## Niles Village Board honors 3-4 gallon blood donors

by Diane Miller

The Niles Village Board on Tuesday evening honored a Niles father and his two sons for a total blood donation of 10 gallons. Commended by the board were Paul Schmid, 8046 N. Ozanam, for donating 4 gallons of blood and his two sons Robert and John who have donated 3 gallons each. Each of the gentlemen received a

gift of appreciation from the village. The Village of Niles is a participant in the Michael Reese Blood Program and it was noted that approximately 90% of the Village quota covering its residents and their immediate families has been donated. The next blood drawing will be held on Thursday, March 20. Sharon

Wade, blood coordinator for the Village of Niles, urges residents to call her at 967-6100 and sign up for this most worthwhile cause. In other business considerable discussion took place among the board members regarding the re-subdividing of the property between Washington and Prospect from Oakton to Monroe. There are approximately 10 lots, 164 ft.

in depth which are under consideration. Ken Scheel, village manager, will seek options regarding the re-subdivision and present them to the board next month. It was also noted that it would cost \$2,000 to \$3,000 for surveying the properties and it would also be necessary to get permission from the homeowners involved.

Board approved the rezoning of the property at 7457 Waukegan rd. from B-2 to R-4 for a 3-flat building. Okayed the Plat of Subdivision for Skiba's First Addition at 8746 Stolting rd. Discussion was held among board members regarding the request for removal of the "No

## Delay referendum plans until Fall

# District 63 opposes plans for McDonalds

by Eileen Hirschfeld

Members of East Maine School District 63 board directed their attorney to express concern about a proposed McDonalds drive-in restaurant to be located at the northeast corner of Grace and Dempster sts. during a regularly scheduled meeting Tuesday in Apollo school, 10100 Deer rd., Des Plaines. Patton Feichter, member of the Niles Planning Commission, said to board members, "Our concern is that changing the light and traffic patterns could cause difficulties for children." Feichter referred to the suggestion of a McDonalds safety expert who indicated the use of a

lengthier green light on Dempster st. Also, questions of fire safety and easy access to Lutheran General Hospital, Park Ridge, are being considered. Students most affected would be from Maine East high school and Gemini school. Feichter said, "McDonalds is coming at us (the village of Niles) in the hardest way possible." He cited examples of that firm hiring numerous experts and also a court reporter to take down four hours of testimony. He said the zoning change will be voted on Monday

## From the LEFT HAND

by David (Bud) Besser

Three weeks away from the homebase is long enough. After two weeks on the touring circuit we begin to look homeward.

Jerusalem and Rome took up most of our time. Despite a rampant inflation Israel is building everywhere. Inside the Old City the Jewish quarter has been completely renovated. Outside, the newer city has golden Jerusalem stone sprouting up everywhere. A park dedicated to Hubert Humphrey and America's centennial has risen in the heart of the city. It is a lovely arbor only a new city could plan on its more valuable land.

Rome, lovely Rome, was warm and very springlike during our five days there. Other tourists can tell you about the museums and the ruins and the many classic treasures which abound in this beautiful city. But I'll remember Rome's special style. It's women ... they are just very elegant ... stylish and very expensively dressed, wearing boots and long skirts, and coats swirling in the breeze as they wend their way down the street. And their men are equally continental. At the opera last Friday night the man seated two rows in front of me came back to meet a lady friend seated alongside of me. He took her hand and held it ever so artfully, while he spoke softly to her. If I tried a similar thrust I'd look like the town bumpkin. But the Italian men have a grace, an elan, which gives their lives an extra dimension.

## Niles police warn homeowners of scam

Lt. John Christie of the Niles Police Department warns homeowners of a recurring scam taking place in the Village of Niles during the past week. Homeowners are advised to seek proper identification from anyone coming to their door and stating they are from the gas or electric companies or the Water Department and asking to check their meters.

According to homeowners approached by these men, the scheme works this way: Two or three males in a pickup truck pull up in front of a home. Two men go up to the front door, state they are from a utility company and tell the homeowner he has been overcharged on a bill. Usually they tell him he has a \$10 refund coming, but they only have a \$20

### Golf Mill Merchant's Association officers

Robert Loesch (fourth from right), manager of Sears, Roebuck and Company, and immediate past president of the Golf Mill Merchant's Association, joined newly elected board members in congratulating re-elected president Mel Sobel of the Mr. Marty Shop.

The Golf Mill Merchant's Association officers for 1980-81 were installed at the Annual Meeting held recently at the Bradford Museum and Exchange. The board members pictured left to right are Al Serstad of the Little Miss and Mr. Shop, director; Bill Rand of Rand Jewelers, director; Dave Malkon of Baker's Shoes, director; Al Smith of the Hearing Aid Center, director; Ann Stated of Lytton's, director; Greg Zaideman of Richman's, director; Sobel; Loesch; Erma Eilman of Large World, secretary; Earl Caudill

manager of J. C. Penney, vice president; and Robert Wallace, president of the Golf Mill State Bank, treasurer. Not shown are directors Mike Drop of Woolworth's and Pat O'Shea, manager of Golf Mill Shopping Center.

Golf Mill managers and store owners, district managers, and local media attended the luncheon meeting which, as MC Bob Loesch commented, had one of the largest attendances in many years. Guest speaker for the affair was Ken Scheel, Village Manager of Niles, who discussed what to expect in the 80's as it relates to the village and the Center.

Sobel in accepting the presidency reviewed the past year, spoke of how the cooperative spirit of the merchants benefited all, and of the advantages of working together in the future.

### LWV officers to attend luncheon

President Sue Kravis and Elizabeth Matteoni, secretary, will represent the Morton Grove-Niles League of Women Voters at the 80th Anniversary Luncheon of the League of Women Voters of Illinois. The program will include presentation of and statements by all candidates for the office of U.S. Senator and will be held Feb. 28 at the Palmer House, Chicago.

The local League was organized in 1961 in Morton Grove with 63 members. By 1970, one-third of the members were Niles residents and it officially became the Morton Grove-Niles League, enabling it to study local issues in both villages as well as county, state, and national issues.

This year a study of local government accountability has focused on the work of village, park district, and library boards, and a home rule forum is scheduled for 2 p.m., Sunday, March 9, at the Morton Grove public library, 6140 Lincoln.

On the state level the League is studying initiative, referendum, and recall. It will continue to work for merit selection of judges, single member legislative districts, and improved child-welfare and juvenile procedures. Providing the non-partisan voter information that the League has long been noted for will continue to be a major activity at local, state, and national levels.

### Morton Grove Library happenings

The deep interest in genealogy all across America and the increasing feelings that family ties are important is the motivation for a series of lectures on genealogy at the Morton Grove Public Library.

Barbara Garrison of Morton Grove will discuss "Beginning Genealogy" on Wednesday, March 5 at 7:30 p.m. She will give the basic methods and techniques of starting a family tree.

Stuart Freiler of Niles will bring his expertise to a lecture on "Introduction to Jewish Genealogy" on Wednesday, March 12 at 7:30 p.m. Some of the resource materials he will recommend are available at the Morton Grove library.

"An Introduction to German Research," with emphasis on using a Mormon Branch Library, will be presented on Wednesday, March 19 at 7:30 p.m. by Carol Schiffman, owner of Genealogy Unlimited, a retail genealogy store in Buffalo Grove.

It is hoped that this series of lectures will provide some of the tools and research techniques needed to open the doors to the past.

The powerful and beautiful film series, "The Ascent of Man" will be presented at the Morton Grove Public Library on Wednesday afternoons at 2:30 p.m., beginning on March 5 and ending on May 28.

The brilliant and articulate scholar, Dr. Jacob Bronowski charts man's progress from animal to inventor and shows how man's environment has been changed by him through his reason, his imagination, and his emotions.

### Niles All American Seniors Club

Feb. 14 was a two-fold celebration day for the Niles All American Seniors Club. The main event was the six year Anniversary celebration of our club's inception, and it was interesting to note that 80 charter members are still enjoying the fine fellowship of this Senior group. Members spent the hours with an unexpected "This is your life" presentation of some of their members. Among those selected were John Wilkin, President of the club; Charles Zuccaro, oldest and most spry member, having recently reached his nineties; Casey and Stephanie Pochelski, former owner of a fashionable dress establishment in the "big city", and who will, shortly, be celebrating their 60th Wedding Anniversary; Emily Schuett, who has resided in Niles for 70 years and vividly remembers the farmland where she romped and played in her youth; and Ruth (Bob) Perry, a 26 year Niles resident and former Woodlawn Hospital nurse.

A poll was taken of the members' places of birth, and it was found six members were born in Germany, five in Poland, four in Italy, and one each in Sweden, Norway, Romania, Yugoslavia, Czechoslovakia and South America; the balance were born in the States of mixed parentage. So, all in all, our members truly live up to the "All American" title with this melting pot of membership.

Our oldest feminine member, Marie Jackson, was the recipient of a beautiful Chrysanthemum plant. Our "green thumbs" Donald Erickson, Margaret Schmidt, Catherine Oeftering and Betty Clawson donated house plants and floral decorations as door prizes for the occasion. Valentines were exchanged as a means of getting acquainted. The two-fold event was finalized with a delectable buffet luncheon, topped off with cherry cobbler ice cream. A good time was expressed by all.

### S.I.J. 55 Plus Club

Our Valentine Party was very delightful. Each member received a Valentine Heart...the ladies with a scarf holder, the men with a Candy kiss. The beautiful scarf holders were made by Eleanor Benson, Helen Rogowski and Wanda Palkoner. Thank you so much "Gals," it sure helped make the party fun. Every one enjoyed the sandwiches, cookies, candy, snacks, coffee, etc. The winner of "Guess How Many Hearts in the Bottle" was Anne Cahill, who guessed 999 and Frank (Chico) Gloriana, who guessed 991; the winners each received a Valentine Heart box of Candy. Total hearts in the bottle was 990. Our photographer, Gil Kaitis took pictures and they will be in a future edition of the Bugle.

Don't forget our Feb. 28 meeting which should be very interesting, as our Program Chairman George Hall has invited as our guests Mr. Milas, President of Sanitary District and Barbara Ramsey to talk and show us slides about the Sanitary District.

February has really been a busy month for the 55 Plus Club. Even with being a short month and Leap Year, we have had parties, and many activities.

Members: Louie Bassi, reminds us dues are due, and sorry to say that members who have not paid their dues by March 13 will be automatically taken off the roster.

Happy Anniversary: Harold & Dorothy Warmann, Karen & Edward Bruzik, Frank & Betty Schillaci. Speedy recovery to all our sick: Marge Berles, Mike Christie, Tony Anekew, Tess Land and Corrine Hall.

P.S. Our Big Valentine Surprise was when Fr. Cerniglia came walking in. We were all very glad to see him.

## Former MG Mayor expresses views on Home Rule

Dear Editor: Following is a copy of a letter I received today from former Morton Grove Mayor Robert Schreiber, who now resides in Mountain Home, Arkansas.

Bob was Mayor of Morton Grove from 1961-69 and, as his letter indicates, still takes an avid interest in what is happening in our Village.

Sincerely,  
Richard T. Flickinger  
Mayor, Village of Morton Grove

(Mountain Home  
2/19/80)

"Dear Mayor Flickinger:

I have been reading with interest the excerpts from your local papers regarding the tax controversy in the village. While taxes are and always have been a major concern for all citizens, services, too, must be the pivotal consideration before a vote on the proposition. During my tenure, we tried to give consideration to the requests made by the citizens, for the improvement of public services, always, with the admonition, that we could provide them if we were willing to pay for them. I still maintain, whatever anyone received for nothing usually turned out to be

worth NOTHING.

I am fully aware of the benefits of Home Rule. This is the means of cutting the red tape formerly imposed by County, State and Federal agencies whenever improvement projects were considered. As a taxpayer, I too, feel the crunch of increasing taxation. I believe government at all levels should be trying to curtail expenses in the areas least harmful to the public welfare. I would hope that the village administration is making a candid study of the controversy and provides the information to the citizens of what may be involved if home rule is abolished. The good common sense of the public generally has always been the best advice to government at all levels. So, citizen groups, evaluating the pros and cons of the issues have always been the best judges.

Please extend my best wishes to any of my old friends you may encounter. I still have a great interest in the Village of Morton Grove, which I was honored to serve.

Sincerely,

Bob Schreiber

P.S. I appreciate any news from the village so please let me hear from you more often."

## M-NASR offer wheelchair sports

The Maine-Niles Association of Special Recreation offers a great deal of exciting programs to children and adults with physical or mental limitations. One such program is Wheelchair sports for physically limited teenagers.

The emphasis of this program is to adapt athletic activities such as volleyball, basketball, track and field events, and softball, to the strength, speed and agility of the participants. Adaptive equipment, including a batting T, nerf balls and balloons, are utilized. Although the nature of the games may be competitive, enjoyment is stressed above competition. An on-looker to a wheelchair sports session would find a high level of enthusiasm and excitement generated by accomplishment of challenging, yet achievable, goals. For more information on this and other programs, call 966-5222.

M-NASR is a cooperative of the Skokie, Des Plaines, Park Ridge, Morton Grove, Niles, and Golf-Maine Park Districts, and the Lincolnwood Recreation Board.

## St. Anselm's Lenten observances

A special series of Tuesday night programs will highlight Lenten observances at St. Anselm's Episcopal church, 1600 N. Greenwood, Park Ridge.

Entitled "Discovery and Growth Through Spiritual Gifts," the programs will start 7:30 p.m. Feb. 26 and continue until March 25. A communion and potluck supper will precede the programs at 6:30 p.m.

Half way through the series, on March 11, there will be a special program. The Unity Puppet Theater will share its Christian ministry in a special musical production of "The Shoemaker's Dream."

The show is based on a story by Tolstoy and one person's discovery of the reality that "Where Love is, God is." Only during this program will a free will offering be taken.

The Discovery and Growth series will explore the Biblical basis for the notion that each person is created for fulfillment through specific spiritual gifts given by God.

Participants should bring a Bible, one they are willing to make notes in.

The March 18 program will offer an opportunity for each participant to discover his or her particular spiritual gifts. And on March 25 discoveries will be shared and a discussion held on the church as a community of spiritual gifts.

Other Lenten opportunities for spiritual growth at St. Anselm's include:

Weekly evensong and eucharist—7 p.m. Wednesdays. Weekly healing service—7 p.m. Thursdays.

Weekly stations of the cross—7 p.m. Fridays.

Sunday services are held at 8 a.m., 10 a.m. and 1 p.m. The Sunday morning Bible Study group meets at 9 a.m. and church school is offered during the 10 a.m. service.

"The prayer book of the American church suggests the observance of Lent 'by self-examination and repentance; by prayer, fasting, and self-denial; and by reading and meditating on God's holy work,'" said the Rev. William McCarthy, St. Anselm's vicar.

Seeking to provide such opportunities St. Anselm's is offering a variety of study and growth programs as well as a suggested "Common Rule" for Lent, 1980, he said.

"As with all St. Anselm activities the door is open to all who might wish to share in the programs of this Christ centered community," he concluded.

The "Common Rule for Lent" is available by writing St. Anselm's, 1600 N. Greenwood, Park Ridge, 60068.

## JCC Purim Carnival

Celebrate a joyous Purim at "The Carnival of Colors" on Sunday, March 2, 1980 from noon to 4 p.m. at Mayer Kaplan Jewish Community Center, 5050 W. Church, Skokie. Admission is free for members, relatives, friends. So come one, come all. Call 675-2200 for info.

There will be two cultural shows, at noon and 3 p.m., featuring ballet, singing, drama, a costume parade of colors at 12:30 p.m., with prizes for the most original costume, and fun-filled carnival booths of chance and skill. Tickets for cultural shows and carnival booths are 6 for \$1.

Children and adults will enjoy roving musicians, spin painting, bingo, electric bumper cars, a copper enameling booth, and a Moon Walk. There will be prizes. Come for lunch and purchase hot dogs, chips, pop, taffy apples, popcorn, cotton candy. Traditional "Hamantaschen" will also be available.

According to Dr. Irving Greenberg, director of the National Jewish Resource Center, New York, "Purim is at once the frothiest Jewish holiday—full of clowning and carnival and masquerades, and the darkest—the story of a people on the brink of destruction and despair who experience a dizzying happy reversal of fate." The Purim story is told in the biblical "Megillot Esther" or Book of Esther. It is set in the Persian empire, sometime after the destruction of the First Temple had brought thousands of Jews to Shushan, the capital of Persia. One moment the Jews are fully accepted citizens of Persia and the next moment a new Prime Minister, Haman, sentences them all to death. Through the intervention of Esther and Mordecai, a people is saved.

Special holiday customs include reading of the Megillah of Esther, Shaloch Manot—the sending of fruit and candy to friends and to the poor, eating of Hamantaschen—cakes shaped like Haman's hat.

## Niles Township to offer honors Hebrew courses

Next September, Niles North and Niles West High School students will be able to take honors courses in the Hebrew language.

The Hebrew Language and Culture program at the District 219 High Schools was first introduced into the curriculum nine years ago. Since then, the Hebrew Language and Culture program has grown and established itself as one of the attractive elective courses. At the present time, four different levels of Hebrew are available. Next year, the new honor levels for second, third, and fourth year (Hebrew 31-41, 51-61, 71-81) will add an exciting dimension for the students in the program.

"A student does not need any previous knowledge in Hebrew to take the Nilihi course," said Hoffman, "The beginners' class of Hebrew (Hebrew 1-2) starts from 'Alef Bet' and includes not only the basics of reading, writing and

grammar, but also a strong emphasis on conversational Hebrew and specific areas of study, such as buying in a store, eating in a restaurant, or asking directions."

In the higher levels, students read and discuss modern classical and Biblical literature, Israel newspapers and current events. During the school year, students go on field trips, hear speakers, see movies, learn new Israeli songs, and participate in many activities relating to their Hebrew studies.

The 7:30 p.m. Wednesday worship services each week will be followed by a group discussion with the evening's speaker. Both worship and discussion are open to the public.

# Short & Long Term MONEY MARKET CERTIFICATES

## 2-1/2 YEAR T-CERTIFICATE

Cook County Federal Savings offers a new 2 1/2 Year T-Certificate, replacing the 4-Year T-Certificate. It's a shorter term investment, so your money doesn't have to be tied up forever! It's the perfect investment for the saver who is looking for high return on his dollar but does not have \$10,000 to invest in the 6-Month T-Certificates. This new Certificate pays off in 2 1/2 years, with a minimum deposit of \$1,000. The rate paid is based upon the average of the 2 1/2 Year Treasury Index (less 1/2%), and is determined three (3) business days prior to the beginning of each month. And, of course, this is 1/4% higher than any bank is permitted to pay! The rate is compounded daily, resulting in a much higher yield for you. As a result of this daily compounding, you can actually earn more than the rate paid on 2 1/2 Year Treasury Funds. The rate will change each month, but once issued holds for the 2 1/2 Year term of your Certificate. Now is the time to "lock-up" these record high yields!!! As with all Certificates, there is a substantial penalty for early withdrawal. Call 761-2700 for further information.

This month our 2 1/2 Year T-Certificate pays you the highest rate allowed by law.

### Women's Lib: Competition and Marriage

You say you favor "the good old competitive spirit". And I say, "O.K. in sports, but usually not in marriage." And even in sports there is the expression "it's not who wins the game, but how you play it that really counts."

This expression particularly applies to the marital relationship. When a husband or wife puts the spouse in a competitive relationship, neither one actually wins.

Do you find yourself in arguments often? Who wins most of the time? You might reply, "I do because I am right and he or she knows it." You boast this to yourself, but you know your spouse gets even in different ways.

She cuts you off sexually, knowing that it really hurts you. A husband may respond by becoming less involved with his wife, and thus not meet her emotional needs. Who really wins in such a competitive relationship? Both lose and the marital relationship greatly suffers. Competition in marriage usually creates problems and general disharmony. A couple may start with one basic area of competition, but soon the "spirit of competition" has carried over into many other areas.

A couple in marital counseling discovered one of the causes of their marital conflict was their competition. They competed with each other and with a married brother and sister, as well as married friends.

This couple realized their competitive spirit when it became apparent in their sexual relationship. She felt robbed because her sexual needs were not being met so she cut her husband off sexually. When that didn't work she became the aggressor. Neither way worked because that made her husband more determined to put her down, even to the point of hitting her.

Wives, remember your husband's ego usually cannot stand to be threatened by withdrawal or by aggression. This may be the age of women's lib, but beware winning a battle and losing your husband.

You never help yourself by downing your husband or cutting him off. Neither should you hang on and suffocate him, nor call the shots and wear the pants in the family. The male ego finds it difficult to cope with any of these. They usually become a form of competition.

Women might say, "My husband drove me to it. I wanted him to wear the pants, to be the aggressor, and to look to him for strength and support, but he let me down too many times."

That may be the case and be the primary cause for you to join women's liberation. However, by becoming so competitive and in a sense taking over, are you more happy and contented? Write me and let me know.

I can understand women who want to take over and run things, especially if their husbands have let them down. To do so, you must weigh the cost. Are you prepared to sacrifice your marriage if it comes to that?

Rather, try to build your husband's ego, support him, reassure him, endorse him - make him feel he is 10 feet tall and the only man for you. Watch how much of a lion he can become.

Men, you have only yourselves to blame for women who have become so competitive. It is time to stop passing the buck and try to overcome some of your weaknesses. That means first acknowledge your hangups and then try to do something about them. Don't think you are keeping them from your wife. She can usually see right through that superficial facade. She will admire you for your courage in facing your inadequacies.

In fact, she will usually lend much patience and support to your struggle instead of downing you. Otherwise she will probably crucify you and try to take over.

In conclusion, marital partners who truly give and receive from one another, who try to help and reassure one another, go a lot further in finding harmony and happiness together than those who spend most of their time competing with one another. What do you do in your marriage? Write and let me know at Niles Family Service, 8060 Oakton st., Niles, IL 60648, or call 692-3396. Remember, it is not who wins in marriage that counts, but how you both work together that really counts.

## Astronaut Irwin speaks at Notre Dame

In a question and answer session with students at Notre Dame, Irwin described how Soviet cosmonauts had returned to earth claiming they had not seen God. And how he heard of a young Swedish girl who wrote to them and asked, "Are you right in your heart?" Irwin also explained that no man can come back from an experience such as a Moon voyage "unchanged."  
Plans for the space program in the future, Irwin said, should include the Space Shuttle, which will be shuttling astronauts into space every two weeks, he said and perhaps a voyage to Mars. In any event, his inscription on the plaque presented to Notre Dame expressed it all. Man must first solve his problems on earth before his ventures into the beyond.  
"God walking on earth is more important than man walking on the moon."  
So inscribed Astronaut James Irwin, Apollo 15 astronaut on a plaque presented to Notre Dame High School, Niles on Feb. 8.

Colonel James B. Irwin came to speak to Notre Dame students about his explorations and on a mission of faith. He spoke of his many disappointments, when he suffered drastic injuries in an airplane crash early in his career as a pilot, when he waited for admission in to the Apollo program for five long years, and of his recent by-pass surgery and heart problems.

Irwin was astronaut on the Apollo 15 mission to the Moon (July 26, August 7, 1971). He was on the Mission to first use the Lunar Rover (dune buggy) on the Moon. It was also on the Apollo 15 mission that the oldest moon sample, the Genesis Rock, dated to 4.15 billion years old, was collected.

Irwin gave an in-person narration of a film about his Apollo Mission from take-off to splash-down. He described the travels on the Lunar and the moment he spied the Apennine Mountains and became the first man on the moon to quote from the Scriptures. Psalm 121:1: "I will lift up mine eyes to the hills from whence cometh my help."

## Flynn charges Mikva funds given to Weinberger campaign

Thomas Flynn, Democratic Candidate for Congress, today said that money from the Mikva Termination Committee had secretly been given to Democratic Organizations in behalf of Robert Weinberger's campaign. Flynn said the money was supposed to be used in support of Weinberger. He also called for an explanation by Jack Marco who is both the Termination Committee Chairman and a Consultant to Weinberger. Flynn said, I have been informed that a \$2,500 check was given to Nick Blaise's Organization for use in supporting Weinberger. That Cal Sutker's Democratic Organization was also given a check for the same purpose. Additionally, that Jack Marco sent other Termination Committee money directly to Weinberger's campaign.

## Kennedy supporters denounce draft registration

The Tenth Congressional District slate of Kennedy delegate and alternate delegate candidates today announced their opposition to President Jimmy Carter's proposed resumption of draft registration. Veda Kauffman of the Village of Niles and representing the slate said: "The United States is in a perilous time and steadiness at the helm is required. Instead of requiring our 19 and 20 year olds to register for the draft we ought to be working to make the all-volunteer force an effective instrument for protecting America's interests. Registration for a draft should be implemented only when a clear and present danger to the demonstrated vital interests of the United States are threatened or when our territorial integrity has been violated. As a practical matter, it has been estimated that draft registration would give the Federal government an advantage of only 13 days in calling up youths for military service.

## Kustra endorsed by Niles-Northfield

Bob Kustra has received the final two township endorsements of his candidacy for the Republican nomination to the House of Representatives from the 4th District. The Regular Republican Organizations of both Niles and Northfield Townships met last Thursday and endorsed Kustra along with incumbent State Rep. Penny Pullen. Kustra had previously received the endorsement of the Maine Township Regular Republican Organization, which represents more than half of the Fourth Legislative District. Kustra said that these last two endorsements were very important to his campaign, because they indicated the support he has gained throughout the district. Niles Township represents the southeastern part of the district in the towns of Skokie, Niles and Morton Grove. Northfield Township, although representing only two 4th District precincts, was important, Kustra said, because it represents his home town of Glenview.

## "Lies and half-truths" in pro-home rule circular

Dear Sir:

I have just read the Morton Grove pro-home rule circular mailed to my home and can't believe anyone would put all those lies and half-truths in print and expect people to believe them. Their grasp of the facts is very faulty and is creating the confusion and is a disservice to our taxpayers.

From the beginning of my effort to defeat home rule I have tried very hard to clearly explain that the primary reason for my opposition is the reckless spending attitude which prevails in village hall today. A 75% village tax rate increase in just 2 years is unthinkable, especially when surrounding towns, like Skokie, Niles and Glenview, have increased their spending only 12-15%, with nominal increases in their tax rates.

Why did they raise the tax rate 75% this year? It can't all be blamed on inflation. That's a coverup. This increase will yield \$900,000, in just one year, of the \$1.1 million they claim will be lost if home rule is defeated. Why? Is it because they spent \$519,000 more than they received in revenue these last 2 years? These are facts. I believe they have lost total control of the budget thru mismanagement.

The \$1.1 million claimed loss shown in their circular implies all services would be drastically cut because they are funded by the corporate tax rate only. That's hogwash. The corporate rate is only \$0.41 of the \$1.29 village rate. How can all the village departments, except water, be financed by only the \$0.41 rate? You have to be very naive to believe this bit of rhetoric. Scare tactics will not work. The public is too intelligent for that.

Again, I charge the present administration with fiscal

recklessness and irresponsibility. Defeating home rule is the only way we have left to return financial control and responsibility to Morton Grove. Let's get the referendum process started here (just like the schools and parks), after defeating home rule, so all the taxpayers will have a say in how our village taxes are spent.

Sincerely,  
John Hilkin  
M.G. Tax Limitation  
Committee

## Supports Carter stand on draft

Dear Editor:

I would like to take this opportunity to congratulate President Carter for his bold stand in support of draft registration. In a time like this where many candidates are afraid to take stands on difficult issues, it is rare to find someone who has the courage to step forward and make his position known.

I also feel that draft registration is today a real necessity if we are going to keep our country strong and demonstrate that we will not relinquish our position in the world. The Soviet Union has the largest and most powerful land army in the world. They have proven their willingness to invade neutral countries. They are now threatening the international supply of oil from the Persian Gulf countries. The United States must take a firm stand now before it is too late.

I support the draft registration proposal of President Carter as one of the deterrents he has proposed to offset the Soviet threat to American interests.

Sincerely,  
Patton L. Feichter  
Candidate for Carter Delegate

## Flynn cites unfair COPE practices

Dear Editor:  
The purpose of the AFL-CIO's Committee on Political Education is to educate union members about candidates for Office. COPE's procedures are regulated by the Federal Code.

I was personally informed by Peter Pesole, Niles Trustee and COPE official, that the 10th District COPE would hold an endorsement session for Messrs. Flynn, Hartmann and Weinberger. COPE would then and only then endorse one of us for Congress.

Mr. Pesole never held any such endorsement session. Mr. Pesole cannot possibly inform union members about the Congressional candidates in the 10th District. Mr. Pesole does not want to inform union members about Hartmann and Flynn. In fact, Mr. Pesole and his COPE colleagues met secretly and endorsed Mr. Weinberger without giving any consideration to Hartmann and Flynn.

I have been a member of Local 1600 AFT (AFL-CIO) for 14 years. I pay dues for Mr. Pesole to enjoy free meals, free transportation and to use a union car. I resent this parasite endorsing a man who has used non-union campaign literature and was a Lawyer for the notorious anti-union US Department of Commerce. I can only hope that union members will recognize how they were cheated out of information on Hartmann and Flynn. I hope they vote for Flynn or Hartmann and tell Mr. Pesole where he can go with his secret endorsements.

Respectfully,  
Thomas W. Flynn  
Democratic Candidate for Congress, 10th District

## Congratulates Caucus endorsed candidates

Dear Editor:  
Although this letter will be published after the District 64 Caucus meets and elects its candidates for endorsement to the District 64 and 207 school boards, it is being written a week earlier.

So I congratulate, without knowing who they are, the nominees who were successful in their pursuit of these positions.

More important, I want to thank all who ran for office, and those who were instrumental in finding them. I know that Mr. Chandler, caucus chairman, joins me in thanking you for getting involved and in coming forward.

Keep up that interest. We need your dedication.  
Sincerely yours,

## Expresses thanks to community in organizing a citizens' advisory committee

Dear Editor:

As members of the Board of Education in Maine Township High School District 207, we wish to express our sincere thanks to everyone in the community who helped us in our organizing a citizens' advisory committee to assist with long range planning for the high school district. The response was overwhelming. It certainly demonstrates that community interest in its schools is a significant characteristic of the quality of life in Maine Township. It is truly regrettable that a significant number of very capable nominees could be not selected for appointment to the committees.

We appreciate the efforts made by everyone who was requested to nominate representatives to the committee. More than 200 letters were sent to officials of school districts, churches, synagogues, and civic and governmental organizations, seeking their assistance.

Just as important was the assistance which we received from the local newspapers that reported our efforts in establishing the committee.

## Defends "involved" females

Dear Editor:  
Everyone is jumping on the so called "Band Wagon" to get their two cents in and I guess that I, too, have to join the club.

I have never written to the editor before but at this time I feel that the time has come to defend and desist in regards to the alleged comments that Nicholas Blase has been capricious enough to make. You have to realize that there are many people who are just waiting to pounce on innocent innocents. What ever happened to our ability to laugh at ourselves? We don't have to rush to defend ourselves! We know what we are and who we are!

I have been a member of the Maine Township Regular Democratic Organization for the past 16 years. I have made phone calls, stuffed letters and passed out literature. I have made many friends during the years, friends that I can call on in any given day. I have had the privilege of working with many of the ladies and feel that we have a great organization because of all of our combined efforts.

I guess that what I want to say is that if being involved, busy and caring is fooling around, then I guess that I do indeed belong to that group. But, if you look around, the women that are involved do so with their husband's blessings.

Remember, Ladies, if we do like the Mona Lisa - Smile - we can drive them all out of their minds.

## Questions makeup of District 207 advisory committee

Dr. Editor:

Recently 7 citizens' advisory committees were chosen by the Maine Township High School Board-District 207. The following is a letter to the Superintendent of District 207 concerning the make-up of those committees.

Sincerely,  
Larry Gomborg, President  
Dee Road Town Home Assoc.

"Dear Dr. Short:

I am one of the many people who applied for, but did not receive, a position on any of the seven citizens' advisory committees formed in order to deal with the problems of declining enrollment in District 207. As much as this outcome was disappointing, I was not totally unprepared for it. In fact, a couple of weeks ago, I publicly expressed my concern that in picking committee members the Board would give excess con-

sideration to citizens of certain areas of the school district at the expense of citizens from 'low status' areas such as the unincorporated part of Maine Township. I am sorry to say that my fears in this matter have been confirmed.

"The unincorporated areas of Maine Township contain between 20 and 30 thousand residents. Most of these people pay taxes to support the school district. I would certainly expect this population to be adequately represented on the various citizens' committees. However, the school board's committee selections leave the unincorporated areas underrepresented in relation to their population. I must admit that this could easily be construed by my community as 'foul play', and it would easily be assumed that less than objective criteria were used here.

"As President of the Dee Road Town Home Association and as speaker for a community group of over 50 town homes, I am asking you today for an explanation as to why the above situation exists. Could you have possibly underestimated the number of students who live in the unincorporated Maine Township and attend district schools? Could you have underestimated the taxing population of these areas? Should the assessed valuation in the unincorporated region provide me with a clue as to your selection criteria? These are very important questions. The answers are crucial to the school board's reputation in the eyes of many citizens. These questions are certainly worthy of being answered, and I would greatly appreciate a reply in this matter.

Sincerely,  
Larry Gomborg, President  
Dee Road Town Home Assoc.

## Niles North presents "Project Energy"

Niles North High School students and faculty members will present a series of demonstrations and activities on Wednesday, March 5 under the umbrella title "Project Energy." Eleven special exhibitions, lectures, and films will be offered continuously in the student lounge between 8 and 11:15 a.m. for the benefit of students, children from elementary and middle schools and the public.

"We want to make students aware of the tremendous need for energy conservation as well as the variety of means available from car pools to solar collectors," says Mark Kasman, President of the Niles North Student Congress.

Ms. Lillian Mann, Niles North Special Projects Coordinator, has arranged for speakers from the engineering firm of Sargent and Lundy, the Department of Energy, the Northern Illinois Gas Company, the Illinois Institute of Nature Resources, Energy Resources Limited, and the Hawkweed Group. The U.S. Navy

will sponsor a walk-through van showing how the Navy conserves energy, and a student folk group will provide entertainment.

Ray Carrel, an industrial arts teacher, and his students will demonstrate a solar panel which they have constructed as well as a plastic bubble that can be inflated by the sun. Tim Phillip, an Evanston Township High School Teacher, will describe a solar greenhouse constructed last summer at the Evanston Ecology Center by a group of summer school students.

In addition to lectures and demonstrations brought in from outside the school, Niles North students will have an opportunity to compete in contests seeking the best student idea for conserving energy.

A Certificate of Merit was awarded to Kannin in recognition as one of about 14,000 academically talented Finalists. Since its beginning in 1955, the focus of the National Merit Scholarships has been clearly defined to those at the uppermost end of the academic scale. The Merit program is privately funded and receives no federal or state grants; it is the only major scholarship competition that is both independently supported and national in dimension.

## Nilehi information center

A District 219 Rumor and Information Center has been established by the Niles Township High School's public information staff. Parents and other community members who have questions or concerns pertaining to Niles North, Niles West, or Niles East high schools are invited to call 966-3800, ext. 1220.

A member of the public information staff will answer the questions immediately or return the calls when the correct responses have been located. "We believe," says Jill Niemoth of the Public Information staff, "that an information center will be a tremendous help in communicating with District 219's publics. Often rumors are circulated which can cause a great deal of misunderstanding and unhappiness before the truth is discovered. We hope the Niles Township communities will utilize the Rumor and Information Center whenever the need arises and we promise quick and honest responses."

District 219 high schools serve students residing in Niles, Morton Grove, Golf, Skokie, Glenview, and Lincolnwood.

## District 67 Caucus Endorsements

The District 67 School Board Caucus convened Feb. 20 to consider the candidates for the upcoming school board election. Four candidates were interviewed for the three seats becoming available in April. Mr. Theodore Lucas, Mr. Edward Duglow (both incumbent board members) and Mr. Lee Finkel were selected for endorsement; Mrs. Karen Rowell was not. All candidates, however, were of high calibre and sound motivation. Their willingness to come before the Caucus was greatly appreciated. The actual deliberations of the Caucus are and will remain strictly confidential.

Candidates for the school board must file their petitions with the District 67 office no earlier than Feb. 27 nor later than March 21. March 25 is the last date for withdrawal from the race. Elections are to be held on April 12. Needless to say, the caucus sincerely encourages all the citizens of the district to register their vote.

At the last Caucus meeting, officers were elected for the next Caucus term. They are: Robert Mishkin, Chairman; Larry Weinberger, Vice-Chairman; and Sandi Collender, Secretary. On the basis of the new Consolidated Election Law, the next school board elections will be delayed until November, 1981. Consequently, the Caucus will plan to

reconvene in executive session March 4, 1981 at which time the Caucus schedule will be restructured.

Finally, the Caucus extends its gratitude to its outgoing officers, and especially to Mr. Ronald Parkas, its chairman.

## OCC Starving Artists' Fair

Artists and craftsmen interested in participating in the 7th Annual Starving Artists Arts and Crafts Fair at Oakton Community College are invited to apply now for space.

The event is again scheduled for Memorial Day weekend, May 24 and 25 from 11 a.m. to 5 p.m. It will be held outdoors at the Oakton Interim campus, Oakton and Nagle, Morton Grove.

All items at the Starving Artists' Fair are priced at \$35 or below. The only exception is for framed pieces, which may have the frame priced separately if the artist is willing to remove and sell the artwork alone. The fair will have a special area devoted to art sales for children only where prices may not exceed \$3 per piece.

Jay Wollin, art fair chairman, says he is expecting excellent attendance at this year's fair. Attendance at recent fairs has been as high as 15,000 people.

Because the fair traditionally receives more applicants than it can accommodate, each artist is

asked to submit three slides of his work by April 7. The slides will be judged by a committee of professional artists and craftsmen who are changed each year. About 30 openings will be available this year and more than 200 applicants are expected. Applicants will be notified of the decision of the jury.

The fee for exhibiting work is \$15 for residents of the Oakton Community College district; \$25 for non-residents. This fee is payable upon notice of acceptance.

For information and an application form, write to Jay C. Wollin, art fair chairman, Oakton Community College, 6005 N. Nagle, Morton Grove, 60053.

## ED HANSON

### Swan song?

Perhaps. What I say to YOU, I believe is of timely importance. Probably, I won't be around long enough to experience it. But, then again, maybe YOU won't be either. I could be wrong. Posterity will decide. And, when the final history of Western Civilization is written - if there is anyone around to write it - then, and only then, hopefully, YOU or despairingly the future historians may uncover the truth.

What truth? A simple one. What has been slowly sapping and sucking the vitality of this formerly strong country to a slow insidious way, barely discernable, is the gradual loss of the character of its people, in low, middle and high places. And character was the bedrock upon which this country was initially founded.

My mama, from the time I was a little boy, constantly said to me, on every occasion that warranted it: "Eddie, always be a man! But, most important, always be a man of character. Do the best you can, the very best you know how and whatever you acquire in the way of material wealth will never equal the most priceless possession of all. And that, my son, is to always be a man of character."

"But, mama, what is character?" I would ask (for at my tender age the word "character" I could not comprehend).

And, with the patience of Job, my mother would explain again and again: "Character is what a person is at heart. Reputation is what people think they are."

As time went by, and I grew older and a wee bit wiser, I asked her, "Is it possible for a man to have a good reputation without possessing good character?"

"Indeed, son. History is full of such men. Men who possessed good reputations but actually had basically bad characters. And so, too, is the reverse - men who have had reputations but actually possessed good characters."

"But, mama, how do I find out which ones?"

"In order to separate the myth from the man or the man from the myth, you must educate your mind to think for yourself. You must analyze the motives, and goals, involved. In order to do this you must become educated, and above all you must read many classics of literature, history and the writings of the great minds of the world - including the Bible."

"But I do read, mama."

"To read is one thing but to understand what you read is another. You must know the meaning of words. Always read with a dictionary beside you. Every time you come across a word you do not understand, you must look it up to find its meaning. At the same time this will also tell you how to spell and properly pronounce the word."

"Gee, it seems like a lot of work."

"Not really, son. You can make a game out of it and in time, as your mind develops like you work to develop your muscles, you will discover the wonderful world of words."

"For in the beginning there was The Word..."

THIS IS AN ELECTION YEAR! After reading and listening to ALL the candidates of both the Republican and Democratic parties. I've come to this conclusion:

I've heard it all before for more than sixty years. The "Glittering Generalities", i.e., "America is the greatest country upon the earth. I believe in the American people. They have the vitality, the personal initiative in the private sector, to have abundant prosperity with peace, under our Constitution, so that every person, who is created equal, has the right to life, liberty and the pursuit of happiness."

"Let's get America working again... let's get the train back on the track and solve this inflation problem once and for all."

"Prosperity is just around the corner. I want to see two chickens in every pot and two cars in every garage."

"Let's not ask what's wrong with America; rather, let's ask what's right with America."

"I want to make this perfectly clear..."

"Ask not what your country can do for you; rather, ask what you can do for your country." (John F. Kennedy borrowed that very phrase from the writings of Warren G. Harding, who was involved in the Tea Pot Dome Scandal. But both men did have something in common, though one was a Democrat, and the other a Republican - they both enjoyed chasing beautiful young ladies or "fooling around".)

Roger Babson, the leading economist of the 20's, wrote a long, glowing dissertation in the then popular Literary Digest, saying that we had another ten years of continued prosperity, the like of which this country had never before experienced. (Two weeks later on Oct. 29, 1929, the stock market "busted" and we went into a decade of the worst depression this country ever experienced.)

John F. Kennedy's father was a bootlegger. (Bootlegging is a bigger biz today than in Al Capone's day.)

Franklin Delano Roosevelt's grandfather was an opium smuggler.

Mayor Daley said on the steps of the City Hall, (belch) "What

syndicate? (belch) I ain't never heard of no syndicate in Chicago." (belch)...

"I am in favor of wage and price controls." They have never worked in the past and there is no reason to assume they'll work in the future."...

"Speak softly and carry a big stick." (Teddy Roosevelt)

"Speak softly and carry a swizzle stick." (Jimmy Carter)

"I can solve inflation. I'll do it with love." (smile)

And so on and on to ad-nausea...

As is self evident, I listened to my mother's advice about education and the wonderful world of words but by the time I became twenty-one, something happened.

I, like Jack London's illiterate fictional hero in his book Martin Eden became so intelligent that I knew everything.

Yes, at twenty-one I knew all about everything and I gradually stopped taking my mother's advice because I was so brilliant. Aren't most twenty-one year olds?

And as the years went by, my mother's hopes that I would someday become President began to fade, as the bloom from her cheeks slowly faded.

After all, doesn't every mother feel when her son is born, he could possibly grow up to be President of the United States. This hope is stronger in mothers whose sons are an only child as was my case.

But my intellect did continue to improve as the years rolled on just as my character, while the character of the many people of this country, declined. It became somewhat decadent and devilish.

For intellect and character are not necessarily companions - one can exist without the other. But together they can defeat the unbeatable foe.

Anyway, I never even made alderman. Maybe it's a good thing I didn't make alderman in Chicago for then there would have been no hope for me at all. And the Devil would have certainly danced an Irish jig.

So, I never amounted to much, for you can see where I wound up. But now I'm taking character building lessons again. I'm even going back to attending church.

I'm going to do a right-about-face; I'm going to make a lot of changes.

For I'm going to run for President of the United States. I'm eligible. For right from the Constitution of the United States it says: "No person except a natural born citizen, or a citizen of the United States at the time of the adoption of this Constitution, shall be eligible to the office of President; neither shall any person be eligible to that office, not have attained to the age of thirty-five and been fourteen years a resident within the United States."

I'm throwing my Borsalino hat in the ring. The white one I bought from Joe Jed of Go-To-Blazes tavern.

Maybe I'll make Jane Byrne my running mate when I'm elected. Or maybe Barbara Walters. Or perhaps Mrs. Peel... yummy, yummy, mummy!

(Next week... my platform and why I'll WIN!)

P.S. NO MORE OF THOSE COLUMNS OF MINE CAN BE TURNED INTO BRISK AUTOMOTIVE SUPPLY FOR A DOLLAR'S WORTH OF FREE GAS AND THAT'S AN ORDER! WE GOTTA CONSERVE ENERGY.

and then directed to the Village Board. Feichter also warned board members concerning a recently zoned area for a small shopping center at 8621 Ballard. The property, across the street from Gemini school, was rezoned with board input regarding traffic problems. Feichter said the back half of the property may be considered for utilization. Stetina said board members were told nothing was planned for the back half of the property.

Members of Nathanson school student council attended the board meeting and took turns sitting with board members at the table. School principal is Stewart Liechli.

Fifteen of the 21 board members who were able to attend were Edie Olson, president, Nichole Robinson, vice president, Julie Muench, secretary, and Lowell Mora, treasurer.

Also attending were Michelle Hamner, Michelle Labow, Steven Fletcher, Jose Ramirez, Mark Neirick, Scott Aronopolin, Kozuko Hiroamatsu, Kim Anderson, Risa Robenthal and Mitchell Pravia.

In introducing the youngsters, Richard Smith, board chairman, said, "You're really our bosses. We're here to help you."

A direction of the board was that a referendum be scheduled for Fall. Board members did not think sufficient time would be available to educate the electorate and prepare fiscal material for the coming election.

James Bowen, business manager, presented a revised version of the five-year plan for declining student enrollment. Items taken into consideration included fewer number of both students and teachers, a replacement tax of \$246,000 in lieu of the abolished personal property tax, state aid per pupil and proposed legislation. Bowen said the district could expect a deficit of almost \$1,500,000 by June, 1981.

Stetina said economies would be presented to board members before the budgeting process "with recommendations, pros and cons and possible savings."

Board members approved an application for a grant to maintain a teacher learning center in Wilson school. The application is for \$340,000 over a four-year period.

"Parking" signs on Dempster st., just west of Milwaukee ave. in front of the 3-flat buildings on the north side of the street. Lighting was also requested for the rear of the apartment area. The consensus of opinion among board members was that the removal of the "No Parking" signs to allow additional parking in front of the building would create a traffic hazard for autos merging into the Dempster st. traffic and would also be a detriment to the snow removal crews in the wintertime. Insofar as the lighting was concerned, it was noted that the village does not light alleys and therefore should not be liable for lighting the rear areas of these apartment buildings.

Board okayed an ordinance for "No Parking" from 9 a.m. to 6 p.m. Monday thru Saturday on the west side of Odell ave. from Mulford st. north approximately 300 feet and on the east side of Odell ave. from Mulford st. north approximately 30 feet.

**Lutheran General invites public to tour new facilities**

The public is invited to tour the new surgical area and food service facilities of Lutheran General Hospital, Park Ridge, from 11 a.m. to 3 p.m., Sunday, March 9.

The tour of the new addition will begin in the new surgical area located off the east-west service corridor of the hospital's main floor. The tour will conclude in the food service area that is located on the ground floor.

A "pre-surgery program" will be presented to children by Linda Bieschke, pediatric child-life coordinator and "Nutribird," the Sesame Street-like character will have good nutrition tips for children.

Included in the Surgery tour will be displays tracing step-by-step the process of making a surgical instrument.

The 25,588 square foot surgical facilities are designed to most efficiently accommodate more than 8000 surgeries performed each year at Lutheran General. The surgical staff includes 86 surgeons, 37 gynecologists, 12 anesthesiologists and 112 nurses and other operating room personnel.

The 20-bed, approximate 2500 square foot recovery room is designed for the convenient movement of beds and the close nurse observation. A new feature for the recovery room is a one-bed private room for patients requiring special attention or isolation. There are four additional beds that may be used in the future for extended care.

Lutheran General's Food Service Department, which previously was on the hospital's main floor, has relocated to new quarters on the ground floor of the new addition. Part of their old quarters are being converted to an area where patients can wait with their families before surgery and a comfortable family waiting room.

Persons touring the new Food Service Department will get a

behind-the-scenes look into how patient trays are prepared and reach a patient's room.

## OOH, LA! LA! FAST FRENCH FOOD

French food needn't take hours of preparation - not with this delicious recipe for Turkey Champignons. Created with the American working wife in mind, it makes clever use of modern convenience foods and the newest kitchen appliances. The result is a molded entrée of continental elegance created in record time. Cooked turkey and rice are combined with vegetables, walnuts and a protein-rich cream sauce that's lower in calories than you'd expect from a French recipe - thanks to instant nonfat dry milk.

Use a blender to chop all vegetables (except mushrooms) in small portions; it will even grind the meat. Or, use a food processor to prepare all of the vegetables, including the mushrooms and the meat.

Bake in a regular oven about fifty minutes, or cut baking time in half with the aid of a microwave oven. Any way you bake it, Turkey Champignons is an entrée you'll be proud to serve. The cooking time is right, and the flavor is fantastically good!

**TURKEY CHAMPIGNONS**  
(Makes 6 1/2-cup mold and about 2 1/4 cups sauce)

1/2 cup butter  
1/3 cup flour  
1 teaspoon salt  
1/4 teaspoon pepper  
3 cups liquid Carnation instant nonfat milk  
2 slightly beaten eggs  
3 cups (about 1 cup raw) cooked rice

2 1/2 cups ground cooked turkey  
1 cup chopped celery  
1 cup chopped onion  
1/2 cup chopped pimientos  
1/2 cup coarsely chopped walnuts

1 1/2 cups (1/4 pound) sliced mushrooms  
1/4 cup dry sherry

Melt 1/3 cup butter in medium saucepan. Stir in flour, salt, and pepper. Gradually stir in liquid instant milk. Cook over medium heat, stirring constantly, until mixture comes to a boil and thickens. Gradually stir 1 1/2 cups sauce mixture into eggs. Reserve remaining sauce mixture. Combine egg-sauce mixture, rice, turkey, celery, onion, pimientos, and walnuts in large mixing bowl. Line bottom of buttered 6 1/2-cup ring mold with wax paper. Spoon turkey mixture into mold. Place mold in pan about 2 inches deep. Pour hot water around mold to 1-inch deep. Bake in moderate oven (375° F.) 50 minutes. Cool 10 minutes. Cook mushrooms in remaining butter and sherry; stir into reserved sauce. Heat to serving temperature. Loosen edges of mold. Invert mold onto platter. Serve with mushroom sauce.

**MICROWAVE OVEN:** Prepare recipe as above, except microwave molded turkey mixture at high speed 20 minutes. Rotate 1/4 turn every 5 minutes. Complete recipe as above.

## From the LEFT HAND

Continued from Page 1

After a couple of days of riding on tourist buses, I generally break away from the programming and head my own way. I found an outside cafe which gave me a front row seat while I watched a municipal policeman conduct traffic. As you've seen in movies, they "conduct" traffic similar to an impresario. Their white gloves give a flick and one path of cars move. With another flourish more cars move and turn. It's an entertainment in itself which engrossed 2 hours of my time.

I caught a double-decker bus, and rode around and around. When the conductor told me we were at the end of the line and it was time to get off, I motioned I was going around again and gave him lira for another ride. He just shook his head implying another crazy American was doing the absurd. But we hadn't been on a double-decker in many years and sitting in the front seat was a great way of seeing Rome.

Catching up on the local happenings in our area we note Niles raised its village real estate tax by 21.4% while Morton Grove increased hers by 57.7%. Skokie went up 5.3%, Park Ridge 30.4%, while Glenview went down by 11%.

Many suburbs raised their tax levies last fall. They were concerned a new tax on corporations might be ruled illegal. But when the lost revenue never took place, property taxes could have been rolled back or abated. Only Niles among local communities did not abate any monies. Morton Grove abated \$335,000, Glenview \$505,000, Park Ridge \$406,000 and Skokie \$840,275.

In local school matters Ann Sostrin, perennial candidate in School District 63, was the lone candidate to receive endorsement by the caucus for the April election. Incumbent Norman Padnos was the only other candidate to appear before the ersatz group, and he failed to receive their OK. Incumbent Mark Davis has not decided whether he'll run again. Davis was quoted as stating he may not run again to prevent any controversy by having a contested election. With all the havoc which has transpired there, plus its seeking a new superintendent, Davis contends less tension in District 63 might be best for the upcoming election.

There's an irony to all this. Sostrin has long sought a place on the school board. It's quite likely she'll finally gain a seat on the board. She will then be placed on center stage during perhaps the most difficult time in the district's history. She'll have to face the anger of parents who will be seeing their neighborhood schools closing. And she'll be in her seat when a money referendum must be passed, while facing ever-increasing budget deficits.

Over in School District 207, 140 people have been rounded up to serve on a wheel-spinning committee which will recommend the closing of Maine North High School. After joining together, forming committees, making studies, the group will try "to sell" the community on the closing of one of the Maine high schools.

It's all rather silly. It's good to be back!

## Jewish adolescent sexuality

The Bernard Horwich Center's Adult Services Department will sponsor a discussion analysis of the results of the National Study on Jewish Adolescent Sexuality. ## Stress study

"Stress: Friend or Foe?" will be presented at the Passages Through Life series sponsored by the Office of Community Outreach at Oakton Community College, 1 p.m. on Tuesday, March 4. Pat Rogers and Dan Mathien from Forest Hospital in Des Plaines will lead the discussion. This meeting will be held in Room 308, Building 3 on Oakton's interim campus, Oakton and Nagle, Morton Grove and is free and open to the public. For more information, contact Oakton's Office of Community Outreach, 967-5129, ext. 350.

## Police warn ...

Continued from Page 1

While the homeowner goes to get change, they observe where he keeps his money. When he returns with the change, one man will tell him they have to check his meter while they are there. This man then proceeds to the basement with the homeowner while the second one goes thru the house seeking out cash, jewelry and other valuables. After allowing his accomplice adequate time to go thru the house, the second man will come up from the basement and they leave.

Residents who have been involved in the scheme have given the same general descriptions of the con men telling police they resemble gypsies. According to Christie, several other north wind areas have been hit by the same group of gypsies working out of Chicago. He advises homeowners to ask for identification and if still in doubt, call the police department.

Also approved at the February 25 village board meeting were plans to remove the existing Dairy Queen on Dempster and construct a new building with seating for 60 and a drive-up window. The owners stated that if work was started immediately, the new facility could be operating in June, but that possibly work would be postponed until September, as they are approaching the busy Spring season.

A special use permit was granted for a U-Haul Rental company to open at 9009 N. Waukegan, in the vacated Dodge dealership. Trustees noted that there would be an additional revenue benefit from the vehicle registrations involved.

Village officials are looking into various aspects of the commuter parking lot. They will see if the number of handicapped spaces can be reduced from four to two, as only one car currently is legally parking there. The compact car signs may be removed, and an ordinance will be drawn up requiring parking between lines.

A contract for tree spraying has been awarded to the R.W. Hendrickson Co., with the low bid of \$1.97 per tree. The village, in a joint purchase program with the state, will be buying 4 Dodge Aspen squad cars at a cost of \$25,285.44.

Mayor Flickinger reminded residents there will be a ballot available on the home rule issue at the Tuesday, March 18 Illinois primary election. He explained citizens could vote on the home rule question, even if they did not wish to vote in the primary.

## Legion blood drive

Past commander Tad Kimura of the Morton Grove American Legion Post #134 has announced the group's semi annual blood drive is to take place Thursday, March 6. Legionnaires and their families will donate blood during the regular monthly village blood drive from 4:30-7:30 p.m. at the Molloy School.

Before the village began their blood assurance program, the local Legion had their own blood program which enabled Legionnaires and members of their families to be supplied with blood as needed through a volunteer donation program such as the village now conducts.
