Outgoing board members okay Superintendent's \$42,000 salary

Gogo \$\$\$ go up, teacher \$\$\$ go down

Tuesday night, two outgoing District 63 school board members, Arlene Nidetz and Bill Allen, joined with the majority of the school board to raise Superintendent Gogo's salary \$2,000 to \$42,000, extend his contract for 3 years, and then voted to cut 42.5 certified people from the school

district next fall which Gogo estimated would save the district about \$450,000. Board members who opposed the raise, and sought to table the Gogo increase until after the new board is seated, were Lessin, Larson and Reiss. It is possible new board members may not

agree with the raise, which motivated Tuesday night's action. Teacher Barbara Korb, president of the local teachers' union, read a statement near the end of the meeting accusing the majority of the board for "betraying a trust of the people in the district". She read the board was cutting back

next year because of deficit spending due to decreased revenue. Her statement noted the quality of education was being reduced by cutting special education teachers and the safety of the children was reduced by decreasing the number of nurses in the district. She added, "The effi-

ciency of this board is astounding. How can you claim to have good business sense and cut the educational programs and turn around and renew an already binding contract with an increase in salary? You have a person (the school superintendent) who must

School Elections Saturday

From the Left Hand

by David Besser Editor & Publisher

In Saturday's local School District 63 election we will be voting for Larry Reiss, Richard Smith and Jeanenne Oestreich.

The issues in the district are of paramount importance to District 63 residents and it's incumbent upon them to get to the polls and vote for their choices.

The issues are many and they are interrelated. Boiled down to the essential issue, it is the priorities of the school board which should be questioned.

The school superintendent, who seems to show great expertise in budgeting, has led the way for cutting programs and teachers which will total \$1,000,000 in reductions next year. While eliminating entire educational programs, he was the same man who led the fight for a \$400,000 administrative building addition. And while reducing many areas in the district, he defended not cutting his administrative staff. At last Tuesday's board meeting, board members granted a \$2,000 salary raise to \$42,000. We believe this great inconsistency has contributed to the havoc displayed in the district.

The dominance of the superintendent in school matters is not reflective of any misdeeds in the school's administration. Rather, it is a shortcoming of a weak school board which has created a vacuum filled by the aggressive superintendent.

Lastly, the majority members of the school board have shown a great anger and vindictiveness which questions their mature judgement. Majority votes too often have been made in tandem, displaying political rather than sound critical judgement.

Niles bowlers compete

Saturday, April 10, will be a lucky day for two Brunswick Niles Bowl league bowlers!

James Goodwin, manager of the bowling center, announced that April 10 has been selected as the roll-off date for all of his center's monthly game winners. A total of 48 men and women bowlers will compete for the chance to win a three-day trip to Washington, D.C., May 28, 29 and 30 to the finals of Brunswick's 11th annual "Bowl Your Way To Europe" International Tournament.

The roll-offs at Brunswick Niles Bowl, 7333 N. Milwaukee Avenue, Niles, will begin at 9:00 p.m. The public is invited to attend free of charge.

In the local roll-off, each bowler will roll three games across six lanes. The man and woman knocking down the most pins over their average in a single game will be declared champions and will represent the local center in the national finals.

Goodwin said the two local champions will be competing against 454 bowlers from all over the United States and Canada for a chance at the big prize—an all expense paid trip to Europe! Each Brunswick operated bowling center is sending two local champions to the Washington, D.C. roll-offs.

...of Interest to Women...

Women! Women! Women!

ARE YOU INTERESTED...in the best investment of your life? The LTY is presently engaged in PREVENTIVE MEDICINE...proper exercising should and could become a 'way of life' to you to become a healthy and beautiful woman.

Cardiovascular disease is the number one killer in the United States. In a recent year Coronary Heart Disease (CHD) accounted for 212,000 deaths among women - 60% greater than cancer.

All you need to do is invest from 30 minutes to one hour three times a week to become a NEW PERSON and to help prevent CHD.

The LTY is presently engaged in a health program for women. In our Physiological Performance Laboratory, we are equipped to give exercise tests (an examination of the cardiovascular systems supervised by a physician), which includes electrocardiogram (ECG) - resting and under stress of exercise; blood pressure monitoring; determination of maximal oxygen uptake; pulmonary function; strength and flexibility measurements and determination of ideal body weight.

Many women presently involved in our "fitness program" have proven to exercise properly can be enjoyable as well as healthful.

An EXERCISE TEST before engaging in proper work-intensity exercising is the only SAFE way to enjoy good health.

The variety of physical activities women may enjoy at the LTY is almost limitless. To mention many are; calisthenics, racquetball, tennis, swimming, volleyball, yoga, and jogging.

Why not join the many, many women who have made this very wise investment...and are happier and much more healthy because they did!

LETTERS to EDITOR

SCOTS seek answers for taxpayers

Dear Editor:
Annual Town Meeting is Tuesday, April 13. Voters who attend nowadays can do little more than salute the flag, elect a moderator and listen to reports by the Supervisor and Auditors.

Here are some questions we think Niles taxpayers should ask their Town Board at the Annual Town Meeting at the Skokie Police Station:

1. Isn't it time to take the administration of General Assistance out of political hands? (The GA levy reached \$241,900 this year. It is administered by the Township Republican Committeewoman.)
2. Would it not be more economical to transfer Township Revenue Sharing Funds to the village instead of spending it on separate township programs? (A lot of the six villages have their own Youth, Senior Citizen and Mental Health programs and could use the additional money. The township has received only \$174,900 in Revenue Sharing since 1972.)
3. Is the Town Board's policy of granting public tax funds to private not-for-profit agencies an appropriate role for government? (The Town Board had budgeted \$258,400 this year for programs. Mental health agencies, a football team, a writers' workshop and an Olympics committee got money. It seems that any area organization can apply for town tax funds.)
4. Should the Town Board tax our property for mental health without our consent? (The taxpayers of Niles Township have never agreed to a property tax levy for mental health. The Town Board budgeted \$219,000 for mental health this year and is considering increasing it to the amount of \$400,000 in 1976.)
5. What is the Town Board doing about the Clerk's charge that the township building staff are used for partisan political purposes?

All of the residents of Niles Township have full-time village government; township government is an unnecessary expense that drains precious revenues from villages and schools. We hope concerned taxpayers will go there to Annual Town Meeting and ask these and other questions of their Town Board. We also hope they will join the SCOTS in the continuing effort to remove the township government from their tax bills.

Sincerely yours,
Phyllis Young

Grateful to paramedics

To The Paramedics of the Fire and Police Dept.

On December 23rd, both units were called to 5620 W. Dempster to answer a call of assistance. The following men worked on me for an hour and a half as I had a Cardiac Arrest:

Harvey Redmond, Barry Sholine, Rudy Malone, Gary Konowitz, Lt. Brady, Bemmel, Larry Hook, and Larry Brent.

If it were not for these men and their devotion and their concern I would not be alive today.

I still have some additional medical procedures ahead of me, but I am optimistic that I will be able to resume all activities within the year.

I and my family, are eternally grateful for the wonderful life saving assistance these men provided me in my hour of need. The Village and their respective Departments should be very proud of them and for initiating the Paramedics Division into their community program.

With kindest personal regards,

I am

Still seeks answer to hospital charges

Dear Editor:

Mr. Richard F. Reeve of Niles wrote to you, in what he thought was a response to my letter of complaint on excessive charge for emergency care at Lutheran General Hospital.

His was no response to my letter. He told me I could choose a cheaper restaurant, a cheaper department store or a cheaper hospital, if I did not like their prices.

My question was why was there so much difference in the cost of emergency service at the Lutheran General Hospital over any other hospital, because in an emergency, you do not usually have a choice.

I have had people wondering with me ever since because they told me about a son jabbing a tool in his arm in the workshop at school and they put a stitch or two in his arm and charged \$42.00 for it. He did not choose to go there. In another case a woman's daughter injured a ligament in her leg at school gym class. She did not choose L.G.H. but she too paid \$42.00.

I do not question the medical or surgical care at the hospital; the question is their charges. Many others are waiting for the answer. Maybe Mr. Reeve can find the answer and let us know.

Respectfully,
George Hall

MNASR Spring Special Events

With Spring just around the corner, the Maine-Niles Association of Special Recreation has planned many fun and exciting programs for handicapped persons and individuals with special recreational needs living in the Maine and Niles Townships. Children, teens, and adults can now take advantage of the leisure opportunities available to them after schools, evenings, and weekends. They can also participate in weekly special events which will take them to places in the community that they haven't been to before.

The Special events for this Spring promises fun for everyone. On Saturday, April 10, children will be meeting the M-NASR staff at the Mill Run Theater in Niles to see the "Musical Tale of Peter Rabbit". This bouncy musical play will surely delight children of all ages.

With Easter quickly approaching, M-NASR has planned a big Easter Party where children can participate in many fun games, hunt for Easter eggs, make Easter cards and crafts for their family and friends, and learn to do the bunny hop! It even seems that the Easter Bunny will be there with a surprise for everyone.

For children who would like to take a look into the past and see Chicago as it was years and years ago, the trip to Old Chicago on Saturday, April 24, will be an experience they won't want to miss. Besides all of the old shops and restaurants, Old Chicago has the greatest indoor amusement park ever to be built.

On Saturday, May 15, participants can enjoy the beautiful trails at River Trails Nature Center where they will be able to find Springs first flowers, plants, birds, and trees. At the end of the trail, children will find refreshments and many outdoor games awaiting them.

Special events for teens and young adults are planned for the Spring too. Friday evening, April 9, teens and young adults can join their friends at the "Ho Down" for fun and dancing. The Square Dance is a great way to start the Spring season.

District 207 High School Board candidates Arlynn (Lynn) Warmack

Arlynn (Lynn) Warmack, 7405 Lyons st., Morton Grove, has announced her candidacy for the District 207 Maine Township High School Board. She is seeking election to one of the three seats open on the board this year as a representative of the District 63 area. The school board election is to be held on April 10, from noon to 7:30 p.m. at all local elementary schools.

The township high school board is comprised of seven members. Traditionally two seats are held by persons from each of the three major elementary school districts in the township with the seventh position normally filled by a representative on a rotating basis. Lynn stated, "I feel this

procedure has worked well in that it helps maintain an even base of community representation throughout the district."

A fifteen year resident of Morton Grove, Lynn appeared before the East Maine General Caucus and won their endorsement as a qualified candidate. She has a degree in Business Administration with a major in accounting from the University of Tennessee and has had experience in school accounting procedures in addition to banking and general business. Most recently she has served as chairman of the School Finance Committee for the League of Women Voters, as well as serving on the League's Board of Directors. She was a

member of the District 63 Communications Advisory Committee and the District Lunch Policy Committee.

"I have three daughters who have gained their education in the local school districts, two now being students at Maine East High School. My ten years of working with Girl Scouts in the area, plus my own experience as a parent, has made me acutely aware of the effect of school policies and decisions on the students involved. This led me to start actively monitoring the actions and policy decisions of our local elementary school board over six years ago. As my daughters moved into high school, I have taken an increasing interest in the educational and financial policies of the high school district as well.

Incumbents - Roy O. Makela, Anne H. Evans

A citizens committee urges the re-election of incumbent candidates Anne H. Evans of Des Plaines and Roy O. Makela of Niles to the Board of Education of Maine Township High School District 207. This committee points out that serious problems face our high schools in the next few years - problems relating to finance, declining enrollment, staffing, negotiations, facility usage - all of which will have a definite effect on the quality of our secondary education program. When it comes right to tacking these issues, the community needs the experience which these two candidates possess.

Mrs. Evans, 986 Jeannette Avenue, Des Plaines, a Des Plaines Caucus selection, has served the present board as chairman of the Education Committee. In this role she has brought to the Board a review of the various departmental areas and learning resource centers of the high schools, an overview of the district's summer curriculum projects, alternative education programs, and testing and evaluations procedures.

Mrs. Evans has also been actively involved in other Board activities including the Finance committee, Meet and Confer committee, Community Relations committee, and Procedural Agreement for Negotiations Committee. She is also serving as district representative to the Board of Directors of the north Tri-County Subdivision of the Illinois Association of School Boards, as well as alternate delegate to the Large District Council of the IASB.

Roy Makela is completing his third term as a District 207 Board member, and has been drafted to run for another term by citizens of Niles, Des Plaines, and Park Ridge as evidenced by the many petitions filed on behalf of his candidacy in the township. He has served the 207 Board as president, vice-president (3 yrs.) and since 1967 as chairman of the Building and Grounds Committee. On his committee he has turned his skills as a professional

architect to valuable service to the district, guiding the development and completion of Maine North as well as over-seeing the building and maintenance programs at the district's other 3 high schools.

In addition to his work on Buildings and Grounds committee, Makela has been active in all phases of school board work. While on the Education Committee he helped update the written policies and regulations of the Board, participated in an area vocational study; developed a code for student expression, and was instrumental in guiding the merger of the adult evening school programs of Maine Township High School District and Oakton Community College District into what is now called MONACEP, the largest adult evening school program in the state. He is presently serving as liaison from the District 207 Board to the MONACEP Program. He has also been a member of the Professional Relations Committee and a member of the Board's negotiating team. As a member of the Board's Public Relations Committee he helped develop new avenues of communication with the district's many communities and with its teaching staff. As a member of Finance committee he has played a "watchdog" role in making sure the district maintains a balanced budget and a tight rein on expenditures while at the same time preserving its quality education program.

As an architect with Consoer and Morgan, Architects, Roy Makela of 8051 Octavia Avenue, Niles, is the architect member of the Building Ordinance Commission of Cook County. Makela was honored by the Illinois Association of School Boards and the Illinois Association of School Administrators for Meritorious Service to Education.

School Board experience and expertise will weigh in favor of our incumbents when voters go to the polls on April 10. We urge you to vote for the first and last names on the ballot, Anne H. Evans and Roy O. Makela.

Earl Wilson

Earl Wilson, resident of Niles and father of five, recently announced as candidate for member of the Maine Township High School Board elections which will be held on Saturday, April 10.

Two of his children attended Maine East while one is presently attending Emerson Junior High and will be enrolling at Maine East next year. Wilson was born in Philadelphia where he attended public schools. After serving two years in the Army from 1951 to 1953 he attended Temple University and then the University of Pennsylvania. He worked for the Pennsylvania Railroad for over fifteen years in the auditing and accounting departments before going to work for the Railway and Airline Clerks where he now holds the position of Assistant Director of Education and Research.

Wilson has long been active in community affairs both here and in Pennsylvania. He has worked with the Boy Scouts as a Scout Master and later an Explorer Advisor, he was a Director in the Jaycees and Adjutant of his American Legion Post. He is currently a member of the Niles

Bicentennial Commission and is Tenth District Coordinator for the Bicentennial Wagon Train Pilgrimage that will visit this area on May 5 at Arlington Park Race Track.

fulfill a contract for 2 more years and you extend it and give him a raise."

Outgoing board member Allen answered Mrs. Korb and told her the board "walked the extra mile" in working out negotiations with the teachers which resulted in their raises the past year. It was reported it was Allen's vote which pushed the board off dead center, resulting in the teacher-board confrontation being resolved last fall.

Superintendent Gogo told The Bugle Tuesday night the \$450,000 certified personnel cutbacks is about 50% of the total dollar cutbacks for the upcoming year. He also noted the district's cash balance will go down from about \$1,800,000 at the beginning of '75-'76 to \$800,000 for the upcoming year and be down to \$250,000 by the end of the '76-'77 year.

The following personnel reductions were approved Tuesday night: Elementary Art, reduced from 9 to 7 positions; Elementary Vocal Music, 9 to 7 positions; Elementary Physical Education, 9 to 7 positions; Social Work, 10 to 7; Speech, 7 to 6; Nurses, 6.5 to 1; Instrumental Music, 4 to 1; Curriculum Resources, 2 to 1; Junior High Teachers reduced by 18; Elementary Teachers, current number of established positions reduced by 5.

One teacher, Mrs. Gerry Kuntz, told the board she believed it was making a mistake in cutting back the nurses from 6.5 to 1. She told of an unconscious diabetic child in her school whose life may have been saved by prompt action from the school nurse. She also reported a child had a slight aneurysm which left him slightly crippled before the school nurse. She said she did not feel qualified to handle these cases. Emphatically, she said if one life is saved, it would be well worth the cost of the nurses, noting it is "a sad cut (in the budget)".

In other actions Gogo reported a survey will be taken among 6th graders to determine if students are interested in continuing the Russian Language program. He said 13 seventh graders are now in the program and it will be continued through next year. But unless enough students are interested, the board may cut the program saving about \$8,000 from the budget. Gogo said the problem is a dilemma since Maine East will follow the District 63 action retaining or cutting out the program. East Maine is the only Maine Township school district which offers the elementary program.

FROM THE LEFT HAND...

Continued from Page 1

Among the candidates we will be voting for, Larry Reiss is a superior public servant. He lacks the rancor and bitterness displayed by the majority board members and displays great integrity. He once changed his vote rather than split the community in a highly emotional meeting. He said he voted in favor of retaining the neighborhood school system rather than continue to fight for a position which he deemed important. And while we disagreed with him, we admired his sincerity and his interest in the children in the district.

In supporting Richard Smith, he has attended most (if not all) school board meetings in the past 2 years. His obvious interest is manifested by this attendance. He is likely to emerge as the strong board member who is so desperately needed to counter the dominance of the administration. He contends the public has been overlooked in recent years and he emphasizes much fear has been engendered at board meetings by interests favoring certain positions. This 'fear' does not bode well when sound judgements must be made.

We also favor Jeanenne Oestreich as the 3rd board member. Among the remaining 3 candidates, she displays the greatest combination of knowledge, lack of anger and attendance at school board meetings. Her calm equanimity should lend greater stability to what has been a highly divisive school board.

In the Maine Township High School Board elections, we will be voting for incumbent Roy Makela of Niles and Lynn Warmack of Morton Grove and Anne Evans of Des Plaines. It is important the District 63 area support 2 local representatives enabling our area to be equitably represented on the high school board. It is possible District 63 could lose one seat in this election.

In the Oakton College election, we believe all the candidates except Mrs. Juckett of Park Ridge made presentations at Monday night's candidates' meeting which indicated they are well qualified to serve.

Local candidates include incumbent Tom Flynn, a watchdog member on the board who has enormous energy and talent and who will receive one of our votes. A second vote will go to former Nilesite Bruce Friedman (Booby's Restaurant), who is a very impressive young man who has an enviable record of scholarship — and in his mid-20's, is employed by one of the most prestigious law firms in Chicago, a position which only a highly-qualified young man could be selected for.

Incumbents Hartstein and Gilson, founding members of the board, are outstanding candidates. Des Plaines resident Ira Feldman and Lincolnwoodian Stanley Harris also seem well-qualified. The choices are difficult, but the community will be served well by any of these 6 candidates.

Oakton College Board candidates

Ray Hartstein

Ray Hartstein, founding Chairman of the Board of Trustees of Oakton Community College and Chairman for four of the last seven years, who is seeking reelection on April 10 to the Board, spoke last night to a large audience at the college on "Criteria For Board Selection".

In evaluating an incumbent most people normally ask, "What have you done?", and "Are you qualified to serve?", he said. "What the real measure is, can you cope with the future?"

Besides aiding in the establishment of the college, Hartstein has been involved in every aspect of the growth and development of the college from 1969 to date. "We are rather proud of our record at the college," he said. "Having started 'from scratch' in 1969 with no money, no curriculum, no faculty or administration, and no facilities, we built a 'top-notch' fully accredited college now providing educational services for over 20,000 citizens of the area, with only 800 students when we opened."

In addition to a major campus, Hartstein noted that Oakton has also provided satellite campuses where students can take courses near their homes or workplace. "While building the college we carefully considered the plight of the taxpayer and reduced taxes four years in a row and still

continue to provide a high-quality low cost education as costs of other colleges skyrocket," he said.

The North Central accrediting team recently gave Oakton high marks for an outstanding program, excellent faculty and a very fine educational environment. "We must build on this healthy base as we progress toward maturity," Hartstein added.

Hartstein has an extensive background as a competent businessman and educator. He currently is Director of Personnel and Industrial Relations for Brunswick Corporation. Previously he served with the U.S. Embassy and as a General Motors executive. In addition he has taught at Yale University and many other universities in the U.S. and abroad, established many educational institutions and served on a number of government task forces and educational Boards.

Oakton College is entering a very crucial period. State Boards and agencies are attempting to restructure the curricula and limit the course offerings, revamp the financial setup and curtail or limit the operating and capital funding, and trying to slow-up production of the campus facilities by changing specifications.

Hartstein's business, financial and educational know-how and

his experience and understanding of these problems and his working relationship with key personnel and state agencies can aid immeasurably in protecting Oakton's base.

Ray Hartstein is on the Board of Directors of the State Trustee and Chairman of the State Trustee Educational Committee. He not only represented the Board with local officials and agencies, State agencies, the Governor and Legislators, but has testified before a U.S. Senate Committee on behalf of community colleges.

In concluding his talk, Hartstein summarized "Criteria for Board Selection":

- Thorough understanding of business concepts.
- Tempering business decisions with an understanding of education and more specifically understanding a community college — a unique institution.
- Being alert to the needs of the community both present and future including student and faculty needs, needs of feeder groups at high schools and elementary schools, needs of universities and employers and those of civic groups.
- Having a personal interest and desire to serve — willing to give unselfishly of one's time and energy.

Paul D. Gilson

OCC Trustee Paul D. Gilson is a candidate for reelection to the Board of Trustees for Oakton Community College.

A member of the OCC Board since the college was founded in 1969, Gilson served as chairman of the Board in 1973-74. He is currently serving as the chairman of the OCC Facilities Committee, overseeing and planning the \$24 million permanent campus, which is now in the site development phase of construction.

Gilson also served as chairman of the Site and Facilities Committee at the time that the permanent site was acquired.

The continued growth of enrollment and staff at Oakton and the construction of the new campus during the next three years will require seasoned and experienced Board members, Gilson said. The commitment to an "open door" policy and quality higher education must continue without an undue economic burden on the taxpayer or student, he added.

Gilson points with pride to the fact that OCC has grown to an enrollment of 6,000 students, accepted responsibility for the 12,000 student MONACEP programs, pays rental and taxes on its interim facilities, and paid for the 170-acre permanent campus site and the college's share of Phase I of the new campus construction without any increase in the 1969 tax rate and without any bonded indebtedness.

He plans to press for the accelerated construction of the permanent campus, continue the search for a potential site for a Niles Township campus for OCC, extend OCC programs for women returning to school, senior citizens and vocational training, as well as secure regional and national recognition for the college and its programs.

Gilson will be a candidate for one of three seats open on the OCC Board of Trustees on April 10.

A resident of Skokie since 1955, Gilson is the Director of Energy Conservation and Environmental Programs for the Federal Energy Administration. He is responsible for all federal conservation programs in the states of Illinois, Wisconsin, Minnesota, Indiana, Ohio and Michigan.

He is a mechanical engineering graduate of the University of Illinois at Urbana and a registered professional engineer. Prior to his present position with FEA, Gilson served as director of training and staff at the National Training Institute, Occupational Safety and Health Administration, U.S. Department of Labor, in Rosemont.

He is a member of a number of professional associations, including the American Society of Heating, Refrigeration, and Air Conditioning Engineers, American Society of Safety Engineers, and the Society of Automotive Engineers.

In 1971, he was selected as the "Professional Employee of the Year" by the Chicago Metropolitan Area Federal Executive Board. In 1974 he received the Significant Achievement Award of the Secretary of Labor for his training staff leadership at the OSHA Institute. Recently he was awarded the coveted Presidential Management Improvement certificate.

Gilson served in World War II as a combat pilot and recently retired from the U.S. Air Force Reserve with the rank of lieutenant colonel.

His wife Phyllis is a consulting social worker with the Regional Service Agency. A son, Ian, a 1966 graduate of Niles East High School, is presently serving as a resident physician in Minneapolis. Another son, Noah, graduated from Niles East in 1974 and is attending the University of Wisconsin in Madison.

Gilson was endorsed for election to his current term by the Niles and Maine Townships community college screening committee and caucus in 1973.

John J. Prochaska

Mr. Prochaska of Redfield Court, Park Ridge, is married with two children and is a six-year resident of the Oakton Community College District 535. He is employed as an Audit Supervisor by the Federal Reserve Bank of Chicago. A Certified Public Accountant and a Certified Internal Auditor, he received his M.B.A. in Finance and Accounting from Northern Illinois University in 1970, and his B.S. in Finance from N.I.U. in 1966. He was previously employed on the auditing staffs of the Keebler Corp. and General Telephone & Electronics.

Mr. Prochaska has had a continuing interest in the affairs of Oakton College and was a candidate for the District 535 Board of Trustees in 1973, 1974, and 1975. He regularly attends the public meetings of the Board of Trustees, and has developed a working relationship with many of the officials of the college and the board members.

The issues:

1. The construction of the permanent campus remains an issue. Full state funding of its 75% obligation of capital construction must be obtained.
2. A satellite program should be developed in Niles Township, thru the rental of facilities which are not expected to be fully utilized in upcoming years.
3. The use of satellite facilities and completion of the basic campus should provide for a program which I have advocated in the past two years. Offering college level work for college credit to high school seniors, rather than relying on the one test evaluation of advanced placement courses currently offered at the high schools. The institution of this type of program would enable many students to enter their regular college classes with an

advantage in that they have already completed a portion of their basic studies and allow more options in the selection of elective courses.

4. The stress on vocational education at Oakton should be tempered to include an adequate base for future career education. The vocational programs should be of such quality as to enable participants to establish themselves in a career field, and at the same time serve as a springboard for future education. Many area firms encourage and pay for continuing education, and graduating Oakton students should be encouraged to "learn while they earn".
5. There are several additional issues which will require the deliberation of the board of trustees in the next several years. While I have not yet defined my position with regard to these issues, I nevertheless feel that the public should be made aware of them.

- A. Operation of the college while maintaining the tax rate at a constant factor.
- B. Focusing the direction of transfer oriented programs to the requirements of major state universities.
- C. Developing career related continuing educational programs tied to the needs of major occupational groups.

MG managers complete Oakton course

Twenty-four Morton Grove area restaurant and food market managers received state certificates in food service sanitation from Morton Grove Mayor Julie Bode at a dinner on March 29.

These graduates are among the first in Illinois to successfully complete a sanitation supervision class arranged by Oakton Community College thru MONACEP and to pass the certification exam. By 1978, every food service facility in Illinois will be required to meet these revised sanitation regulations.

The Oakton-MONACEP course (developed at the request of the Morton Grove Health Department) is actually a Morton Grove "exclusive", offered first to people with businesses within the village.

Niles North seniors win writing contest

Two Niles North High School seniors were recently named national winners in the 1976 Quill and Scroll National Writing Contest.

Leslie Leeb, 8921 Oak Park, Morton Grove, and Janet Silverman, 9620 Tripp, Skokie, were recognized as contest winners by Quill and Scroll, an honorary society of high school journalists, for stories submitted from the Niles North student newspaper, the North Star.

Leslie received her award for a news story she wrote examining the feelings of Niles Township residents scheduled to be transferred from Niles East High School to Niles North after the former is closed in 1980. Janet was honored for a sports story detailing possible athletic cutbacks at Niles North due to a lack of qualified coaches.

Tom Flynn-Janet Juckett Ira Feldman

Thomas Flynn, Janet Juckett and Ira Feldman today announced they had "teamed up" together in the Oakton Community College election. The April 10 election calls for the election of three OCC Trustees for a three year term. Flynn is seeking re-election and Mrs. Juckett and Mr. Feldman are running for the first time.

Flynn of Niles is an Attorney and Assistant Public Defender. He holds Bachelors and Masters degrees in Business Administration and a Juris Doctor of Law degree. He is a former Community College Instructor of Business and Law. Mr. Flynn was the only OCC Trustee that voted against the 1975-76 OCC local real estate tax increase. He also voted against raising student tuition and fees. Mr. Flynn was a leader throughout North Suburban Cook County in the recent fight to override the Governor's veto of increased aid to local school districts. He is married and has four children. The Flynn family attends St. John Brebeuf in Niles.

Janet Juckett is a Legal Secretary and holds a Bachelors degree in Home Economics from the University of Illinois. She is the widow of State Representative Robert Juckett and the mother of four children. The family attends

St. Marys Episcopal Church in Park Ridge. She is a member of the Park Ridge Women's Club and numerous community organizations. Mrs. Juckett is in favor of improving teaching practices at OCC and is opposed to any tax increase. She supports increased courses for the handicapped.

Ira Feldman is an Attorney from Des Plaines and holds both a Bachelors degree in Political Science and a Juris Doctor of Law degree. He is married and attends the Northwest Jewish Congregation. He opposes the increasing of class size, and supports a closer Faculty-Board of Trustees relationship. Mr. Feldman is a Scout Leader from Troop 12 in Des Plaines and a member of the National Service Organization. He considers his OCC Trustee candidacy a natural extension of his volunteer service activities. Mr. Flynn, Mrs. Juckett and Mr. Feldman stressed they are not running against the other OCC Candidates but rather positively for the Community Citizens, the students, and Oakton Faculty and Staff family. They are interested in serving your best interests as Trustees of OCC. The election is Saturday, April 10, between 12 noon and 7:30 p.m. at your local grade school.

Niles West Drama department honored

Niles West High School drama department has recently received a great honor. They have been invited to perform at the International Theater Arts Conference, which is the "Olympics" for high school theater groups. They are one of only eight troupes who have been asked to perform for the event this June at Ball State University in Muncie, Ind.

Many of the teachers and students are deeply involved in this effort. In addition to the preparations for their performance at the conference, the students must raise \$5,000 between now and June in order to finance the trip.

On April 24, the renowned Second City plans a "day" at Niles West to help them in their efforts. This Second City Day will consist of a morning workshop, an afternoon children's performance and a regular Second City production in the evening.

We would greatly appreciate support from members of our community. Perhaps people would be interested in attending the activities that will be offered on April 24, or else they might like to make a donation.

The times and costs for these events will be:
Improvisational Workshop - 9:15 a.m. - \$5; Children's Theater - 1:15 p.m. - \$1; Evening Performance - 8:15 p.m. - \$4.

A parents' Booster Club has been formed to help the students contact newspapers and merchants in our area. We are trying to reach those people who would be interested in becoming a Benefactor, Sponsor, or Patron.

Benefactor - \$50 for 10 tickets to the evening performance; Sponsor - \$25 for 1 ticket to each of the day's events; Patron - \$10 for 1 ticket to the evening performance.

The names of the Benefactors and Sponsors will appear in the program for the evening.

For further information, you may call the Director of the department, Mr. Bob Johnson at 966-3800, ext. 287.

Northwest Symphony free concert

Members of the Northwest Symphony Orchestra will present a free public concert on April 12 at 7:30 p.m. at the Lutheran Home and Service for the Aged, 800 W. Oakton in Arlington Heights.

Perry Crafton, conductor, will direct the ensemble in excerpts from Giacomo Puccini's familiar and ever popular opera La Boheme. Soloists will be provided by the Northwestern University Opera Workshop, Robert Gay, director.

The music for this occasion is being sponsored by a grant from the Music Performance Trust Funds (Mr. Kenneth E. Raines, trustee), a public service organization created and financed by the recording industries under agreements with the American Federation of Musicians. The grant was obtained with the cooperation of the Chicago Federation of Musicians, Local 10-208, A.F.M.

The Northwest Symphony cordially invites you and your family to attend.

ED HANSON

"Tomorrow is another day"

Ron, the owner of Brick Automotive on Milwaukee ave., near Harts Road, Niles, gave me an interesting item from the Chamber of Commerce of the United States. Here it is:

If all the world were reduced to a town of 1,000 people, in that town would be 60 Americans. The remainder of the world would be represented by the 940 other persons.

The 60 Americans would have half the income of the entire town. The 940 others would share the remainder of the town's income.

Three hundred and thirty people in the town would not be classified as Christians. Six hundred and seventy would not. At least 60 townspeople would be practicing Communists. That's more than our whole nation. Seventy others would be under Communist domination.

White people would total 303, while non-white would be nearly 700.

The 60 Americans would have a life expectancy of 70 years. The 940 others could expect to live not more than 40 years.

The 60 Americans would have 15 times as many possessions as the average of all the rest of the people in the village.

The 60 Americans would produce 16% of the total town's food supply. Although they eat 62% above the maximum daily food requirement, they would either eat most of what they grew, or store it for the future at enormous cost.

Since most of the 940 non-Americans would be hungry most of the time it could lead to some ill feelings toward the 60 Americans, who would appear to be enormously rich and fed to the point of sheer disbelief by a great majority of the other townsfolk.

Of the 940 non-Americans, 300 would have Malaria, 85 would have Schistosomiasis, 3 would have Leprosy, 45 would die this year from Malaria, Cholera, Typhus and other infectious diseases. One hundred and fifty-six will die from starvation and malnutrition. None of the 60 Americans will ever get these diseases and will probably never worry about them.

The 60 Americans would each spend \$67 a year on liquor and tobacco, but less than \$20 for the drugs needed for the finest medical care in the world and they would be loudly proclaiming that medicine costs too much. We're a very interesting people.

As I said in my last column, "tomorrow is another day" and a quitter never wins or a winner never quits and that's why all horse players die broke... any who, a guy by the name of Jimmy Bee gives me a horse called Prairie Princess in the last race at Sportsman's last Saturday. I bet a ton and oh, boy -- did she run! Wins the race like a champ and pays boxer mutuels.

So this time I float into the Queen of the Sea like I'm on Cloud Nine. "Capt. Tex," I say to this big, mod dressed guy with the Fu Manchu mustache. "I bet all my money on a bobtailed nag -- only this time I won!"

I then went into the dining room and had a big fish feast with their big, tasty, wonderful fish platter. The Queen of the Sea was really jumping that night and people were waiting in line, lots of 'em, for a table. The bar and lounge were packed with folks having fun.

Later I had my caricature drawn and Capt. Rick put it up on the wall and everytime I walk by it, I stop and applaud my pretty face.

You can have your picture made, too, if you go into the Queen of the Sea. The other day a guy came in and the artist asked him his name. "Dorian", the guy said.

"And your last name?" asked the artist.

"Grey," the guy replied, adding, "so, don't paint my soul."

The "Million Dollar Man" at Skokie Trust & Savings Bank

As Gerald R. Swearingen, vice president and director of marketing for Skokie Trust & Savings Bank, views his colorful career in the banking industry is the last place he ever expected to be.

But his experiences in past years have resulted in his reputation today among fellow bankers and community leaders as a man who willingly tackles unique projects and sees them through to successful completion.

In his role as director of marketing at Skokie Trust, a full service bank, Swearingen depends heavily on the showmanship he mastered years ago.

"For one brief period in my life until circumstances changed," he says, "I was well on my way to being a pretty fair professional musician. I liked audience appearances then, just as I enjoy them today."

Swearingen launched his successful career at the Skokie Bank five years ago as assistant vice president for instalment loans. To this position, he brought a substantial background as a specialist in automotive sales and financing.

"Despite our automotive centered economy," Swearingen says, "bankers who thoroughly understood the instalment loan area, particularly in auto financing were somewhat of a rarity ten years ago. I was fortunate that my background was ready-made for this growing activity."

With the zest he constantly exhibits in approaching every job, Swearingen increased the bank's instalment loan portfolio from less than seven hundred to more than four thousand loans in four active years.

Today, among all Chicagoland banks, Skokie Trust offers a low

8.6 annual percentage rate on auto loans, an attraction that has brought legions of new car buyers to the bank at 4400 Oakton.

If you just happen to take advantage of the bank's modest rate, the chances are excellent that you'll receive an appreciative personal letter from Swearingen especially if this is your first experience with Skokie Trust.

Even with his broad area of responsibilities, he programs himself to write and call as many new customers as possible inviting them to use any or all of the bank's many other services.

In his years at Skokie, Swearingen has been closely involved in many of the changes in the bank's operation unseen to the public, as well as visible changes in public service areas.

"The steadily increasing instalment loan volume," he pointed out, "dictated the need to install computer processing equipment. Too, we remodeled areas within the bank to provide each potential loan customer with the utmost in privacy."

To formalize his banking education, Swearingen attended the graduate school of banking at the University of Virginia for three consecutive summer sessions.

During this experience, he was named vice president and cashier and immediately involved himself in an extensive refurbishing program. The warm relaxing decor greeting customers today is evidence of Swearingen's colorful personality.

This quality is a vital factor in his position today.

"Bank marketing," Swearingen says, "involves careful, constant attention to all our customers large and small numbering more than twenty-four thousand."

Gerald R. Swearingen. Thus at regular intervals, he personally calls on the bank's large commercial accounts to acquaint them with changing policies and new services. For the thousands of others that he can't meet personally,

Swearingen's office is the focal point of an unending stream of new attractions, promotions and premiums which he inspires and evaluates for use.

Featured on one wall in his office is a colorful portrait of a circus clown, a remembrance of the bank's last Halloween promotion when Swearingen donned the costume to entertain young depositors.

Surrounding tables hold an array of games, premium items and giveaways under consideration for the bank's promotional program.

Life many of his fellow bankers, Swearingen accepts the department store atmosphere as a way to gain depositor attention and build good-will.

"While any one customer may be particularly attracted to a

specific premium and a special bank service, premiums offer us the opportunity to show and tell customers about other services we constantly offer."

In the last eight years, Skokie Trust & Savings Bank has more than doubled the total assets which seemingly indicates highly responsive depositors. For the year just ended, Skokie expects to post total assets in excess of 67 million dollars.

Swearingen takes this growth in stride, feeling that if you genuinely try to serve the community you can reasonably expect their support in return.

In his "off-hours" he devotes much time to banking groups, Kiwanis and other service organizations. Right now, he is deeply immersed in raising funds for scouting.

Marks 24 years at First National Bank of Morton Grove

Two dozen flowers are presented to Lucille N. Field, assistant cashier at First National Bank of Morton Grove, by bank president Marvin von Aswege. The occasion was Mrs. Field's 24th anniversary as a bank employee. A resident of Arlington Heights, she joined the bank a few weeks after it was founded in 1951. Mrs. Field has two children, five stepchildren, and 26 grandchildren.

1st National of Morton Grove moves up among top banks

The First National Bank of Morton Grove has moved up 84 places on the roster of the nation's 2,000 largest banks, according to American Banker magazine.

The publication reported that the bank ranked 1,363rd in total assets as of last Dec. 31, compared to 1,447th a year ago. The announcement was made in the magazine's special "Show-

case of Leading Banks" issue dated March 19. The bank recorded record growth in all key categories in 1975. Increases included 14.2 per cent in total assets; 12.9 per cent in deposits and 44.6 per cent in income. "Last year was one of the most significant growth periods in the bank's 24-year history," said bank president and chairman Marvin von Aswege.

Central Telephone & Utilities Corp. (CTU) and Intra State Telephone Co., Galesburg, Ill., announced March 30 that they have entered into negotiations with respect to the possible acquisition of Intra State by CTU in a tax-free transaction. CTU is the parent organization of Central Telephone Company of Illinois.

The basis of negotiations, announced jointly by Robert P. Reuss, CTU president, and Harold F. Intra State has 393,000 shares outstanding, of which nearly 37% are owned by Illinois Bell Telephone Co.

The transaction is subject to the negotiation and execution of a definitive agreement, approval by Intra State's board of directors and stockholders and receipt of all necessary governmental and other consents and approvals. Located in the west-central part of the state, Intra State serves about 37,000 telephones.

Legion kicks off second flea market

Commander of the Legion Post 134 Raymond Leusch presents \$1,000 check to President of the Auxiliary, Connie Mahnke for work in veterans rehabilitation. The check represents the proceeds from last year's Flea Market.

As the kick-off for the Morton Grove Post 134 American Legion second Flea Market, Commander of the Post, Raymond Leusch presented a \$1,000 check to Auxiliary President Connie Mahnke for their work in veterans rehabilitation. The Auxiliary visits the various veterans hospitals on a regular basis, entertaining the veterans and providing them with gifts and necessities.

The \$1,000 check was the proceeds from the first Legion Flea market held last year which

attracted 70 exhibitors and 3,000 visitors.

The Legion will hold its second Flea Market August 14 and 15, 1976. It is expected that there will be at least 80 exhibitors and that all residents of the area will plan on attending.

Anyone desiring information on space or making a donation of household items, clothing or jewelry to the Auxiliary should contact Flea Market Chairmen, Past Commander Joe Schmidt, 965-0739

Niles Township GOP meeting

An enlightening discussion of the waste in government thru funding of defunct federal agencies and commissions will highlight the 8 p.m. meeting Thursday, April 8, of the Niles Township Regular Republican Organization at the Skokie Courthouse, 8333 Lincoln.

Republican Committeeman John J. Nimrod announced this week that Thomas Roeser, a noted and entertaining lecturer on the topic who has personally studied the federal bureaucracy, has been scheduled as the group's guest speaker.

Roeser is chairman of the volunteer election watchdog organization Project LEAP (Legal Elections in All Precincts).

Also on the agenda, according to Nimrod, is a brief discussion of incidents taking place at the March 16 primary election and Nimrod's own reflections on the growing aggressiveness of local Democrat Party workers in and around the polling places.

Niles Days Committee airs money requests

[By Alice M. Bobula]

The 1976 Niles Festival Days must net \$29,395 to cover organizational requests for this year. Letters asking for the monies were aired during the monthly Niles Days Committee meeting Monday night.

Of the original \$24,895 petitioned by 15 Niles groups earlier this year a \$3,000 request to fund a Bicentennial Ball had been withdrawn in March by the Niles Historical and Art Society due to a change in plans. An additional \$7,500 was voted by resolution of the Days Committee to fund a Bicentennial Community Fair, parade and fireworks scheduled for July 3, 4 and 5.

Ten of the groups asking for '76 funds have received monies from one to nine times previously from Niles Days receipts.

Six of the requesting organizations have a membership which extends out of Niles. Meritorious in their service, the League of Women Voters serves both Morton Grove and Niles.

Group representatives petitioning monies from the Monday night Days Committee were Lions Club of Niles, \$2,500 for the Niles Public Library for purchase of materials for the visually handi-

capped; Garden Club of Niles - \$2,500 to refurbish 60 ten-year-old flower baskets on Milwaukee ave.; Senior Citizens Club of Niles - \$1,500 to cover cost of 7 bus trips; Niles All-American Senior Citizens Club - \$1,000 to defray cost of bus trips for 125 members; Niles Art Guild - \$1,100 to fund programs, artists and demonstrators; Niles Policemen's Benevolent Assoc. - \$1,900 for life insurance for 53 full-time policemen; Knights of Columbus - \$1,200 for purchase of specially designed bicycles for physically handicapped children at Jefferson School.

Also, Maine-Niles Campfire Girls - \$100 for purchase of plants and materials for shut-ins; Niles Baseball League - \$3,000 for purchase of equipment and jerseys; League of Women Voters of Morton Grove and Niles - \$100 for printing and distribution of Voter Guides; Niles Amateur Hockey Assoc. - \$3,300 for insurance and to reduce cost of programs; Scout troops 45 and 175 and Cub Scout Pack 45 - \$925 for repairs of scoutmobile, purchase equipment and fund field trips; and the Grandmothers Club - \$1,000 to cover bus fares for 55 members

for 1976. An additional request received Monday night for \$750 to \$1,000 from the Golden Age Club of St. John Brebeuf was not accepted, according to co-chairman Ben Mankowsky, because of the Jan. 30 deadline established for money requests.

Predicated upon qualification of the letters, the Niles Days Board of Directors will present their recommendations to the Committee at the May 3 meeting. A delegate vote on disbursement of '76 monies will be made at the June 7 meeting.

A record request totaling \$34,836.69 in 1975 had been pared by the Niles Days Board of Directors' recommendations to \$28,150. The 1975 Festival Days net proceeds of \$22,552.47, augmented with a 1974 carryover of \$5,432.64 resulted in a 1% decreased disbursement last October of \$27,868.50 to 15 Niles organizations.

The 1976 Niles Bicentennial Festival planned for Wednesday, July 21, thru Sunday, July 25, is scheduled to be held at the Four Flags Shopping Center, 8251 Golf rd., east of Milwaukee ave.

Oakton, ICDB agree on campus construction

Oakton Community College has reached agreement with the Illinois capital development board regarding the energy and structural system for the permanent campus, according to Paul Gilson, OCC Trustee and Chairman of the Facilities Committee.

Gilson said that he expects that there will be no further delays in the construction program resulting from the design review.

Decisions have been made to construct the building with a structural steel framing and to utilize a heating and air conditioning system which will per-

mit economical recovery of heat. The energy system will be designed to allow for the possibility of incorporating solar heating equipment in the future.

Ray Hartstein, OCC Board Chairman, has been advised that cutbacks in funding for the campus construction program are under consideration. However, he expressed the belief that such cuts will not delay the continuation of the current site development activity or the commencement of building construction this year.
