A little nostalgic music, maestro.....

We pulled out an old pre-World War II refrigerator from the wall in our cottage in Michigan and a well-preserved August 22, 1941 issue of the Chicago Daily News fell to the floor.

On Page 5 the newspaper reported a 51 year old man was trapped beneath the front guard of a surface line car (street car) on Southport Avenue and he was removed after the fire department jacked up the car.

Henry C. Lytton, also known as The Hub, was advertising mink-blended muskrat coats for \$149. Zip-lined ladies coats were selling for \$19.95 and the Komiss Co. on State Street had black dyed Persian Lamb coats for \$188.

Chicago hasn't changed much. Edward Casey and Samuel Heller were two Republican judge candidates asking for recounts in the Democratic-dominated city. The pre-war days were already feeling the gasoline pinch as the Washington D.C. area was expecting a shortage. Fashionable Fives, "the destined-to-be-famous hats" from Lytton's millinery shop were advertised at \$5. Veiled netting swooped down the back of the hats.

The College of Sartorial Knowledge at Benson & Rixon's was selling men's suits for \$29.50 to \$39.50.

The Chicago Fight For Freedom Committee was sponsoring a film smuggled out of Norway. The meeting was described as a Scandinavian-American rally at the Logan Square Masonic Temple, 2451 North Kedzie boulevard. Seventeen first aid classes were being given by the Red Cross at 616 S. Michigan. Douglas Miller, an attache in Berlin for 15 years,

unanimously agreed to lend the money to NORTRAN.

Formal resolution for the agreement will follow at the next village board meeting, he said.

By request from NORTRAN, the loan will be made in two payments, the first supposedly on July 28 and the second around

NILES ALL AMERICAN SENIORS CLUB
July 20th we took off for Milwaukee bright and early, with our fingers crossed hoping we wouldn't get rain. We were lucky, as the day was cloudy but hot and we enjoyed the Iroquois boat trip around the Milwaukee shore line with our captain pointing out the points of interest. The War Memorial and near it the restaurant "Pieces of Eight" where we had lunched once before. After that all the foreign ships that are docked there to load or unload, and many other points of interest.

We then enjoyed a buffet lunch at the Plankenton Hotel, one of the oldest and best known landmarks. The hotel is 65 years old (A Senior too). They had a delicious lunch for us. From there our last stop was the Pabst Brewery, a must on our men's list. They have one of the prettiest beer gardens, and are most generous after the tour is over with their samples. It really turned out to be a wonderful Day!

THEFT-BATTERY
Police said a security guard at Turnstyle was struck by a shoplifter whom he apprehended outside the store in the Four Flags Shopping Center Wednesday, July 28.

The thief kept the carton of cigarettes and jumped into a waiting Chevrolet which left the Center at high speed, said the guard.

The suspect was described as skinny, wearing a yellow tank top and a "fast runner."

PARK RIDGE WOMAN ASSAULTED
A Glenview man was arrested Tuesday, July 27 and charged with battery of an 18-year-old Park Ridge girl in the Golf Mill parking lot according to police.

Police said Thomas Hutchins, 21, of 2418 Swainwood was set under \$1,000 bond. His case comes up Sept. 3 in Niles Court. The victim said the man followed her after she parked her car near Kinney Shoe Store. She window-shopped and apparently lost her follower, she said. When she returned to her car later, he was parked nearby in a white Mustang and told her her car "was leaking oil."

As the victim bent down to look under her car, the man allegedly struck her on the back of the neck with both hands knocking her to the ground. Then she said he allegedly turned her over, grabbed her head and began banging it up and down on the pavement.

Witnesses rushed to her aid, hearing her screams for help, said police.

NILES ALL AMERICAN SENIORS CLUB

July 20th we took off for Milwaukee bright and early, with our fingers crossed hoping we wouldn't get rain. We were lucky, as the day was cloudy but hot and we enjoyed the Iroquois boat trip around the Milwaukee shore line with our captain pointing out the points of interest. The War Memorial and near it the restaurant "Pieces of Eight" where we had lunched once before. After that all the foreign ships that are docked there to load or unload, and many other points of interest.

We then enjoyed a buffet lunch at the Plankenton Hotel, one of the oldest and best known landmarks. The hotel is 65 years old (A Senior too). They had a delicious lunch for us. From there our last stop was the Pabst Brewery, a must on our men's list. They have one of the prettiest beer gardens, and are most generous after the tour is over with their samples. It really turned out to be a wonderful Day!

GOLF MAINE SENIOR CITIZEN MEETING

The Golf Maine Park District Senior Citizen program will be having its next meeting on Friday, August 6th, at 1:30 p.m. There will be two representatives from Congressman Abner J. Mikva's office at the meeting to discuss the problems in the areas of Medicare, Medicaid, Social Security, housing, and transportation as they relate to the senior citizens. Many seniors are not receiving the benefits that they deserve because of the lack of awareness that certain programs exist. This is an excellent opportunity to ask questions about specific programs, or to find out about programs that they may not even know that they qualify for.

This meeting is open to all interested senior citizens and will be held in the Community Center, 9229 Emerson, Des Plaines. Coffee and rolls will be provided. For more information on the senior citizens meeting, please call the park district at 297-3000, or come in to the office at 9229 Emerson.

Niles Police Beat . . .

WOOD YOU?

Thieves took 17 sheets of plywood and other materials valued at \$200 from the construction site for the new Pizza Hut at 9120 N. Milwaukee ave. on Thursday, July 29, according to police.

LIQUOR THEFT

Police said a shopping cart filled with \$227 worth of VO and Cutty Sark Liquor was pushed out of the Jewel-Osco store, 8203 Golf rd. on Thursday, July 29.

A store employee saw the thief as he walked out with the liquor, said police, but by the time she notified the store manager the refreshments had been loaded into the trunk of a black Cadillac which sped off in the parking lot.

The self-service man was described as 35 to 40 years old, 6 ft. 2 inches tall, weighing 260 lbs., with dark hair and dark complexion.

YOUNG CON ARTISTS

A 10-year-old Niles resident lost his \$5 bill to 2 young con artists in K-Mart at 8650 Dempster st. on Thursday, July 29.

According to police the two alleged brothers asked to see the victim's money questioning whether it was real or counterfeit. After he gave it to them, they claimed to "lose" the bill and went "to look for it."

The victim waited 45 minutes but his two "friends" didn't return....

THEFT-BATTERY

Police said a security guard at Turnstyle was struck by a shop-lifter whom he apprehended outside the store in the Four Flags Shopping Center Wednesday, July 28.

The thief kept the carton of cigarettes and jumped into a waiting Chevrolet which left the Center at high speed, said the guard.

BANK SITE BURGLED

The First Federal Savings & Loan under construction at 8400 Dempster st. told police on Monday that someone had knocked down a barricade wall, taking two 8 foot ladders, a wood scaffold and a shovel with a total value of \$145.

CB THEFT

A Chicago man was apprehended shopping for records in Turnstyle after allegedly taking a citizens band radio valued at \$229 from a car parked in the Four Flags Shopping Center on Tuesday.

Police said Scot Davis, 21, of 4231 Kolmar was charged with burglary and placed under \$5,000 bond.

According to police the suspect said he and a friend saw the radio in a car and wanted it. So they entered the car and took it he told police. The radio and equipment were recovered.

FAST RUNNER

Police said an employee of Jewel-Osco at 8730 Dempster st. saw a man leave the store Saturday afternoon, taking six 6-packs of beer valued at \$9.40 which had not been paid for.

The clerk said he chased the suspect, losing him but recovered the beer.

The suspect was described as skinny, wearing a yellow tank top and a "fast runner."

PARK RIDGE WOMAN ASSAULTED

A Glenview man was arrested Tuesday, July 27 and charged with battery of an 18-year-old Park Ridge girl in the Golf Mill parking lot according to police.

Police said Thomas Hutchins, 21, of 2418 Swainwood was set under \$1,000 bond. His case comes up Sept. 3 in Niles Court.

The victim said the man followed her after she parked her car near Kinney Shoe Store. She window-shopped and apparently lost her follower, she said. When she returned to her car later, he was parked nearby in a white Mustang and told her her car "was leaking oil."

As the victim bent down to look under her car, the man allegedly struck her on the back of the neck with both hands knocking her to the ground. Then she said he allegedly turned her over, grabbed her head and began banging it up and down on the pavement.

Witnesses rushed to her aid, hearing her screams for help, said police.

Monopole construction

The Niles Public Works Dept. was busy Friday, laying pipe carrying antenna cables from the aerial monopole (pole base is at right of postal box) under the police dept. entrance crosswalk to left of photo where the cables enter the police building for connection in the communications room. Station radios will be installed in September for the new North Regional Telecommunications Network (NORCOM) which will link 14 community police departments of Skokie, Lincolnwood, Golf, Morton Grove, Glenview, Northbrook, Wheeling, Winnetka, Glencoe, Wilmette, Kenilworth, Northfield, Evanston and Niles.

Marathon plans may differ for next year

[By Alice M. Bobala]
The 57-hour pledge-play of Marathon Softball July 9 thru 11 by the Niles Youth Commission Girls Softball League garnered "close to \$3,000" for the benefit of Variety Club Children's Charities according to Niles' Trustee and Youth Commission Chairman Abe Selman last week.

About 125 girls between the ages of 13 to 23 voluntarily played 57 almost continuous hours of softball during unreasonably hot, 100 degree, weather at Jozwiak Park, 6850 Touhy ave. in Niles. The players were divided into two bi-centennially-oriented teams, the Niles Red Stripes and the Niles Blue Stars, who played in

4-hour shifts around the clock, supported by parents, friends and sponsors.

The Red Stripes won the '76 Marathon with 456 runs to the Blue Stars' 445 in 307 innings of play.

Selman said declining interest by both spectators and players this year may force a change in plans for next year. "The Youth Commission is toying with the idea of putting the marathon to rest," he said, indicating that softball may have lost its "unique" appeal. He said the Commission may suggest an alternate form for the annual event, such as a Volleyball Game or Marathon Dance. Indi-

cations are that either one may have to be held "indoors." Excepting this year, other marathons have undergone inclement, rainy weather.

Many of the participants however are not enthused about the proposed change... "we'd much rather play softball" was the general response. Others said

they were not interested in volleyball or dance.

Disinterest in playing this year, they claim, was more than likely due to the players not having a voice in the selection of the benefit charity.

Last year's 56-hour softball marathon earned approximately \$1800 in the name of Muscular

Dystrophy, a benefit which appears to be close to the hearts of the players.

Initiated in 1970, the Girls Marathon has been an annual event, increasing 1 hour in play every year, benefiting Little City, Julia Molloy School in Morton Grove, Muscular Dystrophy and the Great Lakes Naval Airbase.

Carvel Twins 7 - NBL Red Sox 1

Mikva town meeting in unincorporated Maine Township

Residents of Unincorporated Maine Township will be able to meet with Congressman Abner J. Mikva at a "town meeting" at 8 p.m. Sunday, August 8 in the Dee Park Fieldhouse, 9229 Emerson, in the unincorporated area.

The meeting, the thirteenth in a series that Mikva will hold with the residents of every community in the 10th Congressional District, will enable constituents to discuss issues with the Congressman and will enable Mikva to report on his activities in Washington and the 10th District.

"As we celebrate our nation's bicentennial, one of the most frequent complaints about our federal government is that it has grown too remote and unwieldy

since its birth 200 years ago," Mikva said.

"One of the ways to remedy this is to return to the fundamental concepts -- such as town meetings -- that provided the foundation for our government. Town meetings provide the ideal forum in which constituent and congressman can discuss problems and exchange ideas -- the very type of feedback that our representative form of government requires," the Congressman added.

Mikva has already held town meetings in Evanston, Wilmette, Winnetka, Niles, Glencoe, Skokie/Lincolnwood, Morton Grove, Northbrook, Des Plaines, Glenview and Park Ridge. This is the fourth in a second series of town meetings.

Two motorcyclists were injured in separate accidents last week, requiring hospital care for injuries received.

Police said James S. Rieger, 18, of 6170 Nagle, Chicago, was heading north on Harlem Ave. Thursday, July 29 on his motorcycle when a car entered his lane in an effort to avoid another car turning left at Jarvis.

Rieger was forced to emergency procedures, said police. To avoid being hit, he struck the curb with his motorcycle.

Fire Department plans CPR classes

The Niles Fire Department is planning citizen instruction in CPR, emergency cardiac-pulmonary-resuscitation for residents over 18 years of age, possibly in October.

The one-night class of two to three hours duration will be sponsored by Niles paramedics on a performance of CPR method.

Those attending the class will view the film "Pulse of Life" (purchased with funds donated by The Woman's Club of Niles), which leads into CPR.

A recent news article gave rise to the idea of public education on CPR said a fire source.

The news item credited a north suburban housewife with possibly saving the life of a woman stricken at a beauty shop. The housewife having undergone the educational CPR class two days earlier had occasion to use her knowledge.

Paramedics arriving on the scene encouraged her to continue CPR treatment until they could initiate oxygen and apply strengthening procedures.

The emergency CPR aid was possibly life-sustaining and probably prevented brain damage, they said.

Poison Control Center at Holy Family Hospital

An 18 month old boy has just swallowed a poisonous detergent from his mother's cleaning pail in their Northwest suburban home. His mother alertly reacts by dialing 297-1800, asks for the Emergency Department, and receives treatment instructions that help save her child from serious illness.

By making her phone call, the mother was placed in touch with personnel in Holy Family Hospital's Emergency Department who man the hospital's state licensed Poison Control Center. They have access to a newly acquired index that saves time and lives by providing information on more than 6,000 poisonous substances, their toxicity and treatment.

This is made possible through the Poisindex System, which utilizes a micro-film index of drugs, household cleaning compounds, cosmetics, houseplants, wild mushrooms and snakes. Poisindex offers six times the amount of information than the system previously used by the hospital's Poison Control Center. Just about anything ingested, rubbed on the face or in the eyes that could poison the human body is catalogued by brand name, generic name and slang terms on micro-fiche cards that are updated every three months. The index cards are prepared by nationwide specialists in the study of poisonous substances.

Color transparencies that are flashed on the TV-like viewing screen make identification of various materials quick and easy. After determining the amount of poison ingested, it takes just a matter of minutes for a doctor in the Emergency Department to give the caller information from the system on how to counteract the substance.

"About 30 cases of poisoning are handled each month by the Poison Control Center, and the majority are solved through the use of the Poisindex System," said Marge Kostick, RN, Triage Nurse in Holy Family's Emergency Department. "But if it appears that the poison ingested is life-threatening," Mrs. Kostick

warned, "we instruct the caller to immediately contact the paramedics so the patient may be transported to Holy Family, receive treatment and have his condition monitored by personnel in the Emergency Department." In addition, she said that another key feature of the Poisindex System is that it greatly reduces the searching time for information on poisons which would be required if large reference books or various cross-reference procedures had to be used.

"It has information on almost everything that is edible, both toxic and non-toxic substances, with their symptoms, chemical make-up, side effects and treatment when people need medical answers without delay," Mrs. Kostick added.

Udall campaigns for Mikva

Congressman Morris Udall of Arizona (center) campaigning for the re-election of Congressman Abner J. Mikva (left) on Saturday, July 31. At right is Zoe Mikva, the Congressman's wife. Picture was taken at Congressman Mikva's district campaign headquarters in Evanston. He is seeking re-election to his Tenth District Congressional seat.

Congressman Morris Udall (D-Ariz.) visited the 10th District last Saturday to campaign for the re-election of Congressman Abner J. Mikva.

Udall, who recently campaigned for the Democratic Presidential nomination, spoke to crowds of Mikva supporters at open houses in Mikva campaign offices in Skokie, Evanston and Des Plaines, and at an evening fundraiser in Northfield.

Praising Mikva as "one of the 10 brightest, most hardworking men in Congress," Udall gave Mikva a ringing endorsement and urged the audiences to work actively for his re-election.

At a press conference prior to the open houses, both Mikva and Udall protested against the recent action of the Federal Power Commission, which would nearly triple the cost of natural gas to the consumer.

Mikva cited a survey which indicates that more than 80% of the residences in the 10th District are heated with gas, and that over 80% of the consumers have already taken conservation measures—either by insulating their homes or by setting their thermostats at lower temperatures.

Mikva expressed concern about the ability of senior citizens and those people living on fixed incomes to meet the increased heating costs. He characterized the increase as "the act of an administration determined to give gas and oil companies free rein."

Udall termed the FPC action "energy and economic malpractice."

FNBOs prexy Kramer celebrates 15 years with Bank

Erman G. Kramer, President and Chief Executive officer of the First National Bank of Skokie (left) gets a specially "minted" 15 dollar bill from Board Chairman, Willard C. Galitz to commemorate Kramer's 15 years with the bank.

During that 15 years the bank has grown from a 50 million dollar establishment to almost 200 million dollars, built a new 4 and a half million dollar building, and inaugurated many new, progressive features such as their latest "Auto Teller" 24 hour drive-in facility.

First National of Des Plaines Second Quarter Dividend

At their regular monthly meeting, June 10, the Board of Directors of the First National Bank of Des Plaines declared a

regular quarterly dividend, #161, of 20 cents per share payable June 18 to stockholders of record June 14, 1976.

Des Plaines' face lift to be completed

By March of 1977, the face of Des Plaines will boast a sparkling new complexion.

The Des Plaines Mall is the culmination phase of an intense 10-year community plan for development of the downtown shopping district. Completion is scheduled for late winter of next year.

Construction of Superblock, the \$12-million project located in the heart of downtown Des Plaines, is right on schedule. Phase one, the 10-story First National Bank Building with 185,000 square feet, recently was topped out and is scheduled for completion in November. The second phase of the project began June 29, when ground was broken for the 185,000-square-foot Des Plaines Mall.

An enclosed mall in the heart of the downtown shopping district will evoke pride in Des Plaines, a community that has grown from a farming and rose-growing center into one of Chicago's largest and most industrialized suburbs.

The luxurious, climate-controlled shopping center will be within walking distance for 5,000 Des Plaines residents. The 3,188 commuters from the city and neighboring suburbs can use the 56 trains of the Chicago & North Western suburban service stopping daily in Des Plaines by simply crossing the street.

The Mall has already acquired its first tenant and anchor store.

Callero & Catino reports 37% gain

Callero & Catino Realty increased its sales 37 per cent in the first half of 1976 compared to the same period last year, reported executive vice president W.C. Walters.

The firm, with headquarters in Niles and an office in Des Plaines, accomplished the gain primarily with residential sales, according to Walters. He said commercial and industrial sales contributed to the increase.

Walters also announced that Joe Des Parte led the sales staff during the first six months with sales totaling \$1.5 million.

Following him were William R. Alston, whose sales reached the \$1 million mark, and Bill Carter, who posted nearly \$1 million.

Des Parte recently received his

sixth Million Dollar Club sales award, while Alston earned his fifth such honor.

Walters attributed the firm's sales upsurge to an economy that is more conducive to buying a financing a home.

"Consumer confidence in the economy plus the availability of more mortgage money has given the real estate market a boost," he said. "Callero & Catino is attuned to these conditions and thus was able to score significant sales increases."

In addition to residential, commercial and industrial real estate, the firm's services include investments, construction, land development and property management.

Exceptional growth for Skokie Federal

Skokie Federal Savings' President John R. O'Connell recently announced a substantial six month asset and savings increase for his association. O'Connell announced assets were up 24% to \$159,406,544, and savings grew 18.8% to \$124,844,849.

"Our exceptional growth reflects the confidence savers and homeowners have had in Skokie Federal Savings since its founding 20 years ago," said O'Connell.

"We have tried to provide for

and anticipate the needs of our customers and I think Skokie Federal's growth is indicative of our success. The Jewel-Turnstyle branch which is open 7 days a week and weekdays until 9:00 p.m. testifies to the importance we place on customers' convenience," he concluded.

November 1st is expected to be the completion date for Skokie Federal's drive-in office now being constructed behind the main office building at 4747 West Dempster, Skokie.

1st Nat'l. of Morton Grove assets reach \$75 million

A new record in total assets has been attained by the First National Bank of Morton Grove, announced bank chairman and president Marvin von Aswege.

As of June 30, total assets reached an all-time high of \$75,247,000, topping the previous high of last March 31 by \$769,000.

That figure also represents an increase of \$4,814,000 in total assets over the past 12 months, noted Von Aswege.

Total loans also reached a record level of \$39,351,000, surpassing the former high of March 31 by \$2,935,000.

"Our growth in these two critical areas reflects the bank's ability to adjust to the demands of the economic upturn," said Von Aswege.

"This is especially evident in the case of loans. As the economy improves, both consumers and businesses require financing for their growing needs and our bank is in a stronger position to provide that assistance," he said.

The bank will observe its 25th anniversary next Dec. 15.

Howlett outlines campaign structure

Carbondale, Ill., July 27. - J. Howlett, Democratic candidate for Governor, outlined the tentative structure for the campaign he predicts will carry his state ticket to victory August 2.

Howlett addressed the Taft Institute, a gathering of high school political science teachers from all over Illinois, in the library basement auditorium of Southern Illinois University here.

"We will have a team effort," Howlett said. "Neil Hartigan, our candidate for Lieutenant Governor; Alan Dixon, for Secretary of State; Cecil Partee, for Attorney General; Michael Bakalis, for Comptroller, and I will work together in a single coordinated campaign, not five separate campaigns."

For organization purposes, we have divided the state into ten regions, each to have its own headquarters, staff and campaign director, but all to be coordinated by Hy Raskin, manager of the statewide campaign.

"For the first time, we will have central scheduling of candidates' appearances. Ray Buss, of Carbondale, will coordinate individuals responsible for scheduling of each of the five candidates.

"Central scheduling will avoid duplication and assure that all counties and areas of Illinois will be visited by a major candidate, who can speak for all of us on the issues."

"All five candidates will attend a series of public hearings, beginning August 2 to hear the views of Illinois citizens on state government issues and priorities - another first for an Illinois state campaign."

"The first hearing, in Peoria, will focus on the problem of financing and managing state government. Next day, in Rockford, we will hear about jobs and the Illinois economy. We will hear about human service programs here in Carbondale August 4, and about the state's role in education Aug. 5 in Rock Island.

"What we learn will be used to formulate our positions and to help the Democratic party develop a state platform."

At their regular monthly meeting, June 10, the Board of Directors of the First National Bank of Des Plaines declared a regular quarterly dividend, #161, of 20 cents per share payable June 18 to stockholders of record June 14, 1976.

Des Plaines' face lift to be completed

By March of 1977, the face of Des Plaines will boast a sparkling new complexion. The Des Plaines Mall is the culmination phase of an intense 10-year community plan for development of the downtown shopping district. Completion is scheduled for late winter of next year.

Construction of Superblock, the \$12-million project located in the heart of downtown Des Plaines, is right on schedule. Phase one, the 10-story First National Bank Building with 185,000 square feet, recently was topped out and is scheduled for completion in November. The second phase of the project began June 29, when ground was broken for the 185,000-square-foot Des Plaines Mall.

An enclosed mall in the heart of the downtown shopping district will evoke pride in Des Plaines, a community that has grown from a farming and rose-growing center into one of Chicago's largest and most industrialized suburbs.

The luxurious, climate-controlled shopping center will be within walking distance for 5,000 Des Plaines residents. The 3,188 commuters from the city and neighboring suburbs can use the 56 trains of the Chicago & North Western suburban service stopping daily in Des Plaines by simply crossing the street.

The Mall has already acquired its first tenant and anchor store,

Callero & Catino reports 37% gain

Callero & Catino Realty increased its sales 37 per cent in the first half of 1976 compared to the same period last year, reported executive vice president W.C. Walters.

The firm, with headquarters in Niles and an office in Des Plaines, accomplished the gain primarily with residential sales, according to Walters. He said commercial and industrial sales contributed to the increase.

Walters also announced that Joe Des Parte led the sales staff during the first six months with sales totaling \$1.5 million. Following him were William R. Alston, whose sales reached the \$1 million mark, and Bill Carter, who posted nearly \$1 million.

Exceptional growth for Skokie Federal

Skokie Federal Savings' President John R. O'Connell recently announced a substantial six month asset and savings increase for his association. O'Connell announced assets were up 24% to \$159,406,544, and savings grew 18.8% to \$124,844,849.

"Our exceptional growth reflects the confidence savers and homeowners have had in Skokie Federal Savings since its founding 20 years ago," said O'Connell.

"We have tried to provide for

and anticipate the needs of our customers and I think Skokie Federal's growth is indicative of our success. The Jewel-Turnstyle branch which is open 7 days a week and weekdays until 9:00 p.m. testifies to the importance we place on customers' convenience," he concluded.

November 1st is expected to be the completion date for Skokie Federal's drive-in office now being constructed behind the main office building at 4747 West Dempster, Skokie.

1st Nat'l. of Morton Grove assets reach \$75 million

A new record in total assets has been attained by the First National Bank of Morton Grove, announced bank chairman and president Marvin von Aswege.

As of June 30, total assets reached an all-time high of \$75,247,000, topping the previous high of last March 31 by \$769,000.

That figure also represents an increase of \$4,814,000 in total assets over the past 12 months, noted Von Aswege.

Total loans also reached a record level of \$39,351,000, surpassing the former high of March 31 by \$2,935,000.

"Our growth in these two critical areas reflects the bank's ability to adjust to the demands of the economic upturn," said Von Aswege.

"This is especially evident in the case of loans. As the economy improves, both consumers and businesses require financing for their growing needs and our bank is in a stronger position to provide that assistance," he said.

The bank will observe its 25th anniversary next Dec. 15.

Howlett outlines campaign structure

Carbondale, Ill., July 27. - Michael J. Howlett, Democratic candidate for Governor, outlined an innovative structure for the campaign he predicts will carry his party's state ticket to victory November 2.

Howlett addressed the Taft Institute, a gathering of high school political science teachers from all over Illinois, in the Morris Library basement auditorium of Southern Illinois University here.

"We will have a team effort," Howlett said. "Neil Hartigan, our candidate for Lieutenant Governor; Alan Dixon, for Secretary of State; Cecil Partee, for Attorney General; Michael Bakalis, for Comptroller; and I will work together in a single coordinated campaign, not five separate campaigns."

"For organization purposes, we have divided the state into ten regions, each to have its own headquarters, staff and campaign director, but all to be coordinated by Hy Raskin, manager of the statewide campaign."

"For the first time, we will have central scheduling of candidates' appearances. Ray Buss, of Carbondale, will coordinate individuals responsible for scheduling of each of the five candidates."

"Central scheduling will avoid duplication and assure that all counties and areas of Illinois will be visited by a major candidate, who can speak for all of us on the issues."

"All five candidates will attend a series of public hearings, beginning August 2 to hear the views of Illinois citizens on state government issues and priorities - another first for an Illinois state campaign."

"The first hearing, in Peoria, will focus on the problem of financing and managing state government. Next day, in Rockford, we will hear about jobs and the Illinois economy. We will hear about human service programs here in Carbondale August 4, and about the state's role in education Aug. 5 in Rock Island."

"What we learn will be used to formulate our positions and to help the Democratic party develop a state platform."

"The day's work at each

hearing will include a press conference, formal opening of the regional headquarters, and a meeting in the evening of precinct committeemen.

"Headquarters of the 10 regions will be in Chicago, Rockford, Rock Island, Peoria, Quincy, Springfield, Champaign, Belleville, Salem and Carbondale."

"The Carbondale region will include the far southern Illinois counties of Alexander, Pulaski, Massac, Union, Johnson, Pope, Hardin, Jackson, Franklin, Williamson, Saline and Gallatin."

"The human services hearing here in Carbondale will be in the student center from 11 a.m. to noon and again from 3 to 4 p.m. The state candidates will rotate in turn as moderator for each regional hearing."

"Our state government administers hundreds of federal and state programs for citizens of all ages. Among them are public aid, mental health, children and family services and programs for the

handicapped, the retarded and the aged.

"Every activity of state human services will be open for discussion. Nutrition, transportation and housing are a few."

"In our campaign, we will visit every corner of Illinois to listen as well as to speak. We invite the public to attend our hearings and to participate."

"It will be a new kind of state campaign. With ideas and suggestions invited from all the people of Illinois, we will create a new chance for excellence in state government - more and better service with efficiency, economy and no increase in the taxpayer's burden."

"At the same time, we will be coordinating our state campaign with the campaign of Jimmy Carter and Walter Mondale for President and Vice President of the United States. They plan to campaign in Illinois for our state ticket, and we will campaign for the national ticket."

Niles Dancer returns from European Tour

(By Alice M. Bahns)
College student Julie Dida, of Niles, recently returned from a three-week European tour with the American Heritage Dancers, who performed at numerous festivals in France.

The American Heritage Dancers, who originate from Illinois State University, were founded in 1969 and perform by invitation in various European countries. During their European tour in 1975, the Dancers captured second place in the Folk Dance competition in Wales.

The Dancers left O'Hare Airport July 5 for a sightseeing trip in London prior to festival appearances in Marseille, France. "Our performances are American dancing, such as square dancing, clogging and Bicentennial 1776; all in costume," said the college sophomore.

The American group of 26

dancers participated with other dancing groups from France, Scotland, Bulgaria and Romania, who perform in traditional costumes and dance of their individual countries.

The Dancers also took part in festivals outside of Marseille, in

Martiques and in Vaison la Romaine, where they danced outside a Roman amphitheater.

Her fondest memories are of Marseille, "where we were six blocks from the Mediterranean Sea," said Julie. "We walked to the beach and had time to get acquainted with the dancers from the other groups." A few spoke English, some French, but for the most part, laughed Julie. "We conversed in pantomime, gestures and motions."

On the way back to the hotel, visits were made to various shops along the streets.

While in Europe, said the dark-haired miss, the Dancers' repertoire consists of American dances in America; the group performs in authentic traditional costume from Poland, Russia, Mexico and Yugoslavia.

A very exciting costume mistress attends to the costumes, all of which are transported in two huge crates with the group.

The Dancers are funded as a fine arts group through the University, but add to the funding with personal appearances in Illinois and the Midwest, thru concerts, lecture demonstrations and master classes in folk dance.

Julie made many friends while on the tour and plans to correspond with them, but she said "it will have to be through one of the English-speaking girls."

She hopes to return to Europe with the group on their next tour, projected for Poland and its many dance festivals.

Julie is the daughter of Audrey and the late Frank Dida of Niles. She has an older brother, Gregg, teacher of electronics at Notre Dame; and 2 sisters, Beth, married and living in Libertyville, and Dana, a De Paul student of law. A younger brother, Timothy, died in the age of 16.

Youth Symphony invites new members

Musically advanced high school and college aged instrumentalists are invited to apply for membership in the Metropolitan Youth Symphony Orchestra. Auditions by conductor, Mary K. Rosen, will be scheduled by appointment. Applications are available from Mrs. Polly DeFaria, 412 W. Walnut, Hinsdale, Illinois 60521 or by calling 325-1680.

The Metropolitan Youth Symphony Orchestra is made up of about one hundred musicians from all sections of Chicago and its suburbs. They rehearse in downtown Chicago every Sunday afternoon beginning in the Fall. The orchestra performs in public several times a year, concluding

with a concert in Orchestra Hall in May.

At each concert, soloists selected from among the orchestra members perform with the orchestra. Concerts for solo violin, piano, horn, and trombone were performed with the orchestra last season. In addition, a string quartet, a string ensemble, a woodwind quintet, and a brass ensemble from the orchestra performed on various occasions in the metropolitan area. These soloists and ensembles are selected at the annual Fall competition by a committee of professional musicians.

Many members of the Metropolitan have won prestigious musical awards. They have been Congress of Strings winners and Chicago Symphony Orchestra and State of Illinois solo competition winners. Many are concertmasters and section principals of their school orchestras.

The Metropolitan Youth Symphony Orchestra offers gifted young musicians a unique opportunity to become familiar with the symphonic repertoire and to perform under professional direction. The orchestra is a recent recipient of a grant from the Illinois Arts Council. It is a not-for-profit youth orchestra founded in 1959 by conductor, Mary K. Rosen, of the DePaul University music faculty.

North Care expands facilities

NorthCare, a health maintenance organization, will begin expansion of its Health Center in downtown Evanston soon, when it takes over space presently occupied by Mary Ann Silks & Woollens, Inc., below the present health center on the first floor of the Carlson Building at 636 Church st.

The expansion was announced this week by William Hannan, president of the health plan's board of trustees.

The health plan, officially called North Communities Health Plan, Inc., currently serves 7,000 members. The expansion in the Carlson Building which will integrate the new section with the existing health center, will allow the plan to serve up to 15,000 members in the Evanston location, Hannan said.

Remodeling of the first floor area is expected to be completed by April 1, 1977. The new space will provide NorthCare with room

for a larger laboratory, a new X-ray unit, an expanded treatment room, and other facilities. There also will be additional room for medical records, storage, and a staff library/lounge.

"This expansion will provide NorthCare the opportunity to improve services to both present and future NorthCare members," said Dr. Arnold Widen, medical director. "It will allow us not only to keep pace with our growing enrollment but also to better organize the space to provide more efficient health care."

The existing health center also will be remodeled, but will continue to function throughout the expansion. This expansion will be the first phase of NorthCare's long-range plans for growth, said Hannan. Plans for a second health center west of Evanston are being discussed by the long-ranging planning committee of the Board of Trustees.

August 10, NORTRAN is seeking a \$300,000 emergency loan from the 21 communities served by the district. The monies are needed to keep buses operating through Sept. 1, according to Joseph D'John, Executive Director of the district's board of trustees.

The NORTRAN board's request for financial aid came after the district learned that immediate funding would not come from the Regional Transportation Authority.

The RTA created the financial crisis which it failed to adopt its 1976-77 budget. June 30, the budget was approved. The RTA decided not to operate early buses until the Illinois Statewide Comm. rules on the quality of the RTA's financial plan.

A group meeting with John and community officials led to NORTRAN's request of \$37,000 from the RTA. Des Plaines and Evanston and 27 other cities in the RTA area.

"The RTA's decision to loan the money, they will collect interest on the loan," he said.
