A most interesting person... Harold Miller, late of West Virginia, and much later of Grand Rapids, Michigan, came across our path last week just south of Key Largo, Florida. Miller, a man in the 65ish bracket, is a man who has met his dream, and is now living it.

Back in World War II Miller served 3 years in the Merchant Marine, and was bit by the bug which keeps men around ships, boats, water and all things nautical. He dreamed of someday owning his own boat, and today, almost 30 years later, he's about 6 weeks away from taking off from the Keys, heading south to the Panama Canal, and then boating along the west coast up to Alaska.

The story of a man in retirement, buying a boat, and heading for far away shores isn't particularly unusual, but Miller is heading for the sea in a boat he has built and assembled by himself. But it's not just a boat. As the younger generation might explain, "It's Wow, some kind of a boat!"

Miller purchased the hull, a fiberglass base, which measures 42 feet long by 15 feet wide. The unusual width would allow him to take the boat around the world if he so desired. Atop the hull, he built his own kind of boat. He'll have 2 double-bed sized bunks, 2 single-sized bunks, a galley complete with refrigeration and freezer, a fiberglass full-sized shower, and the most modern electrical gear. Because he's an electrician he installed the wiring on the boat, which belies the understanding of this layman. The toilet is electrical, he wired the motors which were most intricate. He showed me 2 motors he paid \$20,000 for, the size of 2 Greyhound bus motors. All in all he said he's sunk \$100,000 into the boat and he believes it may be worth up to \$250,000 when it is completed.

Smiling, as only a man who is so close to his dream can smile, he said his family thinks his wife and Miller are out of their minds. After establishing a successful electrical business, the script said they were to retire in a rather grand manner in a home in West Virginia. He was obviously financially secure, and the quiet life in the West Virginia hills was expected of all people in the Miller station of life.

6 held in drug thefts

Six persons were arrested and an estimated \$25,000 worth of drugs and hospital supplies were confiscated yesterday during coordinated police raids in the northwest suburbs, according to the Chicago Tribune. Police said the raids were conducted on a suspected drug ring which allegedly secured their supplies thru thefts from a suburban hospital.

Four of the suspects worked in the hospital until they were fired during the last few days, according to John Hinchey, director of the Metropolitan Enforcement Group, which led the investigation and was aided by police from Des Plaines, Niles. Continued on Page 25

Milton Tuttle Testimonial Dinner

Officials of Maine Township will sponsor a testimonial dinner for Township Attorney Milton Tuttle on June 14 at the O'Hare Inn, it was announced today by Township Supervisor James J. Dowd.

The dinner will honor Tuttle for his 34 years of service to Maine Township as both an elected and appointed official.

Tuttle served as a Justice of the Peace from 1940 to 1954; and as Collector from 1954 to 1973 when he was appointed attorney. He is also the permanent parli-

mentarian of the Township Officials of Illinois, a post created to recognize his years of service to that organization.

He has been a member of the board of directors and chairman of the executive and finance committee of the Township Officials Association of Illinois, and was president of the Illinois Collectors Association for seven years.

Tuttle is a practicing attorney with offices in Des Plaines. He is a member of the Northwest Bar Association and is active in the Lions Club. He has served as past district governor, international counselor, and chairman of the state constitution and by-laws committee of Lions International.

Tuttle is a lifelong resident of Des Plaines. He and his wife reside at 1265 River Drive.

Dowd said the dinner is open to all friends and associates of Tuttle. He added that although the township officials will sponsor the affair, no township funds will be used.

Tickets or information may be obtained by calling Township Collector Roy H. Bergquist, at 965-8565.

Present check to Orchard Village

A \$200 gift has been presented by the Kiwanis club of Niles to Orchard Village, the new community living facility for retarded young adults. The contribution toward the (half million) \$500,000 cost of the recently purchased property in the 7600 block of Marmora, Skokie, was handed to Bernard G. Saltzberg, Executive Director after he addressed a recent Kiwanis of Niles dinner.

Orchard Village is being run by the Orchard Association for the Retarded, made up of parents of mentally retarded and/or physically handicapped children in Niles and Maine Townships. Orchard Village will provide supervised homes for young adults who have progressed through all available special education facilities and who are not quite up to entering the workaday world entirely on their own.

THINGS YOU MAY NOT KNOW ABOUT CONSERVING ELECTRICITY.

Forgotten filters can cost you money.

Since filters are usually out of sight, they're usually out of mind. That is, until you notice something wrong with your heating or air conditioning. Then you may find a dirty filter behind it.

Dust or lint on filters reduces your system's ability to move heated or cooled air.

It's a good idea to check your filters every 30-60 days. To

remind yourself, you may want to do it the same day you pay your fuel bill. If the filter is dirty, clean or replace it. Clean filters also help keep your home cleaner.

This principle applies essentially to all heating fuels—electricity, gas or oil.

Don't forget the filter on your clothes dryer either. Clean it after every load to keep your dryer in top operating condition.

Maintaining clean filters is only one area where we have

information that can help you conserve energy. If you would like our booklet "101 Ways to Conserve Electricity at Home," write Commonwealth Edison, Department AV, P.O. Box 767, Chicago, Illinois 60690. We'll send it to you free.

LWV to discuss environment vs. energy crisis

The quality of the environment has been eroded from the headlines as the energy crisis has become more urgent. Are energy and environmental needs opposites or do they go hand in hand? The League of Women Voters of Niles-Morton Grove will address these questions and form a consensus of opinion at their unit meetings: Tuesday, Feb. 19 at Niles Community Church, 9:15 a.m.; Thursday, Feb. 21 at Morton Grove Community Church, 9:15 a.m.; Thursday, Feb. 21 at 7529 Crain, Niles, 7:45 p.m. There is babysitting for the morning meetings. "I Love You"

Three little words but how much those words mean. I see people starving to know, to feel, to hear the words "I LOVE YOU." One couple that I worked with both had a great need to feel loved as we all do. Unfortunately they kept waiting on one another. They were too proud and too stubborn to express love first so they kept growing farther and farther apart. Don't let this happen to you! We often wonder what happened when we hear of a couple who breaks up after many years of what seemed to be a happy marriage. We tend to forget that not only does love never fall but it also never stands still. We need to continue to grow in love which makes possible a growing relationship in marriage, between parent-child, among friends and others.

A happily married friend of mine put it like this, "Love is the quality of relationship between two persons. Since relationships constantly change, love too must change. So, if your love is not growing, it is shrinking. If you are not growing closer, then you are drifting apart. Like a great tree, a marriage keeps on growing and expanding as long as the couple continues to grow in understanding and love."

Wherever possible, let us tell someone today that we love them, that we appreciate them: your wife or husband, your son or daughter, your mother and father, a friend or even an enemy, a colleague, an employee or employer, someone you're close to or once was close to, maybe even your pastor and brother or sister. An article on love puts it like this, "Everyone wants to feel loved. It is comforting and heartwarming to know that God loves us, and it increases our realization of the encompassing love of God to express love to someone. Today, tomorrow and tomorrow, express to someone, "I LOVE YOU." Having difficulty in your marriage, family or other relationships? These once active people are remembered at various holidays throughout the year, and the group wants them to know they are not forgotten.

District 63 Board meeting

Apollo Junior High school's presentation, prepared and given by students and parents as well as teachers, highlighted District 63's regular Board meeting of Feb. 5. Areas covered in the one-hour discussion included a general overview, given by Principal James A. Lumb, student and community involvement, implementation and individualization of pro-

grams, team teaching, extracurricular activities, and progress reports.

Mike Koz, vice-president of the 8th grade Student Decision Making Council (SDMC) explained students' attitudes; Mrs. Phillip Rothenberg gave parents' views on the performances of both staff and students. Teachers' reports centered on Learning Disabilities, resource teachers, the Student Tutorial Program, the Instructional Resource Center, the Volunteer Bureau, Special Services and the homeroom program.

A follow-up discussion of the Apollo program will be held at a District-wide listening/informational team meeting on Wednesday, Feb. 13, 7:30 p.m. at Apollo School.

Following the reports, Supt. Dr. G. Allan Gogo said the Administration recognizes the fact that schools everywhere are increasingly becoming a "catch all" for just about any need a child has—social and emotional as well as educational. "We need to employ people beyond regular classroom teachers so these classroom teachers can devote time to do what they're required to do."

He added that the schools in District 63 are "very good schools, measured by any yardstick," either standardized tests or professional views outside the community.

Among other action taken, the Board approved the 1974-75 School Calendar. The meeting, attended by about 80 visitors, was adjourned at 11:58 p.m.

Dance member

David Novak, son of Mr. and Mrs. Sid Novak, 7928 Maple St., Morton Grove, is a member of Illinois Wesleyan university's Contemporary Dance Theatre Company which will present its version of Bernard Gunther's "Now Playing Now" in the experimental theatre at Wesleyan Feb. 14-17.

SCHOOL NEWS

Telephone information center

A telephone information center—to receive and record community concerns—has just been established at East Maine School District 63's offices.

Listed in the phone directory as "East Maine Public Schools—District 63, School Information," the service number is 824-0978.

The idea for such a public information service originated this past fall from the Communications Advisory Committee, composed of interested parents; this group took their ideas for improving communication within the school district to the Board of Education's Communications Advisory Committee.

The school board then voted to establish the informational center, along with other measures to better communications, including distribution of news releases, district-wide newsletters and informational meetings to be held at the various schools.

ST. ISAAC JOGUES CHOOSE CATHOLIC SCHOOLS WEEK

With a theme of "Different Where It Counts," through the "Message and Values" we teach in a "Faith Community and Service Orientation," this week of the Archdiocese of Chicago is a dual opportunity to promote their elementary educational programs and recruit students. Catholic education week is Feb. 17-24.

The entire staff and students here at St. Isaacs extend to all our parishioners, parents and friends, a hearty invitation to visit our school during this week and next Sunday, Feb. 24, after all the Masses. Come and see our regular school day in operation. As always, in our cycle of learning, there are highlights with some specials. Some of these will happen during this week, also.

On Monday some units of our six IGE Units in Language Arts and Math will begin a fresh new cycle of learning by pre-testing and introducing new learning behavioral objectives, learning and enrichment activities.

On Tuesday you can see in some

Units, group presentations, small student group discussion and interactions, independent workers, students and aides using our Library and study corners and the rich audio-visual materials which the school offers. Actually these things happen every day of the week.

On Wednesday afternoon the students from our outstanding Science Fair who were high winners will display and present their projects to you who will be present.

A Math Fair will be conducted on much of Thursday in the School Hall. This has been a Math project of one of our intermediate Units. Another highlight!

On Friday, a special Liturgy prepared by the students thanking God for the opportunity of our Catholic Education and asking for the help to spread the message of Jesus Christ. We will celebrate Mass each day this week with these intentions and with applicable themes prepared by the students and their teachers on different grade levels. Besides our special Liturgy, a Junior High Unit will be active in presenting Skits, Humorous Speeches and some Court Drama. During this past month they have focused in on Speech presentations of many kinds.

We have a great school. We are proud of it. We invite all to come and visit and share with us. Catholic Education Week at St. Isaac Jogues School, Niles, Feb. 18 through Sunday morning Feb. 24.

But Miller said he's always wanted this experience, and now he regrets he didn't begin this adventure 10 years ago. His wife, browned by the hot Florida sun and smoothed over by the gulf's winter breezes, stood four-fold behind her man. She was as enthusiastic about their adventure as he was, and was chomping at the main line to get started. There was still 6 weeks more work on the boat before they'd take off.

As Miller said, "I should have done this 10 years ago." And why not? Why should a man be heading toward 70 years old before he reaches for a dream of a lifetime? Why shouldn't a man, or woman, reach for their dream at 60... or even 50, or earlier if they can?

Harold Miller and his wife found us at a small roadside tavern, and insisted we drive out to the dock where his ship was taking form. When we saw their desire to show us their boat we were most anxious to join them. And when we saw their pride, and their dream, we knew we were briefly a part of a rare life's experience. It was less than an hour of our lifetime. But it was a moment when we met a man who had caught up with his dream.

The news of two weeks ago of the indictment of several Wheeling village officials was of special interest to us. We had published a Wheeling newspaper for several months 2 years ago, and knew most of the men who were involved in the indictments. Even though we stood toe to toe with the officials on several occasions, in a community which was a closed society, we still felt saddened by the news. One of the trustees involved seemed to have a vendetta toward the newspapers, and would naturally arouse some hostility among the newfolk with his criticism. Still, it saddened us to read the news. Despite our endless confrontations with public officials, we've never found much joy in reading about public men being indicted. On several occasions we've put the brakes on aggressively writing about news which might indicate public men should be tossed in the puke. We continuously receive shreds of information of illegal activities by public men, usually unsubstantiated. But there has been solid information which if pressed into the state's attorney's hands could lead to court action. Perhaps it might be our Achilles heel but we've never been interested in taking the role of sending anyone into the courts.

It wasn't too long ago The Life newspapers pursued the Niles Park District, implying much hanky panky there. After headline after headline, and bringing the state's attorney into an investigation, the story proved unsubstantiated. And while their headline of malfeasance received front page position for several weeks the quashing of the story just fizzled out. Similar black headlines dispraying The Life's stories were never printed, which is indeed one of the unfair imbalances in our field.

ship offices, budget and financial data, and a review of new and proposed state legislation that affects township government.

The letter will be distributed to other governmental organizations within Maine Township, homeowners associations, senior citizen groups, chambers of commerce, and not-for-profit social service organizations, such as the Maine Township Mental Health Organization and area hospitals. Purpose of the newsletter, Dowd said, is to inform township residents of the activities and services being provided and available through their township government.

The newsletter will also be available to any resident of Maine Township who requests it. Requests may be made by calling the township office, 297-2510.

committee's post. The people of Niles Township deserve more from their senator than a "worst" rating in education. Republicans in Niles Township deserve more than a party leader who cannot fill vital election judge posts.

"In short, Mr. Nimrod should withdraw from the committee's race to do a good job in the state Senate. Otherwise, I'm going to make sure he only has one job on March 19th so that Republicans do not lose the vital Fourth District seat," Black concluded.

said, "There are some complicated problems in technical procedures to be followed up by Wells and they have 30 days to correct the fault or the hearings will be reopened. Dr. Moore and his commission have worked longer (3 years) and harder than anyone to get this resolved." Hilkin then said the Board of Health had 34 inspections in January. They also reported 3 dog bites and 6 cases of chicken pox.

Mr. Hilkin said February could be a record month for the Blood Drive with 154 donations so far. He added that the Fire Dept. made a pledge of 100% participation in the Blood Program and have attained that distinction. "They are to be warmly commended," said Hilkin. Earlier in the meeting Hilkin presented Certificates of Appreciation to four-time blood donors. The mayor also presented an award to Glen Eriksson who was awarded an Eagle Scout tonight and who recruited 32 blood donors. Trustee Hilkin said it was a pleasure to issue the citation to "the youngest recruiter in our Blood Program."

George Holt, Village Engineer, said we have been awarded funds for \$122,500 or 70% of the \$175,000 needed for the improvement and widening at Central ave. and the rearranging of traffic signals at Central and Dempster. This will be started in 1975.

Chief Glaumer said the 1973 Annual Police Report should be completed at the end of this month. Fred Huber reported the traffic survey requested by OCC has been completed and David Cohen moved to turn the results over to the Traffic & Safety Committee for study. The motion was carried. Bids were opened for the Vac-All for the Public Works Dept. They were from Bruce Municipal Equipment of Glenview for a 1975 model at \$53,529 with a 16 month delivery. This would not include the extra added charge for a necessary addition to all 1975 models. Also clarifying their bid for an additional sum was Gilmore International Inc. of Wheeling with a bid of \$53,709 and a 13 month delivery date. White Truck Division of the White Motor Corp. of Chicago bid \$20,599 on the truck with a 14 day delivery on that, but their bid failed to include the price of the Vac-All which they said would cost \$34,945 and could be delivered within 120 days. It was moved and decided to turn the bids over to Huber and Jim Dahm for study.

In other business Attorney Barratato said a zoning lawsuit has been filed against Morton Grove by Brandels Home Builders. Martin Ashman said \$1,495 was collected from the Hotel Motel Tax and Ed Brice said one 8" water main was repaired. David Cohen reported 46 alarms handled by the Fire Department from Jan. 27-Feb. 9. There were 19 ambulance calls.

Dick Hols said the new fire station should be finished by the end of the month and asked the board to consider dedication ceremonies about May 19. Herb Houdt said the state has awarded the contract for the Golf rd. storm sewer to the Reliance Underground Construction Co. of Elk Grove Village for \$818,302.10 and noted this work should be completed this year. Houdt then moved to have the administrator advertise for bids for our 50-50 sidewalk replacement program to be opened Feb. 25. Mayor Bode announced Cook Electric has given the American Legion permission to hold its carnival on their vacant property July 11-14 while they are on vacation. Bode also advised the board of receipt of a letter from the Park District requesting a joint meeting. This meeting has been scheduled for March 2.

The Village has made arrangements for the 1,000th donor expected that evening to be presented with complimentary dinner for two donated by the new Henric's Steak and Lobster House, Niles.

1st National of Morton Grove records new growth in '73

The year 1973 was highlighted with new records and achievements for the First National Bank of Morton Grove, announced president Marvin von Aswege.

The accomplishments are outlined in the annual report issued this week to the bank's shareholders and general public, he said.

The report shows that total assets reached a new high of \$62,091,200, representing a 6.3 per cent increase over the previous high in 1972. Total deposits climbed 6 per cent to a record \$57,328,469.

The new growth in these two significant categories was attained in spite of a general movement of funds from financial institutions to higher yielding government securities, Von Aswege noted.

Despite these conditions, the bank was able to close out 1973 with an increase in net income over the previous year, he stated. "Even with the tight money situation, we continued to serve the community by making over \$3 million in new real estate mortgages last year," Von Aswege commented.

To better accommodate this increased business, added emphasis was placed on customer service and convenience, the president said.

These included extending the hours in the bank's drive-in and walk-up facilities to 60 per week and the introduction of a Wednesday opening in the main bank and consumer loan department, enabling customers to transact business six days a week.

The bank also improved and expanded its parking facilities, installed a new security system conforming to federal regulations and expanded its staff by adding

more teller supervisors and other personnel.

"Despite uncertainties in our national economy, the bank anticipates continued progress during 1974," Von Aswege said. "We have the management, staff and experience to meet all challenges and opportunities successfully and continue to grow and serve the community to the fullest."

Centel Blood Donor Program

A true Valentine's gift—one that really came from the heart—was given to the residents of Niles by 5 employees of Central Telephone Company.

These employees are residents of Niles and helped all other residents of their community when they donated to the Centel Blood Donor Program. Contributions to the Centel program by Niles residents were also credited to the Niles community blood replacement program.

A total of 280 Central Telephone employees from the surrounding area each contributed a pint of their blood. This represented more than enough to provide blood coverage for one year for all Centel employees and their families. Similar benefits will be received by all residents of Niles when the community program reaches its goal of four per cent of the population.

Five blood drawings were held in various Centel buildings during the drive. The program was organized in conjunction with the North Suburban Blood Center. Many communities, organizations and firms are forming blood assurance programs to help alleviate the critical blood shortage in Illinois. The shortage has grown since passage of the law aimed at reducing the incidence of hepatitis resulting from using blood from paid donors.

Energy savings banking program

An energy conservation banking program has been developed by First National Bank of Des Plaines to help home owners conserve energy and improve indoor comforts.

According to Robert F. Bruhn, vice president, First National is offering a "Fuelsaver" loan program that's described in a folder available free to home owners. This plan encompasses six home improvement recommendations that can contribute up to a 30% cut in home heating expenses.

For example, Bruhn explained, by adding six inches to top floor ceiling insulation, heating costs can be reduced 30% over homes

with uninsulated ceilings. Adding a fireplace is another savings idea, because for every degree the thermostat setting is lowered results in a 3% savings on the heating bill.

Other home improvement energy saving ideas include repairing defective roofs, installing storm doors and windows, adding caulking and weatherstripping to seal heat leaks, putting up insulated siding and replacing inefficient, worn-out furnaces. First National is offering loans to pay for these home improvements at low rates and with up to seven years for repayment.

Bruhn also pointed out that banking by mail helps ease the gasoline shortage. He stated that First National customers can handle nearly all their banking services by mail including savings, checking and Christmas Club accounts as well as loan transactions. "Best of all," Bruhn added, "First National pays the postage both ways."

To obtain a copy of the bank's "Fuelsaver" loan plan folder, visit the bank or write to: First National Bank of Des Plaines, 733 Lee Street, Des Plaines 60016 or telephone 827-4411.

Barrel of books collection

A wise man once said, "The pen is mightier than the sword." The Friends of the Niles Public Library believe this and that is why we are collecting a barrel of books.

Everything from Blatty's "The Exotist" to Carroll's "Alice in Wonderland" to Tolstoy's "War and Peace" are what we want. In other words, prose, poetry and other consolidations of the written word.

The barrel for the collecting of these books is in the lobby of the main library. It will remain there through April 19th. For those unable to bring in their books, call the library (967-8554) or "The Friends" (965-6674) and we will be happy to pick them up. The used books will go on sale during the Book Fair, which will be held Library Week, April 21-26.

Come and get 'em . . . before the Feb. 15 deadline.

ED HANSON 'When You Can't Reach the Tooth Fairy'

The "Tooth Fairy" was at the dentist when I called the day after having three upper teeth extracted, so being hungry I dropped into Jake's Restaurant. "Jake, old friend, can you fix me up with some soft but tasty food morsels? I just had three teeth extracted and my mouth is very sore."

"Certainly," Jake replied in his usual cheerful manner and soon I was eating some oatmeal, soft delicious pieces of baby pork, stuffing, jello and milk. Afterwards, feeling better, I asked Jake how his free tickets for the upcoming Medinah Shrine Circus were going.

"Great, Ed. I'm giving away 300 choice seats for the circus, two to a family, and people are really registering for the chance to win two tickets." So don't YOU forget to register. The Medinah Shrine Circus will be held March 6 thru March 22. There's nothing to buy or no obligation. Just step up to the cashier's counter and ask for a registration blank and fill it out. You may be a lucky winner of two choice seat tickets for this thrilling circus. And you can register as many times as you like.

I also learned that Jake is "popping" with FREE pop corn for Valentine's Day and the following Friday. If you drop into Jake's Restaurant, 7740 Milwaukee Ave., Niles on Feb. 14 (Valentine's Day) and Friday, Feb. 15, you'll see an antique Popcorn Wagon standing in the restaurant. And you can get FREE a big bag of freshly popped corn which the machine will "pop" before your very eyes, just the way it was done in the good old days.

And for the kids, Jake is giving away FREE candy bars on Valentine's Day. "What else, Jake, is on your promotional agenda for the near future?"

"On St. Patrick's Day, March 17, Ed, I plan to have a big Irish blast. We'll serve Green River, Green Ice Cream and we'll have the whole restaurant decorated in an Irish Green motif. We'll feature Irish food specials for St. Patrick's Day, including that old standby, Corned Beef and Cabbage. And, of course, there'll be FREE gifts for the kids."

"Wonderful, Jake. I should have some teeth by then so I'll be in and have some Corned Beef and Cabbage ... what else is new?"

"My new Sunday menu offering "All You Can Eat" specials for only \$1.75. My weekday "All You Can Eat" specials have gone over so well that I'm extending them to Sundays now on a new menu."

"Nothing succeeds like success, Jake — meanwhile, until I can reach the "Tooth Fairy" I'll drop in a have your breakfast special of French Toast for 68 cents."

"Or the two large eggs, potatoes, toast, jelly and butter, Ed." Maybe I shouldn't complain. A friend of mine went to the dentist and had his teeth x-rayed. When he again saw the dentist he asked him how everything was. "Your teeth are fine," the doc replied, "but your gums are falling out!"

Something new ... Angelo of the popular BEAM 'N BARREL, 7136 Milwaukee ave., Niles, has added two new specials to his menu. So if you take the family over to the BEAM 'N BARREL this Sunday for dinner you can SAVE 10%, and the BEAM 'N BARREL is centrally located so that from any part of this area, it doesn't take much gas to reach this excellent eatery. The BEAM 'N BARREL offers the ultimate in dining pleasure and has a warm, cozy, rustic atmosphere which both the young and old will enjoy.

Dropped into the LONE TREE INN, 7710 N. Milwaukee ave., Niles, last Wednesday when I still had teeth and ordered their Chicken Kiev with Rice. It was simply delicious and when my dental work is completed, I'll be back for more. The LONE TREE offers money-saving Dinner Specials, Monday thru Fridays, and the food is top drawer. These dinners are served with a relish tray, hot bread, whipped butter, soup, salad and dessert. And, on Friday they feature name Polka Bands and on Saturdays the popular "Lively Ones" provide dancable entertainment.

Some friends of mine had dinner at ARVEY'S RESTAURANT, 7041 Oakton st., Niles, the other evening and raved not only about the food but the FREE Caesar Salad they received with their dinners. The wife of one of my friends said, "That Caesar Salad Arvey's served was worth the price of the meal itself." ARVEY'S, where the foods are internationally famous, serves a FREE Caesar Salad, Tuesday thru Saturday nights. And on Thursday only you can get a FREE Caesar Salad with lunch as well as dinner. Arvey's also offers low calorie lunch specials from \$1.25 and breakfast specials from 95 cents.

'The Fallen Idol'

"The Fallen Idol," a poignant and suspenseful film will be shown at the Mayer Kaplan Jewish Community Center, 5050 W. Church st., Skokie on Sunday, Feb. 17 at 7:30 p.m.

Based on a short story by Graham Greene, and starring Sir Ralph Richardson and Michele Morgan, the film tells the tale of a lonely young boy and the tragic results of his devotion to a butler. Donations for the film are 50¢ for members and \$1 for non-members.

Choral concert

Maine East's annual Choral Concert will be held Sunday, Feb. 24, in the Maine East auditorium, beginning at 3:30 p.m.

Tickets will be \$1 for adults and 75¢ for students. Music Booster cards will be honored.

Some of the songs on the program are "Ye Shall Have a Song," "Song of Gallea," the spiritual "Daniel, Daniel, Servant of the Lord," and selections from the hit musical "Fiddler on the Roof."

Galen opens at Allgauer's

Galen and his group opened Feb. 12 at Allgauer's Fireside in Northbrook. They will be there four weeks, closing on March 9. Galen, a hypnotic pianist, is an entertainer with antics that combine the serio-comic flourishes of George Liberace, Al Morgan and Vladimir Horowitz, according to Sam Lesner, of the Chicago Daily News.

Variety writes, "Galen seems to be a sure bet to please most of the people most of the time." Galen is backed by Larry Oakland on the organ, Tim Haarman on drums, Jim Taylor on guitar and John Richards on bass. Allgauer's Fireside Show Lounge is located at 2855 Milwaukee ave. in Northbrook and the telephone number is 341-6000.

Jazz Band concert

Students at Oak School, East Maine School District 63, heard the sounds of the "big band era" on Jan. 24 as part of their Cultural Arts Program. A Jazz Band from Notre Dame High School for Boys performed at the school. Programs are scheduled periodically through the cooperation of Oak School's Cultural Arts Committee, Principal Kenneth Johansen, faculty members and students.

Barn dance

There may not be any hay in the loft, but there will certainly be a lot of promenadeing and do-si-doing when the Young Adults of the Mayer Kaplan JCC hold an old fashioned Barn Dance on Sunday, Feb. 24, at 7:30 p.m.

Single adults, ages 18 to 30, are invited to join in the fun as caller Will Mills leads the dancers in lively square dance and reels. Participants need no previous experience in square dancing... there's fun for all.

Cost for the evening, including refreshments, is 75 cents for members and \$1.75 for non-members. The Mayer Kaplan JCC is located at 5050 W. Church st., Skokie.

'It's Your Heart'

"It's Your Heart," a heart disease detection and education day, will be held Saturday, Feb. 23, at St. Francis hospital of Evanston.

Featured will be booths for blood pressure screening, risk factor evaluation, individualized testing, and personalized counseling by hospital physicians and other staff members. Audio-visual exhibits will demonstrate the full spectrum of heart care. Educational materials, as well as low-cholesterol cookbooks, will be available.

"It's Your Heart" will open at 10 a.m. and close at 3 p.m. It will be held in the Schultz auditorium of St. Francis Hospital, 355 Ridge ave.

The day is open to the public. There are no fees.

St. Francis Hospital serves the north metropolitan area and is a major teaching hospital of the Loyola university.

Young's bill gives tax deduction

To promote use of public mass transit facilities, Rep. Samuel H. Young (10th, Ill.) introduced a bill to provide for a Federal income tax deduction for commuters.

Congressman Young's bill, introduced in the House, would permit a taxpayer, when he computes his Federal income tax, to deduct from his gross income the full public mass transit fares he pays to ride to and from work. No similar deduction would be allowed for a commuter who drives.

"This bill will encourage people to leave their cars at home and use mass transit systems, which in turn will cut down on the consumption of gasoline by motorists and will relieve the energy crisis," Congressman Young said.

"In addition, this bill will spur local and metropolitan areas to begin or expand mass transportation systems to accommodate what would be expected to be an increase in the number of passengers wanting to use these systems."

The proposal, Congressman Young said, "would be especially helpful to lower- and middle-income taxpayers, who seem always to have the heaviest burden under our tax policies. Many of them," he said, "already are using the Chicago Transit Authority facilities to get to work."

About 90 per cent of the nation's population is urbanized, but many areas lack adequate mass transit systems, Congressman Young said.

For example, according to a survey published last month by Chicago Today, mass transit ridership is higher in the eastern part of the 10th Illinois Congressional District than it is in the western section because of convenient access to the Chicago Transit Authority system. Yet much more than half of employees in the eastern portion of the 10th District drive private autos to work.

Mikva noted that 54% of the members of Congress are lawyers. "We need canons of political ethics just as we have canons of judicial ethics," Mikva said.

Mikva: Tougher ethical standards for lawyers

The law profession must take "quick and decisive action" to strengthen and enforce the standards governing lawyers in public service, according to the former Chairman of the Illinois Board of Ethics, Abner J. Mikva.

Speaking at the American Bar Association (ABA) Convention in Houston yesterday, Mikva said, "The profession faces a serious crisis of confidence due in large part to the involvement of lawyers in the shady activities of the Watergate affair. Only immediate, unequivocal action can end the erosion of public trust in the legal profession."

Mikva is a former Congressman and a member of the Governing Council of the ABA's Section on Individual Rights and Responsibilities. He urged that a "complete and thorough review" of the ABA's Code of Professional Responsibility be given top priority on the Association's agenda for the annual meeting in August.

"The extent to which lawyers have been implicated in the Watergate scandal should be deeply disturbing to any member of the profession," said Mikva. "I know the public is deeply disturbed."

Mikva said that the code of professional ethics strictly prohibits a lawyer from accepting kickbacks, using perjured testimony or false evidence, making false statements of law or fact, or assisting a client in illegal or fraudulent conduct.

Mikva noted that 54% of the members of Congress are lawyers. "We need canons of political ethics just as we have canons of judicial ethics," Mikva said.

KROMER'S TV TOPICS

WOLFGANG KROMER'S GUESSING GAME
Occasionally we get phone calls at KROMER TV REPAIR about TV trouble and we suspect they come from folks who are repairing their own sets or from part-time TV fixers. The difficulty is most often of the intermittent type that takes electronic meters and circuit knowledge training to ferret out. We'd like to give the caller a definite answer but the several different components that cause this trouble all react the same way.

Generally, these callers keep changing tubes and parts in a hit-and-miss guessing game and if they're lucky, might solve the problem. However, most often it is expensive and time consuming. You're better off in the long run to call an experienced technician to do the job right. Many folks phone 967-6485 in this area. We'll guarantee your satisfaction.

NILES COMMISSION ON COMMUNITY HEALTH

Don't Store Gasoline

Storing hoarded gasoline may be dangerous according to the Consumer Product Safety Commission. Because of its extreme flammability, quantities of gasoline should not be stored in a closed area or where it is warm. If stored improperly, children may be tempted to drink it, causing serious injury or even death. The Commission says small amounts of gasoline, if necessary, can be stored in heavy metal safety containers with tightly closed lids in a cool, well-ventilated area. It should never be kept in the house or in a closed garage. Gasoline should never be stored near an open flame or in the trunk of an automobile. It should be kept out of the reach of children. Persons should avoid repeated or prolonged contact of skin with gasoline and avoid breathing fuel vapors.

McCone accuses Scholl of 'bungling'

Sheila McCone, Democratic candidate for State Senator, 16th district, accuses Edward Scholl, Representative, of bungling and nonfeasance in office because of his recent actions concerning the lottery to fund the RTA. "Scholl has acted completely irresponsible in the lottery matter," she said.

The fact is that Representative E. J. Giorgi, Dem., Rockford, is the author of the lottery proposal. Giorgi allowed Scholl to handle the bill in the senate and Scholl was unable to be effective. In a special session, after changing a few commas, Scholl claimed the lottery as his own creation. Now in the final scene, we see the state losing 15 million dollars because of the ineptness of the guy representing the 16th district. The people deserve better. And on March 19 the people will vote in the democratic primary to support Sheila McCone for Senator."

Legion donates toys

The Morton Grove American Legion Post 134 recently made another donation to the students at the Julia Molloy Education Center. Three station wagon loads of toys were delivered to them.

Through the courtesy of Dick Nichols and Majestic Supply in the Skokie, the items were display holiday items which they contributed to the Post for the gift-giving to the kids at the education center. Owners Lou and Julian Roseth have been singled out by the Morton Grove Post for this kind deed.

Heart and blood vessel diseases will cost the American economy an estimated \$19.5 billion and cause 52,000,000 lost work days in 1973, according to your Heart Association.

plans to locate in the Niles area. Since they may begin operations in a store it will necessitate a special use approval by the village. Likewise, the influx of these businesses will necessitate an upgrading in parking requirements.
In other actions Tuesday night trustees approved a 2% motel tax on transient residents occupying a Niles motel room less than 1 week. The original 3% proposal was changed to conform with Chicago's 2% tax. Residents living more than 1 week, such as the YMCA, will be exempt from the tax.
Village President Blase told police chief Emrickson to allow Nilesites until February 23 before ticketing autos which do not have vehicle stickers. The February 15 date was extended after Blase noted residents would not have sufficient time to be notified as to the date for installing the stickers.
Sent to the zoning board changes in zoning in rear yards (owned by Joe Vosmik), 6753 Milwaukee (Catholic Cemeteries) and 6873 Milwaukee (Marvel Inn). The Vosmik and Marvel Inn land had been zoned for B-2 use previously but Niles zoning maps erred in designating them. The two parcels of land were zoned R-2. The Vosmik land had been zoned in 1954 for B-2 and the Marvel Inn in 1961. The Catholic Cemeteries land will be changed to M-1 (Manufacturing). It likewise had received this zoning in 1961 but the map erred in its designation.
Adopted ordinances vacating alleys east of Milwaukee Avenue in the Greenleaf-Lee-Ozanam, Ozark, Ottawa and Orlole.
Joined with 20 other suburbs in studying 30% water hike Chicago is asking from the suburbs. The \$300 cost per suburb is expected to be shared by 120 towns which were called together by Niles to study the cost of Chicago's water and to determine if the increase is justified.
Property buying Tam Tennis Club at 7686 Caldwell was sent to the Plan Commission for special use zoning for indoor handball courts.
Special zoning for an auto repair shop at 6505 Dempster Street was referred to the Plan Commission.
The week of February 15 to 23 was proclaimed "Festival V week" at St. John Brebeuf Church where its annual variety show takes place.
Park Commissioner Millie Jones received approval for her request the village board join with the park board in sharing equally the \$5,000 for the Niles-Niles Association of Recreation for Handicapped Children. Last year the 2 boards each contributed \$1,820 for the project. Niles has 35 children in the program and a projected 285 children will be in the program this year from the 2 townships. Blase said a Niles resident is director for the program and highly praised his efforts.
Village Manager Ken Scheel announced garbage bags will be increased from \$9.50 to \$3.75 March 4. Residents desiring bags at the lower price should request them before the price increase.

Accepting the grand prize of \$100 is Niles resident Andrew Schadeck from Committeeman Nicholas Blase and Ms. Veda (Charles) Kauffman. Mr. Schadeck along with several other senior citizens shared in the prize money from the afternoon bingo party. The idea of the series of senior citizen bingo parties was developed recently by Nick Costantino and Carmen Ceasario of the Maine Township Democratic Senior Citizen Committee along with Committeeman Blase in order to give the seniors an afternoon activity. Admission to these games is totally free to the senior citizens of Maine Township which include the bingo games and refreshments served.

There are approximately 15,000 senior citizens in Maine Township so the games were divided into three sections in order to accommodate as many persons as possible. Niles (games held Oct. '73), Des Plaines (games held Feb. '74), and Park Ridge, date to be announced.

The Melodeers sing four-part, barbershop style harmony under the direction of Mr. Jay Giallombardo of Waukegan. Those singing will include Nancy Freezor of Niles, Rosemary May of Morton Grove, and Nancy Milewski of Morton Grove. Chicago will be represented by Kay Fleas, her daughters, Donna and Maureen, Ruth Debler, Linda Hawkins, Shirley Downs, and Gene Bell.

The times begin at 8 p.m., in the Audio Visual Room of the Niles Public Library. Tickets are free, however, seating is limited, so pick up your tickets as soon as possible at the desk in the library.

District 207 teachers, Maine Teachers Ass'n. resume negotiations

This press release has been prepared as a joint release by the Maine Township High School District 207 Board of Education and the Maine Teachers' Association.

A resolution paving the way for resumption of negotiations between the Board of Education of Maine Township High School District 207 and the Maine Teachers' Association was adopted by the Board of Education as it met in official session on Feb. 11, 1974. Recognition by the Board of Education of the Maine Teachers' Association had terminated in June, 1973 when the Board declared that the Procedural Agreement for Negotiations between the parties had been rendered null and void.

Thereafter, the Maine Teachers' Association filed suit in the Circuit Court of Cook County seeking to require the Board to resume negotiations. That suit is still pending as is the Board's Counterclaim against the Teachers' Association. It became increasingly apparent and concerning to both parties that the impasse between them created obstacles to the amicable and orderly operation of the Maine Township High Schools.

However, as a result of the growing concern about the lack of communications, the Board created an Ad Hoc Communications Committee which met with

eight faculty representatives. This meeting resulted in a recommendation that the Board Ad Hoc Communications Committee meet with representatives of the Maine Teachers' Association in order to explore informally ways and means to reestablish communications between the two groups.

Dewane Barnes, Maine Teachers' Association President, said, "Our organization wants the best for the student. Therefore, we prefer to resolve any differences with the Board in an amicable way, rather than in the courts."

John L. Means, Board member and Chairman of the Ad Hoc Communications Committee, added, "We are pleased that the teachers' organization accepted our invitation to begin these informal discussions. We continue to have high regard for the professional staff. This resolution is the product of hard work by all of us."

The resolution provides that the Maine Teachers' Association will again be recognized as the spokesman for District 207 teachers and that negotiations between the Board of Education and the Maine Teachers' Association will be conducted according to rules and regulations contained in the district's 1972-73 Procedural Agreement for Negotiations.

As a condition of commencing negotiations, the resolution calls for the Maine Teachers' Association to seek dismissal of its lawsuit against the Board. The resolution also states that as an indication of its good faith efforts the Board will seek dismissal of its Counterclaim.

The six-paragraph resolution states that, not later than 30 days after the effective date of dismissal of the Maine Teachers' Association court suit, the Board of Education will begin negotiations with the Maine Teachers' Association on salaries and fringe benefits for the 1974-75 school year. The items to be considered will include those already submitted by the Maine Teachers' Association along with a list of proposals which the Board of Education may present.

Concurrent with the resumption of these negotiations Board representatives will meet with the representatives of the Maine Teachers' Association to consider amendments or modifications to the Procedural Agreement for Negotiations.

The resolution also establishes that communications meetings between representatives of the Board of Education and teachers on the professional staff will continue. These meetings will focus on concerns related to the general welfare of the staff and to the educational program in the district. A key item of the resolution is the proposal that both parties will make every effort to reach agreement by the end of this school year.

I used to live in Niles in 1957.
