**Grant to Niles will expand Courtesy Bus service**

Federal and state authorities granted \$168,165 in partial approval of a capital grant requested by Niles last March 12 toward expansion of the Niles Courtesy Bus System, said Village Administrator Charles Kohlerman last week during a combined input meeting on the Niles Transportation system, a transportation study and funding of the bus operation. Total amount of the grant applied for was \$618,000. Both the (federal) Urban Mass Transit Administration and the (state) Illinois Dept. of Transportation chose to defer action on the remainder of \$409,125 for construction of a service garage and necessary facilities to maintain

the buses, pending the outcome of a study by the North Suburban Mass Transit District (NORT-RAN). The partial grant will be used to purchase 4 new 18 to 24 passenger, air-conditioned diesel buses for a total cost of \$101,600; communication eqpt. \$5,200; tools and equipment \$6,075; bus shelters \$38,000; route signs \$2,000. A contingency fund reduced from an original \$56,000 to \$15,290 was included. The partial grant of \$168,165 is 80% federally funded (\$134,532) and 20% state funded (\$33,633). Kohlerman anticipates no problem in receiving the remainder of the grant which is needed to

build a garage for maintenance, repairs, and storage of the buses in the village. The service garage is planned for construction on village property north of Touhy ave. between the village reservoirs and east of an industrial section. Bids for the buses will be let as Continued on Page 26

Farewell to '63...  
Thursday night number 4 will be receiving her diploma from eighth grade and it will be the end of another era for our family.

It all began 32 school years ago when number one, holding her Daddy's hand a little tighter than usual, walked down Ozanam ave., on the way to her first day at Oak School. Fifteen minutes after we arrived at Oak she was re-tracing her steps with Daddy, after a great many tears convinced her teacher she should go home. The next day we did it again and I retreated step by step from her room, while she furtively glanced at me to make sure I remained near her. I got to the door, eased myself outside, and stood by the window for several minutes before finally making the break, which I mentioned, has now gone on for 32 school years.

During this period, which started in district 63 in 1957, we've travelled the length and breadth of the district. Number one actually started kindergarten with Mrs. Hartzell at Maine High School, in the days when the half-year kindergarten was held there. In subsequent years we've had stop-offs at Oak, Nelson, Melzer, East Maine Junior High and Apollo.

To show how dated we are we started in district 63 when Jim Bagg was a principal at Oak, in the days when there were only 2 schools in the district. Subsequently, Jim became superintendent and Frank Dagne moved into the principal's chair where he eventually followed Jim to the top job, and then out.

During the years we went to 537 PTA meetings, 175 scout meetings, several thousand school board meetings and somehow managed to survive all those sweet cakes and paper coffee cups. We went into those first meetings with a sveit

26 year old man wins \$50,000 a year for life

**Nilesite is Grand Slam lottery winner**

Nilesite Stanley De Kiel, 26, won a guaranteed \$50,000 a year for life Saturday becoming the Illinois lottery's first Grand Slam winner. De Kiel, who lives in the north end of the village, won his prize at Arlington Park Racetrack, where a special race determined the winner and two-runner-ups among the 10 finalists.

A recent graduate of Triton College, De Kiel accepted his prize while supported by crutches. He said his right leg was badly broken in a motorcycle accident last June. He already had one operation and another one is scheduled for this summer. In accepting the prize, the broadly smiling De Kiel said he Continued on Page 26

### Church And Temple Notes

#### St. John Lutheran Church

REV. JAMES HERZOG, pastor of St. John Lutheran Church, 7423 N. Milwaukee Ave., Niles, conceives a local parish to be a local retreat center. He says, "In my mind and heart I see it as a place where members and visitors will come for rest, relaxation, play, study, meditation, healing and especially worship and fellowship. It is to be a place where God and man can meet in a very special way and do business together equipping the Christian to return his regular daily life with new strength and purpose, new visions and ideas, new energy and inspiration."

To help achieve the unity and spiritual fellowship and growth, St. John members have begun to meet in homes and other smaller places where they can grow together on a more informal and intense level. Many different study and prayer groups meeting at different times, makes it possible for most of the members to get involved on that level if they choose to do so. Below are some of the small group meetings; and the public is invited to attend these as well. If interested in coming, or if you have any questions concerning these meetings, please contact their respective hosts, or else call Pastor Herzog at 647-9867.

## What to look for when you're looking for an air conditioner.

Before you choose an air conditioner, ask the dealer for its energy efficiency ratio. This number tells you the efficiency of a unit. An air conditioner with an EER number of 8 or above will be thrifty for you electrically.

The EER number is computed by dividing the BTUs by the watts. A 12,000-BTU unit that uses 1500 watts will rate an 8. If the EER doesn't appear on the tag or metal nameplate, use this simple formula yourself. It's a worthwhile exercise that can pay off in electric dollar savings over the long run.

Don't buy too much capacity. Surprisingly, an air conditioner that's too big usually won't keep you as comfortable as a smaller unit.

So measure the space to be cooled before you go to the dealer. Also note any doors that might let cool air escape, or windows that might let direct sunlight in. The dealer will have charts to translate your notes into the right air conditioner selection.

Some tips on cutting cooling costs. Keep the warm air out and the cool air in with proper insulation and weather stripping where you need it. Block out the sun by drawing drapes. And locate the air conditioner on the shady side of your house, making sure to seal any leaks in the window after you put it in. It makes a lot of sense to buy an air conditioner that starts efficient and stays efficient. Saving energy always makes sense. And when summer's over, you'll find the extra care was worth it--in dollars and cents.

### Gallo's Trattoria adds flavor to Lincolnwood

Frank Gallo has been around restaurants since he was 13 years old, baking pastries under the tutelage of his father, Dominick, who owned Gallo's Pastry Shop for many years, and following the culinary instructions of his grandfather, the legendary Papa Milano.

Consequently, Gallo's Trattoria, 6755 N. Cicero, Lincolnwood, is a culmination of fifty years experience from a family of splendid Italian cooks who have combined their artistry to develop authentic Italian family style recipes, now served up for Chicagoans and suburbanites, who love homemade Italian bread and pasta, and the zesty, spicy combinations of Italian fare, which is a treat for any gourmet's palate.

Cotolette Di Vitello Alla Riviera, veal cutlet topped with sliced egg plant, Mozzarella cheese and tomato sauce; Tortellini Trattoria, homemade meat-filled dumplings with tomato sauce; and Chicken All Lucia, boneless breast of chicken dipped in egg batter, sauteed in wine and topped with cheese and mushrooms, are just a few of the specialties offered to entice the taste buds.

The elaborate hand-painted Tavola Deliziosa contains a tempting array of fresh greens, appetizers and other Italian and

ethnic delicacies—an added attraction served with all entrees. Frank Gallo has built his restaurant to accommodate diners in warm, luxurious surroundings of wood paneled walls, easy chairs, plush carpeting and intimate lighting. The main dining room is large enough to accommodate 150 diners, but maintains the intimate atmosphere essential for elegant dining. Personal telephone service is available to diners for incoming calls, supplied by telephones equipped with special jacks for table service.

The main dining room is adjacent to a comfortable lounge area which carries through the charm of the decor with a curved walnut bar and fireplace. A perfect place for dinner, cocktails, good conversation and the enjoyment of Tina and Brad, the talented entertainers performing in the lounge.

Entrees range from \$5.95 to \$9.50. The restaurant is open for dinner from 4 p.m. to midnight, Sunday thru Thursday; Friday and Saturday 4 p.m. to 1 a.m., and the lounge is open until 2 a.m. nightly.

### District 207 Secretaries Seek IEA Recognition

The Maine Township High School District 207 secretaries requested that the board of education recognized the Maine Secretaries Association, IEA, for the purposes of collective negotiations, at the school board meeting last Monday night, May 26.

Dmetra Giannis, spokesperson for the Maine Secretaries Association, stated, "The purpose of our new organization will be to work together with all members of the school family to help improve our school district."

"Through our new organization we hope to further improve the already good relationship we have with the board and the administration," she said. "One way we feel our relationships with the board and the administration could be improved would be through the process of collective negotiations."

"District 207 is a large institution," she said. "We organized in order to be heard."

Board President Leonard Grazian said the board will consider the secretaries' request to meet with the board to discuss recognition and act on the request before the June 23 board meeting.

The Maine Secretaries Association is affiliated with the Illinois Education Association. Fifty of about 100 secretaries have already joined the association. Mrs. Giannis said the secretaries sought IEA affiliation because they believed a teachers' association is proper for school

### Niles West science students "outstanding"

Looking at the many achievements of the Niles West Science Seminar students for this school year, it is easy to see that the only thing the students haven't done is let the grass grow under their feet. What they've done lots of, however, is to win individual honors for themselves, honors for their sponsor and honors for their school on the regional, state and international levels of competition.

After winning eight outstanding and three first place awards in the Regional Science Fair at Wheeling last month, the West Science Seminar students entered nine of these same projects in the State competition held at Champaign earlier this month.

Of the nine projects entered there, eight of them received outstanding awards and the ninth received a first place award. Students whose projects received the top award are Barry Arons, Keith Bible, Joel Dubin, Randy Horowitz, Evan Kharasch, David Silivnick, the project receiving the first place award belongs to Steve Forman.

Because Niles West H.S. received the most "outstanding" awards on any one Illinois high school with projects entered in the State competition, the school was presented with a first place plaque by the Illinois Junior Academy of Science.

Distinctive individual honors went to junior Keith Bible, who was elected Vice President of the Illinois Jr. Academy of Science for the coming year. Last month, Bible was also elected to serve as student Regional Science Fair Co-Chairman, with West's Gary Siegelman as the chairman.

At the annual banquet which concludes the State competition recognition was given to Seminar Students Joel Dubin and Evan Kharasch for their achievements in the Westinghouse Talent Search. Dubin and Kharasch were among the top 40 in the nation and the only students in Illinois who ranked in the top 40. Besides a trip to Washington and a plaque, the two talented young men also received small scholarships for this achievement.

There's more. Several weeks ago Evan Kharasch represented the Illinois Junior Academy of Science in the International Science and Engineering Fair held in Oklahoma City. There Kharasch was one of 396 students from the U.S., Japan, Sweden and Puerto Rico with projects in the competition. Kharasch's project was judged fourth in the Bio-Chemistry category, and merited an additional Honorable Mention award from the American Dental Association. Awards of this type are often given at the Interna-

tional Competition by organizations like the A.D.A. or the A.M.A., to those students whose projects are of particular note, explained West Science Seminar Sponsor Glenn Densing.

Densing said that he inherited the Science Seminar program when he first came to West nine years ago, but now he's glad he did. He explained that the seminar is designed to allow talented students to pursue independent study in an area of interest to them. His feeling is that many of these students are "way beyond all of us" and that sometimes his "help" to them consists of finding out where to get a particular brand of help for them. Densing was selected as Regional Science Fair chairman for 1976 and at the same time Niles West was selected to host the 1976 Regional Science Fair, although it will actually not take place at Niles West.

And lastly, a paper entered in the State competition by Keith Bible was judged first in the State. The paper was on the topic "Animals in Research" and earned a \$200 Savings Bond for Bible.

### Attorney since 1968 placed on 3 month evaluation

## Park Board declines full reappointment of Berrafato

(By Alice M. Bobala)

Gabriel Berrafato, attorney for the Niles Park Board since 1968 was not reappointed during the Tuesday night meeting. Former Park Commissioner Bob Romano was appointed as Board Treasurer on a month-to-month basis predicated on a 30 day notice of termination either by Romano or the Board. Other appointments of Ellen van Laningham as Board Secretary and Bill Hughes as Park Director were made in Tuesday night's actions, on tabled discussion.

### Lawsuit...

Continued from MG P.1  
The park board's development of a 16-acre site at Dempster st. and Waukegan rd. awaits vacation of about 4 1/2 acres of streets and alleys owned by the village.

Village and park board members have been unable to agree on development of the property. The village board hoped to use part of the site for a municipal complex, and relations between the two boards have been increasingly strained since the controversy grew heated about a year ago.

Yates and the committee for responsible spending, a group whose membership has never been disclosed, also filed suit unsuccessfully last year against the park board, asking nullification of a 1973 referendum that authorized the park board to sell \$2.9 million in general obligation bonds to finance the project.

The suit was thrown out of Cook County Circuit court in November, and although Yates filed notice of appeal in 1st District Illinois Appellate Court, Chicago, he did not complete the appeal.

James Orphan, park board attorney, was expected to receive authorization from the park board Tuesday to intervene on behalf of defendants in the suit and "move along faster," he said.

The park board was prepared to accept construction bids on July 7 to the community center, handball courts, and site development of the park complex, but those bids were to have been reconsidered Tuesday, according to David Huber, park district superintendent.

Commissioner Jones and newly elected Park Commissioner Jeff Arnold, both of whom voted immediate severance of Berrafato, stated the decision had been reached in two previous Executive Sessions. "We need an attorney who will move decisively," said Jones, citing delays in land acquisition and "numerous other issues" as the basis for her decision.

Arnold said the board had 5 other lawyers under consideration, but declined to name them. Commissioner Bill Keener broke the vote tie to retain Berrafato on the 3 month basis "reluctantly," since it is his desire that he be reappointed for a full year.

Commissioner Steve Chameriski was in favor of Berrafato's reappointment for the year. Commissioner Jack Leske in voting to retain Berrafato stated that the board had 7 years in which to re-evaluate the attorney. "If we wanted a new attorney, we should have found one and compared qualifications at the time of reappointment." The appointment of Romano to Board Treasurer was made under Romano's direction. According to Commissioner Keener, Romano could not commit himself to a full year appointment because of his business commitments.

A former partner of Orphan and Berrafato, a legal firm which dissolved partnership as of March 1, 1975, Berrafato is paid a \$550 quarterly retainer fee by the Niles Park District for legal services plus additional sums for his time as required. Berrafato, appointed on a 3 month "evaluation" basis following a 3 hour deliberation by one of the commissioners, had no knowledge, he said, that he was not considered for reappointment until last Friday when he received official notification by telephone from Park Board President Mildred Jones.

### Graduate...

Cont'd from LW-Skokie P.1  
Application which required her to submit ten slides of her work and asked for recommendations by her art teacher and a counselor. She added that she will attend Drake University for her first two years because "my mom wanted me to begin with a good well-rounded education," after which she'll continue at a good art school somewhere. The other reason Lori chose Drake as her school is because there is a girls' gymnastics team there. Right now Lori is enrolled at the southeast suburban American Academy of Gymnastics.

Earlier this year Lori was selected as National Commended Scholar by the National Merit Scholarship Program.

In other action the Park Board tentatively adopted a 10 p.m. shut-off time for tennis court lighting.

Approved a committee of Leske and Hughes to confer with the Park Ridge Park District on the possibility of interuse of park facilities.

## From the LEFT HAND

Continued from Page 1

32 inch waist, and 160 streamlined pounds, which is 5 and 20 less than the present figures.

In the early days we helped form a group with the lofty title of Better Schools for District 63. The first president, with a very limited scope, lost hold of the first meeting, and was never seen again. He once mentioned to me what an intellectual group was involved in this effort, which was the first time I began to think of lawyers as low men on the IQ totem pole. The "intellectuals" he referred to were primarily hustlers and con men who could have taught Bobby Riggs a few tricks. Some of them wound up on the school board, and most of them had the temerity to fight and scratch and battle for small issues which residents in the district now take for granted.

Among the first battles was to bump heads with Jim Bagg who was resisting a full year's kindergarten. Additional battles included fighting for a language program in the schools. The Makelas successfully battles for a band program in the school district, and there were tens of meetings with paper coffee cups, in efforts to form caucus groups which would select more receptive school board members. And there were tens of meetings which resulted in fighting the multiple dwellings in the unincorporated areas.

We had a small legion of humpty dumpty's we nicknamed the Ballard Street Regulars who religiously attended all the school board meetings during those not so halcyon days. As the clock moved into the wee morning hours names like McNair and Luck, and Gurolnick and Kapp were celebrating over the many problems of a school district which was short of money but long on children. And an endless chatter came from the Regulars, just a bunch of parents who cared so much they sat thru 6 and 7 hour meetings, so their wunderkind, and their neighbors' children, and the future children in District 63 would have the best educational opportunities. It was exciting and frustrating, exhilarating and depressing, as the district inched forward during those formidable years.

There were many days of elegance. Buddy Kopald, representing the district, eloquently fought increased apartments in presentations before the County Zoning Board in Des Plaines.

There was fresh thinking. Twelve years ago Earle Epstein tried to arouse the community to work for incorporating the area west of Milwaukee ave. Such an effort would have led to better zoning control which would have lessened the burden on a district which went from 2 to 12 schools in about 10 years.

There were exasperating moments. A school teacher once stopped me and asked if the only Jewish boy in the family is treated more "princely." She was having troubles with my son and her question was for real.

And there were moments of thoughtfulness. As each high school graduate from Oak School receives her diploma a graduation card is always waiting in the mail box from kindergarten teacher, the same Mrs. Hartzell who started "her" kids on their way 12 years before.

When we started in district 63 most of the teachers were at least our contemporaries. Last year I spoke to a group of 7th graders and teachers who greeted me were only a couple of years older than my oldest child. While I was amazed these students had such young teachers I guessed there have always been young teachers around...though they didn't seem to be so young in past years. Undoubtedly, there has to be a message there. And the message has to be it's time to move on...and say "Farewell to '63."

### Condo...

Cont'd from LW-Skokie P.1  
architect's notes on the building plans only call for walls that would withstand a three-hour fire, said Michael Braun, an attorney for the homeowners.

The difference in thickness is about one half inch, he said. The purpose of the standards is to shield steel reinforcing rods with enough concrete to make them resistant to fire, he said.

Homeowners planned to call two professors of architecture from the University of Illinois. Chicago Circle Campus to testify as expert witnesses.

The professors, Henry Mikolajczyk and Roger Witmer, have studied the plans for the building. In a separate action, the homeowners are seeking to force Lincolnwood officials who owned the site to return their profits from its sale to the village.

the ensuing years. At a Tuesday night meeting at the Apollo School the administration presented its tentative proposed budget which anticipates total revenue decreasing by \$309,000 compared to the 1974-75 year. Total revenue for the upcoming year will be \$6,838,170.

While supplies and services were listed with their accompanying costs salaries were not listed among the figures. Teacher salaries have not been agreed upon and the expected push and pull of teachers and district representatives precluded teacher salary listings.

Anticipated taxes for 1975-76 will be \$3,544,509 based on assessed valuation of about \$199,000,000 in the school district.

General State Aid is expected to be about \$2,591,254. State Aid is computed on a complicated equalization method which considers assessed valuation and the number of students in a school district. Since these figures have

### Lottery winner

Cont'd from Niles-E.Maine P.1 was worried about going on public aid. He noted he had \$4,000 in medical bills in relating his plight prior to winning the prize money.

Saturday afternoon there were 64 finalists for the 1st Lottery bonanza prize. It was narrowed to 10 finalists who drew balls from a bowl listing from 1 to 10 the past numbers of 10 horses which were in the special race. They did not see their horse's number until the race started when they put on vests with the numbers on them. De Kiel's number 7 proved the winning number corresponding with a horse named Instead Of Roses which won the race, paying \$35.80 for a \$2 ticket. De Kiel's \$50,000 for life could be equivalent to winning \$1,000,000 for a \$2 ticket.

While he said he had thought a great deal about the money the past 4 weeks, he drew no conclusions how he will use the money. He said he would like a great big boat or yacht which can carry him across the ocean.

An Industrial Arts graduate at Triton College 2 weeks ago said he planned to start classes at Northern Illinois University next week. But now he was unsure about his future plans.

The State of Illinois played host to De Kiel at the Hyatt Regency Chicago Hotel Saturday night and Sunday at a champagne brunch at the Ambassador East Hotel's Pump Room.

Originally, De Kiel said he had planned on working on his brother's car Sunday. He quite likely would have been the richest mechanic in the country working Sunday if he followed his original plans.

### Bus service

Cont'd from Niles-E.Maine P.1

soon as written confirmation of the partial grant is received by the village.

Niles is presently serviced with 4 mini-buses, two village-owned and two leased by the village.

In a second portion of the input meeting NORTAN officials Joseph DiJohn and Mrs. Lois Levey conferred with Niles trustees to determine the area transportation needs of Niles for the next 5 years.

Niles is the 19th of the 21 NORTAN communities to be reviewed in a 5 year transit development program study that will take about 9 months to complete, said Mrs. Levey, project manager of NORTAN, at a projected cost of \$211,973.

Other communities in the NORTAN study are Des Plaines, Morton Grove, Deerfield, Northbrook, Lincolnwood, Golf, Glenview, Skokie, Northfield Township, Lake Forest, Wilmette, Alsop, Kenilworth, Highland Park, Evanston, Winnetka, Libertyville, Northfield, Wheeling, Glenview and Park Ridge. Conceding that Niles was a little "unique" since the village has a more extensive-and free-transportation service than other communities, trustees listed hospitals, Tam Industrial Park, Golf Mill, Randhurst, Lawrencewood, Old Orchard and the high schools as high priority areas to be tied into an inner-village transportation system.

Quered by Ms. Levey as to what transit improvements in Niles would be most important in the next 5 years trustees listed: 1. A unified transit system; 2. A transfer system with a sensible cost; 3. An improved scheduling system; 4. Maintenance of the buses in a selected area; and 5. Improved commuter and industrial bus service to all points.

The NORTAN study when completed in all-21 communities will serve as a guideline and constitute the district input into the Regional Transit Authority (RTA) master plan of transportation, said DiJohn. RTA was established by the Illinois General Assembly in 1973 to provide, aid and assist public transportation in the counties of Cook, Du Page, Kane, Lake, McHenry and Will.

A request for RTA funding of operating costs for the Niles bus system will be discussed during a meeting downtown this week with the Regional Transit Authority officials said Kohlerman.

RTA is faced with a new policy in the case of Niles. Other community bus systems have based their requests of a fare-charging system and asked for deficit funding.

Since Niles has opted to use a no-fare system, which is not a conventional-type system, the village has asked for \$52,000, the actual amount of total operational expenditures of the Courtesy bus service for the period of July 1, 1974 to March 31, 1975.

Renewed yearly requests for funding must be made following this week's RTA policy decision regarding Niles.
