Niles Family Service Day Proclamation

Gov. James R. Thompson signed a proclamation this morning in Springfield, declaring Dec. 1, 1978 as Family Service Day in Illinois.
In commenting on the proclamation Gov. Thompson said, "The work that the Family Service Associations are doing in Illinois remain a major contribution to the American tradition - citizens helping each other in times of need."
The proclamation was offered by Rep. Clarence Darrow and adopted by the House of Representatives on June 2, 1978.
Rodney St. Clair, president of the Illinois Association of Family Service agencies, said, as he witnessed the signing of the proclamation, "Many of the member agencies now serving the public in local communities have been doing this since 1837."
Each Family Service Association in Illinois is a private agency founded by citizens who joined together to help their neighbors in time of need. Family Service agencies throughout the state are still being operated by citizens who volunteer as Board of Directors to make policy and determine the business of each local agency.
Early in the history of Family Service agencies, help to people was tangible in nature, such as food, shelter, clothing and sometimes money to disaster stricken families.
In more recent times people look to Family Service agencies for assistance in many other specialized ways. They request help with family problems that are marriage, parent-child related or youth related as well as problems of the elderly.
Family Service Agencies have played a vital role in bringing to public awareness such issues as

From the LEFT HAND

by David Besser
Editor & Publisher

In this week's "Letter to the Editor" column, a writer takes off after Niles Police Chief Clarence Emrikson and the department hierarchy.

The letter is prompted by the resignation of Niles' fifth policeman in the past two years. We use the term "policeman", a very neutral (and neuter) term, because the fifth resignation came from Nan Mele, Niles' only lady cop. Nan left the department and went to work for a management firm. Obviously, she felt the future in Niles Police Department was less than the potential she'll have in the private sector.

We emphasize Nan was a "lady" cop which may have been the reason for her leaving. Some months ago the boys in the department decided to play a prank on her, presenting her with a lewd gift which caused repercussions down at the old station house. Her demanding an apology for the puerile joke led to the suspension of the cop who was in charge of the shift when the incident occurred. He got a bit stiff-necked and refused to properly admit his misgivings for the action.

In retrospect, it could be mentioned Nan's days were numbered. An addendum to the dress code was added which required all police persons wear a tee shirt under their outer shirts. We were told it was aimed at hiding those hirsute male chests. Later, strict hair cut restrictions were enforced which might have been in conflict with a reasonable decorum for a woman. Whatever these little flicks of discontent, Niles has lost another good cop.

Five cops have now left the department. We can rightfully report at least three of the five have gone by way of the chopping block.

The past year Niles hired a management firm which recommended several changes in the department. Since it required outside help to tell public officials what's wrong inside their village, we're wondering when Niles' village president and trustees are going to assert their proper roles and stop the nonsense in the police department? This chapter in Niles' history is not a compliment, neither to the men who have been involved in the department, nor to the public of

New Dist. 63 controversy: interviews on tape

by David Besser

It looked like all the "losers" in past battles with School District 63's School Board joined forces Tuesday night in baiting the board and its superintendent. The new battle line concerned the use of Selection Research, Inc., which has created a taped-interview method which is being used in the district, both with students and teachers.
During the public discussion part of the meeting, District 63 resident and out-of-district school teacher Claire Orth read a long statement regarding the use of SRI in the district. The company was originally hired to help the board select a superintendent.
teacher strikes, haranguing between the former superintendent and board members, and the more recent school closings controversy, has left wounds which periodically seem to re-open at school board meetings. Tuesday night was another re-opening.
The school district, which in recent years has been wracked with dissension, has ameliorated many of its problems since the hiring of new superintendent Ken Moe. The acrimony of

OK traffic signal for Ballard-Dee Road intersection

The accident ridden intersection of Ballard rd. and Dee rd. (also known as Kennedy Drive) in unincorporated Maine Township has been approved for the installation of a traffic control signal, according to Representative Penny Pullen (R-4th). "I gave this intersection and the requests of the people living in the area my first consideration when I was first elected to office two years ago," Representative Pullen said. "I am pleased to announce that the Illinois Secretary of Transportation has now said an order for the installation of this most needed traffic light." Rep. Pullen said, "that the light will be installed by cooperative effort of the State of Illinois and Cook County and that Maine Township Highway Commissioner Edward Koehler has agreed to township maintenance of that portion of the signal facing Dee.

The intersection has for a decade been one of the most troublesome traffic sights in Maine Township, producing many traffic tie ups and "a dangerous climate" for school children, according to Rep. Pullen. She said that attempts in past years have been fruitless because although traffic volume at certain peak periods of the day has been great the overall volume was not sufficient to meet state standards for installation of a light and because of certain funding problems.

Make More

5% Savings/Checking Accounts

Make More accounts are a combination of savings and checking accounts that enable you to earn more interest on your demand deposit accounts. By pre-authorizing automatic transfers from savings to checking, as needed, your checking account can be kept at zero balance while your savings account keeps earning regular 5% interest.

How To Qualify For Make More Accounts

Make More accounts involve specialized handling and bookkeeping; consequently certain requirements must apply. No minimum balance need be maintained in checking but \$2,000.00 or more must be kept in savings. A savings account that falls below \$2,000.00 is charged \$5.00 for each month this occurs.

How Make More Accounts Work

When you open Make More accounts you authorize automatic transfer of funds from savings to checking as needed to cover checks you have written. Since your checking account may have a zero balance, the automatic transfer feature means constant overdraft protection. At all times your balance in savings earns regular 5% interest, paid monthly. At the close of each monthly cycle a combined checking/savings statement is issued.

Advantages of Make More Accounts

Make More accounts mean that all your dollars will earn 5% interest in the savings account instead of lying idle in the checking account. 5% interest from day of deposit to day of withdrawal, paid monthly. Moreover, if you have several savings accounts in different places, it would now be advantageous and far more convenient to consolidate them into one interest bearing Make More savings account which, when combined with Make More checking, simplifies the handling of funds.

Making You More Interest is Our Interest

Come in soon. Your personal banker at the First can explain how you can make 5% on money that's never earned interest before. Because your money can now keep earning more, we call these accounts Make More accounts.

Notre Dame open house

One of the most important decisions that young people can make concerns where they will be spending their high school years. It covers every facet of their lives, including the type of education that they will receive, and the friends they will make, some of whom they will have for years to come. With this in mind, it is especially important to have a preview of what a specific high school will be like. Notre Dame High School, located at 7655 Dempster in Niles, provides just such an opportunity for area seventh and eighth grade boys with their annual OPEN HOUSE, to be held this year on Sunday, Dec. 3, from 1 to 5 p.m.

Members of Notre Dame's staff and student body will be on hand to conduct guided tours of the school and its various facilities. There will be presentations summarizing the various areas of study, and members of the faculty will be on hand to answer any questions that may arise. So, all seventh and eighth grade boys and their parents are invited to come to Notre Dame on Dec. 3 to see the school and enjoy some refreshments in the cafeteria following their visit. For any further questions or information please call 965-2900.

Oakton energy conservation fair

Homeowners, businessmen, and local government officials looking for energy conservation techniques to cut costs and save fuel will have an opportunity to view displays and demonstrations of the latest developments in conservation and resources at a weekend energy fair Dec. 9 and 10 at Oakton Community College in Morton Grove, Sen. John J. Nimrod (R-4-Glenview) announced this week.

Nimrod conceived the idea for the energy fair and is co-sponsoring the event with the college. Hours are 10 a.m. to 5 p.m. on Saturday and noon to 5 p.m. Sunday. Information may be obtained by calling Nimrod's office at 698-3400 or Suzanne Jacobs at Oakton, telephone 967-5120, ext. 319. The campus is located at Oakton and Nagle in Morton Grove.

There will be no charge for the fair, which will feature a free computerized home energy audit to advise homeowners steps which may be taken to improve energy efficiency in their particular homes and advise them of the costs for each of the improvements proposed. Demonstrations of solar energy

and displays of coal gasification techniques will further highlight the fair.

Area energy-related business, entrepreneurs and students active in energy-related science studies are encouraged to participate as exhibitors, Nimrod said.

"This will be a major event for our area," Nimrod said, "and the only one of its kind being held in Chicagoland. I am pleased we have been able to put together an exciting array of resources, and I hope everyone will take advantage of the opportunity we are offering."

Fitness: the new status symbol

Everybody's doing it or at least knows about it. It's the latest fad. A real status symbol if you have it.

Fitness. It's physical conditioning with a purpose - strengthening the cardiovascular system.

From grandparents to youngsters, many Americans have been gripped by the not-so-crazy desire to run long distances, to swim almost daily, or to flex their muscles to the new sound of disco.

Where will all this interest in fitness lead us? Toward better health and longer lives.

Heart disease is today's number one public enemy and it's a product of the sedentary lifestyle that many Americans have

become used to. But how do you start getting in shape and improve your cardiovascular system? And how can you share the experience of physical fitness with your family and improve their health?

"At today's YMCA," says M. Marvin Lotz, executive director of the Leaning Tower Family "Y", "the emphasis is on cardiovascular health strengthening a person's heart and circulatory system." Today the local YMCA offers many programs tailored to fit the needs of an increasing number of Americans who are changing from a sedentary lifestyle to a more active one.

The Leaning Tower Family "Y" also offers a variety of dance classes which include ballet, ballroom, disco, Aerobics in Motion, and Aquanastics, to help with weight reduction and physical conditioning in a musical atmosphere.

If all of this talk about physical fitness and exercise makes you feel guilty then it's probably time to get started on your own exercise program. Putting it off till after the holidays is a good way to forget about it but starting right now might just make you and your holidays a bit healthier and happier.

The Leaning Tower Family "Y", located at 6300 W. Touhy ave., Niles, has come up with a great holiday gift idea called membership gift certificates. What better way to show someone you love that you care. It's one gift that will keep on giving the whole year long. Call the Y at 847-8222 for details.

Yet religious values and religious feelings are among the most vital factors in human growth and social relationships. Thus the goal of the Rabbinical Counseling Service is to add this new approach to the spectrum of the communal services already offered.

The Rabbi-psychotherapists are specially trained and will offer aid to those individuals, families and couples who seek to deepen their self understanding, and find fulfillment in their lives and interpersonal relationships.

Holy Family Call-in program

As a community service, a daily telephone call-in program called Tele-Care is being offered free of charge by Holy Family Hospital for persons who are living alone and would like to talk to someone and let the person know they are "all right."

Volunteers are manning a special telephone line at the hospital seven days a week between 9 and 11 a.m., receiving calls from Tele-Care participants. Persons of any age may take advantage of the program if they live alone or are left by themselves during the daytime. If someone participating in the program fails to call the Tele-Care volunteer by 11 a.m., they will try to call the person. If there is no answer, a neighbor or next of kin will be called to determine the individual's whereabouts. This can result in needed assistance being brought to someone who is ill or in distress.

Anyone wishing to join the Tele-Care service or obtain more information, may call Holy Family Hospital's Public Relations Department, 297-1800, extension 1174, Monday-Friday, 8:30-5 p.m.

Library programs for adults

There will be two adult programs at the Niles Public Library, 6960 Oakton, during December, highlighted by the month of December.

On Monday, Dec. 11 at 7:30, Sam Berg, a well-known hairdresser for the past 18 years at John D'Or Coiffures in Niles, will give a demonstration in hair styling. He will work on two pre-selected volunteers and, through his comments and answers to the audience's questions, suggest different approaches a woman might try with her own hair.

On Tuesday, Dec. 19 at 7:30, Michael Cook, a representative of the U.S. Social Security Office at Des Plaines will talk about the complexities, benefits, and other pertinent aspects pertaining to Social Security.

Maine Township Senior Citizens' Activities

Maine Township will sponsor three senior citizens' activities during December, highlighted by the annual Christmas party, Maine Township Senior Citizens Coordinator Ferdinand C. Arndt announced earlier this week.

The December schedule will begin with an afternoon of cards and games at The Greens, 8909 David pl., Des Plaines, beginning at 1 p.m., Wednesday, Dec. 6.

Arndt said the Christmas party will be held in two parts, with the first group meeting Wednesday, Dec. 13, and the other the following day, both at the Casa Royale, 783 Lee st., Des Plaines. Lunch will be served at noon on both days, and will be followed by entertainment.

Arndt said the party had to be spread over two days because of its growing popularity. Last year more than 500 seniors attended. More are expected this year.

The annual Christmas party is provided free of charge by the Maine Township government, but an "admission fee" of \$3 per person will be collected, Arndt said. The money will be given to the Little Brothers of the Poor for their charitable works. Reservations are required and are restricted to active members of the Maine Township Senior Citizens Organization.

Arndt said his organization will also sponsor a review of the rules of the road on three consecutive Monday mornings at the Des Plaines Senior Center, 1396 Thacker st., Des Plaines. The first session will begin at 9:30 a.m. on Monday, Dec. 4. Seniors must attend all three sessions to successfully complete the course.

All reservations for the Christmas party must be accompanied by a check made payable to Ferd Arndt and sent to the Maine Township Senior Citizens Organization, 2510 W. Dempster, Des Plaines, 60016.

The senior citizen activities are sponsored by the Maine Township government and funded in part by township revenue sharing funds.

District 219 job listing service

Niles Township High School District 219 today announced a new Job Listing Service for area businesses. The need expressed by area business men and women for part time employees coupled with District students seeking jobs are the two main reasons for the initiation of the new service, according to Marcie Melchiorre, Job Developer for the Niles High Schools.

Placement services will now be offered to approximately 4,000 eligible students in the three Niles schools. Previously, she pointed out, such services were only available to the Vocational Education Student. Some employers have used this system in the past, Melchiorre said, with excellent results. "We look for even better results on this expanded basis", she added.

Employers who wish to list a job opening should call 966-3800 ext. 407 with information as to hours, salary, and type of work desired. Job openings will be updated regularly and kept on file in each school. Melchiorre indicated that jobs in private homes (baby sitting, lawn mowing, etc.) will not be accepted. Students seeking a job should check with the Practical Arts Director in their school.

Notre Dame 1978 raffle winners

Notre Dame High School is pleased to announce the results of its 1978 raffle, which turned out to be the most successful in the school's history. According to Business Manager Jack Burke, there was great cooperation and effort turned in by the entire student body, including especially fine performances by this year's Senior and Freshman classes. The first year Dons had the highest percentage of any group ever. A great advantage to this type of event is that the funds raised directly benefit the students themselves in the form of additional purchase of classroom equipment and improvements of the school building itself.

Notre Dame would also like to congratulate this year's winners. T.W. Russnak of Chicago, holding ticket 1231, received a beautiful 1979 Oldsmobile Cutlass Supreme. Second prize of a 19" Zenith Chromocolor II Color Television Set went to ticket H1574, held by Anthony Mangino of Chicago.

The public is invited. For further information call Ms. Valesny at 282-3766.

Facts about the Knights of Columbus

There are over 5,000 local branch councils in the Knights of Columbus with North American Martyrs Council #4338 in Niles being a branch council under the leadership of Grand Knight Joe Bachochin.

The society has four degrees of membership dedicated to the lessons of Charity, Unity, Fraternity and Patriotism. These form the four basic pillars on which the idealism of the association is built. Among its many activities the society spends almost \$1 million a year to foster moral principles and an understanding of the teachings of the Catholic Church. It also underwrites a number of scholarship and educational programs with an estimated value of almost \$3 million a year. The order is also a leading sponsor of Boy Scout groups and other youth associations. In addition it conducts leadership training programs for the young through its own youth organization, the Columbian Squires. In an ecumenical effort the Knights of Columbus have joined with the Masons and other fraternal groups to establish joint programs to help in the solution of Community and National problems.

The State K of C has several programs in which the Knights become Community involved — the K of C Mental Retardation drive held yearly which raised over \$500,000 in the past six years. The Newman apostolate program which has distributed more than an estimated \$1 million to Newman has given Churches, Hospitals, Schools and Communities damaged by fire, flood or high winds.

Now you're ready to know about the wonderful programs your local council undertakes. North American Martyrs Council #4338 meet every 1st and 3rd Wednesday of the month, starting at 8:30 p.m. at St. John Brebeuf Church Monsignor Flanagan hall on Harlem in Niles.

If you're interested in becoming part of this organization dedicated to mutual assistance and would like to spread Christian Idealism, write Membership Chairman Dan Cincinelli 7013 Howard, Niles 60648 or call him at 647-8164.

LETTERS to EDITOR

Wake up Nilesites!!

Dear Mr. Besser:

I have been around the Village of Niles for a great number of years and have had personal contact with employees of the Police, Fire and Public Works Depts. My main concern is directed to the area of the Police Dept. It was nice to see our Police Chief Clarence Emrikson on T.V., getting his brownie points for his "voluntary" statements of love for his candidate for Sheriff, Mr. Elrod. Meanwhile, the fifth police officer has tendered her (yes, I said her) resignation in the past two years. I'm referring to Nan Mele, the first lady to the Police Dept. I have been in contact with Nan periodically for the past few years and have found her to be highly intelligent and moral. Our T.V. Police Chief has allowed his inferior elements to destroy one more good cop. As said before, five (5) great cops are gone in the last two (2) years. The way I see it, one or two more pushed off will give Clarence Emrikson and his henchmen the total control their arrogant egos' need.

People out there, "Wake up!", or suffer the wrath of Clarence and his Clones.

Name withheld by request

KC's express thanks

Dear Editor:

On behalf of the members and officers of North American Martyrs Council #4338 of the Knights of Columbus we wish to extend our sincere appreciation for your publicity of our Tootsie Roll drive for the retarded children in our community centers and institutions. Also to the fine people to lead a life so many of us are fortunate to enjoy. In giving and remembering them, no doubt, we all have received enjoyment and happiness. Thank all of you for your support and cooperation.

Very truly yours,
Chairman, Kenneth Piasecki of Niles
Grand Knight Joseph Bachochin of Niles
Public Relation Chairman, Michael Provenzano of Niles

New community information program

Maine Township will expand its community information program with the publication of an annual report and information services brochure, according to Maine Township Supervisor James J. Dowd.

The annual report will not be a financial statement as such, Dowd said, but will enumerate the services provided by the township and the number of Maine citizens benefiting from these services.

The information services brochure will list all township services available, procedures for obtaining services, office hours and locations, and the names and telephone numbers of individual officials.

Dowd said the new publications will complement the township's periodic newsletter, the most recent of which will be mailed this month.

Dowd said the annual report for fiscal 1977-78 will be published and distributed within the next few weeks, and that the brochure would be available shortly after the first of the year.

Maine Township residents who wish copies of any or all of the three publications may call the clerk's office at 297-2510.

Legion Auxiliary Christmas Cheer Party

Next Wednesday, Dec. 6, is the date for the pre-holiday annual party of the Morton Grove American Legion Auxiliary Unit #134. Chairman Arlene Rook and her co-chairman, Doris Koob, encourage advance reservations; however, they are not needed and tickets will be available at the door.

The event is scheduled to begin with cocktails at 11:30 and cards and bingo to be played after the luncheon. The yearly Christmas Cheer Party will be held at the Post Home, 6140 Dempster, Morton Grove.

Mrs. Rook has announced the Hoffmans of the Morton House are catering the meal. Instead of the traditional poultry entrees presented at this time of the year, the menu for the Christmas party will include beef chop suey, rice, roll and butter, salad, beverage and desserts concocted by the ladies of the Auxiliary Unit in their own kitchens.

This Christmas Cheer event derives funds for the Auxiliary Unit to continue their ongoing project of rehabilitation of the former servicemen. Each hospitalized veteran, for instance, is given a gift at the holiday season. In addition, a cart of gifts for remembrances for their families are offered them at no charge; and Auxiliary volunteers wrap the articles for the wives and children, enabling the men who served to present a token of their love to the members of their families.

Donation for the event is \$4. Top prizes to be awarded during the afternoon festivities are \$100 and \$50 cash and a floor model terrarium. There will also be food baskets and other items. Through Doris Kamick, Consolidated Foods have donated one of the baskets of food prizes.

Mrs. Rook was instrumental in hand making Santa decorations for the tables which will be the table prizes. She was assisted by Mrs. Koob, Jerri O'Connor, Mrs. Kamick and Christine Sesterheim.

Bob O'Connor and Mrs. Rook also constructed holiday red vinyl napkin rings and place mats to keep with the time of the year.

Bob O'Connor was Mrs. Rook's

Santa-assistant to get the Rose Bowl tickets made.

The prize recruitment committee was composed of Gerakline Hattendorf, Doris Koob, Jerri O'Connor and Mrs. Rook. The kitchen committee is headed up by Dolores Jenkins and Terry Seher. Prizes will be dispensed by Joan Kopinski, Doris Koob and Gerakline Hattendorf. The cake committee is composed of Pearl Smolinski, Elsie Warner and Christine Sesterheim. The Rose Bowl will be presided over by Eleanor Schmidt and Evie Ross.

Jerri O'Connor will put in an appearance as Santa Claus. Santa's pack traditionally includes items for adults and kiddies which the participants may take home for their families.

In addition, the Veteran's Craft items will be on display. These are miscellaneous household and various articles hand crafted by former servicemen, many from hospital beds. It is their only source of income in some instances. The Auxiliary sells these items to enable the vets to lead a productive life with therapeutic value obtained while fashioning the many items in the jewelry line, toys, knick knacks, rugs, dish towels, gift articles and incidentals which lighten the Christmas shopping burden of all who see them.

Kris Karsten is president of the Auxiliary and will welcome all the guests. The male population are also invited to this fun party, and singles will be placed with others to play their choice of card games following the luncheon.

PARK DISTRICT NEWS

Thanksgiving celebration

The Morton Grove Park District 4 year old pre-school children celebrated Thanksgiving on Wednesday, Nov. 22. The National Park Pilgrims fixed a thanksgiving feast for the Oketo Park Indians.

This festive event took place at National Park. The 4 year old pilgrims prepared applesauce, cranberries, turkey, potato chips, cupcakes and kool-aid for the Indians. This food was prepared by the kids under the supervision of pre-school teacher, Garnet Fleming.

This experience of Thanksgiving helped our 4 year olds learn the true meaning of Thanksgiving. And on behalf of the park district and the pre-school parents we would like to give a special thanks to Garnet Fleming and Arlene Liberson for making this all possible.

O'Hare Bank breaks ground for new facility

On Thursday, Nov. 15, ground was broken for O'Hare International Bank's new 6,700 sq. ft. banking facility. The banking facility will be located at 6401 N. Harlem ave., between Devon ave. and Northwest hwy. in Chicago. The main banking office is at 8501 W. Higgins rd., at Cumberland ave. and the Kennedy Expressway, in Chicago.

Mr. Lyndon D. Comstock, President and Chief Executive Officer of the bank, says that this new facility will enable O'Hare Bank to better serve their existing customers and will afford convenient banking to the residents in the area of the new facility.

The architect and contractor for the new two story bank facility is Schallock Petersen and Associates, Inc. The brick and tinted glass facility construction will house a total of 15 employees. There will be six teller windows in the lobby, facilities for opening

new accounts, six drive-up teller stations and off-street parking. Building completion is expected in the early summer of 1979.

During the ceremony marking the occasion, Aurelia Pucinski (Mrs. James Keithley), local attorney and daughter of 41st Ward Alderman Roman C. Pucinski, said that she was very pleased to see this beautiful new banking facility constructed in her ward. She feels that the O'Hare facility will be convenient for the residents and businesses of the community. She also stated that tremendous business opportunities lie ahead for the Northwest neighborhood and the bank which has served the area so well since 1958.

O'Hare International Bank, founded Dec. 5, 1958, under the name of The Bank of Park Ridge, was originally located at Talcott rd. and Prospect ave. in Park Ridge. Converted from a state bank to a national bank on Feb. 5, 1960, with the change in name to The First National Bank of Park Ridge, the bank's exceptional growth forced expansion of the Talcott rd. facilities several times. Further growth necessitated the board of directors to look for new quarters on the first floor of the new seven story building at 8501 W. Higgins rd. On April 11, 1966, the bank opened for business under its new name O'Hare International Bank, a national association.

Maine North commended students

Maine North principal Mr. A.K.H. Cochrane congratulates three Maine North students who will receive letters of commendation for their achievements in the annual National Merit Scholarship Program. This honor recognizes each student's outstanding performance on the preliminary scholastic aptitude test/National Merit Scholarship Qualifying Test which was administered nationwide to high school juniors in October 1977. Letters of commendation were presented to Sharon Kraus, Sharon Hyman and Joseph Rancich. A total of almost 35,000 commended students throughout the United States are being honored by the National Merit Scholarship Corp.; students in this group represent the top 5 per cent of more than one million participants in the Merit program. Although commended students scored slightly below the level required for Merit Program participants who were named semifinalists and who will continue in the competition for Merit Scholarships to be awarded in 1979, each commended student has demonstrated exceptional academic promise.

LGH diabetes screening reveals suspected cases

Twenty-seven out of 425 persons who recently received free diabetes tests at Lutheran General Hospital's Ambulatory Care Center were found to have abnormal test results. These persons, who represent 6% of those tested, were advised to see their physician as soon as possible for further evaluation.

If it is determined that the person has diabetes, he or she can immediately begin to get the disease under control and continue leading a normal life.

According to Richard Balasa, M.D., medical director of biochemistry at Lutheran General, "Diabetes is a common disease. While one-to-two percent of the population has been diagnosed as having it, it's estimated that an equal number remain undiagnosed. Diabetes is also a potentially serious disease. If untreated, it may lead to complications such as blindness, kidney disease, hardening of the arteries, stroke or coma. Because effective methods of treatment are available, early diagnosis becomes important. A very effective means of early detection is mass screening combined with careful followup of persons whose lab findings suggest the disease."

Dr. Balasa points out, however, that "Not everyone with an abnormal finding actually has diabetes. Only further studies by a qualified physician can determine this."

The diabetes testing took place during National Diabetes Detection Week, Nov. 5-11. Lutheran General was one of 90 Chicago area hospitals to participate in the screening effort sponsored by the American Diabetes Association. Blood tests were drawn by hospital lab technicians at the Ambulatory Care Center, 1775 W. Ballard, Park Ridge.

Turn your home into an energy conservation machine. With a heat pump.

Instead of burning scarce fuels, the heat pump uses electricity to capture heat from a limitless energy source, the sun. It's the most practical, efficient heating and cooling system you can install today. And it's dramatically changing the way we use energy.

Turns heat energy outside in and inside out.

The same principle that makes the heat pump work is already at work in your home inside your refrigerator. In fact, a heat pump is a lot like a refrigerator. There's an indoor unit that consists of a coil and fan. There's an outdoor unit that consists of a coil, fan and compressor. Piping connects them. Inside the system, a refrigerant circulates, "carrying" the heat from inside out and outside in.

Even on the cloudiest, coldest day of winter, there's still solar heat in the air. The refrigerant in the outdoor coil absorbs this heat, it is compressed, and pumped inside. The heat comes out, keeping you warm.

In summer, the process is reversed. Warm air inside the home is blown over the indoor coil. The refrigerant absorbs this heat, it is pumped outside, then condensed. The heat comes out, leaving you cool.

The amazing heat pump is installed on the outside of the home. It's about the same size as a conventional central air conditioning unit.

No matter how the temperature changes, the heat pump automatically makes the necessary changes to keep you comfortable. And the unit filters the air and dehumidifies, too.

Produces more energy than it uses.

That's why the heat pump is a real energy conservation machine. In a typical Illinois winter, a heat pump provides at least 1.5 units of heat energy for every equivalent unit of electricity it uses.

Unlike systems that merely use up energy to make heat, the heat pump uses electricity to produce more energy than it uses. It's this extra energy bonus that makes the heat pump a smart investment.

The initial cost is a little higher. But the operating cost is lower. So in the long run, the heat pump can help you save.

ED HANSON

Short, short, short love stories ...

Love will find a way

Jill was a comely lass, fairly bursting with youthful charm. She was walking along a lonely country road.

Jack was a handsome lad, fairly bulging with muscle and youthful vigor.

He was walking along another lonely country road. These two roads finally united at the top of a green knoll. Comely Jill and handsome Jack reached the junction at the top of the green knoll simultaneously. Thus, their paths met and they smiled and walked on from there together, making small talk.

Handsome Jack was carrying a large iron kettle on his back. In one hand, he held by the legs a live chicken; in the other hand, a cane; and he was also leading a goat. As they began their decent down the knoll, there was a deep and heavily wooded ravine at the bottom. Jill said to handsome Jack:

"I am afraid to go thru that ravine with you. It's a dark and lonely place and you might overpower me and kiss me by force!"

"How can I possibly kiss you by force," asked handsome Jack, "when I have this heavy iron kettle on my back, a cane in one hand, a live chicken in the other, and I am leading this goat? I might as well be tied hand and foot!"

"Very true," agreed comely Jill, "but if you should stick your cane into the ground and tie the goat to it and turn the kettle upside down and put the chicken under it, then you might wickedly kiss me in spite of my resistance!"

"I would have never thought of that," mused handsome Jack.

When they reached the ravine, handsome Jack stuck his cane into the ground and tied the goat to it. Then he lowered the kettle down from his broad shoulders, imprisoned the chicken under it and kissed the comely young lass.

Later, they made their way together until they reached a fork in the road. Comely Jill went her way and handsome Jack went his way.

They never saw each other again. This was just as well because both were happily married.

What caused him to do it?

Was it the exotic scent of her seductive perfume? Was it the beauty of her golden hair? Or was it the excellent vintage of champagne he had imbued rather freely of at supper that prompted his proposing in the garden under a starlit sky?

"I can't marry you," she said breathlessly.

"Oh, rubbish," he exclaimed.

"It's true - it's really true, darling," she sighed.

"You're an angel - you're so lovely it frightens me," he breathed ardently.

"No, no, you are wrong," she cried. "I'm unworthy. I'm vain. Silly, idle - wasteful, utterly unfit to be your helpmate thru life."

He laughed lightly, saying in a soothing voice, "Why this is utter madness. What sort of a wife do you think I ought to have?"

"A wise, conservative, practical woman," she replied softly, "one able to live on your salary."

Unfaithful

It cannot be said at what moment the dreadful thought came into Judy's mind. But once this ugly, suspicious thought penetrated Judy's consciousness, it tormented her and filled the hours she spent with Tom with the dark shadow of doubt...

Was Tom leading a double life? This sinister phrase mocked her again and again... particularly, at night when she woke up and found Tom's bed unoccupied.

The climax finally came one evening when Tom arrived home late for dinner. Judy decided then and there she must discover the truth. Tom had a way of being tardy for dinner and barely glancing at her. He scarcely tasted his food and in the past three weeks, there was hardly an evening when Judy could count upon his companionship.

Again, this particular night, he made a move toward the door, as had become usual.

"Aren't you going to stay, dear?", Judy asked as fear clutched her heart.

Tom made no reply; instead he gave her one of those long magnetic glances that had so thrilled her when first they met. Then, he was gone into the night.

Judy watched him from the window as he paused briefly upon the step and glanced back over his shoulder.

"Tom!", Judy breathed almost inarticulately.

Swiftly, with the blind instinct of the desperate for action, Judy threw her coat over her shoulders and dashed out into the darkened street. Tom was just turning the corner. Judy followed him for two more blocks, then he turned into an alley and made his way toward a house on the corner. Judy crouched in the shadows behind a garage and waited, soul-sick now that the moment of truth was at hand.

District 63... Continued from Page 1

Ms. Orth questioned the competency of the company noting it is a conglomerate which owns nursing homes and is in the fertilizer business, and suggested the company's credentials in the education field are difficult to assess.

The hour-long debate was centered around the company's Perceiver program. It is a taped interview method which the company recommends, both in the hiring of teachers and substitute teachers, in aiding in communications with staff teachers and in trying to communicate with students.

The method questioned by Ms. Orth and several audience participants questioned the competency of the interviews and deplored the psychological implications of questions which some felt did not come from qualified interviewers. They also deplored the invasion of students' and teachers' privacy by asking questions which Orth felt was none of the teachers or school district's business.

One alleged student question was what they privately thought about, implying the invasion of their private thoughts was beyond the relationship of teachers and their students. Similarly, a substitute teacher mentioned questions were asked which she felt had no relevancy in determining the qualifications of a teacher to teach.

Ms. Orth concluded the taped interview program is an inconclusive program based on hypothesis, a program which has never been substantiated by being published in educational journals.

Superintendent Moe said the method is one tool used in the district. In the case of student interviews, they are only done with the approval of parents. One school teacher, Irene Carlson, said she took the Perceiver program and said it was not a negative but a positive experience, certainly not threatening, but rather helping her "know her strengths".

School board member Mark Davis questioned Orth's sincerity contending the board and superintendent should have been made aware of their concern, rather than have the matter presented without preparing the board to answer the rather storm.

plex matter. Davis also noted the newspapers were contacted to attend the meeting implying the effort was staged to make the board look bad.

In the long convoluted discussions which followed, Superintendent Moe said the closing of schools has resulted in "you're taking it out in many ways". He left little doubt the new harangue was merely a ploy to get back at the school board because of its closing of two schools the past year. Interestingly, the supporters of Ms. Orth's point of view included many of the activists involved in fighting the school closings.

Moe cited the great progress the district has made in the last 13 months including the closing of 2 schools, the savings of \$200,000 yearly, the reduction of teachers and emphasized there has been no grievances lodged against the district during this period.

While Ms. Orth said she represented many people in the district, when she was challenged to name the group she refused contending it was not necessary. But intermittent applause indicated many of the residents involved in opposing school closings were in the front line in encouraging her presentation.

Ann Sostrin, a Morton Grove resident who has been unsuccessful in two tries at gaining a seat on the school board, sided with Orth contending the money spent on the program is not important but the implications of the interviews are dangerous. She cited psychologists who seemed to back-up her point of view.

Two former school board members, both of whom were at the center of past years' acrimony, were also present applauding Orth's point of view.

Taping interviews of students and teachers may have been a genuine concern of some of the people present. But former board members who helped create chaos in the district and have been shunted aside, and very angry parents who resent school closings, seemed to be at the center of the storm Tuesday night - a storm of their own making. They seemed like artificial rain-makers, whose rainclouds are likely to blow away as soon as they can change the weathervane in the direction of still another storm.

Establish scholarship fund for Nilehi student

A scholarship fund is being established to honor the memory of Ruth-Lynn Saltzman, Niles East senior who died of cancer earlier this year after a long illness.

"Ruthie" Saltzman was in the top 5% of her graduating class, had been elected to the National Honor Society after four semesters in school, was active in drama and the Spanish Club and had a strong desire to attend college and seek a career in physical therapy other health related field in spite of her illness. As one of her listed freshman goals, Ruthie wanted to "make lasting friendships." Her counselor at Niles East, Mr. Len Winans said she certainly achieved that goal. "She reached out to people."

The initial contribution to the fund was made by Ruthie's co-workers at Oakton Bakery and anyone caring to contribute to the

fund can do so by sending a check to either Mrs. Evelyn Rosenzweig, 4622 Oakton, Skokie, Ill. 60076 or to Mrs. Kay Greenwald, Bookkeeper, Niles East High School, Lincoln and Niles ave. Skokie, Ill. 60076. Checks should be made out to the Ruth Lynn Saltzman Scholarship Fund.

The proceeds of the fund will be awarded to a worthy member of the Niles East Class of 1979 by the Local Scholarship Committee.

BUSINESS

First National of Morton Grove promotions

Christine Schycker

Christine Schycker and Edgelard Unverricht have been appointed assistant cashiers at the First National Bank of Morton Grove, announced bank president Marvin von Aswege.

Prior to joining the bank in 1972, Mrs. Schycker was affiliated with Glenview State Bank. She and her husband Terrance live in Glenview.

Edgelard Unverricht

Mrs. Unverricht, with the bank since 1967, had been head savings teller, note teller and assistant manager of the bookkeeping department before her new assignment.

She attended the American Institute of Banking and resides in Morton Grove with her husband Harry. They are the parents of two children, Kurt and Heidi.

Cieslak named Executive VP of Morton Grove Bank

Lee J. Cieslak was elected Executive Vice President of The Morton Grove Bank at a recent meeting of the Bank's Board of Directors.

Cieslak recently joined the bank from North Shore National Bank of Chicago, where he was Vice President in charge of Commercial Loans and Real Estate Loans.

A banker with 20 years of experience, Cieslak has also engaged in the private practice of corporate and banking law as well as estate planning and administration. He was general counsel to several Chicago based corporations.

He had held the chief executive position with the Villa Park Trust and Savings Bank and was an Officer with the First National Bank of Chicago and The First National Bank and Trust Com-

pany of Evanston. A lifetime Chicago area resident, Cieslak is a graduate of Loyola University, where he received a B.B.A. degree and Loyola University School of Law.

Madison National offers automatic transfer service

Automatic Transfer Service has been introduced in Madison National Bank of Niles and is off to a great start, according to Robert Lazar, executive vice president.

Automatic Transfer allows customers with both checking and savings accounts to keep a zero balance in their checking account and still write checks. Money to cover them is automatically transferred from their 5% interest bearing savings accounts.

Although some Chicago downtown banks offer a similar program, suburban banks in the Niles and Des Plaines area are not yet offering the program. The plan calls for a minimum \$1,000 balance in the savings ac-

count. If the balance goes below this minimum, a \$5 one-time monthly service charge is assessed.

Lazar stated that the \$1,000 minimum balance is below that required by most Chicago banks and other banks offering the program. "Customer reaction has been very enthusiastic," he said, "and we're extremely pleased to have brought to our customers the opportunity for added interest earnings."

Camp Fire Camporee

Camp Fire leader Kathie Jacoby helped Amy Schaffer, Dawn Baudek, Nicole Jacoby and Noelle Jacoby wrap their hamburgers in foil for a tasty lunch at the Camp Fire Camporee held recently.

The Camp Fire Camporee was held at Lakewood Forest Preserve, east of Wauconda, recently under the direction of camping committee members, Herb Lieb-sch of Niles and Lynne Petersen of Park Ridge.

One of the purposes of the camp out was to give the members an opportunity to enjoy the thrill of camping outdoors, as well as assisting in the preparation of their own food. Varied menus emerged as some groups planned their menus as well as did their own shopping. Witches Stew, a unique combination of canned soups and foil wrapped hamburgers were favorites. Each group also had the fun of setting up their own tent. The Maine-Niles District has tents available

for its members use. Even though the girls are taught self-reliance, it is under adult supervision, usually in a ratio of one adult to 6-8 girls. Outdoor training was required for the leaders who brought their group. Fathers were on hand during the night-time hours for security and safety. Special activities such as apple picking and making grape juice, as well as fun and games, filled the day on Saturday.

If you know a girl who would like to participate in fun adventures like this Camporee as well as other exciting activities and lives in the Maine-Niles area, please call Kathie Jacoby for membership information, 696-0742.

A parent looks at education in the Maine high schools

Chester Dick, President, Parent Teacher Council, Maine Township High School South, feels that young people receive a superior education in the Maine Township high schools. He is confident, even with fewer students in the four high schools and declining resources that the schools will remain an attraction to families seeking to live in an area providing the best educational opportunities.

Commenting on education at Maine during the celebration of American Education Week, Nov. 12-18, Dick praised Maine for offering students a multilevel instructional system, for allowing individuals to excel at their own level in both the higher academic programs and in the multifaceted vocational programs.

As a civil engineer, who is in touch with local businesses and community agencies, Dick claims that business and industry are quick to recognize graduates from any one of the Maine high schools. They are prepared for the first job because of their high quality business and vocational training and experience in related high school programs, he said.

Dick is currently serving as the parents' representative on the District 207 Steering Committee conducting a year-long, self-evaluation of the Maine schools. A self evaluation is regularly done prior to the North Central Association evaluation, which will take place in late 1979. Schools must be evaluated by the

association to maintain accreditation.

Dick noted, as a citizen taxpayer, he is aware that during this self evaluation, school administrators will be taking a hard look at district programs in order to identify ways to re-shape those school programs because of declining enrollment and reduced income. The plan will surely be to establish a system of priorities, he said.

"I'm not sure I can come to grips with some of the changes that may have to be made," Dick said, "both in educational programs and extracurricular activities."

He explained his reluctance to see activities cut back by saying he considers such activities to be excellent character builders. While every student may not participate in such activities, he said, there is a place for everyone.

"I'm probably not the ordinary citizen in this township. I do know the administration will have a hard time even after it reaches decisions. There will surely be battles with some parents," he predicted.

Dick is perhaps more optimistic than some about the ability of communities, such as his own, Park Ridge, to turn around the phenomena of declining enrollment. He sees the present amazing lack of school children as a temporary trend and believes that younger families will again be moving in to the Maine area.

Officials who must bear responsibility for the incredible foul-ups in the police department.

Niles is presently expending about \$90,000 for the wasteful administration of three police officers whose work is at best trivial. Ninety big ones are being paid by the taxpayers for a police officer patrolling a shopping center, and for two others being placed on semi-retired jobs because the top guys look upon them with disfavor.

There's no sense sugar-coating a problem which has existed for many years. In its simplest terms, Niles Police Department has been poorly administered. On the surface it could be said the problem lies at the feet of the police chief. But that's not quite how Niles works. The police chief is the hand-maiden of Niles' village president, Nick Blase. When Nick hollers "Jump!", everyone's feet are off the ground.

Niles, like Chicago, is a city which works. In Niles' case it works because it has lots of money to throw around. And like Chicago, the city works when the top guy in town cracks the whip. When Niles' Nick decides he's had enough resignations, and enough bad publicity, he may take the police department by the horns and straighten out the many years of mismanagement.

Perhaps Nick Blase is tiring of his years at the top. It's usually healthy to change administrations after two or three terms in office. Nick is now in his 5th term. Should we wonder aloud if being in office for 5 terms leads to problems as we've had in the police department?

It happens to be a Nick Blase problem. It also happens to be a Niles problem.

He and Chief Huscher of the Fire Department recommended accepting the low bid of Midwest Ambulance for \$33,692. Trustee Henricl moved to accept the recommendation and the board agreed. Huber also asked for and received permission to advertise for bids for a telecommunication and a radio communication system for the Police Department to be installed in their new building. Permission was granted.

Attorney Martin Ashman said the state has agreed to pay 90% of the cost of \$75,952 for the installation of flashing lights and gates at the Lincoln ave. railroad crossing. Morton Grove will assume the other 10% of this cost from the Motor Fuel Tax Fund. Trustee Neil Cashman noted the MFTF receipts from the month of November were \$28,036.50.

Ron Henricl reported that from Nov. 13-26, the Fire Department handled 80 alarms, and there were 12 paramedic calls.

Dr. Henricl also said our Fire Department has responded to an alarm in the unincorporated area around Golf and Washington for the second time, and has not received payment for the services rendered the first time, although a bill was sent to the property owner by Chief Huscher.

Martin Ashman said that he feels this is a collectable bill and if there is no response for payment, he will try to collect it. Don Sneider, said the Public Works Department was out salting and plowing during the recent snowstorm and wished to commend them for a job well done. Gregg Youstra said the Traffic & Safety Committee have been meeting to discuss parking adjacent to businesses in Morton Grove and will have some recommendations soon.
