Three teen-agers were killed and two others were injured in an auto collision Sunday night on rain-covered Golf rd. in the 8300 block in Niles.  
 The dead were identified by Lutheran General Hospital in Park Ridge as Melissa Arns, 14, of 5353 Carol, Skokie; Michael Amarantof, 16, of 5324 Carol, Skokie; and Richard Dominic, 16, of 8955 Central, Morton Grove.

O'Keefe, 34, of 9030 Capital dr., Des Plaines, also westbound on Golf rd., was struck broadside by a Niles police. Dominic's car had apparently turned left on Golf rd. in front of Kategian's car. ## Blase cites traffic and fire safety hazards at Hebrew school site

# DENY PERMIT FOR SCHOOL EXPANSION

by Alice M. Bobula

The Niles Board of Trustees Tuesday night upheld the Zoning Board recommendation to deny a Special Use permit for expansion of the Associated Talmud Torahs Hebrew School, proposed for 8856-60 Milwaukee ave.

The Hebrew School has been in operation since Sept., 1973, in a storefront at 8852 Milwaukee ave. and petitioned, last Oct. 23 for expansion due to an increase in student enrollment. Following a continuation of the petition to Oct. 30, Zoning Board Commissioners voted not to extend the Special Use Permit on basis of traffic congestion, increased pupil enrollment for the area and fire safety. As the Zoning Board is a recommending body, the final decision rested with the Village trustees Tuesday night, who upheld the Zoning denial, 5 to 1. Trustee Abe Selman dissenting.

The trustees' decision came after a prolonged re-discussion of the factors involved and despite the presentation of a 107 signature petition presented to Mayor Nicholas Blase on "how urgently the petitioners view the need for religion."

"We (trustees) too, want the kids educated," Mayor Blase told the Hebrew School officials. "but the petition was denied on basis of traffic and fire safety."

## From the LEFT HAND

by David (Bud) Besser

Post-election reviews, like Monday and Tuesday morning quarterbacking, are little trips of vanity and wheel-spinning. The surrogate quarterback goes to and fro, feinting and listing, as he tells what should have been, what could have been, and throwing long lobs of "If only this had happened."

We returned from distant hills two days after the election, and after 159,000 votes had been cast in the Young-Mikva election. Pleased as we were at the outcome, we were quite surprised at the small 2,000 vote victory margin. In '72 Young had won by 7,000 votes when 214,000 votes were cast. Fifty-five thousand fewer voters cast ballots for the Congressional race this time.

Fundit Nick Blase, Maine Township Demo committeeman, gave us some interesting punditing which bears mention. In Maine Township Stevenson and Dixon did extremely well in a normal Republican area in leading the ticket in victory votes. Slightly under them Mikva and State Senator candidate Feichter also did well. But machine Democrats Kusper, Tully and Elrod were big losers, while George Dunne turned it around and also did well.

Blase concludes the Democrats did well in his area because the Republican voters did not turn out. He said they were turned off enough to stay home but they were not ready to move over on the ballot and vote against the Republicans.

In noting the tremendous split ballot voting for the top of the ticket, and then switching against the machine Chicago candidates, he assumed the day of straight Republican balloting may be on the wane. While Blase didn't mention it, there's little doubt keeping the suburban Democrats on a straight party ticket is also unlikely.

A third Blase observation is the Republicans were wiped out by the blue collar vote in the suburbs such as Franklin Park and Schiller Park. It may be the most significant trend in this election since the pocketbook issues can best be seen in reviewing the working man's vote.

Blase also noted the strong women's vote which helped County Commissioner candidate Diane Hunter pile up her substantial vote. He thought only the black vote in the city nullified the strong solid vote of the women voters.

Nilesite Tom Flynn, who fell 7,000 votes short of being elected to the state general assembly, had a few tidbits which

## Petition for car wash zoning withdrawn

### Notre Dame 7-3-1 in hockey

(by Mike Lemanski)

Two fine defensive games and two sloppy defensive games left Notre Dame with a 1-2-1 record for the week and a 7-3-1 ledger for the season.

On Nov. 6, Tony Salemi and Joe Jelen provided the Dons only bright points as Notre Dame dropped a 6-2 game to powerful Deerfield. Pat Palella found everybody but Notre Dame's defenseman around his goal as he was left on defense many times.

The Dons had a hard time knocking off Prosser High School on Nov. 7 in a 5-4 battle. The game was in doubt until the final buzzer as the Notre Dame defense once again looked lowly and downtrodden.

Against Fenwick on Nov. 8, Palella's fine goaltending mixed with some fine passing and a timely goal by Ralph Dynek brought Notre Dame a 1-1 tie. The game was very even since the shots on the goal were 25-24. In the third league game of the season on Nov. 10, Matt Barrafato found himself under constant pressure by Glenbrook North's offenses. Matt stopped 26 shots, many of which were unbelievable sights. Unfortunately, four shots got past him while the Dons could only net three. The winning goal came with less than a minute to play in the game. Goal scorers for the Dons were Don Hitzel, Larry Rosenbarksi, and Joe Colasuono.

The NDHS alumni fared better. All alumni were University of Notre Dame students: Bill Kica, Tim Glass, Pat Gerard and Terry McConville. Bill Kica was eliminated in the quarter final round. In that round there were 4 NDHS or former NDHS fencers and two advanced—Mike Gerard and Tim Glass.

## SPORTS

### N.D. fencers at Gordon tourney

Gordon Tech sponsored an AFLA open fencing meet on Nov. 9. Six current NDHS fencers and four alumni entered. In Sabre, Kevin Cawley, Jr., took 5th to keep his #2 spot on the Illinois Sabre team. Due to conflicting times, no NDHS fencer competed in Epee.

In foil, there were 45 entrants among whom there were 3 national U-19 champions, 4 USA U-20 team members, 2 All-Americans, 1 Junior Olympic Champ.

There were 5 rounds of fencing—two preliminary round robins, two elimination rounds and a round-robin final of 6. NDHS fencers all made it to the second preliminary round except one. Five of the seven made it to the quarter-final round: Gary Brown, Steve Basista, Garry Gronke, Steve Bart and Mike Gerard. Mike Gerard made it to the semi-finals before being eliminated. There were no high school fencers in the finals, all collegians, and only two prep school fencers made it to the semi's—Mike Gerard (NDHS) and Art Diamond (Niles West).

### Maine East wrestlers

(by Randy Yaffe)

Maine East varsity wrestling, the super powerhouse team which had 31 consecutive wins and a fourth in state two years ago, will try to improve on the dreary 6 wins, 13 losses, and 1 tie of last year. The Demons begin the season by taking on the respectable Hersey team on Wednesday, Nov. 27.

Returning lettermen for Maine East will be senior Ed Dembski, junior Mike Florio, senior Claude Grant, senior Mike Karlus, senior Kurt Schmit, and senior Mike Schmorling. Two upcoming underclassmen, freshman Mike Styne and sophomore Steve LeVitt, will battle it out for the tough 98 pound varsity position.

When I asked Mr. George Jurinek, varsity coach, about what he thought of the upcoming season, he said, "After last season all we can do is improve. We have lots of talent, and there shouldn't be any reason for us not to improve."

Mr. Jurinek feels that our stiffest competition will be from the four-level conference champ, Glenbrook North. He also believes that our main trouble last year was inexperience. Two years ago there were mostly seniors filling the line-up. After they graduated, there were only experienced juniors to replace them. Last year Maine East had three seniors in the line-up out of 12 positions.

Mr. Jurinek concluded by saying, "Last year was a building year, and we should do better."

### 'Weight No More'

**WEIGHT NO MORE** (the sharpest program in town) teaches a nutritionally balanced way of losing weight. It is effective for men, women, and teenagers, and uses no shots, pills, or devices. **WEIGHT NO MORE** students do not count calories or weigh and measure their proteins, but instead follow chemically balanced menu sheets that tell the student exactly what to eat and why. **WE GIVE YOU SOMETHING NEW AND DIFFERENT THAN EVERYBODY ELSE AND TAKE THE GUESS-WORK OUT OF DIETING. OUR INDIVIDUAL ATTENTION AND CAREFULLY PLANNED PROGRAM WORKS!**

The **WEIGHT NO MORE** program is unusual since it is geared toward vitamin and food education; in other words, it tells which vitamins help you to lose weight and which foods contain these helpful nutrients that speed the weight loss and help to keep the weight off.

In **WEIGHT NO MORE** classes each person's needs are handled with great care since individual needs are of greatest concern. Classes aren't handled as a whole, impersonal being, but instead deal with each persons likes and dislikes and particular health structure; **WEIGHT NO MORE** students are handled with highest regard.

**FIND OUT WHY THIS WEIGHT LOSS PROGRAM IS OUTSTRIPPING ALL OTHERS:** how the free learning guides, free recipes and private weigh-ins contribute to the kind of knowledge that makes **WEIGHT NO MORE** easy, fun and **EFFECTIVE!**

# Six things your telephone can do besides ring.

Not only can your telephone look a lot of different ways. It can do a lot of different things as well. Things you may not even know about. For example:

It can take a vacation.

If you're going to be gone for more than 14 days, you might be able to save money on your phone bill.

For a flat \$8 charge, we'll suspend your regular billing for up to three months. (If you're going to be away longer, there's an additional charge of \$1 per month.) And while you're gone, we'll refer your calls to another number if you wish.

It can serve as a night light.

Put a Princess® phone in the bedroom and it becomes a night light (with an on-off switch). When you put the handset down, the Touch-Tone® buttons (or rotary dial) will glow softly.

And when you lift the handset up, the light brightens to make night dialing easier.

The Princess phone costs only 85¢ per month plus a \$5 one-time equipment charge. Or you can choose to make a \$35 one-time payment and no monthly payments. (Add 95¢ monthly if it is an extension phone.)

It can amplify what you hear, or what you say. There are two kinds of amplifiers for your telephone.

One is for people with hearing problems. And the other for people with speech problems.

For an additional 50¢ monthly charge, you can either increase the volume of what is being heard, or what is being said. (Plus applicable installation charges.)

It can talk to your whole family at once.

A speakerphone has both a microphone and a loudspeaker unit, so the whole family can get in on a conversation.

And you can talk without lifting the handset—a special convenience when you're busy in the kitchen, laundry, workshop or nursery. The charge is \$10 per month plus a \$12 one-time charge and applicable installation charges.

Write for a free catalog.

And this is just the beginning. With a little imagination and a little help from our new catalog, the possibilities for your telephone are practically endless.

Our catalog is called, "A New Look at an Old Friend." Send for your copy now.

You'll find out that your old friend the telephone has learned a few new tricks.

It can help protect your privacy.

For families who like the convenience of extension phones but who also like to make private and uninterrupted calls, we offer an "exclusion key" that can temporarily cut off all other extensions.

It's available on all phones but the Trimline® phone for a 50¢ monthly charge. There's no charge for installation if done in connection with other work.

It can out-sout your vacuum cleaner.

Or your lawnmower. Or your blender. Or just about anything else that makes a lot of noise around your house.

All you have to do is have your phone equipped with a loud bell. It can be installed inside or outside the house for \$1.25 monthly and a one-time \$5 charge. (Plus applicable installation charges.)

## "We strip down 30-year-old transformers and rebuild them from scratch to make your electric dollar go farther!"

"Before the electricity we generate gets to you, it goes through transformers. Thousands of volts go in one end and come out the other as a neat little stream of energy you can use to run your record player or heat your oven. Commonwealth Edison has thousands of these transformers in the field, working round the clock. Some have been out there for over thirty years and have gotten into pretty rough shape. My job is to get them working like new."

Jim Amos supervises the equipment reclamation program at Commonwealth Edison's Technical Center. This complex of

machinery and men operates on one basic principle: don't buy new equipment if you can make old equipment work like new. When you consider that one high-voltage transformer can cost as much as \$50,000, that makes a lot of sense.

"It turns out that even if we have to dismantle a transformer and rebuild it from the ground up, we're still saving money. Of course, many of the transformers we take in just need a little tuning up. Some need an oil change. Some need new insulation. But on some of the older ones, we've got to repair the core. That's the tough part. But like I say, it's worth it."

Before a transformer leaves the Technical Center, it gets a face-lift in the paint room.

Then comes the final test: it must withstand twice the electrical voltage it normally would handle. Only then is it ready to go back on the line. In the process, we've added perhaps thirty years to the life of a transformer and saved thousands of dollars.

#### OUR CHILD CAN GO TO COLLEGE-HERE'S HOW

[SUBMITTED BY LEROY PLAZIAK, PRESIDENT OF SKOKIE TRUST & SAVINGS BANK]

Something about the autumn reminds parents that their children have reached another milestone, one school year closer to adulthood. For some of us this year is the one in which serious thought must be given to the question of a college education for one or more of our children.

If you're in this position, you may be wondering how you will swing it if he decides that his life plan includes the need for further training after high school. Perhaps you were wise enough, when the prospective collegian was still in diapers, to start a regular savings program at the bank. If so, you have had 15 years or more to accumulate a college fund, helped by generous interest.

But if you didn't have the foresight, or the extra cash, you may find yourself looking for means to make up the difference between college expenses and what your family budget can contribute.

The key to success in your search is to start early and leave no stone unturned. There are so many sources of money for worthy and needy students that it will take a while to investigate all of them.

Include your son or daughter in these activities. Not only will he learn the value in dollars of his college education, but it will help to motivate him to work harder in high school. And, since the better his grades are, the more chance he has for a scholarship, this is all to the good.

Finally, he should know that college is a serious business these days; not just something to kill four more years with before settling down. With average expenses amounting to more than \$12,000 for the four years, few people can afford to look upon college as just another wonderful experience like summer camp or dancing lessons. Here's how to begin your search for ways and means.

In colleges, like anywhere else, there is a wide range of prices. A state university may cost about \$2,500 a year while an Ivy League University costs upwards of \$5,000. It goes without saying that most expensive doesn't mean best, but often the "fashionable" schools are heavily endowed by their well-to-do alumni and can offer generous scholarship assistance to a bright young student.

A trip to the library will be your first move in selecting a school which not only meets the educational requirements of your youngster's career plans but also stays within the realm of possibility price-wise. Two books will be helpful: Lovejoy's College Guide and Peterson's Guides, which annually publish a set of books on higher education at all levels. The information in our list is from these publications. There is also a helpful directory published by the New York Times.

Another source of reading matter is the Federal Government, which has a number of programs to help students. By writing to the U.S. Government Printing Office, Washington, D.C. 20402, or the U.S. Department of Health, Education and Welfare, Department of Education, you may obtain this information.

Finally you should acquaint yourself with the guidance facilities at your child's school. They will be able to get you all the information you need on the following sources of educational assistance: National Merit Scholarship program, supported by contributions from hundreds of business and industrial firms, unions, trusts, professional groups, foundations, colleges and other organizations, it sponsors a competition in which stipends are awarded according to need after a series of qualifying examinations. College Scholarship Service: This is a subsidiary of the College Entrance Exam Board which has been set up to assist students to apply for scholarship aid from a number of institutions. Parents fill out a confidential statement of their financial situation; this is given to schools to which the student is applying for assistance, along with the CSS analysis of the statement. This analysis takes into consideration many other factors besides income. Although financial need is the major factor, a high score on the College Entrance exam is essential.

Government Assistance: Some of the Federal government programs are the College Student Guaranteed Loan Program for middle or upper income families, Educational Opportunity Grants for Needy Students, the National Defense Student Loan Fund and the College Work-Study Program. Then of course there are a large number of ROTC scholarships available. The directories mentioned above will tell you if these programs are available at the colleges.

Some states grant money to aid deserving students who cannot otherwise afford college. For example, in New Jersey, students are advised to obtain information about the state tuition aid grant.

Other Scholarship Sources: Perhaps your town has a community scholarship fund, or your church provides funds for those preparing for certain careers of service. Often businesses and unions hold annual competitions among the offspring of employees and members. Veterans organizations assist the orphans of dead servicemen; associations of old newspaperboys assist young newsboys. Look into all of these possibilities.

Even after you have obtained scholarship money, you may find there is a need for additional funds to cover the tuition, usually paid twice a year, and the incidentals. One solution is for the student to find a part-time job at school; he will find an office to help him in this task at his school. Also, you may want to consider a bank loan. You will find an officer at our bank to give you all the particulars on loans.

### CitizensBank's 60 seminar

Coping with Inflation, the second in CitizensBank's series of seminars for members of its Dimension 60 program for persons over 60, attracted an enthusiastic crowd of over 300 to the Pickwick Theater on Tuesday, Oct. 29. Despite rain which persisted most of the day, Dimension 60 members, and many interested non-members, gathered to hear four speakers with thoughts on handling inflation.

William M. Frew, President of CitizensBank opened the seminar program, which he described as an "interesting, informative, intelligent meeting for interesting, informative, intelligent people." The bank, said Frew, has a responsibility to people in Dimension 60, just as it has a responsibility to its board of directors. Because of this responsibility, and "because we know what inflation is doing to you," he concluded, "CitizensBank will do anything it can to help."

The first speaker, introduced by moderator Gary Scott, Marketing Vice President of Citizens, was Ms. Carol Rasmussen, food writer for the Chicago Tribune and former Food Editor for Chicago Today. Ms. Rasmussen, speaking of "Food Purchasing Strategies and Preparation Tips for Seniors", emphasized that a most important strategy is to "know your rights in the super-market." Among these, she said, are the right to a rain check on sale items, the right to have purchases cut and packaged to order, and the right to weigh every item purchased.

Following Ms. Rasmussen, the Honorable Robert Juckett, State Representative, 4th District, spoke on "Current and Proposed Tax Legislation for Seniors". Included in Juckett's talk were tips on saving tax dollars legally, social security, and explanations of the Homestead Act and Circuit Breaker Act, which enables seniors to receive property tax grants. Juckett also mentioned proposals now under discussion, such as a reduction for seniors in the sales tax.

A lively audience question-and-answer session followed these two talks. Then, after an intermission during which refreshments were served, Mr. Arthur Darack, editor of Consumers Digest, and Mrs. Margaret Person, executive board member of the Chicago Senior Citizens Senate, spoke. Darack, whose topic was "Hints for Seniors on Consumer Goods and Services", emphasized lower priced items can be just as good as expensive ones; the key to an item's value, he said is its durability.

The last speaker, Mrs. Margaret Person, discussed "Suggestions for Seniors on Meeting Medical Needs".

Following a question-and-answer session directed at Mr. Darack and Mrs. Person, a raffle was held of 45 prizes donated by Park Ridge area merchants.

The Dimension 60 seminar concluded with an announcement that a Caribbean Cruise for program members has been scheduled for eight days beginning Feb. 15, 1975. The cruise will visit Haiti, Puerto Rico, St. Thomas in the Virgin Islands, and the Dominican Republic. Complete cost for the cruise is \$575 per person, including all expenses and air-fare from Chicago and Miami. Those interested should call Beemack Travel, at 253-4132. The closing date for reservations is Friday, Nov. 15.

## Hebrew school

Cont'd from Niles-E. Maine P.1

A proposed traffic pattern, circling the school, submitted by the Associated Talmud Torahs held little weight with village officials, who concurred that the area off Milwaukee ave, could not be feasibly be considered safe for the 294 students enrolled in the 4 p.m. to 7 p.m. school.

Fire Captain Gordon Michalsen told the trustees that "the area is not designed for a teaching facility...an alarm system is a must." Proper plans containing window dimensions and other criteria for fire safety had not been presented to the fire dept., he said, "Plans which must be presented to the State Fire Marshall for consideration."

The Hebrew School attorney, Irving Margolis expressed willingness, on the part of the school officials, to conform to traffic and

safety codes, but when pressed by village officials as to financial responsibility for the undertaking, implied that the cost might be a deterrent. "We are hopeful of finding someone who is willing to donate funds for construction of a school, but we must build up our enrollment first."

In spite of an impassioned appeal to the trustees by a Morton Grove mother as spokesman for the schoolparents attending Tuesday night's meeting, an appeal upheld by another Des Plaines parent, trustees motioned to uphold the Zoning Board denial.

"It is impossible for you to have a school there under the conditions as presented at the area," Mayor Blase told the petitioners.

## Cabfare increase

Niles trustees approved an increased rate in cab fares during the Nov. 10 board meeting.

According to Mayor Nicholas Blase, the Niles Flash Cab has been in financial straits over the past 6 months, "partially due, in all probability, to our use of the Niles free bus service," and will be taken over by the Park Ridge Cab Co.

Niles has been on the low end of charges, in comparison to other suburbs, said Blase, in approving the recommended increase in meter charges, from 45 cents to 60 cents initially, with an additional 10 cents for the next 1/6 mile and a 20 cent charge for each additional rider over 12 years.

## Carwash...

Cont'd from Niles-E. Maine P.1 development and joined in the activities to express their concern to the village trustees.

Gratitude is also expressed to the BUGLE, for notifying the general public of the fact that the Niles Plan Commission and Zoning Board of Appeals at their meeting on Oct. 30, 1974, had approved to recommend the granting of the Special Use permit. The Niles Board of Trustees was scheduled to consider the petition and the Zoning Board's recommendation at the Village Board Meeting on Nov. 26.

## MG Board...

Continued from MG P.1 do we go when we have these problems?"

Atty. Berrafato said the first time Brandess Builders requested permission to put manufacturing on the western portion of the land, the Plan Commission denied the request and the Village did the same. Brandess then went to court and they were granted permission by the Illinois Supreme Court to rezone part of the land to light manufacturing and told to leave the other part R2. There also must be a 50 ft. buffer zone. If M.G. went to the Appeals Court on this matter—it was pointed out to the residents, we may lose the protection we now have. Then the trustees voted to tentatively approve the Brandess plans.

In other plan commission reports, the trustees approved the request of Louise S. Hart of Glencoe, Ill., to move an existing barn and shed from the north to the south side of Beckwith rd. They then had quite a discussion on a request from Just Games, Inc., to build an electronic game room on the Korvette property. Although five members of the Plan Commission voted to grant the request, Bob Luth voted against it saying, "This type of game room will attract a lot of teenagers and after they are separated from their money, what do they do? I don't believe Morton Grove, a home village, should tolerate game rooms as a single use." The board then voted to table this discussion until some action is taken regarding the condition of the parking lot on the Korvette property.

Len Hiliinger of the Chamber of Commerce said on Nov. 20, Bob Lutz was being honored at a YIP night at the Millionaire's Club in Niles. Mr. Lutz has been on the Plan Commission for 28 years. Mr. Hiliinger explained the reason the party was being held out of M.G. was that they needed facilities for at least 200 people and that was the only reason.

Engineer George Holt said in regard to faulty RR crossings, Skokie has gone directly to the Ill. Commerce Commission and they have in turn forced the RR to repair the damaged dirt crossings. M.G. will now do the same in order to improve conditions at Lehigh & Dempster & Beckwith & Lehigh.

Fred Huber said the bidder awarded the contract on 4 squad cars said he made an error and he has raised his price about \$700 due to that error. That still makes Crossroads Dodge in M.G. the lowest bidder, but the board decided to readvertise for bids after Trustee Cohen said he felt it would be wrong to accept the raise in price. Fred McClory said Vehicle Tags were now on sale.

Atty. Gabe Berrafato read a resolution for a General Obligation Bond in the amount of \$1,325,000 for the N.W. Storm Sewer Project and the 20" feeder main for the water works. It was approved by the trustees.

At the start of the meeting Mayor Bode presented 31 Girl Scouts first class certificates and commended them and their leaders. Atty. Berrafato also told the board that on Nov. 6, Judge Dahl dismissed the case against the M.G. Board and the Park District Board which was filed by the attorney for William Yates. John Hilkin noted that we received 118 pints of blood last Thursday.

## From the LEFT HAND

Continued from Page 1

bear mentioning. He said he believed the Regular Democrats elected Mikva. He noted there was a 25 to 100 vote fall-out per precinct on behalf of Mikva people who were primarily interested in their guy and cared little about the rest of the ticket.

Flynn contended Mikva may have peaked 5 weeks before the election. He noted the Maine Township vote for Mikva changed substantially stating Nick and the Maine Demos really put out for the Congressman. Two years ago Mikva lost in Maine by 12,000 votes but this time he lost by only 5,000. Evanston and New Trier townships fell below their expected totals and Flynn praised the regular Demos in Maine and Niles who put Mikva over the top. The implication Committee man Lynn Williams along the North Shore didn't deliver was another Flynnism.

While we weren't around to see the candidates election night we thought Norm Dachman's next to last place showing was most dismaying in the County Commissioner race. It was estimated Norm shook 25,000 hands in his walk across the County, and his first class PR campaign seemed significant. Often Norm would arrive home at 3 a.m. after an 18-hour campaign day, only to bounce up again at 7 a.m. and stand in front of a factory gate shaking more hands. Yet, despite his mammoth effort, he came in next to the bottom of the 12 candidates vieing for 6 victory places.

Flynn said when the votes were being counted, Dachman couldn't even get a response from some committeemen when he asked for the vote totals in their areas. Committeemen who he helped in other suburban areas told him he was a loser, so call back at 2 a.m. and maybe they'll be able to give him some figures.

Flynn said he had a similar problem in Wheeling Township. He had to go out into that area with his own calculator and add up the votes since the archaic organization there couldn't report the totals.

The Flynn stories about the little guys on the ticket are seldom known to the voters. While the guys on the top of the tickets have the money, the prestige and all the ego stimulators fawning supporters offer, it is the little guys at the bottom of the ticket who suffer without newsprint. While it is estimated Mikva and Young may have spent \$250,000 each in this election Flynn said his campaign cost \$3,000. He added he may have to sell one of his cars to pay off the few hundred dollars he still has in outstanding bills.

## Trustees consider animal control ordinance

by Alice M. Bobula

Niles' Mayor Nicholas Blase directed the village attorney to draw up a proposed community ordinance on animal control during the Tuesday night Village Board meeting.

The ordinance will pretty much follow the guide lines set by the proposed Cook County Animal Control ordinance, which in essence, covers all animals, not just dogs; places dogs and cats on an equal basis with regard to rabies shots, licensing and "at large"; sets duties of the Animal Control officer; sets a fee for reclaiming of animals after impounding by police; sets license fees for animals other than dogs and cats; and sets license fees for altered and non-altered dogs and cats.

The ordinance was brought up for consideration by the recent case of several family members being bitten or scratched by a kitten. Tests on the kitten, which was destroyed after becoming ill, were found to be positive for rabies by the Cook County Rabies Control Dept. The mother and two children have received rabies injections at Lutheran General Hospital.

The proposed ordinance, according to Village Manager Kenneth Scheel, is more specific and "much better than the present animal ordinance."

"There is a need for revision of our present animal ordinance," commented the lady judge of the Village Diamond Jubilee dog show, one of many animal lovers

attending Tuesday night's meeting. While she requested that there not be discrimination against dogs, she also asked for no limitation as to the number of dogs in a household (according to Village Manager Scheel, the present ordinance limitation is 2).

Nilesite Mrs. Rita Ciebly requested a distinction be made between the cat who is confined to a home and a cat permitted to roam.

Under consideration for adoption into the proposed ordinance (for Niles) is a \$5 fine to reclaim an animal found at large. Frequent abuse, of allowing a dog to run free would carry a \$10 fine. Dogs, cats and other animals were suggested for a \$2 license fee.

A clarification of "other animals" was made by Attorney Richard Troy to be set as "all animals other than man requiring rabies shots."

Violation of the ordinance could carry a \$25 to \$200 fine.

Trustee Ralph Bast, who cast the only dissenting vote against the proposed ordinance, stated that "cats should not be included for licensing under the ordinance."

Trustee Pete Pesole argued, "What's the difference between a cat roaming and a dog roaming?...All animals should be licensed!"

The proposed ordinance will come up for discussion at a future board meeting.

### FUN & DINING Notre Dame's Jubilation '74 '1776'

From the opening scene, where 20 Congressmen sing a harmonic, "Sit Down, John," to obnoxious John Adams (played by Don Potter of Hoffman Estates) to the stirring patriotic signing of the Declaration of Independence, "1776" is an unusual evening of entertainment and education. To be presented by Best Off Broadway Players on Nov. 15, 16 and 17 at the Buffalo Grove H.S. Theater, Art. Hts. and Dundee Rds., the musical comedy "1776" has all the usual ingredients of a Broadway hit, plus the added interest of the subject matter, which is unusually timely as our nation approaches its bicentennial celebration.

Tickets are \$3.50 and may be reserved by calling 392-4875, or are available at the box office before the show. Seats are reserved so call early. Students and Senior Citizens are admitted for \$1.75 on Friday and at the Sunday matinee. Since the show has such a wealth of historical significance, parents are advised and encouraged to bring their children, especially to the Sunday matinee. Friday and Saturday performances begin at 8:30, Sunday at 2:30.

#### MIDDLE OF THE NIGHT

**"The King and I"**  
The Niles Historical & Art Society and The Woman's Club of Niles are sponsoring the delightful Rogers and Hammerstein musical "The King and I" for the first two weekends in December. This musical was made from the original book, "Anna & the King of Siam", and to collaborate the production we will have with us one of the grand-daughters of the King, Anna wrote about in her book. This is the story of an English school teacher and the half-cultured and half-barbarian King of Siam. The music score is warm and romantic and musically speaking one of Rogers best with such songs as "Getting to Know You", "Something Wonderful", "Hello Young Lovers", "I Whistle a Happy Tune", "Shall We Dance", and many others instantly recognizable.

#### Mayday! Mayday!

I see where a new senior citizen organization has been formed. It's called Athletics Anonymous. When you feel like playing golf, tennis, baseball, or any game requiring physical energy, they send someone over to drink with you until the desire to exercise passes.

A guy that's doing a hell of a lot for the senior citizens of this area is Nick Constantino of the Maine Township Democratic Organization. Working in cooperation with Nick Blase, Constantino has set up a number of senior citizen FREE Bingo games recently and now is working on a plan whereby older folks can put their experience to work for area industry. For example there's many a retired sales manager of 65 or 75 who has a wealth of experience in marketing and selling products just as there's all sorts of other business and professional experience which older people possess that can be put to profitable use. Just because a person has passed 65 doesn't mean they've lost either their will or ability to work. I know of many who are past 70 who can put many young people to shame when it comes to productive work. I personally know a 74 year old account executive with a major ad-agency who makes a hundred grand a year. Soon I'll have an in-depth story about Nick's plan to have business use this vast reservoir of older people's business and professional experience.

"Doc", said an obviously disturbed young man of 23 to his 75 year old psychiatrist. "My biggest problem is that I always dream about football. Nothing but football."  
 "Don't you ever dream about girls?" asked the old shrink.  
 "I don't dare," replied the young man. "I'm afraid I'll fumble the ball."

Senior citizens of the male gender should resent that constant reference that's made (most frequently by the female gender) to "Dirty Old Man". Why "dirty old man"? Aren't there any "dirty old women"? If you know any "dirty old women", please send me their names and phone numbers immediately! Mayday! Mayday! This is urgent!

Due to an editorial "circumcision" (the cruellest cut of all) last week my mention of Andy & his La Venecia Restaurant of Niles was left out. What I said was that the 3rd anniversary of La Venecia was a smashing success. Andy, the genial and gracious owner took over La Venecia 3 years ago and his business has increased substantially with each succeeding year. Whether you're young or old, rich or poor, you'll find the La Venecia fills the bill. Whether it's breakfast, luncheon, a complete dinner or a late snack, you'll always have a delightful dining experience at La Venecia. Tell 'em Eddie sent you!

Since my column mention, plus their ad in last week's paper, both Bill & Nick of Millbrook Restaurant, across from Golf Mill Shopping Center on Milwaukee ave., told me that they've seen a lot of new faces. In fact, their business is really on the move and this speaks well for their food quality because our country is in a sagging economy. The French Toast special for 79 cents is still on again next week and so is the FREE homemade soup with any sandwich, anytime. You get top value for your money at Millbrook -- GO! Find out!

Last day and night for Jake's Restaurant's Polish Fiesta Days. So get over to Jake's today or tonight. The entertainment is on from 4:30 to 10 p.m. Dance to 'Lil Richard and his Polka All Stars and partake of their wonderful authentic Polish dinner specials. Jake will soon feature another International Foods Days Special and I'll report about this next week.

That big, dance festival which the Fred Astaire Dance Studio puts on yearly is ready to take off. All systems are GO! Get your tickets at the Fred Astaire Studio of Niles NOW for this big, main event takes place on Nov. 17 (Sunday) next at the Sheraton Chicago on Michigan ave., near the Trib. Tower. Now I tell you, whether you're young or old, you will never behold a more dazzling dance exhibition or one more colorful than this. It's positively great! And the Fred Astaire gang including Bob Garvey, Miss Fontaine, Drake etc. will all be on hand to compete with the dancers from other Fred Astaire studios from all over the country. It offers great food, super dance entertainment, and YOU and your wife, or whoever, can dance, dance, dance, too. I'll be there too ... who'll I bring is still a question although I've now narrowed my list down to 40. Come and see who the final lucky lady will be ... ?

P.S. ?

#### Christmas bazaar

The Good Shepherd Community Church annual Christmas Bazaar will be held from 9 a.m. to 5 p.m. on Saturday, Nov. 16 in the church at the corner of Ballard rd. and Home ave., Park Ridge. Many handcrafted items have been made during the Women's Guild workshops held during the year. The public is invited to do their Christmas shopping early. Proceeds will go toward the Church Maintenance fund. Coffee and donuts will be served.

### Holiday Bazaar

Mrs. George Balger (left) and Mrs. Steve Hareas are shown with a few of the many items from the Children's Booth. Many other gift items (many of which are handmade) will be available at the other booths.

"Holiday Bazaar" is the theme for the fall event of St. John the Baptist Greek-Orthodox Church, scheduled to take place on Sunday, Nov. 17 from 12 noon to 9 p.m. in the Cultural and Educational Building, 2350 Dempster at the Tri-State Tollway in Des Plaines.

Mrs. Andrew Adams, chairman, and Mrs. Christian Bazos, co-chairman, are being ably assisted by the following persons: Mrs. Connie Veremis, knitting and crocheting; Mrs. Nicholas Kouracos, aprons; Mrs. Constantine Stamis, Greek imports and religious items; and Mrs. Steve Hareas, children's booth.

In the "Country Store", Mrs. Pauline Chronis has the arts and crafts, while Mrs. George Bolger and Mrs. Daniel Pastorello have attic treasures. The Christmas decorations booth is being handled by Mrs. Constantine Duros; publicity, Mrs. Stanley Fistedis; a sidewalk cafe, Mrs. Val Klink;

### Committee questions Judge's dismissal of suit

William W. Yates, Jr., Chairman of the Morton Grove Committee for Responsible Spending this week took issue with the position of Cook County Judge Walter Dahl that the Judge "could not substitute his judicial opinion for the legislative opinion of the Morton Grove Park District Commissioners" as he dismissed the Committee's suit to block construction of a controversial ice rink and sports complex at Dempster and Waukegan roads.

"We were not surprised to lose in Cook County, after all, the suburbs get short shrift from the Cook County poles and Judges". I was interested to note our opinion is shared by County Board candidate Diana Hunter of Skokie who said after her narrow defeat Tuesday that people don't know much about Cook County government and that County Government will always be an unknown layer of government.

"How could the Judge possibly feel anyone's interests would be prejudiced unduly if our case were allowed to be heard in court? What are Judges for except to hear cases involving disputes over differing opinions?" Yates asked.

"The Park Board had its earlier condemnation fully aired in court with one of Mayor Daley's top lawyers, Tom Foran leading the charge. Why are we denied equal justice?"

"We believe the interests of the people of Morton Grove will be best served by a vote on this entire proposal, unclouded by the propaganda and deception which marked the earlier referendum, and we will fight to get a new vote," said chairman Yates.

"We have not yet decided whether to appeal in Cook County courts," said Yates. "It is difficult to see what would be treated any more fairly on appeal than we were on our initial appearance". Yates pointed out that the Committee has considered the possibility of going into Federal Court to fight the eminent domain aspect, which they feel was badly misused. "With at least a thousand acres of recreational land within a block from this site, it is difficult to see how the principle of condemnation under the right of eminent domain could be maintained. It is obvious that no need for this very costly project was ever proved; rather, the public dislike for condominiums was cynically used to deceived the public".

"After careful consideration, we will make public our intentions to appeal, enter Federal Court or to find more ways to take the case to the people", Yates concluded.
