Candidate for Library head declines offer

by Eileen Hirschfeld

An administrator chosen from about 60 candidates to head the Niles Public Library District notified the board May 30 that he would be unable to accept the position.

His telegram, addressed to Harry Pestine, board president, was made public at a special meeting of the whole Tuesday, June 3.

Dr. Donald Foss, Baton Rouge, La., was offered a position with the stipulation he take office by June 1. Pestine cited Foss' "complex personal affairs" and said, "He is not in a controlled situation."

In the telegram addressed to Pestine, Foss said, "Present circumstances prevent me from accepting your generous offer to

serve as administrator of the Niles Public Library District."

He expressed his regrets and suggested the board reopen the search.

Five candidates were originally selected for interviews from the 60 applicants who applied in November. All applicants were screened by Robert McClarren, system director, and

Blase seeks community backing against HUD bill

Niles Mayor Nicholas J. Blase is seeking backing from neighboring communities in opposing a proposed bill now before Congress which would allow the Department of Housing and Urban Development to review the zoning ordinances of the suburban communities.

According to Blase in his letter to the local Mayors, "The power to zone may be the most important power that we have, and any interference by a federal agency in the exercise of that power, is against our better interest."

Blase also cited the originator

Leaning Tower presents plans for YMCA expansion

Zoners delay approval of 'Y' addition

by Diane Miller

The Niles Plan Commission and Zoning Board of Appeals delayed their decision Monday evening on the approval of an addition to the Leaning Tower YMCA, 6308 Touhy ave., Niles.

Marvin Lotz, executive director of the Leaning Tower YMCA, together with his architect Charles Winkler of EKS, architects in Park Ridge, presented the commissioners with plans and detailed drawings of the new 140' x 200' fieldhouse they plan to

construct on the east side of the existing building. The proposed fieldhouse will house a running track and basketball court on the first floor and a partial second floor will contain 8 multi-purpose classrooms with restroom facilities. The building height will be 35 feet at the center sloping down to 25 feet on either side of the structure.

In addition to the new fieldhouse, a second floor ad-

Bugle roses to Niles police officer Roger Wilson who saved a drowning 14 year old boy in Lake Michigan. While the young lad's condition is still critical, we have the utmost respect for anyone who would dive into those 50 degree water temperatures to save a life. Also, being a non-swimmer makes us respect him even more.

The Niles Lions' street map of the Village of Niles is ready for distribution and the 'boys' really deserve a pat on the back for a job well done.

The design work is beautifully done and in addition to the detailed street map, the reverse side contains a complete listing of all village services together with their addresses and phone numbers, listing of schools, churches, hospital facilities and the Lions Code of Ethics which makes them so proud of their motto, "It's Great to be a Lion."

Ang Marcheschi, general chairman of the project tells us 13,000 copies will be mailed to every home and business in Niles. Additional copies will be available at the Village Administration Building, Police Department and Royal Welcome.

Residents in the Oakton and Oriole area were amazed on Memorial Day, May 26, to see a line of ducks marching down their street. Leading the entourage was a mother duck and her 13 ducklings. It brought out curiosity seekers from the whole neighborhood and their first question was, "Where did they come from?" Fearing for their safety since they were rapidly approaching Oakton st., the neighbors formed a "posse" and captured the mother and her 13 little ones. A phone call to the custodian at Ridgewood cemetery at Milwaukee and Central rd.

While off duty in a boat on Lake Michigan off Olive Park, Wilson was alerted by a Chicago Police officer, on shore, of a boy in the icy water near his boat. Wilson and his companion proceeded to look for the boy, who had slipped

into deep water. After circling the area they sighted the bottoms of a pair of tennis shoes beneath the surface and Wilson plunged into the water and rescued the drowning lad. Wilson's com-

Safety hints

By Alan J. Dixon
Secretary of State

The motorcyclist has the same right-of-way privileges as the drivers of other motor vehicles, and he is entitled to the same courtesy and consideration. Keep the following safety rules in mind when you are on the same roadway with a motorcycle.

1. Don't crowd a motorcycle. Allow more following distance than you do for a car. A motorcycle often can stop faster than your car because it is much lighter in weight. Also, getting too close may make the cyclist nervous and cause him to lose balance and fall in front of your car.
2. Regardless of size, motorcycles are entitled to use the full width of the traffic lane, the same as a car. Do not try to stop next to a motorcycle in the same lane, either change lanes or stay behind. Do not try to pass a motorcycle in the same lane that it is using.
3. If you are following a motorcycle; allow plenty of distance when approaching a railroad track. If the crossing is rough or the tracks cross the road at an angle, the rider will need room.

Need ordinance to regulate time for putting out garbage

Dear Mr. Blase:
I moved to Niles six years ago, first owning a 3-flat on Wisner and then for the past three years a home on Olcott and Dempster. On Olcott, for all these years, there has been a problem which I feel should come to your attention. For all that time I have been overwhelmed, puzzled, annoyed and finally exasperated at the residents' penchant for putting trash out earlier than the

scheduled pick-up date. Our day in the area is Thursday morning. I have witnessed discarded hot-water heaters, washers and dryers, bags and bags of garbage in front of many homes as early as Friday afternoon! For the past three weeks one home on Olcott has had their trash out in front from Saturday afternoon! There is a prevalence for most homeowners to bring their trash out on Tuesday afternoon for a

Thursday pick-up. Never in my wildest imagination can I plan a reason for this total disregard to the appearance of the village. This causes a blighted appearance to the community - an eye-sore and eventually a health hazard. (Allow me to direct my remarks to that area extending from Milwaukee to Harlem and from Oakton to Dempster where I find this custom prevalent.)

I have called the Village Hall at least a dozen times last year and they have always been cooperative and helpful in personally approaching many specific offenders. However, this problem is definitely getting out of hand and I feel there should be an ordinance to regulate the time between putting out the trash and the actual pick-up date.

Sincerely
Melanie F. Sikorski

Skokie has day care for older adults

Dear Editor:

A day care center for older adults? Yes, we have one here in Skokie. Contrary to Channel 2's presentation last Tuesday on "Battered Parents", one other facility does exist in the metropolitan area to assist in short-circuiting relationships that might result in battered parents.

GREAT OPPORTUNITIES (G.O.) is caring and skillfully operated by the professional staff of Niles Township Sheltered Workshop.

Many families have found that in the tradition of the Fifth Commandment to honor one's father and mother, it is more humane and effective not to "warehouse" parents and other ambulatory, continent, though handicapped adults. However, with more women working, or having heavy nuclear family responsibilities, they need relief. But, they must feel assured that their loved ones are protected from accidents and receiving a balanced meal; that they are stimulated (lectures, trips); find interesting, creative activities (ceramics, sewing, painting, etc.); maintain a concern for a healthy body (body toning, aqua exercises, health

care) and they are not lonely and are able to socialize and make friends with their peers, or have the ear of a trained counselor/advocate.

GO also offers opportunities for dignity and self-worth through paid work.

GO is open five days a week from 8 a.m.-4 p.m. More information may be obtained by calling 679-5610.

The Life Alert information system consists of a bright orange vinyl packet which is pressure sensitive and adheres to the front of a refrigerator, the glove compartment of a car, or any other place where it can be easily seen.

The Life Alert packet contains a health record of a person such as who to contact in case of emergency, physician's name, blood type, allergies, health conditions which are being treated, medications prescribed, health insurance information, etc.

The Life Alert packet will be a valuable tool to emergency medical personnel arriving on the scene involving an unconscious person.

Anyone interested in obtaining a Life Alert packet free of charge can do so by stopping by the North Maine Fire Department at 9301 Potter rd. in unincorporated Des Plaines, between the hours of 8 a.m. to 5 p.m. any day of the week.

District 63 Board sets June 16 closing date

At a continued meeting of the District 63 School Board on May 28 a resolution was passed that declared that June 16 would be the last day of pupil attendance for the 1979-80 school year.

The current calendar adopted by the Board accommodates the student attendance requirement although the District experienced a nine-day strike last fall. However, the East Maine Education Association advised the Board that their interpretation of the teachers' employment requirement, as stated in the contract, indicated that the requirement would be met June 16, 1980. The Association also stated that if the Board required teachers to provide service through June 20, the EMEA would initiate a grievance that may require the Board to pay four days' additional salary which would amount to an expenditure in excess of \$100,000.

District 63 parents will receive specific school closing instructions and revised school activity calendars as soon as they are available. The Board expressed

suggested Lotz contact the two industrial properties immediately to the rear of the YMCA, namely Queensway to Fashion and Republic Molding, to see if they were willing to give him a letter of approval allowing him to use their parking facilities should an overcrowding situation arise. Lotz said he felt sure they would cooperate with him.

In light of this, the board voted to delay their decision on the zoning approval until the July 7 meeting at which time Lotz will present them with the letters from the companies, together with the results of a traffic survey he has taken.

Presenting the award to Officer Wilson is Niles Police Chief Clarence Emrickson (r) and Village of Niles Mayor Nicholas Blase (r). Stated Chief Emrickson, "We are most proud indeed of the act of bravery displayed by Roger. Unlike other occupations, police officers are on duty 24 hours a day, every day of the year, and his actions truly reveal that police officers do not leave their work at the office when they go off duty."

Mayor Blase congratulated the officer for what he called "a job well done and a beautiful act of heroism". When asked to comment Officer Wilson modestly stated, "I'm a police officer sworn to protect life and property—I guess I was just at the right place at a time when someone needed my help."

Lotz noted the financing of the expansion would be handled through the sale of bonds which he hoped would be completed by fall so construction could begin.

While the YMCA will have approximately 400 parking spaces available when the addition is completed, Commissioner Angelo Troiani questioned Lotz on the possibility of lack of parking facilities during peak periods at the YMCA. Lotz stated that while their program structure has been successful in preventing a problem such as this up to this time, he could not give them a guarantee for the future should their enrollment increase in any sizeable numbers. He stated in his memo, "If I didn't know better, I would think that this was a document submitted by the ACLU, or some like group, proclaiming the importance of HUD's being able to administratively review our ordinances regarding zoning. We cannot allow HUD, or any other Federal administrative agency, to judge our local laws."

In conclusion Blase noted, "It is time that we not only contact our Congressman and our Senators about what could be a horrendous injustice, but it is also time that we smaller cities take a second look at what the National League of Cities is doing to us instead of for us."

REPLACE YOUR OLD GAS FURNACE NOW
With a New Gas Efficient Climatrol
Don't Wait - It May Cost You Money

DESCRIPTION
These spark ignition gas furnaces are designed for reliable, efficient and quiet operation, as well as easy installation and application versatility. Upflow, counterflow and horizontal models are available. All are A.G.A. design certified for natural gas; upflow models are also C.G.A. approved.

A spark-to-pilot ignition system replaces the conventional standing pilot, thermocouple and safety shut-off unit. The pilot is ignited directly by a high-voltage spark. A redundant type gas valve is supplied for main burner control and is used on all models. The system is controlled from a low-voltage thermostat and incorporates a flame sensor that safeguards against loss of pilot flame for any reason.

The entire line is equipped for air conditioning. Blowers and drives have been sized to easily handle the listed cooling capacities.

High-grade carbon steel heat exchangers are used in all furnaces. Steel burners are specially protected to resist corrosion and provide quiet, efficient operation. The flame is readily visible to simplify quality adjustment.

The cabinets have foil-faced fiberglass insulation to reduce jacket loss to a minimum and further provide quiet, economical operation.

James Johnson, Assistant Regional Director-Census, says the round-up should be completed soon.

"You can easily tell if someone who knocks on your door is a census taker," Johnson advises. "They wear red, white and blue identification cards with the U.S. Department of Commerce seal and 'Census Enumerator, Official Credential' printed on them, and each bears the wearer's signature. Census takers also carry large portfolios boldly lettered 'U.S. Census-1980' against a red, white and blue background. The portfolios contain maps, questionnaires, and other supplies."

Householders should promptly report to the police anyone who claims to be a census taker but cannot produce this identification.

Jogging at your age?

Age does not have to be a roadblock to enjoying the benefits of jogging. Dr. Lawrence M. Rubin, a Morton Grove podiatrist and representative of the Community Health Information Council offers the following tips for senior adults who want to jog.

"Even persons with pacemakers are jogging," Rubin said. "Check with your family physician before you start," he cautions. "Your doctor will probably tell you how to count your pulse beat before and after running."

According to Rubin, elderly joggers should not only "warm up" with exercise before running, but also afterwards in order to wind down and to reduce perspiration.

It is important to replace lost fluids after running, but do not drink alcoholic beverages after jogging, Rubin said.

Jogging does not require much equipment, but a good pair of running shoes (not just an old pair of sneakers) is important, he said.

Senior adults who want to learn more about jogging can call the Community Health Information Council's Health Tele-Facts at 966-9940 and listen to an informative recorded message titled "Jog at Your Age." Information on other health topics is also available.

In that same Oakton-Ortolo area which consists mainly of 2 and 3 flat buildings, a resident told us that recently one of his neighbors undertook a cleanup campaign going up and down the driveways and along the curbs picking up papers and debris. Just as he was finishing the last building on the block, he found a \$20 bill in the gutter which his fellow neighbors seemed to regard as an ominous "thank you" for being a good guy.

We've been told if the volcanic cloud from the Mt. St. Helens eruption has an effect on the crops in Illinois, it will be a beneficial one. This is according to a geologist with Illinois State University in Normal.

Niles Olympic potential speed skater Pat Moore dropped into the Bugle office the other day looking very summery in his jogging shorts. Pat tells us his summer training consists of working out 3 to 4 hours a day and that actually keeping in shape in the summer is much more difficult than in the winter. In his spare time he is doing lawn cutting and painting jobs and setting the money aside for training trips to Europe in the fall. Sheldon Wolfe also presented a \$500 check, representing the Glenview Terrace Nursing Center, Glenview.

"We're extremely appreciative of civic minded individuals and organizations such as these," responded Dr. Gibbs, accepting the donations. "It's particularly gratifying to know that our North graduate, Stan Aron, became interested in the nursing home field through our district's cooperative vocational education program," he added. Gibbs also lauded Shidrock as a very active member of the Stadium Light Brigade, who had personally hosted the Mayoral Proclamation Luncheon in April.

Earlier contributions to the lights fund included a \$1,000 donation from the Niles North Student Activities Fund, \$700 given by the Fel-Pro Better Neighborhood Fund and donations of \$500 each from the Niles West Booster Club and the Niles West Student Activities Fund. Chicago Futubakai School, Redlin, Inc., Archel M. Hanson, L.A. Westenberg, Felix Grundstrom Landscaping, Ace Hardware of Skokie, Niles North PTSA, Old Orchard Junior High School, Neil J. King, the Niles East Booster Club and Wm. Meyer have each contributed between \$100 and \$400.

Three of the five villages feeding into District 210 have also pledged contributions, contingent, in two of the three cases, upon the donation of a pro-rated share by the remaining two villages.

Citizens Bank wins awards

Citizens Bank & Trust, Park Ridge, recently won three advertising awards at the Twelfth Annual 1980 Eagle Awards Competition sponsored by the Chicago Financial Advertisers. The awards are given in recognition of outstanding financial advertising in the Chicago metropolitan area.

Citizens Bank won the coveted "Eagle" plaque for the best radio commercial presented on any radio station in the Chicago Metropolitan area by a financial institution with \$200 million or more in total resources. The bank also won "Certificate of Excellence" awards in the open class and in the direct mail categories for over \$200 million in assets. The open class award was for Citizens' overall marketing program designed to create greater awareness for the bank's services. In direct mail, the bank was recognized for its 50th anniversary commemorative book.

A special group of qualified judges with diverse backgrounds in communication and advertising was chosen from experts across the nation to select the most outstanding advertisements in each of several categories. Judging was based on appearance, creativity, content, and overall impact and effectiveness. Citizens Bank and its advertising agency, Storey, Berman, and Freer of Chicago, are currently involved in a continuation of these award-winning marketing programs. Newspaper, magazine, direct mail, and radio advertising are all being utilized to promote Citizens as "the biggest bank in the suburbs".

ED HANSON

A woman's age does not affect her sex life!

According to a current book by Barbara and Joseph Giovanni entitled *To Your Good Health*, "Women of any age are capable of love and sexuality... some women in their sixties and older confirm this fact... menopause does not end sex... nor does widowhood, divorce or desertion..."

There's nothing new about all this. Doctors, psychiatrists, and gynecologists have confirmed this biological medical fact for years.

One of the best chapters in *To Your Good Health* is the one dealing with a woman's grief over losing her husband of many years and the emotional trauma of developing wrinkles. I, being an expert psychologist, sociologist, phrenologist, philologist, numerologist, graphologist, anthropologist, conopologist, and sexologist, with years of experience in dealing with bereaved widows and disenchanted divorcees, can unequivocally state, in most cases, the loss of the husband does not provide anywhere near the shock to the widow or divorcee that the discovery that she has developed wrinkles does. Mary Tyler Moore, the popular TV actress, almost blew her mind when she became the victim of premature wrinkles. It practically "blew" her off the tube, too.

The loss of a long-time husband and excellent provider, by death, divorce, desertion or whatever the cause, is a traumatic shock to any woman past 45. But, this, coupled with the discovery of "wrinkles", is an emotional wallop that has knocked many a woman out of the box.

To illustrate my point, at a meeting of the National Association for the Betterment of Women of America, at my table was a woman who had recently suffered through such an emotional shock. She was 62, well groomed, expensively attired, good looking, and shapely (in a matronly way). After she received the usual amount of tea and sympathy from her female cohorts, I said to her rather loudly, "How about a drink, prune-face?"

"Silent screams" amid hateful glares and looks-that-could-kill flowed from her sisters-in-arms in my direction! What they didn't understand was my vast knowledge of clinical psychology. I knew the value of "shock therapy." Oddly enough "prune-face 62's" face wreathed into a bright smile and she replied coquettishly, "I'll have a double vodka martini!"

The rest of the middle-aged biddies of the N.A.F.T.B.O.W.O.A. soon made a hasty departure. Some muttered unprintable remarks about my ancestry, while others, more ladylike, just cast hateful looks in my direction.

"Prune-face", 62, remained and I joined her. After three more doubles, I gathered the impression she felt single again.

After we left in her Mercedes I said, "So, what's a wrinkle or two? Never, never make a big issue over a little tissue. Proper cosmology can erase it."

My real mission in life is to help people. I helped "prune-face", 62, by simply quoting to her from passages in a very splendid book, *To Love Again*, even if it was written by a woman, Bernadine Kreis.

Ms. Kreis wrote in the beginning of her book: "As a widow, I discovered that there is a special kind of loneliness reserved for men and women—whether widowed, divorced or never married—who yearn to love and be loved by one individual with whom they can identify and share their lives... Our search for love is not of the past or of the future. It is of the now. In our loneliness we can't afford to cling to the past and have little hope of the future. We want what we haven't got, and we're not sure how to get it. We feel a gathering sense of helplessness and hopelessness... If you are searching for love, you already know that it is an uncharted course... It's a gamble, a risk... Every important endeavor entails a risk, balanced against the hope of everything we do and everything we don't do. I believe that for most of us, apathy, passivity and timidity are more dangerous than reaching out for life and love..."

If you have a problem similar to that of Bernadine Kreis or Ms. Prune-face, 62, get the book *To Love Again* from the Niles Public Library. (See a friend of mine there, Arthur Galati, who is the most polite, cooperative, and knowledgeable librarian I've ever met. In fact, I think Galati is not only a credit to his profession but that he deserves a big raise. He is solely responsible for the Niles Library getting all my business.)

Incidentally, the last I heard of Ms. Prune-face, 62, is that she is alive and well and living it up with a British playboy 25 years her junior on the French Riviera.

I further understand the dashing Britisher actually worships the ground Ms. Prune-face, 62, owns.

The reverse is sometimes true, too. Let me give you a for-instance: When I was 42 a woman of 21, who ultimately became a successful soap opera actress, wanted me to marry her. I chose not to marry her, feeling that she was too old for me. I figured that when I was 52, she'd be 31. When I was 62, she'd be 41. When I was 72, she'd be 51. Today a man of 72, particularly a man like me who has the body, strength and vigor of a 30 year old with the mind of a genius, would find himself saddled with a 51 year old

broad who intellectually speaking would be a "nit-wit" compared to me. I would be forced to get a divorce on the grounds of mental incompatibility. Besides, I reasoned, if I waited until I was 82 I could marry a wealthy girl of 25, thus topping the celebrated Fred Astaire, whom I taught to dance. However, the loss of me to the then struggling young actress was a terrible traumatic and emotional blow that almost destroyed her; she did go on and make a name for herself as a very successful TV soap opera actress. What made her so successful is she always plays the other woman who loved and lost. When she acts she is able to put into her big, beautiful brown orbs that bitter-sweet expression of "unrequited love"... the end result of her tragic love affair with me.

P.S. She still sends me a big Valentine box filled with fifty dollar bills every Valentine's Day, with the understanding that if I ever marry no more Valentines. I merely state this fact of life to the many women of all age groups in the United States who constantly continue to propose to me. And as this is leap year the mailman at the "Y" is suffering from enough "back strain". Enough, already, Ms. Toni Tucci... you've got much too much "mileage" now!

Young Authors assembly

On June 10 at 10:15 a.m. at Washington School in Glenview, the students will have an assembly honoring their "Young Authors". 88 students from Kindergarten through 6th grade have written original manuscripts on varying topics.

All forms of written expression have been encouraged by the classroom teachers, ranging from Haiku Poetry to mystery stories. Two of these manuscripts were entered by District 63 in the Illinois Young Author's Conference, authored by Christina Choi and Donna Kravis, both fifth graders.

During the Washington School assembly, Donna and Christina will read a selected portion of their books to the student population. In addition, an author, Paul Schneller of Psychotechnics Inc. in Glenview, will tell about how he researches and writes factual stories. The short story "One Magic Moment" a biographical account of how Florence Chadwick swam the English Channel, will be discussed with the students.

All students are preparing for this presentation by listening to and reading the story in advance within their classrooms. Students can then participate in the discussion with Mr. Schneller. An afternoon is planned that will allow the "Young Authors" to read their books to fellow classmates. Reading coordinator, Lucille Solomon, continually emphasizes the relationship between reading and writing. "Our students are enjoying reading the printed word and using their own words and ideas in print."

MONNACEP summer classes

The summer term of MONNACEP, the adult education element of Oakton Community College in cooperation with Maine, Niles and Glenbrook high schools, gets underway on Monday, June 16.

While some of the most popular course sections have been filled, space is still available in most, according to Alex Krugel, MONNACEP director. "When we get enough people on a waiting list for a course, we will add a section," he said.

For further information about MONNACEP courses and registration, call 967-5821.

Scholarship winner

Marillac junior, Daun Webber, daughter of Mr. and Mrs. Robert Webber of Morton Grove, is the recipient of the Sister Constance Scholarship Award. Funded by the Inter-Class Council, the scholarship is a full-tuition award for Daun's senior year.

Named after Marillac's first principal, the scholarship is presented annually to the junior who most exhibits service in the school and community, involvement in activities, strong character, and academic achievement.

Daun's involvement in Marillac is evident in her three years as class secretary; she will lead her class as president next year. She is a two-year member of the Pom Fov Squad and a three-year gymnast, school journalist, and dancer. As a freshman, Daun won her class's Spirit Award.

Last year's winner, Karen Tobias (Morton Grove) presented

Daun with the Scholarship Award at the Awards Ceremony on May 28.

Among the other awards presented on Wednesday night were seven Cynthia Wright Music Scholarships. Named after a Marillac junior who died in an auto accident in 1971, the financial aide is given for private music and voice lessons. Full year scholarships were presented to Michele Ziemann (Park Ridge), Nancy Dispart (Niles), Eileen Dulan (Niles), and Mary Kay Pasquesi (Glenview). Semester grants were given to Caryn Krueging (Niles), Margie Sitko (Morton Grove), and Peggy Wiener (Northbrook).

TURKEY CHAMPIGNONS

(Makes 6 1/2-cup mold and about 2 1/4 cups sauce)

1/2 cup butter
1/3 cup flour
1 teaspoon salt
3 cups liquid
1 instant nonfat milk
2 slightly beaten eggs
3 cups (about 1 cup raw) cooked rice

2 1/2 cups ground cooked turkey
1 cup chopped celery
1 cup chopped onion
1/2 cup chopped pimientos
1/2 cup coarsely chopped walnuts

1 1/2 cups (1/4 pound) sliced mushrooms
1/4 cup dry sherry

Melt 1/3 cup butter in medium saucepan. Stir in flour, salt, and pepper. Gradually stir in liquid instant milk. Cook over medium heat, stirring constantly, until mixture comes to a boil and thickens. Gradually stir 1 1/2 cups sauce mixture into eggs. Reserve remaining sauce mixture. Combine egg-sauce mixture, rice, turkey, celery, onion, pimientos, and walnuts in large mixing bowl. Line bottom of buttered 6 1/2-cup ring mold with wax paper. Spoon turkey mixture into mold. Place mold in pan about 2 inches deep. Pour hot water around mold to 1-inch deep. Bake in moderate oven (375°F.) 50 minutes. Cool 10 minutes. Cook mushrooms in remaining butter and sherry; stir into reserved sauce. Heat to serving temperature. Loosen edges of mold. Invert mold onto platter. Serve with mushroom sauce.

1980 seasonal electric rates that will help us all save.

In the past, our customers paid a uniform rate year round for the amount of electricity used. But times have changed.

Energy conservation is a national policy. A necessity. And we believe that seasonal rates, introduced last year, can help. Not only to conserve energy now, but also to moderate rising energy costs in the long term.

Although the old, uniform rate was easier to understand, it didn't actually relate to the cost of producing electricity. Because the cost varies with the season. Customer demands for electricity are highest in summer, so we have to invest in expensive new generating capacity to meet summer peak demands. Reducing these peak loads, therefore, would benefit us all.

Before, with a uniform rate, there was less incentive to hold down use in summer when conservation was most needed.

Seasonal electric rates are, therefore, higher in summer and lower during the rest of the year. For the four summer months, the charge will be 5.9¢ per kwh and then drop back again to 4.8¢ per kwh for the next eight months.

For the average residential customer, the rates will balance out and the total annual cost will be the same. But for the customer who watches summer energy use closely, there's an opportunity to save energy and money.

If you have an air conditioner, you now have an added incentive to keep the thermostat at an energy-saving 78°. Also to clean the filter regularly. To keep storm doors and windows in place all year long. To pull blinds on sunny days. To limit hours of use. Or if you're planning to buy an air conditioner, select a machine with a high-energy-efficiency ratio (EER of 8 or higher).

Lowering summer demand for electricity will reduce the need for new investment. And that will help slow the rise in electric rates in the years ahead.

There are 101 additional ways to conserve energy that we'd like to share with you. You'll find them in "The Waste Watcher's Guide." For a free copy, write Commonwealth Edison, Department AV, Box 767, Chicago, Illinois 60690.

Table showing seasonal electric rates for 1980. Columns: JANUARY, FEBRUARY, MARCH, APRIL, MAY, JUNE, JULY, AUGUST, SEPTEMBER, OCTOBER, NOVEMBER, DECEMBER. Rows: kWh per hour. Rates: 4.8¢ (winter), 5.9¢ (summer).

The 1980 Electric Year.

The electric rate will be slightly higher in summer to encourage conservation - but lower during the rest of the year. Your summer rate may begin as early as May 15 and end as late as October 14, depending on when your meter is read. However, it will never exceed four months. You can determine the approximate beginning for your particular residence by looking at the billing period on the stub of your May bill. If the period ends on May 15 or later, the ending date is the start of the first summer billing month for your home. For example, if it is May 30, the bills for the periods ending on or about June 30, July 30, August 30 and September 30 will be at the higher summer rate. And after September 30, the kilowatt-hours you use for the next eight months will be billed at the lower winter rate.

Alcoholism lecture series

In response to the high level of community interest in alcoholism and its problems, the Maine Township Council on Alcoholism is offering its twelfth public discussion and lecture series on the subject.

The sessions will begin June 11, and are being presented each Wednesday at 7:30 p.m. for five weeks in the Council offices at 2510 Dempster, Suite 116, Des Plaines, according to Robert McGann, executive director, conductor of the series.

The goal of these free programs is not only to inform the public about alcohol and alcoholism, but to develop an open exchange of ideas on this pressing topic, says McGann. New topics and speakers have been added to previous series presented by the Council.

The schedule includes a new film, "Short Distance Runner," on June 11 covering young adult alcohol problems. June 18 topic is "Alcohol-Alcoholism, A Disease and its Progression."

June 25 Eileen McGann, Director of Alcoholism Services, Kane-Kendall Mental Health Center in Aurora, will be guest speaker on the subject of "Recovery Stages, Alcoholic and Family."

A film talk on alcoholism by Father Joseph Martin, foremost educator of the general lay public in the field of alcoholism, will be shown on July 2, and "Assertiveness and Communication," an overview of the five week series, will be held on July 9.

Everyone is welcome to attend any or all of the five programs in the series-individuals, families, youth, clergy, social workers, doctors, nurses-says Bob McGann. For further information, contact the Maine Township Council on Alcoholism at 297-0240.

M-NASR summer programs

The Maine-Niles Association of Special Recreation's (M-NASR) summer program season promises to be busy, with many new programs complementing returning favorites. Each M-NASR program is designed to meet the special needs of special populations, and to insure a fun filled and successful experience.

Summer programs for adults, teens, and children include: eight summer day camps, social clubs, the 3rd annual Softball Marathon, trips to Great America and Holiday Park, a Hawaiian Luau, and much more.

One new program for mentally retarded adults is "Sail the Seven Seas". Sailing and canoeing lessons, boating safety, and a water skiing picnic day will all be included.

One new program for teens is the Outdoor Adventure. This program will give teens with learning disabilities an opportunity to improve self image while increasing outdoor knowledge. Activities will include canoeing, hiking, orienteering and social service projects.

M-NASR serves the special populations of the Golf-Maine, Niles, Park Ridge, Lincolnwood, Skokie, Morton Grove, and Des Plaines Park Districts. All summer programs begin on June 23 and run for 6 weeks. For more information on how to register and join the summer fun with M-NASR, call 966-5522.
