Mikva bill seeks major tax reforms

By Bob Besser Congressman Abner Mikva has submitted a bill to Congress calling for major tax reforms. The bill, to be acted on this fall, calls for simplification of present tax codes, increased deductions for middle class taxpayers, closing tax loopholes which allow wealthy taxpayers to pay little or no taxes as well as to include a meaningful minimum tax rate.

Calling the tax reform legislation "my prime concern when I get back to Washington," Mikva described his bill as "trying to do three or four fundamental things to the tax code." Citing growing confusion over tax codes even among tax experts, Mikva said, "If we can simplify the tax laws and tax forms and make them more intelligible and less complicated so you don't need a

Philadelphia lawyer to understand what's in it, I think we will have done a great deal in restoring faith in the tax system." The bill proposes to close loopholes that account for 30 to 35 per cent deductions as well as raise the standard deduction so the deduction taken by middle class citizens "approaches the per cent of deductions that somebody gets who does item-

ize." "While the standard tax deduction, according to Mikva, is currently 17 per cent, somebody who itemizes averages over 30 per cent on their deductions." This, said Mikva, "means the higher your income, the easier it is for you to itemize because you can go to a tax accountant, a tax lawyer or a tax consultant and get twice as many benefits out of the deductions part of the code as will

someone who is not itemizing. Now that's wrong. We think of ourselves as having a progressive tax law in this country and that should mean the higher your income bracket, the more you pay. But instead, because of the way the standard deductions have been working out, you end up paying less as you get into the higher brackets."

From the Left Hand

by David Besser Editor & Publisher Mid-Month Meanderings.....

A couple of weeks ago we mentioned about Ed Scholl and Floyd Fulle, who have both been indicted for allegedly receiving money for zoning changes. This past week a Morton Grove trustee was charged by Jim Thompson's office of a similar charge. And according to reports, additional charges could be leveled at other Morton Grove officials.

Three years ago we briefly published a newspaper in Wheeling. During the few months we were there, we received a great deal of static from one of the trustees. He wasn't pleased with our comments in The Left Hand and he made constant reference to the column at the board meetings. He was the only official who sounded off. During the ensuing months, Wheeling officials were charged with taking bribes for zoning favors. Ironically, the lone trustee who was popping off at the newspapers wound up going to jail.

In our years in Morton Grove, the one trustee who has taken us to task is the present trustee who has been charged with receiving money for zoning favors. He told us our reports about the political alliances of his fellow-trustees is a thing of the past, and he castigated us for writing about a lot of folderol which wasn't true and was certainly passe.

We're not sure what the message is, but we're going to be more wary of public officials who "sound off" at the local press. Perhaps the guys who shout the loudest are really dressed in wolves' clothing.

We don't tell you the whole picture though if we stop there. In Wheeling, one appointed official befriended us with open arms. When we first prepared publishing our first issue, this guy was our sole link with the community. He was eagerly friendly and in a position to introduce us to many people in the community. He often went out of his way to help us and

School district 63's decreasing enrollment is projected to decrease 32% from 7,089 to 4,798 for the 8 year period from 1971-72 to 1979-80, according to figures released at the Tuesday night Board meeting. Figures showed it will decrease 15% from the coming school year, (5,652), thru the '79-'80 year, (4,798).

While the cold figures did not spell out the implications of such numbers School Superintendent Allan Gogo has stated many times 2 or 3 schools are likely to be closed in the immediate years. Tuesday night's figures seem to substantiate his predictions.

### Free polio vaccine

The Morton Grove Health Board believes that in the years since the Salk vaccine parents of young children may think that the polio virus is no longer a danger. This is not so! As parents become lax in children inoculation programs, a disease organism can increase and again become a threat to children. This is true not only in the case of polio, but also other diseases of the young.

We would urge all parents to see that their children are protected. A free immunization clinic is open at the Trinity Lutheran Church, Algonquin and Wolf Rd. in Des Plaines. The clinic is open the 3rd Thursday of each month from 9-11 a.m. Please call this number, 298-5800 for other necessary information. The child's immunization record is required but no appointment is necessary. The age limit is 1-18 years.

### Illinois Bell offers programs-films for clubs

In these days of inflation, it's hard to find something affordable, much less free. So Illinois Bell's new brochure offering free programs and films will probably prove a boon to harried program chairpersons of many clubs and organizations.

Thirteen live talks and more than 30 films are included in the booklet. They deal with such diverse subjects as science and research, wire-tapping, travel and history. Booking the programs is simply a matter of calling one of the toll-free telephone numbers given in the brochure.

One of the new talks being offered this year is "The Time

Machine," a light-hearted, fast-paced look at our country's social, economic and cultural changes through the years, and telephony's response to them. It was especially developed to commemorate our nation's bicentennial and the telephone's 100th anniversary, both in 1976.

Among the new films is "Miracle on Second Avenue," which shows how the Bell System's nationwide team worked together to repair fire damage that knocked out telephone service to a large area of New York City.

To get copies of the brochure in Chicago and in Illinois suburbs, dial toll-free (all 10 digits) 800-972-0442.

### Morton Grove Art Guild

After a very successful and enjoyable summer art fair, the Morton Grove Art Guild is starting its fall and winter series of meetings with a demonstration by R. R. Benda, one of Chicago's better known artists. A graduate of the Art Institute of Chicago and the Chicago Academy of Fine Arts, Mr. Benda combines in his media a realism that still involves the viewer in the total experience and enjoyment of his work.

The demonstration will be given at Mansfield Park, 5830 Church St., Morton Grove on Wednesday, Sept. 10 at 8:30 p.m. Everyone is invited.

#### William J. Spence

### Alcohol education gets boost from Judge Smigel

The Alcohol Safety Program, designed to help Cook County residents charged with driving while intoxicated, offers a new, non-punitive approach for the driver with a drinking problem.

As the A.S.E.P. nears completion of its second year, under joint sponsorship of the Central States Institute of Addiction, an agency of Catholic Charities, and the Traff Courts of Cook County, it won attention today from the Hon. Anton A. Smigel, presiding Judge of the Third District, Circuit Court of Cook County.

Judge Smigel announced that he will urge assistant states attorneys, assistant public defenders and private defense attorneys to become acquainted with the program, which may be required for any defendant that is charged with driving while intoxicated (DWI). Referrals are made by the judge.

The program consists of a series of lectures, films and demonstrations intended to inform the so-called "problematic social drinker" about Illinois laws that apply to driving while intoxicated, about the "implied consent" law and about the effect of alcohol on the drinker's body, brain and behavior.

Damely members may attend the lectures with the driver.

The A.S.E.P., which operates with a grant from the Illinois Department of Transportation, through the Highway Traffic Administration, is offered without cost to Cook County residents. Its

goals include:

--Offering an alternative to imprisonment for individuals that are convicted of driving while intoxicated.

--Modifying the future behavior of such individuals, so that they will not repeat the offense.

--Offering second thoughts about driving while intoxicated to any individual, whether one who drinks regularly or only on occasion.

The four week A.S.E.P. course is offered regularly at the Central States Institute of Addiction at 122 South Des Plaines Street in Chicago, three evenings a week and twice on Saturday. A special Wednesday morning class is being held for people who work nights.

Judge Smigel said he hopes to arrange with Central States presentation of a mini-Alcohol Safety Education Program for interested attorneys in the Third District.

### Mikva staff member at MG Post Office

A representative of Congressman Abner J. Mikva's office will be in the Morton Grove Post Office, 9114 Waukegan Rd., from 9 a.m. to 12 noon on Saturday, Aug. 23, to assist anyone that has problems or inquiries concerning federal agencies.

"Far too often people come to the government with a legitimate problem and instead of being helped they come away frustrated by bureaucratic red tape," Mikva said.

"My office can obviously not secure any benefits they are not qualified for, but we can find out what benefits they should be receiving and we can make sure they are treated fairly and expeditiously," Mikva said.

The Congressman said that in order to encourage more people to take advantage of his office's ombudsman services, a staff member will be available in various 10th District communities throughout the year.

In addition to helping constituents with problems dealing with

federal agencies, the staff member will also be able to answer questions about legislative action in Congress.

"If someone does want to meet with the staff member but cannot make it to the post office, they should call, write or visit any of my other District offices at their convenience," Mikva said.

Mikva's other District offices are at 4016 Church St., Skokie, 676-1350; Des Plaines Civic Center, Room 402, 1420-Miner St., Des Plaines, 297-0515; and the Federal Building, Room 3983, 230 S. Dearborn, Chicago, 353-7942.

## Rabbi Lieberworth named leader of Adas Shalom

The President of Congregation Adas Shalom, Jerry Bluestein has announced the election of Rabbi Louis H. Lieberworth as the synagogue's new spiritual leader. Rabbi Lieberworth finally returns "home" to the Chicago area where he attended high school and college at the Hebrew Theological College. The Rabbi was ordained and received his MHL (Master Hebrew Liturgy) with awards in Talmud and Bible at the Jewish Theological Seminary in New York City.

In coming to Adas Shalom, a modern traditional synagogue at 6945 Dempster, Morton Grove, Rabbi Lieberworth brings a distinguished record serving pulpits in Lauderston, New York; Old Bridge, New Jersey; in addition to Pulpits in Massachusetts, Ohio and Illinois.

Rabbi Lieberworth will assume his position at Adas Shalom immediately and will conduct High Holiday services with Cantor Edwin Redfern. Those services will be held at the Fairview South School auditorium in Skokie.

Rabbi Lieberworth is married. He and his wife, Billie, have two sons. The older son, David, is a graduate student in Physics at Rockefeller University in New York and expects to receive his Ph.D. next year. The younger son, Ronald, is an undergraduate at Rutgers University, majoring in Political Science.

Rabbi Lieberworth was a graduate student at the University of Chicago and Mrs. Lieberworth received her undergraduate and graduate degrees at Northwestern University. The Lieberworths will reside in Niles, very close to Adas Shalom.

Rabbi Lieberworth is a member of the Rabbinical Assembly, the New York Board of Rabbis and the Philadelphia Board of Rabbis.

Following his ordination, Rabbi Lieberworth studied at the Harvard Divinity Graduate School. He also received a grant from Harvard University to develop civilian chaplaincies at Massachusetts General Hospital and Peter Bent Brigham Hospital.

Upon his selection as spiritual leader of Adas Shalom, Rabbi Lieberworth said, "I'm delighted to be coming home to the Chicago Area and serving families in the northwest suburbs."

## UNICEF Jewish New Year's cards

A rare page from an ancient Hebrew Bible has been chosen as the illustration for UNICEF's 1975 Jewish New Year card, now on sale. The manuscript page, created in France in 1299, depicts ritual objects and sanctuary furniture from the Temple of Jerusalem, and the message on the inside of the card, both in Hebrew and English, is "May the New Year: Bring You Peace, Good Health and Joy." Rosh Hashanah will be observed beginning Sept. 6, marking the year 5736 on the Hebrew calendar.

Also featured in UNICEF's year-round collection of cards is "Aquaduct," a colorful felt pen and ink painting by the noted naif Israeli artist, Yeshayahu Scheinfeld.

Proceeds from the sales of both, as of all UNICEF cards, enable the United Nations Children's Fund to help children in the poorest developing countries of Asia, Africa and Latin America with special emphasis on nutrition, health and education. The idea of UNICEF is completely dependent for funds on voluntary card-selling and other projects of UNICEF committees.

Israel, which received UNICEF aid to help reconstruction of pre-school kindergartens and play schools following the 1973 war, is one of the contributing nations in 1975, as it has been many years.

Both the Rosh Hashanah and Scheinfeld cards are available in boxes of 10 at \$2.25 at the Chicago Area UNICEF Information Office, room 1502, 5 N. Wabash ave., Chicago 60602. For further information, telephone UNICEF at 372-5359.

#### 'Celebrate Life'

(PART 3)

Life is full of love. The beauty of a new-born fawn in the brisk morning air or the gracefulness of an eagle soaring in his limitless domain is a celebration that life occurs through nature. Experiencing nature at its fullest is a celebration in itself.

Mother Earth offers a beauty in nature that spawns a love for God's greatness. Indeed, love of God is another way of celebrating life through love. To find peace and contentment in yourself by recognizing the omnipotence of the Almighty is a celebration in itself that forms the basis for love for all things great and small. The beauty of a humble love relationship with your God is an important part of life.

Once you have found this love within yourself, you can share it with all the peoples around you. This love of your fellowman can be the most rewarding celebration you can share in life. As you share your thoughts and feelings with your family and friends your heart will fill with love for fellowmen.

Worship God, your maker, for He had chosen you to be a part of His great world. He has given you the choice of doing His will and remaining in His world or going about your own affairs and not bothering with Him. The choice between a life of happiness and peace and one of despair and abandonment is one God gives to you. Choose the negative path and you will continually be wrought with anxiety and suffering. Celebration of life by the other road is truly what man should want, for a firm belief in God and trust in the name of Jesus gives you the life which you can celebrate and share with others.

Life is wonderful, beautiful, enjoyable. Don't let it pass you by; be totally aware of it and celebrate.

### Prudential claims 'Play on Words'

Do you know anyone with "falls teeth" or a damaged "knose" or "very coarse veins"?

People handling health insurance claims in the Prudential Insurance Co.'s nine regional home offices do.

They've also heard from health policyholders who had "yellow jonders", a "misconception" or a "toncectomy".

These conditions are among common health problems with uncommon spellings that have popped up now and then on Prudential health insurance claim forms.

While no one wants to poke fun at poor health, misspellings of illnesses and operations can, indeed, be interesting in their great variety.

Frequently, the "home-made" medical terms tax the ingenuity of the claim approvers as they try to figure out exactly what had happened. The problem—ad-

mitedly minor—didn't slow them down much as they approved payments of more than one billion dollars to Prudential health policyholders in 1974.

In addition to those "very coarse veins," surgery has been performed on Americans to remove "plops, hemrooks and molds" and even a "sis". One individual went under the surgeon's knife to have a "noodle removed" (from his arm). Another had a problem getting rid of "Bruce on his arm".

Claims which may have come from businessmen have included "fiscal checkup," "high pre-tension" and "influence" (flu).

Determining the nature of many female problems—remember the "misconception"?—can also be a challenge. Hysterectomy, by far, has been the most frequently misspelled: "hystreotomy, histarectomy, hysterectomy and histarectomey."

A claim was filed for a "hystarectomy on Frank" which was later determined to be a hemorrhoidectomy on Frank.

There have been claims for "limp glands, schull fractor, goalstones, arthuritis, soar throat, tonicals and adnoise."

But the blue ribbon winner for misspelled claims came from a woman who had her annual "Pabst" smear.

### Loyola host business workshop for teachers

A summer workshop sponsored by Loyola University of Chicago's School of Business Administration has given 23 high school teachers and counselors a new look at business and economics.

Local teachers and schools included: Bruno Pasowicz of 6921 Concord Lane in Niles, Niles West High School-Oakton and Edens Expressway in Skokie, and Resurrection High at 7500 Talcott Avenue in Chicago.

Congressman Abner J. Mikva (D-Ill.) said our political system failed to cope with the nation's crime problem during the past decade because both liberals and conservatives abandoned the issue to demagogues like George Wallace.

Mikva, a former member of the National Commission on Reform of the Federal Criminal Laws and of the House Judiciary Committee, made his remarks Wednesday at the 98th Annual Meeting of the American Bar Association (ABA) in Milwaukee before the Equal Rights and

Responsibilities.

The Congressman noted that when George Wallace first became the prime spokesman for "Law and order" in the 1960's, the crime issue immediately became tainted with racism and there was a strong tendency by liberals and civil libertarians to "minimize the seriousness of the immediate crime problem and reject it as an issue of moral legitimacy."

But by 1968, Mikva continued, the rising crime rate and urban riots pressured conservatives into advocating "cures that were as bad as the illness." As examples,

he cited the 1968 Omnibus Crime Control Bill ("which almost totally ignored any consideration for basic Constitutional rights") and the Organized Crime Control Act of 1970 ("that managed to embrace inevitable ineffectiveness while ripping off large chunks of the Constitution.")

"We cannot afford another decade in this country of a politics of crime which offers placebos rather than programs which can work, and rhetoric rather than realistic alternatives to current problems," Mikva said.

He urged both liberals and conservatives to stop proposing

grandiose schemes to remodel society and so-called "tough measures that have little, if any impact on reducing crime," and start concentrating on implementing immediate programs "that can work"—such as handgun control, flat-time sentencing instead of paroles, and speedy trials.

"These proposals can make the politics of crime in the coming decade more responsive to the problems which face us," Mikva stressed. "Our people have little faith in the criminal justice system. As much as anything else, it has caused the breakdown

in our system of government. Fear stalks the streets of our urban areas not only because of the rising crime rate, but also because of the declining belief that government is capable of doing anything about crime."

Coach thanks his team

As the Coach of the Cardinals I would like to congratulate this fine team on their efforts of the past season finishing 16 and 1, their only loss being a 2-1 loss in a tough game until the final out. This team had its stars, 12 to be exact. The Redbirds are a great mixture of outstanding 14 year olds and a great bunch of 13's. In checking through my score book, I must mention the pitching of Bob Heath and Don DeLouis whose strong right arms keep us in many games until our offense

could break out, and accounted for 170 (of the teams 218) strike outs. On the offense side, Bob Heath had more than 30 hits while Don DeLouis and Scott Chamness broke the 20 hit barrier. But in the final analysis it was the fact that 12 players while on or off the field all pulled together as a team with at least 8 different players getting game winning hits or saves. I would like to publicly say THANKS boys for a very pleasant season.

Thank You

Dear Editor:

The Northwest Suburban Big League, which is represented by boys from all of the unincorporated areas of Cook County in the northwest area, ended their season in second place in the state. We're proud of this accomplishment and give full credit to the players and managers.

We believe, however, that the support your newspaper gave to us in stimulating interest in the program was of great help in their success. I would like to thank you personally for all the help you gave us during the season. There is a need in this area for a baseball program for young men 16 and over. The Northwest Suburban Big League serves that purpose to age 19. I hope that we will be able to go further that that in the future.

Again, many thanks for your help and cooperation. Sincerely, Bill McCarty President, Northwest Suburban Big League

College freshman

Among new freshman enrolling for the fall semester at the University of Wisconsin-Oshkosh at the summer registration was Barbara L. Hodgman, 8208 Caldwell from the Niles area.

UW-Oshkosh will begin its fall semester with registration for continuing students and orientation for new freshman on Sept. 3 and classes on Sept. 4.

Little Leaguers deserve apology

Dear Sir:

Subject: Forfeit by Twins to Kings-Niles Little League Baseball.

Four years ago, with some reluctance, we succumbed to our oldest son's insistence that he be allowed to play organized baseball. Until now we thought that the Niles Baseball League seemed to be a "cut above" that which so much criticism has been made.

However, recent events have occurred that would support our initial lack of enthusiasm, and verify the opinion that organized baseball, even in Niles, does not serve the best interest of the boys.

More specifically, due to an oversight by our manager, an official score card that did not reflect the true facts of the first game of the World Series was used as evidence supporting a protest of the first game of the single elimination tournament. How this "official score card" came into the possession of the protestor remains a mystery. The veracity of the score card however could have easily been determined by any number of witnesses, including the official scorekeeper of the Twins. These witnesses were never called on by the Board of Directors of the Niles Baseball League. A piece of paper in other words, was used to "punish" ten boys when, in fact, suspension of our manager, or censure, (either of which he requested) certainly would have been as effective. It is easy to see that the interests of the boys playing in the League and that of fair play are secondary to the ego trips that grown men are more eager to protect.

Too much time has elapsed for any just rectification to come into effect, but it is certainly within the powers that be to issue a public and sincere apology to the ten boys. They have had no recourse in the matter other than to wonder about the adage "It's not whether you win or lose but how you play the game..." regretfully the lesson on "how" was learned much too young!

Sincerely, Barbara Hedrich Niles, Illinois

Back Israel in UN

Letter to the Editor:

Recently, the Arab nations who belong to the UN have begun to circulate a petition calling for the expulsion of Israel from the UN. The Arab nations are being supported by communist nation members, namely Communist China. This is the same tactic used by the communist nations in expelling Free China (Formosa) from the UN two years ago. In the event that Israel is expelled from the UN the Arab states hope that many Western Democratic nations will break diplomatic and trade relations with Israel as well. Again, this is what happened when Free China was expelled from the UN two years ago. It is entirely possible that Israel will not be able to survive as a Democracy or possible even as an independent nation without trade and assistance from Western Europe and the United States. The expulsion of Israel from the UN will no doubt lead to a war but a war can be avoided by firm action by the United States.

We pay over 60% of the operations expense of the UN and we also supply over 50% of the imported food to the Arab, Communist and so called third force nations. American technology supplies foreign computer operations, air line services and a host of other modern technical necessities to most of the nations calling for Israel's expulsion from the UN. Now it is time that we exported our most valuable commodities (such as an irrevocable belief in Democracy, freedom of speech, freedom of religion, and freedom of association as expressed in our 4th Amendment to our Constitution. I suggest if Israel is expelled that we withdraw from the UN. Let Russia and China supply the food, the machinery, the computers, and most certainly, the police state, the abolition of religion, the destruction of newspaper presses and all the other wonders of communistic dictatorship. Let us also supply the firm Judeo-Christian principles of morality and back a winner for a change, Israel.

Sincerely, Tom Flynn

Every Day's a Holiday

A week ago we had the privilege of meeting a young handicapped boy named Paul. This writer never ceases to be touched by the presence of our afflicted friends with physical disabilities. Though we were busy, I took the time to visit with the parents of this precious young man. They were wonderfully warm and receptive, and appreciative of a genuine concern. I spoke to young Paul, called him by name, and patted him lovingly on the head. He flashed the broadest, sweetest smile and responded in excitement.

You know, that one smile and warm response from a four year old like Paul is enough to rouse a great celebration in heaven. Truly it could be called a holiday by God's standards. Of a truth, Paul made my whole day a holiday with one tender smile, a smile straight from the heart and

without pretense or show. We know that the kind and loving heavenly father is strengthening all the little Pauls & Susies in this wide world. Glory to his Holy name! We also know that He is close at hand when we need him if we will only trust, obey, and believe his scriptures. I have seen many go their own way but they have not the one thing that really counts. If you have God you have everything. If you have everything and not God, you have nothing. The Presence of God in His rightful place in our lives makes every day a holiday. If you have less than 365 holidays a year, you're cheating yourself. Paul, come back and see us, and readers remember "Every Day's a holiday if you walk with God in Christ Jesus."

The group is open to residents of Chicago and surrounding suburbs who register before the deadline on Wednesday, September 3. Fee for the entire series of six sessions is \$50. For enrollment, call 835-5211.

Group leaders are Muriel Adler, of Skokie, and Irene Kallick, of Glencoe, who said, "Transactional Analysis is a method of working to promote awareness of how people give themselves destructive messages, of early decisions they made about their bodies and how they daily reinforce those decisions."

"People with weight problems alternate between harassing themselves, going on binges, and starving themselves. Knowing about proper diet and exercise does not seem to help. This course will focus on awareness of the hidden motivations which prevent people from losing weight and keeping it off."

"How To Climb The Ladder Of Success"

When the other guy takes a long time to do something, tell the boss he's slow. When you take a long time to do something, tell your boss you're thorough.

When the other guy doesn't do it, tell the boss he's lazy. When you don't do it, tell the boss you're too busy.

When the other guy goes ahead and does something without being told, tell the boss he's over stepping his bounds.

When you go ahead and do something without being told, tell the boss that's initiative.

When the other guy states his side of a problem or states his opinion strongly, tell the boss he's bull-headed.

When you state your opinions strongly, tell the boss you're just being firm.

When the other guy overlooks a few rules of etiquette, tell the boss he's rude.

When you jump over a few rules of etiquette, tell the boss you're original.

When the other guy does something that pleases the boss, just say he's apple polishing.

When you do something that pleases the boss, just say that's cooperation.

If the other guy gets ahead, just say he had a lot of lucky breaks.

When you get ahead, just say: Man! Hard work did it! If all of the above fails, marry the boss's daughter. If the boss is a woman, marry her.

If that doesn't work and you're still a failure, buy a lottery ticket and become an instant millionaire.

I know a "bust-out" named Jones who shines shoes at O'Hare Field but every week he becomes a millionaire in the Illinois lottery. I asked him his system.

"It's simple", Jones said. As soon as each week's lottery tickets come out, I buy one. I feel I have as much chance to win the big one as anyone. So all week I feel like a millionaire. And I act like one. I price expensive cars. I get travel folders from travel agencies and plan around-the-world trips. I window-shop the most expensive men's stores on Michigan Ave. on my day off. I make a list of the most expensive posh restaurants that offer the finest gourmet foods. I read the drama critics' reviews of the best plays and I visit the art galleries that feature costly paintings.

"And when you don't win the lottery?" I asked. "I repeat the process because I have hope", replied Jones. I thought to myself, "maybe Jones has got something".

You don't have to be a millionaire to live like one for you can enjoy luxurious hotel living at the posh FIRESIDE INN of Morton Grove for as little as \$150 per month. And no millionaire can get more pampering than guests of the FIRESIDE INN in historic Morton Grove.

Nor can any millionaire obtain better food than the culinary delights served at the fabulous FIRESIDE INN OF MORTON GROVE. Masaki Takahashi, their internationally famous chef, in addition to his marvelous Pepper Steak Teriyaki dinner served for only \$3.50 on Tues. nights ONLY during August, is planning more attractive specialties for the coming weeks and months in addition to their superb regular menu.

And the new million-dollar banquet centre recently opened by the FIRESIDE INN OF MORTON GROVE is the finest and most dazzling anywhere. Weddings, showers, parties, dances, in fact, any kind of special occasion from 2 to 900 people, for business or pleasure, can be handled in a manner that will make you proud in their Emerald room, Crystal ballroom, Bristol or Dempster rooms.

And remember, you can always enjoy refreshing drinks in the FIRESIDE INN's spacious, gracious lounge and relax to the music of that top-drawer entertainer, FRED PHILLIPS, who has appeared with Liza Minnelli, Tony Orlando, Johnny Mathis, and other top stars.

I visited the BEAM'N BARREL of Niles last week and enjoyed a delicious steak dinner and the hospitality of the fine Angelo family. The BEAM'N BARREL, 7136 Milwaukee Ave., Niles has a pleasant, casual and relaxing atmosphere plus excellent foods reasonably priced and expertly served by an experienced staff of pleasant waitresses.

Another adventure in good eating can be found at LORD BYRON'S RESTAURANT, 5916 Lincoln Ave, Morton Grove be it breakfast, lunch or dinner. On August 29th, the LORD BYRON RESTAURANT is celebrating their 1st anniversary and is offering FREE juice with breakfast and a glass of wine with lunch or dinners.

Lots of the big stars that play MILL RUN theatre often drop in after the show at CHINESE KITCHEN, 214 Greenwood, Glenview Ill. to partake of their delicious Cantonese foods and relax with a cocktail or two.

I see where MILLBROOK RESTAURANT, in the Millbrook Shopping Plaza is offering a Breakfast special consisting of Two Fried Eggs, Toast, Butter, Jelly and coffee for 99 cents. Bill & Nick, the owners tell me they are planning some new specials for both lunch and dinner which they'll announce in the near future.

Arnie Yarber comes to Cal's

Cal's Roast Beef, a quality-controlled conscious, fast-food chain, introduces Arnie Yarber's famous barbecued pork sandwich and special barbecue sauce.

This special barbecue sauce came from Yarber's grandmother in Mississippi, at the turn of the century. It is unique in that it doesn't have a ketchup base and isn't spicy like so many other sauces.

When hearing about the well-known barbecued pork sandwich spot, Po' Boys', in Champaign, Illinois, Cal's sought out its owner, Arnie Yarber. During Yarber's 25 years in the business, he has attracted customers from all over Central Illinois. After

The rhythm of Greek music and the aroma of the charcoal-broiled shish-kebob will fill the air each night of the 26th Annual St. Demetrios Greek Picnic Festival to be held on the church grounds (2727 Winona) for 4 days, Thursday thru Sunday, August 21st to 24th.

Starting Thursday evening, expert chefs plan to serve more than 5,000 pounds of shish-kebob as well as gyros sandwiches, beef and lamb with onion slices, galactobouriko, Greek custard, loukomades, a honey-dipped dessert, baklava, a sweet pastry, and other ethnic food.

The high point of the picnic will come at 11 p.m. Sunday when the winning raffle tickets are drawn. Prizes include \$5,000, a color TV, and a FM Stereo music system with 8-track players, Golf set & cart, 10 speed bicycle, 12 inch Black & White TV and Cassette recorder.

**Niles-Hi Center continues it's success**

May 1971. Environmental Awareness programs were at their peak. Environmental problems were now an everyday thought, and now four years later our Niles Township Community is the home of Illinois' largest and most productive community recycling center.

Recycling is a method of reprocessing our normally discarded waste into a new and useful product. Not only does this process save energy, but equally important it saves precious natural resources.

Recycling our wastes is not an end solution to our solid waste problem, but a beginning of a method of educating the citizens of their role in environmental improvement.

The reclamation center not only serves the purpose of saving recoverable resources, but also serves as a method of informing and educating people of ways in which they can reduce their individual impact on the environment. Until our communities develop the use of a total resource recovery system our high school recycling center will continue to operate on an interim basis and make it possible for these materials to be reused.

The reclamation center was established for the benefit of the community. Each resident can do his part to help the environment. Recycling provides personal involvement for all who wish to participate and even on a short range scale, you can see how much of difference a little effort makes.

The center, located at the West-Hi campus at 7927 Austin Ave. is a program our high school, district 219. Through the years the program has experienced much growth and has gone through extensive program changes. Recently the center was renamed (Niles Township High School Solid Waste Reclamation Program) so that it would more specifically represent the programs' offerings. The center is now a total educational recovery

program and not just a recycling drop off station.

A literature resource file is available to the public during center operational hours. The center also presents slide lectures to all local grammar schools and civic groups upon request.

The center is now open 4 days each week, Wednesday thru Friday 12 noon-5 p.m. and Saturday 8 a.m.-5 p.m. Closed Sunday thru Tuesday. For more information on location or material preparation call 966-3800.

Sheehan... Cont'd from Niles-E. Maine P.1

Millie Jones introduced Timothy Sheehan as the new treasurer of the Park Board. Mr. Sheehan, resident and member of the board of Directors of Peerless Federal Savings & Loan, Chicago is currently building a branch office in Niles at Mulford and Milwaukee. Mr. Sheehan, also a member of the Board of Directors of Skokie Federal Savings & Loan, 4747 Dempster, Skokie, has offered his services to the Niles Park District free of charge and President Millie Jones told the board "The Park District is very

fortunate to get a man of Mr. Sheehan's financial background and ability" to serve as treasurer. Mr. Sheehan told the Board "I will serve to the best of my ability and deem it a pleasure to serve as treasurer."

President Jones also emphasized the length of reappointment was the only reason why Robert Romano, former treasurer was not retained.

In other actions the board reviewed a letter and petitions from Niles resident Peter Salamoun seeking lights for the Greenwood Park tennis courts now under construction. Mr. Salamoun, a gentleman who was extremely active in the Save Open Space committee told the board in his letter that the Greenwood Park courts were originally projected as one of the lighted tennis courts to be constructed in Niles. Mr. Salamoun was not present at the meeting due to ill health, but

BOARD OF EDUCATION OF SCHOOL DISTRICT 207 IN THE COUNTY OF COOK STATE OF ILLINOIS  
By: Harold Markworth, Secretary

Commissioner Bill Keener and Secretary Ellen VanLaningham both spoke in his behalf stating they felt this was definitely one area that deserved lighted courts and the park district had an obligation to this area since they were originally promised lighted courts.

The board members were all given a report drawn up by Bill Hughes, director of the Park District and Debbie Nelson with facts and figures on the 11 lighted courts presently in use in Niles. President Millie Jones told the board several problems have arisen with these courts and until they can be ironed out, she felt the Greenwood Park tennis courts should not be lighted. She said there have been numerous vandalism problems and also trouble with meters, timers and complaints from heavy residential areas such as Courtland Park about lights shining into their homes. President Jones together with Commissioner Jack Leske said that it costs \$6,000 to light a double court and recommended to the board that until a solution could be found to some of the current problems, they should not proceed with the lights for Greenwood Park.

After considerable discussion, the board voted to table their decision on this subject until Mr. Salamoun could appear before them to present his appeal in person. Jack Leske gave the only dissenting vote to this motion.

Commissioner Steve Chamerski reported he had met with residents concerning a complaint about Point Park and N.I.C.O. Park. Regarding Point Park, Mr. Chamerski said the merry-go-round was being replaced by monkey bars, but their request for lights were denied. He also said their other complaints for curbing of dogs would have to be handled by the Police Department. Regarding the N.I.C.O. Park shelter, Mr. Chamerski met with Niles resident Mr. DiSalvo and said he felt they had come to a mutual agreement. He stated he had slated another meeting with these residents in 10 days.

Champs...

Continued from Niles-E. Maine P.1  
offensive play by the Cubs. The Cubs' 1st string catcher Richard Szarkowski was on vacation so they brought up a boy by the name of Bill Michaels, and fans what a job he did. Throwing out 2 runners trying to steal. Without him the Cubs would have been in real trouble, with their other two catchers out, Jack Walsh on vacation and Barry Brodsky out with a broken thumb. Good job Bill Michaels. The Cubs only managed six hits off Mets pitching, 3 by John O'Brien, 2 by Donald De Santis and 1 from the bat of Phillip Raffin. A good team effort. During the regular season the Cubs came in second place.

District 63... Cont'd from Niles-E. Maine P.1

obvious is a sharp decrease in enrollment portends a decreasing number of teachers in the school district. Since teachers are attempting to mediate salaries with the school district the matter has been publicly circumvented.

While the figures presented Tuesday night are based on "assumptions" past Gogo figures have been pinpoint accurate. And while the enrollment figures determine the amount of state aid the district receives the figures used for this purpose, based on ADA, average daily attendance, are only about 91% of the aforementioned figures. While the attendance is expected to decrease from 7,089 to 4,798 the 'Average Attendance' figures are 6,476 for '71-'72 and 4,366 for '79-'80.

A second area which bodes wariness for the future concerns the projected cash balances for the district as well as the projected balances in the building and maintenance fund. The cash balance as of June, 1975 was \$1,778,000. Next June it is expected to drop to \$1,369,000, and in June '77 to \$1,016,000. In June '78 the district's cash balance is projected to be this amount, \$123,000 in the red, in '79, \$1,716,000 in debt and a whopping \$4,127,000 debt, June, 1980.

The Building and Maintenance Fund had a \$40,115 balance as of June '75. In succeeding years it

The Board also passed a motion on a request from the Golf Maine Park District wherein their residents would be allowed to use Niles ice rink facilities and pay residents' rates. The Golf Maine Park District has offered \$1,000 to the Niles Park District for this purpose. Director Bill Hughes recommended the board accept a one year agreement with Golf Maine at this \$1,000 figure. Hughes said, "We can then see how many Golf Maine residents register for the special classes and season passes and we will then be able to determine if the \$1,000 dollar figure is a fair one."

The Board passed a motion to purchase a new electric golf cart for the Tam golf course to be used for hauling water to the greens and for emergency purposes around the course. They had previously purchased used carts but they had proved unsatisfactory since they were out of service too much due to mechanical difficulties.

East Maine General Caucus

Applications for membership in the 1975-76 East Maine Township General Caucus are being mailed to organizations this week. The purpose of the caucus is to seek, select, and support qualified candidates for election to public school boards for Districts 63 and 207; and to provide delegates to the Junior College District 535 convention. Membership of the caucus consists of two delegates and two alternates from those organizations as defined by the caucus by-laws.

In order for an organization to be accredited for the 1975-76 caucus year, at least one of its delegates must be present at the first caucus meeting which will be held at 7:30 P.M., on Oct. 14 at Gemini Jr. High School, Ballard and Greenwood, Niles. Any questions regarding an organization's eligibility should be directed to Barbara Deckowitz, 9000 Terrace Pl., Des Plaines, Ill. 60016. Telephone 298-6999.

drops into the red dramatically to \$81,315, -\$235,129, -\$444,083, -\$697,773 and -\$1,022,010 as of June, '80.

Despite the dismal projections for the future Gogo contends the financial picture in district 63 is far better than in many other districts in Illinois. He has long been proud of the continuing million dollar surplus the district has had in recent years implying the district surpluses proves the financial responsibility in district 63.

Because of the decreasing enrollments and moneys in most school districts in Illinois; the plight of these districts will have to be rescued by the State. According to Tuesday night's report district 63 now receives about 45% of its money from local real estate taxes and 40% from state aid.

The state provides an equalizing factor in determining the money it distributes to school districts. In school districts which have lower residential taxes but higher taxes due to large industrial complexes in their area are compensated differently from a district 63 which has little industrial tax money. The state equalizes the dissimilar districts so they can have more equal amounts of money for their schools.

While Dr. Gogo emphasizes the upcoming deficits the potential financial quagmire in district 63 is not likely to be any greater than any other school district in Illinois. Increased aid will have to come from state financing or districts throughout the state would have to declare bankruptcy and close down.

Goldrush Gaities

In honor of our bi-centennial year, an American West Theme was chosen. The luncheon called Goldrush Gaities will be held on Thursday, October 2 at Allgauer's Restaurant in Northbrook. The committee in western costumes of various styles, table centerpieces of a highly original design and well in keeping with the theme, the invitations, and some special western entertainment are just part of the plans. The day will start at 11:00 a.m. at the water hole for cocktails, followed by a delicious luncheon at 12:00. The high point of the day will be a modern-high style fashion show by Woman's World of Morton Grove - and, of course, both the small and large raffles.

The money raised by these raffias at last year's luncheon, contributed to the following charities: American Indian Center, Cancer Fund, Brain Research, Sao Paulo Drug Abuse, Lambs Farm, Gateway House, Care, Chicago Heart Assoc., Hadley School for the Blind, Unicef, Threshold, St. Leonard's House, Johanna Bureau for the Blind, Garden Club of Morton Grove, Parkinson's Disease, Maryville Academy, gifts for Morton Grove Shut-ins, 2 nursing scholarships for Morton Grove girls, Meals on Wheels, Orchard Village, Red River Valley Pilgrimage Assoc., Orchard Center for Mental Health.

The members of the committee and their jobs are as follows: INVITATIONS - Helen Menarek, Peggy Elgreet SMALL RAFFLES - Phyllis Olsen, Ch., Lois Bussell, Pat Moeller, Lois Booth CENTERPIECES - Nancy Weinman, Ch., Pat Anderson, Arlene Sandberg, Diane Reynolds, Bea Leimontas RESERVATIONS - Beverly Hudce. From the LEFT HAND

Continued from Page 1  
made our initial weeks in Wheeling much more pleasant because of his efforts.

Starting a newspaper in a strange town of which you have little knowledge, and in which you know no one, is not an easy task. Having a friend or a friendly guy help you over the rough spots is invaluable. Well, by now we're sure you've guessed about our friendly official. He, too, wound up in the pokey for allegedly accepting gifts from a local merchant for favors rendered under duress.

To budding journalists we can only say to watch out for public officials who give you a hard time. And watch out for public officials who bend over backwards to be helpful and nice to you.

We heard a report on the radio this past week the Taiwan Little League baseball team, which won the international championship in Gary, Indiana, participate in baseball playing 9 months of the year. Whether or not it was a 'sour grapes' comment, since American boys have been finishing second to these teams from overseas, there's little doubt champions pursue their sport all year 'round.

We have a friend of my 16 year old daughter who is becoming an outstanding tennis player and she's playing the game several times a day. She'll play tournament tennis in the morning and be out in the afternoon and evening playing the best male tennis players she can find. She's only been playing tennis a few months, but already won the County tournament in a neighboring Indiana area.

A week ago Tuesday in a boiler factory on the Circle campus, we watched several inner city basketball teams fighting for championships in various age brackets. It was 90 degrees outside, and inside the sweltering gym it had to be close to 100 degrees. Yet, these boys and men played mid-season basketball with all the fury of championship competition.

Interestingly, there were many fine high school, college and professional players in action. Professionals Bob Love and Flynn Robinson were playing alongside a kid named Williams, who was the center of Phillips High School's 1975 championship team. And there were college players named Billy Harris and Lloyd Batts and a former All-American named Hubie Green, who all played with the same intensity of mid-season games.

A guy like Love, whose salary must be up around \$150,000 a year, was playing ball in a summer league, for no remuneration, but for the sheer love of competition and just playing his game. And he was playing alongside a high school ballplayer, and a lot of guys from small unrecognized schools.

There's a mark of a champion which places him (her) above their peers. Like Love, he genuinely loves playing his game. And like our girl tennis player, she's doing her thing, morning, noon and night. And like the Taiwan boys, they're dedicated to their game most of the year around.

How important such dedication and efforts are is a judgment each one of us must make. But there's little doubt a champion in any effort, is the guy or gal who loves what he or she is doing, dedicates a maximum effort to his work, and commits a total effort the year around.

Vice officers reported that the male dancer's clothing initially included a black T-shirt with a star on the front and a lightning bolt on the back, a large white sphere on his head and swimming flippers on his feet. After viewing the dance in which the man disrobed, officers obtained an arrest warrant on Monday (Aug. 11) for Kathy Cardamon, 30, 650 Murray Lane, Des Plaines, co-owner of the Lounge.

Ice Skating programs

Registration is now being taken for Fall Instructional Ice Skating classes at Skokie Park District's indoor rink, The Skatium, 9300 N. Bronx in Skokie.

Instructional ice skating this Fall will include over 70 different classes for skaters of all levels and interests. Besides classes for Tots, ages 3 to 5, children, ages 6 to 12, Teens, ages 13-16 and Adults, there will be Free Style, Precision and Patch classes.

Mikva...

Mikva referred to this section of the bill as "the most important relief we can give to the middle income groups because ultimately it means that a larger share of the burden will be taken off their shoulders and put on the groups that are not now paying their fair share of taxes."

Mikva's bill outlines a minimum tax specifically designed for those who use loopholes to avoid paying full taxes. "We have a modest minimum tax on the books right now," said Mikva, but frankly it is so modest that it does not really catch up with these people who don't pay any tax at all, I guess the thing that offends most taxpayers is the notion of someone having hundreds of thousands or millions of dollars of income from tax exempt bonds, from oilwells and other sources and never paying taxes."

All ice skating classes follow the guidelines established by the Ice Skating Institute of America (I.S.I.A.). Instruction is designed to meet the skater's individual interests and abilities. The I.S.I.A. concept of recreational skating promotes relaxation and enjoyment, while at the same time providing a different approach to exercising and physical fitness. Throughout all programs, advancement from one skill level to another depends strictly on one's skill and desire to do so.

Adults who wish to skate with minimum of instruction may be interested in a Recreational Skating class that meets on Thursday evenings. Daytime classes for adults are offered Monday through Thursday, mornings and evenings.
