## Female suspect nabbed in bowling alley thefts

Police arrested a young woman suspect in a series of bowling alley thefts on Thursday, Sept. 28 as she emerged from a Harwood Heights bowling alley. Nancy Uhlir, 25, of Park Ridge, was charged with theft, according to Niles Police Lt. John Christie. She was released under a \$1,000 bond pending an Oct. 27 hearing in Niles Circuit Court. Police said numerous purse thefts had been reported by area bowling alleys over the past month. The showdown began Thursday when Classic Bowl, 8530 Waukegan rd. in Morton Grove, reported theft of a bowler's purse containing \$20. A short time later two women bowlers notified employees of Brunswick Niles Bowl at 7333 Milwaukee ave. their purses containing a total of \$8 to \$10 had been taken by a young woman. At the same time the police were alerted, the Bowling Association swung into action, notifying other bowling lanes to be on the lookout, giving a description of the purse thief. As soon as a woman answering the description walked into the Strike and Spare Lanes in Harwood Heights, the manager called police who apprehended the suspect as she walked out of the bowling alley. Nothing was taken from the Harwood Heights lanes according to a police spokesman who said the suspect later told police there were only teenagers bowling so she walked out... and into the arms of police. The suburban officers rushed her to Resurrection Hospital after she suffered a fainting spell. Lt. Christie said Niles police took the Park Ridge woman into custody at the hospital. She was charged with theft following positive identification by employees of Golf-Mil Lanes, 9300

## Milwaukee ave. impact study set at \$64,462

# Ok initial outline for traffic study

Initial steps toward improvement-development of Milwaukee ave. under the Comprehensive Plan for the Milwaukee Ave. Corridor were made when trustees Sept. 12 approved basic paperwork for Phase I specifically related to traffic along the 4.5 mile long thoroughfare. Village Manager Kenneth Scheel said last week that "approval was necessary in order to prepare for the preliminary engineering work needed for improvement of highways and inter-sections..." He noted that Phase I deals "strictly with engineering of streets and has nothing to do with beautification, parking or trees... altho beautification may happen as work progresses..." Under Phase I work is divided into four areas "prioritized", dependent upon traffic, as Project A: improvements on Milwaukee ave. from Main st. to Mulford st., concentrating on the Milwaukee-Oakton intersection. Project B deals with the area

In 1888 Ernest Thayer wrote the immortal ballad, "Casey At The Bat". It appeared in the San Francisco Examiner Sunday morning, June 3, 1888. Ninety years, four months, two days later, the Mighty Yaz took his place alongside the Immortal Casey. In the Thursday morning, Oct. 5, 1978 issue of The Bugle, Niles, Ill., another immortal baseball ballad was born.

### "Mighty Yaz At The Bat"

Razzamatuzz -- and all that jazz,  
Up to bat came the Mighty Yaz.

It wasn't Mudville in '88,  
It was good ole Beantown in '78.  
The hated Yanks had vaulted ahead,  
But Yaz would soon stand in good stead.

Tumultuous yells cried out for Yaz,  
Razzamatuzz -- and all that jazz.

Remy and Burlson were perched in the sun,  
The second one in was the winning run.  
Lemon and Munson came out to the mound,  
While 33,000 shrieked out their sound.

Razzamatuzz -- and all that jazz,  
Just one swing for the Mighty Yaz.

On the mound stood fastball Goose,  
A lowball pitch -- and Yaz was loose,  
Then Goose reached back and let her fly.  
The Beantown crowd let out a cry,  
The ball hit high, took a Nettled plop.  
The Mighty Yaz had hit a pop.

So, Razzamatuzz -- and all that jazz  
For the Red Sox and the Mighty Yaz.

# Fire Prevention 1978

This year the Village of Niles and the Fire Department have taken increased measures to minimize fire deaths and loss of property by passing a smoke detector ordinance for multiple dwellings and a suggestion to all home owners to voluntarily place smoke detectors in all homes.

The Niles Fire Department has won first place for fire prevention activities for over 20 consecutive

years. This has been made possible thru the efforts of the Village Board, Police and Public Works, and most of all, the cooperation of the citizens of Niles, who are concerned about fire safety.

A proclamation was signed by Mayor Blase at the last Board Meeting, designating the week of October 8th thru the 14th as Fire Prevention Week.

## Hunter speaks to YMCA Seniors

Diana Hunter, representing Illinois Secretary of State Alan J. Dixon, will speak at the Senior Adult Center of the Leaning Tower YMCA at 6300 Touhy in Niles on Oct. 16 at 11 a.m.

She will discuss services and programs offered by the Secretary of State that are of special interest to senior citizens. One such service is the provision of free emergency medical cards and stickers for persons with medical problems. The stickers are affixed to the reverse side of a drivers license or identification card to indicate that the bearer is carrying a medical information card with important facts regarding his or her physical condition.

The card provides space for listing medication being taken, allergies and the existence of serious conditions such as diabetes or epilepsy. Such information may be especially helpful in the event of accidents or a situation in which the card holder may be unconscious.

Any organization that would like to hear Diana Hunter may

arrange for her appearance by calling the Secretary of State's office, (312)793-3161.

Have your blood pressure checked.

## An early start for basketball

When the basketball season starts the first week of October, can the next continental glacier be far behind? Since this year's winter is expected to be even more severe than last year, the Girls Chicagoland Basketball League has decided to move up their starting date by almost a month to enable more spectators to avoid icy streets. This year St. John Brebeuf is an "expansionist" team in the league with a new entry composed of a seventh grade girls' team.

This team seems to be naturally comprised of two groups of players—"super speedsters" and tall careful "play makers". After watching them in practice for nearly a month, coach John Marusek has decided to go with an

unheard of "Two first string approach". His plan is to confuse the opposition and give all the girls a chance for the same amount of playing time.

Barbara Wiltgen, Mary Baronowski, Julie Klancnik, Mary Jane Marusek and Nancy Surace comprise the "Super speedster" starting five. Maureen Thompson, Lisa Strauss, Sue Watson, Maureen Olson and Andrea Thilmany make up the "playmaking" starting five. Hopefully, these two "starting five" will start in different games. Then instead of a second string coming in, a new starting five will come in to utterly confound the opposition, with an entirely different style of play.

Other members of the team include Frances Allocco, Nancy Kadivnik, Terry Penbelton and Valerie Tomczyk. With this new approach St. John's 7th grade girls basketball games should prove to be interesting and fun for the girls involved and the spectators.

The home games are as follows: Oct. 17 - S.J.B. vs St. Tarcisus 7:30 p.m. Oct. 18 - S.J.B. vs St. Francis Xavier 7:30 p.m. Oct. 27 - S.J.B. vs St. Nickalaus 8 p.m. Oct. 28 - St. Stephen 2 p.m. Nov. 2 - Queen of All Saints 6:30 p.m. Nov. 4 - S.J.B. vs St. Monica 6 p.m. Nov. 9 - St. Francis Borgia 6:30 p.m. Nov. 18 - St. Francis Xavier 4 p.m. Nov. 19 - St. Tarcisus 6 p.m. Nov. 21 - St. Lukes 7:30 p.m.

## Niles West runs third

The Running Indians from Niles West High School placed third in the Second Annual Running of the "Top Seven" Cross Country Invitational held at Montrose Park in Chicago last weekend. Fifteen teams from the Chicagoland area competed in this meet hosted by Lake View High School of Chicago.

In this type of meet there are seven separate races with the number one man from each team running against one another, the second man from each team running against one another, and so on for each man on the team. The meet was won by Ridgewood High School with St. Ignatious second and Niles West third.

The race began with the number seven runners taking off first. Adam Keno placed fifth in this race. John Quinn placed second among sixth men. Greg Simon ran fifth among the number five men while Guy Brilando raced to second among number four men. Steve Rosenblum was West's only winner and Rick Arendt ran second among second men. West was badly hindered by the performance of Ricky Bedony who was suffering from the flu and could barely finish the race.

West is off this coming weekend and travels to Glenbrook South to run Waukegan East and Glenbrook South next Tuesday.

## Demon Golf

Thursday, September 28, the Maine East golfers competed with Notre Dame and on Wednesday, October 4, with Waukegan East. The next Demon hosted golf competition is Thursday, October 5, against Maine West.

The varsity on September 20 beat Glenbrook South 157-161. The frosh-soph, however, lost to Glenbrook South 183-187.

Wins on both the varsity and frosh-soph levels came September 18 against Niles West. The Demon varsity won 149-163, and the frosh-soph won 162-186.

There was a win and a loss with Evanston, though, on September 15. The Maine East varsity lost 136-140 but the frosh-soph won 143-147.

## Punt, Pass and Kick registration

There are just two days remaining for youngsters in Park Ridge and Niles to register for the local Punt, Pass and Kick competition. Paul Sollitto of the Park Ridge Jaycees, co-sponsoring the popular youth activity in this area along with Dave Cory Ford, said that registration would be taken through Friday, Oct. 6. The Punt Pass and Kick competition for Park Ridge and Niles is scheduled for Oct. 7 at Jozwiak Park, Niles.

"Although time is growing short, any boy or girl 8 through 13 years of age can still compete," said Paul Sollitto. "All a contestant need do is come into Dave Cory's showroom, accompanied by a parent or guardian, and fill out the PP&K registration form. There's no entry fee or charge of any kind, and that goes for all six levels of competition, up to and including the National Finals." Registration materials may also be obtained at Parrish Sporting Goods, Park Ridge.

Trophies will be awarded for first, second and third place in the local competition in each of the six age groups. Increasing the youngsters' chances of winning one of the 18 trophies is the fact that each contestant competes only against others of the same age. And since there is no body contact, an entrant's size is not as important as his or her ability to punt, pass and place kick for distance with accuracy. Also, no special equipment other than gym shoes is necessary. No spiked shoes are allowed in the competition!

"Winners can continue on up through the Zone, District, Area, and Division contests to the National Finals," Sollitto said. "It's possible that one or more of our local winners could wind up in the finals."

When contestants register, each entrant receives a free Punt, Pass and Kick tips booklet, which includes complete rules for the competition.

Included in the evenings festivities will be three different night club reviews presented in the main theater. No need to walk from place to place, just sit back and enjoy the shows. The doors will open at 7:30 with the first show at 8:30. In addition, there will also be a Wine and Cheese Chalet, a Pastry Shop, and a Music Lounge which will serve food and drinks and give everyone the chance to dance til the wee hours of the morning.

In the past, JUBILATION has been thoroughly enjoyed by one and all, and the '78 edition promises more of the same. The High School is located at 7655 Dempster in Niles, between Milwaukee and Harlem. ### Regency residents thank Dempster Plaza State Bank

On Tuesday, Sept. 26, Celia Hansen, Bank Assistant Cashier, was not only "thanked" as always for the Bank's programs and refreshments but was also presented with a Certificate from the residents of the Regency Nur-

sing Centre. Joyce Palmquist, activities director at Regency Nursing Centre announced the award on behalf of the residents. The certificate reads as follows:

**The Human Touch**  
Tis' the human touch in this world that counts,  
The touch of your hand and mine,  
Which means far more to the fainting heart  
Than shelter and bread and wine;  
For shelter is gone when the night is over  
and bread lasts only a day,  
But the touch of the hand and the sound of the voice  
sing on in the soul always.

Our sincere thanks - residents of Regency Nursing Centre

### Tips to home buyers on Title Insurance

When you buy something like a clock, TV, or suit of clothes, you don't ask the seller if there is a judgment against him, or if he's late in paying his taxes. You don't care whether he's married, single or divorced. You buy, and that's all—it's done.

Not so when you buy a home or a lot. Laws that govern the rights of persons in real estate protect unsatisfied claims—even if they're generations old. Things like a former owner's marriage or divorce, and unpaid tax or a judgment—these things can produce a claim against the title to your home. This claim continues until it's taken care of—it can arise at any time to threaten your ownership.

"That is why it's a good idea for the home buyer to have the protection of a title insurance policy," said Bob Rauschenburg of Realty World-Key Realtors, located at 8146 N. Milwaukee, Niles.

#### What is a Title Insurance Policy?

A title insurance policy is a form of insurance. It assures that your property rights will be protected if anyone ever questions the title to your home as insured.

No one can really be sure that he is safe from such a claim. Even if the home buyer gets a deed, it doesn't necessarily prove that he owns the home. The deed merely states that a certain person is transferring his ownership of the house to the buyer. It does not show who else may have rights to the house and the lot it stands on: through a mortgage, a judgment—unpaid taxes. Nor does your deed change these rights in any way.

Not all records regarding your property will show up if there should be something wrong with the title. For example, a man who owned your lot may have had an undisclosed error—he now claims his share of the property or perhaps the owner was divorced, and his wife never surrendered her rights. Again, there may be an error in a long, forgotten deed. That upsets the whole chain of title—even a forgery somewhere. Such hidden risks as these can come to light at any time.

A title insurance policy protects the home buyer against things of that nature. Should anyone even question your title as insured, all you do is get in touch with your title insurance company. The insurance takes over the defense of your title. If there are court costs, the title insurance company will usually pay them. If the claim against your property is proved, the title insurance company will pay the loss up to the full amount of the policy.

There is no annual cost with a title insurance policy. In most cases there is no "premium," as with other kinds of protection. The policy is in effect for as long as you own the property.

How does the home buyer go about getting a title insurance policy? Just ask the seller to provide you with one! It's your right to do so.

If you'd like to know more about title insurance or any of the important real estate information associated with buying or selling real estate, contact Bob Rauschenburg or Hal London co-owners of Realty World-Key Realtors, at 892-7000; or stop into the convenient office location at 8146 Milwaukee, Niles, and they'll be glad to help you out.

### 11th annual thrift poster contest

A thrift poster contest for area students is being sponsored by the Skokie Federal Savings and Loan Association during October, announced John R. O'Connell association president.

The local contest is the first level in the state-wide thrift contest sponsored by the Illinois Savings and Loan League, of which Skokie Federal is a member.

Students third grade through high school will compete in four grade categories for cash awards totalling \$1,300 at the state level.

John R. O'Connell said that all posters submitted to Skokie Federal Savings will be eligible to compete for \$1,250 in prize money in the regional contest run-off of the Chicago Area Council Savings Associations on the way to the state competition.

The four contest categories are third and fourth grades, fifth and sixth grades, seventh and eighth grades, and high school, with the first place winners in each category being submitted to the regional or state finals during November.

The contest is in its 11th year and has as its theme, "A People Who Save, Live Better." The theme relates to the contribution made by savings to the strength of

this country and to better lives for all citizens.

"Over the years of the contest, exceptionally creative and fresh ideas on the theme of savings and thrift have been submitted by the students," Mr. O'Connell said.

"The concept of savings one's money for later use is a long tradition in this country. It accounts for much of the prosperity we enjoy today," he said.

Information and forms on entering the contest may be obtained from Kevin B. Tynan, Vice President/Marketing for Skokie Federal Savings, at the association office, 4747 W. Dempster st., Skokie, Illinois 60076. Posters must be entered by Oct. 31, 1978.

#### Brunswick Vice President

James G. Bulck has been elected a Corporate Vice President of Brunswick Corporation by its Board of Directors. Mr. Bulck joined Brunswick in November, 1976, as Corporate Controller, a position he will continue to hold. Prior to joining Brunswick, he was Deputy Controller at Clark Equipment Company.

### NORTRAN strike a financial burden to Nilesite

The following letter was addressed to Mayor Nicholas B. Blase, Golf Mill Merchants Association and The Bugle Newspapers:

**NORTRAN busstrike**  
Gentlemen:  
It is almost three weeks since the strike began - though it seems more like three months. Many heads of families, high school and college students, as well as shoppers, are greatly inconvenienced by this strike. There is the added

financial burden of procuring transportation to and from the city limits (averaging \$6 per day for me, plus the usual \$1.20). In addition, the taxi company is charging individual fares for pooled rides. Isn't that nice!

What, if anything, are you doing to help end the strike?

Yours truly,  
Olga Blatt

### Thanks to Dempster Plaza Bank's nursing home program

The following letter of thanks was received by Celia Hansen of Dempster Plaza State Bank from Sister Irene Sebo, Administrator for St. Benedict Home. Dempster Plaza State Bank sponsors a Senior Citizen Nursing Home program which has provided entertainment and refreshments for residents of Niles nursing homes and has been most graciously received.

Dear Ms. Hansen:  
St. Benedict's Residents and

Staff have greatly enjoyed the delightful programs you have arranged for us this year, and the delicious refreshments as well.

There has been so much variety to the offerings - the great clown act, the charming Spanish dancer, the fascinating Magic program, the Port-o-Call or Riverboat entertainment, with the cash bingo program providing change of pace - that each is a big surprise and leaves us looking forward to the next one. However, the most gratifying aspect of the whole project is the fact that the people at the Dempster Plaza Bank care enough about us to plan these events, and bring them to us for our enjoyment.

We realize - to an extent - the time and effort that must have gone into making these programs possible, and we appreciate your enthusiasm and self-sacrifice more than we can say.

It was most kind and public-spirited of your Bank to launch these programs, and we are most grateful to it for having done so, and for having selected such an enthusiastic promoter of them as you have proved to be.

Sincerely,  
Sister Irene Sebo, OSB

### Urges approval of Mikva Social Security proposal

Dear Editor:  
All of us have some reason to be concerned about the elderly in our society. Either we have loved ones who are in their later years or we ourselves must anticipate old age. It is in this context that I would like to lend my support to Cong. Abner Mikva's proposal - for seeing that our social security system adequately serves our needs.

Cong. Mikva believes that the social security system should do the job it was intended to do - to provide some measure of dignity and financial security to our older citizens without severely taxing working Americans. As a leading member of the House Ways and Means Subcommittee on Social Security, he has sponsored a bill which would remove Medicare and disability benefit funding from the social security system and fund them out of general revenues where they properly belong. This would have the effect of cutting social security taxes by one-third, while insuring the financial stability of the social security system. It would also be a sensible and rational means of reducing the tax burden of the harried taxpayer. I strongly urge approval of Cong. Mikva's proposal.

Sincerely,  
Ruth Fields

## Real estate selling skills seminar set

Real Estate Education Company will present a five-day sales training workshop for real estate brokers and salesmen Oct. 30-Nov. 3 at the Windsor Inn, 6648 N. Mannheim rd., Rosemont. Endorsed by the Illinois Association of Realtors, the seminar is entitled "Professional Real Estate Selling Skills", and classes will meet daily from 9:30 a.m. to 5 p.m.

The P.R.E.S.S. program is

designed to provide a solid foundation of selling skills for the newer salesperson - and to upgrade the skills of the more experienced veteran," said Bill Hayden, vice president of seminars for Real Estate Education Company. According to Hayden, the workshop structure is divided into three segments: information, which covers proven principles in all sales areas; involvement,

which puts these principles into practice; and one-on-one encounters, which allows participants to perfect and refine the techniques that have been learned. Topics covered during the seminar include setting sales goals and strategies, sales tools and visuals for developing a unique sales presentation; the variety of ways available to handle various selling and listing situations; and simulated selling

situations that will allow participants to practice effective sales techniques in a classroom environment. Clete Stewart, an expert in sales training and communication techniques, will conduct the five-day program. "Participants of the P.R.E.S.S. program will be constantly involved in solving problems they will face while working with clients. The program requires its participants to think on their feet, and

it helps them make the transition from understanding what to say - to saying it effectively," Hayden said. Pre-registration is required for the seminar and enrollment is limited. For further information and registration, call Real Estate Education Company at (312)436-4800, or write to the company at 800 N. Dearborn st., Chicago, 60610.

# NILES PARK DISTRICT

## THE NILES PARK DISTRICT STORY

Once upon a time, shortly before the given name Tam, a golf course, the Niles residents came to know the area at roads Howard and Caldwell as the Tam O'Shanter Country Club. People were happy golfing, swimming, and relaxing to their hearts content. Until one day the club had an end, so sad to see! The Niles Park District claimed this just can't be. What can we do to make our residents happy again? Ah, we shall salvage a portion of this land and make it fun again. And the Niles Park District named it the "Little Tam Golf Course", where Niles residents are happy golfing and relaxing ever after.

This short story is naturally about the Tam Golf Course, a very fine facility the Niles Park District is proud to provide for

everyone. For now is one of the best times of the year to enjoy this popular outdoor sport and take in the beautiful Fall weather. This 9-hole course is challenging to the beginner as well as the advanced golfer. Obstacles include sand traps, trees, water, and of course long yardage shots. A practice driving net is also available to those wanting to improve their strokes. The golf course provides pull and gas carts at low cost fees. After that good round on the course, relax and enjoy refreshments at the club house. The pro shop offers all kinds of golf accessories - tees, golf balls, golf clubs, jackets, sweaters and hats.

Come enjoy yourself at the Tam Golf Course, open from 6 a.m. to on the green by 5 p.m. For more information, call the course at 965-9697.

## "I work hard for my money. Why shouldn't my money work hard for me?"

At First Federal of Chicago, your money earns the highest interest rates allowed by law—higher than any bank. So you know it's working hard for you.

And now, besides our regular savings plans, which range from a 5 1/4% passbook account to a 7 3/4% Saver's Certificate, there are two new ways to save. One is our eight-year, \$1,000-minimum Saver's Certificate which, when compounded, actually yields 8.45%. The other is our \$10,000 T-Rate Saver's Certificate that takes only

six months (182 days) to mature. Both pay 1/4% more interest than you get at any bank.\*

Interest is compounded daily at First Federal. And when you make a deposit before the 10th of the month, your money earns from the 1st when left on deposit until the end of the quarter.

You know you've made a sound investment when you save at First Federal, because First Federal is Illinois' largest savings and loan.

And, since there are 27 convenient First Federal offices in the Chicago area, saving has never been easier.

Why not stop in at the branch nearest you today and talk to a financial counselor about your savings plan? Then decide for yourself how you can make your money work harder for you at First Federal of Chicago.

## Reynolds aluminum recycling

With school now in full swing, academic officials are reminded that aluminum recycling, through Reynolds Aluminum Recycling Company's Chicago area and northern Illinois on going program, is an easy method of raising money for school program and projects.

Many schools throughout the state have used this method of fund raising to augment their appropriations for the special projects, S.B. Thompson, district manager for Reynolds Aluminum Recycling Company, reports.

Reynolds pay 17 cents per pound for aluminum beverage cans and other clean household aluminum items such as pie plates, foil, frozen food and dinner trays and dip, pudding and meat containers. Certain other items including aluminum siding, gutters, storm door and window frames, and lawn furniture tubing are also worth 17 cents a pound if properly prepared. This aluminum must be free of all foreign materials, cut to lengths, not exceeding three feet and should not be mixed with cans.

The nearest Reynolds recycling point is NILES-Larrencewood Plaza, Oakton and Waukegan rds., from 1 to 4 p.m. every Saturday, October 7, 14, 21, 28.

## Amlings 'Haunted House' scarier than ever

Amlings annual "Haunted House" display in Melrose Park, now in its 28th year of scaring thousands of "bravesouls" yearly who dare to trek through its eerie interior, is bigger and better than ever.

Many new features have been added to the already scary atmosphere of graveyards, mazes and hiding places for witches, ghosts and skeletons. This year medieval torture chambers, with

all the chilling effects and sounds of horror, winds through mazes of darkened passageways.

Started in 1950 Amlings first display was a ghost pirate ship. In 1951 a ghost town, patterned after the ghost town at Knotts Berry Farm in California, was built. This display remained on the grounds to be presented the following year, but burned to the ground one month before it was to re-open in 1952. That year the display was built in an unused greenhouse. The first display presented in the building was called "Harem-Scarem" and featured a large pumpkin face as a facade. The people entered through the mouth of the pumpkin

and passed through darkened rooms with black light effects. This was the first year black light was used and has become part of the yearly display. In 1953 a display house in Chicago designed a facade resembling a tumble-down house, hence the "Haunted House" was created.

Each year Amlings display has been enlarged upon in size and effects to amuse the kiddies and scare the grown-ups. Live persons in costumes have been added to heighten the suspense - augmenting the mechanical effects. Over one million brave souls have entered through the eerie portals over the past twenty eight years.

This year Amlings Oktoberfest of fun has many more outdoor attractions, more carnival rides and amusements to delight both young and old. Amlings Oktoberfest and Haunted House attraction is held at their Main Flowerland, 8900 W. North ave., Melrose Park. Open daily through Halloween - admission to the Haunted House is 75¢ per person.

## "Forty Carats"

Maine North juniors Jill Reznick and Bill Helgren and senior Dave Elliott rehearse for the school's production of "Forty Carats" which will be performed Oct. 5, 6, 7 at 8 p.m. in the theatre.

Jill portrays Ann Stanley, a 40-year-old woman who is dating Peter Latham, a 22-year-old played by Bill Helgren. Jill relates how she was included in a motorcycle drag racing incident with her boyfriend Peter. Dave portrays Billy Boylan.

"Forty Carats" is the smash hit comedy of manners which makes fun of society's reactions to man-woman relationships. ## P.R. Industry plagued by fringe operators

by Ed Hanson

Hanson at age 21

Ethical practitioners of public relations are now alarmed that the status symbol of their industry may be falling into disrepute. The P.R. boys or the I.B. (image builders), as they are referred to in the lingo of their trade, have almost an obsession when it comes to their own status in the community and country.

You readily understand why. It would be amusing if, while practicing their many art of image building for other industries, their own should suffer a black-eye.

What is causing this deep concern, this alarm that has now reached the "panic button" stage among the P.R. industry? The first shadows of the coming event were cast some years ago when the P.R. industry became aware of a large scale invasion of fringe operators sweeping into their field.

The fringe operators are by no means unique to the public relations industry. They are, always have been and probably always will be in every form of human activity. But what was unique is that while their infiltration into other industries can be measured by the mere hundreds, the fringe operators have been sweeping into the P.R. field by the thousands. And their curve of migration, at the present moment, is almost vertical.

Perhaps, the public relations field being one that deals in intangibles and imperponderables and requires no special licensing became a tempting target of the tyros, college drop-outs, disgruntled drummers and pseudo-intellectuals from the ranks of the unemployed.

Anyway, the P.R. industry became mildly concerned about the large numbers of fringe operators invading the sanctity of their esteemed profession. Among the first evidences of strong disapproval to be voiced was that of John Maynahan, way back in June of 1961, when he accepted the presidency for the New York chapter of the Public Relations Society of America saying:

"It is no secret that public relations does not enjoy in all spheres the status we would like it to have. Clearly there are reasons for this situation. The first reason, of course, is that there are altogether too many people in this field who call themselves public relation practitioners who are no more qualified to perform their duties than I am to perform an appendectomy. They are the incompetents, the blue-sky salesmen, the touch-and-go types who conveniently use the name of public relations for their very un-public relation activities. They have no qualifications; they make no effort to live up to the code of the public relations society of America. And yet we - all of us under the public relations umbrella - must suffer the slings and arrows intended for this inept coterie of bunglers."

Today the Public Relations Society of America, which now has about 6,000 members, is trying to come up with some way to counteract the fringe operator. An executive, a member of this organization, recently said to me, "Something will have to be done about this locust-like horde of fringe operators. They are for the most part untrained, unwanted and unscrupulous - they are damaging the image of our industry."

ception obtains his tribute at the local retail level, the smaller unsophisticated manufacturer and from persons unknown, on the toboggan or long forgotten.

However, since all business in concept is local, the "image damaging" is being felt to such a degree that most of the ethical P.R. people are up in arms. There are a great many qualified public relations firms, from a one-man staff to more than a hundred, who are doing a creditable job in this field. The Chicago classified directory alone lists several hundred, a great many of whom I am sure are worthy of their hire.

Oddly enough, the problem confronting the public relations business today is no different than the one before our country. It's the problem of human relations. And human relations, of course, is the soul of public relations.

## OCC features Warren Beatty films

Two films starring Warren Beatty are featured in the Oakton Community College Film Society's showing on Friday, October 6.

"Splendor in the Grass" (1961) and "Shampoo" (1975) will be shown in the fall semester series "Roots of a Hollywood Anti-Hero."

Later films, presenting such actors as Woody Allen, Peter Fonda, Jack Nicholson and Paul Newman, will further illustrate the historical development of the film's anti-hero.

All features begin at 7:30 p.m., in Building 6 on the OCC Interim Campus, Oakton and Nagle, Morton Grove. "Splendor in the Grass", directed by Elia Kazan, looks at the anguished, ultimately bitter love affair of two young people living in a small Kansas town in the 1920's and at the same time examines the puritanism and inhibitions of the Midwestern community that

surrounds them. "Shampoo", produced by Beatty himself, examines the social, political and moral conflicts that existed in President Nixon's administration during the early 1970's.

The screening area is accessible to the handicapped. A 50¢ donation is requested of all Oakton and MONACAP students and \$1 of all others.

## Kusper details new Absentee Ballot

Cook County Clerk Stanley T. Kusper, Jr. on Friday announced the opening of absentee voting in suburban Cook County and unveiled a new system for the processing and handling of such absentee ballots.

"As a result of the action of the Illinois General Assembly, spurred by Representatives Michael Brady of Chicago and Jane Barnes of Oak Lawn, voters in suburban Cook County may, beginning this year, apply for or cast their absentee ballots as early as forty days before a general election, or in this case during a period commencing today," Kusper told a group of suburban newspaper executives, adding, "We are prepared to begin accepting and processing such applications today and will be in possession of actual ballots for all districts in the county by Monday."

Though applications for absentee ballots will be accepted by

mail up to five days before the November 7th election, Kusper strongly urged those who wish to cast an absentee ballot to apply early to assure that their ballot will be received back in his office in sufficient time to be delivered to the precinct polling place on the day of election and there to be formally registered and officially cast.

"It is simply dishonest to suggest to voters that is we receive their application for an absentee ballot on the last day we will accept such application, Thursday, November 2nd, that we will be likely to have the actual ballot returned to us in time to be delivered to a precinct polling place by 6 p.m. on November 7th," Kusper said, explaining that, "if for any reason, they do not receive their ballot on or before Saturday, Nov. 4th, they will likely have just over 24 hours to mark their ballot and put into a postal system that will generally require at least

twice that amount of time to process and deliver such a document."

While Kusper expressed hope that the earlier opening date for absentee voting would help avoid the last-minute rush that two years ago resulted in several thousand ballots being received too late to be legally cast, he also detailed a new system for the processing and handling of applications for absentee ballots and the ballots themselves.

"In light of our experience in 1976, we set out to introduce significant improvements into the system by which we process and handle applications for absentee ballots and the ballots themselves," Kusper told the audience at the Sheraton-Oak Brook, claiming, "we are now confident that we have developed the most efficient and effective system possible given available technology and support services."

"When an application for absentee is received in our office, it is time stamped and photographed on microfilm and thereafter checked for accuracy against available voting records," Kusper continued, "relevant information is then entered into a computer system which makes necessary corrections prior to preparing a coded label which facilitates mailing of the ballot itself."

"This entire process takes place when we receive the marked ballot," Kusper continued, noting that "time stamping and photographing of the ballot envelope itself and entry of the date of receipt into the computer system completes the file on the voting activity of the individual elector and prepares us to transmit the ballot to the particular polling place in question in time to be properly cast and counted."

Imploping the newspaper executives in turn urge their readers to take advantage of changes in state law governing absentee balloting, Kusper concluded by reminding them, "No matter what changes in law or administration we might make, the cooperation of the voter is vital if the franchise is to be truly guaranteed to all."

## "Sunshine 35" begins a new cycle

"Sunshine 35" will begin a new cycle on Oct. 16. Recruiting is in progress and will continue until Oct. 13. This "last-chance" program for high-school dropouts is federally funded by the Comprehensive Employment and Training Act (CETA) and is administered by Oakton Community College.

The program is open to young men and women, 16 to 21, of Maine, Niles and Northfield Townships, who have dropped out of school for at least three months and are also unemployed. It consists of a six-hour day, three in school, and three at a job for a non-profit (public sector) organization. Students are paid \$2.65 an hour for all six hours.

Often, the students who enter "Sunshine 35" lack only one or two semesters to achieve high-school graduation, according to Kate Kregness, director; but just as often they are unable to set priorities and work things out, resent authority and are undisciplined, she said. "Sunshine aims to rectify the lack of graduation requirements, and also the problems that concur. According to Kregness, who has worked with parolees as a vocational and rehabilitation counselor, the success rate of "Sunshine 35" is eighty-five to ninety percent, when measured by graduation or a full-time job at completion of the cycle.

The staff of "Sunshine 35," and the curriculum, are geared to the special needs of its students. The teachers all have previous experience in special programs, and can teach "off the top of their heads," said Kregness. The curriculum leads to a regular diploma from the Niles, Maine or Glenbrook high schools, as if the student had never dropped out, but is tailored to each student's requirements. Classes are small and are focused toward success.

For more information about "Sunshine 35" call Mrs. Kate Kregness, director, at 296-0455. "Sunshine 35" is located at the Ballard School, 8320 Ballard rd., Niles.

## Traffic study... Cont'd from Skokie-L'wood P.1

from Golf to Ballard; Project C, the Milwaukee-Dempster interchange; and Project D, Milwaukee ave. from Harlem to Devon, excluding recent improvements.

Also approved under Phase I were consulting services by Midwest Consulting Engineers, Inc., and a joint agreement between Niles and the Illinois Dept. of Transportation for 50% reimbursement by the State for the impact study. Cost of Phase I engineering studies including environmental assessment and report, public hearing, design studies and design report was set at \$84,462.

Scheel said Federal funding, such as Federal Aid to Highway Systems, would be sought to implement state funds. No monies from revenue-sharing funds will be used for streets, he added.

Phase II will include finalizing of engineering drawings for bids. Phase III will be letting of bids and "getting the work done."

The village manager projected a 5-year time period of completion but was cautious regarding a starting date "until I talk to the engineers."

Referring to the program as "a massive undertaking", Scheel observed the project had to be done in phases. Emphasizing that "the whole thing can't be done at

## Oakton...

Cont'd from Skokie-L'wood P.1  
energy conservation.

The heating, ventilating, and air conditioning system selected was a variable volume, constant temperature air system with internal source heat recovery. Electricity was selected as the campus energy source.

During the day the heat from the sun's rays passing through the windows into the building plus the heat generated by the students is gathered from the inside air by the system and converted into hot water and stored in 75,000 gallon underground tanks. At night this excess daytime heated water is recycled back into the heating system to offset the heat losses through the walls and roof. By using recovered recycled heat, the college avoids using its boilers except on extremely cold days and thereby saves on the use of energy. The system is also designed for the future addition of a solar energy heating system.

Savings are estimated at \$65,000 annually over a conventional mechanical/electrical system.

Other energy saving features of the Oakton campus building include locating the building in a mature forest to minimize winter wind chill; orienting the long east-west axis of the building to minimize summer heat gain; using recessed, exterior entrance doors and one inch insulated windows with tinted glass as well as thick insulated walls and roofs with low heat transmission values.

The Greater Chicago Committee to Use Energy Wisely is made up of almost 100 businesses, professional associations, and governmental units interested in energy conservation.

MG Chamber seeks VIP nominees  
The Morton Grove Chamber of Commerce will hold its fifth annual V.I.P. Night dinner on Wednesday, Nov. 15 and the search is now on for an appropriate Morton Grove resident to honor.

William Simkins of Meyer-Simkins Funeral Home is the Chairman of this year's event, and Paul Duski, Personnel Manager of Baxter-Travenol, is Co-chairman. The dinner will be held in the elegant new Banquets by Brigante.

The Chamber urges residents to submit the name of a person who, by one or many civic, humanitarian or personal acts and achievements, should receive such acclaim as the honored guest of the Chamber on Nov. 15. Submit nomination to V.I.P. Committee, Morton Grove Chamber of Commerce, 6223 Dempster st., Morton Grove, Ill. 60063.

Past honorees are Robert Lutz, Christ Hildebrandt, Paul Connelly and Carl Eckhardt.

All nominations must be turned in by Oct. 18.

fire to call the Fire Prevention Bureau at 965-5030.

Don't wait for smoke and fire to surprise you. Plan your home fire escape now. How familiar is your family with EDITH?

Stop, Drop and Roll - what you do if your clothing catches fire, or if someone nearby starts to burn. Never run. Drop down at once and roll over and over to smother the fire until it's all out.

Stay Low and Go - the way to move in a room filling with fire's wicked smoke. Crouch low because smoke rises, leaving the best air near the floor. Then move quickly and leave via the nearest safe exit.

Strike Zone - the space roughly between an adult's knees and shoulders, right where tots reach for playthings. Matches and lighters are tempting, so keep them up high, out of reach and out of sight, out of the Strike Zone.

## Please Mrs. Laniz, don't take away our gusto

Dear Editor,  
I would like to voice my opinion as well as the opinion of my neighbors and friends who are residents of Niles. We feel that it is very disgusting to be confronted with your paper as well as the Niles Spectator to purchase it and have to read all about Skokie when we don't live there. Why should we be interested in Skokie's residents as well as someones marriage or community affairs when we have plenty of activities and announcements about Niles residents and what this village has to offer. I would like to purchase a Niles Bugle and enjoy it about our residents and our activities.

Thank You  
Mrs. Diane Lanz  
Niles, Ill.

Dear Mrs. Lanz,  
Your letter made a big boy cry. Vilify our name, cast aspersions on our character, reap criticism on our opinions but please don't take our gusto away.

The Bugle has been a dedicated Niles newspaper for 21 years. It was started precisely because the other newspapers, all published outside Niles, ignored the Village of Niles. Previous to The Bugle there was little news about Niles published in local newspapers and advertisers were getting short-changed by a limited circulation in Niles.

In the July issue of the Niles Chamber of Commerce newsletter it reported more than 65% of all Niles residents read The Bugle, more than three times any larger metropolitan newspaper and tops by more than 2 to 1 of any other local newspaper.

Last week The Bugle was awarded its 3rd Community Service Award by the Illinois Press Association for two stories it published in which it improved community activities in Niles. One series of stories saved Nilesites more than \$6,000 because of Bugle efforts.

**Camping, first aid course open to public**

Certain courses offered by the Girl Scout Council of Northwest Cook County to train leaders would also be of value to the general public, according to Cheryl Esbrook, Council Training Director.

The Council has upcoming courses in outdoor skills, basic outdoor cooking, intermediate or gourmet cooking, basic overnight camping, and first aid.

"The outdoor courses should be useful for anyone interested in learning good camping and outdoor cooking skills", she noted.

"We teach all kinds of cooking methods, including unusual things like paper bag and rock and plank cooking. We also teach compass work, tent pitching, camp sanitation, and use of hatchets and saws, plus knots and lashing.

Registration is required for all courses. Food fees for cooking courses are \$1.25 to \$1.50; for first aid, covers books and gauze. Total \$5.25. Inquiries may be made at the Girl Scout Center in Elk Grove, 640-0500.

Due to difficulties of timing, we regret to announce the Ethnic Fair scheduled by the Friends of the Niles Public Library District for the 15th of October at 2 p.m. at the Maine Building of the Library has been cancelled.

## October programs at Niles Library

The Niles Historical and Art Society will present a slide show depicting the history of Niles as seen through its buildings. Screening will be on Monday, October 9 at 7:30 p.m. in the audiovisual room at the Niles Library; admission is free. The slides were taken last winter and feature excellent color photography according to John Matuszak, co-producer of the show, who will be on hand to narrate and answer questions. The Remembering film will also be shown.

The Niles Historical and Art Society is eight years old and is affiliated with the Illinois State Historical Society. It is currently looking for new members and is interested in receiving artifact donations of all kinds. The public may view some of its collection at the Niles Trident Center.

On Thursday, Oct. 5 and every Thursday until the end of the season, the Friends of the Niles Library will be presenting game films of the 1978 Illinois University football season. Showtime is 7 p.m. at the Library located on 6960 Oakton st. Admission is free, and there will be a member of the Illinois University Athletic Association on hand for analysis.

The Friends would like to encourage everyone to attend. We

know there are Illinois alumni and other fans who would otherwise be unable to see their team play who would enjoy these films, especially if the Illini begin to get their season untracked.

The film schedule for the rest of the season: Syracuse, Oct. 5; Missouri, Oct. 12; Wisconsin, Oct. 19; Purdue, Oct. 26; Indiana, Nov. 2; Michigan State, Nov. 9; Ohio State, Nov. 16; Minnesota, date to be announced.

Now available at the Niles Public Library (both Main and Branch Buildings) are two important documents which are of interest to the Library's patrons. They are: the Illinois Public Library Annual Report 1977-78 for the Niles Public Library District; a certified copy of AN ORDINANCE PROVIDING FOR THE ANNUAL LEVY OF TAXES FOR THE CURRENT FISCAL YEAR.

We make these items accessible so that people may inspect and review them and provide input for our planning of services.

Due to difficulties of timing, we regret to announce the Ethnic Fair scheduled by the Friends of the Niles Public Library District for the 15th of October at 2 p.m. at the Maine Building of the Library has been cancelled.
