Stetina, Padnos appointed to District 63 vacancies

At a July 30 meeting the East Maine District 63 school board appointed assistant superintendent Don Stetina as acting superintendent and selected Norman Padnos to fill a vacancy on the school board. Present school superintendent, Ken Moe, who resigned at the last board meeting, will leave the district August 15, moving to Brown Deer Park, Wisconsin, where he will continue his role as a superintendent in that area. Padnos replaces Larry Reiss on the school board. Reiss resigned the same time Moe did. While announcing the appointment, the board indicated it would implement the 5-year plan proposed by Moe to reduce spending and studying the need to close additional schools. The Stetina appointment is old hat in the district. He has previously served in the "acting superintendent" capacity twice before while the district sought a new superintendent. The swinging door in the District 63 superintendent's office has swept in and out about seven superintendents during the past 15 years. The surprise selection of the unknown Padnos was done behind closed doors. Board member Mark Davis had sought to keep the selection process at an open meeting. Board members Phil Deckowitz and Larry Solomon disagreed contending there was more freedom of discussion at a closed meeting for discussing the appointee. Padnos, 2739 Karyn Ln., Glenview, is an attorney who works for the Abner J. Mezrow Company, a real estate firm. He was a spokesman for parents in the

Oketo homeowners elated by decision

Niles Zoning denies Jerry's parking plans

From the LEFT HAND

by David 'Bud' Besser

It was really the polyester crowd up against the navy blue vested pinstripe. It was the young successful businessman, a rather handsome, slightly rotund man, grey amidst the bushy sideburns, white expensive shirt open at the neck, which he periodically scooped close with the back of his hand, up against an older crowd, working people, sleeveless blouses, short, open-necked sport shirts.

It was the soft-blond hair next to him, high cheek-boned, rouged and lipstick to match the red blouse under her beige suit. Hers, too, might have been polyester, but it was bought at Saks or Bonwits and moved among classier polyesters. She had on high heels, very chic, and she was silently rooting for her husband, though she seemed somewhat aghast at the critics pounding away at her husband's business operation.

It was Monday night's zoning board meeting. The little guys who've worked all their lives. They've worked hard and saved hard and they were out defending their one solid financial asset, their homes.

It was a classic confrontation. Jerry Reiger, a soft-spoken, rather stylish guy, who has a very prosperous fruit and vegetable market on Milwaukee ave. Jerry is not the old-time peddler, who started on a pushcart. He's a big bucks guy, who started on a shoestring of large dollar bills 8 years ago. He built a first-class business, and the troops are now flocking in from all over the northwest area. He's exhausted his parking spaces and aims to expand into the residential area behind the store. The homeowners, worried about the infringement, worried about the value of their homes, worried about the esthetics, occasionally worried themselves into a frenzy, reciting rat problems and garbage problems which they contended rested alongside their homes.

Prairie View Run

The 2nd Annual 6.2 Mile Prairie View Run will take place on Aug. 19, at Prairie View Community Center, 6834 Dempster st., Morton Grove. Race time begins at 8 a.m. Pre-registration and race sign-in will begin at 7:45 a.m. The cost of the race is \$3.50 before Aug. 19 and \$4.50 the day of the race. T-shirts will be given to each participant and trophies will be awarded to 1st through 3rd place finishers in each age category. The Morton Grove Park District encourages all area runners to take part in this Mid-August Classic Run. For more information call the Recreation Office at 965-1200.

Denial was predicated on improbability of co-ordinating necessary Milwaukee ave. improvements with parking lot construction, setting a precedent in approval, increased traffic congestion and health hazards. Residents from the area came to the meeting to protest the rezoning, citing increased traffic problems, depreciation of property values, poor maintenance of Jerry's and presence of rodents and viewing a 6 ft. high, 250 ft. long fence which would border Oketo. To allow the zoning change from residential to business special use would also constitute "spot" zoning they said.

Send in the clowns

Posing for the cameraman before clowning around in front of the gathering crowds at the recent Niles Days Festival are little clown Frankie Wagner and big clown "Jerry-O-Clown." Seven year old Frankie was Jerry O's number one assistant in providing laughter and balloons to children of all ages while mingling with the surprised crowd. Heads turned and smiles appeared as they watched little Frankie trail and imitate professional clown Jerry-O.

Since the age of five, Frankie has had an admiration for clowns and their ability to make people laugh and be happy. He taught himself to apply his own clown makeup and made his own tattered costume, the pieces of which were borrowed (?) from his mother and father's wardrobe.

Send in the clowns - pint size, jumbo size - and many will remember what they did in Niles at the Festival of '79!

Reynolds Aluminum recycling center

Reynolds Aluminum Recycling Company today announced record collections totaling more than 75 million pounds of aluminum for its customer recycling program during the first six months of 1979.

This marks a seven percent increase over the same period last year.

Reynolds recently increased the amount it pays the public for recycling aluminum from 20 to 23 cents per pound.

Besides all-aluminum beverage cans and other clean household aluminum products such as pie plates, foil, frozen food and dinner trays and dip, pudding and meat containers, Reynolds recycles certain other items-including siding, gutters, storm door and window frames, lawn furniture tubing, and aluminum castings-which are also worth 23 cents per pound if properly prepared. This aluminum must be free of all foreign materials, cut to lengths not exceeding three feet and should not be mixed with aluminum cans.

The nearest Reynolds collection point may be found at Lawrencewood Plaza, Oakton & Waukegan rds., Niles. Every Saturday from 10:30 a.m. to 12 Noon.

NORTRAN open house to feature farebox sale

Ever wanted to own a bus farebox? You will have an opportunity to pick up one of 75, at 50¢ each during the upcoming "garage sale" of the North Suburban Mass Transit District (NORTRAN) which will be held at 2 p.m., Sunday, Aug. 19.

The sale, which will be on a first come, first serve basis, is one of the events planned for the open house of NORTRAN's new, \$505,000 heated bus garage which will accommodate 64 of the fleet of 110 buses. Even if you are not in the market for a farebox, you are invited to inspect the garage between 1 and 5 p.m., on Sunday, Aug. 19. The garage is located approximately one mile west of downtown Des Plaines at 900 E. Northwest Hwy.

Who might be in the market for a farebox? James A. Mahoney, vice chairman of bus operations and NORTRAN trustee from Niles, said that most of them will be bought by transportation fans, "plus a few people who will make lamps out of them, put them in recreation rooms and even decorate a restaurant with them." Others will end up on lobbies and public areas of non-profit organizations in hopes they will attract a few coins from charitable donors, Mahoney added. The registering fareboxes, which have been in service since 1942, actually count the coins deposited.

All of the funds raised through sales of the boxes, will go to the Federal and State Governments to reduce the taxpayers' expense for new equipment.

1979 Bronco League Champions

The Niles Orioles are the 1979 Bronco League "Champions." The Orioles in their championship form won First Place on the last day of the season with a come from behind win. They won 14 games over the long season and some by lopsided scores of 23 to 4 and 18 to 5. Manager Robert Cieszykowski said, "The Orioles victory is a tribute to team play. We had no stars and yet the whole team were stars in one or more important wins."

The Orioles leading hitter was Joe Klancnik followed closely by Frank Calarco, Mark Kwiatkowski, Randy Busiel, Steve Cieszykowski, Eric Perkins, Bob Flynn, Scott Kemnitz, Alan Imyak, Lou Argyrakis and Jeff Simonsen. Randy Busiel led the team in home runs while Bob Flynn led in triples and Frank Calarco and Steve Cieszykowski tied for the lead in doubles. Joe Klancnik was the leading RBI hitter.

The Orioles Pitching staff of Frank Calarco, Joe Klancnik and Randy Busiel were ably saved by relief pitchers Bob Flynn, Steve Cieszykowski and Eric Perkins. Jeff Simonsen, Lou Argyrakis, Alan Imyak, Scott Kemnitz, Mark Kwiatkowski were "golden glove" fielders and they had five double plays during the season. Eric Perkins was a triple threat catcher, first baseman and in-

A's win AAA Championship in post season tourney

After a disappointing season, the A's finally put all their pitching, fielding and hitting talents to work and came out champs in the post season tournament.

In the first game, only 3 hits were given up by A's pitchers—Phil Raffin, Dan Pawlowski and Bob Berg. The A's came out on top over the Braves, 6-3. In the second game of the single elimination play offs, Bob Berg came in to relieve the starting pitcher and allowed only one hit in four tight innings. This time, the victims were the Padres 9-4. In the third and final game, Phil Zangara permitted only 2 runs to cross the plate in his four inning pitching stint and Dan Pawlowski managed to save the A's victory by letting only 4 batters come up in the 7th inning and the Cubs went down to defeat 13-7.

The A's team worked together and each member did his own job in the field, allowing them to win their first game, 6-3, their second game 9-8 in the bottom of the 7th inning and the third game was won 13-7 when Bob Berg at shortstop caught a hard hit ball, threw to first and robbed the runner of a base hit by one step for the final out of the game.

All the members of the hit in

the three tournament games. They tallied a total of 28 hits, almost memorable a grand slam home run by Steve Gattorna in the third game.

Two AA players, Jim Raffin and Mike Overbeck were called up to play in the tournament and both boys contributed to the winning of the championship. Congratulations are in order for a team who gave their all, never said die, and came out on top.

Bob Berg, Jim Berg, Steve Gattorna, Mike Glauner, Jeff Hazen, Dan Pawlowski, Bryan Peterson, Stuart Sullivan, Phil Zangara and Jim Zeman are the players for the A's. The team was managed by Bob Berg and coached by Ben Stefani and Norm Glauner. Scorekeeper was Sue Stefani.

In the first round game, the Giants defeated the Red Sox 4-3 to put them in the semi-final game against the A's. It was a well pitched game as the Red Sox started with 3 in the first inning. Jerry Tietz singles, Ken Reeve doubles and John Gibson homers. The Giants score 1 in the 2nd and 2 in the 5th to tie. There the game remained until the 6th inning, a double, a pass ball and a sacrifice fly brought the Giants victory.

Niles hosts Minnesota team

On Aug. 7 at Jozwiak Park, Mayor Blase had the honor of throwing out the first ball in a game hosting a team from Rochester, Minn. The game took place during the Pony AA Tournament for 13 and 14 year olds. The tournament includes teams from surrounding areas, but not as far away as Rochester, Minn.

The Niles Park District hosted this traveling team. They were registered guests in one of Niles Recreation Centers. Their stay may be as long as 3 days as this is a single elimination series. We wish all the teams luck.

American 5 - National 0 in All Star game

The American Conference All Stars defeated the National Conference All Stars in the Niles Peanut League Thillens Stadium All Star Game.

A fantastic job by pitchers D. Geeve, J. Calarco, T. Reid, and R. Porzycki produced the shutout. Over six innings they allowed only one hit by J. Chupich and rack-up 16 strikeouts.

Offensively, the Americans were led by D. Geeve, S. Riley, J. Ozzauto, T. Markos and J. Calarco.

Little League Round Robin

Red Sox 4 Giants 3
The second game of the Round Robin for both teams proved to be quite a tight game. Good pitching plus excellent defense, add in timely hitting and you have a recipe for a winning ball game.

The Red Sox used this winning formula to defeat the Giants 4 to 3 and move into the post season tournament championship game. Solan opened the Red Sox scoring with a triple and scored as Mitchell grounded out in the 2nd inning. The Giants tied the score in the 3rd inning and took a 2 to 1 lead in their half of the 4th Dudgeon, Ugel and Ciminnello got consecutive singles good for 1 run, then Solan and Mitchell grounded out to score 2 more runs. The Giants threatened to tie the game in the 6th with the tying run at 3rd base, no outs, Bobby Gattuso tried to score on a grounder to catcher Kumkoshi nalled Bobby at the plate. It was a good game to win and a tough loss for the Giants as both teams played very well.

Pitching for Giants were Samelak, Elenz and Gattuso. Pitching for Red Sox were Mitchell, Dudgeon and Ugel. Cubs 10 Astros 2
- Hitting for Astros were Englund 3 for 3, DeBartolo 2 for 2, Cecchin 2 for 2, Richard 1 for 2 and the play of the day was a diving catch by Joe Barrett. Pitching in the Round Robin game for the Cubs were Dugan, Stowell and Ciecko. Pitching for the Astros were Richard, Englund, Kuhr, and LoVerde.

Red Sox 7 Orioles 2
The Red Sox finally got back on track after losing 6 out of 7 games at the end of the season. They really put their team together in this their first play off game against a team that was second place and has previously been known to win over the Red Sox.

Red Sox pitching was on, allowing only 2 hits and 5 walks. Mike Mitchell pitched very well, Dudgeon pitched 3 and 4 and Bob Ugel pitched the 5th and 6th and struck out 5 of the 6 Orioles batters. Randy Dudgeon and Ugel each had 2 hits, Ciminnello, Osel, Hendrich, Porzycki, up from Peanut League and Bachmeier all added a hit apiece to the Red Sox offense. Hitting for the Orioles were Serlin, Peanut League Niedermaier and Piento.

Red Sox player Bachmeier's timely triple along with good pitching and tight defense all spelled success every time. Nice going Red Sox. Pitching for the Orioles were Wagner, Piento, and Serlin.

Last Game of Season Orioles 14 Red Sox 6
Last game of the season brought the Orioles back to their old self again to win over the Red Sox. Scoring runs for the Orioles were Lietz, Quinn, Kwiatkowski, Serlin, Wagner and Chandler. Super defensive plays were had by all including a great catch by DiLegge. On the Red Sox bench Ciminnello started the hitting for the Red Sox and again in the 4th followed by a single by Mitchell to drive in additional runs, in the 5th, Dudgeon doubled and Ugel drove him in, but all was not enough to score against the Orioles. Pitching for the Orioles were Wagner, Piento, Serlin and Kwiatkowski. Pitching for Red Sox were Dugan, Stowell and Ciecko. A special note to all Oriole parents, and that being a thank you to everyone for adjusting your schedules and your dinners to have your young men to the fields for games and practices alike (we did have a few practices didn't we?). Without this type of cooperation, by the parents, we would not of had such a good season. Thank you.

Day care centers

The Jewish mother approach to child rearing produces warm, loving, successful, productive adults, according to Professor Julius Segal's comments in his recent book, "A Child's Journey." If you are a mother who must work, where can you find the kind of environment that tries to duplicate the care you give your child in your home?

In Skokie there are two such Jewish day care centers whose goal is to reproduce as closely as possible the kind of nurturing, loving and mentally stimulating setting found in most Jewish homes.

Both the Gan Yeladim Early Childhood Department of the Niles Township Jewish Congregation and the Pearl Goodman Schoen Pre-School and Day Care Center of the Mayer Kaplan Jewish Community Center, 5050 W. Church, Skokie provide quality service for children of working parents. The program is based on a balance of sound child development practices and Jewish content. Staff are qualified, caring professionals who are selected for their responsiveness to the special needs of children in day care.

The Center each have large, lovely enclosed playgrounds and serve Kosher meals. Hours are geared to the work schedules of parents. These services are available to the total community. Some openings are available at both Centers.

For further information call Sara Zucker at Niles Township, 675-4141 and Elyne Handler at the Mayer Kaplan "J", 675-2200, ext. 236.

Save Energy! Save Money!

Replace Your Old Gas Furnace With An Energy Saving

Amana

Air Command gas furnaces:

Your keys to efficient gas heating:

Amana Heat exchanger and thrifty burners

Designed for efficient heating. Full length burners provide even heating from the entire heat exchanger. Flue restrictors and diagonally opposed cross-ribs force hot gases to wind their way through the heat exchanger instead of escaping straight up the chimney. Built-in expansion loop reduces noisy and damaging metal strain.

Amana Electronic ignition reduces gas consumption

It's safe, automatic, convenient. And there's no wasteful pilot to light or relight. Available on many natural gas models. When you need heat, Amana's electronic ignition system opens the gas valve part way. At the same time, a spark lights the burners. When the flame probe proves the gas is ignited, the spark stops. Meanwhile, the gas valve opens fully and the main burners operate at full capacity. If burner ignition does not occur, the system closes the gas valve.

ENERGY VENT FUEL SAVINGS UP TO 23%

The first A.G.A. design certified vent damper. The energy vent is an automatic damper that prevents the loss of heat in the flue block during the off-cycle.

Your **Amana** contractor is a comfort expert.

He'll recommend the Amana comfort system that best fits your needs: size the system to do the job efficiently and install it so it gives you the years of dependable service and comfort it's designed for. His training and experience assure you of fast, effective help. Your Amana contractor is another reason Amana cooling and heating systems are smart buys for your home.

LETTERS to EDITOR

Skunks are beautiful, intelligent and immaculate!!

Dear Mr. Editor, I wish to take issue with the article you printed that appeared in the July 26th issue of The Bugle. Ms. Eisenberg made the skunk out to be some sort of arch enemy by reporting that "they carry rabies, are dangerous...and they are roaming in packs of up to five." Let's set the record straight.

Skunks are NOT carriers of rabies. Even if they could bite, they would not spread disease. (Who has ever ventured close enough to be bitten?) And how could they be considered dangerous when they do not claw or growl, when they are too heavy to run, jump, or climb. In fact, their scent is their only means of self-defense.

During hibernation, several females may bed down together for warmth but as a rule, skunks are solitary animals (particularly males). In the Spring, a male will travel miles to find a receptive mate.

If you locate a skunk in your area that you disapprove of, call the Anti-Cruelty Society or your local forest preserve, but PLEASE don't be inhumane or cruel to them! To quote The Pet Library "The skunk is a beautiful animal, intelligent, immaculate...one of America's most lovely wild animals."

Sincerely, Klaren Mueller 8127 N. Prospect ave. Niles, Ill. 60648

Flynn urges Mexican oil imports increase

Dear Editor, I have just paid \$22.40 for gasoline at \$1.04 per gallon and have been told that my natural gas bill for home heat will increase by 18 per cent next winter. In fact all oil based products will increase by an average of 23 per cent in 1980. Obviously, the major cause of inflation and recession is the outrageous price increase of OPEC nations.

In Mexico billions of feet of natural gas is burned off each day while oil pumping is not substantially increasing. The reason is that President Carter refuses to sit down and talk trade and price with Mexican leaders. President Carter is one of the major stumbling blocks to increased Mexican oil and natural gas.

I propose that the Congress pass a Resolution urging the President to immediately send a delegation of Mexican American political, governmental and business leaders to Mexico to discuss increased oil imports. I suggest this Resolution be passed immediately and that the President follow it. Our country is not only in a recession, it is on the verge of a depression. President Carter reminds me of President Hoover in his inaction. Certainly, Senators Jackson or Kennedy would not hesitate.

Respectfully, Thomas W. Flynn Democratic Candidate for Congress, 10th District

Larsen withdraws from 10th District race

The endorsement of Robert A. Weinberger by Democratic National Committeeman Calvin Sutker and his Niles Township Committee has uncovered stirrings of presidential politics. Jack Larsen, Park Ridge Patent Attorney and one time government science administrator, one of the fifteen hopefuls to appear before 10th District screeners, has announced his withdrawal from the race. "The Democratic who could fill Al Mikva's shoes and carry the District would need the support of all Democrats. I heard Mr. Weinberger when we appeared before the screening committee on June 22. The young man is not ready," Larsen said.

Meeting with friends and supporters at his home Friday night, he said he would turn his efforts toward the election of a slate of delegates for Senator Kennedy or some other alternative to President Carter. "The special election is bound to be a plebiscite on Carter; and Weinberger is Carter's man," he said. Atty. Thomas Flynn of Niles, the only formally announced candidate in the race, has called for a slate of delegates for Kennedy or Senator Jackson. Larsen said he expected to support Flynn whom he said was "very current on the issues and sensitive to the needs of the District."

Larsen said he had worked on the same Rickover nuclear project as Carter; and therefore, has been a consistent and hopeful supporter. "I expect him to be

"Loser of the week" award winner
A Skokie resident reported alleged estimated losses of approximately \$2,000 to \$2,500 in attempt to get the engine of his car repaired at Phoenix Auto Repair Service, 7883 Waukegan rd.

According to police the victim took his 1970 Mercedes to the repair shop in September, 1978, for repairs and left a \$500 deposit with the owner who subsequently went out of business.

Refusing to refund the deposit, the shopowner said the repair work would be done under the new business name of Niles Foreign Auto Repair if the car owner would purchase parts amounting to \$500 and the motorist agreed.

When the businessman went out of business again without repairing the car, the motorist hired a private tow service to remove his car from the lot with the assurance that the newly purchased parts would be inside the car.

However, said the Skokie owner, not only were the new parts missing but parts of the original engine had been removed forcing him to sell the car as scrap.

"People helping people"

The very special people are the senior citizen residents of the Glenview Terrace Nursing Home. Many hardly able to walk, and many confined to wheel chairs but all very much aware of the circumstances.

On Sunday, July 15, a Variety Show was given by the special people of Orchard Association for the Retarded/Orchard Village. "Sharing and Caring" was the theme and it was the best example of emotions running high. It was simple, yet very clever and was done from the heart.

Earlier this year, Lena Siens, director of the Glenview Terrace Nursing Home organized a special fund which was made up of contributions from the nursing home. This donation was made to Orchard Village's Red Bird Club. To show their appreciation, they decided to put on a show for the nursing home residents.

Under the directorship of their volunteer counselor, Bob Sodin, they put together a musical variety show. With the creative assistance of their very dedicated staff, Barbara Skyer, supervisor of one of the residential facilities and Kimberly Sodin, counselor, were responsible for set decoration and artistic effects. Gail Orner and Donna Siller, counselors, whom coordinated the variety show and the fine professional performance of Ben Vitale made the show a real MGM production. The residents, filled with excitement of "opening night," performed like troopers. It was a very special show and brought tears to many eyes.

The only thing that was really missing was TV coverage. This is the kind of thing everyone should see... People Helping People.

Plant a fall vegetable garden

Douglas offers free bulletins on fall gardens to any novice or experienced gardeners. "We are pleased to be able to help our gardeners. Many have not only helped balance the food budget, but found a whole new happy dimension to their lives."

"Planting of certain vegetables can go on from early August through early September. The homeowner can then enjoy a harvest of fresh greens and other vegetables until frost - and sometimes after," the farm store manager stated. He said that one can plant vegetables such as lettuce, endive, kale, beans, cress, mustard, onion sets, peas, spinach and turnips and strongly recommends Chinese Cabbage which offers greens for salads and cooking even after several frosts. One can start crops like this in containers on patio at once and transplant later.

Soils are warm in fall making for quick germination; weed, insect and disease problems are reduced. Using composte cattle manure in the row helps to insure quick germination. It was suggested that if one errs in planting too late - only a few cents worth of seed is lost.

Flynn calls for creation of Common Market

Thomas Flynn, Democratic Candidate for Congress, today called for the creation of an "Inter-American Common Market." He said the Common Market would be based on increased trade, reduced tariffs, technology, educational and raw material exchanges.

Mr. Flynn said, "The combines North, South and Central American countries have a greater gross national product than any other region on earth. We are virtually self sufficient in raw materials and technology. There is no country or region that can conduct an economic or material boycott against the combined Americas. We can share our technology with other American countries for oil and raw materials. We can improve life quality throughout the Americas and end inflation and recession in our country."

Mr. Flynn went on, "The concept of an Inter-American Common Market was first proposed and began under President John Kennedy. It was allowed to die at the urging of political leaders in various American countries. Unfortunately, the present time calls for the immediate reintroduction of this concept for our very survival. We must do so immediately and it must be built upon a base of human rights and Democratic Principles. We must provide the new leadership in 1980 to create the Inter-American Common Market."

Chicago Artists teach courses at OCC

Several Chicago artists will serve as instructors for a special humanities course being offered again this fall at Oakton Community College.

The course will give students an opportunity to learn about art by talking and working with instructors who are themselves artists, according to Dick Storing, associate professor of communications and humanities. "The Artists' Workshop" is an introductory course in the humanities, Modern Culture and the Arts (HUM 101-33), and has been divided into three, five-week segments or modules. Each module will have a different topic and be taught in turn by three artists who make their living in the areas of drama, sculpture, and graphic arts.

"Computers don't run your lives," Drezdon stressed, "It's the people who are running the computers that effect your life. If people take a course like this one, they can learn to understand computers and won't need to be scared or frustrated."

"Basic Computer Language introduces people to the BASIC computer language. It starts from scratch, assuming they know nothing about computers and programming," Drezdon said.

MONNACEP is the adult education element of Oakton Community College administered in cooperation with Maine, Niles and Glenbrook High Schools.

O'Donnell named Chief Executive Officer

Marvin von Aowege, president of the First National Bank of Morton Grove, announced that Joseph E. O'Donnell has been named executive vice president, chief executive officer and a director of the bank.

O'Donnell, a senior vice president before his new appointment, joined the \$94 million bank last January.

He previously was senior vice president and a director at Northwest National Bank of Chicago and executive vice president of Main Bank of Chicago.

O'Donnell holds a bachelor's degree from De Paul University and an MBA from Northwestern University. He was a national banker examiner in the office of

the comptroller of the currency of the U.S. Treasury Dept. He is a member of the advisory board of the Center for Sports Medicine at Northwestern and a faculty member at Harper College in Palatine.

O'Donnell, a retired U.S. Navy commander, resides in Deerfield, with his wife Mary and their children Mary Jo, Anne Marie and Joe Jr.

Glenview State FNBOs honors master degree graduate

John H. Beaulieu, President of Glenview State Bank, recently announced the appointment of two Banking Officers.

Mr. Logan Cox, a retired U.S. Air Force Major, previously was associated with Aetna Bank of Chicago. He is a graduate of Illinois State University and is currently residing in Glenview.

Raymond L. Kean joined Glenview State Bank in 1978. He received his degree in Finance from Indiana University. Originally from Evanston, Mr. Kean currently lives in Northbrook.

At a bank reception by the staff of the \$280,000 First National Bank of Skokie, Joe Ferrante (l), Manager of bank teller operations is congratulated by Dan Casey (r) FNBOs Senior Vice President on attaining his Masters Degree in Business Administration from DePaul University.

Ferrante has been associated with the bank for over six years starting as a management trainee working in all departments in a specific training schedule. For the past three years, Ferrante has been manager of all teller operations in both the main bank and Dempster Office including drive-in operations and supervising the 3 FNBOs Autotellers.

Ferrante received his B.S. Degree from Northern Illinois where he was a member and Vice President his Senior year of Pi Kappa Alpha Fraternity. He served in the U.S. Army and Reserve for 6 years. Ferrante and his wife, Susanne live in a western suburb. Joe is active in sports especially participation on the FNBOs softball and bowling teams. While First National Bank of Skokie does not send its employees to college, per se, it does encourage them to further their education and will reimburse employees for tuition on completion of sanctioned courses taken while a bank employee.

O'Connell. High mortgage rates and tight money

No relief from high interest mortgage rates is in sight for the next six months. That's the prediction from Skokie Federal President, John R. O'Connell.

In a midyear review of mortgage trends O'Connell believes that the prevailing 10 1/2% interest rates in the Chicago and North Shore area will continue throughout the year.

"Although high," O'Connell noted, "it still compares favorably with the 11 1/2% rate common in many parts of the country including California."

He believes two factors are keeping the rates from going even higher: 1. The demand for funds is declining as is evidenced by an unusually high number of homes listed for sale in the Chicagoland area; 2. A steady decline in short term yields of government obligations which determines the Illinois interest mortgage usury ceiling has reduced maximum loan rates permitted to 10 1/2%.

O'Connell believes a condition more serious than high interest rates will be the availability of funds. "In recent weeks we've seen an increase in the prime interest rate but a lowering of the loan ceiling. We've seen a tremendous customer acceptance of high paying certificate of deposits but there exists a governmentally imposed limit to corresponding increases in mortgage rates. Unfortunately, if this trend continues, it may lead to a drying up of some mortgage funds in the Chicago area as associations are forced to buy out of state loans which promise a higher rate of return. In the future a reliable supply of money may not be available for the homebuyer."

On a more positive note, O'Connell states these same economic factors have con-

tributed to making the next few months an excellent buyer's market in the housing industry. "Because home inventories are stacking up, housing prices have probably peaked and there are quite a few bargains available for those with the funds to buy."

Examples of the help which can be provided is that given by Paul Ward who recently drove Stella Kaleta to a dialysis treatment center in Chicago. Mrs. Kaleta had no means of transportation from

Morton Grove to her appointment and the ride provided by Mr. Ward relieved her of the anxiety and danger of missing her appointment.

For information on how you may donate some of your time to help others, call Ralph Birmingham, Morton Grove Information & Referral Officer, weekdays, 9 a.m. until noon, at the seniors' "hot-line" at Village Hall, 965-4656.

In preparing to begin the search for a new superintendent for the \$42,000 job, Deckowitz said it was impractical to fill the post without the aid of outside consulting firms.

While several companies have been mentioned, Victor Cottrell, who worked for the Selection Research, Inc., has now formed his own company, Ventures for Excellence. Since the SRI controversy contributed to Moe's resignation, it is unlikely he will be considered in aiding the district again. The SRI company is no longer in the superintendent selection business.

From the LEFT HAND

Continued from page 1
 The modern supermarket, merchandise out in the open, watered down and fresh and inviting, not handed to you out of crates, where much of the bad and overripe stuff had to be stripped away.

The 1979 fruit and vegetable man had a high-powered group of experts pleading his case. The traffic man, very knowing, discussed the accident patterns in front of the store. The real estate man spoke about Niles being a preferred community in Chicagoland. One of the sleeveless sports shirts yelled out, "Let's keep it that way."

It was the lawyers against the lawyers. The stylish businessman with the pretty blond wife had a mod lawyer giving the fruit and vegetable point of view. Light beige suit, dark brown shirt with a painted tie quietly in the background. The lawyer announced he was LaSalle st., and was very well prepared. So well prepared he had a youngish woman comb his straight, long, mod hair outside the courtroom. During the Scopes trial, William Jennings Bryan had the same hair-do. It looked ridiculous then. It hasn't improved 55 years later. The opposing lawyer was the polyester crowd's lawyer. He spoke well, impressed the people who were paying him they were getting their money's worth, and would have done better if he'd stayed in his office on Milwaukee ave. He began arguing with the traffic expert and lost the round. He argued. He lost. He took on another expert. He argued. He came out second best again. A small time lawyer trying to score points for his clients looked bad against experts who had been studying their business for 30 years and 30 minutes longer than him.

The meeting dragged on past 9, then 9:30 when the young people began to drift away. By 10 p.m., a few impatient homeowners began to leave. And the overcrowded room began showing empty seats.

The fruit and vegetable man seemed to have advisors all around him. Another lawyer with a much better haircut, suede jacket, kept on passing legal yellow sheets back to him. Finally, the sitting down lawyer stood up, waved a finger at the F & V man, and they went out in the hallway to diagram the winning touchdown. The only problem was they were playing the wrong game in the opponent's ballpark. They didn't have a chance.

By 11:30 the game was over. The jury did a bit of cross-examining and then voted unanimously to deny the pinstripe team their goal. The polyester crowd applauded, beamed, and their lawyer seemed pleased he was a part of the winning team.

The storeowner-hung around briefly and then headed for the exit. The beige suit-wife was followed by the Northfield League ball player, a 13 year old wunderkind, who was not too happy with some of the crowd's murmurings during the course of the evening. Several times he turned and showed disdain for the crowd's decorum. His Dad was a good guy and these people weren't treating him that way.

As the pinstripe turned to leave, we asked him if he would take this request on to the village board and he was vague though he expected to. He was more definite when he said it was quite possible he would wind-up in court seeking a reversal of the decision. He was very pleasant. We introduced ourselves, he shook our hand and had that soft, great style he previously displayed.

Back in the courtroom 71-year-old Stan Lowe, looking like a bearded Mr. Chips, pumped our hand, after coming down from his zoning board seat. Stan came with Nick Blase 18 years ago and he's been sitting there all these years. Stan looks like a bearded 50 year old. If we could look as youthful, we might become hirsute. Ginger Trolani, the most recent appointee to the board stepped down and said his hello's. One of the wilder guys from the Lions club, Ginger handled himself with great aplomb. Ginger asked the best questions. We were proud of him. Jack Frick, another Blase appointee from the beginning, conducted the meeting in the true egalitarian spirit.

Jack had his point of view. He wasn't neutral. But he handled the meeting with exorciating fairness. His own bias never showed. He often complimented the experts for their well-thought points.

It was America at its best. The pinstripe had a lot going for him. And the little guys seemed terribly exposed. But when the decision was reached, the residential homes were protected. And the crowd, many of whom were near retirement, knew their life-long investment was no longer in jeopardy.

Nobody was angry. The losers handled it graciously. They might not have been thinking too graciously after the assault on their operation, but they outwardly appeared calm.

Around the room the Bill of Rights and Lincoln's words at Gettysburg and the Declaration of Independence and the 1215 Magna Carta all were settling down for the night. They all stood up well Monday night. They paved the way for the classic struggle. And it was ably fought within their rules.

Scholarship Teenage Institute on Substance Abuse

Four Maine Township High School students recently completed the fifth annual Illinois Teenage Institute on Substance Abuse in Bloomington, Illinois, according to Jack Callaghan, executive director of the Maine Township Council on Alcoholism.

The students are Jim Davlin and Susan Ruffner of Maine South, Barbara Teraji of Maine East, and Addiz Sarraya of Maine West. Accompanying the four was Jim Gallagher of St. Edwards High School in Elgin.

The purpose of the institute is to bring together Illinois teenagers and expert resource

people to share information about alcohol and drug usage. Three major goals of the institute are to clarify factual information, correct misinformation, and to differentiate between factual information and attitudinal "information" or misinformation.

Through lectures, discussions, and mini-workshops, the students learned pertinent facts about drug and alcohol abuse and will be able to carry their knowledge and experience back to their schools, communities and peers, he added.

The institute was conducted at East Bay Camp, Bloomington, between July 17 and 21. Scholarships to cover student expenses and tuition were provided by the Twentieth Century Junior Club of Park Ridge and the Des Plaines Junior Womens Club.

Under the title, "Life is Now," the institute was sponsored by the Illinois Alcoholism and Drug Dependence Assn., Illinois Dangerous Drugs Commission, the Alcoholism Division of the Illinois Dept. of Mental Health and Developmental Disabilities, and the Illinois Office of Education.

 Jerry's owns two of the Oketo homes at 6023 and 7023 and owns an option to purchase the other two at 6023 and 7023 N. Oketo. All 4 homes were scheduled to be razed for expansion of the present parking lot.
 During a discussion presentation by qualified witnesses, Martin Litwin, attorney for Jerry's, told zoning commissioners the

petition was initiated by pressure from Niles officials due to accidents and a backup in traffic caused by Oak Mill Mall shoppers, McDonald's and Jerry's. Efforts to improve the situation by hiring off-duty police to direct traffic in and out of Jerry's were unsuccessful he noted.
 Planning called for widening of Milwaukee ave. south of Oakton

and improved access driveway to Jerry's. But Attorney Jay Schiller said a letter request to the Dept. of Transportation from Niles Mayor Nicholas Blase asking Federal aid and urban funds to resurface Milwaukee ave. for relocation of traffic, etc. for the Mall, Jerry's and the Park District had been refused. Monies would not be available until 1981 or '82.

Litwin said if the necessary \$250,000 for Milwaukee ave. improvements were not forthcoming by the time of construction of the parking lot, his client would proffer letters of credit for the amount.
 Signed letters from Don Conley of McDonald's and Oak Mill Mall trusts offered no objections to Jerry's planning.
 Zoning Board Pres. Jack Frick drew a round of applause from the audience when upon presentation by Litwin of a 2" high stack of petitions signed by Jerry's customers, said he would also have signed a petition in the way it was presented. Customers were asked if they liked to shop in Jerry's and if there was ample parking in the lot.
 Representing approximately 40 homeowners in the area, Atty. Alexander Kouda turned in 300-name petitions in opposition to the zoning request, some as far away at 6910 Ozanam.

In answer to the requested traffic light for Jerry's, Kouda referred to Milwaukee ave. north from Harts rd. as a "red light road" with red lights at Harts, Touhy, Waukegan, Harlem and Howard st. "It's difficult to concede one more traffic light will improve traffic problems which begin at Harts rd. and get worse going north on Milwaukee ave." he noted.

Jerry Reiger who testified on his behalf said he "had outgrown parking" at his location of 7 years. "I don't want to argue with the neighbors, but I do have big traffic problems." He said he hoped for a 50% increase in business by zoning approval of the lot that was expected 50%.

A study of residential and property values presented by Theodore Kowalski representing the petitioner indicated an increase in sales values of Oketo homes from \$50,500 in 1976 to \$63,500 in 1978.

In answer to Zoner Frick's question "Could we be setting a precedent by taking 4 houses off the tax rolls for a parking lot? What would prevent McDonald's from doing the same?" Kowalski said each case would be considered separately.

On the other hand, said Kouda, inquiry of area real estate indicated severe reduction of 10% to 15% of the property values should zoning be granted. Pressed by Comr. Pat Feichter for a specific firm, Kouda replied "Callero and Catino," a Niles real estate company.
 In motioning for denial Zoning Comr. Angelo Trolani said village officials could not accept letters of credit for \$250,000 (payment of Milwaukee ave. improvements) in view of an initial outlay by Jerry's of approximately \$400,000 to \$500,000 for the 4 homes to be razed... "If everything could be co-ordinated (improvements with parking lot construction), the project could have possibility," he noted.
 Area homeowners were overly pleased with the decision. Carol Power of 7923 Nora who said she had personally canvassed the area with petitions said she was delighted and "happy for my folks" whose backyard would face the fence.
 Admittedly nervous in an emotional plea earlier to Zoners regarding maintenance of Jerry's, Helen Lovandowski, 7930 Oketo could only say she was "very pleased" with the decision.
 Chester Marsal, 7939 Oketo, who earlier told the board of rodent and maintenance problems at the Center and that "it doesn't make sense to spend

\$4 million to raze 4 homes for an asphalt parking lot" proffered thanks to the Zoners for the "wisdom of their decision. If they were in our position they would know exactly how we feel about our homes."
 Earlier making an impassioned plea to the Plan Commission regarding maintenance problems, Betty Marino of 7926 Oketo was triumphant in her declaration. "This is a lesson to all residents of Niles... We won! It proves again that the voice of the little taxpayer can be heard."
 Also said Wm. Jonas of 7929 N. Oketo... "Even before the meeting, it was my feeling that the Board would not let the residents down."
 At a June 21 village board meeting Reiger had petitioned for re-zoning of the 4 properties on Oketo st. plus Kirk (a half-street) for additional parking space. The Board deferred sending the petition to the Zoning Board because the village, not Jerry's, owned the street.
 A zoning hearing scheduled for Monday, July 2 which deleted the Kirk st. portion of the petition was continued to the August 6 hearing because of a change in attorneys for Jerry's, to allow the new attorney time to prepare his case. Approximately 50 residents were in attendance at that time.
