### Niles in its 75th year . . . . .

What is a Niles, Illinois?

In this, its Diamond Jubilee year, we could write Niles is "suburbia-in-the-rough." It's not highly-polished. It doesn't have blue, clear air which radiates a bright sheen. And while the air doesn't have a yellow cast from all of its more than 400 industrial plants, it has Chicago-metropolitan air, which has a high content of carbon, from the thousands of autos which pass thru it every day on the way in and out of the big city.

It's easier to write what Niles 'is not' than what 'it is.' Niles is in suburbia but it's not really a suburb. It's an extension of Chicago pushing out its perimeter to the northwest. It's another city neighborhood. It certainly isn't suburbia in a classic sense. It's not Winnetka-posh, and it's not Park Ridge-snobbery. Nor is it suburbia-country-club-clannish. It's not Glencoe-Cadillac nor Lake Forest-Mercedes-Benz. It doesn't import black help from the inner city to dust its furniture and it doesn't pay 10 bucks a week to have somebody cut its lawn. It's not a scotch and soda town. If its wives sat down at 5:30 with its husbands to have a collective cocktail, they'd be interrupted by the telephone with a caller on the other end saying, "I'm ready to get picked up, Mom." And if they lit candles at the dinner table, one of their several wanderkind would likely knock them over. And the vintage red dinner wine they might serve is a 98¢ bottle of chianti which washes down a spaghetti dinner.

If we could write what Niles is, we would write it's a scout town. There's an awful lot of Dads and Moms who spend hundreds of hours at Blue and Gold dinners and at Pinewood derbies. And Niles is a baseball town. All over the landscape there's balls flying and bouncing and occasionally making contact with a strip of hickory wood. There's loads of little guys parked 200 feet from where the action is in these baseball games who spend hundreds of hours studying insect and botanical wonders in outlying areas, with a leather glove on one hand, while distant cries tell of other small guys running to and fro. The guys with the unmarked leather gloves also become experts at spotting enemy planes, which spew their noxious excesses on the people down below while they pass overhead every 5 minutes on their way to and from neighboring O'Hare Airport.

Niles is a church town. There are approximately 10 churches in town and the community is reverent in its observances. But the 7th day of rest has been encroached upon by the myriad of stores and shopping complexes which beckon and tantalize its residents into only observing a half-a-day of rest.

A fancy wordsmith came into our office one day to announce Niles is an interstitial community. Because of its central location, close to the city, and because of its many major arterial streets, a great amount of highway commerce goes in and out of the community on trucks. For these same reasons a great many people in the entire middlewest of the country pass into, alongside and through its gates daily. Weekend cars returning home from neighboring Wisconsin clog the main street of the town, Milwaukee ave., with such cloglike numbers, drivers in the cars often consider themselves Niles residents since they spend so much time in town, waiting for the cars in front of them to move.

Saturday is a special day in Niles which is unlike any other community in the universe. There have been stories of wives who left home before the dawn had broken, telling their loved ones they were just going to Sears to buy a vegetable sirdred. Several days later the police department lost and found specialists located these wives still in line waiting to buy a sale item from last week, which had since increased in price due to the "prosperity" which exists in the land.

Niles has chauffeured-cars, several of them, which are used for the common-folk in transporting them about town. Niles gets about \$2,000,000 from those many shops and men who are known as "village fathers" distribute this money so everyone in town can have free wheels.

Niles also has fire trucks and police cars and public works trucks which are manned by the guys who make this town run. There's a fire truck which was primarily used to install Christmas decorations on light poles, which proved the town has lots of money to spend. But a little luxury, about \$40,000 worth in old money, is the mark of the town. There are other marks of the town which go with spending which gives the townfolk the best services around. Niles police, fire departments and public works have modern buildings, the most up-to-date communications systems, and some of the finest men (and women) in the community, keeping the town well-served. Without the buildings and equipment the town might not function as well. But the dedication of the people behind the departments is what makes the town tick.

It's hokey to write Niles is better than its neighbors . . . has more than, more of, or is the only All American City in the area. But what isn't hokey is to write the guys in the departments have made the community what it is. Through the years we've seen firemen, who got only a small stipend, standing atop the now Bell Liquors building, and fighting below zero icicles, as well as a raging fire which caved in the roof only moments after they were extricated. And we've seen police-

Return of the parade will be north on Georgian; to the Legion Home on Dempster where concluding ceremonies will take place with the Legion's Rifle Squad participating.

color guard, the Morton Grove Lions Club, village dignitaries and others will be included. Joining the assembled marchers are the Legion's Auxiliary Unit, Sons of the Legion and Juniors.

To salute the combined holiday this year, American Legion-purchased flags were posted on Dempster by the village Public Works Department Friday for those businesses who celebrated Monday. They will remain until this weekend. These American flags were purchased with remaining treasury when the Legion-sponsored Cougars Drum & Bugle Corps disbanded some years ago.

Americanism Chairman John Roddy urges everyone to fly their flag every day but at least this weekend or Thursday. He has flag sets for sale which are at Legion cost for those businesses and individuals who wish to fly Old Glory. Delivery will be made by phoning him at 965-433.

## Cystic Fibrosis Benefit

The North Suburban Unit of the National Cystic Fibrosis Research Foundation is sponsoring their eighth annual benefit show to raise funds to aid in the support and research of the foundation.

Cystic Fibrosis is a genetic disease that affects children's lungs and digestion. It occurs when both parents carry the defective gene, and approximately one in every 1,500 newborn babies has it.

The benefit show will be at Mather High School, 5835 Lincoln ave., Chicago, Wednesday, June 5, at 8 p.m. Tickets are \$4. Professional entertainers, well-known thru network TV appearances, are donating their time and talent for their "pet" charity. And you will not only enjoy a great show by your attendance, you will be contributing to a much deserving cause.

Do come out and donate four dollars for an enjoyable evening of entertainment, and help young Cystic Fibrosis sufferers.

Tickets will be sold at the door. For any further information concerning the show, please contact Mrs. William Laudick, 298-6350, and she will be happy to answer any questions about this event.

LOOSE CONNECTIONS  
I see by the news that some fellow down the road was arrested for shooting birds off his TV antenna. The Judge didn't care for his defense that birds were causing interference on his TV set.

If there was any interference, it would be so negligible that it wouldn't be anything to worry about. The chances are that this bird shooter has some loose connections. We mean antenna connections.

So, if you have this same trouble, phone 967-6485 and Kromer TV will be prompt with the remedy. We mean to service the antenna, not shoot the birds.

men break through a door of a gun-enraged psychopath. And we've all seen around-the-clock snow clearance by dedicated public works men who dug this town out of inundations which lockjawed the community a few years back.

In the beginning we noted Niles is "suburbia-in-the-rough" during its diamond year. But the jewels which have made this Club who alone gave the town a library; the scout leaders and the baseball coaches, and those who've worked through the years donating their time for Niles Days, and the volunteers in the churches and the schools, the auxiliaries and the PTA's. And the guys and gals who selflessly worked on the public boards without trying to make a buck off the job. These have been Niles jewels in the diamond crown it now wears.

## Niles Baseball League

### Little League-National Division Major League

Niles Baseball League Parade was held May 11th. The parade started on schedule even though it was dampened by a little rain. The fields were too wet to be played on, so opening day games were postponed. With all this rain we have been having, practically all of the games have been rained out. So our season will be starting a little behind schedule.

5-15-74  
Dodgers 16-Cardinals 2  
The Dodgers were just great. Their pitchers allowed only 3 hits and struck out 11 Cardinals. Hammerberg went 2 for 3 and Ratcliff got the other hit.  
Mets 9-Cubs 2

Great pitching by Ken Ugel and Tony Zirilin and hitting by Ugel and Zirilin got the Mets off to a fine start with a 9 to 2 win.  
Cardinals 4-Phillies 3

A very good defensive game from both teams. Gibson pitched very well as well as Ratcliff and Erickson. Hammerberg went 2 for 3, a triple trying to stretch it to a home run went for naught. Paul went 2 for 2.  
Cardinals 6-Braves 5

Cardinals won on great defense. The Braves put up a tremendous comeback. Mike Tait pitched a great 2 innings. Erickson looked

great as well as Ratcliff. Majeur went 2 for 2, Van Puymbrouck had a triple that drove in 2 runs, Gibson drove in 1 run.  
Cardinals 6-Braves 5

Excellent pitching by Mike Tait and Bob Guziec, allowing only 2 earned runs. Two doubles and a single by Tait led the Braves in hitting.

Astros 8-Cubs 0  
Astros opened the season with a no hit game against the Cubs with the superb pitching of Dick Derry, Jeff Hoff and Jim Borowski.

timely hitting by D. Bustel, Derry, Hoff, Keener, Sali, Schweigel, Borowski and Hanrahan gave the Astros their first win.

### Overweight shortens life

If you're among the majority of adults in this country, you either have a weight problem, have had one or will have one. Over 55% of all adults suffer from obesity in some degree. And for many the word "diet" presents quite a problem.

"To not enjoy losing weight is a thing of the past," says Mr. Martin J. Kelber, a resident of Skokie, and distributor of the very popular NutriSilm Weight Loss Program. "NutriSilm should not be confused with anything else on the market. It is a 100% natural food formula that contains no drugs or chemicals, and has been accepted as a safe, effective, rapid aid to weight loss." Kelber goes on to say, "We have been receiving calls from all over Chicagoland and our customers are beginning to recommend our product to their friends and relatives."

NutriSilm contains the finest quality raw materials insuring both maximum biological availability and unexcelled solubility.

The product is a Superior High Protein, low carbohydrate, low fat food. It helps burn up unwanted, unsightly fat.

Most importantly, a weight loss program, such as NutriSilm, will increase metabolism to break up stored fat. This means you lose weight - faster - with NutriSilm. Pure complete protein also firms tissues and rids the body of excess fluid.

"Our customers are very excited and a great many are expressing a desire to become dealers of our fine product," says Kelber. "We couldn't want a better testimonial."

The cost of the NutriSilm Weight Loss Program, which contains 40 to 60 meals, or about a 30 day supply, is \$18.60. This also includes a special B/6 vitamin, which among other things helps establish a proper water balance in the system without the use of a diuretic. NutriSilm is eaten twice a day in place of breakfast and lunch.

"It is flavored with pure vanilla bean and is a real taste treat," Kelber continues. "We deliver it right to the home and spend a few minutes with our customers to properly explain the correct way to eat the food. We also check with our customers at least once a week to answer any questions and make a record of their progress." Mr. Kelber can be reached at 9335 Lockwood ave., Skokie, 60076, phone 965-8586.

### Niles Family Service Thought For The Week

by Larry F. Renetzky, ACSW

"The value of one's self does not depend upon what people do to us—but rather upon how we react to what people do to us."

Dr. Robert H. Schuller in the final analysis usually the greatness of a person is largely measured in emotional terms. You are a great person to many others if you are frequently a cheerful, helpful, enthusiastic and optimistic person.

Of course this is hard to do when the going gets rough, especially when we have been deeply hurt emotionally, a prominent scientist whose intellect was immense returned from an overseas trip to find his wife in bed with another man. From that moment on he was intellectually demolished by his negative emotional reaction. He admitted that it was almost impossible for him to concentrate on his work. His thoughts kept wandering. All he could think of was his wife and that "other man". (How would you have responded?) A big man became a tiny man, shriveled by hatred. His hatred actually began to become self-hatred. His hurt was so deep that he felt completely disgraced, rejected and humiliated. (Most of us have a tendency to internalize it and/or to strike back in some mutually devastating way.) During this period of his obsession which was dominated by thoughts of self-debasement, he was ineffective in his work and most other areas of his involvement.

Only when this scientist began to recover his sense of self-love, were his intellectual powers gradually released. He came alive again. He began to recover his sense of self-dignity when he was helped to understand and to accept that he was still a great person even though he had been abused. Truly he learned that "the value of one's self does not depend upon what people do to us—but rather upon how we react to what people do to us." (From Self Love-The Dynamic Force of Success, by Dr. Schuller.) (cont'd next week)

# And that's how the Hattons decided to get a phone in the rec room.

Right when it was Dad's turn to play, and Susie was just about to win, Dad had a phone call.

So while he talked and talked in the living room, Susie waited and waited on pins and needles in the rec room.

That was on Monday night. On Tuesday, Mom called and ordered an extension phone for the rec room.

Now when Dad gets a call while the family is having fun,

he can play and talk at the same time. No more pins and needles for Susie.

The cost? Pennies a day. To order your extension phones, call our Business Office.

## Dressler expresses thanks to employees

Near Fellow Employees of the Niles Park District:

On the occasion of my leaving the Park District, I would like to express my heartfelt and sincere thanks for your untiring efforts and cooperation.

Since I took over the reins of the Park District on Oct. 1, 1971, the District has expanded in many ways and areas such as facilities, park improvements and recreational programs. The community has recognized the achievements. I expected from you that you would dedicate yourself to the goals and

objectives of public service and you have given the best of your ability and therefore have become part of this success story. I expected from you excellence in any field and you have lived up to these expectations. It has not always been easy to overcome shortcomings but looking back I am sure you will forget the hardships and will remember the results of hard work and dedication. I wish the Acting Director the best and would like to ask you to cooperate with him and work to

the best of your abilities as public servants.

Also I would like to thank you again for the many expressions of thanks and wishes for good luck in my future professional and personal endeavors. I will remember my years with the Niles Park District as happy years in my professional career.

Sincerely,  
Helmut K. Dressler  
Director of Parks and Recreation

## MGM show for Molloy children

Handicapped children from two special education schools saw special performances, May 23, of Children's Theater 63's play "Please Don't Call the El the Subway," sponsored by MGM Realtors, Inc., Skokie.

A morning performance given at Julia S. Molloy Educational Center, Morton Grove, was attended by approximately 200 children from Skokie, Niles, Morton Grove, Lincolnwood, Des Plaines, Glenview and Park Ridge. Following, at 1:30 p.m., 500 children who attend Spalding school, Chicago, saw the second performance. MGM Realtors has previously sponsored a special performance of the Shrine Circus for Spalding school children and of "Don't Bother Me I Can't Cope" for the Spalding High school students. Robert B. Green, president of MGM Realtors, provided the play as part of his on-going community relations program aimed at contributing to the communities served by his real estate firm.

"Please Don't Call the El the Subway" presents in song and story the sights and sounds, comedies and tragedies of Chicago since its discovery. The busy atmosphere of the windy city is symbolized by the El from which the title is taken. Over 100 hats are worn in the show. As each performer changes character he switches the hat he wears.

## LWV welcomes interest in township government

To the Editor: Questions have been raised about the League of Women Voters' position supporting the abolishment of Township Government. We welcome the questions and the interest.

Our position is a statewide position adopted by the League of Women Voters of Illinois after extensive study. It was the Consensus (or decision) of participating Leagues that many of the services provided by the Township Governments could be handled more efficiently by other local general purpose governments.

Township Government is decreasing in size and is limited as to the functions it can perform. With over 6,000 units of government in Illinois we feel that Township Governments should be abolished.

This is not an easy task. We believe in better government and work toward this goal by study and investigation, and by recommending changes on many levels and in many areas. We are a group of citizens interested in informing the general public about these governmental bodies.

Township Government used to be a Town Meeting where the public could participate and vote on the programs and budget. Today, a great deal of that participation has been curtailed by legislation passed to prevent direct public vote. Many decisions are made by recommendations at the Annual Town Meeting but not by a direct vote of the citizens.

We questioned the receipt and spending of the Revenue Sharing Funds by the Township Government because many of the areas proposed for expenditures have never been handled by Township.

Government. We are not against these programs as such but are against the extension of Township Government.

League positions and programs extend beyond local positions although we also observe, examine and study local issues. Some of our other current items of study and action are: Financing of Public Schools, Correctional Procedures in Cook County, Campaign Financing, Land Use, Environmental Quality.

We encourage and invite the public to join in and take a look at these subjects and then make judgments for themselves!

## Commends Nimrod on ERA vote

To the Editor: I would like to commend Senator John Nimrod for his YES vote to the Equal Rights Amendment which was considered last week in the Illinois Senate.

He had been undecided about how he would vote, being under tremendous pressure from people in the area, on both sides of the issue, and his final decision must have been a difficult one to make.

I want to encourage all those people who wrote or called the Senator urging his support of the amendment to take the time now to acknowledge his positive action. We are sometimes guilty of spending a lot of energy needing a legislator to vote for a piece of legislation, and then falling to follow through with words of appreciation when we are successful in our appeal.

As was reported, 32 Senators voted for the amendment, two more than a simple majority. Unfortunately, it did not pass, since Senate Leader Bill Harris' ruling that a three-fifths majority is necessary for a constitutional amendment, will prevail until the legal challenge to this opinion is decided in Court. In spite of the loss, which we hope is temporary, we are encouraged that we did gain the support of a few more legislators than had previously been committed.

Thank you, John, I enjoyed talking with you in Springfield, and appreciated your courtesy and thoughtful questions and comments. Hopefully, your expression of confidence in the ERA will inspire some of the other Senators who still do not understand what an important statement

this legislation is for the nation in terms of real sexual equality—so that Illinois may finally become another state to say YES to equal rights!

Heleen Smith

## Appalled by Nimrod's attitude

To the Editor:

In response to Sen. Nimrod's desire to retain township government while abolishing open township meetings, I submit that his idea is both irrational and irresponsible; irrational because it is a logical impossibility by the very definition of township government; irresponsible because he has, in effect, decided that local citizens should have no voice in local affairs.

Frankly, I am appalled by John Nimrod's attitude. I can only hope that this is an honest mistake rather than an example of his political philosophy.

Sincerely yours,  
Patton Feichter  
Democratic State Senatorial Candidate—4th District

# Niles Police Ball entertainers

There are only two days left to make plans to attend the Niles Policemen's Ball. Donations are \$4 per person. Tickets will be available at the door from 9 p.m. The Ball, sponsored by the Niles Policemen's Benevolent Association, is being held in the Grand Ballroom of the Hyatt Regency O'Hare on River rd. at the Kennedy Expressway in Rosemont.

Frankie Masters and his Orchestra will play music to delight both swing fans and people who prefer their music on the sweet side. His career spans decades. He's been there, through "fireside chats," Kate Smith, jitterbug contests, the Edsel, Elvis Presley, sit-ins, love-ins, be-ins. Now he's here, pumping out the heat of the '70's. Frankie Masters emphasizes danceable tempos and a good beat in music. He always stresses melody with tantalizing rhythm and appealing vocals that make

for easy dancing and pleasant listening.

Also appearing will be Jerry Murad's Harmonicats with their own super-stereo sound that's as new as tomorrow. There was a time when the harmonica was thought of in connection only with campfires, cowpokes and cornball accompaniment for country songsters. Jerry Murad, leader and guiding light of Jerry Murad's Harmonicats, has changed all that. The deft use of electronic equipment has made the Cats' performances that much more electrifying. They remain constantly attuned to new developments in music and show business; always striving to improve; always keeping abreast of changing patterns of what audiences want to hear.

Make a date to be with us June 1 for what's sure to be an entertaining and exciting evening.

# MG bank sponsors teen-age contestant

A check for \$100 is presented to Nancy Linn Sinica of Morton Grove by Marvin von Aswege, president of the First National Bank of Morton Grove. The bank is sponsoring Nancy in the Illinois competition of the 1974 Miss National Teen-Ager Pageant. A student at Parkview Elementary School, she qualified for the preliminaries with an outstanding record of scholastic and civic accomplishments.

The First National Bank of Morton Grove will sponsor a popular local teen-ager in the Illinois competition of the 1974 Miss National Teen-Ager Pageant.

She is Nancy Linn Sinica, 14, of 9027 Mango, Morton Grove, who will vie for the Miss Illinois Teen-Ager title June 28 and 29 at the Conrad Hilton Hotel.

The contest will be judged on scholastic and civic achievements, poise, personality and appearance. Talent or swim suit competition are not considered.

Miss Sinica, due to graduate next month from the Parkview Elementary School, qualified for the preliminaries of the pageant with an impressive record of academic and extracurricular accomplishments.

She received Gold Achievement Awards for scholastic excellence and good citizenship from the Parkview faculty in 1972, 1973 and 1974. She also won the school's 1973 Physical Fitness Award and has been selected to deliver the welcoming address at next month's graduation ceremonies.

At Parkview, Nancy has been involved as a cheerleader, secretary of the chorus, home room representative, bowling secretary and fashion show commentator. In addition, she is enrolled as a candystriper at Lutheran General Hospital.

Her sporting interests include swimming, acrobatics, ice and roller skating, tennis and bowling.

As for the future, Nancy will become a freshman next September at Niles West High School, where she will begin preparing for a career as a nurse or airline stewardess.

"We're very grateful to the First National Bank of Morton Grove for sponsoring Nancy and giving her this opportunity to compete for scholarships and other worthwhile awards in this pageant," commented her mother, Mrs. Zenon Sinica.

"With all the adverse publicity these days about teen-agers getting into trouble, we're pleased to get involved in a positive endeavor that recognizes and rewards youthful accomplishments," said Marvin von Aswege, president of the bank.

"Nancy certainly is a credit to the community and a fine example for other young people," he added. "Our bank is happy to support her participation in this event and we wish her the best of luck."

# History of Village of Niles

by Dorothy C. Tyse

The history of Niles dates back to about the year 1700, when the land was inhabited by the Chipewya, Ottawa, and Potawatomi Indians, and the village's early boarders consisted of two Indian Reservations. Later this land was purchased from the Indians, and became known as the Jane Miranda and Victoria Pothier Reservations.

Among the early Pioneers who built homes, and farmed land here were John Schadiger and Julius Perren. These men and their families played a prominent part in the village's early history.

In 1831, John and Katherine Ebinger came to America from Germany, with their four children and finally settled here, in the vicinity of Milwaukee and Harlem ayes. When Christian (one of their sons) became 21, he married Barbara Reuhle, later they had a son and named him Christian Ebinger Jr. He was the first white child born in the area.

As more settlers began to move into the area, commercial trade began to grow between Milwaukee and Chicago. By 1884 the town consisted of two stores, two hotels, one harness shop, two blacksmith shops, and eight saloons. In addition, there were two schools, two churches, and one physician.

Theodore Hoffman was the first physician, and when it was necessary he would go on horseback to make his calls. He had to carry a compass and a lantern. His daughter, Mrs. William Brown, said there were times she had not seen her father for two weeks, because of the distance he had to travel and the demand for him. Doctor Hoffman died in 1905, at the age of 85.

The residents of Niles desired to become incorporated in 1899, so on Aug. 24 of that year, Niles became a village and the first President was elected. His name was John Huntington and he lived to be 96 years old. The first board meeting convened on Oct. 4, 1899 at a private home.

Toward the end of the century, early transportation in Niles had

plank roads and toll gates going from Niles to Chicago. The toll gate fee was 25¢ for one horse and buggy one way.

October 1901 brought the first fire fighting group to the village, which consisted of volunteers, Frank Lenzen was the first fire chief. The fire station was a wooden shack (on Milwaukee ave.) with a large bell tower to signal the volunteer firemen into action. At that time they used a chemical pump. By 1904, they had such modern apparatus as a horse drawn fire wagon, it took 10 minutes to arrive at a fire in Morton Grove from the original fire station on Milwaukee and Touhy ayes.

On the corner of Milwaukee and Touhy ayes, stood the State Bank of Niles. It opened its doors to the public in 1921. Fred Mau, was the bank's first President, R.W. Drostenfels, Vice President, and Frank Krejsa, Cashier.

On June 6, 1930 the bank was invaded by bandits, who had escaped with \$4,000.00 in currency. They imprisoned three employees and a patron in the bank vault. The bank closed its doors to the public in 1932.

The first Police Chief of Niles was appointed in 1924, he was Peter Oszakowski (who still resides in Niles). He was the first motorcycle policeman in the northwest suburbs. Mr. Oszakowski worked for the Sheriff's Police during the prohibition era, and he transported Federal prisoners to the penitentiary in Leavenworth, Kansas.

The growth of Niles was slow, but steady; however, during the depression years, the village population and growth slackened. It was after World War II that the trek to the suburb began. In the 1950's, houses, schools, churches, and shopping centers were being constructed around the village. Population as well as industry grew in the 1960's. Niles was given the "All America City" award in 1964. Now in the 1970's Niles is continuing its progress and the "All America City" image.

## Village Clerk

duties by law are as follows: to seal and attest all contracts of the village and all required licenses, permits, and documents; to keep the minutes of the Board of Trustees and preserve all enacted ordinances in an ordinance book; to keep a register of all licenses and permits issued and the payments thereon; to keep a record of all officers and regular employees of the village; to be custodian of the Village Seal and fix its impression on documents whenever required; to be custodian of all documents not assigned to some other officer; and to keep and maintain a proper index to all documents and records kept by him. He also heads the Niles office of the Bureau of Consumer Fraud and Protection, opened in 1970. In addition, he is in charge of registration of voters, all elections, and choosing judges. (By law, municipal clerks are deputized to act for the County Clerk.)

## The Village Manager

The Village Manager's office was created by ordinance in 1963. The Village Manager is appointed by the President with the advice and consent of the Board. According to law, he must reside within the village during his tenure of office; and he may be removed from office at any time. The Village Manager is the chief administrative officer of the village and is responsible to the Board of Trustees.

The manager's main responsibilities, in addition to enforcing all laws and ordinances and attending Board meetings, are as follows:

A) To administer all departments of the village. In Niles, the manager supervises department heads. Departments under his jurisdiction are: Police, Fire, Public Works, Engineering, Building, Health, Niles Family Service and Civil Defense. The administration offices in the village hall are also under his jurisdiction.

B) To coordinate all fiscal activities of the village. The manager works out the budget with department heads but final review and approval rests with the Board of Trustees. Salary schedules are proposed by each department and are subject to Board approval. Salaries are reviewed twice a year.

Niles uses a cash budget. An audit is made every month. The manager approves purchases made by department heads.

C) To recommend to the Board the appointment, and when necessary the suspension or removal, of all employees of the village. Manager works closely with department heads who make recommendations to him.

D) To recommend to the Board the consolidation or combining of offices, positions, departments or units under his jurisdiction.

E) To investigate the affairs of the village or of any department, and investigate complaints concerned with the administration of the village.

The Village Manager is an administrator. He administers the policies set by the Board of Trustees.

# Niles Fire Department

STATION NO. 1

6611 W. Jarvis

STATION NO. 2

8360 W. Dempster

827-2121

The Niles Volunteer Fire Company, chartered in 1912, has grown from a group of seven volunteers using a horse-drawn engine to a full-time department with 52 employees. In 1953 the village board adopted an ordinance creating a full-time department.

The Fire Department operates from two different locations: Fire Station #1, now located at 6611 Jarvis Avenue, and Fire Station #2, which includes administrative offices, at 8360 Dempster Street.

The 52 full-time employees of the department include the Fire Chief, 3 Captains, and 8 Lieutenants and a Deputy Chief. Personnel are assigned as follows: two administrators; three men to the Fire Prevention Bureau; and 42 to the Fire Fighting Division. There are also 4 alarm dispatchers. The men are on duty a total of 56 hours per week with a schedule of 24 hours on and 48 hours off duty. There is a retirement plan for those completing their service and reaching retirement age.

Three members of the fire department staff serve full time on the Bureau of Fire Prevention. Duties of this bureau include: enforcement of the

fire prevention code of the village by conducting required inspections; investigating the cause, origin and circumstances of fires; investigating complaints about fire hazards; reviewing and approving plans for new construction or additions to industrial and public buildings and schools; and conducting educational fire safety programs and demonstrations. A home inspection program and an annual Fire Prevention Week with special attention to school participation are other programs of interest.

The record and activities of the Niles Fire Department have won the Village of Niles a Class 3 rating, an honor shared by only a few other departments in Illinois which, incidentally, keeps fire insurance premium rates low for residents. For thirteen consecutive years, the Niles Department has received a first place award for their fire prevention program from the Chicago Association of Commerce and Industry. The department has a mutual aid agreement with five surrounding communities which provides for cooperation in cases of emergency with no charge for such service.

The Niles Fire Department is a member of the National Fire Protection Association, the Illinois Professional Firefighters Association, and the Illinois Firemen's Association.

# Niles Public Library

6960 Oakton

The Niles Public Library was established by referendum as a tax-supported Library District in 1959. The library has occupied its present structure ... built and equipped with monies obtained through bond issue, Federal assistance, and community contribution ... since 1966.

The library is governed by a publicly elected 7-member Board of Trustees, which in turn elects the library's officers. The administration of the library is the responsibility of the Library Administrator, who acts as its chief executive officer and is assisted by a staff of professional and support personnel.

Excellent equipped and efficiently operated by a knowledgeable and courteous staff, the Niles Public Library offers its patrons a wide range of library services. Let's review them.

## Friends of the Library

Everyone agrees that public libraries are of great importance to the community. But they need more than the public's approval, they need active support and interest. Sometimes, however, the public feels frustrated in its attempts to reach the Board of Trustees and the administrator. This is where the Friends of the Niles Public Library District find their purpose. We are the "Public Relation Representatives" for the library district. We try to bring the public's wants and needs to the "Board" and we try to bring the Board's needs and wants to the public.

The Friends of the Niles Public Library District was organized over ten years ago. In that time we have accomplished:

1. Conceived the idea and acquired the first bookmobile to be used in the district. Since, a new one has been purchased.
2. Subscribed to Moody Investment Service for use by the people of the district.
3. Completely furnished the Audio-Visual Room. (Including slides and films).
4. Plan and host selected series of evening programs for adults and children. Third Friday of the month, September through April.

5. Collect used books to be sold at the annual Barrel of Books Sale in April. Hold an annual Book Fair during Library Week.
6. Originated the music department, this includes stereo tapes and records.

Host parties for the pre-school groups, furnished percussion music instruments for them also. Subsidized funds for the Vivian Egan memorial. (Fountain opposite the desk in the lobby).

Our most recent accomplishment was to purchase a spinet piano for the Audio-Visual Room.

All of this has been accomplished by funds raised through Bake Sales, Card Parties, Dinner Dances and any other idea that might be brought forth.

The Friends is an organization for everyone. We now have seventeen members, several are senior citizens, one is a young adult in the teens and all work to make our library number ONE. We meet the fourth Tuesday of the month, (September-June), in the Audio-Visual Room at the library at 8 p.m. Anyone interested is invited to come to our meeting. Shown above planning Book Fair 1974, l. to r. are Mrs. Raymond Koll; Mrs. Raymond Koll; Mrs. Sigmund Lewicki, President; Mrs. Phillip Bergeron; and Mrs. Raymond Simpson.

**Niles Days sponsors  
Diamond Jubilee festivities**

At the recent Niles Days Committee meeting, it was voted by the 26 organizational committees that funds would be allocated to the financial backing of the Niles Diamond Jubilee up to \$12,500. This sum was requested of the Niles Days Committee by resolution of the Village Board of Trustees. Of course, the amount actually given the Jubilee Committee depends on how well financially the Niles Days Festival does this year.

"At our new location of the 'Treasury' at Golf and Milwaukee we expect greater participation and attendance than ever before," says Ed Brasch, chairman of the Niles Days Committee and co-chairman of the Diamond Jubilee

Committee. "This is another of the many events and causes that has resulted from Niles Days. In six years over \$100,000 has been allocated for various Niles organizations and projects."

The entire Diamond Jubilee Committee believes that as many events as possible be provided to all Nilesites without charge. And, of course, the main reason of "No Charge" is because of the expected allocation of monies from the Niles Days Committee. A chicken dinner, dance music, etc., is the first of numerous events being scheduled at a cost of only \$1. This is the kick-off dance to be held at Bunker Hill this Friday, May 31.

## Nimrod announces student scholarship plan

State Senator John J. Nimrod (8-4th District) announced plans to award 8 legislative scholarships to graduating seniors in the 4th Legislative District. Nimrod's office is currently selecting a panel of educators and local citizens who will review all applications and make the final selections. Superintendents of Schools in the area have reacted favorably to Nimrod's proposal and promised complete cooperation in implementing the program. Each of the 8 scholarships is for one year. Four of the scholarships are for the University of Illinois. The remainder may be used at any of the following state supported universities: Northern Illinois University at DeKalb; Eastern Illinois University at Charleston; Western Illinois University at Macomb; Southern Illinois University at Carbondale; Southern Illinois University at Edwardsville; Sangamon State University at Springfield; Governor's State University at Park Forest; Chicago State University at Chicago; Illinois State University at Normal; Northeastern Illinois University at Chicago.

The criteria for awards will be determined by the scholarship committee. Although the only statutory requirement is that the recipient be a resident of the 4th District, Senator Nimrod has indicated that he personally thinks they should be based on both merit and need. Forms may be obtained by contacting Senator Nimrod's office at 674-4111 or in Springfield at (217) 782-6389. Forms are also available from the offices of the Niles, Maine and Wheeling Township high schools within the 4th District. The deadline for submitting applications is July 1.

## STOP SMOKING CLINIC

The Leaning Tower YMCA in a cooperative effort with the American Cancer Society and Lutheran General Hospital Community Health Education is conducting a "Stop Smoking" Clinic June 17-21 at 7:30 p.m. The program features three medical specialists and speaker from the Suburban Mental Health Referral Center.

The considerations? The chances of a smoker enjoying a healthy life are statistically frightening; 99.5% of lung cancers incidences occur in smokers; smokers run a risk of death from lung cancers 10 times greater than the non-smokers; smokers have 70% more heart attacks; the smokers chances of dying between ages 25 and 65 are doubled; between the ages of 40 and 59, strokes kill nearly twice as many smokers; smokers are more prone to peptic ulcers, certain forms of blindness and gingivitis.

Have you asthmatic children? Smoke is extremely irritating to asthmatics; children living in "smokers" homes have more illness; the mother who smokes during pregnancy is more apt to have a "stillbirth" or a baby dying soon after birth; babies who developed under tobacco's toxic influence may suffer long term disabilities: shorter in physical height; lagging in reading levels; less well adjusted in the school environment; generally clumsier handling objects; being the lower 10% of class in copying drawings of simple designs. The time to quit is NOW — call the Y today for registration information, 647-8222.

## Do you know what EER is?

EER really stands for Energy Efficiency Ratio. And if you're buying an air conditioner this summer, you should know about it.

You may not realize this, but some air conditioners use a lot more electricity than others to cool the same amount of space. And in the summer, when the heat gets unbearable and millions of people turn on their air conditioners to find relief, this can amount to a significant waste of electricity.

On a normal summer day, as the graph above shows, Commonwealth Edison may have to deliver three to four million kilowatts more than on an average winter day. To meet this summer demand, extra amounts of fuel must be burned. By making sure you buy the kind of air conditioner that gives the same cooling with less electricity, you can save money and save us all critically needed fuel. The thing to check is known as the EER, an engineer's term which stands for Energy Efficiency Ratio. And there's information on every air conditioner that lets you figure it out.

You don't have to be an engineer to find the EER. All the information you need to buy an efficient air conditioner can be found on the metal plate attached to the unit.

MODEL NUMBER ACR20B74F			
VOLTS	CYCLE	PHASE	
115	60	1	
COOLING BTU/HR	AMPS	WATTS	
(6000)	(75)	(850)	

BTUS WATTS  
To get the EER, simply divide the BTUs by the watts. If you're comparing two 6,000-BTU models for efficiency, it would look like this:

5 EER (1200/6000 BTUS/WATTS)  
7 EER (850/6000 BTUS/WATTS)

## Tower YMCA summer classes

The Leaning Tower YMCA announces the Summer '74' schedule of classes has been completed. An interesting and varied program is available for area residents to choose from. Youth and adults will discover numerous opportunities for self-improvement, relaxation, and recreation during the ten-week term scheduled to begin the week of June 24.

Outstanding leadership is offered by the following departments: Hobby, Special Interest, Fine Arts, Aquatic, Sports and Physical Education. Prospective students are encouraged to plan their summer program now, and register at least one week before classes begin!

Adult sport and Physical Education classes (10 week term) will include: Judo, Karate, Yoga, Fencing, Tension Control, American Self-Protection and Women's Volleyball. Specials for women - Trimmastics, Tennis and popular Lose Weight program, Cardio-respiratory conditioning classes for men are being continued with early a.m., noon or evening periods available. Adult Golf classes are scheduled for six weeks.

# 'Festival of Music'

Tenor Tabor Kelly will perform at Maine North's "Festival of Music" on Friday, May 31 at 8 p.m. Mr. Kelly recently retired from school teaching after 28 years. He was chairman of the Choral Department at Maine East High School for 13 years. While at East, his department did a yearly "Messiah," a Broadway musical, and a major work with orchestra for graduation in addition to yearly tours and miscellaneous concerts. Since vocal development was always a major concern in his class teaching, he was led to work with Ralph Appleman, head of the vocal pedagogy at Indiana university where

he takes periodic courses in the use of the new machine known as vowelometer. This is a device developed at Indiana which electronically can indicate the acoustical accuracy of any sung vowel sound by projecting it on a screen. Since his retirement from Maine East in 1972, he has devoted his time to private teaching at his home in Park Ridge, as well as at Maine North, Oak Park, and Downers Grove High schools.

The Music Festival tickets may be purchased at Maine North High School the evening of the performance for 50¢.

# ED HANSON

## 'A Tale of Some Fishy Tapes ...'

Last Friday, "The Day of the Dolphin" opened at GOLF MILL THEATRE II. Friday was an appropriate day for it's a fish story. It's about a "talking" Dolphin named Alpha and a goofy scientist played by George C. Scott. And we all know that George C. Scott is one of America's most finished actors. If he makes any more pictures like this, he will be!

Sappy scientist Scott blows two hundred grand of some looney foundation's bread to tape his conversations with Alpha, the gay Dolphin. He replays the secret fishy tapes for the dapper head of the foundation (who's also secretly gay) and these tapes are much worse than the Nixon tapes. All you can make out is an occasional "eek" or the word "paw". The inference being that the dashing Dolphin thinks Scott is his "paw". But this isn't as silly as the rest of the plot (if one can call it that) of this fish flick.

Buck Henry, who wrote the screen play for this fish farce, should change his brand because even the script is stiff and sounds 'fishy'.

As the flick unreels, everything is mixed-up. You don't know who the good guys are or the bad guys. Nothing is explained. Some guys, either evil Democrats or good, but misguided Republicans want to blow up the President's yacht by strapping a mine on the back of one of the Dolphins. But the Dolphins, who are independents, are more intelligent than either the evil Democrats or the good but misguided Republicans, so they blow up their boat instead.

The movie message seems to be, "What this country needs is a Dolphin for President." And after you hear a Dolphin's voice on tape, you'll understand why. Joseph E. Levine, the producer of "The Day of the Dolphin" proves he is something of a magician. For he's been able to change a fish into a real live turkey.

When I told dapper Bene Stein, the genial general manager of GOLF MILL THEATRE, that I thought this picture was a bomb, he said, "But look at the lines - we're doing business!" I couldn't understand why. So after interviewing the many very young intellectuals who make up modern day movie audiences, I discovered why.

"Bene," I said, "49 of the 50 young people I asked why they came to see "The Day of the Dolphin" gave me a logical answer."

"And what was that answer, Ed?" Bene asked.  
"They thought it was a picture about football," I answered.

### 'Pennies have all gone back to Heaven ...'

American pennies have been vanishing from the American scene. Some say literally billions of pennies are being melted down because the copper is valuable. A ring of professional penny snatchers is operating world wide gobbling up pennies. Business establishments are having difficulty making change because of the penny shortage; penny arcades have closed their doors. Penny gum vendors have vanished ... weighing scale manufacturers are going out of business, coin collectors are tearing out pennies from their catalogue sheets, parking meter makers aren't making out ... is our whole economy going to go down the drain because of the penny shortage? What can be done about it?

One man right here in Niles IS doing something about it. It's a man named Jake Joseph whom I rarely ever mention in my columns. This man owns and operates JAKE'S RESTAURANT, 7740 Milwaukee ave., Niles.

Imagine my surprise when I dropped into his restaurant last Sunday and saw a large sign in the front of the place. This sign read as follows:

"BRING YOUR PENNIES IN AND RECEIVE ... Free coffee or coke for \$2 in pennies. Free small sundae for \$5 in pennies. Free large sundae for \$10 in pennies. Free steak special or spaghetti or Mostaccioli dinner, including coffee for \$15 in pennies."

According to Jake, pennies are hard to come by. He says the banks are out of pennies, and due to sales tax, pennies are very essential to making change. "So, Ed," Jake said, "I decided to offer something as an inducement to people to bring in their pennies."

What Jake didn't put on the sign was that if you bring him one million dollars in pennies, he will give you the whole restaurant.

So Jake, in addition to paying you with folding money for your pennies, gives you something worthwhile for FREE. Bring your pennies into Jake, and at the same time take advantage of his many money-saving food buys.

Jake is planning a big Father's Day celebration for next month—more about that later.

Jim and Irene Skaja tell me since their recent successful grand opening of their WINDJAMMER TRAVEL SERVICE they've really been jammed with business. Whatever and wherever your travel needs may be, WINDJAMMER can provide you with the type of advice and dedicated service you'll really appreciate. They're located at 8700 N. Luncheon business at the elegant FIRESIDE INN, 9101 Waukegan rd., Morton Grove, is thriving these days. Many area businessmen and women seem to be making the popular Fireside Inn their headquarters for entertaining clients and discussing business matters amid the relaxing pleasing atmosphere of this popular eatery.

Women's clubs also find the FIRESIDE INN just-the-right place to hold their luncheon meetings and many have told me personally that they consider the food and service to be super.

The "after-the-theatre" crowd from the Mill Run Playhouse, as well as the actors and producers, frequent the FIRESIDE INN, particularly on weekends. Yes, the FIRESIDE INN is the "in" place in this area because it's among the 10 best in the country ...

Penny gum vendors have vanished ... weighing scale manufacturers are going out of business, coin collectors are tearing out pennies from their catalogue sheets, parking meter makers aren't making out ... Is our whole economy going to go down the drain because of the penny shortage? What can be done about it?

One man right here in Niles IS doing something about it. It's a man named Jake Joseph whom I rarely ever mention in my columns. This man owns and operates JAKE'S RESTAURANT, 7740 Milwaukee ave., Niles.

Imagine my surprise when I dropped into his restaurant last Sunday and saw a large sign in the front of the place. This sign read as follows:

**'BRING YOUR PENNIES IN AND RECEIVE ...** Free coffee or coke for \$2 in pennies. Free small sundae for \$5 in pennies. Free large sundae for \$10 in pennies. Free steak special or spaghetti, or Mostaccioli dinner, including coffee for \$15 in pennies.

According to Jake, pennies are hard to come by. He says the banks are out of pennies, and due to sales tax, pennies are very essential to making change. "So, Ed," Jake said, "I decided to offer something as an inducement to people to bring in their pennies."

What Jake didn't put on the sign was that if you bring him one million dollars in pennies, he will give you the whole restaurant.

So Jake, in addition to paying you with folding money for your pennies, gives you something worthwhile for FREE. Bring your pennies into Jake, and at the same time take advantage of his many money-saving food buys.

Jake is planning a big Father's Day celebration for next month—more about that later.

Jim and Irene Skaja tell me since their recent successful grand opening of their WINDJAMMER TRAVEL SERVICE they've really been jammed with business. Whatever and wherever your travel needs may be, WINDJAMMER can provide you with the type of advice and dedicated service you'll really appreciate. They're located at 8700 N. Waukegan rd., Morton Grove. For information phone 965-3700.

Luncheon business at the elegant FIRESIDE INN, 9101 Waukegan rd., Morton Grove, is thriving these days. Many area businessmen and women seem to be making the popular Fireside Inn their headquarters for entertaining clients and discussing business matters amid the relaxing pleasing atmosphere of this popular eatery.

Women's clubs also find the FIRESIDE INN just-the-right place to hold their luncheon meetings and many have told me personally that they consider the food and service to be super.

The "after-the-theatre" crowd from the Mill Run Playhouse, as well as the actors and producers, frequent the FIRESIDE INN, particularly on weekends. Yes, the FIRESIDE INN is the "in" place in this area because it's among the 10 best in the country ...
