## Bus Oak students to Nelson

by Eileen Hirschfeld

All students from Oak school scheduled to close in June will be bussed to Nelson school for safety reasons during the 1980-81 school year following recommendations by Acting Supt. Donald Stetina at a regularly scheduled District 63 board meeting May 13 in Apollo school.

Oak school is located at 7640 Main st. and Nelson is at 8901

Ozanam, both in Niles. Safety-bussing is to be renewed each year.

Parents of children in Oak had employed an intensive lobbying effort prior to Tuesday's meeting. Their concerns included Dempster's seven lanes of traffic, snow plied over the sidewalks in winter, the underpass at Washington and traffic congestion near Notre Dame high

school as well as the lack of streetlights at that point.

Preceding Stetina's announcement, Barbara Huff, president of the Oak Parent-Teacher Assn., asked, "What price has the board put on the life of a child?" Board chairman Richard Smith thanked parents for calling the board's attention to the problems.

reported to board members Tuesday evening the village expects the final draft from their Cable TV consultants, Malarkey, Taylor and Associates of Washington, D.C. next week. According to Panek, a meeting will then be set up with the consultants to discuss their recommendation and "we'll be on our way."

## Transformer fire cuts power to residents

by Diane Miller

A shorted transformer caused a pole fire in the high tension lines on Golf rd. just east of Milwaukee ave. early Tuesday morning. Several pieces of fire equipment were on the scene as residents from Dempster to Golf and Greenwood to Waukegan, including the Golf Mill shopping center, were without power. A spokesman from Commonwealth Edison said power was restored to the entire area within an hour's time.

Niles residents once again jammed the Council Chambers Tuesday evening to voice their opposition to the proposed McDonald's restaurant at Dempster and Grace. And once again the McDonald's Corporation entourage of experts, led by their attorney Richard Brennan of Winston & Strawn, appeared before village personnel expressing their desire to erect a 4,386 sq. ft. restaurant which would seat 110 to 120 persons. In addition they also are seeking to

"Equality of rights under the law shall not be denied by the United States or any state on account of sex."

In Tuesday's Sun-Times it notes: "Sister Maureen Fiedler analyzed those words and deftly dispensed several sharp arguments against ERA. She concluded with words that should be written in the Springfield sky:

"When full-time working women earn only 59 cents for every dollar earned by working men, when 33% of the households headed by women are below the poverty level but only 6% of those headed by men are in that predicament, when women over 65 try to eke out a living from pension systems that discriminate on the basis of sex, equal rights become an issue of human life."

"U.S. laws already forbid employment discrimination, though enforcement is spotty and slow. ERA wouldn't strew rainbows over those problems — but neither would it make the sky fall. It would affirm a national commitment toward equality. A majority of Illinois legislators have recognized that before — though not the three-fifths required for ratification. This week, that stronger majority has a chance to ratify a moral statement against the denial of rights on the basis of sex."

## District 67 denies paid busing for parochial students

by Deby Eisenberg

A motion to reimburse parents for bus transportation of their parochial school children residing in School District 67 was defeated at the May 8 meeting of the school board. With state legislation pending on the matter, it is currently up to individual school boards whether or not to

pick up these expenses. School superintendent William Stou gave some history on this issue. "For over 20 years parochial school children have had their bussing at no cost, because the high school district paid for it. This is a historical,

### Support the adult S.J.B. Track-a-thon

A few years ago, St. John Brebeuf had three girls traveling teams - a varsity volleyball team, a varsity basketball team and a varsity softball team. Now S.J.B. has:

Three girls basketball teams: 8th graders, 7th graders and a combined 5th and 6th grade team;

Two softball teams for the first time this year: a varsity team and a seventh grade team;

A varsity volleyball team.

This year's varsity St. John Brebeuf girls basketball team broke a number of S.J.B. records.

Some of these include: 43 girls varsity wins, 156 Total girls varsity points; individual players selected to participate on All Star Teams and 7 girls varsity team.

These records were made possible by generous responses to previous student track-a-thons. As a result these girls became members of our first 7th grade girls basketball team. Because there were very few 7th grade girls basketball teams in the Chicagoland area, these girls received some lumps last year as most of their competition was against 8th grade teams. But they improved greatly because of the early experience to become one of the first teams in the Chicagoland, this year as 8th graders. With increasing success they wanted to play much more basketball than was previously played by past S.J.B. girls basketball teams. Thus they were entered into two leagues and six different tournaments.

If the S.J.B. May 17 Adult Track-a-thon is successful, S.J.B. plans to form a separate 5th grade basketball team to enable the 5th graders to gain more experience.

### What are emotional climates like in your home?

How would you feel if you were constantly facing or finding yourself in a thunderstorm or dust storm? A little frightened, apprehensive and concerned? When you hear a bolt of lightning crack or thunder boom, do you jump a little? Does your heart pound faster? For most of us, this happens in some degree.

Have you ever stopped and considered the kind of emotional climate you generate in your own home? Each one of us contributes a stormy emotional climate, or a calm, harmonious emotional climate.

What kind of emotional climate prevails most of the time in your home? Is it erratic, disturbing, full of bolts of lightning and booms of thunder from arguing, fighting and general disagreement? Or does an understanding, compatible and agreeable climate prevail?

I have in my office a plaque that says, "Houses are made of brick and stone; homes are made of love alone." Though this is not completely true, since usually in all homes there is some arguing, bickering and disagreement, it is true that a home is much more than the construction.

It is what happens inside the house that really counts and makes it into a home. If a healthy emotional climate exists, it can weather a few storms of disagreement because members know they will soon see the sunshine.

How do you feel when you don't see the sunshine for several days, when it is cloudy, rainy and generally disagreeable? Most of us are somewhat depressed, more easily irritated and less conducive to harmonious relationships.

Much the same holds true regarding our emotional climate. We all want to experience the sunshine of peace, love, laughter and tranquility rather than face the clouds of gloom, despair and disharmony.

It means a great deal to me to come home to a sanctuary, a home of sunshine and be greeted by my wife and children with a hug, kiss and a smile.

Somehow, it makes facing the clouds and storms of others in my work worth it all.

Reflect on that in terms of the impact it has on you and your family. You know, it isn't really hard to make it a reality in your self-examination.

Registration is required prior to attendance. Please call Public Relations at 297-1800, ext. 1174, weekdays, 8 a.m. to 5 p.m.

### MONNACEP offers cooking courses

True emotion means the expression of both positive and negative feelings in a mature emotional climate that can tolerate and encourage both, because both exist. The reason is that we are emotional as well as rational and logical. Our very nature demands that we express ourselves emotionally and that we receive a response from our emotions.

If we try to keep in our emotions, then we become emotionally ill, out of touch with one another and with creation. I deal with a lot of walking dead people in my counseling; they are dead for all practical purposes because they are dead emotionally.

What causes us to become this way is that we have retreated into a shell, like a turtle; we are afraid of being hurt. I have a marital counseling case that is an example of this. The wife decided she would not love again because she already had been hurt too much by loving. The husband felt he didn't deserve to be loved because of rejection from his parents as a child. He had internalized this to the point he thought something must be wrong with him since his parents didn't express a real love and concern for him, but placed him in a home for boys when he was quite young. This couple found themselves: the wife determined not to love again, and the husband believing he didn't deserve love.

Fortunately, this has a sunshine-ending, as in the midst of this storm both discovered they could love and respond to one another. Where their home once had a cloudy and stormy climate, negatively affecting them and their children, it is now much happier, not nearly as serious, full of more laughter and love, and leaving them with freedom to express their true emotions.

It is now a home—not just a house of stone—because of a risk, but it is worth it. Try it, and you'll see that you too can develop a healthier emotional climate.

If you need professional help to realize this healthier climate, then call Niles Family Service, 932-3396, or come into the office in the Niles Trident Center, 6060 Oakton st., Niles.

The annual Poppy Drive sponsored by the Morton Grove American Legion Post #142 will take place on Thursday, May 22 this year. Members of the Morton Grove Post and their Auxiliary Unit will be found from early morning on offering the little red flowers at train stations, traffic intersections, restaurants, stores and other places where residents frequent the community.

Post Commander Robert Penchon has announced that the program is being co-chaired by Ron Daum and Dick Hellestree.

They have been diligently recruiting members to participate in this yearly function which has a two-fold purpose.

The poppies are made by hospitalized veterans who are currently being paid 10¢ apiece to assemble these little red flowers which are in memory for the war dead. This not only gives the former servicemen the opportunity to earn some money, but doctors indicate it has therapeutic value for the bed ridden patient.

In addition, profits derived after expenses are met, enables the Post and Auxiliary Unit to participate in various child welfare and rehabilitation work for the servicemen at the VA Hospitals, their families, orphans, needy families and in other such associated areas as is needed.

## letters to the editor

### Teachers urge retention of Stetina

**Editor's note:** The following letter was sent by Mark Twain teachers to the District 63 Board of Education. It was signed by 22 of the teachers.

**Dear Mr. Smith and Members of the Board:**

In your letter of May 5, 1980 you state that you are seeking a superintendent with certain qualifications. We would like to suggest that that person is sitting in the ESC of District 63. Since you have trusted Mr. Donald Stetina with the leadership for the last year, it is obvious that you feel he has the necessary leadership qualifications. Concerning his capacity for dealing

### Open letter to Jimmy Carter

**Dear Mr. President,**

The following letter was mailed to our local newspaper. I would like you to proclaim "A National Week of Prayers" for the many problems in our Nation and the safe return of the hostages in Iran. There is no doubt in my mind you will succeed in obtaining their releases. May our Lord give you strength and guide you.

"In these times of Crisis, I urge the people of the United States to unite behind our President, Mr. Jimmy Carter. We must be united for the preservation of our freedom and the return of the hostages in Iran. This is not the time to criticize our President; it is time to support him. We must pray that under his leadership a solution will be found.

When trying to succeed we must face the reality of failure. The first sign of success is in trying. We have passed the stage of ap- peasement for an act forced upon us by the leaders of Iran. We must have faith in God and with the truth on our side we will succeed. We must keep and guide our heads, minds and hearts for a peaceful solution. The life of all people is sacred, regardless of that person's status. The preamble of the United States to, "secure the blessing of Liberty to ourselves and our Posterity", and posterity means generations of the future and all of a persons' descendants. The purpose of a "National Week of Prayers" is to educate the people of the world and their hostile leaders to the dignity of all human beings and for a speeding release of the hostages in Iran. Also for our service members in our armed forces who lost their lives for a righteous cause in Iran."

### "Angry parent" should get the facts straight!

**Dear Editor:**

This letter of rebuttal is in response to the anonymous "angry parent" who is upset because of the "unfair" Niles Baseball schedule.

First of all, I do not believe that any explanation is in order to any individual who chooses to remain anonymous by referring to themselves as an "angry" parent. But, being that this newspaper is the only method I can use to convey my message to this individual, I will relax my principles and reply by stating a few very important facts.

This was my very first exposure to any game scheduling, but I had decided to volunteer due to the fact that nobody else would come forward when the Niles Baseball League were seeking volunteers for this task. If no one would volunteer, there may not have been any baseball schedule, good or bad. At least a decision was made where I got involved and not just sit back and complain, and furthermore not hide behind the mask of anonymity. The schedule may not be perfect, but it is workable. The scheduling consists of over 350 games to be

P.S. For your information, the only teams that do not play any night games are the Peanut League, who have never in previous years played night games.

### Where were you when we needed help?

To a very angry parent:

I write this as the wife of a board member. As the Paulis' have stated, where was "angry parent" when Mr. Lietz was looking for help? The members of the board will reply to "angry parent" as a whole.

"Angry Parent" was not involved in making up the schedule, nor does he/she have all the facts straight. You will save all of us, that are working so hard, a lot of aggravation.

Unlike you, I will sign my name.

Mrs. Marilyn Lietz

### Thanks for support

Dear Sir:

Your continuing coverage of educational matters prompts me to write this letter of thanks to you and to the many people who supported me in the recent District 63 School Board election. Both are appreciated very much.

Yours sincerely,

### Local firefighters attend NI-Gas training school

Fire fighters from 54 communities in northern and central Illinois attended the ninth annual Northern Illinois Gas (NI-Gas) natural gas fire training school on May 8, 9 and 13 at Station #60, Troy Grove, IL.

The comprehensive one-day course presented classroom instruction and field demonstrations on controlling and extinguishing natural gas fires. NI-Gas sponsors the course as a public service to community fire departments throughout its service territory to provide specialized instruction in simulated natural gas fire situations - an exercise that is usually not available through

conventional training programs.

Natural gas, noted for being the safest fuel available, has an outstanding safety record.

"The course provides practical information and real-life demonstrations that aid fire fighters in efficiently controlling and extinguishing natural gas fires," said Ed Warner, NI-Gas senior safety consultant and coordinator of the program.

Since its inception, NI-Gas has trained over 265 fire fighters representing 148 fire departments in the natural gas fire training school. The training sessions were held during Fire Fighters' Recognition Week.

**Vancil named principal of Nipper School**

Dr. Richard Short, Superintendent of Schools, Maine Township High School District 207, has announced the appointment of Mrs. Linda Vancil as Principal of Nipper School, the special education facility in Des Plaines which serves students attending Maryville Academy and Edison Park Home.

Mrs. Vancil has been Assistant Principal of Nipper School for three years and is completing her fifth year of service to the special education program serving students from Maryville Academy and Edison Park Home.

Commenting on the appointment, Robert Jacobsen, Director, Special Projects for District 207, noted that Mrs. Vancil has been extremely dedicated and innovative in her work. He advised that she has an exceptional background in dealing with troubled adolescents.

He added: "The district is extraordinarily fortunate to have a person of Mrs. Vancil's caliber to take on this most important job."

Jacobsen explained that Mrs. Vancil has devised a unique system and rewards program at Nipper School that has been expanded to other special education and alternative education programs in District 207.

This system, Mrs. Vancil stated, is based on preparing young people for the real world. She said: "If students get to class on time, stay in class, complete assignments, they receive points which can bring them rewards such as buying things at the school store, free tickets to school dances, and even a weekend pass home."

"The real world is, if you work there is pay," she said. She added that students who score 90 per cent in the point system for three consecutive weeks may earn privileged status. As long as they maintain responsible behavior they can retain this privileged status without being part of the point system.

Mrs. Vancil noted that at Nipper School the goal is to try to parallel standard curriculum so that those students who can do so can go on to further education and training.

"By and large," she said, "we try to give our students basic skills, such as how to get a job, rent an apartment, maintain a bank account."

The new principal reported that this year Nipper School has two graduating seniors. One graduate, she said, is planning to go on to junior college, and the other who has participated in the school's cooperative work training program has been offered a training position by his present employer, a department store, following graduation.

The program at Nipper School is reimbursed by the State of Illinois Orphanage Act.

## ED HANSON

What was the name of America's greatest horse?

Now that spacious, gracious ARLINGTON PARK opens today (Mon. May 12) and offers the longest meet in its history, 121 days thru (Sept. 27), it seems fitting to talk "horse sense."

America's greatest horse wasn't Man-O-War, Whirlaway, Count Fleet, Native Dancer, Kelso, Affirmed or even the great Secretariat.

No sir, America's greatest horse couldn't even trace his pedigree straight back to just one of three horses. For every thoroughbred that races anywhere today is descended directly from either Byerly Turk, Darley Arabian, or Godolphin Arabian

... But even without a thoroughbred pedigree, this was still America's greatest horse! For without this horse there probably wouldn't be an America!

Maybe this will give you a clue. His jockey was a guy named Paul ... Paul who?

Why, Paul Revere, that's who!

By George, early American historians must have flipped their wigs in forgetting to post for posterity the name of that noble steed. An exhaustive check of early Americans fails to reveal the name of Paul Revere's horse. You remember my famous poem:

"Listen, my children and you shall hear  
Of the midnight ride of Paul Revere,  
Who saddled his horse and rode away, and didn't come back 'till  
the break of day. He started and stopped and started again,  
Always singing the same refrain,  
"Jump your horse and grab your gun, we've got to make the British run, and two hundred years hence  
our names will be,  
Written on the pages of history."

Then he waved his cocked hat and spurred his horse,  
and started away on a winding course,  
"Til he came right straight to a Belfry tower where  
he parked his horse and slept for an hour."

What Paul's nagg needed was ADVERTISING. But in those early days our young country had hardly Minute Men but no aden-

men.

I worked for the first newspaper, a weekly, called the PENNY PACKET and GENERAL ADVERTISER, published in 1770 by David Claypoole and John Dunlap in Philadelphia, Penn.

I was also the fastest of the Minute Men which Barbara Quincy and Betsy Ross would both attest to if they were around today. One tiny long ago in the King's Road Tavern, both Barbara and Betsy were somewhat in their cups when I breezed in and walked swiftly toward the pretty barmaid.

"Thee's fast Eddie," said bombed Betsy to woosy Barbara.  
"Does he dress nicely?"

"Yes," replied woosy Barbara, "and quickly."

Anyways, the PENNY PACKET and GENERAL ADVERTISER sold for four pence a copy, advertising was done by handbills and there weren't any Lasker's, Bartons or Burnett's around to promote the sale of a brand new bag of oats. If there was, you could have bet your last shilling, the name of Paul Revere's horse would have never been scratched from the race of history.

The years rolled on. Newspapers flourished, advertising became big business and horse racing became the "Sport of Kings".

And today, with high prime interest rates, inflation, and a mixed up, screwed up world, the juice men of America are finally coming into their own.

In fact, thanks to the guys with the white, wide brimmed Fedoras, black silk suits, and the five o'clock shadow, they are now emerging from under their provincial rocks and issuing the

### Variety Club Celebrity Ball

All superstition aside, the 13th annual Variety Club Celebrity Ball at the Hyatt Regency Chicago hotel rolled out the red carpet and honored TV personalities Barbara Walters and Fahey Flynn as King and Queen of Hearts. The casts of "Aint Misbehavin'" and "Evolution of the Blues" sparkled at the \$300 a couple black-tie gala, attended by over 600 guests, the biggest success ever, which will net over \$65,000 for Variety Club Children's Charities.

Shown here, presidents Oscar Brotman (left) and Edythe Stein of Niles (right) congratulate the royal couple. Specially designed jeweled gifts from Lester Lampert Jewelers of North Michigan Avenue were presented to the king, Fahey Flynn (a money clip), and the queen, Barbara Walters (a necklace). A good time was had by all, for which chairman Howard Mendelsohn merits a salute.

### Greek Night at Arvey's has special magic

by Ed Hanson

Forty years ago I used to go into the Athen's Cafe at Halsted and Van Buren. I remember its reputation in those days was the very finest. The very best people went there. Visiting celebrities,

I have, over the years (more than I care to remember), visited other great Greek restaurants both in the U.S. and abroad but I have never found a place that has equaled the original Athen's Cafe ... until ...

I came to Niles, some years ago, and began to patronize Arvey's Restaurant, Oakton & Waukegan rd. In my book Arvey's on Wednesday nights not only equals but surpasses the old Athen's Cafe.

One of my favorite dishes in the old days was Pastitsio, which consists of layers of macaroni, ground beef, topped with a creamy cheese-Béchamel sauce. Arvey's only charges \$3.75 for this dish today which is less than I paid for it forty years ago at the Athen's.

The production is under the direction of Skokie resident, Ed Berger, Assistant Director Estelle Ennis of Northbrook, Choreographer, Donna Vittorio of Chicago and Harriet Spizziri and Sheila McCormick-costumes from Morton Grove.

Other cast members include Skokians Venetia Pappanduros, Bob Dahl, Robert Ozel, Dee Levin and Jolene Levin; Evanstonian Barbara Blomquist and Morton Grove resident, Ann Spizzi. Phil Carollo from Glenview, Cathy Saviano from Niles, Holly Kamikow from Northfield and Robin Altman-Hayes, Bob Brenner and William Shivers from Chicago.

Tickets for the production will go on sale on May 12, 1980. For further information call 674-1500. And you can get something else free which the Athen's Cafe of the old days never offered. It's Arvey's super delicious, super large free Caesar Salad that's the finest in the world.

Drop into Arvey's next Wednesday for Greek Night and you'll discover what I say is the truth.

Arvey's — "Where The Foods Are Internationally Famous" — is open for breakfast, lunch and dinner, 7 days a week.

### Local artists in OCC Art Fair

Thirty-five community artists and crafts people are among the 125 juried exhibitors who will offer their works for sale in the sixth annual Starving Artists Arts and Crafts Fair at Oakton Community College.

The fair will be held from 11 a.m. to 5 p.m. on Saturday, May 24, and Sunday, May 25, on Oakton's Morton Grove Campus, 7900 N. Nagle.

Thousands of handcrafted items will be on sale over the weekend, all priced \$5 and under. Exhibits will include paintings, lithographs, photography, on-the-spot portraits, jewelry, pottery, wood carvings, macramé, and leather work.

Local artists and crafts people participating in this year's fair are: Des Plaines: Clay Charles Anderson, graphics; Cal Bonnivier, oil on rice paper, watercolors, drawings and woodcuts; Marilyn Fercht, watercolors and oil paintings; Eugene F. Fregetto, photographic art; Thelma Spain, watercolors.

Morton Grove: Bette Chamberlain, Topiary animals; David Hirsch, on-the-spot pastel caricatures; William G. Kogler, metal sculpture; Robert E. Proper, stained glass; Helen Van Tempera, oil and acrylic paintings; and Alice Wollin, pewter jewelry.

Niles: Elaine DeVries, plaques; Bernard Satinover, wood bowls, vases, plates, candleholders, and jewelry; Sylvia Soquet, oils and charcoal; Mark Young, watercolor and pen and ink drawings.

Skokie: Rose Derez, paintings; Shirley Finkel, oils; Joe Parente, collage, pen and ink drawings, watercolors; Peggy Robinson, paintings; Sheely Rosenthal, clock collage; Terry Slocum, handcarved and tooled designs in leather; David Wolfe, metal sculpture.

There are about 15 other authentic Greek entrees in addition to the Pastitsio every Wednesday night when it's Greek Night at Arvey's.

And you can get something else free which the Athen's Cafe of the old days never offered. It's Arvey's super delicious, super large free Caesar Salad that's the finest in the world.

Drop into Arvey's next Wednesday for Greek Night and you'll discover what I say is the truth.

## Safety Hints on bicycle riding

No matter how long you have ridden a bike, it is good to review bicycle laws and safety tips each year. This is a continuation of the list I started last week.

1. A bike flag and a rearview mirror are added safety precautions.

2. When operating a bicycle, you must never attach yourself or your bicycle to any vehicle on the roadway.

3. You always must stop before reaching a school bus which has stopped to load or unload passengers.

4. Weaving from one lane to another is both illegal and dangerous.

5. Turning around on hills or curves is not allowed. Don't make a U-turn any place without first looking carefully to see if it is safe to do so. On some streets, U-turns are not permitted.

6. You must never drive at a speed faster than that which is reasonable and safe.

7. Wear light-colored clothing or apply reflective tape to the rider's clothing or the bicycle's handlebars, frame or fenders. It will help you to be seen and may keep you from getting hit. Some riders use arm and leg lights.

8. Watch for people getting in and out of parked cars, and for cars pulling into traffic from a curb or driveway.

A copy of the Bike Rules of the Road will be sent to you upon request. Write to Alan J. Dixon, Secretary of State, Springfield, IL 62756.

## Maine Township recognizes volunteers

In a program Maine Township officials plan to make an annual event, individuals, clubs and schools who have rendered outstanding services to the youth of the area were honored recently at Park Ridge Country Club in the first Maine Township Community Recognition Reception.

Originated and planned by MaineStay, a community service of Maine Township Government, the program included cocktails and hors d'oeuvres preceding the awards presentation, during which community leaders were able to meet and chat informally with representatives from many social service agencies operating in the suburbs included in Maine Township.

James J. Dowd, Maine Township Supervisor presented the Community Award for services to youth and other philanthropic endeavors by the Twentieth Century Juniors of Park Ridge. The certificate of appreciation was accepted on behalf of the club by its president, Eileen Swalla, Park Ridge.

Dowd also recognized the services rendered by School District 64 thru implementation of a parent education program during the preceding year, and by the social workers and guidance counselors of Maine West High School through their cooperation with MaineStay's Family Counseling Programs. These school awards were accepted by Dr. John Fletcher, Assistant Superintendent of District 64, and by John Graef, Assistant Principal of Maine West.

"We are pleased with the success of this first Community Recognition Reception," said MaineStay's Executive Director, Ald. Dean Henry of Park Ridge, standing in for Park Ridge Mayor Martin Butler, presented a Volunteer Award certificate of appreciation to William Ronney of Park Ridge, for serving as a Big Brother Volunteer to a young Des Plaines lad who has benefited greatly from the experiences shared weekly with Ronney, acting almost as a father-image.

### VACATION HOME FOR RENT

**DOOR COUNTY WISCONSIN**

Here's how it works: if you're self-employed and have a total adjusted gross income of less than \$15,000, you may contribute up to \$750 of your self-employed earnings every year to a Mini-Keogh plan. The amount of your contribution is deducted from your Federal income tax. That's how you save on taxes immediately.

Savvy people who have a total adjusted gross income of less than \$15,000 and who also perform freelance work—such as artists, writers, teachers who do private tutoring—may open a Mini-Keogh account for their freelance earnings. They can do this even if they are already covered by their regular employer's retirement plan. And again they get that immediate tax deduction!

The money in a Mini-Keogh is free of taxes until you withdraw it, usually at retirement age. You'll pay ordinary tax as withdrawals are made. If you're like most retirees, you'll have a lower income than when you worked—so pay less taxes. If money is withdrawn before you're 59½ for any reason other than disability, a penalty tax has to be paid.

So even if you don't earn much at your self-employed job or at moonlighting, you still can take advantage of a tax-sheltered retirement plan. A stock broker, mutual fund representative, banker or insurance agent can help you. If you'd like a free booklet with information about this plan, write to the Investment Company Institute, Dept. P, 1775 K Street, N.W., Washington, D.C. 20006.

## From the LEFT HAND

Continued from Page 1

In the May 8 Glenview Announcements: "The anti-ERA forces have done a good job of inundating legislators with predictions of gloom and destruction if the amendment becomes law. The opponents are a clever, fact-twisting bunch. Rather than developing a platform of solid facts to fight the amendment, the opposition has settled for scare tactics and the off-hand prophecy of unisex toilets."

"Enough of the hysteria and name-calling. Let's stick to the facts. The ERA does not say that men and women should be the same. Rather, it says that men and women would be equal in the eyes of the law. What would the amendment do? For starters, it will ensure the equal educational opportunities to all children. Under the ERA, protective labor laws would be extended to both men and women. It will guarantee women property rights."

"The amendment does not seek to make women better than men. It simply calls for equality. It would provide a national constitutional guarantee of sex equality, in the same way that other amendments guarantee equality, regardless of race, religion and national origin. Having it enshrined in the constitution would not leave equality to the whims of legislation."

"Many state legislators, some from the North Shore, have been quick to say that they support equality for women, but not this amendment. Why? Some point to the 14th amendment which was passed to extend equal protection under the law to "all persons". If it had been adequate, the rash of laws enacted in the 60's and 70's to eliminate sex discrimination never would have been needed."

"And then there are the state legislators who argue that Illinois already has a state ERA and does not need a federal one. If it is good enough for Illinois, it should be extended to all states. It would make federal jurisdiction in the state compatible with what is already Illinois law."

"The biggest argument for ratification in Illinois should be that it has had its own version of the equal rights amendment in the state constitution since 1970. Those 10 years stand as proof that equal rights will bring our nation to ruin. How many of those deadlocked predictions ERA opponents recite have happened in Illinois? None. The havoc and upheaval are unfounded worries."

"Debates on the ERA should be limited to the question of equal rights. No clause in the amendment takes a moral stand on the questions of abortions, homosexuality or the permanency of the American family. State representatives and senators should remember that the amendment deals with one, only one, moral question: Equality under the law, regardless of sex."

sation and pensions, for operating the VFW National Home for widows and orphans of deceased veterans in Eaton Rapids, Michigan and for carrying on rehabilitation and veteran patient care in the nation's veterans hospitals. Hospitalized veterans are paid for their work in assembling the poppies.

This year, as in previous years, Skokie Valley Post No. 3854 of the VFW and Skokie Post No. 320 of the American Legion will jointly sponsor the official Poppy Day in Skokie, with the Legion Post Home, 8212 North Lincoln, serving as the base of operations for the volunteers. Legion and VFW personnel will pick up their collection cans Wednesday night, May 21 and Thursday, May 22 all day, with the filled cans to be returned by Thursday night at 9 p.m. A buffet table of food will be served continuously from noon on Thursday at the Legion Post to refresh the workers.

Residents attending also need not have eligibility for Legion affiliation. Wives and family members are also cordially invited to attend according to Post Commander Robert Perschon.

He indicates his committee to greet the community will include Americanism Chairman John Slater, Ralph Hintz and Legion District Commander Joseph Schmidt, himself a past commander of the Morton Grove Post.
