Mid-Summer Meanderings . . .

Based on 1976 tax figures if you have a home assessed at \$10,108 and the equalized valuation is \$14,306 you are paying \$121.48 to Niles' school district 71, down \$23 from last year. In Morton Grove's district 70 you pay \$254, in Niles and Morton Grove's district 67, \$348; in Maine Township's district 63 the figure is \$396.13 and district 64 is \$403.27.

The same home in Niles Township pays \$258.94 to the #219 high school district. In Maine Township you pay \$359.65 to high school district 207.

The comparable home in district 71 pays \$380.39 to the elementary and high school districts; Morton Grove district 70 residents pay \$513.44, Niles and Morton Grove district 67, \$606.71, and Maine Township's district 63 residents pay \$755.58 to districts 63 and 207. District 64 residents pay \$762.92 or almost \$400 more to the elementary and high school district than district 71 residents.

Residents in both Niles and Maine Townships pay a \$32.19 fee for Oakton Community College for our imaginary \$10,000 assessed evaluated house.

If you live in Niles you pay \$50.78 for your village tax on this house, \$24.17 for the library and an estimated \$30 for utility tax for a \$104.95 total. In neighboring Morton Grove without the utility tax you pay \$139.34 for comparable services.

This past year's tax bill for Niles Township residents includes their new quadrennial assessment. Maine Township residents' new rates will be shown in the 1977 tax bill.

Residents in the Niles and Morton Grove communities have a spread of about \$35. Industrial taxes plus sales tax income results in Niles having this advantage.

The major difference in residential tax bills is in school taxes. And the wide variance in these figures is due to the contribution industry makes to the school districts. In Niles district 71, residents pay \$226 less than their neighbors in District 67 in Niles, Morton Grove and Golf. District 71 has a

Cash gift to park district from Niles Squares

[By Alice M. Bobala]

The Niles Squares made their annual gift presentation to the Niles Park District Tuesday evening, this year for \$700, representing their appreciation for use of park district facilities.

Monies donated in previous years by the square-dancing group of 80 couples has gone toward refurbishing kitchen facilities at the Recreation Center. Last year's contribution helped toward offsetting the \$50,000 air conditioning costs of the Rec Center.

Park Director Bill Hughes commended the Squares as "an especially considerate group who ease maintenance of building and staff after using park facilities." He said the dancers are very active, utilizing the Gretnan Heights Gym three times a year and the Rec Center "almost every other Saturday night."

Bicycle Safety program

The Niles Police Department has now conducted their annual bicycle safety program at the local schools in the village. The Youth Division of the Niles Police, headed by Sgt. James Gerhardt, has conducted this safety program for the past ten years. During the course, students are taught proper hand signals to use while riding their bikes, in addition to riding through an obstacle course, to help improve balance and better handling of their bicycles.

While at the schools, the Niles Police youth officers also check the safety conditions of all bicycles and even make minor adjustments on those bicycles that are in need of repair. Shown above is one of the Niles youth officers, William Ortlund, along with a few of the over 400 students who were instructed in this bicycle program.

Police apprehend 3 in cash theft

[By Alice M. Bobala]

Niles police apprehended three persons Monday, July 11 in a fleeing car at Milwaukee ave. and Oakton following a radioed report that a woman allegedly took \$190 from a cash register in Penney's a retail chain store in Golf Mill Shopping Center.

Frances Pinkney, 22, also known as Frances Huey and Frances Ferguson was charged with theft and possession of a hypodermic syringe and needle. She was later released under \$5,000 bail bond.

A companion, Howard Adams, 26, of 1817 Gray ave. in Evanston was charged with possession of a syringe and needle and later discharged under a \$1,000 bond pending an August 19 court date.

A second man, Nathaniel Huey, 26, of Fayetteville, N.C., was said to be a deserter from the U.S. Army and turned over to military police.

According to police, a Penney's salesclerk was bending over to pick up dropped money when she observed the hand and arm of a woman dipping into the till of her open register.

She looked up to see a woman in her 20's holding a large amount of cash in her hand. The clerk yelled at the offender who took off with 2 witnesses in pursuit.

The two female witnesses caught up with the young woman in the parking lot as the suspect was getting into a Lincoln Continental and demanded she return the money. As she complied, two mates came running thru the lot and jumped into the Lincoln Continental with the female suspect and drove off.

The car's North Carolina license plate numbers were radioed ahead and heard by Niles Officer S. Fucarino on patrol at Oakton and Milwaukee ave., who stopped the fleeing car and took all three suspects into custody for further investigation.

A search of the car turned up a hypo syringe and needle which had been thrown under the car by one of the men. Another syringe and needle were found in the woman's purse.

NILES ALL AMERICAN SENIORS CLUB
On June 28th a group of Niles All American Seniors enjoyed a day's outing at Shady Lane Theater in Marengo. The luncheon pleased everyone. The main entree was Swiss Steak topped off with a generous dessert of lemon-meringue pie which was very delicious. After luncheon our members browsed, or purchased articles in the adjoining shops. While others, awaiting 'show-time' engaged in conversation with other Senior groups from as far away as Milwaukee, East Chicago and Savannah.

The impromptu piano antic provided by Steven Bell and accompanied by all us lusty singing Seniors passed the time as we awaited curtain call. The play itself "Not Now Darling" was a hilarious, uproarious situation comedy and members of the cast did a fantastic job. The performance was simply marvelous and kept all of us chuckling to the very end... a play well-worth seeing... and a day well spent.

Chicago Woman Swindled out of \$10,000

[By Alice M. Bobnja]

An elderly woman was cheated July 2 of \$10,000 when she put up cash as "faith money" in a phony "pigeon drop" confidence game by a pair of bunco artists in Golf Mill Center.

The victim said she was approached by a woman shortly after noon in the Sears store as she browsed thru a magazine rack. A few seconds later another woman walked up to the victim stating she had just found \$33,000 outside, asking for guidance.

The victim said she saw a yellow envelope which appeared to contain a large sum of money in the woman's hand.

The first woman offered to "help", that she would contact her attorney for advice. She left the store returning a short time later to say the attorney suggested each of the women put up \$10,000 faith money. If no one claimed the money the three women would split three ways, with the attorney taking \$3,000 for holding the money till claimed.

The victim agreed and with 2 confidence artists drove to her bank in Chicago where she

withdrew \$10,000 from her safety deposit box.

Enroute back to Golf Mill the victim gave her money to the second woman who then told the "plucked pigeon" the attorney wanted to talk to her.

The senior citizen got out of the car to go to the attorney's office, but when she couldn't find the building she realized she had been duped.

She returned to find the 2 women had fled with her \$10,000.

The victim described one woman as about 30 to 35 years old, 5 ft. 8 inches, weighing 175 pounds, with wavy brown hair and olive complexion, wearing a tan trench coat. She said her name was Lilia and was from the village of Golf.

The other woman was described to be in her mid-30's, 5 ft. 5 inches, weighing 135 pounds, with black hair and brown eyes, wearing a tan coat. Her name she said was Jessica Montgomery, of Mt. Prospect.

Their car was a 2 door Chrysler red top with a battleship gray bottom and dark maroon interior.

Blase urges Maine Township to reconsider policing unincorporated area

Mayor Nicholas B. Blase of Niles is seeking the cooperation of Maine Township in policing the Unincorporated area surrounding The Greens apartments. Maine Township recently dropped its financial support for Sheriff's Police in the unincorporated area.

In order to obtain reconsideration of their recent decision, Blase wrote the following letter to James Dowd, Maine Township Supervisor.

"I noticed in a recent newspaper release that Maine Township has dropped its financial support for Sheriff's Police in the unincorporated area. Some time ago, as a result of a petition by the people in the unincorporated area, Maine Township agreed to support extra police for that area.

The fact that this was dropped now, without any notice to anyone, could create potential problems for the unincorporated area which is already short on police protection. Sheriff Elrod indicated in a recent meeting of the unincorporated area that other townships support unincorporated areas and that there was no question in his mind that Maine Township could do the same for this particular area.

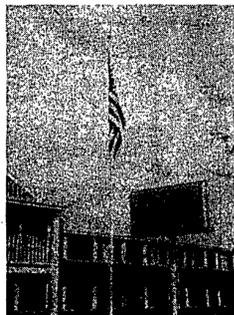

Most recently, on July 12th, at approximately 1:30 a.m., the sheriff's police asked for help from other communities as a result of an attempted rape in the unincorporated area. Upon investigation, it was learned that the same party who was later caught, had attempted one other

rape close to the time that he was finally apprehended. This apprehension came with help from police from surrounding communities. Obviously, the point is not that the attempted rape would not have occurred had there been sufficient police, but point being again, that without enough police, it is encouragement for this kind of criminal activity. The surrounding communities of Niles, Park Ridge, and Des Plaines, are attempting at this time to get interest in the incorporation of this area, and we need the help of all governments around the area. Maine Township can help by providing additional police. I urge your reconsideration."

Golf Mill Nursing Home honored with Capitol Flag

It all started last Spring when the residents of Golf Mill Nursing Home decided they needed a new flag.

In the latter part of March, Joan Willey, Social Rehabilitation Director, started the paper work to secure a special flag. With the help of Congressman Abner Mikva, the flag was flown over the capital in Washington, D.C. on May 10, 1977.

The flag was then forwarded to Golf Mill Nursing Home with its certificate.

On Sunday, July 17, the residents were able to see their long awaited flag ceremony become a reality.

The Niles V.F.W. Post 7712 conducted the rally with Commander Emil A. Theodore leading the celebration. Color Guard Captain Tony Grimm, followed by

Color Guard and Rifle Squad Tom Davidson, Joe Schniver, Roy Witkowski, Herman Volpe, Stan Zabor, Wally Bobek, and Clar Korbus. The certificate was presented by Joan Willey (l.) to Mrs. Anna Miller, (r.), who is a resident as well as the president of the Golf Mill resident council.

The residents and their families and friends enjoyed coffee and donuts to round the morning off.

For Mrs. Agnes Grimm, who is 85 years young and a resident at the Nursing Home, it was a particularly special occasion as she watched Tony Grimm, Color Guard Captain in action. Tony is Mrs. Grimm's son.

The flag flies high at Golf Mill Nursing Home and the certificate hangs in the lobby for all to see.

Expos 12 - Giants 4:
Three wins in a row and the Expos are out of the basement and moving up on the leaders. Bill Fratte pitched 4 innings of no hit, no run baseball. Bill also lead the offensive attack going 5 for 5. Other players with a good night at bat were Steve Cohen with 2 for 5 and Dave Cohn with 3 for 5. Tony Zagone made a couple of fine catches in centerfield. Pitchers for the Giants were Joe Booker, Ken Ugel and Mike Ziebell.

Braves blanked by Padres 11-0:
Great pitching by Ken Borowski and Mark Menich plus a tight defense by Padres. Great plays by Bill Nerek, John Brizzolara and Jim Mahoney. Home runs by Jim Sliwa and triple by Mike Tait. Jeff Sliwa and Dave Thimm added hits also.

Padres 11 - Red Sox 0:
Padres getting 2nd shutout in a row, 11 - 0 over Red Sox. Ken Borowski, Mike Tait and Mark Menich pitched the shutout. John Brizzolara, Jeff Sliwa, Dave Thimm, Rich Szatkowski all hit for the Padres. Pitching for the Red Sox were Rob Pullen, Dan Busiel and Rich Rinka.

Giants 9 - Red Sox 3:
The Giants broke open a close game with 4 runs in the top of the seventh with the help of a double by Chris Piazzi. Ray Ziebell was a defensive standout at second base and contributed a hit in the bit seventh. Ray had 5 errorless chances, making one spectacular play covering a bunt at 1st and one very good play on a pop-up

behind first. Mike Ziebell pitched 3 innings of shutout ball and had 3 hits.

A's 11 - Padres 0:
Ron Bielsi and Scott Channess combined for a three hit shut out as the A's used this day of 7th to roll to an 11-0 win over the Padres to end a five game losing streak. The A's used an errorless defense and timely hitting to look like the A's of old. Dave Rimmer with a triple and two doubles for 5 RBI's lead the hitting attack with Dan Pierre and Scott Channess added 2 hits each. Dan Palowski, Dan Franks and Jim Twarowski finished off the attack with 1 hit each. All in all a well rounded team victory.

A's 11 - Red Sox 8:
Dan Palowski collected 4 hits to lead the A's win over the Red Sox 11 - 8. Mike O'Neill boomed a 3 run triple and added a single. Also with 2 hits were Scott Channess and Dan Pierre, Dave Riemer, Dan Frank, Grey Huebner, and Mike Aakes all chipped in with 1 hit each. Jim Capek turned the catch of the day to avoid more A's runs with a superb catch on Greg Huebner's long drive in the 7th. The A's played tight defensive ball and scored a victory in team spirit.

Braves 18 - Expos 1:
The Braves played a great game, both offensively and defensively with Pete Leddy, Tracy Parker and Dave Kolbaska combining to pitch a 1 hitter against the Expos, striking out 11 Expos, and allowing only one ball to be hit to the outfield. Great pitching performance by these three players. In the hitting department, the Braves banged out 17 hits, with Pete Leddy getting 4 hits, Barry Schrenkel 4 hits, and Tracy Parker 3 hits including 2 doubles and a triple. With the Braves leading 1 to 0 going in the 4th, the Braves loaded the bases and Bruce Hammerberg hit a bases loaded triple to open up the Braves lead, and then the Braves went on to a well-earned win.

Giants 14 - Padres 3:
Mike Ziebell had 4 straight hits and pitched 4 innings of 1 run ball. Joe Booker had started and gave up only 2 unearned runs. This was as much a team effort as has been seen this season as everyone scored at least once. Each man's contribution could be specifically mentioned but for the sake of brevity, comment will be restricted to Al Wilczewski's continued improvement at third base, a position this 15-year-old has never played before plus his run scored and contribution as a courtesy runner. Ray Ziebell's continued excellent play and 3 hits cannot be overlooked. It could be said the manager is the only expendable member of the team.

Angels 19 Senators 3:
The Angels continued their winning ways with a 18 hit, 19 run attack on the Senators. All twelve members of the Angels contributed to this win especially Scott Ries with a homer, double and single; Mike Drehobl, a homer and three singles; John Imber, a homer, double and two singles; and Tim Hoef with 2 RBI's. John Wiedemann pitched two brilliant innings and had help from Mike Pierski and Rob Ruscher.

Angels 11 Orioles 5:
The Angels won their tenth game of the season by mixing pitching, hitting and defense. Wiedemann again was the star on the mound. The stand out defense was anchored by shortstop Mike Drehobl, third baseman Scott Ries and centerfielder Mike Pierski. The hitting attack was led by Hoef and Pierski who each had two hits and three RBI's. The twelve young men on the Angels certainly are a team. The Orioles had a fine pitching performance from Tim Lynch and homers by Lu Alfano and Matt Argetsinger.

The first inning saw the White Sox take a 5-0 lead and that was all they needed as they held the Senators to 4 hits. Orioles 15 Tigers 7:
Bill Ott was the only player to get on base every trip to the plate.

Giants 15 Astros 9:
The Astros came up with five runs in the first inning when the Giants had control problems. Mayer and Cieszykowski singled with the bases loaded but in the fourth Mayer tired and the big Giant machine went to work. The Giants scored seven runs and despite a rally in the sixth for two runs, the Giants stopped the Astros cold. The Giants defense as Moward, Heischberg, Fallone, Rieter, and Ginocchio made several good stops and catches of hard balls. Bob Sosback of the Astros suffered a broken finger and will be lost for the remainder of the season.

Astros 12 Indians 5:
The Astros sunk the Indians 12-5 paced by Terpin's three hits and three RBI's along with singles from Mizialko, Prieto and Kennitz and a big triple for M. Mizialko. Watson, M. Mizialko and Terpin pitched well along with great defense and aggressive base-running made victory possible.

Giants 15 White Sox 5:
Hitters for the losing Sox were Rob Burke, Wajda, Composito, Davidson, and Dan Burke. Fine pitching by Jim Sinatra and Mike Composito despite the final score. The strong Giant team was led by hits from Falleroni, Kolbaska, Howard, Goldstein, Evans, Cohen, Olczyk, Ginocchio. Mike Cohen made a back hand running catch on a fly ball to end the game.

Workshop on drug misuse by the elderly

A workshop for the older person about the use and misuse of medications will be sponsored by Oakton Community College on Friday, July 22. Registration for the workshop will begin at 9:30 a.m. in Building 6, OCC Interim Campus, Oakton and Nagle, Morton Grove. Free coffee will be served. The all-day workshop will end at 3:30 p.m.

Co-sponsoring the workshop with the OCC Senior Adult Program is the Illinois Department on Aging and the Suburban Cook County Area Agency on Aging. Registration fee for persons over 60 years of age is \$1.50. For others, it is \$3.50. A free lunch will be served courtesy of the two co-sponsoring agencies.

Officials point out that 95 percent of people over the age of 65 live on the community and manage their own medicine. The physiological changes of aging, along with a lack of information about appropriate drug use, increase the older adult's chances of experiencing adverse reactions to prescriptions and non-prescription medicines.

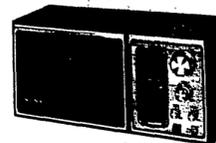

Contact the OCC Senior Adult Program at 967-5120, ext. 350, for information about late registration.

"Carnivals against Dystrophy"

Charlie Baffle, Mayor of Old Chicago and Honorary Spokesman for Carnivals Against Muscular Dystrophy, issued a special invitation today to the kids in the Chicagoland area to write in for a special, free carnival kit to help in the fight against muscular dystrophy. Carnival kits not only contain all the information about how to give a special backyard carnival but also information concerning additional prizes and awards.

Mayor Charlie Baffle explained that the free Carnival Against Dystrophy kit contains a booklet that has many ideas for games that can be set up easily plus carnival tickets, booth decorations, official badges, news release forms to send to local media outlets and even posters to hang to attract customers to the special event.

In addition, Mayor Charlie Baffle explained that each child holding a carnival and sending the proceeds to the Muscular Dystrophy Association would receive special prizes; two free

tickets to the Old Chicago Amusement Park in Bolingbrook, Illinois, one free ticket to a special White Sox game, a food coupon from McDonald's and other items.

All the money raised in the Chicagoland backyard carnivals will remain in the local area to help our local kids afflicted with muscular dystrophy. Thanks to thousands of kids who have participated in the carnival program in the past, children afflicted with muscular dystrophy have the chance to spend a precious week in the sun at the MDA Summer Camp in Lake Villa, Illinois.

Jerry Lewis, world famous performer and National Chairman for the Muscular Dystrophy Association, said recently, "This summer children all over the country will be involving themselves in the welfare of other children. It's never too early to start caring. 120,000 kids held 43,000 backyard carnivals last year and raised \$1.5 million to help in the fight against muscular dystrophy. Children do care about those who are less fortunate than themselves, they want to help and, given half the chance, they will help."

To obtain a free Carnival Against Dystrophy kit children can write to Mayor Charlie Baffle at 332 S. Michigan ave., Chicago 60604. The Mayor is looking forward to seeing a lot of kids at Old Chicago after they have their backyard carnivals to help in the fight against muscular dystrophy.

'Lucky 7' Birthday lady

Indeed a birthday celebration was in order. Shown above is Mrs. Anna Beierwaltes of Chicago. The "number 7" birthday cake represents her "lucky number" and rightly so. She was born on July 7, 1900, so on July 7, 1977 she was 77 yrs. old. She has 7 children, 7 great grandchildren, 7 of her 16 grandchildren live in Niles and thru her 77 yrs. as a Chicago resident she moved 7 times.

Who's that with her in the picture? That's her grand-daughter Cathy Ann Beienwaltes of 7673 Grennan Pl., Niles, and how old is Cathy Ann? You guessed it, she's 7.

Mrs. Beierwaltes' Niles family consists of Michael, Marilyn and Stan Bush and Mark, Andy Jr., David, Mary, Tom, Cathy Ann, Barbara and Andy Beierwaltes.

Medicare bills must be itemized IFWC Seminar

Submitting medical bills that are not itemized can delay payment of claims under Medicare's medical insurance, according to Marilyn Robertson, manager of the Des Plaines Social Security Office.

Payment on medical insurance (also called Part B) claims cannot be made unless an itemized bill of services from the doctor or medical provider is submitted along with a completed "Request for Medicare Payment" form. Itemized bills must show the date, description and charge for each service rendered, and who provided the service. They must also show the patient's name and Medicare claim number exactly as shown on his Medicare card.

Personnel at the Des Plaines Social Security Office will be glad to answer questions about what information itemized Medicare bills must contain, and will provide assistance in submitting claims to Medicare.

Woman loses \$2,000 in con game

(By Alice M. Bobala)

A Des Plaines woman was bilked of \$2,000 on Tuesday July 12 in what appeared to be a classic "pigeon drop" confidence game in the south mall of Golf Mill Shopping Center.

The woman told police she had come from the cleaners and was getting into her car when a woman approached her carrying a gray bank bag, stating she just found it and that it contained a lot of money.

Upon opening the bag they found a telegram which stated "I'm sending you this money so the IRS won't get me." They were then joined by another woman who offered to consult with her boss, allegedly an attorney in the Golf Mill Professional Building.

She returned to say the bag contained \$50,000 in cash and that they could split the money but her boss needed \$5,000 of it to pay some type of tax. However, the three would have to put up "earnest" money.

The second woman said she could get \$2,500 but the victim said she was unable to withdraw money from her Chicago bank until the following day.

The woman took the victim into the Professional Building to talk to the "boss" over the telephone. The man informed the victim she had to get the money today but the victim said she could get only \$2,000 from a Morton Grove bank.

Her offer was accepted and she was accompanied by the second suspect to the bank where she withdrew \$2,000. Both returned to the Golf Mill bank where one of the woman went in and came out with a roll of money.

They returned to the Golf Mill Center and met the other woman who asked to see the victim's money and put it into a small envelope, writing the victim's name, amount of money and the name Barbara Johnson on it. She returned the envelope to the victim telling her to bring it to a Mr. Riley in the Professional Building.

The "plucked pigeon" went to the office of Mr. Riley who said he knew nothing about the incident. When she returned to her car both con women were gone.

The victim returned home and when she opened the envelope found it contained play money.

Centel customers to benefit by rate reduction

Central Telephone Company of Illinois today was authorized by the Illinois Commerce Commission to reduce rates by \$2.2 million. This will mean an average savings of \$1.12 monthly for residential customers in the Des Plaines - Park Ridge service area. Approximately 90 percent of Centel's Illinois customers are affected.

Centel's rate changes include: reduction of residential and business extension rates to 90 cents per month effecting savings of 35 cents and 85 cents respectively, and a minimum 50-cent reduction in monthly Touch Call service.

Centel received approval for a specially-priced Touch Call residence package: elimination of Trendline illumination charges, extension of message unit charges to that part of 312 Area Code now paying intrastate long distance rates; and enlargement of the base rate areas of the 14 exchanges in the Dixon and Pekin service areas.

Centel now bills its Des Plaines/Park Ridge customers on a message unit basis in the Inner Metropolitan Area which extends north to Lake Bluff, west to Palatine, Wheaton and Naperville; south to Park Forest; and east to Lake Michigan. The balance of the 312 Area is billed at the intrastate long distance rate. Under the rate changes all of the 312 Area would be billed at a message unit rate which will provide further savings for Centel customers.

Finally, Centel received approval from the Commission to restructure its key telephone rates which would affect about 5,000 customers.

S.E. Leftwich, vice president and division manager, points out that the company's revenues have

grown since the last general rate increase in 1970 due to telephone growth and completion of a major expansion and modernization program.

Leftwich pointed out that increased business activity coupled with economic and population growth helped to generate a 36 percent growth in telephones throughout the company's state operations. In 1970, the company operated 164,000 telephones. Today that figure is in excess of 222,000 telephones. Much of the growth is reflected in the Des Plaines - Park Ridge service areas which has seen an increase of 42,000 telephones since 1970.

During this same period, the company has completed a vast building and modernization program. Since 1970, Centel has spent over \$128 million on improvements with \$100 million of that being spent in the Des Plaines - Park Ridge area.

In 1967, Central Telephone Company began an extensive modernization expansion program in the Des Plaines - Park Ridge area, replacing all call handling equipment facilities with newer crossbar switching, as well as replacing long distance operator boards with modern, computerized consoles.

Cost of these and other improvements totaled \$137 million, of which \$100 million has been spent since 1970. The newer crossbar switching equipment installed during the past decade provides for 100 percent Touch Call capacity.

"In view of the almost never-ending spiral in the prices of consumer goods and services, we are pleased that we now have an opportunity to give some relief to our customers' pocketbooks," said Leftwich.

New Plaza Del Prado planned for Glenview

The Spanish market place of Europe has always been associated with colorful merchandise, tantalizing aromas and energetic activity. It is not a cold, sterile place to pick up corn pads and toothpaste, but rather an entire cultural experience that engages all of the senses.

But Barcelona is a long way off. Luckily, those who are yearning for a unique shopping experience can look forward to the new Plaza del Prado.

Located at the southeast corner of Willow and Pfingsten Roads in Glenview, this new shopping center has been designed with all of the warm elegance of Spain.

The mall will contain nearly 130,000 square feet of leasable area. It will offer unique casual dining facilities. Canopied walkways will shade shoppers as they enjoy over 35 fashionable, high-quality apparel and specialty shops. Several service businesses will also be located in the mall.

In addition, Plaza del Prado will house one of metropolitan Chicago's largest Jewel-Osco stores. The Jewel-Osco will occupy about 50% of the center's area. Parking is available for more than 548 autos.

Plaza del Prado is strategically located in an affluent, dense and easily accessible community. It is near the Tri-State Tollway and the Edens Expressway. The shopping

center is minutes from the YMCA, Northbrook Sports Complex and Glenview Ice Rink, and is situated between Glenbrook North and South High Schools. Residential housing developments including La Salceda, Stone Brook, The Willows, Mission Hills and Salem Walk will find Plaza del Prado easy to get to.

The name "Plaza del Prado" means "place of the meadows." That sums up, beautifully, the cool, fresh atmosphere that the shopping mall will provide.

Ken Tucker and Associates of Skokie is handling the development, leasing and management of Plaza del Prado. Currently, Ken Tucker and Associates is involved in the development of several regional shopping centers, which will open within the next three years. Principals of the firm are responsible for Sandburg Mall in Galesburg, Illinois, a 500,000 square foot shopping center which opened in October of 1976, as well as a number of strip and mini malls in the Chicago land area.

Projected opening date of the mall is Spring of 1978.

There are lots of ways to spend \$137,000,000.

We built a whole new telephone company with it.

The Central Telephone Company of today barely resembles the Central Telephone Company of 10 years ago.

That's because we started a \$137,000,000 modernization program in 1967. And virtually built a new telephone company for the Des Plaines and Park Ridge area.

Now your calls go through faster and better than ever before.

Touch-Call is now available to everyone who wants it. And in a variety of the latest colors and instrument designs.

With our recently installed "Line Condition Report System", an electronic wizard in its own right, we can pinpoint potential problems that haven't even happened yet. Just so we can make repairs ahead of time whenever possible.

While all of these improvements have

been going on, the number of telephones we serve has increased 78%.

So we've not only grown bigger at a very fast pace, we've done an almost impossible thing.

We've gotten better at the same time.

'Bring on the bull'

Dear Mr. Besser: I am aware that this letter does not meet the criteria to be published as a letter to the editor, however I am sure you can understand why I cannot sign my name. What ever happened to the old time reporting, you know the kind, where the reporter used to go after the story and not let the

story come to him. One who would not let a tip on a hot story die without at least a followup.

For instance, why the Policeman of The Year quit a week after being named Policeman of The Year, or where the Fire Department is reported to be so undermanned that there are only two men on the fire engine necessitating citizens helping at fires. Niles still has only one Paramedic unit and other towns have more.

There is a definite pattern of focusing on Village of Niles Problems, however there is something lacking in the followup reporting of these stories. Is there pressure being exerted from somewhere? You used to be the

Compliments for the Niles police

Dear Editor, Recently our establishment was burglarized, twice in one week. The robbers stole merchandize and disrupted our method of doing business.

This open letter is directed to the Niles Police Dept., to thank them publicly for the fine job they did and are doing.

It is very disheartening to learn of your business being burglarized, but when the police apprehend the criminals and recover merchandize, that's almost above and beyond the call of duty.

My thanks to the wonderful Police Dept. Niles has and the many fine men that make it so. Niles residents should know they have the best Police Department around.

Mikva bill to assist small business

Congressman Abner J. Mikva has introduced legislation to allow businesses an income tax deduction for funds reserved to pay losses on product liability claims.

The deduction would be the same extended to businesses that obtain product liability insurance and deduct premiums for income tax purposes. Mikva's bill would benefit medium-sized and small businesses that cannot afford product liability insurance and have been discouraged by the tax laws from entering self-insurance programs.

"For many small and medium-sized businesses, product liability is the most serious obstacle to success," the Congressman said in a statement when he introduced the bill. "The increasing cost of product liability insurance coverage has been accompanied by increasing difficulty to obtain it, with the result that an increasing number of small bus-

inesses are taking the risk of not having insurance."

"This pay-as-you-go liability is extremely risky, especially for small businesses. When losses exceed revenues, the company may be forced to sell or borrow against assets or even declare bankruptcy. No one wins in this situation. The plaintiff may not receive compensation, and the company may go out of business," the Congressman continued in his statement.

The proposal has been referred to the House Ways and Means Committee, of which Mikva is a member. His bill is the House companion to legislation introduced in the Senate by Senator John Culver (Ia.).

The bill sets a limit on the amount of money a company may reserve for product liability, 2% of gross receipts of that product in any given year, a percentage comparable to the average that affected manufacturers are now paying in product liability payments. Withdrawals for any other purpose would be subject to a stiff penalty under provisions of the bill.

"Passage of this legislation is important in view of the difficulty small and medium-sized businesses have in affording and obtaining product liability insurance. The problem has worsened in the past decade and during the same period, the courts have extended the tort law concept of strict liability to product liability," the Congressman said. "The result has been a rapid increase in the number of product liability suits."

From 1970 to 1977, the number of claims filed rose from 500,000 to one million and the total cost of paying claims has risen from \$12 billion in 1970 to \$50 billion in 1975. Average awards have escalated from \$25,000 in 1970 to \$50,000 in 1975.

"With this trend, the small and medium-sized businesses that form such an important and productive part of our economy deserve the same tax deduction related to product liability protection that the larger companies have," Congressman Mikva concluded.

Industrial fire set at \$1,000

A late afternoon fire Thursday, July 14 caused an estimated \$1,000 in damages to Pathfinder Corporation at 6201 Howard st., Niles which manufactures automotive lighting accessories.

No one was injured in the fire located in the south end of the plant in the returned merchandise section.

A fire department spokesman said employees had quit work for the day and left the building when several maintenance men saw flames erupt shortly after 5 p.m.

An attempt made to put out the fire with portable fire extinguishers was unsuccessful he said. The fire spread, intensifying heat which activated sprinkler heads. The sprinkler system con-

tained the fire until arrival of firefighters.

The blaze was confined to the area where returned goods being reprocessed had been packaged in cardboard containers and stacked on wooden pallets.

Firemen reported fire, smoke and water damage with superficial scorching of the area ceiling.

Cause of the fire was not determined but firemen are investigating the possibility that it was due to careless use of smoking materials.

While the fire on Howard st. was being extinguished, firemen were also called to another industrial area to investigate smoke, which turned out to be of no incidence.

Percy at Maine Township GOP

When Sen. Charles Percy (R-Ill) talked informally with Maine Township Republican officials before addressing the organization's meeting July 6 in Park Ridge, it appeared he was showing how he spoke from notes on the back of an envelope as another Republican, Abraham Lincoln, did at Gettysburg.

From the left are Dee Conroy, president of the Maine Township Regular Republican Organization; Sen. Percy; Margaret Wirsan, a township trustee and Republican committeewoman, and Philip Raffie, township clerk and committeeman.

Percy said he is opposed to the voter registration measures supported by President Carter and to the proposed withdrawal of American troops from South Korea, but he agrees with Carter in dropping the B-1 Bomber in favor of the cruise missile program.

Maine Township Council on alcoholism

The Maine Township Council on Alcoholism announces that seven Maine Township High School students, and one from Elgin, are attending the Third Annual Illinois Teenage Institute on Substance Abuse, July 19 to 23, at the Allerton Park 4H Memorial Camp in Monticello, Illinois. Scholarships to cover the cost of tuition, room and board at the Institute for five of the students are being supplied by the Twentieth Century Club Juniors Foundation. They are Marcie A. Marotto and Laura J. Geimer of Maine West, Loy E. Shefflot and Jacquie Bozarth of Maine South, and Robert F. Adams of Notre Dame high school. The Des Plaines Junior Womens Club is sponsoring Allen B. Greenberg from Maine North high school. Bob T. Casper of Notre Dame high school and Gail Gallagher of St. Edwards high school in Elgin are being sponsored by the Irving Park Womens Club.

Maine South high school student Cathy Phillips, of Park Ridge, was elected Student Advisor of last year's Institute. She will be attending the 1977 session in that capacity.

The purpose of the Institute is to bring together Illinois teenagers and expert resource people to share information, and to examine feelings about alcohol and drug usage. Three major goals of the Institute are: 1. To correct misinformation; 2. To clarify and reinforce accurate information; and 3. To differentiate between attitudinal "information" and factual information. In dealing with the problems of substance abuse misinformation and ignorance are the principle barriers.

Under the overall title, "Life is Now", the Illinois Teenage Institute on Substance Abuse is sponsored by the Illinois Alcoholism and Drug Dependence Association, Illinois Attorney General's Public Health Trust, Illinois Dangerous Drugs Commission, Illinois Department of Mental Health and Developmental Disabilities - Alcoholism Division, Illinois Federation of Womens Clubs, Illinois Jaycees, Illinois Office of Education.

For further information about the 1977 Illinois Teenage Institute on Substance Abuse contact the Maine Township Council on Alcoholism at 2510 Dempster in Des Plaines. The phone number is 297-0240.

Oakton director clarifies eligibility for college aid

Many suburban families, particularly middle-income families, do not realize that college-bound students may be eligible for financial assistance, according to Michael Dessimoz, director of financial aid at Oakton Community College.

Dessimoz, who is also assistant director of admissions and records, points out that there are a number of areas of confusion and myth about who can or cannot receive financial assistance to attend college. For example, many students attending Oakton need and receive financial help, even though the direct costs are quite low. Oakton tuition is \$12 per credit hour, or \$6 per credit hour for residents 60 years of age or older.

One of the myths about financial aid is that all assistance programs are for the traditional college-age student, just out of high school. Another is that financial aid is only for full-time students. Neither is true, Dessimoz said. Students at Oakton will get financial help no matter what their age, as long as they maintain at least a half-time course load.

Another area of confusion relates to exactly what financial aid is. Some people look on financial aid only as scholarships and other gifts, and do not regard jobs and loans as education assistance, Dessimoz said. Others view it just the opposite, thinking of financial aid only as borrowing or working. In fact, students who qualify for financial aid may find

themselves receiving a "package" of aid combining gift awards, loans, and employment.

Dessimoz stated that, with the exception of privately-sponsored scholarships and talent awards by colleges (athletics, music, debate, etc.) nearly all financial assistance is based on the factor known as financial need.

Financial need is the difference between the cost of a particular college and the money available to meet that cost. Factors that go into the calculation of ability to pay are income, assets, size of family, age of parent or parents, number of children in college, and any unusual factor such as extraordinary medical bills, he said. In short, determination of financial need is a view of the total financial picture of the family.

Another confusion is over the cost of education, according to Dessimoz. Much more than tuition, fees, books, and supplies are included in determining the cost of college, he pointed out. Every college builds into its cost budget estimated allowances for transportation, personal and recreational expenses, room and board or maintenance at home. The minimum cost budget for any college today, including local community colleges, approaches \$2,000 annually, according to Dessimoz, and it is this cost budget upon which ability to pay (or financial need) is determined.

Finally, there is confusion over when students are independent of their parents. Many believe that

if they move out of their parents' home on Tuesday, they are independent of their support on Wednesday. Also, many think that if they live in their parent's home, but are not claimed as tax dependents, they are likewise independent of parental support. Dessimoz said that a student is considered independent when he or she has lived apart from parents and has not been claimed as a tax dependent or received significant financial support from them for approximately two full years prior to the school term in which aid is sought.

Nearly all colleges across the country utilize the same documents in determining eligibility for financial assistance, according to Dessimoz. They are: the Illinois State Monetary Award Application (for Illinois Colleges only); the application for the Basic Educational Opportunity Grant; and either the Financial Aid Form or the Family Financial Statement. All these forms are available in the Oakton Financial Aid office, but Dessimoz indicated that direct contact with the Financial Aid officer at the college to be attended is highly recommended.

Warning on home improvement frauds

Honest home repair contractors are well-established members of the business community whose good reputations result from solid performance. The dishonest contractor, on the other hand, is often a transient who moves his operation from town to town. With each move, he does business under a different name and uses any number of different schemes. Specific home improvement frauds that are frequently encountered include the coating of driveways and the sealing of basements.

Once in contact with an unsuspecting homeowner through a newspaper ad or other means, the dishonest contractor can use various tactics. The criminal may inform the owner, that because of the low repair fee, he must be paid in advance. After paying in advance, the victim will anxiously wait for the work to begin - until he discovers that the contractor cannot be located and that many other homeowners have been similarly bilked.

Another scheme used by dishonest contractors is to finish a given job in a short period of time, take full payment from the owner, and then leave the area without first paying all subcontractors and laborers who provided their services in completing the job. The victimized subcontractors can usually place liens against the owner's property to recoup their losses for expended materials and labor.

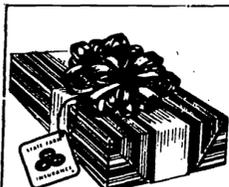

In a variation of this type of fraud, the shady contractor secures a negotiable promissory

note from his victim, who does not have the necessary money for the home-improvement work. The note is then quickly sold to a finance company. The home improvement work is either never done or done poorly with inferior materials and labor. The victim's indebtedness is now to the finance company ("the holder in due course") which he must pay. The victim's only recourse is against the contractor who will not easily be located.

Sometimes the confidence man poses as a government inspector or an inspector who represents a company that offers free home inspection as a public service. After a "thorough" inspection, the "inspector" generally finds some serious health or safety hazard, such as a faulty furnace that may explode at any moment, that requires immediate correction.

Police Chief Glauner again reminds you to be cautious of those coming to your home with services or goods to sell. The law says that if a seller comes to your home unsolicited, and goods or services worth \$25 or more are sold, then you have three full business days following the transaction in which to cancel the sale or contract and receive a full refund. The consumer must return any goods (but not services)

If you have any questions, or are suspicious of a salesman or company, call the police or the Attorney General's Office, Consumer Fraud Division, 793-3580, BEFORE you sign anything or agree to purchase something.

Local graduate

Douglas Moorad, son of Mr. and Mrs. Alex Moorad, 9247 Osceola, in Morton Grove, received his Bachelor of Arts degree at the 99th Lake Forest College Commencement recently.

Moorad, an English major, was among 250 graduates who heard famous children's author Theodor "Dr. Seuss" Geisel deliver the commencement address in the innovative style of an 18 line poem warning the students to take heed of the pitfalls in life. Seuss was awarded an honorary degree by LFC.

Moorad's sterling College career was highlighted by his numerous contributions to the championship Lake Forest soccer team. Doug, an outstanding goalie, led the team to three consecutive Midwest Conference soccer championships while being named to the Midwest Conference All-Star team two years in a row. Moorad also garnered all star honors from the National Association of Inter-Collegiate Athletics. His athletic prowess was evident in his baseball career as well. Moorad, the first string catcher, hit at a crisp .313 pace during his senior year, while maintaining a .955 fielding percentage behind the plate.

In other areas of College life, Doug was a member of the student newspaper staff, a resident assistant in the McClure dormitory, and a contributor to the LFC literary magazine *Sphinx*. He was a 1973 graduate of Maine East High School.

apply for admission immediately, according to college officials. Regular registration for the fall term will end August 5.

John Gagin, director of admissions, urged students to register as soon as possible in order to get the courses and programs they want. "People who wait until the last minute often find that the class they wanted is filled and they have to take an alternative."

Open registration for all students unable to register during the regular period will be held on August 22 and 23 from 9 a.m. until noon and from 5:30 until 8 p.m. Fall classes begin on August 29.

Residents of the Oakton Community College District 535 who wish to take a program of instruction not offered by Oakton should apply now for tuition reimbursement for another

Illinois Community College. This applies also to residents of Glenbrook and New Trier high school districts which are expected to be annexed to the Oakton district this month, Gagin said.

All new students at Oakton are now required to take diagnostic tests in the areas of communication, math, and reading prior to registration. Testing is scheduled on Monday, July 25, from 5:30 to 8:45 p.m. and on Monday, August 1, from 8:45 a.m. until 12 noon. College personnel will be available to provide academic advising and counseling.

Tuition at Oakton is \$12 per semester hour, reduced to \$6 per semester hour for residents who are 60 years of age or older.

For information about admission, contact the OCC Admissions Office at 967-5120, ext. 392.

ED HANSON

What do you do with 175 pound Werewolf?

And a female Werewolf, at that. The answer was simple. I entered it in the Pet Costume contest to be held Saturday, July 23, in the Niles Day Festival.

I first spotted this female werewolf, some weeks ago, padding thru the forest preserve area near the Leaning Tower "Y". I was driving home about 3 a.m. when I saw the flash of her shimmering pale gray fur.

I stopped the car and entered the wooded area. When I heard her "howl", I knew it was a wolf. At first, I thought it was a timber wolf. Suddenly, about 30 feet ahead of me I saw her sitting upon her haunches. Even on her haunches, she was about four and a half feet high. And in the bright moonlight, I saw her evil eyes and huge bared fangs. A deep growl emitted from her huge chest. I backed slowly away and withdrawing a silver bullet from my pocket, I held it in front of me. She crouched as the ready to attack but an instinct, apparently centuries old held her in check. I then flicked my butane lighter at her and the flame sent her scurrying off into the woods.

I then drove to the Niles police station and reported that I'd seen a wolf. The fat desk sergeant laughed at me. "You been drinking Hanson?"

"No, indeed. I know what I saw and I'm reporting it!" It seems that the Niles Police have no jurisdiction in the forest preserves. So they put it on the wire and alerted the Rangers.

I went back to my hotel but had difficulty falling asleep. I knew something about werewolves. I just finished the novel called, "The Howling". It will soon be a major motion picture. If the movie is as scary as the book, it will make "Jaws" seem like a Hans Christian Anderson fairy tale.

The existence of werewolves was written about as far back as 450 B.C. in ancient Greek writings. Thru the centuries, and even in the Bible, they keep popping up.

As recent as 1962, a colony of werewolves was reported in the heavily wooded forests of northern Canada. And several other incidents of these nocturnal predators has appeared in print in small towns in the western United States, including the state of Illinois.

About a week later at a small but rather exclusive cocktail party, I met a tall, attractive, sexy looking woman with large black orbs. When a mutual friend introduced us, she said to me, "We've met before."

Later, when my friend left, I said, "Where did we meet before? - I'm sure I couldn't forget someone as attractive as you."

She laughed. "In the woods. You had a silver bullet and you flipped your bic." With that she wandered off and joined a group gathered around a piano. I didn't talk to her again.

I got myself a double Vodka and began to think. Werewolves can only be destroyed by a silver bullet or fire according to legend and folklore.

Her name was Olga, something or other, and I had given her my phone number at my hotel.

Imagine my surprise when a few days later I received a call from her about 9 p.m. "Mr. Hanson, I wonder if you could stop in and see me at my apartment tomorrow morning about eleven ... I have something I wish to discuss with you."

I agreed and she gave me the address of her apartment located in a rather posh northwest suburb.

Her apartment was out-of-this-world. Everything was mirrors. The walls, the floors, even the ceilings were mirrored. The furniture was all white antique, 16th century.

She explained that she was planning to open a small shop dealing in art and ancient antiques. She wanted some display ad rates and wanted to know if she advertised, could I devote a column to her unique shop.

"Certainly, Olga, I said. "When will you be ready to open your shop?"

"Oh about a month or so. Thanks for the information - I'll call you when I'm ready."

Just a few nights later I again received a call from her about 10 in the evening at my hotel.

"Mr. Hanson, I wonder if you could come over and see me tonight - I'll explain when I see you. And, Oh, yes ... could you bring a bottle with you?"

"Certainly, Olga ... I'll be there in about half an hour ..."

When I got to my car, I realized it was almost ten thirty - where was I going to get a bottle of this hour?"

"Why, of course, BRISK AUTOMOTIVE is open 'til midnight," I said to myself.

So, I drove over to BRISK, went inside, and said to Danny, "Please give me a bottle of WINDEX....."

District 207 sets school fees for coming year

At it's July 11 meeting the District 207 Board of Education voted student activity fees for the coming year. Activity tickets, to cover school newspapers and admissions to all sports events, will be \$6.50, an increase of 50 cents over last year. Students without activity tickets will pay an admission price of 75 cents for all sports events; adults will pay \$1.50. The Family Pass remains a good buy at \$13.00, an increase of \$1.00 over last year's price.

Other fees set were: textbook rental, \$1.25; towel rental, \$1.25; gym lock rental, 75 cents - all the same as last year. Yearbooks, at \$7 for cash sale and \$7.50 for installment sale, are \$1 over last year's price.

Student insurance, with Guarantee Trust Insurance Company, will cost \$7 for a regular, basic policy; \$26 for 24-hour insurance; and \$33 for football insurance, with the student paying \$13 and the Board paying \$20.

The Board also voted to again subsidize the four school newspapers in an amount not to exceed \$10,000.

Arrangements were made for the preparation of a tentative budget for the Maine Township high schools for the 1977-78 school year, with the Board directing the district's Assistant Superintendent-Business, Donald E. Kenney, to develop the budget and have it available for public inspection at the Ralph J. Frost Administration Center, 1131 s. Dee rd., Park Ridge, for a 30-day period beginning August 5. A public hearing on the tentative budget has been scheduled for the evening of September 6, at 8 p.m. at the Administration Center.

As the administering district of the Maine Township Special Education Program, the Board acted on the MTSEP budgets for the 1977-78, as submitted for approval by the Executive Board of that program. Budget "A" was approved in the amount of \$148,300; Budget "B" in the amount of \$983,377. The two budgets make the total amount of anticipated expend-

itures for operating the program for the coming year - a total of \$1,131,577. State reimbursement is anticipated at \$808,495.

It was announced that the administration, in accordance with the authority given at the June 6 meeting of the Board, has approved the installation of a 3-M Tattletape Book Detection System at Maine North, similar to one now installed at Maine South. Board members were informed that there has been a 75.5% reduction in book theft from the Maine South Learning Resource Center since the book detection device was installed last fall.

Midsummer vacation suggestions

Now is the time for all good motorists to come to the aid of their families. It's hot and uncomfortable, the kids are hanging around the house, and school's out. The Chicago Motor Club-AAA has put together a list of nearby parks, forests, and water recreation areas that can serve all overheated families with a much needed, mid-summer escape.

1. **Apple River Canyon State Park, Illinois:** This comparatively small Illinois State Park encompasses a wide variety of interesting features: limestone bluffs, deep ravines, springs, streams, and diverse wild life. Travelers will find marked trails through the canyons and picturesque sections of the park, a picnic area at the site of an old mill, convenient shelters, an area for tent and trailer camping, and a

large parking area. The Apple River is stocked with many varieties of fish.

2. **Boulder Junction, Wisconsin:** In the upper lakes region of Wisconsin, in the Northern Highland State Forest, Boulder Junction is a sports fishing center in the summer. Within a nine mile radius there are 190 lakes from which more than 1,500 muskellunge (muskies) are taken annually. The minimum legal size limit for this fighting fish in Wisconsin is 30 inches. Bass, trout, great northern and walleyed pike are also plentiful, while bear and deer roam wild in the surrounding woods.

3. **Spring Mill State Park, Mitchell, Indiana:** The 1,300 acre park located just 3 miles east on SR 60 is one of the most successful historical restorations in the country. The moss covered

ruins of Spring Mill Village, founded in 1815, were discovered in a secluded hollow entirely surrounded by towering hills. The park includes the restored original water-powered gristmill, the reconstructed sawmill, hat shop, post office, still house, bootshop, apothecary shop and remaining portions of a limekiln. The park also contains approximately 100 acres of virgin woodland with some of the largest specimens of white oak and tulip poplar in this region. There are also many unusual caverns and underground streams with rare species of blind fish.

4. **Interlochen, Michigan:** This northern Mich. village is headquarters for the National Music Camp, an educational institution affiliated with the University of Michigan and the Interlochen Arts Academy. Founded in 1928, the camp now enrolls about 1,600 students in the arts - music, dance, art, and drama - for eight weeks each summer. The 1,400 acre campus includes two large outdoor concert halls, a theater, an art gallery, an indoor auditorium and a large complex of classroom buildings. Concerts, plays, dances and other performances are scheduled Tuesday through Sunday to mid-August.

5. **Mississippi Palisades State Park, Illinois:** Two miles of Savanna on Ill. 84, this area of nearly 1,300 acres has rugged cliffs rising above the river, thickly wooded areas, and attractive valleys. Points of interest include the twin sisters, Bob Upton's Cave and Indian Head. Hiking, riding, and boating facilities are available.

6. **Chippewa National Forest, Minnesota:** Encompassing more than 645,000 acres, Chippewa National Forest includes some of the largest lakes in the state - Winnibigoshish, Leech and Cass Lakes - as well as scores of smaller ones. Their beaches and excellent fishing and boating attract vacationers in the summer. A scenic drive encircling Pike Bay traverses a virgin pine forest, typical of the forests that once covered much of northern Minnesota.

"Pennies from Heaven"

"Pennies from Heaven" for Jerry Lewis and the Muscular Dystrophy Association - that's the theme of a new program announced today by Reynolds Metals Company. Jerry is seen here with the Los Angeles MDA poster-child. Reynolds will donate one penny to the Muscular Dystrophy Association for every pound of aluminum recycled by the company's nationwide recycling program during the month of August. These collections are expected to exceed 10 million pounds.

The penny a pound donation will be in addition to the 17 cents a pound normally paid to the public. The recycler may keep that money or donate it to MDA.

The "Pennies from Heaven" donation program begins Monday, August 1 and continues through Labor Day, September 5, when Reynolds mobile recycling units will be located at many of the television stations participating in the Jerry Lewis Labor Day Telethon for Muscular Dystrophy. All 800 Reynolds collection points in 45 states will participate in the August promotion. The same collection points also will accept donated cans for MDA all summer.

The Lawrencewood Plaza, Oakton and Waukegan rd., serves as one of the recycling unit stops in this program. The mobile unit visits Niles from 1 to 4 p.m. every other Saturday, August 13 and again on the 27th.

Ernie Banks at Unity Savings

Ernie Banks, Mr. Cub, will appear at Unity Savings, 8361 Golf rd., Niles, on Friday, July 22 at 7 p.m. There will also be a drawing for free tickets to see the Cubs on Unity Day at Wrigley Field, Aug. 7. Mrs. King and "Lady" won three blue ribbons here, in English Halter, English Pleasure (14 and over), and English Equitation (14 and over).

Mrs. Thomas Van Dyke King (the former Barbara Ann Scott) was once again a winner, showing her mare "King's Regal Lady" at the Somers Saddle Club Horse Show on Sunday, June 26, in Kenosha Wisconsin. Mrs. King showed her Saddlebred mare to win two blue ribbons - in Senior English Horsemanship and Senior English Pleasure.

Betting Parlor...

Cont'd from Niles-E.Maine P.1

Wheeling, has repeatedly made attempts to open up in Niles at 8045 Milwaukee ave. despite a village ordinance which specifically prohibits bet-messenger services.

Betting Services, some 200 in Chicago and 30 in suburbs, deliver a customer's bet to a racetrack pari-mutuel window, returning with any winnings. They usually charge a 10 per cent fee for the service.

Building and Zoning Director Joseph Salerno said he has issued a Stop Work order on two separate occasions at the Milwaukee-fronted shop since denial of a permit to the off-track bet agency on June 16.

Salerno, a bulldog in upholding village ordinance, stated the agency's representative, a Mrs. Ross, threatened to take Niles to court to fight the ordinance unless a certificate of occupancy inspection was issued to them, regardless of the village code.

Refusing to comply with the demand Salerno has kept a day to day record on "proceedings" in case we have to go to court." Time is tricky, he observed "when it comes to exact recall of previous conversations and events."

Salerno said he has kept a "close eye" on the Milwaukee premises as soon as he knew of the agency's intent to open in Niles.

"If the bet-messenger service becomes established in Niles with a going business the courts would not permit closure unless the judge reached a ruling as to whether the village ordinance is a valid one..."

"Should they stay in business the Service could request continuances for the next 20 years before the courts arrive at a decisive ruling..."

"On the other hand," maintained Salerno, "if the business is non-functional, non-operating, legal opinion would keep the place closed until the problem is resolved..."

If the agency is not open both the messenger-service and the village could press for a ruling he noted because both would want an answer.

Niles ordinance passed January 11, 1977, states "It shall be unlawful for any person, firm or corporation to accept any wager or bet on any horse race which person, firm or corporation thereafter places set wager or bet at an authorized race track irrespective of whether a fee is charged..."

New into law is a state ban on Messenger Services signed June 27 by Governor Thompson making it a felony punishable by up to 3 years in prison and a fine of \$10,000 to accept money to take bets to a racetrack. Mrs. Ross, manager of Front Runner, said in a telephone

interview that she was not sure of what was going to happen now... "everything is up in the air at the moment... If there is a ban and it is legal it's doubtful whether the Service will come into Niles..."

She said Front Runner has been in operation in Skokie since November... "Skokie's ordinance was put into law after we opened..."

In retrospect Salerno said that on June 20, four days after denial of permit to the Messenger Service, he observed a workman panelling the walls of the storefront. The man was ordered to leave and Salerno posted a Stop Work order of village ordinance violation.

A copy of the Niles ordinance was hand delivered by village attorney to Feiwel, Galper and Lasky, Chicago attorneys representing the Messenger Service. Following "the meeting of legal minds," according to Salerno, "they were ready to go to court June 20 to challenge the ordinance..."

The June 27 State ban initiated a letter from the village attorney to Chicago lawyers, indicating their challenge be directed at the State now, rather than Niles. Setting teeth into the suggestion Niles Atty. Richard Troy observed Niles "would resist any attempt... for injunction... to allow establishment of new units"

during litigation to determine validity of the law. Still "watching the store" Salerno July 7 saw a telephone company employee installing a telephone for Front Runner at the Milwaukee address. The man was told to leave and the Stop Order notice which had "disappeared" from the door while the workman was there, noted Salerno, was replaced.

A female employee of the Messenger Service was told by Mrs. Ross to remain on the premises, that the agency had a restraint order against Niles, "a restraint," said Salerno, "that never materialized..."

He said he advised Mrs. Ross over the telephone to contact her attorney prior to sending any more workmen in to Niles.

Nothing more has been heard, said Salerno. A volley between court opinions upheld the State ban on Messenger Services Wednesday July 13 but the Bet Services won an Illinois Appellate Court re-rieve Thursday which allowed 12 Chicago service to remain open until further court notice.

Fire science courses

Oakton Community College will offer a broad range of courses for individuals concerned with fire protection during the 1977 fall semester, according to Dr. Fred Salzburg, coordinator for Fire Science.

Men and women in fire service or other occupations such as fire insurance or industrial safety will find the courses helpful in meeting advancement opportunity or to upgrade job skills.

Introduction to Fire Science (FIR 101-50) offered on Thursdays from 6-9:20 P.M. gives an in-depth overview of the fire protection field.

Chemistry of Hazardous Materials (FIR 105-50), scheduled for Monday nights from 6:30 until 9:20, considers the characteristics, handling, storage and suppression of flammable materials.

Emergency Medical Technician (FIR 220-50 and FIR 221-01), prepares students for handling health related emergencies. One section is offered on Tuesdays and Thursdays from 6:30 - 9:20 p.m. while the second section meets on Saturdays from 9 a.m. until 2:30 p.m.

Fire Fighting Tactics (FIR 201-50), instructs in planning and execution of fire suppression operations. It will meet on Tuesday evenings from 6:30 until 9:20 at the OCC Notre Dame Extension Center, 7655 Dempster, Niles. Also scheduled for the Notre Dame Center is Fire Protection Systems (FIR 201-50) which treats detection and suppression devices used for the fire protection of commercial and industrial installations. The latter will meet on Wednesday nights from 6:30 until 9:20.

Registration is now in progress through August 5 at Oakton. Open registration is scheduled for August 22 and 23. Fall classes begin on August 29.

Cont'd from Niles-E.Maine P.1 "In other business Park Commissioners referred to Administration five bids on fire detectors for installation at the Rec Center, Grennan Heights and the Maintenance Garage.

The bids ranging from high to low were from Gard Systems of Morton Grove \$4,468; Honeywell Protection of Elk Grove \$4,011; Armored Electronic Security of Chicago \$3,606.60; Notifier by Nelson \$3,473.80 and Audion Systems Co. of Chicago \$2,235.

"Requested a survey of parks for determination of highest number of tickets issued by police to individuals in recreation areas after closing hours.

"Were advised the 1976 assessed valuation for the Niles Park District was set at \$250,342,558 as compared with the previous year's \$229,989,094. This year's budget was based on an estimated \$242 million assessed valuation.

"Were advised by Comr. Steve Chamerki that a request by a Seward st. resident for installation of an 8 ft. fence at Nico Park was tabled for future consideration. "Complaint by the Nilesite concerned adult ballplayers at the park.

"Were briefed by Director Hughes that a Joint Purchasing Agreement with 20 other park districts resulted in a total net savings of \$1,751 for the Niles Park District, "especially in purchase of grass seed and paper sundries."

In final action Comr. Jack Leske commended Supt. of Recreation Debbie Nelson for the July Fourth parade float trophy won by the Park District.

"We're finally No. 1 after all these years," noted Leske. Debbie attributed the trophy award to "dedication by her fine summer staff" in work hours on the immense lion and seal circus float which enchanted parade-viewers.

Handball Tournament

Three of the six Court House racquetball clubs in the Chicago area - Mid-Town, Schaumburg and Skokie - will host the first Chicagoland handball tournament, Saturday and Sunday, August 6-7.

There will be three divisions - under 35, seniors (35 through 44), and masters (45 and over) - as well as two skill levels - C and Open. All three tournaments will be both singles and doubles competitions.

The events have been structured so that there will be winner/consolation tournaments in each division and at each skill level, thus guaranteeing all participants at least two matches.

Entry fees will be \$4 per participant for singles or doubles, \$5 per player for singles and doubles, and court fees will be \$3 per person per match for doubles. A minimum of eight contestants is required to hold a division. Matches will begin at 11 a.m. All entrants will receive a tourney T-shirt.

None of the tournaments will be seeded. All entries must be received by 6 p.m., Monday, August 1. Pairings will be posted within 24 hours.

For further information participants should contact: Scott Hemphill, Skokie Court House, 3710 Touhy ave., Skokie, Ill. 60076, Telephone: 677-4100.

great deal more industry in its area than District 67. By merely moving a block north of Main Street means this tax increase. Likewise, moving from east Harlem ave. to the west side of Harlem means a tax increase. From Howard to Oakton neighbors across the street in Niles Township. North of Oakton and west of Harlem residents pay \$275 more annually than their neighbors on the east side of Harlem. Again, the inequity is due to industry being located primarily in Niles Township within the villages. It is estimated, industry pays about 40% of the total tax bill in the communities.

Golf Mill Shopping Center had an 8% increase in sales in 1976. The previous year \$85,000,000 sales were recorded while in 1976 the figure is \$91,000,000.

The top shopping center in the Chicago metropolitan area is Woodfield's Center with \$249 million dollars in sales, a 4% increase from 1975. Far behind in second place is Oak Brook with \$189 million, also an 8% increase. Ford City, River Oaks, Yorktown and Old Orchard are next in order with sales of 155 million down to 144.5 million for Old Orchard. Evergreen Plaza with \$125 million and Lincoln Mall with \$110 million are ahead of Golf Mill. New 1976 centers North Riverside, Northbrook Court and Water Tower Place, all opened in 1976, are between 60 to \$80 million, all likely to move up in the ensuing years.

The largest percentage increases were Hawthorn and Lakehurst with 17% and 18% gains from 1975.

While the total shopping center volume for the 16 largest Chicagoland centers reached \$1.9 billion dollars, it is only a small slice of the total \$217 billion dollars of sales created in the 17,500 shopping centers in the United States.

Pullen bill on voter registration

For the first time, suburban voters will be able to register locally on the same days they can register in the Loop, according to legislation which has passed the Illinois Senate 41 to 5. The bill awaits the Governor's signature.

HB-132 was sponsored in the Senate by Sen. John J. Nimrod (R-4th), who told his colleagues the measure will "enhance convenience for the suburban voter. If the suburban resident can register downtown on a given day, registration should be available in the suburban clerks' offices too."

The bill's author, Rep. Penny Pullen (R-4th), who steered it through the House 96 to 53, said the current law provides that the offices of township, city, and village clerks may register voters only until the 45th day preceding any countywide election, while the county clerk's office registers voters up to 28 days before a primary and 35 days before a general election when precinct polling place registration is available.
