## Three people seriously injured in high speed chase

# Teenage girl dies in auto crash

### From the LEFT HAND

by David Besser  
Editor & Publisher

I met a Chicago policeman at a wedding Saturday afternoon. After I was introduced to him, I shook his hand, and then counted my 5 fingers. When he didn't smile I realized my smarmy aloof gesture was not appreciated, and similar droff efforts are a continuous annoyance which cops in all departments must put up with. I mention this because policemen have always been fair game by a most accusatory public.

Last week I was stopped by one of Morton Grove's finest at 2 o'clock in the morning because he claimed I didn't come to a full stop at an intersection stop sign. Since I was driving very slowly, I contended I had made the stop and then added I thought he used very poor judgement. But the guy was doing what he's paid to do and I should have thanked him for his alertness.

We're leading into the tragic story of the Niles girl who was killed Sunday morning after Des Plaines police pursued the car she was driving in. Our purpose is not to place an onus on policemen, who are doing a very difficult job, but to present a problem which should be aired. According to police reports, a 3-mile pursuit east on Dempster st. from Des Plaines at speeds sometimes of 100 miles per hour resulted with Des Plaines police finally giving up the pursuit. The police car dome lights and siren were flashing and wailing as they raced thru red lights. But as traffic got heavier, Des Plaines abandoned the pursuit but continued to keep the run-away car in sight. About a half-mile later the fleeing car swerved at Grand ave. and collided head-on with a car heading west on Dempster st.

### Controversial Dist. 63 building plans 'let out'

[by David Besser]

Bids for the \$475,000 building project in District 63 will be let-out April 11 with scheduled opening of bids for May 5, it was announced at Tuesday night's Board meeting. A proposed \$376,800 is earmarked for administration offices; a service center and educational offices at the Apollo Junior High School, and \$56,000 of improvements will be used for creating additional classroom space at the Ballard School to house 86 transfer students from schools west of Ballard.

The April 11 letting of bids is one day before the April 12 school election in which one or more candidates now seeking Board posts, who are opposed to the

A 17-year-old Niles girl was killed and three others were seriously injured shortly after midnight on Easter Sunday morning following a head-on auto collision on Dempster st. at Grand ave. during a high-speed police chase.

Candace Galler, a senior at Maine East High School, was killed while a passenger in a car driven by Joseph J. Hrabi, 19, of 7701 W. Howard st., Chicago.

Hrabi was taken to Lutheran General Hospital with extensive injuries to head, chest and pelvic areas.

The driver of the other car, Robert Waldman, 49, of 9264 Hamlin, Des Plaines, was taken to Holy Family Hospital in Des Plaines, with head and chest injuries. His daughter, Jody, 14, a passenger, was unconscious and listed in serious condition with head injuries in the same hospital.

According to Des Plaines police, Hrabi's red 1974 Mustang was observed travelling at excessive speed, eastbound on Miner st. near Graceland. A Des Plaines patrol car began pursuit

of the car which, police said, reached speeds of 100 m.p.h. while driving on the wrong side of the street and reportedly going through red lights at River Road and Rand Road in Des Plaines.

Pursuit continued on Dempster st. in Niles, where Cook County, State police and Niles police joined in the chase. According to a Niles police witness, Hrabi, eastbound on Dempster, apparently attempted to elude police pursuit by applying his brakes to turn north at Grand and apparently losing control of the car, collided with the Waldman auto which was westbound.

Miss Galler was pronounced dead at Lutheran General Hospital, Park Ridge, where Hrabi's condition was listed as critical. He was removed from the intensive care unit on Monday.

Hrabi was charged with reckless homicide by Niles police. Des Plaines and County police charged him with disregarding a red light, eluding police vehicles and with reckless driving. He is scheduled to appear in Niles Court on May 9.

### Fatal auto crash

The demolished remains of the 1974 red Mustang driven by Joseph Hrabi of Chicago is mute evidence of the Easter Sunday morning crash which killed its passenger, critically injured the driver and hospitalized the driver and passenger of the other car.

### Oakton absentee ballots

Oakton Community College will make it easier to vote absentee ballots in the upcoming Board of Trustees election on Saturday, April 12.

"It has always been my desire to make absentee balloting as easy and convenient as possible," Stephen J. Loska, secretary of the OCC Board of Trustees, explains.

"Now I believe we have made a big step forward with this new simplified procedure."

"As a result of recent changes in the law, Oakton Community College has revamped all forms related to absentee voting to remove any requirement for notarization," he said.

In addition, the application for an absentee ballot has been printed on a gummed form which folds into a pre-addressed envelope.

"For convenience 50 copies of the application form have been forwarded to each elementary and high school administrative office so that a voter may pick up applications at local convenient places," Loska added.

The applications are also available by telephone request at 967-5120, ext. 372. Mail applications must be made by April 7. Applications may be obtained in person through April 9 at the

## Baseball Preview

[By Pat Canfield]

There may still be snow on the ground and a chill in the air, but baseball fever is rising high.

On Tuesday, April 1, the Maine East varsity baseball squad will come out throwing for their opening game against Evanston, at home.

Returning lettermen who will try and help the Demons to a winning season are Jeff Bergquist, Craig Christell, Marc Elatkin, Bob Feezor, Mike Laussen, Mark Mahoney, Dave Scher, and Chuck Sellergren.

Coach Herb Ward thinks that a team he and his players will have to beat this year is Niles West. As he stated it, "Niles West has a good pitching staff and good depth all around."

Maine East also has two tough games this year against last year's state champs, Glenbrook North.

Coach Ward and Coach Max Liggett will work more on defense and pitching this year so they can improve on last year's record. Coach Ward says that the team

may "lack consistency on defense and the pitching may be spotty, but the offense can score runs."

Coach Ward thinks that "pitching and defense are the most important fundamentals in high school baseball." He added some final words by saying that "the potential is there if we put it to use. We could have a good team."

Yes, there may be a chill in the air but baseball fever always seems to warm things up.

## Niles "AA" Shark Mites

March 14, 1975 -

The Niles Sharks "AA" Mites played the Deerfield Mites to determine a 3rd or 4th place spot in the A.H.I. State Tournament with our Niles Sharks coming out on top with a 3-0 game to take the 3rd place berth in Mite "AA" Hockey in the State of Illinois. Danny Gallagher was in goal and held his own for his shut-out playing a beautiful game in the nets. Niles goals were scored as follows: two goals for Eddie Olczyk and one goal for Mike Componsono. The Niles Sharks may not have played as sparkling

a game as they did the night before against Park Ridge but we did an adequate job of skating, shooting, passing, and position work. It was a whole team effort. We are proud of our Mite team and wish them well next week in the North Suburban Tournament in Kenosha in which Niles came out in 1st place.

Team names as follows for the Niles "AA" Shark Mites: front row, left to right: Nicky Salemi, David Solan, Chuck Heintzelman, Goalie Danny Gallagher, Jeff Malik, Kevin Baeden. Back row, left to right: Coach Sol Benjamin,

Tony Musso, Larry Hadjuk, Mike Componsono, Jerry Ackermann, Randy Busiel, Eddie Olczyk, Jim Hitzel and Assistant Coach Dick Englund.

valuable player Mike McKevey, finished the season with a 4-5 record and in seventh place in the conference out of 11 teams.

Coach Nelson, however, was proud of this because of the number of swimmers he had and because of the competition. He stated that the competition here is extra tough and that his boys gave all they could. For this, he is proud of them.

Key swimmers for the freshmen were John Grazian and Mike McKevey. John because of his fine work in the butterfly and individual medley and Mike because of his beating Scott Steigerwald's record time in the 300 yard freestyle.

When asked if any of his freshmen will be able to swim varsity next year, Mr. Nelson stated that Mike McKevey probably has the best chance, for he just missed-out swimming in it this year.

Bill takes strong stands on some issues, but he's not self-consciously controversial. If it is relevant, he talks about it. In the two and one-half years Berg has hosted the program, he has consistently maintained the number one rating in his time period. He feels that the popularity of the show is principally due to the unpredictable nature of the people and our ever-changing society.

He can, and has, talked about sex, war crimes, police, blacks, sports, patriotism, religion, and just about anything else and provoked more thought than anger.

If you would like to meet Bill Berg, please join us and ladies - bring the men, too.

## Girl Scouting for handicapped

The Northwest Cook County Girl Scout Council is working with the Maine-Niles Association of Recreation for the Handicapped (M-NARH) to organize Girl Scout troops for the special girl who has a physical, mental, or emotional handicap.

M-NARH will advise the council in selection of leaders, planning of program, and placement of girls based on their special education classification or disability.

Although troop size and structure may be modified according to the needs of the girls, the Girl Scout program will basically remain the same, with a few adaptations as possible, according to Barbara Sternfeld, Executive Director of M-NARH. The girls might go camping, perform service projects, do badge work, or join in any other sports, crafts, or activities done by Girl Scouts everywhere.

These troops will serve girls whose parents want Scouting for their daughters but who have hesitated in the past because they felt the handicap prevented assimilation into conventional troop structure.

The Girl Scout Council stressed that membership in its troops for exceptional girls is not determined on a school basis. Girls from other areas and other programs for exceptional children in northwest Cook County can join these troops.

Discussion series for parents "You and Your Adolescent," a discussion series for parents of teens, will be offered at the Mayer Kaplan Jewish Community Center, 5050 W. Church st., Skokie. Conducted by Ruth Suth, Director of Family Education at Jewish Family Service, the series will begin Wednesday, April 16 at 8 p.m., and continue on 3 consecutive Wednesday evenings. ### Morton Grove Coin Club

Ever wonder how much your old coins are worth? Practically everyone has some old coins stashed away somewhere, and now you can learn their value by bringing them to the Morton Grove Coin Club's Spring Coin Festival.

The show will be held from 10 a.m. to 6 p.m. Sunday, April 20, at the Leaning Tower YMCA, 6300 W. Touhy, Niles. Admission is free.

As a service to the public, the club will have a special "coin origin and evaluation booth" manned by club members using the latest coin guides.

At no charge, they will estimate the value of coins brought in by visitors. In the case of foreign coins, perhaps inherited from a globe-trotting relative, they will also identify the country of origin

and may be able to give you other historical information about them.

This will be the fifth year the club has offered the free service, which is designed especially for non-collectors. While club members will be happy to evaluate reasonable numbers of coins, there will not be time to assess entire collections or large accumulations.

Also featured at the show will be a bourse section in which about 25 dealers will display their wares. There will also be educational coin exhibits.

Members of the Morton Grove Coin Club come from all over the Skokie Valley and the Greater Chicago Area. Meetings are held the third Friday of each month at the Oketo Park Fieldhouse, 8950 Oketo, Morton Grove.

# District 63 Board Candidates

## Deckowitz, candidate for District 63 Board

Philip A. Deckowitz has announced his candidacy for a three year term on the District 63 School Board. The East Maine General Caucus voted endorsement for Mr. Deckowitz, as have most of the current board incumbents. Four persons have announced their candidacy for the two open board seats.

Mr. Deckowitz is currently employed as Manager of the Computer Systems Group with Powers Regulator Company in Northbrook. He is confident that his professional training in management (MBA Loyola) and practical experience will bring a much

needed business orientation in the area of long term physical and fiscal planning to the board.

"Every action of our school board and administration must focus on the only priority for the district, utilizing our resources to provide the best possible educational opportunities for our children," said Mr. Deckowitz. He feels that District 63 has a good educational environment within our current framework. However, special programs for each child should be expanded to more fully meet the Illinois constitutional mandate to educate the children to the limits of their capabilities.

## Abern appears before EMEA

Jerry M. Abern opened his appearance before the legislative committee of the East Maine Education Association by announcing that he would not accept their endorsement. Abern explained that he had come before the committee only to answer their questions. He expressed hope that the interchange of ideas would contribute to better communications between the Board and the teaching staff.

One of the topics Abern discussed in some detail was the district financial program. He pointed out that the district had stopped deficit spending and is now operating in the black. Abern also pointed out that the district had added programs while paying off the deficit. He noted that planning for the future is especially important at this time since there will be a large drop in revenue to the district over the next two years. Abern said that continuation of the careful financial planning now underway will enable the district to maintain its new programs and present class sizes, and to continue to operate in the black.

Another topic which Abern discussed was the decision-making responsibility of Board members. He told the teachers that he does not represent them on the Board although he is a teacher. Abern explained that his responsibility as a Board member is to the taxpayers of the district and to the children of the district. He said that he feels the Board of Education must listen to the community and do its best to hear all existing points of view. The Board must then base its decision on what it feels is in the best interest of all the people involved. Abern said that it is important that the Board does not give in to vocal pressure groups or to special interest groups. He said that the needs of these groups does not always coincide with the best interest of the community, and that it is important that each Board member look at all aspects of each situation before arriving at a decision. Abern reiterated that his decisions are based on his aim of providing the children of District 63 with the finest possible education in a financially sound school district.

## Howard Lessin

Howard Lessin has announced his candidacy for a three year term on the School District 63 Board of Education.

Mr. Lessin and his wife of 11 years, Judy, have lived in the 63 community for 8 years. They have three children, Serena 5, Sheryl 4, and David 2 1/2.

Mr. and Mrs. Lessin have been members of the PTA since 1972 when their oldest child was not yet two years of age. Mrs. Lessin was the liaison from the PTA to the School Board meetings and Mr. Lessin represented the PTA on the East Maine Township General Caucus.

Mr. Lessin is employed as a Guidance Counselor for the Chicago Board of Education. He currently holds 3 educational certificates including an elementary, a high school, and a state of Illinois K-14 Specialist Certificate.

Mr. Lessin received a B.E. with honors in 1964 and an M.A. in 1969. Since 1971 he has been enrolled in a Post Masters Program in Educational Administration at the University of Illinois in Urbana.

Mr. Lessin's activities in District 63 include PTA since 1972, Membership in the East Maine Township General Caucus since 1972, Delegate to the 535 Oakton Community College Convention, Chairman of the Caucus Credentials Committee 73-74, member of the Search Committee 73-74. Mr. Lessin was elected Vice Chairman and Treasurer of the Caucus for 74-75.

The issues for the election as stated by Mr. Lessin are: The \$475,000 administration building, the taking away of everyone's rights to vote in a referendum on the Administration Building thru legalistic maneuvering, the decision making process by the

Board, the lack of public long range plans, the improper use of the agenda to shut off public participation, and the expected financial crisis caused by the decline in student enrollment.

Mr. Lessin is endorsed in his candidacy for the School Board by two candidates who were going to file as independents but have decided to withdraw in his favor, Jeanette Oestreich and Richard M. Smith. Mrs. Oestreich in withdrawing her candidacy stated that Mr. Lessin would "contribute to the betterment of our schools" and urged her supporters to go out and work for his election. Mr. Smith wrote that "District 63 would best be served by a clear cut choice and that Mr. Lessin offered the background, concern an understanding of the problems of the District and that he (Smith) would work actively for his election."

Mr. Lessin has also received the endorsement of the teachers in the District 63 schools.

Mr. Lessin also stated that "every member of the community should remember that the election of April 12 is in effect a referendum on whether the Board should have had a referendum on the construction of the administration building."

## Caucus

The East Maine General Caucus for School District 63, at their February meeting, has selected Philip Deckowitz and Jerry Abern as their candidates for the school board-election to be held Saturday, April 12.

The East Maine General Caucus selects their candidates by ballot from the delegates to the Caucus after these candidates are carefully screened, interviewed, and investigated as to their qualifications by the Nominating Committee and then are placed before the entire Caucus body.

Five names were placed in nomination this year and Mr. Deckowitz and Mr. Abern each received a majority of the ballots cast.

The East Maine General Caucus delegates consist of representatives chosen by the PTAs, many homeowner groups, synagogue, church and civic groups. Mr. Abern is the incumbent and Mr. Deckowitz is seeking the seat being vacated by the retirement of Mrs. Irene Luck. Both candidates are eminently qualified and they deserve your vote.

Polls are open on April 12, between 12 p.m. and 7 p.m. Exercise your right to vote - go to the polls.

### Levin's platform: "Sound Money Management"

Howard Levin, candidate for the Oakton College Board of Trustees, is running on a platform of "sound money management." His platform concerns taxpayers of Des Plaines, Park Ridge, Morton Grove, Niles, Lincolnwood, Skokie, Golf, and Glenview. Levin says, "There's not one businessman on the Oakton Board, but millions of taxpayers' dollars will be spent by trustees on the new campus. I am really concerned for the taxpayers of this district and I want to make certain that all tax monies are spent in a prudent manner."

Levin is an expert in money management. He is a management consultant with Hewitt Associates, a business management consultant firm, and assists

clients with million dollar expenditures. He has a B.A. in economics and math from Purdue University, and a M.A. from the School of Business at the University of Wisconsin. He earned an F.S.A., Fellow in the Society of Actuaries.

"Let's face it," says Levin, "the taxpayers of my community need a man of my expertise to represent them on the Oakton Board. I'm concerned with my own tax dollars and that of the community's. I have the experience, education, background, and expertise to do a good job for my friends and neighbors in the Oakton district. I look for support from everyone in the district concerned with their tax monies."

### Feichter opens campaign

Patton Feichter, in opening his campaign for trustee of Oakton Community College, today stated that his principal theme is "to develop and improve both community relations and academic quality." Citing his long experience as a parent, teacher, and young people's counselor, Mr. Feichter said: "some of my kids (ex-students) have come back and told me about the conditions at Oakton and, after investigating the college myself, I am forced to agree that it is not operating with maximum effectiveness. It is especially sad because Oakton College and the communities within Maine and Niles townships have a great potential for working together for the benefit of young people and adults."

Asked for further details, Mr. Feichter replied that, "I would have some reservations about sending my own son to Oakton right now because I couldn't be sure his credits would be transferable to all colleges if he decided to go on for his degree. Also, I'd worry about the school's image and how that might affect my son. For myself, however, I wouldn't hesitate to take an interesting course under Oakton's innovative MONACEP prog-

ram." Feichter, holding two degrees himself, was referring to the Maine-Oakton-Niles Adult Continuing Education Program which offers a great variety of practical and academic subjects to interested adults.

In conclusion, Feichter offered the following suggestions. "The trustees on the Oakton College Board deserve some credit for the programs which are working well. But they shouldn't stop too long in self-congratulation. Careful and constant review is necessary. Academic standards must be raised so that young people can progress. Tax dollars must not be wasted on ill-conceived 'theories'; but spent to upgrade the system. Above all, the goals of the college and the goals of the Maine and Niles communities must be brought back together—a school and its community must have the same goals."

For further information, contact Pat Feichter, 9127 Potter rd., Des Plaines, 298-5887.

The boys enjoyed viewing many historical sites along the way, among them Bryant Cottage where Lincoln and Douglas met to plan their famed debates.

### Candidate Kerns considers Niles' future

Frank Kerns, independent candidate for Board of Trustees, Village of Niles, has issued the following political statement:

"The campaign is drawing to a close and unlike the other candidates running who have not stated anything positive, I would like to make some proposals for Niles' future:

"1. We must concentrate our efforts for the future in regards to traffic control. Niles is blessed with being close to all of the business action in the Northwest Suburban area, but the penalty we pay for that is that all the traffic going to all of the other parts of the Northwest area comes through our community in order to get there. We must, therefore, along with other communities in the Northwest suburbs, do the most we can towards bettering public transportation systems so that we can get people to where they want to go conveniently, while at the same time, avoiding the use of the second and third family car. Niles free transportation system was a tremendous

plus for our community but we must develop public transportation further than this if we are to help the congestion that we now have.

"2. We need more Police protection. Niles has a high concentration of different kinds of occupancy within its boundaries. Different density neighborhoods need different kinds of Police protection. One squad car an hour going through a neighborhood of single family homes may be all right, but it is not all right in an area that has a high density of families in a multiple apartment area. We must recognize these differences and provide police protection where we need it with more frequency.

"3. We must impress upon the County of Cook that if they continue to build high density areas in already congested areas, that this will be a problem in years to come. Constant inspection of these areas must be ordered by the County in order to avoid deterioration of property and thus, deterioration

### Trustee Candidate Tidwell issues campaign statement

Wilton Jere Tidwell, independent candidate for Board of Trustees for the Village of Niles, has issued the following campaign statement:

"I am running for Trustee for the Village of Niles because of the many years I have lived here and the strong feeling I have for my community.

"I am particularly concerned about the tremendous increase in the utility costs of our gas, electric and telephone. Most recently, our gas bills rose dramatically. I have not seen the

of the neighborhood. "The problems that were presented to Niles' trustees in the past are not the problems of the future. The problems of the future involve keeping our neighborhoods stable, our property values high and our families safe. I promise you, as a Niles trustee, that I will see that these ends are accomplished."

Shop Locally

Village of Niles take a positive stand against such increases and I think it is one of the functions of the Community to fight for the benefits of the people who live here.

"Maybe we cannot beat Commonwealth Edison and the other utility companies, but we certainly should be in there pitching whenever they ask for additional increases.

"In this same vein, I am concerned about our inability to control the problem of the noise from O'Hare Field. Again, it seems that in dealing with such a

large entity as an airline, we are unable to prevail. Noise, is something that diminishes the value of our property. There are also psychological problems caused by the constant noise.

"The Village of Niles should make every effort to enforce its noise abatement laws and try to get the FAA and the airlines to reduce this nuisance.

"I mention these two problems because they involve two huge corporate entities our community has not been able to deal with effectively. At least we should try and I will certainly make that effort."

### Niles Park Board Jeffrey Arnold Donald J. Fergus

Jeffrey M. Arnold, candidate for Niles Park District Commissioner has issued the following political statement:

"The recent events at the Niles Park District Board Meetings have highlighted the true issue in the upcoming election. It is my opinion that the most pressing need of the Park District at the present time is the need for professional experience on its policy making body. The attempt to force approval of a flea market and motorcycle exhibition at the Ballard Ice Rink without giving consideration to the possible detrimental effects to the community and without having sufficient knowledge of the amount of revenue which the Park District would receive from the affairs is indicative of the desperation of certain Commissioners over the financial problems of the District. This desperation also led the same Commissioners to reject a Village of Niles offer of technical assistance on crowd control and the problems accompanying flea markets. Why are these Commissioners so desperate that they are willing to act without advice, without information about possible detrimental effects to the Community? The answer is obvious. The Park District has borrowed a large sum of money by the use of revenue bonds which do not need voter approval. The loan was to be repaid with income from the Tam Golf Course and the Ballard Sports Complex. However, the ice rink operation lost approximately \$50,000 this past season. The interest on the loan must be paid and the money must come from somewhere. Other alternative sources have been rejected. The Park District turned down an offer by the Golf-Maine Park District to buy ice time. Acceptance of the offer would have produced badly needed revenue and yet would have made use of the facility in the manner for which it was designed.

The Niles Park District must engage in long range planning both of its recreational objectives and its fiscal needs. Present programs and facilities must be tightly managed and alternative sources of funding must be explored which do not involve additional taxation and do not involve the risk of detriment to the Community. The Park District's financial problem is serious but clutching at straws is not the answer. Decisions concerning the use of park facilities must be made only after an analysis of a particular activity's impact on the community and a realistic appraisal of its income potential. This type of responsible and economical governmental process must begin now!"

Donald J. Fergus, candidate for Niles Park Commissioner has issued the following statement:

"Employed by Air Comfort Corporation for nineteen years. In twenty-three years of being in the trades have worked on every kind of construction imaginable. Hospitals, banks, hotels, clinics, telephone buildings, fire stations, apartments, factories, homes and on the first ice skating rink in Park Ridge (Michael Kirby's). With this type of experience and background, I feel I would be an asset to the community and to the park district in the up and coming development of our newly acquired parcels of land.

Married eighteen years. Four children. Three are now attending Maine East H.S. the other attends Oak School. Have been residents of Niles since Jan., 1958.

In 1966, I became active in the Niles Baseball League program. The past nine years I have worked with the young boys in the capacity of coach and manager. Also I began to work with the parents and different village organizations. I was elected to the baseball board of directors for the years, 1969, 1970, 1973 and 1975. Served as vice-commissioner in 1971, commissioner in 1972, and was President of the Board in 1974. During 1974 the Baseball League spent over 535 hours of voluntary time in the installation of the lighting project at Jozwiak Park. This was accomplished with funds from the Niles' Days Committee and cooperation of several village groups.

In 1971-72, I was a delegate to the Niles Days. Also served as an alternate during the years 1970, 1973, and 1974. In that time the Niles Days Committee has given to the people of Niles a fire ambulance, carillons, satellite kidney clinic, helped in the Diamond Jubilee, and the above mentioned lights at Jozwiak Park. Also several other civic organizations benefitted by the Niles Days Committee.

I feel there is a need for someone with practical experience in developing of our newly acquired parcels and to assist in any way possible in the operation of the current parks. I feel there is a need for facilities for our senior citizens in which they can sit, relax, and enjoy our fine parks."

LETTERS TO EDITOR

Lincolnwood homeowner responds to village pamphlet

To the Editor: I am sending this letter in regard to the pamphlet that has been circulated throughout the village of Lincolnwood by the VAP. First I am proud of being a Democrat and I am an angry homeowner who does not like to be referred to as an octopus with a stranglehold on the village. I think this village has been in a stranglehold for many years and it is time for action by the people of Lincolnwood, including the people of Lincoln Towers who have been apathetic to the cause of the village. It should make no difference if you are a Democrat or Republican. What is important is what you can do to make this a better place to live. My belief in what I have heard and seen through the workings of the Citizens Action Party can help in many ways.

In the last election the low taxes were brought out to scare off the residents of Lincolnwood. As to say you need us because without us you can't exist, this is wrong. Without them we can exist and will make it a better Lincolnwood.

I have lived in Lincolnwood going on 7 years and can see much more for Lincolnwood than we have. In the past few months, Village Hall has been moving around trying to please the residents with the election drawing near. Don't let them use that old routine of low taxes. There will always be low taxes and we will still have more for Lincolnwood for all age groups.

I am involved in many community affairs and have yet to see a Mr. Mollett in any of the associations. Where did the village pick him up and how much salary is he drawing from the millions in the village government?

I think that whether you're a Democrat or a Republican, it makes no difference with the VAP or CAP. Let's make it a clean campaign. If this is all the Village Administrative Party can do, then they're running scared.

Sincerely yours, Fred J. Hossfeld Homeowner of Lincolnwood

Praises Sutker for affirmative action

Dear Sir: I attended the Open Forum conducted by Calvin Sutker, Niles Township Democratic Committeeman, on March 20 at Oakton Center. All candidates running for the Oakton Community College Board, the Skokie Library Board and the District 219 School Board were invited so that we can see and hear them. No questions were asked about their personal political affiliation.

The meeting was held as an Affirmative Action, Open Party gathering, and as a public service. I believe that Affirmative Action is something true, real and positive. Let us all become a part of it.

With the leadership of Calvin Sutker let us all give into positive feelings regarding government and attend Calvin Sutker's open house meetings and make his practical wisdom meaningful and a reality. In this way we can become members of a vocal majority and not members of a silent complaining group.

The meeting on March 20 was attended by an overflow crowd of both non-political and political persons. (Two tickets for the Niles Township Democratic Organization Golf Outing were won by Walter Flintrup, an Independent Republican and Caucus Party member.)

Other Township Committeemen of the 10th Congressional District were outspoken in their shocked surprise of the attendance and interest shown by our voters and they also commented on Mr. Sutker's Affirmative Action and Open Party Policy.

I am certain that Calvin Sutker, the Democratic Committeeman also means to bring all of the electorate (men and women of all ages) into political organizations and thereby to take an active part in the Political Process. This is not selfishly done by Calvin Sutker to either perpetuate himself in office or for any personal aggrandizement.

Very truly yours, Arthur S. Bluestein 9040 Pottawattami Drive Skokie

Dear Editor: We certainly appreciate the publicity printed in your paper for the Selah Singers Concert, given last Friday, March 21. Your cooperation and help in this venture is also appreciated.

Once again, many thanks. Yours in Christ, Steven L. Dornbusch (Rev.) Assistant Pastor and Director of Selah Singers

### OLR student activities

Enthusiasm was contagious at Our Lady of Ransom school last week as the students prepared posters to publicize "Education Expo." Interest was shown on all grade levels and awards were given to the best in each age group. It looks as though we have a good deal of artistic ability surfacing at OLR.

"Education Expo" is a program held at the beginning of March to acquaint parents and teachers with programs being carried out in Catholic schools in the Archdiocese of Chicago. In our area both Loyola Academy and Regina High School were the

centers where Education Expo was held. Many questions of general interest were answered at the workshops and demonstrations.

Our Lady of Ransom fifth graders gave a demonstration of the many areas they are introduced to in the music program offered to them by Sister Gracilia. Among these are singing in rounds, playing percussion instruments and rhythmic echoing.

Band members at OLR entered a contest sponsored by the CYO at St. Ferdinand school on March 1. These boys and girls did exceptionally well; of the 8 who

**ED HANSON**  
"Very clever people..."

Not only did the Chinese invent gunpowder and the printing press, but they also created some of the tastiest foods in the entire world.

Last week I enjoyed lunch and dinner at two of the newest and I believe, the finest Chinese restaurants I've ever visited.

The first was the **Chinese Kitchen**, 214 Greenwood, Glenview whose slogan is, "The Best Chinese Food on the North Shore." As a guest of the owner, Tony P. Lau, a very likeable and enterprising young businessman, I enjoyed some Chinese appetizers of egg rolls and barbecued spareribs followed by a main course of fine cut chop suey and egg foo young and a steaming hot pot of their special tea. Some friends of mine who were along also enjoyed their lunch at the **Chinese Kitchen**, having the Cantonese Chow Mein. Their international favorites, like Curry India, with a choice of either chicken, pork or beef, is just one of many delectable dishes from their extensive menu.

Incidentally, the menu of the **Chinese Kitchen** is, indeed, very extensive offering about a hundred different delicious authentic Chinese and Cantonese dishes. For example, under their international favorites, you can have your choice of Thai Steak, Shardail Malaya, Curry India, Sukiyaki Japan, Double Happiness Hong Kong, and many more popular international favorites.

Many area people have already enjoyed the hospitality of Tony Lau, the owner of the **Chinese Kitchen**, by bringing in the coupon which appeared in an ad in all five Bugle newspapers during the last two weeks. The coupon entitles everyone to a FREE lunch from the **Chinese Kitchen's** special lunch menu and you have, by the way, until April 10 to use the coupon for this purpose. Many area friends of the Bugle have reported very favorably on both the food quality and hospitality of this new Chinese restaurant.

The **Chinese Kitchen** offers a beautiful dining room for those who want to eat in and they also provide a complete carry-out service for those who wish it. Soon the **Chinese Kitchen** will offer from their new bar a complete selection of popular cocktails, tropical drinks and wines to enhance your Chinese food.

Area restaurants such as, **The Fireside Inn, Beam 'N Barrel, Jake's, Arvey's, La Venecia, Tedd's, Early Times, Ridgewood**, etc., reported an excellent business for last Easter Sunday. Any of the restaurants stated leveled their sales exceeded last Easter which may mean that the recession has leveled and business is in for a new boom soon.

You wouldn't think there was a recession on if you witnessed the long line of people waiting for tickets for "Shampoo" currently playing at Golf Mill theatre No. 1. The flick which stars Warren Beatty proves that good promotion can sell anything. Personally, I didn't care for "Shampoo" not because it's dialogue is about as dirty as you can get, but to me the picture lacks entertainment power. To me "Shampoo" didn't live up to it's build-up--so about all I can say for it is to put the accent on it's last syllable, i.e., ShamPOO!! It sure turned me off!!

Now something that turned me "on" was my visit to another new Chinese restaurant which recently opened in Morton Grove. It's called the **Palace Restaurant**, 9236 N. Waukegan rd., Morton Grove and is owned by Benny and Francis Hue.

Benny's brother, Francis, was a very well-known chef in many of Hong Kong's leading restaurants before he and Benny opened their **Palace Restaurant**, in Morton Grove which specializes in delicious Cantonese foods. So they have a wealth of knowledge in the art of preparing famous Cantonese foods which, in Hong Kong, they prepared for many foreign and American dignitaries.

The **Palace** recently completed their very attractive dining room which has a beautiful but comfortable decor and they serve both lunch and dinner. For those patrons who wish to take home their Chinese food favorites, they have a complete carry-out service.

Benny Hue, your genial host, has asked me to call your attention to both a luncheon and dinner special, I'm sure will delight your palate as well as your purse. For lunch (and I'm sure the ladies will love this) you can get Chinese Chop Suey, Egg Foo Young and Fried Rice which is served daily with Chinese soup, hot tea and a cookie for ONLY \$1.65. And the dinner special consists of Chinese or American Chop Suey, served with barbecued ribs, egg roll, Egg Foo Young, and Barbecued Pork or Chinese soup, tea and cookies.

The **Palace Restaurant** is located at 9236 N. Waukegan rd. (between Church and Beckwith) in Morton Grove and is open 7 days and evenings a week.

The **Little Red Hen** which serves that delicious country chicken has recently come under new management. The **Little Red Hen's** menu has been greatly expanded to offer not only chicken, but fish, shrimp, hamburgers, complete dinners, Bar-B-Q ribs, Gyros and Shish-Ka-Bob. Specializing in take-out orders, the **Little Red Hen** is located at 7028 Golf rd., Morton Grove... phone your order ahead, call 967-6750.

See you next week...

Cont. from Page 1

According to a 1971 study by the Center for the Environment and Man, high-speed police chases run between 50,000 to 500,000 annually. About 6,000 to 8,000 of these police pursuits result in traffic crashes in which 300 to 400 persons are killed and between 2,500 and 5,000 are injured each year. A minimum of 90% of police pursuits are started because of a traffic violation.

In 1973 the International Association of Chiefs of Police passed a resolution "reaffirming its conviction pursuit is justified to accomplish legitimate objectives of law enforcement."

The Police Association urged local police to set-up guidelines governing police chases — including when a chase is to be initiated, the number of squad cars to be involved and communications with local headquarters.

Tuesday, we contacted local police chiefs but were unable to locate them during the period when we wrote this column. One Niles police officer told us in the case of a pursuit, a Niles policeman must call into headquarters to receive an okay to use his siren and flash the car's dome lights. He emphasized the judgement factor which must be taken by policemen regarding such a chase.

In Sunday morning's crash Joseph Hrabl, 19, 7701 Howard st., the driver of the pursued car, and his passenger, Candace Galler, 17, 8846 Elmore, Niles, had just left a party. It was reported Hrabl swerved into oncoming traffic at Dempster st. and Grand ave. colliding with a car driven by Robert Waldman, 9264 Hamlin ave., Des Plaines unincorporated area. Miss Galler was killed and Jody Waldman, 14, a passenger in the Waldman car was seriously injured.

According to the National Safety Council it endorsed the Police Chief's Association resolution reaffirming pursuits. Traffic specialist Albert Hugunin, of the Safety Council, said a chase should be terminated if it endangers the lives of other motorists or police officers, if the police have the car license number and other officers can apprehend the driver later, or if the police determine the driver is a frightened youth, and not a fleeing suspected felon.

(Most of this column was re-written from a Tuesday article in the Chicago Tribune by Carol Oppenheim.)

Buglers Diane Miller and Bob Wagner were asking why 100 MPH speeds still were being listed on speedometers. And Bob suggested governors be included on cars. Since the maximum speed on highways is now 55 MPH, what is the reason for drivers being able to exceed this limit?

George Feiwel, another attorney for the homeowners, said he would file additional counts in an attempt to recover the profit from the sale of the land.

"We can't allow village officials to make \$650,000 on the issuance of a permit," he said.

Final sale of the land was contingent upon Katz-Weiss obtaining a building permit from the village.

Epstein also dismissed the Lincolnwood Homeowners Association as a plaintiff in the suit because it isn't an owner or tenant within 500 feet of the condominium site. Robert Saperstein, president of the association

## District 63... Continued from Page 1

administration offices, are likely to be elected to the Board. It is conceivable, after the election, the Board might reverse Tuesday's action, or at least slow down the hurried-up-rush plans, which seemed to leave two of the Board members in the dark over the proposals. Board members Larry Reiss and Penny Larson inquired about elementary plans which they were not aware of, indicating the plans are being pushed by the administration, with minimal planning coming from the school board.

Board member Reiss told The Bugle he was concerned about the many options in the plans. It is likely workers in the school district may have to do much of the painting in the new Apollo addition, taking away from their normal painting of other buildings done during the vacation months. Carpeting and tile may also be optional bids which may not be included with the final May 5 bids.

The \$376,000 Apollo addition will be at the north end of the present structure with 10,500 square feet being allotted for a euphemism called an educational center, and 5,400 square feet for a garage-storage area. Actually, approximately 10 administration offices 18 by 14 feet and 16 by 14 feet will run along the south wall of the new addition. A large center area will be used for a clerical pool, while approximately 15 to 25 per cent of the remaining area will be devoted to a 50 by 30 foot curriculum center, a 22 foot square reproduction-printing room and 2 special ed and testing offices which can be utilized for about 10 or 11 students each.

The \$56,000 Ballard School alterations are estimated at \$56,000 with \$28,000 being allowed for fees and \$14,200 for contingencies; adding up to a \$475,000 project. The modest \$56,000 at Ballard will be used to convert present office space into a complete kindergarten room on the first floor. A learning disability room will also be converted. Superintendent Gogo said maintenance workers would take down present walls, again a labor cost which is not included in the \$475,000. A washroom will be rehabilitated there also. On the 2nd floor "considerable lighting and painting" will take place and work will be done on washrooms there. In the lower level it will remain as it is (library, etc.) with some plumbing and ceiling work scheduled.

The primary thrust of the entire project seems to be for administration offices which Superintendent Gogo contends are desperately needed. The approximate 75% or more space allotted in the 10,500 square foot Apollo space indicates this is the primary need. A 5,400 square foot garage and storage space extending west from the new addition is also needed according to the administration.

"When parents from the Nathanson-Stevenson area came to a previous meeting objecting to the overcrowding there, the Ballard School "sop" seemed to be thrown at the parents which would alleviate their problem. But it also gave the administration its opportunity to build its new offices which they seemed to be hell-bent on building, moving them out of the older Ballard School.

Many residents believe the new administrative offices are unnecessary. Dr. Gogo told The Bugle as many as 3 schools may

be closed in the future years and it would seem space in present schools could be utilized. Also, the Ballard School is centrally located which seems to make it a more logical location for administration offices. Much of this opposition believes if more school room is needed at overcrowded schools this should receive first priority in any building plans. And if such building is impractical, then re-aligning students in present schools is preferable to building non-academic offices in a district which has about 1,500 less students today than 4 years ago. Indications are a continued decrease in enrollment will continue during the ensuing years.

## Seek support for handicapped recreation

In recent years there has been a token attempt at providing recreation for the handicapped. It usually amounted to little more than a summer day camp experience or perhaps an hour a week put aside to meet all the needs of all the various handicaps across the community. In Jan. of 1972 The Maine-Niles Association of Recreation for the Handicapped accepted the responsibility of providing recreational opportunities for the handicapped at the same level as those who are not.

M-NARH continued to provide the day camp programs that existed previously and, through the pooling of resources, made significant improvements. The Association took this one step farther and developed camps for special populations that were previously not served within any one community. By combining efforts of seven communities, Skokie, Morton Grove, Niles, Des Plaines, Park Ridge, Golf-Maine, and Lincolnwood, they are now able to identify and serve a greater amount of people as well as individuals with more severe disabilities.

At the conclusion of the first summer, Maine-Niles was faced with a request from the families within the area to continue and begin programming for the future of the handicapped. Due to the financial commitment made to the summer, a year-round extension meant that each of the participating park districts and recreation boards would have to assess their ability to contribute additional funds. The funds were provided unanimously, and contributions made from three of the member villages. The children of Maine & Niles Townships would now have quality recreation geared specifically to their needs.

Beginning with nine recreation programs, the Association began its first year round schedule. Many questionnaires and meetings were arranged to insure that the needs were being met. Since this time till the present there have developed many new ideas. The present Spring '75" brochure offers 43 varieties of recreational activities for the handicapped. With Spring registration forthcoming, M-NARH is expecting an excellent turnout, along with requests for the development of new programs to begin in Fall.

Probably the most significant growth factor in the Association is that it no longer serves only the Educable Mentally Handicapped; Trainable Mentally Handicapped; Learning Disabled and Emotionally Disturbed children as it did at its inception.

An April, a referendum will be held along with the election of your local Park District officials. If the referendum fails in even one of the districts, services will have to end for all the handicapped people of all seven districts. Your vote can help to assure that this excellent example of intergovernmental cooperation called M-NARH, continues to provide these much needed services.
