From the Left Hand

Niles has a managers' committee reviewing personnel policies of its public departments.

Village Manager Ken Scheel told us Tuesday 3 representatives from each department are now reviewing such policies...

As an example, in the police department the three-man committee representatives are receiving a petition from several men suggesting police employees be allowed to live outside the village...

Advocates favoring continuing the policy contend having local residents only in the departments allows greater involvement by department personnel.

Scheel noted there are counter-arguments. He said by choosing only men within the village limits the number of men for such jobs...

Policemen now on the force, who would like to live outside Niles, contend they could find cheaper housing there.

### THE SENIOR CITIZENS CLUB OF NILES

The Senior Citizens Club of Niles had their Christmas Party at the Lone Tree Inn on Tuesday, Dec. 16. It was a full house, lunch served, but a toast was made first to our new officers Eugene Koster, President, Walter Jabczyk, Vice President, Alvie Reed, Treasurer, and Elsie Evans, Secretary. Our new Program Chairman is Josephine Bain, and Publicity Elsie Geyer. For lunch we had soup, salad, chicken, beef, potatoes, string beans, rolls, and to top it off, we had cake and coffee. Frank Yakoubek, a great musician played his accordion all the while at the party. He played Christmas songs like Silent Night, Joy to the World, Deck the Halls, Jingle Bells and the old time songs such as Peggy O'Neil, Let Me Call You Sweetheart, German songs, Polish songs, Italian songs, polkas, waltzes and many others. We sang along and many of the members danced and had fun.

Our guests were William Hughes, Park Director; Debra Nelson of the Niles Park District; Millie Jones, President of the Park District; and Janice Sanes from the Trident Center. It was time to go home then, and everyone was happy, looking forward to another nice party.

### NILES ALL-AMERICAN SENIORS CLUB

On Dec. 29 we took off at 3:30 p.m. for dinner and a trip to downtown Chicago to see the Christmas lights while we left the driving to Louis with the Evanston Bus Company. Dinner at the Wishing Well was real nice, with our choice of Beef or Ham from soup to dessert.

The weather seemed bad when we started out, but by the time we reached the 'Magnificent Mile' we knew the trip would be worth it. The snow just seemed to fit the occasion. All the buildings on Michigan ave. were beautiful, but the new Marshall Field was one of the best with Saks Fifth Ave., Lord and Taylor and many others really ablaze with lights. We saw the huge tree on the Outer Drive, the wonderful decorations and tree at the Civic Center and the First National Bank (which was outstanding). Louis took us up and down State st. and the traffic was down at the time, and he was able to go so slow along the streets, we could see all the windows very close.

From there he took us to Sauganash and Lincolnwood — up and down their streets and the work those people go thru is unbelievable! Some had mobile decorations on the property, including moving Santas, a Merry-Go-Round, and little people turning. It really was worth seeing and a wonderful way to do it without driving yourself.

Before I forget, some of us drove around our Niles, and believe me there are some beautiful decorations right here. Our people have been pretty busy too.

Betty Hines and Kitty Pennington are very proud of their grandson, Marine Private First Class Michael J. Maher, on his new rank. He received his early promotion for superior performance in all phases of training.

So many of our members have been ill — we wish them well — hurry back!

## Flag-pole Joe makes descent

After living for 35 days on top of a utility pole at 9430 North Waukegan, Morton Grove, in a fund-raising effort for the Muscular Dystrophy Association, 23 year old Joe Strezishar made his formal descent Saturday, Jan. 3. Strezishar, who mounted the 25-foot pole Saturday, November 14, has collected over \$3,000.00 in pledges for victims of muscular dystrophy and other crippling or neuro-muscular diseases.

Timothy P. Sheehan, former U.S. Representative, was today named by Chairman Richard B. Ogilvie as 11th District Coordinator for the President Ford Committee in Illinois. Ogilvie commended Sheehan's 45 years of community and Republican Party service.

Sheehan, President of Peerless Savings and Loan of Chicago, stated support of President Ford's candidacy based on "the eight years I served with him as a member of the United States Congress. He has a great understanding of the legislative system and a well-deserved reputation for honesty, openness, and the courage of his convictions."

"He was always working hard at the job, would always listen to the people's comments, was easily approachable." Sheehan, married and father of five, served four terms in the U.S. House of Representatives, two terms as Chairman of the Republican Central Committee of Cook County, and more than 25 years as Republican Committeeman. He has been active in the Community Fund, Heart Fund, Red Cross, and Knights of Columbus.

McNally heads Nimrod for Congress

Andrew McNally III, Chairman of the Board of the Rand McNally Corp., has been named chairman of the Nimrod for Congress Committee, organized to support the candidacy of State Sen. John J. Nimrod (R-4th) for the Republican nomination to Congress in the Tenth Congressional District.

The Rand McNally corporate offices are located in the Tenth District, in Skokie. McNally is a member of the American Revolution Bicentennial Administration, having been

appointed to the position by President Ford, and is a former chairman of the Illinois Bicentennial Commission.

Also, the Nimrod for Congress chairman is chairman of the Newberry Library Associates, a trustee of the Chicago Historical Society, and a life trustee of the Art Institute of Chicago. He is past president of the Geographic Society of Chicago and former councillor to the American Geographical Society.

McNally is active also in the Infant Welfare Society of Chicago and the Girls Latin School of Chicago, serving both as past president. He is past president and currently director of the Graphic Arts Technical Foundation and is a director of Harvey Hubbell, Inc., and of the National Railway Publication Co.

"I am honored to welcome Andrew McNally to my team," said Nimrod, who is serving his second term in the Illinois Senate after extensive experience in business and local government, as well as in state administrative posts.

"Mr. McNally is one of the most respected business leaders in the Tenth District, and I know we will benefit greatly from his participation in the campaign."

Nimrod and his wife and four children reside in Glenview.

Brown to head Ford Committee from 10th District

David E. Brown was today named 10th Congressional District Coordinator for the President Ford Committee in Illinois by Committee Chairman Richard B. Ogilvie. Ogilvie recognized Brown as "a distinguished civic leader whose efforts on behalf of President Ford will be a tremendous asset."

Brown is the current Director of the Civic Federation of Chicago and the Everett McKinley Dirksen Endowment Fund. In acceptance, Brown stated, "We in the 10th are traditionally independent voters who exercise our

voting rights as a serious responsibility. My primary concern as Coordinator will be to reaffirm that our Republican Primary is crucial, if we want an experienced and responsive administration for our nation. To allow state and local issues to distract, is to run the risk of winning the battle at the cost of the war.

"As a businessman, attorney, and participant in numerous community projects, I feel a very personal concern for the problems of this society. I am convinced that Gerald R. Ford is the most experienced and sincerely dedi-

cated candidate in the political arena. I give him my whole-hearted endorsement." Married and the father of three, Brown resides in Wilmette and is the Republican State Central Committeeman of the 10th Congressional District.

### Mikva staff member in Morton Grove Post Office

A representative of Congressman Abner J. Mikva's office will be in the Morton Grove Post Office, 9114 Waukegan, from 9 a.m. to noon on Saturday, Jan. 10, to assist anyone in Morton Grove who has problems or inquiries concerning federal agencies.

"Far too often people come to the government with a legitimate problem and instead of being helped they come away frustrated by bureaucratic red tape," Mikva said.

"I cannot secure benefits people are not qualified to receive, but I can find out what benefits they should be receiving and can make sure they are treated fairly and expeditiously," Mikva added.

Mikva said that to encourage more people to take advantage of his office's ombudsman services, a staff member will be making such visits to Tenth District communities throughout the year. In post office visits so far, more than 620 people took advantage of this opportunity to seek assistance.

In addition to helping constituents with problems related to federal agencies, the staff member is also available to answer

questions about legislative action in Congress.

"If someone wants to meet with the staff member but cannot make it to the post office, they should call, write or visit any of my district offices at their convenience," Mikva said.

#### "I Forgive You"

By Larry F. Rencizky, ACSW

What better way to start the New Year than by telling someone who has hurt or offended you, "I forgive you". It is important to you and to the other person to be able to forgive and to be forgiven. There is a healing and cleansing component in forgiveness that is most beneficial to the individual and to any relationship. The longer that feelings such as hurt, animosity, hatred, vengeance and the like are held onto, the more damaging it is to the individual and to that relationship out of which the hurt came. I believe that this is particularly true in any significant relationships such as marriage, family, friends, etc.

I liken the lack of forgiveness to a splinter under the skin. The longer the splinter remains, the more inflamed, swollen and sore the area becomes. If the splinter is not completely soon removed from the finger or foot, etc., it will affect a larger area of the body and eventually have serious affect on the whole body. Lack of forgiveness, like the splinter, can also have a most critical affect on any significant relationship. If the hurt, hatred, vengeance, animosity, etc., are not completely removed thru the process of forgiveness, then the total impact on that relationship can become devastating as it festers, the hurt becomes deeper, it swells out of proportion and the individual has difficulty coping with the hurt. Unforgiveness can be the splinter that causes the meaningful relationship whether marital, family, friends, business or any other, to break up.

I have found in my work, as have many doctors and other counselors, that lack of forgiveness in any significant relationship has not only a profound negative impact on that relationship but also on the individuals. It had been documented many times how a person's health (physical, mental, emotional and spiritual) has been adversely affected by the splinter of unforgiveness. Therefore, it behooves all of us to completely forgive the other person for whatever wrong they have committed to us. It is urgent for us to forgive that person right now for our own mental, emotional, spiritual and physical health, as well as for the sake of a healthier, lasting and more complete and meaningful relationship.

Why don't you resolve right now at the start of 1976 to make this a better year by being able to say and mean, "I forgive you!" Let us hear from you regarding this matter. Your name will be kept confidential.

Individual, marital or family problem? Need for improved communication? Want to enhance your personal, marital or family growth? Call Niles Family Service at 692-3396, located at 8060 Oakton st., Niles, Ill. 60648.

### LETTER to EDITOR

#### New Year's resolutions

Dec. 27, 1975

Dear Mr. Besser:

As we are approaching the end of the holiday season, and time has arrived to make New Year's resolutions, special thought came to my mind, which perhaps your readers may take interest in.

Two years ago at 1973 Holiday season I suffered a heart attack and had to spend 2 months in the hospital and 6 months recuperating at home. Under the care of a wonderful doctor, prayers of my many friends and tolerance and encouraging help of my wife, I consider myself a healthy man.

In the eight months I came to realize that one of the many events that have taken place in past thousands of years, was when God gave to Moses the Ten Commandments on Mt. Sinai. For the benefit of many readers who may have forgotten them, I submit the Commandments as taken from a religious booklet. Let the Ten Commandments become the New Year's resolutions:

1. I am the Lord your God, you shall not have strange gods before me.

## Bergquist questions State Representation of voters

Are our State Representatives representing us? This question, recently proposed at a meeting attended by Roy H. Bergquist, candidate for the Fourth Legislative District, is extremely fair when you consider the plight of the voter since reapportionment of legislative districts.

Bergquist gave as an example the Fourth District, which consists of part of four townships:

1. **Maine Township** which in turn is divided into four legislative districts — District 3rd (only 1 precinct in Maine), 4th, 5th and 16th (6th precinct in Maine).
2. **Niles Township** which is divided into three legislative districts — District 4th, 15th and 16th.
3. **Wheeling Township** which is divided into 2 legislative districts — District 3rd and 4th.
4. **Northfield Township** which is divided into 2 legislative districts — District 1st and 4th (4th only 2 precincts).

Voters of Park Ridge and Niles may be in the 4th or 16th District. Des Plaines is in the 3rd, 4th or 5th and districts in Niles Township are equally divided.

United we stand — divided we fall. Is that the philosophy used by the City of Chicago to overcome suburban independence?

In the Districts connected to or part of the City of Chicago

Bergquist said this is what we find: District 15th — 3 out of 4 legislators live in Chicago; District 16th — all 4 legislators live in Chicago.

Unfortunately for these districts their representatives devote their interest to the problems of the City of Chicago and not the connecting suburban areas.

What can be done? Nothing until 1980 at which time reapportionment can be accomplished.

Bergquist said the voter should take an active interest in local politics and make sure your legislator represents you. You are the voice. Use it wisely but above all use it at every opportunity making sure your elected representative is for the majority and not the minority because you did not vote.

Bergquist said the primary election is the voters' opportunity to select candidates who will represent them for the next two years. Register and exercise your vote.

If someone in your family has a drinking problem you can see what it's doing to them, but can you see what it's doing to you? Alcoholism is a family disease. For information and help regarding the illness of alcoholism, call the Maine Township Council on Alcoholism at 297-0240.

## Cub Scouts visit Niles McDonald's

Jeanne Kosakowski explains the art of hamburger-making for Cub Scouts of Den #2, Pack 240, of Benjamin Franklin School touring McDonald's at Milwaukee and Oakton in Niles.

McDonald's in Niles at Milwaukee & Oakton played host recently to the Cub Scouts of Den #2, Pack 240 of Benjamin Franklin School in Park Ridge. Den mother Mrs. Fern Feist and Den Dad Fern Feist accompanied these scouts on their tour of McDonald's.

Jeanne Kosakowski, a McDonald's employee in Niles for a year and a half, conducted the tour and explained that the Niles McDonald's they were visiting is just one of the 3,600 McDonald's in the world ranging from Tokyo, Japan to Paris, France.

The Cub Scouts got a chance to see a business at work, including

a computer that makes sure the fries are cooked to the same specification each time. In a few years, McDonald's expects a few of the Cub Scouts back on the working side of the counter.

Don Conley, owner of the Niles McDonald's at Milwaukee & Oakton, prides himself on community involvement. Each week Cub Scouts, Brownies and Camp Fire Girls come for a tour and are treated to hamburgers and cokes.

Conley says: "The children are important to us, and it's as much fun for us as for them to show them McDonald's at work."

## SJB Pack 275

'Tis the season to be jolly," and it was for the 35 Cub Scouts and their families at the annual Christmas party, and pack meeting. On Dec. 16, Santa Claus visited St. John Brebeuf School and presented the scouts and their brothers and sisters candy filled canes. The scouts also received grab bag presents, pine-wood derby car kits and genius kits. The boys will be very busy in the next few weeks assembling their kits and getting ready for the Pinewood Derby to be held Jan. 24 in Flanagan Hall at 1 p.m.

The judging of the 'Geniuses' will be held at the Jan. 27 pack night. All the pieces of 'junkie' will become unbelievable masterpieces and the judging will be extremely difficult as it has been in the past.

At the Dec. pack meeting the following awards were presented to the Cub Scouts, in Webelos Den 1 and Den 2: Showmanship - Steve Boscopomi, Jeff Grendzinski, Larry Mimp, Henry Jung, John Parlich, and Tom Sytko; Scholar Award - Jeff Grendzinski, Larry Mimp, John Parlich and Tom Sytko; Forester - Henry Jung; Naturalist - Steve Anderson, Lloyd Christiansen, John Kies; Mike Pierski; Greg Cieply and Henry Jung; Artist - Steve Anderson, Lloyd Christiansen, John Kies and Mike Pierski.

Mark Kurtzer in Den 2 received a gold arrow and 3 silver arrows. The recruiter badge was presented to John Parlich.

The pack welcomed in a new Cub Scout at their December pack night. Welcome newcomer Keith Parlich.

## Niles Library Friday movies

The Children's Department of the Niles Public Library District continues its series of Friday Night at the Movies on Friday, January 9, at 7:00 p.m. in the Audio-Visual Room of the Main Library, 6960 Oakton Street. Films for the January 9 program are:

**The Day Men Flew** (b/x 17 min.). Story of the Wright brothers and their first flight.

**The Paris of Francols** (22 min. color). The events of a Parisian boy's day, some of which, such as shopping in open air markets, walking past famous landmarks and dreaming of piloting a river barge, could occur only in Paris. Other experiences — a school bully, a friendly uncle, and a teacher who keeps students after school — could happen to any child, anywhere. With many examples of French art. English

narration with some French dialogue. (6 and up).

**William - From Georgia to Harlem** (15 min. color). The readjustments Willie, a young black boy, encounters when he moved from rural Georgia to Harlem. The children who appear in the film are members of the Wagner Youth and Adult Center, New York City. (6-11).

The film series is scheduled for the second Friday of each month through May, except for the April program, scheduled for April 2. Films are suitable for children ages 6 and up. Parents and other adults are also welcome to attend. Programs begin at 7:00 p.m. and end at approximately 8:15 p.m.

Film titles for the program of February 13 are: *Ben and Me*, *The Legend of Sleepy Hollow*, and *The Marvelous March of Jean Francols*.

## The Business Picture

### Unity Savings receives Humanitarian Award

Unity Savings was awarded a Citation of Merit recently for humanitarian services in the community at the Second Annual Awards Luncheon sponsored by the Chicago Area Council of Savings Associations. The Citation was one of three awarded, and is the local savings and loan industry's most honored recognition of worthy member efforts. Candidates were judged on the degree of competency and support the individual savings and loan actually provided to its special project.

Unity's project is its senior citizens program, the Third Phasers. In its second year of growth, the program affords membership to 1,000 seniors, and is designed primarily to provide seniors the opportunity to mingle with their contemporaries — to combat loneliness, the most dreaded disease in retirement years.

Numerous services have sprouted from the original pur-

pose, including legal advice for the elderly, financial planning consultations, CTA bus passes for those 65 years and older, and weekly blood pressure screening — all without cost to the individual. Additional benefits available are escorted travel, discount movie programs, and special interest lectures. LUVs (Lively Unity Volunteers) from the senior club provide their experience in their participation in public interest activities. The Third Phasers sponsored a pinole tournament uniting church and park district groups into friendly competition during the fall and winter months. The Grand Champion playoff is scheduled for February and will be played in the Hospitality Room in the Unity Savings lower level.

Membership in the Third Phasers is open to persons 55 years of age and older. A special associate membership is available to early retirees with disability handicap.

### New travel service at Skokie Federal

A trip to Hawaii may be in store for you if you're a customer of Skokie Federal Savings.

John R. O'Connell, President of Skokie Federal Savings, announced a new service for customers—discount travel packages.

The first trip offered to customers is an 8 day-7 night jaunt to Hawaii via United Airlines for \$469.50. Besides airfare this includes superior accommodations at the Hilton Hawaiian Village on the beach, a Pearl Harbor cruise, a Little Circle Island Tour, a cocktail party, plus many more extras.

The Hilton Hawaiian Village is a lush 20 acre tropical paradise resting on the immaculate white sands of Waikiki Beach. It's a shopper's paradise with nearly 100 shops in its exotic Rainbow Bazaar, and facilities for wining and dining abound.

O'Connell said limited seats are available and those interested should make early reservations.

### FNBOs self service drive-in nears completion

Electronic Banking Machines that will take your checks, give you cash, let you transfer money from one account to another and even make loans, 24 hours a day — all from the privacy and convenience of your automobile — will soon be a reality.

FNBOs, the First National Bank of Skokie, has been in the vanguard of progressive banks throughout the country that put 24 hour a day "Money Machines" in service 3 years ago. Now, with this "Auto Teller" facility, it will be the first in the area to offer these banking services in a Drive-In.

Located on Babt Avenue, just a block south of the main bank building, the "Auto Teller" machines will give card holders (you need a special plastic card to operate the machines) the option of doing their banking anytime of the day or night.

The free standing structures to house these electronic banking machines have now been erected on the site. The machines are scheduled to be operational in a few weeks.

### Honored for 24 years of service

Congratulations for 24 years of distinguished service at First National Bank of Morton Grove are extended to Georgiana P. Sim by bank president Marvin von Aswege. Ms. Sim, an assistant cashier, is the bank's first employee. She started working there Dec. 15, 1951 — the day the bank officially opened.

### Federal excise tax on telephone bills decreases

Jan. 1 marked the fourth straight year the federal excise tax on telephone bills dropped. The excise tax went from 7% to 6% and will continue to be applied to monthly service and long distance calls.

Illinois Bell is simply the tax collector for the federal government, under the federal excise tax law. The company collects the excise tax on most telephone services and turns it over to the federal government. In 1974 Illinois Bell's total tax bill was \$459.7 million, or \$67.10 per telephone. Of this, federal excise tax totalled \$103.6 million.

Federal excise taxes were first added to the phone bill in 1914, then were off and on and finally reimposed as a temporary emer-

gency measure during World War II. They have existed ever since despite phone company efforts to have them repealed.

In 1970 Congress passed the Excise, Estate and Gift Tax Adjustment Act, which called for the gradual reduction of the tax. The first reduction came in 1973, when the rate dropped from 10 to 9%. The tax is scheduled to decline one percentage point a year until its complete elimination in 1982.

Reduce energy consumption in cooking. Use pans that entirely cover the heating element. This way more heat enters the pot and less is lost to the surrounding air.

### Notre Dame placement exam

Notre Dame High School for Boys, 7655 Dempster in Niles, will hold its annual placement examination for incoming freshmen on Saturday, Jan. 10. The test will begin at 8:15 a.m. and will be completed by noon. All should enter by the front door on Dempster st. Notre Dame accepts those students whose needs will be satisfied by the school's curriculum.

Upon payment of a \$10 test fee, the student will be given a ticket of admission to the test and a packet of registration materials. The materials are to be returned

to the school by Jan. 26. Test results will be mailed out about six weeks after the test or no later than Feb. 20.

The student should also bring with him two #2 pencils. Transfer students should register as soon as possible but not on Jan. 10. Their registrations are normally handled in the school office between 8:30 a.m. and 4 p.m. on school days. They should bring along copies of their high school report cards.

Further information can be obtained by calling the office on school days. The number is 965-2900.

### MG District 70 free screening program

The Special Services Staff of Morton Grove Public Schools, District 70, will conduct a free screening program for vision, hearing and language development for pre-school children, ages 3 and 4. Parents may register for appointments at the Blanche Borg School, 8601 Menard ave., from the hours of 8:30 a.m. to 3:30 p.m., Monday and Tuesday, Jan. 12 and 13. At the time of registration, the parent will receive a description of the tests and some preparatory materials for the child.

Amblyopia exanopsia, more commonly referred to as 'lazy eye

blindness', can be prevented. It is due to a child's inability to develop central or reading vision in one eye. Approximately 4 per cent of all children in the United States are affected by this malady. If found and treated at an early age, 'lazy eye blindness' is usually correctable. A simple screening test given between the ages of 3 and 5 can find the child using only one eye.

Hearing loss may result in communication, learning, and eventually emotional problems for young children. The most common conditions that result in childhood hearing problems are

allergies, respiratory infections, childhood diseases and accidental blows to the head. Early identification and appropriate care can correct 80 per cent of young children's hearing problems. Eligible children must have attained their third birthday before Dec. 1, 1975, and be residents of School District 70. Children tested last year, as three year olds, can and should be tested again this year. It should be emphasized that this will be a screening process and not an evaluation. If screening reveals an existing problem parents will be referred to their family physician.

Parents unable to register their children on Jan. 12 or 13 may call Mrs. Marilyn Hansen, 967-6110, Wednesday, Jan. 14. No telephone registration will be accepted prior to the 14th.

### MG Firefighter receives Kodak certificate

Alan R. Weinstein, of the Morton Grove Fire Dept., is the recipient of a certificate for participation in a three-day Fire Fighters seminar conducted recently. Instructors of the seminar included professional firefighters and members of the Eastman Kodak Company staff.

### Attended by 44 professional firefighters...

Attended by 44 professional firefighters, the three-day seminar, sponsored by Kodak's Midwest Region, covered a variety of subjects concerned with the most efficient use of photography in firefighting. Topics discussed along with live demonstrations included the selection of proper photography equipment, arson detection and preparation of photography for courtroom use. They were also instructed on the most effective means of covering a fire photographically, processing prints, laboratory techniques, close-up shooting and related areas.

### Jewelry Theft

Approximately \$3,085 in jewelry was taken from Fausto Jewelry, 8045 Milwaukee ave., by two men posing as customers on Dec. 24, according to Niles police.

Two men had come into the store late Saturday afternoon and while one kept the store clerk occupied the second man apparently rifled the jewelry case taking rings, bracelets, earrings and watches valued at \$3,085. The theft was discovered after the 'customers' left the store, according to the clerk.

### Illinois State Police warn of fund solicitation

The Illinois State Police report that an organization known as the "Troopers Alliance" has been formed with one of its purposes being the publication of a quarterly magazine entitled "THE TROOPER." Captain William P. Burt, Commander of the State Police Cook County District, said that the Troopers Alliance currently has representatives soliciting for advertising space from businesses in Central Illinois. It is the State Police expectation that they will begin to operate statewide in the near future.

Captain Burt warns that, while State Troopers comprise the membership of Fraternal Order of Police Lodge #41, the parent organization of The Alliance, the operation of the Troopers Alliance is not in any way related to the Illinois State Police. "We have long had a policy forbidding the solicitation of funds from the public by Illinois State Troopers," said Burt. "The Illinois State Police does not encourage businesses to participate in any advertising or other fund raising efforts by organizations."

### Open tryouts for 'The Great Sebastians'

Open readings for roles in Des Plaines Theatre Guild's March production, "The Great Sebastians," will be held Sunday and Monday, January 11 and 12 at Guild Playhouse, 620 Lee St., Des Plaines.

The Howard Lindsay and Russel Crouse comedy will be directed by Hank Vandenberg of Wheeling, with Julie Tobias of Des Plaines as producer.

Tailored originally for the great acting team of Alfred Lunt and Lynn Fontanne, "The Great Sebastians" opened in New York on January 4, 1956, and scored a resounding hit. Because it is wholesome family entertainment, Des Plaines Theatre Guild has scheduled two Sunday matinee performances in addition to the usual three Friday and Saturday night showings, March 12 thru 28, at Guild Playhouse.

Director Vandenberg will be casting six women and fifteen men in the play, which tells the exciting story of a husband-and-wife mind-reading act that tours European vaudeville theatres and gets enmeshed in dangerous international intrigues in Prague on the day that the Czech-Slovak patriot, Jan Masaryk, has fallen mysteriously from a window to his death.

Tryouts are scheduled to begin at 2 p.m. on Sunday, Jan. 11, and

at 8 p.m. on Monday, Jan. 12. For further information, call the Guild Playhouse box office, 296-1211 between noon and 8 p.m. Current DPTG production is "The Subject Was Roses," playing Friday and Saturday nights, January 9th through 24th.

### Little City benefit sale

The Little City Service League Chapter of Little City for mentally retarded children in Palatine, is holding a gigantic Houseware Sale at 7934 N. Lincoln at Oakton in Skokie, starting Jan. 13 to Jan. 31. The store will be open daily, Monday thru Saturday, 10 a.m. to 4 p.m. All new merchandise is on sale at great bargain prices — it's a 1/2 price sale!

The Little City Service League Chapter is made up of approximately 70 women who each year raise over \$40,000 to help Little City to continue its phenomenal growth in both facilities and programs. For over 11 years the Houseware Sale has been the largest fund-raising project of the chapter. Co-chairmen of the Houseware Sale are Mrs. Morey Hirschman and Mrs. Herbert Shelly, and Mrs. Hamilton D. (Elaine) Stein is president of the group.

### Gutow named WTTW auction chairman

Bernard Gutow, Commissioner of the Morton Grove Park District has been named Morton Grove chairman for the WTTW/Channel 11 Auction for 1976.

Scheduled for April 24 through May 1, the 1976 version is the tenth in the annual Auction series. In 1975, the event raised \$737,000 toward the operations budget of Channel 11, a record for Chicago. The total net proceeds represent about 10% of the station's annual operating budget. Morton Grove contributed 147 items with a total value in excess of \$14,000 in 1975.

For eight days, Channel 11 devotes 12 hours of air time each day to the Auction, from 1 p.m. to 1 a.m. For those 96 hours, more than 300 celebrity auctioneers present some 6,000 items for sale to the highest bidders throughout the Chicagoland viewing area.

In past years the goods and services sold have included everything from Alaskan cruises to African safaris, from hovercraft to mobile homes, from Model A's to Roll Royces, and even a year's worth of ice cream cones.

In total, more than 200,000 bids are expected to be received via the 60 telephones set up in the Channel 11 studios. A professional staff and volunteer organization of nearly 2,500 individuals will assist.

Persons wishing to help should contact Mr. Gutow at 966-7932.

### 'The Subject Was Roses'

Three cast members appearing in "The Subject Was Roses" at Guild Playhouse in Des Plaines are A.J. Riegler of Des Plaines, David R. Elvart of Northbrook, and John L. Schile, Jr. of Rosemont. The Frank Gilroy drama tells the story of below-the-surface tensions in a family that suddenly erupt like a volcano. It opens this weekend with performances Friday and Saturday nights, January 9 through 24, at 8:30 p.m. For ticket information, call 296-1211 between noon and 8 p.m.

### Acting classes for children

Acting classes for children from age six thru 17 will be offered at Guild Playhouse in Des Plaines beginning Jan. 10.

The Saturday afternoon sessions will be directed by Joel and Maxine Cohen of Niles, active members of Des Plaines Theatre Guild, who have an extensive background in college and com-

munity theatre, and are the parents of twin sons, Marc and Mitch.

Twelve Saturday afternoon classes are planned with children aged 6 to 11 coming at 1 p.m. while teens from 12 to 17 will be in session from 2 to 3 p.m.

Youngsters from throughout the north and northwest suburbs are welcome to attend the workshop series. Fee for children of Des Plaines Theatre Guild members is \$3 for the 12 weeks, with additional children of the same family in the same session admitted for half of this amount.

Children of non-members will be asked for a \$6 donation, with the same discount allowed for additional brothers and sisters in the same session. For additional enrollment details phone the Guild Playhouse answering service, 296-1211, between noon and 8 p.m.

At the end of the 12-week session of Children's Theatre, each class will present a play, according to the Cohens. The Trial of Mother Goose and The Great Contest are the productions planned for presentation April 3 and 4, featuring youngsters who have completed the acting classes.

### Local artist to give demonstration

Helen Van Tempa, well known artist, will present an acrylic painting demonstration at the regular meeting of the Morton Grove Art Guild on Wednesday, Jan. 14, at 8:30 p.m. in Mansfield Park Fieldhouse.

Mrs. Van Tempa has exhibited her work at many places across the country and is known for an unusually wide range of style and ability to capture moods in her work. The Art Guild extends an invitation to anyone interested in art to come to their meeting.

## ED HANSON

"Lover of the dead ..."

In last Monday's Sun-Times (Jan. 5) Ann Landers printed a letter signed San Francisco. The gist of it was that a mother of a young girl wrote that her daughter married a perfect, older gentleman, a mortician, who — on the first night of their marriage — told his young bride he could only make love to dead women or women who looked as if they were! The groom said, "You may as well know that I am a necrophiliac." This word comes from the Latin and means "lover of the dead."

I first used this word in a story for AP that made 600 papers some 20 years ago when I covered the Guin murder case in Plainsfield, Wis. — about this nutty farmer who slayed some 15 or 20 persons, mostly women. This man was also a perfect gentleman who visited his women victims. He was also a cannibal.

Anyway, "necrophiliac" made an interesting story for Landers' column and it probably is true.

Sometimes the mean thought occurs to me that Ann Landers writes letters to herself, and the more bizarre, the better for readership. For bad news is always good news and is what sells newspapers.

I hadn't seen the word "necrophiliac" in all these years until last Monday Chuck Giovannelli, of the Niles Police force whom I happened to bump into, called my attention to this weird story in Landers' column. Chuck was familiar with the word "necrophiliac" (most people are not) and it merely brings out that the police officers on the Niles force are well educated, well read and a far cry from some of those I knew many years ago on the old Chicago Police force. There is by far a much better breed of man in education, breeding and training than there was in the old days. If you had read as many police reports as I have, you'd know why. For in the old days many officers in their handwritten reports used to spell the word "cat" with a "k".

CHUCK GIOVANNELLI, in my opinion, is a perfect example of this new breed of cop on both city and suburban police forces. Young, physically in top shape, well trained in police procedure, and most important, honest, well educated and well read. The days of cops only reading comic books is gone with the wind. And the "hamstring" as they are with this "rights crap", they perform a creditable job under the most trying of circumstances.

In the old, tough neighborhood from whence I came as a kid and young man, everyone was a cop hater. To defend a cop even in conversation was tantamount to getting your brains kicked in. In a time, unfortunately, when crime in the streets, city and suburbs, is rampant, the public needs the finest policemen obtainable. It makes my blood boil when some people say cops are overpaid. They're underpaid — for can you set a price on perhaps your life, your property, and your loved ones? And what are their lives worth? ... (the police, I mean!)

School teachers may be underworked and overpaid but certainly not police officers. Not in this day and age and here's why ...

The Criminal Justice Reform Act of 1975. Document S-1-3709 makes it a crime for you to use force against a burglar or intruder who breaks into your home. The "home defense section of this new reform act states that a citizen (you) can be charged with murder if you kill an intruder on your property. This is described under this new law as using "deadly force."

Vandalism is the most prevalent crime anywhere. The very young do this and, when caught, they're coddled. A 14 year old little beast was recently paroled by a court in Chicago. Maybe I shouldn't say "little" because this 14 year old male, whom the law protects from naming, is 5'8" and weighs 150 pounds and he's all muscle because he was an athlete. Let me tell you what this little bastard did. He beat the crap out of an 82 year old blind woman and robbed her of \$140, after which he raped her. His specialty was mugging and hurting very old people. He fugged a 79 year old man, taking his social security check and several other senior citizens of advanced age were all beaten and robbed by this "little" snake. Before that, he was guilty of every crime of vandalism and shoplifting known to guys on the streets.

By comparison even a "necrophiliac" ain't that bad! At least, this type of weirdo only picks on dead people to get his "jollies". Crime happens on the streets but it begins in the home. Many of these so-called bad boys do come from broken homes. And some come from wealthy homes where their parents provide no environmental conditioning whatsoever to at least attempt to teach their children right from wrong.

Shoplifting (not even the merchants want to talk about this one) happens most in good neighborhoods and these I refer to as the affluent delinquents. These affluent delinquents usually have enough cash in their blue jeans to more than pay for the stuff they swipe.

And then, as if the police didn't have enough handcuffs on, they go ahead and pass a stupid thing like the Criminal Justice Reform Act of 1975.

And finally, they now want to take away the guns which the good citizens have in their homes.

Well, maybe they might as well. For come some dark night when you are away from home watching a good movie like Lucky Lady some guy (or gal) will probably swipe it anyway.

There is a great comedy act in the spacious, gracious lounge in The Fireside Inn of Morton Grove, 9101 Waukegan rd. It's Howard Dinning and Gary Finkelstein, who sing, clown and play the whole night away Tuesday thru Saturday. I'd like to give you more information about these guys because they may be another Jerry Lewis and Dean Martin but I can't yet. As soon as I get a picture and some info I'll tell you more about these very, very good entertainers.

## MONACEP travel film to feature Amazon

The Amazon, Ecuador, and Peru will be introduced to MONACEP armchair travelers from 8 to 9:30 p.m. on Wednesday, Jan. 14, at Maine East High School, Dempster and Potter, Park Ridge.

John Nicholls Booth, a photographer, lecturer, and explorer who has penetrated remote corners of the world, has filmed 3,000 miles of travel up the Amazon, photographing such phenomena as Indian tribes who still hunt with blowguns and fishermen who catch six-foot creatures. Jungle economics is shown in the form of rubber, hardwood, artificial flower, and medical herb enterprises.

In addition to the Amazon river towns, Dr. Booth introduces Quito, Ecuador, the capital city high in the Andes. Here he meets and photographs Guayasamin, South America's greatest painter, as well as the president of Ecuador and members of a strange dying tribe called the Colorados.

Cuzco, the ancient forbidden capital of the Inca Empire, is on the itinerary as is a sacrificial Sun God ceremony of the ancient Inca.

In his extensive travel, Dr. Booth has penetrated many strange and remote corners of the world. He is one of very few Americans ever allowed to take an expedition into mysterious Tibet and has photographed and lived among former headhunters of Borneo, cannibals of New Guinea, and primitive Amazon tribesmen.

As special correspondent for the Chicago Sun Times, he flew behind Red Chinese lines in Manchuria, and another time covered one of Japan's worst earthquakes.

Single admission to the travel lecture is \$1.50; senior citizens 75 cents.

believe younger men can't afford homes inside the village suggesting this limits the number of younger men able to serve.

Opposers to the present "in-Niles" policy hint they've been the targets of malicious conduct by persons who've been in conflict with the law. They cite auto tracks on their lawns as hints of retribution by those who've been ticketed by local policemen. Moving outside town would give them a measure of anonymity which would be beneficial to their welfare.

Opponents to the present policy argue because the village receives federal funds, such restrictive measures may be in conflict with civil rights laws, which they imply would jeopardize the village receiving this money. They contend these restrictive "living-in-town" regulations prevents minority candidates applying for local jobs.

Scheel rebuts the civil rights argument. He said the Equal Opportunities Plan representatives 2 months ago approved Niles' use of federal funds. Ironically, the only area they criticized was Niles having no maternity benefits for single women in their hospitalization plans for public workers.

In School District 63 officials moved into the Gogo wing of Apollo School over the holidays. While one administrator told us the new \$400,000 plus wing is euphemistically called "the educational-service center", we who have followed the past year's drama know better. While no date has yet been set for its dedication, we expect an upcoming ceremony will duly recognize the new addition, as well as its founder and creator.

At the end of 1975, District 63 board members voted against closing any schools during the next 18 months. But you can bet one or two schools will be closed beginning with the 1977-78 school year. And you poor guys who support this school district are going to have to ask yourselves why did the district spend over \$400,000 for 1976 offices when 1977 will see the closing of schools?

District 63 met in executive session Tuesday to discuss a contract for custodial and maintenance personnel. The 45-member group is affiliated with the Illinois Educational Association and have formed their own Custodial-Maintenance Association.

Farewell to former Bugle editor Naomi Krone who heads west to San Diego to set-up her new retirement home. Naomi has been a sparkling bit of pizzazz who has graced the community journalism scene for 30 years. She's been a Nilesite for the past 15 years and made a great contribution to bettering our communities and school districts. She'll be missed.

Niles receives 40% of the funds for her free bus service from RTA monies and 60% from federal revenue sharing.

Total monies received from federal revenue sharing comes to about \$320,000 annually, paid quarterly.

## District 63 . . . Continued from Page 1

In the 1976-'77 budget. Decreasing enrollments, decreasing revenues and inflationary costs inevitably is leading to the eventual closing of one or more schools in the district and the reduction of teacher personnel in the ensuing years. In a very democratic effort the Board received recommendations from 15 groups in the district 'prioritizing criteria' for aligning income with expenditures. What all the gobblegook meant was they asked PTA groups, faculty groups, administrators (15 groups in all) to weigh 9 areas of criteria on a 2 to 10 scale for the relative importance of different areas of criteria in determining the budget.

After the Board received the figures from the 15 groups the Board also weighed the 9 criteria. Both decided the impact on 'quality education' was the most important item to consider in creating the new budget. The Board's secondary concern is the impact upon a balanced-budget, while the 15 groups thought the 'number of children directly affected' was the second most important consideration.

'Ease of implementation' was the 3rd most important criteria by the 15 groups while the Board thought this was the 4th most important consideration. The Board thought the criteria of 'acceptability to parents' should be 3rd though they weighted it the same number of points as the 15 groups.

Other criteria areas include 'ease of realignment', acceptability to the public, impact upon faculty morale and impact upon administrators' morale, the latter 3 criteria being considered least important by the 15 groups as well as the School Board.

## Niles Family Service . . .

Continued from Niles-E, Maine P.1

Niles was the second village in Illinois, following Oak Lawn, to initiate plans for a Family Service facility.

Village trustees in 1968 appointed a lay Board of Directors of seven Niles residents (increased to a present 11-member Board) which plan and formulate policy for the Family Service agency. With the employment of Larry F. Renetzky as Director, the agency officially opened on Jan. 9, 1969, in the vacated firehouse adjacent to the Old Village Hall (presently the Circuit Court of Cook County) at Milwaukee and Touhy ave.

"It's not easy to seek help from a family counseling agency," observed Renetzky, "but it is just as necessary as seeking help from a doctor, attorney or minister." Renetzky, 41, holds a Masters Degree in Social Work from Washington University in St. Louis. Married and the father of 2 children (Lisa, 12, and Brian, 9), he had completed 2 years of study at McCormick Theological Seminary when he decided to go into social work, later coming to Niles.

In need of larger quarters, Family Service moved in June to a suite of 5 rooms in the Lawrencewood Shopping Center and again, on Friday, Sept. 13, 1974, moved to a permanent location of eight counseling rooms in the Niles Trident Center, 8060 Oakton St. During the first (1969) year of operation Renetzky and his staff counseled approximately 300 cases, involving marital problems (45%) and mental, emotional and individual problems (15%).

In addition to his assistant Jay Karant, who filled the 1974 vacancy created by Stan Levi (now Executive Family Service Director in Winnetka), Renetzky has a staff of 2 secretaries and 11

## District 67 . . . Continued from MG P.1

Superintendent Gogo announced at the meeting Evanston is closing 3 schools in its district and Arlington Heights will be closing 8 schools. Since School District 63 passed a resolution they would not close any schools during the next year ('76-'77), they are nevertheless trying to prepare an orderly method for presentation to the public for the eventual closing of one and possibly two schools.

While it was not discussed at the Board meeting, one of the many alternatives for the future is consideration of a middle school, moving 6th graders into the junior high schools, as an alternative when schools will be closed.

Because of teacher concern the Board is also walking gingerly on the problem of reducing personnel. Presently attrition has reduced the school staffs. Whether more drastic teacher cuts will be forthcoming in the immediate future has not been announced.

The business management type of 'gobblegook' presented Tuesday night will be continued at a 7 o'clock meeting next Tuesday. While the orderly process of meeting the inevitable reductions in schools, teachers and spending is admirable, this orderly process has inched along for several months. And while the democratic process is also admirable in utilizing recommendations from many school factions, the inevitable decision making is being delayed unnecessarily.

Schools are going to be closed. Teacher personnel is going to be reduced. No business school language can cloak these hard-nosed facts.

## MONACEP . . .

Continued from Skokie-L'wood P.1 Edens Expressway, Skokie; and Niles North High School, Auditorium Lobby, 9800 Lawler, Skokie.

Saturday registration will be held from 10:00 a.m. to noon on Jan. 10 at Oakton Community College, Bldg. 3, Oakton and Nagle, Morton Grove, and on Jan. 17 at Maine East.

Evening registration will be available at several centers dur-

part-time counselors with Master of Social Work degrees and who are certified by the State of Illinois. The Agency also utilizes the services of 4 psychiatrists and 2 psychologists "as needed" in addition to a senior social worker with 37 years of experience who assists in counseling twice a month at the Trident.

Approximately \$100,000 (about 20% of the total cost of the 7-year program) has been realized by the Agency in fees, according to Renetzky. Altho most of the operating expenses of the Agency are obtained from village taxes, there is a sliding scale for family counseling services ranging from \$1 to a maximum of \$20 per week. Fees are determined by the charge of 1% of the family's previous Federal income tax.

Since Family Service is strictly a counseling power the "Agency with a Heart" will refer those in need of financial help to the St. Vincent De Paul Society at St. John Brebeuf Church or to the Maine Township General Assistance Dept. in Des Plaines for emergency aid.

In addition to serving Niles residents in critical situations, Family Service more recently has sought to provide an educational-preventive function thru community workshops, group therapy and the media.

## District 67 . . . Continued from MG P.1

the future of our children. We believe that children have the inalienable right to be happy, to be respected as individuals, and to be helped by adults on the road to learning. We believe that children naturally want to learn, do learn, and will learn if they are not hopelessly scarred by adults who botch up the process along the way.

"We see today's three-year-old count to 20 or 30, read all the letters of the alphabet, in and out of order, tell stories, and exhibit many learning skills. They also sing songs and commercials and recognize all manner of trademarks, individuals, and animals. Children learn at an early age because they want to learn.

"Most of them are eager to start school, are excited about learning new things. But, all too often, this does not last. Where does this joy go? Where does the eagerness go? Why are our schools turning off our children? For years we have poured money into the schools and left everything to the 'professionals' who assured us that if we would just keep out of the way and give them enough money, everything would be fine.

"But our children are emerging frustrated, rebellious and possessed of less than acceptable skills in the basic fields of spelling, writing, and speaking English. We do not wish to imply that this is a District 67 problem alone. In fact, national concern over just this problem was expressed in a Dec. 8, 1975, article in Newsweek Why Johnny Can't Write.

"A third referendum would be completely wrong. We also want to go on record as being vehemently opposed to the manner in which the previous referenda were handled. The first was played down as much as possible, and even the second seemed to be rather selectively publicized. The tactic of using and abusing the children by urging them to campaign thru wearing of buttons, messages to parents, and take-home campaign materials is reprehensible. The constant prodding of the children and questioning of 'which way are your parents voting?' is a police static unacceptable to us.

"We also feel disparaging remarks toward senior citizens in the district were rude and unfair. These people have supported the district thru taxes for many years. They deserve to have all the information available about matters affecting their taxes and they deserve our unflinching courtesy and respect.

"If the quality of education were proportional to money spent, we would be supporting the bond issue now. The members of this committee believe that District 67, without additional revenue, can improve the quality of education. We want more emphasis placed on basic education and suggest several areas where savings can be achieved. We ask that the board review these suggestions with an open mind, without preconceived ideas, and with independent zeal."
