District 63's school election was a real horse race.

Saturday night we were at Apollo School waiting around for the final precincts to send in their score sheets. It was like former days at the old cigar store. You went from the outer room where they sold cigars and magazines into the backroom where blue cigar smoke hid the tote boards up on the back wall. Oh, it wasn't really like the old days. These nice refined suburban types don't have the two-day growths of the old bookie hanger-oners. And they all looked so clean, and deodorized. They didn't smell from stale beer and there wasn't any gimpy guy who was a "gopher", because he used to go for drinks and cigars and be happy with nickel tips. And they didn't yell. The suburban types were very, very quiet. When the winners got the word they'd won, they gathered in a small huddle and congratulated each other, almost as if they didn't want anyone to know.

There were 7 of the 9 precincts recorded when we sat down in front of the tote board, a little past nine o'clock. Dick Smith had 992 votes, Ann Sostrin 900, Larry Reiss 895, Jeanne Oestreich 869 and Roberta Morris 831. When the 6th precinct went up on the board Smith still led, and Sostrin and Reiss were separated by 4 votes, and Oestreich was 37 votes behind. The Nelson School precinct was the last one outstanding. Someone brought out a score sheet from 2 years ago which indicated Nelson would put the Reiss-Smith-Oestreich trio over the top. But that was 2 years ago and you just never know about these elections. Finally, the phone call came and the expected avalanche of votes for the winners came. The winning trio averaged 370 votes to 85 votes for their opponents. It was all over.

Back at a victor's home it was a happy but somewhat sober victory party. The suburban gals do a lot of hugging—sort of a lean-over-and-rub-the-faces kind of affection. But again, Continued on Page 20.

Free Blood pressure testing
 Free blood pressure readings will be conducted Thursday, April 15, from 4 p.m. until 8 p.m. by the Commission on Community Health at the Niles Administration Building, 7601 Milwaukee Ave.

We urge residents between the ages of 35 and 60 especially to take advantage of this service.

East Maine school district 63 played a key role in the election Saturday of Niles and Lincolnwoods' Bruce Friedman in the Oakton College school board election. Friedman, who received 3,180 unofficial votes finished second to incumbent Ray Hartstein, 3,347 votes and led the 3rd winner, incumbent Paul Gilson, who netted 3,162 votes. All were elected to 3 year terms and will serve until 1979.

Friedman's victory was incredible. Son of a very popular restaurant proprietor in Niles (Booby's Restaurant) Friedman received more than one-third of his votes from the area surrounding the restaurant in the East Maine area. Of his total 3,180 votes, 1,117 came from the Niles-Morton Grove-East Maine unincorporated area in its 9 precincts. There were 52 precincts. Continued on Page 20

Cross and Anchor Club buys new uniforms

Members of the Cross and Anchor Club at Notre Dame High School in Niles recently donated \$900 for the purchase of new baseball uniforms for the NDHS varsity. Earlier in the school year they donated \$500 for picnic tables for use in the cafeteria patio and another \$500 for furnishings in the chapel. Since the foundation of the club in 1956, it has contributed at least \$150,000 to the school. Most of the money donated through the years has come from the operation of three concession stands in the stadium during the home football games and the concession counter in the gym during basketball games and after school. A certain number of boys are also asked to help with refreshment sales at the Bingo games on Wednesday nights in the cafeteria. However, there are two other divisions in the club. Some boys serve as ushers for all school activities, and another group works in the parking lot for parking lot control. When needed, a small group from the sales division also are assigned to coat check work. Rev. Joseph Stroot, C.S.C., is the founder of the club and is the coordinator of all three divisions in addition to being the moderator of the sales division. Rev. William Brinker, C.S.C., is the moderator of the traffic division and Rev. Robert Moss, C.S.C., is the moderator of the usher division. Since this is the

Twelve more students, equally divided between the senior, junior, and sophomore classes, serve on the club's executive board. Oakton defeats Sauk Valley in tennis match

Oakton Community College defeated Sauk Valley College 4-2 in a tennis match played Saturday at Sauk Valley.

The first singles match was won by Oakton's Frank Lux 6-2, 7-6 over Randy Paisley. It was a fine win for Lux because Randy Paisley was a member of the Illinois State Champion doubles team last year in the junior college division, according to Coach Tom Jordan.

Second singles was defaulted to Oakton's Bob Hildebrand when Brad Hartje injured his back and was unable to play. Steve Pales, Oakton's third singles, lost to Tim Huyett 2-6, 7-5, 7-6. The fourth singles was won by Marty Avers of Oakton over Tom Cushman 6-1, 6-0.

Oakton's first doubles team of Frank Lux and Bob Hildebrand lost to Paisley and Huyett of Sauk Valley 3-6, 7-6, 6-1, while the second doubles was defaulted to Oakton because of injury.

Each tennis season, it seems, Coach Jordan predicts a stronger squad than the previous one. He has yet to be wrong.

Winning the Skyway Conference crown the past two years, the Raiders also finished third in Region IV competition during that time.

Respect Life Mass

In this bicentennial year, 200 years since the Declaration of Independence had been adopted giving us freedom and due process of law, the North American Martyrs Council 4338 of the Knights of Columbus, St. John Brebeuf Pro-life Group and Bishop Raymond P. Hillinger 4th Degree General Assembly of the Knights of Columbus are holding their "Respect Life Mass" starting at 12 noon on Sunday, May 2, at St. John Brebeuf Church, 8307 N. Harlem ave., Niles. Everyone is welcome to join us by meeting in the church vestibule at 11:30 a.m.

After Mass there will be the raising of the American and Bicentennial Flags on the church ground, following the release of many balloons by a few of the students of St. John Brebeuf School.

On Nov. 20, 1959, the General Assembly of the United Nations adopted under the Declaration of the Rights of a Child states, "Whereas the child by reason of his physical and mental immaturity needs special safe-

guards and care, including appropriate legal protection before as well as after birth." Every day people are killing people with no regard for human life. Recent events in our country have demonstrated a growing disregard for the sanctity of all life, the poor, aged, sick, troubled and the handicapped.

Our religious heritage requires that we speak out for human dignity and respect for all forms of life. The American system of Constitutional law has proven to be a workable system of law, and one that generally responded to the delicate balancing between defending the common good and human rights on the one hand and personal freedom on the other.

Sorority initiate

Susan O'Connor, daughter of Mr. and Mrs. James O'Connor of Niles, was initiated as an active member of the Kappa Alpha Theta sorority at the University of Illinois on March 5, 1976.

Youth Fund Drive

North American Martyrs Council 4338 of the Knights of Columbus in Niles are holding their 39th annual C.Y.O. Youth Fund Drive until May 21.

Chairman Kenneth Lee and Co-chairman John Imber with Grand Knight Kenneth Piasecki, urge all members to make a special effort this year. Funds go to the Catholic Youth Organization to be distributed toward youth activities as scouting awards, teen clubs, baseball, basketball (girls and boys), physical fitness, track and field and many other activities — also toward a drug abuse program.

For years the Knights of Columbus members have been investing their time, their resources and their energy to keeping our young men and women on the road to eternal salvation. Their slogan this year is "Train up a child in the way he should go and when he is old he will not depart from it." Support your C.Y.O. Youth Fund Drive.

LETTERS to EDITOR

To All Citizens of Oakton College Community:

I want to thank all of you who supported my candidacy and particularly those who worked in my behalf in Saturday's election.

It was extremely gratifying to receive such a large vote for the Board of Trustees of Oakton Community College and to be reelected to your Board for three more years. It was also quite pleasing to find that the vote for our candidates was equally distributed between Maine and Niles Townships and well distributed throughout each and every precinct of the district.

The large vote cast in favor of Paul Gilson and me is, I believe, more than a vote of confidence for us but has special significance for

Thanks from Gerald Sbarboro

Dear Editor: I wish to express my thanks and appreciation to all the individuals who cast their ballots for me in the recent election as well as to thank you for the excellent coverage your newspaper gave the Circuit Court Judicial Primary campaign.

Your thoroughly professional treatment of all the candidates was impeccably objective and even-handed as well as informative, and I feel sure that your readers must have benefited greatly as a result of the job you did.

Sincerely, Gerald L. Sbarboro Democratic Candidate for Judge of the Circuit Court of Cook County (Countywide)

the College as a whole. It conveys a real message of encouragement to all of us who are intimately associated with Oakton, to continue to move the College in the direction in which we have been going as we develop the College toward maturity.

You can be assured that I will do my utmost to live up to the confidence that you have placed in me and now that the election is over I intend to devote my full energies to the development of our College. I also hope that the interest you have had in the College during this election time will not wane during the year.

We are looking forward to your continued support in our every day efforts at Oakton Community College.

Sincerely, Raymond E. Hartstein, Chairman Board of Trustees Oakton Community College

Skokie Health Fair successful

Dear Mr. Besser: I am certainly most appreciative of the excellent and extensive coverage your newspaper afforded Skokie's Free Health Fair conducted here at Skokie Federal Savings. During the month of March we tested over 1100 individuals and discovered many unsuspected cases of high blood pressure, glaucoma and lung inadequacies.

As president of Skokie Federal, I also want to extend my thanks for the wholehearted cooperation of Mayor Smith, Dr. Andelman of the Skokie Health Department, Mrs. Peggy Gilmour of Skokie Office On Aging, Fred Fortune of Skokie Lions Club and Dan Cronin of Jones Medical Equipment Company. It was only through these people and agencies we were able to offer this public service.

Because of the widespread community support I am sure we will have a similar fair again next year.

Yours very truly, John R. O'Connell President

District 67 victors thank voters

Dear Sir, To all residents of School District 67, and the many friends and neighbors who worked so long and so long...we thank you! Now that the election is over and the community has spoken, we hope all residents will now join with us in providing all students in School District 67 a quality academic curriculum and school system we can all be proud of.

Transcendental Meditation Program

"The Transcendental Meditation Program and the Development of the Individual" is the topic for a lecture to be held at Niles Public Library, 6960 Oakton in Niles, Tuesday, April 21, at 7:30 p.m. The speaker, a trained and qualified teacher of the TM program, will be discussing how

Election judge cites inadequate voting facilities

Dear Editor: As one of Niles Township's Democratic election judges, I wish to comment on one aspect of the March 16 primary election in which a large number of our residents were effectively disenfranchised.

Niles Township Democrats were only provided with one voting machine per precinct to cast their ballots. In the precinct in which I worked, about 30 Democratic voters left before signing in because of the up to 90 minute wait before they could get in to vote. Meanwhile, during much of the peak period, the Republican voting machine was empty.

The grumbling on the part of voters who were late to work, or who could not vote at all, is certainly justified. I have talked to other election judges throughout the township who told me that the same number or more could not exercise their right to vote because there was not the machinery to allow them to do so. This means that almost 4,000 residents had their right to vote taken away from them.

This is an outrage, especially in the light of the fact that in other parts of the 10th Congressional District Democratic voters had two machines in which they could cast ballots.

Slogans around election time always assert that it is the duty of voters to come out election day. About 4,000 of our voters who took the trouble to come out found that the machinery was not adequate to take their votes. Clearly, if it is the duty of the voter to come out, it is the duty of the election authorities to provide facilities to give a reasonable amount of time in which to cast those votes.

Sincerely, (Mrs.) Sonya Prince Skokie, Ill.

Grateful to Niles Police

Dear Editor, Thank you to the Niles Police (officer's name unknown) who apprehended two youths for stealing hood ornaments and trunk lock covers from parked cars in the Lawrencewood area. The youths referred to it as being a hobby, they were increasing their collection until they were caught with the loot. This took place on Wednesday, March 31, 1976.

If restitution is the answer to avoiding thievery, report your loss now. The Police are waiting for you to come in and identify your property.

Many thanks to the concerned citizen who reported it to the Police. That was beautiful cooperation. A victim

Talent abounds in bicentennial musical

Talent abounds in the production America We Love You opening April 21-25 nightly at the Jefferson School, 8200 Glendale.

Joe Foltz, band leader, and active in community theater for many years has sung lead roles in a number of Jefferson Theatrical Society Productions (J.T.S.), two of which are "Wanted A President" and "The Happening in Happy Valley". Active in church productions Joe was a featured singer in past St. John Brebeuf and Our Lady of Ransom Festivals.

Veda Kauffman has been a featured lead in all of the J.T.S. productions since its inception. She is active with Our Lady of Ransom, St. Zachery and St. John Brebeuf churches, both as a featured singer and behind the scenes help.

Ed Brash, narrator for the production, is a hard working Niles volunteer who co-chairs the Niles Days Committees. He is a member of the District 71 School Board and is active on the Niles Bicentennial Commission which is co-sponsoring this play with the Niles Woman's Club.

Delores Howard, who wears two hats in the upcoming production, is responsible for the choral directing as well as a soloist. Multitalented Delores choreographed, danced and sang in the St. John Brebeuf Festivals and Woman's Club of Niles productions of "Merry Widow", "Naughty Marietta", "Sweethearts" and "The King and I". Another J.T.S. performer Marilyn Anderson has been active in both the musical and the administrative end of productions as a singer and dancer and executive secretary the past four years. She also has performed in the St. John Festivals. Marilyn plays a gun moll who is supposed to sing off key in this play, but in reality she sings on key very well.

Another community theater activist appearing in America... is Brad Miller. With J.T.S. for the last four years, he played a kalaidoscope of roles in their comedy sketches. He played "Sid" in "The Pajama Game" (Devonshire Park in Skokie), "Curley" in "Oklahoma" (Lincolnwood Community Theater) and has appeared with Theater First in Chicago and the Meyer Kaplan J.C.C. Open Stage Players in Skokie. He also is a member of the Des Plaines Cabaret Troupe.

Having come into America... thru the Woman's Club of Niles, his wife Nancy is a member. Richard Saklah is no newcomer to the stage. As a "lark" he took a part in the Niles Historical Society production "Merry Widow" several years back. Rich has since taken credit for a variety of roles in the Society's operettas, "Sweetheart", "Naughty Marietta" and finally the lead in "The King and I".

Karen Porczak, a lyric soprano has a family that participates. Husband Tom is in the chorus and Tom Jr. plays the trumpet in the show as Joy their daughter cheers them on. Karen took a leave of absence from her job as art instructor for the Niles Park District to sing a lead in the operetta "The Gondoliers" and has been performing ever since. She is a member of the Oak Park Civic Opera Co., The Repertory Opera Theater and was Edith in "The Pirates of Penzance".

Beverly Gale, a member of the Woman's Club of Niles, is new to community theater but not to the stage. She trained for the opera at the American Conservatory of

Music singing in concert there. As Musetta in "La Boheme" with the Loop Opera Company, as Claudia in "Claudia" with the Riis Park Players in Chicago, and musical variety shows with the U.S.O. Beverly's musical experiences were varied. She sang with the Northwest Choral Society and is now the soprano soloist for the Meyer Kaplan J.C.C. Chorus.

Along with the soloist is a hard working cast of very talented people who have been active in community affairs through the years. Unfortunately space prevents us from listing them here. Do yourself a favor and come out to see your community sing and dance its collective heart out in America We Love You! or A Funny Thing Happened on the Way to the Bicentennial. Tickets can still be purchased at the Village Hall, or thru a cast member or thru a Woman's Club member. Buy them today - you'll be glad you did.

The BUSINESS Picture

Cook County Federal's Deane Carroll honored

Blowing a kiss of appreciation and friendship to her fellow workers is Deane Carroll, outgoing Director of Advertising and Public Relations at Cook County Federal Savings and Loan Association. Miss Carroll was recently honored at a luncheon. Joining in on the celebration are Irving Matheson, center, Chairman of the Board, Cook County Federal Savings, and Clayton Johnson, right, the association's president.

A few years ago, Deane Carroll — after serving Cook County Federal Savings and Loan Association for more than a decade as Director of the institution's American history library — told President Clayton Johnson she "had a few ideas to try out" on the depositors. She was so anxious to implement her program, she told Johnson he could fire her within three months if she didn't produce. Now, after four years of producing ideas — indeed, after developing and directing Cook County Federal Savings' first in-house public relations and advertising department — Miss Carroll is leaving for Florida, where she and her husband, Rex Allyn, will begin a new business venture.

Speaking at a recent luncheon for Miss Carroll, Johnson and Chairman of the Board Irving

Matheson praised their publicist as a "devoted worker" who always "realized the importance of a budget", as well as the importance of spreading the institution's name.

A former actress in musical comedy and television, Miss Carroll directed the now-closed American History Museum; a building known throughout the Rogers Park neighborhood as Independence Hall. She also served as a lecturer to visiting school classes. Many young adults still remember Miss Carroll as a person who helped them with history research when they were in school. Thanking her fellow workers for their "sixteen years of friendship and kindness," Miss Carroll said she would always think of them "as part of my family."

Add this handy accessory to your sewing machine for just a few cents a day.

I love to sew. Sometimes I'm in here half the day. What a bother it was to drop everything and run for the telephone. No more. I just got an extension phone. Believe me, it's just as useful in my sewing room as my sewing machine. And the phone's really a bargain. It costs just pennies a day.

Wherever you spend a lot of your time, you need an extension phone. Call your Centel business office to order the phones you need. Why run all over the house?

We'll put you in closer touch.

Edison issues warning to kite-flyers

Kite-flyers Dan and John Collins listen in on some safety tips from Commonwealth Edison Company crew leader John Jacobsma and linemen James Kocinski and Clifton Childress before heading out to an open space and a friendly breeze for the first solo flight this season.

In addition to avoiding "dangerous" places such as areas near power lines, TV or radio antennas, trees, and streets or highways, kite flyers also should follow these other safety tips:

- (1) Make kites from the "old-fashioned" basics — wood, paper, string and cloth. Metal or wire should never be used because they can conduct electricity, causing injury if an accidental contact is made.
 - (2) Never fly kites in the rain. A wet kite string also can conduct electricity or lightning down to the flier.
 - (3) If your kite should happen to be gobbled up by a tree like "Peanuts" character Charlie Brown's, or get tangled in a power line, leave it for his friend Woodstock and the other birds. Climbing trees or utility poles — or entering "off-limits" areas — to retrieve a kite just isn't worth the risk of injury.
- With an open space, a steady breeze and these tips in mind, it's bound to be a safe kite-flying season!

Illinois Bell warns diggers to "call first"

Don't touch that shovel until you're sure it won't cut a telephone line, warns Illinois Bell.

Whether you're excavating a building foundation or merely transplanting shrubs, your digging can interrupt vital telephone service to hospitals, fire and police departments. The company advised contractors and homeowners to check the location of buried cables before breaking ground.

Illinois Bell has more than 38 million miles of wire in underground cable. It is practically immune to wind, snow, sleet and gnawing animals. But power shovels, drills, pile drivers and trenching tools — even garden spades — can do plenty of harm.

Careless contractors and homeowners damaged more than 3,000 Illinois Bell cables last year, disrupting phone service to thousands of customers. Business firms lost sales from broken communications, and emergency

phone arrangements had to be made for essential public services.

In most suburban communities, that kind of damage can be avoided by calling 611, Illinois Bell's repair bureau.

Back yard gardeners should be especially careful to avoid nicking the buried phone cables that have replaced poles and overhead wires in many newer neighborhoods. The service wire usually runs about eight inches underground from the phone cable terminal to the house.

An Illinois Bell employee will come to mark a cable's location. Telephone company engineers meet with builders and contractors who are planning major jobs such as highways and housing developments.

Whenever you're putting around in the subsoil, it's a good idea to call 611 before you dig. The telephone service you save may be your own.

Bicentennial Caravan rolls eastward

In a replay of history in reverse, a Bicentennial Wagon Train Pilgrimage is crossing the country from west to east, originating from Olympia, Washington and finalizing at Valley Forge, Pa., on July 4, 1976.

The Pilgrimage is a project of the Bicentennial Commission of Pennsylvania and the North American Trail Ride Conference.

Sixty wagons are making the journey: 50 representing the States, five chuck wagons and five Pennsylvania lead wagons. All are authentic replicas of Conestoga wagons and prairie schooners.

There are five major segments to the Pilgrimage which will adhere as closely as possible to historic trails and wagon routes across country. Each of the segments will funnel into the main wagon train heading eastward.

Caravans from the northwest States have already merged and were headed down near Ft. Laramie, Wyo., awaiting spring. The southwest segment left Sacramento on October 1; a southern segment left Louisiana and Florida in late January; the midwest (Great Lakes states) are leaving Minneapolis in April and eastern wagons will roll from the original 13 colonies in May and June.

Volunteers from the North American Trail Ride Conference and local riding groups will serve the wagon train as mounted escorts and outriders. These "Bony Express" riders will ride out from the caravan to reach official communities and bring back scrolls from each Bicentennial community signed by citizens affirming their belief in the principles upon which the community was founded.

The midwest segment of the caravan will arrive 4 p.m. Wednesday, May 5, at the Arlington Park Race Track in Arlington Heights. State wagons from North Dakota, South Dakota, Iowa, Minnesota and Wisconsin will meet the Illinois wagon at the Wisconsin-Illinois border on May 4, stopping at the Lake County Fairgrounds.

Brief welcoming ceremonies will greet the Bicentennial wagons at Arlington Heights Wednesday afternoon, May 5. Included in the midwest segment of wagons will be 20 to 30 privately owned wagons and several hundred horses.

Admission is free and the public is invited to a 2 1/2 hour show beginning at 7:30 p.m. Featured will be an Indian attack on the wagons by the Blackhawk-Appalbosian Association. Also performing will be General Custer's famed 7th Cavalry.

Food featuring a beef roast will be offered at cost prior to the show.

Outriders from the caravan will pick up scrolls from nearby communities for presentation to the Illinois wagonmaster. Mayors from outlying communities will present their village scrolls at campfire ceremonies.

As a grand finale the wagon train will stage a 40-minute musical produced and performed by young people from Penn State University's Departments of Theatre and Music. An old-fashioned fire-down is expected to follow the show.

All segments of the caravan will meet at Valley Forge, Pa., on the evening of July 3, then roll on to the Valley Forge encampment for ceremonies on July 4. Wagons will be on display at the encampment for two-and-a-half months.

Bicentennial "flag flying"

Getting ready for some old-fashioned flag-waving, Ralph Hinz (left), Chairman of the Morton Grove Bicentennial Commission accepts a sponsorship check from Clayton L. Johnson, President, Cook County Federal Savings and Loan Association. The money will be used to fund a Morton Grove Bicentennial Commission "Flag Flying" project.

Giving Old Glory a boost up the flagpole, the Morton Grove Bicentennial Commission has announced plans for a "flag flying" program during the period of May 30 through July 4.

According to Ralph Hinz, Commission Chairman, village residents and businessmen will be asked to fly their flag daily during the five weeks of the program as a patriotic contribution to the national Bicentennial celebration.

Cook County Federal Savings and Loan Association, whose new Morton Grove office is located at 9347 North Waukegan Road, will sponsor a Bicentennial Commission meeting explaining the program to village residents, according to Clayton Johnson, president of the association.

Hinz said the members of the Commission wanted to express "their sincere thanks" to Cook County Federal Savings for its sponsorship.

"It is gratifying that our most financial institution has joined with us in this village-wide project," Hinz said. "They are a welcome addition to our community."

Cook County Federal Savings opened its Morton Grove office earlier this year. It is the first suburban branch for the association, which has been serving the Rogers Park neighborhood for forty years.

FROM THE LEFT HAND...

Continued from Page 1

these suburban types are subdued. They don't come out of any Chicago ward office, where victory time means booze and yelling and raucousness. The winners quietly thanked their supporters, they drank a little wine, ate a few sandwiches and it was all over. By midnight the victor's house looked more like the losers' homes. Matter of fact, we passed a loser's home minutes later and that get-together was still in high gear.

Our favorite Maine Township Democratic Committeeman called a couple of weeks ago to let us know how well the Democrats did in getting out the vote for Mike Howlett. Like all of us who have been bitten by the political bug, he got out his pencil and began scratching markings on his score sheet which showed his guys and gals really did a job for candidate Howlett. It's sort of like baseball fans sitting down before the season begins and writing down all their favorite players' names, proving their team is invincible. In the case of politicians, they're indulging in a little political ego-boasting, a little "pat myself on the back to show them guys downtown what a great job we can do out here in the suburbs". Well, newspaper types aren't any different. We play the same kind of ego games, and they're hokey and meaningless... but yet, we still play them. For instance, in the District 63 election we supported 3 candidates who turned out to be winners. In 3 precincts where our newspapers are heavily concentrated, "our" winners received almost half their votes. They defeated their opponents by a 71.5% to 28.5% margin. In the remaining 6 precincts where our papers have a lighter circulation, the opponents garnered 52% of the vote and our guys (and gal) received 47%. Like the politician, the newsman is pat-patting himself on the back for the job the newspaper did. Actually, no one can ever be sure. Newspapers hammering away at issues certainly have an important effect on elections. But it's still the hard-nosed grinding work of the individual precinct worker which determines who wins elections. The gals who sat on the phone Friday and Saturday, and the guys and gals manning (and womaning) the polls are the ones who win elections. It's a wearying, sometimes thankless job. But the workers whose names you seldom read are the ones who get candidates elected. They're a small number of people. They go unheralded, often receiving no recognition for their diligent efforts. But win or lose they're really the winners in all elections. It's their good works which makes the system work.

On the negative side of the District 63 election, the "bad guys" put out a piece of political literature which the "good guys" decried as being downright dishonest. Allegedly, the literature noted one of the school board candidates was being supported by the teachers' union. They contended the name of the candidate was superimposed on the literature leaving the impression the union endorsed the candidate which wasn't true.

On the other side of the issue, union president Barbara Korb did send out a letter to "fellow teachers" recommending they support the winners. It was a dumb effort which marked the sophistry of the union. We had asked Barbara 2 weeks ago if the union would be involved in the election and she assured us it would stay out of the campaign. And while technically she can claim her letter over her signature (on union stationery) was not a union effort, nevertheless a union president's letter of endorsement is indeed a union action. After we had asked her about union activity in the election, we volunteered the opinion it would be a poor tactic, which would rightfully alienate many residents. She agreed with the opinion. Two weeks later she wrote the letter which was used by the losing candidates in a effort to prove the winning candidates were tied to the union.

The hours of registration are 9:00 to 11:30 a.m. and 1:00 to 2:45 p.m. When the child is registered an appointment will be made for the vision and hearing screening. Also, games will be distributed to prepare the child for the program. Parents should practice the games with their child to prepare him/her for the actual screening process to be held April 28th and April 19th. It is important that parents

understand the advantages of this periodic vision and hearing screening, and prompt follow-up if the child does not meet the minimum standards of the tests. Screening is done to find and refer children in need of an examination by a specialist. Each year thousands of boys and girls suffer from uncorrected visual and hearing defects. The critical

period in developing acute vision is between the ages of 1 to 7. Detection of faulty functioning eyes and ears at an early age is the most pressing problem. A child's health, happiness, and success in school depends to a large measure on his eyes and ears. A child's ability to see and hear well is directly related to his ability to learn.

Registration for preschool classes

Application forms are now available at the four Maine Township High Schools for parents who wish to register their children for preschool classes to be held at each of the schools during the first semester of the 1976-77 school year. The forms are available in the main office of all the schools, except Maine South, where applications are available in the Home Economics Department. The deadline for return of the completed application is May 14.

The preschool classes, conducted by junior and senior students under the direction of a certified child development teacher, are part of the "on the job" training of the child care occupations course offered by the Home Economics Departments. These classes offer an opportunity for the Child Care Occupations students to observe the growth and development of young children and to gain experience in supervising their activities.

Ten to fourteen children of preschool age will be enrolled in each class, with both morning and afternoon sessions held, depending on the school schedule. To be eligible for acceptance, children must be between 3 1/2 and 4 1/2 years of age on September 1, 1976.

The programs at all four schools are similar but vary regarding times and days on which they meet. A letter accompanying the application form will explain the specific program at the individual school. To defray the cost of supplies and refreshments, a registration fee of \$25 will be charged.

Maine East is located at 2601 Dempster Street, Park Ridge; Maine North is at 9511 Harrison Street, Des Plaines, in the unincorporated area between Golf and Central Roads, just east of the Tri-State Tollway; Maine South is located at 1111 South Dee Road, Park Ridge; and Maine West is at 1755 South Wolf Road, Des Plaines.

Speech Competition

Maine East's speech team placed fourth this week-end in the I.H.S.A. district competition. Individual winners from Maine East who qualified for upcoming sectional competition are Bonnie Brown, Eric Freilburn, Barbara Ross, and Radenko Stefanovic.

Planned Unit Development for Touhy termed "concrete jungle"

(By Alceo M. Bobale)
Plans for a Planned Unit Development at 6872 W. Touhy were termed a "concrete jungle" by Niles Zoning Commissioner Charles O'Grady during the Zoning Board Hearing Wednesday, April 7, and the petition for rezoning was continued to May 5 for plan revision.

The area owned by A. J. Del Bianco is under contract purchase by builder Frank Di Maria of Niles. Zoned as a Planned Unit Development (PUD) Di Maria appeared before Zoning Commissioners Wednesday night to petition for a change to PUD Major Change, listing a major change in planning as the reason for the petition.

Eight flat buildings are planned for the site which fronts on Touhy ave. and is bounded by a nursing home and Forest Preserve property. Nothing was proposed for a green belt (landscaping).

O'Grady called the plans "a concrete jungle with buildings on it."

A planned unit development provides for residential housing as well as commercial buildings, recreational facilities and landscaped common areas.

The whole purpose of a PUD said O'Grady "is to give an aesthetic value to the town in return for allowing your building height... there is no way that you will get a yes vote on this PUD Major Change petition," he told planner Wm. Lawrence and attorney Ed Warman, "until you give us (Niles) something aesthetic."

In other business the Zoning Board granted a request by Tam O'Shanter Racquet Club for a zoning change from R1 (residential) to B2 (business service) for construction of a 3 court addition to the existing tennis facility at 7835 Caldwell ave.

In setting forth the groundwork

for the petition, Atty. James Orphan blamed necessity for the action on an error in the 1962 edition of the Niles Zoning Map.

Annexed in 1962, the property was zoned residential. Subsequently petitioned for B2 zoning for senior citizen housing the legal description used was incorrectly set forth as being the same as for the annexation. The error was discovered and the property zoned R1 in the 1975 updated printing of the Zoning Map.

"We are the innocent victims of a 1962 zoning error," said Atty. Orphan. "The error was corrected and now we need re-zoning."

The Racquet Club plans to build the 3 court tennis addition to the south and east of the present tennis courts and another 2-court addition to the south following the removal of a single family house on the property.

The re-zoning petition to B2 was granted unanimously by

zoning commissioners predicated on removal of the house and that requirements be met regarding water retention and sufficient parking. Also, said commissioners, if the property is determined to be in the flood plain, State requirements must be met by the Club.

In other action zoning commissioners granted a 30-day extension to May 5 of a petition by Bernard T. Lill of Glenview for rezoning from B1 (business) to B1 Special Use for a restaurant at 9050 Milwaukee ave. (north of Shoppers Walk).

Lill told commissioners that the Pizza Hut intended to purchase the property, but necessity of rezoning prompted the restaurant owners to locate north of the Lill property, on land which does not require rezoning.

Continuance of the petition, said Lill, was to provide time to look into two other offers for a restaurant on his property.

Niles pianist goes on tour with Sinatra

[By Alice M. Bobala]

Versatile musician and entertainer Randy Waldman was selected for piano accompanist during Frank Sinatra's one-nighter stands in a Middle-West tour starting next May.

A graduate of Maine East High School, the 21 year old son of Mr. and Mrs. Burton Waldman of Niles will be taking a short leave of absence from his busy schedule of commercial recordings to go on the Sinatra concert tour.

Currently he has been appearing with the popular Chicago-based group "The Arbors", with whom he serves as arranger-pianist-conductor.

Randy, who plays trumpet, piano, percussion, synthesizers and other instruments necessary in his musical arranging, has accompanied name stars such as Joey Heatherton, Diannah Carroll, Dick Shawn and Henny Youngman. He has also appeared in concerts with Vic Damone, Phyllis Diller, Al Martino and Bill Cosby. Most recently he appeared on the PBS series "Soundstage" with country greats Waylon Jennings and Jessie Colter.

Randy goes into two days of rehearsal with Sinatra on April 29 in Chicago. The 15-day tour begins in Toronto on May 1 with appearances in Kalamazoo, Omaha, Milwaukee, Indianapolis, Nashville and back to the Chicago area, culminating in a May 11 appearance at the Police Recognition Ceremony in Arie Crown Theatre and a May 13 to 15 engagement at the Sabre Room in suburban Hickory Hills.

The young Nilesite, who began his piano career at the age of 4, first took lessons when he was 7 years old from Rita Estyn, going on to instruction at the Northwestern Preparatory Piano Dept. Following several years at the Al

Swain Jazz Studios in Evanston he attended Triton College for a year, eventually auditioning for "The Arbors".

His mother laughs when she mentions the 4 pianos within their home. "You wouldn't believe my living room," she said. "It's all piano." A 9-foot concert grand takes up the entire room. There is also a spinet, electric and an upright piano in the Waldman home which also has a recording studio.

A sister, Dawn, 17, graduates from Maine East High School this June. A second sister, Jill, 12, student at Gemini Jr. High, is determined to take lessons from no one but her big brother.

Randy's main goal at this point, he says, is "to get away from Chicago which holds little future for a piano player ... with places closing like the Empire Room less entertainers are coming here on tour."

In order to reach his ultimate, in piano and as conductor, said Randy, "The best place to be is where music is happening. Other than London the three 'live' areas are New York, Los Angeles and Nashville."

Oakton student presents voice recital

Soprano Charlotte Laadt Tykynski, a voice student at Oakton Community College, will present a recital on Tuesday, April 27. Ms. Tykynski, an Evanston resident, has studied voice for the past year under the instruction of Dan Detloff, assistant professor of music at Oakton.

The recital, scheduled for 8:00 p.m. in Building 6, Room 663 on the Oakton campus, will include American mountain ballads and a variety of songs of Italy, including folk songs. On previous occasions, Ms. Tykynski has been a soloist in Mendelssohn's "Elijah" and has done solo work in college and church.

Her accompanist will be Tressa La Bella, an instructor of piano at Oakton.

Ms. Tykynski, who taught pre-kindergarten and kindergarten for 10 years before retiring to raise her family, holds a degree in education from National College of Education. She is a member of Kappa Delta Pi, an honorary education society, and Delta Kappa Gamma, an organization of outstanding women educators.

For further information on the recital, contact Detloff at 967-5120, ext. 208.

RIPOFF

Cartoon by Marsh, on Queen of the Sea, Niles

I do not agree with Mayor Daley's proposed city ordinance to restrict violence in movies. But, then, I do NOT believe in any form of censorship of any art form.

Violence has always been a part of our American heritage. The winning of the West was accomplished with the six gun and a Sharp's rifle.

Instead of restricting guns, they should have legal permits in the State of Illinois so that good and responsible citizens can carry fire arms. For crime in this country was never so rampant or so violent. The return to capitol punishment and much tougher laws is a must.

Last week a 65 year old friend, whom I know as well as I do myself, won a \$300 double at Washington Park. He also had a hefty bet on the horse who won the first race. Pocketing his winnings of over \$600, he headed for his car which was parked near the dark rear of the huge parking lot. When he got within ten feet of his car, two guys came up along side of him and the young one (about 26) shoved a snub nose '38 in his left ribs...hard!

"Gimme that dough you got in your left hand pocket!" the young guy commanded.

The bigger, older, tougher looking guy on his right didn't say anything.

My 65 year old friend complied and handed over his bankroll which totaled \$1183 bucks.

"Can I go to my car now?", the old victim asked.

"No, you're goin' in OUR car", the young guy said.

The two stickup guys walked my friend between them to a beatup old blue Plymouth and the young hood said, "Get in. Sit in the middle and put your hands on the dash board!"

My friend and the other older (about 45) stocky, dark complexioned guy got in on his right side and pulled out a .32 black automatic and shoved it with considerable force into my friend's aging ribs. After all, my friend told me, this guy was a 200 pounder and he wasn't fat. (Later my friend showed me the purple bruises which resulted from a half dozen or so hard jams in the ribs.)

They drove my friend around for about an hour although he told me it seemed like ten. The older guy still keeping the automatic in my friend's ribs kept looking back repeatedly, apparently to see if they were followed. Finally, my friend told me, they approached a dark, wooded section, like a forest preserve and it was then my friend's panic climaxed. He said to himself (every time he tried to speak, the big, tough guy jammed the gun in his ribs and snarled, "Shut up!"). "These guys are going to blow me away!"

But when they hit the wooded section, they suddenly turned sharp left and just a short distance later, they stopped. "Get out."

Easter celebration at Jake's

(by Ed Hanson)
"It's our biggest, most bountiful and best Easter Day celebration in our history," said Jake

Joseph, the genial owner of Jake's Restaurant, 7740 Milwaukee ave., Niles.

"The festivities start early Sunday morning and continue all thru the day and night," Jake added.

There'll be a huge Easter basket for the kids from which they can draw an egg. If the kids pull out a RED egg, they'll win a brand, new shiny silver dollar. I have a hunch there will be a lot of winners. And, of course, there's Jake's famous Treasure Chest, an idea he originated many years ago when he first started out in the restaurant business. And the Treasure Chest is loaded with new, wonderful toys for girls and boys.

And for the adults, there'll be fun and surprises, too. There'll be a variety of tasty traditional Easter favorites such as Virginia Baked Ham, Roast Leg of Lamb, Turkey with all the trimmings and many, many other choice items to choose from Jake's huge menu. And you can WIN an Easter ham or turkey because Jake's wheel of fortune will be spinning round and round and where it stops nobody knows, but it could well stop on your number.

So come to Jake's biggest and best Easter party... come as you are and you and your whole family are in for an Easter Sunday that will be a memorable one which you and the family will long remember.

"keep walkin' — and don't look back or I'll kill you," the big bad guy said.

"Maybe I was lucky, Ed," my friend said the next day. "They didn't take my life, my rings, or my police badge."

Fish is a four letter word

About 50 years ago on a Texas ranch, there was a baby born with a Fu Manchu moustache. This little baby rode horses from the time he was four. Later he broke broncs and trained and raised quarter horses and he also knows a hell-of-a-lot about mules. For instance, he told me, a mule cannot reproduce himself. Mules come from a stud horse that mates with a jackass. Therefore, no mule can have a mule for a father. But he can have a jackass for a mother (no joke — it's true).

Anyway, after this little baby, who was born with the Fu Manchu moustache, grew up he got himself a college education and made his way in the world. He had two loves — horses and music. So this guy rode horses in rodeos and played bass fiddle on the circuit with Griff Williams.

Now today this guy still has the Fu Manchu moustache he was born with, but he's bigger now — about six feet three — and he's been thru a lot, too.

For during World War II, he was a Captain in the United States Air Force, and piloted a big B-24 on so many bombing missions over, then, Nazi Germany that he lost count. In researching this story, I spoke to a former Air Force buddy of his, now a retired Colonel. The Colonel said, "Do I remember Tex? That big bastard was crazy! I really believe he destroyed half of Nazi Germany by himself. He was nuts — he took chances nobody in their right mind would take. But he was the best! How he survived — don't ask me! Sometimes when he returned from a bombing mission, his big B-24 looked like a gigantic Swiss cheese. Whatta guy!"

Who is this guy? His name is Capt. Tex Maring. He and his son now own the Queen of the Sea (formerly the Lone Tree), 7710 N. Milwaukee ave., Niles. His other son, Keith, played for the Chicago Bears.

And the Queen of the Sea is having a Grand Opening celebration Monday thru Thursday, April 19 thru April 22. Your hosts, Capt. Tex and Capt. Rick, via this column and a big full page ad, cordially invite YOU and YOURS to this gala celebration.

Never have you tasted FISH like you can get at Queen of the Sea. It's all fresh caught and flown in from the seven seas (Capt. Tex is also in the fish purveying business, too).

Four big specials are featured; just see the back page of this newspaper, for the details and specials. They are only \$5.95 and this includes selections from their gigantic salad bar. This salad bar is so big, twenty-two midgets could use it for a football field or a baseball diamond.

They also have a large bar and a cozy cocktail lounge. When you do drop in during the Grand Opening Celebration you can have a free glass of wine (your choice with any entree off the menu, including the "specials").

I frankly never cared much for FISH until the paths of Capt. Tex and I crossed. Today I love it. And ladies, you know what? "Weight Watchers" has a special diet whereby you can get all the nutrition without getting fat (Judy, take heed) and this is based on eating some variety of FISH 5 days a week.

An old Jewish friend of mine, named King, tried the Queen of the Sea and has been back many times. This man is a gourmet, and he has sent many of his friends to the Queen of the Sea and one and all say, "It's the best fish place anywhere."

Now Capt. Rick, Tex's son, has a son, too. His name is Steve. He's 14 and he works at the Queen of the Sea as a bus boy.

I spoke at some length to this bright boy and was very impressed by his astuteness. I'm a good judge because I have the highest I.Q. in the world and have been known at times to put Mensa members (The International Intellectual Organization) to shame at some of their meetings when they attempted to verbally cross swords with me in repartee.

But this kid, Steve, is a regular quiz-kid, and I told both Capt. Tex and Capt. Rick this: "Hell, let the kid run the joint, he's bound to be President some day anyway."

So friends, ahoy for a voyage on the good ship, Queen of the Sea, and meet the two shippers, Capt. Tex and Capt. Rick. They'll take good, good care of YOU and YOURS, and your taste buds will thank you, too, for giving them a new, exciting and wonderful happening in a safe harbor away from this cruddy world of violence.

Daahing Don, the hair stylist par excellence, took his friend Betty to Drury Lane South to catch Elke Sommer's play, "Shot In The Dark". Afterwards, Don was observed, talking to Elke, probably giving her some suggestions regarding her hairdo. Don has done the hair of many famous personalities from vice presidents to stars of the stage, screen and TV. Don owns the beauty salon and barber shop, 1416 Oakton, Des Plaines, and whether you're a boy or a girl, he's the guy to see if you want to look your best.

Maine Township appoints Youth Coordinator

The appointment of Robert L. Zapata as part-time Coordinator for the Maine Township Committee on Youth has been announced by Maine Township Supervisor James J. Dowd.

In his newly created position, Zapata will coordinate all the youth activities of existing social service agencies in Maine Township, particularly for the unincorporated areas.

Dowd added that Zapata will also be charged with preventing or eliminating duplication of services, and for increasing the level of community awareness of youth service programs.

Zapata, who assumed his post in mid-March has already met with representatives from the Maine Township Council on Alcoholism, Lutheran General Hospital, Cook County Sheriff's Office, Forrest Hospital, Maine Township Mental Health and Family Services Organization, and "the Hinge."

Maine Township Auditor Kay Koroff, chairman of the township's youth committee, said that Zapata will also have the responsibility of working with her committee, and coordinating its efforts with outside agencies.

Zapata, a resident of Maine Township, holds a master's degree in pastoral psychology from the Northern Baptist Theological Seminary, and a bachelor's degree in psychology from Ottawa U.

He has completed additional graduate courses in counseling at George Williams College, and is currently enrolled in doctoral courses at Northern Illinois University.

Searle retiree's get financial counsel

Ms. Adele Brody, Employee Services Supervisor, Human Resources Division of G.D. Searle and Arch Hanson, Assistant Vice President of the First National Bank of Skokie, pose in front of the Searle Retiree's group at a regular meeting held in the Searle Building.

These meetings are held to discuss problems that face senior citizens. The topic of this particular meeting was getting the most out of your financial

resources to enjoy it today and avoid unnecessary taxes tomorrow.

Do you know what EER is?

EER really stands for Energy Efficiency Ratio. And if you're buying an air conditioner this summer, you should know about it.

You may not realize this, but some air conditioners use a lot more electricity than others to cool the same amount of space. And in the summer, when the heat gets unbearable and millions of people turn on their air conditioners to find relief, this can amount to a significant waste of electricity.

On a normal summer day, as the graph above shows, Commonwealth Edison may have to deliver three to four million kilowatts more than on an average winter day. To meet this summer demand, extra amounts of fuel must be burned. By making sure you buy the kind of air conditioner that gives the same cooling with less electricity, you can save money and save us all critically needed fuel. The thing to check is known as the EER, an engineer's term which stands for Energy Efficiency Ratio. And there's information on every air conditioner that lets you figure it out.

JAN FEB MAR APR MAY JUNE JULY AUG SEPT OCT NOV DEC SIMPLIFIED GRAPH OF SEASONAL DEMAND FOR ELECTRICITY.

Our recommended energy efficiency ratio for an air conditioner is 8 or more, so the one with an EER of 8 is the one you should buy. Low efficiency units have EERs of around 5 or 6.

You save money, too. You've already found that the second example is the more efficient air conditioner. It will probably cost a little more to buy, but because it's more efficient, it would cost less to operate. In the long run, an efficient air conditioner helps keep electricity rates as low as possible. And right now, an efficient air conditioner helps conserve our country's natural resources.

Commonwealth Edison Working for you.

1300/700 BTUs = 1.86 EER
860/700 WATTS = 1.23 EER

A good Samaritan

"Getting involved" seems to be what's all about today and a Niles lady did just that last Friday evening.

Karen Schumann, 7620 N. Osceola, was sitting in her living room watching television when she heard a terrific crash. "Running outside" to see what had happened, Karen saw two cars had collided, one had flipped over on its roof and had caught fire. A woman who was standing nearby screamed to Karen to call the fire department and bring a fire extinguisher.

Karen hurriedly called the Niles Fire Department and then ran back outside carrying the fire extinguisher from her house. She ran up to the burning auto, put out the flames with her extinguisher and only then did she find out that a young man was trapped inside the vehicle. Another passenger had been thrown from the auto when the collision occurred. Several bystanders tipped the auto on its side until the fire department paramedics arrived on the scene. The Chicago Fire Department was notified by Niles firemen when it was noted that the accident occurred on the southwest corner of Osceola and Howard which is within the Chicago boundary.

Niles paramedics took the victims to area hospitals where it was later learned that the injuries incurred were not of a serious nature. Niles firemen washed the street down and cleared it of spilled gasoline.

Karen later said, "I wasn't even aware what end of the auto was burning since it was dark and the car was upside down. It could have been the gas tank."

Capt. Gordon Michelson of the Niles Fire Department presented Karen that the fire department would see to it that her fire extinguisher was recharged.

NORTRAN services improve during past year

(By Alice M. Roberts)

A North Suburban Mass Transit District (NORTRAN) representative told trustees at the Tuesday, April 13, board meeting that considerable mass transit improvement was achieved during the past 12 months of NORTRAN service.

Bart Murphy, a NORTRAN official, pointed out in the four years since the creation of the NSMTD, mass transit has suffered serious setbacks throughout the United States. "There have been service cutbacks and discontinuance of rail and bus companies. But in Niles and in most of the NSMTD, there has been considerable mass transit improvement during the past 12 months."

As improvements he listed 77 new air conditioned buses set on the streets; a 30 minute memory bus schedule on Milwaukee ave. implemented with Sunday service to Golf Mill in the last month; improved service on Dempster st. with a new route on Oakton at going from Des Plaines thru Oakton and Niles; transfer privileges at Jefferson Park.

Most important, said Murphy, was the 100% deficit funding by the Regional Transportation Authority (RTA). Suburban and city officials tangled last August over suburban bus funding. A compromise on RTA policy on deficit funding resulted in full funding to NORTRAN.

Recent meetings with Maine Township and junior high schools were held for the purpose of assessing the school population, said Murphy.

Still of major concern to NORTRAN are routes on Oakton st., in Glenview, and local routes in Des Plaines and Park Ridge which are not meeting the criteria set up by RTA.

"Is there anything we can do to begin?" began Mayor Nicholas Blase.

"Ride the bus," was the instantaneous response from Murphy.

In board action Tuesday night Blase broke a tie on the vote by trustees whether or not to accept the Youth Center Study Committee recommendation not to use the Center as a Teen Center. Negating the recommendation were Trustees Ralph East, Ang Marchese and Abe Selman. An appointed committee will make recommendations on future use of the Trident Youth Center at the next board meeting. Numerous suggestions have already been made, said Blase, for its use by the Park District, Oakton Community College and the Niles Public Library.

Temper flared Tuesday night over two proposed resolutions. Despite trustee approval of an annual resolution required by the State Transportation Dept. covering construction on state highways, Blase was outspoken in stating disagreement on village responsibility and declined to sign the resolution until it was rephrased.

A second resolution proposed on Public Works Department's mutual aid (concerning use of equipment) of the Northwest Municipal Conference was vehemently rejected by Blase and Trustee Peter Pease as "being worded too broadly". The resolution was turned back for further study by the village manager.

In other board action: A Special Use and zoning variation petition for a storage building by O'Brill Co. at 6626 Milwaukee ave. was dismissed by request of the petitioner's attorney Ed Warman on advice by Mayor Blase "to clean up the area."

Set minutes to all handicapped

What are you going to say this fall when someone asks you what you did this summer? If you are like most people, you'll probably answer that question in one word: none. Or, if you've been lucky (or sneaky) enough to save some money after taxes, you may be able to show a suntan and your newest color slides of your cruise to Hawaii.

However, if your day doesn't end at 5 p.m. (or you aren't employed outside of your home), spending money that you don't have is out of the question, and 8 hours a day of the office or the house doesn't offer enough variety, how about turning your leisure interests or skills into something constructive?

Take a look at your community. There are many organizations that would enthusiastically welcome your talents, and time, interest, and effort. Maybe you're wondering what you have that is worth sharing with others. Don't be modest; everyone has a talent or an interest that someone else can use. Even if your specialty is playing Swanee River on the spoons with your toes while standing on your head, you can be assured that there is a local service organization that is looking for someone who can do just that.

If a challenging, satisfying, and maybe new experience appeals to your tastes for the summer, there remains another alternative to the above volunteer possibilities. All communities, in some aspect or other, serve handicapped individuals and are usually very receptive to volunteers. The Maine-Niles Association of Special Recreation, an extension of seven cooperating park districts, provides a variety of recreation programs for handicapped children and adults. The Association offers many types of activities designed to meet the needs and interests of its participants, including arts and crafts, sports, social club, and summer day camp. This is your opportunity to forget your modesty, uncover your spoons or other talents that friends may not appreciate, and get involved.

Look ahead to summer. If you want it to be a super one that will bring enjoyment, community involvement, and a sense of sharing, call M-NASR. Unlike spending hard-earned money to find out that Florida has a rainy season in August or feeling your vision blur from too many police and hospital TV serials, you'll never regret your volunteer experience. Think ahead to summer and do something about it now! If you are interested in volunteering, please contact the Maine-Niles Association of Special Recreation office at 674-5512.

Notre Dame State Hockey Champions honored by Niles

The Niles Board of Trustees Tuesday night, April 13, commended 16 Notre Dame High School youths on winning the State Hockey Championship.

"Niles has only one high school in the area and they accomplished something which thousands of young people throughout the State would have liked to do," he said preceding presentation ceremonies.

Individual hockey medals, hung on red, white and blue ribbons and inscribed with the name of the champion hockey player, were personally presented by the mayor and trustees to Craig Belluomini, Kevin Anderson, Chris Vana, Joe Breen, Bob Miller, Tony Salemi, Bryant Johnson, Don Kitzel, Mike Schwass, Tom Ackermann, Larry De Salvo, Mike Haines, Matt Berrafato, Larry Rosenbark, Dave Doody, Ralph Dynek.

Head coach of the team, Jim Meyer, is assisted by Gary Weber and John Schroeder. Managers of the team are Bruce Krendau,
