New bus route map shows expanded service, hours

By Alice M. Bobala The Niles Courtesy Bus System indicated a 40% increase in ridership since the inception of expanded service beginning last Feb. 2 according to Charles Kohlerman, Administrator of the service.

During the first 14 days of operation under the new route schedule, 9,499 riders have used the buses as compared to the same period, Feb. 2 thru Feb. 15 of 1975, of 6,775 people.

Kohlerman attributed the increase in ridership to an expanded bus route and increase in service runs from 1 hour to every half hour. A revised schedule of the new bus route includes the YMCA on Touhy ave., the Golden Forties and The Treasury Shopping Center, both of which are north of Golf rd.

Four new Mercedes-Benz mini-buses went into service in Niles last Feb. 2. The buses were obtained by the village under a partial federal (80%) and state (20%) grant received in March, 1975. Six of the fleet's 8 buses are in service at all times with 2 kept for emergencies of peak periods and in the event of breakdowns.

Although Kohlerman noted an increase in ridership on school holidays, there was no appreciable increase last Feb. 12 (Lincoln's birthday) of 965 kids of a total 1,414 riders over the previous 1974 holiday of 952 youth of the 1,400 riders.

From the Left Hand

Former School Board President Bill Gurolnick called Monday morning to voice his objections to District 63's cut-backs in programs.

Bill decried the elimination of programs such as the instrumental music program. He recalled the long, difficult struggle Lorraine and Roy Makela had before succeeding in including this program in the district.

Years ago, when new high schools in Maine Township diluted the talent in the music program at Maine East High School, their music department representatives begged District 63 to create a program which would feed future musicians into the high school.

Gurolnick disagreed with Superintendent Gogo's comments "other school districts don't have such a program" in defending the slashbacks and eliminations of programs in District 63.

One board member last week (we don't recall his name) implied the elementary district shouldn't have to pay bills (for instrumental music) which would benefit the high school program.

What is taking place in District 63 is a questionable effort which should be closely examined by everyone in the district.

Brouhaha at District 63 caucus meeting

East Maine District 63's caucus annual brouhaha took place Tuesday night amidst cries of it being 'undemocratic' by high school board member Roy Makela and it being 'dirty' and 'political' by the chairman of the nominating committee of the caucus, Sheri Argirion.

In the elementary school vote Ann Sostrin, 7921 Church, Morton Grove, received 26 votes.

The postal service is perhaps the most single means of identifying with a community, said Marcheschi.

"We as a village, as a Board, as residents, should make ourselves heard to federal authorities for a Niles identity."

Deliveries to Nilesites thru credit card purchases (with Des Plaines, Glenview or Chicago postal addresses) could cause difficulty for someone not familiar with Niles streets, he said.

Marcheschi has been pushing for a new postal facility since 1969 due to inadequate parking and cramped conditions of the present post office at 7727 Milwaukee ave.

Bike patrol applications available

[By Alice M. Bobula]
 Applicants for the Bike Safety Patrol, a first in the area, may pick up registration forms on Friday, Feb. 27, at the Administration Building, 7601 Milwaukee ave., according to Niles Police Officer James Gerhardt.

Proposed for Niles last November by Gerhardt, Supervisor of the Niles Youth Bureau, the program is intended to ensure greater bicycle safety in the village and promote good relations between motorists and cyclists who will share the same roadways.

Preparations for the Safety Plan have been progressing well said the Youth Officer last week. He seeks college students, preferably in the law enforcement field, between 18 and 23 years of age, either male or female, who are in good physical health and residents of Niles.

Applicants will be screened very carefully to ascertain re-

sponsibility and a genuine interest in safety and traffic enforcement said Gerhardt. Successful applicants will be hired "around the middle of May" and will undergo a training period prior to initiation of the program in June.

The uniformed college students will bike-patrol the village 7 days a week from 11 a.m. to 8 p.m. and may issue citations for traffic violations by cyclists. The safety program will be in force until September.

Cyclists are subject under state law to the same traffic regulations as motorists, according to police.

The program has already generated a great deal of interest said Officer Gerhardt. "We've had numerous inquiries from other communities about the basics of the bicycle safety enforcement program, as well as comments by telephone and letter from residents of the village, expressing approval of the whole idea."

Memco, a Milwaukee ave. department store in Niles, has indicated interest and faith by subsidizing partial cost of the program. Also interested in the safety aspect and cost-sharing is a prominent bicycle manufacturer.

Following initiation of the program next June, Gerhardt expects to see a decrease in bicycle violations and a reduction in bike-auto accidents. "I would also like to see a change in attitude by bicyclists... hopefully making Niles outstanding in bike safety."

He doesn't foresee too many violations. "Corrective action can be made initially," he said, "effectively reducing the number of traffic incidents."

However, if a citation is issued to a cyclist, a court date mandatory for the offender and parent will be set for a Saturday morning hearing at the Village Court Chambers, 7200 Milwaukee ave.

BANTAM "A" NILES SHARKS VS. DEERFIELD

The Niles Sharks, sponsored by Golf Mill State Bank, met Deerfield for the second time and this time came out the winners. The Sharks first goal came in the first period with a slapshot by Steve Heinol assisted by Mike Pozniak. Both teams were really skating hard and fast. Deerfield tried to get the puck in our zone, but couldn't keep it there. Niles scored again in the second period with a goal by Dave Thimm assisted by Jim Sliva. Deerfield scored in the third period and Niles came back with a third goal scored by Jim Sliva assisted by Frank Dietrich and Larry Gaertner. Frank Keener did a great job in the nets for Niles.

NDHS's Gerard and Cawley make world team

The 5th Annual U.S. Junior Olympic Championships were held at Troy, Michigan, on Feb. 15-18. This tournament chooses the team members to the U-20 World Championships at Posnan Poland this Easteride.

In the U-16 boys foil, a Maine South fencer took 2nd place behind Eric Kullman (Des Moines, Wash.). In U-16 epee, no Illinoisians were in the finals, but Kevin Soms, freshman from St. Francis High School, Mountain View, Calif., took 5th place.

In the U-20 foil, there were 66 contestants. Kevin Cawley (NDHS senior) made it to the second preliminaries. The finalists were 1. Mike Marks (ORE), 2. Pat Gerard (NDHS-UND), 3. Jim Herring (MS-Wis. Park), 4. Greg Massialas (Cornell Univ.), 5. Mike Gerard (NDHS-U. of I.), 6. Don Tachecek (U. of Penn.). This was the equivalent of an "A" competition and it had 4 USA members on it plus an All American.

Pat Gerard and Mike Marx went 4-1 and had to fence off for the title. Marx defeated Gerard for the title and Gerard took a 2nd place for the second year in a row. Jim Herring was the defending champion, but this tournament is notorious for not letting the defending champion repeat in consecutive years.

In the U-20 epee, the defending champion Tim Glass (NDHS-UND) was not eligible due to age. There were no Illinoisians in the

finals. The winner was Bob Marx, who became the third person to win the sweep of National Championship and JO Championship. The first was Tim Glass in 1973, Greg Massialas in 1974 and Bob Marx in 1976.

In the Sabre event, NDHS senior, Kevin Cawley, took 6th place. In the Women's U-20 event, Karen Beckman was eliminated in the semi's. All the contenders were eliminated by a 14 year old so that the oldest girl on the US team this year is 16, the youngest is 14.

The International Olympic selection commission chose the following for the USA team to Posnan, Poland: Foil - Mike Marx, Greg Massialas, Pat Gerard. Alternate is Jim Herring who beat out Gerard last year. Epee - Bob Marx (Port. Univ.), Lee Shelley (Princeton), Mark Forrest (Gold Coast, Fla.), Alternate Jim Shifran (Los Angeles), Sabre - Mike Sullivan (UND), Brad Thomas (LAAC), Steve Renshaw (N.J.). First alternate M. Burton, 2nd alternate Kevin Cawley. It is probably that the first alternate won't go so Kevin Cawley will be the alternate to the team. If this is true, then this will be the fourth consecutive year that NDHS students have been on the USA team coached by Fr. L. Calhoun, presently in Mountain View, California.

The International Committee also selected the Cadre for the USA team: Chief of Mission - Richard Gradkowski; Manager and Armorer - Rev. Lawrence Sebastiani; Delmar Calvert, Yves Aurio and Joe Pechinsky. Additional personnel: Eleanor Turney, Julia Jones and Dr. Zold. The team will fly to New York and then on to Warsaw, Poland, and Posnan from April 10-19. There should be between 60-75 countries in the competition.

Demon gymnastics

In the Central Suburban League gymnastics championships, the Maine East team finished fifth. Individual places were: Frank Criger on second on trampoline; Dave Nelissen, third in all-around; Mike France, third on horizontal bar; and Mike Heinz fifth on parallel bars.

Athlete of the week

Maine East forward Len Patke of Niles after graduation this June plans to attend Chicago Circle and major in either physical education or business. Naturally, he hopes to continue playing basketball there.

When asked how he feels high school sports will change within the next ten years, Len commented that he thought it would probably remain the same. However, "I would like to see better officiating, especially on the lower levels, junior varsity and freshman."

LETTERS to EDITOR

Even when we win - we lose!

Dear Editor:
The taxpayers of School District 67 have told our school board, in two elections, to balance their budget with money available from existing taxes. On Saturday, March 6, we will have to tell them a third time.
If one election costs \$800, then three elections cost \$2,400. This is tax money. One tax referendum at taxpayers' expense is bad enough, but three tax referendums is abusive and outrageous.
We don't allow our children to spend our money recklessly and without a proper accounting. Let's not let our school board get away with it either.
Vote no on March 6th and perhaps we can save some of our tax money.

Given under my hand at Niles Township Administration Building, this 19th day of February, 1976.
s/Louis Black, Town Clerk

Another referendum?

Dear Editor:
Every time we agree to pay a higher price for a product or a service, we are voting for inflation. Every time we allow taxation to increase because we did not vote against it, we are again voting for inflation.
On Saturday, March 6, School District 67 will try for the third time to increase our taxes. As the Bostonians dumped the English tea into the ocean to solve their tax problems, let's solve our tax problems by voting no on Saturday, March 6.
Even though the number of children in School District 67 is declining, our school officials want more of our money.
Since there seems to be no way of removing taxes once they have been imposed upon us, let's dump this tax issue once and for all by voting no on Saturday, March 6, and force efficient planning and budgeting by our school officials.

District 67 Board welcomes meeting with teachers

Dear Editor:
District 67 teachers recently voted to name Local 1274 of the A.F.T. as their bargaining agent. That kind of open election for purpose of designating a negotiating representative was requested by the Board last April. Negotiations for a '75-'76 contract terminated in April on that very issue. The teachers refused to participate in such an election. They maintained there had already been an election. A second one would be acknowledgement that the first wasn't properly conducted. It was "a matter of principle."
The teacher local filed suit against the Board alleging violation of the teachers' civil rights. Months later the finding was that the suit had no basis in law. The Board was successful in motion for dismissal. The judge found

Children need basic training in 3 R's

"These high school kids—they can't even make change for a dollar," a local grocer complained recently.
Such comments come from all directions. Universities are forced to teach grammar school level English classes. Employers routinely give college graduates tests in spelling.
Our school boards tell us our children will be a terrible disadvantage in high school if they do not have junior high instruction in typing, foreign language, shop and home ec.
I hope the voters of district 67 will vote against the bond issue once again. Perhaps the board will get the message and go back to basics in education.

An open letter to the parents of East Maine School District 63

Dear Parents,
Once again our district is in trouble. The School Board, in an effort to align the budget for the 1976-77 school year, has acted "illogically", a phrase used by a Board member. They have lost sight of their number one criteria and cut the heart out of quality education. To quote Mrs. Nidetz, School Board President, "Yes, it affects the quality of education."
One Board member went so far as to say that they are in the business of administering, not educating. Your child is entitled to an education, not administration.
The Board acted upon recommendations by the Superintendent, and his list of cuts did not include many repeated options presented by some of the interest groups who were asked for input. The Board passed upon recommended cuts that will affect every program and child in the district. There will be an added burden placed upon remaining staff and principals by the loss of classroom teachers, instructional coordinators, all but 1 nurse, custodians, secretaries, resource teachers, library aides, and instrumental music teachers, and by administering the reduction and dissemination of physical education, vocal music, art, and speech teachers and social workers. The reduction of these services will hurt children directly and drastically! Will the children be safe in case of emergency without a qualified nurse in attendance? How can an intramural program survive with a minimum amount of time allotted each child per week?
Some School Board members had intelligent suggestions for

Senior citizens against more taxes

As Senior Citizens on a fixed income we are the most seriously affected with each increase in the cost of food or taxes. Even though we are a minority, we are still citizens, and our wishes should not be ignored.
This is the third time we have been asked to vote on a tax referendum covering the same issue. This is of great inconvenience to most of us.
Why can't our District 67 School Board take no for an answer and give a little thought to some old-fashioned budgeting. If you don't have the money, don't spend it. As officials of our School Board it is your duty to look after any and all of the taxpayers' money entrusted to you.
Take a little advice from an old timer. Don't try to balance your budget with more taxes. Make your budget with the tax money we give you, because we can't afford you or anyone else who balances a budget with more taxes.
We ask all Senior Citizens and those on a fixed income to vote no on Saturday, March 6.
Hugh Redden
Mrs. Hugh H. Redden

District 67 Board should face reality

Dear Editor:
It is time the District 67 School Board joined the rest of us in the real world of 1976 where money is tight.
Ten years ago when the school population was zooming, people sighed and dug a little deeper to meet increasing school expenses. Now the school enrollment is dropping but the Board, apparently stuck in the "more money" habit, continues to ask for tax increases.
The School Board should face up to a sad fact of life: the money well is going dry!
We protest the March 6th referendum asking approval of a tax increase of \$48 on a home with equalized valuation of \$10,000.
It is time to call a halt!

St. John Lutheran joins Lutheran Hour Sunday

St. John Lutheran Church, 7429 Milwaukee, Niles, will join congregations throughout the Lutheran Church-Missouri Synod on Feb. 29 in celebrating Lutheran Hour Sunday as a day of special prayers for the worldwide Gospel ministry, the Rev. James M. Herzog said.

The Lutheran Hour, with offices in the United States, Canada and 17 other countries around the world, is the largest non-governmental radio operation. Now in its 43rd season, The Lutheran Hour is broadcast by about 1,800 radio stations around the world; is produced in 45 languages and has a listening audience numbering in the millions in 125 countries.

Dr. Oswald Hoffman has been the speaker on the worldwide and domestic English language program since 1955.

The theme for the observance is "Alive in Christ". Paul Wegele, chairman of the Lutheran Hour Committee of the International Lutheran Laymen's League, Gram. It is also co-sponsor of the program, said. "This is the theme is particularly ap-

propriate," he said, "since the main thrust of the program is to proclaim the joys of a life in which Jesus Christ is acknowledged as Lord and Savior."

Wegele, of Bazine, Kan., added, "This was the goal of the program when Dr. Walter A. Maier broadcast the first Lutheran Hour sermon in 1930, when Dr. Hoffman made his first address as Lutheran Hour speaker 21 years ago, and will be for as long as the program in on the air."

About 1,100 stations in the United States and Canada carry the English language program with Dr. Hoffman, with about 50 other domestic stations carrying programs in Spanish, French, Chinese, Japanese, and Finnish.

Besides The Lutheran Hour, the International Lutheran Laymen's League, an auxiliary of The Lutheran Church-Missouri Synod sponsors Preaching Through the Press, a print evangelism program. It is also co-sponsor of the program, said. "This is the theme is particularly ap-

A new era in home climate control begins

About forty-five years ago, scientists began developing a revolutionary heating device that uses the heat of the earth's atmosphere. They called it a heat pump. Today, it is the only commercially available heating system that provides an answer to shrinking supplies of fuel oil and gas.

Basically, the heat pump moves heat from one place to another. Using electricity to run the device, it extracts heat from a limitless source—the heat in outdoor air. During winter, enough heat remains in the air, even on the coldest and cloudiest days—to be extracted by the pump and transferred indoors as clean, flameless heat. And during warm weather, the process automatically reverses, removing excess indoor heat and humidity—like an air conditioner.

In short, the heat pump does the job of both a furnace and an air conditioner. But there's an important difference. The heat pump produces more than 1 1/2 units of heat energy for every unit it consumes. That's better efficiency than any other current heating system.

It's ready. It's ideal for new homes because it won't be obsolete in ten years. It's not dependent on the fossil fuels that may not be available in the future. To the homeowner, that means significant long-term savings on heating costs.

The heat pump is a big step in the conservation of scarce fuels. And here in northern Illinois, the electricity you would use to capture the heat comes mainly from coal and nuclear energy, rather than scarce oil and gas. To get the full advantages of the heat pump, it's important to get a quality product, properly installed and reliably serviced. For the name of qualified installers in your area, call G. W. Berkheimer (Westinghouse Distrs.), (312) 374-4411, or General Electric Co., (312) 496-6356. If you want additional heat pump information, call your local Commonwealth Edison office and talk to our marketing engineer.

Niles police, fire departments commended

A letter of commendation to Mayor Nicholas Blase from a Chicago Fire Chief last week cited members of the Niles police and fire departments crediting them with saving a life during a Feb. 8 fire at the Ryan Travel Agency, 7218 Touhy ave., Chicago.

Commended by Chicago Battalion Chief Robert Montgomery "for their actions (at the fire) which are in keeping with the highest traditions of public employees throughout this land" were Niles policemen Vincent Pelletier, John Katsoulas and Lee Ellsinger; Niles Paramedics LeeRoy Callisen and George

Twariski and Niles Deputy Fire Chief Charles M. Bobula.

According to police, off-duty police officer Pelletier saw the fire around 11 p.m. Sunday evening and reported it. Responding to the call, Officers Katsoulas and Ellsinger, together with the off-duty policeman, investigated the building and observed a man later identified as William Lahey, 31, of Chicago, screaming thru a barred washroom window. The entire area was in flames.

The three officers forced open the rear door of the building which had been jammed shut,

and rescued the civilian, a possible arson suspect, from the flames.

Lahey, who suffered burns over 35% of his body to hands, legs, front and back of his body, was treated by Niles Paramedics Callisen and Twariski and taken to Resurrection Hospital by Niles ambulance.

Lahey was charged with burglary by Chicago police after they uncovered an electric typewriter owned by the travel agency in Lahey's car. Also in the car were bolt cutters and several milk bottles with the odor of gasoline.

Arrested and charged with burglary was a female companion Diane Rivera, 25, who police said attempted to knock down the rear door with her car in a futile effort to save Lahey from the flaming building.

Upon arrival of Chicago firemen, said the letter, Deputy Fire Chief Bobula had the situation well in hand... appropriate action was taken to transport the victim to the hospital with Chicago police supervision and the fire was extinguished.

"Evidence was preserved, a life was saved, and property damage was kept to a minimum

due to the prompt action of these men," wrote Chief Montgomery. "It is a pleasure to know men of this caliber are working our boundary lines. Thanks again," the letter concluded.

In commenting on the letter, Mayor Blase noted his pleasure in receiving the departmental commendations. "I was especially pleased to note that our men extended themselves to assist in an emergency beyond our boundary line."

Day camp registration

The Morton Grove Park District will begin accepting registrations for their 1976 Day Camp Program on Monday, March 1, at 9 a.m. at their Park Office at 6834 Dempster st.

This year's camp will consist of four two-week sessions (5 days a week). Camp periods are as follows: June 21-July 2, July 6-July 16, July 17-July 30, and Aug. 2-Aug. 13. Those parents wishing to register their child for more than one session will be put on a waiting list for the remaining camp periods they are interested in and will be called in April if openings are available.

Camp is open to all children entering grades first thru seventh in the fall of '76. Camp activities will include swimming every day, horseback riding twice a week, field trips, archery, nature lore, etc.

The fee is \$55 per session (2nd session is \$50 due to July 4 Holiday). Maximum per session is 45 children. Non residents may register beginning May 5 and the fee will be one half more the regular rate. No bus transportation is provided out of the Morton Grove Park District area.

Campers living in the Park District area are bused from convenient bus stops near their homes to Harrer Park from where they are bused to their different activities. Campers must provide their own lunch while the camp.

No refunds will be issued after the program begins. A \$5 cancellation fee will be deducted if cancelling occurs before the program begins. Proof of residency will be required at the time of registration.

Tag your pets

Niles residents are cautioned to keep their pets collared with license tags.

"Animals can't talk," said Animal Warden John Morgan Sr. last week. Approximately 15% of the cats and dogs picked up as strays are not identified.

Centel plans \$18.4 million for expansion

During 1976 Central Telephone Company of Illinois plans to spend a total of \$18.4 million for expansion, modernization and additions to its equipment. These expenditures will allow Centel to further improve service to its present customers and also provide for the expected gain of 9,700 telephones during the coming year.

In its Des Plaines-Park Ridge serving area alone, Centel expects the addition of approximately 6,800 telephones. In order to provide sufficient equipment

for this gain as well as for future growth, Centel will spend a large part of its construction and modernization budget on the needed cable, trunks and Central Office equipment.

Planned for 1976 is the addition of 3,400 lines to its Des Plaines Central Office at a cost of approximately \$353,600 for 1976 with a total cost of \$630,600; addition of trunk cables and miscellaneous equipment in Park Ridge at a cost of \$133,900; and several outside cable and conduit installations at an estimated cost of more than \$921,800.

Other major improvements scheduled for 1976 include replacing existing call measuring equipment with more automated tracking gear in both Des Plaines and Park Ridge at a cost of \$96,800; and the addition of a \$140,800 line condition report system to improve testing and repair reporting procedures.

Another \$2.3 million has been allocated for equipment on the premises of new business customers or present customers planning to upgrade existing equipment.

As a result of its expansion and modernization efforts, by the end of 1976, Centel expects to have 67 per cent of its cable underground, 77.6 per cent of its lines equipped with touch calling capabilities and 93 per cent of its customers provided with one-party service.

Besides its operations in Park Ridge, Des Plaines and surrounding communities, Central Telephone Company of Illinois serves customers in the Dixon-Savanna area in the northwest part of the state, as well as Pekin and surrounding communities near Peoria. It is one of the largest divisions of the Centel System which serves almost 1.3 million telephones in nine states.

Attends sales school

Howard L. Sorkin, 8701 N. National, an Equitable of Iowa associate in the Chicago Agency, is attending a one-week Advanced Sales School at the Company's Home Office in Des Moines, Iowa. Mr. Sorkin qualified for the school by fulfilling special sales and educational requirements as a life underwriter with the Equitable of Iowa.

Kindergarten registration in District 64

The District 67 School Board mailed a plea for referendum support to all homes in the school community. "The Chalkboard" is a quarterly news bulletin. It has been used for many years to keep all the taxpayers in the district aware of school events.

The most recent issue urges voters to vote favorably on raising the educational tax ceiling from \$1.62 to \$2.10. The article cites inflation and decrease in State aid

as factors that deny continuance of present programs.

Advocates of the tax increase hope that the recent "Town Hall" meeting, and widest possible notice of the rate increase issue, will bring out a record vote. The same proposition was defeated last November by 13 votes with over 2000 voters cast. It is expected that more voters will turn out on March 6th.

Registration for children entering kindergarten next fall will be held according to the schedule listed below:

Carpenter - Monday, March 1, 9-11:15 a.m. and 1-3 p.m.

Edson - Tuesday, March 2, 9-11:30 a.m.

Field - Thursday, March 4, 9-11:15 a.m. and 1-3:30 p.m.

Franklin - Wednesday, March 3, 9-11:30 a.m. and 1-3:30 p.m.

Jefferson - Monday, March 8, 9-11 a.m. and 1-3 p.m.

Madison - Tuesday, March 9, 9-11:15 a.m.

Merrill - Wednesday, March 10, 9-11 a.m. and 1-3 p.m.

Roosevelt - Thursday, March 11, 9-11:30 a.m.

Washington - Friday, March 12, 9-11 a.m.

A child must be five years of age on or before Dec. 1, 1976, in order to register and start kindergarten next fall. If you do not have a valid birth certificate you may obtain one by contacting the Bureau of Vital Statistics, 130 N. Wells St., Chicago, if your child was born in Cook County. A \$2 charge is made for this copy.

Rita Janus, a Marillac High School senior and daughter of Mr. and Mrs. Robert Janus, 8735 Oriole St. in Niles, recently won a scholarship to National College of Education in Evanston. The scholarship which covers half tuition for four years, was awarded to Rita on the basis of competitive examinations. Rita is president of the National Honor Society at Marillac High School.

Winners will be chosen in the four categories of: A - Pre-School and Kindergarten; B - First and Second grade; C - Third and Fourth grade; D - Fifth and Sixth grade. Prizes will be books, records and puzzles, and will be awarded at a special program on Saturday, June 12, at 2 p.m. Refreshments will be served. Original pictures will be accepted in any medium, such as crayons, paints, collage, and yarn. No tracings or copies will be accepted and no 3-dimensional work. Large, bright, decorative pictures are preferred because the purpose of the contest is to provide a bright, cheerful entrance to the Children's Room. All entrants must be residents of Morton Grove. If a child attends a Morton Grove school but lives outside of Morton Grove, he is not eligible. Each picture must be labeled with name, address, telephone number, age, school, and grade.

LA VENECE offers food

"fit for a king"...

ANDY SOTHROTOULOS, owner of the popular La Venece Restaurant, 8743 Milwaukee ave., Niles, has an interesting history: The former King of Greece, Constantine, for example, is Andy's godfather, so it could be said that this young man was born to the purple.

ANDY also has an interesting history in the field of culinary arts. At the age of 14, he worked in restaurants after school and on weekends. He managed to save enough money after several years to complete his formal education which is today equivalent to college.

ANDY has worked in every capacity in the restaurant field from a busboy to an executive chef. He has worked in many top name restaurants both here and abroad, such as the Ambassador East (Pump Room), The Stevens, Blackstone Hotel (where the Presidents used to stay), Fritzens, and others of comparable character.

ANDY took special courses in this country in the culinary field whereby he learned the importance of food quality control, a technique which he employs today in running his La Venece Restaurant. That is why the excellence of foods served in his famed eatery never vary from top quality. There is an old saying that one can get a "bad" meal in any restaurant no matter how great its reputation may be. But because of Andy's food quality control it just can't happen when you dine at La Venece.

LET ME give you a first instance: last week I ordered two center cut pork chops (it is very difficult to get good pork chops I have discovered) off the La Venece menu and they were excellent. Yesterday, I again ordered pork chops and they were just as juicy and delicious as the ones I have previously received. This is because of Andy's quality control method and it applies to all the entrees on his entire menu.

ANDY IS A MAN who takes care of his store. He knows his business and he makes it his business to see to it that his personnel from his dishwashers to his executive chefs perform in a topflight manner. Now you know why the water glasses sparkle in La Venece and you never get a cup with lipstick on it!

His waitresses, many of whom have been with Andy since he took over the ownership of La Venece, are very experienced and extremely courteous and treat customers as though they were king. Customers for any business are not always right but at La Venece they are always treated as though they were RIGHT!

HIS KITCHEN personnel are the finest and most dependable obtainable. For example, his executive chef is Jim Niforos, a mature, immaculate gentleman with more than forty years of experience in the quality preparation of foods. He "earned his dues" by working in every type of restaurant imaginable, including the finest top name emporiums in the U.S. and continent of Europe. He is ably assisted by his son Ted Louie Niforos, who is following in his father's footsteps. He could, of course, have no finer teacher and mentor.

Two top flight cooks, John Fragiskakis and Crist Nikolopoulos, round out the compliment of kitchen personnel. This experienced staff insures that your food at La Venece is served to you piping hot and the way you ordered it.

THEIR KITCHENS, work tables, pots, pans, etc., which I have personally inspected, are spotlessly clean and sanitary and a credit to all laws of sanitation.

NOW IN THIS ISSUE is a full page ad which is appearing in ALL five BUGLE NEWSPAPERS covering the entire area. It heralds a "Spring Preview of Values" and consists of the following:

BREAKFAST: a free dish of oatmeal with any breakfast off their regular menu.

LUNCH: a chef's special (entrees changed daily) for only \$1.75.

SENIOR CITIZENS: 20% off any items on menu daily — Monday thru Friday (except steaks and chops) 2 to 5 p.m. only.

DINNER: you can receive a free (made to order) Caesar Salad with every dinner on menu (except Sunday). As the actress Melina Macouri many times said, "Never on Sunday!"

And finally, GREEK NITE every Tuesday. On Tuesday authentic Greek foods, Greek salad, bread, and those delicious Greek pastries, made with loving care by the skillful hands of Andy's charming wife, Bess.

So, to sum up: for food quality unsurpassed, reasonable prices, and superb service with a smile, amid an atmosphere of friendly hospitality, you can't find any place finer than La Venece in the All-American Village of Niles, superbly administered by another great American Greek, the honorable and able NICHOLAS B. BLASE!

I'll give you 2 to 1 the next time I again order those delicious center cut pork chops La Venece is famous for the check will be on the house. Any takers?

P.S. I join with your many friends, customers and all your co-workers at the Bugle newspapers in wishing you, Ione (Pinky) Pinkert, a speedy release from the Skokie Valley Community Hospital and a complete bill of health on your ulcer. When you're home I'll send you a pizza, french fries, potato pancakes and a big dill pickle!

967-9103, or Ken "Mousy" Fiegelman, 763-7875, or send your name and address to: Imperials, P. O. Box 474, Skokie, 60076, so your name may be added to our mailing list.

Weigh and Pay! Something new at Jake's

Jake Joseph, owner of Jake's Famous Restaurant of Niles, does it again.

That wily old promoter Jake says, "You might be worth your weight in gold - money that is."

If you order a choice Butt steak with all the trimmings or a Skirt steak, before you pay your check, step upon the scale which will be located up front in the restaurant near the cashier. For example, a choice Butt steak with french fries, tossed salad, rolls and butter sells for only \$4.75, which is a low price for the quality anywhere. If you weigh 130 lbs., you pay only \$2.60. You see, you pay but 2 cents a pound for your weight. If you're one of those model-like petite young gals and weigh only 100 lbs., you pay just 2 cents a pound or a total of just \$2. Thus, this petite person would save \$2.75 on the \$4.75 choice Butt steak.

This "Weigh and Pay" promotion goes into effect Monday thru Thursday, March 1 thru 4. All persons, 18 years or older, are eligible to step on the scale and pay 2 cents a pound of their weight for either a choice Butt steak or a Skirt steak for \$3.85. If you weigh 300 pounds you still only have to pay \$4.75 for the Butt steak or \$3.85 for the Skirt steak - so how can you lose? And if you weigh 300, you've lost the battle anyway. Anyone, 18 years old or older, is eligible EXCEPT MIDGETS. This is just in case Bill Vecek might try to pull a fast one and send up a bunch of midgets. Besides Jake's steaks are too big for midgets to eat anyway.

"The Beauty Part" The Open Stage Players will perform "The Beauty Part" on Sunday, Feb. 29 at 7:30 p.m. at the Center, 5050 W. Church Street, Skokie.

The Performer

(by Ed Hanson)

Jerry Vinar, a young man whose career was moving upwards when it was interrupted by a 4-year hitch of service in the armed forces, says, "I'm very fortunate to have sung everywhere and anywhere. Little non-descript clubs in Los Angeles, little bistros in New York, Korea, Viet Nam, industrial shows in Chicago, Women's Clubs, and many affairs that have long since been forgotten except for one thing - I sang at those 'affairs' and nobody ever forgot that."

"I earned my dues. I can tell you. I've developed over the years a successful act. And that consists of a very definite aura of informality no matter what size the stage or the 'room'. Spontaneous humor, a little audience participation, some small talk between some members of the audience, and a special kind of warmth that I, as a performer, feel is able to communicate to any audience. The songs I sing vary from a ballad, a punch song, soft rock, the tricky song, the light song, the ethnic song. With those thoughts in mind you basically know what I do and the kind of program I present.

Jerry Vinar, who is now recording what he hopes will be a "hit" record, is available for industrial shows or anyone who requires the services of a professional entertainer to perform at any kind of function where a pro performer can be appreciated. He can be reached at 298-6344 or by writing Jerry Vinar, 8651 Gregory Ln., Des Plaines, 60016.

Bicentennial film at Niles Library

The Niles Public Library, in conjunction with Oakton Community College and the Niles Bicentennial Commission, will present Alistair Cooke's America, Part XII: The First Impact and the American Issues Forum as part of its Bicentennial celebration on Tuesday, March 2.

This month the film deals with the elements of American life which Alistair Cooke liked well enough to want to stay. The film will be followed by the American Issues Forum discussion. The topic for this month is The Land of Plenty and covers our regional cultures, growth of our cities and suburbs and using the land well or wastefully. There will be a panel of guest speakers and audience participation is invited.

The program will be held from 7 to 9 p.m. in the audio-visual room of the main library, 6960 Oakton, Niles. Admission is free and the program is open to the public.

DINING & ENTERTAINMENT

"Over 25 Dance" at LaRay's on March 20

(by Ed Hanson)

Another "Over 25 Dance" is scheduled at LaRay's Executive Caterers for March 20, 1976. LaRay's (formerly Wellers Elbow Room), at 7225 Caldwell, Niles, will feature "live music" by the RHYTHM-AIRES with their danceable tunes of the late 40s, 50s, 60s and 70s on Saturday, March 20.

Rock bands coming to OCC coffeeshouse

Chicago-area rock performers Liotta, Haynes and Jeremiah will share the stage with another local star, Bill Quateman, at the Sunday night coffeeshouse at Oakton Community College at 8 p.m. on March 7.

With guitar, bass, and piano, Liotta, Haynes, and Jeremiah sing and play everything from quiet blues to cowboy songs, from "Okie from Muskogee" to old Eddie Cantor songs.

The group has played in small bars and clubs around the country, including long engagements at Chicago's Gate of Horn on Broadway.

John Jeremiah, the pianist, and bass player Mitch Aliotta are former members of the Rotary Connection, while guitarist Skip Haynes has performed as a solo in Chicago, San Francisco, New Orleans, Boston, and London.

Together, their music, appearance, and style are as unique and creative as their individual personalities.

A Chicago critic, hailed the group as possessing "the ingredients of classic song literature - a touch of heart, of humanity, of responsibility and even a note of adult regret."

They have performed with Poco, Beautiful Day, John Denver, James Taylor and John Sebastian.

Folk-rock performer Bill Quateman, who has been prominent on the Chicago scene for almost five years, has developed from a performer who stood in the spotlight into a member of his own band, according to one critic. Playing with a largely new group, Quateman's performance has been called "loose and fluid; stronger and more confident" than in his early days.

Quateman has played at the Northside Auditorium Bar on Clark st., at Amizgrace in Evanston, and at many other small clubs and concerts.

Recently released from an independent recording contract, Quateman looks forward to singing on another label and producing a record this spring. Members of his band are Doug Rodriguez, guitar; Andy Potter, drums; Ira G. Karb, piano; and Rollow Radford, bass.

The coffeeshouse, sponsored by the OCC Board of Student Affairs, is open to the public. Admission is 50 cents for Oakton students and \$1.50 for others.

Blues-inspired singer Corky Siegal, now a solo after several years with the Siegal-Schwab Blues Band, will perform at the March 14 Coffeeshouse.

For further information, contact Lou Pettica, Oakton's Director of Student Activities, at 967-5120, ext. 320.

McDonald's holds "National Store Day"

McDonald's Corporation designated Friday, Feb. 13th as "National Store Day." The Corporation operated its offices with a skeleton staff while personnel left their desks and went into the McDonald's restaurants to work. Roselynn Marsh, Property Accounting Department, and Leona Schaeffer, International Audit Department, worked every area in the Milwaukee & Oakton store from grill to soft drinks. Manager Steve Topczewski wanted to familiarize with them every aspect of the operation.

On "National Store Day" even Ray Kroc himself got into a McDonald's uniform for the day. Don Conely, owner of the Niles McDonald's said: "It's great for the people behind the corporate desks to keep up to date with the store's operations. It keeps the McDonald's team spirit with each and every one of us."

Shown above is Roselynn Marsh, Property Accounting Department of the McDonald's Corporation, learns the basics of fast service at the Niles McDonald's. It was part of "National Store Day" on which corporation staff members visited various McDonald's units to keep abreast of franchise operations.

Oakton film society

Billy Wilder's sophisticated comedy Some Like It Hot will be shown by the Oakton Community College Film Society on Friday, Feb. 27, at 8:15 p.m.

Starring Marilyn Monroe, Jack Lemmon, and Tony Curtis, the 1959 film has alternately been called "the most hilarious American movie made in this generation" and "a serious statement about the Twenties."

Curtis and Lemmon play musicians running from Chicago mobsters after witnessing a gangland rubout. Monroe encounters Lemmon in a train's upper berth and Curtis aboard a yacht in "excruciatingly funny" scenes.

The OCC Film Society is a student organization sponsored by the Board of Student Affairs. Admission is free to OCC and MONACEP students; a 50 cents donation is requested of others. The feature will begin at 8:15 p.m. in Building 6 on the Oakton campus, Oakton and Nagle, Morton Grove.

be difficult to restore it. He agrees cutting back in proportion to decreased enrollment is probably necessary. But he strongly disagrees with the complete elimination of programs and staffs which were won over the strong objections of preceding administrations.

We have mentioned it previously, the school board unwittingly boxed itself into this problem when it passed a resolution not to close a school next year. Better one school should be closed than entire programs eliminated. Certainly, the \$200,000 annual savings from one school closing would be more beneficial to the district than destroying whole programs which are not likely to be renewed.

The 'uniqueness' of the school district has been its catering to individual students. The children aren't simply numbers and statistics, and they can't be computerized and moved about by checking ledger sheets. District 63's long suit has always been its ability to cater to each child.

If only a very few students are in the instrumental music program, that is not reason for eliminating it. Allowing each child the opportunity to explore this field is more important. Certainly, we're not using the phony argument a potential Jascha Heifetz may be denied by cutting out the program. But presenting each child this opportunity is the credo District 63 was built on in the pre-Gogo years. The argument holds true in the arts program, the physical education program and even the club programs.

Three years ago we spent a few days in Russia. And while that quick visit does not give us any expertise, we were greatly impressed by the after-school programs which every student was involved in. They attend the Pioneer Palaces as an ongoing part of their education. And while we're not able to judge the program, we were always aware of the adults'

Continued from Page 1

abilities in the field of music. Each night we visited different relatives, and friends of relatives, and each night there were pianists and accordion players in attendance. The irony of our free society having a minimum interest in the arts while making the arts, crafts and sports a compulsory part of the Russian children's lives was evident. We're not smart enough to draw conclusions from this contrast.

Lastly, the one unknown factor no one can foresee is what moneys the school districts will be getting in future years. District 63's financial position is superior to most districts according to school officials. Thus, if they find themselves neck-deep in red ink, just about every district in the state will be drowning in its deficits. The state will have to bail out all the districts with increased revenues. Not to do so would destroy the bond markets and the fiduciary make-up of a very substantial segment of the state's society.

Knocking out programs today, as a panicky effort to stem the tide of the inevitable deficits, is likely to present long-range burdens on the community.

Cutting down and cutting back 20% of a program is understandable when the enrollment has decreased substantially. But wiping out a program 100% does not make good sense.

Final approval for the many cut-backs the district is planning will be made when the new budget is approved. Make your feelings known to the people on the board who are representing you, spending your money, and have the responsibility of providing your children with the best education possible. It should be of paramount importance to every parent in the school district.

John Hilkin said the March Blood Drawing would be held on March 4 at the Julia Malloy School at 5 to 8 p.m. "We need a good turnout," said Hilkin.

Mr. Hilkin also reported that the Morte Fuel Tax receipts for January of 1976 were \$29,666.02. He also noted the next budget meeting would be held on Monday, March 15, at 7:30 p.m.

Herb Houndt said Supt. Jim Dahm advised him to make it known that the Pitometer Associates Engineers have been at work trying to pinpoint leaks in our water system, and are sometimes at work during the night. Houndt also stated the Public Works Dept. is taking calls for spraying trees on private property.

Chief Glauner said since some paper work has been reduced, the squad cars are spending more time in the field. Mayor Bode read a proclamation designating the week of Feb. 22 as National Engineers Week.

District 63.

Roberta Morris, 2140 Woodview In., Park Ridge, received 23 votes and Richard Smith, 8412 Oak Niles, received 19 votes. Incumbent school board member Larry Reiss received 14 votes.

In an explanation prior to the vote the nominating committee told of the many hours of interviewing and evaluating it undertook in assessing the candidates who appeared before it. It recommended Morris, Reiss and Sostrin.

In the high school vote Thomas Rueckert, and Arlyne Warmack, 7405 Lyons, Morton Grove, were the only candidates to appear before the full caucus and received endorsements for the 2 posts allotted to East Maine for the upcoming election.

During the meeting caucus member Roy Makela, who will be retiring from the high school board after the election, inquired whether other candidates not chosen by the nominating committee were invited to the meeting, since they weren't in attendance. He was assured they were. Makela then criticized the caucus for not mailing each caucus member (37 voted) the question and answer sheets of all the candidates which the candi-

dates submitted. He was told a shortage of money prevented this effort which Makela said had been done previously.

After the meeting Sheri Arrigirion, the caucus nominating chairman, angrily told The Bugle the proceedings were 'dirty' and 'political'. She did not elaborate. Candidates who were not endorsed by the nominating committee and were not present for the full caucus meeting Tuesday night included Louis Kuntz, 9374 Landing In., a District 63 candidate, and Marvin Jensen, 8317 Odell, Niles, a District 207 high school candidate.

In most school district elections endorsement by caucus groups insures election to the school board. In District 63 non-endorsed candidates have consistently defeated caucus-backed candidates.

Con't from Niles-E.Maine P.1 'new one-story postal branch of solid masonry at the northwest corner of the Lawrencewood Shopping Center at Oakton and Waukegan rd. began last July and was projected for occupancy this month.

"One of these days we'll be given an opening date and knowledge of how the facility will operate," commented Marcheschi, who said he has been trying for the last two months to reach "knowledgeable postal authorities for information."

The new postal facility is expected to service the 32,000 Niles population and its projected needs for the next 20 years. Presently, upon completion, the postal building will be designated as a Chicago substation while named a Niles Post Office.

Marcheschi is interested in comments from Niles residents and may be reached thru the Administration Building, 7601 Milwaukee ave.

Board on March 9. ... Mayor Blase commended the approximately 20 Troop 275 boy scouts of St. John Brebeuf Church who attended the Tuesday night board meeting on their interest in village government. "You are to be commended for your involvement and of your parents' involvement in your numerous activities." He told the scouts that in the future some of them may be serving their village or government and "due to your background (in scouting) you will be doing a better job."

Blase said he would appoint a committee to evaluate the Study of Niles report by the LWV "to investigate possible areas for implementation."

vice. "The calls we received during the first week the buses went into the Golden Forties related to the service as "fantastic".

As to complaints received, he said, "In almost every instance the complaint has been resolved." Waiting for buses is at a minimum since riders have availed themselves of a bus schedule.

Operational expenses of the free transportation system from July 1, 1974 thru June 30, 1975 were \$72,000, of which \$42,616 was reimbursed to Niles by RTA. The remainder of the cost was paid under Federal Revenue Sharing funds.

Enactment to continue Federal Revenue Sharing (which ends Dec. 31, 1976) is underway in Congress. Should the federal funding cease according to Kohlerman "we (Niles) would have to take a good hard look at alternate sources of revenue, but the free transportation service would continue."

Periodic meetings, every 2 months, of the Administrator, Village Manager Ken Scheel and Operations Director Rich Albrecht minimize complaints, evaluate policies and resolve any problems which may arise.
