Oakton spring enrollment

The number of students registered for the spring semester, 1974 at Oakton Community college is 3,506, according to John D. Gagin, director of admissions and records. This is an increase of 13% over the spring term one year ago.

Gagin noted in a report to the Board of Trustees a number of significant changes in the OCC student body. More students are attending part-time than full-time. More students are attending evening than day classes.

The number of students attending Oakton from out-of-district communities on the North Shore continues to increase. Although slight percentage changes have occurred in the number of new transfer and readmitted students, the retention rate on a percentage basis for continuing students has remained constant. The average class size for the spring semester, 1974 is 20.6. Full-time enrollment at Oakton this spring is 1,488, about 42% of total enrollment. Part-time en-

rollment is 2,018 or 58% of the enrollment. The full-time equivalent enrollment, upon which state financial assistance is based, is 2,144. Gagin also indicated that there has been little change in curriculum. Continued on Page 23

Extra gas eliminates traffic-blocking lines

NO GAS LINES. NO TICKETING

A temporary lull in the long lines of traffic-blocking motorists waiting for gasoline made the Niles Police reconsider their plans for ticketing motorists. After a meeting with 20 Niles service station representatives on Feb. 18, Mayor Nicholas Blase said the village would install signs which would state that it was "Unlawful to block traffic lanes. Violators will be ticketed." Police would then ticket any motorist blocking traffic while waiting in line for gas.

The village still intends to erect the signs in a few weeks. Chicago recently installed the same signs that Niles is considering. Ticketing would be the heaviest during the rush hours of 7 to 9 a.m. and 3:30 to 6 p.m. Blase said Niles police would come down hard on offenders stating that "If the people get the message that you're serious about this, they'll learn quickly." Blase also said that he is aware of the fact that several service station owners are already warning drivers and trying to keep their customers informed of the new ruling. Each sign will cost the village about \$11.50 in material and labor.

Nilesite Jerry Rosenstein will appear before the Niles Little League board March 13 to appeal a ruling which has barred his daughter from participating in Little League baseball. The young lady, Hammerin' Elin Rosenstein, age 12, is one crackerjack athlete and her Dad can't see why she shouldn't be able to participate alongside the boys in Niles organized hardball leagues.

Jerry told The Bugle Monday he had heard a news story on Channel 7 last week in which a similar case was reported and a court ruling stated the lady athlete couldn't be barred from registering. Rosenstein, a former manager in the Niles Pony League, said his two older sons have participated in Niles Little League and he sees no reason why his daughter shouldn't be able to play ball there as well. He said she's a fine athlete, probably better than many of the boys she'd be competing against. She holds several track records in competition at Washington School and was a member of the Courtland Park softball team which was crowned champions in last year's Niles park tourney.

Don Fergus, president of Niles Little League, recognized there is a need to have girls involved in a baseball-softball sport, but is not sure what the answer is. "I've a 14 year old daughter who is a terrific ballplayer," said the League president, "but I wouldn't want her up against 14 year old boys."

Niles Little League, which Don said is 23 or 24 years old, is independent of the national Little League. He said the national group restricts the number of players on a team, based on the population of the community. In Niles any boy desiring to play can join a team.

Fergus noted the Hyannisport national Little League started a "kitten ball" program for girls last year, and implied this may be the answer to Niles' La Femme problem. Kitten ball is underhand 12 inch softball which is played with gloves and is referred to as softball in most of the country, outside Chicago.

The Niles Little League president said his group helped the Niles girls' softball league with its scheduling last year, and several LL members desired the group play under its auspices. Continued on Page 23

Consumer Cautions

Starting dead battery may be dangerous task

Misuse or wrong procedures of attaching jump cables can cause an automobile battery, especially a frozen one, to explode. Three precautions that must be observed to prevent such an accident are

that both batteries must be of the same rated voltage; both vehicles must be negative-ground systems; and the dead battery must not be frozen.

To jump one vehicle off another, bring the vehicles close together but not touching. Set the brakes and put gears into Park or Neutral. Keep the booster car's engine running and turn off all accessory switches on the dead car. Remove well caps on both batteries and cover the wells with cloth. Make sure the water level is above the tops of the plates, and that there is no icing.

Connect one cable clip to the positive terminal on the operating battery and then the other end of that cable to the positive terminal of the dead battery. Then connect one clip of the other cable to the negative terminal of the operating battery. CONNECT THE OTHER CLIP TO THE DEAD CAR'S FRAME AT LEAST 12 INCHES AWAY FROM THE BATTERY. In this way, any sparks will be away from the danger spot. Then start the dead vehicle's engine. As soon as the second engine is running, promptly disconnect the reverse order from that used to connect them. Replace well caps.

Blase testimonial dinner near sellout

Working very hard to make the Nick Blase testimonial dinner an evening to remember for the organization's members and guests are (l-r) Faye (Mrs. Nicholas) Blase, Mickey Allen, Veda Kauffman and Lucille Mueller. These ladies are seen at last year's regular dinner dance affair congratulating Nick Blase. Not pictured are Charlene Cohen and Noreen Murphy, members of the testimonial committee.

Tickets to the testimonial dinner honoring Niles Mayor Nicholas Blase, the Committeeman of the Maine Township Regular Democratic Organization, Sunday, Mar. 10, at the Marriott Motor Hotel, 8530 W. Higgins rd., Chicago, are nearly sold out, announced Kenneth Cohen, President of the Organization.

The response by the public for ticket requests to the testimonial dinner have been extremely gratifying for it shows an awareness of the leadership and inspiration that Nick Blase projects at all times. It behooves each and every one of us, even if we can't attend the affair to

send a telegram or letter to Nick congratulating him on his overall concern of all the people regardless of party," stated Cohen on behalf of the organization. Arrangements have been made for the return appearance of the Windjammers, the musical group that made a sensational hit with all those who attended last year's dinner dance event.

Reserve Mar. 10 for an evening with Nick Blase, and enjoy dinner, cocktails and dancing by calling 692-3388 for your tickets (\$15 per person) or by stopping into Democratic Headquarters, 8070 Milwaukee ave., Niles.

Young finds Nilesites are taking fuel shortages in stride

Most of the Niles residents with whom Rep. Samuel H. Young (Ill.) talked during his recent "Walk-N-Talk" through the village mentioned the energy crisis, particularly the difficulty encountered in getting gasoline.

"What impressed me the most," Congressman Young said, "was that the great majority of the people seem to be taking this difficulty pretty well in stride at this point. So far, they rank it as an inconvenience, not a major hardship thus far."

He said that he was struck by the fact that there were wide variations in the amounts of gasoline which gasoline station owners reported they were getting. "Some stations said they were getting close to their last year's allotments. Others have received deep cuts in the amount of gasoline they regularly receive."

He said that a number of dealers told him they had applied to the state for additional allotments.

Young also visited residents of St. Benedict's Home for the Aged, 6930 Touhy where he discussed the free bus service being provided to residents by the Village of Niles. "Village officials should be commended for initiating this very popular service," Young commented.

At the Niles Police Station, Young met with Chief Clarence I. Emrickson and discussed federal funding of law enforcement activities, and the uses which Niles is making of these funds.

The Congressman also visited the Recreation for the Handicapped in the Niles Recreation Center, 7877 Milwaukee ave. "I had a long talk with Larry Reiner, Administrator, to acquaint myself with the recreation programs which are available to children with special learning handicaps. I was deeply impressed by the work of the paid staff and of the many volunteers who make these programs possible," Young said.

In the Lawrencewood Shopping Center, Waukegan and Oakton, Young visited Larry F. Renetzky, Executive Director of Niles Family Service. "A wide variety of counseling services for individuals and families is available through this facility which is largely funded through the Village of Niles and through private contributions."

Notre Dame backstroke, Sr. Capt. Bill Brennan, placed 9th in the State Finals of the backstroke at the 43rd Annual Illinois High School State Swimming & Diving Championships held at Evanston Township High School.

In the preliminaries on Friday, March 1, Bill advanced from his position of 18th seed to qualify for the consolation finals in the 12th position. During this past week the tall backstroke concentrated on his turns and his work paid off as he swam his best time by 1.3 seconds at :57.6.

On Saturday, March 2, in the finals, Brennan advanced to 9th place with a :57.5, which is a new varsity school record. Coach Bill Casey attributed a perfect taper (resting the swimmer) combined with a great mental preparation for the race, to be the key to his backstroke's success.

MAINE EAST FRESHMAN BASKETBALL

By Stuart Friedman

The Maine East freshman "A" basketball squad won its nineteenth game of the season this past weekend when it blew the Spartans of Glenbrook North off the court by winning 74-42. The team record is currently in conference 12-0 and over-all 19-1.

The Spartans brought a poor 3-13 record into the game, and they proved no match for the Demons. The last time they met the Demons won easily 63-48.

The Spartans wanted to upset the Demons this time and came out running and gunning, scoring the first basket of the game. However, the Demons came back quickly and then put on their press, which caused numerous mental mistakes on the Spartans part. They quickly found themselves down by 4 points, but they were able to get 2 quick baskets to pull back into a tie. But, then the Demons got back to work and took an 8 point lead at the end of the first quarter 20-12. The Demons in the first quarter were led by the strong play of Larry Wayland and the hot shooting of Sam Donatucci.

The second quarter began with

the Spartans trying to cut the muscle of the Demons, but the Maine East squad held firm and stretched the lead to 10 points at 26-16. The Spartans at this point were starting to get desperate and began to shoot long desperation shots trying to get back in the game, but this didn't work as the Demons were starting to get fast break baskets and their lead stretched to a whopping 16 points at 38-22. Sam Donatucci held the hot hand as he scored 11 points to pace the Demons. Huggard paced the Spartans as he scored 8 points.

The third quarter began and the Spartans came out and started to play aggressive basketball. They started to thrash their weight around, but the Demons countered, and the Spartans started to crumble. Now the Demons were able to just walk in and score with ease. When the smoke cleared, the Demons had built up an unbelievable 29 point lead at 60-31. The Maine East press was so good that the Spartans could only get 9 points while the Demons scored 22.

The game was now safely in hand so Coach Andy Russo put

in all of his reserves. With the regulars out of the game, the Glenbrook North squad started to score even though the game was out of reach. The 70 point record was broken with 1:30 left as Mike Small shot in the record breaking basket. The game ended with the Demons claiming a 74-42 victory.

Tom Jankowski led the Demons with 14 points. Sam Donatucci scored 13 points, and he also played what could have been his strongest game of the year. Huggard scored 14 points to lead the Spartans.

Donatucci wasn't alone as his teammates also played a great game—like guards Larry Wayland and Scott Russ and center Tim Jankowski. Also, the Demon reserves must be credited.

The victory was also important because the Demons now clinch for a tie for the Central Suburban League championship.

In the games the freshmen shot a fantastic 65% from the field in hitting 34 out of 52 shots. The Spartans shot 50% from the field hitting 17-34 shots.

THINGS YOU MAY NOT KNOW ABOUT CONSERVING ELECTRICITY

Adjusting your thermostat—how it can waste or conserve energy.

These days, it's wise to know a few things about your thermostat. How you use it can save or waste precious energy and money.

Your thermostat works like this: When you set it at 68 degrees, it starts your heating system working. Once your home is warmed to 68 degrees, the system is automatically turned off. Insulation holds the heat inside your home as long as it can. Then when your home cools below 68 degrees, your thermostat starts the system reheating.

Frequently adjusting your thermostat makes your heating system work harder than it has to. And that costs you money—in repairs and higher bills. You'll save energy and money by setting your thermostat at 68 degrees and leaving it there.

Another thing to remember: Every degree over 68 adds about three percent to your heating bill. If you keep your thermostat at 68 degrees instead of 72, you can save over 10% at the lower setting.

While frequently adjusting your

thermostat wastes energy, an occasional adjustment will conserve energy. So it's a good idea to lower your thermostat at night and when you're away from home.

These principles apply essentially to all heating fuels—electricity, gas or oil. We have a booklet that covers heating as well as other areas where you can conserve energy. We'll send a copy of "101 Ways to Conserve Electricity at Home" to you free. Just write Commonwealth Edison, Department AV, P.O. Box 767, Chicago, Illinois 60690.

Niles Family Service Thought For The Week

By Larry F. Renetzky

'Children Learn What They Live'

Children are the greatest imitators in the world. Remember when your little daughter tried to dress like Mommy? She wants to be big like her mother and to "act" like her Mom. Dad, how about your son trying to help you fix the car, repair his bike or cut the lawn? Yes, he wants to be big like his Daddy. Reflect for a few moments on how your children really learn:

If a child lives with criticism, he learns to condemn. If a child lives with hostility, he learns to fight. If a child lives with ridicule, he learns to be shy. If a child lives with shame, he learns to feel guilty. If a child lives with tolerance, he learns to be patient. If a child lives with encouragement, he learns confidence. If a child lives with praise, he learns to appreciate. If a child lives with fairness, he learns justice. If a child lives with security, he learns to have faith. If a child lives with approval, he learns to like himself. If a child lives with acceptance and friendship, he learns to find love in the world.

Dorothy Law Nolte

How are your children living? Watch them, yourselves and their environment and you'll see what and how they are learning. Having a parent-child conflict? Call 966-1640 or come to Niles Family Service, Lawrencewood Shopping Center, 251 Lawrencewood Suite C in the Professional Mall.

'The Vagabond King'

The Niles Historical and Art Society and members of the Woman's club of Niles are now holding rehearsals for "The Vagabond King," songs by Rudolf Friml and lyrics by Russell Jarmey and Brian Hooker based on Justine McCarthy's "If I Were King."

This play is an exciting swash-buckling adventure which takes place during the time of Louis the XI of France. The music is beautiful and features such songs as Somewhere, Only a Rose, and the Song of the Vagabonds. Lead performers will be Linda Kovac Veglia, a mezzo-soprano who has performed in the United States and Europe. Among her credits are the title role in "Carmen," the part of Price Orlofsky in Johann Strauss "Die Fledermaus," "Il Trovatore," the Merry Widow, The Gypsy Baron, and the Historical Societies shows, The Merry Widow and Sweethearts. Defeat ERA before it defeats us

Dear Editor:
Last night I attended an "ERA-It's About Time" program. The speakers were Abner Mikva, Aaron Jaffe, Thomas Flynn, Pat Feltner, and Mary Staciotti. This program was supposed to tell us why we should support the Equal Rights Amendment. Yet both my girl friend and I left the program feeling very strongly that the ERA must be defeated if the American family life is to continue.

The first speaker was Mary Staciotti, Assistant U.S. Attorney and Instructor at Law. She began by telling us that women are nothing unless the ERAs passed. If she feels that she is nothing unless the ERA is passed then she has some problems of her own to think about before she should try and "save" the entire female species. She told us that women have no legal right to their husband's pay check and that they must assert themselves if they are going to make anything of themselves. What a foolish view of marriage. When two people get married, they share their lives, not just their money. They become "ONE". But she didn't quit there. She tried to show us how the Bible must be rewritten to include women where it now only says "man". She also reported that the word "person" in the Constitution does not include women because of a Supreme Court ruling in 1870. She forgot to mention that the Supreme Court has recognized that "persons" do include women in cases since that time. If we conducted our country on Supreme Court decisions from the 1800's there would be a lot of changes from today's society.

The next speaker was Abner Mikva. After holding up the program for some 30 minutes by being late, he spent 20 minutes assuring us that the ERA would not force men and women to use the same washrooms. Enough said!

Thomas Flynn, candidate for State Representative, was next.

He told us that the Equal Rights Amendment was the only method that was available to remove the backlog of cases involving sex discrimination. He didn't remind the audience that ALL of our courts are overcrowded. He did, however, add that the ERA would speed up court cases involving sex discrimination. Mr. Flynn did not qualify this statement. The reason for the speed up in court cases is because under the 14th Amendment the case is determined according to its merit. Certainly it takes longer for a court to decide whether a law discriminates against women or protects women; whether a law benefits women or does not benefit women. Some laws may interfere with a small number of women but protects the hundreds of great number of women. It is up to the courts to decide if a law is to be amended. But under the ERA there is no room for negotiation or compromise. Under the ERA, any law that distinguishes between male and female, whether it is worthy or not, will be illegal. This will make the cases simpler and quicker. It will also be destructive. Any provisions that serve the nation by favoring women (labor laws, social security benefits, and even ladies day at the ball game) will be ruled unconstitutional.

After the speeches, questions were accepted. It was at this time that Abner Mikva assured us that when women are drafted, they will not be sent to the front lines. Yes, under the ERA Mikva believes that women should and would be drafted if men are drafted. After all, in other countries women fight and die alongside the men.

It's about time that we woke up and defeated the ERA before it defeats us.

Sincerely yours,
Kevin L. Christell

Niles Days denies 'helter skelter' distribution methods

Dear Editor:
Your comments on the front page article of the Bugle of last week in regard to the Niles Days Committee and their "helter skelter" way of distributing their funds bothers me and I'm sure the rest of the hard workers of the Niles Days Festival.

Perhaps you are unaware the Niles Days Committee consists of 26 various fraternal, civic, and social organizations within the Village of Niles, and that all funds distributed are done so upon the vote of these 26 organizations. Would you deny that this number of organizations is a true representative of the Village - probably 75% of the residents? We devote quite thoroughly into each request for funds, and you can believe that we are very precise as to the merit and allocation of funds.

Possibly you feel that we should be involved in the matter of a joint or permanent endeavor within the Village. Well, we are completely independent and non-committal to the Village - with the exception of operating a clean and wholesome Festival. Yes, the only people that benefit from the Festival are the Nillestes themselves. No village politics, motives or causes at all - leave that to our government!

Please, try telling the kidney dialysis patients or the families that have used the ambulance that we bought a few years ago that our funds were given out "helter skelter". Or, try telling the same thing to the senior citizens, the grandmothers, the retarded children, the physically handicapped children, the boy or girl scouts, the baseball teams, the hockey players or any other of the worthwhile projects that have benefited from our "helter skelter" methods.

Sincerely yours,
Ed Brasch, Chairman
Niles Days Committee

Lincolnwood's Social Series successful

Dear Editor:
With the sound of applause for the delightful and entertaining "Planet of the Apes" still ringing in the ears of those who were lucky enough to attend opening night, it appears very likely that Lincolnwood's social series "Lincolnwood Tonight" is headed for success as a community program.

I know I speak for all Villagers who attended the performance in expressing thanks to the highly talented "Boys from the Bar" (including equally talented "Girl from the Bar; Chloé Arlan) who so joyfully offered their artistic services for opening night: E. Leonard Rubin, James Doydull, Morton Bernard, Oscar Brotman, Jack Rammel, Charles Levy, Hugh Brodke, Joseph Beer, Fred Lane, Geoff Anderson, Howard Wittenberg, Joseph Stone, Walter Moses - and Lincolnwood's own Dr. Arnold Sucherman and Julian Frazin and son Howard!

We appreciate the cooperation of the Village Park & Recreation Commission and Lincolnwood School in making the programs possible. A very special thanks should go to Dr. Bernard Widan, the series' coordinator, with whom the idea for the community program originated, and whose commitment to the program made it a reality.

Those Lincolnwoodians who missed the opening, but are interested in enjoying this Village get-together, will have another chance to participate by attending the March 13th event at 8 p.m. which will feature the "Skokie Squares" leading us in an evening of square dance.

Try it - you'll like it!

Freeze property tax

Dear Editor:
No taxpayer in Illinois disputes my contention that the property tax is our most overworked tax. Whenever local governments find a reason to increase their revenue someone is always there to suggest increasing the property tax. This has been so despite the fact that the property tax was intended only to support government services directly related to real property.

We think it is now time to say stop. We want to freeze property tax for two years and take that time to overhaul this tax. Freezing the tax means it won't increase over 1973 levels.

We need help to get this question on the ballot so we can convince the skeptics that property owners want property tax relief and reform. Your readers who want to help us to help themselves should write to me in Springfield, in care of the State House, Springfield, or call 217-525-6092.

Sincerely yours,
W. Robert Blair
Speaker of the House

Thank you
Dear Editor:
We, at St. John Brebeuf, would like to thank you and your staff for the publicity coverage you were kind enough to give our FESTIVAL V.

Your people were most courteous and we are sure the coverage received from The Bugle was very instrumental in our success. As you know the Festival is our largest fund raising event and its success is quite important to St. John Brebeuf.

I, as Publicity Chairman, want to extend my personal thanks and appreciation.

Sincerely,
Bill Doyle,

Jaffe 'Best Legislator', IVI

The Independent Voters of Illinois again named State Rep. Aaron Jaffe (D-Stokely) as its "Best Legislator" during the past year. The award, presented to outstanding members of the General Assembly at an IVI luncheon, honored Jaffe "For his legislative leadership in helping insure the civil liberties of all Illinois citizens."

At the same time, the position of the IVI against creation of single-member legislative districts in Illinois was made public. It is the view of the IVI that such single-member districts would probably result in the defeat of most independent minority party legislators, especially from the suburban areas.

Oakton endorses RTA

The Board of Trustees of Oakton Community College has endorsed the Regional Transportation Authority and recommended passage of the referendum on March 19. The development of a viable public transportation system will be a valuable service. The trustees approved the endorsement unanimously at their meeting on Feb. 5.

Cook County Federal appoints Ms. Vice President
Ahmed completes Beltone program

Clayton L. Johnson, President of Cook County Federal Savings and Loan, announced, with the approval of the board, five promotions including the appointment of the first woman Vice President of the association.

Emily E. Zoran, well known in the community, brings to the office twenty years of experience in serving the customers of Cook County Federal Savings. Starting as a teller, she became head cashier and two years ago was made assistant treasurer.

Mrs. Zoran was born and raised in the Rogers Park area, graduating from St. Timothy's Grammar School, Senn High School and Burroughs Business College. She now resides in Skokie and is an active member of St. Lambert's Parish.

Other promotions announced by Johnson included, Robert J. Foy to financial Vice President, Foy, a graduate of Loyola University with a B.B.A. in accounting, has been a C.P.A. for eight years. Before joining Cook County Savings, he was with Ernst and Ernst.

Robert C. Lease promoted to Vice President, is a Viet Nam veteran, attended Walton School of Commerce, and has been with the Savings Association for six years.

Mildred Dahl will be the new savings consultant and Larry Schimmel, Loan Officer.

Centel operations staff relocating in Des Plaines

Central Telephone Company, the telephone subsidiary of Central Telephone & Utilities Corporation (CTU), will move its telephone operations staff from Lincoln, Neb., to the Des Plaines-Park Ridge area, with the relocation expected to be completed by late summer.

The Illinois location will afford the company the advantages of being located within the serving area of one of its own telephone companies — Centril Telephone Company of Illinois, the second largest division in the Centel System.

The move will also make the telephone operations staff more centrally located to Centel's telephone divisions which are concentrated in midwest and southeastern states. Other advantages to the Illinois location include the closeness to O'Hare Airport and access to major telecommunications suppliers in the Chicago metropolitan area, according to William J. Laggett, vice president — telephone operations.

Personnel in the general staff departments of CTU's operating headquarters, its Cengas operating headquarters and the Lincoln division of Cengas are unaffected by the move, Laggett said.

CTU's natural gas operations are located in Nebraska and South Dakota. Electric utilities are operated in Kansas and Colorado. Telephone operations are located in nine states: Florida, Illinois, Iowa, Kansas, Minnesota, Missouri, Nevada, North Carolina and Virginia.

'Sweet Charity'

One of the biggest musical hits of the 1960's "Sweet Charity" will soon be presented at Niles West High School. This production will star Tulla Terpinas as Charity, a wait-like dance hall hostess who is externally searching for a good man - any good man - who will take her out of her shabby ballroom and put her in a kitchen. Gary Lande will play Oscar, the shy swain who comes close to transferring her to a kitchen but can't quite bring himself to do it. Donna Stone and Bambi Holzer will be her two closest dance hall chums who join her in the show's glamorous number "Big Spender". Others in this large cast will be Jim Schmierlik as the dance hall proprietor and Mark Nesselson as the fanatical leader of the Rhythm of Life Church. This modern, gaudy extravaganza is one show you owe it to yourself to see. Sweet Charity will be presented at West's Auditorium, Oakton at Edens Expressway, on Mar. 14, 15 and 16 at 8:15. Tickets for students are \$1.50 and for adults \$2.50. For more information, call 966-3800, ext. 287.

New DPTG comedy opens March 15

"You Know I Can't Hear You When the Water's Running", the comedy that was an 18-month hit on Broadway in 1967 and 1968, is the next bill at Guild Playhouse in Des Plaines where it will open on March 15. Six performances will be presented by Des Plaines Theatre Guild over a period of four week-ends, ending April 6. "Bill" is an apt term for this attraction, since it comprises 4 separate short plays - droll, frequently hilarious, but occasionally touching plays, all by Robert Anderson. Mr. Anderson is the author of such other stage successes as "The Sea and Sympathy", "Silent Night, Lonely Night", and "I Never Sang For My Father". He also writes for television, and films, with credits such as "The Sand Pebbles" and "The Nun's Story", for which he won an Academy Award. His four playlets to be seen at Guild Playhouse during March draw their laughter by airing a series of personal privacies that are usually not mentioned in pub-

Resurrection Alumnae plan party

"Born Free," the screen version of Joy Adamson's best seller will be shown at the Morton Grove Public Library on Friday, March 8 at 7:30 p.m. Virginia McKenna and Bill Travers portray Joy and George Adamson, the game warden and his wife who inherit 3 lion cubs when their mother is killed. When the cubs become old enough to be sent away to a zoo, Elsa, the smallest, was allowed to remain with Joy. The film captures not only the charm, humor and excitement of the story, but also the beauty of its location in Kenya. The Library requests that children who wish to attend, be accompanied by an adult. Admission is free and the film lasts 1 hour and 35 minutes.

Resurrection High school Alumnae Association invites all former Resites and friends of Resurrection to form a foursome and play cards or bunco at their annual Scholarship Party, Friday March 29, at 7:30 p.m. in the school cafeteria, 7500 W. Talcott. "Our Boutique," begun at last year's party will again be featured. It will offer many lovely items, handmade by the Sisters, alumnae, and friends and a variety of home-baked goods for sale. A portable television, a set of pots and pans, and a handmade afghan donated by one of the Sisters will be the main prizes on the Grand Raffle being held. Door prizes have been furnished by many local businesses as well as downtown merchants. Each year the Alumnae Association sponsors this party to raise funds for the Margaret E. Vallo Memorial Scholarships, giving tribute to a former teacher at Resurrection and assisting girls who wish to attend Resurrection but are financially unable to do so. Because of successful parties in previous years, the number of scholarships awarded was increased to aid 4 girls this year.

Cadette Troops 176 & 100

The two Cadette Troops under the leadership of Mrs. W. Koss and Mrs. A. Irmen are again combining their time and talents and meeting each week at St. Luke's Church in Morton Grove. A big thank you is in store for our Square Dance Caller dad, Sam Gersh (father of Janice) for all the time he donated, and to all the Brownie & Junior Scouts who supported the dances with their dads. Another thanks goes to dad Bill Bafr (father of Andrea) and mom Lois Olsen (mother of Betty) who spent so much time on the Sustaining Membership Enrollment campaign.

New Challenge groups were formed in January and the girls are actively working in four groups on the initial plans for four events which everyone in the troop is encouraged to join in on when they are finalized. One group planned a roller skating party on Feb. 14 at the Playdium for Junior Scouts and their own friends. A second group is working on a visit to the Uptown area Brownies again whom our troops hosted in December at St. Luke's. The plans are to visit them in Uptown and bring our repertoire of games, songs and crafts. The third group planned a skit around a nursery rhyme which will feature with other Junior Troops at a Thinking Day Program at St. Luke's on Feb. 20. Each troop will represent a country and bring finger-food for everyone to enjoy. The fourth group is planning a "sing-along" for the residents of Bethany Terrace for some time in March. They will present some of the latest hits along with some real "oldies" for everyone to join in.

On Thursday, Feb. 7, co-leader Mrs. Judy Bagge and mom Mrs. Levy, accompanied Cadettes Gail Schoenwald, Michelle Jacobs, Monique Levy, Laurie Bangart, Betty Olsen, Lauren Tepper, Maria Shapiro and Donna Gerol (from Troop 176) to the Morton Grove Blood Bank where they served cookies and juice to the donors and did a mighty fine job. Our two troops were scheduled to serve in October, February, April, June, July and August this year.

Our plans for the future include selling lots of Girl Scout cookies, Fred Huber, Village Administrator February 25, 1974

Fergus reiterated Rosenstein's remarks the Little League will meet on March 13 to weigh the request for girls being admitted into Niles Little League.

The Episcopal bishop of Chicago said Monday a north-west suburban church, which had been desecrated by vandals, was exorcised in secret recently.

The Right Reverend James W. Montgomery said the brief ceremony was performed secretly a year ago, partly to avoid the "frenzy" associated with the popular movie, "The Exorcist."

"Exorcisms of places are quite different from exorcising people," he said, "but not everyone realizes the difference. In cases where a church has been desecrated, leaders of the church often request an exorcism as a rededication ceremony to chase out any sinister forces."

The ancient rite was performed at St. Anselm's Episcopal Church, 1600 N. Greenwood Ave., Park Ridge, by the Rev. Howard D. Peckenpugh, 40, pastor of St. Martin's Episcopal Church, 1069 Thacker Street, Des Plaines. The pastor was summoned because the Park Ridge church was too small to have a full-time priest, Bishop Montgomery said.

The Episcopal diocese has no records of any exorcisms performed on people, Bishop Montgomery said.

Maine South's highly-regarded basketball team is rated 1 or 2 on the metropolitan newspaper charts in ranking the team for this year's championship tournament. And while we would join with their well-wishers in hoping for their success, we've watched them get zoned in too many previous tournaments to believe they'll go all the way this year.

They're a tall rangy club, well-coached by one of the better coaches in the state. But going up against the much quicker black teams game after game is likely to wear down the very tall Hawks. They could well get to Champaign this year, but those last three games leading to the championship are obstacles which will require a championship performance each time. Bloom from the far south side, an Aurora team or the Chicago champions are likely to be the best representatives from northern Illinois to win this year's tourney.

Three former Committeemen, Arthur E. Simmons, George Blum-meyer and Sherwin Willens, were joined by Niles Township Supervisor Charles N. Anderson, Assessor Dominic Fichers, Collector Alexander Fiercher who is also administrative assistant to Congressman Samuel H. Young, Auditor Albert Nehart and Auditor Earl Numrich. Former Mayors of Golf, William Mesick, Donald Gardner, Royert Cragg & Fred Stewart, as well as Glen-view Trustee Tom Smith who lives in Golf Acres, all are backing Nimrod.

John J. Nimrod is the acknowledged choice of the Republicans Party, said campaign manager Edward L. Wilander, a fact demonstrated by the unanimous support he is receiving. Additional endorsements are added daily to the hundreds already received.

Nimrod said, "I am gratified that those outstanding civic, business and elected leaders of our community and our party have reaffirmed their support of me. Not only as Committeeman, but also as State Senator, it has been my privilege to work with them to help make this a better community."

"Today Niles Township has a strong, open, effective Republican Party," said campaign manager.

ar choices by students at Oakton. About 81% are registered for the college transfer programs of business, general science, liberal arts and pre-engineering. The remaining 19% are in the 19 vocational-technical programs at Oakton.

There are indications that the number of students coming from outside of the Oakton district will continue to increase, according to Gagin. In-district enrollment for spring 1974 is 79%. Of the 21% out-of-district students, 18% attend on chargeback permits.

Students from out-of-district towns have increased from 496 to 734 last spring. The largest number of out-of-district students are from Evanston, with a total of 278. The area of Glenview outside of the Oakton district sent 194 students and Wilmette sent 92.

Within the district, Skokie has the largest number of students attending the college with 808, followed by Des Plaines with 568. Park Ridge has the third highest number with 386, followed closely by Niles with 372 and Morton Grove with 367. Glenview sent 127 students, Lincolnwood 125, and Rosemont 19.

"It is a particularly great honor to be considered number one in the legislature and to have my efforts recognized by the members of the Illinois Education Association," commented Jaffe.

week by the school board. One school would be used for pupils in kindergarten thru second grade and the other for children in grades three thru five. Supt. William Stout emphasized that the board would not make the change without community support.

The shift from the traditional K thru 5 elementary school was proposed because declining enrollment in both schools has led to fewer reading divisions and less specialized attention to students, according to Mrs. Mary Kilgallon, school psychologist, and Hynes School Principal Harry Trumfio.

Each school has lost about 20 pupils since last year, Trumfio said. A larger concentration of pupils at the same grade level would allow more individual instruction, Mrs. Kilgallon said.

The proposal also would avoid duplication of expensive audio-visual equipment. Edgar Florence, Golf School principal said.

But Stout said the plan would require 100 more pupils to be bused than the 750 currently bused to those schools.

Stout said the plan might increase the district's annual bus-ing costs by 30%, but that state funds would cover the added cost. Trumfio said he thought the teachers wouldn't like the proposal.

"The present grouping is better because it encourages older students to help younger ones," said Victor Wolski, fifth-grade teacher at Golf School.

A similar merger, involving only the kindergartens of the 2 schools, was rejected by the community two years ago, Stout said. "But if we have sound educational reasons, I think we can sell this proposal to the community," he said.

Blood Donor... Cont'd from Niles-E, Main P.1 that her neighbor's son had re-quired blood and received it from the Niles Blood Program. This prompted her to realize how im-portant the blood program is and she felt she wanted to contribute again. As a reward for her ef-forts, in being the 1000th donor, Mrs. Jaster received a com-plementary dinner for two at the new Henrick's Steak and Lobster House in Niles.

Niles Blood Administrative Co-ordinator, Mrs. Downs is remind-ing citizens that every resident in the village is completely covered and, if needed, can receive all the blood required. Mayor Blase stated, "If you are in need of blood you can contact the blood co-ordinator at the Administration Building, 700 Milwaukee ave., phone 967-6100, and arrange-ments will be made for you to re-ceive all of the blood needed, no matter where you are in any part of the United States."

The next blood drawing will be at Notre Dame High school, 7655 Dempster st., on March 21. If you have not participated and wish to join the long line of generous donors, such as Mrs. Jaster, please call the blood coordinator and make an appointment.

KROMER'S TV TOPICS Wolfgang Kromer COLORITIS Coloritis is the TV knob tiddler disease. It's caused by jumping off the sofa and turning the knobs every-time the color of your set distorts or changes hues. Most often, it is not the TV's fault, but poor transmission from the TV station. Or, it can be temporary interference, too, and if you wait a few moments, it corrects itself. But, if it's absolutely necessary to adjust the set, move the knobs very slightly; a sixteenth of an inch at a time until it's back where you want it. Most Color TV won't need adjustments more than once a week. And just in case...remember the prompt number 967-6485, KROMER TV will be there with the most modern TV servicing gear to get your set back on the right color path. Community paper drive

The second of five collections for the paper drive sponsored by the Morton Grove Community church in conjunction with Boy Scout Troop 82, Cub Scout Pack 82, the Hearthstones, the Firestones, and the rump is complete. Over 20 tons of the 150 ton goal has been collected so far.

Paper drive chairman Larry Schulte has stated that sufficient paper has been collected to date to begin loading it onto a trailer truck. The loading will take place in the church parking lot by the next drive date, March 10.

Three collection dates remain. The next collection date is Sunday, March 10. Remaining dates are Sunday, March 24 and the final drive on Saturday, April 20.

To maximize the collection of waste paper the paper drive effort consists of on call pickups for the March dates. Residents who have accumulated bundles of newspaper can call any of the following phone numbers and arrangements will be made to have the bundles picked up.

965-2982, 965-531, 967-5999, 966-2526, and 967-8993.

Pickup hours will be between 12 noon and 6 p.m. although large quantities will be picked up any time and can be collected on other than the drive dates. Donors of paper are asked to bag or tie the papers into bundles. No slick paper magazines or cardboard are accepted. Old telephone directories are acceptable.

On April 20, the final paper drive will consist of a village canvass from 8 a.m. to 6 p.m. Residents are asked to bundle their paper and leave it by the curb the night before and it will be collected on April 20. Arrangements can be made for pickups of large quantities prior to April 20 simply by calling any of the phone numbers previously listed.

Proceeds from the paper drive will be shared between the church and the participating groups.

Volunteers are still needed to help pick up papers, drive, or provide temporary storage space for accumulations of paper bundles. Interested persons should phone 965-2982.
