

# NORTRAN ridership up 35%

Ridership on North Suburban Mass Transit District (NORTRAN) buses leaped 35% in the month of July, one of the sharpest ridership increases in the District's four-year operating history.

Leonard S. Eisenberg, chairman and trustee from Glencoe, said July 1979 ridership was 562,004, compared to last July's 410,953.

The dramatic spurt in ridership is even more surprising, Eisenberg pointed out, in light of the fact that ridership is down when schools close for the summer.

Eisenberg attributed much of the recent rapid increase in ridership to several factors, including the Eden's reconstruction, uncertainty about gasoline supplies and "because a lot of last year's snowbirds liked us and stayed with us. These factors have led people to try NORTRAN to get to shopping areas and commuter rail stations.

Whatever the original reason,

they are apparently trying us, liking us and staying with us."

NORTRAN's run to O'Hare Field, Route 220, is doing better than ever, with a 55% ridership increase. The route runs thru Glenview, Niles, Des Plaines, and Park Ridge and also serves Golf Mill shopping center. Ridership on this route is up from 10,000 in July 1978 to 15,484 this July. Eisenberg attributed the increase to businessmen using the bus to catch O'Hare flights, and shoppers.

Routes 240 and 241 local routes in Park Ridge serving the Chicago North Western station and Golf Mill are up 34 and 26% respectively.

Route 250 (Des Plaines to Evanston via Dempster st.) which services the CTA Skokie Swift and Davis El stations is up 54%, "including significant increases in weekend business," Eisenberg said.

Other big ridership gainers have been Routes 221 and 226, which serve the Jefferson Park

## Ronald J. Ritter

Navy Aviation Fire Control Technician 2nd Class Ronald J. Ritter, whose wife Deborah is the daughter of Thora J. Levy of 9116 Four Winds Way, Skokie, was awarded the Good Conduct Medal.

Ritter is currently serving with Attack Squadron 52, Whidbey Island Naval Air Station, Oak Harbor, Wash., embarked aboard the aircraft carrier USS Kitty Hawk.

CTA terminal from Park Ridge and Des Plaines. Route 226 also serves the present Oakton Community College campus.

Ridership is up (32% and 15%) on NORTRAN's two Loop routes, Routes 210 and 211. "This indicates more people are using NORTRAN to go directly to the Loop," Eisenberg said.

"We hope that in the coming months even more rail commuters sell their station wagons and that more and more shoppers will discover that riding a bus to shop makes a lot of sense," Eisenberg said.

### Grandmother cites theatre for greed on prices

Dear Editor:  
I feel just like the grandmother who wrote you last week in the Letters to the Editor, complaining of the high prices that the Lawrencewood Theatre charged for admission to see "The Muppets".

My family, too, are big fans of the Muppets. I had promised my grand daughter and my daughter that when the movie was shown in a neighborhood theatre we would attend. We were so happy when we saw in a Chicago newspaper that it was playing at the Lawrencewood and the first showing was to be at bargain matinee prices of \$1.50 each. We quick rushed down to see the first show. There was a long line, mostly children, imagine my surprise when we finally walked up to the box office and were told that tickets for adults were \$3.75 and children's were \$2. I questioned the boy selling tickets about the \$1.50 bargain matinee. He very disgustedly told me that "the Lawrencewood Theatre never has bargain matinees." Then he pointed to a sign on one of the doors in the theatre and there was a hand-lettered sign saying, "The Chicago Tribune and the Chicago Sun Times ads were in error."

"I wonder what Miss Piggy and Kermit would say if they heard of the greed of the management of the Lawrencewood Theatre in Niles, Illinois.

Disgustedly,  
Dorothy Schreiner

### Soviet troops in Cuba testing Carter?

Dear Editor:

Soviet combat troops do not belong in Cuba. Their presence "so close to home" represents a threat to peace. We feel President Carter should use diplomacy in handling the situation. However, a positive stand must be taken that these troops, tanks, and artillery be withdrawn.

We can surmise they were strategically placed there to test President Carter's reaction in comparison to former President Kennedy's firmness during the 1962 Cuban Missile Crisis. We may guess that the Russians are playing games.

We are not condemning the belated discovery of the military force in Cuba, but simply hoping that Carter will be strong as a U.S. President should in preserving the peace of the Western hemisphere by effectively eliminating the presence of foreign troops.

## Off the Niles Police Blotter

### Police capture theft suspects

Two Chicago men and a Chicago woman were charged Friday, Sept. 14 with theft from a north Niles store after police spotted their van turning into a mid-Niles shopping center and arrested the driver on a traffic violation.

Larry Thomas, 27, alias Robert Crenshaw, of 15 S. Mayfield; Harold Whitehead, 24, alias Joe Conic, of 2921 Washington; and Rosalyn Sanders, 26, also known as Brenda Sanders, of 2720 Warren blvd. were charged with theft. Crenshaw and Sanders were also charged with attempted theft and Conic with failure to signal a right turn, no drivers license and improper use of police identification.

Police said they were called to the Chicago Warehouse at 8349 Golf rd. around 2:45 p.m. Friday on complaint of attempted theft by two men and a woman who fled the area in a black van as the victim was calling police.

A van answering the description given to police was observed pulling into the Oak Mill Mall at Milwaukee ave. and Oakton st. around 3 p.m., according to Niles Police Officer J. Olbrisch who stopped the car for not signaling a right turn. When the driver and his two passengers could not produce drivers licenses, police took them to the Niles station. A police matron searching the woman found 2 men's suits concealed beneath her dress.

The manager of the Chicago Warehouse told police that one of the men and the woman came in the store shortly after 3 p.m. to

look at suits. He said the woman tried to divert his attention while her accomplice was folding 2 suits each valued at \$77 to place under his jacket.

Aware of what was going on, the employee grabbed the suits and told the pair to leave the store while another clerk called police.

The two walked out of the store and were seen by a female clerk to enter a black van driven by another male. Descriptions of the man and woman were given to police who apprehended the trio shortly after 3 p.m.

With that the restaurateur switched the bag to his left hand and hit the hold-up man with his right fist. The robber swung twice at his victim, missing both times, then turned and ran across the lot toward Dominicks Food Store south of Dempster.

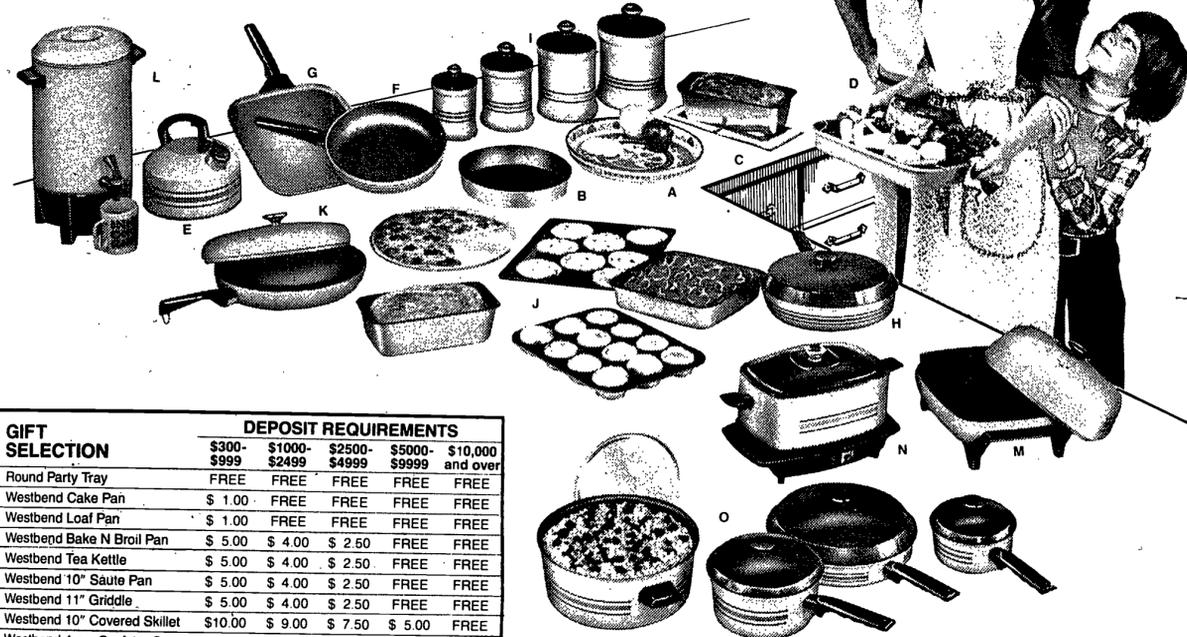

A young witness near Dominicks told police she saw a man wearing a sailor hat run to a waiting car and driver.

Police said a robbery similar to the Monday incident had occurred 2 weeks ago at the Poppin' Fresh Pies eatery at Harlem and Irving in Chicago.

According to police a phone caller mid-day on Monday to the Poppin' Fresh eatery threatened the life of the restaurant manager stating, "Next time he won't be so lucky. He is dead."

## Pavelski graduates from banking school

Paul T. Pavelski, Assistant Vice President, Citizens Bank & Trust Company, Park Ridge, was recently awarded a diploma at the commencement exercises of the Graduate School of Banking at the University of Wisconsin-Madison. Graduation required attendance at three annual two-week sessions on the Madison campus and the satisfactory completion of extension problems between the resident sessions.

The School is sponsored by The Central States Conference of Bankers Associations consisting of bankers' associations from 16 Midwestern states. Over 1500 bankers were enrolled this year from 44 states and Puerto Rico.

The present high standards of banking service in communities throughout the country will be enhanced by attendance of local bank officers at this specialized banking school.

The faculty of over 150 instructors included bankers who are specialists in their respective fields, practicing attorneys, business executives, economists and members of over a dozen university and college faculties. The instructors are among the most competent men in their professions. Many of them are nationally known authorities in their special lines and come from all parts of the United States.

Among the featured speakers at the 1979 Session were Alan S. Boyd, President and Chief Executive Officer, National Railroad Passenger Corporation (Amtrak); Clayton Yuetter, President, Chicago Mercantile Exchange; John J. Bailes, President, Federal Reserve Bank

## Beware of check fraud scheme

Area banks and savings and loan associations report a series of recent fraud using information obtained from customers through phony petitions. A gang of Northwest side con artists has duped customers from several area institutions into signing the petitions upon entering or leaving the building where they transact business.

Adam A. Jahns, president of Cragin Federal Savings and Loan, explains that under the proper circumstances, information and signatures obtained from the petition could enable the crooks to successfully cash a stolen check against the savings account of unwitting customers. One such petition sought the signator's endorsement of a plea to lower fuel costs.

"I would urge customers of all banks and savings and loans to be on the lookout for people circulating petitions or asking for their signature and address if they are anywhere near a bank or savings and loan building," says Jahns.

"If customers see persons collecting petitions near the building where they make transactions, they would be wise to bypass them and alert a staff member at the institution," advises Jahns.

## First National of Des Plaines announces new savings premium

The First National Bank of Des Plaines has announced the offer of great gift ideas for the home at considerable savings when \$250 or more is deposited into a new or existing savings account. The gifts, chosen to please both men and women, consist of a General Electric Toaster-Oven\* Model No. T-26 and a Skil Multi-Purpose Xtra-tool.

The Toaster-Oven has a two-position broiler pan for broiling hamburgers, steaks, hot dogs and poultry. It includes an automatic four slice toaster with a setting to brown, crisp or melt tops of foods. The removable broiler pan, oven tray and rack in this convenient electrical appliance are easy to clean.

The Xtra-tool is a 3/8" double insulated power tool for drilling in metal, wood, plastics or masonry and drives and removes screws, nuts and bolts. It chisels, grinds, buffs, sands and mixes or scrapes paint to mention a few of its uses.

Both are on display in the Main Bank, corner of Lee and Prairie, in downtown Des Plaines.

The cost of the premiums is reduced as the deposit is increased. For instance if \$250 to \$499 is deposited in a new or existing savings account, the purchase price of the Toaster-Oven is \$38.40 and the Xtra-tool would be \$46. With a deposit of between \$500 and \$2,499 the oven

would cost \$36.30 and the drill tool would cost \$43.50. Deposits of \$2,500 to \$4,999 and \$5,000 or more bring even further reductions in purchase price of the premiums. Toaster-Oven purchasers also qualify for a \$5 manufacturer's rebate coupon. The offer expires on Oct. 27, 1979, or as long as the supply lasts and is limited to one per customer.

Savings accounts at the First National Bank of Des Plaines earn a full 5 1/4% interest paid quarterly.

For complete details stop in at the bank. The Main Bank is open between 8:30 a.m. to 2:30 p.m. Monday, Tuesday and Thursday or 8:30 a.m. to 8 p.m. Friday and 8:30 a.m. to noon Saturday. ## ED HANSON

Arvey's Ribs odds on favorite

No, it isn't the name of a horse! Recently, I met a friend of mine at Arvey's Restaurant of Niles. My friend had spent the afternoon at Arlington Park and that wasn't all he spent.

"I went zip for nine races, Ed," he said to me glumly. "When you gonna wise up," I said. "You can't beat the bangtails."

"You should talk," he said. "I got a new system," I said.

"With this system you can't lose," I said. "Well, what is it?" my friend said testily.

"Let's order first and I'll do the ordering," I told the waitress to bring us two orders of Arvey's famous Bar-B-Q Ribs.

After ordering I said, "Now listen - here's my new system..." "I'd rather eat - my stomach thinks my throat's cut. So give."

"What you do is simple. You book your own bets. If the horse you select wins, you pay yourself the mutual. If your horse loses, you put the money in a box. You do this for one year and I guarantee you'll be way ahead."

A short time later we were served Arvey's famous Ribs. That big slab served with the rich special sauce really cheered my friend up.

"That meal made my day," my friend said. "I feel much better and you know what?"

"What?" I asked.

"Arvey's Ribs are an odds on favorite to be the best I've ever eaten," my friend said.

"On that we agree," I said. To me Arvey's Ribs are better than Carsons and that makes 'em the best in the world.

P.S. Don't take my word for it - convince yourself. If you like Bar-B-Q Ribs, try Arvey's Restaurant, Oakton and Waukegan rd., Niles. You can order 'em ala carte or on the dinner. They are tasty, meaty, delicious ribs with the most delectable sauce I've ever tasted. You can order 'em and take 'em home with you if you prefer. Arvey's has special packaging boxes that keeps 'em hot till you get home.

Eat in or carry out - believe me you'll shout Arvey's Ribs belong in the winner's circle.

I'm going to send a copy of this column to Dave Feldman of the Sun Times, and suggest he, too, have some ribs at Arvey's after the races. If he does, even that perennial loser will feel like a winner!

Did you know that Arvey's Restaurant is going into the Guinness Book of Records? That's right. Arvey's has served more Caesar Salads than any other restaurant in the world. They are the World Champion servers of Caesar Salads. For more than 5 years Arvey's has been serving a free Caesar Salad with lunch or dinner. 365 days a year, times two, for over 5 years amounts to a record amount of Caesar Salads.

Thus Arvey's Restaurant is King of the Caesar Salad servers.

## Plan a visit to James Woodworth Prairie

Stoop down. Develop a myopic eye to see only the small world around you. Tune your ears to hear only the cacophony of wonderful sounds made by the myriad of insects that abound this time of season. Maybe, just maybe, you can see what the buffalo saw, what the Indian saw, and what the first settlers saw when it was an endless prairie of 40,000 square miles.

Not far from where you live you can still see an island of green, surrounded by a sea of development. A real living, breathing, five acres of virgin prairie. Why go to Europe to see a 500 year old building when you can come to us to see a 1,000 year old prairie. With 130 species of plants no less! The James Woodworth Prairie Preserve is at 9831 Milwaukee ave., Niles. The Prairie is located on the east side of Milwaukee ave., half a mile north of Golf Mill Shopping Center. The 5.3 acres of virgin prairie was deeded to the University of Illinois in 1968, and is open to the public from 10 a.m. to 3 p.m. daily, from June through September. Since open times near the end of September are sometimes uncertain, please call the Interpretation Center at 965-3488. School groups and clubs can also arrange for tours at this summer.

"In Your Own Image", the first program, will be led by Irene Schrank, president of Images, Inc. She will discuss the subtle changes that can achieve a different image and new ways to express one's inner self by outward physical appearances.

The Passages Through Life series are sponsored by the OCC Office of Community Outreach. For further information, call 967-5120, ext. 350.

## Jake offers special to beat inflation

by Ron Vivant

One thing about Jake Joseph, owner of Jake's Restaurants of Niles and Glenview, is that he's a guy who goes all the way. Not content with slashing prices 10 or 20%, Jake cuts 'em in half, or 50%.

In his Niles restaurant at 7740 Milwaukee ave., beginning Monday, Sept. 24 thru Thursday, Sept. 27, you can get a Spanish Omelette, made with 3 large country fresh eggs for only \$1.33. This Spanish Omelette regularly sells for \$2.65. And it's a meal in itself.

So, make a note of this - beginning Monday, Sept. 24 Jake's big Spanish Omelette is on sale for only \$1.33. This offer is good at Jake's Niles restaurant only - the one at 7740 N. Milwaukee ave., Niles.

Jake is also offering some inflation fighter specials at Jake's North Restaurant, 1615 N. Milwaukee ave., Glenview, too. For example, beginning Monday, Sept. 24 thru Thursday, Sept. 27, for dinner Jake is offering a big, juicy 1/2 lb. hamburger at his famous Hamburger Bar for only \$2.95. At this innovative Hamburger Bar, you can create your own hamburger with more than 20 garnishes to choose from. Sautéed onions, hot cheeses, mustard, catsup and a variety of sauces you probably never heard of. The \$2.95 Hamburger inflation special is good only at Jake's North Restaurant of Glenview.

Another inflation special at Jake's North Restaurant of Glenview, beginning Monday, Sept. 24 thru Thursday, Sept. 27 is Texas Beef Bones. The regular price has been slashed - cut to the bone - (pardon the pun) to only \$2.75... (salad bar is not included).

Jake's North Restaurant of Glenview features hot and cold hors d'oeuvres during their Happy Hour from 4 to 7 p.m. daily at the Piano Bar in the push cocktail lounge. Here you can enjoy your cocktails in a relaxing and pleasant atmosphere while you munch on the delicious hors d'oeuvres.

Jake's North Restaurant of Glenview can handle special occasion parties, weddings, birthdays, etc. for up to 80 persons. The entrees can vary from hamburgers to prime rib... just phone 299-0575 for complete details.

## Troop 175 Scouts visit Philmont

Philmont, New Mexico, atop 10,000 ft. Mt. Schaeffer, is the scene finally reached by Troop 175 Scouts who took on this grueling task last August.

The troop, which is sponsored by the St. John Brebeuf Holy Name Society, was under the adult leadership of Cliff Drexler, Leo Weiss, and Harry Piontek. They took the Amtrak to Cimarron, New Mexico, traveled 40 miles to the 214 sq. mile camp operated by the Boy Scouts of America, and reached the peak of the mountain after the eleventh day on the trail. The boys visited several of the ranch's 22 mountain camps, located on the grounds of the world's largest camping facility.

Excellent guidance was provided for the first two days by a Philmont Ranger who instructed the troop of the basics of backpacking and the basics of survival before they embarked on 50 to 75 miles of hiking on the trail.

The Scouts shown are Ronald Drexler, James Strnad, Peter Baranowski, Andy Bierwaltes, Dave Bierwaltes, Bob Piontek, Chuck Paustian, Chris Drexler, Tom Kozeny, Greg Clepy, and Tom Mitchell.

They were among 13,000 young scouting men and women who are expected to hike Philmont's mountainous trails before the summer is finally over.

## From the LEFT HAND

pling onto the parking lot in the rear, from a tree which was enjoying the early morning as much as all of us were.

It was only 7 o'clock inside the synagogue when the teachers gathered together. They're a rather gentle, pleasant group. No loud noises. No recriminations. No anger. Tevye would have liked that though his more cantankerous side might have wondered why they weren't a bit more hostile.

When the meeting adjourned, one of the teachers told Jim Chikalis, the professional advisor for the union, "We can't afford these victories... we can't say we won anything." He noted while they got an approximate 7 1/2% raise, they lost \$900 in pay during the past week and a half. The professional acknowledged this but said the teachers must look at the long-range effect, perhaps over a 10-year period.

We were kicked out of the meeting before it began and waited outside the room for a while. We could have just as well been inside. The teachers were told the Friday night-Saturday morning mediation meeting reached its climax around 6 a.m. when the teacher group sent in a proposal to the school board negotiators; the board countered with what they said was their final proposal. The teachers returned the proposal with one of their own and it upset the board so much one member quit the negotiations. When the take-it or leave-it plateau was reached, teacher president Barbara Korb marched into the room where the board members sat and asked what the trouble was. When they said the teachers had increased their demands, the teachers asked all the conditions be spelled out on a blackboard. According to the teachers, the school board had made an arithmetic mistake and miscalculated the figures. When it was corrected, the board's attorney gave a positive indication the settlement was near. By now it was noontime Saturday, almost 16 hours after negotiations had begun for this session. Again, Tevye would have been scratching his head. Can you imagine him haggling for 16 hours for a 7 1/2% milk increase?

The teachers reported when the miscalculation was determined the board and its negotiators had a remarkable attitude change.

At the beginning of the Monday morning teachers ratification meeting, the teachers were told two or three of the school board members showed immature behavior. They contended the animosity and hostility from these board members was unbelievable. They said the lies, misrepresentations and unethical behavior were dismaying. They added there was a concerted and ongoing effort to undermine the leadership of the union.

The union people also contended business manager Jim Bowen misled the school board. They said the board is operating with a \$1,000,000 ending balance plus another 1.3 million dollars in savings which the district has. The teachers implied the board was not fully aware all this money is in the school district coffers.

While criticizing their opposition the teachers were told they (the union) did not hit below the belt. And we heard this song before, 4 years ago, when teacher president Barb Korb repeated it again. "There won't be any strike the next time."

The teachers then took their vote. It was almost 8:30 and they didn't want to be late for school. The vote was a quickie. About 25 teachers opposed the ratification including one of the key members of the union team.

You can't go to a union meeting and only report their side. School board members give a different picture.

One board member said they thought the professional, Jim Chikalis, misrepresented the union. The accusation was the teachers were not truly represented.

Wednesday night the board member said an agreement should have been reached. And at the Friday-Saturday morning meeting there was a miscalculation. But the resulting proposals from the union were still higher than previously proposed.

The board member insisted the union was not honorably representing their people. When the union made a higher proposal than a previous proposal, after negotiations were well under way, the board member contended this was not negotiating in good faith. It was claimed the teachers said they wanted to recoup the losses suffered by the strike. It was the board member's contention the strike was initiated by the teachers and thus should not be a part of any increased benefits.

The board member said the problem with fellow-board members is they were being realistic. The first order of business is to pay bills. It was implied when the cupboard is bare, teacher raises must be realistically studied.

In defense of business manager Jim Bowen the board member contended Jim is among the most respected managers in the entire state. Since the union no longer has former Superintendent Ken Moe to kick around, they now are going after Bowen.

Continued from Page 1

Lastly, the board member regretted the teachers union's continuing to foster hostility by their criticism of Bowen and other board members. Since there has been a settlement it is bewildering why they would continue with such anger.

Outside, the warming sun was pushing the temperature well into the 70's. One teacher, who's been in the district many years, told us she had all her bulletin boards up in school and ready to go a week ago. She said her daughter had provided some extra art work on the boards and she acted like a throbbed who could hardly wait to break away from the gate.

While the teachers were inside the building for more than an hour, a few teachers came straggling in minutes before the meeting adjourned. We thought it was incredible. Many of these teachers put their jobs on the line for nine days to improve the working conditions of all the teachers and a few teachers were just leisurely coming into the meeting just before it adjourned. One late-comer said her husband didn't think she should get up so early. She said she lived 15 miles away, in Long Grove.

The vote was taken. The tentative agreement was passed. And very orderly, quite quickly, the teachers headed for their classrooms as they will for the next 2 years, uninterrupted by any contract clashes.

As the cars moved out of the parking lot, we still could hear the words of the union president. They had topped Park Ridge in their demands but fell short of Des Plaines. She said the union was successful, and commended the non-union members who went on the line on behalf of all the teachers. And while she said there was no pressure from anyone, she would like the non-union teachers to join. Union people claimed a 90% membership as of now.

As the cars lifted up a bit of dust which blew into the surrounding prairies, the last words from the union head still remained. She said many of the teachers would meet for drinks at the Countryside Inn at Potter and Ballard after school. And if Tevye was still around, after all this commotion, I'm sure he'd be in accord with the union boss. Tevye was never a man to pass up a drink.

## Tornado alert system . . . Continued from Page 1

used on an experimental basis in 6 locations in the United States. This system has been tested and proven and the National Weather Service has announced plans to implement this tornado alert system by 1983 when their budget permits. Blase told his audience he did not intend to wait until 1983, but hoped, with their cooperation, to have this system installed "by the end of 1980."

Channel 7 (ABC-TV) weatherman John Coleman introduced a film documentary to the audience entitled "Tornadoes: Must They Kill?" According to Coleman, the documentary which was shown on prime time television last spring generated much interest and Congressman Abner Mikva requested a tape of the documentary, but no further action was taken.

Coleman, a staunch advocate of the Doppler System, said an apathy has developed among people regarding the televised tornado watches and warnings. In his 10 years with Channel 7, Coleman said he has put approximately 275 tornado warnings on the tube and really didn't know whether "any of them materialized." He also noted, "The Doppler Radar Warning System will cut false alarm warnings to nothing. If it says tornado, you'll blow your sirens and not worry about false alarms."

The Doppler System is able to give an early alert since it picks up the tornadoes in the atmosphere before they break through the clouds and narrows down the location where the funnel will touch down. When asked for an ideal location for the installation of the Doppler System, Coleman recommended a point on the Illinois-Indiana line approximately 30 miles due south of Lake Michigan. "No storms come in directly from the south,"

said Coleman, "and this location would be ideally perfect to pick up the tornado alley direction of southwest to northeast. This system would also pick up storms for 160 miles in all directions; therefore, this would be an ideal location."

The cost for the building of a Doppler Radar Warning System including the site would be approximately \$1,000,000. There is no present system that gives us adequate warning and since we are in a tornado belt, the implementation of such a system could possibly save hundreds of lives through the early and localized warning.

Mayor Blase told the fire personnel that since the Fire Department is the first to respond after a disaster, he felt they were the ones to help get "the ball rolling" for approval of the installation of the Doppler System. They were given formal resolutions to take back to their Village Council for adoption and petitions requiring 500 signatures. Blase urged those present to take care of these two items as quickly as possible and return them to the Niles Fire Department.

Blase noted, "Then we can impress our Congressmen with the necessity of this system. There are 130 suburbs in Cook County alone and this should have a terrific impact on our Congressional representatives."

Before departing the luncheon, Coleman complimented Blase on his efficiency and initiative. He said it was the most positive movement he had seen toward the installation of the Doppler System in the Chicago area.

## Niles Park . . . Cont'd from Niles-E. Maine P.1

decision at the Sept. 25 village board meeting.

Ms. Heinen, park representative since May to the Maine-Niles Association for Special Recreation, said her letter of appeal to Mayor Nicholas Blase asked that the Trident be made available to 12 handicapped teens, ages 14 thru 18, for 6 successive Friday evenings to begin in October.

Six of the youngsters, she told fellow park-board members Tuesday night, are residents of Niles.

Construction of the building is ideal for the youth said Heinen, "with no stairs to pose problems for those in wheelchairs." The experimental two-hour evening program of music, records and talk will provide a pleasant background for the handicapped youngsters to exchange viewpoints.

Up to now, said Ms. Heinen, there has been no program of a similar nature for the handicapped youth.

Six staff members of the Maine-Niles Association for Special Recreation (M-NASR) will accompany the teens transported to the Trident Center in Association vans.

Park President Daniel Kosiba said, "Hopefully the trustees will find it in their hearts to open the building to these youngsters."

Heinen looks to a favorable decision from trustees. She said the mayor indicated the building is not in use Friday evenings.

In other business Pres. Kosiba said park commissioners decided to upgrade the salary, from \$13,500 to \$15,000, of Golf Course manager and assistant Ice Rink manager Jack Hendrickson. A 4 to 1 vote during executive session Tuesday night was changed to an official, unanimous, approval during the park board meeting. Comr. Walter Beusse said he originally was "concerned over the money involved" but changed his vote because Hendrickson "has done a very good job."

Hendrickson, a year into his present position, has been with the Niles Park District for 5 years as a part-time employee.

Kosiba also noted a Saturday, Sept. 15 commissioners bus tour of recreational areas "did not include all Niles parks." The Ballard Sports Complex was viewed for extent of fire damage resulting from an Aug. 3 blaze; Shermer Park to observe the layout for the handicapped; and Ciabattari Gardens.

"The good points and bad points of the tour were discussed by Commissioners and the Park Director and I'll leave it at that," said the park prexy.

He noted later there were several improvements "in planning stages... we were impressed with a few innovations but disappointed with the appearance of some areas."

Park Commissioner Jeffrey Arnold reported village fathers have indicated a desire to place a bus shelter at the Recreation Center and at the Grennan Heights Gym at Odell and Kedzie on the Kedzie st. side.

Commissioners turned away a request by Park Director Bill Hughes to approve a \$2,160 cost to respray (with an adhesive substance) soundproofing material at the Grennan Heights Gym.

Basketballs hitting the walls and ceiling cause the material to flake, resulting in a slippery floor said Hughes. "Those walls really take a beating."

With no assurance of a guarantee that respraying would solve the problem, commissioners said they were hesitant.

Walt Beusse requested an architect's opinion. Heinen agreed with both and motioned successfully to table the bid for further discussion.

Of two bids on the work, Director Hughes said a second company with a \$4,500 quote indicated "they were not sure of the job and didn't want the work."

goal, he will not only be representing the United States, but also the community of Niles.

Beusse, who is spearheading the fund drive to finance Pat's European training trip, is asking for the cooperation of everyone who can possibly afford to help Pat. All donations are tax-deductible and checks should be made out to the U.S. International Skating Association, c/o Pat Moore, Mail checks to Mr. and Mrs. A. Moore, 7244 W. Breen, Niles, Ill. 60648. The U.S. International Skating Association has agreed to credit Pat's account with all donations received.

So that Nilesites will be more aware of Pat's accomplishments and the expenses involved in his training, the following letter was written by Peter Schotting, team director and coach of the United States Olympic Skating Team: An open letter to the residents of Niles

This letter is to introduce Pat Moore, an 18 year old high school senior, who, after an extensive career in American Pack Style Skating, including National and North American Championships, has become a valuable addition to the USA Olympic Style Speed Skating Team, and could become a starter for the USA in years to come at Junior and Senior World Championships, held every year, and Olympic Winter Games staged in Lake Placid, NY, during February, 1980 and Sarajevo, Yugoslavia, 1984.

The training requirements to compete on World and Olympic levels have become even more extensive, time consuming and financially costly, even though the USA sports governing bodies are moderately supported with grants from the United States Olympic Committee to conduct their programs, it covers only the cost of international representation.

Every individual athlete of the USA Olympic Style Speed Skating Team will have, until final selection for the 1980 teams, an expense of approximately \$3,000 - for food, lodging, travel, equipment and physical therapy. This is mainly due to the deteriorated stage of the 400 mtr. artificial open air ice rink in West Allis, Wisconsin and the unavailable new Olympic Rink in Lake Placid, NY.

As USA Olympic Speed Skating Coach, I am asking you to consider a tax deductible donation, to the United States International Speed Skating Association (USISA), a 501(C)3 tax exempt organization for Pat Moore, to make it possible for him to contribute and improve on our USA Speed Skating Team effort!

The USA Speed Skaters captured 6 out of 10 medals at the 1976 Olympic Winter Games in Innsbruck, Austria, and with your help, we will be able to improve this record in 1980 in Lake Placid, NY.

## Truck downs power lines

(Photo by Carol Holmberg)

Shown above are Morton Grove police and Commonwealth Edison personnel attempting to move power lines which were downed in an accident on Waukegan and Dempster last Tuesday morning.

A truck belonging to Chicago Neon Sign Co. was southbound on Waukegan rd. and in the 8700 block, the fully extended ladder on the truck hit the Commonwealth Edison power cable across Waukegan rd. and snapped it. It turned the poles on the east and west sides of Waukegan which sup-

ported the cable broke and fell onto Waukegan rd. A northbound auto driven by Randy Freeman, 2715 W. Gregory, Chicago, was struck by the falling lines, but fortunately no injuries were incurred.

The snapped cable caused a power outage in the area for approximately 45 minutes. The driver of the sign truck, Edward Blumenthal, 4563 Rose, Schiller Park, was cited by Morton Grove police for not having his equipment properly secured.

Other humorists could have mentioned the cakes might have symbolized neither side of the altercation received much "frosting" on the cake since 9 school days times 3700 children adds up to a great many student school days missed. Nor was the "dough" a very "large slice" nor was it exactly "crumbs" as far as increases go.

Major issues separating members of the East Maine Education Assn. (EMEA) and the district were salary, class size, and after school meetings, according to Barbara Korb, EMEA president. After about 16 hours of negotiations, a settlement of 18.5% increase was reached for a two-year contract, not including cost of living raises. At the 11% and 15% cost of living in the Consumer Price Index, an increase of 2.75% will be added to the salary.

According to James Bowen, district business manager, this will raise the district's deficit from \$187,000 to \$255,000 by June 30.

A letter from both sides stated an attempt to keep class sizes at the 1979-80 school year. According to Korb, "The board keeps authority to make those decisions regarding class size but we have input which we never had before."

Teachers will be asked to attend two after-school meetings a year and two evening meetings with compensatory time for one meeting. Also, the class day will be kept to seven hours and 15 minutes a day.

A member of the EMEA negotiating team said negotiations reached a turning point about 4 a.m. in the morning. Samuel Mazza, mediator with the Federal Mediation and Conciliation Service, had left. Both groups sat down to talk with each other. "We realized we had not been communicating," said Korb.

The Board agreed to take no reprisals against striking
