Niles 1980 tax levy up 8.93%

by Diane Miller

The Niles Village Board Tuesday evening approved the tax levy ordinance for the 1980-81 fiscal year as presented to them by Village Manager Ken Scheel. The tax rate of .5708 per \$100 of assessed valuation reflects an 8.93% increase over 1979. Scheel also told the board that "Niles retains the lowest tax per \$100 of

assessed valuation than any of 23 surrounding communities recently surveyed." He also noted the estimated 1980 assessed valuations of \$288,000,000 reflect a 5% increase and there will be no general obligation bonds to be paid this year since all have now been retired.

The total 1980 tax levy ordinan-

ce is \$1,644,000. 48% of this amount goes to the pension funds for the fire and police departments and to the Illinois Municipal Retirement Fund. The balance includes the General Corporate Fund for \$820,000 and the Street and Bridge Fund in the amount of \$32,000.

District 63 ok's tax increase vote for Oct. 25

by Eileen Hirschfeld

Besieged East Maine School District 63, under the onslaught of both inflation and decrease in state aid, will join the ranks of districts awaiting the arrival of help from taxpayers in the form of a referendum to increase property taxes.

To win support for the Oct. 25 referendum, Citizens for Operation Education called a meeting Sept. 4 with about 70 persons attending including teachers and administrators. A levy of 39 cents per \$100 assessed valuation

Board of Education decides to retain Maine East

District 207 votes to close Maine North

At its Sept. 8, 1980 meeting the Board of Education of Maine Township High School District 207 voted to close Maine Township High School North and took action to offer a referendum to the community on Nov. 22, 1980 to increase the tax rate in the educational fund.

"The closing of Maine North, which has delivered outstanding education to students living in the northeast sector of Maine Township since 1970, is the result of the district's need to consolidate its student population in order to maintain quality education."

Charlotte Storer, President, Maine Board of Education reported.

She commented that quality education for the young people of Maine Township has been the objective of the Maine Township High School system since 1902. She added that the District 207 community can be very proud that this goal has been met through the long period of phenomenal growth that culminated in a peak enrollment of 11,884 students in 1975; and now during a period of un-

If you walk through the hoary halls of Maine East, passing by the trophy cases that celebrate games and scores and championships, you know the school has a long tradition of winning.

In the not too distant past Maine East baseball and cross country teams have rung up state championships, winning contest after contest in their ascent to the top. But the greatest and most important victory in its 78 years occurred Monday night when Maine East beat Maine North, 4 to 3.

It was a classic struggle in the great tradition of contesting. What was different was the loser lost forever. The loser bit the dust, not only losing the battle but also the war. It was the battle between the Trojan versus the Demon and unlike the tales of our youth the Demon came out on top.

Monday night high school board members voted to close Maine North, rather than Maine East, by a 4 to 3 vote. At the October board meeting it will be announced whether the closing date will take place after the '80-'81 or '81-'82 school year.

In a second action the board voted to seek a 40¢ (per \$100 assessed valuation) tax increase in the education fund to take place Nov. 22.

Six hurt in Mill Run brawl

Six men were hospitalized and dozens more injured last Friday night when 200 to 300 people rioted in the Mill Run parking lot after attending a Hank Williams, Jr. concert. According to Niles police, a number of people suffered cuts, bruises, and were quite 'blooded up', but declined treatment and left the scene in their cars.

Niles police officers John Ohlbrish and Don Leavitt were among the first on the scene and

when they saw the number involved in fighting and the injured, immediately issued an 'officer needs help' call. According to Niles Police Lt. John Christie, over 30 squad cars from Niles, Morton Grove, Cook County, Des Plaines, Park Ridge and Glenview responded to the call.

Arrested by Niles police was Anthony Giacalone, 32, 1040 W. Taylor st., Chicago. According to Officer Ohlbrish, he looked into a

Niles Alley Improvement Program

The Village of Niles started an alley improvement project several years ago. The plan, under the direction of Trustee Peter Pesole, Chairman of the streets and alley improvement committee, called for the blacktopping of all alleys in the village. Prior to the project, all village alleys had to be maintained yearly, by adding stone and gravel to the pot holes and ruts that come from use of the alleys.

By the end of this year all alleys that needed improvement will be completed, which is ahead of

the proposed five year alley improvement plan. Stated Chairman Pesole, "I am very happy to say our 'operation alley improvement' is now nearing completion and will not only save money on maintenance costs but certainly is an asset to our overall village beautification program."

Shown above inspecting one of the recently done alleys is Village Engineer, Robert Kahler, Trustee Peter Pesole and Public Services Director, Keith Peck.

Niles Lions kick-off busy new year

The Sept. 4 meeting proved to be a great start for the Niles Lions. Guest Speaker John Moseley from the Eye Donor Registry presented a most informative program showing the need and the opportunity for all of us to take part in this most worthwhile project. The need for eye donors is most important in this area.

Lion William Wetendorf will chair this important committee for the Niles Lions this coming year. You will be hearing much more from us on this project in the days to come.

The Glaucoma Screening Unit of the Lions of Illinois also made its appearance in Niles Last Thursday, Sept. 4 at the Leaning

Tower YMCA. For some, it was reassurance. For a few, it was an early warning of possible glaucoma and a referral to an eye doctor. For all the 97 people, it was a trip to the Lions Mobile Glaucoma Screening Unit for a free test. "We are sure many people are relieved to find they don't have glaucoma, and we feel grateful that if any of the people referred on for further checkups do have glaucoma, they will be able to be helped because the disease was caught in time," said Lion Clarence Willert, Co-Chairman with Lion Joe Kaderabek of this project of the Niles Lions Club. Medical assistance for the program is

provided by the University of Illinois, Department of Ophthalmology through the Lions of Illinois Foundation.

Some 31 people were referred for visual acuity while only 1 person was found to have elevated eye pressure and was referred to an eye doctor for further testing. More than 350,000 people have been tested for the disease statewide since the project began in 1969.

Lion volunteers helping at the unit were: Dave Hoppe, Joe Kaderabek, Charles Pickup, Clarence Willert, Russ McAndrew and Lionesses Lorraine Beusse, Grace Theis, Carol Pickup. A special thanks is due to our volunteer nurse Alice Boballa.

The fall programs of the Niles Lions are now swinging into action and we once again invite you to join with us in Lionism. Candy Day is coming up fast and Chairman Bill Cornelius is charging ahead with his plans to make this Candy Day the best ever for the Niles Lions. Remember, we meet the 1st and 3rd Thursdays of each month at the Lone Tree Inn, 7710 N. Milwaukee ave.

"Gomberg" on Rocky Road to Springfield

Abraham Lincoln once spent several hours trying to convince a farm woman to vote for the Whig Party. He then remembered that women could not vote. Larry Gomberg, Democratic Candidate for State Representative, recently spent some time trying to convince a lady to vote for him. She said "no" very politely several times. Finally, he asked her why she would not vote for Gomberg. She replied he was a nice man but that she lived in Indiana.

Gomberg is a five foot seven version of Abe Lincoln. He worked his way through school and today he is an adult probation officer and former college teacher. He heads up a homeowners association and recently led a fight to increase police protection in unincorporated Maine Township. Gomberg is a prototype of the new suburban Democrat who runs for office. Gomberg wants to abolish the sales tax on food and medicine. He supports full funding of education by the state. He also wants to establish the policy that when the state mandates any local program, it also funds that program and does not burden local taxpayers.

Niles Chamber Chatter

The Niles Chamber of Commerce has issued the following reminder to all businessmen: Naturally, you are a Registered Voter, but have all of your employees registered? Do they know why they should... how and where to do it? Do they know how important and what a privilege their right to vote is? Tuesday, November 4, 1980 is probably the most important date business will experience during the Decade of the 80's. The people elected that day can improve or deplete our precious Freedom of Enterprise System, and it's not only the office of the President. It's all persons elected to public office! Each one will influence the future of both business and labor. And, know it or not, both rise or fall together in our American System. Registering to vote is so easy! Here's all that's involved: 1. Be a U.S. Citizen 2. Be 18 years or older 3. If you live in Chicago: a. Register at the Chicago City Hall or any Chicago Library b. Or register on Oct. 7, 1980 in your Precinct Polling Place (where your neighbors normally vote). If you live outside of Chicago: a. You may register in the County Building in downtown Chicago (if you live in Cook County). b. You may register in your Village Hall or Township Building c. Or register on October 7, 1980 in your Precinct Polling Place 4. That's all... and no fees are involved. 5. Then vote on Tuesday, Nov. 4, 1980! These basic facts are printed on the enclosed flyer, intended for posting on employee bulletin boards. More are available for the asking! You may even wish to reprint the facts and hand them to each employee. Your efforts and cooperation are very important in this total effort. Let's start right now to rebuild our wonderful American Way of Life!

A dialogue with Diogenes

by Dorothy Warnke

Hey, Diogenes, you don't have to go out searching with a lantern any more. I've found that honest man you started looking for back around 300-400 B.C. - only he's a she! You say you want the facts? Well, listen to this...

Last week I pulled just the kind of dumb trick that keeps the less enlightened male members of the human race making snide remarks about a woman's ability to drive. In a hurry, as usual, I forgot to close the passenger door before backing out of the garage to park on the driveway, where it'd be easier to clean the interior of my car. A couple of garbage cans failed to yield the right-of-way and the damage was severe enough that I couldn't close the door. Without repeating the mercifully brief exchange between my husband and me after he heard my tale of woe, I'll just tell you that he opened the Yellow Pages and let his fingers walk through the Body Shop listings. He chose three, mainly because of their handy locations, visited them for estimates, and settled on one run by a woman. She offered the best deal. My little red Maverick Grabber was left in her tender (we hoped) care and we took off for a brief vacation.

A few days later, on a bright, beautiful morning, we called for the car. The lady in charge was driving away but told us one of the men in the shop would take care of us. I stood off to one side while my husband settled the bill, but close enough to hear him say, "But, the estimate was (naming the figure given us)", and the reply, "That estimate was changed." A familiar feeling of combined depression and frustration took over and the morning's brightness seemed to dim. It was our experience that the estimates almost always changed and in only one direction! I moved out of earshot to put off the bad news as long as possible. After the bill was paid, my husband turned and I saw a look of near-amazement on his face as he walked towards me. Smiling, he handed me a receipt showing the charge had been lowered by more than 60% because it hadn't been necessary to order the parts included in the original estimate - a fact we neither could nor would have checked.

After expressing our thanks and appreciation, we left there feeling a bit jauntier and more in tune with the old world. Diogenes. Rest in peace!

Store manager robbed at knifepoint

A 19 year old Niles woman reported to police she was robbed Friday night, Sept. 5 while she was attempting to make a night deposit at the Golf Mill State Bank's drive-in window.

The woman, an assistant manager of a Golf Mill woman's apparel shop, stated she was walking to her auto after closing the dress shop when she was approached by a man whom she recognized as a former employee of the security patrol at the store. He asked the victim if he could talk to her about a reference for a new job. When she told him she was on her way to the bank, he entered the passenger side of her auto and said he would ride over to the bank with her.

The woman told police as she approached the Golf Mill Bank's drive up deposit area, he grabbed her by the arm, placed a knife in to her side and took the deposit bag. The bag contained between \$800 and \$1,200 in cash and \$120 in checks. She said the man told her he needed the money because 'people' were after him and if he didn't pay them, they would kill him.

He forced her to pull over to the curb on Chester st. where he left the car with her keys and told her he would leave them at the deposit box at the bank. Police were notified and a check of the area for the keys proved negative.

Niles Super Tens at Thillens

Thillens 10-Year-Old Tournament players were picked by All Star Coach Mr. Anthony Calarco and approved by the Niles Park Baseball Board. The following players made winning this prestigious tournament possible:

1. Craig Niedermaier was voted by Mr. Calarco as the most valuable player for Niles. Craig hit an outstanding 764 and truly was one of many exceptional players.
2. John Calarco, 611 batting average, hit with the most power with 4 doubles, and pitched brilliantly in many clutch situations.
3. Chuck Pemberton caught a superb tournament and controlled the tempo of our defensive unit. He also knocked in 5 RBI's in the championship game and finished with a 466 batting average.
4. David Geeve batted a solid 437 for the tournament, but truly excelled with his terrific pitching arm.
5. Tom Reid played a new position for him, which was left field. Even at that, he played flawlessly and hit a solid 375.
6. Glen Thompson was one of our heroes who made a lunging play at first base with the bases loaded to stop a South Shore rally. Glen hit a solid 428 for the tournament.
7. Mike Wojciechowski, our All Star right fielder, batted 300 and played a sound outfield.
8. Rob Porzycki had a 461 batting average, but his defensive play at third base was even more enlightening. He made one defensive play after another.
9. Jeff Hay is a natural outfielder. He made the play of the championship game and probably the tournament; with one man on, he went from right center to left center against the fence and made the play. This was one of the most exciting plays of the game. However, he also made two additional catches in a well-played tournament. Jeff hit 583, as well.
10. Tony Schumacher hit a solid 333 and played great defense.
11. Tom Markos, Shawn Parlich and Steve Riley's determination and support helped us to accomplish winning this prestigious tournament.

Last, but not least, thank you to Hugh Porzycki, Dick Geeve, Jack Riley, and batboys, Jason Hay and Brad Niedermaier. Thanks, also, for your dedicated support. We did miss any or all members of the Niles Baseball Board. We would have liked your attendance at the games.

To Mr. Calarco from the team: **WE COULDN'T HAVE DONE IT WITHOUT A GREAT MANAGER LIKE YOU! THANKS.**

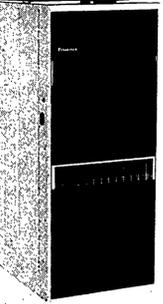

The Niles players shown above are: first row (l-r) batboy Jason Hay, Rob Porzycki, Chuck Pemberton, Jeff Hay, Tony Schumacher, Shawn Parlich, and batboy Brad Niedermaier. Second row: Coach Dick Geeve, Manager Anthony Calarco, and Coach Hugh Porzycki. Missing players were Mike Wojciechowski and Tom Markos.

St. Matthew Home acquires whirlpool and chairlift

Patricia Kessl, (right), St. Matthew Home's director of nursing, shows Administrator Lou Malina, (center), and Rose Ann Wells, (left), a member of the Home's Service League, how to operate the newly acquired chairlift and whirlpool bath. St. Matthew Home in Park Ridge is a program of Lutheran Social Services of Illinois.

St. Matthew Lutheran Home in Park Ridge, a residential facility providing sheltered care, intermediate nursing care and skilled nursing care for the elderly, recently acquired a new whirlpool bath and chairlift.

Members of St. Matthew Home's Service League voted to purchase the new items at their annual luncheon. Money for the purchase of the chairlift and whirlpool bath came from the past fund-raising efforts of the Service League. Such efforts included a theatre benefit performance, a fall sale, bake sales and money earned from a boutique located in the Home.

The installation of the whirlpool bath will benefit the patients in the Home who suffer from arthritis, sore muscles and poor circulation. The new chairlift, which can accommodate up to 400 lbs., is capable of lifting people from their beds and lowering them directly into the whirlpool.

St. Matthew Home is a program of Lutheran Social Services of Illinois, a not-for-profit organization owned and operated by the American Lutheran Church and the Lutheran Church in America. Services include day care centers, counseling, residential programs for children

Social Security provides more than retirement funds

"What you don't know about social security can hurt you," says Marilyn Robertson, manager of the local social security office.

Did you know that in some cases a child may qualify for monthly social security benefits from a grandparents work record? Or a divorced woman may get benefits for her ex-husband's record? Or a parent may be eligible for social security checks from a deceased child's work under social security?

If you didn't know about any of these benefits you're probably among the majority of people who mistakenly think of social security as a program just for retired people.

"Social security is more than retirement benefits," said Robertson. "It provides a wide range of disability and survivor benefit programs and Medicare. In fact, more than a third of the 35 million social security beneficiaries are dependents of retired, deceased or disabled workers." She added that if you're unaware of social security benefits available to you and your family, you risk losing benefit protection you should include in your financial planning.

For more information, call the social security Teleservice number for this area, 823-0815, or contact the Des Plaines office at 701 Lee St., Suite 420.

MONNACEP classes boon to home remodelers

"You learn faster when you learn by doing," according to Ted Sigg who will teach "Home Remodeling Jobs" for MONNACEP this fall. MONNACEP is the adult education element of Oakton Community College in cooperation with Maine, Niles, and Glenbrook high schools.

"Home Remodeling Jobs" is designed to help people who have small remodeling jobs that they cannot do by themselves. "It's a chance for students to get professional advice and some help with their problem," Sigg, who is a home remodeler by trade, explains.

"If you go to a repair manual, you always run into a little different twist when you try to do the job yourself. A book can't cover all the options. But with a hands-on program, we can solve the problems together when they come up," says Sigg.

Students will bring remodeling problems to the first class and Sigg will set up a schedule to meet in the home of one class member each week, where Sigg will demonstrate how to solve electrical, plumbing, or carpentry problems by carrying each job as far toward completion as time permits. Sigg will visit each repair job before the class to purchase materials. Students will pay for the materials used on their job.

"I hope women aren't afraid to sign up for this course. Anyone can learn to do small remodeling or repair jobs. All it takes is confidence," says Sigg.

"There are a whole range of jobs that are too small to get somebody to come out to do, but they are important to the homeowner. This class will help them learn to do it themselves," says Sigg.

"Home Remodeling Jobs" will be offered Tuesdays from 7 to 9:30 p.m. beginning Sept. 30. The first class will meet at Maine

South High School. Tuition is \$35. It is just one of many courses offered through MONNACEP for homeowners. Others scheduled for the fall semester include "Conducting Your Own Residential Energy Audit", "Hanging Wallpaper and Wall Coverings", "Furniture Repair and Refinishing", and "Solar Energy Applications for the Homeowner".

Registration for classes, which begins Sept. 25, may be completed in person at the MONNACEP Centers located at Oakton Community College/Skokie, 7701 Lincoln ave., at the four Maine Township high schools, West and North, and the Glenbrook Administrative Office.

While the MONNACEP business office has moved to Oakton Community College/Skokie, the telephone number remains the same: 967-5821.

The MONNACEP office at OCC/Skokie is located in Room 100. MONNACEP students should use the Mulford st. entrance. Reserved parking is available and the office is located just inside the door.

will be voted upon. East Maine District 63 is composed mainly of Niles and Morton Grove residents with small sections of Glenview, Des Plaines and Park Ridge tacked on. About 3,757 students are in the district.

A referendum, if passed, would bring the district about \$4,000,000 through the 1984-85 school year. According to Richard Smith, board chairman, "The 39 cents would give us time. If we don't (pass the referendum), the time is shortened by that much. After you've cut out everything you can cut out, then you're in deficit."

If the referendum passes, the tax rate will be increased from \$1.81 to \$2.20. Voting will be from noon until 7 p.m. Saturday, Oct. 25 with voting boundaries coincident with school attendance boundaries. Schools are Nelson, Melzer, and Washington elementary schools and Apollo and Gemini Junior High Schools.

In measures to ward off a deficit, board members shut down four schools in the last two years and curtailed curriculum and services. They succeeded in cutting the five-year projected deficit by about \$5,000,000. The projected deficit will remain at about \$8,000,000 unless the referendum is passed.

Dr. Donald Bond, administrator, said the district obtained an appraisal of the Harrison st. property and will be discussed at the next meeting. Bond also reported on negotiations for the leasing of space in Ballard school to the Niles Public Library district for a

month and Mayor Richard Flickinger urges residents to attend all meetings and especially the Oct. 26 dedication of the new facility.

Another "old" that is being happily disposed of is the public works garage, 6416 Main st., which will be sold, collapsed roof and all, to Morton Grove Supply Co. for \$14,000.

The building had originally been part of a property purchase and exchange package. In this deal, the village was purchasing property in the Nagle ave. industrial complex for \$855,000 and the sellers had agreed to accept the Main st. garage for \$125,000 toward that purchase price. The old garage had been appraised at \$114,000.

According to law, a public hearing had to be held on any property exchange and in conjunction with this, other sealed bids were solicited. The only bid received was submitted by Morton Grove Supply, which owns the adjoining property. Trustees were pleased with the higher sale price.

A bid awarded that deals with the "new coming in" went to Berthold's Nursery of Mount Prospect for \$35,300, covering landscaping for the new police and administration building.

And another "new" is the appointment of Deputy Chief Bernard Brady as acting fire chief. The police and fire commission will be conducting examinations to determine the permanent replacement for retiring fire chief Fred Huescher.

A continuing problem for Morton Grove, and many communities is the 1980 census count. Village planner Chuck Sheek said the census bureau has "found" 450 more dwelling units in the village, but he feels the count should still be going higher.

Con'd from Niles-E. Maine P.1 bers approved the request from the Learning Tower YMCA, 6300 W. Touhy ave., to construct an addition to their existing building which would include a gymnasium, a running track and several classrooms. According to Mary Lotz, executive director of the YMCA, the new facilities are sorely needed. In addition, a second story will be added to the present structure to provide more racquetball facilities. After the board voted its approval of the addition, Mayor Nick Blase commended Lotz and the YMCA for their excellent facility and contribution to the community.

Mayor Blase presented a plaque to retiring Niles Animal Warden John Morgan, Sr., commending him for his 12 years of service to the village. Blase noted Morgan was the village's first true animal warden and he had made an outstanding effort in creating goodwill in the community. Morgan is moving to Eagle River, Wis.

The Board upheld their previous decision to oppose a change in zoning at 9040 Greenwood in the unincorporated area. The petitioners sought a change in zoning from Cook County so a 3 car garage could be constructed on their property for the storage of 2 trucks and special equipment needed to operate a landscaping business from the residence. The trustees reiterated their previous opposition to the business use of the residence stating it would set a precedent in an area zoned for single family homes only.

Approved a bid of \$4,860 from the Plastic Sign Co. for the remodeling of the existing double face sign in front of the Niles Police Station at 7200 Milwaukee ave.

Awarded bids for the 1980 Village Roadway Improvement Program to "K" Concrete, Inc., in the amount of \$145,902.70 for the improvement of Davis st. from Cumberland to Greenwood and Monroe st. from Prospect st. to Cumberland.

The Adult Film Series continues at the Morton Grove Public Library with the showing of "Anee Boleyn" in the English series, "The Six Wives of Henry VIII" on Wed. Sept. 17 at 2:30 and 7:30 p.m. in the new Baxter Meeting Room.

precedented decline finds 9,325 students registered in the Maine High Schools on Sept. 5, 1980.

"With the student population in District 207 expected to drop below 7,500 by 1983 and a budget deficit of \$14.8 million forecast for the school district by 1984, the Board of Education can no longer justify or afford the operation of four high schools," she maintained.

Storer noted that although the decision to close a Maine High School was made by the Board of Education in conformance with state laws governing such actions, the Board members carefully reviewed a wide range of community input. As the district considered how to deal with the impact of declining enrollment, the Board turned to citizen involvement to help research the problem. A 140-member citizens' advisory committee, representing all areas in Maine Township, was formed to assist the Board with Project SEE (Secondary Education for the Eighties). Together with a core group of District 207 administrators, representatives of the Maine Teachers' Association, and Board members, the Project SEE Committee recommended, in mid-June, that District 207 close a high school by 1982 and hold a referendum to increase the school district tax rate, if the school district is to maintain a quality education program in the remaining three high schools.

After a comprehensive and thorough examination of the many unique features of the four Maine High Schools, considering each building in light of geographic location, enrollment capacity, academic program, structural condition, and recyclability, Storer said the Board decided to close Maine North.

"It was a very difficult and agonizing decision to make because we were looking to make the very best decision; a decision that we could look back at in five to ten years and agree was the best decision."

She added that it has been a tradition of Maine Boards of Education to plan ahead, not wait for crises to act. She said, "The building of Maine North was the result of a Board of Education planning ahead so that thousands of Maine Township High School students would not be short-changed by having to be educated in severely crowded schools, or come to school in shifts." She asserted: "The closing of Maine North and the holding of a referendum is the result of this Board of Education planning ahead to maintain quality education and to preserve the financial integrity of the school district."

The announcement of the closing of Maine North will lead to many students who are presently attending that school to wonder which Maine High School they will go to in the future. Interested persons in the community will be concerned about adjustments in school boundaries to accommodate three instead of four school buildings.

At the Sept. 8 meeting, Dr. Richard Short, Superintendent of Schools, presented a proposed plan to the Board of Education for consolidation of student enrollment in three Maine High Schools. It addressed the many matters about which the Board of Education and the administration must make decisions. It delineates the procedures and established target dates for the accomplishment of various activities.

The plan calls for the Board of Education to act upon recommendation of the administration relative to attendance boundaries for a three high school district at its October, 1980 meeting. At that meeting the Board will also designate a specific date for vacating and closing Maine North.

The plan recommends the appointment of a task force immediately for the purpose of developing a recommendation to the Board on the use of disposition of the vacated school property. These recommendations would result from input of realtors, appraisers, legal counsel, and other professionals and would be submitted to the Board at the earliest feasible date.

With regard to personnel, the plan calls for the Board of Education to establish at its November, 1980 meeting a complete administrative organizational plan to include both ten and twelve month administrators so that efficient and effective administration would continue. And that the Board of Education and the Maine Teachers' Association plan for the staffing required to conduct a quality program of education with a minimum of interruption for students' instructional programs.

The Board direct the Superintendent and his administrative staff to develop a comprehensive plan for the reassignment of professional staff members relative to sponsoring, supervising, and coaching a complete extracurricular program.

He added that the long, faithful, and productive service of the employees who have provided this school district with custodial, nursing, secretarial, clerical, security, maintenance, and food services should be recognized on a district basis as the administration plans for the restaffing of the education programs from four buildings into three buildings.

Regarding students, the Board of Education plans to direct that the Superintendent examine in detail the impact which the vacating of a school and the consolidation of students into three schools has on the educational, social, and emotional life of students in all of the Maine High Schools, and that the results of this examination be used in actions taken by the administration in making recommendations to the Board relative to but not limited to the following:

- the date upon which the school should be vacated
- the realignment of attendance boundaries both in time of transition and on a permanent basis
- the scheduling of curricular and extra curricular programs for students in both the receiving and sending schools
- the assimilation of students into the programs and activities of the school both in terms of leadership and in terms of spirit and tradition
- the impact among peer groups both in terms of classroom and out of classroom as related to grades, selective roles, honors, class rank, clubs
- the adequacy of and availability of transportation to and from all parts of the attendance area to the school serving that area
- the sensitivity with which the human potential of students is enhanced or thwarted in the transitional period of consolidation and realignment of student enrollments

Niles youth in Great America show

While Lee Smolen of Niles spends most of his school year pouring over accounting books and preparing for law school, this summer he has gotten the chance to indulge himself in his favorite hobby, musical theater.

Smolen, a junior at the University of Illinois in Champaign, is spending the summer at Marriott's Great America in Gurnee, Ill., singing and dancing in the park's newest musical revue, "Country Music Time".

He was pretty nervous when he walked into Great America show auditions in February and saw how many people were there. Over 1000 talented young performers vied for 75 openings. Knowing how these statistics affected his chances of being cast in a show, Smolen says he

"screamed with excitement" when he learned that he'd been selected as one of the singers and dancers in "Country Music Time". For Smolen, performing at Great America "doesn't even seem like a job; it's so much fun!"

At the beginning of the season, Smolen was a little concerned about his ability to perform consistently in three to four shows a day, six days a week, all summer long. He says the most performance of one show that he had ever done was eight. At this point in the summer, Smolen and his fellow cast members have performed over 50 "Country Music Time" shows. But Smolen has found that, "it really doesn't get

boring, the show is still so fresh." Although Smolen started singing in junior high school, appeared in a number of musicals at Niles North High School, attended musical theater workshops at Southern Illinois University and has been taking singing lessons for five or six years, he had never performed country music before coming to Great America. He admits that he was a little apprehensive about it at first, but it didn't take long until he was a devoted country music fan!

There's a big difference between accounting and music, but Smolen has found a place in his plans for both. He says he doesn't have time to work on his music while he's at school, so he looks

forward to the summers. He has already decided to audition for another Great America show next summer.

While most of Smolen's friends are pre-law or pre-business majors, and aren't particularly interested in music themselves, Smolen says they understand his passion for his hobby, and have enjoyed coming to see "Country Music Time". He says he loves music and never intends to give it up as a hobby.

Marriott's Great America, located in Gurnee, Ill. at Interstate 94 and Illinois Route 132, is open daily from 10 a.m. to 10 p.m. until Labor Day. Beginning Sept. 6 the park will be open weekends only from 10 a.m. to 8 p.m. until Oct. 13 (Columbus Day).

MILWAUKEE & OAKTON NILES

ED HANSON Arvey's tops the 25 greatest restaurants in America!

In their June, 1980 issue, Playboy magazine ran a feature article entitled, "Critic's Choice", the 25 Greatest Restaurants in America. Claiming to have made the most ambitious culinary poll ever attempted, Playboy asked 120 renowned restaurateurs, chefs, gourmets and food writers to select their favorite American restaurants.

This was the list of the top 25 of America's greatest restaurants: 1. Lutece, New York, NY; 2. Le Francis, Wheeling, IL; 3. The Four Seasons, New York, NY; 4. L'Ermitage, Los Angeles, CA; 5. La Caravelle, New York, NY; 6. Le Perroquet, Chicago, IL; 7. Chez Panisse, Berkeley, CA; 8. The Coach House, New York, NY; 9. The "21" Club, New York, NY; 10. Ma Maison, Los Angeles, CA; 11. Maisonette, Cincinnati, Ohio; 12. La Grenouille, New York, NY; 13. The Palace, New York, NY; 14. Windows on the World, New York, NY; 15. Le Bec-Fin, Philadelphia, PA; 16. Ernie's, San Francisco, CA; 17. Trattoria da Alfredo, New York, NY; 18. Commander's Palace, New Orleans, LA; 19. The Mandarin, San Francisco, CA; 20. Le Lion D'Or, Washington, D.C.; 21. London Chop House, Detroit, MI; 22. Jack's Restaurant, San Francisco, CA; 23. Fournoi's Ovens, San Francisco, CA; 24-25. La Orangerie, Los Angeles, CA; 24-25. Tony's, Houston, TX.

They didn't need to go to all that expense and nonsense. All they needed to do was ask me and I would have given 'em one restaurant, which, in quality, tops all these high line, fancy, snob joints. And that place is... Arvey's, 7041 Oakton st., Niles. You can't eat atmosphere, but atmosphere is basically what you're paying for in these snob greasy spoons. You can spend as much as \$400 for dinner for two at the Palace in New York, NY, and on top of that, you can figure a tip of \$40 to \$50 bucks! At Arvey's, for example, you can get Broiled King Crab Legs and melted butter for only \$6.95, or Broiled Filet Mignon with mushroom caps for \$6.95 or Dover Sole, Saute Veronique with White Wine and Grapes for just \$5.95.

And at Arvey's a tip of \$1 is just fine, but don't go over a two dollar tip or the waitress might have a heart attack.

A friend of mine, who is well known as a gourmet, has eaten in many of the restaurants listed in the top 25 selection of Playboy. He has also eaten the Bar-B-Que Ribs at Arvey's for \$6.95 as well as their Steak Diane a la Arvey's for \$4.95. He has, in fact, tried all of Arvey's Specials of the Day and finds them equal to and, in many cases, superior to many of the ultra snobbery joints featured in the top 25 by Playboy. Besides, most of you wouldn't like a lot of those snobbery joints because you'd have to wear a 'tie and couldn't read the menu anyway!

As the baseball season winds down, I want to thank all members of the Chicago Cubs for their past and future support. As their prediction of early April come true. At least, the Cubs are consistent for they've made my predictions come true now for 35 years. Next year, however, I see a marked improvement beginning to manifest itself in the Cubs. Therefore, I'm not picking the Cubs in '81 to finish last - but second to last. See you next week... maybe...

Ensemble Theatre's first production

Ensemble Theatre Company, ETC, has cast their first show, "The Company of Wayward Saints" by George Herman. ETC is a new resident theatre company working out of the Old Orchard Country Club in Mt. Prospect. "Wayward Saints" concerns a commedia dell'arte troupe, traveling from town to town with their improvised stage and show. However, the routine of small towns and smaller crowds has dulled the glitter of show biz, as well as the group's ability to work together. Only when their common desire to return home surfaces, do they rediscover their art and begin to play as a company once again.

The play will run Wednesday, Friday and Saturday Sept. 17 to Oct. 11 at the Old Orchard Country Club, 700 W. Rand Road, Mt. Prospect. Tickets are \$4.50 on Wednesdays and \$5 to \$5.50 Friday and Saturdays. Diner/Theatre packages are available from \$12.50 to \$18.50. Curtain is at 8:30. Phone 255-2025 for reservations.

SPORTS NEWS

SJB Girls' Basketball begins new season

Girls' basketball is the nation's, indeed the world's most rapidly growing sport. Basketball for girls combines a blend of excitement, speed, grace and beauty that few sports can duplicate. The quality of girls basketball is rapidly improving at all levels from the grade school to professionals. A number of

authorities believe that girls have the potential to become better shooters than boys if they start playing at the same age and gain the same amount of experience.

The St. John Brebeuf Athletic Board has decided to provide this early experience. This year for the first time, St. John Brebeuf is fielding a 5th grade girls basketball team. Several years ago, SJB introduced a 5th grade boys team. The girls will start their interscholastic competition Saturday, Sept. 13 against St. Paul of the Cross of Park Ridge.

The 6th grade girls will meet Mary, Seat of Wisdom of Park Ridge later that day. Members of the sixth grade SJB team include: Krista Eshoo, Linda Strauss, Cathy Bratek, Kathy Lake, Heidi Krubert, Cathy Romanek, Janet Resopala, Eileen McAuley, Stacie Jakob, Lori Colosi, Jennifer Stevens and Cathy O'Grady. They are coached by Jim Jeckott.

Members of the fifth grade SJB basketball team include: Amy Surace, Annette Weres, Carolyn Kauth, Cathy Betelwaltes, Colleen Whittle, Loreanna Maganelli, Sue O'Shab, Tricia Smith, Beata Kurylo and Kristen Hack. They are coached by John Marusek. He is assisted by SJB alumni Julie Klancik, Mary Jane Marusek, and Barb Wiltgen who help to individualize the basketball instruction and give the team the experience they need to play against the older teams they will face in league competition—other teams in the league will include 5th and 6th grade players. SJB is fielding 2 teams—a 5th grade team and a 6th grade team to enable twice as many girls to enjoy interscholastic basketball.

Fishing Derby
Again this year the Niles Park District will sponsor a Fishing Derby for all Niles residents. The Sports Complex will be stocked with all kinds of fish and awards will be given to the participants who catches the most fish. Proof of residency will be required for admission, which is Free! Participants must supply their own equipment and bait. The dates are set for Saturday Sept. 27, from 7-11 a.m. and on Sunday, Sept. 28 from 7-11 a.m.

Leaning Tower Swim team

Swimmers... take your mark! The Leaning Tower YMCA Swim Team is gearing up for a winning season and lots of fun for swimmers ages 6 thru 18 years. Free tryouts for interested new swim team members begin in September from 4:30-5:30 p.m. with the following schedule: Monday, Sept. 15 (8 yrs. and under); Tuesday, Sept. 16 (9 and 10 yrs.); Wednesday, Sept. 17 (11 and 12 yrs.); and Thursday, Sept. 18 (13 yrs. and over). Coaches for the 1980-81 season are Kathy Schlegel and Pat Browder. They look forward to welcoming back old team members as well as meeting new ones. The swim team experience includes after school practices, with an emphasis on individual swimmers' skill development, endurance, technique and goals as well as the development of group spirit and team comradery. Competitive meets are held from November thru March. The Sept. tryouts will give interested swimmers a chance to meet the coaches, ask questions and talk with some returning swim team members.

Registration for the Swim Team began Aug. 25 and the entire swim team for the 1980-81 season will commence practicing on Sept. 29. For further information call Laurie Guth, 647-8222.

A.B. Dick unveils newest Chicago "Sports" team

Chicago's newest "Sports Team" was unveiled when the A.B. Dick Company announced the sponsorship of the Penske Racing Team and World Champion driver Mario Andretti in the A.B. Dick Pacemaker.

The Penske PC-9 car is named the A.B. Dick Pacemaker and will debut at the Gould Grand Prix 150 at the Michigan International Speedway on Sept. 20, with Andretti at the wheel. The car will also race in the last Championship Auto Racing Teams (CART) event of 1980 in Phoenix this November and compete in the entire PPG IndyCar World Series in 1981, including the Indy 500.

"We feel confident this team will be a winning one," said A.B. Dick president and chief executive officer, Geoffrey R. Cross. "The Penske Racing Team is internationally recognized as one of the most successful competitors on the racing circuit with more than two dozen Indy-car victories, including an unprecedented three consecutive Indy 500 titles," Cross added.

Cross said the exciting sport of

championship racing provides A.B. Dick with the opportunity to support national name recognition while involving customers and employees in a unique sporting activity.

The promotional program will include a special customer and employee "It's a Great Day" package whereby they can visit the pits, see the car and talk and be photographed with the driver and pit crew. Special incentive contests will be used to select 2,000 winners for each of the two 1980 races and will include air fare, hotel room, limousine service and a "winners banquet" preceding the race.

The company has also arranged for a reduced price on tickets for any employee who wants to go to selected races. Race related activities will also be tied in with the company's trade shows, recruiting programs and employee communications efforts. These and other activities are designed to provide a feeling of excitement and pride in the company as the A.B. Dick car speeds around the track.

Stadium lights...

Continued from Skokie-L'wood P.1 celebrations and school-related athletic contests, making it a new and exciting recreational outlet for the entire community.

Donations from the First National Bank of Skokie, the five District 219 villages, a matching-fund grant from the Niles Township Board of Trustees and numerous other donations made the \$60,000 project a reality by the middle of June, 1980.

Three other Niles West varsity football games (Sept. 26, Oct. 17, 31) and two varsity soccer games (Oct. 3, 14) are also scheduled to be played under the Basrak Field lights. Niles North will play its Oct. 24 varsity football game against West Leyden in the lighted stadium as well. Other North contests under the lights are being considered by Viking athletic director George Baptist.

The new lights will be dedicated in a ceremony in conjunction with the Niles West Homecoming activities on Oct. 17.

The facility is available for community use. Interested persons should contact Turry at 966-3800 for information.

Scholarship...

Continued from Skokie-L'wood P.1 years. She is enrolled at Marquette University where she will study physical therapy. Edwin, who participated in track and basketball for four years, played varsity football in his senior year. He is attending the University of Michigan this fall.

Each of the student received \$500 towards their college expenses. Mr. Leon Schlotfrock, Booster Club President, and Mr. George Baptist, Niles North Athletic Director, were also present at the award ceremony.

Carwash...

Continued from Niles-E. Maine P.1 washing of vans but not trucks. The building would be of brick construction with blue aluminum trim. There would be downward pointed lights on the site which would not shine onto adjacent property and would be mounted on 12 ft. poles.

Hirsch, together with his attorney James Marovitz and staff of experts on traffic, real estate, engineering and land planning, told the board the car wash would be a proper business for the site and would not add pollution, noise or litter to the area. He reiterated his intent to cooperate with the village and to be "a good neighbor."

Area resident Bert Daymet, 7342 Carol, told the board of the severe water pressure problems in the apartment buildings during the summer months and he felt a car wash would only compound these problems. He also noted, "We enjoy our backyards on Saturdays and Sundays, and that's when the car wash would be in peak operation."

Lee Struebing, 7313 W. Dempster, asked the board to deny the petition based on the already severe traffic problems in the area and especially with the semi-trailers unloading appliances at ABT Television. "Many times one is unloading and another is straddling the safety island in the middle of the street, making it very difficult for someone to pull out and make a left turn onto Dempster."

Boris Nichiporuk, 7320 W. Carol, stated he had visited National Pride's car wash on Clark and Ridge in Chicago and said "there was exhaust pollution, litter and noise."

The hours of the operation would be from 7 a.m. to 11 p.m. and gates will be installed at the ingress and egress areas to prevent trespassers from entering the property. Hirsch also noted there would be a responsible employee on the premises during the hours the business is open.

The bays would be 15 ft. wide and 26 ft. long with a height of 9 to 10 ft., which would permit the

Mill Run...

Continued from Page 1 van owned by Giacalone and noted a man in the rear covered with blood. When he questioned Giacalone about the man's condition, he became indignant and said his friend didn't need help. He proceeded to swing at Ohlbrish knocking his glasses off. Several officers were needed to restrain him and put him in a squad.

Samuel Rizzo, 31, 904 S. Loomis, the man in the rear of Giacalone's van, is being treated at Lutheran General Hospital for a concussion and abrasions.

Also injured were David Ross, 17, of 4130 Skokiana terr., Skokie.

Skokie Rotary...

Continued from Skokie-L'wood P.1 Enrl Wilke; Sr. Vice Cmdr. - William Currie; 1st Jr. Vice Cmdr. - Norman Friebus; 2nd Jr. Vice Cmdr. - Wilfred McMillan; Sgt. at Arms - Harold Park; Adjutant - John Nixon; and Finance Officer - Edward Casja.

Board of Directors include Edward Farber, John H. Johnson, John Nygard, Ted Toelke, Mark DeGroot, Walter Blair, Jack Nixon and Don Szymanski.

Fun Run...

Continued from Skokie-L'wood P.1 up Oct. 16 or 17 from 2-8 p.m., Oct. 18 from 9-12 noon or from 7-7:30 a.m. on race day.

Two categories to enter will be 6.2 mile run or 3.1 mile run and both courses will be clearly marked on all Skokie streets involved. All participants in the race will be treated to breakfast.

Both males and females of all ages may participate in this Fun Run - age 13 and under, 14-23, 24-35, 36-45, 50 and over.

For more information, call 677-9600, ext. 376, or 674-4400, ext. 41, Monday thru Friday between 8:30 and 4 and watch your local newspapers.

Attorney Marovitz suggested the board visit one of the existing operations in Chicago, Schaumburg or Palatine and judge for themselves as to the efficiency and nature of their operation.

Commissioner Angelo Troiani stated they would like to do this, asked for a traffic breakdown by hours of the operation and sought a continuance to the Oct. 6 meeting. Troiani also asked for a representative of the Niles Police Department to be in attendance at this meeting.

After a 10-minute recess the board heard a petition from the Development Research Corporation, 6225 Touhy ave., for a zoning change from B-1 to R-4 with a 10% variation for condominiums at 6747 W. Touhy ave. Michael Lavin, attorney for the petitioner, and William Mercel, architect for the corporation, explained the proposed 3 story building would consist of 2 units on the first floor with 10 indoor parking spaces, and 4 units each on the second and third floors.

Mercel noted each apartment would be approximately 1,600 sq. ft. and would sell in the \$110,000 range.

Lavin also sought to amend their original petition to incorporate the use of Riverside dr. as a permanent easement for ingress and egress. He stated they preferred to keep it as a dedicated street and would like to have the metal barrier on Riverside removed and trees planted which would make a more 'eye appealing' barrier.

Commissioner Troiani questioned the parking of 5 cars on the property at the present time by Lum's Restaurant. This

From the LEFT HAND

Continued from Page 1 The 4 to 3 vote to close Maine North came amidst much cheering and applause and some bitterness. The vote was not based on where board members lived. East Maine district 63 board members split their vote. Tom Rueckert, from the north end of the district, voted against closing his home school, Maine North. Lynn Warmack of Morton Grove, voted to close Maine North, safeguarding Maine East which is her home school. Park Ridge board member John Flavin opposed closing Maine North while Des Plaines board members Charlotte Storer and Anne Evans turned the tide, voting in tandem to close Maine North.

Park Ridge board members split their vote, one favoring closing North, the other East. Two Des Plaines board members favored closing North and one East Maine member agreed.

While we wanted to make a case the vote was along geographical lines, with all board members from each area favoring their home areas, the contrary took place. All three areas had split votes. Two Des Plainesites favored closing North, one preferred East. Park Ridges split their two votes as did the two East Maine residents on the board. This certainly speaks well for the board. Their own parochial interests safeguarding their school areas were cast away in favor of choosing what they thought was in the best interests of the entire district.

Board watchers might have concluded the vote was made with an eye to the proposed closing of a second school a couple of years from now. Had Maine East been closed it would bring pressure on future boards to close Maine West or Maine South. Closing a perimeter school, Maine North, it is likely either Maine East or Maine South will be the next school closed. Maine West supporters practically insure their school would remain open in the future.

One Park Ridge voted against closing Maine North. If he had his way, Maine East would have been closed and the future fight to close a second school would likely close down Maine West. The Park Ridge Maine South facility would then be chosen to remain open over the Des Plaines West school. By keeping open North and closing East, Maine South would be a more logical school to keep open. But having been defeated Monday night Park Ridges are now in jeopardy of having their school closed by 1984 or 1985.

It is interesting the way the district turns. A longtime gentlemen's (gentlepersons?) agreement between the 3 elementary districts in Maine Township provides they alternate the 7th seat on the school board. Each district has 2 representatives and every 3rd year the alternate district receives the third board seat. But there was a goof-up a couple of years ago and the East Maine District 63 area did not get its entitlement third seat on the high school board. While there was never much of a fuss about it, had East Maine had 3 representatives on the board Monday night it is quite possible a different school might have been closed.

The message should go out here in East Maine to be more vigilant on insisting their area is fairly represented. Unfortunately, the nut faction in the district seems to be the main East Maine group monitoring the high school board's actions. When the 4 to 3 vote was completed Monday night, 75% of the audience pealed out of the auditorium. In the outer lobby by two very vocal young ladies were shouting, "I'm gonna walk, I'm gonna walk!" They were saying they intended to go out and knock on doors and defeat the high school tax increase referendum when it comes up in November. One of the nut faction told us the vote to close Maine North was an anti-semitic vote. She said the board wanted to keep all the Jewish kids in the same school. She and the other shouting lady were part of the same group which so vociferously opposed the closing of schools in District 63 two years ago.

Their irrational behavior helped to cause havoc in District 63. Based on their reactions Monday night it seems they would like to extend their bizarre behavior into muddling up matters in the high school district.

From the LEFT HAND

Continued from Page 1 According to Niles police the brawl began when two men started fighting just before midnight in the parking lot as a sell-out crowd of 1,600 persons were allegedly jumped in to stop the fighting men and was promptly beaten. The rest of his family then joined in and the brawl got out of hand. Others in the crowd became involved in the fight when they were pushed and shoved by some of the combatants.

The Niles Fire Department paramedics transported the injured to Lutheran General Hospital.

According to Lt. Christie, Friday's fracas was the worst since 1971 when several hundred people were involved in a brawl after attending a series of boxing matches at the theatre.

One Park Ridge voted against closing Maine North. If he had his way, Maine East would have been closed and the future fight to close a second school would likely close down Maine West. The Park Ridge Maine South facility would then be chosen to remain open over the Des Plaines West school. By keeping open North and closing East, Maine South would be a more logical school to keep open. But having been defeated Monday night Park Ridges are now in jeopardy of having their school closed by 1984 or 1985.

It is interesting the way the district turns. A longtime gentlemen's (gentlepersons?) agreement between the 3 elementary districts in Maine Township provides they alternate the 7th seat on the school board. Each district has 2 representatives and every 3rd year the alternate district receives the third board seat.
