A few weeks back as we sat and watched "Mr. Public Works" Eddie Bacher being presented with gifts and awards, we thought of a few gifts and awards we'd like to present to various people around town...

Ed Hanson, Bugle columnist ... A ski mask with no opening for his mouth.

Nick Blase, Mayor of Niles ... A copy of Jane Byrne's latest book, "Fooling Around in Politics", and a Bo Derek target poster.

Frank Wagner, Village Clerk ... A book entitled "Witticisms at the Expense of Women".

Mina Scheel, wife of Village Manager Ken Scheel ... A bouquet of roses and "The Red Badge of Courage".

Ginger Troiani, Zoning Board Commissioner ... A trip to Oz for the "Heart of a Lion" award, for he is first, last and always a Niles Lion.

Stan Niski, president of the Niles Chamber of Commerce ... The Pope John Paul II award for being the first Polish president of the Niles Chamber.

Bill and Elaine Doyle of St. John Brebeuf ... The "Eddie Foy Family Award" for their family participation in the St. John Brebeuf Festivals.

Florence and Peter Lencioni of SIJ 55 Plus Club ... A clock with 28 hours on it so they have more time to cover all their senior club activities and parties.

George Hall, SJB Golden Agers Club ... The "Golden Pen" award so he can keep those "Letters to the Editor" coming.

Chuck Giovanelli, Niles Police Department ... A needle and thread to sew on all the buttons he keeps popping off every time he talks about his baby daughter Christine.

Al Hoelbl, Niles Fire Chief ... The Doppler Tornado Warning System installed in his backyard.

Approximately 100 Niles residents crowded the Council Chambers Monday evening to voice their overwhelming opposition to a proposed McDonald's restaurant at the intersection of Dempster and Grace sts. In addition to the restaurant, McDonald's also intends to construct 5 small stores covering 11,400 sq. ft. which will be leased out for retail use.

The Niles Zoning Board of Appeals sat back and watched the "well-oiled" machine of McDonald's Corporation personnel as they presented their appeal. Richard Brennan of Winston and Strong, attorney for McDonald's, brought forth his roster of experts, all of whom were either McDonald's employees or were employed by agencies whose services were contracted by McDonald's. Questioned at length by Brennan were Jack Henning, real estate representative; Ken Park, construction engineer; Jack Gargoshon, professional land planner; Joseph Skonina, traffic engineer and J. Schlaze, real estate appraiser. Architectural drawings were exhibited to the board showing the proposed layout for the restaurant and retail stores, proposed parking and landscaping.

According to their testimony, McDonald's holds a long-term land lease on the property at 8450 Dempster which has a frontage of

**Radar request on to Washington**

Congressman Martin Russo accepts resolutions and petitions from local officials on the proposed Doppler Radar Warning System. The Doppler Radar Warning System is a new type radar device that has been tested and found to give at least 22 minutes of advance warning of an oncoming tornado, compared to the only 1 minute warning time that the present radar system offers.

Congressman Russo will spearhead a drive in Congress in an attempt to obtain the necessary money to install this revolutionary advance warning system in the Chicagoland suburban area.

The Doppler Radar Warning System was brought to Village of Niles Mayor Nicholas Blase's attention through an ABC-TV special presented by weatherman John Coleman. Mayor Blase then presented the Doppler System, with Mr. Coleman, to over 100 fire chiefs representing the entire metropolitan Chicagoland area. These fire chiefs were so impressed by the effectiveness of the Doppler System that they urged their respective city councils to pass resolutions to have Congress install this life-saving device now; as a result over 52 city resolutions were passed and forwarded to Congressman Martin Russo.

### SJB girl cagers end season with 33 victories

The St. John Brebeuf 8th grade girls basketball team is ending their 2nd conference season with a total of 33 victories this year, having won their last 6 games, and 9 of the last 10.

In a game at Immaculate Conception of Chicago, Julie Notaro scored on a 15 ft. plus left base line swish at the final buzzer to give SJB a 31 to 30 victory. A few days later, I.C. came to St. John's for a replay of the "nailbiter" game. This time, Mary Jane Marusek provided the winning margin with 2 points on free throws in the final seconds to record a 30 to 28 victory for St. John's.

In the next game, against the girls from Our Lady of Perpetual Help of Glenview, the SJB girls broke their old scoring record with 53 points. Lisa Strauss was the high scorer in that game.

The following game was a 3 point loss to what was then the best girls varsity team in the Chicagoland area - Queen of All Saints of Chicago. In that game, Barb Wittgen was the high scorer.

The SJB girls then took out their frustrations on last year's league champions with a stunning 51 to 34 victory over St. Monica's of Chicago. The game "made up" for an earlier 2 point loss to St. Monica's. Nancy Surace was the high scorer with 20 points in what was the team's last home game of the season.

The girls played one of their best games ever. Julie Klancnik showed the progress she has made as a defensive player by grabbing rebound after rebound in a great game at the boards.

Barb Wittgen put to use the experience she has gained in 2 years as point guard to beautifully set up the offensive plays and run the fast break with precision.

The very next day, the St. John's girls tied their newly established scoring record with a

53 to 20 victory over St. Ferdinand of Chicago. Kathy Belmonte and Barb Wittgen, sharing the point guard position, were the leading scorers with 10 points each.

In an exciting game the next day, the girls played an away game at St. Edwards. Trailing for 3/4 of the game, they entered the 4th quarter with an 11 point deficit, but they instituted a full court press which was spearheaded by Mary Jane Marusek deflecting and directing inbound passes to Barb Wittgen and Nancy Surace, to win in the final seconds 41 to 40. Playing a significant role in the win was the clutch rebounding efforts of Julie Klancnik and Lisa Strauss. Lisa also provided a steady influence as the team reacted to the excitement of the last quarter, by setting an even pace enabling the girls to concentrate on a strong defense to retain the lead.

Playing for the 5th day in a row, the SJB girls overwhelmed the girls from St. Juliana's of Chicago 31 to 18 on Jan. 27. The game featured outstanding efforts by Mary Baranowski, Lisa Bielski and Maureen Thompson.

In a game against Mary Seat of Wisdom, Chicagoland All Star Nancy Surace was missing due to the flu. St. John's, which had won their previous game against MSW with a free throw shot Nancy took after the final buzzer because she was fouled in the final second of play, appeared in a desperate situation without Nancy in uniform. In addition, the girls were playing at MSW's home court. Sue Watson, playing Nancy's position, rose to the occasion and played her very best game of the year to lead the SJB girls to a 44 to 26 win. Julie Notaro was the leading scorer of the game.

The SJB girls will now begin CYO tournament competition with their first game Feb. 10, 1 p.m. at St. Tarcisus gym.

The 7th grade girls basketball team won their fifth game in a row by defeating the 8th grade sister team 15 to 12. The tenacious defense was led by Kathy O'Donnell, Elizabeth Rancich, Sandy Flentge, Jamie Hucall and Dina Zirko, coupled with a high powered offense led by Geraldyn Bertucci, Janet Puitsis, Jeannie Livorsi and Laurie Linhart.

The 7th grade girls will carry the St. Isaac Jogues green and gold against St. Catherine's in the championship game at Springman Junior High School.

The Maine East Demons were the '79 champions in cross country, with five young men named to the All State team: Paul Bafes, Bob Dluzen, Mike Egle, Mark Katz, and Stan Ozarowski. The team proved itself as the second fastest team to ever run in the state competition. Another record set by the Demons was its 63 point total, the lowest winning point total in 15 years of state cross country competition.

The state cross country title has been shared among only 17 schools in Illinois, and this is Maine East's second title, having first won a state trophy in 1970.

### State Conference on Families

The family with its strengths and needs will be the focus of a state-wide conference called by Governor Thompson. The Illinois White House Conference on Families will be held on March 7, 1980 at the Pick Congress Hotel.

The Conference, which is being sponsored by the Junior League of Illinois and the Illinois Association of Family Service Agencies, will closely examine issues surrounding family life. The major issues have been defined through public hearings. The issues chosen by Illinois will be presented along with those of the other states at the National Regional Conference scheduled to be held in Minneapolis during the summer of 1980.

In addition to issue evaluations, the Illinois Conference will serve to select 26 delegates to the Regional Conference. A total of 78 delegates from Illinois will be chosen. These delegates will be representing the interests of Families in Illinois.

President Carter called the White House Conference on Families in an effort to heighten public awareness about families and to set-up a means to gather a broad base of data about family life. There have been concerns from many areas about the family and its needs. It is anticipated that legislation and policy formation will be affected by the issues presented at the

## letters to the editor

### Tax Chicago people working in suburbs

Dear Sir:  
I am writing to you about the tax the Mayor of Chicago wants to put on the people from the suburbs going to work in the city.  
Well, we people think the suburbs should also tax the city people coming to work from the city to our suburbs. We also can use their money for our schools. It seems that more people are coming to the suburbs to work as the plants are moving up our way.  
Hope other people will comment on this issue.  
Mrs. Victoria Graf  
Niles, IL

### A female response to Mayor Blase

Dear Mr. Blase:  
In response to your statement in The Bugle newspaper Jan. 10, 1980, I find it very discouraging for a man with your stature and position in the community to accuse women of entering politics just so they can "fool around". Obviously you don't want to be re-elected. Why not bow out gracefully instead of insulting the women and therefore losing their vote?  
I am in no way a woman's liber but I feel I have to speak out for those with injured feelings. If I wanted to "fool around" as you put it, I certainly wouldn't enter your political committee because as I see it, fooling around usually isn't publicized and is kept

discreet.  
This wouldn't be possible in your Niles organization; there are too many over-sized mouths eager to out-do the next guy over a beer at the local pub.  
I feel fortunate not to live in Niles but in the great City of Chicago where our Mayor, Jane Byrne, certainly does not fool around!  
Here's hoping Jane doesn't see your article!  
Sincerely,  
Jeanette Cibelli, Proprietor  
Jeannette Beauty Salon

### Maine Township residents have "right to know"

Dear Editor:  
Although Maine Township residents may believe that financial problems such as those Chicago is now experiencing cannot happen here, the only way don't occur here is to keep our watchful eye on Maine Township government. However, the Maine Township Board is doing little to make our job an easy one. In flagrant violation of their responsibility toward the taxpayers whom they serve, this body has put little to communicate basic information to the public.  
In order to prevent financial mayhem from spreading into Maine Township, we as citizens must begin asking serious questions about the functioning of our Township Board. What criteria guide their decisions as to what persons or institutions will receive funds, and what criteria determine their decisions as to the amount of money received? Does the board make it its business to see that these funds are actually spent in the areas in which they are designated to be spent? And if the board violates the public trust, who under the present state of affairs can demand their accountability?

For example, the Township Board spends our hard-earned tax dollars for such programs as the Maine Township Council on Alcoholism, General Assistance Fund, Senior Citizens Group, and Mainstay Youth Counseling. While these programs may be much needed and beneficial to the community, do the taxpayers who help pay for these programs have any control over them? How can a dissenting public protest the transfer of large sums of money from the unsupervised Township Board to any number of recipients when this information is not made public?

In order to prevent financial mayhem from spreading into Maine Township, we as citizens must begin asking serious questions about the functioning of our Township Board. What criteria guide their decisions as to what persons or institutions will receive funds, and what criteria determine their decisions as to the amount of money received? Does the board make it its business to see that these funds are actually spent in the areas in which they are designated to be spent? And if the board violates the public trust, who under the present state of affairs can demand their accountability?

The "public's right to know" is more than a catch phrase, it is a way of conducting a government by the people. The opposite of this is a "government in secrecy" made up of uncontrolled bureaucrats who could care less about responsibility and accountability. The people of Maine Township deserve much more than the situation which exists today where communication between government and the community is virtually nonexistent.

Sincerely,  
Larry Gomborg  
State Representative  
Democratic Party Candidate  
4th Legislative District  
of Illinois

### "Stop Smoking"

The sessions will be held in a hospital meeting room on Monday, Feb. 18 and Wednesday, Feb. 20 (7 to 9 p.m.); Monday, Feb. 25 and Wednesday, Feb. 27 (7 to 8:30 p.m.); and Wednesdays, March 5 and 12 (7 to 8:30 p.m.). The Stop Smoking Clinic is conducted under guidelines of the Chicago Lung Association.

### Motor fuel tax

Illinois municipalities have been allotted \$8,332,393.00 as their share of motor fuel tax paid into the State Treasury during December according to the Illinois Department of Transportation. Included were Des Plaines, \$49,182 and Niles, \$27,196.

### Concurs with "Left Hand" on Stetina appointment

Dear Mr. Besser,  
Your recent "Left Hand" suggesting the appointment of Don Stetina as Superintendent of District 63 was excellent. There are very few districts throughout the state that have had the type of growth, community involvement, teacher confrontation and controversy that have characterized District 63 over the last 15 to 20 years. Don Stetina has been through it all. He started as a classroom teacher at Mark Twain school, became principal there and subsequently has had many administrative positions in the school system. His professional growth is excellent and he will earn his Ph.D. within the year. He has had the responsibility of directing the school system on a day to day basis while each Board of Education conducted its "nationwide search". He did the job well.

Why look outside the district when we have someone who has done the job here? An out-of-state candidate will not be familiar with Illinois code. Another candidate will take a year to know our community and then the teacher's contract will be due to be renegotiated.  
I am sure Don Stetina does not have the unanimous support of all interested parties, but what about the last two "leaders", one too strong, the other too weak?

Let the Board save us some money and get on with the immediate problems facing the schools. We don't have to pay to teach someone about our schools

and our community. They should give Don Stetina full responsibility now and let him run the school system.

An Old District 63 Taxpayer

### Voter apathy a real shame!

Dear Editor:  
Shame, shame, shame on the people of the Village of Niles. First of all, I must admit I am only a good winner, before I put all this shame on you. I hate to lose and I lost in my last election for our Congressman, the hard way.  
I thought I sponsored a pretty responsible and qualified candidate and reached everyone in my precinct to tell them so. But Lo and Behold! Come the tally after the polls closed. I counted 102 people who came out to vote. My precinct has 462 registered voters of which 350 chose not to vote.

This was a vote for a man in the Congress of the United States. How important do the elections have to get before we can get out people in Niles to cast their vote? Can I use this example! If it was a threat to burn your house or vote, would you let them burn your house? Yes, I wonder now, from past records of voters in our Village, what your choice would be. In closing I have to add my precinct was one of the largest turnouts, percentage-wise. Can we ever change this situation?  
George Hall  
Niles, Ill.

### Kustra headquarters Open House

Bob Kustra will host an Open House at his new campaign headquarters in Park Ridge this Sunday afternoon.

Kustra, who is running for the Republican nomination to the Illinois House of Representatives from the 4th District, will be on hand along with his family and campaign staff to greet the public.

"For the last six months, we've all worked off our dining room tables," Kustra said. "With just 1 1/2 months to go until the March 18 primary, we feel our collective efforts can be even more effective working out of a campaign office in a central location like Park Ridge."

Citizens to Elect Bob Kustra campaign headquarters is located at 136 S. Prospect in Park Ridge. The Open House, which will include refreshments, is scheduled this Sunday, the 10th, from 2 to 5 p.m.

### Orchard Village Respite Care Center

Orchard Village Respite Center is to help meet the need for short term care for developmentally disabled adults living within the local communities.

For more information, contact Barbara Skeyer, Respite Coordinator at 967-1800.

### LWV birthday party and unit on initiative process

The League of Women Voters of Morton Grove-Niles will celebrate the 60th anniversary of the founding of the national League and discuss the initiative process of direct legislation at a public meeting Saturday, Feb. 9 at Niles Recreation Center, 7877 Milwaukee.

Mayors of both villages, village trustees, park and library board members, and Niles Family Services board members have received special invitations to the one o'clock birthday party at which the Feb. 14, 1920 organization of LWVUS will be observed.

Barbara Fowler of Elmhurst, state League board member whose specialty is constitutional implementation, will present the unit on initiative, assisted by local Leaguers Ellen Van Laningham and Carol Less. For more information call President Joan Goldberg, 823-5682, or Mrs. Van Laningham, 967-9465.

In 1970 the state League adopted as a new study item the entire process of direct legislation on the state level, including initiative, referendum, and recall. It soon became evident that only the first of these electoral devices could be dealt with adequately in one year, leaving referendum and recall to be examined during the 1980-81 season.

Initiative is the means whereby the electorate may by petition propose a law or an amendment to a constitution. Referendum is an issue submitted to popular vote. Recall is the term applied to an election for removing a public official from office before the end of his term.

Initiative has various forms: direct, indirect, statutory, and constitutional. The 1970 Illinois Constitution provides for only a very limited exercise of con-

stitutional initiative. The question for study and consensus by March 15 this year is: Do we wish to extend the initiative process in Illinois?

Direct initiative is the procedure whereby through valid petitions a proposed law or amendment is placed on the ballot to be passed or rejected by the voters. Fifteen states have some form of this method, which bypasses the legislature.

Indirect initiative entails petitioning for a law or amendment to be submitted to the legislature, which then must act on the proposed measure or one substantially similar. If the legislature fails to respond to the will of the petitioners, the question is placed on the ballot in five states.

Statutory initiative, now in use in 21 states, is any initiative procedure, direct or indirect, which affects the written law or acts passed by the legislature. Constitutional initiative provides for citizen initiative to amend the constitution in 16 states.

Before 1970 the Illinois Constitution did not provide for any form of initiative on the state level, although it was available on the local level to any unit of government having home rule. The 1970 Illinois Constitution permits the electorate to submit changes in the structural or procedural subjects contained in Article IV (the legislative article) to the voters in a general election, and that is all.

In accordance with this provision petitions are now being passed to place on the November, 1980 ballot a proposed amendment to change to single member districts and abolish the current system of cumulative voting from multi-member districts in electing members of the Illinois House.

### Flynn seeks public debates with candidates

Thomas Flynn, Democratic Candidate for Congress, today congratulated Bob Weinberger on a hard-fought campaign against John Porter. He then called for a series of public debates between the three Democratic Congressional candidates.

Mr. Flynn said, "The Democratic voters of the 10th District are very interested in the positions on issues of our different candidates. I believe that public debates are the best forum for the voters to become informed. Mr. Weinberger has already stated he is willing to debate. I ask Mr. Hartmann to join us in a series of debates throughout the District."

Mr. Flynn went on, "I propose public debates at Northwestern

University, Oakton Community College, two high schools in the Eastern and Western ends of the District, and joint appearances at all Democratic Organizations. It is immaterial to me who organizes the debates and I suggest that Mr. Weinberger's staff make the arrangements at convenient times to Mr. Hartmann, myself and the public."

Mr. Flynn concluded, "It is incumbent upon Mr. Weinberger, Mr. Hartmann and myself to remember that our opponent is John Porter and not each other. I give my word of honor to discuss issues and not personalities and to campaign as a gentleman. I will support the winner of the March primary as I worked for and endorsed Robert Weinberger in the January election."

### Gomberg begins registration drive

Larry Gomberg, Democratic Party candidate for State Representative in the Fourth Legislative District of Illinois, today announced that he is now conducting a campaign to register voters for the March 18 Illinois primary election.

As Mr. Gomberg stated, "Now is the time for all citizens in Illinois to begin showing their intent to participate in the primary election on March 18. My district, with its many politically conscious constituents, should not 'take a back seat' to any district

in the state when it comes to registration. Therefore, I am urging everyone in the Fourth Legislative District to register for the upcoming primary election."

Mr. Gomberg stressed that he will personally be distributing reminders to residents in his district telling them where and when to register. He concluded by saying that, "I will certainly do everything I can to make sure we have a high turnout on March 18."

# Morton Grove Park District

## Park District initiates volunteer program

Believing that more community involvement will develop a solid base for continual yearly growth of programming as well as valuable budgetary savings, the Morton Grove Park District will be organizing a volunteer program that will train interested persons in coaching and officiating Youth Soccer, Flag Football, Basketball and Floor Hockey.

### "Off and Running"

"Morton Grove Park District winter session classes are off to a great start," stated Richard Grodsky, Superintendent of Recreation. The goal of the department is to keep the recreation program quality high. Grodsky feels that by having a professional staff who hire top quality instructors is the major reason the Park District will continue to grow.

"Since I've been with the Park District, I've seen the district's programs expanded upon. We've offered more adult and pre-school classes." He also feels that the community is hungry for leisure programs and services. This fact is very well supported by the printing of the Winter/Spring Brochure, which was well received by the residents. 70% of all classes offered had enough participants for the classes to go. This is very significant as this indicates that the public is receiving the program information. Mr. Grodsky enjoys speaking with as many people in the community as he can. "If you ever want to talk just stop by my office from 9 to 5 p.m., Monday through Friday."

Hot-Line Information is available throughout the day for current ice skating conditions. Also a brief run down on recreation program information. For Hot-Line information, call 966-3075.

They compete against Wauconda, Bensenville, Franklin Park, Park Ridge and Streamwood. The team members are: Judy Fugate, Debbie Gaffney, Carol Gresens, Sheryl Hallman, Chris Malinowski, Marg Miller, Kathy Piekos, Denise Pietrononi, Nancy Tinaglia and Sue Thomas.

Persons interested in joining this program should look for information in their Fall 1980 Brochures.

## Chicago Sport Show opens Feb. 15

That eagerly awaited harbinger of spring and summer outdoor joys - the 41st annual Chicago Sport Show - comes to International Amphitheatre for the ten days of Feb. 15 thru 24. Suffice to say, it's as great as ever.

The stage show, emceed for the 22nd consecutive year by Hollywood's John Bromfield, is as good as ever and presented twice daily at no extra charge to expo visitors. Opening day, which will start at 5 p.m., will have just the evening performance, at 8 p.m., however.

Show performers will include the No. 1 attraction at all sport shows - the fabulous Victor the Rascal Bear, who will take on all comers. Championship skill combined with showmanship will mark the performance of Ann Stovel casting, Anne Clark in feats or archery wizardry and Loral I Delaney putting her famous retrieving dogs through their paces. Loral, international trapshooting queen, is recognized as America's outstanding outdoorswoman.

A surprise hit is sure to be the

Laurel and Hardy look-alike comedy team of Mulleague & Co. Another perennial favorite of Amphitheatre crowds is Woo Woo Stevens, the banjo-playing Singing Sheriff of the movies.

Also included is Chicago's largest selection of resorts and lodges from over the United States and Canada with colorful exhibits and representatives to help the vacation planner.

Another section of the Amphitheatre will house the huge selection of campers, RV's, vans and off-the-road vehicles, another large display of fishing and pleasure boats and motors, and still another, camping and hunting equipment.

Once again the popular live trout fishing pool, where you catch 'um and keep 'um, will head the array of personal participation opportunities for winter-wearied outdoors denizens.

Admission prices will be \$3.50 for adults, \$2 for youngsters 13 thru 17, \$1 for ages 6 to 12 and children under 6 free. Senior citizens will be admitted for \$2 at all times.

## Maine East Orchestis dance club activities

Maine East's dance group, called Orchestis, didn't waste any time this fall getting its group organized and involved. Old members were starting work on try-out clinics the second week of school with clinics and try-outs scheduled the following week. The club then got down to business and started work on V-Show try-outs.

This was only the beginning of the dancers' heavy schedule.

For Homecoming assemblies, they danced. At the carnival they had a booth selling coffee, cider, cocoa, doughnuts and candy.

Orchestis also offered two field trips. One was to see "Oklahoma" on Oct. 26. The other was to "Dancin'" on Nov. 7.

After V-Show the girls usually work on a show to present around Christmas time. But this year Orchestis members did something different. Instead, they devoted their time to performing for junior high schools and churches.

Of course, there is the dance concert March 7 and 8. The kind of dancing involved depends on "who tries out with what". The show will, however, include jazz and ballet. Other possibilities are modern, tap, show dance, and character dance.

The candy sale is the club's biggest fund raiser, followed by the ticket money from the annual dance concert. The money made from the show is used to pay for props, scenery, and costumes, etc., as well as awards at the end of the year.

During the year Orchestis will also be involved in two dance festivals. One will be the Illinois State Festival, which will be master classes all day. Anyone from the State may attend. The other one is the Illinois High School dance festival. Only high schools may attend, and this year it will be held in May at Barat College.

Some members will also be involved in the dance chorus for the spring musical.

When Orchestis is not rehearsing and performing, members work on perfecting their skills. Either Mrs. Betty Fisher, club sponsor, will be teaching

technique, or there will be master classes. Master classes are when college people come in and teach dance routines and techniques to the club.

Mrs. Fisher was also thinking about having the club provide scholarships to some of the dancers to go to various studios and come back to teach the club what they learned.

This year there are fewer members in Orchestis than last year. Last year there were about 100 people, and this year there are about 70.

At the end of the year are in-club try-outs so members may be promoted to a higher level.

All try-outs are judged by Mrs. Fisher, two other club sponsors, and the Orchestis officers who are Lori Durston, President; Mary Bubula, Vice President; and Mary Dorjath, Secretary.

## Marillac Father-Daughter Dance

On Friday, Feb. 15, the Marillac High School Family Association will hold its annual Dad-Daughter Dance. This year's chair-couples are Ed and Mary Faucher (Park Ridge), Tom and Maureen Smith (Chicago), and Bill and Rosemary O'Rourke (Bannockburn). They have been busy planning in order to make this Valentine dance a memorable evening. One of Marillac's most popular events, the dance not only gives the father a chance to get together with his daughter (or daughters) for a fun-filled evening, but he is able to meet her friends and their fathers.

The dance will begin at 8 p.m.; tickets are five dollars per family. Before dancing to the music of the Ken Iversen Orchestra, many of the girls will take their dates out for dinner. Said one Marillac student, "It is the only night a year that I know I can count on, and I'm really looking forward to it."

### ED HANSON

#### How YOU can make Millions!

(Continued from last week)

Get a piece of white cardboard. Get a marking pencil. Then write the numerals from 1 thru 9, including the 0 (zero). Write or type a letter to: The U.S. Patent and Trademark Office, Washington, D.C., stating: "I desire a copyright on the digits from 1 to 9, including the zero." Enclose the cardboard, your letter, and send registered mail with return receipt requested to the above.

Then wait ... Our government is so screwed up with all its bureaus and branches, a sort of "the left hand that doesn't know what the right hand is doing", is so-complex, you may receive your requested copyright.

If you do ... not even the IRS will be able to function without paying you millions in copyright royalties. In fact, everyone with eyebrows in the USA will have to pay you a fee. Now, get another white piece of cardboard, but much larger. Draw a series of wheels from the size of a one cent piece to the largest wheel on a super size bulldozer. Send to the above, with letter stating you want a copyright on the wheel. If you get the copyright, you've really got it made. Nothing moves in this country without paying you a copyright fee.

Now send a letter to the People's Republic of China stating the following:

I am interested in the national distributorship of the male contraceptive pill which your government has been conducting tests on for the past four years. I understand that approximately 10,000 Chinese men are currently taking one of three birth control preparations containing a substance called "gossypol", a component of cottonseed oil.

I further understand, during the first two months, twenty-milligram doses are taken daily. And that, following that, only about 200 milligram doses are taken a month. Most important, three months after stopping the doses, fertility in the male returns.

According to Carl Djerassi of Stanford University, who synthesized the first oral contraceptive for females, and who has been following these tests closely says in his forthcoming book, "The Politics of Contraception", that the results are very encouraging.

Moreover, your studies using both animals and humans have revealed and demonstrated that unlike other fertility agents (a la the female Pill), gossypol does not disturb the male body's hormone balance. Testosterone levels appear to remain normal ... and no harmful side effects.

As world production of cottonseed equals about 80,000 tons of gossypol annually, this would mean that mass producing the male contraceptive pill would be relatively inexpensive.

May I hear from you, at your earliest convenience, regarding an exclusive USA national distributorship of your remarkable breakthrough on the male birth control pill.

After all, Chinese people possess the wisdom of the ancients as evidenced by your discovery of the printing press, gunpowder, spaghetti and many more remarkable inventions and discoveries of international import.

Thank you ...

One more simple idea on how you can make millions is this:

Get a simple, French fold circular printed that will fit into a No. 10 envelope. On the front of which you print these words: "Advise On How You Can Become Rich". When you turn over the folder, print these words: "Save Your Money". (The French fold will cause the printing to be on one side, thus saving printing costs because it does have to go thru the press twice.)

Now you run one inch ads in newspapers, magazines and periodicals with mass circulation.

Here is your copy for the ad: Advise on How You Can Become Rich! Send one dollar today to Box No. 104 (or whatever), Niles, Ill. Money back if not satisfied.

Rent a box at the local post office, pick up your mail and the money and send out the circular which should cost you less than a half cent. You'll have to feed it for a while because all mail order advertising is accumulative, like a snowball rolling down a high hill.

Next week ... an update of the Betty (Quinn) Coed tragedy. And, possibly, maybe something about those two young girls who were slain in Morton Grove last September 6, 1979. And now, you know it's so, because I, Ed Hanson, told you so!

### Comments from Jake's satisfied customers

Recently, while at Jake's Restaurant, 7740 Milwaukee ave., Niles, I interviewed some customers in the booths and at the tables at random. Space does not permit the mention of the many I queried but here are a few that were typical.

For example, Mr. and Mrs. Gene Berg, 25 year residents of the village of Niles, frequently have breakfast, lunch or dinner at Jake's. They told me they like Jake's food, his low prices and

### Niles Library seeks refund of insurance premiums

by Eileen Hirschfeld

Hindsight may seem to be preferable to foresight as shown by the Niles Library Board's current dilemma over policies issued through Sidney Brandt, a former consultant to the library and independent insurance broker as of December, 1979.

At a Jan. 19 special board meeting, board members approved a motion asking for a refund of premiums paid to Lubin-Bergman Organization, Inc. for deferred compensation policies on 13 full-time employees. Plans were scheduled to become effective Jan., 1978. Some board members seemed to be unhappy about retirement benefits. According to Harry Pestine, about 40% of the premium is being paid into insurance.

Brandt was consultant to the library when he first developed plans for the district in 1967. Original plans were revised to become effective in 1978. Brandt said the library was taking 7.5% over and above each salary for the plan. He said, "The policies were never designed to provide the bulk of retirement benefits. An I.R.A. (Individual Retirement Account) is in the individual's name. Half of the 7.5% is in an I.R.A. and other half in deferred compensation." Accumulated funds are paid either as insurance or at retirement when an individual is in a lower tax bracket.

He also said the policy included a disability rider on the insurance portion. Robert McClarren, system director of the North Suburban Library system, of which Niles is a member, spoke on Brandt's behalf. He said "library employees in 1967 had only one authorized plan by the Municipal Library Fund. A problem occurred because of Librarians' mobility. This plan was not always reciprocal.

Other options were no retirement benefits or state programs "you were locked into," he said. McClarren said, "Frank Allen (former library administrator) asked the NSLS to see what had been developed in Niles by Sid Brandt -- essentially an endowment insurance."

He said, "Sid's plan was the best. Other libraries have had the same type of program for a number of years. At one time Niles was a pioneer. Mr. Brandt's proposal was seen as a liberating one at the time."

McClarren said employees without dependents asked if there was something other than endowment insurance and with today's tax shelters, it is now possible. McClarren said the system seems to be in transition because employees now have different social outlooks.

Brandt said the original plans (1967) were revised because the library was having difficulty with a cash flow. Martin Hodes, board member, said the former policy was too costly for the library to maintain. In the future fringe benefits may need to be discontinued in such public bodies, said Hodes.

Ordinarily, a plan is updated every two years said Brandt. The latest revision took several months for applications to be received from all policy holders.

Lloyd Gillet, board chairman, said, "Mr. Brandt tried to provide better 'benefits' to employees at lower costs," when the

1967 plans were revised. He said, "At the time Mr. Brandt went over the benefits with the staff. Mr. Brandt was doing his job."

An insurance consultant was hired in June, 1979 to evaluate all library policies. "In his report he did not indicate any problem," said Gillet. Gillet said, "His report was done before these revisions." Another board member, Martin Hodes, thinks the report was presented in September and would include the policy revisions.

According to one source, Sidney Brandt and John Tomlin, associate to the library attorney, were not invited to the special board meeting by the library board secretary, Harry Pestine. Tomlin was "unhappy" considering the nature of the board meeting, the source said. Also, Martin Hodes was not able to be at the Saturday meeting. Hodes said, "I worked for a year with the insurance committee to make sure all the employees would get all their benefits."

Tape recordings are made of each meeting and can be destroyed after 90 days by which time the minutes should be written and approved.

Pestine said he was "surprised the meeting aroused so much attention from the press." He said the meeting had to be called within ten days of receipt of the policies in order to gain refunds.

Brandt said, "I wished they had done it a little differently but they have the right to do it (cancel the policies). I had never had a policy returned before and had to call the insurance board to see if it could be done."

### District 63 ...

Continued from Page 1

Board chairman Richard Smith was not present during the vote.

Joan Futterman, board member, asked Stetina if any problem would occur in timing a Spring referendum. He said, "Time is not the problem." Stetina said board members must arrive at a decision pending study of the five-year plan.

He outlined requirements for implementation of the referendum and said an important factor was strategy which would include leadership groups, publicity, speaker teams and voting arrangements.

A final decision is scheduled to be made at the Feb. 26 meeting. A levy, if passed, will not be able to be applied until Dec. 1980.

Richard Smith, board chairman, said the Illinois Association of School Boards has presented the board with references of superintendents applying for the District 63 position. The district has been without a superintendent since the beginning of the school year. A former administrator, Kenneth Moe, resigned last July.

Smith said the board is adhering to time tables allotted for the "search". According to one board member, interviews should begin now. Following the meeting, board members adjourned to executive session for the purpose of discussing the "search".

Donald Huebner, Gemini school principal; Robert Jablon, Apollo school principal; Ted Panczyk, assistant principal and Fred Steele, social worker, presented a report on the "middle school". Huebner described the concept as "schools that provide transitional education for adolescent and pre-adolescent students." He said the "schools are suited to the unique needs of these young people."

Panczyk said Apollo and Gemini are probably between a "pure middle school and a junior high school." About 7,000 middle schools exist in the United States and most contain grades 6, 7 and 8, according to the report.

In answer to an inquiry from Mark Davis, board member, Steele said including sixth graders would be a good bridge to high school "in a developmental sense."

Niles Police Department ... A score board to keep on their wall so they can mark off all the cases they solve for the Chicago Police Department.

And last, but not least ... Cook County Department of Housing ... "Golden Boob Award" for erecting a 10 story building housing 135 senior citizens and providing no emergency system for elevators or heat during a power outage.

Stetina presented a proposal for the 1980-81 school calendar. A final calendar will be prepared for a board resolution.

James Bowen, business manager, reported the \$5,000 heating bill at Ballard school was being investigated. He said there was a steam leak in the boiler.

Also, the gas company is checking its meters and a report will be given to the board.

In other action the board approved motions for a maternity leave of absence, resignation of a teacher aide, appointment of a reading instructor and two teacher aides.

### Teletype earns bond awards

Thomas F. Monahan, President of the First National Bank of Skokie and Skokie Volunteer Savings Bond Chairman (center) presents Minute Man Flag and Plaque to Floyd C. Boswell, President of Teletype Corporation (right) and Clifford Seidler, Savings Bond Chairman for Teletype.

These awards signify that Teletype Corporation has achieved over 50% participation in the U.S. Savings Bond Payroll Savings Plan for the past 10 years.

### Realtors receive tax shelter information

LaVerne Sampson, Savings Manager of Niles Savings and Loan Association, spoke at the January Sales Council Meeting of the Northwest Real Estate Board. Her topic, "Individual Retirement Accounts," was well-timed for salesmen and brokers. "Millions of individuals are not covered by any form of retirement plan," Mrs. Sampson stated. "These accounts are a means of a legal tax shelter with deferred tax until you begin to

withdraw funds at retirement age." The purpose of this account is to give individuals an opportunity to build a more secure future while saving on their current income tax bills.

The deadline for opening an IRA is before you file your income tax, or April 15 at the latest. The large group was invited to contact Mrs. Sampson at 967-8000 for more information on these accounts.

### NI-Gas survey on detecting heat loss

"Infrared cameras were developed 25 years ago in Sweden as a nighttime 'eye' for tanks," said Don Winthert, NI-Gas conservation consultant. "Since then," he continued, "the thermography system has been adapted for a variety of uses including detecting heat loss."

NI-Gas has been using thermography to detect heat loss in schools since 1977. The program was first of its kind in the nation. This year municipal buildings are also eligible for surveys. Results of 400 surveys completed over the last two years indicated a variety of conservation needs i.e., inadequate insulation, thermally inefficient window and construction materials, clogged vents. Measures taken to improve such inefficiencies could save tax dollars.

During the week of Feb. 4, Winthert and NI-Gas Energy Consultant Dick Frake, surveyed six schools in Park Ridge and Niles. NI-Gas Glenview District Superintendent Dick Leider says the service is available at no cost to public and parochial schools and municipal buildings NI-Gas serves. Survey and scheduling information is available from Leider or Frake in the NI-Gas Glenview office.

### 'Winter Games Report'

Illinois Bell is now offering "Winter Games Report" to sports fans. The special number 312/936-9000 will run until Feb. 25, Roger B. Hendrickson, Illinois Bell's manager of the Public Announcement Service, announced. "Winter Games Report features in-depth reports, special interviews, a special 'quickie quiz' and, when the Olympic Games begin at Lake Placid, frequent updates on current medal standings," Hendrickson said.

Winter Games Report is in addition to sports coverage provided by Illinois Bell's Sports Phone, which has passed 30 million calls since it was inaugurated in November 1977.

### Ace Washer scores with service and sales

Glen and Bill Curtis' unique approach to sales and service has enabled Ace Washer & Dryer Company to grow steadily year after year. "Well, Mrs. Jones...the reason you've had this trouble with your washing machine is because there's a minor problem with the timer. Current isn't getting into the motor because the points in the timer are burned. The machine needs a new time, that's all."

Heaving a sigh of relief, Mrs. Jones managed a big smile. For the first time in her life as a housewife, a courteous service technician had actually taken the time to explain, in simple layman's terms, what had caused one of the family's most vital household appliances to stop functioning, instead of just naming the part and its price.

Mrs. Jones had received the Red Carpet Treatment - the special service that has enabled Ace Washer & Dryer Company of suburban Morton Grove, Arlington Heights, and Schaumburg, just outside Chicago, to

achieve its enviable reputation of being one of the region's most conscientious service-oriented organizations and one of the nation's most reputable Maytag Home Laundry Center retail outlets.

Regarding sales, and in conjunction with their 25th anniversary of selling Maytag's, Bill and Glen have converted their Morton Grove outlet to a "No Frills" Hi-Volume store without sacrificing the fine service they are so well known for.

"No Frills" according to Glen Curtis is simply making Quality Maytag washers, dryers, and dishwashers available to folks at the same low prices that they would pay for ordinary machines.

"No Frills" prices apply to brand new models in their original cartons, floor samples, demonstrators, and slightly damaged units, and all at low prices, and all fully guaranteed like new.

"No Frills" according to Glen simply means that Ace wants everyone to own an Ace-Maytag!

### First Chicago Credit Corp. Skokie office

### McDonalds . . . Cont'd from Niles-E. Maine P.1

298.85 ft. on Dempster and 281.9 ft. on Grace st. The lease which they took out in the spring of 1979 covers a 20 year period and has a four 5 year option periods with option to purchase. The building they propose to erect will cover 4,386 sq. ft. and seat 110 patrons and will also have a drive-thru lane with a pick up window for those who wish to order their food without leaving their vehicles. The 5 retail stores which would be separated from the restaurant by a courtyard would consist of 1 unit at 1,800 sq. ft. and 4 units at 2,400 sq. ft. each.

McDonald's real estate rep Jack Henning told the board the contract for leasing the retail space would possibly be given to Baird and Warner and the space would be leased to users who would compliment the McDonald's restaurant with an example given such as a book store. It was estimated the restaurant would employ 75 to 90 full and part time employees from the local area. Their estimate of sales tax generated from the restaurant revenue would be \$17,000 to \$18,000 per year, in addition to the real estate tax on the property which is \$2,500 to \$2,600 per year.

Joseph Skonina, traffic engineer hired by the McDonald's Corporation, told the board that based on the existing traffic pattern on Dempster and surveys they had taken at different periods of time, McDonald's traffic could be interjected into the existing traffic pattern without causing any further problems. He also recommended the deceleration lane in front of the First Federal Bank of Chicago building on Dempster and Cumberland be extended to Grace st. so that customers turning into the restaurant would be out of the traffic lane. Skonina told the board the greatest number of vehicular movements on Dempster was recorded between 4:45 and 5:45 p.m. McDonald's critical peak period of business is between noon and 1 p.m., therefore the peak traffic period and peak business periods would not coincide.

Zoning Board Commissioner Ginger Troiani questioned the back up of traffic in the McDonald's parking lot when they are trying to merge into the Dempster st. traffic. Skonina suggested the Village of Niles contact the State of Illinois Department of Transportation regarding the readjustment of the Dempster-Greenwood traffic signal to allow a longer green for Dempster st.

Commissioner Syd Mitchell suggested the Grace st. exit be closed altogether, but was told by McDonald's personnel that it was necessary for a smooth flow of traffic and emergency vehicle use. They further proposed a 9' cement abutment would be erected at that point to prevent right turns out of the restaurant into Grace st., thereby deterring traffic from entering the residential area.

Spokesman for the homeowners Tom Biondi, 8460 Oak, president of the Oak ave. Homeowners Association, told the Zoning Board commissioners his group was "against any type of business that will generate more traffic in the area." He presented results of a 1971 traffic survey which showed a 30 to 40 car backup at that point from Greenwood, photos of the Saturday traffic congestion at that point and petitions containing 30 to 1,000 signatures from Niles residents in the area surrounding the proposed eatery.

Amid several outbursts of applause from homeowners, Biondi stated there were 3 McDonald's restaurants within a 2.5 mile radius of the new proposed restaurant. "You're robbing Peter to pay Paul since people in this area who patronize the other stores will go to this one and take business away from the existing ones." According to Biondi residents had no objection to offices or condos being constructed on the property.

Josephine Buck, 8049 Oconto, secretary to Richard Haczak, president of Dempster Plaza State Bank, read a letter from Haczak addressed to the Zoning Board voicing his opposition to the proposed McDonald's. Haczak stated, "Traffic congestion on Dempster is now in a horrendous state and Dempster Plaza State Bank is definitely opposed to the proposed McDonald's."

Zoning commissioner Pat Feichter expressed concern that the eatery would be an attraction for Maine East and Gemini school students which would encourage them to leave school grounds and make the restaurant "a hangout".

After hearing the testimony from both sides, Zoning Board chairman John Frick said staff reports would be made on the proposed eatery and Commissioner Troiani motioned the petition be submitted to a staff meeting of Village of Niles department heads including police and fire personnel to review traffic. The results will be brought to the March 3 Zoning Board meeting and continued at that time.

In other business a very patient Jack Dougherty of "Little Vera's Kitchen" (formerly Friendly's Hot Dogs) petitioned the board to increase the number of seats in his establishment from 7 to 15. The restaurant is located at 7301 Milwaukee ave. He told the board his plans had been cleared with the Niles Fire Department who recommended a handrail be installed to prevent chairs being pushed back and blocking the doorway. The board approved his petition by a unanimous vote and by the same unanimous vote ended the meeting at 12:15 a.m.

### Legion Mostaccioli dinner

Morton Grove American Legion Post 134 commander Robert Perschon has announced the details for the mostaccioli dinner which the Post will host on Sunday, Feb. 10. Serving hours will be from noon to 4:30 p.m. at the Post Home, 6140 Dempster.

The all-you-can eat meal will feature salad, bread and beverage with the Italian mostaccioli. Past commander Anthony La Rosa and Mrs. La Rosa are preparing the meat sauce. Assisting with the event is past commander Roy La Rousa and legionnaire James Campanella. Donation is \$3.50 for adults and \$2 for children under 12. Tickets will be available at the door that day; however, they may be obtained in advance by phoning La Rosa, 965-7385; Commander Perschon, 775-6907; La Rousa, 965-2969; or legionnaire Chuck Rieck, 967-5642. Since finances are tighter this year, the event is being sponsored for the benefit of the annual Easter Egg Hunt. The Legion sponsors it for village-wide children each year with gifts going to those youngsters who find specially marked hard boiled eggs.

### NORTRAN . . . Cont'd from Skokie-L'wood P.1

perceiving overcrowding. In other business, chairman Eisenberg stated that, "the District opposes and hopes to organize opposition against House Bill 2723, which calls for the elimination of transit districts."

"The North Suburban Mass Transit District is a vital and active District, providing transportation services for the citizens of its 21-community area," added Eisenberg.

He appointed a special committee, consisting of Samuel H. Young, trustee from Glenview, and John H. Kleine, trustee from Lake Forest, to research the bill and recommend action to the Board.

The District elected officers for the coming year. W. Warren Nugent, trustee from Kenilworth, was elected District Vice-Chairman, a position formerly held by Marge LaVine, Des Plaines. Retaining their positions are: District Chairman - Leonard S. Eisenberg, trustee from Glenview; Secretary-Treasurer - Samuel H. Young, trustee from Glenview.

Newly-elected committee vice-chairmen include John S. Kolum, trustee from Libertyville to head rail operations, and Harriet Rosene, trustee from Northfield to head the elderly and handicapped committee. Retaining their positions are: Vice Chairman, bus operations - James A. Mahoney, trustee from Niles; Vice Chairman, planning - Albert W. Lang, trustee from Wheeling; Vice Chairman, marketing - Robert L. Benton, trustee from Deerfield.

### Aluminum recycling center in Lawrencewood

Northern Illinois residents recycled more aluminum cans and other household aluminum last year than at any time in their history, S. B. Thompson, district manager, Reynolds Aluminum Recycling Company, reported today.

The Reynolds Metals Company subsidiary pays 23 cents a pound for all-aluminum cans and other clean household aluminum such as pie plates, aluminum foil, frozen food and dinner trays; dip, pudding and meat containers. Reynolds also pays 23 cents a pound for other aluminum items such as siding, gutters, storm door and window frames, and lawn furniture tubing, which should be cut to lengths not exceeding three feet and bundled. Local recycling center is in Niles at: Lawrencewood Plaza Shopping Center, Oakton and Waukegan rds., every Saturday from 10:30 to 12 noon.

### Library 'Van Contest' winners

Saturday, Feb. 9 at 1 p.m. the winner of the "Name That Van" contest will be announced at the Main Library, 6900 Oakton st. The Board of Trustees solicited the help of the District's elementary school children in naming the District's new van. Over 350 entries were received, some by mail or special courier. Eight finalists were chosen, and the Board is selecting the winner from these.

Although the van has not yet been delivered, Dr. Lloyd Gillet, President of the Board, will present the winner with a \$50 savings bond. The finalists and their parents will attend.

### Pullen leads protest over proposed gas tax

State Representative Penny Pullen (R-4th) last week led a protest of over twenty Cook County Republican law makers against Cook County Board President George Dunne's proposal for a 2¢ hike in the county gasoline tax.

Miss Pullen was spokesman for the mostly suburban group at a Springfield news conference. "This is a 200% increase, and no need has been shown. Just as the state government has done for the past 3 years, the county should learn to live within the peoples' means. 1980 is certainly no time for a whopping tax increase."

"The Democratic leaders of the legislature have adjourned our session until March 5," Miss Pullen said, "so it appears impossible for us to take legislative action before the county board acts, but we all agreed to carry the fight home to our districts and urge the taxpayers to write and call every member of the County Board to protest unconscionable tax grabbing."

"Mr. Dunne's proposed tax increase is another example of the County Board's way of putting the tax burden on suburban residents for service which will not be focused on the suburbs," Miss Pullen charged, "this is typical of the machine-run County Board, illegally apportioned with no regard for the one man-one vote ruling."

Miss Pullen and her colleagues noted that more motorists drive and buy gasoline in the suburbs far than in the city, "so a gas hike becomes a not-too-subtle way of socking it to the suburbs again."

Some 23 Cook County Republican State Representatives last week sent a letter to the 16 county commissioners seeking rejection of the proposal, through Representative Pullen's efforts.

### Benefit tennis and racquetball evening
