## From the LEFT HAND

by David Besser Editor & Publisher

We've been publicly endorsing candidates for the past 20 years for local offices. It is perhaps somewhat of a presumption on our part since our own prejudices are not unlike other voters in our districts. Nevertheless, we've taken our positions, made them public, and hopefully, have made a small contribution to the cause of better government.

If you should consider our endorsements, you must understand an important point. We have concerned ourselves more with school matters in recent years. Not only are 70% of your tax dollars going to local school districts, but the volatile nature of school matters deems your interest, knowledge and concern. The rise of union activity, and the reduced enrollment, with subsequent school closings, are primary concerns which should be thoroughly studied by informed citizenry. These are important reasons for concerning ourselves with local school matters.

In East Maine School District 63...

The primary issue here concerns electing responsible, concerned and knowledgeable people who will best serve the entire community. Based on these criteria we believe Dick Smith, Larry Solomon and Don Weiss are best qualified to serve.

The sound and fury in District 63 the past year has centered around the closing of schools. Subsequent issues concerning interviewing practices are subterfuge issues created primarily by the same people who are angry because their neighborhood schools are closed. Their candidates are one-issue candidates. It is unlikely these candidates will continue to be involved in the district if they aren't successful in Saturday's election.

## Houndt found innocent of charges

Former Morton Grove Mayor Herbert Houndt was found innocent Monday of official misconduct and conflict of interest charges by Judge Mark Jones of the Cook County Circuit Court. The judge later stated his decision was based on the fact there was no criminal penalty for Houndt's actions in 1973 when the alleged crimes took place. The law, which was amended in 1977, now carries a penalty of one year in prison or a \$10,000 fine.

Houndt was charged with purchasing two former village police cars in 1973 while he was mayor of Morton Grove. This action violated a law which prohibits a local government official from purchasing surplus government property.

Charges were also made that Houndt authorized the village to pay a \$325 repair bill for one of the vehicles.

# Village, Park vote on Tuesday

On Tuesday, April 17 voters will go to the polls to select candidates for the Niles Village Board, Niles Park Board and Morton Grove Village Board.

In Niles, incumbent trustees Angelo Marcheschi, Bart Murphy, and Orville Ottow running under the banner of the Progress With Economy Party are seeking to retain their seats on the Niles Village Board. Their campaign format has been low taxes and good fiscal management. Murphy was appointed to the board to complete the term of former Board President Millie Jones, Walt Besse, who was elected to and served on the Niles Park Board from 1969 to 1975 and Elaine Heinen, who is making her first bid for a park board seat.

Running against the Progress With Economy slate is an independent, Michael Provenzano. Provenzano, a Niles Park Board

member for 6 years and a former youth commissioner has distinguished himself as an individual dedicated to civic affairs in the Village of Niles for the past 20 years.

Seeking to fill two 4-year terms on the Niles Park Board are Mary Marusek who was appointed to the board to complete the unexpired term of Jack Leske, Louella Blaine Preston, who was appointed in June, 1978 to complete the terms of former Board President Millie Jones, Walt Besse, who was elected to and served on the Niles Park Board from 1969 to 1975 and Elaine Heinen, who is making her first bid for a park board seat.

Ms. Hansen remarked they were very fortunate to live

## Garage fire damages set at \$100,000

Niles firefighters battled a blaze Sunday afternoon, April 1, in a garage at the rear of 8019 Oketo that gutted the interior of the building. The owners, Mr. and Mrs. Ed Huber, were away on vacation at the time according to a fire spokesman.

No one was injured in the fire, listed as accidental by Niles fire officials.

The fire broke out around 3:30 p.m. said a fire source, after two sons of the homeowner had finished some automotive work.

The fire spokesman said the two had been using a large portable heater similar to the type used on construction sites to heat the huge garage as they worked.

The heater was turned off and covered on completion of their job and both boys had returned to the house. Apparently the heater was not given sufficient time to cool and the resulting intense fire spread to the walls of the garage and upward to the loft, stored with combustible materials.

Fire officials set a \$1,000 estimate of damages to the garage and \$100,000 damage to contents, due to antique and personal value of the items damaged.

Niles Fire Chief Albert Hoelbl said the boys had exercised caution but that "it was one of those unfortunate accidental fires."

Deputy Chief Charles Bobula was also on the scene with 6 responding firefighting units.

# High winds play havoc in Niles

By Alice M. Bobula

Gusts of winds up to 66 m.p.h. swept thru the Chicago area and northern suburbs Thursday evening, April 5, knocking down power lines.

In Niles electrical power "was reduced in isolated areas" according to a utility spokesman. Roofs were reported blown from sheds and an industrial firm and glass windows were blown in of stores and homes. No injuries were reported in the Niles area.

According to the National Weather Service Thursday the winds were the result of a "tremendous surge of cold air moving in from the northwest" which caused temperatures to plunge. Showers turning to sleet and snow flurries accompanied the incoming cold air.

Winds diminished dramatically Friday with temperatures during the day ranging in the upper 30's.

Commonwealth Edison Co. said customers in Niles were left with reduced power for a time when high winds struck down power lines in "scattered areas".

While "Niles was not badly hit," said District Supt. Bob Reidel, he noted Evanston and Lincolnwood were "hit particularly hard."

Reidel said service was reduced in the Niles industrial area in the 6100 and 6400 blocks on Touhy ave. and at Coca Cola Division at 7400 Oak Park ave. Service at Brunswick Bowl, 7333 Milwaukee ave. was reduced severely he added.

# Easter Party

The Niles Park District is hosting an Easter Party. Join the fun and games April 14 at the Grennan Heights Gymnasium, 8255 Oketo ave. starting at 1 p.m. There will be all kinds of activities, for all ages, for a great time! The younger set won't want to miss the Easter Bunny and everybody will have fun in the Egg Surprise Hunt. Come to the festivities Saturday, April 14!

# Porter campaign

Former Congressman Donald Rumsfeld and Frank W. Conside, of Winnetka, have been named Co-Chairmen of the John Porter campaign for Congress in the north suburban 10th District. Porter, the Republican standard-bearer in 1978, fought Congressman Abner Mikva to the wire last November - losing to the veteran Democrat by 650 votes, 89,479 to 88,829.

Conside is President of National Can Corporation and the current President of the Chicago Association of Commerce and Industry. Conside headed the Porter for Congress Committee last year and previously chaired the Congressional campaigns of Rep. Henry Hyde (R, Park Ridge, 6th) and Samuel H. Young as well as the 1976 campaign of Gov. James R. Thompson.

Rumsfeld was Secretary of Defense under President Gerald Ford and now is Chief Executive Officer of G.D. Searle Company, headquartered in Skokie. Rumsfeld served the north suburban area in Congress from 1962 to 1969.

## Evans responds to charges of District 207 extravagance

Dear Editor:  
I want to take this opportunity to thank you for the coverage you have given the District 207 School Board election. Such coverage is vital to the health of our school governance system which has its basis in local community control of public education. I want to join you in urging everyone to vote in the school elections next Saturday, April 14.

In the interest of "truth in politics" I want to take issue with the candidate who is accusing the high school district of extravagance and saying that our superintendent "sits on a \$1,000 chair." There is certainly no chair in the administration offices which costs such an amount, and in fact the chair in which Dr. Short sits behind his desk was purchased eight years ago for \$178, according to the district purchasing agent.

This same candidate also charges the district with a lack of adequate discipline, accusing the schools of coddling vandals and winking at drug dealing. If, as he has stated, he has "walked through the schools and observed senseless acts of vandalism along with exchange of drugs," then he should be subpoenaed as an accessory to crime, for he certainly did not report these law infractions to the proper authorities at the time.

I do not believe that he has ever taken a look at the policy manuals of the district, much less inquired about our suspension policies or about our curriculum. He is offering advice which is

patently redundant: District 207 has already in place discipline policies which require suspension and restitution in vandalism cases; and the drug education program he is promoting has been part of the health course required of all students and given by the physical education departments of the district for many years.

The Maine Township High Schools are judged by national standards among the best in the country, and our district has this good reputation because, contrary to what this candidate claims, it offers a broad educational program to meet the needs of every student - those entering the working world immediately after high school as well as those going on for further education and training. I will continue to work to support this kind of educational opportunity for the young people of our community as the highest priority of the District 207 Board of Education.

Sincerely,  
Anne H. Evans  
Candidate for Re-election  
to the Board of Education  
District 207

The East Maine Township General Caucus urges you to come out this Saturday, April 14 and vote.

The Caucus has endorsed Richard Smith and Donald Weiss. Mr. Smith is seeking re-election and Mr. Weiss is seeking his first

## Reiss' endorse District 63 candidate

Dear Editor:  
The East Maine District #63 Board of Education has been well served for the past three years by Richard Smith who has displayed both integrity and a high commitment to the children of East Maine.

For this reason, we feel that the district would benefit most by the re-election of Richard Smith to the Board of Education to provide the necessary experience and stability which will be required in the coming years.

We would also urge the support of two newcomers, Larry Solomon and Donald Weiss who have likewise displayed a sincere interest in education in the district and who can be counted on to work with the Board and Administration to meet the needs of the district.

These three candidates deserve the vote of every interested citizen on Saturday, April 14 from noon to 7 p.m. at their local elementary school.

Sincerely,  
Happy and Larry Reiss

term on the District #63 Board of Education. Both have been actively involved with the working relationships of this community, and are concerned with the problems between the board and the community. They are seeking election to uphold the quality

## Don't let "Trojan Horse" gain control of District 67

Dear Editor:  
Do the residents of School District 67 understand what is at stake in the school board election to be held Saturday, April 14?

A small group of residents in Golf and Golf Acres (many of whom are new to the area) initiated a petition for detachment from District 67. They claim their "community of interest" is in Glenview.

District 67 opposed the detachment because it will be an educational and financial detriment. Approximately \$250,000 each year will be lost in tax revenue. Teachers will have to be dismissed in wholesale numbers. Drastic cuts will have to be made in virtually every program. Class size will have to be increased dramatically.

This group has taken their well-organized, well-financed campaign before the Cook County regional board of school trustees who approved their request on April 2. To counteract the possibility of an appeal from the district, they also are attempting to elect 3 candidates from their own area to the school board. If elected, they will control the

board, undoubtedly will vote for detachment and then resign leaving the district in chaos!

Should the whims of these few parents be allowed to adversely affect the education of our children? As the school board candidates who have been endorsed as Best Qualified by the community caucus, we say "No!"

If you live in District 67 (whether or not you have a child attending school) you have an important stake in this election. When schools become "second-rate" demand for homes decreases and property values may plunge.

Don't let a "Trojan Horse" gain control of our schools. Keep our schools outstanding, home values high and taxes low. Vote for SHELDON MARCUS, JUDY KOCHMAN and ED DUGLOW.

Sheldon Marcus (3 year term)  
Judy Kochman (3 year term)  
Ed Duglow (1 year term)

## Urges retention of Brasch in District 71

Dear Editor:  
The voters in School District 71 are being given the rare opportunity of electing new faces to their school board.

Three seats are to be filled - and only one incumbent is running for reelection. We encourage everyone in the district to come out and vote on April 14 and at the same time assure that Ed Brasch is retained.

Ed has proven himself a valuable asset on the board. His views have reflected a commitment to the finest education possible for our children and he has addressed himself to many issues with honesty and forthrightness.

In order that the School District 71 School Board can continue their excellent work, retain a "voice of experience" by reelecting Ed Brasch!

## Exercise your right to vote

Dear Editor:  
On Saturday, April 14 between 12 noon and 7 p.m. you will have the opportunity to vote for 3 candidates for the Maine Township HS Board. If you care about your children, your taxes, unjust firing of teachers, vandalism, student drug abuse and a possible school closing, you will vote. If you don't, then you won't. I urge you to exercise your right to vote.

I will work against a tax increase, against vandalism and drug abuse by our students. I will try to retain as many teachers as possible in and through special programs funded by the Federal government. I will work for a better cafeteria program, to maintain the quality of education and above all in your interests and that of your children.

Respectful,  
Thomas W. Flynn  
Maine Township HS  
Board Candidate

## All season NBL registration absurd!!!

Dear Mr. Besser:  
Yikes! Registration all season? Does Mr. Terpinas want to send half of the NBL families to the Looney Bin?

Most families, like us, have two or three boys on two or three different teams, following two or three different schedules. Finding time to register is easy in comparison. I can't imagine the chaos and confusion it would cause. I visualize an Abbott and

Costello routine - "Who's on first and where's tomorrow!"

Of course an exception should be made if a minimal amount of parents miss registration by a day or two, even a week or two. But registration all season? Absurd!

Besides the logistics, think of the boys:

1. Would a whole new team be formed if there were ten or more

late registrants or would the boys be absorbed in the existing teams?

2. If a whole new team was formed in mid-season, would they be taken seriously? What about their morale as a "mid-season" team?

3. What would happen to League standings? (Pity the person in charge of the statistics.)

4. If absorbed into existing teams, would there be resentment because bench time would be increased for the boys who already feel disheartened because they don't play enough?

5. The boys give up a lot of time for baseball and develop a strong team relationship because of long, hard hours practicing and developing their abilities to make the team what it is. Would they like being replaced in mid-season by a boy who didn't register on time? Would the mid-season player feel good riding on the glory of his team, knowing he didn't put in the long hours of practice like the others? Wouldn't he feel an outsider to the team spirit that had already developed?

I'm happy to see the NBL is flexible enough to have a late registration to include the boys who missed it. But once the season opens, would I feel sorry for the boy who's parents neglected to register him and he had to wait for next year? No.

I'd feel sorry for the boy who's feelings are neglected by a spoiled parent who wants his son to play the game but HE won't follow the rules.

## Golf stacked board in District 67 could be disastrous

Dear Editor:  
Ordinarily, when one strongly desires to live in another school district, he moves. However, in the case of Golf and Golf Acres, many of the residents are trying to accomplish a transfer without moving. They are seeking by petition to redraw the old long-standing boundaries of District 67. Legally, this can be done provided there is no detriment to the children who remain. Recently, their petition was heard and approved by the Cook County Board of School Trustees at an administrative hearing, with the unusual and unprecedented modification that the commercial land in Golf remains a part of District 67 for school tax purposes.

If that decision stands, District 67 will still lose a tremendous amount of tax money each year, but less than would have been the case if Golf had totally succeeded in its petition. Now, the District 67 school board must decide whether to appeal that administrative ruling to a court of law. Many factors must be considered. The cost of such litigation versus the cost of not appealing, but rather trying to absorb the huge loss of tax revenue; the chances of succeeding in the appeal versus the chances of losing; and, the argument that it's not even sensible to force people to remain in our school district when they don't want to versus the other point of view, that it's not a question of forcing people to do anything. Rather, it is a question of maintaining boundaries; and that people in Golf who feel very strongly are free to move or they can send their children to other school districts at their own cost just as people sometimes prefer parochial schools. These and possibly other factors should be carefully deliberated by the school board.

To complicate matters, on April 14, a school board election will take place wherein 3 of the 7 board seats are in the balance. The Golf areas, that already have 2 members on the board, have slated 3 candidates to run against the 3 candidates that have been endorsed by the District 67 Community Caucus and who are from other areas of the district. In the event even 2 of the Golf candidates are elected, that area would have a majority on the district 67 school board, the very district from which they want to detach.

One can only imagine the frightening and horrifying results that a board top-heavy with Golf members could bring about. Literally, within minutes, the board on a simple motion could vote to preclude an appeal of the decision; it could even vote to award Golf the commercial land as well, for a total Golf victory.

## Increased gas taxes don't affect Thompson

Dear Mr. Besser:  
Governor Thompson, not too long ago, asked the taxpayers of Illinois, by referendum, if they want fiscal responsibility in their state government. (Amazing he has to ask!) The people answered loudly with an affirmative vote for constraint in government spending.

Since then, the state legislators voted themselves a hefty pay raise and he did very little if anything to back his angry constituents. Incidentally, I sent a tea bag.

Recently, he requested an increase in the gasoline tax of one and one-half cents to make necessary road repairs caused by this last severe winter. He is well aware that a considerable portion of the gas tax already is paid to the Regional Transportation Authority (RTA) and the motorist does not benefit from this.

He commented that one and one-half cents is not much to pay for decent roads. What does he mean by decent roads? Many of the pot holes patched in the last couple of years have been reopened this past winter season. Either the material used is inferior or the repair work was sloppy. In either case, our roads are getting worse every year.

Governor Thompson believes that one and one-half cents gasoline sales tax increase is small, but Governor Thompson doesn't have to pay it. After all, his gasoline expenses and his car are paid for by the taxpayers.

Yours truly,  
Anthony J. Guarnaccio

## Apartment fire causes \$6,000 in damages

Fire of undetermined origin Tuesday, April 3 caused an estimated \$6,000 in damages to one of four apartments located on the second floor of a building at 7620 1/2 Milwaukee ave. owned by the D.J.H. Corporation.

No one was injured at the time altho the apartment was occupied by a 12 year old house guest.

Damages to the building were estimated at approximately \$3,500 with a \$2,500 loss to contents.

According to fire records the young girl ran downstairs shortly before noon to tell the apartment tenant Mrs. Marion Pearson, an employee of the Hi Way Club at 7620 1/2 Milwaukee ave., that her TV was on fire.

Firemen later determined the television set was not the cause, but that apparently the fire started somewhere in the vicinity of several large cushions and an easy chair located near the TV.

Extensive fire damages were caused to the living room, furniture, TV, draperies and a nearby vacuum cleaner. The fire apparently caused the death of a cockatoo in his cage.

A fire source said the blaze broke out a large thermopane window overlooking the street. Smoke and heat damage extended throughout the apartment with minimal water damage to the front portion of the downstairs club.

A passing motorist said he was startled to "look up and see flames shooting out of the second story window."

## Niles thanks considerate residents

During the recent blizzards the Public Works Department spent many long hours trying to keep up with the abnormal amount of snow that fell. Many Niles citizens have written to us, called us and spoke to us in person to compliment the snow removal job that was done. We, at the Public Works Department, sincerely appreciate the many compliments and accolades that were received and do want to express our thanks to those who took the time and effort to personally thank us.

It is, perhaps, a natural tendency to remember to criticize but sometimes people forget to compliment. We, therefore, wish to express our appreciation and when the snow flies again you can rest assured the men at the Public Works Department will be there to serve the residents of Niles in keeping the streets safe and clean.

A grateful Public Works Department,  
Keith Peck, Director  
of Public Services

## Support Dist. 67 caucus candidates

Dear Editor:  
We are very disturbed with what is happening in District 67. We believe a small section of the district (Golf/Golfacres) is trying to wrest control of the board for its own self interest. One cannot help but be struck by the fact that 3 candidates from the Golf/Golfacres area have filed for positions on the school board. If they are elected, there will be a total of 5 school board members from this section of the district. It is reasonable to ask the question: does Golf/Golfacres hope by controlling the school board to have itself voted out of the district despite the opposition of other areas of the district?

The loss of revenue if this detachment takes place will be devastating to District 67. Therefore, it is imperative that in the upcoming election, we support the caucus selected candidates Judy Kochman, Edward Duglow and Sheldon Marcus and not allow a minority of the district to control the whole district.

Sincerely,

## Joe Ray to perform in McDonald's Invitational

Illinois state high school boys all-around gymnastics champion Joe Ray of Maine East High School, Park Ridge, goes all out on the pommel horse in practice for the fifth annual McDonald's National High School All-Around Gymnastics Invitational Saturday evening, April 28 at Maine West High School, Des Plaines. The meet will feature the nation's six best high school age girls and six best high school age boys. Joe is a Morton Grove resident.

## Park Ridge Bantam A's win State Championship

The battling Bantam A ice hockey team from Park Ridge captured the state championship of Illinois last weekend with a thrilling 4-3 overtime win over Illiniwek at the Northwest Ice Arena in Woodfield. Two minutes were left in the second sudden death overtime period when the exhausted Hornets mounted their winning attack. Center Brian

Auge pirated an outlet Illiniwek pass and steered the puck to defenseman Eric Preissner near the blue line. Eric's deflected slapshot slipped through two Illiniwek defenders and winger Sam Dempsey, darting in from the left, backhanded in the championship score from the goal mouth.

It was a fitting if nerve-racking triumph for the Bantam A's who were sponsored by the DuPage Die Casting Co. The game opened electrically with breakneck speed and crisp passing and Park Ridge attained an early lead when Scott MacKenzie raced in to convert a Sam Dempsey centering feed. The Hornets increased this margin to 2-0 on Brian Auge's wheeling blast from the slot. But the Bantam domination was short-lived. Illiniwek roared back with two scores to knot the game and then, with four minutes left in the contest, Park Ridge put in an apparent winner on a whistling drive by Eric Preissner off of assists by John Brault and Eddie Fagerstrom.

The game Illiniwekians declined to concede, however, and with the aid of Hornet penalties tied the tilt with 1:15 remaining. The momentum then swung to Illiniwek. Time and again the hostile redshirts were beaten off by acrobatic Hornet goalie Steve Rotter. It appeared to be an inevitable loss for Park Ridge as the frenzied assault persisted into the second sudden death overtime. Then in one swift swoop the Hornets snatched the victory with their dramatic winning goal.

In the post game celebrations Coaches Bob Callero and Jim Ray refused to single out any heroes as they reviewed with pride the accomplishments of this battling bantam team.

Each boy played a part in each win in the long road to the state championship. And not the least of the contributors was winger Jim Kitching who was injured in the N.I.H.L. title game last month. Hustling Jim was a key and vocal part of the team bench in this most glorious of times.

## Niles East to face Skokie cops in gym

The Niles East High School "N" Club and Booster Club will co-sponsor a basketball game between members of the Easthi faculty and the Skokie Police Department in the school contest gym, Lincoln and Niles, aves., Skokie, on Friday, April 20 at 7:30 p.m. Admission will be \$1 to this fun-filled event.

The faculty, coached by Mrs. Galen Hosler, principal, and Mr. Tom Giles, director, will take on the "cops" in an effort to raise money for the Booster Club who will undertake the expense of

relocating Easthi trophies and sports memorabilia to West and North when East closes at the end of the 1979-80 school year.

There will be a teacher cheerleading squad led by Ms. Linda Snyder, a preliminary game between the boys and girls basketball teams in which the boys will be handicapped by the wearing of mittens and a drawing for a basketball at half-time.

The event is being coordinated by Mr. Steve Poznansky, Easthi coach and mathematics teacher.

## Write Yourself

# a FNBS

## Line-Of-Credit Loan

FNBS Line-of-Credit is a cash reserve that you can establish now and have ready for use when ever you need it. It works just like the lines of credit that businesses have. First National Bank of Skokie sets aside a certain amount of cash just for your use. . . . like a nest egg for any emergencies that might come up during the year. It doesn't cost you anything . . . have it ready for your use - you only pay for the actual cash you use, when you actually use it. And then, instead of paying the 18% that the credit card companies charge, you pay only 1 1/4% per month, 15% annual percentage rate. If you use this FNBS Line-of-Credit instead of credit cards, you'd save 3% per year - that's two months of interest savings.

When you need it, you don't have to come to the bank; fill out all the papers, and then wait, you just write yourself a loan by writing a check. For example, suppose you need \$500 at once to pay a hospital bill, or to buy an appliance that is on sale, or to cover an unexpected trip, you have to make, and all you have in the bank account is \$200. No problem, with a FNBS Line-of-Credit you just write a check for the \$500 you need and when it comes to the bank for payment we automatically loan your checking account the \$300 needed and you pay it back in monthly payments. We even take the monthly payments out of your checking account automatically so you don't even have to remember to write the payment check.

Call us today and open your FNBS Line-of-Credit, you never know when you'll need it!

# Notre Dame hockey coach retires

The Notre Dame High School Athletic Department has truly lost one of its most valuable assets with the announcement by Jim Meyer that he is retiring as Hockey Coach at the end of this 1978-79 season.

There are two aspects to this story. One is Notre Dame's success on the ice under Meyer's leadership. This year's squad overcame a great amount of inexperience and some damaging injuries to qualify for the Chicago Metropolitan High School Hockey League Playoffs, which has been the case in six of the seven years that Meyer has coached. The overall record during this 1972 thru 1979 stretch has been a truly outstanding 271 wins, only 140 losses, and 42 ties. Included in the six playoff appearances have been two State Tournament Sectional Championships, Christmas Tournament Titles the last four years in a row, and the crowning achievement: the 1976 Illinois High School State Championship.

This 1975-76 squad was the #7 ranked team in the entire nation.

Possibly of equal importance is the man himself. His fellow coaches have honored Meyer by his having served as President of the CMHGL in 1974-75 and being on the Board of Directors from 1973 through 1979. He also served as Vice-President of the Chicago Catholic Hockey League in the 1977-78 season. In retrospect, this is a man who has earned great respect both for his ability to win and the total effort he gave to each contest in which his team participated. It is hard to find a man willing to give so much of himself time after time. Notre Dame in particular, and high school hockey in general will truly miss Jim Meyer.

# Marillac gymnasts

For the first time in three years, the Marillac gymnastic team suffered defeat. Resurrection edged past LDM with a score of 303.45 to 288.15 on March 28.

Three Northstar gymnasts came away with ribbons in performing the compulsory routines. Marillac's Kerry Bowler (Lincolnshire) took second place with her beam routine, scoring 8.3. Ellen Grear (Morton Grove) placed third on the uneven bars with an 8.25, and Tami Drehobl (Niles) won third in the vaulting competition, scoring 8.75.

In the optional competition, Karen Tobias (Morton Grove) scored 7.85 to take second place in floor routine while Ann Close (Des Plaines) followed right behind with a 7.75 to win third. Ann placed third on the uneven bars with a 6.05; Karen Tobias won third on the balance beam with a 6.95.

The team's cumulative record after four meets is two wins, one loss, and one tie.

# Provenzano promises dedication to the village

Michael Provenzano, an Independent for Niles Village Trustee, has distinguished himself as an individual dedicated to the cause of his civic affairs for 20 years in the Village of Niles and

over 30 years of government experience with the City of Chicago, County of Cook and the State of Illinois.

Provenzano has a progressive outlook for Niles' future. He said, "Nothing just happens - things must be made into reality by people concerned and he is vitally concerned and involved." When talking about the future, he said that the youth of Niles are part of the future and we must help curb Juvenile Delinquency. We should encourage them to keep busy as idle hands and idle minds have a way of getting into trouble, if for no reason other than escaping from sheer boredom. Sports and hobbies are a safety valve for youthful energies and if elected he will work with the Niles Park Commissioners. This is part of a concerned trustee's interest in the future of Niles. As a former

Niles Park Commissioner and a Big Brother active in youth activities aimed at rehabilitation of delinquent youth, Provenzano is concerned. He is also concerned about neighborhood problems, Senior Citizens, and personal communication with the people of Niles who have village problems. As an Independent, without commitments, he speaks for himself and would like to speak and represent you on the Village Board.

Provenzano is a former Niles Youth Commissioner and a former elected Commissioner of the Niles Park District for six years. He was instrumental with other commissioners in placing in service the first Niles free Courtesy Bus for the citizens of Niles for transportation from one park to another. Also as commissioner he made a motion that the board go

on record that the 6-year term for commissioner be abolished and a 4-year term replace it, which is now a law in the State of Illinois. He is a member of St. Isaac Jogues 55 Plus Senior Citizens Club.

Provenzano received the Distinguished Service Award from the United States Committee for the United Nations and the Village of Niles, in appreciation and recognition of public service in promoting the nationwide observance of United Nations Day. A man of action, a man on the move, an Independent who would like to represent and speak for you on the Village Board. A man who does not believe in platitudes; they are promises, which sometimes are forgotten once a candidate is elected.

According to a Commonwealth Edison representative, Mrs. Gotberg, "Some areas were without service beginning 1 a.m. Monday for 1 1/2 hours. Others went without power for 5 hours."

Service was completely restored by 7 a.m. Monday she said.

"Our problems began with a cable failure, then malfunction of a circuit breaker," said the Com. Ed. employee. "In case of a cable failure we switch to other feeder lines to re-route electrical power, but problems were encountered with the feeder."

She was unable to define boundaries of the area affected other than "near Harlem ave. and Oaktonst."

# If you thought winter was hard on your house, wait until you see what it does to your wallet.

There's no doubt about it. Getting your place back in shape after last winter is going to hit your pocketbook hard. And, if you're planning to remodel or put on an addition, it'll really hurt. Unless, of course, you have a Home Improvement Loan from First Federal of Chicago. Borrow up to \$15,000 for any home repair. With a First Federal Home Improvement Loan, you can borrow up to \$15,000 and take up to 15 years to pay it back. Rates are probably as low as you'll find anywhere. What's more, you won't have your property taxes raised because of the improvement. According to the Cook

County Assessor's Office, you can make up to \$15,000 in home improvements without incurring a higher tax assessment for four years. If you live outside Cook County, check with your local county assessor. Special low rates for energy savers. If you're financing an energy-saving project you can save even more at First Federal. Because of our commitment to energy conservation, we're now cutting rates as much as 18% on loans for energy-saving home improvements. Projects such as ceiling insulation, exterior sidewall insulation, storm windows, storm doors, double-glazed windows, caulking, weather stripping and energy-saving heating units would

qualify for the reduced rate. Check with one of our counselors to see if your project qualifies.

## Mobile eye reduces home burglary more than 50% in Morton Grove

"Our successful volunteer Mobile Eye Patrol program has resulted in a more than 50% reduction in home burglaries and vandalism in Morton Grove," announced Lewis D. Greenberg, Morton Grove Trustee and Action Party candidate for reelection.

"While our neighbors in villages all around us are becoming more apprehensive and angry about their helplessness in the face of the alarming increases in these crimes in their communities," Greenberg continued, "we've been able to turn the statistics around in Morton Grove by giving special priority to the development of our Mobile Eye Patrol."

He explained, "The Mobile Eye Patrol, under the direct supervision of the Morton Grove Police Department Crime Prevention Bureau, is composed of 30 volunteer Morton Grove residents who give their time to patrol selected areas of the Village. These unarmed Mobile Eye volunteers, who first must pass a thorough background check, training program, and written examination, use their own automobiles, gasoline, and Citizens Band radios. Broadcasting under a special CB code system, they report any suspicious activity on their "beat" to the police for immediate investigation by a regular police officer. They also notify homeowners and local businesses about open doors or garages, poorly lighted property, or other situations that could make them vulnerable to crime. The decreases in crime since the inception of this patrol have been spectacular.

"Because of their assignment

to watch our schools on Halloween, the schools reported the lowest incidents of vandalism in many years. In addition, the Patrol is available for Civil Defense and other special purposes.

"As a result of this program and the extraordinary attention by our Village Administration and Police Department to safety and the prevention of crime, people in Morton Grove don't have to be as apprehensive as they once were about break-ins. They no longer have to reconsider decisions to buy jewelry, furs, art, or entertainment equipment for their homes primarily because of the fear that such items will make them special targets for burglaries—or feel compelled to invest in expensive burglar alarm devices that don't always work to protect the valuables they already own."

Greenberg continued, "People who live in Morton Grove tell us they can now plan vacations with far more peace of mind knowing that the police and Mobile Eye Patrol are watching their homes, and that the burglars know it."

"The insurance companies couldn't be more pleased. If the trend continues, I wouldn't be surprised if Morton Grove is considered a preferred insurance risk area."

"These are the kinds of programs our Action Party administration continues to promote. These are projects that allow our residents to pursue their lifestyle in freedom, safety and security. These are the kinds of programs the Action Party supports, at almost no cost to the Village, that continue to make Morton Grove a better place in which to live."

## BGP questions Action Party's "downtown lawyer" tactics

After the expected action of the "downtown" arm of the machine ruling Better Government Party candidates Seymour Primer, Dena Anastos and Ron Peterson off the ballot for the April 17 Village election, the troubling questions still remain—why?

"What is so valuable it becomes worthwhile for the local Action Party to hire a "downtown" lawyer, the best and most expensive in the business to decide that other local residents and their parties can not be on the ballot, or what is there to cover up?" the Better Government candidates asked.

"The people of Morton Grove are being denied the right to choose who will run their government, not in a free and open election," said Better Government Party chairman Carl Klein, "but in petty delay and confusion over technicalities."

"It is clear that a handful of local officials, sitting on the local board and ruling their opponents off the ballot, full knowing they had circulated and signed petitions for the Action candidates is a conflict of interest," said Better Government candidate Seymour Primer. "What other conflicts of interest are also hidden behind this smokescreen of legal technicalities?"

"The ruling in this case was tortured in the extreme," charged Dena Anastos, telling us we are not an "established party." We circulated petitions and gathered the signatures of well in excess of the legal requirements, a fact not challenged. How can there now be a ruling we are not a party?"

The Better Government candidates were unanimous in condemning the whole episode as "shabby politics" and promise the people of the village they will keep the searching light of publicity and debate on village business in the next two years.

## ... Niles Park Candidates ... Marusek concerned with family activities for parks Beusse is dependability Continue Park Progress with Preston

At a candidates meeting last week Mary Marusek, incumbent candidate for Niles Park Commissioner, demonstrated why she should be returned to the Park Board. It was clearly evident that Mary has a positive approach in dealing with the problems of the district.

During her tenure, she was often the only commissioner to attend family park functions such as the Concerts in the Park and Family Fun Night. Having her three children enrolled in park district programs, she is able to see first-hand how these function. Mary is the only candidate of the four who has any young children.

Responding to a query after the meeting as to why she is running for Park Board, Mary answered, "I have 3 children who have continuously benefitted from the Park activities. I have worked for years to improve local services through volunteer activities - in Oakton Manor Homeowners, the YMCA, Niles Community Church, Sunday School, St. John Brebeuf Learning Center and Library and in the League of Women Voters. Having a husband who is a high school teacher, I understand the powerful role that healthy recreational opportunities can have for positive growth of the youth. I'm running to retain my seat because I'm an independent

Interested in the welfare of a community that has meant much to me and my family."

Her concern for girls' sports resulted in a basketball tournament being held for girls in the park district for the first time this year, and Mary worked to include money for landscaping projects in the budget this year. She is concerned with adult programming and is a member of Oakton Community College Outreach Committee.

Mary attended Park Board meetings long before she was appointed. Jack Leske, noting her interest in children and familiar with her positive approach to solving problems, insisted she fill out his term as Park Commissioner when he had to resign due to a change of residency.

"No political party coalitions, only dedicated service to the Niles community and its Park District which should be first class and second to none, with facilities and programs for all residents," promises Walter M. Beusse, a candidate for Niles Park District Commissioner. One man, a leader, can make a difference and based on his past experience as a Niles Park Commissioner, Walt feels he can contribute substantially to the Niles Park District.

Here are some of Walt's positive thoughts in regard to the Park policies and procedures: (1) Establish and maintain long-range operating and financial plans in conjunction with the needs and requirements of the residents and the village; (2) Periodically prepare responsibility reports to the community as to the status of the long-range plans and solicit suggestions and improvements from the residents and the village; (3) Immediately improve and rehabilitate the facilities with security lighting, walk paths for convenience, beautify with trees, shrub plantings and landscaping, seating and picnic table facilities, equipment and programs for the handicapped and senior citizens. Monies from the 1973 Referendum which are currently "resting" in bank accounts could be utilized to make these immediate improvements.

Walt Beusse is dependability-doing the job right is more than his way of life. It is the only way with Walt. Look at some of his experience and accomplishments. He was effective as a commissioner on the Niles Park District Board (1969 thru 1975) wherein he resided as a chairman over park district departments in finance, maintenance of facilities and overall recreation. During the 1972-73 years, Walt presided as president of the park board and was very instrumental along with his park board colleagues in the success-promotion of the 1973 Park Referendum.

Niles Park Commissioner Louella Blaine Preston is running to retain her Park Board position in the Park Election scheduled for Tuesday, April 17, 1979. Through her tenure as Commissioner, Citizens Awareness Committee Chairwoman, and Member of the Board of Directors of the Maine Niles Association of Special Recreation, she has demonstrated the responsibility and qualifications necessary to be an effective member of the Niles Park District Board of Commissioners.

Interaction with Niles citizens at the Citizens Awareness Committee meetings has provided Louella with the knowledge necessary to guide decisions she makes on the Board. What the citizens feel they need from the Parks is then conveyed to the staff for implementation. Such programs as interpark tournaments, more teen programs, activities geared for the young and senior citizens alike, more interscholastic girls programs, a jogging path, and a Fourth of

July celebration are just some of the ideas. These programs can be implemented with fiscal responsibility. "Park Progress with Economy" is Commissioner Preston's theme. She would like to continue to serve the citizens of the Niles Park District. Retain Louella Blaine Preston as Commissioner of the Niles Park District with your vote on Tuesday, April 17, 1979.

### Heinen: Niles Park District needs H.E.L.P.

"The Niles Park District needs H.E.L.P.," says Elaine Heinen, candidate for park commissioner. In one of her final statements before the April 17 election she explained: "The acronym stands for 'Heinen Elected Equals Longer-Lasting Parks'. That is what my campaign has been centered on and that is the slogan I've adopted."

Citing again the deteriorating conditions in various park facilities, Mrs. Heinen pointed out the vicious circle syndrome of vandalism-poor maintenance. "When vandalism occurs, the park district is too slow to make repairs. Broken windows and graffiti when left too long seem to breed more of the same, and then the repair bill becomes too much to cope with at one time."

She strongly recommends that the Park District release funds believed to be available in order to bring Niles parks back to their previous excellent state. "As for our attack on vandalism," she continued, "I would prefer to see those responsible for damages work off the costs either in our parks or even the community, rather than putting the financial burden on the parents. The legality of our present approach of parent restitution is in question; I doubt if it really teaches the vandals any lesson."

For the long term, Mrs. Heinen pledges to investigate any and all possibilities for making the Niles Park District worthy of the All-American status accorded the village itself. "With the cooperation of residents in general and parents in particular we can reverse the deterioration trend and the drain on our tax dollars."

It is her desire as a Niles resident to see and contribute to the improvement of the park system. The greatest asset anyone could bring to a public office, is the ability to organize people and programs - the ability to motivate people and get the job done, and Mrs. Heinen believes she can do this.

## Maine South to host Project Big

Project Big, a special annual exhibit designed to help people of all ages find out about hundreds of careers that are available to them, will be open to all Wednesday, April 18, from 7-9:30 p.m. at Maine South.

This event, the biggest of its type in all of Illinois, according to career counselor Keith Honn, was initiated ten years ago in the hope that it would better inform college bound and non-college bound people of the careers available to them. So, this year is a special one, indeed, since it is not only the tenth anniversary of Project Big but also the first opportunity to learn of some new and very exciting careers that have been added - such as art and music therapy, marketing management, speech pathology, and dance therapy.

For those people who have no ideas on what field they would like to go into, a special computer program will be available to

assist in finding the career that is well suited to them. After obtaining the information, one may then proceed to the area designated for that career. All careers that are represented will have handouts and an experienced person from that field.

Who organizes Project Big? It is organized by the career counselors, cooperative education teachers, and vocational education teachers under the supervision of assistant superintendent Michael Myers as well as by a very cooperative 200 people who donate their time to tell visitors to Project Big what their career is like from the standpoint of a person earning a living at that job.

Project Big is a non-profit event, free to all who come. Most of the money needed is obtained thru business and service organizations, but District 207 does share some of the operating expenses.

## Ed Brasch seeks retention in District 71 race

"We, in District 71, are in one of the finest elementary school districts in the entire State. I would not want to see it otherwise."

With that statement, Ed Brasch filed the proper candidacy papers to retain his seat on the Niles Elementary Schools District 71 Board of Education.

Brasch's concern over the quality of education in District 71 has directed him to be a member of the team that has been upgrading and introducing new and varied programs into the curriculum of the district - rather than cutting back and reducing programs as so many other school districts have been doing in recent years.

"There have been numerous changes in elementary education over the last few years - however, this has really been only a start. Declining enrollment combined with a greater demand for educational achievement on all levels has placed a greater burden on every administrator, every teacher, and every Board of Education," Brasch continued.

"There is no greater honor for a person than to be selected by your neighbors to help guide the education of their children. It is an honor that must be earned through constant effort and a

strong commitment to serving other people. School board members, by law, serve without pay and are prohibited from having any financial interest within the district. However, there is an inner satisfaction that comes from ensuring a good education for our youth. After all," Brasch said, "the whole future is within the youth."

Brasch has served the community often and is well known for his active participation within Niles. He has been chairman of the fund raising organization, the Niles Days Committee, for 5 years and is currently serving his 4th year as a director of that organization. In addition, he was co-chairman of the Diamond Jubilee and was a mayoral appointee to the Niles Bi-Centennial Commission. And, he recently completed his 3rd year as elected representative from District 71 to the Department of Special Education in the township.

Brasch, 50, has been a resident of Niles along with his wife, Tina, for 12 years. His 3 children, having gone through District 71 schools, have received a fine well-rounded education, Brasch related.

Brasch, an incumbent of 6 years, continued, "There are really only two assets that we have - our health, both physical and mental, and our educational facilities. We must continue to improve both of them."

## District 71 candidate Camille Yetter

in a bright new approach as to how we can spend our tax dollars wisely.

Election day is Saturday, April 14 from noon to 7 p.m. at the North and South Elementary schools. Please come out and vote.

School District 71 is fortunate to have a talented, imaginative and energetic professional administrative team, teachers and staff as well as a community able and willing to give of itself to enrich the schools total educational program.

The challenge to the schools will be to find the way to enlist the talents and community support in organizing new ways of sustaining the District's already excellent educational program while also maintaining a close watch on our tax dollar seeing that they are well spent and not wasted.

Candidate Camille (Camy Chrusciel) Yetter is a very concerned 31 year old mother of 2. Camille has resided in Niles for 28 years and in District 71 for the last 10 years. She has served in the PTA Ways & Means for 2 years and is an enthusiastic supporter and participant in school functions. Camille has a vital interest in seeing that our children's high standard of education continues, while bringing

## Warmack seeks retention on District 207 Board

High school board member Arlynn Warmack has filed to retain her position in the April 14 District 207 Board election. Her decision to seek re-election is based on a sense of responsibility to put to use the experience she has gained in the last three years. Mrs. Warmack said her three years of service have provided the background that will be vitally important in making the difficult decisions that lie ahead due to declining enrollment.

"Serving as Chairman on the Finance Committee, and as delegate to a special education

board," she said, "has provided knowledge I simply could not have acquired anywhere else." She said she is dedicated to the principle that those whose lives are affected by Board decisions have a right to help develop policies. "In any decision I have made as a board member, I have kept that principle in mind and acted on the primary criterion of what is best for the students; and the citizens of the District."

Mrs. Warmack, who has been active in the League of Women Voters and Girl Scouts, lives in Morton Grove with her husband and three daughters.

## Flynn urges residents to vote

Thomas Flynn, Maine Township HS Board Candidate, today said it was vitally important that a large number of voters cast their vote in the April 14 school election. He said that the problems of both the elementary and high school districts demanded that voters become concerned. Mr. Flynn said it was past the time to ignore school problems.

Mr. Flynn said, "The various school budgets of Maine Township exceed that of all other local governments combined. School taxes are your highest portion of real estate taxes. If a large number of voters come out and vote next Saturday they will be delivering a Proposition 13 message to the school boards."

Mr. Flynn went on, "We all must face the problems of declining enrollment, teacher firings, vandalism, drug abuse, poor food in the cafeteria resulting in poor health habits and we must become concerned about our local school taxes. Your vote is the only way to show your concern. I urge you to vote on April 14 between Noon and 7 p.m. at your local public School."

## NORTRAN may be forced to cut school service

The Illinois Department of Transportation (IDOT) recently announced plans to discontinue subsidies to local transit carriers for school service. Without the subsidy NORTRAN (North Suburban Mass Transit District) may be forced to discontinue the service it now provides to Maine Township High School District 207 and Des Plaines District 62.

NORTRAN now carries 5000 students daily. These students would have to find alternate transportation, or the school districts involved would have to buy yellow buses or contract with private carriers.

The proposed change would eliminate direct funding by IDOT and replace it with an increased subsidy to the RTA (Regional Transportation Authority). The money will be provided from IDOT by deducting it from a \$34 million loan the state made to the RTA.

However, the RTA, already **Seek Homestead Renewals from Senior Citizens**

## MG Library Happenings

The best-selling autobiography, "Lauren Bacall, By Myself" will be reviewed at the Morton Grove Public Library by Barbara Todd on Sunday, April 22 at 2:30 p.m. and on Monday, April 23 at 7:30 p.m.

Hollywood and Broadway come alive in this funny and honest account of the life of "Bogie's Baby" who found stardom and huge fame as the girl with "The Look". Married to Humphrey Bogart at age 20, she shared his legendary life and gave him two children. Shattered after his death from cancer, she experienced traumatic romances and an anguished search for her own identity. She finally made the difficult leap from stardom on the screen to dazzling success on Broadway, fulfilling a lifelong dream.

Everyone is invited to come and hear the story of a very lively legend in her own right, Lauren Bacall, and admission is free.

Springtime means new books arriving in the Library and the April Book Discussions will review them for those readers who are interested. The Morning Book Discussion will be held on Friday, April 13 at 10 a.m. and the Evening Book Discussion will be held on Wednesday, April 18 at 7:30 p.m. with Barbara Todd as discussion leader. Everyone is welcome to attend.

faceted with a deficit, has not yet determined how to handle the situation. The RTA, unable to repay its loan, would probably be unable to provide the additional subsidy to its carriers.

NORTRAN trustees from the areas provided with school service have expressed concern. "Our communities have relied on this service. I feel that I'd be letting down the people I represent if the District didn't do everything possible to continue it," said Marge LaVine, trustee from Des Plaines and vice chairman of the district.

Trustee R. Jackson Kinnel from Park Ridge stated, "With rising gas costs it isn't the time to force more high school students into cars, or their parents into car pools. It would also create more traffic, congestion, and parking problems for the schools and their surrounding areas."

Although the proposed change must be approved by the Illinois General Assembly, another proposal by IDOT could considerably change the traveling patterns of area students.

IDOT is proposing a rule change that restricts school

routes to only two quarter mile deviations from regular service routes.

NORTRAN's current school schedules would be considered "special service" and unreimbursable. Before each school year NORTRAN meets with school officials to plan routes that operate along residential suburban streets that do not have any other transit service.

School officials are protesting this restriction that would require students to walk almost a mile to meet a bus. They have already met with IDOT officials request-

ing that NORTRAN continue to receive subsidies, and the rule change has not yet been approved.

Legislative action is necessary to implement the direct funding proposal. IDOT makes the decision to enforce the route deviation guideline. In either case, there is no indication of the time it will take before a decision is reached.

NORTRAN is investigating methods of recourse and will ask for an exemption from the deviation guideline if necessary to continue to receive the subsidy.

## Morton Grove Spring Coin Festival

Once again, the Morton Grove Coin Club will give people in this area a chance to learn what their old coins are worth.

The occasion will be the club's 15th annual Spring Coin Festival, which will be held from 10 a.m. to 5 p.m. Sunday, April 29, at the Holiday Inn, 5300 W. Touhy, Skokie.

Admission is free. As a service to the public, the club will again have its "coin origin and evaluation booth."

The booth, which over the years has become one of the show's most popular features, is manned by club members using the latest coin guides.

At no charge, they'll estimate the value of coins brought in by visitors.

In the case of foreign coins, they'll identify the country of origin and may even be able to provide historical information about them.

The service is especially for non-collectors. The club will evaluate any reasonable number of coins, but there won't be time

to assess entire collections or large accumulations.

The purpose of the booth is to spur more interest in coin collecting and to introduce more people to the attractions found at a coin show.

Also featured at the show will be a bourse section at which exhibitors will be selling their wares.

In addition, there'll be free gifts to all visitors and free gold door prizes.

The club meets in Morton Grove, but its members are from all parts of the Skokie Valley and Greater Chicago area.

Meetings are held the third Friday of each month at the Morton Grove Park District Headquarters and Recreation Building, 6834 W. Dempster st., Morton Grove.

Membership is open to anyone with a sincere interest in numismatics. More information on the club can be obtained from any club member at the show.

## Open Stage Players plan new production

The Open Stage Players of the Mayer Kaplan J.C.C., 5050 W. Church, Skokie, are hard at work rehearsing for their third production this season, "Boy Meets Girl". The show, which will run Saturdays and Sundays, May 5, 6, 12, 13, 19 and 20, will feature the local talents of Eileen Trob, H.E. Monroe, both of Wilmette, Gene Kahn and Lyn Ward, Morton Grove, and Mary Rawson, Northbrook, Gary Ashman, and Carol Lee Wax, Chicago, and Brad Miller, Mel Waskin, Arnold Hoffman, Linda Lange, Marilyn and Gene Gregory, all of Skokie.

designer, Marcia Grobman, costume co-ordinator and make up, and Vivian Weiss, Stage Manager, Announcer and publicity director. Schwartz and Gregory are Skokie residents, Grobman and Weiss are from Lincolnwood.

"Boy Meets Girl" by Bella and Sam Spewack, is an uproarious comedy, typical of the knockabout farces of the '30's. ## ED HANSON Happy Easter and Passover Greetings to all

## Even the Easter Bunny is hopping over to Jake's Restaurants

By Ed Hanson

Two big Easter parties, one at Jake's new North Restaurant, 1615 N. Milwaukee ave., Glenview, and the other at Jake's Famous Restaurant of Niles, will make news this Sunday. On Palm Sunday, I dropped into Jake's North Restaurant in Glenview about 11 a.m. in the morning and I wondered why the big crowds were pouring into this posh new restaurant like locusts into an orchard.

I soon discovered it was Jake's new brunch which he had just started on Palm Sunday.

Jake himself, in a big chef's hat and white coat, was at one of the 30 foot long steam tables carving a huge, juicy baked ham while scores of patrons, plates in hand, marveled at the immense amount of goodies heaped all over the super large brunch steam table.

The hot brunch which has got to be the largest brunch of the northside or anywhere, for that matter, is piled high with sausage, bacon, eggs (anyway you like 'em), Mostaccioli, meats of all kinds, including Beef Stroganoff, Baked Ham, Perch, Rice, Chicken ala King and other delicious entrees too numerous to mention.

The second cold Brunch table has Bagels, lox, fresh fruits of every type, potato salad and all sorts of salad dressings for the freshest, crispest salads you've ever tasted.

This sensational Brunch is priced at only \$5.50 and this includes everything from a wide selection of juices, apple, orange, cranberry, etc. to your choice of beverage.

Sweet cakes and all sorts of tasty desserts and sweet breads top off what has really been a feast fit for a king.

On Easter Sunday, all kids under 12 will receive a box containing a dozen chocolate eggs FREE...while the supply lasts. So come early, Jake's Super Brunch - the largest on the Northside is served from 10 a.m. 'til 3 p.m. on Easter Sunday and every Sunday thereafter.

Traditional Easter dinners of Roast Turkey, Roast Pork, Baked Ham, Roast Chicken, Roast Sirloin of beef and steaks and chops will be served at affordable prices.

Beer and cocktails are available at your table or in the charming, comfy bar and lounge of Jake's North Restaurant of Glenview.

At Jake's Famous Restaurant, at 7740 Milwaukee ave., Niles, as it has on past Easters, this holiday will be a very festive occasion. The place will be all decked out with bunnies and flowers and the entire family can enjoy a wonderful Easter at Jake's Restaurant.

And remember, all kids under 12 will also receive a box of 12 delicious chocolate eggs, like the ones to be given away at Jake's North Restaurant in Glenview.

At Jake's Restaurant of Niles, Jake has set up a super, low priced Easter bill of fare offering all the popular Easter favorites, Ham, Lamb, Roast Pork, etc. These will be lavish 7-course Deluxe Easter dinners, soup or juice, potatoes, vegetable, dessert and your choice of beverage.

So come to Jake's North Restaurant of Glenview for brunch, and then later in the day, have dinner at Jake's of Niles. Either one or both of Jake's Restaurants will make you and your family's Easter Day a memorable one which will be long remembered.

# 55 SAVES LIVES

It works!

So you're making a good salary. But you're not saving any of it. Instead, you want to go after the "big deal" that's going to make you a cool million. Maybe. What happens if your big scheme goes sour? You've still got to get through the future. And, let's face it. Nobody can afford to take tomorrow for granted.

So maybe you'd better join the Payroll Savings Plan now. Just sign up at work. An amount you specify will be set aside from your paycheck and used to buy U.S. Savings Bonds. That way, you can still afford to take a few financial risks, if that's your bag. But you'll always have a solid cash reserve to fall back on. And that's being smart.

Now U.S. Bonds pay 6% interest when held to maturity of 5 years (4% the first year). Bonds are replaced if lost, stolen or destroyed. When needed, they can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Take stock in America.  
Join the Payroll Savings Plan.

Smith and Solomon have been long-time Board meeting-attendees, for many years before they sought to run for the school board. Their interests have been as generalists, rather than concentrating on one-issue. Smith has been a board member the past 3 years and has served the district well. It is likely he will move to the Presidency of the board if he is re-elected.

Solomon has been one of the more dedicated residents in the district. He has attended meetings for many years and served well as vice president of a volunteer citizens committee which studied the financial problems in the district. His own financial background as an officer in the Florsheim Company lends an expertise which would be welcomed on the board.

Weiss is a newcomer, a school teacher who seems to manifest an equanimity which will be important in the coming turbulent years. While a critic of many past school board actions, he has shown responsibility and restraint in pointing toward new directions for the district.

### In Maine Township High School District 207 ...

In the District 207, Maine High School election we will be voting for Howard Blassman, Tom Flynn and Lynn Warkmack, all three residents of School District 63.

This year School District 63 is being cheated of its 3rd seat on the school board, if the Caucus-endorsed candidates are elected. Beginning in 1963 the Caucus groups in the 3 elementary districts in Maine Township agreed to alternate the third school board seat in District 207 every third year. In the 1963 to '66 period, School District 64 held three seats while the other 2 districts occupied 2 seats. In the '66-'69 period the Des Plaines District 62 area had the three seats and in '69-'72 East Maine had the 3 seats for the first time in its history. The same alternate procedures were used in '72-'75 and '75-'78.

This year, when District 63 was scheduled by the Caucus groups to receive the third seat, the Des Plaines District 62 group changed the rules. They decided to run 3 Caucus-endorsed candidates from their district again. Unfortunately, no one bothered to contest their choices.

Caucus-endorsed candidates in Maine High School District 207 always have been elected. While it is unlikely one of them would step down after the election, nevertheless, if District 63 supports 3 candidates, as was agreed upon in the early '60's, perhaps one of the Des Plaines people may choose to honor the agreement by not accepting the third seat.

In conversation with Board president Anne Evans from the Des Plaines district, she scoffed at the suggestion one of her people might step down. But if the integrity of the agreement is not upheld then support for the Caucus system in Maine Township becomes moot.

9:35 p.m. Smoke in the building at Niles Bowl, 7333 Milwaukee ave. was caused by electrical failure of the furnace whose motors began operating at reduced power. Power was eventually shut off.

11:24 p.m. Store windows were blown in at Thomas Organ in Golf Mill. Firemen placed salvage covers over the window temporarily.

Power lines felled by high winds Tuesday morning April 3 left mid-Niles homes and two shopping centers without electricity for 2 hours, causing a fire, and resulted in hospitalization of a senior citizen complaining of chest pains and possible heart problems.

According to Fire Inspector Ed Sosnowski, firemen were summoned following an anonymous call shortly after 11 a.m. to the Niles Fire Dept. of downed high voltage lines and a possible house fire at Odell ave. and Kirk st.

"He said the incident 'snowballed' with freak results. The heavy voltage wires fell on property located at 7901 Odell ave., igniting a combination wood-metal fencing. Apparently the metal portion of the fence was energized, sending current along the wet ground to a gas pipe, possibly weakened by rust, which

## Set estimated costs of Milwaukee Ave. improvements at \$2,293,000

# Village seeks Milwaukee Ave. improvements aid

by Alice M. Bobula

The first of two public hearings for Cook County funding of improvements along Milwaukee ave. was held during the April 10 Niles Village Board meeting.

Of the 8 program categories eligible for funding under a 1979 Community Development Block Grant (CDBG) program, village trustees Tuesday night opted for re-development of the central business district (along Milwaukee ave.).

Total estimated cost of the three-year program required by Cook County is \$2,293,000 of which \$1,146,500 (50%) is expected from CDBG funding. The remaining 50% will come from village coffers (25%) and thru the business tax district (25%).

Grant application must be submitted to the Cook County Board of Commissioners for their consideration at the end of this month following a second hearing April 24 in the Council Chambers, 7200 Waukegan rd.

Only one resident of the entire Niles population showed interest in attending the Grant Hearing and he appeared on behalf of the Niles Public Library District.

Library board member Harry Pestine asked that trustees expand the grant application to include a second category, that of Senior Citizen Capital Projects and Centers for the Handicapped.

In appearance before the village board Tuesday night, Pestine said he was not aware of the topic area had been already narrowed down to one category.

Should trustees not be willing to expand the application, Pestine urged them to "help the Library District prepare for a grant application of their own."

Other grant categories include Neighborhood Preservation; Residential Rehabilitation; Land Acquisition and/or Land Banking for Future Development; Demolition of Buildings; Fair Housing and Housing Counseling Programs; and Selected Planning Grants.

Trustees said the Milwaukee ave. project was given top priority for use of village and CDBG redevelopment funding due to the need for improvement and revitalization of the Niles' corridor; for the economic health of the Business District; and for projected aesthetic appearance of the Avenue upon visitors driving thru the village.

A three-year program (in accordance with the 1977 Comprehensive Development Plan) proposes improvements along Milwaukee ave. from Mulford ave. to Howard st. and from Birchwood to Neva during 1979; from Mulford ave. to Monroe st. during 1980; and from Monroe st. to Greendale in 1981.

In other business Tuesday night, trustees amended a January 23 village ordinance covering multiple dwellings which required the posting of the landlord's name and phone number on the building in the event of emergency needs.

The amendment now provides the owner may list the required information with village agencies.

Landlord had objected to the code requirement due to numerous "crank calls" which they receive.

Trustee Peter Pesole wholeheartedly agreed to the amended code Tuesday night because, he said, "some landlords threatened to put my phone number on their buildings!"

Agreed to re-subdivision of Giomi's First Addition to Niles for a general area clarification.

Gave final approval to petition by Comet Construction Co. for rezoning of 6935 Milwaukee ave. from B2 and R2 Special Uses to R4 multi-family special use for construction of a three-story, 24 unit condominium building. The apartments will range from \$60,000 for one-bedroom units to mid-to \$80,000 for three-bedroom units.

Approved a request to waive fees for interior remodeling of the Leaning Tower Family "Y", a "remodeling long over-due in coming," observed Board President Nicholas Blase.

Amended the village code on Smoke Detectors to "be unlawful for anyone to move, damage or tamper with a smoke detector unless to replace batteries."

# Moe requests delay in his new contract

by David Besser

In a low-key but very impassioned speech Tuesday night, District 63 Superintendent Ken Moe asked the school board to table a motion extending his contract for 3 more years until after the election Saturday.

Moe's statement came after a Tuesday morning action in which Circuit Court Judge Heckinger disallowed an injunction filed by two residents to prevent the school board from approving a new contract for the superintendent before the April 14 election.

Heckinger said it was a discretionary act of the board to act in such a manner and there was no legal reason for allowing the injunction. Attorney Katz, representing residents Ann Sostrin and Richard Buckman, admitted there was nothing illegal in such board action, according to school board attorney Jerry Robins.

Sostrin and Buckman are two of the leaders in the opposition forces who are supporting three candidates for Saturday's school election. They have been in the forefront in opposing many school policies the past two years, first focusing opposition to the closing of schools and then Tuesday night, personally attacking the school superintendent in a statement read by Buckman.

Tuesday night, Moe, a very soft-spoken almost diffident man, answered the Buckman speech, likely edited by Sostrin. He said, "There is something very wrong in the school district; there is something very different about District 63." He said (in the many controversies), "We focus on people negatively rather than solve issues."

Moe went on to note that it doesn't matter who is superintendent, the issues are superintendent, but rather the people involved. He contended the two-year period he has been in the district has been a period of "artificial criticism". He said the citizens must act with a more positive attitude.
