### New ordinance effective July 1st

## Village cracks down on garage sales

[By Alice M. Bobula]

Village trustees Tuesday night amended the village code governing garage sales. Violations of the ordinance provide for fines of \$10 up to \$500 for each offense. The amendment passed into law 10 days after publication will have an effective date of July 1, 1977 according to village officials. The new law excludes sale of new merchandise and defines "garage sale" to cover offerings of used clothing, used household goods and other wares belonging to the owner of the premises. The code provides for a \$1 permit fee restricted to one garage sale per year per resident. Sale signs are specifically designated to dimensions of 2 ft. by 2

ft., which may be displayed only in the front yard and must be removed at the end of the designated sale, limited to a weekend (Friday, Saturday and Sunday) between 9 a.m. and 6 p.m. Numerous calls were received by village administration after a news article appeared recently

concerning restriction of garage sales. "Seems that people were interested in holding a garage sale before the ordinance went into effect," chuckled Niles Mayor Nicholas Blase Tuesday night, "so they could be eligible to have another one this year." In approving the ordinance Tr. Peter Pesole commented that

"Niles had nice neighborhoods...let's keep them that way." He also alluded to beauty shops in residences which may come under future scrutiny by village officials. Village action was initiated by complaints of "continual" garage sales, one of which was known to last 6 months.

### Niles to share state highway repairs

## Pesole objects to 50-50 costs

[By Alice M. Bobula]

A Niles trustee lashed out Tuesday night at a State proposal to Niles on a 50/50 share-cost for repairs on a state highway.

Peter Pesole's ire was aroused at a pre-board meeting when trustees were informed the Illinois Dept. of Transportation, under an annual maintenance agreement with the village, offered to pay Niles an extra \$5,000, would provide materials and would remove deteriorating curbing from the median strip along Milwaukee ave. (from Maryland ave. to Golf rd.) provided the village would repair the curbing.

Niles' request last year for State repair of the curbing had

been turned down due to State "shortage of funds." "No city will go 50/50 with the state on repairs," argued Pesole who doesn't hesitate to speak out on issues. "The State is solely responsible for improvement and care of its highways...don't give them any lee way," he said, "no matter what the problem." Niles Mayor Blase demurred "It's our primary shopping area. In the event of deterioration we either have to fix it or help them to fix it."

"Too bad," replied Pesole who advocating setting up Milwaukee ave. barricades before "spending our taxpayers' monies for state responsibilities..."

We have entered the age of the condo in suburbia.

The area north of Foster to Golf Road on the east side of Washington Street will have a condominium development of about 80 units. At Monday night's Morton Grove Village board meeting an annexation petition to move this small unincorporated area into Morton Grove was referred to the Plan Commission. A proposal for one and two bedroom condo apartments was included with the petition.

Not too many weeks ago Niles approved a similar but larger project for the west side of Washington Street. It included 5 buildings with 44 units in each one.

A second petition for more condos was presented to the MG Board Monday. They are being proposed for Lincoln Avenue.

It is obviously a new era in our communities. You can expect additional condos on remaining empty land. The rapid increase in the value of single family homes requires homeowners desiring to sell must buy comparably expensive second real estate, to avoid paying capital gains taxes on their first homes. Thus, condos selling for \$70,000 in our communities are likely standards for the immediate years.

With many homes having only the parents remaining in them the condo boom is ripe for this area. Single family homeowners are getting over-inflated prices for their homes. Rather than paying a large amount of this to the government they put it back in equally overinflated condos.

The incentive for builders is for these larger complexes. No longer do they have the large acreage necessary for developing single family developments. Since many families no longer desire to maintain a home nor have the need for homes with many empty bedrooms the condo boom is filling a new need. Again, the big dollars homeowners are receiving for their homes are being given back to these developers.

Interestingly, the condo developments are a likely aid to school districts. While the added taxes from the property are a welcome addition to the school district, the condo areas are not likely suppliers of children into these schools.

Everyone seems to be satisfied with this arrangement. Homeowners make a big buck off their first homes. By

On June 1 a busload set out for Honey Bear Farm on a misty day, but by the time we arrived, the rain stopped and we had a beautiful visit on their grounds. We had their famous ham dinner with all the trimmings. They really serve a lovely meal.

Early afternoon we set out for Long Grove and had time to browse and enjoy the afternoon. They have so many shops and such a variety of things to see. We visited shops with antiques, hand made quilts and kitchen botiques that have articles like our old fashioned stores used to carry. We sampled the Cherry Wine made in Amana, Iowa at the Long Grove Winery.

Then we all met at "Ye Old Tavern" for a snack. They make the best hamburgers and such. Turned out to be a lovely day outdoors.

Pullen, Barrett, and Gattuso. Fine defensive plays by Pullen, and Beyer. Pitchers for the Giants were Weinreger, Krueger, Basso, and Fireman. Pitchers for the Indians were Johnson, Gattuso, Pullen, and DiNapoli. The Indians won 12-3 over the Giants.

**White Sox vs. Twins [6-7-77]**  
The hitting attack for the White Sox was a grand slam by DiMaria and key hits by Greenland and Richards. The Twins showed good power by DiMiceli, Samelak, Kahr, Ciecko, and Henried but fell 1 run short as the White Sox won over the Twins 5-4.

**Braves vs. Mets [6-6-77]**  
Glenn Szymaniak hit a 3-run triple in the fifth inning to cap an 8 run outburst by the Mets. Mike Kaplan and Brad Paust collected their first hits of the year. Jim Elenz and Gary Livingston each pitched 2 strong innings. Jerry Romanek, Joe Ambrose, Mike Singer, and Mark Sergot got hits to help the Mets win. The score in favor of the Mets was 10-3.

**Tigers vs. Twins [6-1-77]**  
A good pitching duel for 4 full innings kept the games scoreless. A lead-off walk to B. Jaegger in the 5th., eventually scored on F. Kahr's double, was all the twins needed. Good defense by J. DiMiceli stopped a couple by the tigers. The Twins won over the Tigers by a score of 5-0.

**Red Sox vs. Tigers [6-3-77]**  
Once again, excellent pitching by Piento, Dombrowski, Giovinelli, and Hickey (who had 2 perfect innings and 6 strike outs), propelled the Red Sox to a 4-2 win over the Tigers. Ruschinski went 2 for 4 and Flangel hit a 3-bagger driving in 2 runs. Serlin made a fine defensive play at first as did Nicholas in left field.

**Dodgers vs. Tigers [6-6-77]**  
The Dodgers scored in the 2nd inning as Block doubled home a run and scored 4 more in the 3rd. On consecutive hits by Gambro, Englund, and a long homer by Ugel. The Tigers stormed back with a 7-5 lead, but the Dodgers came back with 3 runs in the 5th. inning, and 2 more in the 6th. as Baker, Sieghart, and Block walked. Eric Kim got his first hit of the season, a 2-run double over the right fielders head. There was good defensive play for the Dodgers men. Baker, Gambro, and Giovinco. The final score was a victory for the Dodgers over the Tigers, 10-7.

**Dodgers vs. Mets [6-9-77]**  
The Dodgers scored 1 run in the 1st inning with the aid of good defensive plays by Gambro, Ugel and Chandler. It looked like the Dodgers 4th straight win but the Met's bats came alive in the 4th inning and they scored 3 runs

through the combined effort of Garritano, Ambrose, and Romanek. The Dodgers came back when Gambro singled home one more run. Then in the 5th. inning, the Mets scored one more run thru the efforts of O'Neill's base hit and Elenz' two base hit. O'Neill went two for two at bat. Paust of the Mets made a game saving catch in right field of a long fly ball, hit by Dodger Ugel in the 6th. inning. Doing a great job of pitching for the Mets were Kaplan and Shibuschi; and for the Dodgers, Sieghart and Gambro. The final score in favor of the Mets was 4-2.

**Giants vs. Braves [6-9-77]**  
For the Braves, in the 3rd. inning they had bases loaded and a single by Scott Dugan enabled Tony Gioriana to score their one run. Tim Frankfort was able to keep the Giants from scoring any runs during the 3rd. and the 4th. innings with good pitching. The final score was 13-1 in favor of the Giants.

### June Brides: Notify social security

If you'll be a June bride, you should remember to have your name changed on social security records, according to Marilyn Robertson, manager of the Des Plaines social security office.

This can be done by completing a form available at the social security office or any post office. A social security card with the same number and your new name will be mailed to you in a few weeks.

Informing social security of your name change will help assure that earnings after your marriage will be correctly credited to your social security record. An accurate social security earnings record is important. During their working years, women build eligibility to social security disability, retirement and survivors benefits for themselves and their families.

For more information, contact the Des Plaines social security office at 770 Lee St. or call 823-0815.

### She remembers the forgotten ones

To the majority of the 108 residents of Skokie Valley Manor nursing home, 4600 Golf Road, Skokie, she is a golden-haired "angel", whose visit with her entourage is the high point of the month. For the past five years, each month without fail, Mrs. Marian Szymanski, Nursing Home Chairman of the Ladies Auxiliary to Skokie Valley Post No. 3854 of the Veterans of Foreign Wars, has been planning and coordinating her organization's visits to Skokie Valley Manor.

She regularly enlists Auxiliary members to donate home-baked cookies and must see that the goodies are picked up from member's homes. From a monthly budget voted to her use by the Auxiliary she must select and appropriate birthday gift and see that it is fetchingly wrapped for presentation to each inmate birthday celebrant during a particular month.

Each fourth Thursday of the month upon arrival at the Manor, Marian and her husband Don, ably assisted by Post and Auxiliary volunteers, load tea carts with the homemade cookies, candies and punch and wheel them into the wards to serve to nonambulatory patients. After those unable to leave the wards have been served, the remainder of the home occupants partake of their cookies and punch in the cheery and roomy Visitors' Lounge. After the birthday gifts are presented to the "birthday children", everyone settles back to enjoy either a movie or live

Birthday celebrant Milton Berger receives his gift from Marian Szymanski (left), Nursing Home Chairman of the Ladies Auxiliary to Skokie Valley Post No. 3854 of the Veterans of Foreign Wars during her Auxiliary's regular monthly visit at Skokie Valley Manor nursing home, as fellow home resident Yetta Lerner (second from right) and Skokie Valley Manor Activities Director Valerie Harris (right) look on.

entertainment which Marian has arranged for.

Special entertainment and gifts are provided for the Christmas party held during the December visit. Homemade cookies packed into Pringle potato chip containers which have been lovingly and festively decorated by Auxiliary members are presented to each patient. Last Christmas 31 students beguiled their appreciative audience with an exciting vocal, piano and violin recital.

Marian makes each holiday during the year - both minor and major - more meaningful with the

special favors she always makes for the patients' cookie plates. She periodically requests contributions of flowered greeting cards at Auxiliary meetings, which she cuts down in order to make Valentines for the February social. Marian seemingly is a dynamo who never runs out of energy! She, along with her fellow Auxiliary members, feels the nursing home project is a most worthy endeavor and well worth all the preparation and good-old fashioned dedication and effort involved each month.

**Burglary**  
Burglars took an undetermined amount of money June 5 from The International Pancake House at 9206 Milwaukee ave. said police. They said an unknown amount was taken from the cash register and approximately \$75 from a cigar box in the restaurant office. An unsuccessful attempt was made to break into a safe in the building.

The burglary was discovered by a waitress who found a window broken when she came to work at 6:30 a.m.

Police said the cash register tray was found in an upstairs office, the door to which had been removed by the hinges.

Police discounted the broken window as a means of entry, theorizing possible use of a key or

that someone had hidden in the restaurant before closing at 2:30 a.m. They said the restaurant alarm had not been activated.

**Stolen Checks**  
A 22-year-old Chicago man who attempted to cash a stolen check June 6 at The First Federal Bank, 8400 W. Dempster, was turned over to Chicago police after investigation revealed the check was stolen from a Chicago auto repair shop.

Police said a total of 29 checks had been stolen from the Chicago shop last May.

**Target Practice**  
Police are investigating numerous incidences where the windows of street parked cars were shot out by BB guns. Damages were estimated at \$75 in each case.

Witnesses said a 2 door Chevrolet Malibu pulled up alongside of a Plymouth parked on Lyons st. around 11 p.m. Saturday, shot out the driver's window, then turned the car lights off and fled westbound on Lyons.

In a second incident 4 occupants in a gold Chevrolet Malibu shot out the driver's window of a car parked on the 9300 block of Callero in Niles around 11 p.m. Saturday.

Another shoot-out involved a '66 Ford Mustang parked on the 8100 block of Lyons between midnight and 2 a.m. Sunday according to police.

**Stolen Auto**  
A '76 Eldorado containing office equipment with a total loss valued at \$14,500, was stolen overnight Tuesday, June 7 from

the west parking lot of the Kingston Apartments at 8815 W. Golf rd.

Police said the auto contained various check writing machines belonging to Paymaster Corp. of Chicago. The stolen car was led by a Niles salesman.

**Auto Thefts**  
Numerous cars were reported stolen last week according to Niles police reports.

A 1973 Chevrolet convertible valued at \$6,500 was stolen Friday overnight from its parking place in front of the owner's home in the 8500 block of National.

A 72-year-old Nordica st., resident told police his '75 Olds valued at \$6,000 was taken from a street parking area overnight June 7.

A 1975 Ford was reported stolen Friday sometime between 8 a.m. and 2 p.m. from the parking lot at 8809 Golf rd.

Police said a 1977 Ford left locked and parked for 15 minutes at 7305 Harlem was stolen at 11 a.m. Friday and recovered the same day at 9 p.m. parked near 8633 Oriole st.

**Lady Stolen**  
A heavy white Grecian statue 4 to 5 ft. in height valued at \$150 was taken from the front lawn of a home in the 8000 block of Washington st.

Neighbors reported seeing 2 men in a white truck loitering in the area earlier.

**Exposure**  
An 18 to 20 year old motorist exposed himself to 6 girls at the Four-Flags Shopping Center from his car Saturday night then fled the area on Golf rd.

One of the girls, 17, described the driver of the gray Pontiac Trans Am as 5 ft. 4 inches, weighing 130 to 140 pounds with light blonde hair and wearing a white T shirt and blue jeans. She said the motorist was accompanied by two men and a girl.

**Suspicious Person**  
Police investigating an 11 p.m. report of a body lying in a rear alleyway in mid-Niles found the body "to be alive" Wednesday June 8.

The 20-year-old woman was apparently highly intoxicated said police who took her to Lutheran General Hospital. They said she had been on her way to the store and passed out.

**Burglary**  
Burglars got away with \$663 in cash and jewelry after successful entry into a residence on the 7900 block of Nora.

Police said the burglars took \$63 in cash and 2 rings valued at \$600.

**Park Recreation**  
Two windows valued at \$300 on the east side building at the Niles Park District Recreation Center was smashed with rocks overnight, June 7 according to police.

## Oakton's balloon race winners

Winners of the annual Great Balloon Race at Oakton Community College were announced this week by the Newman Club, sponsors of the event.

Winners were determined by the postmark on the postcards returned from the farthest point from Oakton. A card returned by Larry Menke, Coraopolis, Pa., a distance of 402 miles, won first place. Second place card was returned by Darrell W. Castele, Clinton, Ohio, a distance of 327 miles.

The balloons were released on May 5, following two delays because of bad weather. Tickets

sold on a postcard were attached to the helium-filled balloons and all were launched from the OCC Interim Campus at the same time. Funds from the sale of tickets were contributed to an Oakton scholarship fund.

Individuals selling the winning postcard and balloon also received prizes. Grand prize, a ten-speed bicycle, went to Linda Young, an Oakton student. Second prize, a dinner for two at the Forest Flame restaurant, Niles, went to Amy Hall, daughter of Oakton student Nancy Hall. Tom Peters won a dinner for two for selling the most tickets. Menke received a \$20 cash award for returning the postcard from Pa.

## New assignments at First Federal of Chicago

Gustav C. Larson

First Federal of Chicago has appointed three officers to new assignments in its Northwest Region. The announcement was made by Donald J. Crowder, senior vice president.

Gustav C. Larson, assistant vice president and branch manager of the Niles office, has been appointed branch manager of the new office in Skokie due to open this fall. The new office will be located in the Westmoreland Building at the intersection of Old Orchard rd. and Laverne ave., adjacent to Old Orchard Shopping Center.

Other appointments are Mary K. Coduti, branch manager at Schaumburg, named assistant regional manager at Mt. Prospect, a new position; and Eugene A. Bensinger, assistant vice president and customer service manager, Mt. Prospect, appointed branch manager at Niles.

Larson joined First Federal in 1947. He has held positions as internal auditor, assistant treasurer and manager of customer services. He has also been a loan review officer and branch systems coordinator. In February of 1976 he became branch manager at the Niles office.

Eugene A. Bensinger

Larson is a member of the Niles Chamber of Commerce, the Northwest Real Estate Board and Financial Managers Society for Savings Institutions. He and his wife, Marilyn, and family reside in Arlington Heights, Ill.

Mrs. Coduti, who joined First Federal in 1959, has held a number of positions at First Federal, including assistant teller supervisor, assistant savings service manager, teller supervisor, and branch coordinator. She became branch manager at Schaumburg in December of 1976.

She and her husband Phillip reside in Schaumburg.

Bensinger joined First Federal in 1969. He has held positions as director of urban planning and customer service manager. He was named regional customer service manager at Mt. Prospect in November of 1976.

# It takes one little girl and a lot of Centel people to make a grandfather happy.

She wants to say "Hi, Grandpa. I love you." He wants to hear it. That seems simple enough. But for every call made by a little girl to her grandpa, there are a whole lot of Centel people who get involved. Some you know about. Like operators and repair crews. And others you might not think of. Like

cable assigners, plant recorders, data processors and more.

To all of us a phone call is something special.

That's why this year in Illinois we'll spend over \$17,000,000 to make our service even better.

We know what phone calls mean to you. So we're following a plan of

installing the most modern equipment being made today. Just to make things easy at your end of the line. Easier every day.

## Community Service Award

Shay Verner of Shay Realtors, Des Plaines, reads the inscription on the plaque presented to Sam Terranova (right), owner, and the staff of Cesar's Restaurant in Des Plaines, naming him winner of fifth annual Community Service Award from Northwest Suburban Board of Realtors Computer Multiple Listing Service.

When Sam Terranova and the staff of Cesar's Restaurant in Des Plaines learned of the plight of the Jim Wamsley family of Des Plaines, they decided to help by staging a fund-raising dinner on Jan. 25, 1977.

And when the Northwest Suburban Board of Realtors Computer Multiple Listing Service heard of the dinner which raised nearly \$5,000 to help with the huge medical and hospital bills the Wamsley family faced, they knew they had found a worthy recipient for their fifth annual Community Service Award.

Presentation of the award plaque to Terranova was made at the April Realtors' dinner held at Lancer's Restaurant in Schaumburg. At that time, Shay Verner, of Shay Realtors, Des Plaines, chairman of NWSBR's public relations and publicity committee, told how Sam Terranova had donated his restaurant at River Road and Oakton Street, and the food for the dinner, while his cook and waitresses donated their services for the evening of Jan. 25.

Wamsley's fellow employees at the post office spearheaded the ticket sales, friends and neighbors helped, too, and a good time was had by all. Although the fund-raising dinner was a rousing success, Terranova was quick to point out that Mr. and Mrs. Wamsley's financial needs are far

from over. Both are amputees and in poor health, so further donations to help the family are still most welcome. They can be sent to The Wamsley Family Fund, c/o Des Plaines Post Office, 1000 Oakton st., Des Plaines, IL 60018.

Stanley Lieberman of Lieberman Realty, Inc. in Buffalo Grove, president of Northwest Suburban Board of Realtors, was on hand to add his congratulations to Terranova and the Cesar's Restaurant staff on behalf of the 2,400 members of Northwest Suburban Board of Realtors.

Last year's recipient of the annual MLS Community Service Award was Arlington Heights Jaycees and Jaycees Wives for their 1975-76 Northwest Community Hospital Project to purchase a thermoscope for the early detection of cancer.

The previous year the award went to Northwest Suburban Aid for the Retarded in Park Ridge for their Work Experiences Program and other services to the retarded in 1974.

In 1973, Sammy Skobel, blind former roller derby champion, accepted the Community Service Award on behalf of the Mount Prospect Lions Club for inaugurating American Blind Skiing Foundation. The first award plaque was presented to Junior Woman's Club of Des Plaines for their "Choose a Child" Christmas Gift Program in 1972.

# Alarm system for home is worth the investment

Our local Fire Chief Albert L. Hoelbi has provided this 13 article series on fire prevention and emergency procedures in the interest of greater safety in the community. The material and statistics have been compiled from information which comes across Chief Hoelbi's desk. He feels, in sharing this with the local citizens, some fire losses may be prevented, and perhaps even unnecessary loss of life.

This is No. 13, the last one in this series, and probably the last time for a while that I will have the opportunity to talk to you through the columns of this newspaper. Today we'll discuss fire prevention in general.

Many people ask me about fire alarm systems for the home, and whether they are worth the investment. I would like to go on record in saying that ANYTHING you do to prevent fires or loss of life is worth the investment. Ask the family that has been through a major fire in their home, and you'll be convinced. Of course, there are many, many different types of fire alarm systems manufactured for home use, some good and some of the "Mickey Mouse" variety. If you are considering buying fire alarms, I think it best to deal with a reputable company that has been in business for a few years. Let their representative come to your home and explain his product and how it works. Then make your decision. Bear in mind that these companies will recommend the ideal situation for fire protection in your home, and this will not be cheap. If you do not feel you can afford it at the moment, start out with a less expensive program and work up to complete quality coverage. The dealers will be happy to work with you along the lines of what your budget can stand. But, if you believe in insurance you are bound to believe in fire prevention in all categories!

Many people make the mistake of thinking their children are too young to learn fire prevention safety procedures, and because the children don't want to be bothered the parents don't insist. This is a grave mistake! Any child old enough to walk and talk can be taught fire prevention safety. And, any child, whether he likes it or not, SHOULD be taught the basic fundamentals.

Along this same line of thinking, many families have elderly people living in the home. One might think that some people are too old to learn how to prevent fires and what to do in case of fire. Nonsense! EVERYONE in the family should be subjected to learning the basics of fire prevention. Then, if and when a fire occurs, while they may not have retained all of the instructions you have given, they will be in a much better position than had they not been given any guidance at all. So, excuse no one from training sessions for the good and safety of the whole family!

Once again I will say that much of the information I have given in this series has been just good old "horse sense", but I have included everything of importance because it is usually one of the old rules that is broken in the final analysis of most home fires.

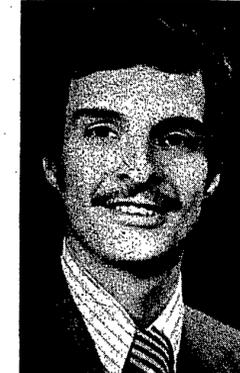

Above all else remember... your fire department is here to serve you and will do its utmost to prevent property losses and loss of life. However, the more you know about fire prevention and the handling of emergency situations in the home, the greater are the chances that we will be successful in your behalf.

It has been a pleasure providing this informative series to all of the people in this community. I hope it has been of benefit to each and every family.

## ED HANSON

Buffalo Bob will win Triple Crown!

From my column of Thursday, April 28, 1977... I quote myself: "HOT FROM THE FEED BOX: Seattle Slew will WIN the Kentucky Derby and, barring injuries, is a shoe-in for the Triple Crown. This colt has the knack of breaking on top in every race and then improving his position."

If you had bet a thousand on this great horse and parlayed it, you'd have a nice profit. If people also had taken my advice when Portland was down 2 games, they could have got juicy odds on Portland to win the basketball crown.

Nobody listens.

The Chicago Cubs will start their slow, downward descent into last place after June 18. So will the Chicago White (Black) Sox.

And, I confidently predict that Buffalo Bob will win the Triple Crown in Hannibal, Mo. on July 4th. You see, Buffalo Bob has already won two major preceding events — one in California and the other in Hartford. The second event Buffalo Bob won with a leap of 19 feet, some odd inches.

You see, Buffalo Bob is a frog. But he's a prince of a jumper. Like Seattle Slew, he's a champion. He's the bull-frog jumping champ of the world! And unless someone takes a leaf from one of Mark Twain's immortal stories and slips a load of buckshot into his belly, he'll win easily. (I've phoned 'the boys' in Hannibal to provide Buffalo Bob with top security just so some dude don't do just that!) There's a lot of money being bet on this contest.

The grand opening of Triple Crown Messenger Service, in the words of "Ol' Blue Eyes", was "Mucho"! Great! Terrific! I wish to make one thing perfectly clear, so that all Nilesites can read it without spectacles.

The Triple Crown Messenger Service is located at 7524 N. Harlem ave., in Chicago, County of Cook, in the State of Illinois, in the United States of America (thanks, Mike!).

Like near beer in the good old days of prohibition, I went into a Niles "Speakeasy" back in the Roarin' 20's and the sign over the bar read: "We sell only near beer — but there's real beer near here!"

Replay: The Triple Crown Messenger Service is in Chicago — but it's near Niles... got it?

Next case, Judge...

Here's some big news that could make you rich! All day and all evening Brisk Automotive, headed by Realistic Ron and his wonderful family of kids, is offering you a chance to win a Trifecta at Arlington Park Race Track.

Brisk Automotive has more than 200,000 automotive parts for just about any car on this globe... and they're all sold at wholesale prices plus a discount, too.

Ron of Brisk tells me his biz is zooming and he wants to share some of his good fortune with you.

He is awarding 10 Trifecta tickets to 10 lucky people. (You must be 21 or more to enter this contest.)

Here's what you do: Next Wednesday, June 22, 1977 come to Brisk Automotive at Milwaukee ave. and Harts rd., just a few blocks south of Devon, and register by filling out your name, address and phone number. There is nothing to buy (no obligation). Register as many times as you please. If, the following day (June 23) your name is drawn, you will be notified you have won the opportunity to purchase a \$3 Trifecta ticket. You will receive a ticket from Brisk which you take to Triple Crown Messenger Service, Harlem and Milwaukee ave., Chicago, and Triple Crown will write out another ticket which you sign or initial and they'll buy you a \$3 Trifecta ticket at Arlington Park. Your \$3 ticket will become part of the mutual pool that goes thru the pari-mutuel machines.

To win a Trifecta you must pick the horses in their exact order of finish. You can select any three numbers you want. Suppose you say to Triple Crown Messenger that you want 1,2,3. Suppose "Lady Luck" showers star-dust on you that day and the winning Trifecta numbers are 1,2,3. You've won! Now, whatever that Trifecta pays at Arlington Park is what you get. Say it pays \$10,000. You take the ticket you've received from Triple Crown back to them and they give you the Trifecta tote ticket from Arlington. You take this ticket to Arlington Park and cash it in. (You'll have to show your I.D. and sign a government form because you must pay income tax on this large amount. If, for instance, the Trifecta 1,2,3 pays \$500, or even a few hundred more, why then... Triple Crown Messenger Service will cash it with cash for you!

Don't forget the date, June 22 at Brisk Automotive, 7007 N. Milwaukee ave., Niles. Come in and register. What have you got to lose?

The Niles Police Ball at the Sheraton-O'Hare was a "bust"! The comic should have hired me as his writer. But, now the good news, I believe they sold a considerable number of tickets. They're a great bunch and shame on you, Nilesites, for not turning out. You never know when you might need a cop and the Niles police are the best friends you've got in this village. And when you need one, who's gonna call — a hippie? (P.S. I left my cap there on a chair. It has not been turned in to "Lost and Found". I want my white "think cap" back!)

## Skokie Public Library

Friday, June 17, 8 p.m. — RAGTIME by E.L. Doctorow — book discussion led by Allen Schwartz.

By way of contrast, I was the guest of my ultra rich widow friend of La Grange Park Saturday night. I haven't seen her for 3 years. She became very ill in Cocoa Beach, Florida. Damn near died! In fact, her children started funeral arrangements. Her weight dropped from 130 to 59 pounds. After double pulmonary pneumonia, she spent one year (intensive care) in a condominium (which she later purchased to save the rent). She had 3 nurses around the clock for a year. She called me several times from her wheel chair in Florida. The doc said she'd have to learn to walk all over again. If she recovered her strength.

She did. We went to the La Grange Country Club where she is a member. The place (reservations only) was jammed to the rafters. They presented the Broadway Revue after cocktails and dinner.

Whatta show... whatta crowd! This Broadway Revue is composed of a bunch of youngsters from Northwestern University. They did in song, jokes, dialog and perfect imitations the whole history of radio from the crystal set to F.M. They received a standing ovation from the ultra-sophisticated persons present. These people have the means to see and hear only the best and they were thrilled beyond words with the exciting, clean performance of the Broadway Revue. (I met with the whole cast and their agent after the show. What a great bunch of top talented, bright and shiny, clean-cut youngsters they were! A youngster by the name of Michael Vodde is the producer — 864-9210... take note Niles police, or anyone else wanting top talent!)

My good friends at Western Messenger Service, on Higgins just east of Harlem, tell me their biz is booming since Arlington and Sportsman's opened.

My office phone rang... "Hello," I said. "This is five-eight speaking..."

# Des Plaines Community Sureblood Drive June 24

All residents of Des Plaines and their families are guaranteed unlimited blood replacement thanks to the Des Plaines Sure-Blood Program administered by the North Suburban Blood Center. Coverage is extended to all of the following: head of household, spouse, minor-dependent children, and children to the age of 25 who may be temporarily non-resident, blood dependent (those unable to donate due to age or medical reasons), parents and in-laws, no matter where they are in the United States at the time of transfusion. To maintain this coverage for all residents of Des Plaines, only 4% of the population is required to donate blood

annually. You can insure members of your family and your community by scheduling a blood donation at a community Sure-Blood Drive to be held Friday, June 24th from 10 a.m. to 2 p.m. at the Library, 841 Graceland. Call Des Plaines SureBlood Chairman, Candy Ramsey, to schedule an appointment for donation. She can be reached at 297-1200 during business hours or at 823-2421 evenings and weekends.

The need for whole blood is constant and immediate, but the need intensifies during summer months when a traditional shortage is experienced. There is no summer vacation for blood. With holiday weekends - like the upcoming Fourth of July - a crisis

situation is felt. Accident victims, surgery patients and others must have blood to survive. Blood can only be given by one human for another. Whole blood has a shelf life of 21 days. Your blood donation is seriously needed so that others may live.

If you are in good health, weight at least 110 pounds, and are between the ages of 17 and 65, you are eligible to be a blood donor. In fact, you can safely and painlessly donate a pint of blood

every 2 months or a maximum of five times yearly.

The North Suburban Blood Center has the total responsibility of providing all blood administered patients at Holy Family, Northwest Community, and Lutheran General Hospitals in your area as well as Alexian Brothers Medical Center (Elk Grove Village), Community Hospital (Evanston), Evanston Hospital, Highland Park Hospital, Glenbrook Hospital (Glenview), Lake Forest Hospital, Northwest

## State Park facilities for handicapped

The opportunity to enjoy Illinois' state park facilities is becoming more of a reality for handicapped persons.

Although some areas of rough terrain may be forever restricted to the physically strong, greater accessibility of state park facilities to motor handicapped individuals has been built into new state park facilities in recent years.

Recently constructed toilets

and shower facilities in Illinois State Parks have been designed to accommodate handicapped persons. Many state parks also feature fishing access areas which have been designed especially for those who are handicapped, according to John Comerio, district land manager for state parks in northeastern Illinois.

Those parks in northern Illinois where handicapped persons would be able to camp are Chain

O' Lakes and Illinois Beach State Parks in Lake County, Kankakee River in Kankakee County, Lake-Le-Aqua-Na in Stevenson County, Mississippi Palisades in Carroll County and Rock Cut in Winnebago County. All these parks have camping with vehicular access and shower and toilet facilities for handicapped persons. Camping pads normally are composed of gravel, Comerio said.

## Free immunizations

Free immunizations are given at the Cook County Department of Public Health at monthly immunization clinics. Clinic location is: Trinity Lutheran Church, 675 Algonquin rd., Des Plaines, 3rd Thursday every month, 9 to 11 a.m.

"Immunizations are given for measles, rubella, polio, diphtheria, whooping cough and tetanus. Children from infants to 18 will be served. No appointment is necessary and there is no charge for immunizations," according to Dr. John B. Hall, Director, Cook County Department of Public Health.

"For full protection against communicable diseases each child must have a complete series

of shots," Dr. Hall stated. Immunizations against diphtheria, whooping cough, tetanus and polio should be given the first year of life, with boosters approximately a year later, and on entrance to school. Immunizations against measles and rubella should be given when the child reaches 15 months of age. Children immunized against measles before 15 months of age, or children immunized before 1969 should receive another measles shot," Dr. Hall stated.

"Parents of pre-school children and children who will enter kindergarten next fall, are especially urged to attend the clinic before the summer rush," Dr. Hall stated.

## Nilesites in Early Disease Detection program

James Koehler isn't the type of man who is a "trendsetter". But the 67 year old, semi-retired freight handler recognizes one trend he doesn't mind getting swept up in — the increasing emphasis on preventive health care.

The Niles resident and his wife, Christine, recently were among the first persons who participated in Holy Family Hospital's new Early Disease Detection Program. It is a special type of health screening program for area residents which features several unique aspects.

For participants such as the Koehlers, the Early Disease Detection Center utilizes Holy Family's facilities where all tests are conducted to detect undiagnosed disease and where physical examinations may be conducted. Persons enrolled in the program also have the choice of receiving their exam in the office of one of many physicians who are involved in the program. These locations are also part of the center.

Mr. and Mrs. Koehler have enjoyed "relatively good health" throughout the years, so why should they be concerned with early disease detection?

Tests which were performed on the Koehlers as part of the program were a chest x-ray, a number of blood tests, urinalysis, hemocult and EKG (electrocardiogram). In addition, they each received a tonometry test which helps detect glaucoma.

A chest x-ray such as the one Mr. and Mrs. Koehler received indicates the presence of heart disease, or infection in the lungs, or cancer or disease elsewhere in the body that have affected the appearance of a person's lungs.

Among the things looked for in evaluating a blood count and blood chemistry are anemia, infection, the presence or absence of many kinds of cancer and abnormal body functions.

Undergoing testing of the urine helps determine whether an individual has a kidney or bladder infection, kidney stones or other diseases.

As part of their participation in the Early Disease Detection Program, the Koehlers not only received a thorough physical examination, but had an opportunity to discuss the results with their physician who provided explanations and offered guidance.

and if it is complete, the 305,000 sq. ft., two-story building will have three wings interconnected at a center entrance. A 30-foot wide mall or "student street", two stories high, will run through from end to end of the two main wings, conveniently serving classrooms, laboratories, and student services.

The architectural firm of Perkins and Will designed the campus. Funding is shared between the State and Oakton and construction is supervised by the Capital Development Board. The formula for financing construction of the community college calls for 75 percent to be funded by the state and 25 percent from the local community college.

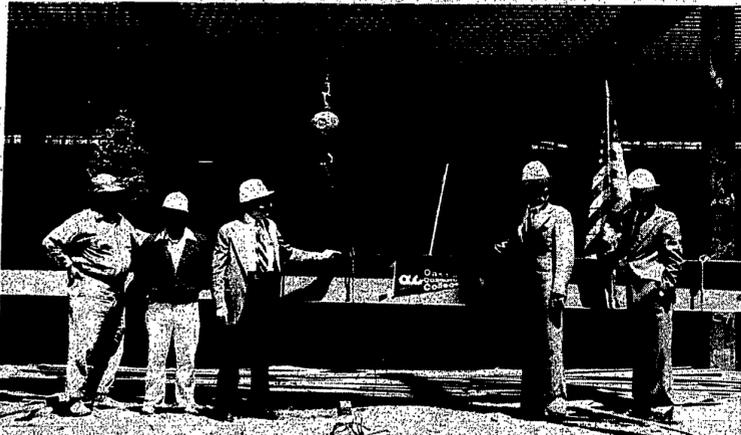

At special ceremonies during the regular School Board meeting June 13, the following individuals of the certified staff were honored: Genevieve Cline, 10 yrs. ## \$1,000 windfall to Niles Fire Dept.

Niles Mayor Nicholas Blase commended a citizen who, he said, "walked into the Niles Fire Dept. last week to present firemen with a \$1,000 check."

The monies will be used to purchase a new dummy (Annie) used in Cardio Pulmonary Resuscitation (CPR) classes.

The name of the donor was withheld because of his wishes to remain anonymous. The mayor declined to comment whether or not the fire patron was a resident of Niles.

## Local student places second in competition

Tom G. Luetkemeyer, the son of Mr. and Mrs. George Luetkemeyer, of 8927 N. Menard in Morton Grove, placed second in the Harry S. Truman Scholarship competition held recently in Illinois. Luetkemeyer, who will be a junior at Loyola University of Chicago in the fall, competed with students representing every college and university in the state and will receive a monetary award if the first place winner should for any reason not accept it.

Luetkemeyer, who is majoring in English at Loyola, writes a column "My Back Page," for the Loyola Phoenix.

## "There's a Lion Loose!"

A baby mountain lion which escaped its cage early Friday morning wreaked havoc at Animal World prior to being lured back to its cage by the pet shop owner.

There were no customers or employees in the store.

The 9-month-old puma-cougar mountain lion has been on display for the past 7 months in the front window of Animal World, a pet shop at 7525 Harlem ave., John Santoro, owner of the store, labeled the 4 ft. cougar as "playful" and theorized the animal had been loose about 10 minutes Friday.

"Our animals are usually fed around 7 a.m.," explained Santoro. The cougar expecting the meal "was prowling his cage and evidently loosed the top door to his cage which apparently had not been securely fastened by the attendant the night before." He said the animal leaped out of its confinement, knocking over many small animal cages in the area.

Police said they were alerted to the shop by passing motorist who saw the lion loose in the window. Santoro was summoned, said police, and the owner enticed the animal back into its cage with a

mop after distracting him from the other animals. Police conceded the baby cougar may have been "playful" but "he had paws as big as soft balls," noted Police Lt. Frank Stankowicz.

The lobby walls of the First National Bank of Skokie are currently - through July 1st, being graced with a display of the color photography of Peggy (Mrs. Nell) King.

stipulations set by the Plan Commission and the Morton Grove Fire Department. The request for a Special Use permit was granted.

Morton C. Kaplan, an attorney representing Mr. Schmidt of the London Development Corp., said his client wishes to build 80 condominiums with 4 single dwelling homes acting as a buffer on 3 acres now zoned for single family homes on Washington, from Foster to Golf rd. They are petitioning for annexation to Morton Grove, and Mr. Schmidt, who wishes to develop that property, wants to seek two zoning classifications - one for 80 condos under a B2 classification with 4 private homes as a buffer and one for annexation. Martin Ashman said that two Public Hearings should be held and it was moved to refer this matter to the Plan Commission to hold Public Hearings should the Village Board decide to grant the request for annexation.

Mr. Albert Carroll, representing the First National Bank of Mount Prospect and the Countryside Bank, spoke to the board regarding the property at Waukegan rd. and Dempster in Morton Grove. He said the property in question included a small parcel at the north east corner and a large parcel to the south. Mr. Carroll said that the existing Planned Unit Development may no longer be feasible and suggested that a minor modification of the PUD be considered while asking for some direction on how to proceed in this matter. Nell Cashman moved to refer this to the Plan Commission for further study and the motion was carried.

received from the Cook County Dept. of Highways suggesting resurfacing of Beckwith from Oak Park ave. to Waukegan rd. and Lehigh from Dempster to Beckwith. The board voted in favor of taking over maintenance of the roads but not of the bridge. Don Sneider urged the residents to begin watching their water consumption and advised that water supplies are not unlimited. Mayor Flickinger asked for approval to hire Charles Sheck as a Planner and Consultant on Aug. 1, 1977. This salary will be covered by a grant and the board agreed. Then, the Mayor gave a citation to Mim Barlett of the League of Women Voters for 16 years' service since she is leaving Morton Grove for Mississippi soon. Ron Henrici asked Building Commissioner Hajek to have a report at the next meeting updating the study on the parking lot at Kohls. Ed Brice said that the senior citizens have been circulating petitions against someone who wants to have all religious programs deleted from radio and TV. Trustee Sneider said he felt the Plan Commission should make a new study of the density problem in multiple dwellings and come back to the board with a new proposal, perhaps on a sliding scale (as suggested by Ron Henrici) and the board concurred. Pete Vivieros said that Morton Grove should consider depressing some curbing for the benefit of the handicapped and it was decided to study that suggestion.

## Pesole objects ...

Continued from Niles page 1 "Furthermore," said Pesole to Mayor Blase, "didn't you tell us two weeks ago not to set a precedent? Let the State take care of their own!"

Blase maintained he was not backing off from a former statement and recommended future and separate consideration of the deteriorating curbing.

Under the Board of Local Improvements trustees approved the State contract of \$47,334.13 for village maintenance of state highways within Niles to June 30, 1978, with renewable option to April of 1979.

A village official noted the maintenance payment to the village was \$9,000 over last year's agreement, that "Niles had the highest percent of increase in maintenance monies over surrounding villages."

In other business trustees approved \$15,000 payment as Niles' share of costs toward Golf rd. improvements of widening Golf rd. to 3 lanes approximately 400 to 500 ft. east and west of Milwaukee ave. and installation of a sewer from Harlem west to the tollway.

The Niles cost, paid out of Motor Fuel Tax funds, covers \$9,000 for traffic light installations at Golf and Dee and Golf and Western ave. and relocation of a water main for \$6,000.

\*Accepted recommendation by Administration for the lowest of two bids opened May 27 on 2 heavy duty buses for the Park District from Northside International of Wheeling at \$55,344 with delivery date of 180 days. Highest bid, from GMC Coach, was \$69,322.

Trustees approved an additional \$5,000 to supplement \$50,000 village Revenue Sharing Funds covering cost of the buses.

\*Agreed to continue \$10 licensing of Meat Delivery vehicles and a \$10 licensing of Stamp machines. Village attorney Gail Haglund noted the fees in both cases were valid and covered a purpose and function to residents assuring proper care of services rendered.

\*Approved increase from \$1,500 to \$2,500 for purchases by administration without letting of bids. Home Rule approval provided for the hike due to spiralling costs.

\*Designation Lincoln ave. and Madison ave. as a fourway stop intersection, petitioned by residents.

\*Approved village appointments to May 1, 1978 as Village Manager Kenneth Scheel; Public Works Director Ed Bacher; Police Chief Clarence Emrickson; Fire Chief Albert Hoelbi; Director of Housing Ben Mankowsky; Director of Zoning, Building Joseph Salerno; Director of Health, Wm. Hlavacek; Family Service Director Larry Rencetzky; Village Treasurer Robert Schmidt.

Also Vill. Atty. Gail Haglund and Richard Troy; Director Public Service Keith Peck; Senior Citizen Coordinator Mary Morrissey; Village Prosecutor Gerald Murphy; Auditors Lester Witte & Co.; Community Service Director Frank Wagner.

moving into these condos they are relieved of the burden of maintaining their own homes. And having been conditioned to owning rather than renting property, they are quite willing to pay these overinflated prices for the condos. Having acquired tremendous equity in their first homes they anticipate they may derive similar equity in the condos. If the inflation retains a 6% increase annually they can figure in 12 years the value of their condo will double in inflated dollars. So again, they will build up another nest egg rather than just acquire rent receipts as their parents did. If we have similar inflation-prosperity in the future, as we've had in the past 20 years, the savings acquired by home and now condo ownership will prove to be a handsome sum.

Is there a kicker in all this? Is anyone being burnt? As always the big money men come out with the least amount of risk. They're receiving vastly exorbitant amounts of money for their units. Uncle Sam merely defers getting his tax money until the final sale is made. And it is likely there is substantial savings if the home-condo owner can delay the final sale until he is past 65 years old.

As always the greatest risk is taken by the little guy, the buyer of the condo. If the prosperity-inflation continues as it has since World War II he should stay ahead of the game. But if he has a large equity in the new condo and the bottom drops out he can get hurt. Since everyone's economic future is tied together, if the bottom drops out we will all suffer.

During the depression my family owned a two-flat and during the dark 30's they only paid the interest on the outstanding loan. The mortgage company didn't want the building since they were a glut on the market. When we moved, the family just walked away from the building. It is likely this would happen again. So the greater risk is only that the inflated dollars we receive for our present homes would become deflated by an economic turn-around.

We have entered the age of the condo in suburbia. It could well be the home for many of us in the immediate years.

## Sustaining care at Orchard Center

Many individuals who have been hospitalized for psychiatric reasons, are very much in need of understanding, companionship and social stimulation, immediately after discharge. Orchard Mental Health Center provides a wide variety of services for this group.

Monitoring medication by a psychiatrist; activities led by an occupational therapist; social outings to plays, concerts, shopping malls; weekly group therapy sessions led by a social worker; an opportunity to make friends with others who have shared similar problems; these are some of the programs offered. Volunteers, in addition to regular staff members, make it possible to give individual attention to participants.

A new group geared to the interests of young adults (18-30 years), is being started in late June. Young people who have not

been able to face the world after high school, are too frightened to attempt employment, or social contacts and are unmotivated, are likely candidates for this group, whether they have been hospitalized or not.

Both groups meet one afternoon and one evening per week. If you wish to discuss a particular situation, feel free to call Susan Armstrong at 967-7300. Orchard Mental Health Center is located at 8600 Gross Point rd., Skokie.
