# An open letter to Residents of School District 67

Dear Resident of School District 67:

You may have heard about the proposed expansion of the Avon Products Laboratory facility on Golf Road in Morton Grove. We would like to tell you personally about these plans.

We are aware that the local School Board is faced with the decision to close one of two schools in Morton Grove because of the declining elementary school population in School District 67. One of the schools under discussion is the Golf Elementary School adjacent to our Avon Laboratories.

We have made known Avon's interest in purchasing this property for future development as we feel this purchase will be mutually beneficial to the remaining children in the school district, the school district itself, the village of Morton Grove and the taxpayers of the community.

Avon has been a part of the Morton Grove village since 1956. We employ approximately 1000 people at this facility where we produce and package cosmetic, toiletry and fragrance items for distribution to Avon Representatives across the country.

In addition to the employment opportunities offered, Avon has made contributions to the community of money and products from the Morton Grove/Glenview facilities exceeding \$100,000 in the state of Illinois, to such groups as Little Leagues, Police Associations, area hospitals, Lions Clubs, Morton Grove Beautification Committee, just to name a few.

The demand for Avon products has been increasing rapidly, and we are faced with a need to increase our production capabilities now and for the future. Without expansion, our facility will be functioning at maximum capacity by 1980. The adjacent Golf Elementary School location provides an excellent site for Avon's expansion, while at the same time offering financial benefits for the community. The purchase of this adjacent school property would provide School District 67 with a substantial amount of cash to be used at the Board's discretion for capital improvements on remaining school properties, for example, or to retire

school bond indebtedness. If Avon purchases the property and is permitted to develop it, the property would be converted from exempt to taxable real estate. This conversion would most favorably affect the tax revenues of the school district and the tax structure for the area's residents. Upon completion of Avon's proposed expansion, we would expect our annual property tax payments from Morton Grove and Glenview to School District 67 to amount to about 9% of the District's budget for fiscal 1979 or approximately \$220,000. The expansion will also add 300 new jobs. With the additional tax payments several hundred thousand dollars of revenue would be provided to help pay for the rising costs of operating schools and local government or these revenues may be used to relieve some of the tax burdens on the taxpayers in the district and the village.

The proposed Avon development of the Golf Elementary School property involves the construction of a warehouse structure approximately 500 feet long, 80 feet wide and 75 feet high. This structure has been planned with tasteful landscaping and loading dock areas screened from public view by shrubbery and trees. Access roads to the warehouse and parking area are designed to confine traffic to existing commercial routes, without increasing traffic in the surrounding residential area.

We want you to know that we have carefully considered the potential impact of the Avon expansion on the surrounding community. We feel that the proposed plan will provide increased tax revenues for the community and meet our future production needs with minimal disruption.

To give you some idea of the proposed project, a scale model of the construction will be on display in the lobby of our facility September 25, 26, and 27th from 10:00 a.m. to 3:00 p.m. and 6:30 p.m. to 7:30 p.m. We invite you to visit our facility at 6901 Golf Road to learn more about our plans. We will be happy to answer any questions you may have about our expansion plans during your visit.

## Doll collection at Niles Library

During the month of September, the Niles Public Library will be exhibiting a collection of dolls belonging to Michelle Jung. Michelle, an 11 year old resident of Niles, says that many of the dolls in her collection are gifts from relatives who have travelled abroad. Countries represented by the dolls include China, Poland, East Germany, West Germany, Australia, and Sweden.

Two of the dolls in the collection are family heirlooms. One, a 37 year old doll purchased in Australia, was given to Michelle's aunt on her First Communion, and the aunt passed it down to Michelle on that same occasion. The other heirloom is a 60 year old Swedish doll. Its face is hand-painted, and its dress is sewn from cranberry-colored velvet. All in all, the doll is in an excellent state of preservation.

Come to the Library and see Michelle's collection, and while you are here, don't miss Inez Mueller's prune doll exhibit, Lucy Barrett's cartoon art display, and the exhibit of watercolor paintings executed by Trudy Suderow.

### LGH depression discussion Sept. 26

"Living With Depression" will be the topic of a free community program at 8 p.m., Tuesday, Sept. 26, in the sanctuary of the South Park Church, 1330 South Courtland, Park Ridge.

The meeting will feature Donald Sellers, M.D., a psychiatrist on the staff of Lutheran General Hospital, Park Ridge. He will discuss depression and its relationship to grief, the types of depression that need treatment and how depression is treated. A discussion period will follow his presentation.

Dr. Sellers has been on the staff of Lutheran General since 1960. In 1967 he left to take a residency in psychiatry at VA Hospital, Denver, Colorado. In 1970, he rejoined the staff in the division of psychiatry. In 1977 he was named director of psychiatry services at the hospital's Alcoholism Treatment Center.

Board certified in psychiatry, Dr. Sellers is also an assistant clinical professor of psychiatry at the University of Illinois Abraham Lincoln School of Medicine.

The program is the second of a series of five sponsored by area churches in cooperation with the Men's Association, Service League and Medical Staff of Lutheran General Hospital. The series is designed to create a better understanding of health problems and how to deal with them.

### MONACEP offers nursing refresher course

The means and methods of health care are changing rapidly and MONACEP now offers seven continuing education courses designed to help nurses and other medical personnel keep up-to-date with developments in their profession.

MONACEP's program of continuing education for nurses and nursing refresher courses is growing rapidly, according to Stanley Harris, assistant director of the adult education program. He points out that MONACEP's courses, with recognition from the Illinois Nurses Association, now serve the needs of students throughout the north and north-west suburbs.

A recent conclusion of the Illinois Implementation Council on Nursing is that community colleges should assume responsibility for continuing education for the nursing profession. A number of states require continuing education for nurses as a condition of license renewal. Many hospitals already have this requirement.

MONACEP nursing programs are of the refresher-update nature, Harris explained, citing the RN Medical-Surgical Refresher which requires 76 hours of classroom discussion and 36 hours of clinical experience in a cooperating hospital. This intensive 16-week course is intended for the nurse who has been out of the field, perhaps the woman who left to start a family, to brush up on skills, learn of new developments,

and become comfortable again in the hospital environment.

Another intensive course, Medications, requires 90 classroom hours and 12 clinical hours. It is intended as a thorough grounding for LPNs or as a review for RNs. Dr. James T. O'Donnell, a supervising pharmacist at Rush-Presbyterian St. Luke's Hospital and leader of the class's theory discussions, said he believes all nurses need as much exposure to pharmacology as possible.

Legal Issues in Nursing, introduced to the MONACEP program last year, provides nurses and other health care professionals with the opportunity to learn about the hazards which recently have led to substantial increases in the cost of malpractice insurance and to discuss these circumstances with lawyers and doctors. This course is offered with the cooperation of the Medical-Legal Committee of the Chicago Bar Association.

Other courses are Basic Cardiology, Rehabilitation Nursing, Respiratory Therapy, and Intravenous Therapy. All classes meet evenings at locations throughout the Oakton Community College district, with one afternoon session of the RN Refresher offered on the OCC campus in Morton Grove. All courses except RN Refresher and Medications meet once each week.

Harris noted that MONACEP's extensive nursing program is possible only with the cooperation of local hospitals. "I am deeply appreciative of the fact that local hospitals have been uniformly cooperative in allowing our students to use their facilities," he said.

Classes begin during the week of Sept. 25.

For further information or a flyer describing the courses, call the MONACEP office, 967-5821.

### Class emphasizes handicapped pre-schoolers

"Developing the Handicapped Pre-School Child," a 10-week MONACEP course beginning Sept. 26, will meet from 7:30 to 9:30 p.m. at Maine South High School, 1111 S. Dec rd., Park Ridge. One of more than 70 additions to the MONACEP roster this fall, the course represents an effort to reach parents with handicapped pre-schoolers and to help them discover how much their efforts can do to help a child of limited potential to reach or surpass normal expectations.

The sessions will be led by Mary Jo Guglielmo, an activity therapist at Rush-Presbyterian St. Luke's Hospital, and Michelle Rovner, a teacher of handicapped children at Augustana Center.

"We both have seen numerous instances where parents—or other family members—could have helped both physically and mentally handicapped small children," said Guglielmo. Rovner added, "Sometimes parents don't realize how much learning is involved in baby play, and in the pre-schooler's efforts to copy his slightly older brother and sister."

Tuition for this class is \$28. For further information, call the MONACEP office, 967-5821.

## LETTERS to EDITOR

### Morton Grove tax rally

Dear Mr. Editor: As you may know I have recently formed the Morton Grove Tax Limitation Committee, since I am quite concerned about reckless spending of our tax dollars at the local level.

No doubt, you are also aware of the National Taxpayers United of Illinois, an organization dedicated to reducing our tax burden at the state and local levels.

Because of many pressing state and local issues I have invited Mr. James L. Tobin, president of this organization, to speak at a "Morton Grove Tax Rally", to be held next Tuesday, Sept. 26 at 7:30 p.m. in the Morton Grove American

Legion Post, 6140 W. Dempster st. Mr. Tobin is the leader of the Illinois tax revolt which has already saved Illinois taxpayers more than \$200 million.

Every taxpayer who wants lower taxes should attend and find out what is being done to help them. Politicians won't act to cut taxes until they see organized, active taxpayers expressing their concern.

Anyone desiring further information should feel free to contact me at 966-5235.

Sincerely,  
John Hilkin  
Former Trustee

## CitizensBank safety program

Citizens Bank & Trust Company, Park Ridge, is offering a special fall safety savings program between Sept. 21 and Oct. 21. The program enables depositors of Citizens to take advantage of premium offers specifically selected to safeguard one's family and home.

During this period, anyone making a one-time deposit of \$250 or more into a new or existing Citizens' passbook savings or time deposit account can select one top-quality safety gift free or at greatly reduced prices. Depositors have 15 different FDIC-insured savings plans

available to them at the largest bank in Illinois outside Chicago.

Depositors may choose from an Underwriter Laboratory listed General Electric Home Sentry Smoke Alarm (battery included), a G.E. 24-hour timer, a U.L. listed Bernzomatic all-purpose refillable fire extinguisher, and a compact, 15-foot fire escape ladder.

According to a bank official, these items are being offered because they provide the added measure of safety and protection recommended by fire and crime prevention experts. In addition, the products are available at

prices significantly lower than those offered by retail outlets in the area. "By taking advantage of the G.E. consumer rebate program now in effect, a depositor can obtain the Home Sentry smoke alarm for an after-rebate cost of as low as \$4.95 with a \$250 deposit, or free with a \$5,000 deposit," adds the spokesman. As an added benefit, persons taking advantage of the offer may purchase extra safety items at the bank's cost with no additional deposit required. "We want to do something special to safeguard not only our customers' money but also their homes and loved

ones. As the winter heating season approaches and the risk of fires increases, we want our customers to be protected," adds the bank official.

In conjunction with the safety program, CitizensBank continues to promote a major crime prevention program, "Operation Key I.D." This program, sponsored by Citizens and administered through the Park Ridge Police Dept., enables northwest area residents to register their keys with the police. Applicants are issued a numbered identification metal tag that attaches to one's key ring and corresponds to a

numerical card file, maintained at the police department, containing the registrant's name, address, and telephone number. Lost keys dropped in any mail box are returned to the Park Ridge police who cross-reference the card file and notify the owner. "Operation Key I.D." is being promoted through an extensive direct mail campaign.

Persons seeking more information on either the safety savings program or "Operation Key I.D." should contact Richard C. Rushkewicz, the bank's Marketing Director at 825-7000.

## "I work hard for my money. Why shouldn't my money work hard for me?"

At First Federal of Chicago, your money earns the highest interest rates allowed by law—higher than any bank. So you know it's working hard for you.

And now, besides our regular savings plans, which range from a 5 1/4% passbook account to a 7 3/4% Saver's Certificate, there are two new ways to save. One is our eight-year, \$1,000-minimum Saver's Certificate which, when compounded, actually yields 8.45%. The other is our \$10,000 T-Rate Saver's Certificate that takes only

six months (182 days) to mature. Both pay 1/4% more interest than you get at any bank.

Interest is compounded daily at First Federal. And when you make a deposit before the 10th of the month, your money earns from the 1st when left on deposit until the end of the quarter.

You know you've made a sound investment when you save at First Federal, because First Federal is Illinois' largest savings and loan. And since there are 27 convenient First Federal offices in the Chicago area, saving has never been easier.

Why not stop in at the branch nearest you today and talk to a financial counselor about your savings plan? Then decide for yourself how you can make your money work harder for you at First Federal of Chicago.

**Realty World-Key Realtors gives tips on real estate loans**

For those looking to buy a new or used home, Realty World-Key Realtors gives the following information to help you secure real estate loans.

Normally, you can get a mortgage loan from any of the following: Banks, Savings & Loan Associations, Mortgage Companies or Insurance Companies. Your realtor or builder will help you to arrange the mortgage financing according to Hal London, broker and co-owner of Realty World-Key Realtors, located at 8146 Milwaukee, Niles.

London said, "A lending agency is like any other business. You have a right to ask questions before you select the one that will make your loan."

Among the questions you might ask are:

- What are the interest rates?
- How soon will I get the loan?
- How long may I have to repay?
- Will I receive notice of due dates?
- Is there a penalty if I fail to pay on time?
- Can taxes and insurance be included in my monthly payments?
- How much insurance must I carry?
- Can I make payments ahead of time?
- Can I pay off the whole loan before it matures?
- In the case of pre-payments, will I pay interest only on the balance due?
- What preliminary costs will I have?
- When do I have to pay them?
- Can these costs be included in my loan?

**THE THREE KINDS OF LOANS**

**1. The Conventional Loan**  
Any loan plan by which the lending institution advances its own money, the government neither guaranteeing nor insuring the loan. All lending agencies offer several types of conventional loans, with terms varied to suit individual needs.

**2. The FHA Loan**  
A loan made by a lending institution, which is insured by the Federal Housing Institutions. To qualify for an FHA loan you must meet a number of requirements, including FHA inspection of the property you plan to buy. For full details write the FHA office in your area.

**3. The GI Loan**  
A loan made to a veteran by a lending institution can be insured by the Veterans Administration, providing it meets V.A. requirements. For complete information write the Veterans Administration in your area and ask for the book, "Questions and Answers on Guaranteed and Direct Loans for Veterans."

**HOW YOUR LOAN GOES THROUGH**  
First, when you find a loan plan you want, you will fill out an application form supplied by the lending agency you have chosen. The form will ask information such as:

- The amount of money you wish to borrow.
- The terms and conditions you ask (including your request for FHA or GI loans).
- Credit references. Your current income and obligations.
- Description of the property on which you want a loan, and what you pledge as security.

Next, the lending agency will now verify this information and have the property appraised. In the case of FHA or VA loans, appraisal will also be made by the FHA or Veterans Administration. Then, if all is clear, the lending agency will usually send a Letter of Commitment, outlining the terms of the mortgage - this before the loan is finally granted and you sign the papers. The Letter of Commitment allows you to go ahead with arrangements to buy.

**YOUR HOME IS YOUR ESTATE**  
When you buy a home you build an estate - it grows with every payment period. Don't think about your mortgage as you would about borrowing money to pay for past expenditures. Rather, Hal London pointed out, "Think of your monthly payments as you do about rent - with the important difference that each payment is increasing the equity in your home."

If you would like to know more about how to get the loan for the home of your dreams, call Bob Rauschenburg or Hal London at 892-7000 or stop into the office at 8146 Milwaukee, Niles.

sonalities being arranged for fans by veteran sportscaster Bob Elson.

## Dollar volume up 105 percent in Cook County

Dollar volume of sales of one-to-four-unit existing residential properties in Cook County during July increased 105 percent from a year ago, according to First Federal of Chicago's Home Sales Index.

Dollar volume in July totaled \$280 million—or a gain of \$144 million—compared to the \$136 million reported last July. Sales volume in July compared to a year ago increased only 13 percent, or 354 more transactions than the 2,826 recorded last year.

"The tremendous increase in dollar volume from a year ago

dramatically focuses on the rising cost of housing," said James C. Fitzmaurice, senior vice president of First Federal. "Nearly all the 33 townships in Cook County report substantial increases in the median value of homes sold compared to a year ago."

Besides the rising cost of housing, Fitzmaurice said that the increases reflect the housing sales mix of the various townships. "In some instances, what we are seeing is higher value homes selling," he said. "People

buying now are in a 9 3/4 to 10 percent market, meaning that they are probably at an income level that can support the higher interest rates, and the higher cost housing."

Fitzmaurice said that West Town, Lakeview and Hyde Park townships recorded the largest percentage increases from a year ago. Since last July, the median value of homes sold in West Town Township rose 198 percent from \$20,500 to \$61,000. Other townships that recorded large increases were Lakeview Township where the median value rose 160 percent

from \$36,000 to \$93,500 and Hyde Park Township where the median value rose 143 percent from \$23,000 to \$56,000.

First Federal's Home Sales Index also reported that July dollar volume rose 31 percent from the month before, or \$86 million from June's \$214 million. Sales volume, however, decreased slightly by 3 percent or 112 fewer transactions than last month's 3,292.

Northfield Township received the highest dollar volume among all the Cook County townships with \$17,227,500. Second in dollar volume was Jefferson Township

with \$17,028,000. The highest sales volume was recorded by Proviso Township with 197 transactions; Jefferson Township ranked second with 184 sales.

Cumulative activity for the first seven months of 1978 totaled \$1,214,065,500 on 19,394 sales. This is a 46 percent increase of \$380,329,500 over the 1977 cumulative dollar volume of \$833,736,000. Sales volume rose 5 percent or 992 transactions over the 18,402 recorded for the first seven months of 1977.

## Adventure Across Europe

The 40th series of travels sponsored by MONACEP and one of its predecessors, the Maine Township Adult Evening School, presents John Ebert's "Adventure Across Europe" on Wednesday evening, Sept. 27, 8 p.m. at the Maine East high school auditorium, Potter and Dempster, Park Ridge.

As an introduction to this season's series of 8 subsequent travels, admission will be free but requires securing a ticket in advance from any of the MONACEP centers. Over 1300

unreserved seats will be available. John Ebert has led six major expeditions through rural regions of Europe and has captured on film a detailed record of sights and people away from urban centers, many living much as their ancestors did a hundred years ago. Since Mr. Ebert is any experienced mountaineer, this trip covers the Alps-Swiss, French and Yugoslavian.

A day with a family at home, a visit to a skilled metalsmith, dancing at the farmers' picnic, trekking sheep across the Alps are included. Accompanying live narration about the Ebert family's travel by microbus, cable car, cog train, and on foot is a collection of superb European folk music.

## Imperials take 4th place

The Imperial Drum and Bugle Corps of Skokie, with members from throughout the surrounding area, has just registered fourth place finishes in both the American Legion and Veterans of Foreign Wars National Championships.

The contests, held in New Orleans' Superdome and Dallas' Cotton Bowl, were participated in by junior drum and bugle corps from throughout the nation. The Imperials was the only corps from Illinois in the VFW finals. In the American Legion tilt, a corps representing Elmhurst finished further down in the standings.

The Imperials, the nation's oldest continuously operating junior drum and bugle corps, at 52 years, is comprised of young men and women aged 13-21 years. Members play a range of valved bugle types or any of a number of percussion pieces, or participate as part of the flag or rifle handling squads.

The Imperials have represented the area in more than 30 competitions and approximately as many parades during the summer - locally, regionally, nationally. As such, it is the greatest standard bearer for "Skokie Spirit".

The Corps and parent boosters earns 90-90% of its annual budget. As such, it is the only competitive corps in the area, and to a great extent the nation, which does not have some local financial support. The corps reports that such help is urgently needed to sustain this proven youth program in Skokie.

The program is 12-month, with all professional instruction, instruments, uniforms and travel provided by the Corps. The Corps is now taking new members for the 1978-79 season, with practices for next year's repertoire starting in October. Those interested in joining are urged to contact either of the following as soon as possible. John Gillan, 677-0313, or Rudy Vergin, 398-7416.

**Brando films at OCC**

Excellent film performances by Marlon Brando highlight the Sept. 22 program of the Oakton Community College Film Society. "The Wild One" (1953) and "Reflections in a Golden Eye" (1967) will begin at 7:30 p.m. in Building 6 - on the OCC Interim Campus, Oakton and Nagle, Morton Grove.

"The Wild One", starring Brando, Lee Marvin, and Mary Murphy, features a powerful performance by Brando as head of a motorcycle gang that invades a small town and raises havoc. In "Reflections in a Golden Eye", the film version of a Carson McCullers novel, Brando portrays a homosexual Southern army officer, conveying in a deeply moving way the personal anguish and indecision of the tortured officer. Also starring Elizabeth Taylor, Brian Keith, Julie Harris, and Robert Forster.

A \$50 donation is requested from OCC and MONACEP students; \$1 is asked of others. The screening area is accessible to the handicapped.

## A Legend of Love..

By Ed Hanson

A caprice of fate caused two famous men to die precisely at the same time - Aug. 23, 1926. One was Charles William Eliot, former president of Harvard University. The other was Roldolph Alfonso Rafaelo Pierre Filibert Guglielmi di Valentina d'Antognolla - better known as Rudolph Valentino.

Both were tremendously successful in their chosen vocations. Charles Eliot climaxed a dynasty of "Eliots" at Harvard University. For 40 years he served Harvard as President - longer than any president before or since. Creator of "the five foot book shelf", he was internationally famed as an educator and a man of letters. In his calling he was second to none - he had no peer.

Now, Italian born Rudy Valentino didn't have this much going for him. Possessed of little formal education, Rudy "Vaselino" (as jealous boy friends and husbands came to call him because of his slicked down hair) had been an ex-gardener, dishwasher and gigolo. For reasons difficult for mere man to comprehend, Rudolph Valentino had something else. In figure, face and grace he represented to women the ultimate in masculine appeal. You could say his face was his fortune - and among other things, he made one.

Now a very strange thing happened in the subsequent publicity of their respective deaths. In many newspapers nothing appeared about the death of the great educator, Charles William Eliot; in others a small paragraph buried on the obit pages briefly called attention to his passing. The sum total of Eliot's publicity compared with that of Rudolph Valentino's was as a pencil would be propped against Mount Everest. It was nil.

While front page headlines, in the biggest, blackest, boldest type obtainable, screamed their message of Valentino's death to the world... and the sob sisters of all newspapers had a field day, and page after page of picture spreads replete with the Latin lover in many of his most romantic roles, "The Four Horsemen of the Apocalypse", "The Sheik", "Blood and Sand", "Monsieur Beaucaire" and others practically all gobbled up all the space in all newspapers, Charles Eliot was lost in the shuffle.

Females, young and old, cried openly as they read their newspapers in public vehicles. It is a matter of historical fact that Valentino's early death in 1926 evoked a world-wide hysteria among the female population of the world. Women who had never seen him except in his pictures were reported to have committed suicide. Scenes reminiscent of the First World War draft were re-enacted upon the streets in towns, communities and cities of America. These demonstrators of

Hanson At Age 3

national grief, and my Mother and Grandmother were among them, were, of course, confined strictly to the female of the species.

The male gender of that day, now that the guy was gone, could do nothing but stare in stony silence and awe at what was being enacted all around them. Their sole solace was that maybe now they could get a home cooked meal for a change rather than "something out of a can" that Milady hastily threw at them when she rushed home late from a Valentino matinee (that she had seen four times previous anyway).

But the females demonstrated more than male fortitude when they charged with the passion of a discarded mistress the police lines surrounding the funeral chapel where their "illusionary" lover lay in state. And all the way from New York to Los Angeles, millions of women along the way assembled for a glimpse of his funeral train and to pay their last tribute to his memory. Even today his grave is sort of a mecca that thousands of women visit annually. And there are still some loyal, if aging, members that remember fondly the famous Sheik - a Legend of Love.

As the truck driver waiting impatiently for the seeming endless Valentino funeral cortege to pass said to his companion, "What the hell did dis guy have?"

Just this: Valentino appealed to the "heart strings" - the emotions of women - while Eliot appealed to the intellect of men. What is a great story, movie, play or even an advertisement? It's an emotional experience. It must move the reader or viewer - it must create desire.

There's a real treat in store for you at breakfast-time at Arvey's Restaurant, Oakton and Waukegan, Niles.

It's a sky high waffle that inspired a certain writer to create a movie script called Star Wars, which became the biggest grosser of all time.

These sky high waffles are made on an expensive and exclusive waffle iron which puts a special grid upon the waffle as it's cooking. Arvey's secret batter of country fresh large eggs, mixed with creamy butter is served with maple syrup for only 99¢ - the regular price is \$1.20.

Another great and low price complete breakfast is Arvey's Special. This consists of fresh-made French toast, with scrambled egg and strips of bacon or pork link sausage, and served with a fruit cup. The price is only \$1.35 for this complete breakfast.

Arvey's also offers Eggs Benedict, two farm fresh eggs, poached and served with ham on a toasted English muffin, topped with Arvey's special Hollandaise sauce and served with hash brown potatoes... this hearty breakfast

Maine Township High School students will have the opportunity to take the American College Test (ACT) on five dates during the 1978-79 school year.

The three hour ACT, which covers the subject areas of English, math, social science and natural science, is required by all of the state-supported universities and community colleges in Illinois and by 2,700 additional colleges and universities in the state and across the nation.

The five 1978-79 test dates and corresponding registration periods are as follows: Registration deadline Sept. 22, 1978 for test Oct. 21, 1978 at Maine East, South or West; registration deadline Nov. 10, 1978 for test Dec. 9, 1978 at Maine East or West; registration deadline Jan. 12, 1979 for test Feb. 10, 1979 at Maine South and West; registration deadline March 9, 1979 for test April 7, 1979 at Maine East, North, South or West; registration deadline May 25, 1979 for test June 23, 1979 at Maine North or West.

Registration materials are available from any counselor or the Career Resource Center at Maine South High School, 1111 S. Deerl., Park Ridge. The basic fee for taking the ACT remains at \$7.50.

Most seniors took the ACT in the spring of their junior year but those who did not or those who need to be re-tested should take it early in their senior year. Juniors are advised to take the ACT on April 7 or June 23, 1979.

## Lutheran General new weight groups

If you're already wondering how to lose weight for the upcoming holidays and keep it off during the festivities, Lutheran General Hospital may have the answer for you.

The Park Ridge hospital's Nutrition Outpatient Counseling service is forming two new weight control groups using behavior modification techniques. One group will meet each Tuesday morning beginning Oct. 17 and the other group will meet each Thursday evening beginning Oct. 19. The sessions will be held through mid-January at the hospital.

According to Maureen Lyons, registered dietitian, "The sessions are designed for persons who want to lose weight and maintain good nutrition. Members get a self-awareness of why they eat, what happens when they eat and information on good eating habits. The group act as support to the person."

The fall sessions will stress "surviving the holidays". For one session group members will visit a restaurant to learn how to select foods from a menu while main-

taining good eating habits. Through the 10 week program, various guest speakers will talk on other subjects related to nutrition, exercise and activity.

Before participating in the behavior therapy groups, each person is asked to meet individually with a staff diet counselor. The dietitian can gain an understanding of the person's past eating behavior, home situation and working schedule and devise an eating program to suit the person's lifestyle and special needs. After the ten-week program, clients are encouraged to return for regular follow-up counseling.

This is the third year the Outpatient Nutrition Counseling Service is offering the behavior therapy program. Besides this program, the department offers monthly diabetes classes and individual counseling for persons on special diets such as sodium restricted or low cholesterol.

Further information about any of these outpatient nutrition programs may be obtained by phoning 696-6138 between 8:30 a.m. and 5 p.m. Monday-Friday.

cards when they graduated from high school. It was a very warm remembrance from a person who genuinely cared.

In days bygone Lorraine and her husband Wes were members of a Human Relations group we were a part of in Niles. They were very sincere dedicated people, gentle and warm, and representing an era of civility we sadly see slipping away.

Lorraine spent 23 years teaching kindergarten in the East Maine school district, most of the years at the Oak School in Niles. She gave so much of herself to so many, all of whom are the better for her having been a very important part of their lives.

Tuesday we received another phone call from a more recent acquaintance, Marsha Levin, who has been the chief spokeswoman for the Nordica Avenue Residents' Committee.

Marsha has been the driving force behind the group which has been trying to improve the Nordica area. Her efforts have resulted in her neighbors meeting with village officials. Presently the village has the developer in court and hopefully, improvement will be forthcoming.

Niles responded initially to the Nordica residents' calls for help. But Ms. Levin contends she's now getting the run-around in her attempts to stay on top of the problems. The village previously responded by having policemen patrol the area on foot. They've also tried to move the developer of the property to maintain and improve the area. We're sure village officials think the lady is pushing too hard. And we're sure Nordicans are feeling the frustration of seeing little improvement in their home base.

Nick Blase and Niles are very responsive to villagers' problems. We're sure residents in Niles' eastern area will not be neglected. They must get directly involved in the improvements. And Niles will carry its weight, which is substantial.

Wednesday morning we stopped off at the vacant Oklahoma gas station at Dempster and Sherman rd. where Standard Oil is shooting a training film on "How Not To Run A Gas Station".

The spoof is taking place at Otto's Off-Tane Gas Station. A tall lissome brunet, dressed in a bit of gossamer fluff, is sashaying out of the station to a car waiting for gas service. When the customer asks the attendant for a "fill-up", she does another sashay, wiggling around in a circle and facing the driver, strikes a very sexy pose. He angrily tells her that's not the kind of fill-up he was asking for. After innumerable takes, we left this celluloid extravaganza in search of what else is going on in the community.

In our last example of community involvement, we read Alice Bobula's report on Niles library board meeting in which it formed a watchdog committee among board members. We think it's time a citizens' committee having no previous board member experience should be formed to monitor its own library. The former Friends of the Library might consider actively reforming. But a positive, active, independent committee should begin watching over board meetings and feeding input into library happenings.

There are two factions on the board bitterly battling each other. And while such abrasiveness is better than rubber stamp actions, nevertheless, trivial bickering bogs down much important work on the board.

After these many years of public neglect the library board activities are now being published. The very nature of the community being involved is the result of a community newspaper doing its job, albeit somewhat late.

Two other newspapers have now been running library board happenings which bears well for the entire community. Library activities have to become public knowledge. When they are, everyone - public employees, administrators, board members and community residents - functions in a more enlightened manner.

A viable community newspaper is a significant part of any community. Being viable means being involved.

school bond indebtedness or to pay for capital improvements to remaining school properties.

In addition, the Golf Elementary School property under consideration is now exempt from real estate taxation. As such, it does not generate any property tax revenues for the community. Avon's purchase and development of this property would convert it to taxable real estate. It is anticipated that Avon's annual real estate tax contribution to School District 67 will double to about \$150,000 after completion of proposed improvements to the property. Added to this are tax payments for Avon's Glenview facility, bringing Avon's total contribution to about \$220,000, or approximately 9% of the school district's budget for fiscal 1979.

Whether these additional revenues will be used by the school district to enhance the quality of educational services provided, or to relieve some of the burdens for taxpayers in the district would be up to local school and government officials, but residents and taxpayers of the District would receive direct benefit from the taxes generated by the Avon project.

The warehouse structure, which will be 75 feet high and 500 feet long has been planned with tasteful landscaping, and loading dock areas screened from public view by shrubbery and trees. Access roads to the warehouse and parking area are designed to confine traffic to existing commercial routes, without increasing traffic in the surrounding residential area.

## Heavy rains...

The heavy flooding also closed two Morton Grove schools on Monday, Borg Elementary School, 8601 Menard and Parkview Elementary School, 6200 Lake. Both resumed classes on Tuesday after a major cleanup operation.

The Tam Golf Course in Niles once again became "Lake Tam" with the entranceway at 6700 Howard and the first and seventh holes completely under water. A spokesman for Tam said, "It's a good spot for water polo or a canoe right now, but we'll be back in play tomorrow (Tuesday)". Streets reported 'closed' in the area included Skokie Blvd. at Howard and Oakton.

Although Midway Airport's official rainfall measurement was less than an inch, Monday's rains dumped two of the three inches of water on the northern suburbs.

being a puppet ... when I see a deficiency in competence I will speak out. Criticism is one thing but being terminated for it is another."

His request for a closed meeting with park commissioners in order to vindicate himself was approved with Comr. Jeffrey Arnold as the lone dissenter. No date was set for the executive session other than it be held before the next park board meeting.

Hughes says the starter was discharged because he declined to elaborate on critical remarks he made concerning golf course management.

"I can assure you," said the Director prior to the board meeting "the man was not dismissed because of anything printed in the newspapers. However, it may have been a contributing factor because I think he was dead wrong in publicly criticizing park personnel before he talked to me first."

Nothing was discussed prior to the August board meeting noted Hughes ... "The first time we talked was for 10 minutes following the board meeting."

The park director termed it "an extremely difficult decision to terminate employment of Wdowiak" ... "others (discharged) have totally justified their termination."

Fault-finding comments voiced by Wdowiak in news interviews prompted Hughes to issue a directive to the starter dated Sept. 7 requesting criticisms be set in writing for review by the park director, with a Sept. 11 deadline.

Getting no response, Hughes said he contacted the park employee at the golf course Sept. 13 and getting no satisfaction terminated the starter's employment by letter Sept. 15.

Chamerski told fellow board members his observation of Wdowiak for the past 3 years indicates "the man has done a good job at the golf course." A personal inquiry of other golf course employees revealed that Wdowiak's comments concerning incompetence of the golf course manager had merit.

"You don't fire a man for making statements ... he's doing a good job ... he's watching our interests," he told commissioners.

Chamerski drew applause from spectators when he urged adoption of the residency ruling for the park. Referring to the turnover in employees he noted, "hire people from our town and they won't use this job for a stepping stone."

In other citizen action, Mr. and Mrs. Adrian Galassi appealed to commissioners Tuesday night for action concerning condition of the hedges along the fence bordering their backyard and Kirk Lane Park.

"About 90% of the hedges are dead," noted the Jonquill Terrace resident. Recommendation thru Director Hughes by the Agriculture Co. indicated the shrubbery should be severely pruned and fertilized.

Should the recommendation be followed, Galassi said nothing would remain. "I'm not a

staff member to attend a Chicago workshop last June.

Reference Librarian Roger Hecht petitioned the Board Wednesday night to appeal a decision by Administrator Jackson denying him a two-day professional leave (instead taking two of his vacation days) to attend a course on the use of manuscript and archives.

Hecht said the absence request was originally approved by Acting Administrator Ruth Machowski while Mrs. Jackson was in New York attending an ailing husband. A hoped-for subsidy by the Library of the course-fee was not forthcoming so Hecht said he paid the \$50 out of his own pocket.

"It is my belief a librarian should expand himself to gain more information for library patrons," noted Hecht who said he was able later to assist library users with information gained from the seminar. "That's what my job is about."

Referring to the Library's Statement of Policy manual, Hecht said one section allowed for librarians to attend workshops whenever possible. "The spirit of the section leads me to think the Library encourages self-improvement efforts among its staff."

A 5 to 2 Board vote returned the 2 vacation days to the reference librarian but withheld payment for the workshop course.

Mrs. Jackson said her denial was based on information given her that the workshop was not worth the "exorbitant fee."

Approved a 1:30 a.m. proposal by the Library Administrator to obtain a current appraisal of library assets, fee for which is \$705. Jackson termed the action worthwhile, in face of escalating prices, to determine present value of library holdings.

Changed the policy manual effective Friday, Sept. 15 to a 40-hour work week for full-time personnel, not to include lunch.

Board members also approved a motion not to pay part-time employees for lunch periods.

botanist," he told the board, "but I have a little what you would call commonsense."

He noted the east and west hedges were dead but that the north and south shrubbery was in good growth, indicating the possibility that the weed killer used by the park may be the cause.

Confirming her husband's comments, Mrs. Galassi told Hughes that "the hedges are dead from what you put on the ground"

Comr. Dan Kosiba told the concerned citizens that an immediate investigation would be forthcoming.

# Crusade of Mercy "Kick Off"

The Industrial Division of the 1978 Crusade of Mercy sponsored by the United Way of Skokie Valley got off to a good start last Thursday with a "Kick Off" continental breakfast meeting at Allstate Insurance Company in Skokie.

Chairing the meeting was William Ballantine, ITT Harper Corp., Industrial Division Chairman. Over 60 persons attended the "Kick Off" and will now visit about 600 firms in Lincolnwood, Morton Grove, Niles and Skokie to ask for corporate gifts and to open doors for employee participation programs. Ballantine said, "This looks like a good year for the Crusade of Mercy. The industrial division goal of \$24,300 and the total campaign goal of \$110,000 should be attained with the help of our 85 "crusaders" and many others who will be working in the ten campaign divisions."

The Rev. Conway Ramseyer, Pastor of the Morton Grove Community Church and General Campaign Chairman also feels optimistic regarding the campaign and urges everyone who lives or works in Skokie Valley to participate by mailing a check to the United Way of Skokie Valley, 4017 Church St., Skokie. Each contribution will benefit thirteen local service agencies.

The keynote speaker at the Industrial Kick Off continental breakfast meeting was Robert C. Wordel, Jr., Teletype Corporation, and a member of the United Way's Board of Directors. Others who spoke included E. J. Blackburn, V.P. of Allstate Insurance Co., Edward Caldwell, Montgomery Ward Co., and Henry Shillington, Executive Director of the campaign.

Group of "Crusaders" who will ask firms in Lincolnwood, Morton Grove, Niles and Skokie for corporate gifts to the "Crusade of Mercy" drive to raise \$110,000, sponsored by the United Way of Skokie Valley. The drive will benefit 13 local service agencies.

# District 207 "Fall College Night"

Representatives from 150 colleges, universities, community colleges and special schools from all over the United States are expected to participate in "Fall College Night" for students from all four Maine Township High Schools on Thursday evening, Sept. 28.

The program will begin at 7:30 p.m. at Maine Township High School West, 1755 S. Wolf rd., Des Plaines.

It is anticipated that many of the sophomore, junior and senior students and their parents invited to the District 207 event will take advantage of this opportunity to meet and speak with representatives of these institutions of higher learning. A follow-up of 1977 graduates from the four Maine schools showed that 67% or 1,692 of the 2,523 graduating that year went on to continue their education in four-year colleges,

junior colleges, and special schools, such as business, trade and nursing.

The report also pointed out that of those graduates employed full or part time, approximately 88 are also attending a continuing school, predominantly a junior college, on a part-time basis.

While figures on '78 graduates will not be available until early 1979, a survey of Maine seniors earlier this year indicated that 72% planned to continue their education at a college or community college.

Reporting on "Fall College Night", James Killam, Career Counselor at West, said: "It is especially important for seniors to find out as much information as possible about the colleges of their choice so they will be ready to finalize their plans for admission this fall. Deadlines draw nearer."

Killam added that students of parochial high schools and their parents are also invited to attend the program.

He said that some of the general information on the schools includes: size of institution, total costs, majors offered.

Because all state schools have a large number of students interested in obtaining information about them, it has been arranged for students to visit with representatives of these schools according to a schedule. He said that schedule will be noted on the printed program handed out that night.

Plans call for four information sessions of 30 minutes each with 10 minutes between sessions to enable students and their parents to find their way to the next meeting. Maps with schedules will be available at the entrance to the building. Students will be on hand to act as guides.

Meetings concerning financial aid will be held in the West auditorium at four different times, starting at 7:30 p.m., 8:10 p.m., 8:50 p.m. and 9:30 p.m.

Lawrence O. Sawicki, Pvt. Lawrence O. Sawicki, son of Mr. and Mrs. Alfred B. Sawicki, 534 W. LaSalle st., Des Plaines, recently was assigned as an electronic instrument repair and calibration specialist with the Eighth U.S. Army at Camp Carroll, Korea.

# Friends of the Niles Library

The Friends of the Niles Library have announced that they will hold monthly meetings at the Branch Library, 9010 Milwaukee ave. on the last Monday of each month. Meeting time is 7:30, with this month's session to be held on Sept. 25. If you have pre-school children, bring them along so they can attend "Storytime" which begins at the same time.

Definitely in the works for the Friends is an Ethnic Festival slated for Sunday, Oct. 15 at 2 p.m. The music, dances, foods, etc. of different cultures will be represented, so the Festival should be interesting as well as enjoyable. Attending families are asked to bring either a pot-luck dish reflecting an ethnic cuisine or to make a donation. Weather permitting, the gathering will be held outdoors in the parking lot of the Main Library, 6960 Oakton St.

# Ostomy meeting

The North Suburban Chicago Chapter of the United Ostomy Association will hold their next monthly meeting on Wednesday, Sept. 27 in the 10th floor cafeteria at Lutheran General Hospital, 1775 Dempster, Park Ridge, at 8 p.m.

The program will consist of reports from our members who attended the Annual Conference held in Dallas, Texas, Aug. 17-19. We will also have Tom Thompson, Area Sales Representative, for Diamond Shamrock who will have a slide presentation on their products.

All interested persons are invited to attend. For further information about our meetings and organization contact Marilyn Mau, Park Ridge 823-6312, Mary Lantz, Buffalo Grove 537-4852, or Chester Marshall, Mt. Prospect 253-2696.

# Women in sales is topic of OCC returning adults

Barbara A. Pletcher, author of "Saleswoman-A Guide to Career Success," will be the guest speaker for the Adults Returning to School organization of Oakton Community College on Thursday, Oct. 12.

The program will be held from 7:30 to 9:30 p.m. at the Niles Public Library, 6960 Oakton, Niles. Admission is free of charge.

Pletcher is president of Creative Sales Careers, Inc., a company which advises major corporations about recruiting and training women for positions in sales and marketing. On Oct. 12, she will discuss the outstanding opportunities for women to earn a great deal of money representing major companies.

Adults Returning to School is an organization meeting each month to inform adults of the educational and career opportunities available to them. For information on the group, call 967-5120, ext. 350.

# Rummage sale

The fall sale given by the Park Lane Womens Club features a large assortment of plants from starters to full grown, as well as the usual array of rummage items.
