Village ponders self service gas plan

by Alice M. Bobala

Niles is seeking guide lines concerning self service gas stations in the village. Of the 27 service stations in Niles, eleven have submitted applications to the State requesting self service operation.

They were responding to Gov. Thompson's order May 1 that State fire regulations be changed to permit self service.

With approval of self service gas stations, the State requires service operators to obtain a permit from the local fire department. No permits have been issued in Niles as yet.

Judging from plans submitted with applications, a Niles Fire Dept. spokesman indicated the majority of the requests are for both full service and self service operation. However, he said, the type of service would necessarily depend upon station facilities ... "Some will go completely self service. Others with service islands to grease cars may offer full

Every summer we suggest you get out from behind that television set and explore the joys of Chicagoland.

This past Labor Day weekend we did just that and it proved very rewarding.

Monday morning we marched in a parade for blithe spirits. Unlike the well-organized Niles parades with marching bands, militiamen and scouts and baseball leaguers, our Monday parade was made for anarchists. The Wellington-Oakdale Old Marching Society parade is a neighborhood get-together in which 200 neighbors leisurely troop down the streets. One bagpiper provides the music. Paraders wander down the northside streets, move to curbside to hail down a friend, and slowly wend their way over to St. Joseph's Hospital, where a high school jazz band entertains the marchers on the green in front of the hospital.

On the parade route baby buggies get mixed up with long dog leashes. Little flag wavers wander on and off the parade route as they greet their young friends. And the cop leading the parade stops in the middle of Sheridan Road, halts the parade, gets out of his lead car and reprimands a horn pumper who is trying to move thru the crowd.

The sky was the bluest of blue. The sun shone brightly on Alexander Hamilton's golden statue in the park, and old Pete Altgeld had a guy sitting at his statue's feet, with holes in his socks, reading Tragedy and Philosophy, completely ignoring the ragbag marchers as they strolled on the perimeter of Lincoln Park. It was a lovely day. Insouciant and people who like to parade for the hell of it had a great time.

Sunday night we drove thru 80 minutes of rain to Milwaukee to hear the best jazz concert we've ever heard. The County Park system hosted 4 hours of guitarist Charlie Byrd, Jackie Cain and Roy Kral, Sarah Vaughan, Woodie Herman and another of his Herds, and Mel Torme. Since Sarah, Mel and Jackie Cain have been longtime favorites, it was a musical feast we couldn't pass by. As Torme noted, he couldn't recall when he had been on stage with so many

Runners on the move at West

The Niles West Cross Country team is busy running in preparation for the 1977 season. The team returns three experienced lettermen in seniors Mike Okazaki, Scott Noren, and Nick Porcaro. Moving up from last year's sophomore team is Rick Arendt. Newcomers include Jeff Brotman, Adam Keno and Nester Evaristo.

Last year's team compiled a winning record of 9 wins and 4 losses. Coach Savage is entering

his ninth year of coaching cross country and track at Niles West and although this team will not be as good as the 1973 team that won the Conference Championship Meet, the 1977 team should win its share of meets.

The 1977 season opens with the Maine North Invitational and then the Notre Dame Invitational. Niles West runs its first home meet on September 12 when they host a five team meet.

Drug Overdose

Two Niles brothers were charged with possession of marijuana and possession of a hypodermic syringe August 26 after the older youth notified police at 1 a.m. that his 19-year-old brother was the victim of an overdose.

Police said they responded to the call from east Niles and found the teen unconscious in his room. Also in the bedroom shared by his 21-year-old brother, police found a hypo syringe, 2 bent spoons and a half filled beer bottle of what appeared to be cannabis seeds.

The 19-year-old was taken to Lutheran General Hospital and both were placed under arrest pending a September court hearing police said.

Theft of Autos

Police said numerous auto thefts occurred in Niles last week:

A 34-year-old Chicago man reported his 1976 Triumph valued at \$6,800 was stolen Aug. 26 after he parked it in Golf Mill at 9:30 p.m. Friday. Police noted a car matching the description of the stolen auto was used in an armed robbery 11:15 p.m. at a Burger King in Buffalo Grove.

In two other incidents Dave Corey Ford at 6200 Touhy Ave. told police a 1977 Ford van valued at \$7,500 and a 1975 beige Cadillac valued at \$2,500 had been stolen from the parking lot overnight Aug. 25.

Also stolen was a 1976 Pontiac valued at \$3,100 overnight Aug. 30 from the 8815 Golf Rd. parking lot.

Theft from Garage

A mid-Niles Octavia resident reported thefts totaling \$150 of 2 power saws and a carburetor from his garage on Saturday.

Thefts from Autos

A Keeney St. resident told police a CB radio and 8 track tapes with a total of \$190 were stolen from his 1975 Cadillac while it was parked at Golf Mill Monday afternoon. Further damages to the car were estimated at \$60.

A CB radio valued at \$160 was reportedly taken from a 1973 Lincoln Continental owned by a Chicago resident who parked it in the YMCA parking lot Thursday from 9 p.m. to 10:30 p.m.

In another incident thieves lifted a 1977 Ford Thunderbird

with a hydraulic jack at Dave Corey Ford and removed 2 rear wheels and tires, estimated less \$250.

New Use for Beer

A 61-year-old Cleveland Ave. resident said a beer can was hurled thru his picture storm window Aug. 27 around 8:45 p.m. causing an estimated \$300 to replace.

Theft of Gas

A Nordica Ave. resident reported theft of \$10 worth of gasoline from her 1975 Chevrolet overnight Aug. 29.

She said she found the car with an empty tank and a large pool of gas on the ground indicating the gas had been siphoned from her car.

Bad Checks

Passing of numerous fraudulent checks were noted by police last week:

They said a Niles resident's craving for soft drinks forced him to write two phony checks, the first a \$418.20 last May 10 for 100 cases of coke. He was apprehended June 26 when he returned to write a second, \$246.27, check for 40 more cases.

In another incident a clothing store at 9047 W. Golf Rd. told police a \$59.33 personal check for purchase of men's clothing had been returned "account closed."

Sportmart, 7233 Dempster, reported two checks, for \$171.90 and \$104.60, written by a Skokie resident had been returned as "account closed."

Messy Franksters

A mid-Niles youth left work Tuesday and found his 1975 Chevrolet had been sprayed with ketchup from drive-in squirt bottles. Police said the car was again sprayed while in the victim's driveway with ketchup from small packets from another drive-in.

Mine or yours

Two Chicago men were arrested for theft Aug. 28 and released under individual \$1,000 bail bonds pending an October hearing.

Police said they were on routine patrol in Oak Mill Mall and observed 2 men at the rear of Jewel Osco, 7900 Milwaukee Ave., loading a pick-up truck with pallets to use as lumber in their basements.

A Jewel store representative took exception to the action and cited the men for theft.

Local mayors to lead off aircraft noise conference

Niles Mayor Nicholas Blase, Park Ridge Mayor Martin Butler, Des Plaines Mayor Herbert Volberding and Glenview Village President Thomas Smith will be the first witnesses Saturday (Sept. 10) at an aircraft noise conference sponsored by Congressman Abner J. Mikva.

The conference will be from 1 to 4 p.m. in Room 102 of the Des Plaines Civic Center, 1420 Miner st., Des Plaines. The public is invited to attend.

Langhorne Bond, administrator of the Federal Aviation Administration and former Illinois Secretary of Transportation, will be the principal speaker and will hear testimony from local officials and residents about the aircraft noise problem.

About 20 Tenth District residents who live in the noise impact

area of O'Hare Airport will testify. The Tenth District communities most affected by the noise are Des Plaines, Glenview, Niles and Park Ridge. The Congressman has invited local representatives of the Federal Aviation Administration, the

U.S. Environmental Protection Agency, the Cook County Environmental Control Department, NOISE (National Organization to Insure a Sound Environment), and the Illinois Attorney General's office to attend.

Mikva said that such statements will be included in the official proceedings of the conference that he intends to submit to the Aviation Committee of the House Public Works and Transportation Committee, which has jurisdiction over aircraft noise control proposals.

Jerusalem flags awarded to 5 Skokie-Lincolnwood synagogues

A special Jerusalem flag, dedicated to the tenth anniversary of Reunited Jerusalem, will be presented by State of Israel Bonds to 5 Skokie-Lincolnwood synagogues participating in the progress toward economic independence of Israel through a special effort for Israel Bonds on Yom Kippur, Sept. 22.

The official municipal flag of the City of Jerusalem "in recognition of outstanding support of Israel Bonds in the year of the Tenth Anniversary of the Reunification of the Holy City."

The five synagogues are B'nai Emunah, 9131 Niles Center Road; Iran Hebrew, 3820 w. Main; Lincolnwood Jewish, 7117 n. Crawford; Or Torah, 3738 Dempster and Skokie Valley Traditional, 8825 e. Prairie rd.

Savings Bonds, travelers checks, IRA and Keogh retirement plans.

"Our goal is to bring quality financial services to the people of Skokie and the surrounding area," said assistant vice president and branch manager Gustav C. Larson. Larson said the new office will complement existing First Federal offices in Evanston, Park Ridge, Niles, Schaumburg, Mt. Prospect and Northbrook, as well as Rogers Park in Chicago.

"By developing a network of branches, we can make our services more convenient for our present savers and borrowers and for new customers, too," said Larson. Currently, First Federal has nine offices in Chicago and 11 offices in the suburbs.

The new Skokie office features

eight teller stations and five counseling stations. It will also have a 24-hour depository. Interior of the office will feature deep blue carpeting and upholstery, grey tinted glass privacy partitions between teller stations and counseling areas, oak counters at teller stations, oak paneling and desks, modular seating arrangements in reception areas with glass and chrome accent tables, indirect lighting and live green plants.

Tijuana Taco Burglarized

A burglar got away with \$433 in cash after he "picked" the safe at Tijuana Taco, a drive-in at 7830 N. Milwaukee ave. overnight Aug. 28.

The counter clerk told police a man entered the eatery around 10:45 p.m. Sunday for a small order. In view of closing in 15 minutes, the man was told he could not stay to eat the food, but when he said he would take just a few minutes, management consented.

The employee told police he went to perform closing chores elsewhere and when he returned 10 minutes later, the man was gone, so the drive-in was locked up for the night.

Investigation by police revealed cigarette ashes on the floor of the men's washroom as well as numerous cigarette butts.

There was no evidence of forcible entry altho the rear door was found unlocked, a door which could be unlocked only from the inside.

Police said an unsuccessful attempt was made to open the drive-in safe so the burglar turned the safe over and picked out \$433 in cash thru a "safe drop hole".

Taken from a small metal filing cabinet were several business checks and a checkbook.

The burglar was described as in his mid-20's, around 5 ft. 10 in. tall, with dark hair, dark complexioned and weighing 140 lbs.

when that 'rainy day' you've been saving for finally arrives...

will you be able to weather the storm?

The best time to prepare for that "rainy day" is before the clouds start forming. A regular program of savings helps to keep you high-and-dry; ready for whatever reverses your monetary situation may take. And even if you always prosper, your savings still put you ahead.

While it isn't easy to think about money problems, it's best to prepare for them now.

Because when financial worries pour down on your head, you'll need more than a smile for your umbrella.

RON BRISK SAYS:

It's all about cars
Tune up special ! ! ! ? ?

RON BRISK
BRISK AUTOMOTIVE
7007 N. Milwaukee Ave., Niles

One ad reads \$14.50 the other \$35.20. Why the difference? Read the fine print!

Ad #1 - the \$14.50 ad reads "Tune Up Special!!! With AC Delco Electronic Machine - same day service! No appointment necessary and instant credit! Most 6 cylinder American cars while you wait. Includes Champion, Autolite, AC plugs, points and condenser, and in very fine print, plus parts.

Ad #2 - the \$35.20 ad reads "The Power Builder Tune Up". Most 6 cylinder American cars. V8's and air conditioning extra - electronic ignitions systems \$4 less. We'll install new resistor spark plugs, ignition points and condenser, set point dwell and timing, adjust carburetor. Test battery and charging systems - inspect rotor, PCV valve, distributor cap, spark plug wires, air filters crankcase vent filter and vapor canister filter. Call for appointment!

My money is on the \$35.20 ad. Why? Both ads are basically the same. All they offer is plugs, points, and condenser. But all ad #1 gives is the price of labor. Ad #2 gives the price of parts and labor and spells out exactly what they are going to do. No. 1 ad gives me the gut feeling that it is a shock. fast production type operation that is only a turkey (ask your kids what a turkey is) would go to. No. 2 ad is put in the paper by a recognized name or local garage in your neighborhood that stands behind their work. These people are more critical of their work, as they exist on repeat business, not a one-shot deal. They do not want a comeback job!

Everything that ad #2 said is essential for a good tune up. The starting and charging circuits and the heart of your car. This includes battery, battery cables, fan belts, alternator, starter, regulator, etc. Most, not all people wait until the last moment to tune their cars. Best example! It won't start or run! Assuming you're the average person, the engine has 15,000 miles on it since the last tune up. (Dear Lord, I couldn't have put that many miles on it. It seems like I just tuned it last month!) Keep records, you will be amazed how fast the mileage adds up. I have heard that expression thousands of times when I had my servicenter, and I keep accurate records - dates and mileage on work that I performed. (I still have the records.)

Let's further assume you have a '74 Chevy 6 cylinder. In addition to the plugs, points, and condenser, you needed an air filter, gas filter, PCV valve, ignition wires and emission filter. The added cost to the \$35.20 tune up would be an additional \$23.08, bringing the cost to approximately \$58.28. No extra labor, just parts!

Now let's take a V8 equipped with H.E.I. (high energy ignition). A spark plug wire set lists as high as \$39.00 just for the wires. So a tune up on a V8 with ice (air conditioning) can conceivably run as high as \$100 to \$150 or more. Automatic chokes, choke pulloffs, EGR valves (exhaust gas recirculation) throttle valves, also add to the cost. Now hold your horses! I'm not trying to snow you with a bunch of technical names. These are items that are on most newer cars and they don't go bad that often, but they still do at times. So the person doing a tune up on your car does have to have time to do a good tune up. And time costs money and so do the parts. So... \$14.50 for a tune up? Bah, hah! I don't believe it.

CRIME PREVENTION TIPS

Statistics show that most shoplifters are teenagers and housewives. The housewives who steal often regard their act less a crime than an effort to balance their budget, at the expense of the shopowner and other consumers.

Real estate training

Participants in the MONACEP Real Estate program can earn actual college credits as well as prepare to become licensed real estate salespersons.

Five sections of "Real Estate Transactions" will begin during the week of Sept. 26, at locations in Des Plaines, Skokie, and Morton Grove. This course, which provides the fundamental training for those who wish to take the state real estate exam, meets for two weeks, offering the necessary 30 hours of classroom training. To become licensed as a real estate salesperson in the State of Illinois, an applicant must be over 21 years of age, have a high school degree or equivalency certificate, complete 30 hours of classroom training, and pass the state examination.

Other real estate courses, offered by MONACEP through the cooperation of the Real Estate Institute of the Central YMCA Community College, are "Real Estate Sales and Brokerage," "Real Estate Contracts and Conveyances," "Real Estate Property Management," "Real Estate Appraisal," and "Advanced Real Estate Principles."

Each of the above real estate courses carries two hours of college credit, applicable toward an associate of arts-degree, except the last, which offers one credit hour.

For further information, call the MONACEP office at Oakton Community College, 967-5821.

Nursing refresher course

Nurses who need to update their training or review their understanding of specific medical issues can enroll in any of nine health care courses for RNs and LPNs offered this fall by MONACEP, the adult and continuing education arm of Oakton Community College.

These MONACEP courses, which are particularly helpful to nurses re-entering the profession after raising families, have been prepared by medical training specialists, submitted for approval by the Illinois Nurses Association, and will be taught by qualified specialists, using co-operating hospital facilities wherever appropriate.

The courses to be offered are RN Medical-Surgical Refresher, Medications, Basic Cardiology, Rehabilitation Nursing, Cancer Nursing-Part I, Cancer Nursing-Part II, Legal Issues in Nursing, Respiratory Therapy, and Intravenous Therapy.

Most of these courses will begin during the week of Sept. 26. For further information, call the MONACEP office at 967-5120, ext. 257.

Downs Syndrome

The National Association for Downs Syndrome has scheduled a one-day mini-convention for Saturday, September 24 at the Pick Congress Hotel in Chicago. The intent of the program is to update members and other interested persons on medical, educational, and legislative trends important to the Downs Syndrome and those working with him - family or professional.

The association, which has been in existence for seventeen years, originally served primarily parents of children with Downs Syndrome, but the current membership includes a steadily increasing number of teachers, therapists, nurses, social workers and related professionals. Services provided by the association include a "hot-line" for information and referral, a "Buddy" system for new parents, lecture meetings and discussion groups, and public service programs for emphasizing the dignity and worth of persons with Downs Syndrome.

The Association's "hot-line" 383-7718 is available for additional details on this mini-convention. Advance registration is preferred to allow for adequate planning, but registration also will be possible on the day of the conference.

Ed and Catherine (call Kay by friends and relatives) were married on August 27, 1927. They have been parishoners of St. Peter's Church for the past 23 years. Eddie (as he is more popularly called) is a lay commentator and usher at St. Peter's.

For many years Ed Andelbrat had his own barber and beauty salon. For the past 5 years, Eddie has been employed by the First National Bank of Skokie in their public relations department. Many FNBOS customers call Eddie - the FNBOS Ambassador. He's there daily, greeting customers, helping to answer customer questions, directing customers to get the assistance they need, and probably is better known and knows more FNBOS customers than any other employee of the bank.

Eddie's wife, Kay, formerly was employed by the First National Bank of Skokie, too, but retired after 11 years there.

Eddie and Kay are parents of three children, Jacqueline Zeller (a married daughter, Constance Plunkett (another married daughter), and son Frederick Andelbrat, also married. They have twelve grandchildren. The Andelbrats have lived in Skokie the past 23 years. A reception for the Andelbrats was held at the White Eagle Restaurant with about 100 guests present following the special mass Sunday morning.

Plan rail stops, bus routes for northern suburbs

North and northwest suburban bus and train riders would get improved transit service if a proposed five-year plan drafted for the North Suburban Mass Transit District is approved.

Among the proposals in the plan drafted by the consulting firm De Leuw Cather & Co. for the district are:

• A new station at Crawford ave. or E. Prairie in Skokie on the popular Skokie Swift rapid transit line.

• A new "peak period" station on the Milwaukee Road commuter line near Howard st. in the heavily industrialized Niles-Morton Grove area.

• New and improved bus service to Highland Park, Lake Forest and Deerfield, to the Old Orchard, Golf Mill, Northbrook Court and Randhurst shopping centers and to a number of high schools, including Maine North, New Trier East and West and Glenbrook North and South.

Also receiving better service would be major employment centers in Skokie, Niles, Lincolnwood, Northbrook, Northfield, Des Plaines, Deerfield, Libertyville and unincorporated Northfield Twp.

Transit district trustees are expected to consider the proposed plan at a meeting later this month. One unanswered question

is whether increased subsidies would be available from the Regional Transportation Authority or other agencies to carry out the plan. By 1981 about \$4 million in subsidies would be needed annually, compared with the \$2.3 million provided by the RTA this year.

noteworthy artists: We've been in and out of the jazz scene for the past 35 years. I went AWOL in Paris for 24 hours to drive on the bus with the Glenn Miller band as they performed around the town. And I got lost in the catacombs of 52nd St. in subsequent years. I hid out with an author of jazz in this same Paris right after the May ending of the European war. And I went far afield in London and Berlin to hear the sounds of my kind of music. And on 35th and 55th sts. in Chicago I was sitting at the feet of Earl Hines and Lionel Hampton before I was 16 years old. But never have I had 4 great hours of listening as I had Sunday night. It was rhapsodic.

Saturday afternoon I visited Navy Pier for the first time since 1946. Surrounded by the sailing boats and blue waters was Pete Seeger and Win Stracke celebrating the 20th anniversary of the Old Town-Folk Music School. This kind of music has never been my thing. But I discovered the joy of Seeger and the crowd singing together. It was warm and happy and full of love and affection. I shan't scoff at folk music in the future.

Friday night I was part of the "NA NA NA" crowd which frequents that open beer garden under the sky on the southside, Comiskey Park. This year on Friday night at Veeck's Vahalla, it's the only place to be. Never have there been crowds so turned on at a baseball gathering. Soxophile and baseball fanophiles are having a great time out south this year.

Thursday night we saw *Old Times* at the AFT theatre at Barat College in Lake Forest. Irene Worth, one of the noteworthy actresses of old times and new times, was part of a Pinter play which theatre-lovers should try to see. It was not an easy play to absorb. But it was great theatre and thespian lovers should point themselves north to see this play.

Wednesday night we saw the newest James Bond movie at Golf Mill and you have to go see it. Fantasy is what movies should emphasize more and Bond films are the essence of the sublime.

There are no such categories as low brow, middle brow and high brow. But during these past 5 days, there's been something in Chicagoland for everyone. Living in a metropolitan area, we all should take advantage of its opportunities. The cities of ancient Greece, of Caesar's Rome and of Daley's Chicago have all had much to offer. Reach out and enjoy.

John Chapman's new heating system pulls energy out of thin air.

John Chapman of Woodridge is one of the homeowners in northern Illinois who recently installed a heat pump. How'd he like it? "It's just been great—one unit that both heats and cools. It really does the job," says John.

How the heat pump works. Most heating systems heat by burning fossil fuels, like natural gas or oil. The heat pump is different. It doesn't burn anything. It uses electricity to move heat from one place to the other—heat that already exists. Where? In the air around us. Even on cold, cloudy days, there's an abundance of heat in the air—solar heat energy that the heat pump captures and moves indoors.

In warm weather, the process automatically reverses for cooling. The heat pump captures excess indoor heat and humidity and removes them to the outside.

The Remarkable Electric Heat Pump

Better efficiency.

Today the heat pump is the best alternative to heating systems which consume scarce fossil fuels. It taps an energy supply that's virtually limitless—heat energy from the sun contained in the air around us. And it is the most practical system to capture solar energy efficiently.

'Weight No More' classes

The fall and winter seasons are arriving and the holidays are just around the corner, so why not WEIGHT NO MORE to lose weight? Why not begin now to help your 'thin self' show its beautiful face so you'll look great for the upcoming holidays and the year's to come.

Soon like a graceful pendulum, you'll spring back into the shape you want through the help of your WEIGHT NO MORE class. If your figure isn't becoming, you should be coming to us! WEIGHT NO MORE will take the guesswork out of losing weight. This program is easy to follow and never boring... pre-planned menu's make life a delightful breeze.

'WEIGHT NO MORE' does not measure protein and has a delicious selection of "free foods" to nibble on that help you burn more calories than you consume. You'll never have a hungry moment with the WEIGHT NO MORE program! "Knowledge is the key to successful weight reduction," says Linda Kraus, director of the "Weight No More" classes. "A weight control program must deal with causes," says the founder of the five-year-old dynamic program, who maintains "wrong foods create and cater to bad eating habits." Linda also contends that WEIGHT NO MORE is geared to teaching how much of the right foods "one can eat and still lose weight readily."

At WEIGHT NO MORE classes students are taught not only what to abstain from but what to put in place of wrong foods and why. This year let your 'thin-self' enjoy itself after you succeed at your 'WEIGHT NO MORE' class.

Open House sessions are scheduled as follows: Wednesday, Sept. 21, 6:30 p.m. at the Niles Park District Recreation Buildings, 7877 Milwaukee ave., (lower level), Niles, Illinois. For additional information please call 729-3800.

Skokie Legion names new Commander

"A year of reconstruction." That is what the newly elected Commander of Skokie Post #320, Warren Shabaz, expressed shortly after his election. The second Viet Nam veteran to serve as Commander is 31 years old, served in the U.S. Navy, is married and father of two children. He is employed in the family business of Itaco Foods Corp. of Chicago.

His outstanding ability of leadership for Skokie Post #320, The American Legion, has been proven by the numerous offices and positions of chairman that he has held over the years. Commander Shabaz feels that all veterans should look to the American Legion for guidance and service of employment, schooling, financial help, or hospitalization.

Commander Shabaz looks forward to an active year of community service to our senior citizens, Boy Scouts, Girl Scouts, student oratorical contest, support of the muscular dystrophy patients, and the Easter egg hunt for the younger generation.

The installation of Commander Warren Shabaz and his corps of officers, Sr. Vice Commander

Irv Kupcinet celebrity golf tournament

The Fifth Annual Variety Club - Irv Kupcinet Celebrity Golf Tournament will again take place at Evanston Golf Club on Monday, September 19, it was announced by Thomas M. Tully, General Chairman for the second year.

Director Robert Dachman and James O'Keefe, Chairman of the Golf Committee, stated that the 5th Annual Kupcinet Golf Tournament bids fair to be one of the most exciting on the Chicago area golf scene, adding that they feel that this event will be an even greater success than last year's tournament which soared to new new heights under the leadership of Tom Tully.

The scene on Monday, Sept. 19, will be star-studded as a "name" celebrity will play in each foursome. The evening's festivities will start with cocktails at 6 p.m., with the players and celebrities and V.I.P.'s followed by dinner and a show gala featuring the likes of Bob Hope, Mickey Rooney, Jack Carter and other "names" in the limelight. General Chairman Tom Tully will serve as Toastmaster with Charles Fegert, Dinner Chairman, as Master of Ceremonies. Coordinator Les Lear will present many of the guest V.I.P.'s and celebrities during the forepart of the evening.

Entry fee for the tournament is \$500 with the net proceeds of this great charity golf day and evening ticketed for the Variety Club-Karyn Kupcinet Center for Special Children, now under construction at Little City. This facility will provide social recreational and physical therapy for some 2,000

mentally-handicapped children on an out-patient basis each week - a beautiful and giant step toward habilitation.

Each player and his lady will be the guests of Arnold Morton on Sunday evening, September 18, for pre-celebration festivities at his new Arnie's in Highland Park. The evening at Arnie's bids fare to be an exciting event, for in addition to a sumptuous repast, there will be assignments of celebrities, one of whom will complete each foursome.

Please address all correspondence and requests for added information to Variety Club - Karyn Kupcinet Center - Little City, Suite 2301, 625 n. Michigan ave., Chicago, Ill. 60611, (312) 828-1190.

Concerning a few more of the great issues of our time....

I believe President Carter is wrong in giving the ownership of the Panama Canal to Panama. I feel that all nations, all peoples of this world, have a right to acquire ownership of the Panama Canal. This is the American way; this country opened its arms to all the peoples of the world. That's what made it great. It is in this charitable spirit I propose the following: One, the Panama Canal be sold to the highest bidder. Two, that it be accomplished in the following fair, equitable and legal manner: I propose legal notices be published by the United States Government, in all daily and all weekly newspapers domestically and internationally and in all languages. Such an ad, for example, in The Bugle newspapers would read something like this:

LEGAL NOTICE

Ditch for Sale
A large ditch, located in Panama, is offered for sale by the United States of America. This ditch is filled with water and can raise ships or any vessel, including submarines, about 85 feet above sea level, for a trip, by water, between the Pacific and Atlantic oceans. Any person, corporation, or country is eligible to purchase this ditch.

This ditch is known as the Panama Canal. All rights, both foreign and domestic, are currently owned by the United States government. The United States of America, being a government of the people, by the people, and for the people has always advocated free enterprise and both corporate and individual initiative. Therefore, it behooves the U.S.A. to offer this ditch to the common market. And, of course, to the highest financially responsible bidder.

All bids must be sent in a No. 10 envelope, sealed with wax, to: Operations Ditch, The White House, 1600 Pennsylvania ave., Washington, D.C. All bids must be post-marked before midnight of the year 2000: In the event of a bidders' tie, an American silver dollar (like the one Washington tossed across the Potomac River) will be flipped by the presiding Secretary of State to determine the buyer. Terms: cash, or the equivalent in oil or natural gas.

The legal notices could start immediately, and run for the next 23 years. All revenue derived by all the newspapers, particularly weekly community papers, would help to revitalize our somewhat waning fourth estate. Not only in this country but everywhere.

Our federal government could write-off the huge revenues paid to all weekly and daily newspapers, here and abroad because these legal notices, as advertising would be a one hundred per cent tax deductible advertising expense. Thus, our federal government would have a gigantic tax deduction.

This, in turn, would probably cause concern on Capitol Hill. Some aspiring senator, hoping to become president, would speak out against the prohibitive cost of the newspaper legal notices. Probably a committee would be formed to investigate the fourth estate, particularly, the 25,000 "odd" weekly newspapers in this country. This would be a first, a political first in the history of this great country. For only Richard Nixon, before he was president, dared tell the press of this country where they could go if he wasn't swept away in the Watergate flood, he may have instituted an investigation of the business ethics of the fourth estate.

INVESTIGATIONS, as they always do, would cause Senator Banal, from Billings, Montana (hoping to become the running mate of the first aspiring Senator) to say, on TV's Meet the Press and Face the Nation, "Let's go all the way -- investigate circulation, mailing permits, rate structures, the whole bottle of dirty, yellow ink."

This, in turn, could cause many publishers of both daily and weekly newspapers to read travel folders to South America, Rhodesia and other countries noted for their lack of extradition laws. But the end result - the bottom line - just might result in an integral improvement. For these journalistic guardians of the truth, these chroniclers of history, these voices of countries and community conscience, these defenders of liberty might become a better breed of cat. Many would immediately sell their hammer and buy a horn!

Anywho, the guy who'd probably out-bid all the rest for the ditch would be King Khaled of Saudi Arabia. He'd probably get together with a few other of his oil-rich Shiaks and buy not only the Panama Canal, but when he found out what newspapers charge for legals, he'd buy up the newspapers, too.

I have written to the MR (Men's Rights) suggesting we straighten the federal government out on another matter. That has to do with "Hurricanes". I am aware that the names of "Hurricanes" are selected 10 years in advance. But why are they always named after women? Cora, Edna, Babe, Anita, etc. Why not Harold's hurricane? Or Henry's hurricane? Or Harry's hurricane?

The specific purpose of this association is to develop and maintain an outstanding symphony orchestra in the Northwest Suburban area. Its general purpose is to encourage the understanding, appreciation and study of classical music.

seph Hodek, oboist; Philip Sabransky, pianist; and the Joliet Ballet Society.

increase, according to school business manager Jim Bowen. Bowen told The Bugle Wednesday union people wanted last year's contract to be extended to Sept. 4, just before the start of the new school year. The board wanted to extend it indefinitely with a 48-hour cancellation clause. The union held out for a 24-hour cancellation by either party.

Last week union negotiator Denis Balon told The Bugle the union is seeking straight seniority as the criteria for determining the dismissal of teachers while the school board wants evaluations at local schools to be included in determining teacher dismissal.

The Teachers Association proposed the board pay the full \$470 per teacher for hospitalization, major medical and life insurance as well as full family coverage. Last year the district paid \$327 or about 90% of the total insurance which was about \$360 annually.

Wednesday morning Bowen implied the board would agree to 100% payment.

The Association was also seeking no more than 1 teacher per 25 pupils. While union negotiator Balon said the average class enrollment for each building may be this size, some classes exceed this figure. The Association desires the 25-student class size as a maximum figure.

While union representatives said last May teachers voted a "No contract, no work" policy Bowen questioned whether or not it actually took place. Since teachers returned to work Wednesday the vote was either ignored or Bowen may have been correct.

service as well as self service gas.

Mayor Nicholas Blase earlier indicated concern over a village course of action dependent upon safety of the operation, back-up traffic at self service pumps and consideration of a price differential or discount offered due to decreased labor costs and referred it to the Plan Commission for study.

A public hearing held Aug. 24 by the Zoning and Plan Commission to place self service gas stations in a Special Use category under Village code resulted in appearance of only one of 26 station operators notified. A second hearing was set for "the near future" to discuss differential discount and traffic flow.

Applicants for self service gas operation will be required to appear individually before the Zoning Board according to Building and Zoning Director Joseph Salerno.

He noted Chicago recently approved a 5 per cent self service gas discount, down from a 10 per cent difference in price originally set. He also noted however that "the dealer has the right to set his own prices."

While self service is expected to save customers money in pumping their own gas, executives of the Illinois Gas Dealers Assoc. who oppose self service stations say consumers won't save money because the gas

stations will jack prices back up after initial price reductions offered by self service.

Niles Fire Chief Albert Hoelbl said state applications and notification of the State law had been forwarded to each of the service stations in Niles. Returned applications are being held in file subsequent to village decision.

The fire chief noted observance of State fire requirements, of an attendant and control station in full view of self service pumps, "No Smoking" signs and a fire extinguisher posted at the pumps, etc., but expressed concern over age restrictions for pumping gas. "What if an 8 or 10 year old jumps out of the car to pump gas?"

Periodic inspections, three times a year, would be made of self service stations, he said, the same as for full service stations.

The 11 applications for self service gasoline sales have been requested by: Flores Arco, 8596 Dempster st.; Village Service, 7969 Milwaukee ave.; Standard Service, 8010 Oakton st.; E-Z Go, 8001 Golf; Joe's E-Z Go, 8401 Milwaukee ave.; Bob Bauer's Shell, 8200 Oakton st.; John's Shell Service, 8657 Milwaukee ave.; Milwaukee Ballard Shell, 9000 Milwaukee ave.; Niles Shell Service, 8005 Waukegan rd.; Touhy Lehigh Shell, 5900 Touhy ave.; Niles Union '76, 7300 Waukegan rd.

Nimrod urges more changes in workmen's comp laws

Speaking before the Edison-Norwood-O'Hare Kiwanis Club last week (Aug. 25), Senator John J. Nimrod (R-4th) warned his audience that unless Workmen's Compensation laws are changed, the business climate in Illinois will continue its downward slide as industries flee the state to relocate in areas with a more rational approach to the problem.

"Although a 'labor-sponsored' bill was passed in an effort to stabilize the rising costs to businessmen," he said, "I still know that unless meaningful changes are made in the Workmen's Compensation benefits, we will continue to drive business out of Illinois, and this, in turn, means fewer jobs for the working man."

"The bill I sponsored, SB 600, a compromise itself, would have Illinois still paying the highest benefits to employees for Workmen's Compensation."

"The legislation, which was adopted made only minor changes instead of the nine needed reforms which would provide

significant change. And among those three, I have found an error in the law causing one of the three provisions to revert to its prior status in January, 1978."

Senator Nimrod, a member of the Illinois Senate Labor and Commerce Committee who also serves on the Labor Study Laws Commission, discussed the abuse of unemployment insurance and emphasized the need for legislation to correct the problems and pass laws on product liability.

"I have asked the Senate and House leadership and the Governor to include Workmen's Compensation in their call for a special session of the legislature in October to correct this problem and I am optimistic that at that time we shall be able not only to correct the problem but to add the additional needed amendments."

"If Illinois is to prosper and grow," Senator Nimrod concluded, "we must remove the anti-business attitude which is driving both business and jobs out of our great state."

The Park

On September 7, 1975 the Bicentennial Commission of Morton Grove dedicated the Morton Grove Park District Community Center Prairie. A piece of true wilderness, slightly larger than one acre, was set aside to be preserved. As perhaps the only virgin land in Niles Township, it alone retains a primeval and prehistoric character. The tiny prairie is the historic heirloom of the community. It represents the 1/10,000 of Illinois' prairies that have survived man's agriculture and urban development.

There will be a class held on the Virgin Prairie, conducted by Dr. Conway co-sponsored by the Morton Grove Park District. Class meets at 6834 Dempster st. The class is being given thru MONACEP and you can also register thru them.

OCC series examines adult development

"Passages Through Life," a new weekly series of films, lectures, and discussions will be held each Tuesday beginning September 27 at 1 p.m. at Oakton Community College.

The program, dealing with the growth and development of the adult starting with mid-life, will be coordinated by Patricia Faciana, assistant professor of practical nursing at Oakton.

The September 27 session will feature Biff Doolittle, assistant professor of student development, leading a discussion on mid-life transitions of "Raisin Wine," a film presenting the positive aspects of human aging.
