Niles man kills self in St. John Brebeuf Church

A 19 year old Niles man was found shot to death in a vestibule behind the altar of St. John Brebeuf Church, 8307 N. Harlem ave., Niles on Monday, May 21.

The body of Dominic Gagliano, 7959 N. Nora, Niles, was found by his older brother, Robert, about 2 p.m. Monday after he and his

father had been looking for the young man for several hours. The fatal bullet was inflicted in the left side of the chest with a .357 magnum which was found next to the body.

According to Niles police investigator Louis Muscalino, Dominic had left home early

Monday morning and told his mother he intended to take his life, a threat he had made on several other occasions. After he left, his mother became alarmed and called her older son Robert at his place of business and asked him to check his car to see if a gun he owned was still in the vehicle. When he discovered the gun was missing, Mrs. Gagliano asked him to come home and also called her husband Anthony. Mr. Gagliano, together with his son Robert and his girlfriend, began searching for Dominic, looking in places he was known to frequent.

In the past few months,

Dominic, who had a history of drug-related mental problems, had turned back to his religion and attended mass each morning at St. John Brebeuf. Parish priests noted he "prayed out loud" and disturbed other parishioners, but never became

Board ok's \$9.6 million budget

by Alice M. Bobula

The Niles Village Board approved a budget appropriation ordinance for the fiscal year May 1, 1979 to April 30, 1980 totaling \$9,606,164, a 5.23% or \$47,568 increase over last year's budget.

Anticipated revenues for the total budget were set at \$9,964,967 or \$358,803 over the appropriation budget needs.

Village Manager Kenneth Scheel said the surplus of

revenues over budget need came from non-replacement of retired personnel; a decrease of \$140,097 this year in the water rate fund (due to conservation of water by homeowners and recycling by water by industry); and "one of the biggest savings", a quarter million dollar reduction in village liability and comprehensive insurance.

Alcoholism program

A film "Chalk Talk" with Father Martin, nationally known expert on Alcoholism, will be shown at Orchard Mental Health Center, 8600 Gross Point rd., Skokie, on Monday, June 4 at 7 p.m.

Alcohol is our most popular drug after caffeine and tobacco. It is a powerful drug whose use is widespread. It is fast-acting and has a high potential for addiction. All studies, since the end of prohibition, reveal an increase in general use of alcohol with increasing use by young people under 20. It is also the most abused drug. Its long history has produced many popular misconceptions, stereotyped and misleading ideas.

Father Richard Yale, a nationally known authority on alcoholism, is a casework supervisor and continuing education director for Cathedral Shelter of Chicago. He has 9 years of varied experience on Alcoholism programs, and holds a masters degree in pastoral counselling.

He will be available for questions and answers about alcohol problems and prevention.

Citizen alert nabs four in thefts from cars

Four Chicago youths were arrested Wednesday, May 16 after a Niles resident called police at 2 a.m. to report a burglary in progress.

Arrested on three charges of thefts from cars were Edwin Dymitrowicz, 25, of 3024 N. Lowell; Edward Malkiewicz, 20, of 3701 Wrightwood; Michael Williams, 19, of 2321 Karlov and Michael Watson of 1653 N. Menard.

Williams and Malkiewicz are being held in Cook County jail in lieu of bonds pending a May hearing in Niles Circuit Court. Watson and Dymitrowicz were released under bonds pending court hearings.

Police investigation also revealed outstanding arrest warrants from Chicago on Williams, Malkiewicz and Dymitrowicz.

Police said the Niles complainant observed several men trying to get into a parked van at 7028 Crain st. On police arrival a white Cadillac was parked in the middle of Crain st. with 2 suspects lying on the floor of the car. Also in the car were speakers with cut wires, a brief case and other items.

Under interrogation one of the men indicated the items in the car and car trunk were taken in thefts from cars in Glenview.

Two other men stopped in the Crain st. area said they were companions of the first two suspects.

Statement by one of the suspects implicated all four men in thefts from Glenview cars. According to police Dymitrowicz took Niles officers into Glenview to point out the rifled autos.

Glenview police were notified and filed reports from owners of the cars.

On the OTHER HAND

Strange Sights in Niles . . . A Bugler reported seeing a teenager riding a unicycle with a seat extending about 8 feet up in the air. That may not sound too strange except for the fact he was riding in traffic on Waukegan rd. last Thursday.

We may sound "gung-ho," but . . . we still swell with pride when we watch the American flag pass by and for those of you who love a parade, you can watch two of them this Memorial Day weekend. The Morton Grove American Legion parade will step off at 1 p.m. Sunday, May 27 from the Legion Home parking lot at 6140 Dempster. Parade route is Dempster to Austin, south to Lincoln and west to the library where Memorial services will be held. On Monday, May 28 a Memorial Day parade sponsored by the Veterans Parade Association of Park Ridge will step off at 9:30 a.m. from Talcott and Cumberland in Park Ridge. The route is north on Cumberland to Prairie, northeast on Prairie to Main st., east on Main st. to the City Hall. Several Niles residents and units will be participating in the parade including the Niles Fire Department Color Guard, Niles VFW Post, Maine East High School Band and several Niles scouting units.

While we're on the subject of flags . . . Citizens Bank & Trust in Park Ridge is offering flags to area residents at greatly reduced prices and you don't have to be a depositor to buy one. 3 foot by 5 foot nylon flags are \$12.95 and the same size in cotton is \$9.95. Also 11" by 17" rayon flags attached to a 32" wooden staff are available for 99¢. Supplies are limited and no flags will be mailed.

High and Dry in Niles . . . A Little League parent has complained of the lack of water fountains in the parks and ball diamonds in Niles. Parents haul thermos jugs to the games since many of the games last 3 hours or more, but as the parent noted, paper cups consequently end up blowing around the parks and at times must be shared by the youths. While he or she admits they are not familiar with the complexities or expense of installing these fountains, they do suggest that perhaps some of the dads could volunteer their time to install fountains. Any comments???

Champ on wheels . . . Morton Grove cyclist Peter Kron recently qualified for the Junior World Cycling Trials being held in Kenosha, Wisconsin in July. At the tender age of 17, Peter is the Illinois State Champion in track racing. He is also one of the nine local athletes sponsored by the Niles Township Olympic Committee and if any of you would like to help these fine athletes, send a check to the Niles Township Olympic Committee, 8537 Lillibet terr., Morton Grove, Illinois 60055.

Job opportunities for Niles teens . . . The Village of Niles Youth Services is now busy recruiting summer jobs for youths, ages 13 through 19. Teens can fill out applications at the Administration Building, 7601 Milwaukee ave. Youth coordinator Carol Chaconas will help youth view job prospects and discuss application standards. Also businesses and private concerns seeking summer help can contact Carol at 967-6100, ext. 59.

OCC assistant director of admissions

Evelyn Burdick was recently appointed assistant director of admissions and records at Oakton Community College.

Ms. Burdick assumed her new position on April 16, replacing former assistant director Michael Dessimo, who left Oakton in February to join Elmhurst College as director of admissions.

Along with her regular duties as assistant director, Ms. Burdick will have responsibility for administering state and federal financial aid programs and campus-based assistance.

Ms. Burdick joins Oakton after five years at Northeastern where she served as assistant director of records and registration and as assistant to the vice president for student affairs.

Foster homes for special children

A new program to provide foster homes for children with developmental disabilities is being established by the Glenkirk Association for the Retarded, 701 N. Harlem ave., Glenview. Many retarded children are unable to remain with their natural parents because of family problems or a sudden crisis. Nevertheless, they long for love and attention and need the guidance of a family setting which can stimulate their education and offer stability. They, in turn, can respond with warmth and gratefulness for the attention which they receive. Hopefully, they will be able to return to their natural parents.

Foster parents are needed in the north and northwest suburbs for these children who range in age from infancy to adolescence. The children will be in a daily school program with transpor-

tation provided and Glenkirk will offer training and supervision for the foster home program by special education teachers, therapists and social workers. The need has been recognized and special rates for such homes have been established by the Illinois Department of Mental Health, Division of Developmental Disabilities.

Individuals who are interested in becoming foster parents are invited to call the Glenkirk Association for the Retarded at 729-6870. There are no age limitations and single parent families will also be considered. Glenkirk is a multi-service agency for the retarded which operates a school, group home, infant intervention program, respite care program and workshop for adults in the northern suburbs.

SPECIAL COMMUTER BULLETIN

RTA adds trains for traffic crisis.

The RTA has added extra cars to their north and northwest suburban commuter trains to accommodate any traffic disruption caused by current Edens repairs. Both Milwaukee Road and Chicago and North Western lines have expanded their morning and evening rush hour service to meet the increased demand.

The rising cost of gas has been cited as a further incentive for use of commuter rail transportation throughout metropolitan Chicago.

Rapid traveling times to Loop.

The RTA has emphasized that its commuter rail service is comfortable, economical and more rapid than the Edens Expressway during its present rehabilitation.

For example, a Milwaukee Road rush hour train takes 35 minutes. Similarly, a Chicago and North Western rush hour train from Highland Park reaches the Loop in about 40 minutes.

New riders discover commuter shuttle buses.

More and more of the new riders on RTA's commuter rail system are enjoying the advantages of the special shuttle buses, serving many Milwaukee Road and North Western stations during both morning and evening rush hours. Bus schedules have been synchronized to inbound and outbound trains to minimize waiting time. The buses provide convenient and comfortable riding between the stations and points throughout the northern suburbs.

The cost of the RTA shuttle buses is 30 cents. Many commuters pay a small additional charge for an RTA Universal Transfer, which they use on rapid transit or buses in downtown Chicago.

More girls interested in Graphics' Classes

"Definitely, definitely, definitely," was graphic teacher Ron Rathberger's answer when asked if his class at Maine East was becoming less male dominated.

This female student infiltration began six years ago when Maine East had its first girl printing student, Monica Collins. She now works in a graphics business.

This year there are four female graphics students. They are Anniqa Henriksson, Sue Kopish, Barbara Rozanski, and Julie Schatz.

Maine East's \$125,000 printing room is, according to Mr. Rathberger, the best of the printing facilities in the four Maine high schools perhaps because it handles most of the district's printing. The advanced students help Mr. Rathberger with this. The classroom-print actually offers a more varied array of equipment than that of the average print shop. Eighteen months ago a \$12,000 photo composition com-

puter was added to the print room, but Mr. Rathberger claims that since the industry is progressing so fast it has already been outdated.

There are seven students who have taken graphics all four years at Maine East, and four of those plan to either continue studying graphics or go directly into the graphics industry. They are Trent Callo, Michael Helminak, Barbara Rozanski, and Jim Tokoph. Seventy to eighty per cent of the seniors who have taken graphics on any level continue in this field.

Ron Rathberger also teaches at Maine North. He is a fourth generation printer, who studied graphic arts for four years in high school, received his printing bachelors degree at S.I.U., worked at Paddock Publications in Arlington Heights for eighteen months, and received Master of Education degrees at both N.I.U. and the U.I.

Ahh...the joys of owning your own phones.

Four money-saving reasons why if you own anything, you ought to own your own phone.

You may not know it, but you're paying a "rental fee" for the use of your home phones each month. But now there's a way you can cancel this charge—by *owning* your own extension phones instead.

JOY #1. Phone-owning saves you money, year after year.

Why does it make sense to own your own phones? Let's say you purchase a Touch-Call Treadline,* Contempra** and Chest Phone*** from the models shown at the right. Once they're yours, you'll actually save \$93.00 in "rental" charges each year!

Of course, to enjoy these savings, you have to purchase the phones first. You can choose from a variety of payment plans.† You can even pay for these Centel phones on your monthly phone bill, if you like. But after that, you'll keep right on saving money, year after year!

JOY #2. Choose from a wide variety of styles and colors that are a joy to give...or get!

Select the phones that are exactly right for you, your home, and the way you live today. From our elegant Cradlephone to the sleek, trendy lines of Contempra, Centel offers you the latest designs...smart conversation pieces you'll be proud to call your own. And when it comes to gift-giving, nothing's as decorative and useful as a personal phone from Centel.

JOY #3. No more "hook-up hassles" when you move with a phone that's your own.

Whether you're moving a phone across the room or across the U.S.A., it's easier with a phone that's already your own. Each phone Centel offers comes with a convenient cord that fits a standard telephone plug-in outlet. Before you move, call your telephone service representative. Then on moving day, you just unplug it, take it with you, and connect it to a "plug-in" outlet when you arrive. No need to wait for an installer to come.

JOY #4. Service problems? Never fear...with a warranty and exchange program from Centel.

Each phone Centel offers is covered by our warranty, plus something extra—an exclusive exchange program you can't get anywhere else. If anything goes wrong with your phone, you won't have to wait for repairs. Just stop by your nearest Centel Business Office and exchange it for another. And there's no charge for this service while your phone's under warranty.

Want to know more about the joys of phone-owning?

Contact your local Centel Service Representative soon. When you discover how enjoyable—and economical—phone-owning can be, we think you'll be pleasantly surprised.

It's a dog-gone shame

The animal shown above was found wandering the streets of Niles and was picked up by the Niles Police Animal Control Division. Since the animal did not have any identification tags, he was placed in the Niles kennel where he was kept for three days waiting for his owner to claim him. All stray animals that are not tagged cannot be returned to their rightful owners; therefore, if you own a pet make sure that he is properly licensed with the village and the tags are securely around his neck.

Health and safety officer John Morgan, Sr., shown above, patrols the village streets and picks up all animals that are running stray, as it is against the village ordinance to allow a pet to roam the streets in Niles. The Niles Police are also spot-checking dog walkers for licenses. It is against the law to allow your animal to defecate on another's property. Animal licenses, for both dogs and cats, are due annually on January 1 and can be purchased from the Administration Building, 7601 Milwaukee ave. for only a \$2 charge. When purchasing a tag you must also have a valid rabies tag. All animal licenses in the village are now put on a computer for the purpose of returning strays in addition to locating those who have failed to purchase a current tag. For only a \$2 investment you can assure your pet's return if he does accidentally leave your property. Listed below are some of the ordinances regulating animals and fowl. For more information regarding animals, please contact the Niles Police Department at 647-0400.

The Village of Niles ordinances regarding animals and fowl are:

6-1 Cruelty to animals
6-2 Noisy Animals (barking)

John Edward Porter, Republican candidate for Congress in the 10th District, participated in a special weekend briefing for members of the National Congressional Council in Washington.

The briefing covered such subjects as the nation's economy, foreign policy, and energy among others and were presented by nationally-recognized experts in each field. Congressman Trent Lott (R-Miss.) is chairman of the National Congressional Council. Porter is a member.

Diane Hillman, Skokie, has been awarded Oakton Community College's Freshman Chemistry Achievement Award for 1978-79.

This award is presented each year to recognize excellence in Oakton's general college chemistry courses. Chemistry 121 and 122. Linda Schafrik was selected as runner-up for the award.

In announcing the award, Dr. Philip Jaffe, professor of chemistry, said that Ms. Hillman will receive a copy of the latest edition of the Handbook of Chemistry and Physics. In addition, Ms. Hillman's name will be added to the plaque with the names of previous award winners which hangs in Building 1 on the OCC Interim Campus.

Linda Schafrik was selected as runner-up or unable to make these decisions."

Mikva Post Office visit

U.S. Congressman Abner J. Mikva has completed the schedule for the current round of post office visits with the next stop scheduled for the Niles area, Friday, June 1, from 9 a.m. until noon.

At that time, a member of the Congressman's staff will be at the Niles Post Office at 6977 W. Oakton to meet with, or lend a hand to residents needing assistance from the federal government.

The post office visits have aided people in dealing with the Social Security Administration and Veterans Administration. Also, problems or questions dealing with health care, immigration, unemployment compensation, taxes and other topics have been addressed.

The post office visits are an extension of the congressional office working hours and part of the service provided to the residents of the Tenth District.

Members of the RTA (Regional Transportation Authority) board will meet with Trustees of the North Suburban Mass Transit District (NORTAN) at the District's monthly meeting on Wednesday, May 30.

The meeting will be held in the Court Room of the Lincolnwood Village Hall at 6918 Keebler Ave., which is at the corner of Lincoln and Keebler in Lincolnwood.

Leonard S. Eisenberg, NORTRAN's Chairman, stated, "We've invited Mr. Hill and the RTA board to join us so that we might better coordinate our efforts for improved mass transit in suburbia."

The meeting is open to the public as are all NORTRAN board meetings. William Galliani, Lincolnwood's NORTRAN representative added, "We welcome everyone to attend. This session provides an unusual opportunity for concerned citizens to voice their opinions and suggestions to both transportation agencies."

St. John Brebeuf students display their talent

On Wednesday, May 2 students at St. John Brebeuf School displayed their budding talents at the 3rd annual Student Council Talent Show. Adults in charge of St. John's festivals should keep an eye open to the upcoming talent of the parish.

First on the program was Donna Jordan who played "Bohemian Rhapsody" on the piano. Nancy Surace, Francis Alloco, Terry Pemberton, Valerie Tomczyk, Ann Lavery and Julie Ziegler were transformed into the Village People by their clever

costumes and then mimed the group's hit tune "YMCA".

Amy Ptaszek beautifully played the "Girl From Espana," "The Shadow of Her Smile," and "Malaguena" on the guitar. As a change of pace, Julie Notaro and Laura Juevenelli danced their version of the Charleston.

Every good talent show must have a comic. Jim Mastri did quite believable impressions of Jimmy Carter and Richard Nixon along with a variety of humorous sound effects. Steve Pierski and Dave Pavkovic, in full uniform, sang a scouting song.

Jeanette Tatkowski ably played a lively piano selection. Regina Shermoske, accompanied by Joanne Scheffler, sang the popular tune "Tomorrow" from the hit play "Annie".

The audience loved Jennifer Croke, Bridget Walsh and Michelle Kauth in their singing and dancing version of "Mr. Bubble" commercial. Disco is all around us. Helga Bachmaier and Kerri Kane did a disco dance to "Remember".

The "Theme from Mahogany" was sung beautifully by Tammy Muscolino. She was accompanied by Sue Herr on the piano. Karen Guerrieri ably played a lively piano medley.

A zany rendition of the disco version of "Rubber Duckie" was done by the Disco Kiddies, Lori Tyndall, Maggie Kovarik and Donna Jordan. Jeff Rzepka selected to play "Feelings" or the flute. He did a wonderful job on a most difficult instrument.

Cubs ... spectacular losers!

The Cubs have brought their 34 year losing streak to a new high. They could become the most spectacular losers in major league history.

That 23 to 22 loss to the Phillies was a masterpiece in the fine art of losing. You could say that the Cubs have learned to lose with a flourish!

Their 3 game series with the Pirates was another classic example of torturing their fans. They kept those fans on pins and needles until the final out. But the final result is always the same - Cubs lose.

With the season still young, this makes things look terrible for the Cubs. For year after year, they always play their best ball and get-the-breaks early. But this year, although they have been playing great ball, they are losing more than they win.

If the Cubs can't win when they are playing way over their heads, what's going to happen to them later in the season? Cub fans should shudder to think about this.

Take Kingman for example. He's hitting so far over his head, it ain't real. What happens when he gets back to his level. He'll be a month between home runs and his batting average will shrink below his weight. He'll also break the strikeout record.

Bill Buckner, as he proved in the Pirate series, is the best foul ball home run hitter in the business. He, too, ultimately won't hit his weight.

Herman Franks, right now, can probably throw harder than Rick Reuschel.

Sutter's best pitch now is a home run ball. It "sinks" into the batters.

Ontiveros is so slow he does the hundred yards in 8 minutes. But this is still faster than the rest of the other Cubs.

The Cubs' pitching staff will set a new high in the majors in the E.R. department.

Footie, as a catcher, should get the boot. Sizemore and Murcer are "has-beens". Martin and Vail are "never-was-es". DeJesus never "will be". What's the solution?

Perhaps, if the Cubs offer Kingman, Ontiveros, Sizemore, Murcer, Reuschel, Holtzman, Sutter and 30,000 shares of Wrigley gum stock, maybe they can get Fergie Jenkins. It's worth chewing over.

Now speaking of a spectacular winner, how about that hoss Spectacular Bid. I am the only one in the world who predicted Spectacular Bid would win the Triple Crown.

"Oh, yeah," you might say, "so did a lot of other people." No way - I predicted it when Spectacular Bid was foaled. And this foal didn't foul me up ... did he?

Years ago I watched a race of fillies and mares at Belmont Park. On the far turn, one of the mares dropped a foal. Guess what? The foal ran second.

Spectacular Bid will win the Belmont by a mile - make book on it!

You can be a winner now and next winter (remember the last one?) if you call Bill Kenney of Kenney Aluminum Products, 792-3700, for needed home repairs.

If you need storm windows, doors, awnings, canopies, siding, soffit and fascia or seamless gutters, now is the time to drop into Kenney Aluminum Products, 7570 N. Milwaukee ave. Bill Kenney, with more than 25 years' experience, can put your home in shape for summer and next winter.

Bill is one of the fairest, squarest guys in the industry, and literally thousands of homeowners can attest to it. He guarantees all his work and does what he promises. He does quality work at reasonable prices, uses the best in workmanship and materials and carries all national brands.

Bill will give you a free estimate on the work you require, so why not give him a call at 792-3700 for complete information without obligation ... any job, large or small, receives his full personal attention.

Brown's Chicken, a family restaurant, will be opening on or about June 1. Their new location at Waukegan and Milwaukee in Niles is rapidly nearing completion.

Brown's Chicken - "the chicken that tastes better" - along with their carryout service, will also feature a large dining room and drive-up window. Watch this paper for their opening ...

See you next week!

With no more space left on the monitoring panel Chief Emrikson said "new subscribers are banging on our door, asking for a hook up to the alarm system."

Ponder future of police alarm system

by Alice M. Bobula

During a pre-board meeting Tuesday, May 22, Niles trustees agreed not to terminate the police alarm panel system which monitors burglar alarms. Police officials were directed to research alternatives for action on Niles' aging alarm panel for report back to the Board in 6 months.

Police Chief Clarence Emrikson described the alarm monitoring system to be "outmoded, outdated and one which can be easily circumvented."

While he noted village "diservice if we don't continue the burglar alarm service to businesses," Emrikson observed "we could spend \$25,000 today in upgrading our system with new equipment which would be obsolete in 5 years." He said replacement parts were not available for the present monitoring system.

Options available to the police department according to Police Sgt. Frank Wichlacz include (1) termination of service to subscribers; (2) purchase of a new monitoring panel with a microprocessor to document alarm circuit status, or a bid for services by an outside company; or (3) restrict the police monitoring service to hi-level security locations and banks.

The present burglar alarm panel said Wichlacz permits a total 105 subscribers of which 96 include 5 banks, 9 savings and loan institutions, 6 jewelry stores, 3 offices, 32 mercantile stores, 16 industry, 4 recreational facilities, 14 residential, 2 currency exchanges and 5 others. Approximately 20 tape dials also use a special police phone number he said.

With no more space left on the monitoring panel Chief Emrikson said "new subscribers are banging on our door, asking for a hook up to the alarm system."

Sgt. Wichlacz observed the monitoring of burglar alarms by police departments is usually found only in suburban departments which provide 24 hour service.

Purchase by Niles in April, 1964, of a low cost alarm monitor

provided service to the mid-sixties when the criminal element even at amateur level found a way to circumvent the alarm system. Replacement, in 1968, with a "tone-pulse" system served Niles businesses well for 10 years. However, pointed out Wichlacz, "the system is now becoming obsolete" with alarm servicing companies finding it impossible to replace or repair units.

Mayor Nicholas Blase noted that "our community has to be a safe one ... research all alternatives and come back to the board with specifics on cost, service, people involvement and maintenance."

In Board action trustees unanimously agreed to forward a letter to Washington D.C. endor-

sing use of Niles East High School as an Arts and Special Events Center.

Mrs. Arlene Bezark, member of the Alternative Use Committee for the Skokie high school, appeared before the Board Tuesday night to request the endorsement necessary she said to obtain a \$29,020 matching grant from the National Endowment of Arts Foundation. Matching funds of \$14,500 have yet to be appropriated.

All services will be available for public use she noted.

• Authorized by 3 to 2 vote, negated by Trs. Carol Panek and Peter Pesole, Niles' participation in the Northwest Municipal Conference plan to research pay TV (cable television) predicated that committee recommendations not preclude any TV companies coming into the area.

• Unanimously approved a Plat of Easement for Public

Utilities and drainage in the Wood River Condominiums at Wood River Drive off Caldwell.

• Denied in a 4 to 1 vote, approved by Tr. Angelo Marcheschi an amendment to the Niles Building Code asking for reduction of a 60% masonry requirement to no less than 50% masonry for single family homes.

Marcheschi said he was sympathetic with builders' problems in meeting the 60% masonry code requirement.

Pesole urged caution in changing policy "just because builders are having difficulty."

Tr. Bart Murphy in vetoing the reduction noted there "were only 50 buildable lots left in Niles ... why go thru the trouble of amending the code at this time?"

INTRODUCING THE CENTEL SECURITY SYSTEM

A revolutionary new way to turn your business phone into one of the most effective commercial protection systems ever invented.

Now you can leave all your security worries at the office with the Centel Security System, the revolutionary new system that protects your business against fires, break-ins, and valuable inventory losses - even when you're not around.

At the heart of this remarkable new system is an automatic dialer which can be connected to any existing phone in your office. At the first sign of trouble, special sensors will trigger the dialer to immediately summon emergency assistance.

Each Centel Security System is individually designed to fit your particular security needs. And since the system is compatible with your present phone equipment, the total cost of installation is probably lower than you might think.

So enjoy the protection of a big business security system without paying a big business price. For your own no-cost, no-obligation security survey, call us today at

Niles budget..

Cont'd from Niles-E. Maine P.1

Scheel said he wanted to keep surplus revenues in reserve toward unexpected expenditures. He did not want to be faced with village costs he said such as those experienced for snow removal in the '79 blizzard.

"It's the first time in 6 years that anticipated revenues are more than the budget appropriation," said the Village Manager, at the same time noting "the village board was also shocked."

Last year's budget was balanced with a \$71,000 carry-over plus fund from the previous year.

Noting the general corporate fund rose approximately one-half million dollars, Scheel attributed this year's budget increase to accruals in Social Security, fire and police pension funds and a 7% salary increase for village employees.

Scheel gave the following figures in a summary of the 1979 tax levy:

Gen. Corp. Fund	\$6,738,048
Vil. Auto Fund	208,815
Vil. Veh. Tax Fund	210,000
Road and Bridge Fund	32,000
Soc. Security	336,000
Gen. Ob. Bond Fund	31,688
Water Fund	1,559,613
Police Pension Fund	240,000
Fire Pension Fund	250,000
Total all appropriations	\$9,606,164

Scheel explained this year's increase of \$55,552 in the village automotive fund was due to projected purchase of additional trucks for snow removal.

In his report on anticipated revenues the village manager pointed out the main source of income again will be derived from sales tax in the amount of \$3,600,000, a 2 to 3% increase over last year's figure of \$3,470,000.

Other anticipated income to meet budget demands is water sales, \$1,700,333; utility taxes \$1,038,000; pension funds \$826,000; state income taxes \$531,000; property taxes \$500,000; federal and state program funds \$340,000; village automotive fund \$212,194; vehicle licenses \$210,000; special police and police fines \$20,000.

Also, licenses (liquor, business, animal) \$190,500; permits, fees and inspections \$177,300; miscellaneous (up due to expected sale of dormant properties) \$147,600; Operation RED (Regional Emergency Dispatch agreement involving combined use of basic fire communications system by Niles, Morton Grove, Glenview, Glenbrook and North Main Fire Protection District increased \$28,000 this year in anticipated purchase of new equipment) \$95,000; highway maintenance \$55,000; Circuit Court rental and maintenance \$35,040; General Obligation Bonds (final this year with completed payments on Fire Station 2) \$32,000; road and bridge fund, \$32,000; resale items (maps, rezoning books, garbage bags) \$23,000 and interest earned on investment \$20,000.

According to Scheel, the "biggest slice of the total budget went to the police department, of 21%" followed by 16% to the water department and 14% to the fire department.

The standards also affect oversized and odd-shaped pieces of mail. Postmaster Principali said.

For first-class mail weighing one ounce or less, there will be a surcharge of 7 cents for pieces more than 6 1/8 inches high or 1 1/2 inches long.

For more information, the postmaster suggests customers check with a post office window clerk.

violent. His parents were told of his unusual behavior in the church.

Mr. Gagliano, when notified of his son's disappearance and violent threat, went to the church Monday morning, but did not find him there. Later in the afternoon, Robert and his girlfriend returned to the church and after searching for some time, found the body behind the altar area.

Niles paramedics and police were notified and the body was removed to the Cook County morgue for an autopsy. When questioned by Niles investigators, parish priests and school personnel reported no one had heard the shot or seen the man in the church.

Niles police investigator Muscalino told The Bugle that Dominic was found wandering in southern Illinois approximately 6 months ago by police and his parents were notified. He was reported to be in poor mental condition and when his parents brought him home, he was checked into Lutheran General Hospital's Psychiatric Health division.

Dominic's father, Anthony, is a trustee for Niles Township and has been a very active Nilesite for many years. In 1976-77 he co-chaired the Niles Days Festival and is a member of the Northwest Italian-Americans. There are 3 other children in the Gagliano family, including 2 sons and a daughter.
