## Niles cop saves drowning boy

by Diane Miller  
"You don't stop to think, you just do it," Niles police officer Roger Wilson told The Bugle after Wilson was credited with saving the life of a 14 year old boy he pulled from Lake Michigan last Thursday evening.  
The boy, Peter Belcher, 1639 W. Erie st., Chicago was wading in the water off Olive Park about

7:30 p.m. Thursday evening, May 22 when his friend told a passing officer that Peter was missing.  
Wilson, a member of the Niles Police force for 11 years and currently an Auxiliary Service Officer was cruising in his boat about a quarter mile off shore with 3 friends enjoying the warm summer evening and playing a stereo on board. One of the

passengers noted a policeman on the beach frantically waving his arms and just as they lowered the volume on the stereo, the policeman fired a shot into the air to attract their attention. Wilson said they pulled in closer to shore and the officer shouted that a boy was missing. He asked them to cruise around and see if they

## Blase urges schools: "Don't rush to sell"

Niles Mayor Nicholas B. Blase, in a letter addressed to the presidents of School Boards of Districts 63, 64, 67, 71, 207, and 219, urged them to consider very carefully before making a decision to sell the school properties, both grammar and high school, which are currently closing in June, 1980.

Blase noted that while communities are currently going through a period of declining school enrollment forcing the closure of many schools, it is possible that in the foreseeable future, the birth rate which has declined in the past could change again in the future and an era of 3

## Trustees ok 7% increase from Glen Golf Disposal

# Garbage rates up in Niles

by Diane Miller  
The Village of Niles Board of Trustees Tuesday evening approved a 7% increase in the garbage disposal rate from Glen Golf Disposal. Glen Golf is currently under contract to the village at a rate of \$4.53 per residential unit per month, but Lee Brandsma representing the scavenger service told the board that increases in fuel costs, labor contracts and dumping costs have made the increase a necessity. Brandsma originally petitioned the board for a 12.54% increase which, he said, would amount to a break-

even figure for his company, but the contract Glen Golf has with Niles limits a rate increase to 7%. The contract extends to April 1, 1982. The 7% increase would bring the unit rate to \$4.85.  
Brandsma also told the board Glen Golf has purchased land at Touhy and Elmhurst rd. for the purpose of installing a transfer station and maintaining and storing their vehicles on the property. "We are looking to the future," said Brandsma, who maintains the Maryville dump

## From the LEFT HAND

by David (Bud) Besser  
An anon writer writes:  
"Each morning a little old lady walks her dog thru the public park of the recreation building on Milwaukee. I sure hate to see the kids run around and roll all over in that ... When they come home they must smell something terrible. Can something be done?????"

The best suggestion we have is the police should impound the little old lady. Little old ladies have been getting away with much too much just because they're little old ladies. How many times have you heard your friendly used car salesman tout a shiny gem he wants to sell that was only driven around the block by a "little old lady from the suburbs"? How many car owners who bought these cars would like to find those "little old ladies"?

Diane Miller reported last week a 17 year old Nilesite was apprehended by Niles police after driving his car across Kirk Lane Park and spinning the car's wheels, tearing up the turf. Park Director Bill Hughes said he would not press charges if the young man would replace the grass. The youth agreed. Hughes said the young man leveled the ground, purchased sod and laid it, and then returned to water it every evening for a week. Hughes said while he never met the young man, he was very impressed with him, after talking to him on the telephone. He noted the youth realized his initial act was stupid and he had learned a lesson from it.

There was a very touching note on the back of a graduation picture we received recently. I'm sure the parents of the graduate wouldn't mind sharing it:

### The Niles Lions roar

One of the finest joys of life is to see a project come to its completion. And what a beautiful completion our Map Project is!

Yes, the new 1980 edition of the street map of Niles is ready for distribution. Watch for it, believe me, it's a real beauty.

Another project that has just been kicked off is the "Lions of Illinois Eye Research Institute".

The campaign is underway but the goal is a big one. The Lions of Illinois have taken on the task of raising 5 million dollars to build this needed facility. Here are the facts in a nutshell: Who? 30,000 men in 650 Lions Clubs in Illinois, with the help of women in Lioness Clubs and young people in Leo Clubs all over the state of Illinois.

What? A campaign to raise \$5,000,000 to finance construction of the Lions of Illinois Eye Research Institute by obtaining tax deductible gifts or pledges payable over a period of up to five years. Pledges to come from Lions Clubs, individual Lions, non-Lions, businesses, corporations, foundations and as many other sources as possible.

When? The kickoff date was May 7, 1980. Groundbreaking will be held at a later date still to be determined.

Where? The Lions of Illinois Eye Research Institute will be located in Chicago on the near west side as part of the University of Illinois at the medical center. It will be constructed adjacent to the center's Eye and Ear Infirmary, 1855 W. Taylor st.

What it is: The Institute will be constructed under the direction of the University of Illinois Foundation with Lion raised funds, then turned over to the University itself for maintenance and operation as a medical research facility, headed by the chairman of the department of

ophthalmology of the University's Abraham Lincoln School of Medicine.

What it is not: The Institute will not be a hospital. It will exist as a research facility with the purpose of conquering blindness and finding solutions for visual disorders. The few patients who will be seen at the Institute will be those with eye disorders currently under study.

Appearance: The Institute will be a modern, two-story brick structure designed by Skidmore, Owings and Merrill architects. The interior will be designed in a modular concept for flexibility in changing research needs. The building will be constructed so that additional floors may be added at a later date.

The campaign: Spearheading the campaign are 24 Lions, 2 from each of the state's 12 Lion districts, called the Blue Ribbon Committee. The campaign is being run under the auspices of the Lions of Illinois Foundation, 1515 N. Harlem, Oak Park, IL 60302, the charitable arm of the Lions Clubs of Illinois.

You have the facts! Let's all get behind this worthwhile project and see its successful completion. It's great to be a Lion, or a friend of one!

### CHURCH AND TEMPLE NOTES

#### OLR hosts pro-life mass

Bishop Hillinger Assembly, Knights of Columbus and North American Martyrs Council 4388 Knights of Columbus in Niles, are holding their Pro-Life Mass at the Our Lady of Ransom Church, 8300 Greenwood ave., in Niles, on Sunday, June 1, at the 12:45 p.m. Mass. All members, their families and friends are invited. Michael Provenzano, Pro-Life Chairman of the sponsoring Knights of Columbus Mass said, "A lapel red rose the official pro-life symbol in our diocese will be distributed to all women after mass. Wear it as a witness to our convictions against abortion, and in support of pro-life in all its phases. It is also a means of stirring up the curiosity of others thus permitting one to explain the evil of abortion and the need of a Human Life Amendment as well the need to respect all life at all stages."

The biggest single "life-related event of a few years ago—a tragic one—was the United States Supreme Courts decision on abortion depriving unborn children of

virtually all legal protection. There is no denying that the decision was a shattering blow to the Pro-Life movement and a boon to anti-life forces. But in the last seven years it has begun to seem as if the court may not have spoken the final word on the subject. This is not to suggest the Supreme Court is prepared to reverse itself, but the sweeping and radical nature of its action has at least had the result of mobilizing pro-life sentiment to an unprecedented degree. A few years ago the Catholic Bishops of the country launched the first National "Respect Life," program to defend the proposition that all innocent lives are sacred and deserving of respect. Respect Life is an ideal to which just about everyone in the United States would subscribe. The crux comes in deciding whose lives are to be respected. Basically there are only two answers: all innocent lives without exception or some lives under certain conditions.

**An open letter to District 63 Board**

To the members of the East Maine School District #63 Board of Education:

I'd like to take this opportunity to congratulate the three (3) newly elected board members and to commend the people of District 63 for their confidence in proving by a voting margin of 2 to 1 that these board members do represent the people of District 63.

During the past year, we've wasted much time responding to a very small minority of people who do not represent the community or the issues of the com-

munity as we proven in the election just past. The citizens of this district want this board of education to attend to our problems and to concentrate on the education of our children.

As a parent in this district I urge the board to consider the mandate which was given to the new members on April 14 and to move forward with the business at hand.

The people have spoken!

**Love as medication**

Dear Editor:

I've said before I am not an Evangelist, but I go to visit the Lord's House each Sunday for solace, comfort, and knowledge and at one recent service, I had the good fortune of learning some interesting definitions of love.

Our Pastor started his homily (sermon) by saying love is for our children, as they see their mother pulling in the drive with groceries in the car, they leave the TV, good book, or maybe something else they were doing and see that mom gets some of their help. For Mom, love is if your kids don't get those dishes washed soon, I'm going knock your heads off and the same goes if I find your rooms are not clean.

For wife, when "Hubby" comes home after a hard day at the office or shop, please don't remind him he may be getting lazy for not wanting to cut the lawn that day. Gently remind him maybe he can get it cut tomorrow. For "Hubby" please don't be so grouchy when you don't find your favorite menu on the table at dinner or it was not prepared right and maybe a bit late. Also, he can be gracious enough to still say how much he loves her.

We, as people, have many occasions to be kind and compassionate with our friends, neighbors and relatives.

I felt he was talking to me directly because that is what the effect his story left on me.

Only a few days later, I saw some young teenagers sitting in a car. When they emptied the cans, they disposed of them on a clean and tidy lawn. So I put my new definition of love to work. I crossed the street from my house, introduced myself and hoped they were enjoying the beautiful day. Also that I was happy to meet them. But then I also asked a favor of them. I asked, in a friendly way, if they would please pick up those empty cans, please don't do it again and please stay off the lawn till it got

stronger. Their answer was "Yes, sir." These nice kids policed the whole block area and put the contents in a garbage disposal.

I had a good lesson of love expressed to me because of my recent illness by my relatives, friends, and neighbors. There were cards, calls and visits. I was very thrilled by this expression which I think worked as a medication. My illness was recent and I am recovering. So, I hope I can insert a heartfelt thanks to all.

Sincerely,  
George Hall  
Niles, Ill.

**Urge Constitution Amendment to outlaw abortions**

Dear Editor:

Every day is a tragic day for the unborn child who was deprived of virtually all legal protection in 1973 by the U.S. Supreme Court's decision on abortion. People are killing people with no regard for human rights or life.

This is not only a Catholic issue, but it concerns each and every God-fearing man and woman, no matter what their religious faith may be. Many prominent non-Catholic leaders could be cited on our side, and with them countless thousands of their followers. Our combined efforts must not cease until a mighty voice, nationwide and worldwide, will finally be heard in the defense of God's innocent unborn. The voice of God keeps thundering against the killing of the unborn, "Thou shalt not kill."

The Declaration of Independence stated the right to life was inalienable—and no government could deny that right. To believe in the sanctity of all human life without contingency, condition or exception is basic to the principles of being an American. Parenthood is one of the most challenging and rewarding of all human relationships. Christian parents are called to a prophetic mission, to witness by their love and generosity to the primacy of life. The sacrifice parents make in bearing and raising children are a powerful testimony of their fidelity and their hopefulness.

As a Christian, "I speak out for human dignity and respect for all forms of life, the unborn, the poor, the aged, the sick, and the troubled."

Michael Provenzano

**District 63 staff misguiding parents**

Dear Editors:

School District 63 staff is misguiding parents when they conduct a parent/teacher's conference in regard to a slow or poor learner. When a slow/poor learner school report suggests Visual Training/Vision Therapy is needed, the school staff should insist that the child receive proper attention, at a Visual Training Center. The school staff recommendation for a second opinion is good, except they neglect to specify that the eye doctor should specialize in Visual Training Therapy. Schools have special education teachers for slow/poor learners but that help without specialized attention can cause greater eye strain which disfigures the eyes for life. Why? Because a child just cannot use their eyes properly at close range, but is forced to.

Public Law 94-142 gives schools Federal money for Visual Training Therapy for children who need this specialized therapy. Eye doctors that do not test for functional behavior problems miss this problem and the schools neglect to give the specialized care to these children.

Parent/teacher conferences should deliberate a direct full scope beneficial program for the slow/poor learner, and not just a discriminatory one favoring special education teachers only. Where can a parent get a second opinion of their child's problem?

On behalf of the Maine East Music Boosters and Music Department, we would like to thank you for the excellent publicity you gave our spring musical, "Fiddler on the Roof". It was a complete sell out for 3 of the 4 performances. This would not have been possible without your co-operation and coverage in your papers! We are deeply grateful and hope you will give us the same coverage next year.

They were awed by a contortionist, magician and hypnotist. However, the building itself is quite awesome and stands as a landmark in modern architecture at 3601 Dempster in Skokie.

**Blase . . .** Con't from Niles-E. Maine P. 1

and 4 children per family may once again become a reality. With the school properties being sold, communities would no longer be desirable to young families because of the lack of school facilities.

Blase's letter read as follows: "I, like many other people in our community, have been thinking recently about the fact that there will be school closings at both the grammar and high school level. These are occasioned by a very physically obvious fact and that is a decrease in school age population. At the same time, I have noticed that some school districts are selling school properties; obviously to try to get a little cash in the till to make up for cash deficiencies. The more I think about this, the more I am convinced that selling schools may be a short-sighted approach. What do I mean by that? It could well be that the same lifestyle that caused our birth rate to decrease will change in the future and create again an era of three and four children per family. When and if that happens, communities that have sold their school properties will no longer be desirable to young families looking to move where there are good school systems, etc. That means communities without school properties will end up not only non-desirable, but with possible depreciating property values, deterioration, and other inevitabilities which go along with being a non-desirable area.

As a Village we obviously are in a position to zone properties that are presented to us by a school district or a concerned purchaser of school property. We can express my previous thoughts to them at that time, but we cannot enforce these thoughts to school districts where none of the school properties lie within our community. All we can do then is express our concern that if schools are too quick to sell their properties, we may find a few years from now, communities which will not be desirable communities because they do not have school facilities for the again growing American family. Therefore a school district which encompasses our community, but which has no schools in our community, such as High School Districts 207, 208 and 209 Niles Township, could affect us well being without our Board being able to do anything about it.

Some might say that schools can re-purchase properties later if needed—or build new ones. The problem, of course, is that in older communities there is very little vacant land left to build on, and re-acquiring properties would be horrendously expensive. Just some food for thought. Please don't rush to sell the schools."

will be closing in 18 months necessitating the hauling of refuse to the Techny, Bloomingdale or Grayslake sites. "Not only are these sites raising their dumping costs to us," noted Brandsma, "but we have to pay drivers to spend their time hauling long distances which naturally will increase our costs considerably." Brandsma said Glen Golf will break ground for the new \$2,000,000 transfer station in October, 1980 and hopes to be completed by the summer of 1981.

Brandsma also told the board, "If incineration becomes a viable alternative in the future to garbage disposal, we will already have the property, properly zoned and the space will be there."

Niles Mayor Nicholas Blase also questioned Brandsma on pickup service for condos in Niles. Current court ruling states the village does not have to provide condos with garbage pickup, but Blase noted, the problem will be coming up even more in the next 2 years. Brandsma told the board that starting June 1 his company will be servicing condo units in neighboring Morton Grove. Service will be provided as needed and because of the large containers provided

by Glen Golf to the condo units, there is a 25% reduction in the rate since there is less time involved in pickup. In other actions Niles Village Treasurer Robert Schmidt, 7851 Oconto, was honored by the board with a plaque as he retired his position of 20 years with the village. Mayor Blase commended Schmidt for "performing well for the community" and noted "no one was more deserving." Charles Kohlerman, currently Finance Director for the village, was named to replace Schmidt as Village Treasurer.

NORTRAN trustee representing the Village of Niles, James A. Mahoney, Jr., reported to the board that total ridership was up 45% in 1979 over 1978. Mahoney noted that the intervals on many local lines were cut from 12 minutes to 8 minutes which they felt accounted for the increased ridership.

Niles resident Lee Pikovski was presented with a check for \$125 as the Village Purchase Award for his artistic 3D self-sculpture entitled "The Family". Pikovski, a member of the Niles Art Guild, was the second Niles resident to receive this award in the 18 years it has been in effect.

Trustees approved a \$960 donation to the Niles West Stadium Lighting Fund. The amount of the donation was predicated on the Niles student population attending the school and Mayor Blase told the trustees Niles Township was contributing an equal amount of money. Morton Grove, Skokie and Lincolnwood are also contributing considerable sums to the fund.

Village auction of bicycles and unclaimed merchandise will be held at the Niles Administration Building, 7601 Milwaukee ave., on Saturday, June 7 at 10 a.m. Inspection time will begin at 9 a.m.

The Board of Local Improvements approved the advertisement for bids on the 1980 Roadway Improvement Program which will consist of curbs, gutters, paving and sewers on Church st. from Courtland dr. to Washington st.; Ashland ave. from Church st. to 65th north and Willow Lane from Church st. to 157th north. Bids are to be received in time for opening on June 10, 1980.

**Post Office bites back at dogs**

As the U.S. Postal Service prepares for delivery during the forthcoming summer months, the public and delivery employees are being encouraged to be especially alert to the potential for animal attacks on public streets or private premises.

Louis G. Principali, Postmaster, said today that precautionary safety measures taken by the public and delivery employees will aid in the movement of the mail during the vacation period and more importantly, help reduce employee injuries due to dog bites.

Across the nation thousands of letter carriers, special delivery messengers and delivery and collection personnel were injured last year—most during the summer vacation period—due to the hazardous condition of unrestrained dogs during delivery hours.

This year the Postmaster said the Postal Service will make every attempt to deliver mail as efficiently and safely as ever. "However," he added, "through cooperation on the part of our customers, this task will be much easier to accomplish."

In all communities, customers are being requested to keep their dogs restrained during delivery hours, which includes restraint of the animal if the delivery person must make delivery on the customer's premises.

Delivery personnel are being reminded that if an unrestrained animal threatens their safety at a particular residence, they are not required to risk injury by attempting to make delivery. In such instances, mail service will be curtailed to that residence and not resumed until such time as the owner of the dog provides the post office with written assurance that the animal will be controlled in the future during delivery hours.

The Postmaster also noted that delivery service personnel bitten by customer animals are encouraged by the Office of Worker's Compensation Program (OWCP) under "e Federal Employee's Compensation Act (FECA, 5 USC 8101 et seq.), to pursue a claim against the person or party responsible, or his/her insurance company. Often such settlements result in damage payments amounting to thousands of dollars.

Effective control of personal pets, however, is the most effective safety precaution a customer can take to ensure his delivery carrier is properly safeguarded against dog bites, the Postmaster said.

## Dance performance

The Chicago Dance Medium comes to Skokie for a 3 p.m. performance Sunday, June 1 at the Mayer Kaplan JCC, 950 W. Church, Skokie.

This performing troupe under the direction of Rosemary Doolas, will perform two ballets which have a general appeal to young and old alike. One ballet entitled "Once You Are Real" is based on the children's classic, the Velveteen Rabbit.

"We feel very fortunate to have this talented group of dancers come to our theater," said George Peyovich, Supervisor of the Music and Dance Department of the JCC. We hope this production will bring both children and adults together through the world of dance and will sensitize them to the beauty of movement and grace.

Tickets for this performance are \$2.50 for non members and \$2 for members. For tickets and/or further information, call 675-2200, ext. 214.

## Sunshine Coach

A Sunshine Coach, specially built and equipped passenger bus, "Heart on Wheels," in honor of board-governor Arthur Rubloff, was presented to the United Cerebral Palsy Association of Greater Chicago. Taking part in the ceremony are (left to right) United Cerebral Palsy Executive Director Irving Korita, Chairman of the Board John Trutter, President Thomas King, Mr. Rubloff, Bene Stein of Niles, Variety Club President Oscar Brotman and Executive Director Jack Greenberg. Shown here (right) president Erdman turns over a check and keys for the bus to Arthur Rubloff. The bus will be used to transport the children to extracurricular outside activities.

## ED HANSON

### "Brevity is the Soul of Wit"

That's what one says, after a long weekend acting as "baby-sitter" to well-to-do elderly widows and divorcees who are afraid to stay in their large homes alone.

Psychologically speaking, this particular category of matronly women are used to having "a man around the house". And, in this age of rampant rape, mayhem, and maggoty, it behooves them to have a stalwart male senior citizen of unimpeachable character and charm to fill the void of not having "a man they can trust around the house".

There's a new field of "baby-sitting" in this category for stalwart senior citizen males of distinction. A field that could not only pay well but very possibly could lead to lucrative meaningful relationships of a more permanent nature.

"Brevity is the Soul of Wit", a line which is credited to the "Bard", is also used by "burned out" old newspaper columnists as an excuse to write briefly, if not too well, in order to make the deadlines for their trivia without arousing the ire of the entire female media production staff.

Bill Kenney, owner of Kenney Aluminum Products, 7570 Milwaukee, is holding over his 40% discount on storm windows, doors, fascia-soffit, gutters, siding and awnings for a limited time.

Incidentally, any money spent for storm doors and windows can be deducted from next year's income tax of the purchaser, in accordance with the federal energy saving program.

Bill Kenney, 792-3700, will be glad to give you full details by phone or, better still, in person.

See his ad on page 12. And, note Kenney Aluminum has Sunday hours from 10 a.m. 'til 3 p.m.

The repairs on Milwaukee ave. in front of his shop are the main reason he's extended this offer for a limited time. But you can get into his parking lot, and a little inconvenience can save YOU a whole LOT of money.

See you next week with a gem titled: A Woman's Age Does Not Affect Her Sex Life!

## Maine East student officers

Campaigns and elections are over at Maine East for Student Council and Class Officers.

For the 1980-81 school year Merle Weiner of Morton Grove will serve as president of Maine East's Student Council. Working with Merle to co-ordinate such activities as Homecoming and the V-Show as well as student government affairs are Dave Murov of Des Plaines as vice-president, Georgia Michaels as treasurer, and Joann Mayer of Park Ridge as secretary.

Officers for the Class of '81 are Lenny Gail of Morton Grove as president, David Bernstein of Des Plaines as vice-president, Dave Schmid of Park Ridge as treasurer and Richard Torson of Park Ridge as secretary. Not only will the senior class be sponsoring the Saturday, September 27 Homecoming dance, but the group will be busy planning for the annual prom.

## IIT Drafting Competition

Maine East students again participated in the annual I.I.T. (Illinois Institute of Technology) drawing competition, and in the 1980 competition 2,800 students from the Chicago area alone participated in the advanced machine drawing division.

And in this competition three Maine East students—Steve Cad-dell, a sophomore from Park Ridge; Liviv Closes, a sophomore from Des Plaines; and Nick Golemba, a senior from Park Ridge—earned Special Mention (top 30).

## WORCESTERSHIRE FLAVORS LOW-SODIUM COMPANY DISH

For those of you who must—or choose to—restrict your salt intake, here's a delightfully seasoned low-sodium recipe for Worcestershire Orange Chicken with Almonds! It's so flavorful it's good for "mixed company" (those on and not on low sodium fare). Although it has an oriental flair, it does not use any soy sauce. Soy sauce, which contains three hundred sixty-five milligrams of sodium per teaspoon, is replaced in this dish by original Worcestershire—at only fifty-five milligrams per teaspoon. Per portion, the two teaspoons of Worcestershire in this recipe contribute only about 18 milligrams of sodium when the recipe serves six.

**ORANGE CHICKEN WITH ALMONDS**  
2 tablespoons salad oil 3/4 teaspoon ground ginger  
3 pounds chicken parts 1 tablespoon cornstarch  
1 cup orange juice 1/4 cup cold water  
2 teaspoons original Worcestershire sauce 2 tablespoons unsalted sliced almonds, toasted

In a large skillet heat oil until hot. Add chicken; brown on all sides. Drain off drippings. Combine orange juice, Worcestershire sauce and ginger; pour over chicken. Bring to a boil. Reduce heat and simmer, covered, until chicken is tender, about 35 minutes. Mix cornstarch with water. Add to skillet; cook and stir until thickened, about 2 minutes. Sprinkle with almonds. Serve with rice, if desired. Yield: 6 portions. Approximate total sodium content per portion: 85 mg.

"Dear Daddy,  
Thank you for putting me through school. I'm really excited to work and make a career helping people. If it wasn't for you and Mommy none of it would be possible."

There are two very loving parents and a loving daughter out there who've given each other a great deal more than just an education:

Somebody out there with a little less love in his heart did a carving and hacksaw job on a backstop behind Notre Dame High School. The legs supporting it were sawed away forcing it to topple over. Whether or not a disgruntled neighbor was behind the saw has never been divulged by the local newspapers. But while the backstop was an old one valued at only about \$600, the new one installed will cost Niles park district residents \$5,800.

Niles police department had another resignation recently when a detective resigned from the force. While we're not inferring there's any message by one resignation if the Niles village fathers and mother were keeping score, they might begin to inquire why so many police persons have resigned from the force in recent years.

Maine West's baseball team is among the favorites to head downstate to play in the state finals baseball tourney. In the late 50's Coach Al Carsten led Maine East to two baseball state championships.

A couple of seasons back Maine South captured the state basketball championship and its athletic director also formerly taught and coached at Maine East.

While coaching championship teams is not the ultimate achievement for any high school, we have long wondered why these top coaches weren't kept at Maine East.

When they divided the faculty to teach in the newer Maine schools, we often questioned if the Park Ridge clout in the district was a major influence in where the many of the better teachers taught. Certainly, sports coaches transferring is no great loss. But because of their achievements, which are on display in the won and loss columns of the sports pages, it may graphically indicate their abilities over many years. Teachers, however, cannot be measured in such fashion. Thus, we'll always wonder if the winning teachers in the district may have disproportionately left Maine East for Maine South and West in past years.

When a DePaul professor claimed Maine South the best high school in Chicagoland, or in the country, or in the world some years ago, it may or may not have been of much significance. But when we see former state championship coaches move from Maine East to Maine South and Maine West, and proceed to win championships there, we must beg the question regarding the academic faculty, who were also transferred.

chaired several Board committees responsible for building the campus, President William A. Koehnline said.

"Remaining work on the few essential functions of the campus are minor and can be completed within the next few weeks," Gilson said.

The city of Des Plaines and the Metropolitan Sanitary District have given preliminary approval of the fire and safety services and the sewage system, respectively. Officials pointed out that work will continue on some areas of the building and landscaping must be completed.

"Undoubtedly, there will be some inconveniences, but nevertheless, students, faculty, and staff will have a functioning,

could spot him in the water. Within a few moments, Wilson spotted the boy about 5 feet down in approximately 8 feet of water. He tied the ski tow rope from his boat around his waist and made one attempt to retrieve the boy, but lost him in the cold water. He climbed back into the boat and in a minute spotted him again. This time he was successful in retrieving him from the water.

Wilson said Chicago paramedics were waiting on shore by the time he got there with the boy's apparently lifeless body. Paramedics worked on him for a few moments and then left for Northwestern Memorial Hospital. Enroute, they revived the boy who was immediately transferred to the intensive care unit. Hospital officials reported Tuesday morning that Peter was still listed in critical condition and was in a coma.

Officer Wilson, 32, expressed his concern for the young boy stating "I hope he makes it."
