District 67 'bugged' by termites

by Deby Eisenberg
The school closing issue is resolved. Compliance to fire codes is underway. But there's still something "bugging" officials at School District #67. It seems that Golf Jr. High is home not only to faculty, administrators, and students, but termites as well. It is the gym floor which is in the most immediate danger. Superintendent William Stout explained that if no extermination efforts are made and the floor is left to ruin, it will cost \$5,000 just to take up the floor and \$18,000 to replace it. The floor specifications call for a 6" concrete base, a cord pad, and wood blocks.

The School Board has received proposals from four extermination firms. The highest estimates, involving the most extensive work, come from Slug-a-Bug, at \$19,000, and Aberdeen, at \$22,000. Both of these companies anticipated drilling holes around the perimeter and throughout the entire building, inserting chemicals and replugging the holes. The most modest estimate came from Balantine, quoting \$1,175, who felt the only concern should be to follow that procedure around the perimeter of the gym floor and at spot check points within it. An intermediate route. proposed by Advance Extermination, and estimated at \$3,000, involves drilling the perimeter of the entire building and protecting extensively the entire gym floor. Advance was following the premise that most of the building is steel and concrete and there is little damage.

Buglebits ...
There may be a public hanging on the village green before the week is over. Niles village clerk Frank Wagner could well be at the wrong end of the hanging if our incensed telephone callers have their way.

An early Monday morning caller to The Bugle office, who said she represented 100 irate fellow workers, was pointing at the marquee in front of the Niles police department, which she says places Mr. W. in the category of a male chauvinist. This week's sign reads: "A Woman's Place Is In The Home and She'd Better Be There Right After Work!" (picture in columns 3, 4 and 5).

The early morning callers didn't think Frank's sign was so funny. Matter of fact, the ladies of the working day don't consider Frank the William Shakespeare of the outdoor marquee.

Frank, owner of one of Niles' better senses of humor, said his little pithy saying is meant as a compliment. But ladies in today's upbeat world think Frank is out of step with the times.

Lady callers said they pass the sign twice a day, coming to and going home from work. The early morning passing-by causes an all-day depression says one lady beeper. And coming home after re-reading the sign a second time doesn't improve the mental well-being of anyone at home, as she bears down on the dinner table replete with kids and a husband, who's likely to get the brunt of her wrath.

Mr. Wagner, former friend of the working people, could lose half his constituency with such a sign. Matter of fact, if it increases the amperage and ohms at the dinner table, he could well lose two-halves of his constituency. And we'd have to say that's a bad sign.

All businesses have their problems, most of which can be resolved through their own efforts. But we've come across a problem we have periodically over which we have little control.

A Wagner half-witicism

(Headline by feminist Diane Miller)

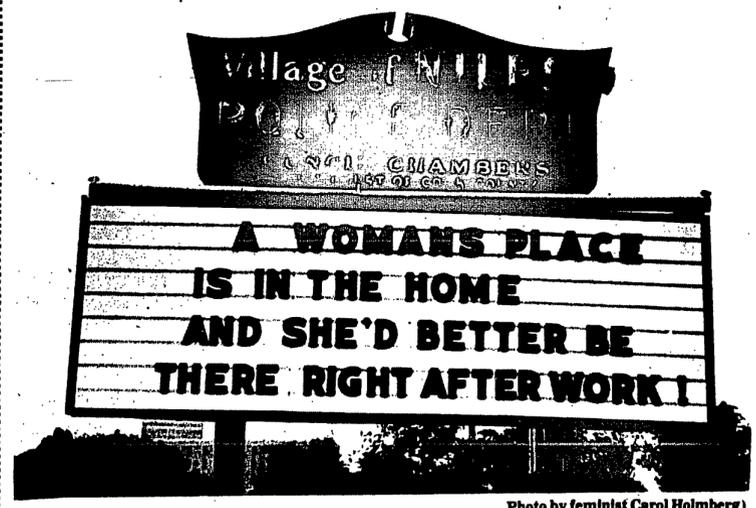

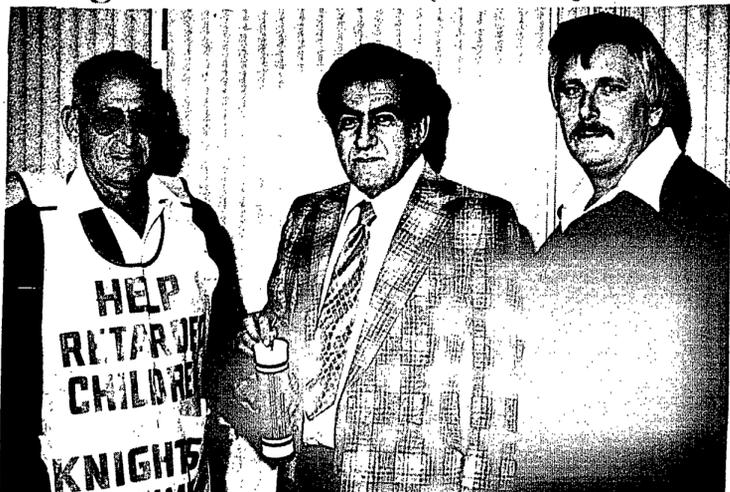

Photo by feminist Carol Holmberg

Shown above is the sign located in front of the Niles Police Department, 7200 Waukegan rd., Niles, which Village Clerk Frank Wagner uses to carry community messages and weekly

witicism. Wagner's current message ruffled a few female feathers this past week (see Left Hand column).

Knights of Columbus Candy Drive

For the past 9 years, the state and local councils of the Knights of Columbus in Illinois have conducted an annual Tootsie Roll Campaign in communities across the state to raise funds for the 330,000 mentally retarded children and adults in Illinois. This year the drive will be held on Friday, Nov. 2 and Saturday, Nov. 3. The Knights of Columbus are urging citizens everywhere to support this important fund raising activity by making a donation.

Both the governor of Illinois, the Hon. James Thompson, and the mayor of Niles, the Hon.

Older adult program

"Growth Through Being Alone" will be the topic of a public program at 7 p.m., Wednesday, Oct. 31 at the Maurice Neset Health Center of Lutheran General Hospital, 1775 Ballard rd., Park Ridge.

The Rev. LeRoy Joesten, a pastor at Lutheran General, will discuss some of the important physical and emotional aspects of losing a spouse.

Nicholas Blase, have signed proclamations setting aside these two dates as Knights of Columbus Days for the Retarded. In Niles the drive will be coordinated by the North American Martyrs Council 4338. Grand Knight Dan Cincinelli suggests that any person who wishes to learn how they could help can contact Ken Piasecki, chairman of the drive at 825-8391 or 825-0379.

Last year the Knights of Columbus raised over \$700,000 for the retarded with the support of the citizens of Illinois. In the past 8 years the North American Mar-

tyrs Council has raised over \$30,000.

Knights of Columbus volunteers will be easily visible because of the bright yellow aprons they will be wearing, and the Tootsie Roll containers and candies they will be carrying.

Retarded citizens need the support of the general public so that they can develop and be productive contributing members of society.

Thanks to programs like this, the future looks very promising.

Don't forget those Bear game tickets we have to give away, that's what we call "a roaring good time."

See you then, and bring that guest for twice the fun!

Flynn off ballot for Democratic primary

Thomas Flynn, Democratic Candidate for Congress, said today he would not file his candidacy for the special Democratic primary on Dec. 11. However, he would file his petitions for the normal March primary. Mr. Flynn said he hopes his action will unify the Democratic Party in the 10th District.

Mr. Flynn said, "I have decided that a three man Democratic primary in December may insure the election of the Republican candidate in

January. Therefore, I will not run in December and give the voters a clear choice of two candidates. I have also given my word to Democratic Committeeman, Calvin Sutker, to support the Democratic Candidate for Congress on Jan. 22. I expect Mr. Sutker to act accordingly towards me if our Democratic Candidate loses on Jan. 22."

Mr. Flynn went on, "I expect the loser of the Dec. 11 Democratic primary not to run again in March. If our Democratic candidate loses on

Safety hints

Bicycle riders are drivers too. And as drivers, says the AAA-Chicago Motor Club, they are subject to the same rules of the road as motorists. If your children ride bicycles, be sure they know and obey all traffic laws. Their knowledge and practice of safety regulations will contribute much to your peace of mind.

POLICE DEPARTMENT BULLETIN BOARD ... Niles Village Clerk Frank Wagner keeps residents informed of local happenings thru the bulletin board in front of the police department. Wagner also comes up with clever cliches and witticisms which make all of us smile, but we have to take exception to this week's "words of wisdom". Several women have called The Bugle and voiced their anger over the "chauvinistic insinuation" on the sign. While Wagner has tried to convince us the message is really a compliment to working women, we have one thing to say to Mr. Wagner: "Why Wallop Women With Words of Wisdom Without A Word to the Wise For Windy Wiseguys?"

NILES NEWSLETTER ... The Village of Niles newsletter, "The Progress Report", will be delivered to all Niles residents beginning Monday, Oct. 22. The newsletter, published bi-monthly by the village, will be distributed in plastic bags and hung on the front door of all residential, apartment and business establishments. The newsletter contains information from various village departments and will help you keep up with the news from the village.

TORNADO ALERT SYSTEM ... Niles Fire Chief Al Hoelbl tells us the response from the fire chiefs of the suburban areas regarding the drive to get the Doppler Tornado Warning System installed next year is very good. Approximately 25 suburban village boards have already passed the resolutions requesting this system be installed. The resolution forms and petition lists were supplied to the fire chiefs at the meeting held last month and sponsored by Mayor Nick Blase and the Village of Niles. If this cooperation continues, this system which gives residents a 22 minute warning before a tornado touches down will become a reality.

COVERED BRIDGE FESTIVAL ... Last weekend we traveled down to Rockville, Indiana, to the Parke County Covered Bridge Festival. We've heard about this event for several years, but had never attended it. It takes place each year in October for 10 days and crowds of over 300,000 visitors are not uncommon. The foliage is in full color at this time and the southern Indiana hospitality is just great.

Several covered bridge routes are set up which visitors can follow in their cars. School buses tours conducted by the colorful local residents are really a pleasure and give you a chance to sit back and enjoy the color and scenery. The drivers give you a background on the history of the bridges and local items of interest.

The town square in Rockville is a sight to behold if you like to eat. Large copper-lined black cast iron kettles were bubbling all day over wood fires. Four of them contained beans and ham and two contained apples being processed into apple butter. The kettles were manned by older local gentlemen wearing bib overalls and women wearing long calico dresses and bonnets. A special charcoal barbecue grill, approximately 1/2 block long, held 500 chicken halves and the aroma was just great. Hot apple pies, pumpkin ice cream and homemade elephant ears were available to top off your meals.

Craft booths displayed handmade quilts, numerous crocheted items, bunches of persimmon and jars of home canned relishes, apple butter, pickles and peppers. Loaves of homemade breads including pumpkin, zucchini and banana were available, together with gooseberry, apple and pumpkin pies.

Scarecrow contests are also held during the festival and it's very common while traveling the countryside to see two and three of them on the front lawns of homes and farmyards.

These 10 days have to be the highlight of the year for these Parke County residents and they must prepare all year for it. It's really great family fun and, if you do go, check ahead since motel space is limited. Rockville is located on Routes 41 and 36, approximately 180 miles from here.

DID YOU KNOW THAT ... More than a dollar was needed in 1978 to purchase what 60 cents bought in 1970.

SJB football team shuts out PR team

Last week St. John Brebeuf's varsity football team shut out Mary Seat of Wisdom of Park Ridge 23-0. MSW received the opening kickoff. As a prelude of the tenacious game of defense they were to play the entire game, MSW was stopped cold in 4 plays. SJB's march of 45 yards in 6 plays gained them the first touchdown, with Brian Whittle scoring. Brian also "split the uprights" with the point after.

During the 2nd quarter, quarterback Rich Fallon scored on a 10-yard bootleg - the only fancy play used by SJB during the entire contest. Using "basic football", Tim Flynn, behind an offensive line composed of Paul Luz, Steve Paukovic, Chris Powell, Dave Aklinski, Joe Klanchnik, Dan Watson, and Paul Leddy employed "33-dive" over and over again to march down the field to score the 3rd touchdown.

Brian Whittle kicked another successful conversion after the 2nd touchdown and ran the 3rd conversion in.

Due to outstanding defense the second string was able to play most of the 2nd half. Rich Fallon, also playing defense recorded 2 quarterback sacks. Eric Perkins, at defensive end contained outside moves very well. Alex Yasell did a "dynamite job" closing down the middle. John Murphy, playing defensive cornerback, saved at least one touchdown by having the speed to catch up with and pull down a MSW player who was breaking away.

Also playing well were Lou Allocco at wing back; Dan Burke at cornerback; Mark Gawronski at safety; Chris Krubert at linebacker; Jamie Volenc at nose guard; John Wiedmann at defensive end; and Bill Kleich at halfback.

SJB girl cagers outscore Wilmette team

St. John Brebeuf's girls 8th grade basketball team overcame St. Francis Xavier of Wilmette in a real "nailbiter". The score was maintained at a one point difference for almost the entire duration of the game, the lead being exchanged many times.

Barb Wiltgen swished a 15 ft. jump shot from the foul line to give SJB a one point lead with 44 seconds to go. With excellent ball handling by Barb, Nancy Surace, Mary Jane Marusek and Julie Klanchnik, the girls were able to freeze the ball to end an exciting game.

It was a low scoring game and the key to SJB victory was a tenacious defense. Mary Jane Marusek made it extremely difficult for the SJX players to inbound the ball. Time and time again SFX was called for "5 seconds" due to the harassment maintained by Mary Jane. At least 5 different players were used by the SFX coach in an effort to try to find someone who could inbound the ball past Mary Jane. Finally SFX had to use their best player to try to get the ball on the court. Mary Jane "stoned" one of her passes with such force that even this player took to lobbing the ball 10 ft. in the air to get it out on the court - a very dangerous maneuver. When Mary Jane tired in the 3rd quarter, Mary Baranowski took over the defensive job for a time, continuing to successfully harass the inbouncer.

When the ball was inbounded, Nancy Surace, Barb Wiltgen and Julie Klanchnik with their speed, quickness and endurance main-

tained such pressure that there were a number of times SFX couldn't get the ball over the 10 second line. They also caused turnover after turnover, as the SJB team used a full court press throughout the entire game, a very strenuous effort which was made possible by their excellent pre-season conditioning.

Mary Baranowski, Lisa Strauss and Julie Notaro also played important roles coming in and out to maintain the full court pressure on an intensive level. Julie Klanchnik and Mary Jane Marusek and Mary Baranowski pulled in the majority of the rebounds among them. Their work under the boards was tough. They were shorter than the SFX rebounders who would consistently out jump them on jump balls, but their aggressiveness helped a great deal.

Julie Notaro and Barb Wiltgen also demonstrated they could play "tough" basketball when they "took charges", a strategy of blocking the path of a driving player and forcing an offensive charging call on the St. Francis team player. This is a strategy which girls generally try to avoid.

Tough as they are, the St. John's girls still play a "girls game of basketball", displaying more enthusiasm and having more fun than is normal at boys games. Since many of the players are former cheerleaders they would lead organized cheers while shooting baskets in pre-game drills or from the bench. They play a game that's fun for them and fun to watch.

Other members of this team are: Lisa Bandaccari, Kathy Belmonte, Lisa Bielski, Laura Giovannelli, Lisa Strauss, Maureen Thompson, and Sue Watson.

Tapes will answer Podiatric questions

Dr. Leonard Pock, 9007 N. Milwaukee ave. (near Ballard), Niles, has added a new consumer tape information system to his podiatric practice. Patients can now call and listen to professionally recorded messages on various topics about podiatric (foot) health care. Since the telephone tape system answers the public's most frequently asked questions right over the telephone, it eliminates all the reservations the public may have in asking a doctor personal health questions.

"Consumer Tapes Foot Health Information" is particularly helpful by providing self-treatment information to these people with foot problems that are not of severe nature. The messages are also designed to enable the public to better understand these particular foot conditions.

Dr. Pock states 80% of the population in the United States has developed some sort of foot ailment by the twentieth year of life. Improper foot health care can be costing employers and employees numerous lost work days.

If one wishes, he may call 966-1177 and request the desired tape by number. Available are F1 - bunions, F2 - nail problems, F3 - corns and calluses, F4 - heel pain, F5 - arch pain, F6 - skin problems, F7 - sports injuries, F8 - circulation problems.

NORTRAN to get "kneeling" buses

By the end of the year, 55 of these sleek, new Flixible 870 buses will be provided by the RTA for service on routes of the North Suburban Mass Transit District (NORTRAN). Some have already been in use in the district's area. The diesel-powered, air-conditioned buses are able to "kneel" at passenger stops so that the first entry step is only 8-inches above ground level. The kneeling feature makes boarding easier for the elderly and handicapped. The bus floor returns to its regular height in less than a second. Large tinted windows give riders maximum

visibility while shielding them from glare. Floors and sides are specially insulated to dampen sound and to keep inside temperatures constant. The interior heating-cooling system is capable of holding the inside temperature constant within three degrees. Inspecting one of the first of the new generation of NORTRAN buses is Wayne Stell, Director of Driving and Safety Instruction for NORTRAN. The new buses are being furnished by the Regional Transportation Authority (RTA) which subsidizes NORTRAN service.

Maine Township Demo survey reveals voters' preferences and concerns

by Alice M. Bobula

During a press conference held Monday morning Oct. 15, Democratic Committeeman Nicholas B. Blase disclosed the results of a survey mailed three weeks ago to 4,333 homes in Maine Township.

Blase labeled "good" a 14% return or 603 responses (up to Oct. 10) to the questionnaire which requested indications of candidate preferences for the presidency, the U.S. Senate and for Congress, as well as for voter preference regarding key issues.

Topping the list for presidential candidates Edward M. Kennedy commanded 260 preferential votes over Jimmy Carter, 172; Adlai Stevenson, 81; Paul Simon, 36 and Jerry Brown, 30.

Admitting that President Carter has a running start in the campaign, Blase candidly proposed the strong possibility of support for Sen. Kennedy (D-Mass.) as a presidential candidate "once Kennedy has decided to run." To date, however, he noted Cook County Democratic Party Chairman George W. Dunne has indicated no choice of support for a presidential nominee.

Blase also hinted the possibility of a "dark horse" candidate. Due to plurality of candidates other than Carter and Kennedy, he said "there might not be that strong consensus of opinion for either man."

For U.S. Senate, Alan Dixon gained support from 278 Maine

Township voters: Michael Bakalis, 135; Alex Seith, 102; Tom Tully, 55 and Dan Walker, 16.

Closer to home, for the 10th Congressional seat in Congress, 169 Maine Township voters approved support to Tom Flynn, 106 to Marcy Abrams, 88 for Robert Weinberger and 20 to Curtis Heaston.

Blase, who himself garnered 19 preferences under "other" listing, said he definitely was not interested in candidacy to succeed former Cong. Abner Mikva (D-10th) who resigned Sept. 26 to accept a judgeship on the U.S. Court of Appeals.

While "we'd like to see a Democrat win a Congressional seat", Blase foresees no present candidate as a winner but hopes for a projection of "someone who will put up a big battle."

Of the three Democrats who have officially declared their candidacies in the race to succeed Mikva, Niles attorney Thomas Flynn last Friday withdrew his name, for reasons unknown. Remaining in the campaign are Robert Weinberger, a Glencoe attorney and former Commerce Dept. Counsel, and Evanston Alderman Curtis Heaston, neither of whom according to Blase have the charisma or "name recognition" as a possible winner.

On the other hand, he said, Evanston attorney and former State Representative John Por-

ter, the only Republican officially in the race, and State Senator John Nimrod (R-4th) have a definite advantage over the unknowns. Nimrod, who has not as yet made an official commitment, must along with other candidates file nominating petitions between Oct. 15 and 22 to have his name added to the ballot for the special congressional primary Dec. 11.

Survey opinions on issues drew 293 supporters for ERA (much stronger than expected said Blase), 114 opposing and 79 with no opinion.

The anti-abortion amendment was "close" with 241 for the proposal, 294 opposing and 55 "no opinion".

Opinion on gun control was "the biggest surprise" according to Blase, with 471 supporters, 91 opposing and 17 no opinions.

The 281 preferential votes in support of state aid to parochial schools came as another surprise noted the Maine Township committeeman, indicating expectation of more in opposition than the 142 indicated. There were 44 no opinions.

As for most important issues facing government today, 359 Maine Township residents listed inflation as the top concern, 161 slated energy and 117 indicated crime as their top issue.

Listed as other top concerns for governmental consideration were: corrupt Congress and president, 105; SALT-foreign policy, 54; government spending, 47; economy, 43; oil industry controls, 40; unemployment, 36.

Environmental pollution drew 28 concerns; medical health-hospital, 27; better schools, 26; gas taxes, mass transportation and opposition to busing, each 22; local government and World Peace each 21; defense, 20.

Road repairs, 15; senior citizens, 14; drugs and abuse, 13; food prices, 12; immigration controls, 11; real estate tax, 10; noise and welfare abuse, 9; vandalism and recession each drew 8; strikes, nuclear war and power, 6; and segregation rights for whites, 5.

Rigorous training for Olympic contender

Nilesite Pat Moore, 7244 W. Breen, is a strong candidate for the U.S.A. Olympic Speed Skating Team, to be staged in Lake Placid, New York, during February, 1980.

Pat's intensive training covers approximately 40 hours a week to prepare himself for the team's scheduled competitive training stint in Berlin, Germany.

Every individual competing for the U.S.A. Speed Skating Team will have, until final selection for the 1980 teams, an expense of ap-

proximately \$3,000 for food, lodging, travel, equipment and physical therapy. Presently Pat has fallen far short of this goal, receiving only \$600 in donations at this point.

You can help by giving any amount as a tax-deductible donation, code 501(c)3. Make checks out to: United States International Skating Assoc., c/o Pat Moore and send to Mr. and Mrs. A. Moore, 7244 Breen, Niles, Ill. 60648.

'Program of Painting'

Helen Van Wyk, nationally known artist, lecturer, art teacher and author, will be in Skokie on Wednesday, Oct. 24 at 7:30 p.m. with her "Program of Painting," a demonstration of painting techniques. The program, being brought to our area under the auspices of M. Grumbacher, Inc., manufacturer of fine artists' materials, is free to the public and is being sponsored locally by the Morton Grove Art League. It will be held at the American Legion Post #320, 8212 Lincoln ave.

One of America's best painting demonstrators, Helen Van Wyk will conduct a two-hour, three-part program that covers some of the most important factors of painting. Her program:

1. A PORTRAIT DONE ALLA PRIMA, a term used to describe a direct painting approach. It is an especially popular technique today. She will paint someone selected from the audience and will work with Hyplar Acrylics, this generation's newest medium of expression.

2. A PAINTING DEVELOPED BY GLAZING. The technique of the Old Masters. Glazing is the "indirect" method of painting since it always has to be done in more than one stage.

3. A COLOR CLINIC. A discussion of color with short

demonstrations of color mixtures for subjects in still life, flower and landscape painting.

Although the Rockport, Mass. artist answer questions while painting during her program, she will set aside a period at the end of her presentation for additional questions from her audience.

From the very first time that she stood before an audience, Helen has felt obligated to accompany her rapid-fire brushstrokes with an equally rapid-fire commentary. "People want to know what I'm doing while I'm doing it," Helen says, "and it gives me a chance to do the two things I like best: paint and talk." This combination catapulted Helen Van Wyk into national prominence as a painter-demonstrator. From 1963 to 1968, she has appeared in more than 300 American cities where 50,000-plus people came to see her paint and hear her speak. Since 1968, she has painted before many hundreds more art enthusiasts in her Rockport studio which she had built that year.

Helen Van Wyk is the author of "Successful Color Mixtures" and the "Casselwyk Book of Oil Painting" (both published by Art Instruction Associates), and "Acrylic Portrait Painting" (published by Watson-Guptill). In 1967, she created "Palette Talk" for Grumbacher. Today, it is the world's most widely circulated art magazine, and Helen continues to contribute articles on a regular basis.

Consumer Education is the knowledge that people must have in order to get the highest possible standard of living. The consumer cannot hope to buy wisely unless he makes a careful study of the different brands of goods from which he must make a choice.

In the early days of America the family produced what they consumed. Pioneer families hunted and fished, grew and harvested their own food. They hand crafted the furniture they needed and made their own clothes. When they needed to purchase an item, they could always rely on the local merchants. In many cases the seller was the manufacturer. Today, we do not know the manufacturer, he is only represented by a label.

Every American consumer is "trying to make ends meet", combating inflation is difficult. One step in easing the financial pressure is to educate yourself in the goods and services you use, to make better value judgments.

The Federal Government and many State Governments are active in consumer protection and education. They include the American Medical Association, the Consumer Research, Food and Drug Administration and the Federal Trade Commission. These agencies and many others are working for the consumer, contact them and let them work for you.

He told police 2 men waiting to have work done on their car had seen him counting the money and place it in the stockroom cabinet.

Also he said the men had 4 tires mounted on their car and paid cash for the work. One of the men was said to have been alone in the area for about 15 minutes.

VERY INTERESTING PERSONS

by Barbara Morris

If the white Bugle truck is whizzing around Niles and Morton Grove, it must be Thursday, and behind the wheel is 75-year-old Bob Wagner, one Very Interesting Person.

Bob started working in 1926 for B.A. Railton and for the next 42 years stayed with this company. During the first 17 years he never took a vacation or missed a day of work. When he finally did decide to take some time off, he was entitled to 4 weeks vacation and always took the month of July.

Bob's wife, Mae, worked for Wieboldt's for 30 years in the yard goods department. Even though she was offered the position of manager, it would have meant changing to another store and she refused the position.

Twenty two years ago the Wagners moved to the suburbs and Bob still resides there. With the exception of the winter months, he spends much of his time at his summer home in Bohners Lake in Wisconsin. The house has been completely modernized over the years, but to this day, Bob refuses to have a telephone installed because here he has seclusion and complete privacy. Bob lost his wife, Mae, quite suddenly in May of 1967. In September of 1968 Bob retired from B.A. Railton, where he drove a grocery truck both local and long distance. His co-workers said goodby to giving Bob a big party and presenting him with a TV set and a pewter mug on which they had engraved his service record.

Now that he wasn't working and had time to himself, Bob began to travel. His first trip was a ride on the Santa Fe Super Chief to Los Angeles and a tour of Disneyland, Knott's Berry Farm and the surrounding area. He then boarded a train to San Diego and back up to San Francisco for a ride on the cable cars, then back on the Super Chief to Chicago. Since this first trip, whenever possible, Bob will ride a train and go to a train museum or visit anywhere where there is something associated with trains. His love for trains has taken him from Vermont to Maryland, West Virginia to Pennsylvania.

One of his most memorable trips was to Los Angeles where he boarded the Zephyr to San Francisco and Portland, Oregon, and took the Empire Builder back to Chicago.

When he was 69, he decided to go to a travel agency and let them plan a trip to the West Coast. He decided that if he had the courage to ride the overhead cable car across the Royal Gorge, he could certainly fly in an airplane, a feat he had not accomplished up to now. He boarded the big 747 jet and settled back to what he describes as a "thoroughly enjoyable ride." But Bob still enjoys driving best so that he can go and do what he wants.

Bob is one friendly guy and usually, somewhere along the way, will meet another gentleman or a couple and strike up a conversation with them and find they have very similar interests and are both going to the same places. So along with his new found friends, off they all go making the same stops and staying in the same places at night.

In 1975 Bob made one of his longer trips. He drove up to Canada and then aimed West. From there he headed down to Seattle, Washington, where he met his grandson. Grandfather and grandson then began sightseeing, seeing the site of the signing of the treaty ending WW II, to Oakland, California, for a ride on the new automatic elevator system. Bob enjoys San Francisco, but while there admits that he does plan a side trip to Reno where he practices his one bad vice "gambling".

Recently Bob made a trip to Florida where he paid a visit to ex-Bugler VI Schmalz and her husband. Bob always tries to visit his many friends while on a trip near their home and as he always makes friends while traveling, he has many places to visit.

Bob's house is an extension of all his hobbies and one very interesting place to visit. The spare bedroom houses his HO model railroad system. The layout includes 8 engines and approximately 100 cars. In another corner Bob is building plastic truck models which he finishes by painting. He has also made metal classic car models which are now on display at a local hobby shop. In the living room is a table with a jigsaw puzzle which is half completed. Stamp collecting is the newest of Bob's hobbies and his beer can collection is housed at the summer home. With all of this he also has a collection of playing cards.

Bob always knows where he has been and what he has seen because from each trip he has collected glasses and mugs.

Bob reads all magazines and books that deal with railroads and enjoys a good novel now and then. Among his favorites are books by Lucis Bebee.

Nine years ago Bud Besser, Publisher of The Bugle, contacted Bob at the suggestion of a friend and asked if he would be interested in driving a truck again. They went out and purchased a used truck and The Bugle family increased by one truck and driver. On its first run to the printer, it decided it had gone far enough and stopped at the first toll booth. To complicate matters even more, there as yet was no name painted on the truck. This was promptly completed next week. Bob was shown the ropes only once and ever since has done his job and done it well. Because of all the tender loving care Bob has shown our Truck he is cold or warm it has never disappointed him by not running.

On Wednesday afternoon Bob comes into The Bugle office shortly after lunch. The highlight of the day is the heckling he gives the "Bugle Bunch". When the plates have all been completed, Bob is off to the printer in Hinsdale. To make sure that the paper is printed properly, Bob stands and supervises all the way. The ink has to be right, the papers must be stacked and counted correctly and the truck loaded properly. Then back to Niles for the addressing. Before late evening the papers are delivered to the Niles and Morton Grove post offices, ready for the mailmen to deliver on Thursday morning.

Early Thursday morning Bob is again in the truck and delivering stacks of newspapers to residences throughout the area ready for our newsboys to deliver.

Bob recalls very vividly one very amusing incident. He came into the office, parked his car in its usual place and made sure it was properly locked. A short time later he glanced out and watched someone driving away in his car. He called the police to report the theft. Within a few minutes the police called to say the car was sighted at a service station a short distance away and they would pick him up so he could identify the car. It was indeed Bob's car and upon questioning, the young man who had driven the car off, he explained that he was instructed by his boss to come over and pick up the car. However, the car he was supposed to bring in for servicing was the exact model and color but was parked in back of the store. What surprised everyone was that the key fit both cars. Apologies were given and the young man returned to pick up the right car.

On June 9, 1979 The Bugle staff got together and gave Bob a big 75th birthday party. He received many beautiful gifts and asked if he could use this column to say "Thank You" to everyone for being so very kind to him. Bob's son, daughter and five grandchildren helped him celebrate at another party.

Bob says that "as long as I have my health and my best friend (my 1975 Cordoba) I can always pack a bag and leave on the spur of the moment. This gives me a relaxed feeling of freedom."

Beauty Shop cuts prices

With prices continuously on the rise, isn't it wonderful to know that you needn't sacrifice your weekly visit to the beauty shop after all? Now, someone's actually lowered prices! It's the Famous "Budget" Beauty Salon in Golf Mill Shopping Center, located in the Melody Lane course. Famous decided that with other prices on the rise, they would cut the high cost of hair care - but they wouldn't cut the quality of the services! Senior citizens get special breaks on Mondays, Tuesdays and Wednesdays.

Famous "Budget" Beauty Salon is open every day, Monday thru Saturday, from 9 to 5 p.m. and on Thursday and Friday nights until 7 p.m. While appointments are usually not necessary, you're smart to phone 824-9211 to make sure that you can have the time you want for the services you want.

NORTRAN resumes charter service

Effective immediately NORTRAN (North Suburban Mass Transit District) will resume charter operations.

A letter of notification was recently received from the RTA, authorizing charters and verifying the necessary insurance coverage.

"It seems to make good common sense that the local mass transit carrier serving a region should also be the source for charter services when various organizations, corporations, and other entities in the area require them," said Leonard S. Eisenberg, District Chairman.

"Therefore, we are very pleased to announce that charter service is again available to the suburban communities we serve."

FNBOS sponsors Mostow in benefit run

Ben "Chick" Mostow, renowned long-distance walker, took up running only 3 years ago. On Sunday, Oct. 21, 76 years young Mostow will be running in the Chicago 26.2 Mile American Marathon... and as usual, he'll be running for charity, this time for the Heart Association of North Cook County and sponsored by the \$280,000,000 First National Bank of Skokie. The Chicago American Marathon will be Chick's 4th full 26.2 mile marathon this year which is in itself a tremendous feat and far surpasses most major marathon runners fifty years younger.

Mostow is shown with a giant U.S. map which highlights his successful marathon in 1979. He first ran the Orange Bowl Marathon in Miami back on Jan. 3. He followed this outing by running in the Key West, Florida Marathon on March 4. Next, he finished the famed Boston Marathon on April 16. His fourth marathon is the Chicago run on Oct. 21, and to top off the year, he is scheduled to run in the Hawaiian Marathon at Honolulu on Dec. 9. As mentioned, the

Heart Association of North Cook County will be the beneficiary of Chick's Oct. 21 Marathon already assured by the First National Bank of Skokie... but the bank offers other interested companies or individuals to share in this worthwhile cause. Just call FNBOS Vice President Carroll R. Layman at 673-2500 to make your pledge.

Eager response to 8.3% mortgage loans

Response to a special offer of 8.3 per cent home mortgage loans made by the First National Bank of Morton Grove was very enthusiastic, according to bank president Marvin von Aswege.

Applications started pouring in as soon as the offer was announced and all available funds for this program were distributed in

a short period of time, he said.

The relatively low interest rate was made possible by legislation for the Village of Morton Grove to finance a limited number of mortgages with a \$13.5 million tax-exempt bond issue.

The First National Bank of Morton Grove was one of three local financial institutions eligible to receive applications for the loans.

The 8.3 per cent interest, plus expense items, is extremely attractive compared to the current rate of 10.5 per cent or higher charged for conventional mortgages, noted Robert V. Young, vice president of the bank's real estate department.

"The program was a welcomed boost to local home buyers, sellers and real estate firms," said Young. "We regret that it was only a limited offering, but are pleased that our bank had the opportunity to play a key role in the program's success."

First Federal of Chicago changes mortgage terms

In a move designed to help provide a continuing supply of dollars for Chicago's residential housing market, First Federal of Chicago, Illinois' largest savings and loan, today announced it was changing its mortgage terms.

Effective today, the rate for a mortgage with a down payment of 25 percent or more, with a maximum loan amount of \$75,000, is 10 7/8 percent with a term of 25 years and a 3 percent service charge. Previously, the rate had been 10.9 percent with a term of 29 years and a 2.5 percent service charge in the 80 percent category.

In announcing the change, E. Stanley Enlund, chairman and

chief executive officer, said that First Federal's decision was based on a desire to make housing dollars available as the cost of money rises and strong mortgage demand continues. "In light of the current money market environment, this change will help us provide funds for our mortgage customers," he said.

In all other loan categories up to a maximum of \$150,000 with a 30 percent down payment, including single-family homes, and condominiums and townhouses, the rate is 10 7/8 percent, the term is 25 years and the service charge is 3 percent.

Learning about counterfeit bill detection

Harold E. Ulmer, Controller of Niles Savings, and Ellen Goodman, training specialist for Guaranty Savings.

Niles Savings and Glenview Guaranty Savings held a joint dinner on Sept. 18 at the Valley Lo Sports Club in Glenview. A member of the United States Secret Service was the guest speaker. Members of both associations had the opportunity to view counterfeit bills, bonds and checks, and learn the secrets of detection. Mr. Lauren Proctor of the Secret Service disclosed that 38 million dollars in counterfeit bills are passed to unsuspecting citizens annually. The most effective means of reducing this figure is by continuing education programs of the type run by Niles

Counterfeiting is on the rise today, and the best guard against this threat is being more familiar with our currency. The best method of detecting a counterfeit bill is to compare the suspect bill with a genuine bill of the same denomination and series. Look for red and blue fibers in the paper, clear printing and lines in the portrait background; in a counterfeit portrait lines may be broken or even missing. Look for differences - not similarities. If you do receive a suspect bill, do not return it to the passer and telephone the police or the United States Secret Service.

...with the personal touch! ASSETS OVER QUARTER BILLION DOLLARS

A scant two hundred years ago a handful of visionaries conceived and created this great nation of ours... This bank, the First National Bank of Skokie, has been in operation for over a third of the time there has been a United States of America. As the nation has grown and the community we serve has grown... this bank also has grown. Today we stand with assets well over \$280,000,000.00... large enough to serve most of the financial needs of our Skokie Valley Community. The growth of this bank, like the growth of this nation, did not just happen... many nations and many banks formed since have perished. But, when the foundation is strong—the concept is just—and the leaders are honest and true to their convictions—perseverance and diligence triumph over adversity.

New goal in New York Marathon

First National Bank of Skokie Director and long time Realtor Neil King has forsaken his Yale vaulting days in quest of the magic 3 hour mark in New York City's Oct. 21 Marathon.

Maine East Singers

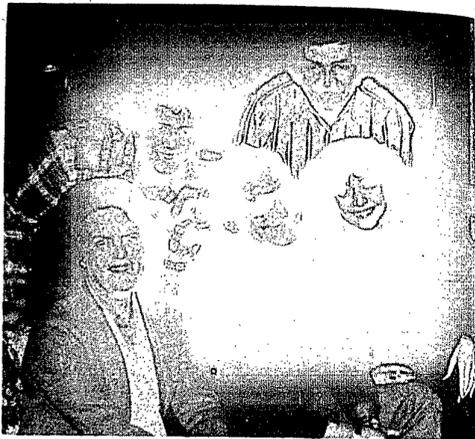

The Maine East Singers, directed by Mr. Craig Johnson, begin another year of singing and dancing by performing at the Fall Concert Oct. 24 at 8 p.m. in the Maine East auditorium.

Students must currently be enrolled in a music class to be a Maine East Singer. Auditions are in the fall of each school year, with 18 persons being selected out of the 60 who tried out recently. The Maine East Singers are an example of a swing choir, which performs all kinds of music with choreography. There are nine boys and nine girls in the group, which rehearses every day before school, year round.

The Maine East Singers perform in the community at such places as local schools, retirement homes, senior citizens centers, and parties. In past years the Maine East Singers have performed at such places as the Hyatt Regency-O'Hare, the Marriott Lincolnshire, and Allgauer. Two years ago the Maine East Singers went to a swing choir camp in Minnesota and were used as a demonstration group, and last year they participated in the Renaissance Madrigal Dinner, where they all dressed in costumes from the period. By being a Maine East Singer students get the exposure of being around people and performing in front of large groups and, most of all, having fun.

Members of the Maine East Singers are Dawn Barnett, Adrienne Briehart, Joe Buscaglia, Lisa Conner, Dan Cwik, Mike DiGioia, David Duvall, Ed Finnegan, Paula Fishman, Scott Goldstein, Pam Latham, Mickey Morgan, Joe Ochsenreiter, Lisa Pector, Diane Petray, Caren Selby, Pam Varon, and Kurt Wisniewski. Alternates are Randy Emmons, Debbie Kozak, Peggy O'Hagan, and Dave Rice.

ED HANSON

A successful failure gives fatherly advice

Many, many years ago on a ramshackled farm, in the Deep South, a father was giving his young son some advice. The father was a personable man in his middle years, with an aura of elegant shabbiness. Let's listen in ...

Father: "The easiest thing to achieve today, son, is success. Anyone in our modern society can become a success - provided he's willing to work like a dog."

Son: "Should I work like a dog, Pa?"

Father: "Don't talk like an idiot. Never let someone else's business interfere with your personal pleasure. If you want to enjoy life to its fullest extent, if you want to wring every drop of pleasure out of it, become what your old man is, son."

Son: "What's that, Pa?"

Father: "A successful failure. You see, son, success is overrated. Almost everyone in our great society today is, or can become, a success. In fact, the way our economy is geared, it is becoming almost impossible to avoid being a success. Success is like a parlay, the more you get, the more it pyramids. Your problems get bigger and bigger, your worries greater and greater. And pretty soon, as you become more and more successful, your ulcers prevent you from enjoying the champagne and caviar you no longer need to charge."

Son: "I see, Pa."

Father: "I hope you do. As your success spirals, your scope of worries expands like a balloon. You worry more about your country's internal affairs, the shrinkage of the dollar, the national debt, politics and taxes. Then, as your stake in the monetary pot of life increases, you expand your worries to an international scale. And pretty soon, you've got the worries of the whole world upon your shoulders. This, in time, affects your id, and the id affects the brain, and soon a psychiatrist's care and cost is added to all your other worries."

Son: "But, Pa, how can I prevent success?"

Father: "It's not easy, son. Our entire economic system, our educational method, our very environment, is geared to success. Look at the countless thousands of self-help books about "How To Be A Success" in every field of endeavor. Consider our many colleges, the unlimited correspondent courses, the special trade schools hawking success. In fact, you can't pick up a magazine or a periodical without seeing glaring advertisement offering you success in any field you can name. Isn't this true?"

Son: "Yes, Pa."

Father: "We are surrounded by success. It's available to anyone that wants it. On the other hand, son, where can you find books that will show you "How To Fail At Everything"? Do schools have courses on how to be "A Successful Failure"? Do you see advertising hucksters plugging courses on "How To Fail Successfully" ... do you?"

Son: "Gee, I guess not, Pa. I never thought about that."

Father: "Well, it's time you did think about it. That's the trouble with successful guys. They're so wrapped up in their jobs, working like dogs, mostly for strangers, they don't think about anything else. One of the smartest men that ever lived, son, was a successful failure - like your old man. This guy lived a long time ago. He was a stone cutter by trade. Instead of working he liked to "goof-off" and just think and talk. This loafer would slip into his tunic, throw a mantle over it and seek out a tavern, temple or a public bath and talk to whoever would listen. All he did was think and talk and he never accomplished anything. Once, after he was selected by an oracle as being the wisest man in Athens, he said he was chosen because this man knew he was the only one that knew that he really knew nothing. Know what his name was, son?"

Son: "No, Pa."

Father: "His name was Socrates. His influence, altho he never wrote anything down or accomplished anything, is still felt today by the mind of man."

Son: "He was really a failure, huh, Pa?"

Father: "A successful failure, son - there is a difference. And to be a successful failure, unlike being a success, is very difficult. There is no ready-made formula, no blueprint, for it. You've got to learn it the hard way, son."

Son: "I want to learn, Pa. How do I begin?"

Father: "You already have, son. You got this new job. So, you have something to fail at. By the way, do you think they're paying you enough money to start?"

Son: "No, Pa, I think I'm worth more money than I'm going to get."

Father: "That's what everybody who works for wages thinks. This is where the successful failure equalizes this economic inequity. He knows how to avoid doing a day's work for a day's pay. He knows how to "goof-off" so that he does a half-day's work for a day's pay. Later, he cleverly reduces this to a quarter of a day's work for a full day's pay. This is how he makes progress. But, mind you, son, this is only possible after a man has acquired gobs of "goofing-off" experience and can talk a good day's work or can convey the impression to his superiors that he is doing a full day's work."

Son: "But don't they check up on you, Pa?"

Father: "Of course, they do. And this is where your experience, your finesse is so necessary to be convincing. You see, son, there are many factors of super intelligence that enter into becoming a successful failure that do not enter into becoming a

Seek Drum and Bugle members

The Imperial Drum and Bugle Corps of Skokie is currently accepting new members in all sections of the organization - horns, percussion and color guard - and is endeavoring to include a larger percentage of Skokie youths. The Corps currently comprises members from throughout the northern suburbs and northwest Chicago, mainly, plus from other suburbs.

In addition to officially being named this year as "Skokie's Musical Marching Ambassadors", the Imperials won the State of Illinois American Legion Championship, and finished in sixth and fifth places, respectively, in the American Legion and VFW National Championships, held in Houston and New Orleans.

Those events were among the approximately 30 competitions and 30 parades and exhibitions participated in annually by the unit, which - at 53 years - is the nation's oldest junior drum and bugle corps. Skokie has been home for the Corps for the past 10 years of that period.

Membership for the Imperials is open to young men and women

aged 13-21 years. Musical experience is helpful but definitely not necessary. Corps members pay \$10 dues per month, which covers professional musical or color guard instruction, plus also covering instrument, uniform and travel costs. Operating funds are earned through outings, Booster fund raising events and minor additional help.

The program is 12 months a year, with concentration on the three summer months. During the school months, activity involves only an average of 1 1/2 practice sessions per week during non school hours. Summer playing activity is on weekends, for the exception of evening practices, an average two evenings a week, plus an approximate 10-day tour in late August. All practices are local.

For those younger - aged 9 to 13 - the Imperials have a "cadet" unit, which maintains the same type of 12-month program, but with a lighter summer schedule and no tour.

Both units are now starting practice on the summer 1980 repertoire, and it is advantageous to become part of the program at this time, rather than waiting. The advantages include greater opportunity of chosen position, plus a full season's practice.

Horn instruments include soprano, mellophone, French horn, baritone and contra bass. Percussion includes snare, triple tenor, tymbali, tympani and bass drums, plus xylophone and keyboard bells. Color guard includes flags and rifles.

Those interested in joining are urged to call either of the following numbers as soon as possible: John and Judy Gillan, 677-0313, or Manny and Beverly Kaplan, 498-6133.

The Corps also will have an information and membership booth at the Skokie Farmer's Market Sunday, Oct. 28. Additional information on the latter may be obtained by calling Mr. Al Bernstein at the Village Public Relations Office, 673-0500.

SV Symphony Concert

The opening concert of the Skokie Valley Symphony Orchestra 1979-80 series will be held on Sunday, Oct. 21, 7:30 p.m. at the Niles West High School Auditorium. The soloist will be pianist Emanuel Ax. Leo Krakow is the musical director and conductor of the orchestra.

Admission fee is \$7 and the series of four concerts is \$12.50; reduced rates to seniors and students, and group rates are available. For information call 675-3204.

For further information on all of the above events call 674-1500.

that really can be done aside from the gym floor and the library, which appears to be out of danger at this time.

The Board decided to follow the proposals outlined by Advance, and will now have interested companies submit bids according to those specifications. All companies explained that you really can't do away with termite, as it is impossible to tell where the nests are.

Superintendent Stout wished to emphasize that the termites pose no danger to the occupants of the school building.

In other school board business, Mrs. Madge Bilanko, long-time Board recording secretary, has resigned her position, and will be replaced by Barbara Koss. A motion was made to honor Mrs. Bilanko. According to Board Member Sheldon Marcus, "She has been an invaluable asset to this Board and this school district." She still will be active as the business manager.

The School Board is currently talking to teachers regarding the institution of enrichment programs, such as a drama club, math lab or hobby club. These activities could take place before or after school or during lunch time. The details of specific activity choices and funding are being researched. One suggestion was that the activity fee be utilized toward this direction for children not involved in sports.

In the district's effort to strengthen the lines of communication between the Board and the faculty, school board mailboxes will be placed in each school. A major purpose of this

would be soliciting for letters of commendation to be given to teachers and students who have achieved in areas that would not normally be brought to the Board's attention.

It was announced that a workshop on special education, open to Board members, PTA officers and interested citizens, will be held at the Malloy Educational Center, 8701 Menard, Morton Grove. The meeting, scheduled for Saturday, Oct. 27 from 9 to 12, will go into organization, funding, and trends in special education.

Map plans for Morton Grove cable television

Establishing the cable television system in Morton Grove began almost immediately following the Village Board of Trustees awarding the franchise on Sept. 24.

Robert Corrao, vice president and general manager for Continental Cablevision of Cook County, Inc., the company building and which will operate the Morton Grove system, said negotiations were already in progress with Commonwealth Edison and Illinois Bell for rental of space on their utility poles on which the cable will be installed. Application for the required certification from the Federal Communications Commission has been made in Washington, he added.

Mapping utility poles within the village has begun, according to Mark Roper of Coaxial Analysts, Inc., the Denver, Colorado, firm hired by Continental to develop an engineering and electronics design for the system.

Roper has been walking through the village measuring distances between utility poles preparatory to design of the system. Roper and Corrao explained that cable will be installed on almost 100 miles of utility right-of-way and that this area must be accurately mapped before actual construction can begin.

Corrao explained it requires approximately four months of preliminary design work and negotiating with related utility companies before construction can begin.

The weather is an important factor in how quickly the system can become operational, Corrao said. Construction crews can work in cold weather but heavy snows could slow down their progress. If the weather is favorable and agreements with the utility companies are promptly made, he hopes to have part of Morton Grove ready to receive the cable television service

within six months with all of the village able to subscribe within a year.

Continental will be opening a business office in the village by the end of October with a studio also planned.

Once the system is installed, viewers will have a choice of 35 channels of local events, sports events, specials, educational programming, state and national news, coverage of the U.S. House of Representatives, and, on Home Box Office (HBO) or the less expensive Cinevue, first run movies.

When service is initiated the installation charge will be waived. Thereafter it will be \$15. Basic service will be \$6.95 per month. Subscribers will have the choice of Cinevue for an additional \$3.95 per month or HBO for an additional \$6.95 per month.

Continental will advertise how residents may subscribe prior to the system becoming operational. Further information will be available later this month when their business office opens in Morton Grove.

From the LEFT HAND

Continued from Page 1

In August we sent a reporter to the Niles Library Board meeting and she came back with a non-story. After she arrived at the meeting, the Board adjourned to private executive session, which bars the public from attending. Our young lady reporter sat there for three hours waiting for the board to return. When they did, they soon adjourned. She came back with a blank sheet of paper filled with circles and x's and o's and other doodads and cartoon faces she'd been trying to improve since her grammar school days. Not only was she somewhat nonplused by the whole evening, but she said she'd prefer not to return to future meetings.

School District 63 also has an inordinate amount of closed sessions at their meetings. It's difficult to have a reporter sit there for a couple of hours and then have little to show for her time.

Most executive sessions are used to discuss personnel matters. But this executive privilege is, more often than not, abused. The Illinois state statutes spell out clearly executive session personnel matters concern only the hiring and firing of personnel. Since school board meetings include a great discussion of personnel, a great amount of time is veiled behind closed doors. It's largely illegal. It plays havoc with our keeping reporters there. And it short-changes the public who have every right to know what the guys and gals who represent them are doing when the doors are shut.

There's an outstanding rendition of an old 1930 Clifford Odets play, *Waiting For Lefty*, which is appearing on Lincoln ave. at the Apollo Theatre. Not only is it classic American theatre, but its 1930's aura wears well through these many years. The local labor people who were out on the picket lines last month particularly would enjoy singing the songs of the thirties, while waiting for Lefty.

Writing about labor people reminds us of a Monday afternoon conversation we had at the YMCA with a District 63 resident. The fellow-taxpayer said the union leadership in School District 63 badly misled the teachers they represented. The taxpayer agreed the actions of the leadership in the District 63 teachers' union to get rid of the superintendent was unconscionable.

We were a bit surprised at the expression of a resident who always supported the teachers' union in the past. We thought we might be a minority of one in our view of the leadership in this union. But to hear an outsider agree the leadership was ruthless and ill-motivated, interested only in their own well-being, renewed our interest in the matter.

An autocratic self-seeking leadership is often hidden from the people they represent. In School District 63 the teachers who follow the pack might take a second look at the people who are representing them.

Alcoholism lecture series

In response to the high level of community interest in alcoholism and its problems, Maine Township Council on Alcoholism is offering its eleventh public discussion/Lecture Series on the subject.

Beginning October 17, the sessions will be presented each Wednesday evening at 7:30 p.m. in the Council offices at 2510 Dempster, Suite 116, Des Plaines. The goal of these free programs is not only to inform the public about alcohol and alcoholism, but to develop an open exchange of ideas on this pressing topic.

New topics and speakers will be added to the previous programs in past series. The new series will be five weeks long and will cover the following areas: October 17-Film "Chalk Talk" by Father Martin; Oct. 24-Alcohol-Alcoholism, a disease; Oct. 31-Family Problems in Alcoholism; Nov. 7-Fetal Alcohol Syndrome, Joan Conliss; and Nov. 14-Assertiveness & Communication-Overview of Series.

The last week will include a broad overview of the problems of alcoholism and will be available to anyone interested in helping with the problem and its effects. During the five week series, films and lectures will be
