# Uptown Federal's Lincolnwood office to open Monday

The Lincolnwood office of Uptown Federal Savings will open for business at 8:30 a.m. Monday (Sept. 11).

Formal grand opening ceremonies will be held later this month, but beginning Monday the full range of Uptown's savings and home loan services will be available at the office at 6820 N. Lincoln, adjoining the Lincolnwood Public Library.

The office will be open from 8:30 a.m. to 5:30 p.m. Monday, Tuesday and Thursday; 8:30 a.m. to 8 p.m. Friday, and 8:30 a.m. to 2 p.m. Wednesday and Saturday.

To celebrate the opening of Lincolnwood's newest financial institution, Uptown is giving away a 2-week, all-expense paid vacation for two to the winners' choice of Europe, the Orient, Israel, the Caribbean, Hawaii, Mexico or the West Coast.

Al Garcia, manager of the office, said it's not necessary to be an Uptown Federal customer to enter the drawing.

"All you have to do is visit our Lincolnwood office and register before Oct. 31," he said.

Savers who open new accounts or add to existing Uptown Federal accounts at the new office can select from a wide variety of gifts for saving during the grand opening period, which runs through Oct. 31.

For making deposits of from \$100 to \$5,000, savers can select from 38 premiums that include men's and women's watches, a portable sewing machine, a vacuum cleaner, a whirlpool bath, kitchen appliances, other housewares and a shopping tote

on wheels. Some premiums are available free for qualifying deposits, and others can be purchased at bargain prices.

In addition, for deposits of \$500 or more savers can start building a Revere stainless steel copeland cookware set. This program will extend through Dec. 23, giving savers plenty of time to complete their sets.

Uptown Federal's services include a wide range of savings plans, home mortgages and improvement loans as well as direct deposit of Social Security checks, sales and redemption of U.S. savings bonds, RTA passes, IRA and Keogh retirement plans and notary public services.

One popular customer service that is exclusive with Uptown Federal is the Uptowners Club, open to all savers with \$500 or more in a regular savings account.

Club members can use the luxurious clubroom in Uptown Federal's office at 430 N. Michigan, Chicago. They also receive the free Uptowner Magazine, can go on special events, trips and outings, and take advantage of group-rate tours, vacations and cruises.

Other privileges include free travelers checks, discounts at many Chicago restaurants, and merchandise discounts.

The architect for Uptown's Lincolnwood office, remodeled from a retail store space, is Joseph Kobylecky, AIA, architect and interior designer of Mokena, Ill. The contractor was Valenti Builders Inc.

The Lincolnwood office is Uptown's 10th in the Chicago area. Founded in 1940, Uptown Federal has assets in excess of \$340 million.

# Beware of imposters

Be on the alert for persons posing as employees of Northern Illinois Gas (NI-Gas), the company warns.

"Occasionally, our employees must enter homes to provide necessary services," said Alan R. Johnsen, senior vice president.

Johnsen stressed that most service calls are made only at the customer's request. In certain cases, however, utility employees may need admittance to turn service on or off during gas main construction, obtain a meter reading or exchange a meter.

"If a customer is unsure whether the person is a NI-Gas employee, ask to see his identification card," he said.

Employees never collect money from customers for service work performed, according to Johnsen. "Any charges are included in regular bills."

If the caller cannot be confirmed as a gas company employee, contact local authorities or the nearest NI-Gas office listed in the telephone directory, the company advises.

# Dempster Plaza nursing home programs

The following letter of thanks was received by Ms. Hansen from St. Andrew's Home.

Dear Mrs. Hansen:

I can only reiterate that as in the past all the residents here immensely enjoyed the performance of the "Small Fry Banjo Band". They presented a superb program-I believe they are making great stride in their presentation and if they continue to work with such devotion, they are bound to be a success in show biz. Credit is to be given to the lady who works with them. We realize it takes a lot of work on her part also, and she must feel gratified when she sees how well they are accepted.

We are grateful to you for providing this entertainment for us. You know some of the folks here never get out so it is a great treat to see such a wonderful show.

Needless to say, the cake and punch were refreshing on such a hot day and appreciated by all.

Thank you all for your kindness in giving us of yourself and your time.

With every good wish,  
Sincerely,  
Gertrude Piekarski

# OK rezoning for cemetery use

by Alice M. Bobula

The Niles Plan Commission and Zoning Board of Appeals Sept. 11 unanimously approved a rezoning petition to Special Use for Maryhill Cemetery at the southeast corner of Dempster and Milwaukee ave. subject to a village landscaping committee review and recommendation to village trustees.

Looking to beautification of the

corner in accordance with Milwaukee ave. planning Zoning Comr. Kenneth Cohen included possibility of a 50-year lease from the Catholic Diocese to Niles for proper landscaping or a guarantee by cemetery officials that the property be beautified and maintained to village approval.

Zoners also tucked in an amendment for the diocese to consider annexation of Maryhill Cemetery

to Niles... "being a very good Catholic boy," noted Comr. Chuck O'Grady, "I would like to see the area incorporated into Niles."

Contract purchaser Ray Adreani previously had effected a land trade with the diocese of the corner land in exchange for acquisition of church property on Cumberland ave. near Madison ct. While the Dempster-Milwaukee property is within

Niles' borders the Maryhill parcel south of the corner remains unincorporated, a sensitive thorn to Zoning commissioners.

Design engineer Bob Reedy from the Catholic Cemeteries office said the corner land would be cleaned out and graded by cemetery officials. "We would like to go with your desires for beautification of the area," he told Commissioners, displaying

photos of other cemetery areas set with religious shrines, statues and floral landscaping.

Cohen indicated Board desire for landscaping similar to that at the corner of Milwaukee and Touhy. O'Grady also noted the need for shrubbery to screen the cemetery border fencing along Dempster st. from Milwaukee ave. to Cumberland.

Nan Mele is Niles' one and only female cop. From what we've been told she's A-1. She's a graduate in sociology and she does her job as well as any other Niles cop.

But the problem is she's not "like" any other cop. She's a female and she demands respect as one. She's "one of the boys" in that she does her job the same as the boys do. But she's not "one of the boys" in demanding respect for her gender.

Recently, several of the "boys" gave her a gag gift. Well, as the phrase goes, "Boys will be boys." Among the boys it might be considered a funny gag. Others would consider it raunchy. Still others might say it was downright filthy. But Nan, a very proper young lady, was very embarrassed by the "gift". And because the boys are only boys they probably didn't understand her reaction. Nan demanded an apology from all the guys involved but didn't receive what she considered a proper one from the watch commander, the boy in charge of her shift.

Subsequently, Nan was told she would have to abide by Niles police regulations by wearing a tee shirt under her apparel. As we were told second hand, she felt the tee shirt order was retribution for her reacting to the rather puerile gag pulled on her.

Nan, a very religious girl, consulted a lawyer who discussed the possible filing of a suit in federal court, contending she was being discriminated against and her civil rights were being violated. It never reached this stage since all the policemen involved apologized. The watch commander did not submit an apology to satisfy Nan and he received a one-day suspension.

The tee shirt order sticks. Regulations require all cops wear one and Nan is considered "one". But we're sure she's no longer considered "one of the boys".

As we noted, Nan is very refined, quite religious, well educated and very conscientious. Obviously, she wants to be respected for being a good cop. And she also wants respect for being a good woman.

"Sexism" is a new word for most guys past 30 years old. It may be a little hard for some guys to get the boy out of them, particularly in relating to women. But on the Niles police

# Nilesite asks barricade removal

by Alice M. Bobula

A south Niles man came before the Niles Board of Trustees Tuesday night asking removal of the barrier at Riverside and Touhy ave. because he feared medical aid could not reach his ailing wife in time if needed in an emergency.

John Andlish of 7167 Riverside dr. told trustees the street blockade has caused a number of problems. "The forest rangers are unable to come in or out, police are unable to make rounds," he noted, referring to recent robbery of a nearby gas station. Also, he said neighborhood children have a false sense of

security that the street is closed.

The concerned resident noted that on his initial visit before the Board July 11 he had been told that should the Niles Fire Chief make recommendation to remove the barricade on the basis there is a lapse time of an additional 30 seconds to get to Harts rd. the barrier would be removed.

He said a test run was later reported by Fire Chief Albert Hoelbi to take an additional 60 seconds.

Blaise told Andlish to return for the next Board meeting at which time Chief Hoelbi would be

Free blood pressure screening is offered the third Saturday of each month from 10 a.m. to 1 p.m. at Unity Savings, 8361 W. Golf rd., Niles. Those with normal ranges are advised to have their blood pressure checked about every three months. When blood pressure deviates from normal, referral to a family doctor, hospital, or clinic is made.

According to the American Heart Association, 23 million Americans have it — only 11 million know they have it — 6 million do something about it — only 3 million keep it under control. The "it" is hypertension, also called high blood pressure. Our program, which is in cooperation with the Heart Association, is

available to anyone interested in finding out if they are one of the over 360,000 Chicagoans with high blood pressure. Unity's Third Phasers Club for senior citizens has sponsored the blood pressure program. It is just one of their many activities.

Special recognition was given by Sears, Roebuck & Co. on August 30, to the employees and management of Midwest Visual Equipment Company, Lincolnwood, supplier of a variety of audiovisual products for Sears.

Frank Linduska, Sears National Buyer/Audio-Visual, presented a Sears "Symbol of Excellence" plaque during a ceremony held at the Lincolnwood Hyatt House.

"This award is based primarily on the excellence of merchandise supplied by Midwest Visual for Sears during the past year," Linduska said. "It is our salute to those suppliers who have, through their excellence, made a significant contribution to Sears' reputation for quality merchandise. It also recognizes each employee for his or her contribution to the superior performance of the company in such matters as initiative in presenting new and improved products, and in shipping goods on schedule."

Linduska explained that Midwest Visual was selected for the Sears "Symbol of Excellence" by a committee representing the company's retail stores, catalog plants, national service department, quality control personnel, and Sears' laboratories. The committee screened nominations from 50 national buying departments.

Midwest Visual was one of the Sears suppliers judged most outstanding this year among its 12,000 merchandising sources. The "Symbol of Excellence" plaque was accepted on behalf of the entire company personnel by Mrs. Helen Roberts, President of Midwest Visual and a resident of Northbrook.

## District 207 free or reduced price lunches

Letters have been sent to parents of Maine Township High School students reminding them if they meet certain income criteria that their children are eligible for free milk, free lunches, or reduced price lunches, served at the district's four high schools under the National School Lunch Program.

The income eligibility guidelines are as follows:

Family Size	Level for Free Meals and Milk	Level for Reduced Price Meals
1	\$4,190	\$6,530
2	5,500	8,580
3	6,810	10,630
4	8,110	12,680
5	9,310	14,530
6	10,510	16,400
7	11,600	18,100
8	12,690	19,790
9	13,680	21,330
10	14,660	22,870
11	15,640	24,390
12	16,610	25,910

Each Additional Family Member	970	1,520
-------------------------------	-----	-------

Students from families with incomes greater than those shown in the guidelines but with unusually high medical bills, shelter costs in excess of 30 percent of income, special education expenses due to mental or physical condition of a child or disaster or casualty losses, may also be eligible.

Parents may apply at any time during the year if they believe their children are eligible for benefits. In certain cases, foster children are also eligible.

If a family member becomes unemployed or if family size changes, the family should contact the school to file a new application. Such changes may make the children of the family eligible for reduced price meals or for additional benefits such as free meals and milk, if the family income falls at or below the levels shown here. All students who qualify will be served, either free or at the

reduced price of 20¢ a well-balanced Type A lunch that will be identical to that served students at a regular charge of 70¢ daily. An extra one-half pint of free milk is available to those who are eligible for free meals. Extra cartons of milk cost 4¢ each.

The anonymity of each student receiving a free or reduced price meal will be assured and all children will be treated the same regardless of ability to pay. In the operation of child nutrition programs, no child shall be discriminated because of his/her race, sex, color, or national origin.

Application forms for these benefits have been sent to each parent and are also available at the principal's office in each Maine school. Applications may be submitted at any time during the year.

Information provided on the application is confidential and will be used only for the purpose of determining eligibility. To discourage the possibility of misrepresentation, the application form contains a statement above the space for signature certifying that all information furnished in the application is true and correct.

An additional statement is added to warn the application is being made in connection with the receipt of Federal funds, that school officials may, for cause, verify the information in the application and that deliberate misrepresentation of information may subject the applicant to prosecution under applicable State and criminal statutes.

### Open bids on resurfacing streets

The Board of Local Improvements Sept. 12 opened bids on the Safer-Off-System Roads Program, Intermittent Resurfacing Work for Kathy Lane from Western ave. to Parkside;

Western ave. from Golf rd. to 1600 ft. south; Maynard rd. from Greenwood to 1200 ft. east; Grace ave. from Dempster to its north end; from Chester ave. from Bruce dr. to 900 ft. north; Riverside dr. from Harts rd. to Touhy ave.; and Days Terrace from Harts rd. to Riverside dr.

The bids ranging from high to low came from J.A. Johnson Paving Co. of Arlington Heights, \$95,549.25; Milburn Bros., Inc. of Mt. Prospect, \$84,984.10; and Monarch Asphalt Co. of Skokie, \$57,055.60.

Trustees approved a request by village administration for a "fast determination" of bid award by the Streets Committee, due to lateness of the season.

Village Manager Kenneth Scheel said the resurfacing called a "Pothole Program" is actually for streets deteriorated from winter use. Streets selected he said were not paved, but merely "chipped," a temporary mix of stone and tar.

He noted the State will pay 70% or \$37,000 of the total Niles cost of \$53,000.

### Optometric vision care

Our two eyes simultaneously send impulses to the visual Cortex of the brain so that we can have a proper perception of the visual space world. When a child or an adult loses the ability to use his two eyes together, visual training is instigated to bring about the correct performance.

If a patient interprets vision from only one eye, his perception is only 50% of normal. Also there is an inhibition factor to the nerves in the brain which tend to die away from lack of use. To avoid this process from happening, a complete eye examination is necessary to determine the correct prescription for maximum acuity, as well as to determine if the two eyes are simultaneously stimulating the brain center of the visual Cortex. The latter determines if visual training is necessary to assure the proper response of the patient's visual system.

National Health Priorities identified by Congress under Public Law #93-641 states, "Optometrists examine the eyes and related structures to determine the presence of vision problems, eye diseases, and other abnormalities. They gather information on the vision system during the Optometric examination, diagnose any conditions discovered and prescribe Optometric treatments such as corrective lenses, contact lenses, or vision therapy that may be required to provide the patient with a clear and efficient vision system."

### Mikva to meet opponent in first campaign debate

Congressman Abner Mikva will meet his Republican opponent, John Edward Porter, in the first of a series of four debates at 8 p.m. on Sept. 17 at the Niles West High School Auditorium located at Oakton and the Edens Expressway in Skokie.

Congressman Mikva is seeking his fifth term in the U.S. House of Representatives.

The four debates, which are sponsored and moderated by the League of Women Voters and other community groups, will include discussion of general issues and questions from the audience.

"I am delighted that my opponent and I will be able to debate

before 10th District voters," Congressman Mikva said. "Political debates are among the most effective ways for voters to discern the differences between candidates. An open discussion of the issues gives voters a closer look at each candidate and his positions on local and national questions," he added.

Each debate will begin at 8 p.m. and last approximately one and one-half hours. The format for the debates will include five minute opening statements by each candidate.

The dates and locations of the four debates are:  
Sept. 17 - Niles West High School

Auditorium, Oakton and Edens Expressway, Skokie  
Sept. 24 - Northwestern University, Leverone Hall, corner of Sheridan and Foster, Evanston  
Oct. 5 - Trinity Lutheran Church, 675 Algonquin rd., Des Plaines  
Oct. 9 - New Trier West High School Auditorium, Happ rd., Northfield

Commenting on the debate arrangements, Congressman Mikva said, "Although I would have preferred to hold more debates with dates closer to Election Day, I am looking forward to this opportunity to debate, and I anticipate a lively discussion of the issues."

### M.G. Library accepts bids

Bids to cover the costs of the new addition to the Morton Grove Public Library were opened at the library on Thursday evening Sept. 7. The two lowest bidders were Aspen Enterprises Incorporated with a bid of \$572,056 and Stromberg Construction Company with a bid of \$578,043. Both companies located in Morton Grove.

The library board will consider the bids at its next regular meeting Sept. 14 at 8 p.m. at the library. The board is required by law to accept or reject the bids publicly within 30 days. If it decides to accept one of the bids, it is required to accept the lowest responsible one.

The planned addition would provide space for the flexible-use meeting room with excellent audio-visual facilities, several study and typing rooms for work that cannot be done outside the library, and space for a local history room. A recent survey by the library showed substantial need and much enthusiasm in the village for these improvements.

The library board has made arrangements for financing the addition by a conventional mortgage which, added to its savings, will make an increase in the tax levy unnecessary.

## ED HANSON

"Nobody does it better"

Than me! Not even Mike Royko, the celebrated Chicago columnist. When Royko predicted the Cubs would win their division, I felt slightly nauseous. But his column of Sept. 7 made me mad! He has no right to write nasty things about the Cubs. This is mine by Devine right. I've been doing it for 34 years. He's a Johnny-come-lately. He has no right on my turf. While looking at his picture in his column, I happened to also notice a picture of Farrah Fawcett-Majors, about the same size as his. I cut off her hair and put it on Royko's head. Then I whitened out his glasses and sketched in a big smile. I couldn't believe my eyes. It looked more like Farrah Fawcett-Majors than Farrah Fawcett-Majors!

Then a diabolical idea pricked me with a pitchfork! I phoned 21 women and arranged for them to meet me in a secret key club bar. When the group assembled at a table, I whipped something out of my pocket. It was a series of photos, with the faces and names of the following: Rudolph Valentino, John Gilbert, John Revolta, Errol Flynn, Ed Hanson, Menachem Begin, Anwar Sadat, Jim Thompson, Muhammed Ali, Mike Royko, Ted Kennedy, Tom Jones, Dave Feldman, Matty Pokuta, Chuckie Giovanelli, Sonny Cerami, Richard Harczak, Ron Brisk, Michael Fitzgerald and Nick Blase. "Ladies," I explained, "the object of this survey is for you to select one man from these pictures that you would nominate to be the world's most 'Sexless Male Symbol'."

And, may I explain, that of these 21 women, 2 were Rush st. "bushbodies", 4 were B-broads, 6 were housewives, 2 were old bags (Apple Annie types), 3 were "exotic dancers", 1 a famous porno star, 2 were school teachers and 1 a waitress from Jake's Restaurant. You could say I had before me a cross section of American womanhood. "Ladies," I exclaimed, "we're going to do this the American way, by secret ballot. None of you will know what the other's picked. Just write your selection on this little piece of paper, fold it, and hand it to me. Just make sure the person next to you does not see your selection - for women all possess a 'Pandora's curiosity', and have a tendency to be 'Peeping Petunias'."

The results were unanimous. Each and every woman picked Mike Royko's picture, as it appears each day in the Chicago Sun-Times, as the world's most Sexless Male Symbol. I then asked them to nominate the man they considered to be the most sexy. This second vote was also unanimous. I'd like to give you the results but I don't care to brag. Since Mike Royko came out on the front page stating the Cubs would win their division we all know what happened. The Cubs, running true to form, went into their usual September 'dive' and it's highly unlikely they'll pull out of it. For the Cubs have the reputation of being the greatest 'divers' of 'em all. In Royko's subsequent article (Sept. 7) he attempted, in a 'puny' sort of way, to crawfish out of it. This prompts me to say, "One should only write about that which they know."

Royko, like the Cubs' Sutter, is great! But again like Sutter, who's a one-pitch pitcher, Royko is a one-subject writer. The City Hall Bunch or cops and robbers - which is still one subject. And when he writes about that he's very, very great, but... As a non-expert for 34 years now, I've predicted what the Cubs would do - nothing! What most sports experts know about the game they're writing about is very little. It could be compressed into a pimple so small it could be shoved into the bellybutton of the African Tsetse fly and there would still be room left for 6 grains of Angel Dust. Experts, I've learned thru the years, are usually wrong. Take Dave Feldman, please, that turf expert of the Chicago Sun-Times. As a horse picker, he can't pick his nose! He's busted more guys than Samuel Insull.

Sure, I, as a non-expert, predicted the White Sox would win it all. But one mistake in 35 years ain't bad! This same average holds true in picking horses. I'd have one loser in 35 picks. I got tired of winning on the horses so I quit. Hell! I like a challenge! That's why I work for the Bugle! Anywho, a friend of mine, who's a practical joker, and I were in the "Goat's" place where Royko sometimes hangs out drinking beer when he can afford it. I was sipping my glass of champagne when my pal spotted two old but well groomed biddies who were apparently hoping to see some celebrities. My friend sauntered over to the two old dames, and, pointing to me, said, "See that guy in the white cap sitting there? That's the famous newspaper columnist Mike Loco!" The two grand dames waddled up to me. The one with the triple chin said, "Are you Mike Loco?" "Yes, ma'am. Would you like my autograph?" "Oh," she twittered, "we would, indeed. We read your articles in The Tribune all the time." Such is fame. Royko ended his Sept. 7 column about the Cubs with these words: "But with this team maybe the shout should be 'Ho Hum!'" About your last Thursday's column, Mike Royko, I'd have to say, "Hum Drum!"

P.S. Could those TV commercials in which Mike Royko appeared have had anything to do with the demise of the Chicago Daily News?

That old saying, "There's something rotten in Denmark" never made any sense to me - that is, until Lerner was made Ambassador to Norway. Now it does.

PERSONAL: Hi, Pinky! I wrote this for you ... want my autograph?

## Opening La Margarita in Morton Grove

The professional career of Jimett Lawson was recognized when he began his tribute to Elvis Presley, an electrifying emulation of Elvis. On March 9, 1977 a reporter by the name of C-Star for the Jim Newspapers of Chicago viewed the show with this response, "They say when you're hot you're hot and probably the hottest performer to hit the Chicagoland area is the sensational Jimett. Jimett has really got it together. He is virtually taking Chicago by storm."

Quote from the News Gazette by Thomas Harm: There were a few double takes when Jimett appeared on stage at the High Rise Lounge, Champaign, Illinois. He copies the hip snakes and hand gestures of the Presley style and the dance steps that characterized Elvis. His voice is probably as close to the original as you can get.

Jimett has recorded his own material titled: "Color Me I Love You," "Me And My Lady," and "Ann Marie."

T.V. Appearances: 20 million watched him do his tribute to Elvis on the Chuck Barris Show. His performance led to an invitation to many local television shows and radio interviews, also a return engagement to the Chuck Barris Show.

Jimett is accompanied by his younger sister, who is his personal guitarist. Her stage presence is an attraction and her style of playing an asset.

Sept. 15, 16, 17 and 22, 23 and 24. 3 big shows, Friday and Saturday. 2 shows Sunday. Cover charge \$2.50 per person.

La Margarita in Morton Grove, 6319 West Dempster, West of Edens Expressway. Call Olga for reservations: 966-5037.

## Chicago District tennis tryouts

Tryouts for the Chicago District Tennis Association's 34 junior "Excellence" programs will start Tuesday, Sept. 12 at the first of 16 indoor sites across Cook, Lake and DuPage counties.

Boys' tryouts will fall between Sept. 12 and Sept. 30, the girls' between Oct. 29 and Nov. 5.

A joint effort of the CDTA and the local arm of the U.S. Professional Tennis Association (USPTA), "Excellence" this year will involve 204 youngsters in four age divisions—18, 16, 14 and 12.

Clubs with one or more boys' programs include Arlington (Palatine), Centennial Park (Wilmette), DuPage (Addison), Evergreen (Evergreen Park), Forest View (Arlington Heights), Glenbrook (Northbrook), Hin-

sdale, Lincolnshire, Mid-Town (Chicago), Naperville, River Trails (Mt. Prospect) and Tam (Niles).

Clubs with one or more girls' programs include Arlington, Indian Head (Countryside), Libertyville, Mid-Town, Naperville, River Trails, Skokie and Treborshire (Glenwood).

The "Excellence" idea, conceived by the CDTA 14 years ago, has helped raise Chicago-area junior tennis to all-time-high levels, a fact dramatized this summer by five national individual champions, one national runner-up, one national team champion and one Western team titlist. Clubs provide courts at greatly reduced rates, and pros donate their services.

of the problems was thought to be the loss of playground space. However, Jim Huber said that an area of 75' by 75' has been so designated for a playground, so it seems that this matter has been taken care of. The Plan Commission suggested that tentative approval be given with certain stipulations. The Beautification Committee has reviewed the plans and found them to be acceptable. Joan Dechert moved to concur with the Plan Commission and all trustees but Ron Henrici agreed.

The Baxter Laboratory case was next and the attorney for concerned residents, Mr. Jackson, said that he felt Baxter was not being fair to his clients. He said the residents wanted a fence of evergreens on their side of the property line, some insurance that their property would not be devalued, etc. Jackson also stated

that M.G. has an ordinance stating that a Special Use may not be granted if it would diminish the value of property. The citizens he represents asked that the Baxter Use be denied unless Baxter agrees to certain conditions. Mayor Flickinger said that he feels this Special Use would not be injurious to nearby homeowners. Greg Youstra reminded those present that there were others bidding on that piece of property also. Mr. Pease of Baxter Laboratories said that the property line fence they wish to build would be about 6' to 8' and that the greenery on the Baxter side was a question of a noise buffer and the ability to maintain it. Pease insists they did try to negotiate with the residents. Greg Youstra moved to accept the Plan Commission recommendation to grant this Special Use and give tentative

approval to the Baxter plans if Baxter will supply greenery on the resident side of the fence. Alan Goldberg then said the Plan Commission would see to it that Baxter does everything within reason to satisfy the residents before it comes back to the board for final approval. Youstra's motion was then carried.

Police Chief Glauner said that the M.G. Bicycle Safety Project was very successful this year with 5 officers patrolling. They logged over 666 bicycles and have reduced bicycle accidents by 25%. He feels it will continue to be as successful again next year. Administrator Fred Huber received permission to advertise for bids for another Mobile Intensive Care Unit for the Fire Dept. He wants air suspension this time and the bid opening will be on Nov. 1, 1978. This will be for Fire Station #2 on

the west side of the village and it is hoped that those residents will want this additional service.

Mayor Flickinger has made plans and chosen a committee to revise the Sign Ordinance.

The mayor also has signed a proclamation making the month of October, 1978 PTSA Enrollment month.

Atty. Martin Ashman read a resolution for continuing the CETA program in M.G. and it was approved. Atty. Ashman then reported on a lawsuit pending against M.G. by Arthur Wolfson who claimed he lost \$25,000 when his transfer of his liquor license was denied by the Bode administration. Ashman suggested settling this by making it possible for him to transfer the license to the owners of the Buffalo Ice Cream Parlor so they can sell liquor next to their present location. After some discussion

the trustees decided to do this. Mr. Ashman then told of a meeting between the Terracon people and the owner of the property next to the land they have where they propose to build housing for the elderly. It seems that Mr. Barnes owns some property 66' wide and 5' long. With the help of Mr. Ashman an agreement was worked out and along with this, trustees agreed to vacate a street for the price of \$1,452. Don Snelder moved to have the atty. prepare the proper papers for passage of this ordinance and his motion was passed.

### Niles Firemen commended

Mayor Nicholas Blase, Tuesday night, commended Niles firemen for recognition of professional services rendered Monogram Models, Inc., a firm in Morton Grove.

In a recent letter to the mayor, company President, Thomas A. Gannon, noted it gave him a great deal of pleasure to write because "All too often we are quick to complain and criticize services provided by others."

"At approximately 11:30 p.m., Aug. 8, a fire was reported in our Receiving Warehouse," the letter continued. "Your Fire Department responded in cooperation with the Morton Grove Fire Department. Although the fire was potentially a large one, it was contained and controlled by your very capable firemen and officers."

"Not only did they minimize the fire loss, but they performed admirably in minimizing the water damage and assisted Monogram people in every possible way as we attempted to restore order. They were efficient, capable and friendly."

"We are all most grateful for their assistance," concluded Gannon.

The Niles Fire Department is a participating member in Mutual Aid of fire services rendered by and to surrounding communities.

department we bet many of the boys did a lot of growing up recently when they found out they had a lady in their midst who demands being treated as one.

There's likely to be two reactions to this story. The "regular" guys out there will contend she's square and if she can't take a harmless gag she doesn't deserve to be in a department which has always manifested a bit of macho.

There'll be other equally "regular" guys and gals who admire someone who stands for a principle, and is willing to fight for it.

Nan did a difficult thing. Instead of swallowing hard and forgetting the matter, she did what she felt she had to do. Not only did she do the courageous thing but she taught a whole bunch of people what was proper and correct. We're sure the boys won't forget. And we have a hunch there'll be a few less boys, a few more men serving on the Niles police department as the result of her stand.

## Rezoning . . . Continued from Page 1

At one point a spectator Monday night protested intent by Zoners for village subsidy of landscaping the cemetery corner, demanding to know "why should the Board missioners continue to Sept. 25 a petition submitted by North American Mortgage Investors to extend a Special Use for conversion of Greenlakes Apts. to condominiums, also requesting a change in bedroom units.

Reason for the delay according to Cohen was for study by the village attorney of title policies and letter of indemnification for village protection.

The New York and Boston-based mortgage company took ownership of the 28.8 acre apartment complex on Golf and Deerds. (directly behind the Greenlakes Shopping Center) from Morris Suson in January, 1978.

Suson had petitioned the Niles Board in 1968 for annexation of the Greenlakes property (formerly the Greenlakes Golf Course) to Niles. The pre-annexation agreement provided for 17 buildings, twelve to be 6 stories high and five hi rises and included a shopping center. The shopping center was completed in the mid-seventies but Suson's claims of financial hardship left the 17 buildings partially completed and the hi rise buildings were abandoned.

The Special Use rezoning terminated Aug. 24, 1978.

New planning for the \$40 million project projected Monday night by Franklin Friedman, representing the mortgage company, indicated a construction schedule of 12 months for Sections I, II and V (approximately 600 dwelling units) and completion of Sections III and IV in 1985.

The atmosphere became charged when attorney Myron Minuskin, who first stated he represented the American National Bank and, under direct confrontation by Friedman, admitted to representing Suson, charged the investment company had not complied with contractual conveyances made with Suson June 26, 1978.

Non-compliance by the company under formal demand noted Minuskin "which expires at midnight tonight!" will result in litigation Tuesday morning "schedules will be delayed and the title held up."

Further, said Minuskin, "we have not decided yet whether to make the Village of Niles a party (in legal action) and seek injunction."

Friedman labeled Minuskin's statements as "a series of lies... he is trying to leverage us, to intimidate the Board, to inspire fear

in their minds concerning our intentions... "No one has used the welfare of Niles as your client," he told Minuskin.

The attorney for Suson told Zoners he was present Monday night "only to advise the (Niles) Board of what is going on."

Unanimously recommended approval of a petition by Jan Bialobrzewski for a side yard variation to construct an attached garage at 8748 Wisner.

Approval was predicated upon the garage (originally planned to extend in front of the building line) conforming to the front yard line and having no overhang other than the gutter.

Approved petition by Ray Adreani of Norwood Builders, 7446 Harlem ave., Chicago, for a 10% rear yard zoning variation on home construction with attached 2 car garages and 10% front yard variation on lots 5, 6, 15 and 16 at Cumberland north of Madison.

universally agree that every individual has problems. Unresolved problems are apt to produce tension, which, in turn, destroys physical, mental and emotional health.

"Most problems, however, can be resolved by studying, discussing and understanding the causes of disruptive behavior, rather than dealing only with the symptoms. There is always a reason for the fear, wholesome and pleasurable personal relationships," said B. G. Gross, the coordinator of the seminars.

The fall 1978 Human Behavior Seminars will meet on Monday nights at 8 p.m. in the Leaning Tower YMCA at 6300 W. Touhy, Niles, Ill. The first session will convene on Monday, Oct. 9. These seminars will employ recognized text books to induce discussion and remedial application which can help to alter, change and improve distressful and frustrating situations.

## Maine students invited to Champaign

Maine Township High School students have been invited to the University of Illinois campus at Champaign-Urbana, Saturday, Sept. 23, to preview opportunities and facilities available at the College of Agriculture and the School of Human Resources and Family Studies for advance study of agriculture and home economics.

The event is part of the university's Student Guest Day program organized to inform high school students about college life, housing, scholarships and areas of study. Both faculty and students in the agriculture and home economics programs will be available during the day to answer questions.

Activities include a student panel discussion, a review of career possibilities, and departmental visits - all designed to help high school students with their decision to attend a college to study agriculture or home economics.

Maine students interested in the event should contact their career counselors at any one of the four high schools for more details.

Bicycle riding can be fun, says the Chicago Motor Club, but also it can be dangerous - especially for those who don't know or don't obey the rules of the road. Bicyclists enjoy the same privileges as motorists, but they also must heed all the basic traffic rules and regulations.

present, stating that "the only way to get the barricade down is to get a positive statement from the Fire Chief." Andish said it would be a hardship for him to return again.

Police Chief Clarence Emrikson at the Tuesday meeting said the police could "live with or without the barrier."

Andish told The Bugle later that while his main concern was emergency aid for his wife, nine other residents in the area had signed a petition for removal of the barrier.

"I don't like being put down in this manner... I came before the Board with a reasonable request and was put down..."

"I'll go to court if I have to... or I'll run for mayor," said the anguished husband.

Andish said he had originally signed the petition for the blockade but now views it as a mistake.

"The fire department cannot get into the area as fast as they would if the barrier was not there," he said. "During rush hour traffic on Harts rd. backs up towards Touhy ave. The cars do not observe keeping the intersection open."

During the Sept. 12 board meeting trustees approved reopening of a gas station at 6901 Milwaukee ave. Petition had been continued from March, 1977 for clarification of legal status of the property.

Representatives of the Danny Boy Oil Co. Tuesday night indicated the property will be sold to a Chicago resident for pumping gas and for light mechanical work on a 7-day basis, 6 a.m. to 10 p.m.

## Pullen presentation at Quad Council banquet

State Rep. Penny Pullen (R-4th) will be a guest at a banquet sponsored by the Quad Council of Maine Township High School District 207 at 6:30 p.m. Wednesday, Sept. 20 at Maine East High School, 2601 Dempster, Park Ridge.

At the dinner, Rep. Pullen will present the district with a resolution adopted by the Illinois legislature during its spring session congratulating the Maine Township High School District on its 75th anniversary. Rep. Pullen authored the resolution as the Maine high schools are in the 4th legislative district.

Aside from the presentation, the banquet will be a rather informal event, according to Tom Paulsen, Administrative Assistant for the district. "Its purpose is primarily to foster better communication between students, administrators, and teachers," he said.

The Quad Council is an organization made up of 22 students from the four Maine High Schools. It is a district-wide version of a student council, said Paulsen, who is district advisor to the council.

Some 65 to 70 persons have been invited to the banquet, Paulsen noted, including members of the Board of Education, Superintendent Richard R. Short, assistant principals, guidance directors, student council presidents, class presidents, and Quad Council members.

"We hope everyone will come away knowing each other a little better," Paulsen commented.

## Porter hails Thompson action for education basics

Rep. John Edward Porter, candidate for Congress in the Tenth District running against Abner Mikva, hailed as "timely" Governor Thompson's recent action in signing into law legislation encouraging local schools to pursue minimal competency testing programs. Porter was the House sponsor of the measure in the General Assembly.

The measure, SB 238, which the Governor signed into law, requires the Illinois Office of Education to prepare procedures and materials to encourage and assist local school districts to develop minimal competency testing programs. It also requires the local school districts to report results to the I.O.E. and for I.O.E. to report to the General Assembly by June 30, 1980.

"It is time that some measurement be applied to determine how well our public education system is serving the children of Illinois," said Rep. Porter. "While we know the schools in our area are providing a superior education, in many parts of our state it is clear that students are being graduated with the basic reading, writing and computation skills necessary to secure and hold a job or to act as reasonably informed, responsible citizens."

Porter noted that there had been a good deal of resistance in the General Assembly to minimal competency testing. "The arguments by the Illinois Education Association and other teachers' unions usually are to the effect that teachers will do nothing in their classes but teach the test. Obviously, that is not what is intended. Where local school districts, including Chicago, have voluntarily undertaken minimal testing, they will have to make certain that that doesn't occur."

The Evanston lawmaker concluded, "It is absolutely fraudulent to give a child a diploma without insuring that the educational system has afforded him basic skills. This legislation aims to enhance that goal."

The legislation had been adopted in the House in June after originating in the Senate under the sponsorship of Senator John Nimrod (R-Glenview).

The bill, when passed last June, marked the 60th successive bill passed by Rep. Porter on the House floor without a single defeat in his six years in the General Assembly.

## OCC women's program looks at homemakers

A celebration of the positive aspects of homemaking, offering an opportunity for participants to develop a fresh and exciting way of looking at life will be the focus of "The Woman at Home," a workshop sponsored by the Oakton Community College Women's Program on Wednesday, Sept. 27.

This daylong program is intended for the woman whose current primary responsibility is the care of her home and family, an occupation which many contemporary critics now describe as unfulfilling.

By meeting and spending a day with others who share a similar life-style, modern homemakers will have the chance to reaffirm their values and free their imaginations. They will have an opportunity to meet a panel of interesting women and find out why they are staying at home and enjoying their lives.

The workshop will meet from 9:30 to 3 p.m. at Glenview Community United Church of Christ, 1000 Elm, Glenview. The cost is \$7 including lunch. Babysitting will be available for children over two years for an additional \$3.50.

For information, or to make reservations, call the Oakton Women's Program, 967-5120, ext. 350.
