siren and has its red lights flashing. This means that this particular police car is on an emergency mission and he must get to his destination as quickly as possible. Some police cars, with sirens on and red lights flashing may be in pursuit of a motorist who has violated the law or they could be chasing a hold-up man who has just robbed a bank. First of all, the bicyclist MUST remember that what the police car is doing, where it is going or who it is chasing, is police business! Never, under any circumstances, try to cross in front of such a vehicle going in either direction. Never try to follow it. Always get out of the way immediately. If you ignore this rule it could cause a very serious accident, and it could also cost you your life if you were hit in traffic by any emergency vehicle.

**FIRE TRUCKS:** Everone likes to see a fire being put out by firemen. Many youngsters would like to be firemen when they grow up, and this is a fine, upstanding profession. However, no one should ever try to follow a fire truck to the fire or attempt to cross in front of it when it is on the way to a fire! If a bicyclist should happen to be riding in an area where there is already a fire in progress, he must stay back out of the way. Never try to get close to a fire, for any reason, as this puts you in a very dangerous area where you could be hurt. Also, it would be very hard for firemen to do their job if there were youngsters sitting around on their bicycles watching the fire fighting. When you hear a fire truck coming, from any direction, pull over to the curb, wait until it passes, and then go where you were going before you heard it.

**AMBULANCES:** The rules for conducting yourself when you see an ambulance, with siren on and red lights flashing, is much the same as the rules for your behavior when you see police cars or fire trucks. Pull over to the curb, wait until the ambulance passes. Do not try to follow it, do not try to cross in front of it.

**ACCIDENTS:** Bicyclists, like motorists, often see accidents that have happened along the highways and streets. There may be police cars at the scene, fire trucks and ambulances. Remember, you must stay away from accidents and stay out of the way. If the accident has the road blocked, and you cannot continue in the direction you were going, go down a side street and make your way around the accident. Stopping in the street to watch what is taking place at the scene of an accident can very easily cause other accidents. The only time you do not leave the scene of an accident is when you have been involved personally in it or you were a witness to it. If you were involved in it then of course, you must wait for police because they will want to help you and ask you questions. If you were a witness, the police may want to ask you other questions, about how the accident happened. In these cases remain until a police officer tells you to leave.

QUESTIONS	Yes	No
The first thing to do when you hear a siren and see flashing red lights is pull over to the curb.	---	---
If you think the emergency vehicle is far enough from you, it is all right to cross the street in front of it.	---	---
Fires are exciting to watch, but you should NEVER attempt to follow a fire truck with it's siren on.	---	---
Accident scenes should be avoided unless you are personally involved or saw the accident actually happen	---	---
You don't have to worry about an ambulance because its driver has to look out for you.	---	---
It is all right to follow a police car because maybe you can help the policeman.	---	---

### Thank You!

Dear Mr. Besser:  
I want to thank you and your staff for all of the fine publicity you have given to the Niles Baseball League and its sponsors this season. The printing of some of our sponsors' pictures was greatly appreciated. If we didn't have the generous support of these wonderful people who help supply the funds, there would be no Niles Baseball League.

I am also happy to report that 1973 was the best year ever in Niles and contributors giving to the cause; "Boys wanting to play ball."

Thank you again and also a BIG thank you to Mrs. Jean Reeve the photographer who took the sponsor's pictures. A big job very well done!

### Senior citizens grateful for mini-bus

Dear Mr. Editor:

I want to express my thanks for the Mini-bus and how much it means to us seniors at the Huntington. Especially those of us who don't have cars.

Now we can look at the sales in the Bugle and can shop at those stores.

It's like a holiday for us to get out and we have such a laugh and good time on the bus. We were really grounded and some seniors never got out.

I want to thank our Mayor Blase and everyone who got this wonderful new life for us seniors.

The bus drivers are so wonderful to all of us and show great respect. I know I speak for many people in our building. God bless all the people in Niles for giving us the Mini-bus.

### IVI rates legislators

In its most recent publication, "Illinois Voter", the League of Women Voters listed 12 roll call votes of the 78th General Assembly concerning selected issues that the League either vigorously supported or opposed. The two legislators who rated a perfect score, reflecting League views 100% of the time, were Reps. Aaron Jaffe of Skokie, and Glenn Schneider of Naperville. What makes this worthy of comment is that the League has endorsed the abolishment of Illinois' present multimember districts, which, if successful, would eliminate these two legislators from office.

The fact is that the substitution of single member districts for the present system, with a reduction in House size from 177 to 118, would mean the loss of many such legislators recognized as the "conscience" of a House of Representatives, where legislation fashioned more for the benefit of special interests or the perpetuation of power than for the people, needs challenging.

It may be that minority party representatives are better than average because they make an average because they make an extra effort to keep in close touch with their constituency. Such legislators as Chicago Republicans Arthur Telser and Peter Piotrowicz Peters, or suburban Democrats Eugenia Chapman of Arlington Heights and Dick Muga-

han of Palatine, are all high quality legislators and a House without the voice of Harold Katz is no improvement. Furthermore, the money we are told we would save by this reduction is a minuscule part of a \$7 billion state budget. Advocates of single member districts argue that smaller districts would mean a closer relationship between representative and constituency, but this has not been the case with Chicago aldermen, very few of whom are accountable to the people of their small-area wards.

In choosing to retain multimember district in the Con-Con referendum in 1970, voters must have considered that our present system assures us an independent and innovative body, lacking in the Senate, and guarantees against entire geographical areas

being so numerically debilitated that effective opposition is impossible.

The Independent Voters of Illinois believes that at a time when political excellence is a luxury not readily available, the League of Women Voters should carefully re-evaluate its present stand taking into consideration the likelihood of single member districts resulting in an over-supply of uncreative legislators, primarily concerned with heaving to the party line, and a scarcity of the Schneiders and Jaffes-whosometimes grace the pages of "Illinois Voter."

Helen Smith, Northsuburban Representative  
State Board of Directors

### Niles blood cooperative helps Robert live

Dear Friends:

Our son Robert, recently underwent extensive open heart surgery at Billings Hospital in Chicago. Robbie, age 4, has been very sick for several months and without this operation, had only a short time to live.

We would like to take this opportunity to thank every member of the Niles Blood Cooperative for helping to save his life. During his surgery, Robbie utilized eight pints of blood which the cooperative replaced immediately. Words cannot express our gratitude to each donor of the program. Robbie is now at home recuperating thanks to all of you. He will now live a healthy, happy, normal life.

Sincerely,  
Mr. and Mrs. Ronald Kleebatt

### Gigantic garage sale

Garage sales can be fun - and profitable - when 40 or 50 people show up to look at and buy odds and ends from a basement accumulation.

But - how would a person react if thousands of people came in to look at his display of "junkie"?

The largest garage sale ever held in the Northwest suburbs will be featured Oct. 18 thru Oct. 21 at the Arlington Park Exposition Center. The sale is being held in conjunction with the 1973 Land, Leisure and Home Show as part of the show's major attractions. Last year the show drew about 25,000 visitors.

More than 130 booth space will be sold to individuals or groups who want to sell used or unusable items sitting in their basements or attics. A spokesman for the garage sale said an additional outside area will be set up, if there is sufficient demand, for people wanting to sell used boats or recreational vehicles.

Sale sponsors hope that clubs,

churches, synagogues or organizations will use the garage sale for a fundraising project. They suggest that items be collected from the group's membership and placed in one or more booth spaces for sale to visitors attending the Home Show.

For information about the sale write Garage Sale, Box 765, Evanston, Illinois, 60204, or call 236-7261.

### ED HANSON

"IT'S A WEIRD, WEIRD, WEIRDO WORLD"

A front runner - if fact he looks like a 'shoo-in' - to receive the Nobel Peace Prize is guess who?

Well, he's a Quaker. He's well known. He can walk on water and he's tough, tough . . . and shaves 3 times a day.

. . . and the winner is, President Richard Nixon. In addition to the glory of winning the Nobel Peace Prize, he'll pick up about 112,000 bucks, too.

You think that's weird . . . how about this - the next Chief Justice of the Supreme Court may be who?

The envelope please. Why it's Spiro Agnew, that master of the polysyllabic acid comment and a former Vice President.

Here's how this weird happening can take place. Due to Agnew's present unfortunate situation, Gov. Ronald Reagan of California looks now like a clinch to receive the Republican Presidential nomination in '76. If Reagan wins the presidency and Agnew is exonerated, Ronald could - and probably would - appoint him Chief Justice of the Supreme Court.

The weirdest shortage of all. No, it ain't gas, oil, meat, gold, zinc, copper, babysitters, - it's the most important shortage of all.

It's the paper shortage. According to Senator Swampspook the paper shortage is the most fatal of all. Why? Because all checks, stocks, bonds, securities, etc., are printed upon paper. But, as Senator Swampspook says, "What's more important - money - currency - is printed upon paper. Hence, no paper - no money!"

What can YOU - as a good citizen - do to prevent the fatal shortage of paper? Notify your employer NOT to give you any more pay checks. Remember, all pay checks are printed upon paper. Start by sacrificing your pay checks. Save paper. Actually, you won't be much out if you are an average American worker and if you deduct the time you spend for 'coffee breaks,' gabbing, goofing off, sick leave, vacations, make costly on-the-job mistakes, Holidays, day-dreaming, etc. Add to this what you'll save in income tax and you'll suddenly get the warm feeling you are now making exactly what you are worth. And by saving paper you'll finally be contributing something worthwhile to our great American society.

Weird comments in today's hospital maternity wards.  
"My baby is human!" cried the robot mother.  
"My baby is purple!" screamed the Martian mother.  
"My baby is black!" exclaimed the white mother.  
"Ma' baby is white!" shouted the black mother.  
"My baby is blue!" whooped the Indian mother.

Weird new books . . . "How to Lose Friends and Alienate People," "How to Build a Swamp," "How to Become a Successful Failure," "How to Borrow Your Way to a Fortune," "How to Make a 17 Horse Win Parlay," "How to Watch Grass Grow," "How to Grow Toadstools in a Bed of Poison Ivy," "How to Wash & Iron Old Paper Money," "How to Make Quick Sand," "How to Rob a Library," "How to Accumulate Trivia" and "How to Build a Still in Your Bathub," "How to Perform Your Own Autopsy."

Now for a change of pace here are some things that are not weird but they are wonderful. Take the folk singing of BONNIE YATES, appearing every Fri. & Sat. at the popular GROUND ROUND, Dempster & Waukegan, Morton Grove, for example. Bonnie is just great and so is everything else at the GROUND ROUND. The Ground Round, in addition to great food and giant drinks has something wonderful for everyone, both adults and kids. You'll get a kick out of their old time silent movies which they feature every night. They have style shows and all sorts of gimmicks to insure that you have a wonderful and different kind of time. Ground Round reminds me of a circus because there's always something going on all the time. Their food, whether it be a sandwich or a steak is top quality and like their drinks they provide huge portions at very reasonable prices. I understand since the 19 year olds can now enjoy beer and wine, they are pouring into the Ground Round like tropical rain. The night I was there I found them all to be well mannered and enjoying themselves in a quiet-relaxing way. Remember, When You're Hungry For Good Food and Thirsty For A Good Time - regardless of your age - from 3 to 80 - you can't find a place that will provide you with more wholesome enjoyment than the GROUND ROUND in Morton Grove. Next Friday I'll be there to do some interviewing . . . so I hope to see you . . .

John Gountants, the dapper owner of ALFIO'S RESTAURANT & LOUNGE, 6474 N. Milwaukee Ave. announces they will now serve the finest pizza and pitchers of draft beer and Karafs of wines. This is in addition to their fine line of quality foods. (See their ad in this issue.)

Wonderful Italian food, eat in or carry out is offered by ESPOSITO'S PIZZERIA, I frequently phone an order in for their delicious Spaghetti or Lasagna, etc., and they deliver like a bunny. My food is always piping hot and prepared just the way I like it. ESPOSITO'S PIZZERIA, 9224 Waukegan rd. is truly the sign of good Italian food. For f-a-s-t delivery just phone YOS-3330 . . .

See you next week . . .

### Auditions for Cabaret

A Cabaret Troupe of singers, actors, dancers and behind-the-scenes crew members is being formed by Des Plaines Theatre Guild. Object: to have fun performing while entertaining others.

be available through this new facet of Des Plaines Theatre Guild talent, so those interested in more information or in booking a future program may call 296-1211 between noon and 8 p.m.

If you have talent . . . or think you do . . . come to the auditions and find your niche. Steve Strong, director of the Actor's Workshop, will conduct the auditions Friday night. Steve's assistant for Cabaret activities is Bonnie Masterters, who may be contacted for further details at 674-8214.

### The Mind With The Dirty Man

On Tuesday, Nov. 20 at 8 p.m., Don Knotts and the original company of "The Mind With The Dirty Man" return to Arlington Park Theatre for a special 3 week engagement.

"The Mind With The Dirty Man" had its Midwest premiere at the Arlington last June and was so well received it was extended two weeks with additional performances added to accommodate the box office demand. The entire 6 weeks was a solid sell-out! Initially developed by Center Theatre Group of Los Angeles-Mark Taper Forum as part of its New Theatre For Now Series 1972, "The Mind With The Dirty Man" was written by Jules Tasca and directed by Edward Parone, with scenic design by Sandro La Ferla.

This wacky, adult comedy deals with an upstanding number of the community who leads a small town war on pornography. Returning with Mr. Knotts are Pamela Britton, Peter Ratray, Nedra Deen, Al Checco, Tudi Wiggins and Kathleen Freeman.

"The Mind With The Dirty Man" will play through Sunday,

Dec. 9-performance times and prices follow:

Tuesday, Wednesday, Thursday - 8 p.m. - \$6.50; Friday - 8:30 p.m. - \$8; Saturday - 9:30 p.m. - \$8; and Sunday - 3 p.m. (matinee) \$6.50 and 7:30 p.m. - \$8 (two perfs.).

The film is one of a series on the theme "Perspectives on Survival" which reflect different views of human life and its quality. Directed by Serge Bourguignon, "Sundays and Cybele" reveals a human relationship between a lonely 12 year old girl and an amnesiac war veteran.

Continuing a tradition of the film series, a discussion chaired by an expert will follow the 7:30 showing. Free coffee is available for all patrons.

Weird comments in today's hospital maternity wards.  
"My baby is human!" cried the robot mother.  
"My baby is purple!" screamed the Martian mother.  
"My baby is black!" exclaimed the white mother.  
"Ma' baby is white!" shouted the black mother.  
"My baby is blue!" whooped the Indian mother.

Weird new books . . . "How to Lose Friends and Alienate People," "How to Build a Swamp," "How to Become a Successful Failure," "How to Borrow Your Way to a Fortune," "How to Make a 17 Horse Win Parlay," "How to Watch Grass Grow," "How to Grow Toadstools in a Bed of Poison Ivy," "How to Wash & Iron Old Paper Money," "How to Make Quick Sand," "How to Rob a Library," "How to Accumulate Trivia" and "How to Build a Still in Your Bathub," "How to Perform Your Own Autopsy."

Now for a change of pace here are some things that are not weird but they are wonderful. Take the folk singing of BONNIE YATES, appearing every Fri. & Sat. at the popular GROUND ROUND, Dempster & Waukegan, Morton Grove, for example. Bonnie is just great and so is everything else at the GROUND ROUND. The Ground Round, in addition to great food and giant drinks has something wonderful for everyone, both adults and kids. You'll get a kick out of their old time silent movies which they feature every night. They have style shows and all sorts of gimmicks to insure that you have a wonderful and different kind of time. Ground Round reminds me of a circus because there's always something going on all the time. Their food, whether it be a sandwich or a steak is top quality and like their drinks they provide huge portions at very reasonable prices. I understand since the 19 year olds can now enjoy beer and wine, they are pouring into the Ground Round like tropical rain. The night I was there I found them all to be well mannered and enjoying themselves in a quiet-relaxing way. Remember, When You're Hungry For Good Food and Thirsty For A Good Time - regardless of your age - from 3 to 80 - you can't find a place that will provide you with more wholesome enjoyment than the GROUND ROUND in Morton Grove. Next Friday I'll be there to do some interviewing . . . so I hope to see you . . .

John Gountants, the dapper owner of ALFIO'S RESTAURANT & LOUNGE, 6474 N. Milwaukee Ave. announces they will now serve the finest pizza and pitchers of draft beer and Karafs of wines. This is in addition to their fine line of quality foods. (See their ad in this issue.)

Wonderful Italian food, eat in or carry out is offered by ESPOSITO'S PIZZERIA, I frequently phone an order in for their delicious Spaghetti or Lasagna, etc., and they deliver like a bunny. My food is always piping hot and prepared just the way I like it. ESPOSITO'S PIZZERIA, 9224 Waukegan rd. is truly the sign of good Italian food. For f-a-s-t delivery just phone YOS-3330 . . .

## Legion plans second Vegas Days

The announcement that the Morton Grove American Legion Post 134 would hold a second Crazy "Vegas" Daze was greeted enthusiastically by guests at the recent Workers' Party, Workers at the Legion's regular Friday fish fries and also the usual Wednesday bingos were feted at a thank you party which also included those workers of the summer Crazy Daze feature which took the place of the Post's annual carnival.

Post Commander Tony La Rosa, has once again named past commander Al Nehart, perennial carnival chairman of the Post, and chairman of the summer "Vegas" event, as chairman of the new Crazy Daze. The two day event is to be held at the Legion Memorial Home, 6140 Dempster, Friday and Saturday, Dec. 7-8, and will endeavor to raise additional funds. The huge Legion budget must be met; otherwise reductions in spending will have to be made to the impracticality of holding their traditional carnival this past summer.

Nehart thanked the audience for making the summer Crazy "Vegas" Daze a success. Also thanking the party attenders were corporation president, Tom Hughes, whose group conduct the 6-8 p.m. weekly fish fries; and past commander Roman Lach, the bingo chairman.

## Pre-Retirement workshop

Are you ready for retirement? "Why, I'm not even 60 years old," comes the reply. Another 70 year old says, "Wait a minute." You don't get ready when you are finally faced with retirement. Much preparation is necessary to make it work. You must start to prepare at age 40 or 50.

Interested? Niles Family Service is presenting its second Pre-Retirement Workshop starting Thursday, Oct. 18, at 8 p.m. at Niles Family Service, 251 Lawrencewood, Professional Mall, Niles. Fee only \$1 per person or per couple. Call 966-1640 before Thursday if you are interested in enrolling or you have any other

questions. As a participant said last year, "Retirement isn't something you can go blindly into, ignore, or put off thinking that it's not going to happen to me. One must be mindful that when you face the fact of the end of formal employment — you're turning a corner. Here's hoping when we all turn that corner in life we will be prepared physically, mentally and financially."

**Let Kathy Hansen tell you about Golf Mill State Bank's checking account plan...**

**It's FREE!**

**QUESTION: KATHY, CAN I REALLY AVOID ALL THOSE ANNOYING MONTHLY SERVICE CHARGES?**

**KATHY:** Absolutely. In fact, you could avoid them completely... just by keeping as little as \$200 in your Free Checking Account here.

**QUESTION: BUT IS THAT TYPE OF CHECKING PLAN JUST AS GOOD AS THE KIND WITH THE SERVICE CHARGES?**

**KATHY:** Actually it's much better. You have all the advantages (no standing-in-long lines to pay bills, keeping better track of your money and having cancelled checks as legal receipts). And yet, with all those features, you still cut out those monthly service charges... which can often run as high as \$1.50, \$2.00 or even \$3.00.

**QUESTION: ISN'T THERE SOME LIMIT ON THE NUMBER OF CHECKS I CAN WRITE?**

**KATHY:** No limit whatsoever. With just \$200 in your account throughout the entire month, you can go ahead and write as many checks as you want and there's still no monthly service charge.

**QUESTION: WHAT HAPPENS IF MY ACCOUNT DROPS BELOW \$200 DURING THE MONTH?**

**KATHY:** It's still a bargain. A flat charge of

\$2 will be made for that month only. And you can still write as many checks as you like.

**QUESTION: IS THERE ANY CHARGE FOR MAKING DEPOSITS?**

**KATHY:** There's never a charge for making deposits... regardless of what your balance may be and no matter how many deposits you make to your account.

**QUESTION: WHAT ABOUT CHARGES FOR THE CHECKS THEMSELVES?**

**KATHY:** Your checks and checkbook of your choice are distinctively imprinted with your name and provided at cost. Your address may also be imprinted on your checks at no additional cost.

**QUESTION: SOUNDS GOOD, KATHY. HOW DO I GET STARTED?**

**KATHY:** That's easy. Just fill out this coupon and forward to me at the bank. Better yet, give me a call at 824-2116 and I'll be glad to personally help you get your account opened.

**QUESTION: KATHY, YOU'RE A DEAR. HOW CAN I EVER THANK YOU?**

**KATHY:** You are thanking me and Golf Mill State Bank by opening your account with us. And we'll try to show our thanks by giving you FREE Checking Account Service.

Yes, I am interested in your FREE CHECKING ACCOUNT SERVICE.

### KC's distribute book covers

Main Township High School South in Park Ridge has been rated the top high school in the country as a sampling of schools by a De Paul professor.

Prof. B. Everard Blanchard studied 615 high schools in 6 years, judging them on 12 criteria, including course goals, curriculum, guidance, student counseling, teachers' preparation for classes and quality of administration according to the Chicago Tribune.

Maine South was rated well ahead of New Trier which did not even make the top 10. New Trier is often cited as the best school because of its large number of students who become National Merit scholars, Blanchard said that yardstick tells more about the students' home backgrounds and their grade school education than it does about the quality of the high school.

Blanchard said he took on the high school evaluation survey as a private project in 1967. It is one of many surveys he has completed in the last 25 years. He said it is not related to his work as educational field services director at De Paul.

Blanchard said he applied a scale of 1 to 5 to the 615 schools, 5 meant 'exceptional' and 4 was 'superior'. No one got a perfect score of 5, but Maine South got a 'high 4.' Blanchard said, 'A fine faculty is not enough; Maine South has an outstanding administration.'

Recently the free distribution of over 4,000 book covers to the students of St. John Brebeuf School, St. Isaac Jogues School, Our Lady of Ranson school and St. Juliana school was made by the North American Martyrs Council #4338, Knights of Columbus in Niles.

In this Knights of Columbus national program, in excess of 12 million covers have been distributed over the past three years to public schools. The cover features the Lord, Hear Our Prayer painting. It also contains a spiritual theme in the form of St. Patrick's Prayer of the Faithful. The credit line on the cover is: "Gift of the Knights of Columbus, dedicated to stressing God in your life." One of the purposes of the program is to provide the children with attractive covers which will decorate their books, and at the same time, place a message before the children which may have some lasting value.

Shown above presenting a book cover to Jim Spers is Sister Theresa Jungers, principal of St. John Brebeuf School and Kenneth Lee, North American Martyrs book cover chairman.

New Trier is often cited as the best school because of its large number of students who become National Merit scholars, Blanchard said that yardstick tells more about the students' home backgrounds and their grade school education than it does about the quality of the high school.

Blanchard said he took on the high school evaluation survey as a private project in 1967. It is one of many surveys he has completed in the last 25 years. He said it is not related to his work as educational field services director at De Paul.

Blanchard said he applied a scale of 1 to 5 to the 615 schools, 5 meant 'exceptional' and 4 was 'superior'. No one got a perfect score of 5, but Maine South got a 'high 4.' Blanchard said, 'A fine faculty is not enough; Maine South has an outstanding administration.'

### Complete summer repairs to Maine Highs

Many maintenance projects undertaken at the four Maine Township High Schools during the summer months have now been completed or are in the final stages of completion. Most of the projects were part of the district's on-going maintenance program to keep buildings and facilities in tip-top condition and in this way cut down on unnecessary and costly repairs.

Maine North, which has lacked outdoor athletic facilities, now has eight tennis courts and two baseball fields ready for use this fall. The football practice fields at the west end of the campus are now useable and the east end of the school site has been graded and seeded for future playing fields. A new home economics laboratory has been installed and the Maine North parking lots have been improved with asphalt surfaces.

An important improvement at Maine North is the new access road from Golf Road to the school site which is scheduled to be completed next month. Part of the road is being built on land dedicated by District 207, although the road itself is not being paid for out of school district funds. The Sussan Development Company is responsible for the extension of Dee Road from Golf Road to the southeast corner of the Maine North campus and the remainder of the road along the east boundary of the high school site to Harrison Street, is being installed with funds made available through the Maine Township Roadway Commission's office. At the time of annexation of the school site by the Village of Niles that municipality will share equally in the cost of the road.

Only one major project was needed at Maine West, resurfacing the roadway on the east side of the campus from Oakton St. to Howard St. The \$25,000 project was completed and ready for use when school started this month.

Several other less costly projects were completed at Maine West, including replacing broken sections of sidewalk, installing drain tiles and a catch basin to improve the school property along Oakton St; repairing leaking shower walls in the gym shower rooms; repairing and re-grouting the swimming pool and installing additional valves and fittings and resealing the gymnasium floor.

Driver education simulators were installed this summer at both Maine West and Maine South similar to the one installed at Maine East two years ago. Driver education areas at both Maine West and Maine South were remodeled to accommodate the new simulators.

Major jobs at Maine South included resurfacing and restriping the spectator gymnasium floor, recarpeting a portion of the library, resurfacing the Talcott Road entrance to the school and the front drive as well as patching parking lots where needed.

Smaller jobs undertaken at Maine South include remodeling a science laboratory, replacing walk and curb at the auditorium entrance, adding 20 carrels in the Library Resource Center and cleaning, refinishing and restriping the fieldhouse floor.

Maine East's summer projects included replacing worn counter tops in one of the food laboratories, tuckpointing and waterproofing parts of the 1953 addition to the school building, filling and gading the athletic fields to provide more and better playing areas, replacing worn and deteriorated curbing and walks, blacktopping where needed and painting numerous rooms and sections of the building.

The National Merit Scholarship Corporation has named 38,000 Commended students throughout the United States. These students are among the upper 2% of those who are expected to graduate from high school in 1974.

### Niles blood program

Residents of Niles are urged to give their "Gift of Life" and at the same time support their community's blood assurance program.

The Niles Community Blood Donor Program has pledged 1,297 units of blood in a year's time. Already, 620 units of blood have been donated. The program, if it achieves its goal of donated blood, assures all residents, regardless of health, age or need, of the availability of all necessary blood.

The community program has already been called upon to replace 14 units of blood, requested by 19 residents. Replacement was needed twice for one Niles resident, once for 15 units, another time for 12 units. A young teenage girl needed, and received, 14 pints. Other Nilesites have requested replacement of blood ranging from 1 to 17 units at one time.

Thursday, Oct. 18, at the Notre Dame School for Boys, 7655 Dempster St., Niles residents will be given another opportunity to give their "Gift of Life" donation. Clip the pledge attached to this

article and mail it today to the Niles Blood Program, 7601 Milwaukee Ave., and you will be called for an appointment.

Donations may also be made at Skokie Valley Hospital, 9600 Gross Pt. rd.; Michael Reese Hospital, 8700 W. North Ave., Melrose Park; McNeal Memorial Hospital, 3445 S. Oak Park Ave.; Weiss Memorial Hospital, 4640 Marine Dr., and Westlake Hospital, 1225 Superior, Melrose Park. If contributions are made at the above locations, donors are requested to ask that credit be given to the Niles Community Blood Program.

nium will cost between \$35,000 and \$40,000 Del Blanco said.

The only dissenting vote on the request for the special zoning came from village trustee Keith Peck, who said he was opposed in general to the PUD concept.

Also at the meeting, the board balked at a request to have the state reconsider plans for building a median strip at the corner of Touhy and Milwaukee avenues. A petition signed by 100 persons opposing the median was presented to the board by John Duffy, an attorney representing Amy Joy Donuts, 7246 Milwaukee Ave.

Duffy said the construction of the median would block access to the donut shop from persons traveling northbound. But while the donut shop owner, Herman Blattner, was concerned over the loss of business, Duffy explained the signers of the petition were concerned that the police would not have speedy access from their headquarters.

Village Board President Nicholas Blase said he believed that those circulating the petition had "misled the people." If the police were concerned about the median's installation, Blase added.

Blase said he and the police chief had recently sent a letter to the state highway department okaying all plans, including the median strip, for the improvement of Touhy and Milwaukee avenues.

In other action, the board approved the extension of the sewer program, begun under revenue sharing, between 8000 Oconto and 8340 Oconto. The cost is estimated at \$60,000. After the meeting, Mayor Blase indicated he will soon make a formal statement favoring the Niles Park Board's Nov. 17 bond issue referendum.

### Nab man...

Cont'd from Niles-E, Maine P.1

White was shot after he allegedly aimed a pistol at Niles and Chicago police who entered his room at the Motel 6, 6450 W. Touhy, Niles. Police were directed there by the two boys who told them that White drove them to Chicago and dropped them off near the West Side medical center.

The boys, ages 11 and 12, ran away from the Uhlrich Children's Home, 3737 N. Mozart, late Sunday and were trying to get to Boys Town in Nebraska when they met White in a Loop bus terminal, police said.

They told police that White promised to drive them there but instead drove them to the motel where he allegedly assaulted them.

Another 14 year old Canadian runaway who was in the room with White was being held at the Audy Home as a witness, police said.

### Borkowski named Crusade of Mercy Ambassador

Leonard J. Borkowski, a Niles resident, and corporate personnel director for Montgomery Ward & Co., has been named an Ambassador of Mercy for the 1973 Crusade of Mercy campaign.

Borkowski is one of more than 50 Crusade ambassadors, who will carry the Crusade story to the people in the offices, factories, and plants of metropolitan Chicago.

He will spend his personal time and will be allowed by his company to spend office time speaking to employee groups about Crusade-supported services.

The people who will hear Borkowski are the backbone of the Crusade campaign because they contribute some 60 per cent of the total funds raised by the annual drive.

Most of the ambassadors are executive personnel of the Crusade's beneficiary agencies. Borkowski was chosen because of his interest in and commitment to the Crusade and its voluntary human care services.

The Crusade is the fund-raising arm of the Community Fund of Chicago, the Mid-America Chapter of the American Red Cross, the Suburban Community Chest Council and its 90 participating chests and funds covering 158 suburban communities.

The Crusade supports vital community services that include care for emotionally disturbed youngsters, camping, scouting, care for the aged and chronically ill, services for the deaf and blind, and vocational training and rehabilitation for the handicapped. The goal is \$36.8 million.

His appointment was announced by Thomas Webb Sexton, general campaign chairman for Chicago and Cook County.

The \$1,125,000 campaign, which opens in November and runs through December, is conducted annually by Chicago Lung Association, formerly the Tuberculosis Institute of Chicago and Cook County.

"With the help of Christmas Seal dollars, we are cornering TB, and now hopefully we can do the same with crippling lung diseases like emphysema and chronic bronchitis," commented Mr. Barbaglia, vice president of the First National Bank of Niles.

An active civic member, Barbaglia is a director of the Niles Chamber of Commerce and a member of the Lions club and the Maria Council of the Knights of Columbus. He has also been a director of the American Cancer Society and has worked as a fund-raising chairman for the Heart Fund.

### Health club special at Kaplan JCC

The Mayer Kaplan Jewish Community Center at 5050 W. Church St., Skokie has extended its introductory offer to men and women who wish to make use of their Health Club.

By enrolling now, persons may enjoy the benefits of the club for 30 days at a price of \$25. This fee may be applied to a Mayer Kaplan Health Club membership. The Health Club is designed to provide rest, relaxation and recreation for the busy housewife and hardworking business man or woman... anyone who requires a mini-vacation from daily pressures.

Roslyn Burnes, R.N., Director of the Women's Health Club has initiated a program based upon her belief that everyone needs a release from mental and physical tension. "I treat each of the women individually," says Mrs. Burnes, an Evanston resident and "I tell the members that our services are a gift only they can give to themselves. The more they take care of themselves, the more equipped they are to give to others."

The "care" Mrs. Burnes refers to consists of massages, steam and sauna, swimming, body-tone, aquatics, (exercise in the water), games including table tennis, racquetball, billiards, and golf practice and a fully equipped exercise room.

In addition to the spacious facilities which accommodate these activities, the Health Club has its own luxurious lounge where members may relax, converse and enjoy a cup of coffee and other snacks.

Mother and daughter, father and son nights are scheduled periodically. Lox and bagel brunches are held regularly on Sunday mornings.

Members are also eligible to join S.T.O.P.'s, a unique weight control program directed by Mrs. Burnes.

The Health Club is open 7 days a week. Health Club hours are not divided equally between men and women.

For further information, contact Mrs. Roslyn Burnes, Women's Health Club Director or Herb Cohn, Men's Director, Mayer Kaplan J.C.C., 675-2200, ext. 243.

Continued from Page 1

sperses her life's activities by going to school full time, travelling some 60 miles daily between towns to go to school after working hours. Not unlike many Israeli's, she's an agnostic, and a very independent woman. She's 29 or 30 years old, single, and is as much at home in Paris and London and New York, as she is in Tel Aviv. She's quite attractive, dark hair with blue eyes, buxom, and she really tells it like it is. In fact she tells it so much like she sees it the Army gave her an honorable discharge and told her they would prefer to do without her future services. She's in disagreement with much of what goes on in the government and lets anyone know who'll give her an ear. Her forthrightness also forced the government to veto her application as a guide in her home area. Despite her credentials as an archeologist, she was turned down when she sought this job. From her past performances it was assumed she would happily give her opinions about the government's shortcomings, and they knew she wouldn't hesitate to tell about the greys and the blacks amidst the white shadings of the stories she would tell on her tours. She's a student of archeology with a degree from Hebrew University, and she's heading for other universities for advanced studies. She spent a couple of years at Columbia, and while she was here she was stopped off at the University of Chicago, but found the \$5,000 annual stipend a bit steep.

Neeli could also be considered a professional student. She has no particular ambition. "I'm young," she'll tell you, and she implies she's got forever to do whatever she wants. She's not looking forward to marriage, though she said she wants a couple of children. She has a guy out of New York, who lives in Israel, who's waiting in line, if she gives him the word. But she has a great many friends, in New York and London and Switzerland and she's not anxious to settle down to one guy on a one and one basis.

You talk to Neelie for 10 minutes and you find her very ethics-minded. She has ever-conscious feelings of right and wrong, and deplores dual roles in this area. Some of the Israeli heroes to Americans, Abba Eban, as an example she deplores as being less than what we think he is. She can tell you great stories about Golda Meir, who she respects but does not idolize. She can tell you about Golda coming late at night to a kibbutz near where she lives. And this very important person, visits her many old friends, in the wee hours of the morning, sitting around a table with the pioneers of this country, who were aroused from their sleep, when they were told "Golda is here." Neelie tells you it's such an egalitarian state. The most important personage in their land stops off in the wee hours of the night to visit old friends, and they sit around a picnic-like table, old people and old friends, who started this country, dressed in their nightgowns and bathrobes while sipping glasses of tea. She also tells you about the elderly Ben Gurion, romanticized by us as being the George Washington of his country, who lives very simply in a 2 or 3 room apartment. She can tell you about a 75 year old man, who walks 2 or 3 miles daily to turn the valves of water pipes, as his contribution to the effort of being a part of his country. He walks with dignity and pride, very, very straight, for he has a job to do and he does it every day. He contributes.

This column is not meant to propagandize. But there are lots of interesting people in the world, and most interesting people have a strong point of view and they're involved. This is what makes them interesting people.

Clerk-Fred McClory read bids for dump trucks for the Public Works Department. They were as follows: Gilmore of Wheeling, Ill. Small dump truck/ \$30.00, and \$29,293.00 for two large trucks, Jack Henigar Motors of Marengo, Ill. Small truck \$4,236.00 and two large trucks \$27,999.00. Fred Huber and Jim Dahm will study bids. Bid for four squad cars were also opened and they were: Glenbrook Ford of Glenview, Ill. \$14,318.20. Walton Motors of Skokie, Ill. \$14,481.32. Golf-View Dodge of Morton Grove, \$14,597.32. Fred Huber and Police Chief Glauner will study these bids.

there will be a Chamber of Commerce meeting on Oct. 16. Chief Hildebrandt said that this was Fire Prevention Week and was commended by Mayor Bode on the Fire Dept. Open House.

John Hilkin noted that 60 pints of blood were drawn at last Thursday's drawing. He also noted that the new Code Enforcement Officer was on the job and doing well. Herb Houndt said our ordinance prohibiting burning of leaves is still in effect and they will be picked up on regular garbage collection days.

Mayor Bode reminded those present of the Skokie Valley Crusade, and said the next scheduled board meeting would be Oct. 22.

The subject of a site for

Oakton Community College came up and the trustees decided to have a letter sent to the college board voicing their opposition to a site near the present campus now under consideration. It is adjacent to the present site and Mayor Bode said that "We cannot afford to lose 23 acres of prime land our tax rolls." Dave Cohen said he agreed and also felt the traffic situation was bad there. Dick Hobs and Herb Houndt said they felt there would be room shortly in an area high school which would fit the bill. Martin Ashman said, "I don't think we should be against having a college in Morton Grove and I think there are more important things than taking some prime land off the tax rolls. However, it was still decided to send a letter to OCC.

### Dist. 207 Board reaffirms cooperation with staff

At its October 1 meeting the Board of Education of Maine Township High School District 207 reaffirmed its willingness to meet and confer with the district's professional staff to sustain and improve the school system. In announcing that an ad hoc committee of Board members will be formed to reopen responsible communication with the staff, Robert C. Claus, Board president, stated, "A spirit of mutual confidence and good will has traditionally characterized staff-Board relations in this district. We are most anxious to continue these amicable relationships."

Board dialogue with the district's professional staff has been seriously hampered pending disposition of a court suit filed by Maine Teachers' Association, seeking reinstatement of a Procedural Agreement for Negotiations which the Board contends was rendered null and void by breaches by the Association.

"We have always held that prolonged legal entanglement will benefit no one," said Claus in reply to a letter from MTA president, De Wayne Barnes, now urging that differences between the Association and Board be settled in ways other than through legal involvement.

"The Board, with the assistance of the administration, will strive to reach a rapprochement with the professional staff within which difference can be resolved through careful and deliberate consideration," Claus continued. "We will attempt to establish a workable format and plan by which the Board and the staff can meet and confer."

A considerable portion of Monday night's Board meeting was devoted to a report by the district's assistant superintendents and the

chairmen of the four Maine building evaluating committees on formulation of plans to implement recommendations growing out of the professional staff's self-study and the North Central Association Evaluation Visitation early last spring. Assistant Superintendents Michael J. Myers and John T. Benka, and committee chairmen Glenn Hoffmann of Maine North, Robert V. Simonson of Maine South, Mrs. Lucille Stiles of Maine West and William T. Will of Maine East discussed major topics identified in the NCA reports, suggesting timetables for putting many of the recommendations into operation. The discussion will continue at a reconvened meeting of the Board on Oct. 15.

Some of the topics discussed were: the need for frequent review and updating of purposes, objectives and goals, and the advisability of giving them widespread public notice; plans for improving internal communications within each of the Maine schools - staff to staff, staff to students, and students to students; steps that have been taken to increase the autonomy and develop the individual identity of each of the high schools; recommended changes in the instructional program; plans to strengthen articulation between the high school district and the elementary districts feeding into it; job requirements for both certified and non-certified personnel, and staff additions needed to improve the educational program.

The Board approved application for funds in the amount of \$8,950 for a Title III, E.S.E.A., Mini-Grant for development of an innovative pilot program in the fine arts at Maine North high school. During a three-day per-

iod in May of 1974 it is planned that amateur and professional artists will demonstrate their respective art forms, i.e. music, art, modern dance, film study, and drama to the total student body.

The purpose of the pilot program is to help students develop an understanding and appreciation of the various art forms and their related career opportunities.

### Fall Play

The curtain rises Friday and Saturday, Oct. 12 and 13, for Maine East audiences with Woody Allen's "Don't Drink the Water."

This two act comedy is a story of a New Jersey caterer, Walter Hollander, and his wife as they travel through Europe with their daughter.

Hours of work went into the production by many students - Joe Komperda of Park Ridge, student production head and stage manager; Chuck Bryda of Niles, lighting head; Cissi Habura of Niles, props; and Barb Ross of Morton Grove, costumes.

While the traditional "box set" recreates the interior of an embassy, the props used will include such things as a live rabbit, items used in a magician's act to be performed by Mickey Corner of Des Plaines playing the part of Father Drobney, and a straight jacket.

Barb's costuming is fairly uncomplicated except for clothing the sultan and his harem-attired wife, played by Kevin Luke of Park Ridge and Angel Nerri of Des Plaines.

Tickets can be purchased at the door the night of the performance, which will begin at 8 p.m. both nights. Tickets are \$1.50.

### OCC child care practical experience

Twenty-one students in the Child Care curriculum at Oakton Community College have started their practicum assignments in public and private schools in the area, according to Clarence Luther, coordinator of the program.

The assignments provide the students with planned and supervised field experience as teacher aides or as child care workers. Each is under the supervision of the principal or director of the school or institution in which they are serving.

The child care services curriculum at Oakton prepares students to work with groups of pre-school and primary level school age children. Graduates will be able to work in nursery schools, day care centers, pre-kindergarten programs, school programs, child care institutions and sheltered workshops.

The college maintains a Child Development Center as part of the Child Care Services Curriculum. The center is staffed by a qualified paraprofessional and is used for observation by students in the child care program. Students are also assigned for practical experience.

Assignments for the students for the fall term are as follows: Ann Marie Babines, Cumberland School, District 62; Leslie Carroll, Woodfield Child Development Center, Schaumburg; Elspeth Engel, Madison School, District 64; Julie Fedell, LeMopett, Mt. Prospect; Lynda Gertz, Oakton Community College, Morton Grove; Barbara Hattendorf, Glenkirk School, Glenview; Alisa Lakin, Miss Mary's Preschool, Inc., Skokie; Barbara Massman, Jefferson School, District 64; Karen Moore, Poko Loko, Glenview; Lori Moshinsky, Niles West Congregation Nursery School, Skokie; Janet Pries, Northbrook Community Nursery School, Northbrook; Gayle Cohen, Todd School, District 74; Arlene Denn, Mayer Kaplan JCC, Skokie; Jodi Frank, Mayer Kaplan JCC, Skokie; Karen Haigh, Deerfield Community Nursery School 1, Deerfield; Karen Koehler, Julia Malloy Center, Morton Grove; Marlene Kramer, Todd School, District 74; LuAnn Miller, Sharp Corners School, District 68; Susan Rose, Highland Park Community Nursery School, Highland Park; Ruth Sedore, Infant Welfare League, Evanston; Terry Wunderlich, Julia Malloy Center, Morton Grove.

### Apollo School Activities

Apollo School, East Maine School Dis. 63, is offering its students a variety of clubs and activities. These activities begin at 3 p.m. and end at 4 p.m. on the days designated below.

ART CLUB - Meets on Monday under the direction of Mrs. Mary Burson, Art Instructor. This club is designed to provide students with the opportunity to pursue their own artistic interest at their own pace. Examples of the media offered are printmaking, drawing, weaving, tie-die, silk screening, paper mache and ceramics.

CHESS CLUB - Under the sponsorship of Mr. Larry Jania, Math Teacher, will meet on Friday. The main intent of this activity is to provide recreation for the students. As Mr. Jania stated, "I would like the members to appreciate the fact that mental competition can be just as rewarding as physical competition." Some of the plans for this club include a series of round robin tournaments, as well as an annual tournament.

INTRAMURALS - Will be sponsored by Mr. Jerry Slowinski, Miss Sue Hendricks and Mrs. Nancy Anderson for both boys and girls. The boys will meet on Wednesday and Friday, while the girls will meet on Monday and Thursday. Students will be provided the opportunity to represent their academic team competing against other teams. The activities offered will generally be the same activities learned in Physical Education Class. Therefore, students can apply and refine skills acquired in physical education.

NEWSPAPER CLUB - Will meet on Wednesday and Thursday under the sponsorship of Apollo's reading teacher, Miss Sue Hendricks. Some members of the newspaper staff will experience an opportunity to lead and direct small groups of classmates toward achieving common goals.

SCIENCE CLUB - Under the guidance of Mr. Harold Kaufman, Beta Science Teacher, will meet on Thursday. The aim is to increase an interest in both practical and theoretical science. Various experiments and projects will be conducted, field trips arranged and guest speakers will talk to club members.

The desire of the Apollo staff is that students pursue their interests in the various activities offered, thereby applying those to their unique talents and interests.

### Oakton group attends seminar

Mildred Marx, coordinator of the medical records technology, and students in the medical records career program at Oakton Community College attended a seminar sponsored by the Chicago area Medical Records Association and the Chicago Hospital Council for hospital administrators, hospital statisticians, and medical record department personnel in September.

Representative from the Northeastern Illinois Planning Commission, the Chicago Hospital Council, the State of Illinois Department of Public Health, and the Chicago Board of Health explained their forms in detail, delineated their definitions of terms and suggested references to be used when individual questions arise, according to Mrs. Marx.

The three students who accompanied Mrs. Marx are presently enrolled in a course on hospital statistics as Oakton. They are Rosemary Whitmore, 7737 N. Kolmar, Skokie, Lois Zautcke, 616 S. Knight st., Park Ridge; and Theresa M. Baran, 8430 Madison dr., Niles.

Medical records technicians work closely with the hospital and medical staffs in preparing, analyzing, and preserving health information needed by patients, hospitals, and the public. The program is one of six health-related career programs offered at Oakton. For further information, call 967-5120.

### Junior testing

The National Merit Scholarship Qualifying Test, combined with the Preliminary Scholastic Aptitude Test, will be offered to Maine East juniors on Tuesday, Oct. 23.

Juniors may register in the Maine East bookstore through Friday, Oct. 19 for the tests. The fee is \$2.50.

Maine East career counselor Keith Honn advises that all juniors in the upper 25% of the class take the test; however, the test results could be beneficially used advising any junior student concerning his academic plans.

The basic areas covered in the test are English, including vocabulary, mathematics, natural sciences, and social sciences.

### Maine North Referendum set for Dec. 8

Saturday, Dec. 8, is the date set for a Dist. 207 referendum to seek voter approval for the sale of general obligation bonds to finance a construction project planned for Maine Township High School North. Polling places will be at the four Maine Township High Schools, with polls open from 10 a.m. to 7 p.m. This was announced by the Dist. 207 Board of Education at its meeting Monday evening, Sept. 24.

The amount of the bond sale will be "in the neighborhood of \$6,500,000," according to the Board, with the exact figure to be determined within the next few weeks when architectural plans and cost projections are completed.

Board members have given assurance to citizens in the area that sale of the bonds will not increase the district's tax rate. At the meeting Monday night, E. Hoy McConnell, Board member from Park Ridge, stated that a suggested referendum theme, "You'll pay less if you vote YES!" is based on the expectation that tax rates for school districts will drop, instead of increase, next year because of additional state funding.

Nor will there be any boundary changes resulting from the completion of Maine North, the Board members stated unequivocally Monday night. They labeled "unfounded and completely untrue" a rumor that providing

additional facilities at Maine North would necessitate changing the district's attendance areas and transferring some students now in the Maine East and Maine West areas to the Maine North attendance area.

Construction at Maine North would add an auditorium, swimming pool, wood shop, photo lab, print shop; and relocate music, art, and speech/drama in areas designed specifically for these departments. It would not, however, add substantially to the student capacity of the school. The needed facilities were not included when the school was built in 1970, and Maine North parents have urged the Board to go forward with plans to complete the school so that their children will have the same educational opportunities available to students in the other three Maine high schools.

At Monday night's meeting the Board of Education adopted the 1973-74 budget totalling \$23,826,740. The tax levy to support this budget is expected to be established at \$2.496 per \$100 of assessed valuation, only slightly more than last year's \$2.48.

The Board also reviewed the list of maintenance and repair projects completed at the four Maine high schools over the summer months.

Dr. Richard R. Short, Superintendent of Schools, gave a pro-

gress report on the new access road being built from Golf Road to Maine North, giving the Board the good news that the road will be completed and ready for use within a few weeks. The Sussan Development Company is building the extension of Dee Road from Golf Road to the southeast corner of the Maine North campus, and the remainder of the school site to Harrison st. is being installed with funds made available through the Maine Township Roadway Commissioner's office.

According to a staffing report made to the Board by Dr. John T. Benka, Assistant Superintendent, General Administration & Personnel, the district's professional staff for the 1973-74 school year numbers 760. Student enrollment remains about the same as last year - 11,853. At the end of the sixth day of school this September there were 3,638 students at Maine East; 1,563 at Maine North, 3,460 at Maine South and 3,192 at Maine West.

The 33 Maine students who have been named Semifinalists in the National Merit Scholarship Qualifying Test were commended by the Board for their outstanding achievement, and for bringing this honor to themselves, their families and their schools, Maine South has 17 Semifinalists this year; Maine East, 9; Maine West, 5; and Maine North 2.

Both workshops are from 4:30 to 6 p.m.

12, will feature Colonel Powers, while Jimmy "The Greek" will headline the Oct. 25-26 Workshop on Elementary Math.

Also featured during Mathematics Month will be free daily workshops, scheduled from 4:30 to 6 p.m., on such topics as: Cuisenaire Rods and the Metric System, use of paper folding and the geoboard in teaching geometry, and using the computer as a teaching tool.
