Bridge tournament winners!

The cards came up golden for the winners of Skokie Federal's 1978 Bridge Tournament. Shown above is (to the far left) Skokie Federal Public Relations Director Kevin O'Connell awarding the first prize certificate to Sylvia Arnold, who lives at 7971 Nordica in Niles. The first prize consisted of a luncheon-matinee ticket for two at the Lincoln-

shire Marriott Resort and a \$50 savings account at Skokie Federal. Standing to the right of Mrs. Arnold are the first runner ups - C. Herbert Jones of Wilmette, Rose Wilkens of Niles, Phillip Arnold of Niles and Gertrude Giffin of Skokie. The first runner-ups all received a luncheon-matinee ticket for two at the Lincolnshire Marriott Resort.

Northi coach named Softball All-American

Marlys Taber, head girls' basketball and assistant softball coach at Niles North High School, was named to the first string of the All-American Fast Pitch Softball team this summer after tryouts in Allentown, Pa. Taber was chosen over 20 other shortstops at the national tournament. This honor gives her an automatic chance to try out for

the Pan-American Games in San Juan, Puerto Rico in 1979. Tryouts for the Pan-American games will be held next June in Colorado.

This is Taber's fourth year as an All-American, but only her first on the first string. "I almost retired this year," Taber said, "but I love it, I like the people, the challenge is exciting."

During the regular softball season, Taber plays shortstop for the West Allis State Bankettes, of West Allis, Wis. Taber said the team placed fifth out of 25 this year, and the team will be short-handed because of the Pan-American games.

Maine students have bus service again

With the end of the strike by bus drivers of the North Suburban Mass Transit District (NORTRAN), bus service to and from the four Maine Township High Schools will begin again on Thursday, Nov. 2.

Service will be limited at first, Dr. Richard R. Short, Superintendent of District 207, said, but busses will run to each school. Full service is not expected until

Nov. 24, he reported. Since regular NORTRAN bus service will be in full operation on Nov. 2, students attending Maine East and Maine South, who largely ride regular NORTRAN busses, will have almost normal service on Nov. 2, he noted.

Temporary schedules for the bus-service were delivered to the schools by NORTRAN on Oct. 30 and were distributed to the

students.

Dr. Short praised Maine students and parents of Maine students for their outstanding cooperation during the lengthy bus strike. He said: "Normal attendance figures at all four schools serve as witness to the splendid effort made by both students and parents to see that education did not suffer during the strike."

Commenting on resumption of NORTRAN service, Dr. Short stated that the district was just about to mail out a survey to parents exploring their interest in alternative bus service when the strike suddenly ended. He said that at least one private bus carrier had expressed a willingness to transport Maine students.

limited service necessitating early arrival of students at school and a delayed departure. The reason for this was," he explained, "the carrier was already contracted to transport other students at normal arrival and departure times for Maine students. "Contrary to what some persons believe," Dr. Short said, "It would have been very

We heartily concur with the Chicago Sun-Times endorsement of Congressman Abner Mikva in his seeking reelection in the Tenth Congressional District.

In its October 10 editorial the Sun-Times contends, "Mikva has an abiding concern for people and for integrity in government." Colleagues respect him as a bright light on Capitol Hill. He is a tax expert of considerable influence on the tax-writing Ways and Means Committee and chairman of the 270-member Democratic Study Group.

"The latter identifies him as a liberal, but he is fiscally responsible, one who has fought waste throughout his career, who believes the federal budget can be balanced, and recognizes duds among liberal programs.

"He champions handgun control and is strong on environmental issues, especially (for his O'Hare area constituents) jetliner noise. He wants to cut Social Security taxes by funding medical programs out of general revenue, thus reducing the inflationary impact of the payroll tax. He recognizes the need for tax reform to enhance capital formation. He backs a strong defense posture but opposes unnecessary luxuries like the B-1 bomber and another nuclear aircraft carrier. He is for free-but-fair-trade."

In 1976 the Chicago Tribune endorsed Mikva (1978 it endorsed John Porter) noting: "U.S. Rep. Abner J. Mikva (D-Ill.) is running for re-election on the high road.

"Mikva is a decent, intelligent man, who has worked hard for Illinois in both the General Assembly and Congress. His suitability to serve has been firmly established. He has supported needed legislation. He has acted with honor. He has campaigned with courage."

In an October 20, 1976 feature in the Chicago Daily News, Mikva was second only to Congressman Phil Crane in voting to cut spending. Among 24 Illinois congressmen, Mikva was the second in voting against spending.

In terms of spending, Mikva was 21st among Illinois' 24 congressmen in actual spending. Only 3 Illinois congressmen voted for spending less than Mikva.

Chicago man seized in suburban holdups

by Alice M. Bobula
A Chicago man suspected in recent suburban Jewel-Osco robberies was arrested Friday, Oct. 27 after he was curbed by police at the rear of Butera Food Store in Golf Mill following a hi-speed auto chase thru north Niles. He was seized by Niles police who had staked out Jewel Food stores in the village following the Oct. 17 armed daylight holdup of Jewel-Osco at 8730 Dempster st., which netted the holdup man \$850 in cash. Police said robberies of two Park Ridge Jewel stores, one of which was robbed of \$2,000, on Sept. 30 and Oct. 7, led them to suspect the gunman would follow the same method of operation after the Niles robbery.

James C. Gavigan, 35, of 5227 Pottawatomie in Chicago was charged with 3 counts of armed robbery. He is being held in Cook County jail in lieu of \$50,000 bond set by Judge George Zimmerman pending a Nov. 3 hearing in Niles Circuit Court. Niles Police Lt. John Christie said the arrest came at about 3 p.m. Friday afternoon after police on stake-out at Jewel-Osco, 8203 Golf rd., spotted a car fitting the description given in the two Park Ridge robberies of a "small red car with a white stripe." In a closer attempt to get the license numbers of the car, police said the driver observed he was under surveillance and sped out of the Four Flags lot toward the Golf Mill store where he was apprehended. Christie said the alleged suspect visited the Golf Jewel store Friday at 11:45 a.m., shortly before police came on stake-out. An alert clerk behind the service counter noted the man answering to the description of the armed robber. She went to the phone and the store manager ran out to the parking lot but was able only to get a partial license num-

ber. Police efforts were rewarded when the alleged suspect returned to the store at 3 p.m. The police lieutenant said the suspect had no previous arrest record and described him as a self-employed salesman of cleaning materials. He said the suspect made no statement and did not admit to the robberies but was positively identified in police lineups by witnesses to the three holdups. Christie said the arrest followed a "good piece of police work and a good apprehension... the men really worked hard staking out the stores for ten days." He noted both village and Park Ridge police were involved in the auto chase but credited Niles Robbery Investigator William Ortlund with the apprehension as other police units closed in.

Maine East Cross Country champs

The Maine East varsity cross country team won its second consecutive C.S.L. south division championship Saturday, Oct. 21. Six Maine East runners earned all-conference honors, including Mike Egle, second, Mark Katz, fifth; Stan Ozarowski, seventh; Dan Phalen, eighth; Paul Baffes, twelfth; and Keith Warner, fifteenth.

The Demons scored 34 points to 50 for runner up Maine West and 86 for third place Glenbrook North. G.B.S. was fourth, Niles West fifth, and Maine South sixth.

The Demons begin the state meet qualifying round this coming Saturday when they compete against seventeen other schools in the Lake Forest district meet.

The Demons did not run a full junior varsity team, but junior John Peterson won the junior varsity conference race. John Read and Jeff Feid finished in the top ten junior varsity runners.

The sophomores also ran just

three individuals because some team members ran on the varsity level. However, Jim Kemperka placed sixth and Gerry Guglielmo was eighth.

The Maine East freshman placed five runners in the top nine spots to capture the conference championship 29-34 over Maine West. The winners for Maine East were Vic Grigolo, third; Curt Rothlisberger, fourth; Liviu Ciolos, fifth; Mike Overbeck, eighth; and Chris Stinnett, ninth.

Tennis victory

Maine East junior Randi Rosen is the district tennis singles champion for a third consecutive year. In the finals Randi defeated Claudia Brisk of Niles East 6-3, 6-0.

The district team tied for second place.

Randi will represent Maine East in the state tournament on Thursday, Friday and Saturday.

Conner competes in final trials

Bart Conner of Morton Grove was one of the 12 finalists participating in the U.S. Gymnastics Federation final trials on Sept. 21 and 22 in Oklahoma City. Six gymnasts were selected to represent the United States at the World Gymnastic Championships to be held Oct. 18 in Strassburg, France.

Bart tied for first place with Kurt Thomas, his 1976 Olympic gymnastics teammate. In the Compulsory Exercises, Bart scored 57.6 points to set a United States record.

You can help Bart and other fine local athletes by sending a check to the Niles Township Olympic Committee, 8537 Lillibet Terrace, Morton Grove, Ill. 60053. Your tax deductible contribution will help these athletes defray the otherwise unreimbursed expenses they incur competing at national and international levels.

Varsity

basketball

Twelve and Teen boys interested in participating on the Mayer Kaplan Jewish Community Center's Varsity Basketball Teams are invited to come in for tryouts.

Sixth, seventh and eighth grade boys can tryout in the "J" gym, 5050 Church, Skokie, on Monday, Nov. 6 from 6-8 p.m. or on Wednesday, Nov. 8 from 6-8 p.m.

Teens will tryout on Tuesday, Nov. 7 from 6-8 p.m. at the Sharp Corner School gym, 9301 Keating, Skokie.

Planned schedules of play include competition with other area teams, a Milwaukee tournament and a national tournament.

Contact Bill Horewicz at 675-2200, ext. 298 for information.

Girls' Field Hockey

Maine East girls' field hockey team has been busy this week and played their last game of the season Monday, Oct. 30, against Antioch.

Their 3-6 record does not say much for all they've accomplished. Improvement was made in every area, and the girls hope to improve even more so that they may play in next year's state tournament.

The junior varsity beat New Trier East last week with a goal by Abby Smith, and in a game called for darkness the girls tied with Schaumburg 0-0.

Varsity members include captain Kathy Plank, co-captain Jean Miller, Denise Arnold, Beth Bialko, Sue Busiel, Kate Chalifoux, Sarene Dulman, Sue Frederickson, Alana Kline, Denise Rahn, Barb Stelk, Linda Szymanski, and Val Wageman.

Indian Runners scalp Glenbrook and Waukegan

The Indian Runners of Niles West posted their 13th win of the season by running over both Glenbrook South and Waukegan East. West scored a low 25 points to 53 points for both Glenbrook and Waukegan. As a matter of fact, the Indians would have won even if both teams combined together to form one team.

Senior Rick Arendt again led the Indians with his 3rd place finish. Just one second back was sophomore Steve Rosenblum. Rick Bedony and Guy Brilando seem to be almost recuperated from the flu as they ran just well enough to grab 5th and 6th places. Juniors John Quinn and Gregg Simon completed the scoring for West by taking 7th and 8th.

MODEL RCM-8

Here's microwave oven magic from Frigidaire! You can save up to 75% of the time required for conventional cooking and cook most foods with 50-75% less energy. What's more, you don't waste energy preheating a microwave oven. It doesn't need it!

Even your after dinner cleanup chores will seem to disappear. You'll have fewer pots and pans to wash, because you can often mix, cook, and serve in the same dish.

The federal government requires that most microwave ovens carry a warning label. The Frigidaire deep, thick door design is so effective in sealing microwave energy that all three models with this swing down door are exempt from this requirement.

Nautilus for The Body Beautiful

The Nautilus method of conditioning is unique. The Deland, Fla.-based company makes 22 models of the single-seat machines, each designed to zero in on specific muscles. In a normal workout, the exerciser will cover about a dozen positions on several machines. Unlike the popular Universal weight machines, which provide a weight stack on a pulley, the Nautilus machines operate on a variable resistance principle controlled by Nautilus-shaped gears. Exercisers spend only a couple of minutes on one machine before moving on to the next, because the job of exhausting a target muscle is quick (if not painless) on Nautilus.

Each exercise isolates specific muscles and gives them a full range of motion. First a pre-exhaust weight is selected, and a set of approximately eight repetitions is completed. Then an exhaust weight is selected and the exerciser completes a second set and temporarily "wipes out" those muscles. Pulse rates typically shoot to 140.

A man under 30 could begin with Nautilus and get in pretty good shape in about a month.

The Nautilus Fitness Center in Niles is located at Four Flags Shopping Center, Golf & Milwaukee rds., and they are celebrating their Grand Opening with special introductory rates.

LETTERS to EDITOR

Thanks to a modern "Good Samaritan"

Dear Editor,

Not realizing that the last reverse Niles Courtesy Bus to our destination had stopped running after 5 p.m. on Friday, Oct. 13, my husband and I waited on the corner of Touhy and Harlem for over an hour with no means of getting home.

However, sometime after 6 p.m. a passenger car stopped, the driver having recognized us as being regular riders of the Courtesy Bus and know we were stranded. He mentioned that he noticed us as he drove his bus to the garage upon the completion of his run. He then picked up his own car, made a special trip (out of his way) to pick us up and drove us all the way to our home.

We recognized the driver, known as "Harold" and we want to take this opportunity to

acknowledge this good samaritan for his generous and courteous act to two stranded elderly citizens of Niles. We certainly appreciate his concern and kindness.

Sincerely,
Mrs. Leonard Leonard
Niles, Ill.

P.S. Harold shrugged off our thanks, saying it was nothing. We would appreciate your thanking him again for us, as he is deserving a "very special thanks."

THE RTA EXPRESS

ANOTHER GREAT RUN FOR YOUR MONEY.

NORTRAN is back!

While RTA's NORTRAN service was suspended, some area residents might have forgotten how easy and economical it was to get around by bus.

Area commuters have long used the bus during rush hours to get to many North Western and Milwaukee Road train stations. Shoppers have traveled via the NORTRAN buses to the regional shopping centers throughout the north and northwest suburbs. Meanwhile students have often depended on buses as the smart way to get to school.

The system remains a viable and attractive alternative to driving.

Through the use of the RTA Universal Transfer, NORTRAN riders even have a low cost way to get around the metropolitan area. The transfer, which is available to riders for a small additional charge, is accepted on most RTA buses throughout Cook, Lake, Kane, DuPage, McHenry and Will counties. Many

NORTRAN riders use the transfer on buses and rapid transit upon reaching downtown Chicago.

If anyone wishes a free schedule of RTA's NORTRAN buses in their area, they are welcome to write RTA, P.O. Box 2938, Chicago, IL 60690. Or call the NORTRAN Hot Line number below.

The NORTRAN Hot Line 800-972-7000 Toll-Free

Call this number between 6 and 11 p.m. for information on all NORTRAN routes.

Niles library happenings

On Wednesday, Nov. 8 at 10:30, Live at the Niles Library will present Alexander Krusel, the director of Maine, Oakton, Niles, Northfield Adult and Continuing Education program (MONNACEP). Mr. Krusel's topic, "Learning is All Around us Everyday" will deal with all the sundry ways we use to acquire knowledge and skills for our everyday lives. His approach is to help people recognize the processes they go through whenever they undertake a new project, no matter how mundane or exciting, simple or complex they may be. For instance just what set ups did you take when you learned to feed your first child? to play bridge? to tune an automobile engine? There are many different ways in which we learn, asserts Krusel, and it is important that we become aware of them. Often we identify the verb "learn" with the noun "school," and that's far too limiting.

Alexander Krusel has long been a prominent figure in adult education in this area, having served with the Adult Education at Maine Township from 1956 until it became MONNACEP in 1972. He is a past president of the Illinois Adult Education Association and has served on the boards of the Adult Education Association of the U.S.A. and the National Association for Public Adult and Continuing Education.

He holds a Master's degree from Northwestern and has done further graduate work at the University of Chicago. Along with being the father of two children in their 20's he and his wife are raising a 6 year old daughter and a 7 month old son.

On Thursday Nov. 2 and every Thursday until the end of the season, the Friend of the Niles Library will be presenting game films of the 1978 Illinois University football season. Showtime is 7 p.m. at the library located at 6960 Oakton st. Admission is free, and there will be a member of the Illinois University Athletic Association on hand for analysis.

Used book sale is in progress in the front lobby of the library. Adult books are 50¢ a copy, Juvenile books 10¢ a copy and magazines are 25¢ a copy.

Alan Dixon. Here's why.

You can tell what a man is likely to do in the future by what he's done in the past.

- Two years ago, Alan Dixon pledged multi-year license plates. That program began this year. It will save taxpayers \$21,000,000 during the next five years. And you'll no longer need to change plates in zero weather. Simply place a sticker on the new, heavy-duty five-year plate.
- Two years ago, Alan Dixon pledged to implement a photo driver's license program. Today, your photo on your driver's license can help you to identify yourself to cash checks, to make credit purchases, and it assists law enforcement agencies. And photo ID's for non-drivers help senior citizens, young persons and everyone who does not drive but who needs identification just as much.
- Two years ago, Alan Dixon pledged a new personnel code for the Secretary

of State's office. Today, that merit employment system protects 3000 people and ensures that able employees will not be fired just because someone doesn't like their politics.

Two years ago, Alan Dixon said, "Medical information on your driver's license could help in an emergency, where time is precious." Today in Illinois you have those provisions on the back of your license.

During the past two years, Alan Dixon has established regulations to protect Illinois companies and job holders from takeover raids by out-of-state corporations. He has established counterfeit-proof automobile titles to curb the traffic in stolen cars and he began a major campaign to do away with "chop shops"—the notorious auto parts thieves and fences who prey on your car and deal in stolen parts.

THAT'S ONLY PART OF THE DIXON RECORD AS SECRETARY OF STATE.

Some public officials make promises. Others keep them.

Alan Dixon is a Keeper. Keep Alan Dixon Secretary of State.

Poll shows Berger ahead

A telephone poll of voters in the Fourth Legislative District shows Democrat Samuel S. Berger leading Republican incumbent John Nimrod by a margin of almost 2-1 in Niles, according to Patton Feichter of Niles, Berger's campaign chairman. Feichter announced the results

of the poll, which was conducted last week by Berger's campaign organization. Of the more than 1,000 registered voters from Niles who were contacted at random from precinct poll lists, 40 per cent said they favored Berger, 23 per cent favored Nimrod, and the remainder were still undecided

with the Nov. 7 election only days away. "We're incredibly encouraged by this poll. Frankly, we didn't expect results this favorable. But we believe Berger's lead in Niles will be reflected on election day and predict a victory throughout the district," Feichter said.

Feichter said he believed Berger's showing in the survey was the result of the intensive campaign the Democrat has waged and of general disenchantment by area residents with Nimrod's performance in the State Senate.

"Our campaign volunteers and regular organization workers have gotten our message out effectively, as this poll indicates," Feichter added. "And on Nov. 7, Sam Berger will win."

Lynn Williams' green belt study

Lynn A. Williams of Winnetka, suburban candidate for the Cook County Board, announced completion of a detailed study of the economic feasibility of his proposal for a no-tax green belt park supplement to protect the suburbs from excessive concentrations of population and all the problems they bring. The study report will be delivered this week to the Cook County Economic Development Advisory Committee.

The Williams green belt plan calls for the County to buy land, to develop it with lakes and lagoons and ski hills and bicycle trails and then to rent a limited number of sites for appropriate businesses so that the rental income pays for the bonds used to finance the purchase and development. When the bonds are paid off, the income will come to the County. The plan is intended to serve two primary purposes, to augment the park areas while there is still time and concurrently to attract business and jobs in the suburban areas. And the intention is to do it without any new taxes.

With federal assistance from the Economic Development Agency under the Department of

Commerce the initial net cost of the development will be reduced by the size and proportion of the grants. Typically, the EDA grants have usually been at the level of 50% but in some instances have been as high as 75%. In the entire United States, industrial parks sponsored by counties and municipalities have received federal assistance. There are more than 80 in Illinois. So there is abundant precedent both for county sponsorship and for federal assistance to the kind of project proposed by Mr. Williams.

The general thrust of the study has been reviewed with Mr. John A. Kennedy, Chairman of the Cook County Economic Development Advisory Committee and Mr. Williams has offered to appear before the Committee to review the study and to respond to any inquiries about it. While refinement in detail might be called for, enough has been done and enough documentation has been established to assure that the proposal is feasible. Mr. Kennedy has given assurance that he will give the matter careful study and attention but no date has been set for a Committee hearing.

Berger opposes State Competency Tests

Samuel S. Berger, Democratic candidate for State Senator in the Fourth District, this week said he opposes the state requiring students to pass mandatory competency tests before receiving high school diplomas.

Berger said his opponent, State Senator John Nimrod, was chief sponsor of a bill requiring the State Board of Education to help local school districts draw up guidelines for such tests, which Berger termed "educationally and financially sound."

"I agree with the unanimous opinion of educators throughout Illinois who say minimal competency tests will do nothing to improve the quality of education in our schools. The state has no proper role in telling school boards

and teachers how to structure their curriculum or methods of evaluating students," Berger said.

"The original version of my opponent's bill would have allowed the state to administer one test to every student in Illinois, regardless of what school he or she attends. But even after the bill was amended to give local districts some say in the specific tests, it still constitutes an unreasonable burden," he said.

"Regardless of who pays for administering the tests - the state or local school districts - it will be a gross waste of taxpayers' money," he said.

Berger is a candidate in the November 7 election.

President Carter to campaign for Mikva

Citizens for Mikva has announced that President Jimmy Carter will be Congressman Abner Mikva's guest at a rally for Mikva volunteers and supporters Thursday, Nov. 2 at the Niles East High School gymnasium, 7701 Lincoln ave., in Skokie, starting at 7 p.m.

Congressman Mikva, who is seeking his fifth term in the U.S. House of Representatives, has organized a campaign force of over 2,000 volunteers who have been canvassing door to door in the Tenth Congressional District precincts since August. On Election Day that force will double as

more than 4,000 volunteers will be working in the precincts for Congressman Mikva's reelection.

Commenting on the President's visit, Congressman Mikva said, "I am delighted that President Carter is coming to the district to talk with my volunteers before Election Day. When Vice President Mondale kicked-off the campaign in August, I could only hope that it would run so smoothly and that there would be so many volunteers with so much enthusiasm. President Carter's upcoming visit makes me even more confident about the results on Nov. 7," he added.

Mikva is "Taxpayer's Friend"

U.S. Congressman Abner J. Mikva (left) received the "Taxpayer's Friend" award from Thomas J. Reese (right), Legislative Director of Taxation with Representation.

Rep. Abner J. Mikva has been named the "Taxpayer's Friend" by Taxation with Representation, a public interest taxpayers' lobby. "He was chosen because he consistently voted for tax reform and against wasteful tax subsidies," said Thomas J. Reese, Legislative Director of Taxation with Representation.

Taxation with Representation, founded in 1970, works to make

the tax code fairer, simpler and more efficient. During the 95th Congress it measured congressional support for tax reform by studying votes on tax issues. Those who scored high on tax reform were recipients of the taxpayer's friend award. Copies of the voting study are available free from Taxation with Representation, 6830 N. Judicial candidate Grazian urges voters to study ratings

Calling the elective system for judges in Cook County "at best haphazard," Leonard Grazian, Republican candidate for one of three newly created suburban judgeships, this week offered advice for the bewildered voter.

Grazian, 53, a lawyer and former Maine high board

president, said, "First look for the ratings of the three bar associations. Secondly, vote for Republican judges to counteract the stranglehold the Democrats have on the system in Cook County."

The judicial candidate, from Maine township, said that fortunately in his case he has some name recognition in the north-west suburbs.

"Unfortunately," he added, "many voters pick judges on the basis of nice sounding names, the old tic tac toe game or ethnic roulette." Until the method of selection is changed, he urges voters to weigh carefully and to seriously study the ratings of the various bar associations.

Grazian is recommended by the Chicago Bar Assn., rated qualified by the Chicago Council of Lawyers and well qualified by the Northwest Suburban Bar Assn. Currently he is board chairman of the Illinois department of rehabilitation.

The candidate and his wife, Delores, have eight children and two grandchildren.

Nimrod urges rejection of blue ballot Nov. 7

In a speech at the Des Plaines Chamber of Commerce last week, Senator John J. Nimrod (R-4th, Glenview) recommended a vote against the pending Constitutional Amendment to extend the personal property tax on business.

The amendment was adopted by the legislature last June and will appear on the Nov. 7 ballot for ratification or rejection by the voters.

"The proposed amendment removes the Jan. 1, 1979, deadline by which the legislature is directed to abolish the business personal property tax," Nimrod said, and changes the language from mandatory to permissive.

The personal property tax on individuals was abolished before the new state constitution took effect in 1971, Nimrod noted, "but after all, citizens pay all taxes

anyway. Businesses simply serve as the collectors for certain types of taxes."

Nimrod said 60 percent of the personal property tax now being collected in Cook County is paid by Commonwealth Edison and is passed on directly to the individual on his utility bill.

"The balance is still paid by the individual," he said, "though usually more indirectly through inclusion of personal property tax costs in setting prices."

Nimrod said the proposal would have "either of two effects if passed: it would either continue the unfair and unpopular business personal property tax indefinitely or it will at least retain the potentially disastrous features allowing the legislature carte blanche in tinkering with the income tax in the name of replacement."

United Way campaign

The 1978 United Way campaign for Skokie Valley is now in high gear according to the Rev. Conway E. Ramseyer, General Campaign Chairman and pastor of the Morton Grove Community Church.

Said Ramseyer, "We already have 15% of our \$110,000 goal contributed or pledged. It is really great to see how many highly placed business leaders are willing to donate their services through the United Way of Skokie Valley. Such leadership assures that a high degree of care is exercised in raising and distributing the funds of the Crusade of Mercy."

The Trades Division, David Duff chairman and Vice President of the First National Bank of Skokie, has raised 27% of this division's goal of \$8,500.

The Residential Division, where the mayors of Golf, Lincolnwood, Morton Grove, Niles and Skokie are serving as chairpersons, have raised 28% of the \$28,000 goal.

Contributions received by the United Way of Skokie Valley will benefit the Boy Scout Northwest Suburban Council, Family Counseling Service, Girl Scout Council N.W. Cook County, Jeanine Schultz Memorial School, Leaning Tower YMCA, Maine Center for Mental Health, Niles Township Sheltered Workshop, North Shore Association for Retarded, North Suburban Homemaker Service, Orchard Mental Health Center, Rimland School for Autistic Children, S.V. Council Community Services and Visiting Nurse Association.

Are you telling Congress to cut taxes?

Congress just finished work on a tax cut bill which promised to offer real relief to taxpayers and real growth in the economy.

The promise was not kept. Despite genuine attempts by both Republicans and Democrats in both the House and the Senate, Congress passed a relatively small cut. So small that it will not even compensate for the increase in payroll taxes which is coming next year.

Why did Congress fail? Apparently some members have still not heard the message that real tax reduction is absolutely crucial to the nation's economy... and the budget of every family.

Abner Mikva is one of those members of Congress who has ignored this fact.

Just look at the Mikva record on the tax bill this Fall:

- The Republicans proposed cutting tax rates across the board by one-third.

Abner Mikva voted no.

- The Democrats proposed cuts amounting to \$142 billion if spending were also controlled.

Abner Mikva voted no.

- When the smaller tax cut was finally approved by the House,

Abner Mikva didn't vote.

The people in the Tenth Congressional District know the burden of taxes more than most. Maybe it's time they send someone to Washington who will carry the message.

Called the "Savings and Loan Foundation College Savings Plan", the program permits parents to deposit money into a custodian savings account for the future benefit of the child. The money is really a gift and therefore interest earned over the years is not taxable to the parents. Grandparents and friends can also establish such an account.

The plan was developed to help parents cope with spiraling costs at four-year institutions, where there has been an 83% increase in

the last ten years. Education experts estimate that children who are now 8 years old will face a 4-year college bill of \$24,000 for a state university and as much as \$60,000 for a private school.

Because all interest earned on the account is credited to the child, this usually means that no income tax will be paid on the interest earned. This is because the child's income is usually below the minimum taxable income level.

Free informational booklets detailing the plan may be obtained at any of the 13 Cragin Federal offices in Chicago, Park Ridge, Mt. Prospect, Schaumburg, River Forest, Niles, and Itasca.

Rally for Porter

Rep. John Edward Porter, Republican Candidate for Congress in the Tenth District running against Abner Mikva, and Rep. Jack Kemp (R-NY), sponsor of the Kemp-Roth Tax Cut Bill, join together at a recent "election-day rally" for Porter. Kemp was in Chicago to campaign for Porter.

Biography of John Edward Porter

John Edward Porter announced his candidacy for Congress in the Tenth District against Abner Mikva on July 4, 1977. Since 1972, he has represented approximately half the people of the Tenth District, while serving in the Illinois General Assembly. In 1976, he was elected by one of the largest votes in the state.

While serving in the General Assembly, Rep. Porter handled 60 bills on the floor of the House and passed every one. He never lost a bill on the floor of the House in six years.

Rep. Porter has been highly rated for fiscal responsibility in the General Assembly. In 1977, he received a 97% rating from the Illinois Chamber of Commerce. In 1974, he received a "Best

Legislator Award" from the Independent Voters of Illinois and a similar award from the League of Conservation Voters in 1973. Rep. Porter received the Chicago Crime Commission award for the highest voting record on criminal justice issues in the Illinois House of Representatives in 1976.

Every time he has run for the General Assembly, Rep. Porter has been endorsed by every metropolitan and suburban newspaper.

A lifelong resident of Evanston, Rep. Porter studied at M.I.T. on a one-year scholarship, prior to attending Northwestern, where he received his B.S.B.A. He graduated from the University of Michigan School of Law with distinction, where he was an editor of the Michigan Law Review.

It's also safe to have your valuables nearby when you keep them in a First Federal of Chicago safe deposit box. We have boxes in several sizes at rates surprisingly low for the protection they afford.

For example, a 5 x 21 x 3 inch deep box costs only \$8.00 per year.

But safe deposit boxes are only one of the services Illinois' largest savings and loan has to offer.

We know you value your money, too. So we offer a full

range of savings plans. Regular and high-yield passbooks. Specialized retirement savings programs. And an array of certificate savings plans including the new 8-year, 8% Saver's Certificates and 6-month (182 days) T-Rate Saver's Certificates that are compounded to give you the most favorable annual yield.

All savings earn the highest rates allowed by law—higher than any bank. Interest is compounded daily from the day of deposit to the day of withdrawal. Money

deposited before the tenth of any month earns from the first when left on deposit until the end of the quarter.*

Seniors learn at Norwood Federal

ATTENTION SENIORS: WANT A FREE VACATION? In what we think is an excellent use of governmental funds, the Federal National Mortgage Association (Fanny Mae, as it is affectionately known!) is planning to invite about 120 retirees from across the nation to participate in a three-day, grass roots symposium in Washington, D.C., at Agency's expense. It's a great idea, but how are you going to select those 120 individuals?

In what must be a first for any governmental organization, they are inviting every senior citizen (retired) to write them about such subjects as retirement housing/location, design, financing, quality of life, etc. We want one or more of our esteemed seniors to be a winner, and we'll even help with the letter writing for any of you who are interested. Should you wish to do the project on your own, the address is: Federal National Mortgage Association Forum III, 1133 Fifteenth st., N.W. Washington, D.C. 20005

By the way, the symposium dates are Jan. 10-12, 1979. Selection of winners will occur in November, so quick action is paramount. Call any of our offices for further details, assistance, etc. Soon, please!

Led by three experts from the Mayor's Office for Senior Citizens and Handicapped (insert, left to right, Vincent Reilly, Patrick Diggins, Bill McNulty), an enthusiastic group of senior citizens recently assembled at Norwood Federal Savings and Loan Association, 5813 N. Milwaukee ave., Chicago, to discuss various ways to protect themselves from fraud, confidence games, burglary, etc.

Security devices for homes and apartments were also discussed as well as such subjects as the importance of having social security and other government checks deposited directly into a savings institution to avoid mail box pilferage.

According to Donald J. Babicz, Norwood's Executive Vice President, "Everyone involved in the seminar felt it was a most worthwhile program, and we were pleased that many area residents were able to attend. Similar programs are being scheduled for the future as part of our ongoing concern for the welfare of our valued seniors."

Mulack visits Niles Township

Sheriff candidate Don Mulack visits the Niles Township headquarters on his campaign blitz and is welcomed by Committeeman Bill Kearney and co-ordinator Ed Wilander.

MG Chamber selects Eckhardt as VIP

The Morton Grove Chamber of Commerce has announced through their V.I.P. Night Chairman, William Simkins, that the V.I.P. Night committee has selected Edward Eckhardt as this year's Very Important Person. He will be honored by the Chamber at the fifth annual dinner affair to be held on Wednesday, Nov. 15, at "Banquets by Brigante."

Simkins said Eckhardt was chosen from a very impressive field of nominees because of his long record of community service. He was six years old when his family moved to their home on Fernald ave. in Morton Grove. He has served as Superintendent of School District 70 since July, 1947, and in his thirty one years as administrator has seen

the school district grow from one school building to three buildings with a peak enrollment of 1600 students during the 50's and 60's. He is always been a dedicated volunteer in community affairs and organizations. He is a member and past president of the Morton Grove Lions Club, served several terms on the Morton Grove Library Board and served on the Morton Grove Days Committees. He presently serves on the Niles Township Department of Special Education, and is a member and serves on the council of the St. Paul Lutheran Church in Skokie. He and his wife, Lyle, reside at 6734 Beckwith rd., in Morton Grove. They have six children, including triplet daughters and two grandchildren.

Conservative Forum endorses Nimrod and Pullen

The Political Forum of the Conservative Caucus has endorsed John Nimrod for Senator and Penny Pullen for Representative in the 4th Legislative District.

John D. Lawlor, Chairman of the 110 member group stated that these candidates appeared to best measure up to the organization's principles of free enterprise, limited government and fiscal economy.

"Nimrod deserves re-election," Lawlor said, "because his track record in the Illinois Senate has been an excellent one. His early support of tax reduction, his efforts in the Workmen's Compensation area and his resistance to increasing the power of the Federal government, as demonstrated by his opposition to ERA shows him to be perceptive political leader," Lawlor concluded.

Also endorsed for re-election was Representative Penny Pullen. Lawlor cited her especially for her excellent record in the area of controlling the cost of government. "Miss Pullen's record in the area of controlling expenditures is without equal." Her concern for reducing the tax burden with curtailing necessary services shows her to be the kind of Representative the people deserve in Springfield,"

Lawlor said. "We recommend a three vote 'bullet,'" Lawlor concluded.

Election for the Senate and House of Representatives of the Illinois General Assembly will be held on Nov. 7.

LETTERS to EDITOR

"Thanks" to Dempster Plaza State Bank

Dear Mrs. Hansen:

The Residents of St. Andrew Home always enjoy the performance of the people you engage to entertain us, but we are unanimous in that Pascual Olivera, the Spanish dancer with his professionalism and radiant personality, was "tops".

He took us on a tour of Spain. His first number was a classical dance, then he did the Jota. His next number was the Castanet dance. He explained the manipulation of the castanets and it was amazing to see him dance only to the music of the castanets. Then he did the Flamenco and Spanish dance of Seville. Next he took us to a bull fight. His dance of the Matador was exquisite, one could almost visualize a bull on the stage. He informed us the troop he is per-

forming with will be on several of the popular TV shows, and we hope to see him on the screen.

After the performance, the Residents adjourned to the recreation room and Mr. Olivera joined them to partake of the goodies being served and enjoyed by all.

Please be assured that we will always remember this wonderful treat Dempster Plaza State Bank provided. We are optimistic and hope that some time again you will be able to arrange for a repeat performance of this Spanish dancer.

We are indeed grateful to you for providing such wonderful entertainment.

Sincerely,

Gertrude Plekarski

MONNACEP cooking courses

MONNACEP will hold three short cooking and baking courses beginning Nov. 6 to 8. MONNACEP is the adult and continuing education program cooperatively offered by Oakton Community College and the Maine, Niles and Northfield high school districts.

Tuition stated with each course applies to both residents and non-residents of the Oakton Community College district; Oakton residents 60 and over pay half. A student may register by mail, in person at most of the nine MONNACEP centers or at the MONNACEP office at Oakton Community College, Oakton and Nagle, Morton Grove, from 10 a.m. to 3 p.m., Monday through Friday. One may also register at the first class session if there is room. For information, call 967-5821.

Hors D'oeuvres (HEC E48-01). Cynthia Berland, Chicago Sun-Times food columnist, will teach the basics in preparing simple and fancy hors d'oeuvres on three Mondays, beginning Nov. 6, from 7:30 to 10 p.m., at Niles North School, 9511 Harrison, Des Plaines. The fee is \$19.

Strudel (HEC E46 01). A demonstration and tasting of cheese and apple strudel, with a discussion of other fillings, will be given by Ann Chaput on Tuesday, Nov. 7, from 7:30 to 9:30 p.m. at Maine South High School, 1111 S. Dee rd., near Devon, Park Ridge. Tuition is \$8.

Pizza and bread (HEC E49 01). Along with how to bake French and Italian Bread, Milena Troiano will demonstrate pizza-

making of all kinds, including napoletana, di verdura, di pesce, and calzone. The course will meet on two Wednesdays, Nov. 8 and 15, from 7:30 to 10 p.m., at Maine North High School, 9511 Harrison, Des Plaines. Fee is \$15.

Guard against rabbit damage

Because of the widespread damage to trees and shrubs by rabbits and mice last winter, employees at Lake-Cook Farm & Garden store at 997 Lee st. (at Oakwood), Des Plaines, are urging homeowners and landscapers to take precautions at once.

Sometimes rabbits will begin gnawing young tree trunks very early in the season, catching homeowners unaware. If tree trunk or limbs of shrubs are completely girdled, the plant will die the following spring.

Liquid Rabbit Repellents can be applied with paint brush or sprayed. This is the same material used by professional nurserymen with good success. It will persist through the winter although one can apply in January for added insurance. If snow becomes deep, one should apply to upper branches as rabbits can reach these new levels.

PLASTIC TREE GUARDS Plastic tree guards can be easily snapped around trunks of small trees which give protection from mice as well. Deep snows last year made plantings vulnerable to this rodent. Quickly removable in spring. Hardware cloth is also a good protection but a bit more work. It is most disheartening to lose a valuable newly planted flowering crab or fruit tree (particularly attractive to rabbits) when an investment of a few cents and a little time could have protected it.

The above products are available at most garden centers and farm stores.

FNBO expansion progressing

The First National Bank of Skokie, currently adding five additional floors to make a total of eight, will be the tallest structure in Downtown Skokie when the building is completed late in 1979.

The bank, now the 18th largest in the State of Illinois, has grown from just over \$100 million when the present building was planned in 1970 to over a quarter of a billion in assets today. Fortunately, the building was planned, and foundations were laid, to handle this building expansion, though it was not expected to be necessary for several years in the future.

The reinforced concrete floors, which are being poured at the rate of one every two weeks, are scheduled to be completed before winter curtains outside work. A snorkel pump moves the concrete from the ready mix trucks to the top of the structure for distribution by means of a large rubberized pipe.

Introducing . . .

PAT

(Profitable Automatic Transfer)

A new plan that combines the benefits of checking and saving accounts.

How does PAT work?

Instead of depositing money in both your checking and savings accounts, you put all deposits in a PAT plan. Every time you write a check, you continue to earn interest on savings until the check clears the bank. Then funds are transferred to your checking account to cover the check.

How much interest does PAT pay?

5%. And that's on money that never before earned interest.

Are there any service charges?

Yes, if your savings balance falls below the minimum. However, because you're earning interest on your savings, the charges are minimized by the accrued interest.

When do you get a statement?

You receive one statement every month showing all transactions for each account, plus the earned interest.

How do you open a PAT account?

It's easy. You first open a 5% savings account in which you must maintain a specified balance. Then, if you do not have a checking account, you open one to facilitate the check-writing.

Where do you sign up?

REAL ESTATE NEWS

Plenty of landscape chores to be done

Just because the leaves are beginning to change color doesn't mean you can put away the lawn mower, fertilizer spreader, and garden hose. There's still plenty you can do to maintain the appearance of your landscaping throughout the fall.

So advises Dick Brickman, president of Theodore Brickman Co., landscape architects and contractors, Long Grove, Ill., which has designed and maintains many of the Chicago area's largest commercial and residential properties.

Here are the procedures Brickman advises:

1. Give your lawn a fall feeding to help thicken the turf and fill in spare areas. If you fertilize in October, use a 10-10-10 formula, as noted on the fertilizer bag (this means 10 parts nitrogen, 10 parts phosphorus, 10 parts potassium).

If you feed in November, reduce the formula to 5-10-10. Too much nitrogen late in the year may make the grass tender and susceptible to winter injury.

2. Keep mowing the grass as long as it keeps growing. Beginning in November, reduce the height of the cut by 1/4" each week until you make your final cut at 1 1/2". By letting the grass go into

winter cut short, you lessen chances of the grass matting down and developing snow mold. Matted grass also harbors field mice.

3. Remove fallen leaves weekly. Don't let them pile up, or they may smother the grass and cause turf disease. It's a good idea to compost leaves and use them as top dressing and mulch on shrub beds. Without composting, leaves can be shredded and used as mulch around shallow-rooted plants.

4. Apply garden gypsum with a fertilizer spreader at the rate of 30 lbs. per 100 sq. ft. in November on grass near curbs, walks and driveways. This will reduce chances of damage from salt and ice-melting chemicals.

Gypsum loosens the soil and permits chemicals to leach through quickly, rather than remain on the surface where they can harm grass.

5. Prune your deciduous shrubs as soon as they lose their leaves and go dormant. With the leaves gone, you'll be able to see better. And next spring, new growth will cover the entire plant.

But don't prune evergreens after October. Otherwise, the remaining branches won't have time to adjust.

Open tryouts for "Pygmalion"

Open readings for roles in Des Plaines Theatre Guild's January production of "Pygmalion" will be held at 8 p.m. Monday and Tuesday, Nov. 6 and 7, at Guild Playhouse, 620 Lee st., Des Plaines.

Hank Vandenberg of Barrington, currently appearing in "Equus" at Guild Playhouse will direct "Pygmalion," one of George Bernard Shaw's most popular comedies, with Mack Cohen of Mount Prospect, also a member of the "Equus" cast, as producer. The comedy will be presented for three week-ends, Jan. 5 thru 21.

Written by Shaw in 1914, "Pygmalion" has been a popular play throughout the world ever since, and the musical hit based upon it - "My Fair Lady" - has

only reinforced the popularity of G.B.S. and the classic myth on which he patterned his story of the lowly girl from the slums who is transformed into a lady.

Roles to be cast include Eliza Doolittle, the Cockney flower-girl; Henry Higgins, the misogynist and tyrannical phonetic teacher who transforms her into a fine lady; Col. Pickering, the soldier-scholar who wagers on Eliza's future with Higgins; Alfred Doolittle, the guttersnipe's conniving father; Mrs. Higgins, kindly mother of the woman-hating professor; Mrs. Pearce, his housekeeper; and Freddy Eynesford-Hill, suitor of the newly created "lady."

For information about the tryouts or current attraction at Guild Playhouse, call 296-1211 between noon and 8 p.m. daily.

ED HANSON Solved: the smile of Mona Lisa

A 478 year old mystery has been solved! The riddle of the Mona Lisa has been revealed! The solution came from my old friend Dave Campbell. He was a portrait painter and art critic par excellence. He told me when the Mona Lisa painting was on display at the Art Institute some years ago, on loan from the Louvre.

At a table in the almost deserted cafeteria of the institute he exploded the myth of mysterious Mona. Campbell, a tall man bearing a strong resemblance to the late Britisher Anthony Eden, said, "You may think me mad but I've solved the mystery of her smile." He paused to observe the effect upon my face, then concluded, "and her eyes and hands."

I looked at him appraisingly. Not even the shadow of a smile flickered in his eyes. From anyone else but this shy, serious, kindly man - a man never given to boastful claims or demonstrative outbursts - I would have sneered. Instead, I merely muttered, "Oh?"

"It's all here," he stated with a conviction unusual for him. He held up a thick manuscript, tapped it with a long finger.

I sipped my coffee thoughtfully. I'd known him since I was a boy. For years he'd had an obsession (or rather a compulsion) about the Mona Lisa and her artist, Leonardo da Vinci.

I remembered our discussions about art over many years... how, somehow, he always brought the conversation around to his pet topic - the Mona Lisa.

"I'm very interested," I said. "Tell me the story."

After three hours and frequent references to his manuscript and prints of famous paintings I was convinced he knew the answer. This man had solved the mystery of the Mona Lisa! This, in essence, was his story...

Everything imaginable has happened to this most prized, publicized and pampered painting of all time. The Mona Lisa has been sanctioned by the sovereignty, snickered at by many, snatched by an Italian house painter, stoned by a Bolivian waiter, saved from the Nazis, sabotaged by superstition, safeguarded by security, and spontaneously acclaimed by artist, critic and layman. It has been copied, commercialized, cussed, cartooned, caricatured and ceremonialized.

One old legend among Campbell's notes reveals that the Mona Lisa herself "speaks" thru the painting every time public interest in her begins to wane.

This fantastic superstition - that a woman dead almost 500 years can "speak" thru a painting - like supposed voices of the dead do thru a spiritual medium, was regarded by Campbell as sheer idiocy.

And yet, he told me he had documented evidence of many bizarre "incidents" thru the centuries linked to this legend. The Bolivian waiter who slung a stone at Lisa in the Louvre, when apprehended by gendarmes, gave as his explanation, "She told me to - she spoke to me."

A German mechanic who attempted suicide by slashing his wrists in front of the painting, when asked about it, said, "She told me to kill myself - I heard her." Scores of other "incidents" revolving around the "picture-speaking" have been recorded and documented by witnesses.

One of the earliest and interesting legends my friend's research revealed is the one about Francis I, King of France. The King bought the portrait for 4,000 gold florins (\$300,000) and hung it in his museum. A strange thing happened. The colors in the background depicting the landscape scene with rising mists changed colors. Evident stranger - the colors of the Mona Lisa remained the same. Stranger still - the color change subdued the background and enhanced the dimensional effect of Mona Lisa herself - so that many who look at the portrait are unaware of the background.

A scientific explanation of this color change was given. The poor quality of pigment in Leonardo's paint (he pioneered oils) was attributed to the fading of the background. And strangest of all - why the colors of the Mona Lisa herself did not fade like the background is still a mystery.

Campbell's contention was that Leonardo planned it that way - deliberately using inferior pigments in the background and superior ones on the portrait.

This early legend has triggered a whole series of superstitions. A new legend immediately grew that Mona Lisa herself was a black witch with occult powers. This was show biz - people came from far and wide to see the portrait. This in turn stimulated an interest in Mona Lisa as a person. Who was she? Where did she come from? How did she meet Leonardo da Vinci?

The answer sent the legend of her supernatural powers soaring. She was a nobody - a peasant - the dowdier daughter of a Florentine laborer named Gherardini. He married her off to a twice-married widower Francesco del Giocondo, 20 odd years her senior.

Why, the people asked, did the great Leonardo da Vinci paint this nobody who was not even considered pretty by the beauty standards of her era? Leonardo had been painting persons "born to the purple" from the gay and glittering courts of Europe. The people supplied their own answer: her occult powers.

The truth was, Leonardo was broke when he accepted the commission to paint the girl for a fee. He needed the money to continue "his tragic pursuit of perfection" of scores of other projects centuries ahead of their time.

He was about 50 at the time he first met Mona Lisa. She was 24. According to Campbell's theory, this is when he got the shock of his life! He was not taken by the girl, not the least bit romantically interested in her. He never was about any woman.

But, according to my friend's theory, she was the living, breathing image of all the other composites of women he had ever painted.

Oddly enough, one of the greatest painters of all time - perhaps the greatest - could never capture the innate elusive, subtle likeness of a person from life. This stemmed from his boyhood. The first object Leonardo ever painted, when he was hardly more than a boy, was the head of a dragon. He painted this upon the round panel that had been carved out of a fallen fig tree. His first picture; all his pictures to come were painted from memory.

Years later, in his "Treatise On Painting" he gave these directions for the representation of a dragon: "Take the head of a mastiff or a setter, the eyes of a cat, the ears of a porcupine, the nose of a greyhound, the eyebrows of a lion, the temples of an old cock and the neck of a turtle."

Creative Arts Series

Performing Arts buffs can indulge their artistic souls right in their own community from January to June, by purchasing a Creative Arts Series pass from Niles West high school. For its sixth season, the Series will offer Les Ballets Trokadero De Monte Carlo, the Broadway play "Pippin", the opera "Don Pasquale" performed by the Chicago Opera and more than 10 other performing arts events, showcasing student talent in music, dance and drama. Orchestis, Niles West's dance troupe, kicks off the 1979 season on Jan. 20 with its annual "Steppin Out" dance show.

The Creative Arts Series owes its existence to Niles West music master Hugh McGee, its creator,

and a small, friendly group of students, parents, teachers and friends. The group meets every other Tuesday night from 8 to 9:30 p.m. in the school teachers' lounge, and welcomes new members with new ideas. The next meeting will be held Nov. 14.

Applications for the 1979 Creative Arts Series passes are now being accepted at the high school for distribution in mid-January. The number of passes is limited, and they're a bargain at \$10. Checks, payable to Creative Arts Series, District 219, should be mailed to Niles West High School, Oakton at Edens, Skokie, IL 60077.

Your Child's Sight

One in 20 preschool children in America has an eye problem of one sort or another. You can help make sure your child has two good eyes if you heed these hints from the National Society for the Prevention of Blindness, now celebrating its 70th anniversary.

- Teach youngsters the dangers of scissors, sticks, broken glass, darts and the like. Show them how to carry sharp objects and keep hazardous things out of their hands.
- Don't leave children alone with dangerous objects. Three-fourths of eye accidents occur during unsupervised play.
- Give your child a home eye test. Kits and instructions are available from

your state Prevention of Blindness Society or from the National Society at 79 Madison Avenue, New York, N.Y. 10016.

- Have your child's vision checked by an eye specialist before entering school and periodically thereafter.
- Make sure that if glasses are necessary, they're properly fitted, made with safety lenses and changed whenever necessary.

Camp Fire roller skating party

Camp Fire members and friends will go around and around again on Nov. 6, 7 p.m. when the annual Nove-Niles Roller Skating Party will be held at the Axle Roller Rink in Niles. Last year over 600 members, parents and friends skated to the songs played on the Axle organ.

The intent of the skating party is not to raise funds. However in the past any profits have been used to defray the cost of plants for the Camp Fire May basket project - a Maine Niles tradition for over 50 years. This year the rink rental will be less than in the past because a Camp Fire parent purchased the rink time on behalf of the District thru the Channel 11 WTTW Auction at a substantial savings.

Friends of Camp Fire are invited as well as anyone who would enjoy an evening of fun and exercise. Tickets are \$1.25 at the door or may be purchased in advance for \$1 from Barb Burkhardt, 825-4713. Skate rental is extra.

Centel offers convertible debentures

Centel Telephone & Utilities Corp. announced that a subsidiary plans to offer in the international capital market \$40 million of convertible debentures. The issue would be convertible into CTU's common stock.

The offering is expected to be made during the fourth quarter, the company added, with the proceeds to be used to finance new construction and repay short-term borrowings.

The securities will not be offered or sold in the U.S., or to U.S. nationals or residents.

District 207's John Benka receives recognition

Dr. John T. Benka, Assistant Superintendent for General Administration and Personnel, Maine Township High School District 207, has been named to serve on two standing committees of the American Association of School Personnel Administrators (AASPA) for the 1978-79 year.

Dr. Carroll Sawin, AASPA President-Elect, invited Dr. Benka to serve on the Constitution and By-Laws Committee, which reviews these documents to see if they adequately reflect the purposes and governance of the professional organization for school administrators.

L. Margaret Groves, chairperson, Publicity Committee, appointed Dr. Benka to her committee. Describing him as an "outstanding personnel administrator", she said that Dr. Benka's selection "is recognition of the competence of John Benka in school personnel work and his esteem among personnel people from all over the United States."

AASPA has nearly 1,000 members with representation from nearly every state in the United States and Canada. As a member of the publicity committee, Dr. Benka will serve as a source of information concerning school personnel administration activities in Illinois.

As part of his work for District 207, Dr. Benka participated in more than seven months of grueling negotiations leading to the successful conclusion, on Oct. 2, of a new contract between the Maine Board of Education and the Maine Teachers' Association.

Dr. Benka has been serving in his present capacity with the school district since 1973, when he was chosen by Dr. Richard R. Short, Superintendent of Schools, from more than 100 applicants seeking the position.

Prior to coming to Maine, Dr. Benka was Assistant Superintendent of the Milton Public Schools in Milton, Wis.

During the course of his educational career Dr. Benka has worked as a classroom teacher, dean of students, director of adult education, department chairman, administrative aide and high school principal in the Chicago area and in Wisconsin.

OCC film society

The "Wild Bunch" and "Midnight Cowboy" will be featured in the Oakton Community College's Film Society's fall series "Roots of a Hollywood Anti-Hero" on Friday Nov. 3.

William Holden, Ernest Borgnine, Robert Ryan and Edmund O'Brien star in "The Wild Bunch." Directed by Sam Peckinpah and filmed in 1968, the film portrays the decline and fall of one outlaw gang at the end of the frontier era, when Pancho Villa was tormenting a corrupt Mexican government.

"Midnight Cowboy" (1969), directed by John Schlesinger, stars Jon Voight and Dustin Hoffman. Set in New York City, the film portrays the traumas and tribulations of two losers trying to "make it" without having to "work."

The film will begin at 7:30 p.m. in Room 540 at the OCC Interim Campus, Oakton and Nagle, Morton Grove.

Doors open at 7 p.m. A \$5 donation is requested of all Oakton and MONNACEP students; \$1 of all others. The seating area is accessible to the handicapped.

Girl Scouts to host adult conference

An Adult Conference That Tackles Tough Problems" is planned by the Girl Scout Council of Northwest Cook County for Nov. 2. Called "Blueprints", the event will be held at the Trinity United Methodist Church in Mount Prospect from 9:15 a.m. to 3 p.m.

Although the conference has been planned by the Girl Scout Council, several of the Workshops would be valuable for anyone who works with young people, according to a Council spokesperson.

Gerald Hug of Park Ridge, teacher and administrator at Maine Township High School East, will speak on "Discipline and Common Sense". Mr. Hug will focus on being firm but polite with young people and on saying "no" without guilt.

"Where Do the Good Ideas Come From?" will explore techniques for brainstorming, guiding outcomes, and turning failures into successes. Doe Henkel, an adult and urban education specialist at the University of Illinois, and a Girl Scout leader in Arlington Heights, will lead the seminar.

Child training specialist Alicecose Barman will discuss "Motivating Children to Take Responsibility". A consultant to School District 108 in Highland Park, Ms. Barman will help participants understand how a sense of responsibility is arrived at, and the roots of motivation.

At the time of the agreement to return to work, he said, the Board was doing everything it could to help because it was anxious to provide parents with reasonable alternatives prior to the onset of foul weather.

"We're all very pleased that none of these alternatives had to be exercised and that our students have bus service once again," he maintained.

Voters . . .

In other races, Senator Charles H. Percy is being opposed for re-election by Alex Seith. In the gubernatorial race, Gov. Jim Thompson is seeking a second term while Democratic candidate Michael Bakalis has conducted a vigorous campaign to unseat Thompson.

For Attorney General, incumbent William J. Scott is being opposed by Richard J. Troy, Niles Village attorney and Secretary of State Alan Dixon is being opposed by Sharon Sharp.

In Cook County, voters will determine the offices of County Clerk, Assessor, Treasurer, Sheriff, Supt. of Schools and Commissioners of the Board of Appeals of Cook County. Also in Cook County Board President George Dunne is seeking re-election against former sheriff Joseph Woods.

Voters will also determine County Commissioners, new judicial candidates and judicial candidates seeking retention in office.

Voters will also be given the special Blue Ballot which is a proposed amendment to the Illinois State Constitution wherein all personal property taxes would be abolished and replaced with new taxes sufficient to replace revenues lost by local governments and school districts. The personal property tax now is imposed on corporations, partnerships and trusts and individuals have been exempt since 1971.

In a second part of the Blue Ballot, voters will also be asked to determine whether the General Assembly would be allowed to exempt from property taxation "property used exclusively for post homes of Congressionally chartered veterans' organizations."

From the LEFT HAND

Continued from Page 1

In October, 1970, the respected New York Times said of Mikva: "Of the 435 members of the House of Representatives, about 40 are outstanding because of their generally effective work or their devotion to the public interest . . . of late (they have) been joined by an energetic newcomer, Abner Mikva."

In The Bugle's endorsement of Mikva in November, 1972, it stated: "In supporting Congressman Mikva for re-election, we believe his recent opposition to the Highway Trust Act exemplifies the independent quality which best serves his own constituents, as well as the people at large."

"Mayor Daley's representatives in Congress introduced the bill which sought to have the government buy \$55,000,000 of Skyway bonds, which would have bailed out private bondholders, who have received no return on their investment since the late 50's. It was introduced by Congressman Kluczyński, and supported by Congressman Pucinski, both staunch Democratic 'party regulars'. Abner Mikva joined hands with conservative Republican Derwinski in fighting the bill and was successful in defeating this private interest bill."

Repeating The Bugle's 1976 endorsement: "In endorsing Mikva for the fifth time (once in a primary), we believe he is what the Greek philosophers of 2,000 years ago referred to as a model citizen-statesman. His independence enables him to rise above bloc party voting. His liberal stance on many social issues are well-balanced by his conservative voting record in the areas of spending, as noted by the Daily News."

His progressive liberalism and his conservative fiscal responsibility is representative of the broad spectrum of the variegated Tenth District he serves. Republicans, Democrats and Independents can feel comfortable casting a vote for Abner Mikva November 7.

A personal friend, Sam Berger, is running for the State Senate in our district. Because he is a friend, we would be less than candid if we did not admit our prejudice in favor of him.

He is an outstanding attorney, an expert in real estate and zoning law, and is indeed highly qualified. We'll be casting one vote for Sam on the basis of friendship, and because he is an exceptionally qualified candidate.

JOG-A-THON IV

JOG-A-THON IV, sponsored by the Health and Physical Education Department of Mayer Kaplan Jewish Community Center, Skokie, will be held on Sunday, Nov. 5 in Emerson Park (just north of the "J"). Running numbers can be obtained starting at 9 a.m. The JOG starts at 9:30 a.m.

Sixty-five persons, ranging in age from 10 years old to well into their seventies, participated in the last "J" JOG.

Anderson points out that members of the "J" conditioning classes who could not cover one mile when they began, "now cover six to seven miles without difficulty."

No prizes are given for speed but participants receive a Certificate stating actual distance covered. All participants also receive an official JOG-A-THON "T" shirt.

According to Glen Anderson, Mayer Kaplan Jewish Community Center's Director of Health & Physical Education, "People are competing with themselves. Physical fitness is the goal, not speed."
