## Niles sewer system evaluation survey

Some unusual happenings will be occurring in portions of the Village of Niles in the coming weeks.

As part of a study of the sanitary sewer system, the Village and its engineers, Metcalf And Eddy, Inc. of Des Plaines, will conduct field work portions of a sewer system evaluation survey.

The work to be undertaken, starting July 31, will consist of smoke testing of the sewer system to locate leaks in the sanitary sewers.

The purpose of the testing is to locate areas where rainwater is entering the sanitary sewers and to find hidden cross connections between storm and sanitary

sewers. These defects are discovered by blowing a non-toxic, non-staining, non-corrosive, and non-irritating chemical smoke into the sanitary sewers and observing where the smoke appears.

Residents may expect to see billows of white smoke coming out of sewer vent pipes located on the

roofs of houses, and puffs of smoke coming out of sewer grates and manholes. Once in a while small amounts of smoke may get into a house or a place of business via a leak in the plumbing system. If this should happen, contact a local plumber and show him where the smoke came in. He will be able to remedy the problem,

said Director of Public Services, Keith W. Peck.

Basement floor drains and little used sinks are also a possible source of entry of the smoke. This may be corrected by periodically pouring a little water down the drain. The Village recommends that a bucket of water be put into

## Walton to provide walks to MillView property line

# Sidewalks for MillView wheelchairs

by Diane Miller

Someone cares...and that someone is Julius Walton, renowned carpet tycoon who is planning to install sidewalks across the front of his property for the convenience and safety of the wheelchair patients of MillView Nursing Home, 8333 Golf rd., Niles.

Walton, in a phone conversation with The Bugle Tuesday morning, stated he is erecting a building immediately to the west of MillView and in order to facilitate the wheelchair patients, is having

a sidewalk installed not only across the front of his building, but also across the parking lot to the MillView property line. Up to the present time, MillView wheelchair patients have had to take their lives in their own hands each time they wanted to leave the nursing home to visit the Four Flags Shopping Center to the east of the home or the Gold Coin Restaurant and several other stores to the west of the home. Their only way of reaching either

## From the LEFT HAND

by David Besser  
Editor & Publisher

Time, marching on, seems increasingly tinged with sadness.

Tuesday night we dropped over at Skaja Funeral home to visit with the Galante family, whose son, Joel had passed away early this week.

Joel was one of the first Bugle newsboys, some 20 years ago. In those days we not only got to know most of Niles businessmen, politicians, and club leaders, but we also were close with many of our newsboys and their families, who marched in and out of 8201 Ozanam, where we first published the newspaper. Still, remembering one newsboy among the hundreds who have passed our way seems unique.

Our primary memory of Joel was of a black curly-headed youngster who was the most polite boy we'd ever met. In subsequent years he received recognition as a Niles top teen and when he went on to college, we lost track of him. But his family told us he became a teacher at the University of Illinois in the physical sciences.

Four years ago Joel had a brain tumor, later spinal meningitis, which he fought courageously to overcome its ravages. During this long period his devoted family watched over him daily.

Last year a nurse at St. Francis Hospital formed a friendship with Joel which indeed became a beautiful relationship. Even though he was seriously ill, they formed a deep attachment and despite his serious illness, their many hours together was a great source of happiness to both of them.

We're sure these stories happen daily, seldom being published. But a very devoted family, warm and kind, raised fine children, and led an exemplary life.

While Joel's 31 years certainly were too few, the quality of the life of Joel and the Galante family is a model for good living. Those whose lives they've touched are the better for their having passed their way.

Chicago Symphony Orchestra with guest conductor Arthur Fiedler.

Tickets for the fundraiser include both the wine and cheese and admission to the concert. The ticket price is \$20 per person. Proceeds from the event will go to pay for Cosentino's campaign in the North Suburban and Northwest Suburban areas.

Firefighters from Niles and surrounding suburbs battled a blaze last Friday afternoon July 21 which engulfed four first floor rooms causing an estimated \$32,000 in damages to the home of Mr. and Mrs. Joseph A. Martinek, 8114 Elizabeth ave.

No injuries were reported although both homeowners and their 2 1/2 son were home at the time. Two other children were away at camp.

Smoke emitting from the single family house shortly after 6 p.m. caught the attention of the next door neighbor Mrs. Ann Dvorak at 8116 Elizabeth who looked up to see flames rolling out of the kitchen window and called the fire department.

Unable to reach the dining room where his 2 1/2 year old child lay in a crib, the husband called to his wife in the bedroom who scooped up the boy and ran out the front door. The homeowner, surrounded by flames, was able to backtrack and ran out the back door.

All four rooms were charred and the first floor heavily charred with dense smoke said spokesman.

Heat and smoke traveled up the stairwell causing considerable damage to the second floor. Damage to the Cape Cod-type frame and stucco house on Elizabeth near Milwaukee ave. was estimated by fire officials at \$22,000 to the building and \$10,000 to contents.

Inspector Ed Sosnowski of the Niles Fire Prevention Bureau said it was "a miracle that the homeowner was not trapped by the fire and burned," noting the extreme flammable quality of the mastic used to cement the kitchen flooring.

The pilot light of the nearby stove and ignited. The flames spread to the floor layer, quickly involving the entire kitchen. Due to heat from the fire the cover popped from another can of cement setting it on fire, contributing to the blaze.

Upon arrival by firemen, the entire kitchen was flaming and the fire had spread to the adjoining dining room, living room and bath.

Responding firemen arrived on the scene within one minute after the call came in noted the Chief and "already the whole back end of the building was completely involved."

According to a fire department spokesman, the origin of the blaze began in the back of the house where the homeowner was remodeling the kitchen. He had just applied a coat of flammable contact cement on the floor preparatory to laying a large panel of masonite. As he walked over to pick up the panel, vapor fumes from an open container of the cement apparently reached

the pilot light of the nearby stove and ignited.

## Tenth District students appointed to service academies

Four of the students will be attending the Military Academy at West Point, New York. They are: Dennis Ostrowski of Des Plaines; and Joseph Hajost, Mark Miller, and Scot Richmond of Glenview.

Eric Bjorn, of Northbrook, received his appointment to the Air Force Academy at Colorado Springs, Colorado. Douglas Bahry, of Park Ridge, will be attending the Merchant Marine Academy at King's Point, New York.

"The Tenth District has a history of sending excellent representatives to the service academies," Congressman Mikva said. "This year, as always, we

**Angels 7, Senators 6**  
The last regular season game turned out to be a dog-fight between the Senators and the Angels with the Angels squeaking out a 7-6 victory in the bottom of the 6th inning. Facing 3 games in 3 days, the Angels had to call on emergency pitchers who did an outstanding job. Pitching for the first time was S. Pierski who faced only 6 men in 2 innings allowing no runs. Next was Bierwaltes 2 innings and 4 unearned runs on 3 hits. Leading the bat parade was Pierski with 4 unearned runs on 3 hits. Leading the bat parade was Pierski with a 3 RBI double and RBIs by Beierwaltes and Kim. Good solid defensive play by 3rd basemen Imber and shortstop Gabel kept the Angels in the game.

### Yankees 14, Angels 6

In the fourth inning, Peanut Leaguer Kassel's 3 base hit, Sobczak and Cleszykowski's singles and Samelak's double drove in 6 runs. ## Niles Family Service Thought for the Week

### "Parent/Teen Conflicts"

The teenage years are a time of many changes - not only for the teenagers, but also for their family. Parents often ask themselves, "Just what does this teenager want from me?" Issues such as control, freedom and responsibilities are frequently the source of heated arguments in the family.

Since many people have asked the question about what teenagers expect from parents, we took special note about a Gallup Poll that was recently taken with teenagers. One of the conclusions of the poll was a surprise! Many teenagers believe that their parents are not strict enough with them. An equal percent of teenagers believe their parents are too strict. 54% believe their parents rules were about right.

The answers of the teenagers who took the Gallup Youth Survey to the question "What do you argue about most with your parents?" identified some major issues for parents.

Subject	Average	Male	Female
Freedom/rights	25	27	23
Curfew	17	17	17
Going out/places	16	13	18
Dates/friends	10	3	17
Chores/duties	9	10	8
Grades	7	9	5
Studies/homework	4	5	3
Brothers/sisters	3	3	4

All these major issues need to be clarified with your teenager as soon as the issues are encountered. Even though many rules of the family just evolve in time, it's important to check out that you and your teenager know the rules which apply to them. Many arguments are the result of lack of knowledge of mutual expectations of parents and their teens. This needs to be clarified together. Also there might be different definitions of a rule by the teenagers and the parents. This too needs to be clarified. The curfew rule "Be in around 10:30 p.m. on a weekday" may mean to the parent no later than 10:35 p.m. The teenager may interpret coming in at 11:30 to be "around" 10:30 p.m.

Jim Cisek, E.D.D. (Cand.)  
Director of Community Outreach

From time to time, this column will discuss ways to help your children become more mature and responsible. If you have any questions or areas which you would like to see discussed, please let us know. Niles Family Service is interested in helping the residents of Niles. If you have a conflict with your teenager over major issues, it may help to discuss the situation with a professional counselor at Niles Family Service. Call us at 692-3396 or come in at 8060 Oakton st.

LETTERS to EDITOR

Praises Niles Days efforts

Dear Sir:  
It was very nice of you to give space in your editorial column telling of the great job our Niles Police Dept. did in handling the crowds at our Niles Days "Carnival."  
My added praise of them could not add much more to your story. I worked in one of the ticket booths.

one night and enjoyed the festivities another night. Each time I was impressed with the concern of everyone while they were on duty there.  
They came to my booth, being of help and concern. They were very polite to all and best of all the rowdy were kept in check.  
It was nice also to have our good

firemen represented there. They too responded to people in distress.  
Thanks also to all the hard workers who tried to make this annual affair a big success despite the weatherman interfering.  
Respectfully,  
George C. Hall  
Niles, Ill.

Nilesite grateful to firemen and kind neighbors

Dear Bugle:  
My husband and I want to thank all the firemen of Niles, especially Inspector Edward Sosowski and Inspector Himler for all their support and helpfulness during the fire at our home last Friday evening, July 21st.  
Ever since my family and I moved into Niles a few years ago, our neighbors the Dworak family at 8118 W. Elizabeth and the (Lasitra family and their daughter, 8118 W. Elizabeth) Salvatress have gone out of their way to be helpful and make us feel at home. On the night of the fire they were right by us to help my

family and I in every possible way. Even neighbors who we never met before were so kind to offer clothes and their home for my family and I to stay. God has blessed us not only by saving our lives, but also He has blessed us with many beautiful friends.  
Again, my family and I will always be deeply grateful to all the firemen and all our dear neighbors for their wonderful kindness and love that they have given us.

Most sincerely,  
Mr. & Mrs. Joseph A. Martinek

Baseball league parent questions All Star selection

Dear Editor:  
There comes a time in every young boy's life when they aspire to become baseball players. So they join the Niles Baseball League and play little league baseball for years and learn to play, win and lose, and become All Stars after several years of playing because of their baseball ability. They've played with good managers and bad, with good umpires and bad and have had good times and bad.

This year happens to be one of those bad years for the Niles Little League baseball teams. First, they had to go to the outside to obtain enough players to fill the roster sheets because of the declining participation over the last several years. Other villages seem to flourish and get better. Doesn't this tell you something about the way this league is being handled and run? Like a business, when it goes downhill, you have to re-examine your method of operation or get out.

This year, in the Bronco League, several boys from each of 6 teams and others from the Little League were nominated for the All Star teams, of which there were three teams. Deerfield (5 foot and over and under-12 years), Park Ridge (5 foot and over and under, 11-12 years old), and the Niles team (5 foot and under, 11-12 years). Those that were nominated were told they would be on a team or be an alternate.

The bottom line on this is that there was not equal representation from the various teams for All Star election. The 12 year old boys with several years of playing

and All Star experience and competition did not make any of the teams and were not selected as alternates, but the 11 year old boys with little or no experience did. To make matters even worse, the league decided to take a step backward by reverting to Little League rules for the Niles tournament, that rostered 12 year old Bronco League boys.

How far do you have to go Niles to crush a boy's dream, if he is good? Is this a game of ego satisfaction for Niles League members; a popularity contest politically motivated, or a game for the boys who really want that dream to come true? Is this fair or do you not comprehend the word "FAIR"?

What happened to the tryouts for the All Star selection? What happened to the rescheduled tryouts when the original was rained out? How were the boys selected? Who picked them?

For those boys whose dreams were shattered by individuals who dictate power over this league, I feel sorry for you.

For the Niles Baseball League, you blew it, because you are going to have to fill a lot of vacancies next year...and you wonder why your league is shrinking and enrollment declining, or are you to blind to see the handwriting on the wall.

I hope that parents of boys that were told they were going to play and didn't, do not allow their sons to join the Niles Baseball League for the '79 season.

Widow thanks Bugle for 'kind words'

Dear Mr. Besser:  
A neighbor knocked on my door last week to give me the July 20th edition of The Bugle and, much to my surprise, my husband, Dennis, was eulogized in your column, "From the Left Hand."  
Dennis loved his work, loved his students, loved laughter, and, most of all, loved life. And,

although you did not know him, you very touchingly somehow managed to capture something of his spirit.

I, therefore, felt the need to write to thank you personally for your very kind words, which I shall treasure always.

Sincerely,  
(Mrs.) Karen Lamping

The balance...

is in your favor.

It is generally true that as investment risk increases so does the return. There is no fixed return on stock because you are the owner of the business in which you hold stock. Some stocks and bonds have very limited markets and selling them may be expensive since you must accept the market price (and yield) prevailing at the moment of sale.

On the other hand, the attractive yields on savings accounts are set by law and the accounts are insured so you will never suffer a loss. There are virtually no costs involved in entering or leaving the savings market.

No investment is as secure, as simple to utilize, or as free from risk as a savings account. Every family's portfolio should include the security of savings accounts before taking the risk of plunging into the myriad of other types of investments. Don't forget... at Cook County Federal Savings, the balance is in your favor!

# 'Ingredient Labeling' discussion group

"You are what you eat" as they say in the "health food" stores. There is a certain irrefutable logic in that statement which becomes disturbing once you realize that it is very difficult to know for certain just what it is you are eating. Along with apples and oranges, you might also be composed of mono and di-glycerides and monisopropyl citrate with a little benzene hexachloride and distilbrestrol thrown in. These are not fancy chemical names for pears, either, but are just a few of the chemicals added to our food supply whose names appear on the package labels. Then there are those non-chemical terms we see on food containers such as "processed," "enriched," and "refined." And what is "artificial coloring?"

There is technology in our supermarkets these days, and proper nutrition involves more than showing up at the checkout counter once a week with a basketful of cans, bags, and produce. Are we getting the nutrition we pay for? or something more than we bargained for? It is difficult for the smartest of us to understand many of these questions, so copious and contradictory is the information and opinion available on the subject.

Perhaps you may untie the first knot of the puzzle at the Niles Public Library "Storytime" discussion groups, when the subject Puzzles of Ingredient Labeling will be taken up. The session at the Main Library, 6960 Oakton st., will take place on

Wednesday, August 9, at 10 a.m.

We will try to examine some of the major points and gain a little perspective on the role additives and processing play at our dinner tables. Hopefully, we might learn just a little bit more about who we "are".

A hosiery store clerk in Golf Mill said a 35-year-old man came into the store around 7 p.m. July 27 to buy a pair of tights.

She said he came out of the fitting room with nothing on but the sheer tights to ask her opinion "if they fit." Then he invited her and 2 other customers, who had come into the store, to enter the fitting room.

Responding to the sales clerk's repeated shouts to leave the store, the 6 ft., 190 pound blonde man dressed and left.

The largest savings and loan in Illinois is probably just your size.

In the past you had to choose. The higher interest rates, the full range of services and the extra security of dealing with the biggest. Or the friendly, personal attention you got at a small, local financial institution where people knew you.

Now you can have both. First Federal of Chicago, the state's largest savings and loan with assets over \$2 billion, has 26 offices located throughout Chicago and suburbs. And there's one right here in Niles. Which means it's really convenient to take advantage of our security, high interest rates and friendly service.

And you won't find higher interest rates anywhere in the Chicago area. Or any closer to home.

We offer a full range of passbook and certificate savings plans. Specialized retirement savings programs. Plus the brand-new 8-year, 8% Saver's Certificates and T-Rate Saver's Certificates that earn 1/4% more than the current rate on 6-month Treasury Bills.

Your savings will earn the highest rates allowed by law—higher than any bank can offer. Interest is compounded daily from the day of deposit to the day of withdrawal.

Money deposited before the tenth of the month earns from the first when left on deposit until the end of the quarter.

So for security, friendly service, convenience, and high interest rates, stop by the state's largest savings and loan. You'll fit right in.

## First National Bank of Niles assets climb to \$104 million

Total assets of the First National Bank of Niles reached a record \$104 million June 30, according to President, Robert Chodil.

The bank also achieved another new high when total deposits climbed to more than \$93 million. Chodil said the gains during the first half say assets increase by \$4.5 million, deposits by more

than \$5.7 million and total loans by \$3.7 million to a total of \$50.5 million.

Chodil attributed the increases to continued support by local business and Niles residents, which he said resulted from the bank's progressive business attitude and stable financial policies.

## The Des Plaines Banks' assets, income up 32%

Assets reached an all-time high of \$48,789,925 as of June 30, a 32.6 per cent gain over the same period last year.

Income as of June 30 increased by 32.2 per cent compared to the same date last year. Angelos said both accomplishments reflect the bank's more aggressive approach to new business development and community service.

"We're the smallest of three banks in Des Plaines, so we have to provide more leadership and imagination to attract new individual and commercial customers," he said. To support its new image, the bank recently became the only financial institution in the Chicago area to offer a certificate of deposit paying 8 1/2 per cent interest with maturity of six months to one year.

"Money generated from the special CD, requiring a minimum deposit of \$100,000, will be used primarily for small loans within our community," Angelos added.

## BUY-SELL-RENT-INVEST THROUGH A REALTOR

## Make sure your house is neat before you sell

If you are planning to sell your home soon, Hal Lofdon and Bob Rauschenburg of Realty World-Key Realtors, Niles, have a few pointers which should help you home look its best for prospective buyers:

...Clean out your closets. Throw out those old broken umbrellas, and store the clothing you don't need right now. By packing up the galoshes and other clutter not needed, your closets will look more spacious.

...Get rid of newspapers, bottles and other accumulation that might keep your home from looking its best. Remember, spiculousness is the key.

...Clean out your garage. Do you really plan to use Grandma's old rocker, or those curios from Aunt Maude, or those stacks of old magazines? If you haven't needed any of them in the last 6 months, it's likely that you could get rid of them and never miss them.

...Remember, a buyer's first impression of your home is usually formed when he sees your yard and entryway. Make sure your lawn is neatly mowed, those dead limbs are removed from prominent trees, and your flower gardens are weeded and at their best.

...Paint works wonders. If you think your front door and the trim on your house, including gutters and downspouts, could use some improvement, plan to budget the time and money you'll need to paint and decorate. This will pay off.

...Have a garage sale. One man's junk is another man's treasure. You will be surprised at the money you'll make while cleaning out those nooks and crannies in your house. Hal London of Realty World-Key Realtors in Niles wants you to call him at 692-7000 if you'd like to borrow a garage sale sign for your sale.

According to London, these are just a few of the tips which can make your home more attractive to its prospective buyers. If you'd like to know more about getting your home ready to sell, call Hal London or Bob Rauschenburg at 692-7000.

# Williams, McDonald, Tecson win IVI endorsement

The State Board of Directors of the Independent Voters of Illinois has endorsed Mary McDonald (R-Lincolnwood), Lynn Williams (D-Winnetka) and Joseph Tecson (R-Riverside) for seats on the Cook County Board from the suburbs in the November election.

"Eight of the suburban candidates running for the Board accepted the IVI invitation to be interviewed," said Charles Bernardini, Political Action Chair.

"Williams, McDonald and Tecson were judged to be the most highly qualified to represent the suburbs on the Cook County Board.

Mary McDonald, top vote getter in 1974 following a tough fight to be elected by her party, is a refreshing voice on the Board," commented Bernardini. "An independent thinker, she is the Board's conscience, insisting upon full ac-

countability of every tax dollar under consideration by that body. McDonald successfully engineered both her Cook County anti-vandalism and bid-rigging prohibition ordinances through the Board.

If any Democrat can win a seat from the suburbs, it's Lynn Williams," emphasized Bernardini. "During his many years as New Trier Township & State Cen-

tral Democratic Committeeman, Williams has become one of the best known and respected leaders in the move for political openness and democracy. In our opinion he has a truly outstanding background for this office, and we believe he would be an excellent addition to the Cook County Board," continued Bernardini.

"Joseph Tecson, a commissioner since 1976 when he was

appointed to replace Floyd Fulle, has been a valuable member of the Board. A lawyer, writer and Republican Committeeman, he served as a Con-Con delegate and RTA Board member. Tecson has taken the lead in making the Cook County Board aware of the need to improve the County's economic development, proposing legislation designed specifically to attract business to Cook County.

The IVI is proud to give its endorsement to these three superior candidates," Bernardini concluded.

The IVI is proud to give its endorsement to these three superior candidates," Bernardini concluded.

## Fall internship positions

College students who are interested in applying for a fall internship position in Congressman Abner J. Mikva's district office are encouraged to contact Mimi Lyons at the Congressman's Evanston office, 2100 Ridge ave., 60201; 864-9595.

The interns assist staff members in answering legislative questions and helping Tenth District residents deal with federal and state agencies. Although the intern positions are not financially compensated, many of the students are able to receive academic credit for their congressional responsibilities.

Fall interns work either on a full-time basis or by splitting their time between the classroom and the congressional office. The time-span of the internships generally corresponds to an academic quarter or semester.

There are presently five interns working in Mikva's district office for the summer. Each is assigned to work with a specific staff member, and works in a specialized area of concentration.

### Who drew the short straw???

A recent straw poll showed Nixon getting 73% of the vote if he ran against Ted Kennedy in 1980. Projecting this would mean Nixon would poll 110% of the vote if he ran against Carter. 110%? Maybe, if we all write Nixon 240 million nice letters saying we want him back — we could bring back some honesty and restore faith in our federal government.

Nixon once sent me a set of gold cuff links for some nice things I wrote about him. When he's back as da boss again, I'll see if he can't do something about the terrible traffic congestion in this country. We should yank all women's drivers licenses in this country - no exceptions! Men, let's put 'em back walking the streets again.

ERA will pass in late fall in the state legislature. The ONLY reason is because politics make strange bedfellows (as many of our Congressmen know) GET THIS odd couple - O.T.B. (Off Track Betting) and ERA (Equal Rights Amendment) are bedfellows. One don't do it without the other. So, much to my regret, ERA will pass. Personally, I hope they both land on their rumps! When the MESSENGER SERVICES are back, what do we need with O.T.B.? It'll be just a political plum with about 3,000 jobs as patronage, create more graft and corruption for the boys in the City Hall of Chicago.

THE CHICAGO WHITE SOX WILL WIN THE WORLD SERIES IN '78. With a 24 game winning streak, they'll win their division by a photo and the playoffs. Then, they'll win the World Series 4 straight. (I may be their next general Manager, maybe owner, you hear, Bill!)

When Nixon is back as da boss, I'll have him use his influence with Congress and have the voting age, in this country lowered to 13. I have always felt that the 13 to 19 year olds in this country have no voice nor rights in this country. Today, they are knowledgeable enough to not ONLY voice their opinions but those opinions and rights should have some legal backing. I, therefore, propose a new set of divorce laws for the 13 to 19 year olds whereby in a court of law they could have the right to divorce themselves from their parents. Most of their parents are divorced anyway or will be! Besides, most parents are always bragging about how smart their offsprings are — so let 'em prove it!

THE CHICAGO CUBS, "The Little Black & Blue Machine," (That's from getting their "lumps"), should finish last in the Eastern Division of the National league and they have the team that can do it! Come the middle of August, the CUBS will go into their annual Swan Dive. In fact, the CUBS could probably do better at ballet than they do at baseball. Say, maybe that's the answer. Why not have the Cubs dress up as ballerinas, and instead of baseball at Wrigley field, why not have the Cubs do "Swan Lake" and other famous ballets. Wouldn't Kingman be a riot in leotards, dancing-on-his-toes? They'll pack-the-park at 10 bucks a head, and Joanie and Gracie of Go-To-Blases and "Pinky" of Calif. will be out there cheering 'em on....

Those ancient cliches and old sayings on the Marquee of the Niles Police Dept., are in my opinion, a traffic hazard. All publishers, journalists, would-be writers, and drunks are always looking for some wittism they can steal. Trying to read some of those over-long, dull, creatively corrupt, banal bromides, while driving that curve, is comparable to doing a handstand on the top edge of the John Hancock building in a high wind. Ay, tear that sign down! Besides ain't most of da signs in Niles comin' down...?

BOX OFFICE BUST FLICK OF THE YEAR: "The Swarm." The crowds didn't swarm into see them "African killer bees." Besides, that producer, Irwin Allen, or whatever his name is, stole that plot from me and the BUGLE. I wrote about them "African killer bees" in a column 2 or 3 years ago. And I stole it outta the National Geographic, (which Mike Fitzgerald gave me). I wonder where the National Geographic swiped it—Maybe from Milton Berle?

Best Picture Of The Year. "HEAVEN CAN WAIT" at the Golf Mill Theatre. A remake of an oldie I saw when I was young. It had "something like heart." Might, might, just win an Oscar. Make up a movie block. get all your neighbors on these hot nights to take in ALL the pictures at the air-cooled Golf Mill theatres, 1, 2 and 3. MAKE IT A TRIPLE HEADER. Go early, stay late and eat up 8 million pounds worth of popcorn, wash it down with 10 million gallons of soft drinks. Beats the hell out of going to Wrigley Field...tell Bene Stein, "Eddie sent me!" He might give me some of his old clothes.

SONNY OF UNITED TRANSMISSION INC. NILES tells me since his consistent campaign in BUGLE newspapers he has so much business that he now gets down to work at 2 a.m. in the morning. He looks trim and slim and since he quit losing all his dough to me on the Cubs, he is now rich, successful and happily married.

Best mechanic on THIS planet... That's S-O-N-N-Y!

"Happiness is coming..."

## DINING & ENTERTAINMENT

### Talman sponsors Town Square Concert

The Talman Town Square Concert, the second event in Talman's Summer of '78 Music Festival, will be presented free to the public in the parking lot of Talman Federal Savings and Loan Association, 3501 S. Kedzie ave., on Sunday, August 6, at 6:30 p.m. Featured at the Concert will be the Spartan Band of Chicago, a southwest side community youth band.

The Spartans' repertoire includes popular, light classical, concert, and the more traditional marching music. They are accompanied by a fifteen member color guard in their marching events.

Also appearing at the Town Square Concert will be Spartacus II, a spinoff of the Spartan Band that provides both vocal and instrumental entertainment.

Organized in 1967 as a local

youth band, the Spartan Band today has members who range in age from the teens to the advanced senior years. The majority of members are from southwest Chicago and surrounding areas.

The Spartans make appearances primarily in the Chicago area, although there are occasional out-of-town appearances.

The seventy-three piece ensemble is led by Otto J. Nagl, a music teacher and band director at Lourdes High School. Born on the southwest side, Mr. Nagl has been involved with music for forty years. He has led the Spartans since 1972.

In addition to this free program, Talman will offer lemonade and popcorn at old-fashioned prices. Seating and parking facilities will also be provided. The public is cordially invited to attend.

## Blood Program offers unique gift-giving opportunity

In response to many requests from donors, a special greeting card has been developed and is available to all individuals offering blood donations through the SureBlood Program of the North Suburban Blood Center or the Lake County Community Blood Program. The blood donor may want to offer a blood donation for a friend or relative who is hospitalized and might need blood, or in memory of someone who has died, or as a gift for a special person. The donor fills out and mails the greeting card to the individual of his or her choice.

The face of the card reads, "A gift means sharing a little bit of yourself with somebody special." Inside is the message, "Blood is only available when people need it thanks to the generosity of volunteer blood donors like the individual who donated in your name." Below is space for the donor to sign his or her name and to enclose a personal message.

This special greeting card for blood donors is available at all hospital blood donor stations, the Blood Center, the Jacob Blumberg Memorial Blood Bank, and at mobile blood drives coordinated by the North Suburban Blood Center and/or the Lake County Community Blood Program.

## 50-50 tree planting program

James Dahm, Superintendent of the Morton Grove Public Works Department, has announced the village's 50-50 tree planting program is now underway.

Residents wishing to participate pay half the cost of the trees they wish planted on the public parkway; the village pays the other half.

The following species are available: 2-inch Norway Maple, 2-inch Skyline Locust, and 2-inch Seedless Green Ash. The residents' share of the cost for any of these trees is \$25.

Trees are balled and burlapped and will be planted by the supplier. Planting will be in the fall when trees are dormant.

Application and payment will be accepted at the Village Hall, 6300 Lincoln. For further information, call the Public Works Department, 965-4100.

## MG Library...

Appeals conditionally approved the library's requested variance for parking facilities required under village ordinances. Thirty-two new parking spaces would be required when the new meeting room is filled to its maximum capacity of 160 persons. The library board's lawyer, Ned Griffin, said that (1) 16 spaces will be added to the present off-street parking, (2) no increase in normal parking needs will be created by the addition because the staff size and utilization of the library will remain the same, and (3) programs calling for maximum utilization of the meeting room can be scheduled for those times when the private parking lot owned by Saint Martha Church immediately to the north of the library is available for library use.

Full approval of the parking variance is expected to be granted at the August meeting of the Zoning Board of Appeals when a drawn-to-scale plan of the parking facilities and the interior loading dock-garage will be available.

The North Suburban Library System's Central Serials Service will be able to rent expanded quarters in the basement of the present library building after the addition is completed.

and elsewhere, are finding ways to reduce manpower and costs without impairing the most vital services.

Excessive salary increases, in the range of 8 1/2-10%, were approved, in spite of President Carter's inflation-fighting recommendation of 5.5%. Hilkin charged, "The average salary in Morton Grove today is approximately \$20,000, except clerical, and think of it, where can you make this kind of money in private industry and then retire in 20 years at HALF-PAY???" Private industry average salaries are approximately 25% less than Morton Grove today. After 20 years the public employee can retire at an early age at half-pay, then work in private industry and collect another pension through social security...the epitomy of double-dipping at taxpayers' expense. Has the goose gotten so fat it can't tell which way it's walking?" he asked.

Concerned about the many senior citizens on fixed incomes, who are struggling to make ends meet; with no inexpensive senior housing available, Hilkin declared, "I am forming the Tax Reduction Committee to stop these excessive abuses, and will call in a national taxpayers' organization to assist us in our effort to return fiscal sanity and restraint to our tax bills."

All homeowners wishing to join this committee are urged to call or write John Hilkin, 9120 Major, Morton Grove, 966-5235.

## Porter campaign petition drive

The Porter for Congress Committee has announced formal plans to conduct a drive for signatures for the Thompson Tax Proposition. Richard Kindig, of Wilmette and lifelong resident of the Tenth District will serve as Chairman of the drive.

In accepting the task, Kindig said, "Again, John Porter is taking a firm stand and has given full support to Governor Thompson's Tax Proposition. I can't think of a better indication to the people of the Tenth Congressional District, as to where Porter stands on government spending and taxation."

The Thompson Tax Proposition is an advisory referendum to be put on the November ballot, asking voters of Illinois whether they want to put a cap on state spending and a ceiling on taxes.

Kindig further stated, "People are tired of more government spending financed by inflation and taxation. I hope that the people of Illinois and the Tenth District will get behind this Proposition."

"We have a big job ahead of us and only three weeks in which to do it. I am asking anyone wishing to participate, to obtain petitions by calling the Porter for Congress Headquarters at 864-0111."

Kindig has been actively involved in Porter's race for State Representative.

## From the LEFT HAND

Continued from Page 1

Clarence reports the Niles elementary school district should have about 500 students answering the school bell this year. He expects enrollment during the year will be in the 500-550 area.

During the growth period Culver said the district was adding about one class a year. Maximum enrollment was about 850. In recent years as student population diminished, the Niles district was losing about one classroom a year. Today, Culver feels the district is pretty well stabilized. However, he added, about 148 condominiums and apartments are being built in his district, many with 2 and 3 bedrooms. He feels these larger apartments will attract young families with children. He anticipates another reserve trend in school population can be expected resulting from this new building.

In District 63 the school population continues its downward trend. The district, which had 7,200 children in 1970, expects about 4,200 for the coming year, another annual drop, this time of about 200-300 children. And despite reports of a future upward trend, the low-level kindergarten classes are still registering new lows. At one school in the district, the principal said kindergarten registration will be at its lowest figure in recent memory.

This very volatile district, which has 15 parents suing the district because of its closing 2 schools, is quite a contrast to the more stable District 71. At the Nathanson School, in the unincorporated area, the 400-student school has a tremendous turnover in its population. Last year and the year before, 250 of the 400 students transferred out of the school area while 200 students moved in. The Mark Twain School, also in the unincorporated area, had a fair turnover, though nowhere near the Nathanson school figures.

In other news from the district, the board meeting last night was expected to approve the leasing of part of the Wilson School to the Northridge High School Boys School, a private school. This lease along with 3 previous leases will likely gross the district around \$80,000 for rentals for the upcoming year. Ironically, that is roughly the cost of busing students, who will be transferring schools this fall.

In another action the McHenry school district may purchase 9 mobile units District 63 now owns. While the cost is only \$1,000 per unit, which seems like a great buy for 900 square feet of additional space, there is a kicker which inflates the per unit cost to perhaps \$10,000 per unit. When District 63 moved the units, the moving cost was about \$4,500 per unit. Additional carpentry, electrical and plumbing work boosted the per unit cost to about \$7,000 several years ago. And while paying only \$1,000 for a 900 square foot unit is indeed a very low cost, the additional costs raise the square foot cost from \$1 to around \$10 per square foot.

## MONACEP summer term meets demand

The success of MONACEP's first summer term has led officials of the adult education program to predict a significantly expanded program for Summer 1979.

Although publicity on the summer program was not circulated widely, nearly 1,000 students enrolled in a variety of physical education, cooking, business, and dance classes.

"I feel we should make year round use of our expertise and facilities and meet the demand," said Stanley G. Harris, assistant director of MONACEP, the adult education program sponsored by Oakton Community College and the Maine and Niles Township high schools.

Only MONACEP spring students received information on the summer session, according to Harris. Response to summer offerings was such that the summer term is definitely in MONACEP's future, Harris said. He pointed out that one course, Disco Dancing, attracted 550 students.

Registration for the fall term of MONACEP, offering a selection of over 1,000 class sections, will begin on September 1. Classes will begin on September 1. Classes will begin on Thursday, September 21.

The smoke that will be used is generated by a chemical reaction. It is non-toxic, non-staining, non-corrosive, non-irritating and does not contain any explosive material.

The men conducting the test may occasionally knock on a door requesting information about drainage problems in the area. Residents' assistance would be most helpful and greatly appreciated, Peck said. Any presence of smoke within a building should be reported to the men conducting the test or by calling the Engineering Department of the Village of Niles, 967-6100.

The Village will be distributing individual notices of the smoke testing program in the areas where the work will take place.

## Immunization Clinic

An immunization clinic for all Morton Grove and Glenview children will be held on August 12th from 10 a.m. until noon at the O.L.P.H. Playdium, 1766 Glenview rd., Glenview.

The clinic is co-sponsored by the Morton Grove and Glenview Health departments. It is planned to help alleviate the last minute rush to have children properly immunized prior to the fall return to school.

School children must be properly immunized or they are not

allowed to return to classes. An appointment is not necessary but the following steps must be taken: a parent or legal guardian must accompany each child and provide his/her consent; the child's immunization record should be brought to the clinic; children who are ill or who have a respiratory problem may not participate.

For further information, contact the Morton Grove Health department, 965-4100.

## Mikva tax plan will aid small business

The National Federation of Independent Business (NFIB) has endorsed a proposal co-sponsored by Congressman Abner J. Mikva to provide tax relief to small businesses.

The amendment to the Administration's tax reform package calls for a graduated corporate tax instead of a surtax. "This way, the income of small businesses will be taxed at the same level as the larger corporations resulting in a more equitable system," explained Congressman Mikva.

Under the proposal, the tax will start at the sixteen percent bracket for the first \$25 thousand of income and increase proportionately thereafter.

"Passage of the graduated tax amendment is important," Congressman Mikva said, "especially if we are to keep alive the vitality and job creating ability of the nation's small businesses."

Mikva added that he welcomes the support of the NFIB which has the largest individual membership of any business organization in the United States. "This support could not have come at a more opportune time, as the

## House Ways and Means Committee begins debate on the full tax bill.

The NFIB commended Mikva and three other Committee members for their efforts in regard to the graduated-tax concept. The others are: Congressman J.J. Pickle, Congressman Richard T. Schulze and Congresswoman Martha Keys.

"Since taxes continue to be one of the most pressing problems of small companies, this tax relief is most urgently needed," Congressman Mikva said. "We must not forget that these businesses form an important and productive part of our economy," he concluded.

## Bar Association dinner dance

On Saturday, May 13, the North-west Suburban Bar Association held its annual Spring Dinner Dance at Rolling Green Country Club in Arlington Heights. The evening included dinner, strolling violinists, and dancing to the music of Perry Fotos and his Orchestra.
